Aviation Department - Traffic Statistics

JoJo Quayson
Santiago Grullon
Jean Debrosse
Brian Levine

Notes1: The section entitled Air Transport Association Carriers is included to give a comparison between Port Authority Airport traffic growth and aggregate growth as measured by the majority of the U.S. carrier industry.

Note2: The page 2 Access Mode: residents report excludes passengers arriving by hotel courtesy vehicles, helicopters, and the miscellaneous "other" category. The airline OAG summary uses schedules effective for the week in the middle of the month being summarized."Flights (daily) refers to the daily-each-way average flights which can be thought of as 1 directional departing or arriving flights.

Aviation Department
 Following record accomplishments in January and February, the COVID-19 pandemic caused the region's total, domestic and international air passenger activity to sink by more than 50 percent year-over-year in the month of March. Total passenger volume plummeted by 55.2 percent (-6.479 million travelers). The domestic sector led with a 4.322-million passenger drop (-56 percent). International passenger traffic recorded a 53.7 percent slump (-2.157,324 travelers). The COVID-19 crisis also dealt an enormously heavy blow to our region's cargo performance, which has been negative since June 2019. Total cargo traffic recorded a 24.4 percent collapse (-47,892 tons). International cargo activity – accounting for 60 percent of the region's total freight volume – led with a 40,912-ton plunge (-33.1 percent). Domestic freight declined by 9.7 percent (-6,980 tons).
