## EBSCO Discovery Service Search Widgets available from the New Jersey State Library

Introducing EDS (JerseyClicks One Search), a single search box that public libraries can implement anywhere on their website from which patrons will be able to immediately search all statewide databases, quickly access a specific database (MasterFile, NoveList, RefUSA) or even link directly to a specific magazine (Consumer Reports, Time, Sports Illustrated). An intuitive and flexible way of quickly exposing patrons to premium content, increasing usage and user satisfaction. Additionally, the New Jersey State Library is providing a similar search tool direct to Consumer Reports, eliminating multiple clicks before patrons find information for which they are searching. Please view the following video for more information about how EDS can help your patrons find the information they need fast: <http://www.youtube.com/watch?v=gFxStH4qCTc>

To put the widgets on your website please visit <https://widgets.ebscohost.com/prod/customerspecific/cjrlc085/widgets/index.html> and test

out the widgets first to see if you like them. Then click the blue link underneath each widget that says "Click for instructions and code to include the One Search widget on your website." to get the code you need to put them on your website.
