## Description

New Jersey's water resources are essential public assets. Water is critical to the health, safety, economic wellbeing, recreational and aesthetic enjoyment, and general welfare of all New Jersey residents. The State's 9.3 million residents, \$800 billion economy, and diverse ecosystems depend upon a clean, secure, and resilient water supply.

In conjunction with the release of the 2024 New Jersey Statewide Water Supply Plan (2024 Plan), the 2024 Plan Story Map collection is an interactive resource highlighting the Plan's examination of statewide water supplies, assessment of current management strategies, and identification of future actions needed to ensure water supplies remain viable for current and future generations. As the third major Plan update since the enactment of the Water Supply Management Act, this resource presents updated water
