Testimony on Proposed Regulations for Community Support Services
The Honorable Jennifer Velez, Esq., Commissioner, Department of Human Services
Lynn Kovich, MEd, Asst. Commissioner, Div. of Mental Health & Addiction Services

Members of the New Jersey Association of Mental Health and Addiction Agencies (NJAMHAA) are concerned about the negative impact the proposed Medicaid Community Support Services (CSS) Waiver will have on New Jersey's Supportive Housing program.

We request wider oversight of the planning process beyond the Department of Human Services (DHS), and the Division of Mental Health and Addiction Services. Providers are concerned that the CSS program, as currently proposed, will have a seriously negative impact on the health and welfare of thousands of vulnerable New Jersey residents, who rely on these programs to meet their basic needs for housing, treatment, and social support services.

NJAMHAA and its member Agencies have complied with DHS' request to channel our concerns through its broader community stakeholder meetings. Although we have done so, DHS has not adequately addressed any of our concerns. Stakeholders have raised concerns regarding staffing and service restrictions; disincentives for hiring peers; no funding for tenant, staff, and community safety; conflicting regulatory requirements; excessively low reimbursement rates for core staff; restrictions on billing; among numerous other implementation issues.

While we understand, and support, the need to maximize federal funding for New Jersey's mental health and addiction services, we believe that this is best accomplished by "braiding" federal dollars with existing state dollars. What is being proposed is the exact opposite. DHS has shifted the entire cost of care to the federal Medicaid program. Because Medicaid has strict requirements regarding funding only "medically necessary" services, many essential supportive housing services will not be reimbursable under the CSS program. These include social outreach and engagement services, safety and security interventions, and other essential supportive services.

We ask that the following issues be reconsidered in a fair and thoughtful manner:

- **Financing Engagement & Support for Those in High-risk Circumstances** NJAMHAA strongly urges DHS to design a program that will finance engagement of those in high-risk circumstances, and address their complex health and safety needs, as per the Olmstead Settlement Agreement.
- **Financing Safety, Risk Management & Other Supports** NJAMHAA strongly advises against cost-savings at the expense of community safety, and strongly recommends that DHS increase funding for security and safety interventions, targeting those in high-risk circumstances.
- **Financing Repair of Apartments & Managing HUD Subsidies** NJAMHAA strongly urges continued funding for repair of apartment damage, and equal treatment regarding these and other housing supports for those receiving either state-funded or HUD rent subsidies.
- **Financing Supportive Services** NJAMHAA strongly urges continued funding of supportive services, and not imposing the CSS Program's rehabilitation focus on supportive housing tenants whose health and safety needs exceed rehabilitation.

NJAMHAA strongly urges that DHS re-examine the CSS program in light of these concerns. Too much is placed at risk by attempting to shoe-horn the complex health and safety needs of supportive housing tenants, especially those with serious health and safety problems, into a funding program designed for others with less complex needs.

The Honorable Nia H. Gill, Chairwoman
Senate Commerce Committee
39 South Fullerton Ave,
2nd Floor, Suite 7
Montclair, NJ 07042

Testimony in Support of S-2180

"Requires certain health benefits plans to provide treatment for behavioral health care services when determined medically necessary."

Dear Chairwoman Gill and Members of the Committee:

On behalf of the New Jersey Association of Mental Health and Addiction Agencies, Inc., (NJAMHAA) I would like to thank Chairwoman Gill, Vice-Chairman Lesniak and the members of the Committee for the opportunity to testify in support of Senate Bill 2180 which requires certain health benefits plans to provide treatment for behavioral health care services when determined medically necessary.

NJAMHAA represents 180 hospital-based and freestanding non-profit mental healthcare and substance abuse treatment providers who treat New Jersey residents with mental illness, addictions or co-occurring disorders, as well as the families of these individuals. Our membership represents organizations in every county and almost every community statewide – nearly 98 percent of the behavioral healthcare market in New Jersey. Collectively, our member organizations help 500,000 children and adults with mental health and addiction issues annually and employ 98,000 members of the state's workforce.

Senate Bill 2180 will require hospital, medical and health service corporations, commercial insurers, health maintenance organizations, health benefits plans issued pursuant to the New Jersey Individual Health Coverage and Small Employer Health Benefits Programs, the State Health Benefits Program, and the School Employees' Health Benefits Program to provide coverage, without utilization management review, for behavioral health care services when the treatment is deemed medically necessary by a health care provider which is defined as: physician licensed to practice medicine and surgery, a licensed

psychologist, a licensed clinical social worker, a certified advanced practice nurse, or a licensed physician assistant, acting within their lawful scope of practice. By doing so, this bill can literally save lives.

Our members have shared information with us regarding denials they have received and have lost on appeal, such as the story of a 40 year old male who sought admission to a residential treatment program early last year. He was using 30 bags of heroin and 80-160 mg of oxycodone daily, some of which he used before work each day. At the time, he worked at an oil refinery driving trucks and other machinery around the plant. He was denied residential treatment because he had not been previously treated at lower levels of care. This would be the equivalent of denying radiation treatment to a cancer patient because they didn't seek chemotherapy sooner. During follow up calls, the agency was told by the man's fiancé that "he is not doing well" and he is no longer living with her or is welcome at her house. The agency has not heard from the patient again, despite repeated calls and messages.

Then there is the story of the young woman who sought residential treatment in November of 2013 when she was using 150-300 mg of Oxycodone pills daily. She had tried to stop on her own, but only made it one day due to getting so sick. She and her boyfriend had a physically abusive relationship and she would become increasingly violent when she ran out of money for drugs. She was denied residential detox. In September of 2014, she again sought admission. She was now using 8-10 bags intravenously daily, as well as binge drinking and using cocaine. She reported feeling hopeless and worthless, and that she had a pending legal case stemming from stealing her father's car. She also reported that she shares and reuses needles and drives under the influence. She was unemployed and not able to maintain a job. She was again denied residential treatment; the insurance company instead recommended Intensive Outpatient treatment.

These denials are common. And the agency that shared these with us also shared that on average, they used to track one or two alumni deaths per year. Since 2012, they are averaging 15 to 20 per year with the majority being young adult males dying of opioid overdose.

NJAMHAA is supportive of Senate Bill 2180 because it removes insurance obstacles to medically necessary treatments. However, we do believe that the bill's language overlooks professionals and services that are critical to the behavioral health continuum of care and we respectfully offer the following recommendations to strengthen the bill:

- Include the full range of licensed behavioral health clinicians, particularly Licensed Social Workers, Licensed Professional Counselors and Licensed Clinical Alcohol and Drug Counselors.
- Expand the list of covered services to specifically include Medication Assisted Therapy, Partial Care and Intensive Outpatient.
- Promote a wellness and recovery approach to mental health and substance use treatment by including habilitative services in the "medical necessity" definition.

NJAMHAA appreciates the efforts of Senator Gordon for his leadership in sponsoring this bill. We are pleased to support S-2180 and encourage the other members of this Committee to support it as well.

Thank you for the opportunity to be heard. I would be happy to answer any questions from the Committee. Please feel free to contact me at 609-838-5488 extension 292 or at dwentz@njamhaa.org.

Testimony in support of A1436/S2372

"Establishes Statewide Opioid Law Enforcement Coordinating Task Force."

Dear Chairman Mainor and Members of the Committee:

On behalf of the New Jersey Association of Mental Health and Addiction Agencies, Inc. (NJAMHAA), I would like to thank Chairman Mainor, Vice-Chairman Wilson and the members of the Committee for the opportunity to testify in support of Assembly Bill 1436/Senate Bill 2372 which requires the Attorney General to establish a Statewide Opioid Law Enforcement Coordinating Task Force within the Department of Law and Public Safety.

NJAMHAA represents 180 hospital-based and freestanding non-profit mental healthcare and substance abuse treatment providers which treat New Jersey residents with mental illness, addictions or co-occurring disorders, as well as the families of these individuals. Our membership represents organizations in every county and almost every community statewide – nearly 98 percent of the behavioral healthcare market in New Jersey. Collectively, our member organizations help 500,000 children and adults with mental health and addiction issues annually and employ 98,000 members of the state's workforce.

The Task Force idea is a recommendation from the 2013 New Jersey State Commission of Investigation's (SCI) report *Scenes From An Epidemic: a Report on the SCI's Investigation of Pill and Heroin Abuse* and its purpose is to strengthen federal, state, county and local law enforcement efforts relating to opioid drugs. The Task Force will have a critical role in identifying, investigating, and prosecuting the illegal sources and distribution of prescription opioid drugs; and providing training to law enforcement officials, physicians, pharmacists and other healthcare professionals.

Addiction providers would welcome the opportunity to assist and collaborate on training the specified stakeholder groups. NJAMHAA

"Requires certain drug treatment programs operating in State correctional facilities or county jails to offer medication-assisted treatment; permits successful completion of special probation drug court program notwithstanding use of medication-assisted treatment."

Dear Chairman Burzichelli and Members of the Committee:

On behalf of the New Jersey Association of Mental Health and Addiction Agencies, Inc., I would like to thank Chairman Burzichelli, Vice-Chairman Spencer and the members of the Committee for the opportunity to testify in support of Assembly Bill 3723 which would require any drug treatment program operating within a State correctional facility or county jail to include medication-assisted treatment and which permits participants in drug court treatment programs to receive medication-assisted treatment without its use constituting a violation or reason to withhold graduation from the program.

NJAMHAA represents 180 hospital-based and freestanding non-profit mental healthcare and substance abuse treatment providers which treat New Jersey residents with mental illness, addictions or co-occurring disorders, as well as the families of these individuals. Our membership represents organizations in every county and almost every community statewide – nearly 98 percent of the behavioral healthcare market in New Jersey. Substance Abuse and Mental Health Services Administration (SAMHSA). In fact, SAMHSA recently announced that it would no longer fund drug courts that deny participation to those who receive medication-assisted treatment, and the National Association of Drug Court Professionals passed a resolution urging drug courts to integrate medication-assisted treatment into their programs.

Quoting the Executive Summary of the Legal Action Center's report on the *Legality of Denying Access to Medication Assisted Treatment In the Criminal Justice System*, "Scientific research has firmly established that treatment of opiate dependence with medications (MAT) reduces addiction and related criminal activity more effectively and at far less cost than incarceration". The report also concludes that, in most cases, denying MAT to incarcerated individuals is a violation of the Americans with Disabilities Act.

NJAMHAA not only strongly supports A3723 and urges you to vote favorably on it, but also recommends expanding this concept to juvenile detention centers. Whenever a county operates substance abuse treatment programs within these settings, they too should be required to offer medication assisted treatment.

NJAMHAA appreciates the efforts of Assemblymembers Conaway, Mukherji, Sumter and Jimenez for their sponsorship of this bill and their support of substance abuse treatment. NJAMHAA is pleased to support A3723 and encourages the other members of this Committee to support it as well.

Thank you for the opportunity to be heard. I would be happy to answer any questions from the Committee. Please feel free to contact me at 609-838-5488 extension 292 or at dwentz@njamhaa.org.

Sincerely,

Debra L. Wentz, Ph.D.

March 24, 2015

Dear Assemblyman Schaer and Assembly Budget Committee Members:

Thank you for this opportunity to provide testimony on behalf of the 180 members of the New Jersey Association of Mental Health and Addiction Agencies, Inc. (NJAMHAA), whose 98,000 employees provide treatment and support services to more than 500,000 of New Jersey's children and adults with mental health and substance use disorders.

Nine hundred eighty-four thousand, five hundred eighty-seven (984,587) New Jerseyans. That was the number of our brothers and sisters, sons and daughters, neighbors and co-workers in need of substance use treatment in 2012.

Fifty-five thousand, nine hundred ninety-five (55,995) - less than six percent. That is how many were able to access treatment in 2012.

There are so many numbers we could present - suicides, opioid overdoses, incarceration of those with mental illness and substance use disorders, shortened life spans. But the numbers, as sad and disappointing as they may be, do not speak loud enough. What needs to be conveyed, and understood, is that each statistic represents. There are faces behind the numbers, individuals we care about who have a mental illness and/or addiction and, more often than not, encounter monumental difficulties in accessing needed services.

Expanded drug courts, Medicaid expansion, and parity laws have provided new entry points to the community based system of care. Unfortunately, system capacity, always inadequate, has not kept up with the growing demand by any measure. There is so much work to be done, and we appreciate both the Legislature's and Administration's efforts to continue expansion of community based services and more efficient utilization of existing resources.

There are many critical needs in the community based behavioral health system of care; but there is just one I wish to focus on today - enough funding in the budget for strong reimbursement rates. If adequate reimbursement rates are not established as the state moves to a fee-for-service reimbursement system, many programs will not be sustainable and the continuum of care could be shattered.

Nine dollars. That is the amount a psychiatrist is currently reimbursed for a medication management visit.

Sixty eight dollars. That is the amount Long Term Residential Substance Use Treatment programs receive to cover housing, meals, clinical services, basic medical services and, in many instances, wrap-around services per day - it falls woefully short of the actual costs of the staff, building, equipment, perishables and overhead costs that are incurred.

Four dollars and fifty cents. That is the Medicaid flat-rate for a provider to pick up and deliver clients to outpatient programs.

For decades, providers have been subsidizing these rates with other funding, often from fundraising, absorbing losses in certain areas year after year.

Most critically, they have not been able to provide any salary increases to their staff. An ever-widening gap between the salaries community providers can pay versus what state and educational institutions pay is expected to have a severe impact as the economy and job market heat up.

Staff turnover and vacancies are already very high in many programs and agencies, to the detriment of those served. For those who are able to access services, staff turnover brings with it great disruption and often significant setbacks to recovery. For many, building a trusting relationship with staff is, in itself, a major achievement. The sense of loss and need to start over is often overwhelming to the vulnerable population being served.

Community based providers have not received a COLA since 2008. In fiscal years 2005 through 2008, they did receive a total of seven (7) percent in COLAs, as compared to 14.5 percent that state workers received. In the subsequent years to present, state workers have received an additional 12.75% - community based providers, zero.

I would like to take this opportunity to let this body know that the 1% COLA the Legislature added to the FY 2015 budget to be effective January 1st has not been distributed. Last year, a similar COLA was never distributed and was taken back to help fill the budget shortfall. We are afraid this may happen again. The COLA legislation did require the Administration to report to the Legislature on this COLA on January 1st - we do not know if any such report has been submitted. Please do not let this COLA be taken back again.

The community based provider network is facing many challenges with significant changes to the system of care, while access to care is expanding without enough growth in capacity.

This has a direct impact on every New Jerseyan. Your support is needed for the community based providers to be adequately and fairly reimbursed, including regularly applied COLA's so that they may remain viable, and so that they may treat your sons and daughters, brothers and sisters, neighbors and co-workers with continuity and the highest quality of care.

Re: Statewide Transition Plan to Comply with Centers for Medicare & Medicaid Services (CMS) Final Rule for Home and Community-Based Services (HCBS)

Dear Deputy Commissioner Arye:

On behalf of the New Jersey Association of Mental Health and Addiction Agencies, Inc. (NJAMHAA), I am writing to comment on the New Jersey Department of Human Services' (DHS') Statewide Transition Plan (Plan) to comply with CMS' final rule for HCBS. NJAMHAA commends the diligence and comprehensiveness of the work of the various Departments involved in developing the Plan and is fully supportive of the goals of the Plan - opportunity for choice, privacy, community integration, landlord tenant protections and the ability to select supportive services. We do, however, recommend that the Plan be less prescriptive. As currently drafted, some of the standards set within the Plan could lead to the unintended consequence of limiting consumer choice, not broadening it.

We recognize and applaud the State's efforts to ensure community integration through the standards outlined in the Plan; however, two provisions in particular are of concern. One requires that "individuals should spend at least 75 percent of their time in activities in the community, not at the facility," and another requires that "no more than 25 percent of units are specifically set aside for individuals with disabilities". These strict standards, which are more rigid than what CMS requires, should be abandoned for more flexible guidelines that provide consumers more choice. These standards could threaten successful day programs that enable many to thrive. The Plan also does not address many issues, such as how individuals would be supervised and kept safe under the arbitrary 75 percent rule.

While it is evident that the Department has invested great effort in the development of the Plan, we also recognize that much remains to be done over the coming years, after the changes to regulatory language as spelled out in the Plan take place. The real work will be in implementing the many new standards for HCBS, some of which will have severe impacts on the

provision of services, particularly those that dictate where services may and may not be provided.

NJAMHAA and its members look forward to continuing to work together with DHS, as well as the many other Divisions and Departments involved in the transition, to ensure that the highest quality, least restrictive settings and services are provided to New Jersey residents. Testimony in Support of S2379

"Establishes pilot program for Medicaid enrollment, by screening and enrolling eligible incarcerated defendants awaiting court hearing on bail; requires enrollment opportunity for eligible defendants prior to admission to certain court supervised rehabilitative programs."

Dear Chairman Sarlo and Members of the Committee:

On behalf of the New Jersey Association of Mental Health and Addiction Agencies, Inc., I would like to thank Chairman Sarlo, Vice-Chairman Stack and the members of the Committee for the opportunity to testify in support of Senate Bill 2379 which would broaden Medicaid coverage in New Jersey to qualified individuals by reaching out to such individuals through various stages of their association with the State's criminal justice system.

NJAMHAA represents 180 hospital-based and freestanding non-profit mental healthcare and substance abuse treatment providers who treat New Jersey residents with mental illness, addictions or co-occurring disorders, as well as the families of these individuals. Our membership represents organizations in every county and almost every community statewide – nearly 98 percent of the behavioral healthcare market in New Jersey. Collectively, our member organizations help 500,000 children and adults with mental health and addiction issues annually and employ 98,000 members of the state's workforce.

Senate Bill 2379 establishes a three-year pilot program administered by the Commissioner of Human Services in consultation with the Commissioner of Corrections to implement a screening and enrollment process utilizing the single, streamlined application form for enrolling applicants in Medicaid/NJ FamilyCare, or other qualifying health care coverage. Screening would take place at the time the individual becomes incarcerated in a county correctional facility while they await a court

hearing on bail. Additionally, if there is a reasonable basis to suspect the individual may be drug or alcohol dependent, the individual would undergo an initial diagnostic assessment to determine the extent of any dependency. This initial assessment would be provided to the court before the individual's court hearing on bail, and would indicate whether the person may benefit from a court supervised rehabilitative program.

The members of NJAMHAA support treatment for addictions over incarceration whenever appropriate. This pilot would not only ease access to health coverage for individuals who are involved in the criminal justice system, but would serve to identify those who might benefit from substance use treatment. We support S2379, though we do recommend that appropriate funding be provided to support enrollment and screening activities.

NJAMHAA appreciates the efforts of Senator Vitale and Senator Lesniak for their sponsorship of this bill and their support of substance abuse treatment. NJAMHAA is pleased to support S2379 and encourages the other members of this Committee to support it as well, provided an adequate appropriation is made available to implement and maintain the provisions of the bill.

Thank you for the opportunity to be heard. I would be happy to answer any questions from the Committee. Please feel free to contact me at 609-838-5488 extension 292 or at dwentz@njamhaa.org.

Sincerely,

Debra L. Wentz, Ph.D.

Testimony in support of S2381

"Requires certain drug treatment programs operating in State correctional facilities or county jails to offer medication-assisted treatment; permits successful completion of special probation drug court program notwithstanding use of medication-assisted treatment."

Dear Chairman Sarlo and Members of the Committee:

On behalf of the New Jersey Association of Mental Health and Addiction Agencies, Inc., I would like to thank Chairman Sarlo, Vice-Chairman Stack and the members of the Committee for the opportunity to testify in support of Senate Bill 2381 which would require any drug treatment program operating within a State correctional facility or county jail to include medication-assisted treatment and which permits participants in drug court treatment programs to receive medication-assisted treatment without its use constituting a violation or reason to withhold graduation from the program.

NJAMHAA represents 180 hospital-based and freestanding non-profit mental healthcare and substance abuse treatment providers who treat New Jersey residents with mental illness, addictions or co-occurring disorders, as well as the families of these individuals. Our membership represents organizations in every county and almost every community statewide – nearly 98 percent of the behavioral healthcare market in New Jersey. Collectively, our member organizations help 500,000 children and adults with mental health and addiction issues annually and employ 98,000 members of the state's workforce.

Medication-assisted treatment is the use of medications, in combination with counseling and behavioral therapies, to provide a whole-patient approach to the treatment of substance use disorders. It is an evidence-based practice recognized by the State's Department of Human Services, Division of Mental Health and Addiction Services and the federal

Substance Abuse and Mental Health Services Administration (SAMHSA). In fact, SAMHSA recently announced that it would no longer fund drug courts that deny participation to those who receive medication-assisted treatment, and the National Association of Drug Court Professionals passed a resolution urging drug courts to integrate medication-assisted treatment into their programs.

Quoting the Executive Summary of the Legal Action Center's report on the *Legality of Denying Access to Medication Assisted Treatment In the Criminal Justice System*, "Scientific research has firmly established that treatment of opiate dependence with medications (MAT) reduces addiction and related criminal activity more effectively and at far less cost than incarceration". The report also concludes that, in most cases, denying MAT to incarcerated individuals is a violation of the Americans with Disabilities Act.

NJAMHAA not only strongly supports S2381 and urges you to vote favorably on it, but also recommends expanding this concept to juvenile detention centers. Whenever a county operates substance abuse treatment programs within these settings, they too should be required to offer medication assisted treatment.

NJAMHAA appreciates the efforts of Senator Vitale and Senator Lesniak for their sponsorship of this bill and their support of substance abuse treatment. NJAMHAA is pleased to support S2381 and encourages the other members of this Committee to support it as well.
