Governor Murphy Extends Carry Permits for Retired Law Enforcement Officers and Creates Process for Carry Permit Applicants to Demonstrate Qualifications

04/27/2020

TRENTON – Governor Murphy today signed Executive Order No. 129, which extends Retired Officer Carry Permits by a period of 90 days until after the ongoing Public Health Emergency ends. The order also creates a process for individuals seeking to obtain or renew a Carry Permit to demonstrate the ability to safely handle and use a handgun as required by existing law.

“Retired law enforcement officers should not need to worry about the expiration of their carry permits,” **said Governor Murphy**. “At the same time, we must ensure that those applying for or renewing a carry permit have the ability to complete all legal requirements needed to obtain one. This executive order ensures that our strong, commonsense gun safety measures are in place while respecting existing law governing access to firearms.”

Executive Order No. 129 extends Retired Officer Carry Permits that expire during the term of Public Health Emergency declared in Executive Order No. 103, including those that expired after the issuance of Executive Order No. 103 (<https://nj.gov/infobank/eo/056murphy/pdf/EO-103.pdf>), until 90 days after the Public Health Emergency ends. The order further creates a process for applicants seeking to obtain or renew a Carry Permit to complete training, practice, or testing required by law, including by granting access to shooting ranges. Shooting ranges that are closed to the public under Executive Order No. 107 (<https://nj.gov/infobank/eo/056murphy/pdf/EO-107.pdf>) may only offer access to the above individuals, and must comply with social distancing practices where practicable.

The order will take effect immediately.

Copy of Executive Order No. 129 (<https://nj.gov/infobank/eo/056murphy/pdf/EO-129.pdf>)

TRENTON – Governor Phil Murphy today announced his vision, “The Road Back: Restoring Economic Health Through Public Health,” (http://d31hzhk6di2h5.cloudfront.net/20200427/db/2d/77/6c/2a8a498ff2edda855c3f456d/The_Road_Back_-_Restoring_Economic_Health_Through_Public_Health.pdf) to restart New Jersey and put the state on the road to recovery. Governor Murphy outlined six key principles and benchmarks to guide the process for restoring New Jersey’s economic health by ensuring public health.

“Our priority is to use science, data, and facts to put New Jersey on the road to recovery. In order to restore economic health, we must first promote public health,” **said Governor Murphy**. “These key principles and metrics are critical for giving New Jerseyans confidence that we will re-open our state with our public health protocols firmly in place and our health care system prepared. Restarting New Jersey’s economy and

returning people to work will be done methodically, strategically, and responsibly.”

Governor Murphy’s stay-at-home Executive Order, which has been in effect since March 21st, will remain in effect in its entirety until further notice. The following six principles and key metrics will guide the process for lifting restrictions and restoring New Jersey’s economic health through public health.

Principle 1: Demonstrate Sustained Reductions in New COVID-19 Cases and Hospitalizations

- 14-day trend lines showing appreciable and sustained drop in new COVID-19 cases, hospitalizations, and other metrics reflecting decreasing burden of disease;
- Hospitals stepping down from functioning under crisis standards of care.

Principle 2: Expand Testing Capacity

- At least double current diagnostic testing capacity;
- Prioritize testing for health care workers, essential personnel, and vulnerable populations;
- Create a flexible testing plan accessible to all residents;
- Expand partnerships with institutions of higher education, private-sector labs, and the federal government;
- Ensure that those who test positive are linked to a health care provider.

Principle 3: Implement Robust Contact Tracing

- Recruit and deploy an army of personnel who will identify and follow-up with contacts;
- Leverage technological data and innovative solutions to increase efficiency;
- Coordinate the approach of local and state health officials, which will have a coordinated county/regional component.

Principle 4: Secure Safe Places and Resources for Isolation and Quarantine

- To the greatest extent possible, provide individuals who do test positive in the future with a safe and free place to isolate and protect others from COVID-19;
- Ensure that quarantined contacts are provided supportive services, if needed.

Principle 5: Execute a Responsible Economic Restart

- Create the Governor’s Restart and Recovery Commission to advise on the process and recommend responsible and equitable decisions;
- Plan for a methodical and strategic return to work based on level of disease transmission risk and essential classification;
- Continuation of social distancing measures, requirements for face coverings, and work-from-home directions where feasible and appropriate;
- Leverage any available federal funds and programs to support health care, individual, and small business recoveries.

Principle 6: Ensure New Jersey’s Resiliency

- Learn from the lessons of COVID-19 and prepare for the possibility of a resurgence;
- Ensure hospitals, health care systems, and other health delivery facilities have inventories of personal protective equipment and ventilators;
- Build our own state personal protective equipment and ventilator stockpile;
- Create a playbook for future administrations for the next pandemic.
