# Statement by Governor Sherrill on NJBPU Actions to Expand Affordable Energy Supply

Posted on 03/5/2026

"When I signed [Executive Order No. 2](#), I made a commitment to act with urgency and yesterday's actions by the NJBPU deliver on that promise. States that invest in energy infrastructure today will have lower costs and greater reliability tomorrow – and New Jersey is going to lead the way. By investing in battery storage, solar, and grid modernization, we're building an energy system that is ready for the future, and more affordable and reliable for New Jersey families and businesses."

Full details of the initiatives approved by the NJBPU can be found in the release [here](#).
