

December 2018

NJGUNStat Report *4th Quarter of 2018*

Top Source States for Crime Guns

This Quarter, 82% of identified* crime guns recovered in New Jersey were originally purchased out of state.

**NOTE: Alaska accounted for one trace. The source state was identified in 485 total traces.*

The information on this map is based upon data from the ATF. It is preliminary and subject to further analysis. Not all recovered crime guns traces are complete at this time.
