1. An appointing authority is authorized to:
 - a. Appoint a new employee at a salary step up to and including the fourth step of the salary range to which his/her class title is assigned.
 - b. Grant a salary increase to an employee who has a substantiated, bona fide offer of employment from an employer other than the State of New Jersey at a salary which exceeds the present salary of the employee, and whose loss to his/her department will be detrimental. Such increase in salary may not exceed three steps in the salary range to which the employee's class title is assigned.
 - c. Appoint an employee at the appropriate step of the salary range, thereby precluding any reduction in salary as a result of an interdepartmental transfer or appointment.
 - d. Take those steps necessary to correct administrative errors which result in situations wherein employees are improperly compensated.
2. The salary adjustment committee has authorized the Director, Division of Budget and Accounting to:

Approve informally the request of an appointing authority to appoint a new employee at a salary above the fourth step of the salary range to which his/her class title is assigned, subject to final formal approval by the salary adjustment committee.
3. The salary adjustment committee will continue to reserve for its formal approval the following:

4. The following conditions shall be met by an appointing authority requesting action provided in section I:

a. Any CS21 to accomplish an action under section I shall include in item 36 the statement "This SAC action is made in accordance with Salary Administration Memorandum No. 33-76".

b. No action shall be taken under section I with an effective date prior to April 15, 1976.

c. Any action taken under section I shall be on a current basis. In no case, shall such action be retroactive for a period longer than four weeks prior to the stamped date of receipt of the CS21 in the Department of Civil Service.

d. The authority granted to departments in section I of this SAM is optional with the appointing authority.

e. Any action taken under this authorization shall not in any way constitute a discriminatory practice.

f. For any request under section I or II, the agency shall certify that funds are available within its salary account and shall not require the agency to make a supplemental budget request or request a transfer of funds between major accounts to achieve the hiring or salary adjustment of any employee.

g. In applying the provisions of this memorandum all resulting appointments shall not in any way be construed to imply circumvention of merit system certification procedures.

h. No later than January 21, 1977, each department shall submit to the salary adjustment committee, on a form to be provided, a report of all SAC actions taken by an agency under section I for the period April 15, 1976, through December 31, 1976. Such report shall be submitted thereafter at the end of each fiscal year and no later than July 15. The report shall include the following:

(5) A listing of the number of interdepartmental appointments requiring application of this provision by name of incumbent, title and cost of adjustment above authorized salary; and

(6) A listing of administrative errors corrected.

When the Director, Division of Budget and Accounting has determined that an agency is misusing or abusing the authority contained therein, the authority may be revoked or suspended in whole or in part.

An order adopting these amendments was filed on September 30, 1977, as R.1977 d.371 (Exempt, Procedure Rule). Take notice that these amendments are not subject to codification and will not appear in Title 4 of the New Jersey Administrative Code.

COMMUNITY AFFAIRS

DIVISION OF HOUSING AND URBAN RENEWAL

CONSTRUCTION CODE ENFORCEMENT OFFICE

Notice of Interpretations of Code

Take notice that, the Department of Community Affairs has issued the following two interpretations regarding the Uniform Construction Code:

Interpretation

Section 5:23-2.5 of the New Jersey Administrative Code sets the standards for plans required to be submitted to the construction official in order to obtain a construction permit.

The Commissioner has determined that the plan requirements for a one family residence shall be as follows:

The application for a permit for a single-family residence shall be accompanied by at least two copies of plans drawn to scale, with sufficient clarity and detailed dimensions to show the nature and character of the work to be performed. Plans submitted shall not be required to show more detail or include more information than shall be reasonably necessary to assure compliance with the requirements of the Code and these regulations.

Plans containing the following information shall be considered to meet the above requirements:

1. Site Diagram: A site plan showing size and location of all new and existing construction on the site, with distances from lot lines. Indicate new building services, location and size.

2. Construction Plans: A scale drawing showing foundation, floor plans and elevations, including structural framing notes for all floors, ceilings and roofs. Only girders and columns need be identified and located on the plan. Included shall be a loading schedule indicating the live loads for which the structure is designed.

3. Details:

A. Section: A cross-section through one typical wall showing construction details from footing to and including roof framing. This shall indicate all construction materials used, including roofing, vapor barriers, sheathing type and thickness, insulation type and thickness, windows, glazing type if other than standard window glazing is used, interior finish material, floor type and thickness, structure, foundation and footings. Decorative material shall not be required to be shown except when they contribute to the structural integrity of the section.

B. Electrical Details: Indicating lighting, receptacles, motors and equipment, smoke detectors, service entrance locations, size and type (overhead or underground), panel size, location, number of proposed circuits. A symbol legend shall be included.

C. Plumbing Details: Indicating the locations of fixtures and a note or table listing water and drainage pipe sizes; plus a note stating if sewage disposal is to public sewer or individual septic system.

D. Mechanical Details: Indicating type of heating system, location, size and type of heating unit, distribution method and design rates, location of fire dampers and safeguards, and location, type and size of flue.

4. Architects or Engineer Seal: The drawings shall bear the seal and signature of the architect or engineer who prepared the plans and is registered in the State of New Jersey. The seal and signature shall appear on each sheet of each copy of plans submitted. The construction official shall waive the requirements for sealed plans in the case of a single-family homeowner who prepared his own plans for the construction, alteration or repair of a structure used or intended to be used exclusively as his private residence and is to be constructed by himself, providing that the owner submit an affidavit attesting to the fact that he has prepared the plans, and provided further that said plans are in the opinion of the construction official and appropriate subcode officials legible and complete for purposes of ensuring compliance with the regulations.

5. Construction plans, and electrical plumbing and mechanical details may be shown on more than one drawing.

6. Where a prototype plan has been approved pursuant to existing regulations, only a site diagram and reference to the approved prototype plan is required.

7. The construction official, upon the advice of the appropriate subcode official, may waive any or all of the above requirements for plans when the work is of a minor nature.

Pursuant to authority of N.J.S.A. 52:27D-119 et seq., as amended, the above interpretations are to be considered as binding upon all code officials.

William M. Connolly
Acting Director
Division of Housing and Urban Renewal

Interpretation

Section 300-22(c) of the electrical subcode refers to materials permitted in plenums.

The commissioner has determined that a plenum as referred to herein is an air compartment or chamber to which one or more ducts are connected, and which forms part of an air distribution system. This includes the space above a suspended ceiling when supply or return air passes through such space. Therefore, all wires and cables including communication cables used in these spaces must be of a type listed in Section 300-22(c).

Section 300-22(c), Exception No. 2 refers to areas where the prime purpose is not air handling.

The Commissioner has determined that the intention of Exception No. 2 is to exclude from the requirements of 300-22(c) those areas occupied by people. When any space above a suspended ceiling is used in the distribution of air, that use becomes the primary purpose of the space within the context of the Exception No. 2.

Section 300-3(d) Exception refers to conductors having inherent fire-resistant and low-smoke producing characteristics.

The Commissioner has determined that communication cable, including telephone cable, which is approved by a recognized testing laboratory as a low smoke producing cable may be used in plenums in lieu of the methods listed in Section 300-22(c).

Special Exception: The commissioner has determined that since it is our understanding that the Public Utility Commission has exempted New Jersey Bell Telephone Company from compliance with the National Electrical

Code, telephone cables need not be in compliance with the National Electrical Code in new construction where the building permit was issued prior to January 1, 1977. Telephone cables used in any construction for which the permit was issued after January 1, 1977 must comply with the National Electrical Code.

Pursuant to authority of N.J.S.A. 52:27D-119 et seq., as amended, the above interpretations are to be considered as binding upon all code officials.

William M. Connolly
Acting Director
Division of Housing and Urban Renewal

This Notice is published as a matter of public information, is not subject to codification and will not appear in Title 5 of the New Jersey Administrative Code.

(b) Subject to approval by the Commissioner of Education, the district board of education may contract with public or private agencies, other than a church or sectarian school, for the provision of the auxiliary services.

(c) The district board of education shall furnish the auxiliary services on an equal basis to pupils enrolled in both public and nonpublic schools provided that in any year no district shall be required to make expenditures for the purposes of N.J.S.A. 18A:46A-1 et seq. in excess of the amount of State aid received pursuant to N.J.S.A. 18A:46A-1 et seq. for that year.

(d) If the provision of services pursuant to the 18A:46A-1 et seq. requires transportation, the district board of education shall provide for such transportation and the cost shall be paid from State aid received by the district pursuant to N.J.S.A. 18A:46A-1 et seq.

6:28-5.4 Provision of services

(a) The bases for determining the eligibility of a nonpublic school pupil for auxiliary services shall be criteria equivalent to those used by the district for determining the eligibility of public school pupils for the same service in accordance with N.J.A.C. 6:8-3.4(a).

(b) Personnel providing any auxiliary service under N.J.S.A. 18A:46A-1 et seq. must meet the qualifications required of personnel providing the same service in the public schools of the State, including appropriate certification, but shall not be a member of the staff of any nonpublic school.

4. The determination as to where auxiliary services will be offered will depend upon, but not be limited to, such factors as the distance between the public and nonpublic school, safety elements involved in travel, and

the adequacy of accommodations in public schools and public centers. The commissioner shall approve all such locations, using the aforementioned criteria as a basis for determining where such pupils can best be served.

5. Public and nonpublic school pupils may be intermingled when such an arrangement provides the service in a more effective and/or efficient manner.

6. The boards of education of two or more districts must apply to the commissioner for approval of a joint project to provide one or more of the auxiliary services defined in N.J.S.A. 18A:46A-1 et seq.

6:28-5.5 State aid

(a) Each district's total apportionment of State aid for auxiliary services defined in N.J.S.A. 18A:46A-1 et seq. for the succeeding school year shall be determined as follows:

2. The number of nonpublic school pupils residing in the district who are expected to receive each auxiliary service shall be determined;

3. The Statewide average cost for auxiliary services shall be multiplied by the number of nonpublic school pupils expected to receive each auxiliary service.

6:28-5.6 Fiscal management

(a) All district boards of education shall maintain their nonpublic auxiliary services project accounting on an encumbrance basis. Separate general account control "Nonpublic auxiliary services" shall be maintained on the nonpublic auxiliary services activities. The coding of line account expenditures shall be under "Special projects" No. 1170 group account, "Nonpublic auxiliary services". The district board of education must maintain separate distribution costs on each nonpublic auxiliary service activity in the following accounts: Compensatory education No. 1171, English as second language No. 1172, Supplementary instruction services No. 1173 and Home instruction services No. 1174.

(b) Nonpublic auxiliary services expenditure records will be audited locally. Such audits will be done as part of the district board's regular audit procedures prescribed by law and regulation. The local audit report must include separate financial schedules or statements identifying receipts and expenditures applicable to each nonpublic auxiliary service fund. All records relating to expenditures and receipts shall be accessible and intact in accordance with the "Records retention schedule for New Jersey school districts".

6:28-5.7 Procedures relating to noncompliance

(a) If the commissioner determines that a district board of education is in noncompliance with the provisions of N.J.S.A. 18A:46A-1 et seq. or its regulations, he shall order the district board of education to show cause why corrective action should not be taken.

(b) The commissioner shall take appropriate remedial action if, after a plenary hearing, it is determined that such action is necessary.

6:28-5.8 Reports required

(a) At the close of the school year, the district board

of education shall report to the State Department of Education on the total costs of each nonpublic auxiliary services activity. In the event that the expenditures incurred by the district board of education were less than the amount of State aid received, the district's State aid in the second subsequent year will be reduced by the amount of the unexpended funds.

(b) At the close of the school year, the district board of education shall submit to the commissioner a report describing the auxiliary services provided by the district board of education pursuant to 18A:46A-1 et seq. The report shall be completed in a manner prescribed by the commissioner and shall include, but not be limited to, such information as the type of auxiliary service provided, numbers of nonpublic school pupils served, frequency and/or amount of the services, and facilities utilized.

6:28-5.9 Responsibility of the county superintendent

Proposed Rules on Long-Term Care Facilities To Provide Beds for Indigents

Dr. Joanne E. Finley, Commissioner of Health, pursuant to authority of N.J.S.A. 26:2H-1 et seq., proposes to adopt new rules concerning the requirement that long-term care facilities provide beds for indigents as a condition of licensure.

Full text of the proposal follows:

SUBCHAPTER 14. BEDS FOR INDIGENT PERSONS

8:30-14.1 Purpose

The purpose of these rules is to protect and promote the health and welfare of those indigent persons whose health is now or will be in danger because of the acute long-term care bed shortage for the indigent in the State by requiring all long-term care facilities as a condition for renewal of or for issuance of an operating license to accept and care for indigent persons.

8:30-14.2 Scope

All long-term care facilities under the jurisdiction of the Department of Health are subject to these regulations.

8:30-14.3 Definitions

"Department" means the Department of Health.

"Indigent person" means a person participating in the State Medicaid program and certified as needing nursing care or a person who could meet the eligibility requirements for receiving nursing care under the State Medicaid program.

"Long-term care facility" means an institution or a distinct part of an institution which is licensed by the

State Department of Health to provide health care under medical supervision for 24 or more consecutive hours to two or more patients who are not related to the governing authority or its members by marriage, blood or adoption. A long-term care facility may be either a skilled nursing facility, where patients receive 2.75 hours of nursing care daily, or intermediate care facility, where patients receive fewer than 2.75 hours of nursing care daily.

8:30-14.4 Procedures; renewal of license; initial application for a license

(a) An applicant seeking or renewing a license as a long-term care facility may be required by the department to make available a percentage of its beds to indigent persons. Such requirement shall constitute a condition of licensure. The department shall notify the facility of the requirement to make available a percentage of its beds to indigent persons 90 days prior to the renewal of a license or upon application for a license for a new facility.

(b) In determining whether to require a long-term care facility to provide a reasonable number of its beds for indigent care the department shall consider but not be limited to the following information:

1. Whether there currently exists a long-term care bed shortage for indigent persons and if so, the extent and location of the shortage.

2. Geographic origin of the indigent person.

3. The length of time indigent persons must await for placement of long-term care facility.

4. The costs of providing care to indigent persons in need of nursing care to other health care providers.

5. Whether the nursing home would be able to make a just and reasonable rate on equity if required to accept and care for indigent persons.

i. Any nursing home which feels it cannot make a just and reasonable rate on equity if required to accept indigent persons may request an administrative review of that decision at least 60 days prior to the date for renewal of its license at which time the facility shall submit to the department a detailed cost analysis substantiating its claim.

ii. If, after an administrative review of the decision, the department finds against the long-term care facility, it shall notify the facility within 30 days of the date for renewal of its decision to revoke the license of the long-term care facility.

iii. Consistent with the Administrative Procedure Act and Chapter 136 (Health Care Facilities Planning Act of 1971) the long-term care facility may ask for an administrative hearing within 30 days of the revocation notice from the department.

iv. Applicants for licensure of a new facility shall have the same opportunity for an administrative review and for a hearing on the non-issuance of a license.

8:30-14.5 Obligations and rights of the long-term facility

(a) If the department imposes a requirement on the application for or renewal of a license, the long-term care facility in question shall make each succeeding vacant bed available to indigent persons until it reaches the maximum number of indigent persons required by the department.

(b) A nursing home shall have the right to refuse to accept indigent patients if:

1. The home does not provide the type of services appropriate for the patient's needs; or

2. The patient may present a danger to himself or others if placed in the home. This right of refusal shall

not relieve the nursing home of its obligation to fill the vacancy with an indigent person.

(c) The long-term care facility shall be entitled to a reasonable rate for Medicaid patients consistent with Cost and Rate Evaluation (CARE) System administered by the department on behalf of the Medicaid program.

8:30-14.6 Placement

(a) The department shall not be responsible for placing indigent persons in long-term care facilities.

(b) If the department imposes a requirement on the application for or renewal of a long-term care facility license it shall forward its determination to the State Medicaid office and shall make its determination available upon request to any governmental agency, provider, provider association, planning agency, citizen or citizen's group.

8:30-14.7 Remedies

(a) The department shall receive complaints regarding violations of these regulations from any source which may attempt unsuccessfully to place an indigent person.

(b) The department may revoke, suspend or take any other appropriate action against the license of a long-term care facility for intentional and willful violation of these regulations.

(c) The department may refuse to issue a temporary permit or license to any applicant for long-term care facility for intentional and willful violation of these regulations.

Interested persons may present statements or arguments in writing relevant to the proposed action on or before November 30, 1977, to:

David A. Wagner

Notice on Full Text of Rule Concerning Reports to Relate Ancillary Service Charges with Hospital Case-Mix

Take notice that, the Notice of Adoption concerning reports to relate ancillary service charges with hospital case-mix (See: 9 N.J.R. 467(c), R.1977 d.361) indicated that the rule adopted had substantive changes made in comparison to the proposed rule which was printed August 4, 1977, at 9 N.J.R. 363(a).

Full text of the adopted rule follows:

8:31-16.17 Reports to relate ancillary service charges with hospital case-mix

(a) By November 1, 1977, each hospital included under the provisions of N.J.S.A. 26:2H-1 et seq. shall submit to the Department of Health a list of the individual items and procedures charged for within an individual ancillary

service for each ancillary service cost center as defined by the Standard Hospital Accounting and Rate Evaluation (SHARE) Manual. Thereafter, information which may affect this list for a given ancillary cost center, including newly-billed services and changes in billing practices, shall be furnished to the department in a timely manner prior to implementation. No information with respect to the price or price change concerning any item need be furnished.

(b) Each hospital shall submit to the Department of Health for each patient discharged a record of the total charges incurred by the patient within an individual ancillary service for each ancillary service cost center defined by SHARE. In addition, the hospital shall submit a summary of total routine charges, a summary of total miscellaneous charges and a summary of total charges for each patient. Such information shall be submitted pursuant to the timetable set forth in subsection (c) of this section.

(c) On November 1, 1977, the commissioner shall designate three classes of institutions:

1. Class I institutions shall consist of all hospitals which either possess or utilize electronically-assisted data processing systems for patient billing. Such institutions shall submit the required data beginning with patients discharged on December 1, 1977.

2. Class II institutions shall consist of all institutions otherwise considered Class I which, because of unique circumstances, will not be able to submit in an effective and efficient manner the required data beginning December 1, 1977. An application to be considered Class II shall be submitted by such institutions no later than October 20, 1977 and must set forth: i. A description of the unique circumstances; and ii. A detailed plan to achieve effective and efficient compliance beginning with patients discharged on March 1, 1978, but in no event later than June 1, 1978.

3. Class III institutions shall consist of all hospitals which neither possess nor utilize electronically-assisted data processing systems for patient billing. On or before October 20, 1977, all such institutions shall submit a report setting forth their current data processing status. On or before June 1, 1978 the department and each Class III hospital shall jointly develop a plan for effective and efficient compliance no later than September 1, 1978. Any Class III institution may apply to the commissioner for permission to begin submitting data as soon as they are able to provide such data efficiently and effectively. Such data may be submitted beginning with discharges on December 1, 1977.

4. The department may waive this requirement with respect to any institution unable to provide data in an effective and efficient manner.

5. Unless otherwise specified by the department, hospitals shall submit the data required above in a computer processable input medium and format on a quarterly basis within 60 days of the end of the quarter. Hence, Class I hospitals shall submit such data by February 28, 1978, for patients discharged on or before December 31, 1977; the next report due by May 30, 1978, for patients discharged on or before March 31, 1978, and so forth. Class II and III institutions shall submit the required data in a similar manner beginning 60 days after the quarter during which compliance is achieved.

(d) Patient charge records shall include a patient number, a hospital number and patient's date of discharge identical to that provided on that patient's medical abstract in order to facilitate computer linkage of the two data bases, as required by N.J.A.C. 8:31-20.2(h).

(e) Reporting and statistical options rules are:

1. Reporting options: Hospitals shall have the option of expanding their medical abstract reporting format to incorporate the required billing information. By November 20, 1977, each hospital electing this option shall so inform the department.

2. Statistical options: Hospitals shall have the option of reporting statistical units which measure relative resource consumption by ancillary service subject to department approval of a written application to exercise this option setting forth the choice of appropriate statistical units and adequate auditing safeguards.

(f) Each hospital shall identify in its SHARE budget submission, and the Department shall recognize, the reasonable costs incurred as a direct result of compliance with this regulation.

This Notice is published as a matter of public information.

Proposed Amendments to Non-Credit and Credit Course Auditing Procedures and Definitions

The Board of Higher Education, pursuant to authority of N.J.S.A. 18A:64A-7, proposes to amend its rules concerning the definition of noncredit courses, auditing procedures for noncredit courses and auditing procedures for credit courses. Such proposed rules would supersede the previous rule changes proposed at 9 N.J.R. 121(c) and 9 N.J.R. 174(a).

Full text of the proposed rules follows:

9:4-3.57(b)1.iv. Noncredit students, for purposes of State funding, mean students enrolled only in noncredit remedial, developmental, general education development and adult basic education courses.

(1) Remedial courses are courses in reading, writing and arithmetic skills designed to raise student competence in these skills to the college level.

(2) Developmental courses are courses designed to develop occupational skills geared toward securing initial employment or in upgrading occupational skills. In planning for the offering of developmental courses, colleges must assess formally the needs of their service area and the offerings of other public institutions.

(3) General education development courses are courses designed to prepare students for New Jersey high school equivalency diplomas.

(4) Adult basic education courses are courses designed to teach reading, writing and arithmetic skills to adults whose inability to speak, read or write the English language constitutes a substantial impairment to obtaining or retaining employment commensurate with their abilities.

(5) For noncredit courses under this definition, instruction is to be given by a county college in an appropriate educational environment, students must be formally registered, attendance must be taken, degree credit may not be given upon completion and the session or sessions to be funded must be entirely instructional in nature.

(6) The county college shall maintain permanent documentation for audit purposes, including, but not limited to, student registration, student attendance and course descriptions for noncredit courses eligible for State funding.

(7) Student registration records for noncredit courses eligible for State funding shall be by course and shall include, at a minimum, the student's name, address and Social Security number.

(8) The FTE calculation for a noncredit course shall be based upon only those students who are formally registered and in attendance at the institutional session to be selected by the college for the FTE count.

(9) Course descriptions for noncredit courses eligible for State funding shall be made available to auditors who shall submit sample course descriptions to the Department of Higher Education with the year-end audit. The Department of Higher Education may review all the noncredit course descriptions on file at any college. The county college shall have the burden of establishing that a noncredit course is a course eligible for State funding under this definition. The decision to approve or reject a noncredit courses as one which qualifies for State funding rests with the Department of Higher Education.

9:4-3.57(b)5. In preparing the audited schedule for full-time equivalent enrollments for credit students the audit firm must adhere to the following:

i. The auditor shall review the rules concerning enrollment data in N.J.A.C. 9:4-3.57(b).

ii. The college shall establish a clearly defined audit trail to enable the auditor to certify the full-time equivalent student count reported by the colleges. The auditor shall examine the data used to calculate the reported number of full-time equivalent students. The auditor shall certify that the documentation underlying the enrollment and full-time equivalent student calculation is valid and adequate for certification of the FTE schedule.

iii. Full-time equivalent student credit and contact hours shall be reconciled to tuition income, including cash received, accounts receivable and waivers.

iv. The auditor shall send a confirmation letter to a statistically valid sample of students who are listed as having attended courses during the year under audit. The methodology and results of this sample shall be forwarded to the Department of Higher Education with the year-end audit report.

v. The auditor shall follow the format outlined in N.J.A.C. 9:4-3.57(b)7. If the auditor plans to deviate from any of the above procedures, he shall obtain prior written approval from the Department of Higher Education. Such approval, if granted, will be valid only for the audit in process.

vi. The auditor shall certify in the letter of submission to the Department of Higher Education that he or she has reviewed the Administrative Code and has completed the enrollment audit in accordance with the procedures for auditing full-time equivalent student enrollment.

Note: The current text of N.J.A.C. 9:4-3.57(b)5. will be renumbered and will become N.J.A.C. 9:4-3.57(b)7.

9:4-3.57(b)6. In preparing the audited schedule of full-time equivalent enrollments for noncredit students as required by N.J.A.C. 9:4-3.57(b)7, the audit firm must adhere to the following:

i. The auditor shall review the rules concerning enrollment data in N.J.A.C. 9:4-3.57(b).

ii. The college shall establish a clearly defined audit trail to enable the auditor to certify the full-time equivalent student count reported by the college. The auditor shall examine the permanent data retained by the college, including registration records, attendance records, and course descriptions. The auditor shall certify that the review of the documentation underlying the enrollment and full-time equivalent student calculation is valid and adequate for certification of the FTE schedule. The auditor shall forward to the Department of Higher Education the methodology and results of a statistically valid sampling of registration and student attendance records with the year-end audit report.

iii. Full-time equivalent noncredit student credit and contact hours shall be reconciled to tuition income, including cash received, accounts receivable and waivers.

iv. The auditor shall ascertain that the college has on file at the college a course description for each noncredit course eligible for State funding and shall submit a statistically valid sample of these course descriptions with the year-end audit report.

v. The auditor shall obtain from the college and submit with the year end audit report a certificate which states that in planning for the offering of developmental courses, the college has formally assessed the needs of its service area and the offerings of other public institutions.

vi. The auditor must follow the format outlined in N.J.A.C. 9:4-3.57(b)7. If the auditor plans to deviate from any of the above procedures, he shall obtain prior written approval from the Department of Higher Education. Such approval, if granted, will be valid only for the audit in progress.

On October 3, 1977, T. Edward Hollander, Chancellor of Higher Education, pursuant to authority of N.J.S.A. 18A:71-71 and in accordance with applicable provisions of the Administrative Procedure Act, adopted emergency rules concerning the veterans tuition credit program.

Full text of the adopted rules follows:

SUBCHAPTER 11. VETERANS TUITION CREDIT PROGRAM

9:2-11.1 Residency

(a) For purposes of this program, an eligible veteran will be considered a resident of the State of New Jersey if he:

1. Had been domiciled in New Jersey at the time of his induction into the armed forces; or
2. Was domiciled in New Jersey at the time of his separation from active duty; or
3. Has been domiciled in New Jersey for at least two consecutive years prior to date of application, exclusive of any time spent on active duty.

(b) Domicile has been defined as the place where a person has his true, fixed, permanent home and principal establishment, and to which, whenever he is absent, he has the intention of returning.

9:2-11.2 Approved educational institution

(a) For purposes of this program, an approved educational institution is defined as follows:

1. Any academic, professional or vocational school operating within this State; or
2. Any graduate level school operating within the United States; or
3. Any academic, professional or vocational school operating outside of this State; provided, however, that any such institution shall have made a prior written agreement to accept the tuition credit and reimbursement provided for in N.J.S.A. 18A:71-69 and 18A:71-70; provided further, that no more than 20 per cent of the total of eligible veterans under N.J.A.C. 9:2-11.1(a) 1. and 3. shall attend approved educational institutions operating outside of this State.

(b) To qualify as an "approved educational institution" any such institution must have been approved for veteran's educational assistance pursuant to Federal law.

The eligible veteran must be enrolled in any curriculum or any combination of unit courses or subjects at an edu-

ational institution which is accepted for veterans educational assistance pursuant to Federal law.

9:2-11.4 Full-time course requirements

(a) For the purposes of this program:

1. An institutional trade or technical course offered on a clock-hour basis below the college level involving shop practice as an integral part thereof, shall be considered a full-time course when a minimum of 30 hours per week of attendance is required with no more than 2½ hours of rest periods per week allowed;

2. An institution course offered on a clock-wise basis below the college level in which theoretical or classroom instruction predominates shall be considered a full-time course when a minimum of 25 hours per week net of instruction (which may include customary intervals not to exceed 10 minutes between hours of instruction) is required;

3. An academic high school course requiring 16 units for a full course shall be considered a full-time course when a minimum of four units per year is required. 4. An institutional undergraduate or graduate course offered by a college or university on a quarter- or semester-hour basis shall be considered a full-time course when a minimum of 14 semester hours or the equivalent thereof, for which credit is granted toward a standard college degree (including those for which no credit is granted but which are required to be taken to correct an educational deficiency), is required, except that where such college or university certifies, upon the request of the Chancellor, that full-time tuition is charged to all undergraduate or graduate students carrying a minimum of less than 14 such semester hours or the equivalent thereof, or all undergraduate or graduate students carrying a minimum of less than 14 such semester hours or the equivalent thereof, are considered to be pursuing a full-time course for other administrative purposes, then such an institutional undergraduate or graduate course offered by such college or university with such minimum number of such semester hours shall be considered a full-time course, but in the event such minimum number of semester hours is less than 12 semester hours or the equivalent thereof, then 12 semester hours or the equivalent thereof shall be considered a full-time course.

9:2-11.5 Half-time course requirements

For a period of one-quarter (or the equivalent thereof in part-time tuition credit) in the case of educational institutions regularly operated on the quarter system, for each two months or fraction thereof of the veteran's service on active duty after December 31, 1960, and before the date of termination as proclaimed by the Governor. If an eligible veteran has served a period of 18 months or more on active duty during such period of time, he shall be entitled to tuition credit for a period of 12 quarters: The maximum credit hereunder shall be for a period of 12 quarters; or

3. For a period of 1½ months of any tuition period (or the equivalent thereof in part-time tuition credit) in the case of educational institutions not operated on the quarter or semester system, for each month or fraction thereof of the veteran's service on active duty after December 31, 1960, and before the date of termination as proclaimed by the Governor. If an eligible veteran has served a period of 18 months or more on active duty during such period of time, he shall be entitled to tuition credit for 36 months of tuition credit (or the equivalent thereof in part-time tuition credit): The maximum credit hereunder shall be for a period of 36 months.

(b) If an eligible veteran shall change his program of study from an educational institution regularly operated on the quarter or semester system or otherwise, to an educational institution regularly operated on a different system, he shall submit a written request to the Chancellor for a reevaluation of the remaining tuition credits.

9:2-11.7 Benefits limited

(a) Benefits hereunder shall be in the form of tuition credits limited by the lesser of full tuition or:

3. Other system: \$25.00 per month or a maximum of \$200.00 per year for veterans attending on a full-time basis.

(b) The award amounts shown above will be granted to all eligible veterans who are enrolled as full-time students as determined by the institution provided this determination meets the minimum requirements as described in section 4 of this subchapter. For half-time students, the award amounts will be one-half the amount shown.

9:2-11.8 Application procedure

(a) Upon completion of written agreement with the institution and the Chancellor, application forms will be mailed to the eligible institution.

Proposed Amendments on Unmarried Child's Eligibility for Assistance

Ann Klein, Commissioner of Human Services, pursuant to authority of N.J.S.A. 44:8-111, proposes to amend a portion of the General Assistance Manual concerning unmarried, unattached children's eligibility to receive assistance until some other means of support is available.

Full text of the proposed amendments follows (additions indicated in boldface thus; deletions indicated in brackets [thus]):

10:85-3.1(e)1.i. An unmarried, unattached child under the age of 18 [who represents him/herself as being completely disassociated from his/her family is not eligible for general assistance except on an emergency basis (see section 454). He/she shall be referred to the nearest district office of the Division of Youth and Family Services in order that appropriate arrangements can be made for his/her care.], although not legally an adult, may in fact be emancipated. That he/she is under age 18 is not, of itself, a bar to eligibility for assistance; it is, however, reason for additional action relating to eligibility. The MWD will provide assistance to any such person who applies and is eligible, based on the following action:

(1) The MWD will make all reasonable efforts to bring about the return of the child to his/her own family and/or support by his/her own parents.

(2) If such efforts are not successful within one week of the first grant of assistance or if no such efforts are possible, the MWD will immediately refer the case to the appropriate district office of the Division of Youth and Family Services (DYFS).

(A) For cases between ages 16 and 18, the DYFS office will accept those for which it can provide services and/or income maintenance. The MWD will continue assistance for each case so long as the case remains eligible or until the date on which DYFS assumes responsibility for support.

(B) For all cases under age 16, it is expected that DYFS will act promptly to accept responsibility for services and support. The MWD will continue assistance until the date on which DYFS assumes responsibility. The MWD will notify DPW/BLO of any case under age 16 which is still active on the GA rolls 30 days after referral to DYFS.

Interested persons may present statements or arguments in writing relevant to the proposed action on or before November 30, 1977, to:

G. Thomas Riti, Director
Division of Public Welfare
Box 1627
Trenton, N.J. 08625

The Department of Human Services, upon its own motion or at the instance of any interested party, may thereafter adopt these amendments substantially as proposed without further notice.

Notice of Availability of Community Services Improvement Program Capital Fact Sheet

Take notice that, the Division of Mental Health and Hospitals in the Department of Human Services has issued the following fact sheet—for the purpose of soliciting preliminary applications for its community services capital improvement program and to spell out priorities, review criteria and other related requirements.

Full text of the fact sheet follows:

Introduction

In order to augment the number and to upgrade the quality of community-based residential and service facilities, the Division's Office of Community Services will administer a Community Services Capital Improvement Program.

Funding for this program is from the Human Services capital bond issue referendum of 1976 which allocated \$5 million to community-based mental health facilities. The actual State appropriation for this program for the current fiscal year is \$2.5 million (P.L. 1977, Ch. 42). The balance will be from future legislative action.

Purpose

Purpose of the program is to provide support for the renovation, construction and/or acquisition of those community-based residential mental health and social support service facilities which house service programs designed to meet the needs of the following established high priority target groups:

1. Persons whose psychiatric condition does not warrant continued institutionalization.

2. Persons in the communities who are at risk of being hospitalized because of the absence of any alternative care and treatment.

3. Other high-risk populations for whom services are not currently available.

Focus

The program will provide support only to those above-mentioned facilities which agree to become part of a mental health regional service system, and which provide services in the least restrictive setting according to the principles of normalization. Focus of the program will be on renovation that will improve the service capability of existing facilities in a relatively short time and at minimum expense. Acquisition and/or new construction, however, may also be supported.

Priority will be given to facilities providing the following services:

Screening services—limited to those facilities which will house essential service elements to complete a county screening component of a unified services system.

Transitional services — including residential, specialized extended and day care.

Congregate living facilities formally affiliated with mental health services.

Community psychiatric inpatient services.

Outpatient and other services that meet critical needs identified in county mental health plans.

Fiscal Priorities and Local Match

For efficient use of State financial support, preference will be given to grant requests of \$50,000 or less. Matching requirements for facilities providing programs in the above areas are as follows:

Screening services

100 per cent State moneys

Transitional services

90 per cent State, 10 per cent local

Community inpatient, P.H. and outpatient services

60 per cent State, 40 per cent local

Review Criteria

Funding decisions will be made in accordance with the above outline and fiscal priorities, the ability of the program to meet the following criteria:

Priority of need established by the CMHB county plan.

Priority of need established by regional consideration.

Extent to which the program can meet priority program needs with minimum amount of capital expenditures.

Exploring and exhausting other mainstream sources of funding.

Identifying local matching resources.

Identifying fiscal support for the service program.

Eligibility

Any community-based public or non-profit New Jersey agency incorporated to provide community mental health and/or social support services may apply.

Additional Information

Additional information on further guidelines and describing prototypical facilities based on the categories mentioned previously will be made available upon receipt and approval of a (preliminary application form).

Application Procedure

Applications for a capital improvement grant must consist of:

1. Preliminary application,
2. Compliance with certificate of need procedures,
3. Completion of the appropriate capital construction application form, and
4. Formal commitment to provisions of services for the specified time period.

Capital construction application forms will be available on or after November 1, 1977 only upon approval of a preliminary application.

Departmental policy prescribes specific procedures which must be followed, according to the amount of moneys requested. Therefore, the actual time period involved in the review-approval procedure will vary from a rather simple process for projects under \$10,000 to a more lengthy and complex process for projects in excess of \$25,000.

Programmatic review of the construction grant/service programs will be conducted by the division's staff in conjunction with county mental health boards. Facilities review will involve the department's capital planning office and capital facilities approval unit.

MORTGAGE FINANCE AGENCY

Notice of Expansion of Neighborhood Loan Program

Take notice that, the Mortgage Finance Agency has issued the following notice regarding the expansion of the Neighborhood Loan Program:

Christopher G. Kelly, Executive Director of Mortgage Finance Agency, announced that it plans to expand its Neighborhood Loan Program (NLP) to include other qualified municipalities for the second year, beginning in the spring of 1978. Municipalities interested in applying for eligible neighborhoods to be included must apply to the agency by December 31, 1977.

The NLP has been in operation in 25 New Jersey cities since March 29, 1977. The program, the first of its kind in the country, was created to address the problem of home mortgage disinvestment and to increase home ownership opportunities in urban neighborhoods. As such, the NLP makes available below-market interest rate mortgages to qualified borrowers for the purchase of one to four family homes located in designated eligible neighborhoods where it has been difficult to obtain a mortgage. Under the NLP, participating lending institutions originate these mortgages which are then purchased by the agency.

In order for a municipality to qualify and recommend areas for inclusion in the program, the following general neighborhood conditions must be present:

1. Predominantly single-family residential neighborhoods.
2. Evidence of home mortgage underservicing.
3. An existing or potential demand for home ownership in an area.
4. The existence of housing programs, capital expenditures and evidence of other commitment on the part of the municipality to upgrade and preserve neighborhoods.

Application forms and eligibility criteria are available by writing or telephoning the Mortgage Finance Agency, 1180 Raymond Boulevard, Newark, New Jersey 07102. Telephone: (201) 648-2774.

This Notice is published as a matter of public information, is not subject to codification and will not appear in Title 19 of the New Jersey Administrative Code.

MEADOWLANDS TO BUILD 20,000-SEAT

ALL-PURPOSE ARENA TO OPEN BY 1980

The New Jersey Sports and Exposition Authority last month took initial steps toward construction of a \$45 million, 20,000-seat multi-purpose arena at the Meadowlands sports center in north Jersey.

Authority Chairman David A. "Sonny" Werblin targeted Jan. 1, 1980, as the opening date for the facility. He said that efforts have begun to attract a hockey team and other professional sports franchises to the arena, which already is set as the home of the New Jersey Nets basketball team.

While plans for financing the facility are not completed, Werblin expressed confidence the project will be well received by the financial community, probably by way of a bond issue.

The Sports Authority will also seek to attract tennis, basketball, track, boxing, wrestling, horse shows and rodeos to the facility in addition to such events as concerts, the circus and political conventions.

The new arena will require about 250 events annually to be profitable, said Werblin, adding that he did not fear competition from Madison Square Garden in New York, the metropolitan area's reigning multi-purpose facility. The Garden seats 19,500 for basketball.

Reiterating that no tenant will have exclusive rights to any sports complex facility, Werblin said, "we are doing what is good for us and the State. We believe we can draw well enough to make this arena profitable."

The Nets, who announced their move from Long Island to New Jersey in July, have signed a two-year lease agreement to play at the new Rutgers athletic center in Piscataway until the Meadowlands arena is completed.

In other business, the Sports Authority announced that attendance at Giants Stadium for 46 athletic events over the last year totalled 2,080,000.

The Authority also approved contracts totaling about \$920,000 for construction of a new restaurant on top of the racetrack grandstand. Plans are to open by Jan. 1, 1979, one year prior to the new arena.

NEW LAW EXEMPTS SOLAR HEATING AND COOLING FROM PROPERTY TAX

Governor Brendan Byrne participated last month in an energy "doubleheader" ceremony at Northern Burlington County Regional High School in Columbus. First he signed A-1801, a bill sponsored by Assemblywoman Jane Burgio (R-25th District), which provides for the exemption of solar energy heating and cooling systems from the State property tax. In the second half of the ceremony, Byrne signed a proclamation naming November as "Energy Conservation Month".

The new law, which goes into effect January 1, will expire in five years. "It is intended to provide an incentive to the development of the solar energy industry," the Governor said. It applies to residential, commercial and industrial systems, with their cost exempted.

The ceremony was held at Northern Burlington Regional High School in recognition of the completion of the first

TWO NEW DEPARTMENTS ADOPT INITIAL RULES

The first rules governing practices and procedures of the new Department of the Public Advocate in Trenton have been adopted, as noted in this issue.

Most of these new administrative rules were adopted as originally proposed and printed in the July 7 New Jersey Register, on page 47, N.J.R. 347(a). One additional provision was adopted with the final rules, relative to requests from the public seeking legal representation by, or requesting information from, the Division of Public Interest Advocacy in the new department. This amendment is printed in full in this issue.

A second filing by the Public Advocate in this issue covers proposed rules for the handling of child abuse matters by their Office of the Public Defender.

The new rules will be cited in the New Jersey Administrative Code as 15A:1-1.1 et seq. The Public Advocate has been assigned the Title number of 15A, with its rules to be printed in the same Code volume as those of the Department of State, Title 15.

However, these initial new rules will not be immediately available in the Code since an interim update covering this particular Title is nearing distribution to subscribers.

SECOND NEW DEPARTMENT

First rules of the new Casino Control Commission likewise appear in this issue, their basic rules governing practices and procedures.

To be cited in the Code as 19:40-1.1 et seq., these initial rules cover such things as meetings of the Commission, the naming of officers and the public availability of its records.

The Commission also has two other proposed rules appearing this month. These extensive rules and application forms would govern the operations of gaming schools, and the method of applying for casino operating licenses.

All of the Commission's new rules will subsequently become part of Title 19 in the Administrative Code, the volume for rules of all semi-autonomous agencies of the State. When available, they will be designated as a new Subtitle K in this final volume of the 30-volume set of regularly-updated rules under which New Jersey operates.

NO CORRECTIONS RULES YET

The one other new Department this year—Corrections—has not yet adopted any administrative rules, but future rules will be published in Title 10, which also includes in three volumes the rules of the Department of Human Services, successor to the Department of Institutions and Agencies. Price for the three volumes is \$66 a year and \$42 annually for updating after the first year.

The full Administrative Code of 30 volumes carries a subscription price of \$300 a year initially with a year's updating, and \$150 a year thereafter for full updating. Rules of individual departments are available at \$22 to \$66 each, based on their number of rules and the resulting one, two, three or four volumes required.

Payment or questions should be addressed to: Division of Administrative Procedure, 10 North Stockton Street, Trenton, N.J. 08608, phone (609) 292-6060.
