A message was received from the Governor by the hands of his Secretary, as follows—and was read by the Clerk:

GOVERNOR'S MESSAGE

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
January 14, 1941.

To the Legislature and Citizens of the State:

At the close of this eventful year, and toward the end of my third term as Governor, I am happy to extend my greetings to the people of our State.

This has been a fateful year, bringing suffering, privation and death to the peoples of a great part of the world. In the midst of the carnage, strife and bitterness rampant over most of the earth, we remain at peace, we stand on common ground in our prayer that peace shall continue to

be the guiding star in the destiny of our beloved country. We may yet cherish the hope, I am sure, that sanity may return to the minds of the rulers of aggressor nations, that peace and safety may return to a troubled and disheartened mankind, and that the sunshine of hope may break through the darkened skies that color the war-stricken areas of the Old World.

The events of the year 1940 have aroused all Americans to the blessings of our free institutions. We have witnessed again the renewal of our pledge of loyalty to the American way of life, our reconsecration to the democratic form of government and our rededication to the fundamental principles of democracy—liberty, justice, equality and tolerance. I am proud to advise, as your Governor, that in 1940, by voluntary enlistment and through the channels of our selective service thousands of New Jersey's finest youth have responded to the call to serve their State and Nation, to defend and sustain these principles. Through the patriotic action of these fine young citizens, paralleled by that of the youth of every other State, we serve notice on the enemies of democracy everywhere that this Nation is determined to preserve its democratic form of government and that it will continue to defend its institutions against every aggressor.

The events of recent months have demonstrated once again that the heart of America beats true, as always, in its love of liberty, and that the loyalty and patriotism of American youth is as strong and virile today as at any other period of crisis in our Nation's history. It is heartening to know that that loyalty and that patriotism is the same in 1940 as in the days of the founding fathers in 1776, the same today as it was in the defense of this young Nation in 1812 and 1848, the same today as it was in the struggle for the preservation of the Union in '61, the same today as it was in the defense of the Nation's honor in '98, and yet the same as in the struggle between democracy and dictatorial power in 1917. The youth of America have heard

again the call to duty. Knowing no barriers in the Nation—north, east, south or west—they are rallying to that clarion call in the same manner as those heroic men that have answered that call at other times in the Nation's history and in protection of those American principles which they fought to defend.

To these boys of 1940, we have pledged that their enlistment in the cause of preparedness to safeguard and assure continued peace on this continent will not involve them in the carnage that rages on foreign soil. With vivid recollections of the deeds of gallant Americans in the first World War of 1917, we have assured them that we will stand steadfast against the waging of any war of materialism or aggression on foreign battle-fields. We shall keep that pledge.

To these new defenders of our American faith in 1940, I want to say for myself and for all our people that your service in the defense forces of your country is the contribution your generation is called upon to make to protect the liberties preserved to us from preceding generations, that just as the founding fathers handed down to us this heritage, by your sacrifice and patriotic action you will make sure that your children and your children's children will continue to live the lives of free men, free to follow the peaceful pursuits of life, in happiness and contentment, and to worship Almighty God in accordance with the dictates of their conscience. By your response to this new call to national defense, you have earned the gratitude of the people of your State and Nation; you have stimulated and helped to achieve national unity, and, above all, you have shown that the character and the conscience and the patriotism of Americans are the same today as in every generation of their history.

To the parents, families and friends of these young men, I want to say in this New Year's Greeting that I realize their position in this intensive preparedness program which we are undertaking and that they, as well as those

who enter active service, are making their sacrifices and playing their part in the Nation's destiny. I want to say to them, also, that it is my earnest conviction that the steps our National Government is now taking by way of defense preparations are the surest way to keep war away from the shores of the western hemisphere. The times call for service and sacrifice. I know that our people will give both in fullest measure.

DEFENSE COUNCIL

In order that those of us who remain at home may make our contribution to our defense preparations and aid our sons and daughters in active service, I caused to be organized the New Jersey Defense Council as one of the media through which we may work for the purpose of intensifying our national unity. The New Jersey Defense Council and the subordinate councils throughout the State are made up of citizens selected from every walk of life. The people of our State are indebted to these loyal men and women who have responded to my invitation to serve their State and community in this way. They are giving freely and generously of their own time and talents to our common cause. The spirit which they exemplify helps also to assure us of the perpetuation of our American ideals and our philosophy of government.

The Defense Council will keep itself informed as to the objectives and procedure of the National Defense Council and will serve as the connecting link between community activities and National Government undertakings. It will study the numerous problems involved in national defense as they affect the State and the community; it will seek to co-ordinate and integrate our community and State efforts into the national program; it will serve as a clearing house for information as between local councils, groups and organizations of citizens seeking to contribute their part; it will be in position to advise the Governor and the Legislature as to the methods and procedures by which we may

best co-operate as a State in the far-reaching problems of national defense. I am glad of this last opportunity to express my real appreciation for the splendid spirit manifested by this group of devoted citizens in response to their country's call.

SIGNS OF RECOVERY

In this word of greeting for the New Year, I want to say again that it is my firm belief that the common sense of the average American can always be depended upon to meet the social and political issues, as well as the economic issues, which we must continue to face in these changing times. The natural resources of the State and Nation, our agricultural, mining and industrial development, devotion to our principles of free education and, above all, the indomitable will and spirit of our people to overcome every obstacle is just as strong and firmly entrenched today as it was when the first settlers landed on Plymouth Rock and laid the firm foundations of the America of the past as well as of the America of the present and of the future. This spirit has been demonstrated again in our own State in the record of new industries that have come to us during the period of my present administration.

In 1938, 1939, and to November 15, 1940, 2,940 industrial establishments, employing almost 50,000 people have come to New Jersey. In this same period, 2,016 new factory buildings were constructed at a cost of more than $27,000,000. Expansion and enterprise are on the march. The spirit of the pioneer is not dead in New Jersey or in America. We yet live in a State and Nation of opportunity.

It is especially pleasing to me to record another note of optimism by calling attention to the drop in the rolls of our relief agencies in practically every municipality in the State. Our Employment Bureau of the State's Unemployment Compensation Commission shows that from December, 1938, to November, 1939, 104,605 registrants were placed in remunerative employment, and from December,

1939, to November, 1940, 123,401 unemployed persons were directed to self-supporting jobs for themselves and their dependents.

Our assurance for 1941 is further increased by the records of the State Department of Labor with respect to weekly industrial payrolls. In 1935, 1936 and 1937, the average weekly earnings of industrial workers for the three-year period was $23.82. The records covering 1938, 1939 and 1940 show the average weekly industrial earnings at $26.73, or a 10% additional weekly income to factory workers of the State. The average total weekly payroll for this period shows an increase of 17.2% over that of the preceding three-year period, and the number employed in industrial establishments shows an increase of 7%. This upturn in wages to our industrial workers and the increased number of persons employed in our industrial plants preceding the present intensive defense activities seem ample proof that we have emerged from the depression economy status of the past decade and that we may expect greater extended industrial activity and employment in 1941.

Those conversant with our industrial and wage problems attribute a substantial part of our favorable showing in this respect to the provisions of our New Jersey Minimum Wage Law and its wise application. Order Number One of the State's Minimum Wage Bureau, made mandatory in the laundry industry on July 11, 1938, increased wages in that industry approximately $1,000,000 annually. Order Number Two in light manufacturing occupations was made mandatory July 15, 1940. Order Number Three in the wearing apparel industry was made mandatory July 15, 1940. Order Number Four in the cleaning and dyeing occupations was made mandatory May 6, 1940.

It is conservatively estimated that these orders respecting minimum wages brought an increase in wages of many millions of dollars annually to the workers in these occupations. I am pleased to report that the payment of a fair minimum wage has wide approval of the industries

affected. The various businesses operating in accordance with these orders are now being conducted on a far more equitable competitive basis than heretofore. In addition to the favorable reaction to industry and the benefits that have accrued to the workers, the application of the Minimum Wage Law has tended to decrease the public relief burden. The State Minimum Wage Bureau collected unpaid wages due workers in the amount of $40,859 during the fiscal year ending June 30th, last.

Another optimistic note that may be stressed at this New Year season may be found in the record of our retail department stores. Using as an index basis an average of 100% for retail department store sales in 1928, these sales show an index of 88.38 for the period from October, 1938, to October, 1939, and an index of 101.81 for the period October, 1939, to October, 1940, or an increase of 13.43% over last year.

Private building construction likewise contributes its part toward the favorable picture which our expanding activities in the State present. It is frequently said that private building construction is the actual measure of returning prosperity. The records of the Federal Housing Administration covering the six years from 1935 to 1940, inclusive, show a constantly increasing growth in business done in the State.

Year	*Applications*	*Loans*
1935	4,800	$24,209,281
1936	7,982	38,423,677
1937	7,006	34,116,225
1938	9,956	48,695,880
1939	10,940	54,414,100
1940	12,361	60,366,050

It will be noted that against 4,800 applications, totalling $24,209,281 in loans approved in 1935, 1940 shows 12,361 applications approved for a total of $60,366,050. It should be remembered that these loans are made through private lending institutions, and this increasing volume marks

rather accurately the expanding volume of home construction through private enterprise.

The figures compiled by the New Jersey Board of Tenement House Supervision support the other evidence of returning prosperity which I have presented. In 1939 and 1940, 426 buildings have been converted into tenement houses for 2,130 families, at an estimated cost of $3,570,000. During these same years, plans for 375 new buildings for 7,495 families have been provided, at an estimated cost of $17,511,000.

AGRICULTURE

Notwithstanding the fact that we are a thickly populated and industrial State, agriculture is one of our most important interests. I extend my greetings to the farmers of the State, whose industry and enterprise long since won for us the designation of "The Garden State." Our farm and fruit and dairy products are known throughout the Nation for their quality and excellence. Our State horticulturists have accomplished perhaps the outstanding improvements in this field of the past generation in the development of new varieties of peaches, the famous New Jersey blueberry and the improvement of numerous other fruits, vegetables and farm products. In this important work, affecting our whole farm economy, our scientists have also added to our aesthetic pleasure in the improvements made in the culture of roses and other flowers. Agriculture remains a hundred-million-dollar industry, as the following tables indicate.

INCOME OF NEW JERSEY FARMERS, 1934-1939

Year	*Cash Income*	*Gross Income*
1939	$100,023,000.00	$105,848,000.00

The prosperity of the New Jersey farmer is far above the average for the Nation. Both acreage and crop production per acre have increased, and the price for agricultural products to the farmer has increased steadily in recent years.

Our dairy industry continues to grow in value and importance. The New Jersey Milk Control Board has made an important contribution to the stabilization of the industry and to its increasing volume. Frankness requires me to point out that our poultry industry, while of great volume, has remained static during the past six years. The records show that we market approximately 56,000,000 dozen eggs and 8,000,000 chickens annually, representing a farm value of about $23,000,000 per annum. As in our other farm undertakings, there is yet room for improvement in the poultry industry, since we have the world's best and largest markets at our door.

EDUCATION

The foundations of our American way of life were laid upon the principle that the citizens of a democracy must be informed and educated. Education for all of our people as a public undertaking has remained the bulwark of our democratic institutions and the hope of the future. New Jersey has remained true to our faith in education, and our educational facilities have kept pace with the needs of our constantly growing population.

As I offer my greetings and congratulations to the men and women who are devoting their lives to the cause of education, I recall the site of the first school-house erected in our State in 1668. It was located on what is now Vroom street in Jersey City. That site is yet dedicated to the cause of public education; Jersey City School Number Eleven is located there. In that year, the Colonial Governor appointed Englebert Stierhuysen as the first teacher in that school and in the State and at the same time licensed him to teach. What a contrast that primitive school-house and our present educational system in this State present! And from the early beginnings of this one-room school and others like it scattered along this seaboard, what a vast system of public schools manned by a million teachers is presented in our public educational undertakings throughout the Nation.

When the schools of the country assembled in September, 1940, it is estimated that 21,550,000 enrolled in our elementary schools; 7,160,000 in our high schools; 1,950,000 in our evening schools; 50,000 in our trade and other industrial schools; 75,000 in nurses' training schools, and 1,425,000 in colleges and universities. Truly the American educational system stands alone as a monument to the faith of the American people.

Now, as in other periods of change, we are in the midst of revamping our educational system to better meet the needs of the years ahead. Education in the industrial arts is becoming the important factor in our educational philosophy and practice. Many educators are coming to believe that major emphasis on vocational training is, in part at least, the answer to the unemployment problems among the youth of the Nation. I am gratified to know that our State Department of Education is making valuable contributions to our defense program through the rapid extension of vocational training as preparation for machine and other industrial workers now required in our State industries not only for our extraordinary defense program but also for our changing needs in our economic life.

HEALTH

In addition to these material gains in which we take satisfaction, our people have been blessed with good health generally and free from serious epidemics throughout the year. It is with real gratification that I call attention to the following official records of the State Department of Health:

1. The death rate in New Jersey in 1915 was 13.7; in 1938, 9.9.
2. The total death rate, and the death rate from specific preventable causes, compares favorably with all States of the union having comparable conditions, many of which expend for health purposes a considerably larger sum per capita than is allotted to the New Jersey Department of Health.
3. Between 1915 and 1938, the case rate from diphtheria was reduced 95%; the death rate 96%.
4. Between 1915 and 1938, the case rate from typhoid fever was reduced 91%; the death rate 1.958.
5. No case of smallpox has occurred in New Jersey during the last nine years.
6. The infant mortality rate between 1915 and 1938 has been reduced from 106.4 to 39.3.
7. The maternal mortality rate between 1915 and 1938 has been reduced from 5.8 to 3.3.
8. The adulteration of milk with water and with preservatives, which was common in 1915, has become negligible.
9. In 1915, approximately 40% of the milk supply was pasteurized. This has now been increased to over 92%.
10. There has been a steady and marked improvement in the sanitation of food establishments in New Jersey since 1915.
11. For over a decade and a half no epidemic of water-borne disease has been traced to public potable water supplies operating in accordance with recommendations and orders of the department.
12. In the matter of treatment of sewage, a recent inventory just released by one of the engineering journals shows that New Jersey ranks third in the total number of people served by treatment works.

To the medical profession, hospitals, scientists, laboratory technicians, to our State and municipal health departments, to our engineering authorities and to all who have

had a part in establishing this record, I offer my congratulations and my thanks.

PROGRESS IN GOVERNMENT

In my Second Annual Message a year ago, I called attention to the fact that while I was able to report substantial progress in every important activity of the State Government and in public living, none of our major problems had been solved. I pointed out the further fact that government is a changing, growing thing and that assurance of effective and honest administration is a matter of constant watchfulness and effort.

It is not my prerogative to make a further detailed analysis of the existing major problems nor to offer specific proposals for their further solution. I am pleased to report, however, further and encouraging progress along the long and difficult road toward adequate government for all our people within the means at our disposal.

Through a series of laws designed to correct and strengthen municipal credit, to encourage prudent municipal living and to provide essential relief for the weak and unfortunate among us, our municipal governments are definitely stronger and in better financial position than they were a year ago, as the report of the Department of Local Governments just issued clearly shows.

I am especially pleased to record substantial progress in the reduction of the State's bonded debt. When I took office three years ago, our gross State debt was $169,355,000. The following figures show the changes between that date and January 2, 1941:

Gross Debt at January 2, 1938		$169,355,000.00
New Issues		
1-31-39 Highway Improvement Bonds	$2,000,000.00	
12-19-39 Unemployment Relief Bonds, Series A	10,500,000.00	
4-23-40 Unemployment Relief Bonds, Series B	10,500,000.00	
		23,000,000.00
Total		$192,355,000.00

Debt Retired		
1-2-38—1-1-40	$29,370,000.00	
1-2-40—1-1-41	22,285,000.00	
		$51,655,000.00
Gross Debt at January 2, 1941		$140,700,000.00
The net reduction in the Gross Debt during the three-year period amounts to		28,655,000 00

Our present Gross State Debt is made up as follows:	
Roads and Bridges Bonds	$44,000,000 00
Highway Extension Bonds	13,000,000.00
Soldiers' Bonus Bonds	12,000,000 00
Unemployment Relief Bonds	21,000,000.00
Highway Improvement Bonds	34,500,000.00
Institutional Construction Bonds	8,950,000.00
Educational Aid Bonds	1,000,000 00
Emergency Relief Bonds	6,250,000 00
	$140,700,000.00

The State Treasurer has just reported that the State's actual net debt is approximately $50,000,000.

Under our present maturity and amortization schedules, the State debt will continue to decrease rapidly in the next few years, thus freeing substantial amounts now required for debt service for other necessary expenditure. We are headed in the right direction, and we are making real progress.

THE GOVERNOR-ELECT

I congratulate the people of New Jersey in having selected as their next Governor one who, I know, when his term expires will be recorded as one of New Jersey's outstanding Governors.

Governor-elect Edison is fully conversant with the problems that confront industry in this era of social, technological and business change. He has a sympathetic understanding of the aims and aspirations of those who toil for a livelihood. He well realizes the necessity for relieving the taxpayers of the State from the obligation of carrying un-

fair and inequitable tax burdens. He comes to us earnest in purpose, sincere in his convictions and proficient in his knowledge of the State's general needs. His experience as a member of the President's Cabinet at a critical time in our history qualifies him beyond question to co-ordinate and correlate a State defense program with our national objectives.

I bespeak for Governor-elect Edison that kind and constructive co-operation that the citizens of our State have extended to me, and it is my earnest hope, in the interest of State and national unity, and for the public good, that the members of the Legislature will permit him that freedom in the selection of his cabinet that the electorate anticipated when they expressed their choice in the recent election. My experience as Governor warrants the statement that the people of New Jersey will hold the Governor responsible for the administrative conduct of the State's business. For this reason, if for no other, the citizens of the State will expect and require that his authority to name commissioners, department heads and executive officers in accordance with our long-established custom shall not be violated.

Regardless of partisanship, the people of the State have confidence in Governor-elect Edison. I am convinced that his single purpose will be to serve all the people to the end that our State and our Nation shall stand strong and unimpaired amid the falling dynasties of the world.

A LAST WORD

My term as Governor runs to its close. After long and continuous public service I return to the rank of an unofficial citizen. As God gave me vision, I have endeavored to serve earnestly and faithfully. In the recent years of stress and strain, that service has not always been easy. I have given, however, the best that was in me in all of the public acts presented for my decision, and I have the satisfaction of conscience that no human could do more.

I cannot withhold a final word of earnest and sincere thanks to the people of my State for the honors which they have so generously bestowed upon me by electing me as their Governor for three terms and as their representative in the Senate of the United States. I want also to express the same appreciation to all those who have served and are serving in the Senate and the Assembly for the co-operation and courtesies which they have extended to me during the nine years I have occupied the Governor's office.

To the judiciary of the State, department heads, members of State boards and commissions, to those who have served on my military staff and to the loyal and faithful employees of the State, I extend my last official greetings and my thanks for their advice, assistance and co-operation, which has added so much to the cause of efficiency in the conduct of our State government.

To my friends and neighbors of my own city of Jersey City, whom I was privileged to serve as a member of the City Commission, I express especially my heartfelt thanks for their loyalty and confidence and support through all the years of my public service.

As the curtain falls, I have only gratitude in my heart for the opportunity permitted me to serve my fellowmen in the high places of honor and responsibility for which they have chosen me. I shall never doubt the loyalty, the patriotism and the capacity of our people both in the State and in the Nation. I shall not cease to pray that our democracy and our free institutions shall endure when puny dictators who seek to turn back the pages of history a thousand years are forgotten.

Hail and farewell!

January 11, 1941.

Honorable Roscoe P. McClave,
Speaker, the House of Assembly of New Jersey,
Trenton, N. J.

My dear Mr. Speaker—During the past week I have been advised that there may be some question regarding my eligibility as a member of the House of Assembly while serving as Deputy Director of the Bergen County Welfare Board.

Although a very small proportion of my salary as Deputy Director is derived from the Federal Government, I find that in view of a possibility that the Hatch Act will be given strictest possible interpretation, I should delay

taking oath of office as a member of the Assembly until there has been a final determination of my status.

I am sure you will appreciate that it is my sincere desire to comply with the letter and spirit of the Federal law.

Sincerely yours,
(Signed) MARY MACG. SMITH.

A message was received from the Governor by the hands of his Secretary as follows—and was read by the Clerk:

GOVERNOR'S INAUGURAL ADDRESS

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
January 21, 1941.

Members of the Legislature, My Fellow Citizens:

In appearing today, to take the oath of office as Governor of my native State, I am deeply conscious of the public trust that my fellow citizens have placed in me for the dangerous years that lie ahead of us all. The members of the Legislature, I know, are also conscious of this trust.

Although we cannot tell what the next three years may bring, we can be certain that the institution of self-government will pass through its greatest crisis of the last three hundred years. We have seen too many democratic countries overwhelmed by external force to feel ourselves safe in a lawless world; we have seen too many nations collapse from internal treachery to view our own situation with complacency.

Lest we lose our own rights, we must have a renewed determination to govern ourselves so well that we shall never be ruled by a despot. The degree of interest displayed in the recent political campaign showed how conscious Americans are of the privileges that go with self-government. The campaign was as intense as any since the Civil War, yet, out of that heat, the nation has fused a steel-hard core of determination to defend its freedom. I know that we can now turn to our National and our State problems, not as Republicans and Democrats, but as Americans, united to serve our country.

In this initial address to you members of the Legislature, I propose to keep at a minimum my recommendations for new legislation. Rather, I desire to lay emphasis on the way I want to see the State perform its tasks under existing laws even more than upon what new laws need to be enacted.

I shall reserve for later expression topics such as agriculture, education, highways and other matters upon which I have received urgent representations to speak today. I may say, however, that I reaffirm all of my campaign pledges. Conscious of our many problems, I seek today to lay a foundation for our public policy.

My fundamental purpose is to devote my term of office to raising the standards of public service in New Jersey. I want to say here and now that I will demand unshakable integrity of every State employee.

I can assure the Legislature that the Executive Department will seek to co-operate with it in the advancement of the public interest. Let the relations between us in the Executive Department and you in the law-making branch of government be based upon the principle of promoting the common good.

We all know that heavy demands are made upon each one of us to play politics. We know, also, that delay and obstruction of proper governmental action is the only certain result when that game is started. I am confident that this Legislature will rise above partisan bickering—*especially* after the public promises its members made last Fall—and that it will demonstrate a high capacity for civic service.

As the first concern of all of us in these times must be to defend our country, it is desirable for me to refer at the outset to certain steps connected with defense production that the Legislature should take at once. We will have further opportunities to co-operate with the Federal defense efforts, and I will inform the Legislature as the needs arise.

The managers and workers of New Jersey's industries have been entrusted by the Federal Government with defense production amounting to more than one billion, two hundred million dollars—the largest total assigned to any State in the Union. To protect this vast and vital project, I urge the Legislature to adjust our laws substantially in accord with the legislative program drafted by the Federal-State Conference on Law Enforcement Problems of National Defense.

The Conference proposes that the States pass uniform laws to cover the prevention of sabotage; to regulate the use, possession, and sale of explosives; to authorize the appointment of special policemen to protect public property; to set up a State Guard; and to regulate the Guard's functions.

Bills carrying out these recommendations will be introduced. It appears important to note that the prevention and punishment of sabotage under the Constitution of the United States is, in peacetime, a State and not a Federal function. Saboteurs, under present State laws, may be charged only with malicious mischief for activities resulting in stoppage of production but not in loss of life or property.

Caution should be observed in preparing this legislation. We must all be alert lest any provisions conflict with the rights of labor. There is nothing in the nature of our situation that calls for imperilling those rights. There is everything in our need for unity that calls for protecting those rights.

Whenever I discuss our need for unity I invariably find my thinking proceeds to consideration of labor legislation. I consider that in such a time as this we should be eager to take every necessary step to insure that all our citizens have cause to work together with mutual respect.

In the recent campaign I advanced a program for supplementing the labor law of our State by statutes that

would bring it abreast of the best American legislation of today. I meant it when I said it as a candidate. I mean it when I say it as Governor.

Now, I want to recommend for the prompt consideration of the Legislature the following measures to carry out that program:

First, the power of the Court of Chancery to issue ex-parte injunctions in labor disputes should be sharply curtailed. Anti-injunction bills have, for I know not how many years, been annually introduced; the time has come to pass the legislation.

The Federal law, known as the Norris-LaGuardia Act, which curbs the power of Federal courts to issue injunctions in labor disputes, has been almost universally approved. At least seventeen States, including nearly all of the other important industrial States, have in recent years passed similar State laws. So far as I know, not one State has repealed an anti-injunction act. There seems to be no evidence that they have not been satisfactory.

Second, the rights guaranteed to workers in interstate commerce by Federal law should be similarly guaranteed by New Jersey law to workers in intrastate commerce. Our neighboring States have such statutes which seem to work satisfactorily. This proposal has been considered here for several years. I see no reason why we should wait longer.

Third, the Federal Wages and Hours Law should be supplemented by a similar State statute. Our present law, covering only women and children, is inadequate.

Fourth, the Legislature should set up adequate machinery for the administration and enforcement of these laws. The State Labor Department should be provided with sufficient funds to enforce existing statutes.

Fifth, our present social security law should be liberalized and should be extended to workers not now covered by

its provisions. It is my belief also that our State old-age assistance should be increased.

Sixth, the public responsibility for citizens unable to work or unable to find work must be continued. The public conscience will not permit a return to those days when the unemployed were left in dire need unaided by the State.

The number of persons on relief appears to be declining constantly. While we cannot see forward to the time when there will be no one in need of public assistance, we can expect the financial burden upon the State and upon the localities to decrease, at least for the immediate future.

Seventh, labor must be represented in the administration of the acts that govern it, and in other phases of the State Government.

New Jersey is an industrial commonwealth, and all measures that tend to keep industry functioning smoothly contribute to the general prosperity. As one who has been in business, I look upon the proposed labor program, approved in whole or in part by both parties in the recent campaign, as being of first importance to employer as well as employee. I am sure that progressive businessmen will agree with me.

I am conscious that there are some men in business who are inclined to fear that any labor legislation is, to use that overly inclusive phrase, against business. Let us all give these proposals a fair trial. I am confident that the test of time will show them to promote the general welfare.

The State Government must not forget to encourage legitimate business by every reasonable means. It should seek to encourage industries to locate in our State. I will do my part to attain these ends.

A concrete thing that can be said in this connection is that no new or additional taxes appear to be called for. We should be able to carry on the present tasks of the State and of the local governments on the income now provided.

Moreover, I shall exert every effort to reduce public expenses. The Legislature should do likewise. I extend the call for similar action to all public officials in the State and local governments.

All of us should keep in mind that State and local expenses are too high. We face increased Federal taxes made necessary and inevitable by the defense program. The taxpayers do not call upon us to cut into the essential services or the humane assistance of the State. But we are under every obligation not to waste a single dollar.

I come now to a topic that I almost fear to broach in this old capital city lest the wandering echoes of thousands of speeches made here on the subject should tumble upon us in an avalanche. That is the dear, old issue of election reform.

The present election statute is an appalling jumble. In view of our pledges, we public officials can never again go before the people merely promising election reform. The time for promises has passed. An enormous amount of time has been consumed in discussion, and a vast amount of experience and data is presently available. Of course, it is a lot to ask some of our legislators to give up the election issue. But the people want reform now.

To meet with my approval any measure should set up uniform requirements for registration throughout the State. I can see no logical justification for the treatment of different localities in different ways. Evidence brought out last year indicated that election frauds existed in rural as well as in urban communities. We must have a law which cleans up this sordid mess in all areas.

The need for reliable registration rolls seems so important to me that I believe the Legislature should first provide for the registration anew of all voters in New Jersey. To dispel any suspicion of fraud, we should start with a clean list.

This registration should be conducted over a period sufficiently long so that voters would be given every reasonable opportunity to get on the rolls. The sole method of registering should be by personal appearance and signature.

Each four years, preferably in the Presidential year when the largest number of people choose to go to the polls, a re-registration of all voters should take place.

During the intervening years between each of these quadrennial personal registrations, the voters in every part of the State should be carried on their local registry rolls in the manner of the present permanent registration system. This proviso should be added: That voters would be permitted to retain their listing only when they voted each year.

My reason for this limitation is that voters would thus be given an additional incentive to vote. There is no need to provide the convenience of a carry-over registration for voters who do not exercise their balloting privilege each year. Registration facilities of course should be provided each year for new voters and for those who let their registration lapse.

I have proposed a re-registration of all voters by personal signature, a quadrennial repetition of this practice, and carry-over listing of all voters between times as long as they annually use their ballots. I offer this as a way to retain and uniformly extend much of the convenient factor of permanent registration without permitting the rolls to attain the overstuffed character that seems inevitable under the present registration system.

The only alternative that I see if this correction is not made in the permanent registration system is a change to uniform, annual personal registration.

In application of either of the registration proposals here given, the law against voters registering and voting at the same time should be strictly enforced.

The Legislature should clear up the conflict of statutes on recount and fraud proceedings so that the remedy would be clear and economical.

The present administration of the election law is needlessly expensive to some localities. Any revision should correct the injustices. The use of voting machines should be uniformly optional.

The Legislature should provide that the governing body of every municipality having a population of 25,000 and over shall call for a referendum by the people at the next general election on the adoption of voting machines.

The election act should have stringent, clearly defined and easily enforceable penalties for violation of the law. The act should be fair and nonpartisan; it should apply justly to all citizens and to all localities.

Some may challenge that this program causes registration difficulties for certain classes of voters. The inconvenience caused by this new system of registration should seem relatively inconsequential to those primarily interested in the elimination of voting frauds.

We all understand that no law that could be drawn will prevent frauds if election officials and law enforcement agencies fail in their obligations. Yet we should devote our primary attention to devising a law providing equitable treatment to all parts of the State. At the same time we should bend our energies to getting honest, capable administrators for the law.

There are fundamental troubles with New Jersey's governmental system which I discussed during the campaign. I said then that a constitutional convention was needed to cure many of these troubles. Last week, my opponent in the recent campaign showed that he too recognized the need for this remedy. I think the introduction of his bill for a constitutional convention was very timely.

Of course, to my way of thinking there are certain questionable features about the provisions of that bill. I certainly do not approve of wasting State, county and municipal funds on a special election, which would probably cost the taxpayers another half-million dollars. After almost one hundred years under the present Constitution, I think we might wait for selection of convention delegates until the next general election.

Then there is question about the wisdom of choosing delegates selected on the same basis as the present legislative apportionment. A criticism that may be fairly made about the upper house of our Legislature is that it constitutes a law-making body in which acres are represented rather than people. It might be that at the convention the acres would outvote the people. That has happened at times, I am told, in the Senate.

You legislators are aware of the reasons why revamping of the State Constitution is needed.

We have more than four-score independent, or semi-independent State agencies, some with their own incomes and budgets, some which are little governments on their own.

No one, therefore, can say just what the government of New Jersey costs. No one can get a complete picture of what is going on.

The Governor should be given effective control over this administrative conglomeration. The eighty agencies should be consolidated into no more than twenty and a Governor's cabinet drawn from their executives.

A veto power that amounts to something should be given to the Governor. He is the one State official elected by all of the citizens and should have power to stop faulty, partisan or sectional legislation.

The Governor's term should be changed to four years and the elections should be held in years other than Presi-

dential election ones to avoid confusion of National and State issues.

The existing representative inequality that permits a majority of the Senate to be formed from the representatives of fifteen per cent of the people should be eradicated. If the two-house Legislature be retained, which is a debatable question, the term of Senators should be lengthened to four years. The term of Assemblymen should be two years.

A new Constitution should be more amendable.

The needlessly confusing system of courts should be altered to produce an arrangement that would be simple, responsible and less costly.

I wish to emphasize the last point—until the old Constitution is properly revised there is little likelihood of attaining any real, solid economy in the State Government. Under a properly modernized Constitution, I believe your Governor could save the people millions of dollars each year.

One weakness of the governmental structure should be corrected, I believe, without waiting upon the lengthy processes of a convention. I recommend that the Legislature clarify and strengthen the Governor's powers to permit him or persons appointed by him to investigate the management and affairs of any board, bureau, commission, or department.

Such power will be of little value unless the Governor is also given powers enabling him to take suitable action when evidence reveals mismanagement, inefficiency, dishonesty or betrayal of the public trust. Here again, the signs of bipartisan interest in such a measure makes me hopeful that legislation can be enacted in a comparatively short time.

These are all the suggestions for legislation I wish to propose today. I have indicated the importance I attach to these proposals. Yet there is this to be added: New

laws are not going to cure all of New Jersey's troubles, nor are any new laws needed to remedy certain causes of deep dissatisfaction among many of our citizens.

I said that I intended to discuss the manner in which the tasks of the State's Government are performed. I would like to begin by commenting on the administration of justice in New Jersey.

There was a time when the decisions of our courts were widely quoted, and they set precedents that were always respected and often followed by the courts of other States. We had a long procession of extraordinarily able and learned judges who left their impression not only upon our law but also upon the law everywhere in the United States.

We have today many men of such character and capacity in our courts. They should be reappointed when their terms expire. Where we do not have such men, lawyers with these high qualifications must be sought out and persuaded to leave their private practices to serve the State.

We may as well face the fact that, in spite of many excellent contemporary jurists, the "Jersey Justice" of which we are so proud is beginning to take on a new meaning, a meaning that none of us can view with approval.

No one needs to be a lawyer to sense the change. Lawyers and judges for whose character and judgment I have great respect have discussed it with me. That fine, old phrase, "Jersey Justice," has come to denote to many people a peculiar admixture of justice and politics in an extremely confusing system of courts.

So far as the power to appoint members of the judiciary resides in me, I shall endeavor to appoint only men of the highest legal ability and reputation. For the good of our democracy the people must have unimpaired confidence in the sanctity of the courts and in the impartial administration of justice.

Another dissatisfaction that many citizens have with our State Government centers around the reports heard from time to time that there are those directly or indirectly concerned with the State's affairs who seem to have a remarkably lucrative sort of luck. To put it in plain American words, the people suspect that there is a good deal of "gravy" to be had at Trenton.

Now, we all understand that suspicions and rumors often grow from jealousy. Yet there have been cases where the public could not be blamed for being suspicious. I shall expect all of our State officials to conduct their departments in the next three years so that there can be no cause for such reports. I intend to dig into any well-founded reports of that nature.

I wish to interject something about my philosophy of government. It bears on how well we run the government here in Trenton for the next three years, and I would like the public to think it over as well as the legislators.

In recent years, the Federal Government has quite properly taken over the task of dealing with numerous problems that formerly were left to the care of the States. Some of these problems had to be tackled by the Federal Government because they had attained a magnitude, attendant on the interstate development of social and commercial questions, which could only be met by national action. Other problems, however, had to be taken in hand by the Federal Government because public opinion despaired of the handling they were being given by the States.

Many people, including influential residents of New Jersey, have expressed disapproval of the trend toward centralized government. It might be added that similar views have been expressed in my hearing by influential members of the present Federal Administration. I, too, hold the view that it would be better for the States to deal with all problems they can effectively handle.

It is a simple enough rule, in running either a government or a business, that the larger and more complex a department the harder it is for the executive to attain effective results. Divide a problem, if it be the kind that lends itself to division, and the executive can give more of his skill to each phase of his work.

I am sure that when a problem can be dealt with in the neighborhood where it exists, government can do a better job on that problem and the citizens who are involved can more readily keep the government informed on the success of its efforts.

Now, when I say a localized governmental agency *can* do a better job I do not mean that it always will. I want to emphasize that the Federal Government has taken over some of its present activities because the States had generally failed to do those things for themselves.

Public opinion quite naturally presses for Federal action on a problem when the States prove inadequate. Yet that process keeps piling new problems and more complexities onto the Federal Administration all the time.

I say to you legislators and to all citizens of the State—especially to those who have voiced alarm at what I consider the most necessary concentrations of authority in Washington—that the better we are able to conduct our government in Trenton the fewer of our problems will have to be handled by the Federal Government. Let us do our job in New Jersey.

I have left my business affairs and gone into government because I realize that personal effort by individual citizens is what shapes the form of government and determines the success of its operation. This certainly is a time when we all owe to our country and ourselves the duty of making this representative government of ours work even better. The price of failure in the present warring world can be the loss of our liberties.

I shall have to call upon numerous men and women to give their capacities to the service of this State. Our basic reliance in accomplishing the work entrusted to us by the citizens must rest upon the capacity and honor of State officials and employees. Therefore, I ask you legislators to co-operate with me in placing honorable and capable men and women in the judicial positions and managerial posts of our State activities.

If all of us do our jobs in maintaining a high standard of government personnel, we will have taken the primary step toward discharging our responsibility to our fellow Jerseyans. Then, with the help of the public and the beneficence of God, we should be able to go on in these coming three years to cope with our own problems in New Jersey and to throw our unified strength against the difficulties confronting all of the United States.

Governor.

But the aggregate tax on real property, for all purposes, shall not exceed two per centum (2%); *provided,* that a rate in excess of this limitation may be assessed in any municipality or any political subdivision constituting a separate taxing district, if consent to the proposed increase shall have been granted by the Local Government Board of this State, after inquiry shall have been duly made by it to ascertain the necessity therefor, and if thereafter the proposal shall have been approved by a majority of the electors voting thereon in the taxing district affected; *provided, further,* that during each of the three years between and including one thousand nine hundred and forty-three and one thousand nine hundred and forty-five, the aggregate tax on real property, for all purposes, may be in excess of this limitation, but shall not exceed three per centum (3%) unless authority therefor shall have been granted by the Local Government Board of this State, after inquiry shall have been made by it to ascertain the necessity for such increase.

ASSEMBLY RESOLUTION—May 6, 1940.

WHEREAS, The Banking and Insurance Commissioner for the State of New Jersey has taken over under his control a number of building and loan associations throughout the State of New Jersey; therefore

BE IT RESOLVED, That the Speaker hereby appoint a special committee of five members to ascertain the occasion for such action and the possible effect upon the assets of these associations by reason of the action of the Department of Banking and Insurance, and also any other information that will enable the House of Assembly to determine what action, if any, should be taken to safeguard the interest of shareholders of these and the other building and loan associations of the State.

ASSEMBLY RESOLUTION—June 3, 1940.

AN ASSEMBLY RESOLUTION providing for the appointment of a committee to investigate the procedure and administration of building and loan associations of this State and all matters related thereto for the purpose of recommending such changes as will be beneficial to the shareholders.

BE IT RESOLVED *by the General Assembly of the State of New Jersey:*

1. It shall have power to administer oath, to examine witnesses and to determine its own procedure.

4 The said committee shall make its report and recommendation to the present or succeeding Legislature.

5. This resolution shall take effect immediately.

STATEMENT

The purpose of this resolution is set forth in the title.

Report

In accordance with the intention of the resolutions creating it, the Assembly Committee has made the inquiry and investigation authorized concerning building and loan associations of this State and respectfully submits the following report.

Purpose:

The purpose of the inquiry under the first resolution was to ascertain the occasion for the taking over of 46 building and loan associations of the State by the Commissioner of Banking and Insurance and the possible affect upon these associations.

The purpose of the investigation authorized by the second resolution was to examine the procedure and administration of building and loan associations of this State to determine what changes could be recommended which would be beneficial to the shareholders.

Meetings and Hearings:

Meetings of committee—Various.

Conferences with Banking and Insurance Commissioner—May 13, 1940, and July 15, 1940.

Public Hearings—July 8, 1940, and October 4, 1940.

General Statement

The committee has proceeded carefully so as not to disturb the public confidence in the building and loan associations of our State.

Conference was had with the Commissioner of Banking and Insurance on Monday, May 13, 1940, to learn directly of the circumstances in connection with the taking over by him of 46 building and loan associations of the State. It was disclosed that while correspondence had been had with certain of the associations concerning their future course, no specific notice had been given that they would be taken over. The department went in and took over the records.

This action, in view of the seriousness attached to financial affairs, is considered too drastic to be the best approach to a solution of the difficulties in which some building and loan associations find themselves. Proper action, after a hearing and discussion with the officers and board of directors, would have been more advisable. This would have afforded the opportunity of preparing properly and deliberately for the transition from their present status to that of liquidating or reorganizing associations. The suddenness of the action in taking over the associations left the associations' operations, certain of which must necessarily continue, in suspense as to who would take care of such matters as rent collections and payments on mortgages.

Copies of the last financial statements of the 46 associations taken over were requested from the commissioner. An examination of the same disclosed the fact that, while most of the associations were delinquent, there were several which might have been allowed to continue operations without impairing the investments of the shareholders. The discontinuance of their operations could only result in a loss of public confidence which would make it impossible for them to resume operations.

In addition to the 46 associations taken over on May 1, 1940, it was found that the State Department was managing 41 other associations, a number of which had been in their charge for six or seven years. Many of these had come under the care of the present commissioner from his predecessor and were in poor condition. No dividend had been paid in many cases since the department had been in control. A study was made of the financial statements of these associations for the years ended April 30, 1939, and April 30, 1940, and in some cases it disclosed a sizable amount of cash in bank. In the conference with the commissioner on July 15, 1940, he stated that dividends would be paid in the case of twenty-three of the State-managed associations very soon. The committee will continue to press for the payment of dividends wherever possible.

The committee has held two public hearings in an effort to hear the complaints and recommendations of shareholders or officials of building and loan associations. The stenotype notes taken at these hearings are attached hereto. The following conclusions have developed from the hearings held, committee meetings and briefs submitted:

The committee favors the bill known as Committee Substitute for Assembly Bill No. 473 passed by the Assembly in July and now held up in the Senate. This bill provides that in the case of associations taken over the commissioner shall have the shareholders decide as to whether the commissioner or their own representatives shall liquidate, reorganize or merge such associations. This would relieve the commissioner of managing associations in difficulty and confine his duties more to supervision and audit. This is deemed more advisable for the commissioner can devote his time to a closer scrutiny of the administration of the associations and he can work in conjunction with the Court of Chancery to protect the interests of shareholders.

The taking over of associations for permanent management by the State should be discouraged. The affairs of the association would then be left in the hands of local men and in local areas. The State could direct its time and energies to regulation, supervision and audit.

In the case of State-managed associations, many of which have been administered by the department for 6 or 7 years, action should be taken to expedite liquidation and the payment of dividends to shareholders.

It is essential that meetings of shareholders to consider liquidation, merger or reorganization be regulated and supervised and that the qualifications of trustees be examined in order that shareholders' interests be safeguarded.

Certain new regulations in connection with practices of building and loan associations, both those operating normally and those in financial difficulties, are deemed advisable and these are set forth in the recommendations attached hereto.

RECOMMENDATIONS CONTAINED IN THE REPORT OF THE ASSEMBLY COMMITTEE APPOINTED TO INVESTIGATE THE PROCEDURE AND ADMINISTRATION OF BUILDING AND LOAN ASSOCIATIONS OF THIS STATE.

RECOMMENDATIONS

I. No building and loan association should be taken over by the Banking and Insurance Commissioner without proper hearing being afforded to the officials and directors of such association.

The Banking and Insurance Commissioner shall be given the power to recommend liquidation to an association after proper hearing and upon failure of the association to adopt the recommendation, application is to be made by the commissioner to the Court of Chancery for an order requiring liquidation. If the court holds that liquidation is proper, shareholders shall elect trustees and if they decline the court shall appoint trustees.

II. Where the Commissioner of Banking and Insurance has taken over or shall take over an association he shall be required to submit the question to the shareholders whether they wish him or their own elected representatives to liquidate or reorganize the association. (Assembly Bill No. 473.)

III. Statements of profit and loss furnished shareholders shall show salaries, directors' fees and other administration expenses in sufficient detail to be in accordance with good accounting and so as to furnish adequate information. This shall apply to all associations whether operating normally or being administered by trustees.

In the case of State-managed associations the commissioner shall have prepared annually and send to each shareholder a statement of assets and liabilities and operating income and expense in such detail as to furnish the shareholder with adequate information.

IV. It shall be a misdemeanor for any official of a building and loan association to wilfully issue a false financial statement of the association's condition or misrepresent in writing investment of the association to be safe, knowing the facts to be otherwise.

V. Officers of building and loan associations shall be required to have and regularly pay in on a minimum of five shares or be an investor in paid-up shares in an amount not less than $500.00.

VI. Any building and loan association which has been in default as to payment of matured shares for a period of six months or more shall be prohibited from soliciting or taking new shares. This prohibition shall not extend, however, to associations in the course of reorganizing.

VII. Associations in sound financial condition shall be permitted, with the approval of the commissioner, to buy good mortgages of associations in need of funds.

GENERAL RECOMMENDATIONS

State department management of building and loan associations, which in part means going into real estate business and transferring operations from local control, should be discouraged and the department shall confine itself so far as possible to regulation, supervision and audit.

The Department of Banking and Insurance shall exert every effort to reduce the costs of audit made by it of the associations of the State.

The Department of Banking and Insurance shall approve the by-laws as well as the constitutions of building and loan associations.

The Department of Banking and Insurance shall aim, by regulation, to bring about uniformity in the handling of the affairs of associations by the officials of such associations. This uniformity should include as far as possible the establishing of the scale of withdrawal values, the setting of salaries, and directors' fees.

Reserves should be the subject of further study by the department. They should provide adequate coverings for losses but, as far as possible, avoid depriving a shareholder of earnings by arbitrary transfers to the undivided profits account.

The Department of Banking and Insurance to encourage, wherever feasible, the adoption of the procedure set forth in the "reorganization act."

The Department of Banking and Insurance shall make a study of the possibility of the establishment of a building and loan bank, such bank to be financed by assessment of participating member associations.

RECOMMENDATIONS RELATING EXCLUSIVELY TO ASSOCIATIONS IN LIQUIDATION BY TRUSTEES

I. Notice of adoption of resolution to liquidate or reorganize shall be sent to each shareholder by registered mail together with notice of meeting and proxy blank. Certification to be made by proper officers that all shareholders of record have been sent notices.

II. There shall be supervision of meeting by representative of Banking and Insurance Department who shall see that full information of conditions shall be furnished shareholders and all afforded free expression.

III. Action to be good or effective must be concurred in by all trustees, except where one dissents it shall be recorded on the minutes and the approval of the remaining trustees shall make the act valid.

IV. It shall be a misdemeanor for any trustee to become involved in a transaction of the association for the purpose of personal profit or advantage.

V. Trustees shall be of good moral character. The Commissioner of Banking and Insurance shall examine into the fitness of trustees proposed and with the consent of the Court of Chancery have power to bar those not qualified.

VI. The restatement of mortgages, where the mortgagor consents, must be to direct reduction mortgages.

VII. Power shall be given to the commissioner to prevent excessive expenditures for help, fees and other administration expenses. Commissioner to approve of sales for stock consideration and sales involving a consideration of $10,000 or more.

VIII. The commissioner shall prescribe the proper records.

IX. The commissioner shall approve salaries and the number of employees.

X. A meeting of shareholders shall be held every two years unless the trustees or the court deem it necessary to hold a meeting more often. At this meeting the financial affairs and condition of the association shall be presented.

Mr. Boswell moved that the House adjourn.

Which motion was adopted.

Speaker McClave requested the Honorable Herbert J. Pascoe of Union county, to make the Lincoln Day address.

Mr. Pascoe assumed the rostrum and spoke as follows:

Mr. Speaker, Members of the House of Assembly, fellow citizens:

Rather than invoke the customary address in laudation of the Great Emancipator, including some of his humorous stories of which he was prolific and the anecdotes of his momentous career, I prefer to allow him to speak for himself as he did when he addressed the two branches of the New Jersey Legislature on February 21, 1861.

The striking feature of these addresses is that with the substitution of the word "international" for the word "national" where he used it, his utterances of about eighty years ago would fittingly describe the present world situation.

First let me draw a brief word picture of the conditions at the time of Lincoln's visit here. He had just emerged the victor from a field of four candidates for the Presidency of the United States, in one of the most intensely contested political campaigns this nation had ever witnessed.

So divided was the public feeling in New Jersey that a split delegation of Presidential Electors was chosen—four for Lincoln and three for Douglas. The Congressional delegation was likewise divided between the two major political parties. The Senate of New Jersey was Republican while the House of Assembly was Democratic. The nation was facing possible war with internal dissension rife. Lincoln was little known east of his home State of Illinois. He had not yet been inaugurated and was utilizing the time between his election and his induction into office to tour the country, that the people might become better acquainted with him and he in turn could the better ascertain and understand the feeling of the people on the serious crisis with which he would soon have to deal.

Under these conditions we see Lincoln coming to New Jersey from New York City by train, met at every station by crowds of people, arriving at Trenton about noon of February 21, 1861, and escorted by a parade and throngs of people, to the State House where he delivered the addresses which I am about to read, as we now turn back the

musty records of our State Legislature three-quarters of a century.

How like the situation in our State and the nation at this very moment. What to do. These eloquent words of Lincoln coming down to us through the years give us the answer. Listen intently while I read.

EXTRACT FROM THE ASSEMBLY MINUTES OF FEBRUARY 21, 1861

The Speaker addressed the President-elect as follows:

On behalf of the General Assembly of the State of New Jersey, it affords me pleasure, sir, to welcome you, the President-elect of this nation, to the capitol of our State. Under any circumstances it would be most fitting that we should pay our respects to the chosen Chief Magistrate of the Republic, but now that the bravest, the wisest, and the best stand still, in doubt and awe at the posture of our national affairs, I am happy to give you, sir, the assurances of the descendants of those whose blood was shed in the cause of liberty upon this soil, of the continued devotion of this State to the Constitution and Union founded by our fathers, and that our people will heartily cooperate with you in all constitutional efforts for a speedy and peaceable settlement of the differences which now unhappily distract our country. We sympathize with you in the difficulties with which you are surrounded. Already have the dark clouds of disunion obscured a portion of those stars which lately shone in an undivided constellation, but we hope that counsels of wisdom and prudence will yet dispel those clouds, and that the close of your administration may witness us once more a united and harmonious nation.

Sir, permit me to introduce you to the members of this House, and at the same time assure you of their respect and best wishes for yourself personally, and to renew to you the assurances of our sincere desire to join with you in every effort for the promotion of the interests of our common country.

Mr. Lincoln then shook hands with the Speaker, and taking his position on the Speaker's right, spoke as follows:

MR. SPEAKER AND GENTLEMEN—I have just enjoyed the honor of a reception by the other branch of this

Legislature. I return to you and them my thanks for this reception which the people of New Jersey have given, through their representatives, me as the representative, for the time being, of the majesty of the people of the United States. I appropriate to myself very little of the demonstrations of respect with which I have been greeted. I think little should be given to any man but that it should be a manifestation of devotion to the Union and the Constitution.

I understand myself to be received here by the representatives of the people of New Jersey, a majority of whom differed in opinion from those with whom I have acted. This manifestation is therefore to be regarded by me as expressing their adherence to the Union, the Constitution, and the liberties of the people. You, Mr. Speaker, have well said that this is a time when the bravest and wisest look with doubt and awe upon the aspect presented by our national affairs. Under these circumstances you will readily see why I should not speak in detail of the course I shall deem it best to pursue. It is proper that I should avail myself of all the information, and all the time at my command, in order that when the time arrives in which I must speak officially, I shall be able to take the ground which I deem best and safest, and from which I may have no occasion to swerve. I shall endeavor to take the ground I deem most just to the north, the east, the west, the south and the whole country; take it, I hope, in good temper with no malice toward any section. I shall do all that may be in my power to promote a peaceful settlement of all our difficulties.

The man does not live who is more devoted to peace than I am; none who would do more to preserve it; but it may be necessary to put the foot down firmly; and if I do my duty and do right, you will sustain me —will you not?

Received as I am by the members of a Legislature the majority of whom do not agree with me in political sentiment, I trust that I may have their assistance in piloting the Ship of State through this voyage, surrounded by perils as it is, for if it should suffer wreck now, there will be no pilot needed for another voyage.

Gentlemen, I have already spoken longer than I intended, and must beg leave to stop here.

EXTRACT FROM THE SENATE JOURNAL OF FEBRUARY 21, 1861

At quarter past twelve o'clock the President-elect appeared in the Senate Chamber, escorted by the Legislative Committee. He was introduced by Senator Cook, and welcomed in a short speech by Mr. Perry, the President, as follows:

SIR—In the name and on behalf of the Legislature of New Jersey, I welcome you to the capitol of our State. Elected to the high and responsible office of President of the United States, you are soon to take upon yourself the solemn duties to which you have been called. You go to preside over the destinies of this vast country at a time of great distraction and imminent peril, when the hearts of all true patriots are filled with anxiety and solicitude, when the sons of liberty stand appalled at the approaching crisis. That you may receive from on high, wisdom to direct, and strength to sustain you in the discharge of the laborious duties of your high office, and that you may so succeed as to merit the universal plaudit of "well done, good and faithful servant," is, I am sure, today the prayer of millions of freemen. Go, honored sir, to your great task, and may God go with you.

Mr. Lincoln addressed the Senate as follows:

MR. PRESIDENT AND GENTLEMEN OF THE NEW JERSEY LEGISLATURE—I am very grateful to you, gentlemen, and to you, Mr. President, for this kind reception tendered to me by the State. I cannot but remember the place New Jersey holds in the early history of our country. I remember that in the Revolutionary struggle none had more of its battle-fields. I remember of reading, in my youth, a small book—the life of Washington—and of all his struggles, none fixed itself on my mind so indelibly as the crossing of the Delaware, preceding the battle of Trenton. I remember that these great struggles were made for some object. I am exceedingly anxious that the object they fought for—liberty, and the Union and Constitution they formed—shall be perpetual. I shall be most happy if I may be a chosen instrument in effecting their perpetuation.

Mr. Pascoe continued.

Mr. Speaker, would it not be most fitting if this House of Assembly and the citizens assembled here tonight were to declare that we, like Lincoln, will strive to perpetuate the Union, protect the liberties which are ours and uphold on every occasion the Constitution that has made us great among the nations of the world. This we can now do by publicly repeating the pledge to the flag of our country under the leadership of Assemblyman Huntington of Essex county, himself a veteran of the last World War.

Speaker McClave requested the assemblage to stand and repeat the pledge to the flag, which was done with due solemnity and sincerity.

Mr. Pascoe's address and the words of Lincoln inspired the assemblage to prolonged applause.

The Speaker thanked Mr. Pascoe for delivering this address.

Mr. Howell, upon a point of personal privilege announced that he had given a copy of a certain resolution to the Assistant Clerk of the Assembly and he asked that this be produced and that action be taken upon it.

elected to the Senate and House of Assembly, the said amendments shall be entered on their journals, with the yeas and nays taken thereon and referred to the Legislature then next to be chosen and published for three months previous to the first Tuesday after the first Monday of November next, in at least one newspaper of each county, if any be published therein, such newspapers to be designated by the President of the Senate, the Speaker of the House of Assembly and the Secretary of State; payment for such publication to be made by the Treasurer on warrant of the Comptroller.

PROPOSED AMENDMENTS

1. After paragraph 4 (four) under Article VIII, add a new paragraph to be known as 5, as follows:

5. The fiscal year for the operation of the State government and every department thereof, and every fund, commission and agency thereunder, shall begin on the first day of July and end the thirtieth day of June next.

2. Strike out paragraph 2 (two) of Section VI under Article IV, and in lieu thereof insert the following:

2. Money shall be drawn from the treasury only by appropriations made by law, subject to the following limitations: After the second Tuesday in January and before the first day of July next, the Legislature shall pass an omnibus appropriations bill to provide for the support and outlays of the State government throughout the fiscal year next ensuing; and to supplement the same after the passage thereof but before the first day of July aforesaid, additional bills to appropriate money may be passed. But on and after the first day of July and until the first day of July next thereafter, no bill appropriating money for any object or purpose pertinent to the fiscal year then current shall originate in either House unless the same shall be accompanied by the written request of the Governor for the passage thereof. No bill for the appropriation of money shall be passed at any time unless it shall specify the available or anticipated fund or income necessary to counterbalance the sum therein appropriated.

3. Between paragraphs 7 (seven) and 8 (eight) under Article V, insert a new paragraph to be known as 7a, as follows:

7a. After the thirty-first day of December in any fiscal year, if it shall appear to the Governor that the counterbalancing fund or income specified in any law appropriating money for the support of the State government or any part thereof may not be available or forthcoming, he shall have the power to reduce the appropriation or appropriations therein made for the maintenance of any department, commission or agency, and subsequently to restore the same, in whole or in part, if the said fund or income shall then appear to be eventually available or receivable; and in the apportionment of such reductions and restorations the judgment of the Governor shall be final.

4. Strike out paragraph 1 (one) under Article VIII and in lieu thereof insert the following:

1. After the close of every fiscal year a comprehensive audit shall be made of the State government; and for such purpose the Comptroller shall be ex officio the auditor of each fund in the custody of, and of the income received and disbursements made by or in behalf of, and of the balance in hand or to the credit of, every officer, department, commission and agency thereof; provided, however, that the accounts of the Comptroller shall be audited by the Governor, who for such purpose may engage the services of auditors independent of the personnel of the State government. The inclusive results of such yearly audit, together with a certificate of charges incurred by the Governor in connection therewith, shall be reported to the Legislature elected for the legislative year next ensuing, at its first meeting; and for the payment of the charges so certified by the Governor, provision shall be made in the omnibus appropriations bill next to be passed by the Legislature.

5. Strike out paragraph 7 (seven) under Article V, and in lieu thereof insert the following:

7. Every bill which shall have passed both Houses shall be presented to the Governor. If he approve, he shall sign it; but if he disapprove, he shall, within five days (Sundays excepted) after it shall have been presented to him, return it, with his objections, to the House in which it originated, who shall enter the objections at large on their journal, and

proceed to reconsider it. If, after such reconsideration, two-thirds of the whole number of that House shall agree to pass the bill, it shall be sent, together with the objections of the Governor thereto, to the other House, by whom it shall be likewise reconsidered; and if approved by two-thirds of the whole number of that House, the bill shall become a law. In neither House, however, shall the vote be taken on the same day the bill was returned to it by the Governor; and on every such reconsideration, the votes of both Houses shall be determined by yeas and nays, and the names of the members voting for and against the bill shall be entered on the journal of each House respectively.

If the Legislature by their adjournment prevent the return, within the time prescribed, of any bill which the Governor shall not approve, the same shall not be a law; and if the Legislature be in session and the Governor shall not, within the time and in the manner prescribed, return any bill in which no appropriation of money is included, the same shall be a law in like manner as if he had signed it. If a bill include an appropriation of money, in no event shall it become a law unless signed by the Governor or, it having been disapproved and returned by him, unless duly passed after reconsideration by both Houses respectively; *provided, however,* that the Governor may object to the appropriation of money in any bill, or to one or more items of appropriations of money if several be included in the same bill, and approve the other portions thereor; but in such case he shall append to the bill, when signing it, a statement of the items to which he objects. The approved portions of such bill shall thereupon be law, and the items so objected to shall not take effect; but if the Legislature be in session, the Governor shall transmit to the House in which the bill originated a copy of such statement. The items objected to shall be separately reconsidered, notwithstanding any time limitation under Article IV for the passage of bills appropriating money; and if on reconsideration, one or more of such items be approved by two-thirds of the whole number of each House, the same shall be part of the law, notwithstanding the objections of the Governor.

2. Amend paragraph three of Section V of Article IV to read as follows:

3. No judge of any court, nor sheriff, nor any person or persons possessed of any office of profit under the government of this State shall be entitled to a seat, either in the Senate or in the General Assembly; but on being elected and taking his seat, his office shall be considered vacant; and no person holding any office of profit under the Government of the United States shall be entitled to a seat in either house.

3. Paragraph ten of Section VIII of Article IV is repealed.

4. Amend paragraph seven of Article V to read as follows:

7. Every bill which shall have passed both houses shall be presented to the Governor; if he approve, he shall sign it, but if not, he shall return it, with his objections, to the house in which it shall have originated, who shall enter the objections at large on their journal, and proceed to reconsider it; if, after such reconsideration, two-thirds of the whole number of that house shall agree to pass the bill, it shall be sent, together with the objections, to the other house, by which it shall likewise be reconsidered, and if approved by two-thirds of the whole number of that house, it shall become a law; but, in neither house shall the vote be taken on the same day on which the bill shall be returned to it; and in all such cases, the votes of both houses shall be determined by yeas and nays, and the names of the persons voting for and against the bill shall be entered on the journal of each house respectively. If any bill shall not be returned by the Governor, within five days (Sunday excepted) after it shall have been presented to him, the same shall be a law in like manner as if he had signed it, unless the Legislature by their adjournment, prevent its return, in which case it shall not be a law. If any bill presented to the Governor contains several items of appropriations of money, he may object to one or more of such items while approving of the other portions of the bill. In such case he shall append to the bill, at the time of signing it, a statement of the items to which he objects, and the appropriation so objected to shall not take effect. If the Legislature be in session he shall transmit to the house in which the bill originated a copy of such statement, and the items objected to shall be separately reconsidered. If on reconsideration, one or more of such items be approved by two-thirds of the members elected to each house, the same shall be a part of the law, notwithstanding the objections of the Governor. All the provisions of this section in relation to bills not approved by the Governor shall apply to cases in which he shall withhold his approval of any item or items contained in a bill appropriating money.

STATE OF NEW JERSEY,
SENATE CHAMBER,
Mr. Speaker: March 17, 1941.

I am directed by the Senate to inform the House of Assembly that the Senate has passed the following concurrent resolution:

RESOLUTION proclaiming March 25th as Hellenic Day in the State of New Jersey.

WHEREAS, "The Glory that was Greece" is a term well known to educated men the world over, Greece of antiquity was the cradle of our civilization; from Greece we have derived many of our laws, much of our literature, our art, our concepts of justice and of the dignity of man; indeed, Greece belongs to all mankind; and

WHEREAS, That treasured pearl of our language, the word democracy, meaning the rule of the people is derived from the ancient Greek; democracy was founded in ancient Athens; then Greece of the early Christian era, the home of so many Saints, Fathers and Doctors of the Church, fell to the pagan conqueror, the word democracy vanished through the ages to be revived by our own glorious nation at its foundation; and

WHEREAS, On March 25, 1821, the Greece of modern times became an independent nation through the never-ending faith, hope and courage of her people. In the century that followed, Greece all too often has been the battle ground of nations, but the spirit of indomitable courage of the Lacedaemonians at Thermopylae has been handed down

through centuries; indeed, the word Spartan is synonymous with courage. Today, Greece again struggles to maintain her liberty and freedom as a nation; she defends not only her soil, but those classical treasures of antiquity of which she is the world's custodian; once ruined in the havoc of modern war, they can never be restored; it is to be hoped that when peace is restored that the nations of the world will remember the "Glory that is Greece" and restore all Greek territory to the blue and white cross of St. George; and

WHEREAS, The Greeks have been associated with the United States since the early days of the republic; in 1804 the first challenge to our infant nation embroiled us in war with the Barbary States of Northern Africa; our slogan of that day, "Millions for defense, but not a cent for tribute," brought us the respect of the nations of the world; the slogan is still valid in our day! Our young navy crossed the seas and wrote glorious chapters of our history under Decatur and Bainbridge. Wars are not won by naval victories alone; our infant republic could not send a military expedition across the seas; however, a military force was organized under the command of General William Eaton, U. S. A., and Colonel Tobias Lear, who had been military secretary to George Washington; this force was composed mainly of Greeks supported by a small force of Neapolitan gunners. These Greek companies fought valiantly alongside the United States Marines; their repeated assaults brought the war to a successful conclusion in 1805 by the capture of the Tripolitan Capitol of Derne. Our Greek companies were repeatedly mentioned in the dispatches for their courage and sacrifice; thus General Eaton, in his dispatch to Commodore Samuel Barron concerning the assault on Derne on April 29, 1805, states, "Our forces ashore successfully assaulted Derne, led by Patrick N. O'Bannon of the Marines along with our Greek companies; the loss in killed and wounded this day were mostly Greeks. They well supported their ancient character." Thus the Greeks made the supreme sacrifice and contributed their lives in the early days of our republic; and

WHEREAS, People of Greek origin or descent have greatly contributed to the progress of the United States as citizens of the republic. They have been loyal, progressive and law abiding. They have entered the various phases of American life and contributed greatly thereto. They have been noted

for their community spirit in matters of charity and human kindness; their campaign in education for American citizenship has been outstanding. In the early days of our present economic depression, having engaged extensively in the food trades in the United States, they willingly fed thousands of persons out of their love for their fellow man before either private or governmental social agencies could bring themselves to the realization of the catastrophe that had overtaken us;

WHEREAS, A campaign is now in progress in the United States for the purpose of raising funds for the distressed women and children of Greece. Such relief as has been afforded has been most thankfully received. The campaign has been conducted with dignity and restraint. Our citizens of Hellenic origin have steadfastly refused to indulge in a campaign of recrimination and hate, or tell us what we should do on their behalf. This is eminently befitting an ancient and cultured people. They realize that our nation is derived from many peoples and that our national unity is of paramount importance; now, therefore,

Be It Resolved (if the Assembly concur), That the Legislature of this State acknowledge the contribution made to our nation by persons of Hellenic origin by endorsing the celebration of Greek Independence Day on March 25th as Hellenic Day; and

Be It Further Resolved (if the Assembly concur), That His Excellency, the Governor of the State of New Jersey, shall issue, publish and declare an appropriate proclamation to the people of New Jersey, designating for observance this year, the twenty-fifth day of March, as Hellenic Day.

In which the concurrence of the House of Assembly is requested.

OLIVER F. VAN CAMP,
Secretary of the Senate.

The Senate message was then taken up, and

Mr. Boswell moved that the House concur in the Senate concurrent resolution.

Which motion, upon a viva voce vote, with the ayes and nays being called, was declared adopted.

Mr. Towe offered the following resolution, which was read by the Clerk and adopted:

WHEREAS, For the purpose of preserving the Cane Sugar Refining Industry in the State of New Jersey, and to protect the millions of consumers in the State of New Jersey from an artificial sugar scarcity and from exorbitantly high prices, and

WHEREAS, There is sufficient sugar on hand, or in the nearby tropical islands to meet any demand that the consuming American public may make, and

WHEREAS, Any change in the existing law that would grant to the highly subsidized beet sugar industry additional millions of dollars to those already paid would further increase the burden on the American consumer, so therefore

Be It Resolved, That Congress be, and it is hereby respectfully memorialized, urged to oppose any change in the existing law that would add additional burdens on the already overburdened consumer, cause further unemployment in the State of New Jersey, or disrupt in any way our Good Neighbor Policy with South or Central America, and

Be It Further Resolved, That a copy of this resolution be sent to the President of the United States, the Vice-President, the Secretary of State, the Secretary of Agriculture, the Speaker of the House of Representatives, and to each member of the present Congress from the State of New Jersey, and that they be urged to use their best efforts to accomplish the purpose of this resolution.

A message was received from the Governor by the hands of his secretary as follows—and was read by the Clerk:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the Legislature: April 21, 1941.

The law governing retirement of members of the State Police provides for retirement on a pension at the age of 50 years, after 20 years of service.

Colonel Kimberling, whose term expires on June 15th, would qualify for a State Police pension on September 11th, after 20 years of State service. It is unfortunate that the expiration of his term and the date on which he will be qualified for this pension do not coincide. To remedy this, I ask the Legislature to pass the necessary legislation to amend the State Police Pension Law so that it will provide that a superintendent of State Police should be eligible for his 20-year pension if he is retired after completing one-half of his 20th year in the State service.

An argument supporting Colonel Kimberling's right to this pension, to my way of thinking, is that he has served the last five years without taking a vacation so that he should be entitled to five months leave with pay. This accumulated leave would extend his term beyond the date when he becomes eligible for pension.

Respectfully submitted,

CHARLES EDISON,
Governor.

[SEAL]

HARRY GILROY,
Secretary to the Governor.

A message was received from the Governor by the hands of his secretary as follows—and was read by the Clerk:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the House of Assembly: May 19, 1941.

I am returning herewith, without my approval, Assembly Bill No. 184, for the following reasons:

I am keenly aware of the many problems which exist in connection with the welfare of the Negroes of our State. In recent years, two commissions were created, one in 1938 and the other in 1939, which have exhaustively investigated the problems of the Negro race in New Jersey. Both of these commissions were at this work several months and each rendered a comprehensive report in which they arrived at practically the same conclusions and made the same recommendations covering Employment, Employment Barriers, Housing, Health, Insurance and Education, and several other problems of the Negro race.

These commissions spent a total of $30,000 in accumulating an abundance of statistical data and in completing their work. Prominent Negro men and women and associations have urged me to veto this bill because full use has not been made of the material now available in the two previous commissions' reports.

I am familiar with the contents of these reports and feel, too, that they have not been fully used and that the interests of the Negro race would be better advanced by the adoption of some of the recommendations contained therein, rather than by the creation of a new commission with an appropriation of $16,000, which would do again the same job which has already been done twice.

Respectfully submitted,

CHARLES EDISON,
Governor.

Attest:
HARRY GILROY,
Secretary to the Governor.

By direction of the Speaker, the Clerk read the following veto message from the Governor:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the Senate: May 19, 1941.

I am returning herewith, without my approval, Senate Bill No. 265, for the following reasons:

This is one of many bills pending in the Legislature granting tenure of office to various employees in the employment of the State and local governments.

Bills of this type are within the category of special legislation, in spite of the fact that they are couched in terms which indicate that they have general application.

In past years several bills of this type have been passed, which have continued in office persons whose positions were not within the classified civil service because it was considered that such positions could be best filled by a person appointed by the then head of the department involved.

This principle, which I believe to be sound, should not be weakened by tenure bills such as this even if a deserving government employee must be denied life tenure in his position.

Respectfully submitted,

CHARLES EDISON,
Governor.

Secretary to the Governor.

In which the concurrence of the House of Assembly is requested.

OLIVER F. VAN CAMP,
Secretary of the Senate.

By direction of the Speaker, the Clerk read the following veto message from the Governor:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the Senate: May 19, 1941.

I am returning herewith, without my approval, Senate Bill No. 229, for the following reasons:

This is a supplemental appropriation bill, appropriating $30,000.00 to cover the cost of the annual Agriculture Week Exhibit and also the advertising of agricultural products.

Both of these projects are very praiseworthy but are by no means new undertakings.

For some years the Annual Agriculture Week Exhibit has been held in the City of Trenton. Last January this affair was held at a cost less than $6,000.00 paid from appropriations made to the Department of Agriculture. The present general appropriations bills includes a similar amount to be expended for that purpose during the coming January.

In regard to the second purpose, the advertising of agricultural products is a function given to the New Jersey Council by R. S. 52:9c. For several years money has been appropriated to and expended by the New Jersey Council for this purpose and there is included in the appropriations bill for the year beginning July 1st next a sum in excess of $12,500.00 for this purpose.

Aside from this supplemental appropriation the State is providing approximately $18,500.00 to carry on the functions contained in this bill. This does not include, of course, moneys expended by the Agricultural Experiment Station, the State Milk Control Board, and other agencies in the interest of Agriculture.

It does seem to me, therefore, that under present conditions it is not advisable for the State to increase the sums to be spent on Agricultural promotion in the amount of $30,000.00.

Respectfully submitted,

CHARLES EDISON,
Governor.

A message was received from the Governor by the hands of his secretary as follows—and was read by the Clerk:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the House of Assembly: June 3, 1941.

I am returning herewith without my approval Assembly Bill No. 496, for the following reasons:

This bill provides that any person appointed to office other than constitutional or elected officers shall hold over until his successor is appointed and qualified.

I am not unmindful of the unsatisfactory situation which can develop when the fixed term of a department head expires and because he does not hold over the department is without a responsible head.

However, this bill is objectionable because of its blanket nature. It creates a situation which could result in nullification of the whole idea of fixed terms, which principle is to prevent office holders from continuing in their jobs permanently without opportunity for the appointing agency to replace them.

A general hold-over bill might be all right if a time limitation were included. I have in mind some such provision as that office holders would continue in office for two months after which special legislation would be required for each case. At present, I believe, each hold-over question should be covered in a separate bill in order that each can be considered on its merits.

Respectfully submitted,

CHARLES EDISON,
Governor.

Attest:
HARRY GILROY,
Secretary to the Governor.

Mr. Boswell moved that the message be received and spread in full upon the Minutes and Assembly Bill No. 496 lie over.

Which motion was adopted.

A message was received from the Governor by the hands of his Secretary as follows—and was read by the Clerk:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the House of Assembly: June 3, 1941.

I am herewith returning, without my approval, Assembly Bill No. 425 for the following reasons:

The existing law covering the residence requirement of candidates for municipal commission provides that a candidate must be a resident of the municipality for at least two years immediately preceding the election.

This bill amends the law to provide that a candidate may either be a resident for two years "or shall have voted in such municipality at the two general elections for members of the General Assembly immediately preceding his election."

This change in the language of the law unfortunately would make it possible for a person to be elected to the office of municipal commissioner even when he did not actually reside in the municipality.

I do not feel this is a sound practice to permit.

Respectfully submitted,
CHARLES EDISON,
Governor.

Attest:
HARRY GILROY,
Secretary to the Governor.

Mr. Boswell moved that the message be received and spread in full upon the Minutes and that Assembly Bill No. 425 lie over.

Which motion was adopted.

A message was received from the Governor by the hands of his Secretary as follows—and was read by the Clerk:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the House of Assembly: June 3, 1941.

I am herewith returning without my approval Assembly Bill No. 434, for the following reasons:

This bill appropriates one thousand dollars to the Jewish War Veterans of the United States, Department of New

Jersey to be used to compile and preserve the record of the proceedings of that organization.

Twenty bound copies of these proceedings are to be furnished to the State.

I feel that organizations of this type are splendid and their activities should be encouraged by all government authorities. There exists, however, in this State a constitutional barrier which prohibits the making of such a grant of money as contemplated by this bill.

Article 1, paragraph 20 of the State Constitution provides:

"No donation of land or appropriation of money shall be made by the State or any municipal corporation to or for the use of any society, association or corporation whatever. . . ."

Respectfully submitted,

CHARLES EDISON,
Governor.

Attest:
HARRY GILROY,
Secretary to the Governor.

A message was received from the Governor by the hands of his Secretary as follows—and was read by the Clerk:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the House of Assembly: June 3, 1941.

I am returning herewith, without my approval, Assembly Bill No. 23 for the following reasons:

It amends the existing law to provide that in first class counties only, sample ballots shall be mailed by the Commissioner of Registration, while in all other counties the present practice of having this work done by the district boards of election is continued.

If this change is desirable, it should be adopted uniformly and not only in two counties.

I feel that sound revision of the election law can only be attained by legislation that applies uniformly throughout the State.

Respectfully submitted,

CHARLES EDISON,
Governor.

Attest:

HARRY GILROY,
Secretary to the Governor.

By direction of the Speaker, the Clerk read the following veto message from the Governor:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
May 26, 1941.

To the Senate:

I am returning herewith, without my approval, Senate Bill No. 236, for the following reasons:

This bill has as its purpose the removing from the classified Civil Service, the position of Election Clerk in the office of the Secretary of State, and the placing of this

position in the exempt class. This, I understand, means that this position, which is now vacant and has been for five years, could be filled by appointment rather than by a competitive examination.

If it is necessary to fill this position of Election Clerk, it seems to me to be one that should be kept under the classified Civil Service because it is particularly important to have election functions free from partisan ties and influence.

Respectfully submitted,

CHARLES EDISON,
Governor.

The Governor's Veto Message upon Assembly Bill No. 184 was read by the Clerk.

A message was received from the Governor by the hands of his secretary as follows—and was read by the Clerk:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the House of Assembly: May 19, 1941.

I am returning herewith, without my approval, Assembly Bill No. 184, for the following reasons:

I am keenly aware of the many problems which exist in connection with the welfare of the Negroes of our State. In recent years, two commissions were created, one in 1938 and the other in 1939, which have exhaustively investigated the problems of the Negro race in New Jersey. Both of these commissions were at this work several months and

each rendered a comprehensive report in which they arrived at practically the same conclusions and made the same recommendations covering Employment, Employment Barriers, Housing, Health, Insurance and Education, and several other problems of the Negro race.

These commissions spent a total of $30,000 in accumulating an abundance of statistical data and in completing their work. Prominent Negro men and women and associations have urged me to veto this bill because full use has not been made of the material now available in the two previous commissions' reports.

I am familiar with the contents of these reports and feel, too, that they have not been fully used and that the interests of the Negro race would be better advanced by the adoption of some of the recommendations contained therein, rather than by the creation of a new commission with an appropriation of $16,000, which would do again the same job which has already been done twice.

Respectfully submitted,

CHARLES EDISON,
Governor.

Attest:

HARRY GILROY,
Secretary to the Governor.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the Senate: May 19, 1941.

I am returning herewith, without my approval, Senate Bill No. 265, for the following reasons:

This is one of many bills pending in the Legislature granting tenure of office to various employees in the employment of the State and local governments.

Bills of this type are within the category of special legislation, in spite of the fact that they are couched in terms which indicate that they have general application.

In past years several bills of this type have been passed, which have continued in office persons whose positions were not within the classified civil service because it was considered that such positions could be best filled by a person appointed by the then head of the department involved.

This principle, which I believe to be sound, should not be weakened by tenure bills such as this even if a deserving government employee must be denied life tenure in his position.

Respectfully submitted,

CHARLES EDISON,
Governor.

ATTEST:
HARRY GILROY,
Secretary to the Governor.

Mr. Boswell moved that the Governor's Veto Message be received and spread in full upon the Minutes.

Be It Resolved by the House of Assembly of the State of New Jersey (in session assembled):

A message was received from the Governor by the hands of his Secretary as follows—and was read by the Clerk:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the House of Assembly: June 9, 1941.

I am returning, herewith, without my approval, Assembly Bill No. 172, for the following reasons:

It appropriates $1,000 to the Disabled American Veterans of the World War, Department of New Jersey, to be used in connection with their forthcoming convention. The State is to receive twenty bound copies of the proceedings of this organization.

This bill is similar to Assembly Bill No. 434, which I vetoed last week. Bills making appropriations to associations, even worthy patriotic ones such as the Disabled American Veterans of the World War, are, unfortunately, subject to a constitutional barrier, which may be found in Article 1, paragraph 20 of the State Constitution, which provides:

> "No donation of land or appropriation of money shall be made by the State or any municipal corporation to or for the use of any society, association or corporation whatever."

Respectfully submitted,

CHARLES EDISON,
Governor.

Attest:
HARRY GILROY,
Secretary to the Governor.

Mr. Boswell moved that the message be received and spread in full upon the minutes and that Assembly Bill No. 72 lie over.

Which motion was adopted.

A message was received from the Governor by the hands of his Secretary as follows—and was read by the Clerk:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the House of Assembly: June 9, 1941.

I am returning herewith, without my approval, Assembly Bill No. 212, for the following reasons:

This bill amends the present law which leaves to the discretion of the governing body of a municipality the amount of pension that a retiring recorder should receive by providing that the pension be "not less than six hundred dollars ($600.00) per year."

I have been informed that in many municipalities the recorder receives a salary of one thousand dollars ($1,000) while in others, a recorder receives six hundred dollars ($600.00) a year, or less.

Under the operation of this bill some recorders would retire on full salary, others on sixty per cent of their salary, and still others on more than their salary.

This would have the effect of working a hardship on small municipalities.

Respectfully submitted,

CHARLES EDISON,
Governor.

Attest:
HARRY GILROY,
Secretary to the Governor.

Mr. Boswell moved that the message be received and spread in full upon the minutes and that Assembly Bill No. 212 lie over.

Which motion was adopted.

A message was received from the Governor by the hands of his Secretary as follows—and was read by the Clerk:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the House of Assembly: June 9, 1941.

I am returning, herewith, without my approval, Committee Substitute for Assembly Bill No. 220, for the following reasons:

This bill appropriates ten thousand dollars ($10,000) to the Commission on Historic Sites for the acquisition and maintenance of the "Boudinot Home" in Elizabeth, New Jersey.

This building is an historical landmark and would, undoubtedly, be a fine addition to the many other historic sites under the management of this commission.

At the present time, when Federal, State and local governments are daily increasing their expenditures for defense activities, I believe that all possible economies should be made in the ordinary governmental functions and a new one such as contemplated by this bill should not be undertaken.

Respectfully submitted,

CHARLES EDISON,
Governor.

Attest:
HARRY GILROY,
Secretary to the Governor.

Mr. Boswell moved that the message be received and spread in full upon the minutes.

Which motion was adopted.

Mr. Pascoe moved that Assembly Bill No. 220 lie over.

Which motion was adopted.

A message was received from the Governor by the hands of his Secretary as follows—and was read by the Clerk:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the House of Assembly: June 9, 1941.

I am returning herewith, without my approval, Committee Substitute for Assembly Bill No. 281, for the following reasons:

This bill provides for the appointment of a commission by the Governor within fifteen days after the American Legion selects Atlantic City as the place for holding its 1942 convention, and appropriates fifty thousand dollars ($50,000) to that commission.

The commission is to represent the State of New Jersey at said convention and "provide for a military and other display and entertainment to fittingly advertise and publicize the State of New Jersey."

I wish to reiterate now what I said at the time I filed Assembly Joint Resolution No. 2 in the Library, without my approval. New Jersey would be highly honored if the American Legion selected one of our cities for its annual convention, but it is not constitutionally possible for the State to appropriate any money either directly or indirectly for this purpose.

I have been advised by the Attorney-General that article 1, section 20 of the State Constitution which provides:

"No donation of land or appropriation of money shall be made by the State or any municipal corporation to or for the use of any society, association or corporation whatever."

Makes an appropriation of this type unconstitutional.

Respectfully submitted,

CHARLES EDISON,
Governor.

Attest:
HARRY GILROY,
Secretary to the Governor.

ONE HUNDRED AND SEVENTY-FIFTH ANNUAL MEETING

Adopted at the anniversary of the House of Delegates of the Medical Society of New Jersey on May 20, 1941:

Be It Resolved, That the Medical Society of New Jersey records its inestimable appreciation of the gracious compliment the New Jersey Legislature paid the Society on May 19, 1941, by the passage of the Assembly Concurrent Resolution (the Senate concurring), congratulating the Medical Society of New Jersey and its membership on its 175th anniversary, celebrated at the annual meeting of the Society, May 20-22, at Atlantic City, New Jersey; and

ALFRED STAHL,

Transcript of remarks made by Wells P. Eagleton, M. D., from the floor at the session of the House of Delegates of the Medical Society of New Jersey, held at Atlantic City, on May 20, 1941, on the occasion of the reading of the Assembly Concurrent Resolution of congratulations from the Legislature of New Jersey:

"I hope you all realize the importance of this communication from the Assembly and the Senate of the State of New Jersey. This expression of respect from the legislators of the State of New Jersey is the culmination of twenty years' work of the medical profession with our legislators. No other State medical society (and I say it advisedly), has ever received such commendation for its work for the health of the people, for the benefit of the people, by the legislative bodies of its State.

"What does it show? It shows that for twenty years, year after year, representatives of your society have been going to the Legislature and gradually the legislators, both in the Senate and in the Assembly have come to the realization that whatever the Medical Society of New Jersey has advocated has been for the good of the people of the State of New Jersey.

"In my opinion, this is the greatest compliment that has ever been paid to the work, the spirit and the activities of the Medical Society of New Jersey." (Applause.)

Mr. Haneman moved that the communication be received and filed.

Which motion was adopted.

The following communication was sent to the desk and read by the Clerk:

SWEDESBORO KIWANIS CLUB
SWEDESBORO, N. J.

To Our Elected Representatives:

We conceive the Government of the United States of America to be a government of the people—not a creature of the State. For this reason, and because a national emergency exists, we wish to express our views upon matters which we feel vital to our country. While our young men and women are being conscripted into military service, at low pay and at considerable sacrifice, another group of our citizens are supposed to be working with equal patriotic fervor to supply this military force with arms ample to meet and surpass any challenge to our national security. This is what we, as Americans, expect and demand, but we find the facts entirely different. We find our defense industries hampered and impaired by strikes, lock-outs, and other labor disputes. This is no time to harangue

and heckle about petty adjustments of social programs nor to consume time and energy arguing about hours of work, wages, and other working conditions. If we stop long enough to argue about whose sacrifice is greatest, we won't need to worry about it—there won't be any sacrifice necessary. America as we know and love it—will be gone. The people have issued a mandate to the government to arm this country at all speed and at any cost. The government has called its citizens to arms, but how has it called those more fortunate citizens who are to make the necessary arms? An army is useless without modern equipment. France is sad evidence of that. We are tired of dispute and discussion. We want action and we want it now. Outlaw strikes during the period of national emergency! By law insure the speedy and ample supply of arms. Draft the workers if necessary. All the citizens of this country make it a democracy, all the citizens enjoy its privileges. Why shouldn't all the citizens share its responsibilities. One class isn't drafted to serve all the other classes. All classes must be drafted to serve all the citizens of this great country. Anything short of this is not democracy nor will it produce the effort necessary to make us the arsenal of democracy. Let us stop talking about how serious things are. Let us do something about it. Never was there a time when you, our representatives, could and should render such vital service to your country. In the words of Abraham Lincoln, "Let us have faith that right makes might; and in that faith let us to the end dare to do our duty as we understand it."

W. Lewis Weber,
President.

Walter H. Hill,
Secretary.

The Governor's veto message upon Assembly Bill No. 425 was read by the Clerk.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the House of Assembly: June 3, 1941.

I am herewith returning, without my approval, Assembly Bill No. 425 for the following reasons:

The existing law covering the residence requirement of candidates for municipal commission provides that a candidate must be a resident of the municipality for at least two years immediately preceding the election.

This bill amends the law to provide that a candidate may either be a resident for two years "or shall have voted in such municipality at the two general elections for members of the General Assembly immediately preceding his election."

This change in the language of the law unfortunately would make it possible for a person to be elected to the office of municipal commissioner even when he did not actually reside in the municipality.

I do not feel this is a sound practice to permit.

Respectfully submitted,

CHARLES EDISON,
Governor.

Attest:
HARRY GILROY,
Secretary to the Governor.

In the negative were—

Messrs. Artaserse, Beronio, Cooney, Cowgill, Crawford, DeVoe, Hutchins, Kern, Littauer, McCurrie, Rubacky, Vogel, Wilson—13.

The Clerk was directed by the Speaker to carry said bill to the Senate and inform that body that the House of Assembly has passed the same, and requests its concurrence therein, notwithstanding the Governor's objections thereto.

Mr. Howell asked for the record on Senate Bill No. 236, which was furnished by the Clerk.

The Governor's veto message upon Senate Bill No. 236 was read by the Clerk.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the Senate: May 26, 1941.

I am returning herewith, without my approval, Senate Bill No. 236, for the following reasons:

This bill has as its purpose the removing from the classified Civil Service, the position of Election Clerk in the office of the Secretary of State, and the placing of this position in the exempt class. This, I understand, means that this position, which is now vacant and has been for five years, could be filled by appointment rather than by a competitive examination.

If it is necessary to fill this position of Election Clerk, it seems to me to be one that should be kept under the classified Civil Service because it is particularly important to have election functions free from partisan ties and influence.

Respectfully submitted,

CHARLES EDISON,
Governor.

A message was received from the Governor by the hands of his Secretary as follows—and was read by the Clerk:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the House of Assembly: June 16, 1941.

I am herewith returning, without my approval, Assembly Bill No. 359, for the following reasons:

This bill amends the existing law covering the New Jersey State Board of Architects to provide that the secretary-treasurer need not be a member of the Board and gives tenure of office to the present incumbent.

The change providing that the secretary-treasurer not be one of the members of the Board is a good one, as the nature of his duties at times puts him in the conflicting position of being both Judge and Prosecutor. However, I believe as a general principle that an administrative board should not be hampered by having its executive officer removed from its control, to a degree, by placing him under tenure.

Respectfully submitted,

CHARLES EDISON,
Governor.

Attest:
HARRY GILROY,
Secretary to the Governor.

Mr. Haneman asked for the record on Committee Substitute for Assembly Bill No. 281, which was furnished by the Clerk.

The Governor's veto message upon Committee Substitute for Assembly Bill No. 281 was read by the Clerk.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the House of Assembly: June 9, 1941.

I am returning herewith, without my approval, Committee Substitute for Assembly Bill No. 281, for the following reasons:

This bill provides for the appointment of a commission by the Governor within fifteen days after the American Legion selects Atlantic City as the place for holding its 1942 convention, and appropriates fifty thousand dollars ($50,000) to that commission.

The commission is to represent the State of New Jersey at said convention and "provide for a military and other display and entertainment to fittingly advertise and publicize the State of New Jersey."

I wish to reiterate now what I said at the time I filed Assembly Joint Resolution No. 2 in the Library, without my approval. New Jersey would be highly honored if the American Legion selected one of our cities for its annual

convention, but it is not constitutionally possible for the State to appropriate any money either directly or indirectly for this purpose.

I have been advised by the Attorney-General that article 1, section 20 of the State Constitution which provides:

"No donation of land or appropriation of money shall be made by the State or any municipal corporation to or for the use of any society, association or corporation whatever."

Makes an appropriation of this type unconstitutional.

Respectfully submitted,

CHARLES EDISON,
Governor.

Attest:
HARRY GILROY,
Secretary to the Governor.

STATE OF NEW JERSEY,
SENATE CHAMBER,
June 16, 1941.

Mr. Speaker:

I am directed by the Senate to inform the House of Assembly that the Senate has passed the following concurrent resolution:

Senate Concurrent Resolution No. 15.

WHEREAS, The citizens of New Jersey desire to be in the forefront in the nation in co-operating in any measures deemed essential to protect us during any time of national peril, and

WHEREAS, The citizens of New Jersey have always been ready and willing to do more than their share to help the United States prepare for and meet any threat which may endanger it, and

WHEREAS, Some suggestion has been made that it may be necessary to resort to gasoline-less Sundays, and

WHEREAS, Gasoline-less Sundays would inflict a great hardship upon two of the major industries of this State, namely, the resort industry and the fishing industry, and would result in a great monetary loss to the men and women engaged in these industries and greatly aggravate the unemployment problem, and

WHEREAS, It is hoped that careful study of this question of vital importance may result in a decision that gasoline-less Sundays are not absolutely necessary, and

WHEREAS, Resort to such an expedient should not be had until every effort to avoid it has been made through the use of other gasoline savings such as by eliminating gasoline shipments to destinations which later make such cargoes available to totalitarian governments and by the use of ships, purported to be available because of their taking by our government, for the carrying of gasoline cargoes, therefore,

Be It Resolved by the Senate of the State of New Jersey (the House of Assembly concurring):

That the Honorable Harold Ickes be memorialized to thoroughly investigate every alternative before the enforcement of gasoline-less Sundays in order that the citizens of the State of New Jersey, always patriotic and ever ready to make any sacrifice for the good of our country, may be assured that such a sacrifice on their part will be asked only if essential to national safety, and

Be It Further Resolved, That a copy of this concurrent resolution signed by the President of the Senate and the Speaker of the House of Assembly be transmitted to the Honorable Harold Ickes and to the Senators and Representatives from this State in the Congress of the United States.

In which the concurrence of the House of Assembly is requested.

EXECUTIVE DEPARTMENT,
To the House of Assembly: June 9, 1941.

I am returning, herewith, without my approval, Committee Substitute for Assembly Bill No. 220, for the following reasons:

This bill appropriates ten thousand dollars ($10,000) to the Commission on Historic Sites for the acquisition and maintenance of the "Boudinot Home" in Elizabeth, New Jersey.

This building is an historical landmark and would, undoubtedly, be a fine addition to the many other historic sites under the management of this commission.

At the present time, when Federal, State and local governments are daily increasing their expenditures for defense activities, I believe that all possible economies should be made in the ordinary governmental functions and a new one such as contemplated by this bill should not be undertaken.

Respectfully submitted,

CHARLES EDISON,
Governor.

Attest:
HARRY GILROY,
Secretary to the Governor.

Committee Substitute for Assembly Bill No. 220, entitled "An act making an appropriation of ten thousand dollars ($10,000.00) to the Commission on Historic Sites for the acquisition and maintenance of the 'Boudinot Home' on East Jersey street, Elizabeth, New Jersey,"

Was taken up, and Mr. Pascoe moved that the same do pass, the objections of the Governor to the contrary notwithstanding.

Which motion, the ayes and nays being called, was carried by the following vote:

In the affirmative were—

Messrs. Amlicke, Beers, Bertoni, Boswell, Doremus, Freund, Haneman, Hanna, Hargrave, Herbert, Hess, Howell, Kern, Kerner, Lance, Leonard, Lit-

tell, Mahr, McClave (Speaker), McDermott, Muir, Orben, Pascoe, Platts, Savage, Shepard, Sholl, Towe, Volpe, Wegrocki, Williamson, Young—32.

In the negative were—

Messrs. Artaserse, Beronio, Cowgill, Crawford, DeVoe, Ferster, Hand, Hutchins, Kennedy, Littauer, McCurrie, Mudrak, Rubacky, Setzer, Vogel, Wagner, Wilson—17.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the House of Assembly: June 9, 1941.

I am returning herewith, without my approval, Assembly Bill No. 212, for the following reasons:

This bill amends the present law which leaves to the discretion of the governing body of a municipality the amount of pension that a retiring recorder should receive by providing that the pension be "not less than six hundred dollars ($600.00) per year."

I have been informed that in many municipalities the recorder receives a salary of one thousand dollars ($1,000) while in others, a recorder receives six hundred dollars ($600.00) a year, or less.

Under the operation of this bill some recorders would retire on full salary, others on sixty per cent of their salary, and still others on more than their salary.

This would have the effect of working a hardship on small municipalities.

Respectfully submitted,

CHARLES EDISON,
Governor.

Attest:
HARRY GILROY,
Secretary to the Governor.

The following message was received from the Governor by the hands of his Secretary:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
June 23, 1941.

To the Legislature:

The need for a constitutional Convention was one of the paramount issues upon which both the Republican candidate for Governor, Senator Hendrickson, and I agreed.

Not talk, but action, was pledged to the people and reiterated again and again during the course of our respective campaigns.

I was pleased when Senator Hendrickson showed interest in the calling of a Constitutional Convention, by introducing a convention bill early in the 1941 session. I felt this issue was to be treated as above party lines, and that a convention bill would be speedily enacted into law.

Many weeks passed, but Senator Hendrickson's bill has remained buried in committee. In an effort to make progress, Democratic Senator Bowers and Assemblyman DeVoe, several weeks ago, introduced Senate Bill No. 200 and Assembly Bill No. 514, respectively, both calling for a Constitutional Convention. Only last week Assemblyman Williamson (Republican) expressed the impatience of the people by introducing Assembly Bill No. 522, which also provided for the calling of a Constitutional Convention. Thus, Republicans and Democrats alike have tried to force action on this all-important issue. What reason can there be for further delay?

I am informed that the current Legislative session will soon be closed. There has been ample time for thorough study and discussion of this question. The people of this State are entitled to know how their elected representatives stand on this all-important issue.

I, therefore, urge the immediate passage of one of these bills in its present form or with such amendments as may be deemed desirable.

Respectfully submitted,

[SEAL] CHARLES EDISON,
Governor.

Attest:
HARRY GILROY,
Secretary to the Governor.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
June 16, 1941.

To the Senate:

I am herewith returning, without my approval, Senate Bill No. 328, which has as its purpose the establishment of a pension system for State Prison employees, separate and distinct from the present State Employees' Retirement System, for the following reasons:

1. There are approximately 9,700 State employees, including prison employees, for whose benefit the New Jersey State Employees' Retirement System was established in 1921. That system is set up on a sound economical and actuarial basis and provides reasonable benefits for disabled and superannuated employees and special provisions for those killed or disabled in the performance of duty and, therefore, I do not feel that a small group of approximately 450 employees should be singled out for preferential treatment and given more liberal retirement provisions than other State employees.

2. I have been informed that the pension system set up by this bill is not sound because current contributions will cover only a small portion of the cost of the very liberal benefits to be paid and the State will be called upon to make up, annually, the deficiency which will be about 13% of the estimated salaries of this small group of employees, amounting to some $132,000.00.

3. The establishment of this new pension system would result in additional unnecessary expenses to operate the new department which would be set up to administer this system.

Respectfully submitted,

CHARLES EDISON,
Governor.

Attest:

HARRY GILROY,
Secretary to the Governor.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the House of Assembly: June 28, 1941.

I am returning herewith Assembly Bill No. 290, without my approval, because I think merit should be the controlling factor in the appointment of judges rather than political expediency.

Respectfully,

CHARLES EDISON,
Governor.

[SEAL]

Attest:
HARRY GILROY,
Secretary to the Governor.

Mr. Boswell moved that the Governor's veto message be received and spread in full upon the Minutes and that Assembly Bill No. 290, with the Governor's objections thereto, lie over.

Which motion was adopted.

A message was received from the Governor by the hands of his Secretary as follows—and was read by the Clerk.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the House of Assembly: June 28, 1941.

I am herewith returning, without my approval, Assembly Bill No. 139, for the following reasons:

This bill does not have the approval of the Board of Fish and Game Commissioners.

It prohibits the sale in New Jersey of rabbits, whether taken within or without this State. Therefore, it deprives people of New Jersey of a cheap and wholesome food which can be obtained in New York and surrounding states.

Furthermore, this bill in its present form seems to be in direct conflict with section 23:4–28 of the Revised Statutes, which has not been repealed, and which authorizes the sale and possession in the State of New Jersey of rabbits and hares legally killed in another state.

Respectfully,

CHARLES EDISON,
Governor.

Attest:

HARRY GILROY,
Secretary to the Governor.

Mr. Boswell moved that the Governor's veto message be received and spread in full upon the Minutes and that Assembly Bill No. 139, with the Governor's objections thereto, lie over.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the General Assembly: June 28, 1941.

I am herewith returning without my approval Committee Substitute for Assembly Bill No. 182, for the following reasons:

This bill provides for the creation of a Defense Training Survey Commission to ascertain the particular vocational

requirements of defense plants in this State, ascertain the probable number of persons required and makes an appropriation of $2,500.00 to do this work.

There now exists within the New Jersey Defense Council adequate machinery and personnel to properly perform the function intended for this commission.

Respectfully,

[SEAL] CHARLES EDISON,
Attest: *Governor.*
HARRY GILROY,
Secretary to the Governor.

Mr. Boswell moved that the Governor's veto message be received and spread in full upon the Minutes and that Assembly Bill No. 182, with the Governor's objections thereto, lie over.

Which motion was adopted.

A message was received from the Governor by the hands of his Secretary as follows—and was read by the Clerk:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the House of Assembly: June 30, 1941.

I am herewith returning, without my approval, Assembly Bill No. 356, for the following reasons:

This bill in general and vague terms defines certain acts as "subversive and un-American activities" and makes the commission thereof a high misdemeanor, and provides for the forfeiture of property used in connection therewith, at the discretion of the judge.

I am sympathetic with the purpose intended by the sponsors of this bill. Yet I am apprehensive that it could be used to impair civil rights of true American citizens. In our zeal to halt subversive activities we should take care lest we curtail the liberties we are seeking to preserve.

Respectfully submitted,

[SEAL] CHARLES EDISON,
Attest: *Governor.*
HARRY GILROY,
Secretary to the Governor.

Mr. Boswell moved that the Governor's veto message be received and spread in full upon the Minutes and that Assembly Bill No. 356, with the Governor's objections thereto, lie over.

Which motion was adopted.

A message was received from the Governor by the hands of his Secretary as follows—and was read by the Clerk:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the House of Assembly: June 28, 1941.

I am herewith returning, without my approval, Assembly Bill No. 191, for the following reasons:

This bill places into the exempt class of civil service any person holding a position, office or employment under the government of this State who is an attorney at law and who is in the unclassified service and who has been designated as a deputy and who has served with such designation continuously for five years.

While this bill is general in terminology, its application is specific in that it will give civil service protection to one person.

It is detrimental to the civil service system which has been built up in this State, to legislate particular individuals into the security of civil service status while requiring all others to obtain civil service status by competitive examinations.

Furthermore, efficiency and co-operation are thwarted when a department head assumes office and finds that he cannot appoint his own deputy in whom he has confidence but must accept an appointee of his predecessor.

Respectfully,

[SEAL] CHARLES EDISON,
Attest: *Governor.*
HARRY GILROY,
Secretary to the Governor.

Mr. Boswell moved that the Governor's veto message be received and spread in full upon the Minutes and that Assembly Bill No. 191, lie over.

Which motion was adopted.

A message was received from the Governor by the hands of his Secretary as follows—and was read by the Clerk:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the General Assembly: June 28, 1941.

I am herewith returning without my approval Assembly Bill No. 238 for the following reasons:

This bill proposes an untried and uncertain basis for financing the expenditures for the operation of county vocational schools which may be organized in second class counties subsequent to the passage of this act. It proposes to substitute this method for the workable basis provided in existing statutes, which method has proved to be satisfactory over a long period of years in all counties which now provide such schools.

It seems clear that one unfortunate result of the method proposed would be to deny opportunity to attend a vocational school to many pupils who could be benefited by such a program. If the method of making a tuition assessment were made the basis for financing vocational education those school districts which now maintain high schools would be reluctant to send pupils to a county vocational school financed by this method because they would be required to pay tuition for the same pupils whom they could accommodate in the local high school. The benefits of any vocational school when organized should be available on an equal basis to all school districts within the county and should not be confined in practical effect to the school districts which do not operate high schools.

The statutes relating to vocational education which are now in effect and which are the result of careful study of the problem and the long experience which New Jersey has had in this field, appear superior to the proposals made in this bill for the further reason that in those counties which have elected to maintain vocational schools, education is available to all the children on the basis of equality of opportunity for all residents of the county. Equitable financing for special purposes such as vocational education is accomplished through large units and it is well recognized that sound practice tends to reduce rather than in-

crease inequalities in educational opportunity and support. A number of features of this bill violate these principles.

Respectfully,

CHARLES EDISON,
Governor.

ATTEST:
HARRY GILROY,
Secretary to Governor.

Mr. Boswell moved that the Governor's veto message be received and spread in full upon the Minutes and that Assembly Bill No. 238, with the Governor's objections thereto, lie over.

Which motion was adopted.

A message was received from the Governor by the hands of his Secretary as follows—and was read by the Clerk:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the General Assembly: June 28, 1941.

I am herewith returning without my approval Assembly Bill No. 344 for the following reasons:

The provisions of this bill are inconsistent with the statutes and regulations which are in force for the support of the national emergency defense program. The funds for this program are now distributed by the Federal government to the States. The States through their State boards of education make allotments of such funds to those school agencies which maintain such programs.

Moreover, this bill proposes to vest in boards of freeholders in counties of the second class several functions which properly belong to a board of education. In addition to vesting in them the power to name a commission to supervise any emergency vocational school, it gives to the freeholders the power to fix tuition rates, to prescribe courses, and to establish the cost of education. It also empowers the commission selected by the board of freeholders "to obtain from the Federal government or any agency thereof grants in aid of such emergency vocational school." This is in conflict with the acts making appropriations for national emergency defense training and is in conflict with the plan approved and now in operation in the State.

The bill purports to be an emergency measure but it does not designate the period for which the emergency is presumed to exist. The commissioners are to be appointed for a period of three years and are to hold office until their successors are appointed. This seems to indicate that the intent is to administer a so-called "emergency program" on a continuing basis.

This bill cannot be justified on the ground that it would aid in the training of emergency defense workers. On the proper showing of need for emergency defense training in the counties or any areas of them which would be affected by this bill, ample provisions now exist for the establishing of educational programs for such defense training.

Respectfully,

CHARLES EDISON,
Governor.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the Senate: May 26, 1941.

I am returning herewith, without my approval, Senate Bill No. 236, for the following reasons:

This bill has as its purpose the removing from the classified Civil Service, the position of Election Clerk in the office of the Secretary of State, and the placing of this position in the exempt class. This, I understand, means that this position, which is now vacant and has been for five years, could be filled by appointment rather than by a competitive examination.

If it is necessary to fill this position of Election Clerk, it seems to me to be one that should be kept under the classified Civil Service because it is particularly important to have election functions free from partisan ties and influence.

Respectfully submitted,

CHARLES EDISON,
Governor.

Report by Mr. Sholl, as follows:

Tomorrow the State of New Jersey will pay out the sum of $21,000,000.00 from its sinking funds for the retirement of bonded indebtedness of the State. In making this announcement State Treasurer William H. Albright said that this payment covers the full retirement of the $12,000,000.00 Soldiers' Bonus Issue of 1921, the retirement of $6,000,000.00 of Highway Extension Bonds called for payment July 1, 1941, and the payment of $3,000,000.00 of State Road Bonds maturing July 1, 1941. There are still outstanding $7,000,000.00 of Highway Extension Bonds due in 1955 which are being called for payment in cash on January 1, 1942. With their retirement every callable bond issued by the State will have been paid in cash, with the exception of $21,000,000.00 of Unemployment Relief Bonds callable in 1942 and 1943 and bearing a 1¼% coupon.

During the past seven years New Jersey's debt has been steadily reduced. From a peak of $195,000,000.00 in 1935 the gross debt stood at $149,280,000.OO on July 1, 1940, at $116,955,000.00 on July 1, 1941, and on July 1, 1942 it will be further reduced to $98,850,000.00. The net debt has been correspondingly reduced and will stand at $64,000,000.00 on July 1, 1942. Due to the reduction of this debt on July 1, the debt service requirement for interest will be decreased by $1,432,400.00.

"The reduction of State debt nearly $80,000,000.00 over a period of seven years, notwithstanding the issuance of $21,000,000.00 Relief Bonds and the substantial savings in interest charges resulting therefrom, should be a source of satisfaction to taxpayers of New Jersey," said Treasurer Albright. "It has a still further significance because it is representative of the general trend in debt reduction in the municipalities of the State. This over-all municipal debt which, in 1934, amounted to $1,394,000,000.00 was reduced to $949,000,000.00 in 1940 and is gradually being still further reduced."

According to the Treasurer, substantial surpluses have been accumulated in the sinking fund aggregating approximately $12,000,000.00 in excess of actuarial requirements. Next year four more issues will be paid off—Highway Extension Bonds, Emergency Relief Bonds, Act of 1932, Emergency Relief Bonds Act of 1933 and Educational Aid Bonds authorized in 1933. The sinking fund has paid off $26,000,000.00 of debt during this fiscal year and will pay off $13,000,000.00 during the next fiscal year.

"Since 1933," said Mr. Albright, "we have felt it wise to give every possible help, commensurate with safety in investment, to our municipalities in their program of strengthening their debt structure under the Local Bond and Budget Laws. It is gratifying to note the outstanding progress that has been made. Beside reducing their bonded and current debt they have increased the average percentage of current tax collections from 55% in 1934 to 80% in 1940. More than 500 of New Jersey's 568 municipalities are now operating on a cash basis. These improvements have been reflected in many refundings at lower interest costs and in the current market price of New Jersey municipals, thereby increasing the value of bonds held by the State Sinking Fund, banks and other financial institutions.

The Soldiers' Bonus Sinking Fund will liquidate with a surplus of approximately $1,500,000.00, out of which $750,000.00 in cash will be paid the Teachers' Pension and Annuity Fund on July 1st, in accordance with Chapter 123, P. L. 1940.

Mr. Boswell moved that the report be received and filed.

Which motion was adopted.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the House of Assembly: June 3, 1941.

I am returning herewith, without my approval, Assembly Bill No. 23 for the following reasons:

It amends the existing law to provide that in first class counties only, sample ballots shall be mailed by the Commissioner of Registration, while in all other counties the present practice of having this work done by the district boards of election is continued.

If this change is desirable, it should be adopted uniformly and not only in two counties.

I feel that sound revision of the election law can only be attained by legislation that applies uniformly throughout the State.

Respectfully submitted,

Governor.

A message was received from the Governor by the hands of his Secretary as follows—and was read by the Clerk:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the Legislature: July 14, 1941.

The State Labor Mediation Board has been sworn in and is now in the process of setting up its office and staff.

The bill creating the board contained no appropriation, but subsequently fifteen thousand dollars ($15,000.00) was appropriated to cover the initial expenses of the board. This sum of fifteen thousand dollars ($15,000.00) was an arbitrary amount, determined before the board had been appointed and its needs could be fully ascertained.

Now that the board has met and the scope of the work surveyed, the actual needs of running this organization, including rent, salaries, telephone, traveling and incidental expenses have been ascertained.

An analysis of the operations of similar boards in other States has been made by the members of our board, and the State of Michigan most nearly parallels New Jersey in this problem. In that State the sum of forty-one thousand dollars ($41,000.00) has been appropriated to its Labor Mediation Board.

I therefore ask that the Legislature appropriate an additional sum of twenty-five thousand dollars ($25,000.00) to the Labor Mediation Board, so that it will be able to fully and adequately perform the important task for which it was created.

Respectfully submitted,

CHARLES EDISON,
Governor.

Mr. Boswell moved that the communication be received and spread in full upon the minutes.

Which motion was adopted.

A message was received from the Governor by the hands of his Secretary as follows—and was read by the Clerk.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the House of Assembly: July 14, 1941.

I am herewith, returning without my approval, Committee Substitute for Assembly Bill No. 445, for the following reasons:

This bill creates a Milk Control Board which is composed of three persons named in the bill. The chief function allotted to the Board is the selection of a paid State Milk Director.

In view of the general understanding that this Board is predestined to select a Milk Director a member of the Legislature I am impelled to call attention to Article IV, Section V, of the State Constitution, which proclaims:

"No member of the Senate or General Assembly shall during the time for which he was elected, be nominated or

appointed by the Governor or by the Legislature in joint meeting, to any civil office under the authority of this State, which shall have been created, or the emoluments whereof shall have been increased, during such time."

This Constitutional provision was drafted because of a public belief that it was wise to remove from the members of the Legislature any temptation to use their law-making power in the creation of jobs for themselves, which practice would engender all manner of patronage deals and log rolling.

Appointment of a member of the Legislature to this new position of State Milk Director, while it would not be done directly by the Governor or the Legislature in joint meeting, could not be construed as anything but a subterfuge to get around the Constitution. It would certainly lay the proposed milk control system open to proceedings questioning its constitutionality.

The whole principle of separation of executive and legislative powers, which is basic in the State Constitution is also contravened by this method of selecting administrative officers which establish them comfortably free from executive guidance.

In addition, the powers given to the State Milk Director in this bill are far beyond anything for which a need has been publicly demonstrated. The director alone could make regulations, hold hearings, fix prices each step of the way from producer to consumer, issue licenses, prosecute violations of his own orders, and adjust violations for such amounts as he saw fit.

State price regulation in the milk industry came into being as an emergency measure as a result of the 1933 legislation. This form of milk control has been extended several times on the same basis. I believe the legislature has a duty to inquire into the need for such regulation, the lengths to which it should go if necessary, what economic effects it has, what effect on the ability of the public to obtain an adequate supply of this vital food, and such related questions. Only after a public exposition upon such questions should this elaborate price-fixing system be regularly incorporated into the State's economy.

Respectfully submitted,

[SEAL] CHARLES EDISON,
Governor.

The Governor's veto message upon Assembly Bill No. 238 was read by the Clerk.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the General Assembly: June 28, 1941.

I am herewith returning without my approval Assembly Bill No. 238 for the following reasons:

This bill proposes an untried and uncertain basis for financing the expenditures for the operation of county vocational schools which may be organized in second class counties subsequent to the passage of this act. It proposes to substitute this method for the workable basis provided in existing statutes, which method has proved to be satisfactory over a long period of years in all counties which now provide such schools.

It seems clear that one unfortunate result of the method proposed would be to deny opportunity to attend a vocational school to many pupils who could be benefited by such a program. If the method of making a tuition assessment were made the basis for financing vocational education those school districts which now maintain high schools would be reluctant to send pupils to a county vocational school financed by this method because they would be required to pay tuition for the same pupils whom they could accommodate in the local high school. The benefits of any vocational school when organized should be available on an

equal basis to all school districts within the county and should not be confined in practical effect to the school districts which do not operate high schools.

The statutes relating to vocational education which are now in effect and which are the result of careful study of the problem and the long experience which New Jersey has had in this field, appear superior to the proposals made in this bill for the further reason that in those counties which have elected to maintain vocational schools, education is available to all the children on the basis of equality of opportunity for all residents of the county. Equitable financing for special purposes such as vocational education is accomplished through large units and it is well recognized that sound practice tends to reduce rather than increase inequalities in educational opportunity and support. A number of features of this bill violate these principles.

Respectfully,

CHARLES EDISON,
Governor.

Mr. Towe asked for the record on Assembly Bill No. 344, which was furnished by the Clerk.

The Governor's veto message upon Assembly Bill No. 344 was read by the Clerk.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the General Assembly: June 28, 1941.

I am herewith returning without my approval Assembly Bill No. 344 for the following reasons:

The provisions of this bill are inconsistent with the statutes and regulations which are in force for the support of the national emergency defense program. The funds for this program are now distributed by the Federal government to the States. The States through their State boards of education make allotments of such funds to those school agencies which maintain such programs.

Moreover, this bill proposes to vest in boards of freeholders in counties of the second class several functions which properly belong to a board of education. In addition to vesting in them the power to name a commission to supervise any emergency vocational school, it gives to the freeholders the power to fix tuition rates, to prescribe courses, and to establish the cost of education. It also empowers the commission selected by the board of freeholders "to obtain from the Federal government or any agency thereof grants in aid of such emergency vocational school." This is in conflict with the acts making appropriations for national emergency defense training and is in conflict with the plan approved and now in operation in the State.

The bill purports to be an emergency measure but it does not designate the period for which the emergency is presumed to exist. The commissioners are to be appointed for a period of three years and are to hold office until their successors are appointed. This seems to indicate that the intent is to administer a so-called "emergency program" on a continuing basis.

This bill cannot be justified on the ground that it would aid in the training of emergency defense workers. On the proper showing of need for emergency defense training in the counties or any areas of them which would be affected by this bill, ample provisions now exist for the

establishing of educational programs for such defense training.

Respectfully,

CHARLES EDISON,
Governor.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
May 26, 1941.

To the Senate:

I am returning herewith, without my approval, Senate Bill No. 236, for the following reasons:

This bill has as its purpose the removing from the classified Civil Service, the position of Election Clerk in the office of the Secretary of State, and the placing of this position in the exempt class. This, I understand, means that this position, which is now vacant and has been for five years, could be filled by appointment rather than by a competitive examination.

If it is necessary to fill this position of Election Clerk, it seems to me to be one that should be kept under the classified Civil Service because it is particularly important to have election functions free from partisan ties and influence.

Respectfully submitted,

CHARLES EDISON,
Governor.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the House of Assembly: June 30, 1941.

I am herewith returning, without my approval, Assembly Bill No. 356, for the following reasons:

This bill in general and vague terms defines certain acts as "subversive and un-American activities" and makes the commission thereof a high misdemeanor, and provides for

the forfeiture of property used in connection therewith, at the discretion of the judge.

I am sympathetic with the purpose intended by the sponsors of this bill. Yet I am apprehensive that it could be used to impair civil rights of true American citizens. In our zeal to halt subversive activities we should take care lest we curtail the liberties we are seeking to preserve.

Respectfully submitted,

[SEAL] CHARLES EDISON,
Attest: *Governor.*

The Governor's veto message upon Committee Substitute for Assembly Bill No. 445 was read by the Clerk.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the House of Assembly: July 14, 1941.

I am herewith, returning without my approval, Committee Substitute for Assembly Bill No. 445, for the following reasons:

This bill creates a Milk Control Board which is composed of three persons named in the bill. The chief function allotted to the Board is the selection of a paid State Milk Director.

In view of the general understanding that this Board is predestined to select a Milk Director a member of the Legislature I am impelled to call attention to Article IV, Section V, of the State Constitution, which proclaims:

"No member of the Senate or General Assembly shall during the time for which he was elected, be nominated or appointed by the Governor or by the Legislature in joint meeting, to any civil office under the authority of this State, which shall have been created, or the emoluments whereof shall have been increased, during such time."

This Constitutional provision was drafted because of a public belief that it was wise to remove from the members of the Legislature any temptation to use their law-making power in the creation of jobs for themselves, which practice would engender all manner of patronage deals and log rolling.

Appointment of a member of the Legislature to this new position of State Milk Director, while it would not be done directly by the Governor or the Legislature in joint meeting, could not be construed as anything but a subterfuge to get around the Constitution. It would certainly lay the proposed milk control system open to proceedings questioning its constitutionality.

The whole principle of separation of executive and legislative powers, which is basic in the State Constitution is also contravened by this method of selecting administrative officers which establish them comfortably free from executive guidance.

In addition, the powers given to the State Milk Director in this bill are far beyond anything for which a need has been publicly demonstrated. The director alone could make regulations, hold hearings, fix prices each step of the way from producer to consumer, issue licenses, prosecute violations of his own orders, and adjust violations for such amounts as he saw fit.

State price regulation in the milk industry came into being as an emergency measure as a result of the 1933 legislation. This form of milk control has been extended several times on the same basis. I believe the legislature has a duty to inquire into the need for such regulation, the lengths to which it should go if necessary, what economic effects it has, what effect on the ability of the public to obtain an adequate supply of this vital food, and such related questions. Only after a public exposition upon such questions should this elaborate price-fixing system be regularly incorporated into the State's economy.

Respectfully submitted,

[SEAL] CHARLES EDISON,
Governor.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the House of Assembly: July 21, 1941.

I am returning herewith, without my approval, Assembly Bill No. 34.

This bill proposes to except from coverage of the Unemployment Compensation Law agents of insurance and investment companies who are compensated wholly on a commission basis.

Our social security system was established on the premise that workers and employers should unite to provide funds from which workers could get help in their old age and during periods of unemployment. In enacting its Unemployment Compensation Law, the State of New Jersey accepted this premise. Today the trend is to expand rather than contract the coverage provisions of the Federal and State systems.

I am opposed to this bill principally because it would remove from the coverage provisions of the law a large class of workers who, although paid on a commission basis, do receive remuneration for service performed for an employer.

It is not easily seen just what justification there is for making the manner of payment for services rendered the grounds for excepting the services rendered. There is nothing in the nature of a commission as compensation for services rendered which makes the plight of the individual, when detached from service, any different from that of the individual who is paid a flat wage for services rendered. If the agents of insurance and investment companies are to be excepted because they receive their compensation on a commission basis, there would be just as good reason to except the services of individuals in other lines where services are compensated on a commission basis. And if this tendency should persist, employers might be influenced to place as many of their employees as possible on a commission, rather than a wage basis. Such employers could, with equal equity, demand of the Legislature to except the services rendered by all such individuals. The trend in the

country at large is toward greater and wider inclusion, and if the attitude of the proponents of this legislation prevails, the result will be counter to this.

Respectfully submitted,

[SEAL] CHARLES EDISON,
Attest: *Governor.*
HARRY GILROY,
Secretary to the Governor.

Mr. Boswell moved that the Governor's veto message be received and spread in full upon the Minutes and that Assembly Bill No. 34 lie over.

Which motion was adopted.

A message was received from the Governor by the hands of his Secretary as follows—and was read by the Clerk.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the House of Assembly: July 21, 1941.

I am returning, herewith, without my approval, Assembly Bill No. 541 for the following reasons:

This bill sets up the township of Winfield in Union county composed of certain areas in Linden and Clark township which have been acquired by the Federal government for the purpose of erecting housing facilities for workers engaged in defense industries.

There has been much controversy about the construction of defense housing in this area, and I am not unmindful of the reasons which have prompted the opposition to this project.

The paramount objection seems to be the added burden placed on the local governing body for providing the essential community services to the occupants of the project when completed. This objection was a valid one when it was originally raised because it was not certain that Congress would authorize adequate aid to local communities for such services. A Federal statute has been enacted since this bill was introduced.

This Federal statute (Public Law No. 137, approved June 28, 1941) authorizes the Federal Works Administrator

in localities where defense housing is undertaken and there is a shortage of necessary public works or equipment or where the necessary public works or equipment "could not be provided without the imposition of an increased excessive tax burden or an unusual or excessive increase in the debt limit of the taxing or borrowing authority in which such shortage exists" to lease or construct public works or to make grants or loans or both to the local authority so that the necessary public works will be made available.

I believe that this statute makes it possible for the local authorities to work out with the Federal Works Administration a suitable contract covering the numerous problems that would be created by the building of this development.

While I am sympathetic to the feeling of people in settled communities that they should not have a housing project imposed upon them if they do not want it, I also am confident that all Jerseymen want to do anything that will help the essential defense efforts. I am sure that none of us want the impression to be spread around the country that New Jersey intends to discriminate against workers who are engaged in the vital job of building ships for our Navy. Assembly Bill No. 541, I fear, might spread this impression even though the intent behind the bill is only to give proper protection to the interests of the people of Linden and Clark townships. Accordingly, I propose that the Legislature give the authorities of these communities an opportunity to see if an equitable arrangement could be made with the Federal authorities.

Questions under the election laws, as to whether or not the defense workers had the minimum residence requirements to vote might result in this new township being without officials for a considerable period.

There is another objection to this bill which goes to its very validity, which is that it is a "special or local bill' within the contemplation of Article IV, Section 7, Paragraph 9, of the State Constitution and could only be validly enacted after public notice of the intention to apply for its passage had been given. No reference to notice is made in the bill nor is there evidence attached to the bill that notice was given as required by law.

Lest disharmony be created which might hurt one part of our defense effort, I urge the Legislature to reconsider this bill and I urge the local authorities to show still further patience in attempting to work out this problem with the Federal authorities.

Respectfully submitted,

[SEAL] CHARLES EDISON,
Attest: *Governor.*

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the House of Assembly: July 21, 1941.

I am returning, herewith, without my approval, Assembly Bill No. 541 for the following reasons:

This bill sets up the township of Winfield in Union county composed of certain areas in Linden and Clark township which have been acquired by the Federal government for the purpose of erecting housing facilities for workers engaged in defense industries.

There has been much controversy about the construction of defense housing in this area, and I am not unmindful of the reasons which have prompted the opposition to this project.

The paramount objection seems to be the added burden placed on the local governing body for providing the essential community services to the occupants of the project when completed. This objection was a valid one when it was originally raised because it was not certain that Congress would authorize adequate aid to local communities for such services. A Federal statute has been enacted since this bill was introduced.

This Federal statute (Public Law No. 137, approved June 28, 1941) authorizes the Federal Works Administrator in localities where defense housing is undertaken and there is a shortage of necessary public works or equipment or where the necessary public works or equipment "could not be provided without the imposition of an increased excessive tax burden or an unusual or excessive increase in the debt limit of the taxing or borrowing authority in which such shortage exists" to lease or construct public works or to make grants or loans or both to the local authority so that the necessary public works will be made available.

I believe that this statute makes it possible for the local authorities to work out with the Federal Works Administration a suitable contract covering the numerous problems that would be created by the building of this development.

While I am sympathetic to the feeling of people in settled communities that they should not have a housing project imposed upon them if they do not want it, I also am confident that all Jerseymen want to do anything that will help the essential defense efforts. I am sure that none of us want the impression to be spread around the country that New Jersey intends to discriminate against workers who are engaged in the vital job of building ships for our Navy. Assembly Bill No. 541, I fear, might spread this impression even though the intent behind the bill is only to give proper protection to the interests of the people of Linden and Clark townships. Accordingly, I propose that the Legislature give the authorities of these communities an opportunity to see if an equitable arrangement could be made with the Federal authorities.

Questions under the election laws, as to whether or not the defense workers had the minimum residence requirements to vote might result in this new township being without officials for a considerable period.

There is another objection to this bill which goes to its very validity, which is that it is a "special or local bill' within the contemplation of Article IV, Section 7, Paragraph 9, of the State Constitution and could only be validly enacted after public notice of the intention to apply for its passage had been given. No reference to notice is made in the bill nor is there evidence attached to the bill that notice was given as required by law.

Lest disharmony be created which might hurt one part of our defense effort, I urge the Legislature to reconsider this bill and I urge the local authorities to show still further patience in attempting to work out this problem with the Federal authorities.

Respectfully submitted,

[SEAL] CHARLES EDISON,
Governor.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the House of Assembly: July 21, 1941.

I am returning herewith, without my approval, Assembly Bill No. 34.

This bill proposes to except from coverage of the Unemployment Compensation Law agents of insurance and investment companies who are compensated wholly on a commission basis.

Our social security system was established on the premise that workers and employers should unite to provide funds from which workers could get help in their old age and during periods of unemployment. In enacting its Unemployment Compensation Law, the State of New Jersey accepted this premise. Today the trend is to expand rather than contract the coverage provisions of the Federal and State systems.

I am opposed to this bill principally because it would remove from the coverage provisions of the law a large class of workers who, although paid on a commission basis, do receive remuneration for service performed for an employer.

It is not easily seen just what justification there is for making the manner of payment for services rendered the grounds for excepting the services rendered. There is nothing in the nature of a commission as compensation for

services rendered which makes the plight of the individual, when detached from service, any different from that of the individual who is paid a flat wage for services rendered. If the agents of insurance and investment companies are to be excepted because they receive their compensation on a commission basis, there would be just as good reason to except the services of individuals in other lines where services are compensated on a commission basis. And if this tendency should persist, employers might be influenced to place as many of their employees as possible on a commission, rather than a wage basis. Such employers could, with equal equity, demand of the Legislature to except the services rendered by all such individuals. The trend in the country at large is toward greater and wider inclusion, and if the attitude of the proponents of this legislation prevails, the result will be counter to this.

Respectfully submitted,

[SEAL] CHARLES EDISON,
Attest: *Governor.*
HARRY GILROY,
Secretary to the Governor.

STATE OF NEW JERSEY,
SENATE CHAMBER,
July 28, 1941.

Mr. Speaker:

I am directed by the Senate to inform the House of Assembly that the Senate has concurred in the following concurrent resolution:

Resolved by the House of Assembly of the State of New Jersey (the Senate concurring):

That at ten twenty-five o'clock P. M. (Eastern Standard Time) both Houses of the Legislature assemble together for the sole purpose of electing a State Commissioner of Alcoholic Beverage Control for the term prescribed by law.

OLIVER F. VAN CAMP,
Secretary of the Senate.

Mr. Boswell moved that the call of the House be lifted.

Which motion was adopted.

Mr. Boswell moved that the House recess for the purpose of a joint session.

Which motion, upon a viva voce vote, with the ayes and nays being called, was declared adopted.

The House met in joint session with the Senate at 10:25 o'clock P. M. (Eastern Standard Time), for the sole purpose of electing a State Commissioner of Alcoholic Beverage Control for the term prescribed by law.

The House met in joint meeting with the Senate at 10:30 o'clock P. M. (Eastern Standard Time), for the sole purpose of hearing an address by His Excellency, Charles Edison, Governor of the State of New Jersey.

Governor Charles Edison addressed the joint meeting of the Senate and the House of Assembly as follows:

Mr. President,
Mr. Speaker,
Members of the Legislature:

I come before you to urge, as I have urged twice before, that you issue a call for a convention at which representatives of the people of New Jersey may revise our Constitution to give us better and cheaper State government.

Most of the questions which have preoccupied the Legislature at this session have been brought to solution. Some of those solutions are for better, and a good many others, in my opinion, for worse; in any case, the questions are out of the way.

This clearing of decks gives ground for hope that the final, basic question, proposed to the Legislature in its first days by Senator Hendrickson's bill and by my own inaugural address, can be taken up and approval given for a Constitutional Convention.

Talking to you members of the Legislature, expert as you are in the practice of State government, I know there is no need to make the historical arguments for revision of the Constitution. Let this be a frank talk in the State House circle.

You know and I know that the court system of New Jersey—particularly the appeals system—is not set up right and cries out for revision.

We know, too, that all the independent State government boards and the administrative officials who are appointed by one Governor and are free from direction by the succeeding Governor constitute a sort of hereditary bureaucracy that is remote from the responsible government to which the people are entitled.

We know that the system of administrative appointments by the Legislature destroys executive control and keeps the Legislature in a constant patronage snarl.

It is hard for me to come before you and speak bluntly about these things because some people will jump to the conclusion that I am accusing every last one of you of having a hand in some kind of cheap politics. That, of course, is ridiculous. I am pleased to be able to count many of you among my friends.

However, I will say this straight out to the Legislature: You are struggling along under a system that is almost certain to produce session after session of political log-rolling, with the unfortunate consequence that the Legislature often gets a black-eye before the public. Such results and such a reputation are quite foreign to the character of the legislators whom I know best. I am absolutely certain that practically all of you reached Trenton after your first election with your minds full of ideas for good government and your hearts full of high principles.

Believe me, there are Governors who also take office in the same spirit. And, like many of you legislators, they find that they are involved in a system where their attempts to do their duty are constantly checkmated, where every conceivable pressure exists to force them into ineffectual complaisance or into all kinds of political horse-trading. No, I am not challenging the good faith of the great majority of the men and women who run our State government. Nor am I challenging the dutifulness of those thousands of good men and women who work in the lesser capacities in State agencies. I do say, however, that the work of some of them is needless, or misdirected, or devoted to partisan purposes—and that the confused allotment of responsibilities and powers bred by the Constitution is responsible.

Furthermore, my comment about the courts is strictly confined to such foolish arrangements as the one which continuously bars some of the ablest members of the Court of Errors and Appeals from taking part in the review of cases because of the circumstance that they passed upon the same cases in their other capacity of Supreme Court Justices.

What does such confusion of legislative and executive power, such divorcement of administrative agencies from the Governor's control, such a round-about appeals system in the courts come to, in sum? It does not add up to the kind of simple, responsible, effective government which you

and I came to Trenton to try to produce. Instead of that, it is a needlessly complex, disorganized kind of government that offers an ideal field of opportunity for any shrewd, unprincipled trickster entrusted by the people with the least bit of political power.

Many of you honorable legislators have sat around this historic State House on certain Monday nights thoroughly disgusted while two or three of those same political tricksters, not even members of the Legislature, have met in some hotel room and presumed to tell you when you could have a joint meeting and just whom you should appoint.

You know and I know that such performances are a direct consequence of that particular Constitutional fault just referred to—the failure to divide clearly executive and legislative power. You could draw parallels of like dealings and obstructions and inefficiencies throughout the State government which result from other faults in the Constitution.

We all know that our Constitution was a well-done job for its day. We know, too, that there were historical reasons for some of the provisions that cause most of the trouble today. In particular, there was incorporated into the Constitution the old theory of checks and balances, designed to keep any branch of government from being too powerful.

Frankly, you cannot run a multi-million dollar enterprise efficiently by a system of checks and balances that has become all check and no balance. A big State government, such as our own, run in that way simply cannot give the public as good service as is wanted. The system of checks and balances has as its chief purpose the holding of a check-rein on the executive and the chief reason for it was that the people were afraid that a Governor might become as irresponsibly powerful as one of the old kings.

Some of you may have hesitated to call a Constitutional Convention and throw overboard part of that wasteful, inefficient system of over-checks and under-balances because you were afraid that the Governor would thereby attain too much political power. To many of you who have such fears, I say this: I have no desire to go in for tyranny or to play the part of a King Charles. I hate tyranny in any field of human activity.

I do not ask that a Constitutional Convention be held and stronger administrative powers be given to the Governor as a measure for my own aggrandizement. To make that clear, I specifically suggest that any such additional powers be allotted to the Governor subsequent to the conclusion of my term in January, 1944.

Some of the legislators may be asking about the future of their own hard-won political careers under a revised Constitution. For instance, will their places in the Legislature be voted out of existence? I see no reason why this should happen. For my own part, I would advocate doing away with the two-House Legislature only if the Legislature continues to hold onto the power to make administrative appointments.

If the Legislature must hold that power, then there should be a change to a single House for the specific purpose of reducing the number of elements involved in such job-trading as has developed for the last year and a half over the ABC commissionership. But if that administrative power of appointment is placed with the executive, then I consider that the most forceful reason for changing the two-House Legislature would have been eliminated.

In connection with legislative representation, I once made a comment about acres. Do you remember? Well, what I said about the two-House Legislature goes also for the acreage representation in the Senate. If the Legislature were confining itself to the law-making function, and the administrative appointments were to be made by the Governor, I consider that the system of county representation in the Senate might wisely be continued.

I reiterate my feelings about the other Constitutional changes that should be made affecting the Legislature. In any general Constitutional revision, there certainly should be longer terms and reasonable compensation for the legislators.

However, this discussion of the political effect upon the legislators of a Constitutional Convention is a digression. I am convinced that deep inside every one of us is a desire to rise above all partisan and personal considerations and give New Jersey the best government it can have. With this conviction, I ask your support to put through one of the several Constitutional Convention bills which are before this Legislature.

To the Republicans, who have a majority in both Houses of the Legislature, I make a particular plea. You Republicans have the votes. You are pledged to give the State a better organized government.

As I said at the outset, this is a plain talk in the State House circle. Everyone of us here knows that the decision to call a Constitutional Convention can be reached in one hour in the Republican caucus. So I say to you Republican legislators: Stand up and vote for a simpler and better government of New Jersey.

Let this 165th Session of the New Jersey Legislature issue a call to a Constitutional Convention. Let us put across in bipartisan unity a revision of the Constitution to produce simpler, more responsible, more efficient State government.

I promise you—and I am backed by the judgment of many minds and many years—that at least two devoutly desired objectives will be achieved by the public if you call a convention: The taxpayers will get a better break for their money and a lot of political tricksters will have to stop running around under the grass.

Mr. Hanna offered the following resolution, which was read by the Clerk and adopted:

WHEREAS, The declaration of war by the United States of America makes it essential for all of the American people to work shoulder to shoulder for the preservation of our great heritage; and

WHEREAS, The State of New Jersey is one of the leading centers of industrial production in the arsenal of democracy; and

WHEREAS, The New Jersey State Board of Mediation, the agency of this State government to which the task of maintaining industrial peace is delegated, has this date adopted the following resolution:

"The attack on the United States by Japan has created a situation which demands complete harmony in labor-management relationships, a condition which is more nearly true today in New Jersey than at any time within recent months.

"In order that these relationships be maintained and strengthened, the New Jersey State Board of Mediation urges that management and labor throughout the State, settle in the most expeditious manner possible, between

themselves *by direct conciliation,* all differences and disputes. The Mediation Board is prepared at all times, on request, to join such conferences as a friend to both parties, and by *mediation* to attempt to secure harmonious relations. Should mediation break down, the Board is then prepared to appoint, or to assist the disputants in selecting, neutral arbitrators for the purpose of arbitrating the controversy. Especially, all stoppages of work due to industrial disputes should be avoided. Even stoppages not involving national defense contracts are disruptive of national morale, and in many cases indirectly affect production of military goods.

"The American people will no doubt look with great favor upon public declarations that mediation and arbitration will be resorted to before stoppages are called, either by labor or by management, and the Board is prepared to take steps to invite such pledges;" therefore

Be It Resolved, That the House of Assembly does hereby reiterate this thought and urges every person concerned with industrial production in the State of New Jersey to work toward the goal of complete labor-management harmony; and

Be It Further Resolved, That copies of this resolution, signed by the Speaker and attested by the Clerk, be sent to the President of the New Jersey Federation of Labor, to the President of the New Jersey Industrial Council, to the President of the New Jersey State Chamber of Commerce, and to the New Jersey State Board of Mediation.

MY DEAR MR. SPEAKER:

On November 4th last, I was elected a member of the Board of Chosen Freeholders of Bergen County. I anticipate taking the oath of office as Freeholder on January 2nd next. My term of office as a member of the House of Assembly extends until January 13th next. I am, therefore, hereby tendering my resignation as a member of the House of Assembly to take effect immediately.

I have enjoyed and shall always remember my five years of service in the Legislature. To my many friends in the Legislature, State officials and employees, I offer assurances of my kindest regards and best wishes.

Sincerely yours,

A message was received from the Governor by the hands of his Secretary as follows—and was read by the Clerk:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the Legislature: December 22, 1941.

The United States is fighting for its existence against the most heavily armed and desperate group of powers ever to threaten our democracy. We enter this conflict grimly, knowing full well that we are going to have to pay a tremendous toll of lives and property for our liberty.

The treacherous blow at Pearl Harbor has united the people of New Jersey, as it has our fellow-citizens in all the States, in a determination to win this war and to lay aside all personal differences until it is won. In the State government, we are all happy to note, there is a corresponding feeling of harmony and unity.

The Republican State Chairman, H. Alexander Smith, has sent me a most heartening assurance of co-operation in the defense effort, and members of the Legislature have called upon me with equally heartening assurances of support. In this spirit, we can give the people of New Jersey

what they want and what they deserve, which is effective organization and management of all the civilian defense efforts.

A committee of the Republican legislators has informed me that it is the feeling of their colleagues that I, as Governor, should be placed in the position of full responsibility for the various defense efforts in the State and that to prosecute this task I be given full power and authority.

I wish to thank the members of the Legislature for this attitude and to agree with them that there will be no playing of politics with defense.

To carry out the policy that the Governor should have power and responsibility to administer the defense efforts of the State, I ask passage in the Assembly of the bill which was passed at the last meeting of the Senate recreating the Governor's war power act of 1917.

To get the defense job done right, the legislative leaders and I are agreed that among the Governor's powers must be the authority to use the personnel and requisition the resources of all State agencies, including all branches of the State Militia, the State Police and the State Defense Council.

Senate Bill No. 480, I am advised, will give the Governor this responsibility and power and any other power convenient or necessary to administer all defense efforts within the State.

At this time I wish to commend the excellent planning work which has been done by the State Defense Council in the last year and by Budget Commissioner Audley H. F. Stephan as Chairman of the Council. A fine job has been done in preparing for the present emergency.

Certain proposals in connection with the powers of the State Defense Council are now being studied. I am not asking the Legislature to pass any bills of this nature today. It is my recommendation that no new legislation be passed in connection with defense unless experience under the Governor's war power bill shows the need for it.

New Jersey will have to bear a heavy burden in the civilian security effort. It appears that large tasks will have to be undertaken in guarding public property against the danger of crippling sabotage. All the municipalities, as well as the State agencies, will have to carry much larger burdens of a protective nature than ever before.

Large costs will have to be borne by the State. For example, simply to pay the costs of the present number of State Guardsmen who are on active duty now—about one-third of the total force, will cost more than one million dollars a year. This is only one phase of the additional costs.

It may be that the Federal Government will provide some aid financially to deal with these expenses, but the wise course will be to prepare to bear the burden here until some different policy is adopted from what now exists, the present policy being that the State and its subdivisions are expected to do these guard jobs themselves.

Other heavy expenditures are going to fall upon the State, which it must undertake now. The organization of the State Police is not large enough to carry all the necessary missions. The Legislature is receiving today a bill for the increase of the State Police by one hundred men. It is estimated that $300,000 or more will be needed for salaries, transportation and maintenance of these men. In addition, a good deal of costly equipment will have to be purchased to make them effective.

The course of wisdom appears to be to hold down all other expenditures for the moment, until agreements can be worked out as to what expenditures are now vital for defense purposes. I believe the Legislature and the Governor should work together closely in programming these expenditures.

In view of these prospective large expenditures, and in view of the State's present cash position, leaders of the Legislature have worked out with me an understanding to conserve assets and revenues available and anticipated. I feel that this is a very sound policy which the legislative leaders are adopting.

Despite the grave thoughts which are occupying all of us at this time, we can still pause for an exchange of the season's greetings. I wish all the members of the Legislature a happy Christmas and a pleasant New Year.

Respectfully submitted,

[SEAL] CHARLES EDISON,
Attest: *Governor.*
HARRY GILROY,
Secretary to the Governor.
