2022 Multi-National Mpxv Response (EOC Activation: June 2022-present)

The U.S. Centers for Disease Control and Prevention (CDC) activated its Emergency Operations Center (EOC) on Tuesday, June 28, 2022, to support public health partners in responding to the 2022 Multi-National Mpxv Response. CDC continues to closely monitor the situation and updates its website as information becomes available. To learn more about the outbreak, visit the [mpox Web page](#).

2019 Novel Coronavirus (EOC Activation: January 2020-present)

The U.S. Centers for Disease Control and Prevention (CDC) activated its Emergency Operations Center (EOC) on Monday, January 20, 2020, in order to support public health partners in responding to the outbreak caused by a novel (new) coronavirus. COVID-19 is a disease caused by a virus named SARS-CoV-2 and was discovered in December 2019 in Wuhan, China. It is very contagious and quickly

spread around the world. CDC continues to closely monitor the situation and updates its website as information becomes available. To learn more about the outbreak, visit the [outbreak Web page](#).
