JOURNAL OF THE SENATE

STATE OF NEW JERSEY,
SENATE CHAMBER,
TRENTON, Tuesday, January 10th, 1911, at 12 o'clock M.

As this was the time and place appointed by the Constitution for the assembling of the Legislature, the Senate was called to order by Hon. John D. Prince, Senator from the county of Passaic, who read the following official statement:

STATE OF NEW JERSEY,
DEPARTMENT OF STATE.

I, S. D. Dickinson, Secretary of State of New Jersey, do hereby certify that the following members of the Senate have been duly qualified:

Griffith W. Lewis, for Burlington county.
William J. Bradley, for Camden county.
Robert E. Hand, for Cape May county.
Harry V. Osborne, for Essex county.
George W. F. Gaunt, for Gloucester county.
William C. Gebhardt, for Hunterdon county.
George S. Silzer, for Middlesex county.
Oliver H. Brown, for Monmouth county.
John D. Prince, for Passaic county.
William Plummer, for Salem county.
Joseph Frelinghuysen, for Somerset county.
Jacob C. Price, for Sussex county.
Ernest R. Ackerman, for Union county.
Johnston Cornish, for Warren county.

And it further appears that at the general election held on the eighth day of November, A. D. 1910, as is certified to this department by the respective county boards of election, the following persons were elected State Senators from the respective counties:

Walter E. Edge, for Atlantic county.
James A. C. Johnson, for Bergen county.
Isaac T. Nichols, for Cumberland county.
James F. Fielder, for Hudson county.

Harry D. Leavitt, for Mercer county.
Richard Fitzherbert, for Morris county.
George C. Low, for Ocean county.

And it further appears from the notice hereto annexed, signed by Thomas A. Mathis and served this day on the Secretary of State, that the said Thomas A. Mathis claims that he received a majority of the votes cast for State Senator in the county of Ocean, and that the certificate of election therein has been temporarily withheld from him, and that a rule for mandamus has been allowed and will shortly be argued, to compel the issuance of said certificate of election; and in the event of a refusal to allow said mandamus and a certificate of election is refused him, he will contest before the Senate of New Jersey the claim of George C. Low to represent Ocean county in the New Jersey State Senate.

In testimony whereof, I have hereunto set my hand and affixed my official seal, at Trenton, this Tenth day of January, A. D. 1911.

S. D. DICKINSON,
[SEAL.] *Secretary of State.*

January 9, 1911.

In re *Ocean County Senatorship.*

To Joseph Frelinghuysen, temporary presiding officer, and Howard L. Tyler, Secretary of the New Jersey Senate, Samuel D. Dickinson, Secretary of State of New Jersey, and George C. Low, Democratic contestant for the office of State Senator from Ocean county, New Jersey:

DEAR SIRS—

Please take notice, that by the recent recount of the ballots cast for State Senator in Dover township and the two Lakewood township election districts, Ocean county, New Jersey, errors were discovered sufficient to change the result of said election in the entire county; that by said recount the undersigned was shown to be the duly elected State Senator from said county; that temporarily a new certificate as required by the election act has been withheld from the undersigned; that application has been made for a mandamus to require Hon. Willard P. Voorhees, under whose direction said recount was held, to issue a certificate to the undersigned, as required by said election act.

That a rule for a mandamus has been allowed and is to be argued at an early date before the New Jersey Supreme Court.

That in case said mandamus is not allowed and a certificate is refused to the undersigned, he will contest before the Senate of

New Jersey the right of said George C. Low to claim or be the duly elected member of the New Jersey Senate from Ocean county, at the election held for that office in said county on November eighth last.

That the grounds of said contest are—

1. That at said election the boards of election did not truly, legally or properly read, count, ascertain or tally up the ballots deposited in the ballot boxes at said election in said county, and as a result did not legally, truly or properly determine that said George C. Low received 2,572 votes for said office and the undersigned only 2,491 votes as shown by the original returns.

2. That at the recount of the ballots cast in the three districts aforesaid, which recount was held on November 26, December 5 and December 6, 1910, it appeared that the undersigned was duly elected to said office by a majority of 41 votes over said George C. Low, and should have been given a certificate of election therefor, according to law.

3. That at said election held in Ocean county, New Jersey, the undersigned received a majority of the votes cast for said office, and more than the said George C. Low, and is the duly elected member of the New Jersey Senate from said county.

4. That the result of said recount was coincided and acquiesced in by said George C. Low, and a contest for said seat in the New Jersey Senate instituted by said George C. Low on December 8, 1910, by virtue of the service of a notice of contest on the undersigned and on the Secretary of State and the Secretary of the Senate, and a copy of which is hereto annexed.

5. That said recount for the three districts aforesaid was concluded on December 6, 1910, and no notice was given to the undersigned that the said George C. Low intended to oppose the issuance of a new certificate to the undersigned, based on the result of said recount, until December 14, 1910, when a notice dated December 13, 1910, and a copy of which is hereto annexed, was served on the undersigned.

6. That if, as claimed by the said George C. Low in his said notice of contest dated December 8, 1910, and also in his said notice of December 13, 1910, the ballot-box of the second district of Lakewood was tampered with and the original ballots as cast, or any of them, changed or other ballots substituted therefor subsequently to the date of said election, namely, November 8, 1910, and before the date of the beginning of said recount, namely, November 26, 1910, no notice of such alleged fraud was ever given to the undersigned previous to or otherwise than by the service of the two said notices, copies of which

are hereto annexed; that no evidence has been taken to the knowledge of the undersigned in reference to the question raised by said notices, by or before any proper tribunal, and if taken, heard or considered, the undersigned has never been permitted to hear or answer the same.

7. That the undersigned has never had his day in court on the questions raised by the said George C. Low in and by the two notices, copies of which are hereto annexed.

For the reasons above stated, in case the said New Jersey Supreme Court should determine that it cannot or should not issue the mandamus applied for as aforesaid, or in case a new certificate of the election to the undersigned, based on said recount, is refused, the New Jersey State Senate is hereby requested by the undersigned to take up, consider and determine the contest of the undersigned for the said Senatorial seat for Ocean county, New Jersey, on the merits of the case.

THOMAS A. MATHIS.

To Thomas A. Mathis:

SIR—Take notice that I shall contest your right to have been duly elected a member of the Senate of the State of New Jersey for the county of Ocean, at an election for member of the Senate of the State of New Jersey, held in said county of Ocean, on Tuesday, the eighth day of November, A. D. 1910, to which seat in the Senate of the State of New Jersey you have been or may be declared to be elected a member, and that the grounds of such contest are: that at such election in the second district of the township of Lakewood, in said county of Ocean and State of New Jersey, the board of registry and election of said district did truly and legally count and ascertain the ballots deposited therein for the office of member of the Senate of the State of New Jersey, and as a result of such count did legally and truly determine that George C. Low, the subscriber, did receive the number of two hundred and sixty votes for said office of Senator, and Thomas A. Mathis did receive two hundred and fourteen votes for said office of Senator; that after said result had been so determined by said election board, the said election board did, thereupon, file their certificate thereof with the County Clerk of Ocean county to that effect; that the ballot-box within which said votes had been deposited after said determination of said election board was tampered with and that ballots therein cast for George C. Low for said office of Senator were withdrawn therefrom or destroyed, and ballots for Thomas A. Mathis for said office of Senator were substituted therefor, in said box, and that thereafter, upon the petition of said Thomas A. Mathis, a

recount of the ballots in said election district was had before the County Board of Elections, for said county of Ocean, on the twenty-sixth day of November, and the fifth and sixth days of December, A. D. 1910, under Section 159 of the act concerning elections and the supplements thereto, under the direction of Willard P. Voorhees, a Justice of the Supreme Court of New Jersey, and upon such recount made of the votes therein in said ballot-box of said election district, the same being made after the same had been tampered with as aforesaid, it did appear that of the ballots then in said ballot-box, two hundred and fifty-four ballots had thereon the name of Thomas A. Mathis for member of the Senate of the State of New Jersey, and one hundred and seventy-nine ballots had thereon the name of George C. Low for member of the Senate of the State of New Jersey; that before such tampering with said ballots in said ballot-box the true and correct and actual vote in the county of Ocean, at such election, gave the said George C. Low a majority of eighty-one, in said county of Ocean for such office, including said second election district of the township of Lakewood, for member of the Senate of the State of New Jersey; and that said tampering with said ballots in said box changed said result so that on said recount the result was that Thomas A. Mathis was declared to have a majority in said county for said office, of forty-one votes.

Second—Because at such election for member of the Senate of the State of New Jersey, held in said county of Ocean, George C. Low, the subscriber, received a majority of the votes at said election, for said office, and received more votes for said office than the said Thomas A. Mathis.

Dated December 8, 1910.

(S) GEORGE C. LOW.

In the matter of the election of a State Senator in and for the county of Ocean, State of New Jersey, at an election held for said office in said county on the eighth day of November, A. D. nineteen hundred and ten. } Notice.

To Messrs. Berry & Riggins,
Attorneys of Thomas A. Mathis.

SIRS—Take notice, that, in the above matter, we shall apply to the Hon. Willard P. Voorhees, one of the Justices of the Supreme Court, on behalf of George C. Low, at the chambers of said justice in the city of New Brunswick, on Saturday, the seventeenth day of December, next, at ten o'clock in the fore-

noon, for an order refusing to revoke the certificate of election heretofore issued to the said George C. Low, and refusing to give any certificate, under the recent recount, to Thomas A. Mathis, on the grouns:

(1) That said Justice has no power to grant a new certificate except upon a recount of all of the votes in the county of Ocean.

(2) That the recount recently made under the direction of said Justice by the Ocean County Board of Elections at Toms River, was not a canvass of the votes actually cast at said election, because it appears by said recount and the condition and appearance of the ballots recounted, that said ballot-box in the second district of Lakewood, and the contents thereof, has been tampered with, and the result of the election changed by the fraudulent substitution of ballots in said box for the ballots actually cast at said election; all to the manifest wrong and injury of said George C. Low.

(3) Because the original count made by the election officers on the night of election and the certificate filed by them, show the true result of said election in said second district and the ballots cast therein before the same had been tampered with and changed after said ballot box had been delivered to the township clerk and before the recount thereof.

Yours respectfully,

(S) EDWARDS & SMITH,
Attorneys for George C. Low.

Dated December 13, 1910.

Mr. Ackerman moved that the Hon. George S. Silzer, Senator from Middlesex county, be appointed President *pro tempore*.

Which was agreed to.

Mr. Prince appointed Senators Price, Frelinghuysen and Bradley to conduct the President *pro tempore* to the Chair.

Mr. Prince moved that Howard L. Tyler, of Cumberland county, be appointed Temporary Secretary.

Which was agreed to.

Mr. Prince presented the credentials of

Walter E. Edge, for Atlantic county.

James A. C. Johnson, for Bergen county.

Isaac T. Nichols, for Cumberland county.

James F. Fielder, for Hudson county.

Harry D. Leavitt, for Mercer county.

Richard Fitzherbert, for Morris county.

George C. Low, for Ocean county.

Before the oath of office was administered by the President *pro tempore,* Mr. Prince presented a petition by the Hon. Thomas A. Mathis, of Ocean county, which was ordered referred to the Committee on Elections when appointed.

Under the direction of the President *pro tempore,* the Secretary called the Senate, when the following Senators appeared and answered the call:

Messrs. Ackerman, Bradley, Brown, Cornish, Edge, Fielder, Fitzherbert, Frelinghuysen, Gaunt, Gebhardt, Hand, Johnson, Leavitt, Lewis, Low, Nichols, Osborne, Plummer, Price, Prince, Silzer—21.

On motion of Mr. Prince, the Senate then proceeded to the election of a President.

Mr. Prince nominated the Hon. Ernest R. Ackerman, of the county of Union.

Mr. Osborne nominated the Hon. Johnston Cornish, of the county of Warren.

Under the direction of the President *pro tempore,* the Secretary called the Senate, with the following result:

Senators voting for Mr. Ackerman were:

Messrs. Bradley, Brown, Cornish, Edge, Frelinghuysen, Gaunt, Hand, Johnson, Lewis, Nichols, Plummer, Prince—12.

The Senators voting for Mr. Cornish were:

Messrs. Ackerman, Fielder, Fitzherbert, Gebhardt, Johnson, Low, Osborne, Price, Silzer—9.

Mr. Ackerman, having received a majority of all the votes cast, was declared by the President *pro tempore* duly elected President of the Senate for the ensuing year, and was conducted to the chair by Senators Cornish, Prince and Osborne, and took the oath of office.

On taking the chair the President addressed the Senate as follows:

FELLOW SENATORS—I sincerely thank you for your confidence in electing me to this distinguished post of duty. Your action is highly appreciated. I am not unmindful, however, of the respon-

sibilities of the office nor of the long line of distinguished statesmen who have preceded me, filling the position with credit to themselves and honor to the State of New Jersey. It is my hope and it will be my endeavor to prove worthy of the trust confided to me.

The responsibility for the enactment of bills into law this session is divided between the two great parties, both having the highest regard for the welfare of the people and both sincerely vieing with each other in a desire to acceptably serve those millions who, while invisible to us here, are watching intently our every action. Let us remember, however, that any proposed legislation will be searchingly investigated by an awakened, alert and watchful people, and they will be satisfied with nothing short of the highest standards and accomplishments, and any political party or individual failing to measure up to this mark need not expect their further confidence.

It is recorded "that of the making of books there is no end," and it is likewise seemingly so concerning the statutes which are now on the law books of the State, for they number over fifteen thousand, and consequently, to avoid perplexity, additions thereto should only come after the most mature consideration.

While deliberation is valuable, let us strive on behalf of the Senate for a businesslike session, and while we are not unaware of the wide political unrest that seems to pervade the atmosphere of the entire world, I am confident we will do nothing without careful thought, for we will ever keep in remembrance what is the present law and the mischief to be corrected before suggesting a remedy. Sound, just and carefully considered enactments, and not laws resulting from temporary hysteria, must be our aim and achievement.

It is never inopportune to strongly assert our belief in the strength and justice of constitutional government as proclaimed by our forefathers in founding our great and matchless form of government, and the sagacity and patriotism of American statesmen in preserving it for the use and enjoyment of future generations.

We are here not only representing our individual counties with their particular local needs, but our vision and mentalities must extend to the boundaries of our rapidly growing and uniquely located State. Situated as it is between the populous Empire and Keystone communities, its attractive location commands the attention of the people of two of the mightiest cities of the Western Hemisphere. Considering the State's welfare as a whole, our desire will be to do nothing, in any manner, that

will dim the brilliancy, hamper the growth or lessen the world-wide renown of our splendid State, whose motto is fittingly expressed in the words "Liberty and Prosperity." To continue to have it shine as one of the brightest advancing stars in the galaxy of States which comprises this glorious nation is an ideal for which we can all heartily strive.

Further steps in the upward course of progress will undoubtedly come before us for consideration, and while each one reserves to himself the privilege of suggesting counter propositions or amendments, each Senator, I am sure, will help in a sane advance of progress, for "he serves his party best who serves his country best," and with an eye single for the State's good, will welcome the opportunity of extending aid in the passage of such laws, no matter from what quarter the suggestion arises. Should differences appear concerning the details of proposed enactments, as history shows they always will, I doubt not but that it will be the purpose of every one to show by the clearest of reasoning that his controversial attitude is inspired only by the highest motives, and that his suggestions are advanced solely for the purpose of obtaining what he deems is best for the whole community.

As history shows that as much good comes from constructive legislation as has been accomplished following even the glories of unavoidable wars, may we not derive inspiration from the words of Lincoln, as spoken at Gettysburg, and which seem to me to be as applicable to legislative battles as he implied they were to that great critical struggle when he said: "The world will little note nor long remember what we say here," but he added, when referring to the gallant soldiers, "the world can never forget what they did here." May we hope that what is accomplished here in legislative halls will prove to be of as much permanent good to our constituents as was achieved for posterity by those who so valiantly fought on that historic field, for we all know that there is no satisfaction to be compared to that of having been helpful to others.

As your presiding officer I shall always be at the service of each Senator, irrespective of party, will try to be fair and impartial, and will not intentionally commit any act that will cause the Senate to regret having honored me.

I now await your further pleasure.

Prayer was then offered by the Rev. John N. Zelie, of Plainfield, N. J.

The Senate then proceeded to the election of a Secretary.

Mr. Prince nominated William C. Murphey, of the county of Camden.

Mr. Osborne nominated Wesley Fleming, of the county of Warren.

Under the direction of the President, the Secretary *pro tempore* called the Senate, with the following result:

Senators voting for Mr. Murphey were:

Messrs. Ackerman (President), Bradley, Brown, Edge, Frelinghuysen, Gaunt, Hand, Leavitt, Lewis, Nichols, Plummer, Prince—12.

Senators voting for Mr. Fleming were:

Messrs. Cornish, Fielder, Fitzherbert, Gebhardt, Johnson, Low, Osborne, Price, Silzer—9.

Mr. Murphy, being duly declared elected Secretary of the Senate, took the oath of office prescribed by law.

Mr. Prince offered the following resolution, which was read and adopted:

Resolved, That a committee of three be appointed to wait upon his Excellency the Governor and inform him that the Senate has organized and elected Hon. Ernest R. Ackerman, of the county of Union, President, and William C. Murphey, of the county of Camden, Secretary, and is now ready to proceed to business and also to receive any communications that he may make.

The President appointed as such committee Senators Frelinghuysen, Bradley and Fielder.

Mr. Prince offered the following resolution, which was read and adopted:

Resolved, That the Secretary of the Senate be directed to inform the House of Assembly that the Senate has organized and elected the Hon. Ernest R. Ackerman, of the county of Union, President, and William C. Murphey, of the county of Camden, Secretary, and has proceeded to business.

Mr. Osborne offered the following resolution, which was read and adopted:

WHEREAS, The State House Commission has secured a new desk and chair for the use of the incoming Governor in the Executive Chamber; and

WHEREAS, The present desk and chair have been used by the present Governor during his full term; therefore be it

Resolved, by the Senate (the House of Assembly concurring), That the State House Commission be and it is hereby authorized to present to the Honorable John Franklin Fort, the present Governor, the desk and chair used by him as the Chief Executive of the State during the past three years.

Mr. Prince offered the following resolution, which was read and adopted:

Resolved (the House of Assembly concurring), That a committee of eight, three Senators and five Assemblymen, be designated by the President of the Senate and Speaker of the House of Assembly respectively to make the necessary arrangements for the inauguration of the Honorable Woodrow Wilson as Governor of the State of New Jersey.

The President appointed Senators Leavitt, Lewis and Osborne to represent the Senate on such committee.

The committee appointed to wait upon the Governor returned, and reported that they had attended to that duty and that His Excellency would communicate with the Senate by message.

Mr. Prince offered the following nominations and moved their election to the respective positions:

Assistant Secretary—Benjamin Patterson, of the county of Salem.

Journal Clerk—John W. Clift, of the county of Union.

Assistant Journal Clerk—William W. Evans, of the county of Passaic.

Sergeant-at-Arms—G. A. Holl, of the county of Mercer.

Assistant Sergeant-at-Arms—John Fitzga, of the county of Somerset.

Supervisor of Bills—Edward A. Sexsmith, of the county of Monmouth.

Assistant Supervisor of Bills—Wilbur K. Sloan, of the county of Gloucester.

Bill Clerk—Charles Bohm, of the county of Cape May.

Calendar Clerk—Tuttle C. Walker, of the county of Atlantic.

President's Private Secretary—Charles S. Sminck, of the county of Union.

Clerk to Committee on Printed Bills—Thomas S. Mooney, of the county of Burlington.

Doorkeepers—William R. Pinker, of the county of Cape May; Joseph Navatto, of the county of Somerset; Isaac T. Saxton, of the county of Cumberland; Everett Holtzhauser, of the county of Gloucester; W. C. C. Zapf, of the county of Mercer.

Pages—Irvin Davis, of the county of Atlantic; Howard Hoover, of the county of Burlington; Arthur Craig, of the county of Cumberland; Harry Marino, of the county of Passaic.

Mr. Osborne moved to substitute by electing the following:

Assistant Secretary—Samuel T. Munson, of the county of Sussex.

Journal Clerk—Renwick N. Spear, of the county of Hudson.

Assistant Journal Clerk—James Norton, of the county of Bergen.

Sergeant-at-Arms—James A. Murray, of the county of Morris.

Assistant Sergeant-at-Arms—George A. Forns, of the county of Ocean.

Calendar Clerk—John Skein, of the county of Middlesex.

Bill Clerk—David Holcomb, of the county of Hunterdon.

Assistant Bill Clerk—John Englehorn, of the county of Essex.

Supervisor of Bills—Edward L. Jonas, of the county of Essex.

Assistant Supervisor of Bills—Floyd DeVore, of the county of Sussex.

Clerk to Committee on Printed Bills—Geo. W. Mott, of the county of Ocean.

Doorkeepers—Ernest A. Kielt, of the county of Hudson; Samuel P. Messler, of the county of Morris; Martin Reed, of the county of Sussex; Edward Fitzgerald, of the county of Bergen; James Kinney, of the county of Middlesex.

The substitute motion was lost by the following vote:

In the affirmative were—

Messrs. Cornish, Fielder, Gebhardt, Johnson, Low, Osborne, Price, Silzer—8.

In the negative were—

Messrs. Ackerman (President), Bradley, Brown, Edge, Frelinghuysen, Gaunt, Hand, Leavitt, Lewis, Nichols, Plummer, Prince—12.

The original motion was then agreed to by the following vote:

In the affirmative were—

Messrs. Ackerman (President), Bradley, Brown, Cornish, Edge, Fielder, Fitzherbert, Frelinghuysen, Gaunt, Gebhardt, Hand, Johnson, Leavitt, Lewis, Low, Nichols, Osborne, Plummer, Price, Prince, Silzer—21.

In the negative—None.

The following message was received from the Governor by the hands of Mr. Fort, his Secretary, which read as follows:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
January 10th, 1911.

To the Legislature:

Speaking generally, the affairs of the State are in a very satisfactory condition, and the management of its several penal, charitable and correctional institutions, in so far as the Executive is able to determine, is good.

A close study of the affairs of the State for the past three years evidences that there is slight cause for just criticism.

There will always be, in public affairs, extravagance in some departments. But, even in that respect, there is little room for complaint in this State.

The officials of the State are seeking to conduct their departments in an economical and intelligent manner. The one or two possible exceptions to this statement only prove the rule.

During the past three years the offices of the Comptroller and Treasurer have been managed in an admirable manner and reflect credit upon the State and those officials.

STATE FINANCES.

The present financial condition of the State is very gratifying. At the end of the fiscal year of 1908—the first fiscal year of the present administration—the *net free cash balance* in the State Treasury, after allowing for contracts uncompleted, was only $78,083.72. At the end of the fiscal year of 1909 it was $964,353.52, and at the close of business October 31st, 1910, it was $1,609,043.80.

There are no urgent demands upon the Treasury of the State at this time to cause any alarm, or to indicate that there need be any anxiety about the present State revenues meeting all necessary expenditure.

The surplus does not warrant extravagance. The estimated revenues of the State will justify ample provision for all reasonable State needs. A free balance of at least one million dollars should always be in the Treasury of a State like ours. We never know when an emergency may arise. Our Constitution prevents the incurring of any State debt or liability (except in case of war, invasion or insurrection) which shall at any time exceed one hundred thousand dollars, and this would seem to make it imperative, if our financial policy is to be a wise one, to always keep a reasonable treasury balance. The total expenditure for State purposes during the past year, including $2,376,939.88 disbursed to public schools, was $7,670,663.69.

Our State is growing fast. The Legislature has been exceedingly careful in making appropriations. As compared with twenty years ago the expenditure seems large, but when it is recalled how great has been the growth of the State and the demands upon it for new institutions, it is not surprising. It will be difficult to find any way to reduce it; in fact, it is apparent to anyone familiar with the needs of the State that this sum must be increased by the construction of some greatly needed new buildings and by necessary additions to existing buildings.

NEW INSTITUTIONS.

The Legislature, at its last session, by Chapter 72 of the Laws of that year, provided by a very comprehensive act for the erection of a reformatory for women. This institution should be built, as it is greatly needed. There can be no justification for the confining of women prisoners in the same institution with men and under male keepers. Besides that, the erection of such a reformatory for women has long been demanded by the enlightened public sentiment of the State. A suitable appropriation for this public work should be made.

Another building that is urgently required is one for the detention of the convict insane. No one can visit the State Hospi-

tals for the Insane in this State and fail to realize both the peril, and wrong to other inmates and the attendants, of the confinement of the convict insane in such an insecure way. Besides that, their noise and frequent outbreaks is most injurious in its effect upon the nervous condition of the curable inmates. All that was said on this subject in my Second Annual Message is most earnestly commended to you again. The Managers and the Medical Directors of both State Hospitals earnestly urge an insane convict building. It can be constructed on the grounds of the Trenton State Hospital and put under its management with practically no extra cost of maintenance required. It will also give greatly needed room for almost two hundred additional patients in the two State Hospitals. It is unjust to keep the innocent, in their affliction, in confinement with the criminal, vicious and convict insane. One hundred thousand dollars would construct a suitable building. There is no present need equal to this in its demand upon the State. Present conditions as to the housing of the criminal and convict insane are both dangerous and absolutely unjustifiable.

PURCHASE OF SUPPLIES FOR INSTITUTIONS.

In each of my previous annual messages it has been earnestly urged that provision be made for a State Board for the purchase of supplies. The present method of each institution purchasing for itself, of local trades people or otherwise, and at local retail rates, is objectionable in the extreme.

If there be any graft in the State it is in these purchases. The State of New York has saved several hundred thousand dollars under a joint purchase system, and an estimate of a saving in this State of one hundred and fifty thousand dollars per annum, under the system here suggested, is not deemed excessive. Opposition to the establishment of such a purchasing board comes from only one source, the present purchasers and sellers, and they can have but one reason, and that had better not be named.

NEW DEPARTMENTS.

In each previous message I have urged the creation of three new departments in the State government:

(1) A Department of Corporations.

(2) A Department of Motor Vehicles.

(3) A Department of Collateral Inheritance Taxes.

Each of these matters, I am convinced, after three years of experience and knowledge as to their management, could be better conducted, and at less expense, under a department of its own.

Each year the Attorney-General has, at my request, prepared acts to accomplish the purposes here suggested. The Legislature has not seen fit to enact them into law. It is earnestly to be hoped that the present Legislature will. It will not increase the expense of management to create these departments. They can be managed without any additional cost, and, in my judgment, at less cost than in the method at present prevailing, and certainly with greater efficiency.

POWER OF REMOVAL.

Every State official holding office by virtue of a statute should, in all cases, be made subject to removal by the Governor, upon written charges and after hearing. For three years I have earnestly urged this. It is right and necessary to good administration that it should be so. The Governor is elected by the people and expected to insist upon the proper performance of public duty by all officials in the State government. It is humiliating to demand that wrongs be righted and that extravagance, illegality or incompetency cease, and have a subordinate (it may be an underling in some department or institution) treat your suggestion with contempt or possibly criticise you for making it, and be powerless to deal effectively with the contumacious, corrupt or incompetent official. No Governor would exercise this authority other than discreetly. It would have been safe in the hands of Governors in the past and it will be in the future. Such a power exists, by statute, in many States, and in some by constitutional provision—notably, New York and Wisconsin. A summary of the constitutional and statutory legislation in the several States on this question will be found in my First Annual Message. No honest, faithful and competent public official can object to being subject to removal for cause. He has nothing to

fear. It is only the inefficient, careless or grafting who need fear such a law.

THE INLAND WATERWAY.

The Inland Waterway Department was established by Chapter 15 of the Laws of 1908. Under it, through appropriations made for that purpose, the sum of about $200,000 has been expended or contracted for to dredge the proposed waterway from Bay Head to Cape May City. The greater part of the work has been done, and when the existing contracts are fulfilled the work will be very near completion. It will require only one additional appropriation of probably about one hundred thousand dollars to finish the dredging, to give a waterway one hundred feet in width and six feet in depth over the whole course.

Already it is doing wonders for our Atlantic coast. The future maintenance of the way requires that a license fee be laid of one dollar per year for every power boat using it, which it is estimated will produce a revenue of ten thousand dollars per year, which amount will more than pay the cost of the annual staking of the waterway and also cover the actual expense of the salary of the Commissioner of the Department and his office force and incidental expenses. Such a license tax is recommended. This enterprise is enthusiastically supported by all our seashore counties and I am convinced has the approval of the people of the State. The total expense may not equal, certainly will not exceed, the original appropriation of three hundred thousand dollars authorized by the Act of 1908, creating the Department and authorizing the Governor to define the route.

It is now evident from the demands for riparian lands along the inland waterway that the large increase in the value of these lands owing to the construction of the waterway will many times cover its cost. In this respect alone it was a paying proposition for the State.

THE OCEAN HIGHWAY.

Pursuant to the provisions of Chapter 33 of the Laws of 1909 and Chapter 220, Laws of 1910, the State Highway Commis-

sion have defined the route of the proposed Ocean Highway and provided for the expenditure of the fifty thousand dollars appropriated in 1910 for the commencement of the work of the straightening and opening of said highway. New strips of road have been opened and old strips improved under the action of the State Highway Commission during the past year, and parts of the work are still under construction and improvement. Of the fund so appropriated in 1910, $7,000 was voted for work in Burlington county, $7,000 was voted for work in Cape May county, $20,000 for work in Monmouth county, $11,000 for work in Ocean county and $5,000 for work in Atlantic county.

This State Highway is one of the great enterprises undertaken by the State and should be carried on by appropriate appropriations year by year, until the Highway is put into perfect order and fully established from the Highlands in Monmouth to Cape May City. The Atlantic Coast is one of the greatest assets of the State and its beauty and attractiveness should be fostered by the State in every way. The maintenance of the way should be done at the expense of the State. Massachusetts finds it can be done for less than three hundred dollars per mile, which means that the Ocean Highway could be kept in repair and made the most attractive one hundred miles in this country for not over thirty thousand dollars per annum. Of the annual sum appropriated by the State for highway maintenance this is not an unreasonable proportion to devote to this great public enterprise. The proposed Ocean Highway has met with universal public approval. It should be widened, straightened and improved until it shall become the most attractive highway in the world. The value of such a highway to the State cannot be overestimated. Public policy should encourage it in every way. It would aid in bringing great wealth to our State.

VOTING MACHINES.

There still exists an almost universal demand for the repeal of the act permitting the use of voting machines at elections. It is not prejudice, but a deep-seated conviction that causes the objection to the machines. In the 335 districts in which a vote as to

their retention has been taken under the Act of 1909, 321 have voted to discontinue their use. It would seem that a decent regard for the wish of the voters would cause the immediate repeal of the voting machine act. Few, if any, not pecuniarily interested, seek to retain the machines. Why is it, in the face of such universally expressed opposition, these machines are forced upon the people?

PROPERTY EAST OF CAPITOL.

By Chapter 137 of the Laws of 1902, the State House Commission was authorized to acquire the property of the Green estate on the east of the Capitol grounds and other property in the rear thereof to the line of the Trenton Water Power on the South. Under an appropriation made in 1910, the Green property fronting on State street and running back to Front street (being about 76 feet on State street) was acquired by purchase at a cost of thirty-two thousand and five hundred dollars—a reasonable price. The State is to have full possession not later than April first next. The buildings now on the property can be used for some of the boards or commissions now in the State House and relieve its crowded condition. The property in the rear of the Green property, and fronting on Front street, will have to be acquired by condemnation, and proceedings for that purpose are now under way. Appropriation for this purpose was made at the last session. The City of Trenton should be requested to close Delaware street and throw it into the Capitol grounds.

THE PROPERTY OF THE STATE IN THE REAR OF THE CAPITOL.

By Chapter 272 of the Laws of 1908, the State purchased about 32 acres lying between the rear line of the Capitol property and the Delaware river. It secured it at a very reasonable price. By Chapter 273 of the Laws of 1910 thirty thousand dollars was appropriated to improve it. The State House Commission gave careful consideration to the subject and determined that it was probably unwise to act, except in

conjunction with the City of Trenton, in order that a retaining wall might first be built along the whole property on the river side. Upon further consideration it was found that we could have used the 1910 appropriation with safety in improving the property by filling in and the like, but as it was then too late to advertise for bids for the work, it was concluded to lapse the appropriation and leave the whole matter for future action. This ground should be improved. It would greatly add to the Capitol surroundings and remove what is now objectionable, and make it a place of attraction and beauty. A renewal of the appropriation the present year is recommended.

INSURANCE OF STATE PROPERTY.

The Treasurer of the State has secured and tabulated a complete list of the fire insurance upon State buildings. The total carried by the State on all its buildings is $5,147,600, at a premium of about $70,000.

Our present insurance rates are too high. There is little risk on State buildings. The moral risk, which is always an item in fixing rates on private property, does not exist on State property. There can be no motive for destroying State property, as no personal gain can come.

I renew the recommendations made last year that the insurance of all State property be placed by the State House Commission, and a lump sum appropriation made each year to that commission for that purpose. A blanket insurance system of say $1,000,000, or even less, of insurance, to cover all State buildings, would be abundant and would reduce the present cost at least three-fourths.

The advantages of such a system were set forth in my Second Annual Message in 1910.

ROOMS NEEDED IN THE CAPITOL.

The present State Board of Health is one of the most efficient departments in the State. There is an urgent need for additional rooms for its work. The laboratory in which tests of all kinds are now made is entirely inadequate.

Three new rooms should be constructed at the top of the Capitol over the present committee rooms of the Assembly, two to be used by the State Board of Health and one for the State Board of Education.

The State Board of Education has no room at the Capitol for its meetings and it holds its meetings at considerable expense to the State at various hotels in different parts of the State. Many members of the Board have protested to the Governor against this practice, and insist that a suitable place should be set apart for the Board in the Capitol. This is clearly necessary.

Twenty-five hundred dollars would probably supply the necessary rooms and an appropriation should be made to meet these needs of the Board of Health and State Board of Education as here suggested.

MANAGEMENT OF COUNTY HOSPITALS FOR THE INSANE.

The State has an interest in the management of the several county hospitals for the insane. During the last fiscal year the State paid from its treasury toward the support of these institutions the sum of $276,928.23. We have no voice in their management or the expenditure of this money. The grand jury of Essex county, after a thorough investigation of its county hospital for the insane, presented it to the court as being incompetently managed and have recommended that the management of the institution be taken from the chosen freeholders. The conditions prevailing in this county are probably no exception to the rule in other counties. Under the management of the chosen freeholders these institutions are controlled by political influences and policies. Each of them should be put under a board of managers of seven or nine persons, a part of whom should be appointed by the Justice of the Supreme Court presiding in the Circuit Court of the county and another part by the Governor, that the State may have representation on each county board to see that the funds contributed by it are rightly expended. The appointment of all the officials should be vested in the board of managers and civil service principles should be required to be applied as to all persons employed.

THE STATE'S POTABLE WATERS.

The potable waters of the State should all be owned or controlled by the State. No private company should be given a charter or franchise to take to itself and sell any of these waters. Already we have several such companies claiming such right in the surplus potable water at the head waters of the rivers and the lakes of the State.

In my Second Annual Message I brought this matter to the attention of the Legislature as forcibly as I could. What was then said is again earnestly urged upon you. None of the waters of the State should be permitted to be taken by private water companies, and any right in such companies to condemn such waters in their own right (if any such power exists), as well as any power to condemn such waters, in the name of a municipality for their contract uses, should be repealed.

The system prevailing in Massachusetts and instanced in the Metropolitan Water District, should be adopted here, and the State should take over all its potable waters and conserve them for our own people. If any are to be sold to meet needs outside the State, which cannot be otherwise met, they should be purchased from and delivered by the State.

The Legislature should let it be known that all private water companies will be refused any additional rights in this State, and that as speedily as possible, under lawful methods, the State will take over all their franchises and powers and repeal their charters.

To permit a monopoly of the potable waters of the State by a private company is unthinkable.

TUBERCULOSIS COUNTY HOSPITALS.

There is a strong public sentiment for the establishment in each county of the State of county hospitals for the treatment of tuberculosis cases that are not only incipient, but advanced. The State cannot do this work as successfully as the counties. The families of tubercular patients prefer that they be nearby,

that they may visit them, and such patients naturally like to be close to their homes.

Glen Gardner, the only State institution we have, is filled, and many applicants are awaiting opportunity to enter. It would be much cheaper for the State to do as it does in the case of county hospitals for the insane, namely, pay a certain sum per week for the maintenance of tubercular cases in county hospitals.

The white plague is taking off about four thousand of our citizens each year. Every interest of the State requires that we aid in the prevention, and, if possible, the cure of this terrible scourge.

I recommend a system of State aid to county hospitals for the treatment of tubercular patients, similar to that now existing for insane in county hospitals. It would be better and much cheaper than increasing State hospital facilities for this purpose.

EMPLOYERS' LIABILITY ACT.

Under an act passed at the last session of the Legislature a commission was appointed by the Governor to inquire into the subject of employers' liability laws and to report by bill at this session of the Legislature.

The Commission has given the subject great care, and their report will be before you. Whatever else is done or reported, the Legislature should at this session enact a law abolishing the rule which makes the negligence of a fellow servant a defense in personal injury cases, and also take away the defense in cases of injuries resulting from obvious risks.

A risk that is obvious is just as much so to the master as to the servant, and, if the master puts a servant to work at a machine which it is obvious may injure him, the risk assumed should be the risk of the business.

Another rule that should be abolished is the one which allows the master to continue a servant at work at a machine reported defective, and which holds that the servant may only work at such a defective machine for a reasonable time after being continued at it without himself assuming the risk.

In this latter case the rule of law should be that the master takes the risk so long as he fails to repair the defect or permits the servant to work at the defective machine without repairing it. There is no longer any justification for the old common law rule in the cases above suggested.

Contributory negligence of the servant himself is the only common law rule which should remain to prevent recovery by a servant for personal injuries.

SUPERVISION OF WEIGHTS AND MEASURES.

The United States supplies, at a small cost, standard weights, which, by Chapter 239 of the Laws of 1908, are to be kept in the office of the Secretary of State and of the several County Clerks, that all weights may be tested thereby. So far as I am able to learn, there is no authentic set of standard weights in any of those offices, nor, is there any supervision by the State over the weights and measures used by dealers in this State. There should be, and the penalty provided by law for using such as are below the standard should be strictly enforced. The evasion of the law in this regard is a fraud upon a vast body of our people, and it is quite extensive.

In my view, the supervision of all weighing and measuring devices should be placed under the Department of Labor. This Department has a sufficient force to do this work, and could do it most satisfactorily without additional cost. I recommend such legislation.

STATE FISH AND GAME COMMISSION.

The State Fish and Game Commission is not in my judgment doing its work as efficiently as it could be done. The Commission should be abolished and a single Commissioner appointed at a reasonable salary, who should be required to devote all his time to the duties of the office.

The revenue which this Commission now receives under its several license laws and from fines amounted the last fiscal year to about $66,500. Besides this several thousand dollars were also appropriated from the State treasury.

The Department now has four commissioners, a secretary, a protector and twenty-two wardens. The salary of the wardens should be increased and they be required to devote all their time to the work.

The great State of New York has but a single commissioner who also has all the large forest reserves under his charge.

The work could be done to much greater advantage by a single head, and the State, I am sure, would get much better results. The revenue now received is abundant to cover all expense, and the cost would not be exceeded by a reorganization as here suggested. All expense should be paid from the license fees and fines. They are abundant for the purpose.

OYSTER INDUSTRY.

The value of the oyster industry of the State last year was about five millions of dollars. Most of the oyster lands are State lands leased to the planter. The total revenue derived by the State from these leases last year was about twenty-eight thousand dollars. The highest lease price charged per acre, per year, is three dollars, while many acres are leased as low as fifty cents per acre.

In my judgment this price is entirely inadequate. The oyster growers in other states pay as high as ten dollars per acre for good oyster planting lands—in no sense superior to ours. The truth is that our oyster regulation policy is a mere policy of favor without any general system of any kind.

We have a Commissioner of Shell Fisheries. We have a so-called State Oyster Commission, and a separate commission for Atlantic county and another for Ocean county and a single commissioner for Shark river in Monmouth county; all these are paid officials, and in my judgment, after full inspection and inquiry, all are unnecessary.

There should be a single-headed oyster commission, with power to engage the necessary deputies to patrol and protect the industry.

The present system has not been self-supporting until very lately. The revenue barely covers the expense now. Properly

and economically managed, with just and fair rentals, it would pay sufficient to cover all the expense of administration, leasing, patrolling and the like, and return, as it should, some revenue to the State. The system here suggested would also abolish the favoritism now so evidently prevalent. The present system is not for the benefit of the State.

The economical way would be to abolish the present Fish and Game Commission and the Commissioner of Shell Fisheries, and all existing oyster commissions, and put them all under a new title of "Oyster, Fish and Game Department," with a well-salaried commissioner at its head, with full power, with the approval of the Governor, to appoint all assistants necessary to conduct the department and enforce the law.

The revenue from gunners' licenses, oyster leases, fines and the like would amount, even at the present rate of charges, to not less than one hundred thousand dollars per year, and this would amply provide for all the cost of the Department.

With this arrangement would come greater economy in administration, as the assistants would be busy all the year, in the different branches of the service, in their respective seasons. There are no branches of the State service which need systematizing more than those relating to oysters, fish and game.

THE RIPARIAN LANDS.

The work of the Riparian Commission for the past year is worthy of high praise. It has increased the price of riparian lands and leases very greatly. During the past three years over nine hundred thousand dollars has been turned into the permanent school fund of the State. This is equal to one-fifth of all revenue derived from this source since 1844. It is a splendid showing. The present Governor notified the Commissioners to increase the price of all State lands, and this has been done. In some cases the raise has equalled several hundred per cent. of the old sale price. Even at this price the demands have been great. There is but a limited supply of these lands in the harbor of New York and its vicinity, and their value is very great. The prices fixed have in no case retarded great industries from

coming to us, nor will they hereafter. The present Riparian Commission and the Governor have worked in perfect harmony, with splendid results to the State. By proper management, and by securing fair prices for the remaining riparian lands, the permanent school fund of the State can easily be increased in a few years to at least ten millions of dollars, thus assuring a very large increase in the interest account for free public school purposes.

REVALUATION OF RAILROAD PROPERTY.

By Joint Resolution No. 3, Laws of 1909, the Legislature authorized the beginning of a systematic revaluation of railroad property for the purposes of State taxation. By Chapter 307 of the Laws of 1910, that work was directed to be continued and to be completed by April 12th, 1911. The work has been done and will be fully completed and reported upon. So far as surface indications can determine, it appears to have been well done. It has had the most competent appraisers that the Governor was able to secure.

The Act of 1909 directed the appointment of three commissioners and named September first of the same year as the date for completing the work. Of course it soon became apparent that it would take more than a year to do the work rightly. The appropriation of 1909 was exhausted by September first, 1909, and the commissioners were in the midst of important work, to make necessary the very intelligent preliminary report which they made to the Legislature of 1910. At the suggestion of the Governor they continued on with their work during the months of September and October, 1909, without receiving pay therefor. It was expected to pay them for this service out of the appropriation in the supplemental bill of 1910, but it was found to be so worded that the Governor and Comptroller did not feel justified in so doing, with the result that over twelve thousand dollars of the appropriation for this work lapsed on October 31st, 1910. The amount due the three commissioners for the two months devoted to the State was, under the terms of their employment, two thousand dollars each,

being six thousand dollars in all (half the lapsed sum above stated), and I recommend that this money, so earned, be appropriated at the present session that they may be paid.

With the completion of this revaluation let us hope that the railway taxation question, and the fairness of railway valuation, for the purpose of taxation, will be eliminated from future discussion in political controversies.

DETECTIVE LICENSES.

The Governor is constantly asked for commissions for State detectives. By Chapter 288 of the Laws of 1906, the Comptroller is authorized to issue such a commission on the payment of one hundred dollars. There are also some private detective associations which still have the power to appoint, at their own fee, and the Governor *must* commission. All these private detective agencies with power to appoint detectives should be abolished. The present fee required to be paid to the Comptroller is excessive. I recommend that the Governor, upon such conditions as he may prescribe to protect against imposition, be authorized to appoint State detectives, in his discretion, with the full power of constables, for a term of five years, in the same manner as he does notaries public, for a fee of twenty-five dollars, with power in the Governor, at any time, to revoke any such commission for any cause which he may deem to be justifiable.

THE NATIONAL GUARD.

No State has a National Guard of which it can be more justly proud than can we of ours. Everything should be done to bring it into strict conformity with the Act of Congress. The same age of retirement as that provided by the Dick Act should prevail in this State.

The Legislature of 1909 passed an act to bring the Guard under the same conditions, as to age limit, as the Dick act. The Court of Errors decided that act unconstitutional, as to officers elected by their fellow officers under the method provided by the State Constitution, and who were in office at the time of the

passage of that act. But that retirement act is in full operation as to all officers, so elected, after the act became a law; time, therefore, will cure the present unfortunate condition.

The younger officers of the Guard should be encouraged by the assured hope of just promotion, owing to retirement, in due time, of the older officers in the service. The admirable report of the Adjutant-General is commended to the consideration of the Legislature.

THE EXPRESS STRIKE.

On or about October 20th, 1910, the employes of three express companies doing business at the Jersey City and Hoboken terminals in this State went upon a strike for causes deemed by them to be just. The strike was handled by the Jersey City authorities with good judgment. Appeals were made to the Executive to order out the National Guard, or a part of it, but, after a thorough investigation, through the Adjutant-General's office, and otherwise, and after full personal inquiry and conference with strikers and employers, I declined to order out any part of the National Guard. In this action I was sustained by the opinion of the Attorney-General.

The ordering out of the National Guard in case of strikes, or the like, is a matter for the most careful consideration. It is not a question to be lightly treated by the Executive, when he is asked to move the National Guard with loaded arms to a certain point in the State, where it may be possible that it will be called upon to shoot down our own citizens. It should never be done, except the local authorities are unable to reasonably control the situation and preserve the public peace.

There is quite a distinction between using the National Guard for the preserving of the public peace and the prevention of rioting, and the employing of the guardsmen in transporting merchandise upon vehicles through the public streets, thus inciting to riot by the very act of the Guard.

When troops are called out, they cannot determine upon the controversy. They must only keep the peace, and that alone. They are not sent to conduct the business of the employer, nor

to aid the striking employe in trying to compel his re-employment. They are there to preserve order and to prevent either party doing any act of rioting or any act that may tend to incite to riotous conduct.

The strike was finally settled, and the wisdom of refusing to order out the Guard was clear. Upon all the facts, it was apparent that the strike would never have occurred in the first instance, if the reasonable request made by the employes had been considered by the employers in a spirit which the common dictates of humanity would seem to have required.

THE EMERGENCY FUND.

The fund provided for use by the Governor in cases of emergency should be made larger than ten thousand dollars. During my term it has sufficed, and no doubt will in all ordinary cases. But if the National Guard is ordered out in any given emergency, the fund is insufficient. The Governor can be trusted with this fund, and he will not use it where absolute need is not shown. That which is not used will lapse into the treasury.

Our State is large and becoming more and more cosmopolitan. It is never known what will occur requiring quick action, and, since the appropriation bill prevents any money going out of the treasury, except as it provides, ample provision should be made for the Governor to protect and preserve the peace or to meet other conditions, should necessity arise. Reasonable precaution would not make it less than twenty-five thousand dollars.

AGRICULTURE.

The agricultural interests of our State are a subject matter of congratulation. The value of farm lands and the increased value of the output are remarkable. A table showing the steady increase for the past eleven years makes a wonderful exhibit.

Our farmers are prosperous, and the tendency now is for young men to remain upon the farm, and for those who are being educated in proper schools of agriculture to go upon the farm as a life work. There is no interest or business which

assures a greater independence and a more certain profit, together with the general comforts of life, than farming.

The record of the past six years in New Jersey in the value of the output of the farm is as follows:

Year.	*Field Crops and Milk.*
1905,	49,964,286 00
1906,	52,460,262 00
1907,	56,403,734 00
1908,	57,743,153 00
1909,	59,357,955 00
1910,	63,000,000 00

The foregoing table does not include the value of the live stock sold, which last year amounted to $26,000,000.

LIMIT OF MATTERS IN MESSAGE.

It has been the aim in writing this message to confine it exclusively to the details of departments and institutions and to purposely avoid recommendations as to legislation touching new acts affecting State policy—political or reformatory.

It seemed to me only courteous that recommendations as to the legislative policy of the State on such subjects should be left to the incoming Governor.

The election just passed was fought upon certain lines of policy, and a Governor fresh from the contest, and who has his own ideas and ideals, should voice his own views as to the legislation he deems desirable to be enacted.

None of the acts which may be passed at this session can possibly come to me for approval during the few days remaining of my term. My views upon such legislation have been fully expressed in previous messages, and my opinions have not changed. Time and experience have only confirmed me in my views as to the measures heretofore recommended, and there are no suggestions thus made which I would wish to withdraw. My only regret is that the legislation advised was not enacted, and I believe that the result of the election evidenced that the people

joined with me in that regret. They have forcibly expressed their opinion.

During the three years of my term it has been my purpose to accomplish legislation which I firmly believe the people desired. If there was failure in this, as I think there was, I am unwilling to assume any of the responsibility. I am quite convinced that they know the reason for the failure and the means and interests which caused it.

CONCLUSION.

We have a great State, with a large and intelligent population, and are rich along all industrial, agricultural and commercial lines. Our people are honorable and hold high moral and political ideals. Fortunately situated, as we are, we will continue to grow and prosper. With wise laws and their just enforcement, we shall still further rise in importance and leadership among the States which constitute the greatest free government the civilization of man has ever developed.

Respectfully submitted,

JOHN FRANKLIN FORT,

Governor.

The original resolution was then adopted.

The following message was received from the House of Assembly by the hands of its Clerk:

STATE OF NEW JERSEY,
ASSEMBLY CHAMBER,
January 10th, 1911.

Mr. President:

I am directed by the House of Assembly to inform the Senate that the House of Assembly has passed the following resolution:

Resolved, That the Clerk of the House be and he is hereby directed to inform the Senate that the House of Assembly has organized by the election of Hon. Edward Kenny, of Hudson county, as Speaker, and Daniel A. Dugan, of Essex county, as Clerk, and has proceeded to business.

DANIEL A. DUGAN,
Clerk of the House of Assembly.

Mr. Prince offered the following resolution, and moved its adoption:

Resolved, That the Secretary of the Senate be and he is hereby authorized to appoint for this session one assistant bill clerk, one clerk to the Secretary, one stenographer, one assistant stenographer, eight clerks for services upon the respective committees, and that the President of the Senate be authorized to appoint an assistant secretary for his own convenience.

Mr. Osborne moved to lay the motion on the table, which was disagreed to by the following vote:

In the affrmative were—

Messrs. Cornish, Fielder, Fitzherbert, Gebhardt, Johnson, Low, Osborne, Price, Silzer—9.

In the negative were—

Messrs. Ackerman (President), Bradley, Brown, Edge, Frelinghuysen, Gaunt, Hand, Leavitt, Lewis, Nichols, Plummer, Prince—12.

Mr. Prince moved that when the Senate adjourn it be to meet on Friday morning at 10 o'clock, and that when it then adjourn it be to meet on Monday evening at 8 o'clock.

Which was agreed to.

Mr. Frelinghuysen offered the following resolution, which was read and adopted:

WHEREAS, At the session of 1909 the Senate authorized by resolution the appointment of three members of this body who, with the members of the State Board of Education, should constitute a committee to investigate the methods and practices, expense and disbursements of the free public schools of this State and other matters pertinent thereto; and

WHEREAS, It being impossible for said committee to complete its investigations and report to the Senate at the next session, in view of which the Senate at the session of 1910 did continue the operation of said committee until the session of 1911; and

WHEREAS, This committee in its investigations has brought to light much that will be of value to the State at large in the management and improvement of its public school system, but has been unable for lack of time to complete finally its work and arrange the information received in a full and satisfactory report;

Resolved by the Senate of the State of New Jersey, That the committee heretofore appointed for the purposes referred to in the preamble be continued as to the three members of this body, but that instead of the entire State Board of Education, three members thereof, to wit, S. St. John McCutcheon, William H. Morrow and Dr. William G. Schauffler, constitute the representation of the State Board of Education on said committee. The committee thus constituted shall continue to exercise the powers and perform the duties of the committee under the original resolution, and shall report at this session of the Senate.

Which was read for the first time by its title, ordered to have a second reading, and referred to the Committee on Revision and Amendment of the Laws.

The following message was received from the Governor, by the hands of Mr. Fort, his Secretary:

January 16, 1911.

To the Legislature:

By Joint Resolution No. 2, entitled "Joint Resolution for the appointment of a commission to inquire into and report legislation upon the subject of an employers' liability act," approved April 9, 1910, a commission was duly constituted by the appointments made in the manner required by that Joint Resolution.

The said Commission has been industriously at work holding public and private sessions for the consideration of the questions referred to them from the time of their appointment (soon after the adjournment of the Legislature) until the eleventh of January, instant, when they presented their report to the Governor, together with a bill for such legislation as they recommend should be enacted into law by the Legislature.

The said report, together with the accompanying testimony and documents presented to the Governor, are herewith transmitted to the Legislature and recommendation is made that the said report and the accompanying evidence and documents be printed.

It is quite apparent from a careful perusal of the report, so far as the Executive has been able to make it, that there will be a wide demand for the act recommended, as well as the report of the Commission and the testimony taken before it at the several hearings held.

The legislation proposed is of the most advanced character, and the report presented shows the greatest care in its preparation, and that the most thoughtful consideration has been given to the entire subject.

The character of this Commission, composed as it is of two business men, representative of the very largest business interests in this country, and two members of labor organizations, representative of the best thought of the labor interests in our day, together with two representatives, one of the Senate and one of the House of Assembly of the State, makes the joint report of this Commission of very great value upon this vital question of such great public concern.

The recommendations contained in my annual message presented at this session are all covered in this report and in the bill presented with it. I have given great care to the consideration of this proposed act since it was presented to me by the Commission, and am prepared to give it, practically, unqualified approval.

The act proposed seems to me to solve the various questions arising out of the common-law rules with relation to master and servant in a way that is exceptionally satisfactory. That the Commission should have unanimously reached a result, save on one minor point, is a matter of congratulation to the Legislature and the people of the State, and it voices the evident public interest on this great subject.

If New Jersey shall adopt this statute she will have taken a position on this great question which will be a model for her sister States in the Republic.

At the last conference of Governors held at Louisville last year, the subject of employers' liability acts was discussed and the suggestions in the report herewith transmitted were largely before that body, and seemed to meet the universal approval of the Executives at the conference.

It is evident that the old rule with relation to employer and employe, called in the common law the "law of master and servant," needs revision and change, and if this act be added to the statutory law of our State and permitted to modify the common law in the respects in which it does modify it, it will be a long step in the right direction.

A judicial experience of many years impressed me, at times, with not only the injustice but the absolute cruelty of the present rules of the common law with relation to master and servant under existing business conditions, and if through the act presented by the Commission and herewith transmitted with its report, the manufacturer and the laborer can be brought together under contractural relations and statutory conditions which will work right and justice in the place of the present inequalities and unjust results, a great advance in the economic problem of solving the questions between labor and capital will have been made.

Respectfully submitted,
JOHN FRANKLIN FORT,
Governor.

On motion of Mr. Prince, one thousand copies of the message were ordered printed for the use of the Senate.

The following message was received from the Governor, by the hands of Mr. Fort, his Secretary:

January 16th, 1911.

To the Legislature:

During my term as Governor the revaluation of the railroads of this State, both as to their physical property and their franchises, has been in progress, and the results as stated in my annual message will soon be made public.

Two items of property have been appraised during the present year by the State Board of Assessors, on the figures fixed by the State railway appraiser, who is now conducting the general appraisement of railway property. For the first time in the history of the State the franchise tax imposed upon railroads has been made a separate item in taxation, and given to the public.

The Attorney-General calls my attention to the present situation with relation to litigation in his department and advises that it is important that assistance should be given to him to sustain the assessments which have been made by the State on railway properties.

The most important litigation now pending is that of the Long Dock Company *vs.* The State Board of Assessors, Morris and Essex Railroad Company *vs.* Same, Central Railroad of New Jersey *vs.* Same, with reference to the assessment of terminal property in Jersey City.

In 1884 the original statute for the taxation of railroad and canal property was enacted, such property as was used for railroad purposes being made assessable by the State Board of Assessors; that not used for railroad purposes being made assessable by local assessors. This relationship was not varied by the revaluation of 1888.

The duty thus imposed was performed by the State Board of Assessors until the passage of the so-called Perkins Act of 1906 (Pamphlet Laws 1906, p. 571), when the duty of assessment of second-class railroad property was transferred to the local municipal assessors, who made such assessments for the years 1906 and 1907. The assessments thus made were contested and by the decision in the case of United New Jersey Railroad and Canal Company *vs.* Parker, 75 N. J. Law 771, the Perkins Act was declared to be unconstitutional.

On the following day the Legislature passed a remedial act directing assessments of these properties to be made by the State Board of Assessors for the years 1906 and 1907 (Pamphlet Laws 1908, pp. 15, 16 and 17).

The State Board of Assessors subsequently made such assessments, which were immediately attacked by certiorari by the Long Dock Company, the Morris and Essex Railroad Company and the Central Railroad of New Jersey. The assessments thus made for 1906 and 1907, and by stipulation a writ applying to the taxes of 1908 and 1909 was made to abide the decision in the cases already being prosecuted, were set aside by the Supreme Court, filed May 21, 1909. *Long Dock Company* v. *State Board*

of Assessors, 73 Atl. Rep., p. 53. This judgment was subsequently affirmed by the Court of Errors and Appeals and the State Board of Assessors was recently within the last few months directed to make a new assessment, which was done.

By section 29 of the Taxation Act of 1894 any railroad company which has paid its taxes is entitled to the benefits of the judgment obtained by any other railroad company reviewing an assessment, and may have the benefit of such judgment as though such railroad company had been a party to such litigation. Of this privilege the Pennsylvania Railroad Company availed itself.

A revaluation for the years 1906, 1907, 1908 and 1909 made within the last few weeks is again under review by these companies by writs allowed on the 12th of January, 1911, from which it appears that this litigation is being determinedly prosecuted by the various companies with reference to the assessments in question. The property of the Pennsylvania Railroad Company used in connection with its tunnel system into the new station in New York has been assessed for the first time by the State Board of Assessors as a completed work. Appeals from this assessment are now pending before the State Board of Assessors. A similar appeal is pending with reference to the assessment of the terminal property of the McAdoo tunnel system, and it is evident that considerable litigation is to attend the efforts of the State to collect taxes upon these properties.

The special work of the revaluation of railroads of this State is nearing completion, and it is evident from the scope of this work that not only will litigation follow the assessments made upon the revaluations thus established, but also upon the inclusion of properties which have heretofore been excluded from the assessment valuation. In this class may be mentioned the matter of floating equipments of the various railroads operating terminals in Jersey City, as well as the question of taxation of rolling stock used in interstate commerce.

Heretofore there has been no attempt by the various railroad companies to question the franchise tax as assessed by the State Board of Assessors, but it is evident that attack is to be

made upon this proposition also, because the various railroad companies have for the first time formally called upon the State Board of Assessors to state the method used by them in determining the valuation of the various franchises for the purposes of taxation, the courts having heretofore held that they would not review such taxes in amount only, but would content themselves with review in such cases where assertion was made that a wrong method had been used in determining the assessed valuation.

In his judgment, the best lawyer on railway taxation in the State, who is free from engagement by the railroads, should be employed in this service to assist the Attorney-General's Department. In this view I fully concur.

I recommend that the Legislature at the present session make a special appropriation for the employment of one or more assistants to the Attorney-General, such assistant or assistants to be selected by the Attorney-General with the approval of the Governor, and the compensation to be fixed in the same manner.

The litigation that is likely to arise within the next year out of the subject-matters referred to in this message will probably be the most important to this State and to its municipalities of any litigation that has occurred over railroad property valuations since the litigation under the original railway tax act of 1884.

Our municipalities are greatly interested in this question, as well as the State, and the subject is heartily commended to the Legislature for appropriate action in accordance with the recommendations herein contained.

Respectfully submitted,

JOHN FRANKLIN FORT,
Governor.

On motion of Mr. Prince, five hundred copies of the message were ordered printed for the use of the Senate.

The following message was received from the Governor, by the hands of Mr. Fort, his Secretary:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
January 16th, 1911.

To the Legislature:

I herewith send you paper served upon the Governor of this State on Friday, the thirteenth instant, through the private attorneys of the Hudson Water Company. The paper is signed by the United States District Attorney for the State of New Jersey and purports to be a demand upon the Governor, the State Water Supply Commission and the Board of Riparian Commissioners to agree with the United States upon a price for a certain land which the paper states it is proposed to condemn for the purpose of securing water to be transported to the government fortifications on Staten Island.

There is no power in the Governor, so far as I know, to agree with anyone as to the price of any land within this State. The parcels of land which it is proposed to take, as described in the paper herewith transmitted, are lands lying under water in the city of Bayonne flowed by the Kill von Kull and lands of a like character under the Passaic and Hackensack rivers.

This procedure is quite unusual on the part of the United States, as the custom heretofore has always been for land proposed to be used for any governmental purpose to be ceded by the Legislature by a special act. This State in every application that has been heretofore made has always been very willing to do this.

It will be recalled that at the last session of the Legislature there was a very earnest contest over what was known as Assembly Bill No. 51, being the McCran water bill; the object and purpose of which law was to prevent the diversion of sub-surface water from this State to any other State by any private water company.

It would seem to be wise for the Legislature to take action on this pending proposition and to make reasonable protestation to the United States in regard to the subject-matter contained in the paper herewith transmitted.

If the United States Government desires to secure water from the State of New Jersey for the purpose of supplying its fortifi-

cations on Staten Island, it would seem that there should be no difficulty in accomplishing this result without resorting to the method of condemnation proposed in these proceedings. If the United States itself is intending to construct water-works and necessary pipe lines to supply its fortifications, and that matter were made clear to the Legislature, it would seem that good neighborhood and patriotic spirit should assent to the proposition by proper legislative enactment.

The fact that this course has not been pursued, and that the paper which was served upon the Governor was served through the private counsel of the Hudson Water Company, indicates that behind this application of the government is this private self-seeking company. This is a matter requiring prompt action on the part of the Legislature, and it might be wise that it should be presented to the Secretary of War, and, if necessary, to the President, by a special committee appointed from the Legislature to repair to the Capitol at Washington, that the actual situation may be made known to the National authorities, and some agreement should be entered into between the National authorities and the State, permitting them, if they desire, to secure such water as may be necessary to supply the fortifications, but preventing any private company from acquiring any rights.

The people of New Jersey are broad-minded and public-spirited. They would not have the least objection to the government securing such a water-supply as it may need for its fortifications, but they will protest vigorously against transporting the sub-surface waters of this State into Staten Island for the purpose of aggrandizing a private water company.

Your attention is hereby called to the message of the Governor transmitted to the Senate on March 28, 1910, when the McCran water bill was pending before that body.

The people of this State have made vigorous protest against any private water company controlling in any way its potable water supply, and the Legislature should not leave anything undone to protect the public interest in this regard.

In my Annual Message sent to the Legislature at this session, it was recommended that proceedings be at once taken to prevent

any private water company from exercising the power of eminent domain (if such power now exists in any such company), and also that an act be passed prohibiting any private water company from exercising the power of condemnation possessed by any municipality for the purpose of condemning any of the surplus potable waters of this State for sale by such private water company.

Application has been made to the court within the last few days, for the appointment of commissioners to condemn such surplus potable waters, by private water companies, through the authority conferred by various municipal charters in the northern section of this State. These proceedings are now on review in certiorari and it would be wise that this legislation should be speedily passed. The time has arrived when the municipalities of this State should have these waters conserved for their purposes exclusively, and if such waters are to be sold outside the State, they should be so sold by the State only, in order that the interests of our own people may be protected for all time.

There is no more vital question to-day before the people than this question of the conservation of the potable waters of the State. That a monopoly should be obtained in these waters by a private water company, or that private individuals should be permitted to become the owners of these waters, is a most dangerous proposition.

The future welfare of our people demands that everything should be done that is possible to prevent this.

The Legislature has the power by statute to take away their expressed or implied right of condemnation and it should be exercised speedily.

The matter contained in the paper herewith transmitted should at once be taken up by the Legislature and conference had, through such persons as may be designated, with the national authorities, to the end, that the rights of our people be protected and that no private water company shall obtain any rights in the potable waters of this State by indirection which they are unable to obtain by direct action.

Your attention is earnestly brought to the paper herewith transmitted, and the subject matter thereof; and to this whole question.

Respectfully submitted,

JOHN FRANKLIN FORT,
Governor.

On motion of Mr. Prince, five hundred copies of the message were ordered printed for the use of the Senate.

Mr. Prince offered the following resolution, which was read and adopted:

Resolved, That the privileges of the floor be extended to former Governor Stokes and the Hon. Charles M. Stedman, Congressman from North Carolina.

Mr. Prince offered the following resolution, which was read and adopted:

Resolved, That the privileges of the floor be extended to Hon. W. M. Johnson, a former member of this Senate.

Mr. Silzer offered the following resolution, and moved its adoption:

WHEREAS, It is the wish of the members of the One Hundred and Thirty-fifth Legislature that no night meeting be had upon the last day of the session, therefore be it

Resolved, That three o'clock in the afternoon be fixed as the hour of *sine die* adjournment, the date being left for future determination.

Mr. Frelinghuysen moved that the motion be laid upon the table, which was agreed to by the following vote:

In the affirmative were—

Messrs. Ackerman (President), Bradley, Brown, Edge, Frelinghuysen, Gaunt, Hand, Leavitt, Lewis, Nichols, Plummer, Prince—12.

In the negative were—

Messrs. Fielder, Fitzherbert, Johnson, Low, Osborne, Price, Silzer—7.

On motion of Mr. Prince, the Senate proceeded to the consideration of Executive business, on the conclusion of which, and,

Under the direction of the President, the Secretary called the Senate, when the following Senators appeared and answered the call:

Messrs. Ackerman (President), Bradley, Brown, Edge, Fielder, Fitzherbert, Frelinghuysen, Gaunt, Gebhardt, Hand, Johnson, Leavitt, Lewis, Low, Nichols, Osborne, Plummer, Price, Prince, Silzer—20.

On motion of Mr. Prince, the Senate then adjourned until 10:30 o'clock Tuesday morning.

TUESDAY, January 17th, 1911.

At 10:30 o'clock A. M. the Senate met.

The session was opened by prayer by the Rev. J. Morgan Read, of Pennington, N. J.

Under the direction of the President, the Secretary called the Senate, when the following Senators appeared and answered the call:

Messrs. Ackerman (President), Bradley, Brown, Cornish, Edge, Fielder, Fitzherbert, Frelinghuysen, Gaunt, Gebhardt, Hand, Johnson, Leavitt, Lewis, Low, Nichols, Osborne, Plummer, Price, Prince, Silzer—21.

Journal of January 16th was read and approved.

The following message was received from the House of Assembly, by the hands of its Clerk:

STATE OF NEW JERSEY,
ASSEMBLY CHAMBER,
January 10th, 1911.

Mr. President:

I am directed by the House of Assembly to inform the Senate that the House of Assembly has passed the following resolution:

WHEREAS, The State House Commission has secured a new desk and chair for the use of the incoming Governor in the Executive Chamber; and

WHEREAS, The present desk and chair have been used by the present Governor during his full term; therefore be it

Resolved, by the Senate (the House of Assembly concurring), That the State House Commission be and it is hereby authorized

to present to the Honorable John Franklin Fort, the present Governor, the desk and chair used by him as the Chief Executive of the State during the past three years.

DANIEL A. DUGAN,
Clerk of the House of Assembly.

Mr. Prince offered the following resolution, which was read and adopted:

Resolved, That the Senate take a recess until 11:30 o'clock, to meet at that hour at the Taylor Opera House, and when it then adjourn it adjourn to meet on Friday morning at 10 o'clock, and when it then adjourn it be to meet on Monday evening at 8 o'clock.

Pursuant to recess, the Senate convened on the stage at Taylor Opera House.

Under the direction of the President, the Secretary called the Senate, when the following Senators appeared and answered the call:

Messrs. Ackerman (President), Bradley, Brown, Cornish, Edge, Fielder, Fitzherbert, Frelinghuysen, Gaunt, Gebhardt, Hand, Johnson, Leavitt, Lewis, Low, Nichols, Osborne, Plummer, Price, Prince, Silzer—21.

Prayer was offered by the Rev. Henry Collin Minton, D.D.

The oath of office was administered by Chief Justice William S. Gummere to Governor Woodrow Wilson.

The delivery of the Great Seal of the State was then made by Hon. John Franklin Fort, the retiring Governor.

In delivering the Great Seal Governor Fort said:

"GOVERNOR WILSON: By long custom it has been the part of the retiring Governor, in these ceremonies, to transfer to his successor the Great Seal of the State, the symbol of executive authority. In so doing, let me first congratulate the people of New Jersey upon the elevation to the office of Chief Executive of one so courageous, independent and able as yourself; and, secondly, let me congratulate you personally on the high honor the people have conferred upon you, and the spirit of fidelity to them with which you are about to enter upon the discharge of your duties.

"Personally, nothing could give me greater pleasure than to be the medium of the loyal and patriotic people of the State for conveying this seal.

"You have commenced right. The people already acclaim you as their tribune for civic advance, and as the foe of every baneful and corrupt influence in our public life.

"That you may achieve the very highest success in the years to come to which you may aspire, is my earnest hope.

"The people of New Jersey are true to the officials who are loyal to them. One who does his duty need not count the cost, the people will do that, and they will repay.

"I hand you this Great Seal, free from blemish, as it came to me; feeling sure that in committing its future keeping into your hands the people of New Jersey have made no mistake."

Acceptance of the Great Seal by Governor Wilson.

Introduction of the Governor to the President of the Senate by the Hon. John Franklin Fort.

Introduction of the Governor to the Senate and General Assembly by the President of the Senate.

Governor Wilson then delivered the following inaugural address:

GENTLEMEN OF THE LEGISLATURE: I assume the great office of Governor of the State with unaffected diffidence. Many great men have made this office illustrious. A long tradition of honorable public service connects each incumbent of it with the generation of men who set up our governments here in free America, to give men perpetual assurance of liberty and justice and opportunity. No one dare be sure that he is qualified to play the part expected of him by the people of the commonwealth in the execution of this high trust. It is best for him, as he sets out, to look away from himself and to concentrate his thought upon the people whom he serves, the sacred interests which are entrusted to his care, and the day in which he is to work, its challenge, its promise, its energies of opinion and of purpose, its sustaining hopes and exciting expectations. The scene will inspire him, not thought of himself.

The opportunity of our day in the field of politics no man can mistake who can read any, even the most superficial, signs of the times. We have never seen a day when duty was more plain, the task to be performed more obvious, the way in which to accomplish it more easy to determine. The air has in recent months cleared amazingly about us, and thousands, hundreds of thousands, have lifted their eyes to look about them, to see things they never saw before, to comprehend things that once seemed vague and elusive. The whole world has changed

within the lifetime of men not yet in their thirties; the world of business, and therefore the world of society and the world of politics. The organization and movement of business are new and upon a novel scale. Business has changed so rapidly that for a long time we were confused, alarmed, bewildered, in a sort of terror of the things we had ourselves raised up. We talked about them either in sensational articles in the magazines which distorted every line of the picture, or in conservative editorials in our newspapers, which stoutly denied that anything at all had happened, or in grave discourses which tried to treat them as perfectly normal phenomena, or in legislative debates which sought to govern them with statutes which matched them neither in size nor shape.

But, if only by sheer dint of talking about them, either to frighten or to reassure one another, or to make ourselves out wiser or more knowing than our fellows, we have at last turned them about and looked at them from almost every angle and begin to see them whole, as they are. Corporations are no longer hobgoblins which have sprung at us out of some mysterious ambush, nor yet unholy inventions of rascally rich men, nor yet the puzzling devices by which ingenious lawyers build up huge rights out of a multitude of small wrongs; but merely organizations of a perfectly intelligible sort which the law has licensed for the convenience of extensive business; organizations which have proved very useful but which have for the time being slipped out of the control of the very law that gave them leave to be and that can make or unmake them at pleasure. We have now to set ourselves to control them, soberly but effectively, and to bring them thoroughly within the regulation of the law.

There is a great opportunity here; for wise regulation, wise adjustment, will mean the removal of half the difficulties that now beset us in our search for justice and equality and fair chances of fortune for the individuals who make up our modern society. And there is a great obligation as well as a great opportunity, an imperative obligation, from which we cannot escape if we would. Public opinion is at last wide awake. It begins to understand the problems to be dealt with; it begins to see

very clearly indeed the objects to be sought. It knows what has been going on. It sees where resistance has come from whenever efforts at reform have been made, and knows also the means of resistance that have been resorted to. It is watchful, insistent, suspicious. No man who wishes to enjoy the public confidence dare hold back, and, if he is wise, he will not resort to subterfuge. A duty is exacted of him which he must perform simply, directly, immediately. The gate of opportunity stands wide open. If we are foolish enough to be unwilling to pass through it, the whip of opinion will drive us through.

No wise man will say, of course, that he sees the whole problem of reform lying plain before him, or knows how to frame the entire body of law that will be necessary to square business with the general interest, and put right and fairness and public spirit in the saddle again in all the transactions of our new society; but some things are plain enough, and upon these we can act.

In the first place, it is plain that our laws with regard to the relations of employer and employe are in many respects wholly antiquated and impossible. They were framed for another age, which nobody now living remembers, which is, indeed, so remote from our life that it would be difficult for many of us to understand it if it were described to us. The employer is now generally a corporation or huge company of some kind; the employe is one of hundreds or of thousands brought together, not by individual masters whom they know and with whom they have personal relations, but by agents of one sort or another. Workingmen are marshalled in great numbers for the performance of a multitude of particular tasks under a common discipline. They generally use dangerous and powerful machinery, over whose repair and renewal they have no control. New rules must be devised with regard to their obligations and their rights, their obligations to their employers and their responsibilities to one another. New rules must be devised for their protection, for their compensation when injured, for their support when disabled.

We call these questions of employers' liability, questions of workingmen's compensation, but those terms do not suggest quite the whole matter. There is something very new and very big and very complex about these new relations of capital and

labor. A new economic society has sprung up, and we must effect a new set of adjustments. We must not pit power against weakness. The employer is generally in our day, as I have said, not an individual, but a powerful group of individuals, and yet the workingman is still, under our existing law, an individual when dealing with his employer, in case of accident, for example, or of loss or of illness, as well as in every contractual relationship. We must have a workingman's compensation act which will not put upon him the burden of fighting powerful composite employers to obtain his rights, but which will give him his rights without suit, directly, and without contest, by automatic operation of law, as if of a law of insurance.

This is the first adjustment needed, because it affects the rights, the happiness, the lives and fortunes of the largest number, and because it is the adjustment for which justice cries loudest and with the most direct appeal, to our hearts as well as to our consciences.

But there is regulation needed which lies back of that and is much more fundamental. The composite employer himself needs to have his character and powers overhauled, his constitution and rights reconsidered, readjusted to the fundamental and abiding interests of society. If I may speak very plainly, we are much too free with grants of charters to corporations in New Jersey. A corporation exists, not of natural right, but only by license of law, and the law, if we look at the matter in good conscience, is responsible for what it creates. It can never rightly authorize any kind of fraud or imposition. It cannot righteously allow the setting up of a business which has no sound basis, or which follows methods which in any way outrage justice or fair dealing or the principles of honest industry. The law cannot give its license to things of that kind. It thereby authenticates what it ought of right to forbid.

I would urge, therefore, the imperative obligation of public policy and of public honesty we are under to effect such changes in the law of the State as will henceforth effectually prevent the abuse of the privilege of incorporation which has in recent years brought so much discredit upon our State. In order to do this it will be necessary to regulate and restrict the issue of securities,

to enforce regulations with regard to bona fide capital, examining very rigorously the basis of capitalization, and to prescribe methods by which the public shall be safeguarded against fraud, deception, extortion, and every abuse of its confidence.

And such scrutiny and regulation ought not to be confined to corporations seeking charters. They ought also to be extended to corporations already operating under the license and authority of the State. For the right to undertake such regulation is susceptible of easy and obvious justification. A modern corporation—that is, a modern joint stock company—is in no proper sense an intimate or private concern. It is not set up on the risk and adventure of a few persons, the persons who originated it, manage it, carry it to failure or success. On the contrary, it is set up at what may be called the common risk. It is a risk and adventure in which the public are invited to share, and the hundreds, perhaps thousands, who subscribe to the stock do in fact share in it, oftentimes without sharing also, in any effectual manner, in the control and development of the business in which their risk is taken. Moreover, these modern enterprises, with their exchequers replenished out of the common store of the savings of the nation, conduct business transactions whose scope and influence are as wide as whole regions of the Union, often as wide as the nation itself. They affect sometimes the lives and fortunes of whole communities, dominate prices, determine land values, make and unmake markets, develop or check the growth of city and of countryside. If law is at liberty to adjust the general conditions of society itself, it is at liberty to control these great instrumentalities which nowadays, in so large part, determine the character of society. Wherever we can find what the common interest is in respect of them we shall find a solid enough basis for law, for reform.

The matter is most obvious when we turn to what we have come to designate public service, or public utility, corporations—those which supply us with the means of transportation and with those common necessaries, water, light, heat, and power. Here are corporations exercising peculiar and extraordinary franchises, and bearing such a relation to society in respect of the services they render that it may be said that they are the very

medium of its life. They render a public and common service of which it is necessary that practically everybody should avail himself.

We have a Public Utilities Commission in New Jersey, but it has hardly more than powers of inquiry and advice. It could even as it stands, be made a powerful instrument of publicity and of opinion, but it may also modestly wait until it is asked before expressing a judgment, and in any case it will have the uncomfortable consciousness that its opinion is gratuitous, and carries no weight of effective authority. This will not do. It is understood by everybody who knows anything of the common interest that it must have complete regulative powers: the power to regulate rates, the power to learn and make public everything that should furnish a basis for the public judgment with regard to the soundness, the efficiency, the economy of the business—the power, in brief, to adjust such service at every point and in every respect, whether of equipment or charges or methods of financing or means of service, to the general interest of the communities affected. This can be done, as experience elsewhere has demonstrated, not only without destroying the profits of such business, but also with the effect of putting it upon a more satisfactory footing for those who conduct it no less than for those who make use of it day by day.

Such regulation, based on thorough and authoritative inquiry, will go far towards disclosing and establishing those debatable values upon which so many questions of taxation turn. There is an uneasy feeling throughout the State, in which, I dare say, we all share, that there are glaring inequalities in our system—or, at any rate, in our practice—of taxation. The most general complaint is, that there is great inequality as between individuals and corporations. I do not see how anyone can determine whether there are or not, for we have absolutely no uniform system of assessment. It would seem that in every locality there is some local variety of practice, in the rate, the ratio of assessment value to market value, and that every assessor is a law unto himself. Our whole system of taxation, which is no system at all, needs overhauling from top to bottom. There can be no system, no safety, no regulation in a multitude of boards. An

efficient Public Utilities Commission will be a beginning towards a system of taxation as well as towards a system of corporate control. We cannot fairly tax values until we have ascertained and established them.

And the great matter of conservation seems to me like a part of the same subject. The safeguarding of our water supply, the purification of our streams in order to maintain them as sources of life, and their protection against those who would divert them or diminish their volume for private profit, the maintenance of such woodlands as are left us and the reforestation of bare tracts more suited for forest than for field, the sanitation of great urban districts such as cover the northern portions of our State, by thorough systems of drainage and of refuse disposal, the protection of the public health and the facilitation of urban and suburban life—these are all public obligations which fall sooner or later upon you as the lawmakers of the commonwealth, and they are all parts of the one great task of adjustment which has fallen to our generation. Our business is to adjust right to right, interest to interest, and to systematize right and convenience, individual rights and corporate privileges, upon the single basis of the general good, the good of whole communities, the good which no one will look after or suffice to secure if the legislator does not, the common good for whose safeguarding and maintenance government is intended.

This readjustment has not been going on very fast or very favorably in New Jersey. It has been observed that it limped, or was prevented, or neglected, in other States as well. Everywhere there has been confusion of counsel and many a sad miscarriage of plan. There have, consequently, been some very radical criticisms of our methods of political action. There is widespread dissatisfaction with what our legislatures do, and still more serious dissatisfaction with what they do not do. Some persons have said that representative government has proved too indirect and clumsy an instrument, and has broken down as a means of popular control. Others, looking a little deeper, have said that it was not representative government that had broken down, but the effort to get it. They have pointed out that with our present methods of machine nomination and our present

methods of elections, which were nothing more than a choice between one set of machine nominees and another, we did not get representative government at all—at least not government representative of the people, but government representative of political managers who served their own interests and the interests of those with whom they found it profitable to establish partnerships.

Obviously this is something that goes to the root of the whole matter. Back of all reform lies the method of getting it. Back of the question what you want lies the question, the fundamental question of all government, how are you going to get it? How are you going to get public servants who will obtain it for you? How are you going to get genuine representatives who will serve your real interests, and not their own or the interests of some special group or body of your fellow-citizens whose power is of the few and not of the many? These are the queries which have drawn the attention of the whole country to the subject of the direct primary, the direct choice of representatives by the people, without the intervention of the nominating machine, the nominating organization.

I earnestly commend to your careful consideration in this connection the laws in recent years adopted in the State of Oregon, whose effect has been to bring government back to the people and to protect it from the control of the representatives of selfish and special interests. They seem to me to point the direction which we must also take before we have completed our regeneration of a government which has suffered so seriously and so long as ours has here in New Jersey from private management and organized selfishness. Our primary laws, extended and perfected, will pave the way. They should be extended to every elective office, and to the selection of every party committee or official as well, in order that the people may once for all take charge of their own affairs, their own political organization and association; and the methods of primary selection should be so perfected that the primaries will be put upon the same free footing that the methods of election themselves are meant to rest upon.

We have here the undoubtedly sound chain and sequence of reforms: an actual direct choice by the people of the men who are to organize alike their parties and their government, and those measures which true representatives of the people will certainly favor and adopt—systematic compensation for injured workingmen; the careful regulation in the common interest of all corporations, both in respect of their organization and of their methods of business, and especially of public service corporations; the equalization of taxes; and the conservation of the natural resources of the State and of the health and safety of its people.

Another matter of the most vital consequence goes with all these: namely, systematic ballot reform and thorough and stringent provisions of law against corrupt practices in connection alike with primaries and with elections. We have lagged behind our sister States in these important matters, and should make haste to avail ourselves of their example and their experience. Here, again, Oregon may be our guide.

This is a big programme, but it is a perfectly consistent programme, and a perfectly feasible programme, and one upon whose details it ought to be possible to agree even within the limits of a single legislative session. You may count upon my co-operation at every step of the work.

I have not spoken of the broad question of economy in the administration of the State government, an economy which can probably be effected only through a thorough reorganization upon business principles, the familiar business principles so thoroughly understood and so intelligently practiced by Americans, but so seldom applied to their governments. We make offices for party purposes too often, instead of conducting our public business by the organization best adapted to efficiency and economy. I have not dwelt upon the subject in this address because it is a very complicated one, hardly suited for brief exposition, and because so obvious a requirement of honest government needs hardly more than to be mentioned to be universally endorsed by the public. I shall try to point out to you from time to time the means by which reorganization and economy may be secured with benefit to the public service.

But there is a subject which lies a little off the beaten track to which I do wish to turn for a moment before I close. The whole country has remarked the extraordinary rise in the prices of food stuffs in recent years, and the fact that prices are successfully maintained at an intolerably high level at all seasons, whether they be the seasons of plenty or of scarcity. We have a partial remedy at our own hand—a remedy which was proposed to the Legislature last year by Mr. James, of Hudson county, but which is said to have been defeated in some questionable fashion in the last hours of the session. It is estimated that most of the food supply of the people of northern New Jersey, and half the food supply for New York City, is kept in cold-storage warehouses in Hudson county, awaiting the desired state of the market. There is abundant reason to believe that it is the practice of dealers to seclude immense quantities of beef and other meats, poultry, eggs, fish, etc., in cold-storage in times of abundance in order that the price of these indispensable foods may be kept high and the foods dealt out only when the market is satisfactory for that purpose, even if the meats and eggs have to be kept for years together before being sold. Figures, said to be actually of record, foot up almost incredible totals of the amounts thus held in waiting, running into millions of heads of cattle, of sheep and lambs, of hogs, millions of pounds of poultry, and hundreds of millions of eggs.

The result is not only to control prices but also to endanger health, because of the effect of too long storage upon the food stuffs themselves, and because of the deleterious effects of taking them out of cold-storage and exposing them to thaw in the markets. The least effect is loss of nutritious quality; the worst, the generation of actual poisons by decay and even putrefaction.

No limit at all is put upon this abuse by law, and strong influences are brought to bear by interested parties to prevent the enactment of remedial legislation. Indictments were brought in Hudson county, but there was no sufficient law to sustain them. A bill was introduced, as I have said, at the last session of the Legislature, but was, I am told, after lingering a very long time in the Assembly committee, mysteriously lost when called up for passage in the Senate during the last hours of the

session. I earnestly urge that the Legislature take up this important matter at the earliest possible time, and push some effective law of inspection and limitation to enactment. It would give me great pleasure to sign a bill that would really accomplish the purpose.

We are servants of the people, of the whole people. Their interest should be our constant study. We should pursue it without fear or favor. Our reward will be greater than that to be obtained in any other service: the satisfaction of furthering large ends, large purposes, of being an intimate part of that slow but constant and ever hopeful force of liberty and of enlightenment that is lifting mankind from age to age to new levels of progress and achievement, and of having been something greater than successful men. For we shall have been instruments of humanity, men whose thought was not for themselves, but for the true and lasting comfort and happiness of men everywhere. It is not the foolish ardor of too sanguine or too radical reform that I urge upon you, but merely the tasks that are evident and pressing, the things we have knowledge and guidance enough to do; and to do with confidence and energy. I merely point out the present business of progressive and serviceable government, the next stage on the journey of duty. The path is as inviting as it is plain. Shall we hesitate to tread it? I look forward with genuine pleasure to the prospect of being your comrade upon it.

Benediction was then invoked by Rev. Mgr. John H. Fox, LL.D.

STATE OF NEW JERSEY,
ASSEMBLY CHAMBER,
February 21st, 1911.

Mr. President:

I am directed by the House of Assembly to inform the Senate that the House of Assembly has passed the following concurrent resolution:

WHEREAS, For more than a generation the Russian government has continually dishonored, rejected and arbitrarily disregarded the passport issued by the State Department of the United States (bearing the great seal of our country, and which vouches for the citizenship of him to whom it is issued), whenever the citizen by whom it is presented happens to be a Jew; and

WHEREAS, This is in violation of its treaty obligations and the usage of civilized nations; and

WHEREAS, Congress has, on repeated occasions, given emphatic expression to its resentment of the stain imposed upon our national honor, and the entire country has protested against this insult and humiliation; and

WHEREAS, The citizenship of every American who loves his country has, in consequence, been subjected to degradation, and it has become a matter of such serious import to the people of the United States, as an entirety, that this condition can no longer be tolerated; be it

Resolved (the Senate concurring), That the President of the United States, the Department of State and Congress be respectfully and earnestly urged to take immediate measures, in conformity with the express terms of the treaties now existing between the United States and Russia, and in accordance with the law of nations, to terminate such treaties, to the end that if treaty relations are to exist between the two nations, it shall be upon such conditions and guarantees only as shall be consonant with the dignity of the American people.

In which the concurrence of the Senate is requested.

DANIEL A. DUGAN,
Clerk of the House of Assembly.

On motion of Mr. Prince, the Senate refused to concur in the above resolution.

Mr. Frelinghuysen, Chairman of the Committee on Revision and Amendment of the Laws, reported

Senate Bill No. 41, entitled "An act to regulate the location, operation and maintenance of sewage disposal plants,"

Without recommendation, as follows:

This bill contemplates adding to the powers of the State Board of Health by giving them authority to locate sewerage disposal plants, in addition to the present authority which they now have over the passing on plans and systems of sewerage disposal plants.

The effect of this bill is general in character, and possibly it might be a good plan to vest the State Board of Health with authority to locate these plants where sewerage disposal is contemplated, but there appears to be other reasons for its introduction at this time, of which the Senate should be informed. This bill was introduced by the Chairman of the Committee at the request of certain property owners in Bound Brook, who object to the location of a sewerage system some distance from the borough line of Bound Brook borough, other property owners nearer and outside the limits of Bound Brook joining in the request that the bill be introduced.

To show the effect of the bill the Committee believe that it is only proper that the Senate should be informed of the situation in regard to a disposal plant contemplated by North Plainfield. The Chairman of this Committee has for the past four years been introducing bills to enable North Plainfield to dispose of its sewage.

At the present time North Plainfield has no sewerage system, the sewage being now disposed of in private cesspools and the seepage within the boundaries of that borough are so extensive that it is believed to be now a menace to public health. There is great need, therefore, that the sewage should be carried away from North Plainfield. They have availed themselves of the privileges granted under the pending law, and are now working under that authority of law. The law they are now working under is the statutes of 1907. The bond issue under which they propose to pay for the sewerage system was a law passed at the instigation of the Chairman of this Committee.

Tracing the steps in North Plainfield's efforts to procure this system, we find that on January 13th, 1910, consent was obtained from the township of North Plainfield to locate disposal works

on the Zvolanck farm. On January 14th, 1910, copy of this consent was filed with the State Board of Health. Then until July, 1910, the necessary consents, ordinances and special elections were duly advertised, designating the Zvolanck site, all of which information was sent to the State Board of Health.

In December, when this question was to be heard by the State Board of Health, one of the protestants came and requested a postponement, in order that they might examine the plans of the sewerage system contemplated. The secretary of the State Board of Health granted a postponement for thirty days. Much to my surprise a bill was presented to me at the opening of the Legislature, which I introduced by request, and which is Senate Bill 41, which in effect will undo all of the work that North Plainfield has undertaken in their effort to settle the sewerage question, and will delay the matter for some time to come.

Therefore, the object of this bill must be considered, not the enactment of a general law for the benefit of the State, but in order to prevent North Plainfield from carrying out their plans. As to whether the system to be employed and the plans are satisfactory under the present law is for the State Board of Health to decide. The question as to the location is already fixed by reason of the fact that it requires the consent of the governing body of the municipality for the location, and this has been obtained from North Plainfield township. The location is a mile and a quarter from the borough line of Bound Brook, almost at the extreme end of the township, 1,300 feet from the township line, and about five miles from the borough of North Plainfield. There are several residences within 500 to 1,000 feet of the locality decided upon. The conditions of the protestants is that the carrying of this sewage from North Plainfield to within a quarter of a mile of the Bound Brook borough line is a menace to that municipality, and there is no protection under law to protect them. Whether it is a menace or not is a mooted question. Although this matter has been before the State Board of Health since December they have taken the position that they must await the final action of this Senate Committee in the Legislature upon this measure before going on with these plans.

For over a year Bound Brook has been cognizant of this situation, and now comes before this Legislature asking us to take action, notwithstanding the fact that North Plainfield has proceeded according to law in the matter.

There is no municipality in the State which so sorely needs sewerage as North Plainfield, and, inasmuch as this controversy

has arisen, the question is whether the location of this sewerage plant a mile and a quarter from Bound Brook, and the protests of its citizens, warrants the overturning of the plans of North Plainfield, and the delay in giving to North Plainfield the relief that they need.

This Committee cannot assume the capacity of judges, neither do we feel that we should be the agency of a law to prevent North Plainfield from proceeding. Is it not a question of the greatest good to the greatest number, and is it not necessary that we should allow this municipality of the State to proceed? We feel that while this law is a good general law, may be a righteous one, that the matter should proceed, and the State Board of Health should either approve or disapprove this system and permit North Plainfield to complete her plans.

We therefore feel that this bill should be reported without recommendation.

(Signed by the Committee.)

The following message was received from the Governor, by the hands of Mr. Tumulty, his Secretary:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
March 20th, 1911.

To the Senate:

I herewith return to the Senate, without my approval, Senate Bill No. 48, entitled "A further supplement to an act entitled 'An act to provide for the regulation and incorporation of insurance companies and to regulate the transaction of insurance business in this State,' " approved April third, one thousand nine hundred and two.

I am informed that this bill was passed to meet a special case in which it was just to the parties concerned that the power conferred should be exercised as provided in the bill, but that before the passage of the bill the special circumstances which made it desirable had ceased to exist. In this circumstance, I think it wise to return the bill without my approval in order that the very large and important subject-matter touched by the bill may, if the Senate thinks it wise and necessary, be reconsidered in view of the new circumstances.

Respectfully,

WOODROW WILSON,
Governor.

Mr. Lewis moved that the vote by which

Assembly Bill No. 92, entitled "A further supplement to an act entitled 'An act for the punishment of crimes' " (Revision of

1898), approved June fourteenth, one thousand eight hundred and ninety-eight,

Passed second reading, be reconsidered,

Which was agreed to.

On motion of Mr. Lewis, said bill was referred back to the committee for the purpose of amendment.

Mr. Leavitt moved that the vote by which

Senate Bill No. 83, entitled "An act respecting railroad companies operating within the State of New Jersey,"

Passed second reading, be reconsidered,

Which was agreed to.

Mr. Leavitt offered the following amendment, which was read and adopted:

Add after the word "brakeman" on line four, paragraph two, the following: "on trains of thirty cars or more."

Said bill, as amended, was then read a second time, considered by sections, agreed to, ordered to be reprinted, and the bill to have a third reading.

Mr. Edge offered the following resolution, which was read and adopted:

Resolved, That 600 copies of Senate Bill No. 27 be printed.

Mr. Johnson moved that the vote by which

Senate Bill No. 176, entitled "An act to validate certificates of indebtedness and bonds issued by any municipality to pay the costs, damages and expenses of draining lands and premises in said municipality under an act entitled 'An act to provide for the drainage of any pond, artificial reservoir, marsh, swamp, bog, meadow, low or wet lands, where the same is necessary for the public health,' " approved March thirty-first, one thousand nine hundred and three, and the various supplements and amendments thereto,

Passed second reading, be reconsidered,

Which was agreed to.

Mr. Johnson offered the following amendment, which was read and adopted:

By inserting after the word "thereto" on line eight the following: "Or any bonds which may hereafter be issued by any

municipality to pay any certificate of indebtedness heretofore issued and assumed by such municipality, as directed by law for such purpose."

And strike out on line two the words "or may hereafter be."

Said bill, as amended, was then read a second time, considered by sections, agreed to, ordered to be reprinted, and the bill to have a third reading.

Senate Bill No. 126, entitled "An act to amend an act entitled 'A supplement to an act entitled "An act for the assessment and collection of taxes," approved April eighth, one thousand nine hundred and three,' " which said supplement was approved April fourteenth, one thousand nine hundred and six,

Senate Bill No. 127, entitled "An act to amend an act entitled 'An act for the assessment and collection of taxes (Revision of 1903),' " approved April eighth, one thousand nine hundred and three,

The following message was received from the Governor, by the hands of Mr. Tumulty, his Secretary, and ordered spread upon the minutes:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
March 20th, 1911.

To the Legislature:

I take the liberty of calling your attention to a very important matter awaiting your decision, the question of the ratification of the proposed amendmeent to the Constitution of the United States, which gives to the Federal Congress the right to impose an income tax. Liberal opinion throughout the country clearly expects and demands the ratification of this amendment.

It will undoubtedly be an act of great liberality on the part of the State to concede it. They will thereby be sharing with the Federal government one of the few powers of taxation which, under the latest decision of the Supreme Court of the United States in that matter, they may now regard themselves as entitled to exercise, to a certain extent, exclusively, but it is clearly in the interest of the national life that the power should be conceded. It will free the government of the United States to put its fiscal policy upon a much more enlightened, a much more modern, a much more elastic basis than it now rests upon or apparently can rest upon so long as this power is withheld. If this power be granted the general government may adapt its whole system of taxation to the actual economic life of the country much more favorably than it is now adapted. It may make it more just and may adjust it more nicely to the interests of the people at large.

May I not urge upon you as earnestly as respectful the prompt adoption of this exceedingly important amendment, that New Jersey may be put among the number of those States which do not prefer their own interests to those of the nation as a whole.

Respectfullly,

WOODROW WILSON,
Governor.

Senate Bill No. 11, entitled "An act to ratify an amendment of the Constitution of the United States,"

Section eight of this act to which this act is amendatory is hereby amended to read as follows:

8. Said board shall keep informed of the condition and operation of all railroads contemplated by this act, shall investigate accidents, hear and examine complaints touching railroad service, rates, discriminations, car service, terminal facilities and applications for switch connections with a private siding, changes of stations, crossings, abolition of grade crossings and all other matters of railroad operation. Said board shall make such recommendations as it may see fit to any railroad company from time to time touching the improvement of its service or for any other purpose contemplated by this act, and shall also report annually, on or before the first day of January, to the Governor, which report shall be laid before the next Legislature, making such recommendations as it may from time to time deem proper,

and said board shall, on request, make report to the Interstate Commerce Commission. It shall be the duty of said board to see that the laws of this State regulating said railroad companies are observed and enforced, and it may cause action to be brought against any railroad company violating any of the laws of this State for the specified penalty, through the Attorney-General, who shall in all things be the adviser and legal counsel of said board.

Said board shall have power to hear complaints, examine and make orders concerning the safety of trackage, roadbeds, tunnels, bridges and equipment of any railroad operating in this State, and shall also have the power to make all necessary orders requiring any railroad company operating in this State to furnish proper and adequate transportation facilities and stations, in accordance with the judgment of said board, for the proper transportation of passengers and property. Said board shall also have authority upon such matters to make and issue such orders to any railroad company as in the judgment of said board shall be reasonable and just, which said orders said railroad company shall comply with. Every order shall be served on any railroad company to be affected thereby within five days from the time said order is decided upon by a majority of the members of the board, either by personal delivery of a certified copy thereof or by mailing a certified copy thereof, in a sealed package, with postage prepaid, to the person to be affected thereby; or in case of a railroad company, to any officer or agent thereof, upon whom a summons may be served. in accordance with the provisions of the laws of this State. Any order of said board directing a railroad company to continue service in effect at the time said order is issued shall be immediately effective. No other order shall take effect until the expiration of thirty days from the date of service thereof upon the corporation affected, or such further time as shall be designated in said order. Within thirty days from the service of any order which is to become immediately effective or prior to the date upon which any other order issued by the board becomes effective as proposed therein, any party to the proceedings, person or railroad company affected may appeal from the order to the Supreme Court of New Jersey by filing a notice of appeal setting forth the order appealed from with the secretary of the board and with the clerk of the Supreme Court, which said court is hereby given jurisdiction to hear and determine such appeal on the merits of the matters forming the basis of the order. The taking of an appeal shall not stay the operation of the order appealed from, but a stay may be granted by

the court in its discretion upon or without terms and conditions. The form of procedure, except as herein outlined, shall be prescribed by said court by rule, but no new evidence shall be admitted on the hearing of the appeal without an order of the said court or a judge thereof, and the decision of the Supreme Court on the appeal shall be final.

In default of compliance with any order of the board the person or utility affected thereby shall be subject to a penalty of one hundred dollars per day for every day during which such default continues, to be recovered in an action of debt in the name of the State, and observance of the orders of the board may be enforced by mandamus or injunction in appropriate cases.

Mr. Frelinghuysen offered the following resolution and moved its adoption:

WHEREAS, It is openly charged in Hudson county that public funds have been used for private purposes; and

WHEREAS, The collector of that county has made claim for eighty thousand five hundred dollars against the estate of a decedent, and has sworn that he does not know whether he has any further claim; and

WHEREAS, Statements are made, and, since the death of said decedent, have been made, regarding the administration of county and local affairs; the use and deposit of public moneys; the award and fulfillment of contracts; nominations, elections and appointments for and to office; the collection and distribution of campaign funds; the conduct of elections; the subjection of public employes and officials to the commands of one or more

individuals, and the ways and means used by such individual or individuals to convey commands and to render the same effective; and

WHEREAS, Statements are made, and for some time past have been made, regarding the performance of public duties and the administration of public officers and affairs in various other counties in the State; and

WHEREAS, Such statements are being circulated and discussed not only in the counties to which they refer, but throughout and beyond this State, and tend to detract from its honor and reputation; and

WHEREAS, It has become imperative that evidence bearing upon such statements should be taken and their truth or falsity thoroughly and impartially investigated, so that, if false, those affected may be vindicated and relieved from such suspicion, and so that, if true, appropriate legislation may be commended and enacted, and those guilty of improper practices exposed and, if possible, punished, and so that if improper practices have been prevalent and as notorious as rumored, it may be ascertained why those who did not participate in or profit by them, but who, nevertheless, held public office and enjoyed public confidence, and, more particularly, those charged with the administration and execution of the law, did not expose or try to expose and stop them; now, therefore, it is

Resolved, By the Senate of the State of New Jersey, that the president of the Senate be and he hereby is, authorized and directed to forthwith appoint three Senators who shall constitute a special committee which is hereby created;

To investigate in each and every county and in each and every part of every county wherein it is openly charged or stated or wherein it appears to the committee probable that improper practices prevail or have prevailed, the methods and practices, receipts, expenses, disbursements, acts and administration of any and every public body, office and official; the use and deposit of all public moneys, the methods of making and awarding all contracts, the changes, if any, made in contracts, by whose authority and the manner of their fulfillment; the methods and practices employed to procure or affect nominations, elections and appointments for or to a public office or position; the collection and distribution of campaign funds, the conduct of elections, the subjection, if any, of public employes, servants and officials to one or more individuals; the attempt, if any, made and the methods, if any, employed, by any individual or group of in-

dividuals to direct the conduct of any public employe, servant or official, and the attention, if any, paid to such direction, and,

To make such inquiries, not only in the present administration, but also into such of the past as to it may seem necessary or advisable, and it is further

Resolved, That the said committee shall have the following powers:

1. All those conferred by law upon any special Senate Committee,

2. To sit in any part of the State at any time during or after the present session, but prior to the commencement of the session in 1912,

3. To issue subpoenas; to compel the attendance of witnesses and the production of books, vouchers and papers from and in any part of the State; to swear and affirm witnesses; to cause their examination to be reduced to writing; to enforce answers to all proper questions and to institute proceedings for the prosecution of any witness, who, having been subpoenaed fails to attend, or to be sworn or affirmed, or to produce books, vouchers and papers or to answer all proper questions,

4. To employ counsel and such clerical assistance as may be necessary,

5. To enter any public office, and in person or by counsel or by an assistant to examine any and all books, vouchers and papers within it or under its control, or in any way relating to it, and it is further

Resolved, That it shall be the duty of said committee to report at the session of the Senate to be held in 1912 all its proceedings and all evidence taken by it, together with its opinion and recommendations.

The following message was received from the Governor, by the hands of Mr. Tumulty, his Secretary:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
March 31st, 1911.

To the Senate:

I herewith return, without my approval, Senate Bill No. 148, entitled "A further supplement to the act entitled 'An act to establish public parks in certain counties in this State, and to regulate the same,' approved March fifth, one thousand eight hundred and ninety-five."

Undoubtedly the expenditure sought to be authorized by this bill is a very proper one. I return the bill without my approval because of its mandatory form. It leaves the financial authorities of the counties concerned without any choice in regard to the appropriation of moneys called for. They are obliged to appropriate them and to borrow money to meet the appropriation, upon the mere request of the Board of Park Commissioners. If this bill were permissory in character, I should not hesitate to sign it.

I return it without my signature because of my very clear conviction that it is a serious interference with the self government of communities that mandatory action of this sort should

proceed from the Legislature of the State. I feel that we are in danger of drifting away from some of the essential practices of local self government and that the tendency is to have all initiative in matters of expenditure and of the exercise of authority proceed from Trenton.

Respectfully,

WOODROW WILSON,

Governor.

The following message was received from the Governor, by the hands of Mr. Tumulty, his Secretary:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the Senate: April 4th, 1911.

I trust that I may with perfect respect call the attention of the Senate to the resolution passed unanimously by the House of Assembly ratifying the proposed amendment to the Constitution of the United States, which confers upon Congress the right to lay taxes upon incomes.

This amendment has no partisan color whatever. It was suggested by a Republican President and passed by a Congress of which both houses were Republican, but it received the cordial support of Democrats in both chambers of the Federal Congress. and has been endorsed by the National platforms of both of the great political parties of the country. It seems clearly sustained by the public opinion of the Nation.

Our own House of Assembly has agreed to it without a single dissenting voice.

It is a matter of great consequence to the whole future policy of the government of the United States that this amendment

should have the sanction of the States. A large majority of them have already ratified it. The State of Maine has just reversed her former action and accepted it. New Jersey should forego all considerations of self-interest and confirm it, to enhance her credit as a progressive and patriotic commonwealth, to further the right adjustment of the burdens of National taxation, to enable the Federal government to liberalize its financial policy without loss or embarrassment and to consolidate the interests of State and Nation upon a real reciprocal footing. One decision of the Supreme Court of the United States, based upon erroneous economic reasoning, has made this amendment necessary. The powers of the Federal government in this important matter should be restored to their first integrity.

I take the liberty, therefore, with all respect and with the deepest earnestness, to urge upon the Senate concurrence in the resolution now sent up to it from the House. I am convinced that the honor of the State would be greatly enhanced thereby.

Respectfully,

WOODROW WILSON,
Governor.

STATE OF NEW JERSEY,
ASSEMBLY CHAMBER,
April 5th, 1911.

Mr. President:

I am directed by the House of Assembly to inform the Senate that the House of Assembly has passed the following concurrent resolution:

WHEREAS, The Public Utilities Commission Bill, No. 167, known as the Egan Bill, has passed the House of Assembly and is now before the Senate, and

WHEREAS, The Senate Committee Substitute Public Utilities Commission Bill, known as the Bradley Bill, has passed the Senate and is now before the House of Assembly for consideration, and

WHEREAS, Both the members of the Assembly and the members of the Senate are pledged to advanced legislation upon this subject and appear anxious to pass a public utilities commission act which will meet the demands of the people of the State of New Jersey, and

WHEREAS, It is not probable that either the Egan Bill, so-called, or the bill known as the Bradley Bill, will be accepted in their present form by both branches of the Legislature,

Resolved, (the Senate concurring), That the President of the Senate and the Speaker of the House of Assembly be authorized and directed to each appoint forthwith a committee of three members who shall confer and consider both bills and that the conference committee be directed to report to the Legislature a public utilities commission measure which will meet the demands

of the people and carry out the platform pledges of both political parties to the end that this Legislature shall not adjourn without enacting a comprehensive public utilities commission law.

In which the concurrence of the Senate is requested.

DANIEL A. DUGAN,
Clerk of the House of Assembly.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,

To the Senate: April 12, 1911.

There are two subjects which have taken shape for consideration since the opening of this legislative session which are of such far-reaching importance that I take the liberty of calling your attention to them and of earnestly commending them to your very careful consideration.

One of these subjects is the form of our system of public school administration. The other is the reform of our city government.

Since the opening of the present session the Senate committee, appointed two years ago to investigate the whole matter of the methods of our public school teaching and administration and the expenditure of money both by the State and the several localities of the State in connection with education, in the erection of buildings for educational purposes and in the supplying of the various physical means of conducting our public instruction, has completed its work and submitted to the Senate a very notable report.

The report is singularly complete. It is the result of an investigation which has attracted the attention of the whole State. The method of the investigation, its thoroughness and its result have won applause on all hands. No one can read the report now submitted without admiring the work which has produced it or without feeling that every recommendation it contains is sustained by reasons which are quite unanswerable.

The Committee has introduced into the Legislature bills intending to give these recommendations effect in law, and I must say that it is my clear conviction that the measures represent reforms which are not only necessary, but exceedingly advantageous. If carried into effect, they would put the educational

system of the State upon a footing of economy and efficiency such as it has never known before.

The State annually spends vast sums of money upon the schools, and yet has never had any means of making sure of how it was spent, with what wisdom, with what economy, with what careful attention to the objects for which it was intended to be used. The State cannot be said to have had any legal arrangement in this matter which deserved the name of system. The measures now pending before you will not deprive localities of their much prized autonomy and should not do so, but they will give the State opportunities to exercise a systematic supervision, and will afford means by which the public instruction of the State may be intelligently co-ordinated and directed. It has seldom happened that reforms of this sort could be put upon a more solid basis than these changes will have, as sustained by the admirable report of the Senate committee. I cannot too urgently commend them to your favorable attention. I think the judgment of every person familiar with matters of this kind, if addressed to this matter without bias, must recognize both the necessity and the desirability of effecting the reforms suggested. They are, without exception, admirable.

There is also pending before you a bill permitting the cities of this State, great and small, to adopt such changes in their organization of government as will enable them to simplify the processes by which they choose their officers, and thus concentrate responsibility in the interests both of purity of administration and of efficiency. The bill is not mandatory; it is meant merely to afford the cities the right to determine whether they shall adopt the so-called commission system of government or not.

Upwards of one hundred cities of the United States have already made this change in their organization. I have yet to hear of any instance in which those who advocated the change have been seriously disappointed in its results. It has resulted in purifying and clarifying and perfecting every process of local government. It has concentrated responsibility, has enabled the voters to exercise a real control and has stimulated efforts at economy and business-like re-organization.

The reforms suggested for the adoption of the cities do not consist merely in putting their government into the hands of a small commission. Back of this change and in addition to it are the initiative, referendum and the re-call, measures which enable the people to correct the mistakes of their governors, to adopt measures upon their own initiative, when necessary, and to recall from office unsatisfactory officials. These have proved not only efficient, but absolutely necessary parts of what is now known as the commission form of government in the various cities of the country.

There can be no doubt that these reforms are desired and even demanded by intelligent opinion in the cities of our State. We have abundant evidence that there is an extraordinary body of opinion behind them. The demand for them grows from day to day with extraordinary volume. It does not proceed from unthinking agitation. It proceeds from a very careful and thoughtful consideration of the problems involved and of the reforms which are necessary to meet and settle these problems. The changes proposed are not experimental; they have been tested by abundant experience elsewhere, and I am sure that it would afford all thoughtful persons cause for serious disappointment if the Legislature should not avail itself of this opportunity to show itself allied in this matter, as in all matters, with the impulses of progress now so handsomely manifest in our bodies politic.

Respectfully,

WOODROW WILSON,

Governor.

The following message was received from the Governor, by the hands of Mr. Tumulty, his Secretary:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
April 10th, 1911.

To the Senate:

I return, without my approval, Senate Bill No. 184, entitled "An act for the better regulation and control of the taking, planting and propagating of oysters on lands lying under the tidal waters of the county of Burlington, in the State of New Jersey."

No real necessity seems to exist for the addition of another Oyster Commission. It is generally felt by students of the political organization of the State that the number of commissions is already excessive and that the better source of legislation

would be retrenchment and the consolidation of the various commissions now dealing in separate places with practically the same subject matter.

I naturally hesitate to return bills of this character without my signature, but the reason seems to me a weighty one.

Respectfully,

WOODROW WILSON,

Governor.

Mr. Lewis, Chairman of the Committee on Printed Bills, reported

Senate Bill No. 110, entitled "An act to incorporate the borough of Alpha, in the county of Warren,"

Senate Bill No. 231, entitled "An act to validate, authorize and confirm bonds heretofore or hereafter issued, or the issuance of which has been heretofore authorized, or which may be hereafter authrized in any city of this State pursuant to proceedings taken or to be taken under color of the provisions of an act entitled 'An act to empower municipalities to establish and maintain plants for the treatment, disposal or rendering of sewage,'" approved April fourteenth, one thousand nine hundred and nine, and the several supplements thereto and acts amendatory thereof and to validate such proceedings,

Favorably, without amendment.

Mr. Bradley, Chairman of the Committee on Railroads, Canals and Turnpikes, reported

Assembly Bill No. 73, entitled "An act to amend an act entitled 'An act concerning railroads (Revision of 1903),'" approved April fourteenth, one thousand nine hundred and three,

Adversely, as follows:

Assembly Bill No. 473 is reported adversely, because this bill requires that "under all circumstances said road at the point where it crosses such railroad shall be kept in a condition fit for safe and convenient use and free from danger to pedestrians and occupants of vehicles using such road."

Probably under this provision no train could cross any highway without violating this act.

It may be that, by indirection, the courts might hold that this would require elevation or depression of the tracks in every municipality of the State, including sparsely settled communities, where there is little travel over tracks.

If the latter will be the effect of the bill, we have before us the subject of track elevation in its broadest sense, and we do not believe the bill is so understood by the public, or that it should be so widely applied without further investigation.

Mr. Bradley, Chairman of the Committee on Railroads, Canals and Turnpikes, reported

Senate Bill No. 71, entitled "An act to provide for the payment by railroad companies of wages in lawful money of the United States every two weeks,"

Favorably, without amendment.

STATE OF NEW JERSEY,
ASSEMBLY CHAMBER,
April 19th, 1911.

Mr. President:

I am directed by the House of Assembly to inform the Senate that the House of Assembly has passed the following concurrent resolution:

WHEREAS, The Commission consisting of the Governor, the Attorney-General and the Honorable Bennet Van Syckel, lately appointed by concurrent resolution, have reported to the Legislature, in writing, the terms upon which the matters in difference between the State and the Lehigh Valley Railroad Company and the Lehigh Valley Railroad Company of New Jersey can be amicably settled, and the terms on which the charter of the Morris Canal and Banking Company may be repealed and its property disposed of, together with their recommendation that such settlement be adopted by the State—

Resolved (the Senate concurring), That said Commission be continued with authority to prepare an appropriate bill, or bills, for carrying into effect the terms of the proposed settlement, and to report the same to the Legislature at the beginning of its next session.

In which the concurrence of the Senate is requested.

DANIEL A. DUGAN,
Clerk of the House of Assembly.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
April 19th, 1911.

To the Legislature:

I have the honor to transmit herewith the report of the Commission appointed by concurrent resolution of the Legislature to confer with the Lehigh Valley Railroad Company, concerning the terms to which the Lehigh Valley Railroad Company would

agree, with the approval of the Commission, as a basis for settlement and adjustment of all matters now in difference between the State and said company, with regard to the abandonment of the Morris and Essex canal.

Respectfully,
WOODROW WILSON,
Governor.

Mr. Leavitt moved that 2,500 copies of the message of the Governor and report of said commission be printed for the use of the Legislature,

Which was agreed to.

lish a department for the enforcement thereof," approved March twenty-fourth, one thousand nine hundred and four,'" which supplement was approved April fifth, one thousand nine hundred and five,

With the following amendments, which were read and adopted:

Amend section one, by striking out the words "ice cream or", in line fourteen, and adding in line eighteen the words "*and provided further,* that no ice cream shall, after the passage of this act, be manufactured in any such cellar, basement or place unless after inspection of such place of manufacture by the agents of the board of health of the State of New Jersey a license shall be granted by the said board to the proprietor, corporate or otherwise, of such establishment or factory, certifying that the condition and arrangement of such ice cream factory is sanitary, which said license may be revoked by said board, for cause, at any time".

Amend section one, line nine, by inserting after the semicolon following the word "receptable", and before the word "no" the following words:

"No person or corporation shall hereafter engage or continue in the business of making or manufacturing biscuit, pies, bread, crackers, cakes or confectionery for the purpose of distribution or sale, unless he shall first obtain from the Commissioner of Labor of this State a license so to do. The applicant for any such license shall state in his application the location of the place or places at which he intends to engage in such business, and such license shall not be issued unless the said Commissioner is satisfied that such place or places conform to all the requirements of this act. Such license shall specify the place or places at which such business is authorized to be carried on and shall not authorize the engaging in such business at any other place or places. When it shall be made to appear to the said Commissioner that any place at which such business is carried on under a license as aforesaid, is not kept in accordance with, or does not conform to the requirements of this act, said commissioner may revoke the license of the person engaging in such business at such place. No person whose license to engage in such business has been revoked shall engage in such business in this State until he has procured a new license in accordance with the terms of this act. Any applicant for any such license shall pay to the Commissioner of Labor a license fee of one dollar, which fee shall be returned to such applicant, in case the license is not granted".

This act shall take effect immediately, but shall not go into operation in any municipality in this State until it shall have been adopted by the voters of such municipality in the manner hereinafter provided. It shall be lawful for voters of said municipality, in number not less than five per centum of the total number of votes for Governor cast in said municipality at the last preceding gubernatorial election, to file with the municipal clerk of their municipality, at least ninety days prior to any general election, a petition requesting the said municipal clerk to cause the question of the adoption of the provisions of this act to be submitted to popular vote in such municipality at the next general election occurring not less than ninety days after the filing of said petition. All of the names of voters need not be signed to one petition, but duplicate copies thereof may be used, provided that annexed to each petition shall be the affidavit of one or more signers, to the effect that said petition had been signed by the persons whose names are affixed thereto for the purposes therein stated. It shall be lawful for the petitioners to said petition to file with the municipal clerk at the time of filing said petition, or annexed thereto, a statement or argument containing a condensed summary of this act, and an argument in favor thereof, together with directions how to vote in favor of this act, which statement shall not exceed three thousand words in length. Any citizen opposed to the adoption of this act may file with the said municipal clerk, within fifteen days after the filing of said petition and argument, an argument against the same, in not exceeding two thousand words. If more than one argument is filed against the adoption of the act the municipal clerk shall, within five days thereafter, select the one which best states the reasons against the proposed charter, and add thereto a summary of the reasons in said other filed argument or arguments in opposition to the adoption of this act, in not exceeding one thousand words. Any voter dissatisfied with this judgment of the clerk, or his failure to take action, may apply to any judge assigned to hold the Circuit Court in said county, within five days after the expiration of the time for such action by the municipal clerk, stating the grounds of his complaint, and the said judge is hereby empowered to hear the same in a summary way, and make an order directing

which arguments shall be printed or providing for a new argument to be prepared and the municipal clerk shall print the argument as described in said order. The municipal clerk shall cause to be printed a pamphlet containing the statement and argument filed by the signers to the said petition and any argument against the same filed as herein provided. Said pamphlet shall be entitled in large type, 'Publicity Pamphlet in Reference to a Proposed Act Concerning the Extension of Street Railways Without the Consent of Abutting Property Owners,' entitled 'An act to authorize and to provide for requiring the construction, maintenance and operation of an extension or extensions of street railway tracks in cities of the first class in this State, for the purpose of connecting or of making a detour from and to existing tracks;' said municipal clerk shall supply said pamphlet to all who shall apply for the same, and pay the proportion of cost of printing the same. Said clerk shall also furnish to each board of registry and election in each election district in his municipality, on or before the first day of registry in said municipality, copies of the said pamphlet, in quantities equal to the number of voters who voted in each of said districts at the last general election, and each of said boards shall deliver one copy of said pamphlet to each voter who shall register in person. On each day of registry the board of registry and election shall deliver one copy of said pamphlet to each voter who shall register in person.

"The said municipal clerks shall, on or before the first day of October preceding any general election at which this act is to be submitted to the voters, request the county clerk to cause to be printed upon the official ballots to be used in said municipality at said election the appropriate words to submit the question of adoption of this act to the voters of the county, and the county clerk shall cause to be printed thereon the following: Make × mark with black ink or pencil in the square at the right of the words which express your vote: for adoption of "An act to authorize the construction, maintenance and operation of an extension or extensions of street railway tracks in cities of the first class in this State for the purpose of connecting or of making a detour from and to existing tracks."

"Against 'An act to authorize and to provide for requiring the construction, maintenance and operation of an extension or extensions of street railway tracks in cities of the first class in this State for the purpose of connecting or of making a detour from and to existing tracks.'

"Each voter shall mark his vote in the square upon said ballot with black ink or pencil, the board of registry and election shall canvass said votes, and include a statement of the resut of such canvass in the return of the results of the general election, which they are now required by law to make to the municipal clerk. The said municipal clerk shall canvass the returns thus filed with him, and ascertain the total number of votes cast in the municipality for and the total number of votes cast against the adoption of this act, and if the number of votes cast for the adoption of the same shall exceed the number of votes cast against the adoption of the same, this act shall go into effect in said municipality on the first day of January next thereafter ensuing, and the property in question shall thereafter be exempt from taxation.

"The expense incurred by the municipal clerk in carying out this act shall be paid by the board having charge of the finances in his municipality."

REPORT OF SENATE COMMITTEE ON ELECTIONS ON THE PROTEST OF THOMAS A. MATHIS.

At the last general election candidates of the county of Ocean for the office of State Senator were Thomas A. Mathis and George C. Low. According to the official canvass, Mr. Mathis received 2,491 and Mr. Low 2,572 votes. Mr. Low was, therefore, declared elected, and a certificate of election was duly issued to him. On presentation of such certificate at the opening of the present session of the Senate Mr. Low was seated. Mr. Mathis protested against the action of the Senate on the ground

that it was he who had been lawfully elected State Senator for the county of Ocean. The contest between the two was referred to this committee to investigate.

Realizing that the Senate is the sole judge of the contest and that its decision will be final, this committee has given the matter most careful study and consideration. Mr. Mathis insists that the official count was irregular, and that a recount would disclose his election. Mr. Low, on the other hand, contends that the official count is right, and that, if a recount would disclose any difference sufficient to affect the result, the change would represent, not the wishes of the voters, but the acts of persons who tampered with the ballot-boxes after the official canvass. One week after the election Mr. Mathis applied to a jutice of the Supreme Court for a recount of the votes in the first and second districts of Lakewood township and in the township of Dover. A recount was had. It showed changes from the official canvass which, if the votes in the rest of the county were assumed to have been correctly returned, would change the result from a majority of eighty-one for Mr. Low to a majority of forty-one for Mr. Mathis. The justice who conducted the recount refused, however, to revoke the certificate of election issued to Mr. Low on the ground that he did not believe that the votes counted under his direction were the same votes that had been cast. In behalf of Mr. Mathis an application was made for a writ of mandamus on the ground that the functions of the Supreme Court Justice were purely ministerial, and that he had no choice other than to act in accordance with the recount. The application was denied.

Charges have been made not only to us, but in public, that fraud was practiced during and after the election in Ocean county. This committee is pleased to state that none of such charges implicate in any way either Mr. Mathis or Mr. Low with any improper conduct. The charges relate chiefly to the election in the township of Dover and in the first and second districts of the Lakewood township. Any exact conclusion as to who was elected State Senator would require a most careful examination of all votes cast in the county, and more particularly in those three districts. The committee finds that the ballot-box for the second district of Lakewood is in the possession of the prosecutor of Ocean county. He declines to surrender it to us because it will be required as evidence in the prosecution of two individuals who have been indicted for election frauds. In view of the fact that the guilt or innocence of these two men may in some measure depend upon the condition and appearance of the ballots,

the committee concluded that it would not do anything which might possibly interfere with the administration of justice unless absolutely necessary. It, therefore, refrained from demanding that box until such time as its examination would be necessary. After the recount the boxes of such two districts were deposited in the office of the County Clerk at Toms River. The committee, however, is compelled to report that since such deposit was made the ballots have been stolen or taken from one box, and that the other has been broken open. Though in the latter box there are papers purporting to be ballots, there is no certainty that they are those which were cast at the election. The committee is of the opinion that it is now impossible to ascertain with precision whether or not the official canvass was right or wrong. Owing to the loss of ballots, any conclusion which the Senate might reach would be more or less speculative.

The Senate has heretofore recognized the certificate of election issued in favor of Mr. Low. The Supreme Court has refused to set it aside. We recommend, in view of the loss of evidence, that the Senate abide by that certificate, and that it decide the contest between Mr. Mathis and Mr. Low in favor of the latter.

WM. J. BRADLEY,
J. S. FRELINGHUYSEN,
JAMES S. FIELDER.

On motion of Mr. Bradley the report of the Committee was adopted by the following vote:

In the affirmative were—

STATE OF NEW JERSEY,
ASSEMBLY CHAMBER,
April 21st, 1911.

Mr. President:

I am directed by the House of Assembly to inform the Senate that the House of Assembly has concurred in the following concurrent resolution:

Resolved (the House of Assembly concurring), That the New Jersey Representatives in Congress of the United States be and they hereby are requested to secure, if possible, an amendment to the Interstate Commerce Act, whereby the Interstate Commerce Commission would acquire jurisdiction over waters similar to the Delaware and Raritan Canal in this State, in order that interstate traffic, passing through said canal, may hereafter be regulated by the Interstate Commerce Commission in view that it is impossible for the State to regulate traffic of this character; and be it further

Resolved, That the Secretary of State forward a copy of this resolution to said representatives in Congress.

DANIEL A. DUGAN,
Clerk of the House of Assembly.

The following message was received from the House of Assembly by the hands of its Clerk:

STATE OF NEW JERSEY,
ASSEMBLY CHAMBER,
April 21st, 1911.

Mr. President:

I am directed by the House of Assembly to inform the Senate that the House of Assembly has passed the following concurrent resolution in respect to the proceedings now being prosecuted by the United States Government for the condemnation of certain water rights and certain lands, and rights in lands, of the State of New Jersey, lying under the tide waters of the Kill von Kull, Passaic River and Hackensack River.

Be it resolved (by the House of Assembly, the Senate concurring), That the Representatives of the State of New Jersey

in Congress be requested to promptly use every reasonable effort to induce the Government of the United States to terminate the proceedings now pending in respect to the condemnation of certain water rights, and also in respect to the condemnation of certain lands and rights in lands of the State of New Jersey, lying under the tide waters of the Kill von Kull, Passaic River and Hackensack River; and that if the National Government should not deem such course advisable, then to urge that said condemnation proceedings should not be prosecuted or perfected, and that the property of the State should not be taken in such a way as to aid the Hudson County Water Company, a corporation of the State of New Jersey, its receivers, agents or representatives, either directly or indirectly, in impairing or invading the property and sovereign rights of this State now being defended in litigation pending in the courts of New Jersey and in the United States Circuit Court for the District of New Jersey.

That a copy of this resolution, duly certified by the Speaker of the House and the President of the Senate, be forwarded to the Senators and Members in Congress from this State.

Mr. Leavitt, Chairman of the Committee on Municipal Corporations, reported

Assembly Bill No. 638, entitled "An act relative to the appointment by the common council and term of office of city surveyor or city engineer in cities of the third class,"

Without amendment.

Mr. Prince offered the following resolution, which was read and adopted:

Resolved, That the Senate of one thousand nine hundred and eleven express its hearty approval of the systematic and masterly manner in which its business has been directed and concluded by its President; the uniformly courteous manner in which he has assisted and facilitated the work devolving upon this body, and its appreciation of the fair and impartial treatment accorded by him to each member.

Mr. Prince offered the following resolution, which was read and adopted:

Resolved, That as minority leader, Senator Osborne, of the county of Essex, has at all times been a splendid force during the consideration of legislation, and the Senate extends its congratulations to him for his faithfulness and fearlessness, as well as the able manner in which he has performed the important duties of the position which he has filled with distinguished ability.

Mr. Osborne offered the following resolution, which was read and adopted:

The Senate, about to adjourn, desires to express its hearty approval of, and sincere thanks for, the extreme fairness and unfailing courtesy that have at all times characterized the ruling of its President, Hon. Ernest R. Ackerman, who, during the session, has maintained the dignity of the chair and respected the rights of each individual Senator.

To which the President responded as follows:

I sincerely appreciate the generous remarks of the Senators, especially the opinion of this body that the conduct of the occupant of the chair during the present session of the Senate has, on the whole, been satisfactory. It has been the aim of the presiding officer to give a "square deal" to every one, but if it had not been for the very generous and unstinted support accorded him by both the majority and minority, it is a question whether the satisfactory conditions would have been possible. That I have been at all times profoundly grateful for the confidence

expressed by the majority in entrusting me with the highly honorable position to which they have promoted me, it is unnecessary for me to say. I appreciate the kind treatment of the Senators, officers and attaches who have, without exception, supported me in my endeavors to have the business of this body proceed in a prompt and business-like manner.

The number of bills introduced into both houses of the Legislature has been larger than usual, but it is my opinion that much of real merit for the benefit of the people has been enacted into law. While partisan considerations might have been expected to play a large part in the session just ending, I believe that patriotism has risen over party and that every one has striven to serve the best interests of his constitutents, regardless of his particular party ties.

I hope that the coming years may be full of prosperity and happiness for every one here present, and that the pleasant friendships made in these halls will not abate, but will grow stronger as the years roll on.

Mr. Johnson offered the following resolution, which was read and adopted:

Resolved, That the thanks of the Senate be and are hereby given to the Hon. John D. Prince for his able, honest and courteous conduct as leader of the majority in the deliberations of the Senate during its present session.

Mr. Low offered the following resolution, which was read and adopted:

Resolved, That the members of this Senate hereby express their thanks and appreciation for the uniform kindness shown them by the Secretary and all officers of the Senate, and for the faithful and courteous manner in which they have performed their duties.

Mr. Prince offered the following resolution, which was read and adopted:

Resolved, That the thanks of the Senate are due to the publishers of the State Gazette for copies of that paper placed daily on the desks of the Senators.

Mr. Prince offered the following resolution, which was read and adopted:

Resolved, That the thanks of the Senate be and they are herebe extended to John Weseman, custodian; Simon Gershon, night custodian, for the efficient and courteous manner in which they

have attended to the wants of the Senate during the holdings of the sessions.

Mr. Prince offered the following resolution, which was read and adopted:

Resolved, That the thanks of the Senate be and they are hereby extended to Harvey Rohrbach, Postmaster of the State House, for the efficient and courteous manner in which he has handled the mail matter for the members of this Senate during the session.

Mr. Prince offered the following resolution, which was read and adopted:

Resolved, That the Secretary of the Senate be authorized to prepare indices of the Senate Journal and Minutes of the Executive sessions in the same general manner as the indices of the session of 1910, and that he be paid the same compensation as allowed for preparing the indices of 1910.

Mr. Prince offered the following resolution, which was read and adopted:

Resolved, That all bills in various committees not reported, and all bills in the President's desk not acted upon, be handed to the Secretary of the Senate for filing with the State Librarian as dead bills.

Mr. Prince offered the following resolution, which was read and adopted:

Resolved, That a committee of three be appointed to wait upon the Governor and inform him that the Senate has completed its labors and is about to adjourn *sine die,* and inquire if the Executive has any further communication to make to this body.

The President appointed Senators Prince, Bradley and Osborne as such committee.

The following message was received from the House of Assembly by the hands of its Clerk:

JOURNAL

OF THE

JOINT MEETINGS

OF THE

LEGISLATURE OF 1911.

STATE OF NEW JERSEY,
ASSEMBLY CHAMBER,
TRENTON, January 25th, 1911.

At 12 o'clock noon, the Senate and General Assembly met in Joint Assembly in the Assembly Chamber.

The Joint Assembly was called to order by Hon. Edward Kenny, Speaker of the House of Assembly.

Mr. Osborne offered the following resolution, which was read and adopted:

Resolved, That the President of the Senate be chosen as chairman of this Joint Assembly.

Mr. Osborne offered the following resolution, which was read and adopted:

Resolved, That the Secretary of the Senate and the Clerk of the House of Assembly be respectfully chosen Secretary and Assistant Secretary of the Joint Assembly.

Under the direction of the Chairman, the Secretary called the Joint Assembly, when the following members appeared and answered the call:

Messrs. Ackerman, Adams, Agnew, Alyea, Bacharach, Backus, Balentine, Boettner, Booraem, Bracken, Bradley, Brodhead, Brown C. W., Brown O. H., Bunn, Burke, Christie, Cole, Coles, Cornish, Davidson, De Unger, Donnelly, Edge, Egan, Fielder, Fitzherbert, Ford, Frelinghuysen, Gaunt, Gebhardt, Geran, Griffin, Hand C. S., Hand R. Those voting for Mr. Griggs were—

Messrs. Coles, De Unger, Turner and Whiticar—4.

Those voting for Mr. Fort were—

Mr. Nichols—1.

Those voting for Mr. Pitney were—

Mr. Bradley—1.

Those voting for Mr. Kean were—

Mr. Hand, R. E.—1.

In accordance with the Act of Congress approved July 25th, 1866, James E. Martine having received a majority of the votes of the Joint Assembly, the Chairman therefore declared the said James E. Martine duly elected United States Senator, for the full term of six years, from the fourth day of March, one thousand nine hundred and eleven.

Mr. Osborne offered the following resolution, which was read and adopted:

Resolved, That the Secretary of the Joint Assembly be directed to certify the proceedings in relation to the election of United States Senator to the Governor of the State.

On motion of Mr. Osborne the Joint Assembly then arose.

STATE OF NEW JERSEY,
ASSEMBLY CHAMBER,
TRENTON, February 7th, 1911.

At 12 o'clock noon, the Senate and General Assembly met in Joint Assembly in the Assembly Chamber.

The Joint Assembly was called to order by Hon. Edward Kenny, Speaker of the House of Assembly.

Mr. Osborne offered the following resolution, and moved its adoption:

Resolved, That Senator Ernest R. Ackerman, President of the Senate, be made Chairman of the Joint Meeting.

Which was agreed to.

Mr. Osborne offered the following resolution, and moved its adoption:

Resolved, That William C. Murphey, Secretary of the Senate, and Daniel A. Dugan, Clerk of the House of Assembly, be respectively chosen Secretary and Assistant Secretary of the Joint Meeting.

Which was agreed to.

Under the direction of the Chairman, the Secretary called the Joint Assembly, when the following members appeared and answered the call:

Messrs. Ackerman, Adams, Agnew, Bacharach, Backus, Balentine, Boettner, Booraem, Bracken, Bradley, Brodhead, Brown C. W., Brown O. Messrs. Ackerman (President), Bradley, Brown, Cornish, Edge, Fielder, Fitzherbert, Frelinghuysen, Gaunt, Hand, Johnson, Leavitt, Lewis, Low, Nichols, Osborne, Plummer, Price, Prince, Silzer—20.

In the negative—None.

So the said nominations were declared unanimously confirmed.

The President laid before the Senate a sealed communication from the Governor, indorsed "Nominations."

On motion of Mr. Prince, the seals of the communication were broken by the President, and the Secretary read as follows:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
April 21st, 1911.

Hon. Ernest R. Ackerman, President of the Senate:

SIR—I hereby nominate for appointment, with and by the advice and consent of the Senate, Allen B. Endicott, of the

county of Atlantic, to be Judge of the Court of Errors and Appeals.

Respectfully,
WOODROW WILSON,
Governor.

(Seal.)

Attest:
JOSEPH P. TUMULTY,
Secretary to the Governor.

Upon motion of Mr. Prince, the rules were suspended, and the said nomination was then taken up.

Upon the question, "Will the Senate advise and consent to the said nomination?" the ayes and nays were taken, with the following result:

In the affirmative were—

Messrs. Ackerman (President), Bradley, Brown, Cornish, Edge, Fielder, Fitzherbert, Frelinghuysen, Gaunt, Hand, Johnson, Leavitt, Lewis, Low, Nichols, Osborne, Plummer, Price, Prince, Silzer—20.

In the negative—None.

So the said nomination was declared unanimously confirmed.

The President laid before the Senate a sealed communication from the Governor, indorsed "Nominations."

On motion of Mr. Prince, the seals of the communication were broken by the President, and the Secretary read as follows:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
April 21st, 1911.

Hon. Ernest R. Ackerman, President of the Senate:

SIR—I take the liberty of sending herewith the name of Mr. Albert Richards, of the county of Morris, to be a member of the Board of Managers of the New Jersey State Hospital at Morris Plains. I transmitted to the Senate this afternoon the name of W. H. L. Lynch, of the county of Morris, for this appointment, but find that in doing so I overlooked the law governing these appointments, which requires that the Board shall be bi-partisan. I, therefore, substitute the name of a Republican for the name of a Democrat.

Respectfully,
WOODROW WILSON,
Governor.

Upon motion of Mr. Prince, the rules were suspended, and the said nomination was then taken up.

Upon the question, "Will the Senate advise and consent to the said nomination?" the ayes and nays were taken, with the following result:

In the affirmative were—

Messrs. Ackerman (President), Bradley, Brown, Cornish, Edge, Fielder, Fitzherbert, Frelinghuysen, Gaunt, Hand, Johnson, Leavitt, Lewis, Low, Nichols, Plummer, Price, Prince, Silzer—19.

In the negative—None.

So the said nomination was declared unanimously confirmed.

Upon motion of Mr. Prince, the rules were suspended, and the nomination,

To be a member of the State Board of Assessors: George L. Record, of the county of Hudson, was then taken up.

Upon the question, "Will the Senate advise and consent to the said nomination?" the ayes and nays were taken, with the following result:

In the affirmative were—

Messrs. Ackerman (President), Bradley, Brown, Cornish, Fielder, Fitzherbert, Frelinghuysen, Gaunt, Hand, Johnson, Leavitt, Low, Nichols, Osborne, Plummer, Price, Prince, Silzer—18.

In the negative—None.

So the said nomination was declared unanimously confirmed.

Upon motion of Mr. Prince, the ban of secrecy was ordered removed from the Journal of the Executive Sessions.

On motion of Mr. Prince, the Executive Session then arose.

WILLIAM C. MURPHEY,
Secretary of the Senate.

Resolved (the House of Assembly concurring), That the New Jersey Representatives in Congress of the United States be, and they hereby are, requested to secure, if possible, an amendment to the Interstate Commerce Act whereby the Interstate Commerce Commission would acquire jurisdiction over waterways similar to the Deleware and Raritan Canal in this State, in order that interstate traffic passing through said canal may hereafter be regulated by the Interstate Commerce Commission in view of the fact that it is impossible for the State to regulate traffic of this character; and be it further *Resolved,* That the Secretary of State forward a copy of this resolution to said representatives in Congress.—1008.

Resolved (the House of Assembly concurring), That the New Jersey Representatives in Congress of the United States be, and they hereby are, requested to secure, if possible, an amendment to the Interstate Commerce Act whereby the Interstate Commerce Commission would acquire jurisdiction over waterways similar to the Delaware and Raritan Canal in this State, in order that interstate traffic passing through said canal

may hereafter be regulated by the Interstate Commerce Commission in view of the fact that it is impossible for the State to regulate traffic of this character; and be it further *Resolved,* That the Secretary forward a copy of this resolution to said representatives in Congress.—1007.

Resolved, That the thanks of the Senate be and they are hereby extended to Harvey Rohrbach, Postmaster of the State House, for the efficient and courteous manner in which he has handled the mail matter for the members of this Senate during the session.—1140.

Resolved, That the Secretary of the Senate be authorized to prepare indices of the Senate Journal and Minutes of the Executive sessions in the same general manner as the indices of the session of 1910, and that he be paid the same compensation as allowed for preparing the indices of 1910. —1149.

Resolved, That the thanks of the Senate be and are herebv given to the Hon. John D. Prince for his able, honest and courteous conduct as leader of the majority in the deliberations of the Senate during its present session.—1139.

Resolved, That the members of this Senate hereby express their thanks and appreciation for the uniform kindness shown them by the Secretary and all officers of the Senate, and for the faithful and courteous manner in which they have performed their duties.—1139.

Resolved, That the thanks of the Senate are due to the publishers of the State Gazette for copies of that paper placed daily on the desks of the Senators. —1139.

Resolved That the thanks of the Senate be and they are hereby extended to John Weseman, custodian; Simon Gershon, night custodian, for the efficien and courteous manner in which they have attended to the wants of the Senate during the holding of the sessions.—1139.

Resolved, That the Senate of one thousand nine hundred and eleven express its hearty approval of the systematic and masterly manner in which its business has been directed and concluded by its President; the uniformly courteous manner in which he has assisted and facilitated the work devolving upon this body, and its appreciation of the fair and impartial treatment accorded by him to each member.—1138.

Resolved, That as minority leader, Senator Osborne, of the county of Essex, has at all times been a splendid force during the consideration of legislation, and the Senate extends its congratulations to him for his faithfulness and fearlessness, as well as the able manner in which he has performed the important duties of the position which he had filled with distinguished ability.—1138.

Resolved, That the hour of adjournment having arrived, the Secretary inform the House of Assembly that the Senate is now ready to adjourn *sine die,* and awaits the presence of the House of Assembly.—1154.

Resolved, That all rules of the Senate be suspended in reference to bills pending.—1068.

Resolved, That the Sergeant-at-Arms of the Senate be and is hereby authorized to appoint four (4) file clerks, two (2) pages, one (1) doorkeeper, four (4) gallery-keepers, for the present session.—34.

Resolved, That a committee of three be appointed to investigate and report as speedily as possible the number of additional employes necessary to properly conduct the business of the Senate.—34.

Resolved, That the privileges of the floor be extended to Hon. John Kean, United States Senator.—72.

Resolved, That the privileges of the floor be extended to Hon. Edmund W. Wakelee, former Senator from Bergen county.—72.

WHEREAS, At the session of 1909 the Senate authorized by resolution the appointment of three members of this body who, with the members of the State Board of Education, should constitute a committee to investigate the methods and practices, expense and disbursements of the free public schools of this State and other matters pertinent thereto; and WHEREAS, It being impossible for said committee to complete its investigations and report to the Senate at the next session, in view of which the Senate at the session of 1910 did continue the operation of said committee until the session of 1911; and WHEREAS, This committee in its investigations has brought to light much that will be of value to the State at large in the management and improvement of its public school system, but has been unable for lack of time to complete finally its work and arrange the information received in a full and satisfactory report; *Resolved by the Senate of the State of New Jersey,* That the committee heretofore appointed for the purposes referred to in the preamble be continued as to the three members of this body, but that instead of the entire State Board of Education, three members thereof, to wit, S. St. John McCutcheon, William H. Morrow and Dr. William G. Schauffler, consitute the representation of the State Board of Education on said committee. The committee thus constituted shall continue to exercise the powers and perform the duties of the committee under the original resolution, and shall report at this session of the Senate.—36.

Resolved, That the thanks of the Senate be and they are hereby extended to Harvey Rohrbach, Postmaster of the State House, for the efficient and courteous manner in which he has handled the mail matter for the members of this Senate during the session.

Resolved, That the Secretary of the Senate be authorized to prepare indices of the Senate Journal and Minutes of the Executive sessions in the same general manner as the indices of the session of 1910, and that he be paid the same compensation as allowed for preparing the indices of 1910.—1140.

Resolved, That all bills in various committees not reported, and all bills in the President's desk not acted upon, be handed to the Secretary of the Senate for filing with the State Librarian as dead bills.—1140.

Resolved, That a committee of three be appointed to wait upon the Governor and inform him that the Senate has completed its labors and is about to adjourn *sine die,* and inquire if the Executive has any further communication to make to this body.—1140.
