DEP now has a one-day processing service for certain minor stream encroachment permits. This "over-the-counter" service is limited to minor projects which do not adversely change the water carrying capacity of the floodway, do not increase erosion or sedimentation in the stream, and do not require substantial channel modification or relocation. For further information contact the Bureau of Flood Plain Management, CN 029, Trenton, N.J. 08625.

II. WATERFRONT DEVELOPMENT (609) - 292 - 0060

DEP has a one-day processing service for minor waterfront development projects. This over-the-counter service applies to waterfront construction activity in man-made lagoons and minor maintenance and/or repair or replacement of lawful existing structures. For further information contact: Waterfront Development, CN 401, Trenton, N.J. 08625.

III. SEWER EXTENSIONS (609) - 984-4429

DEP has a one-day processing service for "minor" sewer extension projects. Eligible projects must meet certain criteria, such as, length of 1000 linear feet or less, cost of \$25,000 or less, sewage flow per day of 12,000 gallons or less. No projects with pump stations, force mains, siphons, gallonage transfers or holding tanks will be processed over-the-counter. Projects can not be located in areas under sewer ban, administrative orders, or litigation.

Projects must be in-house by 9:30 a.m., and all administrative documents must be in proper order. Pre-application conferences are strongly recommended. For further information contact Division of Water Resources, CN 029, Trenton, N.J. 08625.

MASTER PERMIT INFORMATION APPLICATION

DEP has developed a Master Permit Information Application which, upon completion, will indicate all the DEP permits required for the project. Forms may be obtained by contacting the Office of Business Advocacy (See inside cover for details).

(Recent press releases in capsule form)

September 14--LANDFILL ORDERED TO PREPARE FOR CLOSURE--DEP Commissioner English announced that DEP has ordered Combe Fill South landfill in Chester and Washington townships (Morris County), to restrict its operations to areas currently used for disposal, and to prepare a closure plan within 60 days.

September 14--WETLANDS AND WATERFRONT PERMITS CONDITIONALLY APPROVED--David N. At least 35 single family houses with associated infrastructure will be constructed on the site. A condition requires the developer to restore wetlands elsewhere along Barnegat Bay to mitigate the habitat value lost from filling the wetlands at Loveladies.

* * *

September 15--LOWER ATSION PROPOSED AS WILD RIVER--DEP Deputy Commissioner Paul Arbesman proposed an amendment to the rules for the New Jersey Wild and Scenic Rivers System designating the Lower Atsion segment of the Mullica River (Atlantic and Burlington Counties) to the State Wild and Scenic Rivers system as a Wild River. The Lower Atsion segment, which flows from Atsion on Route 206 to Pleasant Mills at Route 542, lies entirely within Wharton State Forest. This river has been managed as a primitive area by DEP's Division of Parks and Forestry since the Wharton Tract was purchased by the state in 1955.

* * *

September 15--ENVIRONMENTAL QUALITY ENFORCEMENT ACTIONS--DEP Deputy Commissioner Paul Arbesman outlined recent enforcement actions assessing almost \$200,000 in penalties for environment rule violations. DEP's Division of Environmental Quality issued 197 orders and imposed 80 penalties, totaling \$199,200, during the period July 22 through August 26.

September 22--2150 ACRES ACQUIRED IN PINELANDS--The acquisition of 2150 acres of Pineland property in the West Plains off of Route 72 in Burlington County was announced by DEP Deputy Commissioner Paul Arbesman. This is the second actual transfer of property stemming from a purchase contract originated in June 1979 under DEP's Pinelands Acquisition program.

* * *

June 22--PERMITS A PROVED FOR WATERFRONT HOUSING--David N. Kinsey, Director of DEP's Division of Coastal Resources announced the issuance of two Waterfront Development Permits for high and low rise residential developments along the Hudson River in the Borough of Edgewater. (the Act), for a National Pollutant Discharge Elimination System (NPDES) permit to discharge pollutants from facilities, located as shown on the table, into navigable waters of the United States.

The New Jersey Department of Environmental Protection (NJDEP) has certified the draft permit in accordance with the provisions of Section 401 of the Act. A description of each proposed discharge and the receiving body of water is given.

The United States Environmental Protection Agency has tentatively decided to issue a NPDES permit to the applicants. The State of New Jersey Department of Environmental Protection (NJDEP) has issued certifications of the draft NPDES permit subject to certain effluent limitations, standards, prohibitions, and other conditions, necessary to carry out the provisions of the Act and the "New Jersey Water Pollution Control Act," N.J.S.A. 58:10A-1 et seq. The certification formulated by DEP is based upon the administrative record.

Each administrative record is on file at the offices of the NJDEP Division of Water Resources, located on 1474 Prospect Street in the Township of Ewing, Mercer County, N.J., and may be inspected and for a fee copied between 8:30 a.m. and 4:00 p.m., Monday through Friday. A copy of each state certification, and other available information may be obtained by writing to the address which appears at the top of this notice.

Interested persons may submit written comments on the state certification and administrative record to the Assistant Director, Water Quality Management at the above address cited. A copy of comments should be sent to the Chief, Permits Administration Branch, Region II, U.S.E.P.A., 26 Federal Plaza, New York, New York 10278. All comments shall be submitted within 30 days of the date, of this public notice.

In lieu of, or in addition to, the submission of comments as above provided, any interested person may request that the Commissioner of NJDEP hold a hearing regarding the certification of the proposed discharge. Such request shall indicate the proposed issues to be considered at the hearing.

Any request for a public hearing regarding NJDEP's certification of the proposed discharge should be in writing and submitted to the Assistant Director, Water Quality Management, at the above address with a copy of the request to the Chief, Permits Administration Branch, EPA, Region II. Such request shall be submitted within 30 days of the date of this public notice.

If NJDEP orders that a public hearing be held regarding its certification, and the Enforcement Division Director of EPA, Region II, has also decided to hold a public hearing, the hearings will be held jointly by NJDEP and EPA. If the Enforcement Division Director of EPA, Region II, has decided not to hold a public hearing, NJDEP may itself hold a public hearing regarding its certification.

If NJDEP does not hold a public hearing or reopen the comment period, NJDEP will consider the issuance of the certification to be final within 30 days of the date of this public notice. All comments timely submitted by interested persons in response to this notice, and statements and other evidence properly submitted at any public hearing held by NJDEP will be considered with respect to this certification for a permit.

NJDEP's decision on the issue of whether to hold any hearing, the administration of any hearing and the rights and obligations of participants are governed by NPDES regulations (40 CFR 124) and the "Administrative Procedures Act" N.J.S.A. 52:14B-1 et seq.
