APPENDIX B. FISCAL AGENT BILLING SUPPLEMENT

APPENDIX C. EMC MANUAL

SUBCHAPTER 1. GENERAL PROVISIONS

10:54-1.1 Purpose and scope

(a) The Physician Services chapter outlines the policies and procedures of the New Jersey Medicaid program for a physician who prescribes, provides directly, or personally directs medically necessary health services to Medicaid beneficiaries. The policies and procedures in this chapter foster the delivery of services in the most efficient and cost effective manner consistent with good medical practice.

2. The use of a procedure code will be interpreted by the New Jersey Medicaid program as evidence that the

physician or practitioner personally furnished, as a minimum, the service for which it stands.

3. For purposes of reimbursement, a physician, practitioner, physicians' group, shared health care facility or physicians sharing a common record are considered a single provider.

4. When billing, the provider must enter a CPT/HCPCS code into the procedure code column field 24-D of HCFA 1500 claim form.

5. Date(s) of service(s) must be indicated on the claim form and in the physician's own record for each service billed.

6. When submitting a claim, the physician or practitioner must always use his/her usual and customary fee. The fees designated for the HCPCS procedure codes represent the New Jersey Medicaid program's maximum payment for the given procedure.

7. All references to time parameters shall mean the physician's or practitioner's personal time in reference to the service rendered unless it is otherwise indicated.

i. Reimbursement will be made for an assistant surgeon when the service is medically necessary and when a duly qualified surgical resident or house physician is unavailable, and when the primary procedure performed has a procedure code specialist fee of at least \$142. The allowance permitted is a maximum of 15 percent of the listed specialist fee. The minimum payment is \$27.

ii. When billing for assistant surgery services, affix to the appropriate procedure code the modifier "80" which identifies surgical assistant services.

8. Certain listed procedures are commonly carried out as an integral part of a total service, and, as such, do not warrant a separate charge. Concerning the terminology "separate procedures" when attached to a HCPCS/CPT-4 description, when a procedure is carried out as a separate entity not immediately related to other services, the indicated value for "separate procedure" is applicable.

9. Additional charges on a fee-for-service basis may be reimbursed for complications or other circumstances requiring additional or unusual services concurrent with the procedure(s) or during the listed period of normal follow-up care with a "22" modifier, if so designated with additional documentation accompanying to the claim form.

10:54-9.3 Definitions of modifiers

(a) Services and procedures may be modified under certain circumstances. When applicable, the modifying circumstance should be identified by the addition of alphabetic and/or numeric characters at the end of the code. The New Jersey Medicaid program's recognized modifier codes are:

Modifier Code	Description
22	Unusual Services: When the service(s) provided is greater than that usually required for the listed procedure, it may be identified by adding modifier '22' to the usual procedure number. A report with additional documentation must accompany the claim form to justify the greater services, unusual services or complications.
26	Professional Component: Certain procedures are a combination of a physician and a technical component. When the physician component is reported separately, the service may be identified by adding the modifier '26' to the usual procedure number. If a professional component type service is keyed without a '26' modifier and a manual pricing edit is received, resolve the edit by adding a 26 modifier.
50	Bilateral Procedures: When bilateral procedures are provided at the same operative session, the first major procedure may be reported as listed. The second (bilateral) procedure may be identified by adding the modifier '50' to the usual procedure number(s).
51	Multiple Procedures: When multiple procedures are performed on the same day or at the same session, the major procedure or service may reported as listed. The secondary additional, or lesser procedure(s) or service(s) may be identified by adding the modifier '51' to the secondary procedure or service code(s). This modifier may be used to report multiple medical procedures performed at the same session, as well as a combination of medical and surgical procedures, or several surgical procedures performed at the same operative session.
52	Reduced Services: Under certain circumstances a service or procedure is partially reduced at the physician's election. Under these circumstances the service provided can be identified by its usual procedure number and the addition of the modifier '52', signifying that the service is reduced. This provides a means of reporting reduced services without disturbing the identification of the basic service.
62	Two Surgeons: Under certain circumstances the skills of two surgeons (usually with different skills) may be required in the management of a specific surgical procedure. Under such circumstances the services of each may be identified by adding the modifier '62' to the procedure number used by each surgeon for reporting his services.
66	Surgical Team: Under some circumstance, highly complex procedures (requiring the concomitant services of several physicians, often of different specialties, plus other highly skilled, specially trained personnel and various types of complex equipment) are carried out under the 'surgical team' concept. Such circumstance may be identified by each participating physician with the addition of the modifier '66' to the basic procedure number used for reporting services.
75	Concurrent Care: Services Rendered by More than One Physician: When the patient's condition requires the additional services of more than one physician, each physician may identify his or her services by adding the modifier '75' to the basic service performed represented by the procedure code.
76	Repeat Procedure by Same Physician: The physician may need to indicate that a procedure or service was repeated subsequent to the original service. This may be reported by adding the modifier '76' to the procedure code of the repeated service.
77	Repeat Procedure by Another Physician: The physician may need to indicate that a basic procedure performed by another physician had to be repeated. This may be reported by adding the modifier '77' to the procedure code of the repeated service.
80	Assistant Surgeon: Surgical assistant services may be identified by adding the modifier '80' to the basic procedure code. See N.J.A.C. 10:54-9.2(b).
AA	Anesthesia services personally rendered by anesthesiologist.
AP	Determination of refractive state was not performed in course of diagnostic ophthalmological examination.

 QUALIFIER: Reimbursable only when personally performed by a physician.

99192 Assembly and operation of pump with oxygenator or heat exchanger (with or without ECG and/or pressure monitoring); ½ hour
 QUALIFIER: Reimbursable only when personally performed by a physician.

(e) The following statements and qualifiers apply to the "Evaluation and Management" procedure codes (HCPCS 99201-99499).

OFFICE OR OTHER OUTPATIENT SERVICES—NEW PATIENT; HOSPITAL INPATIENT SERVICES—INITIAL HOSPITAL CARE; NURSING FACILITY SERVICES—COMPREHENSIVE NURSING FACILITY ASSESSMENTS; AND DOMICILIARY, REST HOME, OR CUSTODIAL CARE SERVICES—NEW PATIENT

(Excludes Preventive Health Care for patients through 20 years of age.)

When reference is made in your CPT manual to Office or Other Outpatient Services—New Patient; Hospital Inpatient Services—Initial Hospital Care; Nursing Facility Services—Comprehensive Nursing Facility Assessments; and Domiciliary, Rest Home, or Custodial Care Services—New Patient; the intent of Medicaid is to consider this service as the Initial Visit.

When the setting for this Initial Visit is an office or residential health care facility, for reimbursement purposes it is limited to a single visit. Future use of this category of codes will be denied when the recipient is seen by the same physician, group of physicians, or involves a shared health care facility which is a group of physicians sharing a common record. Reimbursement for an initial office visit also precludes subsequent reimbursement for an initial residential health care facility visit and vice versa.

Reimbursement for an initial office visit or initial residential health care facility visit will be disallowed, if a preventive medicine service, EPSDT examination or office consultation were billed within a twelve month period by a physician, group, shared health care facility, or practitioner sharing a common record.

If the setting is a nursing facility or hospital, the Initial Visit concept will still apply for reimbursement purposes despite CPT reference to the term Initial Hospital Care or Comprehensive Nursing Facility Assessments. Subsequent readmissions to the same facility may be reimbursed as Initial Visits, if the readmission occurs in more than 30 days from a previous discharge from the same facility by the same provider. In instances when the readmission occurs within 30 or less days from a previous discharge, the provider shall bill the relevant HCPCS procedure codes specified in the qualifier under the headings Subsequent Hospital Care or Subsequent Nursing Facility Care.

Initial Hospital Visit during a single admission will be disallowed to the same physician, group, shared health care facility, or practitioners sharing a common record who submit a claim for a consultation and transfer the patient to their service.

It is also to be understood that in order to receive reimbursement for an Initial Visit, the following minimal documentation must be on the record regardless of the setting where the examination was performed:

Example:

1. Chief complaint(s);
2. Complete history of the present illness and related systemic review—including recordings of pertinent negative findings;

3. Pertinent past medical history;
4. Pertinent family history;
5. A full physical examination pertaining to but not limited to the history of the present illness and includes recording of pertinent negative findings; and
6. Working diagnoses and treatment plan including ancillary services and drugs ordered.

NOTE: Record and documentation of visits to patients in residential health care facilities should be maintained in the providers' office record.

EXCEPTIONS: HCPCS procedure codes 99201 and 99202 are exceptions to the above requirements outlined in the qualifier for the initial visit. For codes 99201 and 99202, the provider is expected to follow the qualifier applied to routine visit or follow-up care visit for reimbursement purposes.

OFFICE OR OTHER OUTPATIENT SERVICES—ESTABLISHED PATIENT; HOSPITAL INPATIENT SERVICES—SUBSEQUENT HOSPITAL CARE; NURSING FACILITY SERVICES—SUBSEQUENT NURSING FACILITY CARE; AND DOMICILIARY, REST HOME OR CUSTODIAL CARE SERVICES—ESTABLISHED PATIENT

(Excludes Preventive Health Care for patients through 20 years of age.)

The setting could be office, hospital, nursing facility or residential health care facility.
In order to document the record for reimbursement purposes, a progress note for the noted visits should include the following:
1. In an office, or residential health care facility.
(a) Purpose of visit;
(b) Pertinent history obtained;
(c) Pertinent physical findings including pertinent negative findings based on the above;
(e) Lab, X-ray, EKG, etc., ordered with results; and

HOME SERVICES AND HOUSE CALLS

- | | |
|------------------|--|
| 99343
99353 | House Call

The "House Call" code does not distinguish between specialist and non-specialist. These codes do not apply to residential health care facility or nursing facility setting. These codes refer to a physician visit limited to the provision of medical care to an individual who would be too ill to go to a physician's office and/or is "home bound" due to his/her physical condition. When billing for a second or subsequent patient treated during the same visit, the visit should be billed as a home visit. |

The record and documentation of a Home Visit or House Call shall become part of the office progress notes and shall include, as appropriate, the following information:

1. Purpose of visit;
2. Pertinent history obtained;
3. Pertinent physical findings, including pertinent negative physical findings based on 1. and 2.;
4. Procedures, if any performed, with results;
5. Lab, X-ray, ECG, etc, ordered with results; and
6. Diagnosis(es) plus treatment plan status relative to present or pre-existing illness(es) plus pertinent recommendations and actions.

CONSULTATIONS

A consultation is recognized for reimbursement only when performed by a specialist recognized as such by this Program and the request has been made by or through the patient's attending physician and the need for such a request would be consistent with good medical practice. Two types of consultation are recognized for reimbursement—comprehensive consultation and limited consultation.

COMPREHENSIVE CONSULTATION

99275 | In order to receive reimbursement for HCPCS codes 99244, 99245, 99254, 99255, 99274 and 99275, the performance of a total systems evaluation by history and physical examination, including a total systems review and total system physical examination, are required. An alternative to that would be the utilization of one or more hours of the consulting physician's personal time in the performance of the consultation.
Reimbursement for HCPCS codes 99244, 99245, 99254, 99255, 99274 and 99275 (Comprehensive Consultation) requires the following applicable statements, or language essentially similar to those statements, to be inserted in the "remarks section" of the claim form. The form is to be signed by the provider who performed the consultation.
Examples:
1. I personally performed a total (all) systems evaluation by history and physical examination, or
2. This consultation utilized 60 or more minutes of my personal time. |
|--|---|

The following rules regarding consultations should also be recognized:

1. If a consultation is performed in an inpatient or outpatient setting and the patient is then transferred to the consultant's service during that course of illness, then the provider may not bill for an Initial Visit if he/she bills for the consultation.
2. If there is no referring physician, then an Initial Visit code should be used instead of a consultation code.
