Stay Connected

The Affordable Connectivity Program (ACP) is a U.S. government program that helps many low income households pay for broadband service and internet connected devices.

[Recertify](#)

The Affordable Connectivity Program is administered by USAC with oversight from the Federal Communications Commission (FCC).

What is ACP?

i The ACP and Lifeline Support Centers' mailing address has changed to P.O. Box 9100 Wilkes-Barre, PA 18773. Any mail sent to the old mailing address will be forwarded for a period of time. Please refer to the [ACP Bulletins page](#) and [Lifeline Announcements page](#) for more details.

What is the Affordable Connectivity Program?

The Affordable Connectivity Program (ACP) is a U.S. government program run by the [Federal Communications Commission \(FCC\)](#) to help low-income households pay for internet service and connected devices like a laptop or tablet.

You are likely eligible if your household's income is below 200% of the Federal Poverty Line, or if you or someone you live with currently receives a government benefit like SNAP, Medicaid, SSI, WIC, Pell Grant, or Free and Reduced-Price Lunch.

If your household is eligible, you could receive:

- Up to a \$30/month discount on your internet service
- Up to a \$75/month discount if your household is on qualifying Tribal lands
- A one-time discount of up to \$100 for a laptop, tablet, or desktop computer (with a co-payment of more than \$10 but less than \$50)
- A low cost service plan that may be fully covered through the ACP*

** Through a separate non-FCC initiative, additional no cost plans may be available to Affordable Connectivity Program enrollees. To learn more please visit [GetInternet.gov](https://www.getinternet.gov). Provision of a link to this initiative does not imply FCC endorsement of any particular participating provider.*

Only one monthly service discount and one device discount is allowed per household. To receive the connected device discount, you need to enroll in the ACP with a participating provider that offers connected devices (near devices). (Note: not every internet company offers device discounts.) Your internet company will provide the discount to you.
