

# Charting the course to deliver clean energy.

ATLANTIC SHORES OFFSHORE WIND IS STRATEGICALLY POSITIONED TO MEET THE GROWING DEMANDS OF RENEWABLE ENERGY TARGETS IN MULTIPLE EAST COAST MARKETS.

## **WHO WE ARE AT ATLANTIC SHORES.**

Atlantic Shores Offshore Wind, LLC is a 50:50 partnership between Shell New Energies US LLC and EDF Renewables

North America and its Lease Area is located approximately 10-20 miles off the coast of New Jersey between Atlantic City and Barnegat Light. In June of 2021, the New Jersey Board of Public Utilities awarded Atlantic Shores Offshore Wind a contract to develop 1,510 MW in offshore wind energy, enough to power up to over 700,000 homes! It is the largest single project in New Jersey and the third largest in the United States to date.

In addition to bringing clean power to homes, the project will also create jobs and boost the region's economy.

Our project will produce 1,510 MW in offshore wind energy, enough to power over 700,000 homes!

Shell and EDF bring offshore wind expertise to the region to effectively manage the project's technical aspects.
