JOURNAL OF THE SENATE

STATE OF NEW JERSEY,
SENATE CHAMBER,

TUESDAY, January 14, 1964.

At 12:00 o'clock noon, this being the time and place appointed by the Constitution of the assembling of the Legislature, the Senate was called to order by the Honorable William E. Ozzard, Senator from Somerset County. The following statement was read by Henry H. Patterson:

STATE OF NEW JERSEY,
DEPARTMENT OF STATE.

I, ROBERT J. BURKHARDT, Secretary of State of the State of New Jersey, DO HEREBY CERTIFY that the following members of the Senate have been duly qualified:

Atlantic County—Frank S. Farley.

Bergen County—Pierce H. Deamer, Jr.

Cumberland County—Robert H. Weber.

Hudson County—William F. Kelly, Jr.

Hunterdon County—Raymond E. Bowkley.

Mercer County—Sido L. Ridolfi.

Morris County—Thomas J. Hillery.

Ocean County—W. Steelman Mathis.

Passaic County—Anthony J. Grossi.

Sussex County—George B. Harper.

And I further certify that at the General Election held on the fifth day of November 1963 members of the Senate were duly elected as follows:

- Burlington County—Edwin B. Forsythe.
- Camden County—Frederick J. Scholz.
- Cape May County—Charles W. Sandman, Jr.
- Essex County—C. Robert Sarcone.
- Gloucester County—John E. Hunt.
- Middlesex County—John A. Lynch.
- Monmouth County—Richard R. Stout.
- Salem County—John A. Waddington.
- Somerset County—William E. Ozzard.
- Union County—Nelson F. Stamler.
- Warren County—Wayne Dumont, Jr.

IN TESTIMONY WHEREOF, I have hereunto set my hand and affixed my official seal at Trenton this fourteenth day of January 1964.

ROBERT J. BURKHARDT,
Secretary of State.

The oath of office was administered by Mr. Farley to the following Senators-elect:

- Edwin B. Forsythe, Burlington County.
- Frederick J. Scholz, Camden County.
- Charles W. Sandman, Jr., Cape May County.
- C. Robert Sarcone, Essex County.
- John E. Hunt, Gloucester County.
- John A. Lynch, Middlesex County.
- Richard R. Stout, Monmouth County.
- John A. Waddington, Salem County.
- William E. Ozzard, Somerset County.
- Nelson F. Stamler, Union County.
- Wayne Dumont, Jr., Warren County.

Mr. Sandman nominated Mr. Grossi for the office of temporary President. There being no further nominations, Mr. Grossi was declared elected to the office of temporary President by voice vote. Messrs. Harper and Waddington escorted Mr. Grossi to the chair.

Mr. Sandman nominated Henry H. Patterson for the office of temporary Secretary.

Mr. Patterson was declared elected as temporary Secretary by voice vote.

Mr. Sandman nominated Mr. Farley as President *pro tempore*. There being no further nominations, the Secretary was directed to call the roll.

In the affirmative were:

Messrs. Bowkley, Deamer, Dumont, Forsythe, Grossi, Harper, Hillery, Hunt, Lynch, Mathis, Ozzard, Ridolfi, Sandman, Sarcone, Scholz, Stamler, Stout, Waddington—18.

In the negative—None.

Mr. Farley was declared elected President *pro tempore*.

Messrs. Ozzard and Lynch escorted President *pro tempore* Farley to the rostrum, whereupon Mr. Grossi administered the oath of office to Mr. Farley as President *pro tempore*.

Mr. Ozzard moved to proceed to the election of a permanent President of the Senate, which motion was adopted.

Mr. Ozzard nominated Mr. Sandman for the office of permanent President of the Senate. Mr. Grossi seconded the nomination. The Secretary was directed to call the roll.

In the affirmative were:

Messrs. Bowkley, Deamer, Dumont, Farley, Forsythe, Grossi, Harper, Hillery, Hunt, Kelly, Lynch, Mathis, Ozzard, Ridolfi, Sarcone, Scholz, Stamler, Stout, Waddington—19.

In the negative—None.

Mr. Sandman was declared elected President of the Senate for the legislative year and was escorted to the rostrum by Messrs. Stout and Lynch.

The oath of office as President of the Senate was administered to Mr. Sandman by Justice George B. Francis of Cape May County.

After the oath of office was administered, President Sandman addressed the Senate as follows:

The result of the election on November 5, 1963 gave the Republican Party control of the State Legislature. This, together with the defeat of the Governor's bond issue has placed upon the 188th Legislature and the Republican Party the responsibility to come forward with a better approach to State problems. It is now the responsibility of the New Jersey Senate to supply the leadership through its program that will answer the needs of the people and their State. We do not accept the defeat of the Governor's bond issue as being a mandate for broad based taxes. We do accept the people's action as being a demand for sound long range planning, the elimination of waste in government and a positive program setting forth a sound economic method of financing the needs of the State.

We propose a broad program to cut unproductive spending and to get the most efficiency possible out of every tax dollar in a way that will not hamper the growth of the State, nor curtail or eliminate necessary services.

We propose to assess our needs for capital improvements and operations with dispatch. The ill fated \$750 million bond issue proved that the people of the State do not subscribe to plunging the State into a massive debt without knowing precisely how the money will be spent with a legitimacy of the needs. The people have made it quite clear that they do not believe in borrowing money to pay for current expenses; to the contrary, they want a pay-as-you-go business-like government.

CURRENT OPERATING EXPENSES

At the outset we would like to make our position clear in regard to the fiscal condition of the State and the anticipated budget for fiscal year 1964-1965. From the best information available to us, without any unforeseen emergencies, we firmly believe that the next budget can be balanced without the enactment of a sales tax, or an income tax, or without any major increase in existing taxation. There is no question that the next budget must be to some extent higher than the present budget because of fixed items over which the

Legislature has no control. However, the increase in revenues due to an expanding population should be sufficient to balance the next State budget. To do this we must effect every possible economy and provide for large capital needs through another method.

One of the first items of business in the New Jersey Senate in 1964 shall be the establishment of a Little Hoover Commission, which will eliminate waste and give maximum service for every tax dollar.

To assure further economy in government, the Speaker of the House and I have today appointed a most able Joint Appropriations Committee of economy-minded legislators and as the Presiding Officer of the New Jersey Senate, through this medium, I today serve notice upon the Chief Executive of the State that all unnecessary items included in a bulging budget that he may send to us will not be approved by the Appropriations Committee nor will it be enacted into law by the New Jersey Senate. If the Administration is entertaining any ideas of forcing the Senate into an income tax, or a sales tax by virtue of adopting an exaggerated budget that can only be financed by such major taxation, then the Administration had better make up its mind at this very early date that this will not happen in New Jersey in the year 1964.

In an effort to further safeguard economy in government, the Speaker of the House and I have today appointed a new joint committee that will work with the State Auditor's office. All vouchers affecting improvements that are required as a matter of law to be filed with the State Auditor shall be filed with this joint committee. The necessity for this committee was pointed out by the State Auditor during the year 1963.

CAPITAL NEEDS

The most pressing capital needs of the State can be divided into three categories, namely: (1) institutions and agencies; (2) higher education; (3) highways. In arriving at the best possible method by which these capital needs can be financed, we must weigh the effect that taxation will have upon our competitive position with other states, especially those states that surround New Jersey. Let us never lose sight of the fact that each state is in competition with every other state in the drive to bring new industry that supplies new jobs within its borders. The economy of

any state depends upon a low ratio of unemployment, which can only be held in check by a healthy business climate. Other states as well as New Jersey advertise through all possible media the benefit of doing business in their state, the chief advantages of which have to do with taxation. The Governor of Pennsylvania has even gone so far as to write personal letters to industrialists in New Jersey showing the possible benefits of moving their businesses to Pennsylvania. If we are to meet this competition, we must be reluctant to adopt major sources of taxation. I am, of course, referring to a sales tax, an income tax and a high corporate net income tax.

We are all aware of the fact that there are members of both parties in both houses of the Legislature who support the early enactment of a broad base tax, or an increase in the corporate net income tax, and knowing these people, we are all certainly of the opinion that they are sincere in their belief and feel that the enactment of such taxes is in the best interest of the State. However, we also know that at this particular time the vast majority of the members of the Legislature in both parties, in both houses, do not favor the enactment of these taxes. Quite frankly, we also must admit that without the enactment of a broad base tax there can hardly be any appreciable increase in state aid to the school districts, or to the counties and municipalities. Therefore, in our effort to be honest with the people, a balanced state budget without the enactment of a broad base tax, or a major increase in existing taxes, cannot include an appreciable increase in state aid to the school districts, the municipalities or the counties. The long debate along this line will continue throughout the year 1964.

We shall adopt during the year various changes in the law affecting the use of bond monies for capital construction. A good many of these changes came to light in the argument against the Governor's \$750 million bond issue. The present system is grossly inadequate, to say the least. *Never again should this State undertake the construction of an institution estimated to cost \$13 million and finally have it cost \$18 million, such as was the case at Woodbridge.* The increase in the cost of that particular institution was done through transfers made without the consent of the Legislature—even without its knowledge. We, therefore, recommend the establishment of a very active State House Commission to take the place of the present State House

Commission, which is no more than a rubber stamp. The State House Commission shall be composed of the Governor, the State Treasurer, the Budget Director, the President of the Senate, the Chairman and Vice-Chairman of the Joint Appropriations Committee and the Speaker of the House of the Assembly, under rules whereby the legislative members shall serve for the entire term of their elected term of office.

The State House Commission shall have jurisdiction over all contracts for capital construction wherein bond monies are used. This will assure the following:

1. No such contract shall be awarded in excess of \$500,000 without approval of the State House Commission.

2. No funds shall be transferred from one project to another without the approval of the State House Commission.

3. No extra work orders will be issued by the State Treasurer that exceed five percent of the original contract bid without the approval of the State House Commission.

Better planning and greater economies can result from a survey of our building costs. Wherever possible duplicate plans should be used. This practice has been very successfully used by the Federal Government in building post offices and armories. There is no reason why it could not also be successfully used in New Jersey.

INSTITUTIONS AND AGENCIES

I have today directed the Senate Committee on Institutions, Public Health and Welfare to work with Commissioner McCorkle and his staff in preparing a specific list of priorities and detailed cost estimates for the construction of new mental institutions and other buildings, together with needed improvements in this field. I have also this day asked that this committee prepare the necessary legislation which will provide for a referendum in November of 1964 for a limited bond issue under bi-partisan sponsorship to meet these needs. This report should be filed with the Legislature before the Joint Appropriations Committee concludes its work on the 1964-1965 budget. We firmly believe that no bond issue should be submitted to the people without bi-partisan support.

In an effort to cut the time of construction for the needed institutions we propose to include in the 1964-1965 budget a

reasonable amount of money for engineering and architectural fees for the projects included in the bond referendum. This will enable the Department of Institutions and Agencies to go ahead with construction immediately after the approval of the referendum and cut the time of construction by approximately one year.

HIGHER EDUCATION

We propose a pay-as-you-go plan to build college dormitories containing classroom space in the lower portions through a building authority which can raise funds through self-liquidating bonds retired from the receipt of dormitory fees. This plan has been successful in other states and will meet the major portion of our immediate needs for higher education.

I have today requested the Senate Education Committee not only to study the need for new classrooms, but also to give a full report at an early date on the utilization of present classrooms, so that our State colleges and State University can be scheduled to get the maximum use of classrooms, whereas they are vacant now at times when they should be in use. This committee will also be directed to gather information on the availability of Federal funds for State educational institutions, including junior colleges and community colleges.

We recommend and support the construction of a four year college which will not only award undergraduate degrees, but will also specialize in aeronautical engineering. The construction of such an institution would make it the first of its kind in the world. It should be located in the vicinity of the large Federal installation at Pomona, New Jersey, and can be financed in large part by the Federal Government as well as outside agencies.

HIGHWAYS

The major shortcoming in the field of highways is not, for the most part, the lack of funds, but the slowness of production caused not by the Highway Department, or the Highway Commissioner, but by our present inadequate system. Our endeavor shall not be to criticize the Highway Commissioner, nor the Highway Department but to work with this Department in meeting the needs of the State in the field of transportation.

I have this day directed the State Highway Committee to meet with Commissioner Palmer and his staff at the earliest possible date, so that we may at all times work together in adopting beneficial changes that will speed production, such as including in the budget money for the preliminary engineering of proposed roads so that this work can be done by the time construction money is appropriated. If the Highway Committee recommends additional personnel for the Highway Department in an effort to speed production, we will supply the necessary funds.

We recommend the construction of more major highways through self-liquidating bonds. For example, we recommend and wholeheartedly support the construction of a toll road from Toms River to New Brunswick which should be under the jurisdiction of the Garden State Parkway Authority. The need exists at this location because of the tremendous traffic congestion. Traffic reports already made indicate that the road will pay for itself and, at the same time, increase the existing revenues of the Garden State Parkway from Toms River south.

This road will also supply the first north-south truck route in the State of New Jersey over a major highway. At the present time trucks cannot use the Garden State Parkway north of Asbury Park.

We do not believe that the New Jersey Turnpike should be toll free. We do believe that surplus revenues should be available in the future and will introduce legislation to make sure that they can be used at some future date.

RAPID TRANSIT

We are opposed to a merger of the New York Central Railroad, the Pennsylvania Railroad and the New Haven Railroad, since such a merger would seriously impair the ability of smaller railroads in the metropolitan area to continue service. We are not averse to mergers, but if mergers are completed, they should be done in a method that will not hamper the successful operation of smaller railroads.

In the field of rapid transit we recommend that a study be made for the possible use of the right of way of the New Jersey Turnpike, the Garden State Parkway, and other major highways, in the construction of an elevated rapid transit system.

In a practical sense we do not feel that a highway bond issue should be submitted to the people in the year 1964, nor at any future date, without a specific purpose showing definite projects and definite present needs that cannot be financed by any other method in a reasonable time.

CONCLUSION

Included in our program are some forty major points that are too lengthy to mention in this address. This is a very ambitious undertaking and it is altogether possible that it cannot be completed in the year 1964. Nevertheless, it is work that must be commenced immediately. Under these recommendations the Senate committee system will be activated for special purposes with definite tasks. This is a workable program resolved as a result of long study. It includes an abundance of improvements by the many changes recommended. It does not contain a single give-away section because this is not the year when New Jersey has anything to give away. To those who are coming to the State capital seeking something for nothing our program tells those people to stay home.

The leadership of the State at this time we know is ours, but we cannot do this job alone. We sincerely seek the support of the Governor and his Party. We seek the support of all the people. We honestly tell them at the outset that this program does not give everybody everything he wants, but it does take care of the needs of the day. This is a full time program that will require full time attention, especially on the part of the leadership of this house and for that reason I have today requested a full time staff for the offices of the Senate President, the Majority Leader and the Minority Leader. Fully realizing the great responsibility that is ours and with confident determination we pledge ourselves to carry out this program.

Mr. Ozzard moved to proceed to the election of a permanent Secretary, which motion was adopted.

Mr. Stout nominated Mr. Henry H. Patterson, of the County of Monmouth as permanent Secretary of the Senate. There being no further nominations, President Sandman directed Mr. Roy J. Schleich to call the roll.

In the affirmative were:

Messrs. Bowkley, Deamer, Dumont, Farley, Forsythe, Grossi, Harper, Hillery, Hunt, Kelly, Lynch, Mathis, Ozzard, Ridolfi, Sandman (President), Sarcone, Scholz, Stamler, Stout, Waddington—20.

In the negative—None.

Mr. Sandman declared Mr. Patterson elected permanent Secretary and administered the oath of office to Secretary Patterson.

Upon announcement by Mr. Sandman that the Senate has organized and is now ready to proceed to business, the 1964 Session was opened with prayer by the Rev. W. Neal Raver.

Under the direction of the President, the Secretary called the Senate, when the following Senators appeared and answered the call:

Messrs. Bowkley, Deamer, Dumont, Farley, Forsythe, Grossi, Harper, Hillery, Hunt, Kelly, Lynch, Mathis, Ozzard, Ridolfi, Sandman (President), Sarcone, Scholz, Stamler, Stout, Waddington—20.

Mr. Ozzard offered the following resolution, which was read and adopted:

Resolved, That a committee of 4 be appointed to await upon His Excellency the Governor and inform him that the Senate has organized and elected the Honorable Charles W. Sandman, Jr., of the county of Cape May, President, and Henry H. Patterson, of the county of Monmouth, Secretary, and is now ready to proceed to business and also to receive any communications that he may forward.

Mr. Sandman appointed Messrs. Mathis, Bowkley, Deamer and Grossi to inform the Governor that the Senate had organized.

Mr. Ozzard offered the following resolution, which was read and adopted:

Resolved, That the Secretary of the Senate be directed to inform the General Assembly that the Senate has organized and elected the Honorable Charles W. Sandman, Jr., of the county of Cape May, President, and Henry H. Patterson, of the county of Monmouth, Secretary, and has proceeded to business.

Mr. Ozzard offered the following resolution, which was read and adopted:

Resolved, That there be employed for each Senator a Secretary, to be designated by him, at a salary of \$1,000.00, payable in the same manner as all other Senate employees for the legislative year.

Mr. Ozzard offered the following resolution, which was read and adopted:

Resolved, That unless otherwise ordered, the daily sessions of the Senate shall begin at 11:00 o'clock in the forenoon and 2:00 o'clock in the afternoon.

Mr. Ozzard offered the following resolution, which was read and adopted:

Resolved, That the Legislative Manual be distributed to the Senate on the same basis as for the session of 1963.

Mr. Ozzard offered the following resolution, which was read and adopted:

Resolved, That the President of the Senate is hereby directed to instruct the printer to mail to each member of the Senate, at his residence and business address, at least one copy of each bill and resolution, both Senate and General Assembly, as soon as the same is printed.

Mr. Ozzard offered the following resolution, which was read and adopted:

Resolved, That the Committee on Ways and Means be authorized to procure bill files and the necessary stationery and supplies for the use of members and officers of the Senate.

Mr. Ozzard offered the following resolution, which was read and adopted:

Resolved, That 1,000 copies of each bill, joint resolution, and concurrent resolution be printed for the use of the Senate, and 900 copies of each official copy reprint.

Mr. Ozzard offered the following resolution, which was read and adopted:

Resolved, That 500 copies of the weekly Senate Journal be printed and the printer directed to mail copies to each member of the Senate and General Assembly and to the clerical officers of each body.

Mr. Ozzard offered the following resolution, which was read adopted:

Resolved, That the Rules of the Senate for the legislative year 1963 be adopted as the Rules of the Senate for the legislative year 1964 until further order of the Senate.

Mr. Ozzard offered the following resolution, which was read and adopted:

Be It Resolved by the Senate of the State of New Jersey (the General Assembly concurring):

That the printer be directed to furnish, as soon as printed, and without waiting for the regular distribution, the number of copies of each bill, joint resolution, and concurrent resolution introduced in the Senate and General Assembly, each committee substitute therefor, each official copy reprint thereof, and each printed amendment thereof, herein designated, to the following:

<i>Mr. President:</i>	January 14, 1964.	

I am directed by the General Assembly to inform the Senate that the General Assembly has passed the following resolution:

A Concurrent Resolution to provide for subscriptions to the 1964 Current Service, New Jersey Legislation with binders, by the Senate and General Assembly.

BE IT RESOLVED *by the General Assembly of the State of New Jersey (the Senate concurring):*

1. The Current Service, New Jersey Legislation for 1964 be subscribed to, including appropriate binders for the same in new subscriptions for the use of the members of the Senate and General Assembly and for such officers of the Senate and General Assembly and for such other persons as the President of the Senate and the Speaker of the General Assembly shall respectively designate, the same to be mailed to the local address of each member of the Senate and General Assembly and to the local address of each such officer or other person so designated to receive the same, as shall be furnished by the President of the Senate or Speaker of the General Assembly, respectively and that payment for each such subscription be made at the rate of thirty-five dollars (\$35.00) and that statement of the expense for the subscriptions and binders furnished to the members and officers of, and to such other persons for the account of, the Senate and General Assembly, respectively, be referred to the Committee on Incidental Expenses of that House and when approved by said Committee, said approval to be indicated by the signature of its chairman, and of the Secretary of the Senate or Clerk of the General

Assembly, respectively, as an expense of said House, the said bills shall be forwarded to the Director of the Division of Budget and Accounting in the Department of the Treasury.

In which the concurrence of the Senate is requested.

PAUL BORUTA,
Clerk of the General Assembly.

The Assembly messages were taken up and, on motion of Mr. Ozzard, the resolutions were concurred in by voice vote.

Mr. Ozzard offered the following resolution, which was read and adopted:

Resolved, That the "Official Manual for Use in Drafting Legislation for Introduction in the New Jersey Legislature," prepared and published by the Law Revision and Legislative Services, be adopted as the official manual of practice and procedure of the Senate governing the form of bills to be introduced in the Senate and governing the conduct of the preliminary examination of bills proposed for introduction in the Senate required by the Rules of the Senate; and

Be It Further Resolved, That in order to carry out said practice and procedure, Charles deF. Besore, John W. Ockford, William Lanning, and H. Arthur Smith, Jr., be designated as counsel to the Committee on Revision and Amendment of Laws of the Senate, and that the duties of such counsel shall be to conduct said preliminary examination of bills proposed for introduction in the Senate under the general supervision of the chairman of said committee and through the Division of Law Revision and Bill Drafting of the Law Revision and Legislative Services pursuant to law, and that they shall receive such additional compensation for acting as such counsel as shall be determined by the Senate by resolution.

Mr. Ozzard offered the following resolution, which was read and adopted:

Resolved, That the payroll for the officers and employees of the Senate be adopted and that the Secretary be authorized to authenticate the same as approval officer.

Mr. Ozzard offered the following resolution, which was read and adopted:

Resolved, That all statements of expenses of the Senate, or of the Legislature on account of the Senate, be referred to the Ways and Means Committee and, when approved by said committee, as indicated by the signature of the chairman thereof, and by the Secretary of the Senate, said bills shall be forwarded to the Legislative Budget and Finance Director for audit, and to the Director of the Division of Budget and Accounting and the State Treasurer for payment.

Mr. Ozzard offered the following resolution, which was read and adopted:

Senate Resolution No. 1, entitled "A resolution to create an investigating committee consisting of 5 members, to be appointed by the President of the Senate, with power to investigate any public body receiving funds in whole or in part from the State."

Be It Resolved by the Senate of the State of New Jersey:

1. There is hereby created a committee to be known as the "Senate Investigating Committee" to be composed of 5 Senators to be named by the President of the Senate, who shall constitute a committee for the purpose of investigating the finances, affairs and operations of any and all departments, boards, officers and commissions of the State Government, and all other bodies and political subdivisions of the State who shall be receiving State moneys or public funds of any kind. The committee is authorized to examine into the pay and duties of the employees and the conduct of the work and affairs of all such boards and political subdivisions of the State who shall be receiving State moneys, for the purpose of recommending ways and means of reducing costs of administration and promoting efficiency.

2. Such committee shall serve without pay, but is authorized to employ counsel and such accounting, investigating, clerical or other assistants as to it may seem necessary.

3. Such committee shall have the power to subpoena and examine witnesses and any accounts, records, or other matter pertaining to the operating of any department or departments of the State Government, of any political

subdivision of the State, or of any other body receiving State moneys or public funds of any kind, or of any bi-state commission which may be acting jointly with another State.

4. The committee may appoint a secretary who need not be a member of the committee. Said committee shall meet from time to time, hold hearings and examinations in a manner and in places which to them may seem best and proper.

5. Any agency, board or department of the State Government, any officer or employee of any political subdivision of the State or of any other body receiving State funds, and the officers and employees of any bi-state commission which may be acting jointly with another State, shall furnish to such committee such information, records, and data as may be required for a comprehensive analysis of the operation and financial affairs of such agency, board or commission, or other public body, including any bi-state commission, as from time to time such committee shall determine.

6. Investigations and examinations may be made privately or publicly, but it shall be unlawful for any person to divulge the results of any investigation or examination to any person or persons other than such committee, unless a public hearing shall have been first held. Whenever any person shall be examined by such committee or by its duly authorized representative or representatives, under the powers contained in this act, at a public hearing, the officer, department, board, bureau, commission or individual under investigation or scrutiny may, through his or its authorized representative or representatives, cross-examine any such person or any phase of the matter concerning which he has been examined or questioned, and such officer, department, board, bureau, commission or individual may introduce other evidence to explain, enlarge upon, or clarify the matter, situation or condition under investigation or scrutiny to the end that the full details of any such matter, situation or condition may be developed and presented at one and the same time.

7. This committee shall remain in effect and force until the opening day of the 1965 Legislature, notwithstanding any *sine die* adjournment.

Mr. Ozzard offered in nomination the following officers and employees of the Senate for the legislative year and moved their election:

- Committee Clerk—Leon Leopardi.
- Committee Clerk—Mrs. Dorothy C. Berry.

Resolved, That the Senate do now recess and proceed to the Assembly Chamber for the purpose of receiving the Annual Message of the Governor.

Following is the Second Annual Message of Governor Richard J. Hughes, which was delivered to the 188th Legislature of New Jersey in the Assembly Chamber.

SECOND ANNUAL MESSAGE

January 14, 1964.

Mr. President, Mr. Speaker and Members of the Senate and General Assembly:

This year marks New Jersey's Tercentenary. During this period the mind will turn naturally to a review of the past accomplishments of our State and to thought of the people who contributed so much to its achievements. This history will refresh our sense of pride in New Jersey. This is how it should be.

To the extent that the past serves as a useful guideline for the future, every citizen will benefit from this year's review of what has gone before. If there is a single group in the State, however, which can least afford the pleasant luxury of looking only backwards, it is we who assemble here today. Other legislators and governors have made their contributions. Their efforts, whether great or humble, are recorded upon the history of their times. But, our work is far from completed. Our task, our purpose, is to build upon the established foundations of the past to provide the best possible future for the people of this State. This is a heavy responsibility indeed, but one that we can meet together.

In a world as complex as ours, we have come to realize that a beneficial and prosperous future is not ours by right; nor can it be expected to occur spontaneously. If it is to occur at all, it will be the result of careful planning and preparation and considerable hard work. To this end, each citizen has his own concern to do his utmost, to advance himself and his family. The business and commercial interests of this State also bear no small part of this responsibility. Not only do such enterprises provide a substantial portion of the State's economic well-being, but they also hold within their hands the power to advance the State's ability to cope with many of the most pressing social and economic problems of our day. For example, some of our greatest industries, in cooperation with the State, are helping establish the pattern and

the procedure for the constructive integration of all qualified persons, regardless of race, religion or nationality, into the work force of the State.

To dwell upon the responsibilities of the private citizen, however, is to lose sight of the special responsibilities we here today have willingly assumed. As we have been elected, so have we elected to undertake the obligation of serving the people of this State. Having chosen to serve, can we now shrink from the obligation to perform the duties of our office faithfully to the best of our abilities?

The problems which confront the State are not nearly as difficult to conquer as is the fear to undertake solutions. To those of us who would fear the unpopularity of meaningful measures to curb drunken driving, I would point to the 964 persons who died upon our highways in 1963—how much of this is the price of past inaction? To those who would hesitate indefinitely to provide the revenues so necessary to our survival, I would point to the more than one quarter billion dollars by which local real property taxes have risen in the last four years and still have failed to meet the needs of a modern State—the near intolerable price of inaction. To those of us who would preach the brotherhood of man and yet equivocate about writing its full meaning into the public policy of our State, I would point to the waste of human potential, to the mounting social ills and welfare problems and worse, which afflict the body politic to the cost of every one of us.

People—Purpose—Progress; this is the Tercentenary motto. The people are waiting. The purpose is evident. It is progress we must seek.

FIRST STEPS TO PROGRESS

We must measure the foundation required for the State's future progress partly in terms of today's existing needs.

During the past year, there was considerable discussion concerning the immediate and near future needs of the State in two critical areas, (1) capital construction, and (2) increased financial aid to local governmental units.

Each of these areas of need has been documented in great detail over the past years. For example, the State's requirements for institutional construction are supported by numerous departmental studies dating from 1959 and even earlier. These studies establish the need for a capital construction program of more than \$100 million, of which \$60 million is sufficiently urgent to require immediate consideration.

The capital construction needs of our public institutions of higher education have been carefully documented by the 1962 Strayer Report which projected a minimum capital construction program of \$134 million in the next several years. Unless these facilities of education are provided we will be turning our backs upon the more than 23,000 additional students who will be seeking college accommodations in our public institutions, for instance, in the scholastic year 1970. Demonstrating the immediacy of this problem is the fact that we will require facilities for 12,000 more students than our public institutions handled in 1961 by as early as September, 1965.

A third major area of need certainly is that of highways. For more than six years the Highway Department has been issuing, on a consistent and periodic basis, comprehensive reports detailing the necessity of a construction program which will total approximately \$2 billion by 1975. New Jersey's traffic density is already five and one-half times the national average; three times that of Pennsylvania and three and three-quarter times the density on New York State highways. Considering today's congestion, it is frightening to contemplate conditions in 1980, by which time our traffic engineers say vehicle miles of travel will double the 1960 figure.

As to the requirements of our local school districts for increased State financial assistance, there has been a detailed and comprehensive report by the Commission on State Tax Policy which more than establishes the pressing need for this action. Even if this report did not exist, a quick glance at the statistics of the increase in local property taxes over the past years would establish this need. In less than 10 years these taxes have increased by more than one-half billion dollars. Does anyone in the Legislature

seriously believe that the local property taxpayer can continue to absorb a financial burden of the magnitude now posed by these taxes?

During the bond issue discussions, there were those, including some members of this Legislature, who indicated that they were not convinced that the needs which I have briefly outlined in this message exist or that their existence has been fairly proven through careful and impartial study. In light of the studies which have been conducted by the State, by consultants of unquestioned integrity and by commissions of the highest repute, I find it difficult to understand such a contention. Nevertheless, I say to this legislative body that if there should be any of you who choose to argue with the facts as they exist today, and as we all know them, conduct such studies as you may wish. I ask only that you do it quickly, for we are surfeited with studies, and the people are waiting. I am confident that no reasonably intelligent individual can long escape the inevitable conclusion that New Jersey's ability to progress in the future is tied very directly to the needs which I have outlined and to the many other areas of needs which I will touch upon in this and my other messages, particularly in the Budget Message which I shall deliver to you next month.

A CONTINUING OBLIGATION TO ACT

Before we turn our attention to a consideration of new matters or to a consideration of new developments in some of the older problems, I feel that I must comment upon a proposal presented to you last year which did not receive legislative approval.

In my first message, I devoted considerable attention to the pressing necessity for the "driving while impaired" legislation and the "implied consent" law. Since last year, death on New Jersey's highways has continued to increase at an alarming rate. Nearly 200 more persons died on our roads in 1963 than did in 1961. The State's alcoholic determination program has consistently established, year after year, that more than 50% of the drivers involved in fatal accidents were found to have an alcohol factor.

I well realize that a driver's license is a most valuable possession in our way of life which depends upon automobiles as a necessary means of transportation. The loss of a license is a serious handicap to its owner, but can it be equated with the loss of a life?

If we are to discharge our responsibilities, we must make every reasonable effort to improve our motor vehicle laws and enforcement programs so that lives will not be sacrificed needlessly. A strengthening of the drunken driving laws is an absolute essential. The proposals are before you. I request your serious and early consideration of this problem.

A REPORT OF STEWARDSHIP

We can take substantial pride in the fact that State government in New Jersey has established a record for economy of operations. The most recent figures available indicate that our per capita cost of operating State government is the lowest in the nation. State tax collections, computed as a proportion of personal income in the State, are also the lowest in the nation. We employ fewer persons per capita than any other state. I doubt that anyone could claim that there is another state in this nation whose economy of operations is better, in terms of cost, than ours in New Jersey.

I mention these facts not in a spirit of complacency, for it is certain that in some areas we are not meeting our responsibilities because of lack of funds, but to set the record straight. In other words, what we are doing we are doing efficiently and economically. To those who would criticize State government, I would request that they specify the services they would abandon or deny and that they not resort to generalized, unsubstantiated claims of possible saving.

But no one can claim perfection. Mindful of our continuing responsibility to maintain efficiency, I have had conducted a series of studies concerning State government. Last year, the Governor's Committee on Efficiency and Economy in State Government conducted such a study. I am pleased to be able to report that many of its non-legislative recommendations already have been implemented, and others are in the process of implementation with considerable savings being realized to the State. For example, a

review of State supported activities has led to the establishment of a centralized motor pool, and we are providing for centralization of printing and duplicating activities. A long-range planning program for capital improvements has been established. In addition, specific steps have been taken to assure for State government the full advantages of electronic data processing; studies for a centralized data processing operation are now under consideration.

Yet, while these and many other recommendations of the Governor's Committee on Efficiency and Economy have been implemented by the Executive Branch, I am not aware that any of the legislative recommendations have been implemented, and thus I assume that the report remains under study by the Legislature.

I also would strongly recommend expansion of the State's fiscal note law. At present, this law affects only those bills which would increase or decrease State revenue or expenditures. It is of equal importance that the Legislature and the general public know what effect proposed legislation will have upon local revenues and expenditures.

It is my intention to continue during the forthcoming year my review of State operations with a view to maintaining and improving our present high degree of economy and efficiency. And to continue and expand the comprehensive study of the operations of our State government, not only for its betterment but for the composure and information of our citizens, I recommend the creation of a Hoover-type commission.

It is essential, however, to the well-being of the State that any such commission be not a vehicle for political harassment but a means for an objective evaluation of the problems of government. To that end, I feel that I must stipulate that such a commission, if created, be composed of public members appointed by the Governor subject to confirmation by the Senate.

It is this means of balanced responsibility which the Constitution has established as a guarantee of the highest quality in appointments—from the Chief Justice of the Supreme Court through the whole range of the judiciary, for instance, where

justice and impartiality form the touchstone of achievement. This method of appointment is certainly best, if indeed we are all sincerely interested in objectivity without suspicion of partisan motivation.

THE PEOPLE

CIVIL RIGHTS—NOT A POLITICAL MATTER

New Jersey is justly proud of its pioneer position in making the promise of the Declaration of Independence a reality for all its citizens. But during 1963—the hundredth anniversary of the Emancipation Proclamation—the conscience of New Jersey, as well as the nation, was aroused by intensified demands for inter-racial justice. Many came to realize that there was much more to be done before all our citizens could truly share in the full freedom and equal opportunity which should be available to all citizens regardless of race, religion or national origin.

Over the years civil rights has never been a partisan matter in New Jersey. The first substantial gains in this field were made by a Republican Governor working with a Republican Legislature. Under Governor Meyner this pioneer role was continued, with notable progress, particularly within the Executive Department, and with additional legislative achievements which were the products of bipartisan effort.

This administration, working with legislators of both parties, has recorded a number of achievements. We have implemented a campaign pledge to bring the Division on Civil Rights within the Department of Law and Public Safety, thus better preparing the Division to meet today's need to assure equal opportunity. A bipartisan Legislature broadened our civil rights statutes to outlaw discrimination by all public contractors. It was my privilege to sign this bill into law.

We have seen in New Jersey this year a series of landmark decisions—the first of their kind in the Nation—by the Commissioner of Education in which the State successfully has come to grips with the problem of “de facto” segregation while maintain-

ing the structure of the neighborhood school system, so much a part of public education in New Jersey.

Confronted with the growing moral crisis during the year past, the Democratic and Republican parties formalized their cooperation in meeting the challenge of civil rights by establishing the Bipartisan Conference on Civil Rights to deal specifically with the problems of equal opportunity in the fields of education, employment and housing.

Clearly this was a positive recognition that civil rights is not a political matter, but a matter of morality and democratic ideals.

Spokesmen for the major faiths have reminded us in no uncertain terms that the demands of conscience require that we move rapidly and courageously in all areas of public and private life to share the full benefits of freedom with all our fellow citizens.

It is this moral conviction which must guide us as we again take up the important matter of fair housing legislation. There have been differences that have blocked this legislation. Important legislative leaders have described these as differences, not of moral substance, but of legal form. The Bipartisan Conference on Civil Rights has recommended solutions to this impasse. I would hope that the same spirit of bipartisan cooperation reflected in the Conference on Civil Rights will continue. If it does, I am sure that the Legislature will pass a meaningful fair housing bill which will reflect credit on itself and on New Jersey as a leader in the field of civil rights.

TO MATCH SKILLS AND JOBS

Total employment and average income in New Jersey have reached a new high. In construction and in the production of goods and services we have set new records. And our economists forecast that 1964 will be even better.

This is but a part of the story—the bright side. Unemployment in New Jersey, as in the nation, remains high. During the past year it has averaged 6.5 per cent. As our technology advances, a greater proportion of job opportunities is found in the skilled and professional categories. But employment of the unskilled is

rapidly falling. Many New Jerseyans find themselves unemployed, not because there are no openings, but because they lack the skills required for available jobs.

In part, we are already attacking this problem. Using funds provided under the Federal Manpower Development and Training Act, our Education and Labor Departments, in cooperation, are training hundreds of unemployed in higher or more employable skills. This Federal program recently has been extended and enlarged, and we shall take full advantage of these added opportunities.

YOUTH EMPLOYMENT—THE PROBLEM

But our most knotty problem—that of youth unemployment—is not resolved by this approach. In the next seven years, more than half a million young people will be entering the New Jersey labor force. Nearly 30 per cent of these will be high school drop-outs, most of them without the necessary skills for a steady, productive job.

Such figures point up the tragically dramatic condition wherein 40 per cent of New Jersey's unemployed in 1963 were under the age of 25 while this group constitutes only 14 per cent of the labor force.

These young people face a life of recurrent or near-continuous unemployment. And our communities face the ever-increasing economic and social burdens that this functionally unemployable group presents—a stark prospect for the taxpayer.

Opportunities for professional and technical workers, for sales and clerical workers, for managers and proprietors, are increasing; but opportunities in unskilled and semi-skilled types of work are fast disappearing. Today more than 90 per cent of the available job opportunities in our State demand a minimum of a high school education, and a rapidly growing percentage demand specialized vocational training, college and university preparation, and even graduate study. The challenge of youth unemployment and the high school dropout is immediate and critical. It confronts all of us and must be met by the combined efforts of both the private and

public sectors of our society. This is a matter of conscience as well as economics which this administration proposes to meet in a broad and coordinated way.

TOWARD SOLUTIONS

I have vested in the Commissioner of Labor and Industry the primary responsibility for coordination of all State programs relating to manpower training and utilization, with emphasis on programs affecting the priceless asset that is our youth.

Furthermore, the Department will be charged with continuing and expanding the State's activity as expert adviser, as catalyst and as originator in a number of citizen-sponsored programs in this area.

Plans already under way will demonstrate, I believe, the real benefits available from imaginative intragovernmental cooperation in this area. The Departments of Labor and Industry, Conservation and Economic Development, and Education are proceeding with a plan to utilize our public lands—expanding so notably through the Green Acres Program—as a medium for training, education and public service.

As a first step, a group of boys from the rolls of the Newark Youth Career Development Center soon will move into East Creek Lodge in Belleplaine State Forest. These young men, while working to develop public recreation facilities under the supervision of conservation experts, not only will learn productive work habits but also will have the opportunity to repair some of the major educational deficiencies which bar them from even minimal employment in their home communities. These special educational programs will be developed in the Department of Education through its Adult Education Division.

This pilot project will be undertaken at minimal State cost. Should it meet the anticipated success, it will be expanded to other public areas. Thus, these young men, while beginning to shape their own economic futures, will help transform our Green Acres from tomorrow's promise into today's recreational reality for New Jersey's growing millions.

I am pleased to report that this program has the firm support of New Jersey's organized labor which sees this youth endeavor as a first step for young men who will become productive members of the labor force of future years.

Private endeavor, in a great American tradition, has been responsible for some of the most striking developments related to youth employment in New Jersey. In communities throughout the State, organizations, private agencies and interested individuals have developed effective and imaginative programs to combat school dropouts. These efforts must continue to be encouraged and broadened by State support.

Many young people leave high school before graduation because of the need to earn money to assist with family expenses or to meet their own expenses. Voluntary agencies in this State have recognized this problem and developed an effective solution—the Youth Employment Service. YES programs, financed by local service organizations, are functioning in 26 of our communities. This fine community service program—at no public expense—finds part-time jobs for high school students which will supplement their income without interfering with their education. In Princeton, YES obtained almost 600 jobs for students last year. This is a program which must be broadened. We will continue to lend the support of the State in promoting, coordinating and guiding its expansion to still other communities.

Another promising development which will have an impact on reducing school dropout rates and improving the transition for many youngsters from school to employment is the carefully planned work-study program now operating in three North Jersey comprehensive high schools. Non-college bound students are given special aptitude tests and placed in carefully selected commercial and industrial jobs for part of each school day. The student earns and learns on the job and returns to school the rest of the day in a carefully planned curriculum tailored to meet the special interests and needs of the individual. This research and demonstration project can be expanded and extended to schools in other parts of the State—again at minimal State and local government

cost under the Federal Smith-Hughes Act which provides Federal funds for the necessary supervisors.

In a few communities, small numbers of young people have been helped to continue in school and keep pace in spite of home and health handicaps by special tutorial programs. These, too, are volunteer efforts, often housed in church basements, community centers or private homes. They provide a place where young people can come and study under proper conditions and with interested help and guidance. Retired teachers, college undergraduates, interested adults and even qualified high school students have shown themselves to be available and eager to help in the promotion of these worthwhile projects. By a planned marshaling of talent, this program can be expanded to divert many more potential dropouts from that dead-end course.

Meanwhile, there remains the serious problem of designing a system of vocational education to meet the special needs of today's youth. Toward this end, the Commissioner of Education recently appointed a Committee to Study the Needs of Vocational Education, made up of laymen and professional educators and representing all possible interests in this field. It will review our present program with a view to revisions that will best meet the needs of our time.

THE FUTURE

These are but a few of the developments which have been taking place quietly in New Jersey. They do not need vast public outlays to enrich them. But they do need our leadership and encouragement. And they need the public awareness that will bring further support and volunteer participation.

In summary, I am suggesting to the people of New Jersey that each of us—individually and through our government—has a responsibility and an opportunity to work on the solutions of these challenging problems facing our youth. We cannot legislate a solution; we cannot purchase a solution; but we can and we will bring to bear the resources no money could buy, no law command—the dedication, the resourcefulness and the energy of concerned government and concerned citizens.

WELFARE—CONCERN AND VIGILANCE

I commend to the Legislature a careful review of the findings of the Welfare Investigating Committee of the Legislature. Evidence has been adduced by this Committee that the single item of rent constitutes a considerable portion of all welfare payments now being made. For example, in one of our principal municipalities, of a total of \$600,000 in local assistance costs, \$170,000, or one-third, is expended for rent, not including the entire cost to the taxpayer of heat and utilities. In another city, one-half of the total amount of welfare payments is for rent.

The Commission asserts that in many cases these rents are unconscionably high. Quarters which rented for \$18, \$20 or \$25 a month under the old rent controls, with little or no improvements having been made and despite an agreement of the landlords' associations that the line would be held, now carry monthly price tags of \$100, or \$120 or \$140. There is at least the implication that this situation has arisen largely because the tenants happen to be on relief, and the welfare authorities are defenseless in the face of these exactions.

Since, as determined by this Committee, cold water flats and other disreputable dwellings are now being rented for as high as \$140 a month to welfare clients—since such quarters are, by any standards, worth only a fraction of these amounts—and since such quarters are, all too often, all that is available to the families who must seek welfare, we should consider the enactment of legislation which will authorize municipalities, where such exploitation exists, to adopt special ordinances to bring these apparent frauds under control.

There is involved here, of course, the human factor, the victimizing of those least able to defend themselves against the unscrupulous conduct of slumlords. But, beyond this, there is the obvious public interest in seeing that a dollar spent in this manner is not wasted. Every taxpayer, including those in our most prosperous communities, has a direct financial interest in this situation in his county tax burden.

The State must develop an ever sharper alertness in defense of its taxpayers, and moreover in defense of what is right and just. For example, we are obliged to assure that aid to dependent children is indeed used for the care of youngsters for whom it is intended. The majority of people who find themselves obliged to participate in programs of this type are certainly good, decent members of the community. Unfortunately, there apparently are some who divert such funds to their own, rather than their children's, advantage. I am in accord with the Committee's view that stricter controls must be considered to conform all expenditures to the public intention.

Also, when one considers the millions of dollars of unmet obligations owing from parents who have shirked their parental responsibilities, the value of a new concerted effort in prosecution of such individuals is evident. In this regard, I am certain we can depend upon the full cooperation of the courts. I remind our prosecutors, probation departments and juvenile court judges of the interest of this administration in strict control and swift retaliation against deserting parents.

MENTAL HEALTH—NEW STANDARDS

With regard to legislative treatment of the always important subject of mental health, I again commit this administration to the general objectives outlined in the so-called mental health bills which passed the Assembly last year. Our shared intention should be to push New Jersey's mental health programs forward to cope adequately with this deep social problem. With legislation of this type, we will be in a position to proceed with the development of a broad, modernized program of diagnosis, treatment, care and rehabilitation while providing standards for determining impartially the responsibility of relatives and public agencies to pay for needed care. I call on all agencies of State and local government which have authority in this area to consult together and with voluntary agencies with regard to any modifications needed in the proposed legislation and to explore alternatives to achieve these objectives consistent with our responsibilities and obligations to all the citizens of New Jersey.

NARCOTIC ADDICTION

In terms of human tragedy there is nothing more serious, nor more difficult of solution, than drug addiction.

A year ago we established a Narcotic Drug Study Commission which assumed responsibility for making a comprehensive review of all matters relating to the causes, prevention and control of drug addiction. It is my understanding that this Commission has met regularly during the past year and its report should be forthcoming in the near future. This report and any recommendations which it may contain will warrant careful consideration by all of us.

HOPE FOR THE HANDICAPPED

The person with a lifetime disability needs health, education, rehabilitation and related social services of a special character at different stages of his life. Many agencies, public and private, are engaged in providing these multiple services needed by the permanently handicapped. Indeed, New Jersey's record in this field is among the best in the nation; its tradition of service is a proud one.

This effort, however, calls for constant reappraisal and planning. As commendable as our achievements may be, compared with other states, this is a sector of our community life that still suffers from much neglect. We have a strong obligation to strengthen our services to the handicapped. This will bring them out of the shadows of neglect and into the world of opportunity for personal growth, self-respect and independence, adding new strength to the lifestream of our society.

In order to effect coordinated and comprehensive programs for the person with permanent handicap, I have established an Interdepartmental Committee on Lifetime Disability and appointed an Advisory Council, made up of a broad representation of lay and professional citizens, to bring public, voluntary and professional efforts into coordination with the planning and programs developed by the Interdepartmental Committee.

I am pleased to report that much progress has been made in the field of mental retardation—the first area to be considered by the

Committee and the Advisory Council. This has enabled the State to file promptly an application for a Planning Grant in Mental Retardation under recently enacted Federal legislation.

This year we mark the tenth anniversary of a special program for the mentally retarded and physically handicapped in the public schools of New Jersey. This mandatory program was established by legislation enacted in 1954, expanded in 1959 and commonly known as the "Beadleston Laws" in tribute to the leadership of Assemblyman Alfred Beadleston, now the distinguished Speaker of the General Assembly. This legislation—the first of its kind in the country—gives new hope to our handicapped children for a better and more independent life.

Presently, a Commission appointed by the Commissioner of Education is reviewing the effectiveness of these programs. Its report, due in April, will be presented to you for any legislative action needed.

AN APPRAISAL OF HIGHER EDUCATION

In my Legislative Message last year, I announced my intention to appoint a panel of impartial authorities to make a broad study of all our resources of higher education, both public and private. I assigned it the responsibility to recommend the policies and structure which the State should adopt to provide educational opportunities for the qualified youth of New Jersey and to provide the programs and facilities to produce the trained personnel required for the dynamic economy of a progressive, urban State.

This study is now well under way by the Governor's Committee on New Jersey Higher Education headed by Dr. Carroll Newsom, now Vice-Chairman of the Board of Prentice-Hall and formerly President of New York University. The study is being financed by a group of New Jersey business firms. They are to be commended for this public service and their contribution to the future of the youth and higher education in New Jersey.

I often have referred to the essential relationship between economic development and the excellence of higher education. Those familiar with the significant areas of competition between

states in attracting industry know that a key factor is the research capability of our colleges and universities and the availability of trained personnel for modern industry.

I expect that the study will be completed during this year, and it should offer the responsible authorities and the people of New Jersey a comprehensive look at the future of this most vital area of our State life.

On a related subject, plans are under way to formulate the State plan necessary to benefit under the Higher Education Facilities Act of 1963, signed by President Johnson just a month ago.

THE ECONOMY

In examining the condition of the State, it is apparent that the people of New Jersey continue to enjoy the benefits of a prosperous economy. During the year past, a variety of business indicators showed steady and, in some respects, record gains. Our economists forecast that 1964 will be an even better year with general activity moving to record levels and with our per capita personal income remaining among the highest in the nation. This prospect will be enhanced by the expected passage of the Federal income tax reduction.

While we can take satisfaction in this outlook, we would be foolish, indeed, to assume that economic problems do not exist which will challenge all our ingenuity.

The health and vitality of our business community is essential to all of us. America is in the midst of a great era of technological change. At the same time, a natural concern arises from inevitable changes in defense production in which New Jersey industry has been a leader. To provide for our immediate and future needs we must face up to the economic truths of our time—the advances of technology, the encroachment of automation, the need for advanced technical training for our exploding population and the concomitant problem of unemployment. It is no longer possible to trade upon the achievements of past generations, nor to risk our future growth solely upon our geographic and natural resource advantages, as important as they may be.

AN ACTION STATE

New Jersey is an action State, and our economic leadership and strength will in no small measure depend upon what we do now and the steps we take to meet the demands of the future.

We are in the process of increasing our efforts to attract industry to New Jersey. I have directed the Commissioner of Conservation and Economic Development to assume full responsibility for a new approach, with new emphasis, on programs aimed at fostering the most desirable climate for business and industry. I envision the creation, with the important assistance of leaders in the fields of industry, banking and finance, labor, power and utilities and industrial real estate, of technical action teams representing the varied segments of New Jersey's commercial and industrial community to provide information necessary to outside business and industry in search of new locations. In short, the work of these teams would be to "sell" New Jersey to new business and industry.

These teams would be supplemented by a working staff of governmental experts in industrial resources, ranging the whole gamut of New Jersey's assets, including transportation, education, available labor market and many others. The expert knowledge and experience of industry representatives, such as those of the utilities of New Jersey, already gained in their continual search for new industry for this State, would be available to this effort and I know would be cheerfully given.

An example of such cooperation is provided by the eagerness of the New Jersey business community to cooperate in projects for the betterment of the State by its participation in raising funds for our Tercentenary observance far exceeding expectations and entitling these New Jerseyans to the continuing gratitude of our citizens.

A CLIMATE FOR INDUSTRY

The day is long since past when industry would locate "on the other side of the tracks," on inferior margins of the community's available land. To maintain our industrial position we must look

at the overall programming of our communities relating to sound planning and zoning. Our communities should be setting aside lands that are attractive to industry from the viewpoint of modern sewerage and water systems; access to major highways, railroads and airports; and flexibility for expansion. I hope that one day there will be uniform industrial and business codes in order to foster economic development throughout the State.

World trade and commerce historically have been the backbone of any great nation and this fact never has been more significant than it is today. New efforts on the Federal level are proceeding quickly. It is my belief that as a State we must look to our international markets, not only from the standpoint of the national balance of payments, but for outlets to absorb the increased productivity of our expanding technology. We plan trade missions to regularly foster commerce with our counterparts in other nations; on-the-spot representatives of New Jersey business in the trade centers of the world, and volunteer private citizens, particularly of the business community, who will carry the message of New Jersey with them in their travels throughout the world.

I envision the development of the full potential of Port Elizabeth, Port Newark and the Delaware River up to our Capital City of Trenton. I hope that New Jersey will become a leader in foreign trade. To implement this program, I am recommending the establishment of a section on International Commerce in the Department of Conservation and Economic Development.

STATEWIDE INTERESTS

It must be our firm position that the economic growth of New Jersey should accrue to the advantage of every part of the State. The efforts of this administration have not been limited to any one section of the State. We have seen the birth of the Atlantic City Expressway Authority to construct a vital highway from that resort center to Camden, an east-west link, so important to our resort industry. We have seen an accommodation of the interests of Camden and Philadelphia under the Delaware River Port Authority to develop a rapid transit system extending to Kirkwood and which one day may run to Gloucester and Burlington

counties. We have participated in the union of New Jersey and Delaware in the Delaware River and Bay Authority to promote transportation between these States and to include, among other things, the addition of a parallel span to the Delaware River Memorial Bridge and the opening of the Cape May-Lewes, Delaware, Ferry. I was happy to support and sign legislation authorizing construction of the Gloucester Bridge by the Delaware River Port Authority.

Through the most efficient cooperation of the Federal, State and local governments, we were able to rebuild our resort areas after the disastrous storm of 1962. Although many believed that this vital industry would never recover from that catastrophe, I am happy to report that in the past year our resorts have enjoyed a record-breaking season. A total of \$40 million in public funds has been invested in the New Jersey coast and the substance of this investment can be measured, among other things, in last year's record \$2 billion resort season. Assistance of this nature will continue. By these efforts we have built permanent protection into the shore, and we will make certain that the New Jersey coast remains the great natural asset that has meant and will continue to mean so much to this State.

Of course, all of us, regardless of political affiliation, can take pride in the fact that New Jersey this year for the first time in its history will serve as host to the convention of a national political party. I am sure that all may agree that this convention, which will place New Jersey on the world stage, will result in untold benefits for the Atlantic City area, in particular, and indeed the entire State.

DEFENSE SPENDING—CHANGES AHEAD

Much national attention is being focused on the economic impact of shifts and cutbacks in national defense spending. Some New Jersey industries already have experienced the effects of changes in defense programs and these cutbacks have caused substantial hardship, particularly for the displaced employees and the communities in which they live. With the anticipated future revisions in the national defense establishment, it is most important

that we be prepared to cope with the economic dislocations caused by reductions or changes in defense outlays affecting New Jersey industry.

We should not allow such difficulties, however, to overshadow the preeminent position of New Jersey industry in the national defense system. New Jersey continues among the top states in the nation in the amount of defense contracts awarded to its business firms. This is impressive testimony indeed to the capabilities of our industry.

As Governor, I have devoted considerable energy in the interest of New Jersey industry involved in defense production. I intend to maintain this interest and to exercise my best efforts on behalf of New Jersey's fair share of defense outlays.

But it is obvious—with this amount of defense spending in New Jersey—that we must begin to plan for the real possibility of further dislocation since we surely can expect future changes both in the pattern and level of defense expenditures.

We need to know the facts about defense outlays in this State and the probable consequences of reductions or shifts in defense spending, as these could affect New Jersey industry and the ways and means for easing the possible transition of manpower and resources from defense to other types of economic activity.

Such planning is essential so that we will have the flexibility to respond promptly and positively to defense cutbacks. For this reason I have directed that the full facts be marshaled in order that New Jersey government and industry be in a position to make smooth and speedy economic adjustments.

We are now exploring the best way to accomplish this with the appropriate Federal departments and research agencies within the State. In this connection I would urge our business and industrial leaders to give serious consideration to the need for reconversion planning. I can assure them that this administration is prepared to cooperate fully with the Federal authorities and defense industries in the public-private effort which will be required to translate problems of revised defense spending into new economic opportunities for the citizens of New Jersey.

JETPORT—DYNAMIC POSSIBILITIES

The attention of this State has been directed for some years to the dynamic economic possibilities, as well as the practical need, of a major airport in New Jersey. The history of this discussion has been a troubled one. Most recently, a two-year effort by this administration on behalf of a jetport in South Jersey has failed to overcome the unyielding obstacle of its location in the path of airways among the most congested in the world.

The Port of New York Authority, at my request, now will be conducting detailed studies of the suitability of two proposed jet airport sites in Northern New Jersey. One is located near Bearfort in Northwestern Passaic County at the Sussex County line. The other is in Bowling Green near the Morris-Sussex County border.

Both of these sites appear to meet most of the generally accepted criteria for the location of a new jet airport. They lie within the northwest quadrant of the region, thus satisfying the requirements concerning air space and air safety. In addition, existing and proposed highways make them readily accessible to the population areas which such a jet airport would be required to serve.

Significant questions remain relating to the suitability of local climatological conditions and the economic feasibility of preparing these sites for jet airport operations. These are the factors which the Port Authority will review.

I do not think that it is necessary to repeat in detail to this group the importance of such a jet airport to the economy of New Jersey. Consultants have estimated that this jet airport will generate 135,000 new jobs with an annual payroll of over \$700 million.

I intend to exert every effort that I can, consistent with my campaign commitments, to assure for the State of New Jersey the acquisition of this facility. I am convinced that New Jersey offers the best possible location for such a jetport and that its construction in this State would bring benefits far outweighing any possible disadvantages.

One of the most difficult tasks that is confronting the entire nation is that of providing sufficient employment for its citizens.

We cannot turn our backs upon a facility such as this which is not only essential to the continued economic growth of the State but is also, potentially, one of the State's major job-creating industries.

I shall report to the Legislature the results of the Port Authority studies as soon as they are available. If, as I hope, this report is favorable to one of the proposed New Jersey sites, it will be necessary for the Legislature to consider, at that time, the authorization to permit the Port of New York Authority to undertake this project, that Authority being the only agency financially capable of sustaining a project of such magnitude.

A TRI-STATE PLAN

The past 15 years have demonstrated quite clearly that the State of New Jersey lies in the direct path of an immense, irresistible tide of growth. Moreover, we have only begun to feel the effects of this wave of population. Within the next 15 years, the State's population will increase by nearly 50 per cent over the 1960 level. In little more than five years, there will be as many people in the northeastern section of this State as there were in the entire State in 1960.

New Jersey cannot expect to absorb and accommodate such large numbers of people unless it prepares itself for their arrival. For the past several years, this State has cooperated with the States of New York and Connecticut through the medium of the Tri-State Transportation Committee. This arrangement has proven to be of great value to all of the participating states. For example, the Committee is responsible for the initiation of the new "Park 'N' Ride" station in New Brunswick, a pilot project in the nation. The Committee also has undertaken numerous studies related to improving transportation in the metropolitan area.

It has become apparent, however, that a truly satisfactory master plan for the development of the northern area of this State, which is under the heaviest growth pressure, cannot be achieved through the use of the informal Tri-State Transportation Committee arrangement. Nor can our planning be considered adequate if it concentrates primarily upon transportation problems.

In addition, a failure to undertake comprehensive planning throughout the New York-Northern New Jersey urban area will seriously jeopardize New Jersey's highway construction program which is financed in large part through the Federal Highway Aid Program. The Federal Highway Act of 1962 precludes the Secretary of Commerce from approving a program for highway projects in any urban area which has not established a "comprehensive transportation planning process" by July 1, 1965. The Federal aid funds which are available from the Housing and Home Finance Agency also will be jeopardized by a failure to act on a comprehensive basis.

In order to assure ourselves the development of a realistic and workable master plan for Northern New Jersey and in order to guarantee satisfaction of the Federal requirements, it was concluded that an interstate planning agency created by a formal compact would be essential.

Such a compact was adopted by the States of Connecticut and New York during 1963. This compact was arrived at by compromise and, therefore, it contained some provisions which I did not consider necessary. On balance, however, the compact was clearly in the best interest of this State. It had the real advantage of representing a basis for formalizing the present arrangement. And it would have guaranteed the continuation of the essential planning on a partnership basis with the Federal government and our sister states. By our failure to join with these states, it has become necessary to negotiate a new agreement which will satisfy not only ourselves but the Federal officials involved, as well as New York and Connecticut. These new negotiations may give us our opportunity to improve upon the compact as originally proposed.

In discussions which I intend to have with the Governors of New York and Connecticut in regard to a possible compromise, I shall suggest broadening the purpose of the planning agency to include consideration of essential environmental factors such as air and water pollution. I shall suggest also changes relating to the representation of the States and the scope of the Governors' veto powers. In these discussions I would invite the participation

of the Legislature so that we can be assured that the compact finally approved will represent a bipartisan agreement that can command the support of the Governors and the Legislatures of the states involved.

This is a problem of pressing importance. There is relatively little time in which to undertake advance planning for the increased population which is growing up around us.

REVITALIZING THE CITIES

As we focus our attention on the problems created by growth, we must inevitably concern ourselves with the very real part our large urban centers must play in any solution to such problems. For it is precisely in the cities that the problems of growth are most directly magnified.

Since the close of World War II, the nation has witnessed a gradual shift of population from the older urban cores to the suburbs. The increased mobility made possible by the automobile, combined with the tremendous growth in our population, has made a large-scale movement of people and industry a natural development.

The result of this movement, however, has been to decrease the capacity of the urban centers to meet the joint challenges of growth and deterioration, at a time when they most need their full vitality. Unfortunately, this has become such a truism that some seem prepared merely to adjust themselves to the problem's existence. Since the difficulties of the cities are no longer new and glamorous—they have been recognized by every Governor since World War II—there appears in some quarters a tendency to view them, fatalistically, as a condition beyond relief.

I do not believe, however, that the State can turn its back on our metropolitan centers. It is unthinkable to consider these communities as being outside the realm of our concern. Their problems are our problems—their future is the future of the entire State.

Of prime concern to the municipalities—as to all government in the State—are the fiscal problems confronting all of us. This

is a subject on which I will speak further in my Budget Message. The continuing acuity of this problem, however, is unfortunately aggravated by the enactment of any legislation imposing mandated increases in local government costs without concurrent recognition of the State's responsibility to participate, through additional financial aid, in the burden thus cast directly on the property owner. This is an area which we cannot afford to disregard.

There are forms of affirmative assistance we can render. Ours is an increasingly complex society and the growing pains of the metropolis demand a concerted treatment—one which brings to bear, through effective coordination, all the available tools of governmental activity. Without such coordination we cannot hope to protect our vast human and natural resources, nor to safeguard our public and private investment.

THE NEW DEPARTMENT

In my last Annual Message, I spoke in this vein of the need for establishment of a Department of Community Affairs. As envisioned, it would be the specific responsibility of this new department to assist the local communities in solving problems relating to housing, urban renewal and planning, as well as those particularly affecting the aged and the youth. To that end, we would bring together the State agencies now functioning in these areas as well as those primarily concerned with local government, such as the Division of Local Government, the Local Property Tax Bureau and the Bureau of Tenement House Supervision. Thus State government would, for the first time and at a modest cost, present to the local administrator one centralized location to which he might refer for all available assistance, guidance or direction.

Our own thoroughgoing examination of the program has been deliberate, and purposely so, for this undertaking is a significant one. Not only the cities are involved, but all communities in this rapidly urbanizing State. Copies of the final report on this proposal have been made available today, so that a full review may be made by you, before legislation is offered.

MIDDLE INCOME HOUSING

If our cities are to play a vital role in a growing State, we can no longer defer assistance which will enable families of middle income to remain in the cities at rentals they can afford to pay. No clearer invitation to the continuing decay of our cities can be found than the high rents and slum conditions and lack of decent housing which impel these families to move to the suburbs.

There has been before you middle income housing legislation which would provide for the creation of an autonomous New Jersey Housing Finance Authority. Such an authority would have the power to issue bonds backed by its own credit and revenue and to lend the proceeds from such bond issues to qualified developers of middle income housing. The credit of the State would not be involved. Our six years of legislative consideration of this subject have prepared us for affirmative action at this time.

Modernization of our Tenement House Act, to meet present building practices, is essential. Bills for this purpose have been before the Legislature for several years and merit prompt consideration. They will benefit not only owners and builders but, by permitting a reduction in the cost of building, the tenants as well.

Also important is the need for amendment of existing law to require landlords to provide heat essential to the health and well-being of the tenant.

PROGRESS ON GREEN ACRES

To meet the demands of the future, the State embarked on its now nationally famous Green Acres program. We have made excellent progress in carrying out the mandate of the voters in this far-reaching program. A total of 67,765 acres has been purchased or approved for purchase. Of this amount, 58,513 acres are being set aside under the State program and 9,252 by local jurisdictions. In all, \$33,749,462 has been appropriated for Green Acres purchases.

The Green Acres program is providing us with the open space and recreational lands which are so vital for our future genera-

tions. It is my hope that we no longer shall be forced to turn away thousands of people as we did at State beaches last year because of the tremendous demand placed on these facilities. On this point, I should like to note that negotiations are being completed to acquire an additional 450 acres from the Army on Sandy Hook. This will complete the land acquisition for what will eventually be one of the finest public beaches on the Atlantic coast.

One of the most exciting projects comes as part of the Green Acres program and with special significance in our birthday year—Liberty Park in Jersey City facing the Statue of Liberty. The acquisition and development of Liberty Park, now being planned by the Department of Conservation and Economic Development, will provide a proper setting for this national shrine.

We plan to make 1964 a memorable year for the outdoor Jerseyman. Among many other activities, 1,000 campsites will be developed in New Jersey parks and forests. This will almost triple the number presently available to campers. This is in accord with the philosophy of developing present resources for today while, at the same time, acquiring new resources for tomorrow.

MEADOWLANDS—A REPORT

My Message last year outlined the steps that were being taken by the State and various Federal and local agencies to prepare for the development and utilization of the meadowlands. These programs are continuing.

Among the accomplishments of the past year, the State, together with the 13 communities in the Meadowlands Regional Development Agency, has filed a request for Federal funds to share the cost of a master plan and transportation plan for the meadows.

A leveling survey by the United States Coast and Geodetic Service is rapidly nearing completion and, hopefully, will help solve some of the problems concerning the troublesome question of the State's riparian interest in the title to much of the meadowlands. A comprehensive engineering and reclamation program keyed to these areas is also under study by the United States Corps of Engineers.

Because of the divergent groups which are now pursuing their individual responsibilities in regard to meadowland development, there has arisen the possible danger of overlapping and duplication of efforts. To assist in the coordination of this overall work, the Commission to Study Meadowlands Development has been constituted. This Commission will work closely with the Meadowlands Regional Development Agency and the State in bringing to fruition a workable and practical plan designed to benefit all of New Jersey's citizens.

THE BUSINESS OF GOVERNMENT

LAW ENFORCEMENT

The level of law enforcement in New Jersey remains high and we are giving constant and close attention to the problems presented by our steadily expanding and mobile population. Manpower problems exist in police forces, both on the State and local levels. Consideration is being given by this administration to a program to permit payment for overtime work by police, particularly in urban centers, where severe problems of law enforcement, such as in large housing projects, have come to exist. The need also remains to revise the State Police's pension system in order to give added stability to the future of the members of this dedicated law enforcement arm.

A close liaison is maintained by the Attorney General with Federal law enforcement officials and with prosecutors and chiefs of police. It is sustained by periodic meetings among these officials and by the exchange of useful information. There is constant surveillance of known hoodlums and racketeers living in New Jersey.

Experience with law enforcement problems has only confirmed the urgent necessity for prompt approval of measures needed by our police officials, both State and local, in their continuing fight for more effective law enforcement. Last year I requested the passage of a mandatory police training program. I again make this request. Competent police work in this day and age must be founded upon adequate training. I again urge legislative action

to require a uniform system of crime reporting and to permit essential evidence to be obtained from a witness, by court order in proper cases, through a grant of witness immunity.

Recent decisions of the United States Supreme Court have created an urgent need for clarification of our laws pertaining to arrest, detention and search. I have directed the Attorney General to review this entire subject. Any recommendations this study develops will be submitted to you.

The tragic assassination of President Kennedy emphasized the need for reconsideration of the restrictions that should be imposed on people who buy guns. The traditional right to bear arms never was intended as a license to bear them irresponsibly. It is essential that our laws be updated to provide maximum protection to the public. Bills to accomplish this are being prepared by the Attorney General's Office with the assistance of the county prosecutors.

GROWTH'S DEMANDS ON GOVERNMENT

Growth and progress; the first is inevitable, the second we must seek. In every area of State operations, the pressures of growth intensify the need for quick, responsive legislative action if existing programs are to remain capable of promoting or regulating orderly development.

HEALTH NEEDS

In the area of health, increased population means increased danger of air and water pollution as well as the possibility of weakened health standards.

Last year, a series of bills to strengthen the Department of Health's ability to cope with the problems of pollution and to strengthen its regulatory powers in the food and drug area were before you. They included proposals for regulating the installation of new sanitary disposal systems, for requiring marine toilet facilities, and for amending existing regulatory statutes. If the State is to meet its responsibility for establishing and maintaining minimum health standards for the protection of the public, it must be granted these essential tools of enforcement. These proposals will be reintroduced. They deserve your support.

LABOR NEEDS

In the area of labor, we cannot expect to satisfy the demands of a growing economy by ignoring the basic requirements which should be extended to all workers as a matter of right and necessity in this day and age. The State has had minimum wage protection for women and children for more than 50 years. Yet, for some unexplained reason, we balk at expanding this concept of fundamental justice to male employees. I urge that you promptly enact a meaningful \$1.25 per hour minimum wage bill without the almost universal exclusions heretofore proposed in the Senate.

I would also bring to your attention once again a proposal which I made last year for the enactment of a long overdue labor relations law providing effective machinery for the swift and peaceful settlement of labor-management disputes. This merits your immediate consideration.

Similarly, the proposals which have been before you on numerous occasions in the past for a revision of the workmen's compensation program and the passage of the worker health and safety legislation demand your consideration and your support.

MOTOR VEHICLES

In the field of motor vehicles, the relentless expansion of automotive activity can only serve to underline the need for prompt and responsible action. In New Jersey there are now more than 3 million licensed drivers and over 2,700,000 registered vehicles. Neither the administrative nor the law enforcement aspects in this area can be maintained at the level of efficiency which the public demands and deserves without the enactment of the revisions which have been sought for the past several years. I have already discussed the necessity for the "driving while impaired" and "implied consent" legislation. In addition to these proposals, immediate consideration should be given to the proposed revision of lighting and brake requirements for commercial vehicles. Also, the interstate compacts relating to vehicle equipment safety and to drivers' licenses will come before you again for consideration.

Both of these compacts have been adopted in many of our sister states and they warrant your careful attention.

YOUTHFUL DRINKING—A NEED TO PERSIST

While we have met painful rebuff in our efforts to persuade the government of the State of New York to bring about a minimum drinking age that conforms to that of the rest of the nation, this administration intends to continue its efforts. The rewards of our success will be measured in terms of young lives and we shall continue the moral pressure to bring about this change.

CONSUMER PROTECTION

Under the supervision of the Board of Public Utility Commissioners, the utilities of this State initiated rate reductions, refunds and other tariff revisions which resulted in consumer savings of \$6,200,000. As offset by rate increases granted in the sum of \$1,100,000, the State's utility consumers accordingly were saved over \$5,100,000 in 1963.

One of New Jersey's larger electric companies announced that it is about to construct a new \$68 million nuclear generating plant in Ocean County. Designed to reach an ultimate capacity of 600,000 kilowatts, this will be the largest privately owned atomic plant in the world when it is completed in 1967.

This installation will be a sizable addition to the generating capacity of the State. Last year, the major New Jersey electric utilities united with electric companies in Pennsylvania for construction of the "Keystone" project, to consist of large-scale, mine-mouth generating stations and an ultra high voltage transmission system for New Jersey. Already in construction is the hydro-electric "pumped storage" generating station at Yards Creek, which is part of the Tocks Island Development along the upper Delaware River. This extensive development of electric generating capacity will make available to present and future consumers—residential, commercial and industrial—an abundant supply of energy at reasonable rates and should prove particularly valuable in our attempts to attract new industry into the State.

During the past several years, explosions attributable to leaks from gas mains and distribution pipes have caused a number of fatalities, serious personal injuries and extensive property damage throughout the State. The Board has conferred continually with the utilities involved and has instituted two formal investigations with respect to two gas companies in whose territory many of these explosions have taken place. Out of these conferences and investigations, the Board has developed numerous recommendations for improvement of inspections and other safety measures to be taken by the gas distributing companies.

The Board has found, however, that a substantial number of such explosions have been caused by accidental damage done to gas mains by contractors in the course of excavation work. For that reason, the Board requested the passage of a bill to require such contractors to notify the gas utilities whenever they begin excavation within 200 feet of a gas line and to again notify the utility if and when any damage is done to the gas line. As A-301, this bill was passed by the Assembly, but was not reported out of committee in the Senate. It is respectfully urged that this bill be introduced and passed by the 1964 Legislature.

MILK

This administration has undertaken a searching review of the role of the State government in the distribution of milk. Many millions of dollars have been saved for the consumer thus far, without creating chaotic competitive conditions. Following the enactment of the "Emergency Milk Control Law of 1962," the Department of Agriculture initiated two major surveys, one a study by a management consulting firm of certain industry costs; and the other, a study by a committee of leading milk economists. The committee recommended a transitional period of price control in New Jersey as a first step towards a gradual readjustment of the laws and regulations affecting the milk industry. It was the committee's conclusion that chaotic conditions would occur in the industry in the event there was an immediate lifting of price control rather than a gradual readjustment.

Following the public distribution of the results of these surveys, hearings were conducted by the Office of Milk Industry for the purpose of determining a future milk marketing program. Testimony at these hearings substantially supported the recommendation for a transitional period. Hearings are now being conducted by the Office of Milk Industry to establish the minimum prices to be effective during the period of transition. I anticipate that the minimum prices so established will preserve for the consumer the benefits of fair competition while extending to the industry a measure of price stability during this period of adjustment.

OF LAWS AND LAWMAKERS

Both of the State's major political parties have publicly recognized the desirability of enacting conflict of interest legislation which would clearly establish both for governmental personnel and the general public a standard against which the conduct of our public officials and employees could be measured. The proposal of the legislative commission which studied this subject some years ago has been regularly passed on a bipartisan basis by the State Assembly. With almost as much regularity, the Senate has passed its own modified version of this measure. To date, there has been no indication of agreement between the two Houses.

During the past session a new approach to this subject has been proposed by Senator Waddington. His plan, unlike those which have preceded it, does not purport to establish any fixed standard of conduct. Nor does it rely upon the sanction of the criminal law for its efficacy. The Senator's proposal, while not specifying what constitutes permissible conduct, would require executive and legislative personnel to disclose those activities in which they are privately engaged to the extent that such activities also relate to the operations of government. This bill leaves to the public the decision whether the actions of these governmental officials are sound and desirable. The Legislature should give serious attention to this proposal which may represent the means to the long-awaited agreement on a conflict of interest measure.

In this opening meeting of the Legislature, it also seems appropriate for me once again to suggest consideration of the

proposals for registration of lobbyists. In a representative government, we should expect and encourage the general public to present their views to their public representatives. In this regard, most of the individuals who engage in lobbying activities in the State Capitol perform a valid and often useful service, not only for their employers, but for the public itself. The general public and its representatives, however, should be able to assess and evaluate the extent to which organized interests are seeking to impress their viewpoints and attitudes upon governmental activities. I am certain that a properly prepared lobby control act can balance effectively the right of the public to present its views as against the equally important right of the public to know which of its members have chosen to exercise such a right on an organized and professional basis.

One final aspect of legislative activity requires your serious attention. During recent years, it has been necessary to attempt most formal law revision by means of individual legislative commissions. It has been necessary to resort to this device because the Law Revision Commission has not had adequate staff to take responsibility for time consuming law revision work. In most instances, the use of individual law revision commissions has not worked very satisfactorily. Some commissions which were established four and six years ago still are working on revision projects which are in various stages of completion.

While I do not believe that the entire responsibility for law revision can or should be vested in the Law Revision Commission, certainly this Commission should be strengthened to the point where it can shoulder a greater part of this work. I would be willing to give sympathetic consideration to any sincere efforts on the part of the Legislature to strengthen the law revision aspects of this Commission. One of the important subjects, which could come within the purview of such a general law revision instrument, would be the modernization of our election laws.

So, too, revisions of several parts of the statutes have been prepared or are now in preparation by some of the Departments. The Department of Law and Public Safety is preparing to submit revisions concerning the Weights and Measures Law, cemetery

corporations and the Bureau of Securities. The Department of Education has under consideration the Revision of Title 18.

In all of these areas the basic law has not been revised in many years and should be modernized.

UNFINISHED BUSINESS

CHAPTER 51

We can recall that Chapter 51, Laws of 1960, was adopted after extensive study to provide, among other things, a workable method for assessing business personal property and to avert the threat of "tax lightning." The enactment followed the Supreme Court's ruling that differences between existing tax practices and existing tax law no longer could be ignored. Guidelines and stability of administrative procedures, such as those provided by this law, are indispensable if New Jersey is to achieve order and uniformity in real and personal property tax administration.

During three postponements of its effective date, no alternative has been developed. A survey of personal property informational rates will be ready shortly and I commend it to the Legislature's consideration.

As long as the personal property tax is retained in this State, New Jersey will need—in the interest of equity—to accept a single approach to the taxation of business personal property with the adjustments that may result.

I am informed that there is substantial business opinion that Chapter 51 is preferable to continuation of the uncertainties under present law. Therefore, I recommend that Chapter 51 be permitted to go into effect for the tax year 1965.

With the possibility of Chapter 51 going into effect with the 1965 tax year, there arises the necessity of revising the limitations placed upon the indebtedness that may be incurred by any municipality. The Division of Local Government in the Department of the Treasury is meeting with representatives of the municipalities with a view to working out a formula which will not unduly hinder the essential expansion and improvement of our

municipalities while preserving the financial stability of these local units. A proposal to amend these debt limitations will be submitted to you during the forthcoming session.

THE CONSTITUTIONAL AMENDMENTS

Of the four amendments to the State Constitution approved by the people in November, two already have been implemented by the Legislature. There remains the necessity of carrying into effect the farm land assessment proposal which is so very important to the preservation of family farming in New Jersey. I have reconstituted the Governor's Committee on the Farm Land Assessment problem which will be ready to work with you in this respect. Similarly, there is a sense of urgency in taking final action on the constitutional change relating to residency requirements and voter qualifications in State and presidential elections. Inasmuch as this is a presidential election year, it is vital that no qualified person be deprived of the opportunity to vote for the candidate of his choice.

CONCLUSION

This year, by the will of the people, you and I enter upon a new relationship, with members of the Republican Party in the majority in both Houses of the Legislature. As I see it, this casts more serious responsibilities upon each of us. It invokes more than the ordinary amount of bipartisan effort. It teaches new lessons of humility and it presents new temptations for the exercise of partisan power. But in the final analysis, nothing has changed in the nature and extent of our mutual obligations to the people whom we serve. They expect of us not partisanship, but joint effort.

I embrace the challenge of this new relationship and will join with you completely and wholeheartedly to serve the common good in a frame of bipartisan reference. Political success and failure can fluctuate quite frequently in this State, for the independence of the people identifies political responsibility with the rendering of faithful service, not to party but to the public.

We will all be called to account for the stewardship we render in this governmental year, and I hope that we can look back upon it as a year of achievement and success, not for members of one or the other political party, but for the people of New Jersey.

COMMISSION

Law Revision and Legislative Services

Dumont, Sandman, Ozzard, Lynch, Grossi, Ridolfi

Mr. Sandman recognized former Senator and Highway Commissioner E. Donald Sterner and extended to him the privileges of the floor.

Mr. Ozzard offered the following resolution, which was read and adopted:

Resolved, That when the Senate adjourns, it be to meet on Thursday morning at 10 o'clock, and that when it then adjourn, it be to meet on Saturday morning at 10 o'clock, and that when it then adjourn it be to meet on Monday afternoon at 2 o'clock.

On motion of Mr. Ozzard the Senate then adjourned.

THURSDAY, January 16, 1964.

In the absence of the President, Mr. Ridolfi took the Chair as President *pro tempore*.

Under the direction of the President *pro tempore*, the Secretary called the Senate, when the following Senator appeared and answered the call:

Mr. Ridolfi—1.

As there was no quorum present, the Senate then adjourned.

SATURDAY, January 18, 1964.

In the absence of the President, Mr. Ridolfi took the Chair as President *pro tempore*.

Under the direction of the President *pro tempore*, the Secretary called the Senate, when the following Senator appeared and answered the call:

Mr. Ridolfi—1.

As there was no quorum present, the Senate then adjourned.

MONDAY, January 20, 1964.

At 2:00 o'clock P. M. the Senate met.

The session was opened with prayer by the Reverend W. Neal Raver.

Under the direction of the President, the Secretary called the Senate, when the following Senators appeared and answered the call:

Messrs. Bowkley, Deamer, Dumont, Farley, Forsythe, Grossi, Harper, Hillery, Hunt, Kelly, Lynch, Mathis, Ozzard, Ridolfi, Sandman (President), Sarcone, Scholz, Stamler, Stout, Waddington, Weber—21.

On motion of Mr. Ozzard the Journal of the previous session was approved and its further reading was dispensed with.

Messrs. Dumont, Waddington and Bowkley, on leave, introduced

Senate Bill No. 3, entitled "An act to amend and supplement the 'State School Aid Act of 1954,' approved June 20, 1954 (P. L. 1954, c. 85),"

Which was read for the first time by its title, ordered to have a second reading, and referred to the Committee on Education.

Messrs. Dumont, Waddington and Bowkley, on leave, introduced

Senate Bill No. 4, entitled "An act to amend and supplement the 'School Building Aid Act,' approved March 20, 1956 (P. L. 1956, c. 8), repealing section 9 thereof,"

Which was read for the first time by its title, ordered to have a second reading, and referred to the Committee on Education.

Messrs. Dumont and Bowkley, on leave, introduced

Senate Bill No. 5, entitled "An act to amend and supplement the 'Corporation Business Tax Act (1945),' approved April 13, 1945 (P. L. 1945, c. 162),"

Which was read for the first time by its title, ordered to have a second reading, and referred to the Committee on Appropriations.

Messrs. Dumont and Bowkley, on leave, introduced

Senate Bill No. 6, entitled "An act authorizing State aid to counties and municipalities for the construction, reconstruction, grading, drainage, maintenance, lighting and repair of county and municipal roads and supplementing subtitle 4 of Title 27 of the Revised Statutes,"

Which was read for the first time by its title, ordered to have a second reading, and referred to the Committee on Highways, Transportation and Public Utilities.

Messrs. Dumont and Bowkley, on leave, introduced

Senate Bill No. 7, entitled "An act providing for the allocation annually of \$25,000,000.00 for current operating expenses and capital improvements of certain institutions of higher learning within the State in certain cases and providing for the apportionment and use thereof,"

Which was read for the first time by its title, ordered to have a second reading, and referred to the Committee on Education.

Messrs. Dumont and Bowkley, on leave, introduced

Senate Bill No. 8, entitled "An act concerning taxation, exempting inventories used in business and providing for the distribution of certain replacement revenues therefor, amending chapter 51 of the laws of 1960 and sections 54:4-11, 54:4-12, 54:3-17, and 54:4-1, of the Revised Statutes,"

Which was read for the first time by its title, ordered to have a second reading, and referred to the Committee on Business Affairs.

Messrs. Dumont, Waddington and Bowkley, on leave, introduced

Senate Bill No. 9, entitled "An act to impose and collect a retail sales tax, to provide funds for relief of real estate taxes through State aid for education and for other purposes,"

Which was read for the first time by its title, ordered to have a second reading, and referred to the Committee on Judiciary.

Mr. Dumont, on leave, introduced

Senate Bill No. 10, entitled "An act concerning County Courts, amending section 2A:3-13 of the New Jersey Statutes and section 1 of chapter 3 of the laws of 1955, and repealing sections 2A:3-16, 2A:3-18, 2A:3-20 and 2A:3-21, of the New Jersey Statutes and chapter 222 of the laws of 1953, section 2 of chapter 17 of the laws of 1955 and chapters 36 and 203 of the laws of 1956,"

Which was read for the first time by its title, ordered to have a second reading, and referred to the Committee on Judiciary.

Messrs. Dumont and Bowkley, on leave, introduced

Senate Bill No. 11, entitled "An act relating to the re-organization of certain executive and administrative offices, departments, and instrumentalities of the State Government; and establishing and concerning a Department of Public Transportation as a principal department in the executive branch of the State Government,"

Which was read for the first time by its title, ordered to have a second reading, and referred to the Committee on State, County and Municipal Government.

Messrs. Dumont, Hillery, Stamler and Kelly, on leave, introduced

Senate Bill No. 12, entitled "An act to supplement 'An act creating the New Jersey Racing Commission and defining its powers and duties; providing for the granting of permits and licenses for the operation of race meetings whereat the running, steeplechase racing or harness racing of horses only may be conducted; providing for the licensing of concessionaires and operators and their employees; regulating the system of pari-mutuel betting and fixing the license fees, taxes and revenues imposed hereunder and fixing penalties for violations of the provisions of this act,' approved March 18, 1940 (P. L. 1940, c. 17), as said Title was amended by chapter 137 of the laws of 1941,"

Which was read for the first time by its title, ordered to have a second reading, and referred to the Committee on Revision and Amendment of Laws.

Messrs. Stamler, Hillery and Dumont, on leave, introduced

Senate Bill No. 13, entitled "An act providing for the transfer of the Division of the New Jersey Racing Commission from the Department of the Treasury to the Department of Law and Public Safety, amending and supplementing the 'Department of Law and Public Safety Act of 1948,' approved October 15, 1948 (P. L. 1948, c. 439) and amending sections 3 and 46 and repealing section 29 of the 'Department of the Treasury Act of 1948,' approved May 28, 1948 (P. L. 1948, c. 92),"

Which was read for the first time by its title, ordered to have a second reading, and referred to the Committee on Revision and Amendment of Laws.

Mr. Ozzard, on leave, introduced

Senate Bill No. 14, entitled "An act concerning inspections of motor vehicles, providing for the establishment of official inspection repair stations, and providing penalties for violations,"

The following message was received from the General Assembly by the hands of its Clerk.

STATE OF NEW JERSEY,

GENERAL ASSEMBLY CHAMBER,

Mr. President:

February 3, 1964. }

I am directed by the General Assembly to inform the Senate that the General Assembly has concurred in the following Concurrent Resolution:

Be It Resolved by the Senate of the State of New Jersey (the General Assembly concurring):

That at 3:00 P. M. both Houses of the Legislature meet in joint session for the purpose of receiving the Annual Budget Message of His Excellency Richard J. Hughes, Governor of the State of New Jersey, which will be delivered in person.

PAUL BORUTA,
Clerk of the General Assembly.

Mr. Ozzard offered the following resolution which was read and adopted:

Resolved; that the Senate do now recess and proceed to the Assembly Chamber for the purpose of receiving the Annual Budget Message of the Governor.

Mr. Ozzard moved that the Annual Budget Message of the Governor be spread in full upon the Senate Journal.

BUDGET MESSAGE

Mr. President, Mr. Speaker, Members of the Senate and General Assembly:

I present to you today a budget that is balanced without the need for new or increased taxes. It meets the requirements of State operations at their present level. As you will note, it is one of strict economy.

It makes provision for necessary improvement of programs within the present framework of General State Operations; for the rising needs of our State aid programs; for normal merit increments to State employees and for other essentially mandatory increases which are really beyond the practical control of any Governor and account for more than 75 per cent of the increase of this budget over last year's; for the continuation of our traditional pattern of limited capital construction, principally highways, augmented by planning funds for major capital needs in welfare and education, whether or not those needs are to be accomplished in the future by bond issues or taxes.

For lack of money, this budget does not meet the broader needs of this State that have come to be recognized by most people. This balanced budget does not make provision for the institutions this growing State has been unable to build, for the college and university facilities which we must have if we are to meet our obligation to the youth and future of New Jersey, for the expanded highway program upon which our economic destiny depends, and for the increased State aid to education and local roads that would ease the ever-rising financial burden on the local property taxpayer.

Two years ago, in my Inaugural Address, I spoke of "government unafraid to act in the people's service." If we are to provide such government, then we must move to meet these yet unfulfilled needs. In this Message, I will propose means by which we

can undertake these solutions. Within this Legislature there is a broad recognition of the requirements of our State and, I would hope, a desire that we meet those requirements. And this recognition is not new.

In 1959 the Republican Party discarded its traditional pledge against new taxes in order to be free to act.

In 1961 the Democratic Party followed suit.

Thus, neither party is bound by the pledges of the past to neglect the needs of the future.

If we avoid the pitfalls of partisanship, I am convinced that we can reach the financial decisions that will provide adequately for the future of New Jersey and assure equity to the taxpayers who elect us. If we allow political maneuver to hobble our efforts, we fail in our public trust. I stand ready to work with you to fulfill that trust. Indeed, I am bound in conscience to do so.

In my Inaugural Message I made it quite clear that I was not tied to a rigid tax policy, except to continue every economy in government compatible with our obligations to the future. I foreswore any temptation to shirk my responsibility to the building of a modern and progressive State. And I pledged that my administration would do its full duty, measuring it carefully and providing for its cost. While campaigning for Governor, I had made it clear that I would not oppose a broad-based tax if there was no alternative to raising required funds. I did propose an alternative in my Message of January, 1963, entitled "A Program for the 1960s." It was submitted for the judgment of the people at the polls. I fought long and hard to convince my fellow citizens that by this means the State's needs could be met for several years and new taxes avoided in the interval. In their wisdom, the people rejected this alternative. I have no quarrel with this verdict, because I have an abiding confidence in the people. But I am convinced that this rejection was not because the needs were thought unreal, but because of the method proposed to meet them. This view is supported by the very fact that members of the majority party in this Legislature have proposed bills to levy a broad-based tax, or to provide a bond issue to partially meet these needs.

And this is where we are today: neither party bound to the past, both parties obligated to the future. Before speaking of that future, let me discuss with you what might be called the house-keeping features of the budget of New Jersey.

REVENUES

We are enjoying generally favorable revenue collections during the current fiscal year. Funds derived from the newly increased inheritance tax have exceeded original estimates by a rate of approximately \$9 million annually. We are enjoying revenue overruns in other areas. The yield from inheritance and motor fuels taxes, and a variety of fees, should result in earnings beyond our anticipation during the current fiscal year of some \$12.5 million after provision for certain underruns in other sources. To those overruns can be added the surplus of \$7 million originally anticipated to be on hand on June 30 next and expected lapses on that date of approximately \$4 million, or a total of \$23.5 million before deducting \$3.6 million for supplemental appropriations recommended in this Message for the current fiscal year. The result will be an estimated surplus of \$19.9 million on July 1, 1964.

Revenue estimates for 1964-65 amounting to \$574 million have been developed on the foundation of past and current collections. They have been modified by the possibility of a revenue loss which may result from the recent disclosure by the Advisory Committee to the Surgeon General of the United States concerning the damaging effect of cigarette smoking. Therefore, we have reflected a reduction of \$2 million, under our original estimate of \$71.2 million, from this source in the current fiscal year. We believe the same amount can be expected next year, although there may be an area of uncertainty for some time to come.

Thus, our total resources for 1964-65 equal \$594 million.

BUDGET REQUESTS

Formal requests of over \$752.6 million for the fiscal year 1964-65 were presented to the State Budget Director by department heads who presumably had taken very seriously my repeated

requests to cut spending to the greatest possible extent. Nevertheless, I have trimmed these requests by \$162.7 million in arriving at final recommendations of \$589.9 million.

In the field of General State Operations, I cut \$37 million from the amounts requested. The State aid requests were reduced by \$9.1 million. Capital construction requests, aside from those for mandatory debt service, were cut most severely. For instance, I had to eliminate entirely the construction item of \$38 million for the State University, many millions more requested and needed for construction at institutions and State colleges, and \$36 million from the amount requested for needed highway construction.

I cut most of these construction items reluctantly, and only because of lack of financial resources to meet the requests, however valid. These and other needs continue and will be dealt with later in this Message.

THE BUDGET IN BRIEF

Estimated Surplus, July 1, 1964 (after providing for supplementals)	\$19,857,242
Estimated Revenues for 1964-65	574,006,537
Total Resources for 1964-65	\$593,863,779
<i>Recommendations</i>	
General State Operations	\$268,793,546
State Aid	256,029,836
Capital Construction	65,102,638
Total Recommendations	\$589,926,020
Estimated Surplus, June 30, 1965	\$3,937,759

EDUCATION

The largest increase in this budget goes for education. It is \$15.4 million or 7 per cent more than the current budget, bringing State support of all educational programs to \$245.3 million, which is 41.6 per cent of the total budget for 1964-65. It includes an increase in General State Operations for education of \$6.3 million of which \$5.1 million is for higher education. State aid for education will increase by \$10.4 million of which \$6.3 million is for mandated grants-in-aid to school districts, and \$4.1 million is for the required costs of teachers' pensions, social security and

insurance benefits. These increases total \$16.7 million and are offset by a \$1.3 million decrease in capital spending for educational purposes.

I pointed out in my Budget Message of last year that New Jersey historically has sent a far greater proportion of its high school graduates to colleges outside the State than have other states. However, enrollment pressures in other states make it necessary for them, more and more, to curtail the numbers they can take from New Jersey. The result is that it is becoming, more and more, our burden to provide educational opportunities for worthy New Jersey students. And this is as it should be. Next Fall, we expect to enroll 104,887 students, both full and part-time or 14,097 more than in the present year. On a basis equated to full time, i.e. 16 credit hours, per semester, the number to be enrolled in the Fall will total 43,296, which is 3,909 or 9 per cent more than the current year.

Following well-established standards, this budget continues to recognize a faculty-student ratio of 1 to 16 at the State Colleges, and of 1 to 12.6 at the State University. To maintain these ratios in relation to the increased student enrollments next year, 296 additional faculty positions are recommended.

The State Board of Education recently reviewed the status of faculty salaries in the publicly-supported institutions of higher education in this State. It found that faculty salary ranges compare favorably with institutions of similar size and purpose in other states. However, to keep pace, it reports that the present salary ranges do not provide sufficient latitude to recognize appropriately those faculty members whose teaching service is notably exceptional. The State Board suggests that the present six-step salary ranges for Professors and Associate Professors should be extended to 10-step ranges. The four added discretionary steps would permit special consideration to those faculty members who have distinguished themselves in the area of classroom teaching service in a manner distinctly superior to faculty members on the whole. I am informed that the cost of the suggested 10-step ranges for outstanding Professors and Associate Professors can be absorbed within the amounts recommended for the University

and the State Colleges. I am recommending that this course be followed.

The State Board has also suggested that a sabbatical leave program be adopted which would give leaves of absences to outstanding faculty members to do outside research and study while on half salary to be borne by the State. This is a practice currently in vogue at many institutions of higher learning. Whatever its virtues, I am not recommending it at this time because we cannot afford it.

STATE AID TO EDUCATION

Apart from the increases in this budget which are required by statute for grants-in-aid to school districts, there are two particular areas of aid to education which this budget accommodates in relatively significant amounts.

The first of these is our County College Program which has received a financial boost by a recent act of Congress. Federal funds of \$1.3 million will become available in the current fiscal year and in each of the next two years for 40 per cent of the cost of construction of county colleges. Under our County College law, the State will provide matching construction funds to counties for such colleges.

We should not lose this opportunity to obtain such Federal aid for our counties which reduces the respective shares of county and State from 50-50, originally required for construction under the County College act, to 30-30 of the cost. Because two years of these Federal funds, or \$2.6 million, will be available on July 1, next, I am recommending appropriations of new State funds in the amount of \$1.7 million which, together with \$200,000 of unspent current appropriations made for this purpose, will make \$1.9 million of State funds available to be matched by county funds in like amount. Therefore, together with State, county and Federal funds, a sum of \$6.4 million will be available to advance the County College Construction Program which is now developing in 14 of our counties.

The legislation authorizing the County College Program was based on evidence showing that this type of college is needed to

enhance the opportunities for post-high school education of our youth. It is intended to provide, at minimum expense, either a two-year transfer program or a two-year terminal program for employment in technical and semi-professional fields. At the same time, it can provide facilities for adult retraining programs and other adult education activities. We must take advantage of the Federal aid which will make these ends attainable.

The second aid-to-education area which will receive a significant lift from this budget is that of our local libraries. I am recommending that the sum of \$600,000 now appropriated for that purpose be increased to \$800,000 as a step toward the provision of substantially larger grants to meet their future needs. More and more, the community library serves as a foundation for local educational advance.

One of the facets of the request for State aid to education covered the State's share required for vocational education, if we were to take full advantage of funds available under the new Federal aid to vocational education act. The amount requested was \$2.2 million which would be matched by Federal moneys. The intent of the Federal act is to encourage States and localities to expand vocational opportunities for secondary school youth, out-of-school youth preparing to enter the labor market, and for those already in the labor market who need to upgrade skills or learn new ones.

Since there is no basic statute on the books which would set up State aid programs for this purpose, I have recommended no funds in this budget to make it possible to acquire these Federal funds. Federal money could become available should local districts include appropriations in their budgets as the matching source required for this program.

Should the Legislature decide that the State should enrich its present State aid program for this purpose, I would be more than pleased to consider the approval of such legislation; provided, however, that revenue measures accompany legislation making an appropriation for this purpose.

STATE AID FOR WELFARE

Aid for welfare is increased by \$8.7 million and constitutes the second largest increase in the budget for 1964-65. In addition, I am recommending supplemental appropriations for 1963-64 of \$2.1 million for additional costs that developed this year in our welfare programs, particularly Assistance for Dependent Children and aid to county mental hospitals. The total sum recommended for the State's public assistance program is \$37.9 million which is the State's share of the combined Federal, State and county expenditures of \$125 million for public assistance in 1964-65. Some 177,000 persons will be aided with those funds, a rise from 162,000 in this year.

Although these expenditures and the number of persons to be aided appear staggering, the fact is that of the nine states in the New England-Middle Atlantic area, New Jersey's recipient rate in October, 1963, ranked fifth in medical assistance for the aged, sixth in dependent children assistance, eighth in disability assistance and ninth in old age assistance. The increases in costs for public assistance, next year, are directly attributable to three principal factors: (1) Increased costs of nursing home care and of hospitalization; (2) an increase in standards to recognize more adequately the basic needs of the welfare recipients, and (3) an increase in the case load.

INSTITUTIONS AND AGENCIES

I am recommending an increase of \$5.3 million for operations of our institutions and agencies.

Of this sum, \$3.2 million is for mental retardation. With these additional funds, we will plan a four-front attack on this tragic problem.

By late Fall, the first severely retarded patients, five years of age and over, of both sexes, will be admitted to the new Woodbridge State School. By the end of June, 1965, 500 patients should be in residence. Admission will be primarily from the waiting list and by transfer from other State institutions for the

severely retarded. This fine and long-needed new facility will require 302 positions and \$1.2 million for its operation in 1964-65.

Second, I am recommending \$1 million to purchase care in private facilities for about 300 severely retarded on the waiting list. These persons are now eligible for admission to a State facility and require institutional care which will not be available in the State's facilities next year. This stopgap measure is designed to meet a human tragedy which is almost beyond belief.

Third, at existing institutions I propose to strengthen medical services and patient care, by adding 196 new positions. A recent survey demonstrated that the number of severely retarded in New Jersey's residential populations has increased to 52.5 per cent. Such persons are harder to care for, need more training, have more physical disabilities and place a greater strain on the staff. Concurrent with staff additions, all these institutions have made, and will continue to make, improvements in all aspects of patient care.

Fourth, day care funds are increased to carry on existing services in two counties and to extend the program in areas where definite interest has developed. Forty-six children are enrolled now and 109 youngsters are identified preliminarily as potential participants. The Centers serve those over age five who are not eligible for trainable or educable classes in the public schools or in sheltered workshops. These children are presently at home without any program available to them. This pilot service assists the family in its efforts to maintain the child at home by relieving the family from the burden of care of these children for some part of each day.

The future portends more services to more cases. Institutional expansion and modernization is in progress, the character of existing facilities and services is changing, case loads are rising. The State is attempting to provide sufficient and varied programs to train the retarded to the level of their capacity and to discharge our responsibilities effectively.

In our mental hospitals, we are pushing ahead on two fronts: medical-surgical and children's services.

There has been a developing need to strengthen the existing quality levels of surgical service, medical treatment, and convalescence. Toward these objectives, I have recommended 40 additional positions.

In response to demands upon the mental hospitals to increase admissions of children, a policy was adopted to establish units for a maximum of 75 children in each State hospital. These separated units accommodate children with mental and emotional handicaps. Until now, these units were staffed primarily to provide ward care only. I am recommending 50 additional positions for these units to provide increased ward care, permit more admissions, and to introduce specialized treatment services for these unfortunate children.

It is gratifying to report that mentally ill patients are spending shorter periods of time in our hospitals because of more efficient and effective methods of care and treatment. This is being accomplished despite a 31 per cent increase in the number of admissions to these institutions since 1959. The total number of hospitalized patients has decreased. Recruitment of professional staff and in-service training has improved. Our hospitals continue to enjoy accreditation by joint commission of the American Psychiatric Association and the American Medical Association and are approved for three years of psychiatric residency training.

Community mental health clinics assisted by State aid funds are providing more and more services to both adults and children with significant mental illnesses. These people otherwise would require care in a mental hospital.

On February 5, 1963, President John F. Kennedy delivered an historic appeal to the American people calling for an all-out program to combat mental illness. In all respects, the President's proposals gave new impetus and increased depth to New Jersey's mental health programs. Available Federal funds are now being utilized to plan comprehensive programs of service for the mentally ill. Our existing State hospitals are moving in this direction—making a medical facility available to large groups of the population and providing a continuum of services including in-

patient, outpatient, day care, foster home, consultation and referral facilities.

The budget recommends 23 positions at the Rahway Prison to operate the new laundry facility which is scheduled to begin operations during June, 1964. This consolidated laundry will serve the Woodbridge State School, Greystone Park State Hospital, Diagnostic Center, Menlo Park Soldiers Home, and North Jersey Training School. The budgets of these institutions include funds to cover the costs of processing their laundry. The Greystone Park laundry will be discontinued and the equipment relocated at other State-operated laundries. This will provide work opportunities to 168 inmates who are now dangerously idle. Our experience in operating regional laundries with inmates indicates the soundness of expanding the program to utilize maximum security inmates at the Rahway Prison to operate this facility. The project will also overcome the reduction in the availability of working patients in the mental hospitals and of minimum security inmates who can perform work assignments away from their institution.

Beginning next Fall, patients will be accepted in the new hospital-infirmiry and dormitory units of the Menlo Park Soldiers Home. This facility, whose capacity will increase from 80 to 250 beds, will serve non-ambulatory veterans. The new units require 62 positions which add \$191,888 to the State's fiscal requirements in 1965.

LAW AND PUBLIC SAFETY

I am asking for \$25.3 million to operate the Department of Law and Public Safety next year. That sum reflects an increase of \$1.9 million to cover a number of significant improvements in the services it renders.

DIVISION OF LAW

All of our State departments rely heavily upon the Division of Law for important legal advice and opinion which directly concern their constantly increasing everyday operations. This service is often delayed because of the heavy turnover in deputy attorneys general employed by this Division. To overcome this

problem, we should provide adequate salaries to induce these lawyers to stay for longer periods of time, so that their experience can be used to the fullest advantage. To accomplish this, I am asking for \$15,000 in special salary increases.

DIVISION OF STATE POLICE

Demands upon the Division of State Police for the many kinds of services it renders to the citizens and local governments of the State have continued to increase. Therefore, I have recommended 60 new Trooper positions and nine new positions for Division headquarters to enable the State Police to maintain its high standards of service. However, recruiting problems encountered over the past several years indicate that the 60 new Troopers probably could not be appointed for all of the budget year. Therefore, I have reduced the funds recommended for those positions for a half year. These funds, approximating \$230,000, can be readily identified and set aside until appointments are actually made.

POLICE TRAINING

I am recommending a special appropriation of \$25,000 to the Police Training Commission to establish a course in police administration at the State University. Such a program will go far toward the education of selected police officers in modern methods of law enforcement.

DIVISION OF MOTOR VEHICLES

My recommendation of \$11.3 million for the Division of Motor Vehicles includes \$314,172 to administer the recently enacted Motor Carriers Road Tax; \$150,000 for an expanded Courtesy Plate Program to yield new revenue of \$650,000 through the issuance of courtesy license plates with digits over the number "20"; \$208,152 for an across-the-board salary increment to the Inspector and Examiner personnel, in addition to any normal increments to which they may be entitled; and \$157,404 for 36 new positions to accommodate the increased workload in its variety of operations.

Traffic law violations and traffic accidents are increasing twice as fast as our driver population. The Division has just installed electronic equipment to process driver record and license information at high speed to aid in our attack upon driver irresponsibility.

To expedite automobiles through our inspection stations, I am recommending additional overtime of \$219,040 as a more practical and economical alternative to employing part-time Examiners. It will provide 6,000 additional lane hours for vehicle examination, an increase of 3.5 per cent over the present schedule and 16.5 per cent over last year. This plan is subject to change in the event that the Legislature revises the scope of the vehicle examination program.

DEPARTMENT OF THE TREASURY

Appropriations recommended for operation of the Department of the Treasury are \$12.1 million, or \$823,000 more than the current year. That increase includes \$326,692 for the maintenance of the new State buildings in the State House complex, all of which will be in operation next year; \$75,000 to conduct studies of personal property returns required under Chapter 51 of 1960; and \$143,415 for 31 new positions of which 21 are needed to process our expanding revenue collections.

I am recommending a significant change in the appropriation to the Racing Commission as the result of which the State should save \$61,860 in fees paid outside auditors. This comes about by eliminating the need for the continuous and concurrent audit of the pari-mutuel calculations at the several tracks. Instead, my recommendations would substitute spot-check audits at a cost of \$15,000.

DEPARTMENT OF STATE

Recommendations to operate the Department of State total \$701,000, which is \$80,000 more than current appropriations. This sum will cover the cost of the expanded activities in the Office of the Secretary in processing the new system of corporate annual reports. The fees charged under the new legislation concerning corporate reporting have produced over \$1 million in additional revenues.

The increase for this Department also includes \$35,000 for the Division of the Aging for three new positions and additional costs for survey and demonstration projects.

I am also asking for supplemental appropriations of \$70,000 to provide additional operating costs necessary to process the new corporate annual reporting system during the current year, and for additional election expenses resulting from the large number of referenda which had to be carried on the ballot during the last election.

DEPARTMENT OF AGRICULTURE

The amount recommended for the operation of this Department is \$1.8 million, or \$193,969 more than this year. The Department requested \$307,253 to establish an Agricultural Chemistry Program to which would be transferred the regulatory aspect of that function now carried on by the Agricultural Experiment Station. With the opening of the new Health-Agriculture Building and the Laboratory in which research for both departments will be conducted, the time is appropriate to transfer from the Experiment Station certain laboratory activities which should be conducted by the Department of Agriculture. The timetable for completing the new facility makes it inadvisable to transfer those activities during the next fiscal year. However, steps should be taken that year to prepare for the transition beginning July 1, 1965.

This budget contains \$100,000 for basic laboratory equipment. When augmented with a supplemental appropriation which I will recommend next year to complete this laboratory, all will be in readiness for the transfer of the regulation of commercial feed stuffs and fertilizers to this Department.

The Department also requested \$100,000 for the cost of a hog cholera eradication program. Since the cost of this program will be borne by fees derived from those who will benefit from it, I am recommending that if such a program is legislated, the law provide for the appropriation of fees to cover its cost.

DEPARTMENT OF HEALTH

Recommendations to operate this Department total \$4.3 million for an increase of \$477,255 over the current year. Additional sums are included for a variety of purposes such as moving costs into the new Health-Agriculture Building; the purchase of public health services by contract in various hospitals of the State; scientific equipment to be used in the Department's new Laboratory; and 28 new positions to be used in the improvement of the State's health programs.

Of special significance is the installation and operation of an air-monitoring system to cost \$108,696. Much concern has been expressed in almost every corner of the State about the unmitigated pollution of our air from a variety of locations and sources. To cope effectively with this problem will require adequate detection devices. It is time that the State took vigorous action to curb air pollution which is considered by many competent authorities to be a serious health hazard.

DEPARTMENT OF LABOR AND INDUSTRY

Appropriations totaling \$7.9 million, an increase of \$589,624, are recommended for this Department's operations. The bulk of this increase, or \$397,674, will make a total of \$3.2 million available to carry on the work of the Rehabilitation Commission. The active case load carried by this Commission continues to mount as more and more persons seek to restore themselves to useful lives through the services which the Commission extends. About one-half of the appropriations recommended to this agency come from Federal funds.

The Division of Labor, under legislation enacted within the last several years, has been given increased responsibilities in the areas of construction safety and wage and hour administration. I have recommended 16 new positions to carry out these activities and for the improvement of the Division's general operations.

There is no let-up in the mounting case load to be processed by the Division of Workmen's Compensation. But to keep pace with

that rise and accommodate the many claims from injured workmen, we must add staff to avoid injustice from delays in making necessary awards. Toward that end, and to maintain these courtrooms adequately, I am recommending six new positions.

DEPARTMENT OF CONSERVATION AND ECONOMIC
DEVELOPMENT

The total amount recommended to operate this Department for 1964-65 is \$10.4 million, or \$426,000 more than the current fiscal year. In my Annual Message to the Legislature, I pointed out the necessity for expanding our activities in the promotional area, with particular emphasis on world trade. This is a heavy responsibility upon the Department of Conservation and Economic Development, which upon my direction has established a Section on International Commerce. I am recommending a \$100,000 increase in the amount available for promotional expense. This accords with a growing bi-partisan recognition of the need for activity in reaching for world markets and in attracting new industry to the State of New Jersey.

Also recommended in this budget is an additional \$50,000 to increase State-wide co-operative governmental planning for sound growth and development of the State and its local units with the aid of Federal funds.

In another area of economic importance, I recommend additional sums to rehabilitate our shell fisheries industry by providing \$50,000 for replacement of a boat, now unseaworthy, to police the Delaware Bay oyster beds and for other enforcement purposes, and \$20,000 for additional shells to be planted on our natural seed oyster beds as a base on which seed oysters will "set." Heavier shell planting will help the industry to make a comeback.

STATE HIGHWAY DEPARTMENT

The Federal government, in providing substantial funds for the construction of the State highway system, limits its participation in the program to construction only. After the roads are built, the State must maintain them. This budget contains funds

to maintain increased road mileage which will be in use by the end of next year.

There is recommended the sum of \$6 million to cover the cost of our existing agreements for the continuation of commuter services. The Highway Commissioner requested that the amount of \$6 million currently provided for these services be increased by about \$2.5 million. Our revenue structure at the present time does not permit this increase. I am, therefore, recommending a continuation of the \$6 million program; but should the Legislature increase our revenues by a sufficient sum, I would be in favor of increasing the amount for this purpose to that requested by the Highway Commissioner. The deep public interest in the maintenance of commuter passenger services is well known, and as a matter of fact is a part of existing State policy.

I speak later in this message of the Highway Construction Program and needs.

DEPARTMENT OF DEFENSE

Total appropriations for the operation of the Department of Defense have been increased by \$171,000 over the present year. Much of this increase is for the Division of Civil Defense for which I am recommending an additional \$79,000 to enable it to maintain civil defense installations throughout the State. In addition, I am asking that certain charges heretofore borne by other departments on behalf of civil defense operations be transferred to the Division of Civil Defense, where matching Federal funds will carry half the cost.

The National Guard operations will need an additional \$78,000 which includes eight new positions, most of which heretofore have been financed entirely from Federal funds but which the Federal government has determined are now the responsibility of the State to the extent of 25 per cent of their cost. The Federal government will contribute 75 per cent and we have anticipated those revenues in this budget.

OTHER DEPARTMENTS AND AGENCIES

The Department of Civil Service requires more funds to service the continually increasing number of local governments which embraced Civil Service. Its workload mounts steadily and we must recognize the work which goes into the service it renders in administering the Civil Service laws. I am recommending an additional \$85,000 for this Department, including 10 new positions to help discharge its responsibilities.

I have also included adequate funds for the support of the Department of Public Utilities and of the Department of Banking and Insurance for their operations next year. As you may know, all of the costs to operate the Department of Banking and Insurance are offset by fees derived from the banking and insurance institutions in the State.

During the 1964 calendar year, New Jersey will be celebrating its 300th Birthday. Part of this celebration will take place at the New York World's Fair. Toward the request of \$481,000 which the New Jersey Tercentenary Commission has made for next year, I am recommending \$410,000. In addition, I am requesting an appropriation of \$60,000 to provide for supplemental needs in the current fiscal year.

INTER AND NON-DEPARTMENTAL ITEMS

During 1964-65, we will begin to meet in fuller measure the rent payments to our two pension funds for the Education, Health-Agriculture and Cultural Center Buildings which will be in operation for most or all of next year. Those payments total \$1.2 million, an increase of \$829,903 over the current year. However, some of these costs will be recovered from agencies supported from other than general State fund sources which will be housed in those buildings.

All in all, the net cost of rent for all State agencies supported from general State funds will be \$608,780 more than this year.

In addition to the sum of \$59.5 million recommended in the State Aid Section of the budget for teachers' pension costs, I am

also recommending \$19.9 million for similar costs covering State employees. This budget, then, requires \$79.5 million as the State's contribution for pension purposes. That amount is more than 13 per cent of the total budget.

The current appropriation for the State's share of the State Police Retirement and Benevolent Fund will not be spent in 1963-64 because implementing legislation to place the fund on a sound, actuarial basis has not been enacted. Therefore, I recommend that the money be reappropriated so that necessary legislation which should become effective on July 1, 1964 can make it available for that purpose.

THE JUDICIARY

The amount recommended for the operation of the Judiciary is \$2.9 million or approximately \$135,000 more than the amount available in the current year. This sum should provide for normal increments and the additional employees required by the Chief Justice in the operation of this branch of government during the next fiscal year.

I should pause here to commend the judicial system for working against great odds to cope with the consistently expanding burdens of litigation. In 1957 there were 11,000 cases pending at the end of the year, on the combined Superior and County Court law list. At the end of 1963, 26,000 cases were pending on the same list. In 1957, however, as against a little more than 15,000 cases added, the judges were able to dispose of 16,000 cases. In 1963, more than 25,000 cases were added and the courts were able to dispose of some 23,000. It is apparent that the courts are expending every effort with a judicial establishment which generally approximates that of six years ago to cope with the mass of litigation being filed. Consideration will have to be given soon to expansion of the judicial system in order to render proper service to the public of New Jersey.

CAPITAL CONSTRUCTION

The State Highway Department requested the sum of \$81.3 million for highway construction, but again our lack of funds

make it impossible to meet or even approach this request. However, in keeping with our practice of matching Federal funds and allowing for construction costs of non-federally-aided projects, I am recommending the sum of \$45.9 million which is an increase of \$1.3 million over current appropriations.

One of the more gratifying aspects of the direction in which the highway construction program is going, was the step taken by the Highway Commissioner to utilize funds freed by reallocating prior year's commitments and applying them to Federal allotments which otherwise could not have been matched until next year. In that way the Department accelerated by one year, \$86.7 million (\$77.7 million Federal and \$9 million State) of matched construction funds. The balance of the 1964-65 program which remains to be matched is \$16.5 million of which the State's share is \$7.8 million.

This budget recommends that sum to match the balance of the 1964-65 program. In addition, to continue the acceleration of the Federal-State Program, it provides \$16.3 million of matching State funds to build \$97.7 million of highways out of the 1965-66 advance program totaling \$114.2 million. To completely match that program would require an additional \$8.2 million of State funds.

My recommendations also include \$12.2 million for 100 per cent State projects and for certain costs of Federal-State projects in which the Federal government will not participate.

This budget also includes \$332,991 for 57 new positions, the bulk of which is for procurement of rights-of-way. The Department's right-of-way acquisitions, I am advised, may triple as the highway construction program progresses.

I am also asking for \$380,000 to continue our program of building maintenance facilities at strategic points along our highway system.

LAW AND PUBLIC SAFETY

Recommendations for construction of facilities for this Department total \$721,950. They include \$494,500 for the establishment of a new inspection station on State-owned land in Paramus in Bergen County, containing three inspection lanes and supporting facilities. The need for construction in this area was emphasized last Spring when we were required to vacate rented inspection facilities in Hackensack and institute temporary arrangements in surrounding localities of that region. The Attorney General was able to allocate some \$26,000 at that time for advance planning of the new facility. The funds in this budget should carry it through to completion at a date earlier than that which would have been otherwise possible had planning funds not been previously allocated.

I am asking for \$212,450 for a new State Police Barracks in Bergen County in keeping with our program of adding State-owned facilities in place of rented quarters.

STATE CAPITOL FACILITIES

This budget includes \$1.9 million for acquisition, development and improvement of State Capitol facilities. In keeping with recommendations of the State Capitol Development Commission, I again ask for \$725,000 to acquire the real estate between the State House and Willow Street in the city of Trenton.

The sum of \$500,000 is recommended to honor our contract with the city of Trenton for the purchase of land in the John Fitch Way Redevelopment Project.

Both of these steps are mandated by existing legislation, of several years' standing.

Modern concepts of providing efficient working conditions for State employees require that we embark upon a program to air-condition the State House, the State House Annex and the State Office Building. I am recommending \$400,000 as the first step of a three-year program for this purpose.

ARMORY CONSTRUCTION

The Federal government will contribute 75 per cent of the cost of armory construction. With these funds, I am recommending construction of an armory at the Morristown Airport, which will require an appropriation of \$191,000 as the State's share of the cost.

CIVIL DEFENSE

The Legislature has previously appropriated \$72,000 which matched a like sum of Federal money for the planning and architectural service for the construction of an alternate seat of government at West Trenton. The Federal government has already appropriated \$1.2 million which must be matched by an equal sum by the State to provide this facility. This installation will serve as an operating control center in the event of an emergency. In view of the previous action by the Legislature, I am recommending the sum of \$1.2 million to match the Federal funds available for this purpose.

GRADE CROSSINGS

I am recommending the continuance of an annual appropriation of \$2 million as the public's share of the cost to eliminate grade crossings.

RESOURCE DEVELOPMENT

I am recommending an appropriation of \$500,000 to continue our program for the development of the State's parks and recreational areas.

STATE EDUCATIONAL FACILITIES

I have recommended \$811,738 for various capital purposes of the State Department of Education. Those funds include \$300,000 for advance planning and design of State college classroom buildings. I am looking ahead to a construction program to be financed from additional revenues which I would hope this Legislature will provide. In a subsequent section of this Message, I will go into further detail on my conception of our needs for higher education facilities.

My recommendations also include \$172,000 to equip the new Upper School now under construction at the State School for the Deaf; and \$119,738 to equip the new Library as a part of the Cultural Center which will be opened early next year.

INSTITUTIONS

This budget recommends \$2 million for capital construction for institutions. It includes \$700,000 for advance planning and design of new institutional facilities for which I anticipate that construction funds will soon become available.

I also recommend the sum of \$1.3 million for routine but vital capital improvements in our various institutions to continue our modest annual program to cover these needs.

REDUCTION OF DEBT

Throughout the capital construction budgets for the various departments are found items for redemption of bonds issued in the past for capital improvements in those departments. Recommendations to redeem bonds due next year total \$12 million which represents an increase of \$2.1 million over this year's requirements.

THE UNFULFILLED NEEDS OF THE STATE

The fact that this budget is balanced and does not require any new or additional taxes to meet it should not be a cause for self-satisfaction. It leaves unfilled needs of the State which are urgent for its progress, which are measurable and which ought to be met without delay.

Many studies concerning these needs have been made. Outstanding among them are the landmark Tenth Report of the Commission on State Tax Policy, the Strayer Report on Higher Education, the carefully documented priority lists of the Department of Institutions and Agencies, and the detailed master plan of the State Highway Department.

While the completion of new studies may be necessary in order to ascertain the maximum needs of the State, there seems little

doubt that an immediate determination must and can be made by us as to the minimal needs of the State.

What are these minimal needs?

First, let us examine the question of State aid to education. In recent years the steadily rising burden of local taxation has become almost confiscatory as to the local home owner and rent payer. New Jersey's local property tax is among the highest in the nation. The greater proportion of this burden comes about by reason of the increased cost of local education. Last year, for instance, the burden of local property taxation rose by about \$65 million, and this has become in recent years an almost automatic increase. As our population expands, no one can foresee any lessening of this constantly increasing burden.

Many years ago New Jersey recognized the justice and necessity of some State aid to education. Its contribution has risen from year to year until this year the amount recommended by this budget for aid to local districts—not including State contributions for teachers' pensions—is \$114.5 million. This represents approximately 16 per cent of the cost of local public education. Other States bear a much higher proportion of the cost of local education, and thus more adequately relieve the local property taxpayer.

Must the local home owner and rent payer continue forever to carry the crushing burden represented by the cost of local education?

I believe, and many responsible New Jersey citizens contend, that the State should assume a greater participation in the cost of local education. The State Tax Policy Commission report recommended an increase in the State's contribution by \$84 million per year. Because of intervening growth in school population, this has become \$86 million.

There is no more definitive amount before the State than the \$86 million recommended by the Commission on State Tax Policy. Every dollar granted by way of increased State aid to education should militate not only to the continued excellence of public education but to the relief of the local property taxpayer.

Whatever the Legislature decides, it should make sure that this increased State aid to local education should be a matter of home rule and its expenditure should be guided by the discretion of local authorities subject to vigilance on the part of the individual taxpayer.

Concerning the capital construction needs of the State, I direct your attention first to those in the area of Institutions and Agencies. These needs were projected last year by the Department of Institutions and Agencies at \$129 million. Having studied these needs and their relative importance for at least two years, I remain of the opinion that \$60 million should be made available to the Department of Institutions and Agencies for the most essential construction in the next five years.

In the field of higher education, it is also obvious that capital construction is desperately needed. The Strayer Report estimated needed capital construction to provide for our college population between now and 1970 at \$134 million.

We are all familiar with the extreme shortage of college space in New Jersey. Unless we are prepared to deliberately waste a generation of worthy college youth, we must provide for the next five years \$125 million for the construction of essential higher educational facilities.

With respect to highway construction, the master plan of the New Jersey State Highway Department has been the subject of broad discussion in the State in recent years. There are few factors more identified with the economic future of New Jersey than adequate highway transportation.

For lack of money, I have been obliged to refuse requests of the State Highway Department for this construction for this year of more than \$30 million. I believe that if New Jersey is to survive in the present competitive world, we must give close attention to adequate highway construction; and I, therefore, believe that an additional \$150 million should be provided for highway construction over the next five years.

To recapitulate, the minimal capital needs of the State in these areas over the next five years will total \$335 million, or \$67 million

in each of the next five years. The portions of this annual sum to be allocated to each of the three areas will vary from year to year.

I do not believe that this program, in any way, exaggerates the needs of our hard-pressed local taxpayers for more State financial assistance or the needs of the State for capital construction. In many respects, it can be argued that this program does not completely satisfy minimal needs in that it does not provide for capital requirements in other areas of State activity. I am confident that the State's fiscal framework, broadened by a major new revenue source, can accommodate a fulfillment of these needs on a limited, carefully managed basis.

This Legislature can make its most meaningful contribution to the citizens of this State if it recognizes that the pressing problem confronting New Jersey today is the absolute necessity to make a start on solutions of these problems. The longer we delay, the more difficult it will be, and the more costly to the people. This is readily shown by the constantly increasing spiral of building construction and highway right-of-way costs, to take but two examples.

It thus becomes the duty of the Legislature to adopt revenue measures which will permit a meaningful program of increased State assistance to local taxpayers and a basic capital construction program, commencing with the next fiscal period.

This program, if it is to be financed in its entirety from current revenues, will require \$153 million in new revenues which would be allocated during the fiscal year 1964-65 as follows:

Increased State aid to local districts	\$86 million
Institutional capital construction	18 million
Higher educational construction	25 million
Highway construction	24 million

In subsequent years the amounts allocated to institutional construction will decrease, thus making available additional funds in the other areas of capital needs. I intend to make available to subsequent Legislatures a sharply defined annual list of priorities.

I realize that there has been considerable discussion within the Legislature of continued bond issue financing for certain of our capital needs, particularly in the field of institutions. This dis-

cussion follows a pattern traditional in New Jersey financing. For the past 15 years, for example, pay-as-you-go financing of non-highway capital projects has averaged less than \$5 million annually. During the same period, the State has authorized capital expenditures outside the regular budget of \$311 million, which is equivalent to nearly \$21 million per year.

Service of this debt, it should also be remembered, was based not on any new source of revenue, but on the existing framework of State taxes. And yet it is the consensus, despite this spending, that great needs remain.

Nevertheless, if the capital needs of higher education and the Department of Institutions and Agencies are to be financed through the use of bond issues, the annual need for current revenues can be reduced to approximately \$120 million, which includes service of such new debt.

Accordingly, the Legislature should choose :

(1) To meet these needs on a pay-as-you-go basis. This would require increased annual revenue of \$153 million.

(2) To meet these needs partially by bond issues for college and institutional needs, and pay-as-you-go for highways and State aid to education. This would reduce the annual requirements for new revenue to \$120 million.

In either instance, a new source of permanent revenues must be found.

The Commission on State Tax Policy, in a divided vote, proposed a 3 per cent sales tax which would exempt food for home consumption, prescription drugs and consumer items already taxed by the State. The Commission last year estimated a return of \$165 million from such a levy. Today's estimates by our tax authorities raise the potential proceeds of such a levy to approximately \$180 million annually. Thus a 2 per cent sales tax netting about \$120 million would meet the financial requirements of the combination bond issue and pay-as-you-go program. If we were to depend upon it to finance a full pay-as-you-go program, the sales tax would have to be scaled upward proportionately.

Despite its prominence in current broad-based tax discussions, I cannot endorse the concept of a sales tax. By its very nature it has its greatest impact on those least able to pay. For instance, we in New Jersey, at considerable community sacrifice, recently have established a State policy making special provisions for our elderly neighbors through local property tax exemptions. The beneficiaries of these exemptions would be among the hardest hit by a sales tax. We also make special provision for our veterans who receive a somewhat smaller property tax exemption. To many thousands of these veterans the exemption has an important meaning and a meaning that would be wiped out by the regressive impact of a sales tax.

It should be remembered that the impact of the sales tax increases with the size of the family. It presents particular problems to those of marginal income, including working men striving to support a family as well as many thousands who subsist in large part on their social security incomes.

Furthermore, a sales tax would impose on the retail business of New Jersey much of the burden of tax collection and special accounting. It would wipe out the considerable advantage enjoyed by our merchants over their competitors in New York City and Pennsylvania. New Jersey should not toss this advantage aside lightly.

The other principal broad-based tax is a personal income tax. There has been considerable discussion, in general terms, of such a levy. Such a tax would, for ease of administration, be geared to the Federal income tax return which has an almost universal application. An important part of its burden would be borne by the Federal government because it would be deductible from income in computing the Federal income tax obligation.

Our neighboring State of New York relies on a graduated personal income tax for a major portion of its financing. At the New York rates, New Jersey could collect some \$300 million annually from this tax, a figure far in excess of our needs. At one-half the New York rate, the return would approximate \$150 million, which could finance a full pay-as-you-go program. Should

the Legislature prefer partial bond issue financing, the income tax revenue would be scaled down.

To build this needed foundation for New Jersey's continued progress, I, therefore, recommend that this Legislature adopt a graduated income tax that gives closest attention to the protection of those least able to pay.

I am fully aware of the political consequence as I advance this proposal, for nobody likes taxes. But I also am aware that I was elected by the citizens of New Jersey to chart a course for a modern and progressive State that sees and does its full duty to the people.

Sometimes a man must choose between conscience and political popularity; between the easy way and the path of duty. This choice is often a difficult one. But it is made the easier by many signposts along the way. My illustrious predecessor, Woodrow Wilson, made such choices when he resisted to the last the involvement of America in World War I, and when he failed magnificently in fighting for the League of Nations which might have prevented World War II. Our martyred President, John F. Kennedy, made a choice on the side of civil rights for all Americans. My immediate predecessors, Governors Alfred E. Driscoll and Robert B. Meyner, made innumerable decisions on the side of conscience as against political expediency. Many members of this Legislature surely can remember having made decisions in favor of what was right rather than what was popular.

And even if there were no such inspiring examples, a realistic self-appraisal and understanding of obligation would point the way to these decisions of conscience. A Governor of New Jersey represents not only the loud and powerful, but the weak and silent and defenseless. He acts, equally, for the retarded children on our waiting lists, the mentally disturbed in our hospitals, the suffering residents of our slums, the children in our schools, the hopeful candidates for college, the working man who awaits new industry, the local taxpayer who has no lobby.

And such a Governor owes a single-minded obligation of loyalty, not to his own power and popularity, nor to his own political

party, but to all the people of New Jersey. He so swears on the day he assumes the office to which he is elected by those people. And I do not view that oath lightly. It was taken in full awareness of my particular and heavy responsibility to the people of New Jersey. I knew that it would foreshadow decisions of doubt and difficulty. I knew a day like this would come, and that other like decisions of difficulty lie in the future.

And I am further sustained in what I do today by something that I described in my Inaugural Message as the sensing of a new spirit, a new pride of the people. I think that New Jersey prides itself on the slow undoing of our institutional strength and its breakdown into a shambles of neglect, the turning of our back upon the education of our youth, the betrayal of our economic destiny by the ignoring of our highways, the acceptance of less than the status of a first-rate State and the steady stretching of our local property taxpayers upon a rack of never-ending costs.

And beyond all this, it may be that the gloomy portents of political retaliation against those who tell the truth, even about taxes, are wrong.

The public may be tired of the usual bromide of "no new taxes," while at the same time tasting the bitter medicine of higher local taxation and ever more inadequate State facilities. The intelligence of the people may be detecting even now the political opportunism of those who say there are no needs, in the very face of crowded institutions, of closing college doors, of shrinking highway systems, of unjust increases in the local tax burden.

Perhaps most people even doubt those who say that our needs are not so pressing but that they can wait for a convenient time—say until 1966, the year after the next gubernatorial election.

Maybe the political experts are wrong. Maybe the people of New Jersey recognize the facts of life. Maybe they will commend rather than punish the men who tell the truth about them.

But whatever the event, and regardless of the consequence, there can be no alteration or bending in the path of duty. Following that straight path, I recommend to you today a program to meet

the obligation of New Jersey's future. I ask you, with all respect, to join with me in courage and in candor in bringing it to reality.

Respectfully submitted,

RICHARD J. HUGHES,
Governor of New Jersey.

Attest:

LAWRENCE BILDER,
Acting Secretary.

February 3, 1964.

Mr. Ozzard moved the Joint Session adjourn.

Which motion was adopted.

At the conclusion of the recess and

Under the direction of the President, the Secretary called the Senate, when the following Senators appeared and answered the call:

Messrs. Bowkley, Deamer, Dumont, Farley, Forsythe, Grossi, Harper, Hillery, Hunt, Kelly, Lynch, Mathis, Ozzard, Ridolfi, Sandman (President), Sarcone, Scholz, Stamler, Stout, Waddington, Weber—21.

Which was read for the first time by its title, ordered to have a second reading, and referred to the Committee on Highways, Transportation and Public Utilities.

Mr. Dumont, on leave, introduced

Senate Bill No. 146, entitled "An act providing for tenure of office, position or employment of exempt firemen, amending section 40:47-60 and supplementing subdivision E of article 3 of chapter 47 of Title 40, of the Revised Statutes,"

Which was read for the first time by its title, ordered to have a second reading, and referred to the Committee on State, County and Municipal Government.

Messrs. Dumont and Bowkley, on leave, introduced

Senate Bill No. 147, entitled "An act concerning motor vehicles, and supplementing chapter 3 of Title 39 of the Revised Statutes,"

Which was read for the first time by its title, ordered to have a second reading, and referred to the Committee on Public Safety, Defense and Veterans Affairs.

Mr. Dumont, on leave, introduced

Senate Bill No. 148, entitled "An act providing that any condition or impairment of health to a member of a volunteer fire department, caused by any disease of the respiratory system resulting in total or partial disability shall be held and presumed to be an occupational disease in certain cases, and supplementing chapter 15 of Title 34 of the Revised Statutes,"

Which was read for the first time by its title, ordered to have a second reading, and referred to the Committee on Revision and Amendment of Laws.

Messrs. Dumont, Sarcone and Deamer, on leave introduced

Senate Bill No. 149, entitled "An act designating the State Song,"

Which was read for the first time by its title, ordered to have a second reading, and referred to the Committee on Education.

Messrs. Sarcone, Sandman and Grossi, on leave, introduced

Senate Bill No. 150, entitled "An act concerning stock life insurance companies of this State, authorizing investments in the capital stock of any other life insurance company, and supplementing chapter 18 of Title 17 of the Revised Statutes,"

Which was read for the first time by its title, ordered to have a second reading, and referred to the Committee on Business Affairs.

The following committee amendment to Senate Bill No. 18 was read and upon the motion of Mr. Stamler, the committee amendment was adopted:

Amend page 1, section 1, line 6, before the "." insert "or the county police department".

Mr. Farley moved that Senate Bill No. 75 be referred to the committee on Business Affairs for the purpose of amendment.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
March 23, 1964. }

SENATE BILL No. 35

To the Senate:

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I herewith return Senate Bill No. 35, with my objections for reconsideration.

Senate Bill No. 35 would create a commission in the Legislative Branch of State Government "to make a study of

the services, activities and functions and the operations of the 3 Branches of the State Government in the interest of the promotion of further economy, efficiency and improvement in the transaction of the public business of the State.”

The commission would consist of 12 members. Four members would be appointed by the President of the Senate, 2 of whom would be members of that House, and 2 citizens of the State. Four similar appointments would be made by the Speaker of the General Assembly. The final 4 members would be appointed by the Governor. No more than half of each group of appointees could belong to any one political party.

The bill further provides that the commission shall remain in effect for a period of five years from the effective date of the act and appropriates \$50,000.00 to the commission to carry out the purposes of the act.

Proponents of this measure have made much of the need of a thoroughgoing review of the operation of State Government presumably with emphasis on the Executive Branch. This administration welcomes such an inquiry. Although New Jersey ranks 50th among the states in the number of State employees per capita and 49th in per capita State taxes, it is essential that government strive to achieve continued economies for the taxpaying public.

In my annual message to the Legislature last January, I recommended a study of the type proposed by Senate Bill No. 35, pointing out that an objective nonpolitical review of governmental activities could be of great value to the State. In that message, I stressed, however, that any commission created to conduct such a study should not be

“a vehicle for political harassment but a means for an objective evaluation of the problems of government. To that end, I feel that I must stipulate that such a commission, if created, be composed of public members appointed by the Governor subject to confirmation by the Senate.

“It is this means of balanced responsibility which the Constitution has established as a guarantee of the highest quality in appointments—from the Chief Justice of the Supreme Court through the whole range of the judiciary, for instance, where justice and impartiality form the touchstone of achievement. This me-

thod of appointment is certainly best, if indeed we are all sincerely interested in objectivity without suspicion of partisan motivation.”

This statement was identical with the position I assumed last year in regard to a similar bill—Senate Bill No. 108 (1963). In face of this clear statement of position, I find it difficult to understand why the proponents of this measure have deliberately proposed a method of appointment which I have publicly stated on many occasions I cannot accept.

Apparently some members of the Legislature would prefer to see this bill embroiled in controversy rather than enacted into law. I trust, however, that most members of this body are genuinely interested in having the proposed study become an actuality rather than a political issue. If this is in fact the case, I would strongly urge the Legislature to accept the amendments recommended herein. If affirmative action is to be had on this proposal, it will come because we have acted together in harmony and concert for the ultimate good of the public.

Should the Legislature enact the proposal, I stand ready, with the advice and consent of the Senate, to appoint a commission whose experience in business and government and whose integrity and ability to carry this necessary task to a meaningful conclusion will inspire the public confidence essential to execute any major improvements the commission may recommend. Since these appointments will be publicly made and publically considered, this proposal has as a safeguard the protection that inevitably flows from the attendant publicity which will stem from any action taken under this bill.

I am, therefore, returning this bill with the recommendation that the Governor appoint a 5-member commission, on a bipartisan basis, with the advice and consent of the Senate. This method will provide for an independent objective study of the problems of government and will remove this matter from the realm of political partisanship into which it has threatened to plunge.

I am also recommending two additional changes. First, I have suggested that the term of the commission be shortened. The 5-year period provided is inconsistent with the sense of urgency professed by the bill's proponents. I have fixed the expiration date as of June 30, 1966 which would allow the commission 2 full years. This should provide

ample time. Second, I have deleted the \$50,000.00 appropriation provided for the commission. It seems singularly inappropriate to provide such a sum of money to a commission to study economy and efficiency in government before the commission has been created, its members appointed and a budget prepared. I will support any reasonable request for funds submitted by the commission after it has organized and prepared a budget.

I am accordingly returning Senate Bill No. 35 for reconsideration, with the recommendation that it be amended as follows:

On page 1, Title, line 1, before "commission" insert "temporary".

On page 1, Title, lines 1 and 2, delete "in the Legislative Branch of the State Government".

On page 1, Title, lines 5 and 6, delete "from time to time".

On pages 1 and 2, Whereas Clauses, lines 1 through 37, delete the Whereas Clauses set forth in lines 1 through 37, inclusive, in their entirety.

On page 2, section 1, lines 1 and 2, delete "in the Legislative Branch of the State Government a" and insert in lieu thereof "a temporary".

On page 2, section 1, line 2, delete "to consist of 4" and insert in lieu thereof "consisting of 5".

On page 2, section 1, line 3, following "ernor," insert "with the advice and consent of the Senate,".

On page 2, section 1, line 3, delete "2" and insert in lieu thereof "3".

On page 2, section 1, line 3, delete ", 2" and insert in lieu thereof ".".

On page 3, section 1, lines 4 through 8, delete lines 4 through 8 in their entirety.

On page 3, section 2, line 1, delete "a term of 5 years from".

On page 3, section 2, lines 2 through 4, delete lines 2 through 4 in their entirety and insert in lieu thereof "the duration of the commission. Vacancies shall be

filled in the same manner in which the original appointments were made.”

On page 4, section 9, line 4, delete “annually”.

On page 4, section 9, line 5, after “lature” insert “on or before June 30, 1966”.

On page 4, section 10, lines 1 and 2, delete section 10 in its entirety.

On page 4, section 11, line 1, delete “11” and insert in lieu thereof “10”.

On page 4, section 11, line 2, delete line 2 in its entirety and insert in lieu thereof “on June 30, 1966.”

Respectfully,

RICHARD J. HUGHES,
Governor.

With Assembly committee amendments,

Was taken up, read a second time, considered by sections, agreed to and ordered to have a third reading.

Mr. Sarcone offered the following resolution, which was read and adopted:

WHEREAS, P. Ballantine and Sons, one of New Jersey's largest employers and greatest industries, has just completed a multi-million dollar plant expansion and modernization program at its brewery in the City of Newark; and

WHEREAS, The Ballantine firm has been noted throughout its 124 years in New Jersey for its outstanding corporate contribution to the welfare of the community; and

WHEREAS, It has been a long-time policy of the Ballantine firm and the associates therein to readily accept civic responsibility; and

WHEREAS, The members of the General Assembly of the State of New Jersey are aware that Ballantines has long been a leader in its own industry and in fact is one of the largest brewers in the world; and

WHEREAS, In addition to Ballantine's noteworthy public-spirited activities its thousands of loyal employees are daily making invaluable contributions to the State and likewise to the many New Jersey communities in which they live; and

WHEREAS, The Ballantine firm has demonstrated once more its interest and faith in the State of New Jersey and City of Newark by meeting the needs of its growing business by expanding and modernizing its Newark plant:

Now Therefore Be It Resolved by the Senate of the State of New Jersey:

1. That public utterance be given at this time to the high regard in which they and the people of New Jersey hold the entire Ballantine organization by congratulating and commending P. Ballantine and Sons and its employees in this manner on the completion of the multi-million dollar plant expansion and modernization program at the Ballantine brewery in Newark, New Jersey; and

2. That the Secretary of the Senate shall cause a copy of this resolution, signed by the President of the Senate and attested by the Secretary, to be delivered to the President of P. Ballantine and Sons, Carl W. Badenhausen.

Messrs. Stamler, Stout, Ozzard and Dumont offered the following resolution, which was read and adopted:

WHEREAS, Mrs. Louise Dundon Hand, wife of former Senator and now Superior Court Judge Kenneth C. Hand of Union County, died on April 3, 1964; and

WHEREAS, Mrs. Hand is remembered for her charming personality and her faithful attendance with her husband when he was the Senator from Union County as she rarely missed a session of the Senate following her marriage in 1955 to Senator, now Judge, Hand; now, therefore,

Be It Resolved by the Senate of the State of New Jersey:

That profound regret is expressed at the passing of Mrs. Louise Dundon Hand and sincere sympathy is extended to former Senator, now Judge Kenneth C. Hand in his bereavement; and

Be It Further Resolved, That a copy of this resolution, signed by the President of the Senate and attested by the Secretary of the Senate, be forwarded to Judge Hand.

All Senators offered the following resolution, which was read and adopted:

WHEREAS, The nation and the world is mourning the passing of the General of the Army, Douglas MacArthur; and

WHEREAS, New Jersey wholeheartedly joins in the hundreds of tributes being paid to the memory of General MacArthur by world leaders, the President of the United States and the former Presidents of the United States, and countless others in high office; and

WHEREAS, General MacArthur's memorable words delivered in April, 1951, before a joint session of Congress will long be remembered, and, if heeded, will do much to preserve his and our beloved country, the United States of America, as a great, strong and free country; and

WHEREAS, General MacArthur as a hero of war and peace exemplified the West Point motto of duty, honor, country so aptly described by the General himself as those three hallowed words; now, therefore,

Be It Resolved by the Senate of the State of New Jersey:

1. That public tribute is hereby expressed to the memory of America's grand old soldier, General of the Army, Douglas MacArthur, and recognition is given to his unflinching patriotic service to our country, and this body joins in the countless tributes being paid to the memory of General MacArthur; and

Be It Further Resolved, That this resolution be spread upon the Journal of the Senate, and that a copy, signed by the President of the Senate and attested by the Secretary of the Senate, be forwarded to the family of the late General MacArthur.

Mr. Mathis offered the following resolution, which was read and adopted:

WHEREAS, Mayor J. Stanley Tunney of Seaside Heights died on March 28, 1964; and

WHEREAS, Mr. Tunney had been the head of the municipal government of Seaside Heights for more than 25 years and was a colorful figure in the political and the civic life of the Shore area, and an outstanding contributor to the amusement industry of the State; and

WHEREAS, Mr. Tunney made many contributions to the improvement and development of the Shore facilities particularly in respect to the highways giving access to Seaside Heights and vicinity; now, therefore,

Be It Resolved by the Senate of the State of New Jersey:

That public tribute is hereby paid to the memory of Mayor J. Stanley Tunney and sincere condolences are extended to the family of the late Mayor; and

STATE OF NEW JERSEY,	}
EXECUTIVE DEPARTMENT,	
April 13, 1964.	

SENATE BILL No. 15

To the Senate:

Pursuant to Article V, Section I, paragraph 14 (b) of the Constitution, I herewith return Senate Bill No. 15, with my objections, for reconsideration.

Senate Bill No. 15 would amend and supplement the New Jersey Turnpike Act in four significant respects.

First, it would permit the Governor of the State, in a period of ten days following the delivery of the minutes of any Turnpike Authority meeting, to veto any action taken by the Authority at such a meeting. Second, it would require the Authority to obtain the approval of the Governor and of either or both the State Treasurer and the Comptroller of the Treasury before it could issue or refund bonds or fix, revise or adjust tolls. Third, it would provide for continuing the New Jersey Turnpike as a toll road after its indebtedness has been paid off and would further provide for the payment of excess revenues to the State. Lastly, it would require, at the time that all Authority indebtedness has been paid off, the dissolution of the Turnpike Authority as an entity and the transfer of all of the Authority's functions, powers and duties, as well as its personnel, records and property, to the State Highway Department.

I am in accord with the first three changes contemplated by this bill. It has always been my understanding that the people responsible for the construction of this magnificent roadway fully expected to see it continue as a toll facility even after the liquidation of its indebtedness. As recent as last October, the first members of the New Jersey Turnpike Authority issued a statement re-affirming their "belief that the Turnpike revenues, through continuation of tolls, should be utilized in the best interest of the people of New Jersey who created this great asset."

The New Jersey Turnpike represents a major fiscal asset of the State. Its potential earning capacity can and should be turned to the benefit of our citizens. By preserving it as a revenue producing facility, we will guarantee that the considerable expense of maintaining and operating this roadway as a super highway will not fall upon the taxpayer but upon the motorists who use it, while insuring to the citizens of this State the additional advantages of its earning capacity which would otherwise be lost.

I further agree with the Legislature that we should act this year to guarantee the continuation of the Turnpike as a toll facility. Unless the present law is changed, when the Turnpike becomes debt free, it will be necessary for the then Governor and Legislature to act in harmony together to guarantee the preservation of the toll revenues. Un-

doubtedly, at that point in time there will be pressures from special interest groups which will be directed to the freeing of this great facility. Since the passage of such legislation would require the concurrence of both Houses and the Governor, it is possible that these special interest groups might be capable of constructing a coalition to block such legislation even though they do not represent the will of the majority. Such a result can be guarded against through prompt action now. In this regard, I should point out that the fact that legislation is enacted this year to provide for the continuation of tolls upon the Turnpike would in no way preclude any succeeding Governor and Legislature from undoing this action if that be their decision. This legislative act will guarantee, however, that the Turnpike will remain a toll facility unless the people themselves, through their duly elected representatives, dictate otherwise.

The reasons which have compelled me to support these other facets of Senate Bill No. 15, however, do not pertain to the provisions which require that the Turnpike Authority be dissolved when it has liquidated its indebtedness and that the responsibility for maintaining and operating this facility be transferred to the State Highway Department. It is possible that such action may in fact be deemed desirable at the time the Turnpike is debt free. I can see no compelling reason, however, for making such a decision now. Much can happen between now and that date. Alternative proposals for operating the Turnpike may be developed. Indeed the Legislature itself now has under study proposals which contemplate action contrary to that provided by this bill. Only two months ago, this Legislature adopted a concurrent resolution creating a joint legislative commission with the responsibility of studying the legality and practicability of consolidating the Turnpike and Highways Authorities. The report of this commission is not yet available.

I can find no valid reason why this Legislature and this Governor should attempt to anticipate what the situation will be some years from now in regard to the operation of this facility. Certainly, the pressures which might be focused upon the appropriate officials in regard to the administration of this facility would hardly be comparable to those which would be generated in regard to the decision to continue tolls. There would appear to be no danger in

leaving this decision to those who will be in office at the time that the Turnpike becomes debt free.

I am, therefore, returning this bill for reconsideration, with the recommendation that it be amended as follows:

On page 1, Title, line 1, delete "to amend and supplement" and insert in lieu thereof "regulating and concerning the powers, duties and revenues of the New Jersey Turnpike Authority, amending".

On page 1, Title, lines 2 to 5, delete "; providing for the ultimate transfer of certain of the functions, powers and duties of the New Jersey Turnpike Authority to the State Highway Department and for the ultimate abolition of the New Jersey Turnpike Authority; repealing"; and insert in lieu thereof "and amending".

On page 1, Title, line 6, delete ", and providing for an appropriation" and insert in lieu thereof "approved June 4, 1963 (P. L. 1963, c. 76)".

On pages 1 and 2, section 1, lines 1 through 28, delete section 1 in its entirety and insert in lieu thereof:

"1. Section 9 of Chapter 454 of the Laws of 1948 is amended to read as follows:

"9. Revenues. (A) The authority is hereby authorized to fix, revise, charge and collect tolls for the use of each turnpike project and the different parts or sections thereof, and to contract with any person, partnership, association or corporation desiring the use of any part thereof, including the right-of-way adjoining the paved portion, for placing thereon telephone, telegraph, electric light or power lines, gas stations, garages, stores, hotels, and restaurants, or for any other purpose except for tracks for railroad or railway use, and to fix the terms, conditions, rents and rates of charges for such use; provided, that a sufficient number of gas stations may be authorized to be established in each service area along any such highway to permit reasonable competition by private business in the public interest; and provided further, that no contract shall be required, and no rent, fee or other charge of any kind shall be imposed for the use and occupation of any turnpike project for the installation, construction, use, operation, maintenance, repair, renewal, relocation or removal of tracks, pipes, mains,

conduits, cables, wires, towers, poles or other equipment or appliances in, on, along, over or under any such turnpike project by any public utility as defined in section 27:7-1 of the Revised Statutes which is subject to taxation pursuant to either chapter 4 of the laws of 1940, as amended (R. S. §§ 54:31-15.14 et seq.), or chapter 5 of the laws of 1940, as amended (R. S. §§ 54:31-45 et seq.), or pursuant to any other law imposing a tax for the privilege of using the public streets, highways, roads or other public places in this State. Such tolls shall be so fixed and adjusted as to carry out and perform the terms and provisions of any contract with or for the benefit of bondholders [], and thereafter, to the extent consistent therewith, as to produce revenues in amount sufficient to provide for the payment of principal and interest of any indebtedness existing from time to time under and pursuant to the provisions of the 'New Jersey Public Roads and Highways Bond Act of 1963' and the 'New Jersey Public Building Construction Bond Act of 1963.' Such tolls shall not be subject to supervision or regulation by any other commission, board, bureau or agency of the State. The use and disposition of tolls and revenues shall be subject to the provisions of the resolution authorizing the issuance of such bonds or of the trust agreement securing the same.

“(B) At any time that tolls are not required for the purpose of carrying out and performing the terms and provisions of any contract with or for the benefit of bondholders, the authority shall cause tolls for the use of the turnpike projects to be charged and collected at the same rates as were last charged and collected by the authority under the provisions of subsection (A) hereof and no change or revision shall be made in such rates except as shall be specifically authorized by law.

“[(B)] (C) All revenues and other funds of the authority not pledged or otherwise required to pay or secure the payment of principal and interest of any indebtedness of the authority existing from time to time under, and not otherwise required for the purpose of, this act shall be [] held and applied, in accordance with the provisions of section 10 hereof, for the purpose of paying principal and interest of any indebtedness existing from time to time under and pursuant

to the provisions of the 'New Jersey Public Roads and Highways Bond Act of 1963' and the 'New Jersey Public Building Construction Bond Act of 1963.'] deposited to the credit of the State in such depositories and shall be reported to the State Treasurer and to the Director of the Division of Budget and Accounting at such times and in such manner as shall be designated and prescribed by the State Treasurer and said director."

On page 2, section 2, line 15, delete "State Highway Department" and insert in lieu thereof "authority".

On pages 3 and 4, sections 3 through 11, delete sections 3 through 11 inclusive in their entirety and insert in lieu thereof:

"3. Section 4 of chapter 76 of the laws of 1963 is amended to read as follows:

"4. This act shall take effect immediately [but shall remain inoperative unless and until (a) the 'New Jersey Public Roads and Highways Bond Act of 1963' or the 'New Jersey Public Buildings Construction Bond Act of 1963' now pending before the Legislature or both are enacted and (b) such acts, or either of them, shall be approved by the people at the General Election to be held in the month of November 1963]."

On page 4, section 12, line 1, delete "12" and insert in lieu thereof "4".

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
April 13, 1964. }

SENATE BILL NO. 121

To the Senate:

Pursuant to Article V, Section I, paragraph 14 (b) of the Constitution, I herewith return Senate Bill No. 121, with my objections, for reconsideration.

This bill would amend the Teachers' Pension and Annuity Fund to allow a supplemental period within which members of the Fund who have not yet elected to subscribe for the contributory life insurance coverage which is generally available to new members may elect to purchase such additional death benefit coverage. In this respect, Senate Bill No. 121 is comparable with the recent amendments to the Public Employees' Retirement System contained in Chapter 121, P. L. 1963, and the amendments to the Police and Firemen's Retirement System contained in Chapter 12, P. L. 1961.

The bill does differ from these earlier amendments in one significant respect. It provides that in order to qualify for this additional coverage a member cannot retire in less than seven years after the day when this program becomes effective as to him. This limitation, I am sure, was inserted in order to safeguard the optional death benefit program against the contingency that the number of deaths during the operation of the first seven years of this additional coverage might overburden the entire plan. Since the entire cost of this program is borne by the employees, this is an important consideration.

Therefore, at my request, a review was made of the present financial condition of the death benefit program under the Teachers' Pension and Annuity Fund as well as an evaluation of the additional liability contemplated by this bill. I have been informed that the status of the optional death benefit program is sound and that it has the ability to absorb this additional liability. Under the circumstances, the seven year limitation represents an unjustifiable restriction on the operation of the program which will work to the detriment of the members covered thereunder as well as complicating the administration thereof. I, therefore, recommend that it be removed.

Additionally, the bill permits members to make application for this coverage during the period between September 1, 1964 and February 28, 1965. I have been advised that it would be impossible administratively to accomplish the necessary processing during this period. The work burden of the Division of Pensions, in relation to this pension program, reaches its high point in September as new teachers enroll and others withdraw from the Fund. Approximately 11,000 teachers enrolled in this Fund last year and it is estimated that the number will this year increase to 15,000.

A more efficient and prompt job of recruiting and processing applications for this additional coverage can be achieved if the enrollment period is fixed as being from January 1, 1965 to June 30, 1965.

I am accordingly returning Senate Bill No. 121 for reconsideration with the recommendation that it be amended as follows :

On pages 1 and 2, section 1, lines 17 and 18, delete "September 1, 1964 to February 28, 1965", and insert in lieu thereof "January 1, 1965 to June 30, 1965".

On page 3, section 1, lines 58 to 62, delete ", nor shall such coverage apply in the case of a member electing the additional death benefits described in subsection d of this section pursuant to subsection b of this section if such member retires less than 7 years after the day the plan became effective for the member".

On pages 1 and 2, section 1, lines 1 through 28, delete section 1 in its entirety and insert in lieu thereof:

"1. Section 9 of Chapter 454 of the Laws of 1948 is amended to read as follows:

“9. Revenues. (A) The authority is hereby authorized to fix, revise, charge and collect tolls for the use of each turnpike project and the different parts or sections thereof, and to contract with any person, partnership, association or corporation desiring the use of any part thereof, including the right-of-way adjoining the paved portion, for placing thereon telephone, telegraph, electric light or power lines, gas stations, garages, stores, hotels, and restaurants, or for any other purpose except for tracks for railroad or railway use, and to fix the terms, conditions, rents and rates of charges for such use; provided, that a sufficient number of gas stations may be authorized to be established in each service area along any such highway to permit reasonable competition by private business in the public interest; and provided further, that no contract shall be required, and no rent, fee or other charge of any kind shall be imposed for the use and occupation of any turnpike project for the installation, construction, use, operation, maintenance, repair, renewal, relocation or removal of tracks, pipes, mains, conduits, cables, wires, towers, poles or other equipment or appliances in, on, along, over or under any such turnpike project by any public utility as defined in section 27:7-1 of the Revised Statutes which is subject to taxation pursuant to either chapter 4 of the laws of 1940, as amended (R. S. §§ 54:31-15.14 et seq.), or chapter 5 of the laws of 1940, as amended (R. S. §§ 54:31-45 et seq.), or pursuant to any other law imposing a tax for the privilege of using the public streets, highways, roads or other public places in this State. Such tolls shall be so fixed and adjusted as to carry out and perform the terms and provisions of any contract with or for the benefit of bondholders [, and thereafter, to the extent consistent therewith, as to produce revenues in amount sufficient to provide for the payment of principal and interest of any indebtedness existing from time to time under and pursuant to the provisions of the ‘New Jersey Public Roads and Highways Bond Act of 1963’ and the ‘New Jersey Public Building Construction Bond Act of 1963.’]. Such tolls shall not be subject to supervision or regulation by any other commission, board, bureau or agency of the State. The use and disposition of tolls and revenues shall be subject to the provisions of the resolution authorizing the issuance of such bonds or of the trust agreement securing the same.

“(B) *At any time that tolls are not required for the purpose of carrying out and performing the terms and*

provisions of any contract with or for the benefit of bondholders, the authority shall cause tolls for the use of the turnpike projects to be charged and collected at the same rates as were last charged and collected by the authority under the provisions of subsection (A) hereof and no change or revision shall be made in such rates except as shall be specifically authorized by law.

“**[(B)]** (C) All revenues and other funds of the authority not pledged or otherwise required to pay or secure the payment of principal and interest of any indebtedness of the authority existing from time to time under, and not otherwise required for the purpose of, this act shall be **[held and applied, in accordance with the provisions of section 10 hereof, for the purpose of paying principal and interest of any indebtedness existing from time to time under and pursuant to the provisions of the ‘New Jersey Public Roads and Highways Bond Act of 1963’ and the ‘New Jersey Public Building Construction Bond Act of 1963.’]** *deposited to the credit of the State in such depositories and shall be reported to the State Treasurer and to the Director of the Division of Budget and Accounting at such times and in such manner as shall be designated and prescribed by the State Treasurer and said director.*”

On page 2, section 2, line 15, delete “State Highway Department” and insert in lieu thereof “authority”.

On pages 3 and 4, sections 3 through 11, delete sections 3 through 11 inclusive in their entirety and insert in lieu thereof:

“3. Section 4 of chapter 76 of the laws of 1963 is amended to read as follows:

“4. This act shall take effect immediately **[but shall remain inoperative unless and until (a) the ‘New Jersey Public Roads and Highways Bond Act of 1963’ or the ‘New Jersey Public Buildings Construction Bond Act of 1963’ now pending before the Legislature or both are enacted and (b) such acts, or either of them, shall be approved by the people at the General Election to be held in the month of November 1963].**”

On page 4, section 12, line 1, delete “12” and insert in lieu thereof “4”.

Mr. Ozzard moved that Senate Bill No. 15, as amended, be advanced to second reading without reference for the purpose of re-enactment, which motion was adopted.

Senate Bill No. 15, entitled “An act ***[to amend and supplement]*** *regulating and concerning the powers, duties and revenues of the New Jersey Turnpike Authority, amending** the ‘New Jersey Turnpike Authority Act of 1948,’ approved October 27, 1948 (P. L. 1948, c. 454) ***[**; providing for the ultimate transfer of certain of the functions, powers and duties of the New Jersey Turnpike Authority to the State Highway Department and for the ultimate abolition of the New Jersey Turnpike Authority; repealing]**]*** *and amending** chapter 76 of the laws of 1963 ***[**, and providing for an appropriation]**]*** *approved June 4, 1963 (P. Mr. Ozzard moved that the message from the Governor be received and that his objections be entered at large on the Journal.

Under the direction of the President, the seal of the message was broken, and the Secretary read as follows:

STATE OF NEW JERSEY,	}
EXECUTIVE DEPARTMENT,	
May 4, 1964.	

SENATE BILL No. 223

To the Senate:

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I herewith return Senate Bill No. 223, with my objections, for reconsideration.

Every municipality of New Jersey is now authorized by statute to install and maintain its own sewage disposal system. Toward that end, the municipalities may acquire public or private property by condemnation for purposes of construction and other improvements. Senate Bill No. 223 would further extend the municipal power in this area by providing that:

"For the purpose of such construction, and before determining upon a final route or location for such proposed improvement or works, the municipality may, by its engineers, agents and servants, lawfully enter upon any lands, waters, or premises for the purpose of making surveys, borings, soundings, and do all necessary preliminary work, doing, however, no unnecessary damage or injury to private or other property."

My objection to this bill lies in its stricture against “unnecessary damage or injury to private or other property.” By implication, this language would seem to permit the infliction of “necessary” damage or injury upon such property, with no requirement that the damage be repaired or that the owner of the property be compensated therefor.

While it may well be in the public interest to permit municipal entry upon private property for the purposes specified by the bill, there is no sound reason why individual property rights should be subjugated to the extent of allowing municipalities to walk away from whatever actual injury to property may result from the exercise of that right of entry. This is particularly true since, by statute, the operation of a municipal sewage system has many of the earmarks ordinarily associated with private enterprise. Indeed, the overall statutory scheme has impelled the Supreme Court in a related context to classify municipal sewage disposal as a proprietary rather than a governmental function. *Cloyes v. Delaware Township*, 23 N. J. 324 (1957). A municipality which avails itself of the right of entry conferred by this bill should have a corresponding obligation to repair any significant injury to property which is caused thereby.

Accordingly, I herewith return Senate Bill No. 223 for reconsideration, with the recommendation that the bill be amended as follows:

On page 2, section 1, lines 24 and 25, delete “doing, however, no unnecessary damage or injury to private or other property” and insert in lieu thereof “being responsible, however, for any actual damage or injury to said lands, waters or premises”.

Respectfully,

[SEAL]

RICHARD J. HUGHES,
Governor.

LAWRENCE BILDER,
Acting Secretary to the Governor.

Amend page 7, section 13, line 63, after “week” omit the remainder of the line and all of lines 64 through 67.

Amend page 13, section 15, line 1, before “15.” insert a new section “15.” to read as follows:

“15. Section 34:15-14 of the Revised Statutes is amended to read as follows:

34:15-14. No compensation other than medical aid shall accrue and be payable until the employee has been disabled 7 days, whether the days of disability immediately follow the accident, or whether they be consecutive or not. These days shall be termed the waiting period. The day that the employee is unable to continue at work by reason of his accident, whether it be the day of the accident or later, shall count as one whole day of the waiting period. Should the total period of disability extend beyond **[4 weeks]** *14 days*, additional compensation shall at once become payable covering the above prescribed waiting period”.

Amend page 13, section 15, line 1, omit “15” add “16”.

Amend page 15, section 16, line 1, omit “16” add “17”.

Amend page 16, section 17, line 1, before “17.” insert a new section “18.” as follows:

“18. Section 34:15-16 of the Revised Statutes is amended to read as follows:

34:15-16. Compensation for all classes of injuries shall run consecutively, and not concurrently, except as provided in this section and in section 34:15-15 of this Title, as follows: First, medical and hospital services and medicines as provided in said section 34:15-15. After the waiting period, compensation during temporary disability. If total

period of disability extends beyond [4 weeks,] 14 days, compensation to cover waiting period. Following both, either or none of the above, compensation consecutively for each permanent injury, except that permanent disability, total or partial, shall not be determined or awarded until after 26 weeks from the date of the employee's final active medical treatment, or until after 26 weeks from the date of the employee's return to work, whichever is earlier, or, if no time is lost or no treatment is rendered, then permanent disability, total or partial, shall not be determined or awarded until after 26 weeks from the date of the accident, except in cases of amputation or enucleation or death from other cause within that time and except when earlier determination of permanent disability is waived by the employer or his insurance carrier. Nothing herein contained shall prevent an employer or his insurance carrier from paying permanent disability compensation voluntarily prior to the expiration of the 26-week period. Following any or all or none of the above, if death results from the accident, expenses of last sickness and burial. Following which compensation to dependents, if any.

Where an employer or his insurance carrier desires to pay for or furnish compensation, medical, surgical, or hospital treatment, drugs, orthopedic or prosthetic appliances, after the date when payments under sections 34:15-12 and 34:15-13 of this Title have terminated, the employer or his insurance carrier may, in writing, reserve the defense of the jurisdictional limitations provided by sections 34:15-27, 34:15-34, 34:15-41 and 34:15-51 of this Title; provided, that the reservation is approved by a deputy director after advising the petitioner personally of his rights and of the effect of such reservation".

Amend page 16, section 17, line 1, omit "17" add "19".

Amend page 18, section 18, line 1, omit "18" add "20".

Amend page 20, section 21, line 1, omit "21" add "23".

Amend page 21, section 22, before section 22 insert a new section 24 as follows:

“24. Section 34:15-38 of the Revised Statutes is amended to read as follows:

34:15-38. To calculate the number of weeks and fraction thereof that compensation is payable for temporary disability, determine the number of calendar days of disability from and including as a full day the day that the employee is first unable to continue at work by reason of the accident, including also Saturdays, Sundays and holidays, up to the first working day that the employee is able to resume work and continue permanently thereat; subtract from this number the waiting period and any days and fraction thereof the employee was able to work during this time, and divide the remainder by 7. If, however, the total period of disability extends beyond [4 weeks] *14 days*, the waiting period shall not be subtracted from the number indicated above. The resulting whole number and sevenths will be the required period for which compensation is payable on account of temporary disability”.

Amend page 21, section 22, line 1, omit “22” add “25” and renumber all following sections accordingly.

Which was read for the first time by its title, ordered to have a second reading, and referred to the Committee on Appropriations.

The Annual Report of the Board of Commissioners of Pilotage for 1963 was received and filed.

Mr. Kelly offered the following resolution, which was read and adopted:

A SENATE RESOLUTION of congratulations and commendation to George Cave for his designation as a Presidential Scholar.

WHEREAS, George Cave, a member of the Class of June, 1964, of Memorial High School, West New York, in the County of Hudson, has been designated as one of the 121 Presidential Scholars by the President of the United States and is the only public secondary school graduate from New Jersey to be so honored;

WHEREAS, George has displayed exemplary qualities of leadership through his service as President of the General Student Organization of Memorial High School and as President of the Woodworth Chapter of the National Honor Society;

WHEREAS, George Cave has demonstrated the highest quality of scholarship as valedictorian of his class, as a National Merit Scholarship finalist and as the recipient of an Honorary Scholarship from the National Honor Society of Washington, D. C., a Telluride Association scholarship given to outstanding high school scholars throughout the nation at the completion of their junior year, and scholarship grants to Princeton University, New York University and Harvard University;

WHEREAS, George will attend Harvard University beginning in September, 1964, on a full scholarship with the intention of concentrating in the field of mathematics; and

WHEREAS, George Cave, by these attributes of character, scholarship, service and leadership, has set a laudatory example for all students of our State and Nation to follow; now, therefore,

Be It Resolved by the Senate of the State of New Jersey:

That our congratulations and commendation be tendered to George Cave for his designation as a Presidential Scholar by the President of the United States and that an authenticated copy of this resolution, signed by the President and attested by the Secretary of the Senate, be forwarded to George Cave and to Mr. John C. Cendo, Principal of Memorial High School.

Mr. Forsythe offered the following resolution, which was read and adopted:

WHEREAS, Donald E. Dunn has for twelve years served as the Business Administrator of the Township of Moorestown and has served his community in many other ways faithfully and ably; and

WHEREAS, Donald E. Dunn has also been a guiding light in the affairs of the League of Municipalities, having served on many committees and as an officer of the Municipal Managers Association; and

WHEREAS, His sudden and untimely death is a shock to us all, and his counsel and services will be sorely missed; now, therefore,

Be It Resolved, That the members of the Senate of the State of New Jersey express their deep regret at his passing and extend their sincere sympathy to his family in their bereavement; and

Be It Further Resolved, That a copy of this resolution, signed by the President of the Senate and attested by its Secretary, be forwarded to his family.

Mr. Stamler offered the following resolution, which was read and adopted:

WHEREAS, New Jersey Business of 16 Park Place, Newark, New Jersey, is a publication of the New Jersey Manufacturers Association of 363 West State Street, Trenton, New Jersey; and

WHEREAS, The month of September of the current year 1964 marks the tenth anniversary of New Jersey Business; and

WHEREAS, Throughout these ten years the magazine has been telling, not only in cover stories and special editions, but in every issue, of our State's history, of business and industry, of agriculture and recreation, of companies and counties and communities, of businessmen and businesswomen, of politicians, of educators, musicians, scientists, builders, architects, editors and theologians and people in all other forms of human endeavor; and

WHEREAS, Through the annual New Good Neighbor Awards Program, New Jersey Business has publicly honored and publicized to the whole country the many expanding industries of New Jersey and effective community relations of said companies; and

WHEREAS, Said program is important to the expansion and continued growth of New Jersey industry and to the creation of new jobs for our citizens;

Therefore, Be it resolved that the Senate of the State of New Jersey hereby commends the members of the staff of New Jersey Business, which includes F. Calvin Louderback, Director of Publishing, John S. LeMaire, Editor, H. George Burnley, Advertising Manager, Miss Jacqueline Juster and Mrs. Ruth Louderback, for their efforts in the publication of said magazine and for its work in the industrial development of the State of New Jersey, with a copy of this resolution to be given personally to all staff members.

Senate Bill No. 180, entitled "An act to amend the 'Teachers' Pension and Annuity Fund-Social Security Integration Act,' approved June 1, 1955 (P. L. 1955, c. 37),"

With Assembly committee amendment,

Was taken up, read a second time, considered by sections, agreed to and ordered to have a third reading.

Three messages were received from the Governor, by the hands of his Secretary, endorsed, Veto Message.

Mr. Ozzard moved that the Messages from the Governor be received and that his objections be entered at large on the Journal.

Under the direction of the President, the seal of the Messages was broken, and the Secretary read as follows :

STATE OF NEW JERSEY,	}
EXECUTIVE DEPARTMENT,	
June 22, 1964.	

SENATE BILL No. 18

To the Senate:

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I herewith return Senate Bill No. 18, with my objections, for reconsideration.

Senate Bill No. 18 would require the board of chosen freeholders of each county to cause a replica of the seal of the county to be conspicuously displayed upon every motor vehicle owned by the county, except those assigned to and used by the office of county prosecutor, the office of the sheriff, the county police department or the weights and measures department.

I believe the basic concept of this legislation is sound. The requirement of marking motor vehicles serves the function of indentifying governmental vehicles as they carry out the business of government while, at the same time, it discourages any improper use of such vehicle. The one aspect of this legislation, however, which causes difficulty is the mandatory requirement that all vehicles be marked, except those assigned to and used by the specified law enforcement or quasi-law enforcement agencies. The particular exceptions in this bill may or may not be sufficiently broad to cover all of the circumstances under which the use of unmarked vehicles might be desirable or necessary to carry out the business of county government.

Because of the inflexibility of Senate Bill No. 18, the New Jersey Association of Chosen Freeholders has requested that the bill be conditionally vetoed to make it permissive in application. It is their view that there may be county offices, in addition to those specified in the bill, which properly should be excepted from the application of the bill. That this may be so, is demonstrated by the legislative history on this measure.

On two separate occasions, once in the Senate and once in the Assembly, amendments were proposed and adopted which expanded the list of excepted offices. This uncertainty, as to which offices should be excluded from the bill, serves to highlight the need for vesting some discretion in an appropriate body. I see no reason why this power should not be vested in the boards of chosen freeholders themselves.

I do not agree, however, that the bill should be completely permissive in its application. I am, therefore, recommending that all county motor vehicles be marked with a replica of the seal of the county unless the board of chosen freeholders specifically exempts such motor vehicles from the application of this law.

In addition, I suggest that the effective date of this legislation be postponed for six months so that the counties will have a reasonable period of time within which to comply with the provisions of the law.

Accordingly, I herewith return Senate Bill No. 18 for reconsideration and recommend that it be amended as follows:

On page 1, section 1, line 4, delete "assigned".

On page 1, section 1, lines 5 through 7, delete these lines in their entirety and insert in lieu thereof "motor vehicles which have been excluded from the application of this act by action of the board of chosen freeholders."

On page 1, section 2, line 1, delete this line in its entirety and insert in lieu thereof:

"2. In order to permit the business of county government to function in an efficient and effective manner, the board of chosen freeholders of each county may exclude, by resolution, from the application of this act

MONDAY, JUNE 22, 1964

755

those motor vehicles which they determine shall be operated without county markings.

“3. This act shall take effect 180 days after enactment.”

Respectfully,

RICHARD J. HUGHES,
Governor.

SENATE BILL No. 78

To the Senate:

I herewith return Senate Bill No. 78, without my approval, for the following reasons:

Senate Bill No. 78 would amend the law concerning Juvenile and Domestic Relations Courts to provide that the Governor can appoint 4 attorneys-at-law in counties of the first class, except such counties having a population between 700,000 and 900,000, in which counties he shall appoint 2 attorneys-at-law. The effect of this bill would be to provide 2 additional Juvenile and Domestic Relations Court judges in Hudson County.

A similar provision was inserted, by amendment, in Senate Bill No. 257 which has since been approved by me, Chapter 85, P. L. 1964. The provisions of Senate Bill No. 78, therefore, are now set forth in the law and the bill is unnecessary.

Respectfully,

RICHARD J. HUGHES,
Governor.

SENATE BILL No. 344

To the Senate:

I herewith return Senate Bill No. 344, without my approval, for the following reasons:

On April 21, 1944, R. S. 18:14-80 was amended to stipulate that public school pupils shall not be required to salute or pledge allegiance to the flag of the United States if they hold "conscientious scruples" which preclude participation in that ceremony. L. 1944, c. 212. The amendment was enacted in response to the landmark decision of the United States Supreme Court in *West Virginia State Board of Education v. Barnette*, 319 U. S. 624 (1943). As a matter of common knowledge to all who are reasonably conversant with basic constitutional principles, the Court in that case wrote the finish to an unhappy era of bitter ideological controversy throughout the nation, of which New Jersey had its fair share, by holding that a state cannot constitutionally compel its school children to engage in the flag salute and pledge in contravention of personal convictions and beliefs.

Senate Bill No. 344, which passed the Legislature without debate or dissenting vote, would reverse the course of our constitutional history by deleting from the statute the substance of the 1944 amendment. The manifest effect of the bill would be to compel all public school pupils, except the children of certain representatives of foreign governments, to execute the flag salute and recite the pledge of allegiance without regard to "conscientious scruples against such pledge or salute * * *". Noncompliance presumably would constitute good cause for suspension or expulsion from school. R. S. 18:14-50.

In the *Barnette* case Mr. Justice Jackson, speaking for the Court, wrote:

"If there is any fixed star in our constitutional constellation, it is that no official, high or petty, can prescribe what shall be orthodox in politics, nationalism, religion, or other matters of opinion or force citizens to confess by word or act their faith therein. If there are

any circumstances which permit an exception, they do not now occur to us.

“We think the action of the local authorities in compelling the flag salute and pledge transcends constitutional limitations on their power and invades the sphere of intellect and spirit which it is the purpose of the First Amendment to our Constitution to reserve from all official control.”

This unequivocal, and widely quoted, statement of rudimentary constitutional doctrine has found complete acceptance as the law of the land, binding not only upon West Virginia but on every other state as well. It is a governmental truism that the United States Constitution, as interpreted by the Supreme Court, is “the fundamental and paramount law of the nation.” *Marbury v. Madison*, 5 U. S. 137, 177 (1803). It is equally well established that the Court’s resolution of a particular constitutional issue applies not only to the immediate litigants, but to all other persons and governmental authorities who are similarly situated. *Cooper v. Aaron*, 358 U. S. 1, 18 (1958). It ill becomes a state legislature to turn its back on the Constitution by seeking to curtail anew the religious and civil liberties of those whose individual beliefs, however unorthodox, are protected from invasion by the First and Fourteenth Amendments. “If the legislatures of the several states may, at will, annul the judgments of the courts of the United States, and destroy the rights acquired under those judgments, the Constitution itself becomes a solemn mockery * * *”. *United States v. Peters*, 9 U. S. 115, 136 (1809).

The bill before me, which would turn back the calendar to an earlier and uglier time in the history of our continuing quest for liberty and justice for all, well illustrates the dictum that those who will not learn from history are forever condemned to repeat their mistakes.

These words come easily to my pen because I subscribe wholeheartedly to the thesis that government cannot and should not attempt to coerce uniform acceptance of a patriotic creed in derogation of individual convictions. The First Amendment was written against a background of persecution of those whose beliefs, religious and otherwise, forbade expressions of homage to symbols of secular authority. If our constitutional liberties are to mean any-

thing at all, we cannot compel the few to join the many in expressing adherence to the values of the majority. "Compulsory unification of opinion achieves only the unanimity of the graveyard." *Barnette, supra*. The compulsory salute and pledge does no honor to our flag, but stains it with the tears of little children acting "in reluctant and terrified obedience to a command of secular authority which clashes with the dictates of conscience." *People v. Sandstrom*, 279 N. Y. 523, 18 N. E. 2d 840 (1939). Such repressive legislation has no proper place in our constitutional scheme. Responsible government has always sought, within the limits of absolute public necessity, to accommodate the dictates of individual conscience. Even in time of war, for example, the principles of those who are conscientiously opposed to the conduct of war are respected. We can do no less here.

It must be emphasized, however, that my personal agreement with the holding of the Supreme Court in *Barnette* is actually extraneous to my decision to veto this bill. As Governor of this State, I have sworn an oath which makes it my highest obligation to support the Constitution of the United States. The Supreme Court, as the final arbiter and exponent of the meaning of that Constitution, has ruled that it forbids the compulsory flag salute and pledge. The Legislature has nonetheless seen fit to impose this requirement upon our school children. In such circumstances, my duty is clear. The United States Supreme Court itself has reminded us that "[n]o state legislator or executive or judicial officer can war against the Constitution without violating his undertaking to support it." *Cooper v. Aaron, supra*. (358 U. S. at 18).

If the executive branch of state government were empowered to approve a violation by the legislative branch of its collective constitutional oath, "it is manifest that the fiat of a state Governor, and not the Constitution of the United States, would be the supreme law of the land; that the restrictions of the Federal Constitution upon the exercise of state power would be but impotent phrases * * *". *Sterling v. Constantin*, 287 U. S. 378 (1932). In short, without detracting from the strength of my personal convictions on this subject, it is ultimately my oath of office which requires me to return this bill to the Legislature without my approval.

As a final word, it has come to my attention that the sponsor of this bill, anticipating my inevitable and necessary disapproval thereof, has indicated that he intends to reintroduce his original, more "limited" version which would compel pupils with conscientious scruples to execute the flag salute without reciting the pledge. Inasmuch as both the salute and the pledge are integral components of the compulsory ritual banned by *Barnette*, it may be that a re-reading of that case in the light of the universal oath to support the Constitution of the United States, applicable to legislators and governors alike, will result in a change of mind.

Respectfully,

STATE OF NEW JERSEY

DEPARTMENT OF STATE

I, Robert M. Falcey, Acting Secretary of State of the State of New Jersey, do hereby certify that Milton Woolfenden, Jr., was elected State Senator of Sussex County on November 3, 1964 to fill the vacancy caused by the resignation of George B. Harper.

IN TESTIMONY WHEREOF, I have hereunto set my hand and affixed my Official Seal at Trenton, this 4th day of November, A.D. 1964.

ROBERT M. FALCEY,
Acting Secretary of State.

President Sandman appointed Messrs. Bowkley and Lynch to escort Mr. Woolfenden to the rostrum for the purpose of administering the oath of office.

The oath of office as Senator was administered to Mr. Woolfenden by Mr. Ozzard. After the oath of office was administered, Mr. Woolfenden addressed the Senate.

The session was opened with prayer by the Reverend W. Neal Raver.

Under the direction of the President, the Secretary called the Senate, when the following Senators appeared and answered the call:

Messrs. Bowkley, Deamer, Dumont, Farley, Forsythe, Hillery, Hunt, Kelly, Lynch, Ozzard, Ridolfi, Sandman (President), Sarcone, Scholz, Stamler, Stout, Waddington, Weber, Woolfenden-19.

Senate Bill No. 404, entitled "An act concerning crimes, and supplementing subtitle 10 of Title 2A of the New Jersey Statutes,"

Which was read for the first time by its title and

Referred to Committee on State, County and Municipal Government.

Mr. Sandman announced the appointment of Mr. Woolfenden as a member of the following committees: Committee on Agriculture, Conservation and Economic Development; Committee on Revision and Amendment of Laws; and Committee on Financial Reports.

Mr. Stout and all Senators offered the following resolution, which was read and adopted:

WHEREAS, Former Assemblyman, Clifton T. Barkalow of Monmouth County, died suddenly at St. Francis Hospital, Trenton, on September 28, 1964; and

WHEREAS, At the time of his death Mr. Barkalow was serving his County of Monmouth as its County Counsel; and

WHEREAS, Mr. Barkalow had served the people of Monmouth County with great distinction as an Assemblyman for 5 successive terms and his sudden and untimely demise was noted by bi-partisan sympathetic expressions from all quarters, including that of Governor Hughes who expressed great sorrow and, speaking for all the people of the State, offered deep sympathy to Mr. Barkalow's wife and family; and

WHEREAS, Only recently Mr. Barkalow had been tendered a testimonial honoring him at the close of 10 years' service to his county as an Assemblyman and his then recent appointment as Assistant County Counsel; and

WHEREAS, Mr. Barkalow had been attorney for numerous Boards of Education and municipalities and was recognized as an outstanding consultant in connection with municipal and school affairs; and it is also to be remembered that Mr. Barkalow had long been active in church and fraternal circles; now, therefore,

Be It Resolved by the Senate of the State of New Jersey:

That public tribute is hereby paid to the memory of the late Clifton T. Barkalow for his outstanding public services and splendid citizenship, and sorrow is expressed at his passing; and

Be It Further Resolved, That this resolution be spread upon the Journal of the Senate, and that a copy, signed by the President of the Senate and attested by the Secretary of the Senate, be forwarded to the family of the late Clifton T. Barkalow.

Mr. Dumont and all Senators offered the following resolution, which was read and adopted:

WHEREAS, Leonard Norman died suddenly on October 31, 1964; and

WHEREAS, Leonard Norman has been a legislative correspondent at the State House for more than three decades; and

WHEREAS, This fine gentleman served as Executive Director of the Republican State Committee, with headquarters in Trenton, for a number of years; and

WHEREAS, He was noted for his kindness, his cooperative outlook, and his friendliness during the more than thirty years of service in the State; and

WHEREAS, Through his reportorial abilities he has represented the Standard News Association, Fairchild Publications, The Journal of Commerce, and other publications during his fine career; and

WHEREAS, He has been an active member of the New Jersey Legislative Correspondent's Club during this long period; now, therefore,

Be It Resolved, That the members of the Senate express their deep regret at his untimely passing and extend their sympathy to his widow, Mrs. Ann Burk Norman, in her bereavement; and

Be It Further Resolved, That a copy of this resolution, signed by the President of the Senate and attested by its Secretary, be forwarded to Mrs. Norman.

Mr. Dumont, on leave, introduced Senate Concurrent Resolution No. 18.

WHEREAS, At the 17th Annual Meeting of the National Legislative Conference held in Atlantic City on September 25, 1964 the delegates to the Conference from 45 States and 2 Island Possessions of the United States elected The Honorable Frederick H. Hauser, a Member of the New Jersey General Assembly from Hudson County, as its President and thereby honored an outstanding New Jersey Legislator and reflected honor upon the State of New Jersey and its Legislature; and

WHEREAS, The National Legislative Conference is an organization established and maintained under the auspices of the Council of State Governments not only for the purpose of study of methods for the improvement in the Legislative Processes and of the services to be rendered to Legislators by Legislative Service Groups but also for the purpose of providing constant reminders to the citizens of the United States of the importance of the Legislative Branches in the State Governments and in the Government of the United States as the essential factors in safeguarding the freedom of the citizens; and

WHEREAS, Assemblyman Hauser has rendered great service to the State of New Jersey in the carrying out of these objects as a member of the New Jersey Law Revision and Legislative Services Commission for the past 10 years and as its Chairman for the past 4 years, and to the Nation as a delegate to the National Legislative Conference for the past 11 years and as a member of its Executive Committee for the past 4 years and he is thus particularly well fitted to occupy a key position of influence among the State Legislators in a year in which the future State Legislative bodies will be a matter of particular concern and interest throughout the entire United States; now, therefore,

Be It Resolved by the Senate of the State of New Jersey (the General Assembly concurring):

The New Jersey Legislature hereby extends the congratulation of its Members to the Honorable Frederick H. Hauser on his election as President of the National Legislative Conference as an honor which he richly deserves, and expresses their entire confidence that he will fill this position with honor and distinction and with credit to this State and the other States of the Union.

It is further moved that the Secretary of the Senate is directed to study and propose for adoption at the next meeting of the Senate amendments to the remaining rules of the Senate to incorporate all changes made necessary by the adoption of Rule 8A., except, however, that no changes shall be made relating to the Rules governing the number of members of the Senate required to constitute a quorum.

N. J. SENATE

PROPOSED RULE

8A. Whenever in these Rules provision is made for the casting of weighted votes, the weight of each member's vote shall be equal to the result obtained by dividing the population of the county from which he is elected, by the

population of the least populated county. The populations of the several counties shall be as determined by the most recent Federal or State census, and the result of such division shall be calculated and expressed to the nearest one-tenth.

Example 1.

County B:	$923,545 = 19.02 = 19.0$	(weight of vote of Senator from County B)
	<hr style="width: 10%; margin-left: 0;"/>	
County A:	48,555	(least populated)

Example 2.

County C:	$49,255 = 1.01 = 1.0$	(weight of vote of Senator from County C)
	<hr style="width: 10%; margin-left: 0;"/>	
County A:	48,555	(least populated)

Example 3.

County D:	$406,618 = 8.37 = 8.4$	(weight of vote of Senator from County D)
	<hr style="width: 10%; margin-left: 0;"/>	
County A:	48,555	(least populated)

Example 4.

County E:	$410,290 = 8.450005 = 8.5$	(weight of vote of Senator from County E)
	<hr style="width: 10%; margin-left: 0;"/>	
County A:	48,555	(least populated)

A matter upon which a vote is taken shall be deemed to be adopted, carried or passed when that percentage of weighted votes is cast therefore, as is equal to the percentage of unweighted votes which would otherwise be required for passage or adoption by provisions of the New Jersey Constitution of 1947, or of any statute, Senate rule or usage heretofore otherwise applicable; and such otherwise applicable provision, statute, rule or usage shall hereinafter be **deemed to provide for and require weighted voting** in accordance with the foregoing formula. Where such otherwise

applicable provision, statute, rule or usage provides for adoption, carriage or passage by an unweighted percentage of votes of all members, or of all members present, or of all members present and voting, the percentage of weighted votes hereby required for adoption, carriage or passage, shall be such percentage of the total of weighted votes which all members, or all members present, or all members present and voting, as the case may be, are authorized by this Rule to cast.

In the affirmative were—

Messrs. Bowkley, Farley, Forsythe, Hillery, Hunt, Mathis, Ozzard, Sandman (President), Scholz, Stout, Woolfenden—11.

Assembly Bill No. 770, entitled "An act concerning education, authorizing the Board of Governors of Rutgers, The State University, to undertake a program for medical education and supplementing the 'Rutgers, The State University Act of 1956,' approved June 1, 1956 (P. L. 1956, c. 61),"

Was read for the first time by its title, and given no reference.

Assembly Joint Resolution No. 30, entitled "A joint resolution memorializing the Legislature and the Governor of the State of New York to enact legislation to prohibit the purchase of alcoholic beverages by minors in that State,"

Was read for the first time by its title, ordered to have a second reading, and referred to the Committee on Federal and Interstate Relations.

And

Assembly Concurrent Resolution No. 52, entitled "A concurrent resolution of commendation in connection with the New Jersey Tercentenary celebration,"

Was read for the first time by its title, ordered to have a second reading, and referred to the Committee on State, County and Municipal Government.

A Message was received from the Governor, by the hands of his Secretary, endorsed, Veto Message.

Mr. Ozzard moved that the Message from the Governor be received and that his objections be entered at large on the Journal.

Under the direction of the President, the seal of the Message was broken, and the Secretary read as follows:

SENATE BILL No. 134

To the Senate:

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I herewith return Senate Bill No. 134, with my objections, for reconsideration.

This bill would require the approval of the State House Commission, in three separate areas, in connection with any capital construction financed from the proceeds of a general credit bond issue. Approval would be required:

(1) Before any work extras are ordered in excess of 5% of the total expenditure provided for in the general contract;

(2) Before funds for capital construction can be transferred from any project to which they have been allocated; and

(3) Before any contract in excess of \$500,000 is awarded.

As to the first two items, I am in full agreement with the proposal. Both work extras and project transfers relate to the cost and the magnitude of the project in question and are appropriate items for review by the State House Commission. The third item, however, concerning the awarding

of contracts of \$500,000.00 does not fit into such a category. Such contracts cannot now be awarded until the Legislature has specifically appropriated the proceeds from the bond issue for the building or project in question. In addition, any contract in excess of \$2,500.00 must be let after public bidding by the Division of Purchase and Property to the lowest qualified bidder unless there is cause for disqualifying such a bidder.

If the Commission were to undertake the responsibility for reviewing the awarding of such contracts, they could do so in a meaningful sense only if they were to interfere with the specific mandate of the Legislature or with the competitive bidding practices as entrusted by law to the Division of Purchase and Property. I can see no useful basis for this result. The Commission would undoubtedly find itself in the position of merely ratifying these contracts after delaying their execution until it has had an opportunity to review them at one of its periodic but infrequent meetings.

Accordingly, I herewith return Senate Bill No. 134 for reconsideration and recommend that it be amended as follows:

On page 1, section 1, line 1, delete the colon and insert in lieu thereof "in connection with any contract for the construction of any".

On page 1, section 1, lines 2 and 3, delete lines 2 and 3 in their entirety.

On page 1, section 1, line 7, delete the semi-colon and insert in lieu thereof a colon.

On page 1, section 1, line 8, delete "(b)" and insert in lieu thereof "(a)".

On page 1, section 1, line 8, delete "in connection with any contract" and insert in lieu thereof "in excess of 5% of the total expenditure in the aggregate provided for in such contract".

On page 1, section 1, line 9, delete "as set forth in paragraph (a) hereof".

On page 1, section 1, lines 10 and 11, delete "in excess of 5% of the total expenditure provided for in such contract".

On page 1, section 1, line 12, delete “(c)” and insert in lieu thereof “(b)”.

Respectfully,

SENATE BILL NO. 284

To the Senate:

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I herewith return Senate Bill No. 284, with my objections, for reconsideration.

This bill would validate the actions of a school district which, at a special meeting or election, authorized the issuance of any bonds or other obligations of the school district notwithstanding that the notices relating to such meeting or election were not published prior thereto as required by R. S. 18:7-15.

Senate Bill No. 284 is intended to remedy a defect that arose when Little Egg Harbor Township held a special district meeting and election on July 9, 1963 to authorize the issuance of bonds for the construction of an addition to the local grade school. Although R. S. 18:7-15 requires that any such special meeting or election be advertised at least one week prior to the holding of such a meeting or election, the required notice advising that such a special meeting was going to be held was published only six days prior thereto. This type of defect has been the subject of many validating acts. Val.: 8-6.67; 8-6.78; 8-6.98.

The present measure, however, is not limited to remedying such a shortcoming but would validate the proceedings notwithstanding that no notice at all was published prior to the special bond meeting. It is neither necessary nor desirable to adopt such broad language.

Accordingly, I herewith return Senate Bill No. 284 for reconsideration and recommend that it be amended as follows:

On page 1, section 1, line 8, delete "15 of chapter 7 of Title 18" and insert in lieu thereof "18:7-15".

On page 1, section 1, line 8, after "however," insert "that notice of such meeting, or election as required by said section 18:7-15 was published at least 6 days prior to the holding of such meeting, or election in a newspaper circulating in the district, and provided further".

Mr. Ozzard moved that

Senate Bill No. 284, entitled "An act to validate certain proceedings at meetings or elections of school districts and any bonds or other obligations issued, or to be issued, pursuant to such proceedings,"

Be given first reading for the purpose of re-enactment.

Which was agreed to.

Eight messages were received from the Governor, by the hands of his Secretary, endorsed Veto Message.

Senate Bill No. 202, entitled "An act concerning the practice of optometry and amending sections 45:12-1 and 45:12-5 of the Revised Statutes,"

Senate Bill No. 272, entitled "An act concerning the use of toll roads and other toll facilities by members of the New Jersey National Guard, and supplementing chapter 4 of Title 38A of the New Jersey Statutes,"

Senate Bill No. 387, entitled "An act concerning elections, and supplementing chapter 18 of Title 19 of the Revised Statutes,"

Senate Bill No. 397, entitled "An act concerning the members of the Local Government Board in the Division of Local Government in the State Department of the Treasury in relation to certain other municipal and county office holdings,"

Assembly Bill No. 260, entitled "An act to amend and supplement the 'Motor Vehicle Security-Responsibility Law,' approved May 10, 1952 (P. L. 1952, c. 173),"

Assembly Bill No. 436, entitled "An act to amend 'An act for the uniform control and licensing of dogs and kennels to aid in preventing the spread of rabies, and repealing sections 4:19-10, 4:19-11, 4:19-12, 4:19-13, 4:19-14, 4:19-15, 40:52-5 and 40:52-6 of the Revised Statutes,' approved May 24, 1941 (P. L. 1941, c. 151),"

Assembly Bill No. 540, entitled "An act concerning official searches for municipal liens, and amending sections 54:5-14 and 54:5-15 of the Revised Statutes,"

Assembly Bill No. 623, entitled "An act relating to the regulation of trading stamps and to the registration and bonding of trading stamp companies, and amending sections 45:23-1, 45:23-2, 45:23-3, 45:24-4 of the Revised Statutes, and supplementing chapter 23 of Title 45 of the Revised Statutes,"

Assembly Bill No. 754, entitled "An act validating the enactment and effectiveness of certain borough ordinances,"

Assembly Bill No. 757, entitled "An act to authorize the governing body of the city of Plainfield, in the county of

Union, to waive, in certain cases, the provisions of the general statutes which require that members of its police force and paid fire department must reside within the city,"

And

Assembly Bill No. 763, entitled "An act concerning municipalities in relation to the sale of certain real property not needed for public use to persons whose residential improved property is to be required for highway or other public purpose and supplementing chapter 60 of Title 40 of the Revised Statutes,"

Were each severally taken up, read a second time, considered by sections, agreed to, and ordered to have a third reading.

Mr. Ozzard moved that the Senate take a recess of 30 minutes.

Which was agreed to.

Upon the conclusion of which and under the direction of the President, the Secretary called the Senate, when the following Senators appeared and answered the call:

Messrs. Bowkley, Deamer, Dumont, Farley, Forsythe, Hillery, Hunt, Kelly, Lynch, Ozzard, Ridolfi, Sandman (President), Sarcone, Scholz, Stamler, Stout, Waddington, Weber, Woolfenden—19.

Mr. Ozzard moved that the rules be suspended and that Assembly Bills Nos. 769 and 770 be advanced to second reading without reference.

Which motion was adopted.

Assembly Bill No. 769, entitled "An act concerning education, providing for the creation and operation of a New Jersey College of Medicine and Dentistry, authorizing the acquisition of the Seton Hall College of Medicine and Dentistry, creating the New Jersey Council on Medical and Dental Education, providing an appropriation therefor and supplementing Title 18 of the Revised Statutes,"

And

Assembly Bill No. 770, entitled "An act concerning education, authorizing the Board of Governors of Rutgers, The State University, to undertake a program for medical education and supplementing the 'Rutgers, The State Univer-

sity Act of 1956,' approved June 1, 1956 (P. L. 1956, c. 61),''

Were each severally taken up, read a second time, considered by sections, agreed to, and ordered to have a third reading.

Mr. Ozzard offered the following resolution, which was read and adopted:

Resolved, That when the Senate adjourns it be to meet on Thursday, November 19, at 11 o'clock A. M., that when it then adjourn it be to meet on Saturday, November 21, at 11 o'clock A. MONDAY, November 30, 1964.

At 2:00 o'clock P. M. the Senate met.

The session was opened with prayer by the Reverend W. Neal Raver.

Under the direction of the President, the Secretary called the Senate, when the following Senators appeared and answered the call:

Messrs. Bowkley, Deamer, Dumont, Farley, Forsythe, Hillery, Hunt, Kelly, Lynch, Mathis, Ozzard, Ridolfi, Sandman (President), Sarcone, Scholz, Stamler, Stout, Waddington, Weber, Woolfenden—20.

On motion of Mr. Ozzard the Journal of the previous session was approved and its further reading was dispensed with.

The President appointed Messrs. Lynch and Farley to notify the Governor that the Legislature would meet in Joint Session in the General Assembly Chamber for the purpose of receiving a special message.

Mr. Ozzard offered the following resolution, which was read and adopted:

Be It Resolved by the Senate of the State of New Jersey (the General Assembly concurring):

That at 2:20 P. M., both Houses of the Legislature meet in joint session for the purpose of receiving a Special Message of His Excellency Richard J. Hughes, Governor of the State of New Jersey, relating to reapportionment, which will be delivered in person.

The Senate then recessed to the General Assembly Chamber.

Following is the Special Message to the Legislature delivered by Governor Hughes:

SPECIAL MESSAGE TO THE LEGISLATURE

BY

RICHARD J. HUGHES, *Governor of New Jersey*

NOVEMBER 30, 1964

*Mr. President, Mr. Speaker and Members of the Senate
and General Assembly:*

The business which brings us together today has deep roots in the history of America. We must begin by reminding ourselves again that all political power is inherent in the people; that governments which are instituted among men derive their just powers from the consent of the governed; that government, based on this political power, is intended to secure those equal rights of life and liberty and the pursuit of happiness described by our ancestors in the Declaration of Independence as being sacred in origin and inalienable in character.

So it was that "We the people of the United States," in the case of the Federal Government and "We the people of the State of New Jersey," in the case of our State Government, consented to the exercise of the political power of the people by the governments established by the respective constitutions. In both constitutions certain powers of amendment were preserved. In the case of New Jersey, our Constitution in Article I, paragraph 2 provides that:

"* * * Government is instituted for the protection, security, and benefit of the people, and they have the right at all times to alter or reform the same, whenever the public good may require it."

We have now, by necessity, reached that point of inevitable change.

An important and indispensable part of the State Government is its legislative branch. State legislatures are, historically, the fountainhead of representative government in this country. But representative government is in essence self-government through the medium of elected representatives of the people and each and every citizen has an inalienable right to full and effective participation in the political processes of his State's legislative bodies. Most citizens can achieve this participation only as qualified

voters seeking the election of legislators to represent them. Full and effective participation by all citizens in State Government requires, therefore, that each citizen has an equally effective voice in the election of members of his State Legislature.

The United States Supreme Court has held that with respect to the allocation of legislative representation, all voters, as citizens of a State, stand in the same relation regardless of where they live. Since the achieving of fair and effective representation for all citizens is concededly the basic aim of legislative apportionment, the Equal Protection Clause of the Fourteenth Amendment of the Constitution of the United States guarantees all voters an equal voice in the election of State legislators. Such was the force of the reasoning which led the United States Supreme Court in its historic decision in *Reynolds v. Sims* to determine that:

“* * * as a basic constitutional standard, the Equal Protection Clause requires that the seats in both Houses of a bicameral state legislature must be apportioned on a population basis.”

The importance of the constitutionally protected right to vote can hardly be overstated. It has been described variously by the United States Supreme Court as “involving one of the basic civil rights of man,” and as a “fundamental political right, because preservative of all rights,” as being “an essential part of the concept of a government of laws and not men,” and as being “at the heart of Lincoln’s vision of ‘government of the people, by the people and for the people’”.

Following the decision of the United States Supreme Court, the New Jersey Supreme Court in *Jackman v. Bodine* has considered the nature of this Legislature, which in material part is apportioned on a basis other than population. It has concluded that the:

“* * * legislative article of our State Constitution must * * * be adjudged to be invalid insofar as it deals with the apportionment of the members of the Legislature.”

We are now called upon to revise this most basic portion of the State’s organic law. We are reminded by the Court that the prime responsibility to do so rests upon the Legisla-

ture and the Governor as well as the people of the State. If we fulfill our responsibility, the Court will stay its hand. But, if we fail, the Court must act, as it says, as "a last resort."

I wish to make it clear that I come before you not as a champion of the political interests of any group, but as the elected Governor of all the people of New Jersey. I address you, not as 81 legislators with individual constituencies and concerns, but as a Legislature which is collectively responsible for the enactment of laws to govern all the people. We have all sworn an oath which makes it our deepest obligation to support the Constitutions of the United States and of this State. For many years we and our predecessors in office have found it possible to discharge this twofold obligation in a manner which has given full meaning and support to both constitutions.

But, in obedience to the supreme law of the land, the New Jersey Supreme Court now has told us that the legislative article of the New Jersey Constitution, insofar as it deals with the apportionment of the members of the Legislature, is in conflict with the Fourteenth Amendment to the Federal Constitution and, therefore, is invalid. The case of *Jackman v. Bodine* has been decided. We must now abide by that decision and take the steps necessary to implement it. If there be some among us who would view this decision merely as the departure point for additional appeals, permit me with all respect to caution against such an attitude as unrealistic. We have reached the moment when we must recognize our responsibilities. There can be no justification for a bitter resistance to the ruling of the Court, a resistance that can be calculated only to delay and not to avoid the inevitable outcome.

When the *Jackman* suit was instituted two years ago, I immediately directed the Attorney General to defend our existing constitutional system of legislative representation as vigorously as possible with all the resources of his office. My instructions were carried out to the letter as long as it was possible to do so. Even before filing an answer to the complaint, the Attorney General seized the initiative by moving on an exhaustive brief to dismiss the action.

On February 21, 1963 the Superior Court granted the motion and entered a judgment vindicating the apportionment of the Legislature on the basis of the law as it then

existed. When the decision was appealed, the Attorney General appeared before the Supreme Court on November 6, 1963, to argue strenuously in support of the provisions of our Constitution. In addition, he actively participated in the cases then pending before the United States Supreme Court, filing a separate brief and presenting oral argument on behalf of the Attorneys General of 14 states. I think it can be said fairly that so long as there was any reasonable chance that our system of representation might prevail in harmony with the United States Constitution, no public official could have put more effort and dedication into attempting to uphold it in the courts.

But on June 15, 1964, the situation changed, not only for New Jersey but for all the States in the Union. As I have pointed out, the United States Supreme Court, in *Reynolds v. Sims* and five companion cases, decided squarely that, "as a basic constitutional standard, the Equal Protection Clause requires that the seats in both Houses of a bicameral state legislature must be apportioned on a population basis." The State Supreme Court promptly called for reargument of *Jackman v. Bodine*.

Even then, when the Attorney General came to me for guidance, we carefully explored every possibility that the *Reynolds* decision might not apply to New Jersey. We were determined to continue our defense of the New Jersey system so long as any reasonable basis of defense existed. After much study, however, we became convinced that the cases decided by the United States Supreme Court could not be distinguished from *Jackman*.

Accordingly, I had no alternative but to direct the Attorney General to change his course in the litigation. I did this not as a matter of personal preference, but in response to the warning of our highest court that, "No state legislator or executive or judicial officer can war against the (Federal) Constitution without violating his undertaking to support it." On these rare and sometimes painful occasions when state constitutional provisions are declared to be in conflict with the Federal Constitution, my higher obligation, as well as yours, is to uphold the Constitution of the United States.

At this point, let us remind ourselves that the subject of reapportionment should be approached as a governmental rather than a political undertaking. It has long been a part

of our political folklore to regard quests for reapportionment as controversies between urban Democrats and rural Republicans. In the days when there were only cities and farms, this may have been the case. Today, however, it is the fast-growing suburban areas, populated with residents whose political leanings defy type casting, which hold the balance of political power. It is also our suburbanites who stand to gain the most in voting strength from a proper reapportionment. While prevalent, the myth that reapportionment will materially benefit or harm either major political party is precisely that—a myth. It would be a grave mistake for anyone to treat this problem as a struggle for partisan political advantage or to seek to measure solutions in terms of political gains. The suggestions I set forth today are intended to provide the machinery which will insure nonpartisan, deliberative consideration of the problem of apportionment. These suggestions are offered in that spirit.

Weighted Voting

Before discussing the steps which I will suggest that this Legislature follow in order to meet its responsibilities in the area of apportionment, I should like to speak about the weighted voting measure which was adopted by a change in the rules of the Senate on November 16. If such action represented a conclusion by the members of the Senate that the Court would not permit the continued functioning of the Senate under its present apportionment, it is apparent that such reasoning no longer can prevail.

The opinion in the *Jackman* case clearly provides that this body, as it is now constituted, can continue to exercise the legislative power of the State, with perhaps some limitations, until the second Tuesday in January, 1966. A weighting of the votes of the members is not necessary during the present or next legislative session in order to satisfy any constitutional requirements. Weighted voting, therefore, can now serve no useful function except to becloud the basic issues which must be faced. Its only function would be to confuse and delay the deliberations which should be commenced immediately. It cannot prevent but it perhaps could postpone the inevitable—a realistic reapportionment of this Legislature in accordance with the requirements of the Constitution of the United States.

Thus, I respectfully suggest that the Senate rescind its action of November 16 and restore its rules to their original posture. Such action, I believe will be recognized by all as the signal that this body indeed intends to meet its present responsibility in a forthright and resolute manner.

TWO FIELDS OF ACTION

Turning again to *Jackman v. Bodine*, the judgment entered by the Court in this case indicates there are two areas in which the Legislature must act. First, a decision must be made, as quickly as possible, on the apportionment of the members of the interim Legislature to be elected in November, 1965. Second, the machinery for devising a permanent plan for legislative apportionment must be agreed upon by April 1, 1965 so that such a plan can be formulated and submitted to the people for approval and so that the selection of the members of the permanent Legislature can be made in November, 1967. These are separate and distinct tasks and can and should be treated individually.

The Interim Legislature

To make a comprehensive study of the delicate question of apportionment of the interim Legislature and to make recommendations based on that study, I would recommend that this Legislature provide for a temporary commission of 16 members. Half of its members would be appointed by the President of the Senate and the Speaker of the General Assembly from the membership of the Legislature. The other half would be public members appointed by the Governor. All of these members would be selected on a bipartisan basis. Such a method of appointment would insure the active participation by both the legislative and executive branches of government—each of which must act on the recommendations of the commission—would remove any vestiges of partisanship, would utilize the expertise of the Legislature, and provide the people with an important voice in this momentous decision.

I urge formation of such a commission, in part, because this is the one method whereby the public can participate directly to some extent. It does not seem to me to be justifiable to attempt to exclude the people from some direct participation in a matter which is of such fundamental

importance to them, for even the interim distribution of political representation involves a power which is inherent in the people. I realize, of course, that there are members of this body who may believe that the exclusive responsibility for resolving this problem rests with the Legislature. I strongly suggest that the voice of the people should be heard, even in a limited way, through the service of distinguished public members selected on a bipartisan basis.

Such a commission should be required to report to the Governor and the Legislature at the earliest possible time, perhaps at its convening date in January 1965, with its recommendations for apportioning the members of the Legislature to be elected in November, 1965. This will provide sufficient time for the Legislature to consider and implement the recommendations of the commission. It will also afford an ample opportunity for the selection of the candidates to be voted upon in the November election.

A Permanent Program of Apportionment

The most important task confronting the Legislature concerns devising the method for developing a permanent apportionment plan for the State. The State Supreme Court has indicated that all members of that body agree that proposals for the necessary revision of the legislative article of the State Constitution can be formulated by a constitutional convention. While the Court leaves open the question whether there are other methods which can also be used, I can see no reason to pass beyond the constitutional convention.

The State Constitution under which we now function was the handiwork of a constitutional convention. Its efforts have been proclaimed universally. Indeed, our Constitution has formed the basis for the organic law adopted in several of our sister states. In the eyes of most, the achievement of the 1947 Constitutional Convention was an outstanding one. In this time of confusion and dispute, the public-spirited efforts of the men who deliberated 17 years ago can serve as a clear inspiration. The use of a constitutional convention brings with it the advantages of elected representatives at the same time that it provides a means whereby the public can express directly its views and its desires. A convention has a certain dignity and creates a climate of deliberation which is compatible with the grave obligation

of revising the organic law to distribute to the people's legislative representatives the political power which is theirs.

The task of redrafting these most delicate provisions of the State's Constitution must fall to a group which is both public-spirited and representative. It must be a group which is devoid of self-interest and partisanship and yet one that is both knowledgeable and responsible. Such severe criteria can be satisfied by a constitutional convention: I know of no other method which has its advantages and is as free from handicaps.

I believe this legislative body can make no more serious mistake than to attempt to hold within its own hands the responsibility for the momentous decisions which must be reached in the very near future. The use of a constitutional convention will serve to reassure everyone that this Governor and this Legislature seek to achieve a solution which is truly free of partisan advantage and dedicated to the public well-being.

Now as to the date for such a convention, if a convention is so ordained. It must be noted that the November, 1965 election will be one of the important elections in the history of this State. Presumably, it will be warmly contested both as to the governorship and members of the Legislature. There will be many issues debated that will be completely extraneous to the issues concerning the election of delegates to a constitutional convention. To insure the selection of the most impartial and qualified delegates possible, the election of such delegates should be completely free from such a contest. Since even an election of delegates prior to the general election will necessarily run the risk of involving the delegates in the campaign, I would recommend the prompt enactment of legislation providing for a constitutional convention and specifying that the election of delegates to such a convention be held early in 1966. This will establish that such a convention will be held without involving the delegates in the 1965 campaign. It will also provide the delegates to such a convention four to six months' time within which to consider all possible apportionment proposals and still provide ample opportunity for the proposal selected to be presented to the people in November, 1966. This in turn would permit the election of the new Legislature by the time fixed by the Court, namely, the general election of November, 1967.

Conclusion

While some may approach our forthcoming tasks with the trepidation that arises from such fundamental change in the status quo, I think most of us will view the present situation as an opportunity—an opportunity that has come to few who have served this State.

If we deliberate dispassionately and act wisely, we can devise tools of government that are responsive to the needs of the complex human equation that is New Jersey. Thus will all the people be served. Thus can we meet the challenge before us and devise a legislative formula that will accurately reflect the distinctive aspirations of all New Jerseyans. Thus will we give new and precise meaning to the American tradition of democracy.

So let us cast from our hearts and minds any idea of narrow political advantage. Let us resolve to work together—not as Democrat and Republican, not as city, county or suburban representatives—but as concerned citizens singularly privileged to create for New Jersey an edifice of government that will stand on the firmest foundation yet devised by the wisdom of man, the Constitution of the United States of America.

Respectfully,

RICHARD J. HUGHES,

Governor.

STATE OF NEW JERSEY

EXECUTIVE DEPARTMENT

PROCLAMATION

WHEREAS, In my opinion the public interest requires a meeting of the Legislature of the State of New Jersey; now, therefore,

I, RICHARD J. HUGHES, Governor of the State of New Jersey, by virtue of the authority vested in me by the Constitution of this State, do hereby convene the Legislature of this State for a meeting in its current regular session to be

held at the State House in Trenton on Monday, the thirtieth day of November, one thousand nine hundred and sixty-four, beginning at two o'clock in the afternoon.

[SEAL] GIVEN, under my hand and the Great Seal of the State of New Jersey, this 25th day of November, in the year of Our Lord one thousand nine hundred and sixty-four and of the Independence of the United States, the one hundred and eighty-ninth.

RICHARD J. HUGHES,

By the Governor:

Governor.

ROBERT J. BURKHARDT,

SENATE BILL No. 40

To the Senate:

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I herewith return Senate Bill No. 40, with my objections, for reconsideration.

Senate Bill No. 40 represents the first response of the Legislature to the vital and subsisting public need for legislation to define and prohibit conflicts between the official obligations and the private interests of members, officers and employees of the legislative and executive branches of government. When viewed as the culmination of many years of concerted effort by responsible legislators, public officials and private citizens to secure the passage of a meaningful law on this subject, the bill in some respects must be ranked as a major disappointment to all who regard public service as a public trust.

In the course of my past attempts to persuade the Legislature that the adoption of a truly viable conflicts of interest law is indispensable to the maintenance of public confidence in the governmental process, I have often stated that I would consider favorably any bill which embodies a reasonable approach to the problem. As indicated by my recent approval of Assembly Bill No. 466, the "Legislative Activities Disclosure Act," despite my reservations as to its efficacy, I am well aware that it would be pointless to insist upon perfection in this highly sensitive area. I also recognize that in some instances, a hesitant first step into uncharted territory may be preferable to nothing at all. Finally, I appreciate what the possible fate of Senate Bill No. 40 may be upon its return to the Senate with recommendations to strengthen it.

After careful consideration, however, I am convinced that this bill in its present form does not meet even the most minimal standards which reasonable men might expect of a workable conflicts of interest law, and that my unqualified approval of the bill would hinder rather than advance the cause of good government in New Jersey. Accordingly, I am returning this measure to the Senate for reconsideration in the light of the objections discussed

herein. I do so with the earnest hope that the Senate will take a fresh look at its responsibilities to the citizens of this State.

At this point, it may be noted that my remarks are largely addressed to the Senate, rather than to the Legislature as a whole, for good reason. The General Assembly, as in previous years, once again has passed and sent to the Senate a conflicts of interest bill which represents a realistic effort to come to grips with the problem. Once again, as in previous years, the Assembly bill has been rejected by the Senate. Although this measure, Assembly Bill No. 90, may possess certain shortcomings, it is generally a strong and meaningful bill which does credit to the House of its passage. A comparison of the salient features of Assembly Bill No. 90 with those of Senate Bill No. 40 may serve as a useful frame of reference within which to outline my objections to the bill before me.

I

First, both bills specify in detail the types of conduct in which legislators and State officers, employees and appointees would be forbidden to engage. Both bills also provide for the promulgation of a "code of ethics" for each State agency, by which members of that agency must abide on pain of dismissal or other internal disciplinary action. But where Assembly Bill No. 90 would penalize all violations of its substantive prohibitions as misdemeanors, with no distinction between legislators and others in that regard, Senate Bill No. 40 contains no comparable sanctions of any kind.

As to State officers, employees and appointees, the bill would authorize removal or other departmental punishment for the sort of misconduct which has always constituted cause for removal. As to legislators, the bill envisions a procedure whereby each House would establish a Standing Committee on Ethics to receive and investigate, "in closed executive session," complaints against members of that House involving charges of conflicts of interest. Upon a finding that an accusation is serious enough to warrant action by the House, and is supported by sufficient evidence, this committee would report that finding to the House, again in executive session. If the House as a body agrees with the findings of the Ethics Committee, the matter "may" be referred to another committee for hearing. If it

is determined by that committee that the accused "is guilty of a violation of any of the principles set forth in this act," the House "may" punish him by censure, expulsion or "such other penalty as the Constitution shall permit."

As can be seen, the difficulty with these "sanctions" is that they add absolutely nothing to existing law. No new legislation is needed to authorize the dismissal for cause of unfaithful State officers and employees. No legislation is required to empower the Legislature to discipline errant members, and to establish internal procedural machinery for that purpose. These powers have long existed, but the problem persists. What is urgently needed by way of legislation, as a truly effective deterrent against official improprieties, is the assurance of certain and impartial enforcement of a conflicts code or law.

As noted, Assembly Bill No. 90 would rely upon the imposition of criminal penalties for enforcement. I am not convinced that it is particularly appropriate to treat breaches of any code of professional ethics as crimes in and of themselves, for I agree substantially with those who maintain that public exposure and the resultant discredit ordinarily are punishment enough. Nevertheless, criminal sanctions do possess the virtue of assuring an impartial investigation by an independent tribunal of charges of conflicts of interest, together with a public accounting through the judicial process by persons who have betrayed the public trust.

The objective of impartial enforcement can be realized without resort to criminal penalties, but not by granting to the Legislature the exclusive power to hear and determine charges against its own members in closed session, or by leaving accusations against State officers and employees exclusively to internal departmental disposition. In particular, I cannot agree that the members of the Legislature generally should be shouldered with the distasteful assignment of passing upon charges against their colleagues. No man should be asked to act as his own judge.

It would be unwise to vest in the Legislature the responsibility for enforcement of its code of conduct for another equally important reason. For good cause or not, public attention to the subject of conflicts of interest long has been focused primarily upon the activities of the Legislature. In order to assure the confidence of our citizens in their

government, it is imperative that no suspicion concerning the bona fides of the Legislature be given a basis for existence. In a society which derives its order from the consent of the governed, men in public office not only should do justice but also should satisfy the people that justice has in fact been done. If Senate Bill No. 40 were approved, it could increase rather than dispel public cynicism toward the Legislature. It is not difficult to forecast that the exoneration of an accused legislator by the membership of his House would be attended by suspicion that the charge was neither diligently investigated nor disposed of on its merits. The recent United States Senate investigations indicate the insurmountable obstacles any body must face when it seeks to judge itself.

After careful consideration, therefore, I am recommending that this bill be amended to adopt a third course which lies between criminal penalties and internal legislative self-judgment. As an alternative, I propose that the State House Commission, as an appropriate independent and disinterested tribunal, be empowered to hear and determine the validity of all complaints regarding violations of the substantive prohibitions specified by the bill. This commission, composed of responsible members of both the executive and the legislative branches, can be well suited for the task. The suggested amendment would establish civil penalties for all violations by members and employees of the executive branch, and would authorize their suspension or removal from State office or employment.

In the case of members and employees of the Legislature, the State House Commission would report its findings to the appropriate House with a recommendation as to what action, if any, should be taken by that House against the offender. Such a procedure, while it would defer to the right of each House of the Legislature to judge the qualifications of its own members, would assure the public that a full and fair hearing will be given to all charges of legislative conflicts of interest by an impartial body. Once the question of guilt or innocence in a given case has been established publicly by the commission, I have no doubt that the House of the offender's membership can take appropriate action with the full confidence of the public behind it.

This proposal is offered with my sincere hope that the Senate will embrace it as an acceptable compromise between the harshness of criminal penalties and the illusory sanc-

tions now contained in the bill. At the same time, I wish to emphasize that although this amendment represents the approach which I happen to prefer, I would approve the criminal penalty provisions of Assembly Bill No. 90 if the Senate should decide to pass that bill instead.

II

Turning next to an examination of the particular types of conduct which Senate Bill No. 40 would prohibit, I feel that the bill generally establishes a reasonably satisfactory standard of conduct to be observed by legislators and other public officials, with two notable exceptions. First, this measure, unlike Assembly Bill No. 90, would authorize legislators and others to carry on settlement negotiations with State agencies during the pendency of judicial condemnation proceedings. Secondly, the bill would allow legislators and others to practice before State agencies, provided that the amount of their fees are not contingent upon the action taken by the agency. I do not believe that either of these activities is in the public interest, and ordinarily I might recommend the deletion from the bill of those provisions.

I cannot escape the conviction, however, that the re-passage and enactment of this bill with provision for impartial enforcement would, on balance, constitute a salutary step. As stated above, I have not found it possible to demand perfection from this sort of legislation. I have decided, therefore, that the chances of this measure's re-passage should not be jeopardized by further substantive changes at this time. Thus, I have not recommended any change in the provisions involving dealings with State agencies, with the hope that the enforcement changes I have suggested will meet approval.

III

The remainder of my objections to the bill in its present form are relatively minor, but should be noted. First, public-spirited citizens who undertake to serve without compensation on governmental boards and commissions should be excluded from the general definitional sections, and should be covered only by those provisions of the bill which are pertinent to their situations. Such persons function in a narrow sphere, usually on a part-time basis, and should not be disqualified from dealing with the State in

areas which have no connection with their public activities and do not in fact involve conflicts of interest.

Additionally, the section which limits the right of former State officers, employees and appointees to receive compensation for services rendered in the area of State government in which they were previously employed should be clarified. The bill now provides that no such person shall accept compensation for services rendered before a State agency in any "cause, proceeding, application or other matter in which he has given an opinion, made an investigation or has been directly concerned in the course of his duties." I agree that as a matter of ordinary ethical conduct no former officer or employee of the State should have the right to leave State employment for the purpose of using the knowledge he has gained against his former employer. This prohibition, therefore, is an appropriate one. The bill's present provisions, however, are so vague as to defy reasonable interpretation. I have suggested language which should help to clarify the application of this section to such former officers and employees.

For the reasons set forth above, I herewith return Senate Bill No. 40 for reconsideration and recommend that it be amended as follows:

On page 1, section 1, line 8, after "agency" insert "; but it shall not include persons who serve without salary or other compensation for their services".

On page 2, section 1, line 15, after "government" insert ", nor shall it include persons who serve without salary or other compensation for their services".

On page 4, section 6, line 2, after "appointee" insert ", including persons who serve without salary or other compensation for their services,".

On page 4, section 8, line 2, after "agency," insert "including persons who serve without salary or other compensation for their services,".

On page 5, section 8, line 8, after "employee" insert ", person".

On page 5, section 9, line 2, after "appointee" insert ", including persons who have served without salary or other compensation for their services,".

On page 5, section 9, line 5, delete "in any cause, proceeding, application or other matter".

On page 5, section 9, line 6, delete line 6 in its entirety.

On page 5, section 9, line 7, delete "concerned in the course of his duties," and insert in lieu thereof "in connection with any matter in which he personally was concerned in the course of his duties in the agency in which he was employed or served,".

On page 7, section 11, line 21, delete "or legislation".

On page 7, section 11, line 33, delete "or of the provisions of this chapter".

On page 7, section 11, line 38, delete "and legislation".

On page 7, section 11, line 41, delete "the provisions of this chapter and".

On pages 8 and 9, sections 13, 14, 15, 16 and 17, delete these sections in their entirety and insert in lieu thereof:

"13. (a) The State House Commission shall have jurisdiction to hear complaints regarding violations of this act and any complaints regarding violations of codes of ethics referred to it by the Commission on Ethical Standards. Any person, other than a member or appointee of the Legislature, who shall be found guilty by the Commission of violating any of the provisions of this act or the provisions of any such code shall be fined not less than \$100.00 nor more than \$500.00. Such penalty may be collected in a summary proceeding pursuant to the Penalty Enforcement law (N.J.S. 2A:58-1).

"(b) In the case of any person, other than a member or appointee of the Legislature, the Commission may order any such person found guilty suspended from his office or employment for a period not in excess of 1 year. If the Commission shall find that the conduct of such officer, employee or appointee represents a willful and continuous disregard of the provisions of this act or such code, the Commission may order such person removed from his office or employment and may further bar such person from public employment in this State

in any capacity whatsoever for a period not in excess of 5 years from the date he was found guilty by the Commission.

“(c) In the case of a member or appointee of the Legislature, the Commission shall report its findings to the House of the Legislature in which such person shall be a member or appointee and shall recommend to such House such action, as in its opinion, shall be appropriate under the circumstances. It shall be the sole responsibility of such House of the Legislature to determine what action, if any, shall be taken against such member or appointee.

“14. The State House Commission, in order to carry out the provisions of this act, shall have the power to conduct investigations, hold hearings, compel the attendance of witnesses and the production before it of such books and papers as it may deem necessary, proper and relevant to the matter under investigation. The members of the Commission and the persons appointed by the Commission for such purpose are hereby empowered to administer oaths and examine witnesses under oath.

“15. (a) Within the limits of available appropriations, the State House Commission, subject to the approval of the Governor, may employ counsel and other professional personnel and employees, fix their compensation and assign their duties and responsibilities.

“(b) The State House Commission shall adopt such rules and regulations as shall be necessary to implement the provisions of this act.”

On page 9, section 18, line 1, delete “18.” and insert in lieu thereof “16.”

SENATE BILL No. 57

To the Senate:

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I herewith return Senate Bill No. 57, with my objections, for reconsideration.

Senate Bill No. 57 would amend the corporation law concerning annual reports to provide that the fee for filing all reports due prior to July 1, 1963 shall be \$1.00 rather than the \$10.00 fee charged for filing current reports. This bill is prompted by legislation enacted several years ago which increased the fee for filing annual reports from \$1.00 to \$10.00. Since many corporations were derelict in filing annual reports in previous years, the increase in fee has resulted in some corporations being liable for hundreds of dollars in filing fees. Senate Bill No. 57 seeks to avoid this result.

Initially, I must point out that for the past 5 years the Secretary of State's office has conducted a vigorous drive to compel corporations to comply with the annual report requirements. In 1959 approximately 12,000 reports were filed. In the year ending June 30, 1964, over 190,000 reports were filed of which one half were back year reports. Much of the efficacy of this drive would be impaired by Senate Bill No. 57 which rewards the tardy and ignores the diligent. It would benefit only the relatively few recalcitrant corporations. I can see no justification in extending a reduced filing fee to the relatively small number of corporations which have failed to give heed to numerous requests to comply with the law.

According to the Secretary of State, nearly 60% of all listed corporations are now current in their report filings and only 8% have failed to respond to notices of delinquency. Of the remaining number, delinquency notices were returned because of incorrect addresses or because a proper agent was not designated. Most of these corporations presumably are no longer active.

The Secretary of State, however, has indicated that no useful public purpose is served by the filing of extremely

old reports. I am, therefore, recommending that this bill be amended to establish a 5 year limitation on the filing of reports. This will free the Department from its responsibility of seeking the filing of useless reports and will limit the liability for back reports to \$50.00. I am also suggesting a simplification of the existing procedure for collecting the penalty for the failure to file reports. This will assist both the Secretary of State and the Attorney General in the administration of the law.

Accordingly, I herewith return Senate Bill No. 57 for reconsideration and recommend that it be amended as follows :

On page 2, section 1, line 32, after "certified" insert "or registered".

On page 2, section 1, line 34, after "State" insert "a penalty of".

On page 2, section 1, line 34, after "\$200.00," insert "for each report required to have been filed not more than 5 years prior thereto and remaining unfiled,".

On page 2, section 1, line 38, delete "report last" and insert in lieu thereof "reports".

On page 2, section 1, line 39, after "filing of" delete "the".

On page 2, section 1, line 40 and 41, delete lines 40 and 41 in their entirety.

On page 2, section 1, line 42, delete "default in filing such reports on or after said date, if any." and insert in lieu thereof: "each such report. As an additional or alternative remedy, the Secretary of State may issue a certificate to the Clerk of the Superior Court that a corporation is indebted for the payment of such penalty, and thereupon the Clerk shall immediately enter upon his record of docketed judgments the name of such corporation, and of the State, a designation of the statute under which the penalty is imposed, the amount of the penalty so certified, and the date of making such certification. The making of the entries shall have the same force and effect as the entry of a docketed judgment in the office of such Clerk, and the Secretary of State shall have all of the remedies and may take all of the proceedings for the collection thereof which

may be had or taken upon the recovery of a judgment in a civil action, but without prejudice to the corporation's right of appeal."

On page 4, section 2, line 23, delete "prior to July 1, 1963 and filed thereafter, \$1.00, and for each such report required to be filed in each year thereafter".

Respectfully,

RICHARD J. HUGHES,

Governor.

SENATE BILL NO. 190

To the Senate:

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I herewith return Senate Bill No. 190, with my objections, for reconsideration.

Senate Bill No. 190 would amend the "Motor Carriers Road Tax Act of 1963" to provide for a refund of the tax imposed by this act to a carrier "to the extent that such carrier has paid a tax of similar nature to a taxing jurisdiction outside this State on or by reason of the use or consumption . . . of motor fuel attributable to purchase in this State."

The act which this bill would amend imposes a road tax on motor carriers equivalent to the rate per gallon of the motor vehicle fuel tax, calculated on the amount of motor fuel used in the carriers' operation in the State. Such carriers are now entitled to a credit against this tax to the extent that the carrier actually purchases motor fuel within the State. Thus, a carrier which purchased in New Jersey as much motor fuel as its vehicles consumed in this State would not be subject to any tax liability under the "Motor Carriers Road Tax Act." This tax, therefore, is fundamentally a device for insuring that New Jersey receives its fair share of motor fuel purchases from interstate carriers. It cannot be viewed as strictly a revenue raising

device in its own right although traditionally many carriers have made over-purchases in this State because of its location.

Within this context, the refund provision of this bill is reasonable. The Division of Motor Vehicles has indicated that unless such refunds are authorized many carriers who now over-purchase motor fuel in this State will shift some or all of such over-purchases to the states in which they would otherwise incur a road tax liability. Such a reshifting of motor carriers' purchasing patterns could conceivably reduce this State's motor fuel tax revenues to an extent even greater than the revenue loss that will occur from the granting of the requested refunds.

Senate Bill No. 190, however, should be amended in several respects. For example, all road tax states which grant refunds require the posting of surety bonds. Such a provision should be inserted in this bill. In addition, the provision for the examination of carriers' books should require such inspection to take place at the carriers' place of business. This will permit the Division of Motor Vehicles to carry out an extensive audit while not inconveniencing the interstate carriers. To cover the cost of such inspections, I recommend that the annual registration fee be increased from \$2.00 to \$3.00.

Finally, I suggest the bill take effect as of the October 1 reporting period. This date coincides with the date on which the Pennsylvania Road Tax Act went into effect and will avoid any period of double taxation as far as that State is concerned.

Accordingly, I herewith return Senate Bill No. 190 for reconsideration and recommend that it be amended as follows:

On page 3, section 1, line 56, after "period." insert the following sentence: "The director shall not allow such refund except after an audit of the applicant's records and shall audit the records of an applicant at least once a year."

On page 3, section 1, line 58, after "carrier." insert the following: "If the director refuses to allow a refund in the amount claimed by the applicant, the applicant may request a formal hearing on the application for a refund. Such hearing shall be held by the director or

his representative after notice to the applicant of not less than 10 days.

“A motor carrier may give a bond issued by a surety company authorized to do business in this State, in the amount of \$10,000.00 payable to the director on condition that the carrier will pay all taxes due and to become due under this act from the date of the bond to the date when either the carrier or the bonding company notifies the director that the bond has been canceled. So long as the bond remains in force, the director may order refunds to the motor carrier in the amounts appearing to be due on applications for refunds filed by the carrier without first auditing the records of the carrier. The surety shall be liable for all omitted taxes assessed against the carrier, including the penalties and interest on such taxes provided in section 15 of this act, even though the assessment is made after cancellation of the bond, but only for such taxes due and payable, while the bond was in force, and penalties and interest on such taxes.

On page 3, section 1, line 64, after line 64 insert the following sections.

“2. Section 9 of the act of which this act is amendatory is amended to read as follows:

“9. Every motor carrier shall keep such records, in such form as the director reasonably may prescribe, as will enable the carrier to report and enable the director to determine the total number of over-the-road miles traveled by its entire fleet of motor vehicles, the total number of over-the-road miles traveled in New Jersey by said entire fleet, the total number of gallons of motor fuel used by said entire fleet and the total number of gallons of motor fuel purchased in New Jersey for said entire fleet. All such records shall be safely preserved for a period of 3 years in such manner as to insure their security and availability for inspection by the director or any authorized assistant engaged in the administration of this act. Upon application in writing, stating the reasons therefor, the director may, in his discretion, consent to the destruction of any such records at any time within said period. *The director or his authorized agents and representatives may, at any reasonable time, inspect the books and records of any*

motor carrier subject to the tax imposed by this act. [Every motor carrier shall, upon reasonable notice from the director, be required to produce his books and records at such place in this State as the director may designate.] The director shall provide by regulation for any such examination of books and records [, upon request,] to be conducted at the office or offices of the motor carrier where such books and records are maintained. [The regulation may require the motor carrier, as a condition thereof, to reimburse the Division of Motor Vehicles, in such reasonable amount as the director by regulation shall have fixed, for the actual extra expense thereby incurred by the division.]

“3. Section 10 of the act of which this act is amendatory is amended to read as follows :

“10. The director shall provide an identification marker and registration card for every motor vehicle operated by the motor carrier, except that no identification marker shall be required for motor vehicles which bear valid New Jersey registration plates. The requirement for identification marker and registration card shall apply, as well, to exempt resident motor carriers. The identification marker shall be affixed to the vehicle in such manner as shall be prescribed by the director and the registration card shall be carried in the cab of the vehicle. The identification marker and registration card shall remain the property of this State and may be recalled for any violation of the provisions of this act or of the regulations promulgated hereunder. The director shall also provide, by regulation, for the registration of every such vehicle. Registration cards and identification markers shall be issued on an annual basis as of January 1 of each year and shall be valid through the next succeeding December 31. For the year 1963, registration cards and identification markers shall be valid from the effective date of this act through December 31, 1963. The fee for a registration card shall be \$3.00 for such portion of 1963. Said fee shall be \$5.00 for the year 1964, and [\$2.00] \$3.00 for the year 1965 and for each succeeding year. There shall be no fee for identification markers. It shall be illegal to operate or to cause to be operated in this State any motor vehicle unless the vehicle bears the identification marker, if required, and carries the registration card

required by this section; provided, however, that, for a period not exceeding 25 days as to any one motor carrier, the director, upon request made by the motor carrier, may by letter or telegram authorize the operation of a vehicle or vehicles without the identification marker or the registration card required when the enforcement of this requirement for that period would cause undue delay and hardship in the operation of the said vehicle or vehicles. If the director shall find that the period of time available between the enactment and the effective date of this act is too short for necessary preparation and compliance with the provisions of this section by the division or by a substantial number of motor carriers, he in his discretion may, by regulation, postpone the deadline for compliance to a date not later than June 30, 1963."

On page 3, section 2, line 1, delete "2." and insert in lieu thereof "4."

On page 4, section 3, lines 1 through 7, delete section 3 in its entirety and insert in lieu thereof:

"5. This act shall take effect immediately and the refunds herein authorized shall be allowed for the reporting period that commenced October 1, 1964."

SENATE BILL No. 276

To the Senate:

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I herewith return Senate Bill No. 276, with my objections, for reconsideration.

This bill would amend the act which authorizes counties, municipalities and school districts or agencies thereof to provide group plans of life insurance and hospital and accident insurance for their employees and their dependents. In the recent case of *Riddlestorffer v. Rahway*, 82

N. J. Super. 36 (Law Div. 1963), it was held that this act did not permit such local units to enter into contracts to provide life insurance and health benefits coverage for elected or appointed officials or for retired employees. Since a great many of our local units have existing contracts more extensive than are permitted under the present law, this bill has been advanced to ratify the existing practices.

I am in complete agreement with the Legislature's desire to clarify the law on this subject, and to validate existing contracts. I am not certain, however, that the Legislature, in its zeal to preserve all of the contracts now in existence no matter how extensive or far-reaching, gave full consideration to the basic question as to the extent of the obligation of government employers to provide benefits for their employees.

For example, this year the State Employees' Health Benefits Act has been extended and its provisions have been made available to all local employers. (Chapter 125, P. L. 1964). Under the provisions of this act, the benefits which are available to active employees are carefully specified by statute and the necessary administrative discretion has been vested in a single agency, the State Health Benefits Commission. In addition, this law clearly limits the benefits which may be extended to retired employees and their dependents and provides for minimum financial participation by retired employees.

In the face of such a careful and limited extension of benefits on the one hand, it would seem rather incongruous to adopt Senate Bill No. 276 which would require every local employer (and there would be in excess of 1,200 such local employers) to grapple individually with the problem of benefit coverage not only for active but also retired employees without the assistance of a single legislative standard.

Nevertheless, I recognize that there are contracts now in existence and that it is not possible, at this time, to rewrite the law concerning employee benefits for the purpose of achieving uniformity of treatment. I do recommend, however, that copies of any future contracts be filed with the State Health Benefits Commission which would have the responsibility of reviewing these contracts and reporting to the Governor and the Legislature periodically its recommendations for achieving uniformity of benefits and treatment of employees throughout the State.

Although it is not possible at the present time to require the uniformity of treatment, any legislation which is enacted to modify the situation created by the *Riddlestorffer* case should set forth some minimum standards and limitations concerning retired employees to guide our local employers. I recommend that standards similar to those set forth in the Public and School Employees' Health Benefits Act be adopted.

In addition, I believe that the provisions of this bill should provide specifically for the validation of existing contracts, provided that they comply with the new provisions, so that no possible misunderstanding can arise as to the rights of employees under these existing contracts. As Senate Bill No. 276 is now written it is conceivable that any existing contracts would have to be renegotiated. Such a result should be avoided.

Finally, I recommend that the provisions which authorize the deduction from a retired employee's pension of his share of the cost of any coverage be eliminated. The Division of Pensions is responsible for the administration of the State's major pension systems. They have indicated that by virtue of the great number of contracts in existence and the large number of carriers writing such coverage that it would be administratively impossible for them to assume the responsibility implied by this provision. According to their records, there are more than 806 local employers providing some form of health benefits protection for more than 140,000 employees. This coverage has been placed with approximately 50 different authorized carriers.

Accordingly, I herewith return Senate Bill No. 276 for reconsideration and recommend that it be amended as follows:

On page 1, Title, line 1, after "amend" insert "and supplement".

On page 2, section 1, line 22, delete "A" and insert in lieu thereof "(A) Any"

On page 2, section 1, line 22, after "thereof" insert ", herein referred to as employers,"

On page 2, section 1, lines 28 and 29, delete "municipality, county, school district, or agency thereof" and insert in lieu thereof "employer".

On page 2, section 1, line 35, delete “retired employees and”.

On page 2, section 1, line 35, after line 35 insert the following new subsection:

“(B) The coverage of any employee, and of his dependents or family members, if any, shall cease upon the discontinuance of his employment or upon cessation of active full-time employment subject to such provision as may be made in any contract by his employer for limited continuance of coverage during disability, part-time employment, leave of absence or lay off, and for continuance of coverage after retirement.”

On page 3, section 2, line 13, delete “The municipality, county, school district or agency thereof” and insert in lieu thereof “(A) Any employer entering into a contract pursuant to the provisions of section 1 of this act”.

On page 3, section 2, line 18, delete “, pension”.

On page 3, section 2, line 20, after line 20 insert the following new subsection:

“(B) The continuance of coverage after retirement of any employee may be provided at such rates and under such conditions as shall be prescribed in the contract provided, however, that the retired employee shall be required to pay an amount not less than the total amount which would have been required to have been paid by him and his employer for the coverage maintained had he continued in employment. The contribution required of any retired employee toward the cost of such coverage may be paid by him to his former employer or in such other manner as the employer shall direct.”

On page 3, section 2, line 21, before “Nothing” insert “(C)”.

On page 3, section 2, lines 21 and 22, delete “the governing body of any municipality, county, school district, or agency thereof” and insert in lieu thereof “an employer”.

On page 3, section 2, line 23, delete “on such group or groups” and insert in lieu thereof “attributable to such contracts”.

On page 3, section 2, line 23, after line 23 insert the following new sections:

“3. It shall be the duty of the executive officer of any employer who hereafter enters into a contract pursuant to the provisions of this act to file a copy thereof with the State Health Benefits Commission. The Commission shall prepare and file periodically and not less than every 2 years, a report to the Governor and the Legislature as to the contracts being entered into by employers under the provisions of this act and shall make such recommendations concerning such contracts and the coverage thereunder as it deems appropriate to achieve uniformity of coverage and benefits for employees throughout the State.

“4. (A) Any contract heretofore executed between an employer and an authorized insurer which would be valid under the provisions of this act is hereby validated and confirmed notwithstanding that such a contract may not have been authorized or properly entered into under the provisions of the act of which this act is amendatory and supplementary.

“(B) Any contract heretofore executed between an employer and an authorized insurer which would be valid under the provisions of this act except for the provisions of section 2 (B) hereof, requiring the payment of premiums by retired employees, is hereby validated and confirmed but such contracts shall not be renewed or extended unless they are amended or modified to be in accord with the provisions of this act.

“(C) It shall not be a defense to the payment or satisfaction of any claim for benefits under any contract or policy validated and confirmed by the provisions of this act that such contract or policy was ultra vires, improperly entered into or otherwise not authorized by law.”

On page 3, section 3, line 1, delete “3.” and insert in lieu thereof “5.”

SENATE BILL No. 32

To the Senate:

I herewith return Senate Bill No. 32, without my approval, for the following reasons:

This bill would authorize any municipality to grant an annual life-time pension not exceeding \$1,000.00 per annum to any former overseer of the poor or former deputy overseer of the poor who shall have served in that capacity for 20 continuous years.

Subsequent to the passage of this measure, a replacement bill was introduced with the cooperation of the sponsor and was passed by the Legislature as Senate Bill No. 353. I signed this bill into law on May 18, 1964 as L. 1964, c. 59. In view of such action, there is no need for further consideration of Senate Bill No. 32.

SENATE BILL No. 109

To the Senate:

I herewith return Senate Bill No. 109, without my approval, for the following reasons:

Public employees who serve as elected members of state-administered pension boards and commissions are now entitled by law to time off with pay to attend board or commission meetings. Senate Bill No. 109 would grant them additional paid leaves of absence during periods of "field work, or investigation necessary in connection with" the

performance of their duties as members of the various boards and commissions.

I cannot agree with the fundamental concept of this bill that "field work or investigation" is the proper business of any member of a public pension board or commission. These officials are required by statute to sit in impartial judgment on pension applications and to determine the merits of each application when, and not before, it is presented to them in a formal and quasi-judicial context. It is neither necessary nor desirable for a pension fund trustee or commissioner to conduct his own "field work or investigation" with respect to a pending pension claim. Such personal foreknowledge could only lead to prejudgment and consequently to an erosion of painstakingly erected safeguards of administrative due process. Any necessary "field work or investigation" can and should be done by the trained staff examiners who are available to each pension board or commission for that very purpose.

Respectfully,

RICHARD J. HUGHES,

Governor.

SENATE BILL No. 248

To the Senate:

I herewith return Senate Bill No. 248, without my approval, for the following reasons:

This bill would amend the law concerning the Delaware River Joint Toll Bridge Commission to require the Governor's appointment of Commissioners thereto to be subject to the advice and consent of the Senate.

I have been told that a moving force behind this Senate bill is a desire on the part of some Senators to see appointees to bi-state agencies treated on a uniform basis. While uniformity of treatment is often a laudatory aim, it should not be considered as an end in itself. In abstract,

the concept of Senate confirmation for such appointees would not seem to be inappropriate. When measured against the record established for other bi-state agencies, it seems less desirable.

For example, the Senate failed to confirm all but 2 of the nominees of former Governor Meyner to the Delaware River Port Authority although this meant that 6 of the 8 positions were left vacant or filled by holdover commissioners for 8 years or more. Even though I have appeared to have had more success with appointments to the Delaware River Port Authority, I find that for the past 2 years, the Senate has not acted upon my appointment of the State Treasurer to that agency. Despite repeated assurances from many responsible Senate leaders, my nomination of this distinguished public servant has not been acted upon and the Governor and the people are denied, through such inaction, the right to a watchdog representative on this important agency. Such a record does not inspire confidence, and certainly would not justify signing this bill into law.

Accordingly, I am returning this bill to the Legislature without my approval.

SENATE BILL NO. 275

To the Senate:

I herewith return Senate Bill No. 275, without my approval, for the following reasons:

Senate Bill No. 275 would amend P. L. 1956, c. 89 to raise from \$1,200.00 to \$1,800.00 the amount which retired teachers, veterans, and other public pensioners can earn annually as substitute teachers without forfeiting their pensions. According to the statement appended to the bill,

this change is designed to protect those retired pensioners who have successfully avoided the social security offset from again being subject to the offset if they return to public employment and earn additional quarters of social security coverage in part-time employment.

If this is the purpose of the bill, it does not accomplish its objective. While individuals meeting certain prescribed requirements and coming under the coverage of either the Teachers' Pension and Annuity Fund or the Public Employees' Retirement System are permitted to retire prior to age 65 and receive a pension in which no offset for social security is made, they are not allowed to earn additional quarters of social security coverage from public employment in New Jersey after the date of retirement and before reaching age 65. Senate Bill No. 275 does not change this result.

The law which this bill would amend does not relate to the portion of an individual's pension which would ordinarily be subject to social security offset, but rather to the right to receive a pension while continuing part-time public employment. These are two separate and distinct subjects.

To the extent that the purpose of this bill is to raise from \$1,200.00 to \$1,800.00 the amount which retired individuals can earn as substitute teachers, it is still unnecessary. N.J.S.A. 43:3-5 already allows substitute teachers to earn up to \$1,800.00 annually without incurring a forfeiture of their pension.

Since this bill does not appear to accomplish any useful purpose, I do not find it necessary to consider whether persons who have been accorded the special privilege of retiring upon a pension free from the ordinary social security offset should be accorded the additional privilege which apparently is intended. This is a subject, however, which should warrant close attention by the Legislature should this matter be reconsidered.

Respectfully,

RICHARD J. HUGHES,

Governor.

SENATE BILL No. 124

To the Senate:

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I herewith return Senate Bill No. 124, with my objections, for reconsideration.

Senate Bill No. 124 is designed to eliminate duplicate workmen's compensation insurance coverage of members of volunteer fire companies and first aid or rescue squads which serve more than one municipality or fire district. The bill is also intended to clarify the extent of such coverage in certain respects, and to grant volunteer fire companies the option of providing compensation insurance for their own members in lieu of relying upon the appropriate governing body to do so.

While I do not object to any of these purposes, the manner in which the bill was drawn does not adequately communicate the legislative intent in several respects. A major problem is the ambiguity caused by the provision which would authorize fire companies to carry their own compensation insurance and to provide evidence of such coverage to the appropriate municipality. When read with the present law requiring the municipality or fire district to provide compensation insurance, it becomes evident that this could require duplicate coverage. In order to clarify the responsibility and to assure coverage, the municipality or fire district should be relieved of its obligation upon receipt of evidence that the fire company is providing for its own compensation insurance.

Several other problems are created through the use of inconsistent language. With the cooperation of the sponsor, amendments have been developed to eliminate these difficulties.

Accordingly, I herewith return the measure for reconsideration and with the recommendation that it be amended as follows:

On page 2, section 1, line 26, after "marshals" insert " , ".

On page 2, section 1, line 26, after "and" insert "the term 'doing public first aid or rescue duty,' as applied to".

On page 2, section 1, line 26, after "workers" insert " , ".

On page 2, section 1, line 29, after "company" insert "or the first aid or rescue squad".

On page 2, section 1, line 30, after "parade" insert " , ".

On page 2, section 1, lines 30 and 31, delete "of said volunteer firemen or marshals either with or without their fire apparatus".

On page 3, section 2, line 3, before "governing" delete "The" and insert in lieu thereof "Except as otherwise provided in this section, the".

On page 4, section 2, line 21, delete "who contribute" and insert in lieu thereof "which contributes".

On page 4, section 2, line 22, delete "and emergency" and insert in lieu thereof "or rescue".

On page 4, section 2, line 29, after "committee" insert " , nor shall the provisions of this section require the governing body of any municipality or the committee of any fire district to provide compensation insurance whenever evidence that a fire company has obtained its own insurance coverage is provided to the governing body or committee".

On page 4, section 3, lines 1 through 4, delete these lines in their entirety and insert in lieu thereof "Any volunteer fire company may provide compensation insurance for".

On page 4, section 3, lines 5 and 6, delete “and emergency” and insert in lieu thereof “or rescue”.

On page 5, section 3, line 13, delete “required” and insert in lieu thereof “authorized”.

On page 5, section 3, line 14, after “municipality” insert “or the committee of any fire district”.

Mr. Mathis offered the following resolution, which was read and adopted:

WHEREAS, For the past twenty-eight years, the late A. Paul King of Beach Haven, New Jersey, served the people of Ocean County as a member of its Board of Chosen Freeholders and twelve times as Director of that Board; and

WHEREAS, Mr. King served with distinction as President of the New Jersey Association of Chosen Freeholders (1945), and more recently as Executive Editor of its monthly newsmagazine, *New Jersey County Government* (1948-1964); and

WHEREAS, During his long and productive lifetime, Mr. King served variously as President of the New Jersey Resort Association and was one of its founders, as Secretary of the Beach Erosion Commission of the State of New Jersey, and as auditor for a number of municipalities in the counties of Ocean, Monmouth and Atlantic; now, therefore,

Be It Resolved by the Senate of the State of New Jersey: That public expression is hereby given to the memory of the late A. Paul King, who worked tirelessly for the progress of his County and his State and shall continue to live in the affection and respect of his fellow citizens; and

Be It Further Resolved, That this resolution be spread upon the Journal of the Senate and that a copy, signed by the President of the Senate and attested by its Secretary,

be sent to each of his four surviving sons, Adrian P. King, Jr., Howard King, Earl M. King and Ronald King.

Mr. Hillery offered the following resolution, which was read and adopted:

WHEREAS, Former Senator Frank D. Abell of Morristown, died on November 22, 1964; and

WHEREAS, For years Senator Abell was an outstanding citizen of his county of Morris and of the State; and

WHEREAS, Senator Abell had long been active in civic government and banking affairs, having served in the State Assembly in 1925 and 1926 and in the Senate from 1926 to 1931, and for 12 years had been a member of the Board of Chosen Freeholders of Morris County, and at one time was a member of the Port of New York Authority; and

WHEREAS, Senator Abell is remembered for his interest and active participation in Y. M. C. A. and the Morris County Grange, as well as in banking circles; now, therefore,

Be It Resolved by the Senate of the State of New Jersey:

That public tribute is hereby paid to the memory of the late Frank D. Abell for his outstanding public services and civic activities and sorrow is expressed at his passing; and

Be It Further Resolved, That this resolution be spread upon the Journal of the Senate and that a copy, signed by the President of the Senate and attested by the Secretary of the Senate, be forwarded to the family of the late Frank D. Abell.

Mr. Sarcone offered the following resolution, which was read and adopted:

A resolution of congratulations and commendations to the Reverend Benedetto Pascale.

WHEREAS, The Reverend Benedetto Pascale, Pastor of the Silver Lake Baptist Church in the Town of Belleville in the County of Essex, this year will celebrate the fiftieth anniversary of his services to his congregation, community and county;

WHEREAS, In 1914, the Reverend Mr. Pascale, while still a student in Divinity School, was called to engage in missionary work at Silver Lake under the auspices of the First Baptist Church of Bloomfield;

WHEREAS, In the ensuing fifty years, under the dynamic leadership of the Reverend Mr. Pascale, the Silver Lake Baptist Church became self-supporting, was enlarged and improved, and contributed to a significant degree to the spiritual and civic welfare of his congregation, the Town of Belleville and the County of Essex;

WHEREAS, The Reverend Mr. Pascale has served as moderator of the New Jersey Baptist East Association and as president of the New Jersey Ministers Conference; and

WHEREAS, The Reverend Mr. Pascale has devoted his life in service to the spiritual and community needs of his people and is recognized and highly respected throughout the State as both a Christian and civic leader; now, therefore,

Be It Resolved by the Senate of the State of New Jersey, That it hereby extend its congratulations and commendations to the Reverend Benedetto Pascale on the golden anniversary of his service to his congregation at the Silver Lake Baptist Church in the Town of Belleville and to the people of his community, county and State, and

Be It Further Resolved, That a copy of this resolution, signed by the President of the Senate and attested by the Secretary of the Senate, be presented to him.

Mr. Dumont offered the following resolution, which was read and adopted:

A Senate resolution of commendation on the success of the seventeenth annual meeting of the National Legislative Conference.

WHEREAS, The New Jersey Legislature, in behalf of the State of New Jersey, was privileged to be host for the seventeenth annual meeting of the National Legislative Conference held at Atlantic City during the week of September 21, 1964;

WHEREAS, The National Legislative Conference is an organization comprised of the legislators and legislative staff personnel from all of the 50 States and the American territories and possessions and devoted to improving the legislative process;

WHEREAS, Said seventeenth annual meeting was a distinct and signal success as evidenced by a resolution adopted unanimously by the Conference and by numerous messages

of commendation and congratulations on the warm welcome and true hospitality extended to the delegates on behalf of the people of the State of New Jersey during their celebration of New Jersey's tercentenary; and

WHEREAS, The success of this meeting was due, in large measure, to the painstaking and co-operative efforts of many persons, including the members of the Law Revision and Legislative Services Commission and its staff; the members of the staffs of the Senate and General Assembly; the Conference Steering Committee, particularly its Secretary, who effectively directed and co-ordinated the numerous details essential to the planning and execution of the Conference arrangements; the Host Executive Committee; the Hostess Executive Committee, comprised of the wives of legislators and staff personnel; and the Senator and Assemblymen from Atlantic County, who gave unselfishly of their time and effort in formulating and directing local arrangements; now, therefore,

Be It Resolved, That the Senate of the State of New Jersey extend its sincere commendation and appreciation to all those mentioned above for their efforts in making the seventeenth annual meeting of the National Legislative Conference an eminent success.

Mr. Farley assumed the President's Chair.

Mr. Hillery assumed the President's Chair.

Mr. Sandman offered the following resolution, which was read and adopted:

WHEREAS, Former State Senator and Assemblyman I. Grant Scott, of Cape May, died on November 17, 1964; and

WHEREAS, Senator Scott only recently retired as Clerk of the New Jersey Superior Court and had been in May last, elected to his second term as Mayor of Cape May; and

WHEREAS, Senator Scott, a native of Trenton, New Jersey, had a long and distinguished public career including his service in the Assembly in 1936 and 1937, and in the Senate from 1937 to 1944, and as President of the Senate in 1941 and 1942, and as the Clerk of the former Court of Chancery, and as the first Clerk of the New Jersey Superior Court under the new Constitution; and

WHEREAS, Senator Scott had been a Commissioner of the City of Cape May and its Mayor, and was widely known throughout the State not only for his public services, but as a Reserve Officer in the United States Navy, in the American Legion, in college fraternity circles and in many civic activities; now, therefore,

Be It Resolved by the Senate of the State of New Jersey:

That public tribute is hereby paid to the memory of the late I. Grant Scott and profound regret is expressed on the occasion of the passing of this distinguished citizen of his county and State, and sympathy is extended to his family; and

Be It Further Resolved, That this resolution be spread upon the Journal of the Senate and that a copy signed by the President of the Senate and attested by the Secretary of the Senate, be forwarded to the family of former Senator I. Grant Scott.

Mr. Sandman resumed the President's Chair.

Mr. Ozzard moved that the Senate take a recess of 15 minutes.

Which was agreed to.

Upon the conclusion of which, and under the direction of the President, the Secretary called the Senate, when the following Senators appeared and answered the call:

THURSDAY, December 17, 1964.

At 2:00 o'clock P. M. the Senate met.

The session was opened with prayer by the Reverend W. Neal Raver.

Under the direction of the President, the Secretary called the Senate, when the following Senators appeared and answered the call:

Messrs. Bowkley, Deamer, Dumont, Farley, Forsythe, Grossi, Hillery, Hunt, Kelly, Lynch, Mathis, Ozzard, Ridolfi, Sandman (President), Sarcone, Scholz, Stamler, Stout, Waddington, Weber, Woolfenden—21.

On motion of Mr. Ozzard the journal of the previous session was approved and its further reading was dispensed with.

The Report of the New Jersey Commission on Civil Rights was received and filed.

Mr. Ozzard offered the following resolution, which was read and adopted by the following vote:

Be It Resolved, That the vote of the Senate in adopting Rule 8A "weighted voting" at its November 16, 1964 Session be reconsidered; that the Senate's action in adopting Rule 8A be rescinded, and that the Rules of the Senate be amended by deleting therefrom the said Rule 8A.

In the affirmative were—

Messrs. Bowkley, Deamer, Dumont, Farley, Forsythe, Grossi, Hillery, Hunt, Kelly, Lynch, Mathis, Ozzard, Ridolfi, Sandman (President), Sarcone, Scholz, Stamler, Stout, Waddington, Weber, Woolfenden—21.

In the negative—None.

Mr. Hillery, on leave, introduced

Senate Bill No. 420, entitled "A supplement to 'An act making appropriations for the support of the State Government and for several public purposes for the fiscal year

ending June 30, 1965, and regulating the disbursement thereof,' approved May 22, 1964 (P. L. 1964, c. 76),''

Which was read for the first time by its title and given no reference.

Mr. Hillery moved that the rules be suspended and that Senate Bill No. 420 be advanced to second reading, without reference.

Which motion was adopted.

Senate Bill No. 420, entitled "A supplement to 'An act making appropriations for the support of the State Government and for several public purposes for the fiscal year ending June 30, 1965, and regulating the disbursement thereof,' approved May 22, 1964 (P. L. 1964, c. 76),''

Was taken up, read a second time, considered by sections, agreed to and ordered to have a third reading.

Mr. Hillery offered the following resolution, which was read and adopted by the following vote:

Be It Resolved by the Senate by the vote of three-fourths of all of its members, signified by yeas and nays entered on the Journal of the Senate, that

Senate Bill No. 420,
is an emergency measure and may proceed forthwith from second to third reading.

In the affirmative were—

Messrs. Bowkley, Deamer, Dumont, Farley, Forsythe, Grossi, Hillery, Hunt, Kelly, Mathis, Ozzard, Sandman (President), Sarcone, Scholz, Stout, Waddington, Woolfenden—17.

In the negative—None.

SENATE BILL NO. 70

To the Senate:

I herewith return Senate Bill No. 70, without my approval, for the following reasons:

Senate Bill No. 70 authorizes the governing body of any municipality which has adopted civil service to provide by resolution for the payment of sick leave benefits to members of a municipal beach patrol who are "seasonal employees" and have been employed as such for at least ten years. Such benefits would vest "in the same manner and to the same extent as in the case of permanent employees in the

standard plate design for the benefit of one particular group would create serious and unnecessary administrative problems for the Division of Motor Vehicles. At that time, Governor Meyner pointed out that any need for special automobile identification of amateur radio operators in connection with their civil defense and other public activities could be satisfied by the adoption of appropriate insignia to be affixed to their vehicles along with regular registration plates. It was also observed that such special treatment of one group inevitably would be followed by similar requests from many others with equally cognizable claims, thus compounding the administrative difficulties beyond estimation.

After reviewing Senate Bill No. 147 in the light of the objections expressed by the earlier message, I must agree that special plates cannot be justified on the basis of any necessity for distinctive identification of the vehicles of amateur radio operators who assist in civil defense functions and emergencies. This objective can be realized in a number of other ways, perhaps by the use of specially designed smaller plates to be issued by the State for attachment along the top of regular registration plates. A bill to authorize the issuance of such insignia to amateur radio operators could meet the asserted need for identification. In any event, I cannot subscribe to the argument that the complete replacement of regular plates by special plates is necessary to the public work of amateur radio operators.

I recognize, however, that our amateur radio operators have a genuine interest in being accorded this privilege. In an effort to be completely objective in this matter, I withheld any decision until the Division of Motor Vehicles had an opportunity to restudy the administrative and law enforcement aspects of the proposal to determine whether it might be possible to accommodate the wishes of this group in a manner compatible with the public interest. After a comprehensive review of the bill and its implications, the Division has concluded that the installation of such a special numbering and lettering system for a relatively small percentage of our drivers would seriously disrupt the entire New Jersey registration and vehicle identification system, which is among the finest and most efficient in the United States today. I have no alternative but to defer to that judgment.

It is true that many states do authorize the issuance of special call letter plates to amateur radio operators. These states, however, do not have New Jersey's uniform registration plate format with its advantage of swift and accurate identification of motor vehicles. The central filing system of the Division of Motor Vehicles is geared to a registration plate designation of three letters followed by from one to three numbers. Any variation from that sequence would render the keeping of proper records far more difficult and subject to error. In addition, motor vehicle law enforcement officers are trained to identify vehicles in terms of our familiar and uniform plate design, and special plates could cause confusion and inaccuracy.

Furthermore, while most other states issue replacement plates annually and close out their records at the end of each year, the New Jersey renewal system entails the expiration of one-twelfth of all outstanding registrations during each calendar month. This staggered system is highly efficient, but necessarily means that the records of the Division of Motor Vehicles are in a constant state of flux and must be updated continually. There can be no doubt that a special format for a particular group would severely impede this essential operation. Finally, approval of this bill unquestionably would open the door to the issuance of special plates to many other worthy groups, and consequently to the breakdown of a numbering and lettering system which is second to none.

As indicated above, I would be sympathetic to any proposal which would accommodate the desire of amateur radio operators for distinctive insignia in a way that does not intrude upon the overriding public interest in the maintenance of an accurate and efficient motor vehicle registration system. Since Senate Bill No. 147 would conflict demonstrably with the public interest, however, I feel that I must return this bill without my approval.

Respectfully,

RICHARD J. HUGHES,
Governor.

SENATE BILL NO. 236

To the Senate:

I herewith return Senate Bill No. 236, without my approval, for the following reasons:

Senate Bill No. 236 would amend the penalty section of the Uniform Narcotic Drug Act in three respects:

(1) It would eliminate the existing language which provides that any person over the age of 21 years who sells or gives any narcotic drug, except as authorized by law, to any person under the age of 18 years, is guilty of a high misdemeanor and is punishable by a fine of not less than \$2,000.00 or more than \$10,000.00 and by imprisonment at hard labor for not less than 2 years with a maximum of imprisonment for life.

(2) It would insert a new provision that any person who manufactures or sells any narcotic drug in violation of any of the provisions of the Uniform Narcotic Drug Act "solely for purposes of pecuniary gain or with intent to, or under such circumstances as shall tend to, corrupt youth" shall be guilty of a high misdemeanor and punishable by imprisonment for a term of not less than 20 years with a maximum of imprisonment for life.

(3) It would prohibit the suspension of the mandatory sentence provided for under the provisions discussed in point 2 above.

As I have attempted to indicate in my message on Senate Bill No. 235 which is being returned today with certain recommendations, I will consider favorably any legislation which will assist the duly constituted authorities in their efforts to control or to eliminate illicit traffic in narcotic drugs. Indeed, as I have stated, I share the Legislature's concern with the problem caused by the misuse of narcotic drugs. I believe the provisions of Senate Bill No. 210, a bill which I have approved today, represents a significant step forward in the State's battle to deal realistically with this problem. By establishing an affirmative policy directed to the prevention of drug addiction and the rehabilitation

of drug addicts, the State has recognized that this problem cannot be treated simply as a law enforcement matter. This does not imply that existing criminal provisions cannot be improved nor that they should not be strengthened. It does mean, however, that any steps taken in this direction must be carefully measured to produce meaningful and desirable results.

By such a test, Senate Bill No. 236 is poor legislation. Not only is it vague and difficult of interpretation in many respects, but in the few areas where the bill is clear, a literal interpretation of the provisions can lead to ludicrous results. This is separate and apart from the provisions requiring a mandatory minimum sentence. My reason for opposing such provisions are set forth in detail in my message on Senate Bill No. 235.

For example, the bill would condemn any person who sells or manufactures a narcotic drug in violation of the provisions of the Uniform Narcotic Drug Act "solely for purposes of pecuniary gain". It would punish such an offender through the imposition of a sentence of not less than 20 years without any possibility of leniency by judge or jury. Superficially, this may seem to be fit retribution for those individuals who would traffic illicitly in narcotic drugs. The Uniform Narcotic Drug Act, however, to which this penalty provision applies, is not a criminal statute as such. It is largely a regulatory act specifying the standards for the manufacture and sale of narcotic drugs. Basically it is applicable to the businessmen and professional people who must handle such drugs as an ordinary part of their activities. The act contains numerous technical provisions. It requires, for instance, that a prescription contain the date of filling and the signature of the person who has filled the prescription on the face thereof. It is a violation of the act for pharmacists to sell a narcotic drug unless the prescription is properly executed in this manner. Under the terms of Senate Bill No. 236, such a violation could result in a mandatory 20-year sentence.

Similarly, it is unlawful to refill a narcotic drug prescription. A pharmacist who would do so would face a minimum 20-year penalty. Similar restrictions would apply to physicians and dentists. Presumably, they too would deal with narcotic drugs at their peril, confronted by the same awesome penalty for any misstep.

In addition, the Uniform Narcotic Drug Act requires manufacturers, wholesalers and pharmacists to keep specific records. A failure to keep records of the sale of narcotic drugs in the manner prescribed by the act would constitute a violation. Presumably, such violations again could result in conviction and mandatory 20-year sentences. These examples represent but a few of the possible violations which could come within the ambit of the penalty clause, and yet obviously do not represent the criminal activity aimed at by the statute.

It may be argued that such violations are not the ones against which Senate Bill No. 236 is directed; that the Legislature did not intend that such severe sentences should be applied in such instances. The law, however, provides for no such flexibility in imposing the penalty; it permits no discretion. It is this very lack of flexibility which could lead to such results. Every law enforcement officer, every prosecutor, every judge and every member of a jury, when faced with such innocuous violations would be required either to adhere to these penalty provisions, although unbelievably harsh, or to use their own conscience as a basis for nullifying what is expressed as a clear mandate of the Legislature.

It is the lawmaker's responsibility in the first instance to make certain that his product is sound. The public should not be compelled to rely upon the good judgment of others to safeguard it from the poor judgment of the lawmaker.

Equally difficult problems are presented by the provisions of the bill which would make it a high misdemeanor for any person to manufacture or sell a narcotic drug in violation of the provisions of the Uniform Narcotic Drug Act "with intent to, or under such circumstances as shall tend to, corrupt youth".

Well-established principles of constitutional and criminal law assert that:

"A statute which either forbids or requires the doing of an act in terms so vague that men of common intelligence must necessarily guess at its meaning and differ as to its application violates the first essential of due process of law." *State v. New York Central Railroad Co.*, 37 N. J. Super. 42 (App. Div. 1955).

The county prosecutors to whom this legislation was submitted for their comments, have uniformly indicated their difficulty with interpreting the language of this provision. The requirement that an act "tend to corrupt youth" is so amorphous as to defy certain interpretation. Even if a prosecutor were able to satisfy a jury, it is doubtful that such a conviction could stand before the Courts. This is especially true when the penalty for violating such provisions is a mandatory sentence for not less than 20 years. When the stakes are so high, the Courts rightfully insist that the rules be clear. Yet, this provision fails to specify, except in broadest generalities, the conduct prohibited thereunder.

The Legislature has taken a sound step forward with the enactment of Senate Bill No. 210. It should not demean its accomplishment with the passage of bills such as Senate Bill No. 236.

Respectfully,

RICHARD J. HUGHES,

Governor.

SENATE BILL NO. 237

To the Senate:

I herewith return Senate Bill No. 237, without my approval, for the following reasons:

This bill is a companion measure to Senate Bills Nos. 235 and 236. It would prohibit the suspension of the mandatory minimum sentences which would have been imposed under the provisions of these bills.

I have today also returned to the Legislature Senate Bills Nos. 235 and 236. In the case of Senate Bill No. 235, I have recommended certain amendments to replace the mandatory provisions set forth therein. For the reasons set forth in the messages as to these bills, I cannot approve of this bill's proposal to strip the judiciary of its power concerning suspension of sentencing. Nowhere, in the report of the

Narcotic Drug Study Commission, the recommendations of which this bill purports to carry out, is there any indication that the courts have abused this power. In the absence of such facts, this bill cannot be justified.

SENATE BILL No. 294

To the Senate:

I herewith return Senate Bill No. 294, without my approval, for the following reasons:

The Department of Civil Service in the executive branch of State government is headed by a commission of 5 members who are appointed by the Governor with the advice and consent of the Senate. Unlike most other department heads, who serve either at the pleasure of the Governor or, in two instances, for terms coextensive with that of the Governor, each Civil Service Commissioner now receives a fixed term of 5 years. These terms deliberately are designed to extend beyond the tenure of the appointing Governor and to be out of step with the 4-year span of any particular Administration. The reason, which is keyed to the over-all policy of the Civil Service Act and to the constitutional mandate of complete impartiality in matters of public employment, is that the Civil Service Commission should be insulated as effectively as possible from partisan political considerations.

Senate Bill No. 294 would remove this barrier against political pressure by providing that appointments to the Civil Service Commission henceforth "shall be made in such manner that the appointees shall be, as nearly as possible, in equal numbers, members of different political parties." The phrase "political parties" is defined by the bill to mean the two parties which enjoy the greatest representation in the General Assembly at the time when

the appointments are made. The bill would further specify that one of the 5 commissioners shall serve "at the pleasure of the Governor," rather than for the 5-year term conferred upon his 4 colleagues. This measure, therefore, envisions a Civil Service Commission composed of 2 Republicans and 2 Democrats, appointed to 5-year terms, and a "swing" member without a fixed term who presumably would be of the political persuasion of the appointing Governor.

To the best of my knowledge, this is the first bill passed by the Legislature which would impose a political test of eligibility to serve, either singly or in conjunction with other board or commission members, as the head of a principal department of government. Unlike other states which have adopted the theory that executive department heads should be chosen through the political process, New Jersey in its Constitution has made the decision that all individual department heads, and all members of boards or commissions which are department heads, "shall be nominated and appointed by the Governor with the advice and consent of the Senate." Article V, Section IV, paragraph 2, 3 and 4. The Constitution does not specify any particular qualifications for appointment to the head of any department, but confers upon the Governor the widest possible latitude in selecting the best appointees who are available subject to Senate confirmation.

Senate Bill No. 294 runs in opposition to this constitutional scheme by seeking to establish a qualification for appointment to the Civil Service Commission which bears no reasonable relationship to the ability of a prospective appointee to discharge the responsibilities of that office. Under this bill, individual vacancies on the Commission would have to be filled with an eye toward maintaining its political character, thus reducing the field of eligible appointees to members of the major political party whose "turn" it happens to be.

The shortsightedness of such a partisan political test becomes even more apparent when it is realized that the bill would automatically exclude from consideration for appointment to the Commission any person who is recorded as an independent voter or who is a member of a political party other than the 2 major parties. Yet, in many cases, "nonpartisan" persons can best perform certain functions in an area as politically delicate as civil service. In the past,

consultants, university personnel and other nonaligned persons have been brought into government for the benefit of their fresh insight. Senate Bill No. 294 would disrupt such practices.

While I have the highest respect for persons who engage in partisan politics, I can see no basis for limiting appointments to such persons especially when the agency in question, the Civil Service Commission, is under a constitutional mandate to make appointments and promotions "according to merit and fitness."

SENATE BILL No. 309

To the Senate:

I herewith return Senate Bill No. 309, without my approval, for the following reasons:

Senate Bill No. 309 would supplement Title 18 of the Revised Statutes (the school laws) to provide that any person who operates a public school bus without the electric identification and warning lamps required by P. L. 1948, c. 133, is a disorderly person and shall be subject to a fine not exceeding \$25.00.

This measure, in common with several other bills passed during the current session, represents an attempt to solve what is essentially a motor vehicle problem outside the scope of the motor vehicle law. Under the existing statutory arrangement, the basic act pertaining to school bus safety equipment, P. L. 1948, c. 133, is set forth in Title 18 as a supplement to the school laws. Unfortunately, this act contains no enforcement provisions and does not give the Division of Motor Vehicles specific authority to secure compliance with its requirements.

Senate Bill No. 54 would establish a mandatory procedure for an annual central inventory of "all property, both real and personal, owned by the State." Under this procedure, the head of each principal department of State government would submit to the Director of the Division of Purchase and Property a yearly report, containing (1) "a complete list of all real and personal property" held by that department; (2) an indication of which division, bureau or other agency within the department has custody of each item; and (3) in the case of personal property, a designation as to whether each item held by the department is in regular use, is reserved for standby use, or is regarded as surplus. On the basis of these departmental reports, the Director of the Division of Purchase and Property would compile an annual master list of all State holdings. The bill, however, fails to appropriate any funds to meet the cost of this new program.

No one, I am certain, would quarrel with the purpose of this bill or with the assertion of its proponents that a centralized inventory system would constitute a further contribution to the efficient and economical management of the State's business. As a matter of long-standing policy, all departments are constantly reviewing their operations with the objective of conducting them in the least expensive, yet most effective manner. This continuing effort has met with demonstrable success, for it is a matter of record that New Jersey currently ranks 50th among all the states in total per capita governmental expenditure. At the same time, we must recognize that it can never become impossible to achieve even greater reductions in the cost of government. Thus I am always receptive to proposals, such as Senate Bill No. 54, which aim toward that goal.

In its present form, however, this measure could be interpreted to impose upon the State a new financial burden which would be wholly out of proportion to whatever benefits might be realized from the adoption of a central inventory program. When a fiscal note was requested while the bill was pending in the Legislature, the Director of the Division of Budget and Accounting submitted to the Legislative Budget and Finance Director an estimate that such a program would cost \$330,000.00 for the first year of its operation and \$130,000.00 for the following year. This estimate was based upon the inventory experience of other states and the Federal government, and upon the Budget

Director's understanding that the bill "is intended to cover virtually *all* items of real and personal property owned by the State." The Legislative Budget and Finance Director, acting pursuant to *P. L. 1962, c. 27*, decided that these figures were inaccurate, and substituted his own fiscal note estimating the annual cost of the program at only \$30,000.00. It was this note, which contained no reference to the rejected initial estimate of \$330,000.00, that was furnished to the Legislature and upon which the bill was considered and passed.

The text of the fiscal note prepared by the Legislative Budget and Finance Director does not undertake to explain the reasons for the startling discrepancy between his estimate and that of the Director of the Division of Budget and Accounting. It would appear, however, that the revised \$30,000.00 estimate was predicated on the assumption that the scope of the bill is limited to those relatively few items of property which can be inventoried and valued by the various departments at little or no additional effort and expense. This category presumably would be confined to real property which already has been surveyed, and to large and important items of personal property such as machinery, structures and automotive equipment. Thus the fiscal note evidently discounted any consideration of a complete survey of all State-owned realty, a project which to date has cost the State of Ohio \$457,000.00, as well as the factors involved in compiling departmental lists of *all* personal property down to the last pencil and paper clip. However, as was correctly observed by the Director of the Division of Budget and Accounting, Senate Bill No. 54 by its terms would extend to "all property, both real and personal," including the types of property which the Legislative Budget and Finance Director apparently saw fit to read out of the bill.

These substantially different interpretations of the legislative intent, leading as they have to such widely divergent fiscal projections, suggest the need for clarification of the categories of property to be covered by this bill. For the reasons advanced by the Director of the Division of Budget and Accounting and supported by others who are knowledgeable in this area, I am convinced that it would be far too costly for the State to undertake an itemized inventory of each and every item which it owns, including, for example, such miniscule and non-durable articles as ordinary

office supplies. While the notion of an absolutely exhaustive inventory might be appealing in the abstract, this State has too many other immediate fiscal needs to warrant the expenditure of the sort of money such a project would require.

On the other hand, it would seem pointless to restrict the application of the bill to the more important types of property which can be inventoried at the minimal cost and effort suggested by the fiscal note of the Legislative Budget and Finance Director. The information so obtained would be of a general nature and would be of limited assistance to those interested in improving the State's handling of its property. This program, if it is to be meaningful, should extend to all categories of State assets which represent significant property investments, and which in fact can be inventoried at a cost commensurate with the advantages to be derived from the program.

Such a criterion admittedly is nebulous. We must realize, however, that the adoption of a central inventory system is in the nature of an experiment for this State. Despite the easy assurances of some, no one can know exactly how it will work or how much it will cost. Thus I believe it would be best at this time to delineate and establish those categories of property which lend themselves to an effective central inventory that will not be prohibitively expensive to conduct. When the program has been initially established and can be evaluated in its operation, categories can be added or expanded on the basis of actual experience in this field.

Therefore, I am recommending that Senate Bill No. 54 be amended to empower the State Treasurer, as our chief fiscal officer, to establish those categories of State-owned property which should be covered by an efficient and economical central inventory system. The preparation of such categories will provide a factual basis on which to accurately estimate the initial cost of the program for the purpose of providing a suitable appropriation. The State Treasurer also should be authorized to regulate the timetable for the effectuation of this experimental program, lest it be hampered at its birth by the rigid deadlines now imposed by the bill. In this manner, the pioneer project envisioned by Senate Bill No. 54 could be undertaken with some sense of direction rather than as a venture into the unknown.

The scope and complexity of the project, however, are such that even the initial step of establishing categories will require manpower and expenditures not now available to the Treasury Department. I have been informed that this preliminary task will cost \$10,000.00 in additional salaries and facilities, and I suggest that the bill be further amended to appropriate that sum.

Finally, I am recommending that section 3 of the bill, which concerns the duty of the Division of Purchase and Property to reassign surplus items of personal property on the basis of need, be amended to include real property as well, and to eliminate possible conflicts with the existing law on this subject.

In conformity with the foregoing suggestions, I herewith return Senate Bill No. 54 for reconsideration and with the recommendation that it be amended in the following respects:

On page 1, title, line 2, after "upon" insert "the State Treasurer,".

On page 1, title, line 3, delete "upon".

On page 1, title, line 4, after "therewith" insert "and providing an appropriation therefor".

On page 1, section 1, line 1, insert a new section as follows:

"1. It shall be the duty of the State Treasurer, as soon as may be practicable after the effective date of this act, to establish by regulation the categories of property owned by the State which shall be subject to the central inventory program created by this act. Such categories shall include all property, both real and personal, owned by the State, whether held in the name of the State or in the name of a principal department or of any division, bureau, commission or other instrumentality within a principal department, which it may be necessary or desirable to inventory in furtherance of the efficient and economical management of the assets of this State.

"The State Treasurer also shall establish by regulation a schedule which shall specify the times or dates by which all duties imposed by this act upon the head of each principal department and upon the Director of

the Division of Purchase and Property shall be performed.

“In addition to the foregoing powers and duties, the State Treasurer is hereby authorized and empowered to make, alter, amend and repeal such rules and regulations as shall be necessary to implement the provisions of this act.”

On page 1, section 1, line 1, delete “1” and insert in lieu thereof “2”.

On page 1, section 1, lines 1 through 6, delete the first sentence of this section in its entirety and insert in lieu thereof, “It shall be the duty of the Director of the Division of Purchase and Property to prepare in triplicate on or before such date in each year as shall be designated by regulation of the State Treasurer a master list of all property which is included in any of the categories established by regulation of the State Treasurer pursuant to section 1 of this act.”

On page 1, section 2, line 1, delete “2” and insert in lieu thereof “3”.

On page 1, section 2, lines 3 and 4, delete “on or before April 30”.

On page 1, section 2, line 4, after “Property” insert “, on or before such date in each year as shall be designated by regulation of the State Treasurer,”.

On page 2, section 2, line 8, after “January 1”, insert “, and which is included in any of the categories established by regulation of the State Treasurer pursuant to section 1 of this act”.

On page 2, section 2, line 18, delete “July 31, 1964” and insert in lieu thereof “such date as may be designated by regulation of the State Treasurer”.

On page 2, section 3, line 1, delete “3” and insert in lieu thereof “4”.

On page 2, section 3, line 2, after “of” insert “real or”.

On page 2, section 3, line 10, delete “reassign” and insert in lieu thereof “provide for the reassignment of”.

On page 2, section 3, line 11, after "appear" insert "or for the sale thereof in accordance with the provisions of law applicable to the reassignment or sale of such property".

On page 2, section 4, line 1, delete "4" and insert in lieu thereof "5".

On page 2, section 5, line 1, delete "5" and insert in lieu thereof "6".

On page 2, section 5, line 2, delete "section 1" and insert in lieu thereof "section 2".

On page 3, section 5, line 5, delete "section 2" and insert in lieu thereof "section 3".

On page 3, section 5, line 7, delete "sections 3 and 4" and insert in lieu thereof "sections 4 and 5".

On page 3, after line 9, insert a new section as follows:

"7. There is hereby appropriated to the State Treasurer the sum of \$10,000.00 for the purpose of carrying out the duties imposed on him by this act."

On page 3, section 6, line 1, delete "6" and insert in lieu thereof "8".

SENATE BILL No. 152

To the Senate:

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I herewith return Senate Bill No. 152, with my objections, for reconsideration.

Senate Bill No. 152 provides that whenever a civil or criminal action is brought against any person who is a

member of a board of education for any act or omission "arising out of and in the course of the performance of his duties" as a board member, and such action results in a final disposition favorable to the board member, the costs of defending the litigation shall be borne by the board of education.

Undoubtedly, the public-spirited citizens who serve without compensation as members of boards of education should not be required to incur the personal expense of defending themselves against lawsuits growing out of the performance of their official duties. I, therefore, agree that the existing law which heretofore has been construed to recognize the implied authority of local boards to defray the legal expenses of board members in such cases should be codified and converted by statute into a mandatory duty. Boards of education now have a statutory obligation to furnish legal assistance to public school officers and employees in similar instances (R. S. 18:5-50.2), and it seems entirely appropriate to provide board members with the same assurance of protection against the legal hazards which sometimes inhere in public service.

As this bill is drawn, however, it fails to achieve much of its apparent objective by providing, as a prerequisite to such assistance, that the litigation must terminate favorably to the board member. This means that a board member sued in connection with his official duties would be entirely responsible for his own legal expenses in the first instance, without assurance of reimbursement unless the case is decided in his favor. By way of contrast, public school officers and employees now are entitled by statute to legal assistance at the board's expense upon the commencement of suit, without regard to the final outcome of the proceedings. R. S. 18:5-50.2. In addition, the existing implied authority of boards of education to bear the costs of defending suits against their members is not contingent upon favorable termination of the litigation.

If this bill is intended to advance rather than to reduce the existing rights of members of boards of education in this regard, I can discern no sound reason for imposing so formidable and unrealistic a condition upon their right to such protection. So long as the act for which a board member is sued was performed pursuant to his official obligations, the final result of the suit should have no bear-

ing upon the duty of the board to bear the cost of his defense.

Accordingly, I herewith return Senate Bill No. 152 for reconsideration and recommend that it be amended as follows:

On page 1, section 1, lines 3 and 4, delete "and such action results in final disposition in favor of such person".

Respectfully,

RICHARD J. HUGHES,

Governor.

SENATE BILL No. 235

To the Senate:

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I herewith return Senate Bill No. 235, with my objections, for reconsideration.

Senate Bill No. 235 would amend the existing law which prohibits the employment or use of any child under the age of 18 years to transport, sell or otherwise deal with certain specified narcotic drugs for an unlawful purpose. It would limit the existing provisions, the violation of which now constitutes a high misdemeanor, to situations where the person who is hiring or employing such a child is addicted to the use of these narcotic drugs. The bill would then add a new section to the law to provide that if any person who is not addicted to the use of these narcotic drugs employs a child under the age of 18 years to transport, sell or otherwise deal with these drugs, he shall be guilty of a high misdemeanor and shall be punished by imprisonment, with hard labor "for a term of not less than 20 years with a maximum of imprisonment for life."

The obvious purpose of this bill is to provide as severe a penalty as possible for non-addicted persons who would seek to use children to further illicit narcotic activities. I

am certain that there is universal agreement that any person who would deliberately misuse children in such a nefarious manner, deserves the severest possible treatment. Indeed, if I were convinced that such activities could be eliminated through the use of harsh penalties, I would be willing to consider the strongest possible measures. Therefore, I am in agreement with the Legislature's desire to increase the penalty for such offenses. This bill, however, does much more than authorize a more severe penalty. It would require the imposition of a sentence of not less than 20 years in every case without regard to any extenuating circumstances that may be present. The use of such a harsh mandatory minimum sentence marks a sharp departure from the practice in all other areas of the criminal law. Even in the case of homicides, juries and judges are presented with a wide latitude in dealing with offenders. Sentences of life imprisonment or death are reserved for those few cases in which the jury determines that the specific acts in question constitute murder in the first degree.

In a sense then, this measure is not so much an effort to penalize the narcotic offenders in question as it is an indication of the Legislature's distrust of the existing system of punishing offenders. By insisting upon an inflexible mandatory sentence of not less than 20 years, the Legislature is declaring its determination not to leave to the judgment of those persons who have the responsibility for dealing with convicted offenders, the discretion to determine the severity of the sentence. Every offender who falls within the ambit of this bill's provisions, upon conviction, would be required to receive such a sentence. This blanket condemnation of the courts and law enforcement officials is an extremely serious change. In my opinion, it should not be made unless the record clearly indicates that the prosecutors and judges of this State deserve such sharp repudiation.

With this in mind, I have considered every aspect of this problem to determine whether we can justify removing from the hands of our duly appointed law enforcement officers and from the judges of the Court the power to use their judgment and discretion in these matters, a power which will remain theirs in every other area of the law. Since the statement attached to this bill declares that it is "intended to carry out one of the recommendations of the Narcotic Drug Study Commission," I turned first to the report of

that commission to find their justification for such an extraordinary recommendation.

Extent of Narcotics Activity

The report deals extensively with the narcotic problem during the most recent 10-year period. To support the proposals contained in Senate Bills Nos. 235 and 236, presumably the report should show a significant upturn of activity in this area as one justification for a 20-year mandatory sentence. The report, however, states flatly:

“There has been no significant increase in narcotic arrests in the State in the period from 1952 through 1962, despite a great increase in the population during this era.”

The report further indicates that the total number of cases referred to prosecutors during this period has remained relatively constant, fluctuating through a rather narrow range. Indeed, the actual number of cases referred to prosecutors reached their low point in the period immediately following Governor Meyner's veto of similar mandatory sentence narcotic bills in 1956. While this fact does not disprove the case for mandatory sentences, it certainly does demonstrate that there was no large scale upsurge of narcotic activities following the rejection of similar proposals 8 years ago.

Insofar as the problem of non-addicted peddlers misusing children is concerned, the report is again surprising. It indicates:

“The predominant cause of the first use of the drug was curiosity. In practically every case that was interviewed by the Commission the user sought the first use of the drug. Contrary to the thinking of most people, the Commission did not find that a lurking pusher solicited and enticed the narcotic user to start the use of drugs.”

It further indicates that out of the more than 200 cases reviewed, only one person appeared to sell drugs purely for a profit and this individual was a mild user himself. As an aside, I would note that the report states that “a very heavy penalty was meted out” to this individual.

Attitude of Judges and Prosecutors

Nor has this legislation been sought by the officials most directly concerned, namely the prosecutors and the judges. As to judges, the report indicates that the commission conducted a conference with the Chief Justice of the Supreme Court and approximately 25 judges of the Superior and County Courts in the heavily populated areas most affected by drug addiction. It found:

“The judges unanimously opposed mandatory sentences and gave very definite reasons for the impracticality of same. Every judge present, including the Chief Justice, felt each case should be determined on its merits and that no two cases were the same.”

The viewpoint of the New Jersey judiciary on this subject is not a parochial one. For example, the Judicial Conference of Federal Judges has considered the question of mandatory sentences on numerous occasions since 1953. These federal judges have consistently disapproved in principle those provisions which would require the imposition of a minimum sentence.

At my request, the Attorney General reviewed this matter with the county prosecutors. Their reaction is identical to that of the judges. The prosecutors from the 5 counties in which more than 90% of the narcotic arrests occurred during the past 10 years, unanimously agreed that this bill and companion measures Senate Bills Nos. 236 and 237 were not desirable law enforcement measures. The prosecutors, for example, point out that “President Kennedy’s White House Conference on Narcotics explored various approaches and rejected the temptation to solve the problem by recommending long inalterable prison sentences.”

One prosecutor expressed better than I can the reason why he has changed his position on the question of mandatory sentences. He stated:

“The punishment provided for in Senate Bill No. 235 should not be mandatory. Until recently I would have been adamantly in favor of a mandatory sentence as provided for in the bill. One specific case changed my mind abruptly. Two young men, freshmen in college at home on vacation, decided that they would try marijuana. One of them went to New York, purchased

a half dozen 'weeds,' came back to . . . County, and sold half of them to his friend. They were both apprehended and charged.

"The two young men had never been involved with the law before, and apparently came from excellent families. To have imposed a mandatory sentence in a case of that kind would in my opinion have been a miscarriage of justice. While the facts of this case do not come exactly within the purview of Senate Bill No. 235, the impact of a mandatory sentence in similar cases is obvious."

Review of Present Sentencing Practices

Perhaps some advocates of this legislation would argue that the judges who are opposed to mandatory sentence legislation are themselves the very reasons why such legislation is required. In anticipation of such a charge, I explored whether it had been concluded that these judges were failing in their obligation to implement the narcotics laws in an effective manner. I was immediately confronted by the report of the commission which states:

"A review of the sentences imposed by the judges over a two-year period reveals that the judges were not soft in their sentencing of the more dangerous types and in every case they did their very best in attempting to help the victims of these terrible drugs. The exercise of judicial discretion within a sentencing structure which allows for a considerable spread between the minimum and the maximum sentence is more likely to result in the long term incarceration of the individual who is making a personal profit from the narcotic traffic and the individual who contributes to the demoralizing of others with less severe rehabilitative oriented sentences to individuals who are essentially victims of the drug problem."

From my experience as a judge, I am certain that the commission's finding is a correct one. I know of no group which is more dedicated and more devoted to the protection of the general well-being of the public than the members of our State judicial system.

Experience in Other States

In addition, I explored whether the experience in other states with mandatory sentences had established the value

of such a program for New Jersey. Since most studies concerning mandatory sentences make reference to the State of Ohio which has stringent mandatory penalties, I again requested the Attorney General to contact the appropriate authorities in that State. We were informed that in Ohio the use of mandatory penalties has resulted in the virtual elimination of the organized distributors or pushers from the State. These individuals have not ceased their activities in Ohio but have withdrawn to the surrounding states to conduct their business. As a result, the Federal narcotics agents in Ohio have been reduced because it is the activities of these individuals which most concern them. I note, however, that New Jersey has never had a problem with this element of the narcotics trade. Because of our location between the cities of New York and Philadelphia, the organized pusher has never deemed it necessary to operate directly in the State of New Jersey. Indeed, this fact is attested to by the report itself which states :

“The commission has not found New Jersey to be a major source of supply. In every case the supply was bought in New York and brought to New Jersey in small quantities by the narcotics user.”

This conclusion was concurred in by the then Deputy United States Commissioner of Narcotics who in September, 1963 stated to a meeting of the county prosecutors that there was no top level organization of the narcotics industry in New Jersey and added by way of explanation :

“I think that the law here, the state law has always been very effectual in cutting down the narcotic racket over here. Obviously, there is still considerable trafficking in New Jersey. I think this is handled entirely from New York and I don't believe it's necessary for the New York mob to delegate anybody in Jersey to run the Jersey narcotics' racketeering. Frankly, I haven't heard, just like yourself, I don't know of my knowledge of any purely New Jersey-bred racketeer being big in narcotics. I think this all comes from New York City.”

This being so, it is interesting to note what the Ohio officials have to state about the effect that mandatory sentences have had upon the type of narcotic problem that is prevalent in New Jersey. In their words :

“As you know, Ohio has the most stringent narcotic laws in the United States, our penalties are almost entirely felony’s (sic) with extremely rigid, honourous, (sic) and *mandatory* sentences.

“Virtually the minimum sentence under our laws is three to five years, *mandatory*.

“The effect of this legislation and especially the stiff sentencing has been to, in great part, eliminate the pushers in this state. These illegal sellers of narcotics have left Ohio since they can do business in states surrounding us without the severe penalties of the law in the event that they are arrested. The pushers have been reduced to such an extent that the Ohio Branch of the Federal Narcotic Agents was reduced by 80%. Where there were ten, there are now simply two agents in Ohio.

“This does not, however, mean that the addicts have left. They are still present having their roots here and they subsist on illegal narcotics when they can get them from pushers, forge prescriptions, robberies of pharmacies and physicians offices for narcotic drugs, the occasional illegal pharmacist or practitioner who will sell either prescriptions or drugs, and makeshift, stop gap, approaches such as paregoric, and if that is not available, tranquilizers and barbiturates.

“We have found that the mandatory sentencing aspect of our laws makes it extremely difficult to enforce them. Quite often a court in an effort to render justice, must in the face of the facts pick a whole (sic) in the law to find the man innocent. If the sentence had been left to the judge, he would probably have found the defendant guilty and fine him or sentence him to a short time, but where a sentence of guilty brings a mandatory sentence, I find that generally the courts are opposed to this infringement upon their freedom of selection and they tend to resent it, and they tend to pick holes in the law which are then loopholes for anyone else who wishes to use them.”

Jury Nullification of the Law

Still another problem is whether the deterrent effect of a bill such as Senate Bill No. 235 would be nullified by

juries because the punishment could not be related to the offense. Unquestionably, juries would be implored to acquit offenders in every appealing case because of the severity of the penalty. Some prosecutors have expressed the fear that penalties as severe as a mandatory 20-year sentence would make it extremely difficult to obtain convictions in cases where otherwise punishment would clearly be merited.

The problem of jury nullification of the law is neither new nor novel. It has been said that the shopkeepers of England petitioned Parliament for the repeal of the numerous English laws imposing the death penalty for shoplifting and other property crimes, not from any humanitarian sense, but from a realization that juries were refusing to convict the thieves. As Arthur Koestler notes in his famous book *Reflections on Hanging*, the petitions followed the line that "archaic severity of the law made its enforcement impossible, and thus destroyed its deterrent effect; and that in the interest of public safety, milder punishments should be imposed." (p. 25)

While Senate Bill No. 235 obviously cannot be equated with the measures that were in existence during the period referred to by Mr. Koestler, the parallel is there and the inference to be drawn therefrom is inescapable.

It would seem, therefore, that from any aspect mandatory sentences, although deceptively appealing in appearance, will not improve law enforcement efforts and aid, in any way, the real battle against the illegal use of narcotics. While these bills are well motivated, they stem perhaps from a sense of nostalgia for a simple solution to a frustratingly complex social dilemma. If we will be candid for a moment with ourselves, however, we must admit that the narcotic problem cannot be blamed upon nameless prosecutors and judges who are not doing their duty; that the solution to our ills is not to be found in locking away forever an element of our society. Indeed, the Legislature's adoption of the Narcotic Drug Study Commission's recommendations as embodied in Senate Bill No. 210 represents such a moment of candor.

We are not divided in our desire to confront and defeat this problem. Let us remain united in our determination to employ those methods which will assist our efforts in this field whether such effort concern rehabilitation or law enforcement.

I would, therefore, suggest that the mandatory aspects of Senate Bill No. 235 be deleted and in their place a penalty provision inserted providing for a term or not more than 30 years except in those instances where the jury itself recommends life imprisonment. In such cases, the penalty would be imprisonment for life. I believe this proposal will provide for the necessary discretion to prevent a miscarriage of justice while preserving to the people, as typified by the jury system, the power to invoke a most severe penalty in deserving cases.

I have also suggested certain amendments to make it clear to whom the phrases relating to addiction or non-addiction to drugs apply.

Accordingly, I return herewith Senate Bill No. 235 for reconsideration and with the recommendation that the bill be amended as follows:

On page 1, section 1, lines 3 and 4, delete "who hires, employs or uses any child under the age of 18 years,".

On page 1, section 1, line 6, after "marihuana," insert "and who hires, employs or uses any child under the age of 18 years".

On page 1, section 2, lines 1 and 2, delete "who hires, employs or uses any child under the age of 18 years,".

On page 1, section 2, line 3, after "marihuana," insert "and who hires, employs or uses any child under the age of 18 years".

On page 1, section 2, lines 5 and 6, delete "with hard labor for a term of not less than 20 years with a maximum of" and insert in lieu thereof "for not more than 30 years except upon the affirmative recommendation of the jury of life imprisonment in which case the punishment shall be".

Respectfully,

RICHARD J. HUGHES,

Governor.

Amend page 3, section 1, line 58, after "carrier." insert the following: "If the director refuses to allow a refund in the amount claimed by the applicant, the applicant may request a formal hearing on the application for a refund. Such hearing shall be held by the director or his representative after notice to the applicant of not less than 10 days.

"A motor carrier may give a bond issued by a surety company authorized to do business in this State, in the amount of \$10,000.00 payable to the director on condition that the carrier will pay all taxes due and to become due under this act from the date of the bond to the date when either the carrier or the bonding company notifies the director that the bond has been canceled. So long as the bond remains in force, the director may order refunds to the motor carrier in the amounts appearing to be due on applications for refunds filed by the carrier without first auditing the records of the carrier. The surety shall be liable for all omitted taxes assessed against the carrier, including the penalties and interest on such taxes provided in section 15 of this act, even though the assessment is made after can-

cellation of the bond, but only for such taxes due and payable, while the bond was in force, and penalties and interest on such taxes.”

Amend page 3, section 1, line 64, after line 64 insert the following sections:

“2. Section 9 of the act of which this act is amendatory is amended to read as follows:

“9. Every motor carrier shall keep such records, in such form as the director reasonably may prescribe, as will enable the carrier to report and enable the director to determine the total number of over-the-road miles traveled by its entire fleet of motor vehicles, the total number of over-the-road miles traveled in New Jersey by said entire fleet, the total number of gallons of motor fuel used by said entire fleet and the total number of gallons of motor fuel purchased in New Jersey for said entire fleet. All such records shall be safely preserved for a period of 3 years in such manner as to insure their security and availability for inspection by the director or any authorized assistant engaged in the administration of this act. Upon application in writing, stating the reasons therefor, the director may, in his discretion, consent to the destruction of any such records at any time within said period. *The director or his authorized agents and representatives may, at any reasonable time, inspect the books and records of any motor carrier subject to the tax imposed by this act.*

¶Every motor carrier shall, upon reasonable notice from the director, be required to produce his books and records at such place in this State as the director may designate.**¶** The director shall provide by regulation for any such examination of books and records[¶], upon request,[¶] to be conducted at the office or offices of the motor carrier where such books and records are maintained. **¶**The regulation may require the motor carrier, as a condition thereof, to reimburse the Division of Motor Vehicles, in such reasonable amount as the director by regulation shall have fixed, for the actual extra expense thereby incurred by the division.**¶**

“3. Section 10 of the act of which this act is amendatory is amended to read as follows:

“10. The director shall provide an identification marker and registration card for every motor vehicle operated by the motor carrier, except that no identification marker shall

be required for motor vehicles which bear valid New Jersey registration plates. The requirement for identification marker and registration card shall apply, as well, to exempt resident motor carriers. The identification marker shall be affixed to the vehicle in such manner as shall be prescribed by the director and the registration card shall be carried in the cab of the vehicle. The identification marker and registration card shall remain the property of this State and may be recalled for any violation of the provisions of this act or of the regulations promulgated hereunder. The director shall also provide, by regulation, for the registration of every such vehicle. Registration cards and identification markers shall be issued on an annual basis as of January 1 of each year and shall be valid through the next succeeding December 31. For the year 1963, registration cards and identification markers shall be valid from the effective date of this act through December 31, 1963. The fee for a registration card shall be \$3.00 for such portion of 1963. Said fee shall be \$5.00 for the year 1964, and ~~[\$2.00]~~ \$3.00 for the year 1965 and for each succeeding year. There shall be no fee for identification markers. It shall be illegal to operate or to cause to be operated in this State any motor vehicle unless the vehicle bears the identification marker, if required, and carries the registration card required by this section; provided, however, that, for a period not exceeding 25 days as to any one motor carrier, the director, upon request made by the motor carrier, may by letter or telegram authorize the operation of a vehicle or vehicles without the identification marker or the registration card required when the enforcement of this requirement for that period would cause undue delay and hardship in the operation of the said vehicle or vehicles. If the director shall find that the period of time available between the enactment and the effective date of this act is too short for necessary preparation and compliance with the provisions of this section by the division or by a substantial number of motor carriers, he in his discretion may, by regulation, postpone the deadline for compliance to a date not later than June 30, 1963."

Amend page 3, section 2, line 1, delete "2." and insert in lieu thereof "4."

Amend page 4, section 3, lines 1 through 7, delete section 3 in its entirety and insert in lieu thereof:

5. This act shall take effect immediately and the refunds herein authorized shall be allowed for the reporting period that commenced October 1, 1964.”

Mr. Ozzard moved that the message from the Governor be received and that his objections be entered at large on the Journal.

Under the direction of the President the seal of the message was broken and the Secretary read as follows:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT, }
January 12, 1965. }

SENATE BILL NO. 216

To the Senate:

I herewith return Senate Bill No. 216, without my approval, for the following reasons:

Senate Bill No. 216 would exclude grandparents from the classes of persons who are legally responsible for the financial maintenance of dependent relatives.

This measure is designed to relieve persons of advanced age, most of whom are themselves of limited means, from any obligation to support younger members of their families. I am in complete agreement with the wisdom and desirability of that objective. Senate Bill No. 216, however, fails to achieve it.

The difficulty is that this bill does not grant the exemption to aged persons as a class, but only excuses grandparents with respect to the support of their grandchildren. Under this limited classification, our senior citizens would remain fully liable for the support of their dependent *children*, and thus would derive no benefit from the bill in some instances. Although grandparents would be relieved of the obligation to support their indigent grandchildren, chances are good that, in many cases, the children of these grandparents will also be indigent. It would come as small comfort for an aged person to be freed from the obligation of support as a grandparent but not as a parent.

Conversely, it does not follow that all grandparents are elderly. Many persons who are in their early forties, and who are only beginning their most financially productive years, are grandparents. I can find no reason that could justify excusing relatively young and affluent persons from assisting their needy grandchildren.

As indicated above, I am very much in favor of the idea behind this bill and have so informed the sponsor of this measure. My legal staff will be available to assist with the prompt preparation of a replacement measure which meets the objections expressed herein. I hope the Legislature will give immediate consideration to such a measure.

Respectfully,

[SEAL]
Attest:

RICHARD J. HUGHES,
Governor.

LAWRENCE BILDER,
Acting Secretary to the Governor.

A communication was received from the Governor by the hands of his Secretary.

Mr. Ozzard offered the following resolution, which was read and adopted:

Resolved, That all bills in the hands of committees and on the desk of the President be delivered to the Secretary to be filed in the State Library as dead bills.

Mr. Ozzard offered the following resolution, which was read and adopted:

Resolved, That the Secretary of the Senate be authorized to prepare indices of the Senate Journal and Minutes of the Executive Sessions in the same general manner as the indices of the sessions of 1963 were prepared.

Mr. Ozzard offered the following resolution, which was read and adopted:

Resolved, That a committee of three be appointed by the President to await upon His Excellency, the Governor and inform him that the Senate has completed its labors and is about to adjourn *sine die*, and to inquire if the Chief Executive has any further communications to make to this body.

President Sandman appointed Messrs. Farley, Lynch and Dumont to await upon His Excellency, the Governor.

Mr. Ozzard presented a gavel to the retiring President of the 1964 Session, Mr. Sandman.

Mr. Ozzard offered the following resolution, which was read and adopted:

Resolved, That the hour of adjournment having arrived, the Secretary inform the General Assembly that the Senate is now ready to adjourn *sine die*.

On motion of Mr. Ozzard the Senate then adjourned *sine die*.

JOURNAL
OF THE
EXECUTIVE SESSIONS

Said nomination was referred to the Committee on the Judiciary.

The President also laid before the Senate another sealed communication from the Governor.

On motion of Mr. Ozzard, the seal of the communication was broken by the President, and the Secretary read as follows:

STATE OF NEW JERSEY
OFFICE OF THE GOVERNOR
TRENTON

January 11, 1965.

Honorable Charles W. Sandman, Jr., President of the Senate:

Sir:

On August 17 of last year, I submitted to the Senate for its advice and consent the nomination of Ned J. Parsekian to be Judge of the Superior Court.

Mr. Parsekian has requested that I withdraw his nomination because of the failure of the Senate to act upon it. After due consideration, and with great reluctance, I have determined that this is the only course open to me.

I therefore respectfully request that you return to me the nomination of Mr. Parsekian.

Sincerely yours,

/s/ RICHARD J. HUGHES,
Governor.

The President ordered that the communication be filed.

On motion of Mr. Ozzard, the Executive Session then arose.
