John Cuneo
Deyssi Mesa
Sukhrob Khalilov

Notes1: The section entitled Air Transport Association Carriers is included to give a comparison between Port Authority Airport traffic growth and aggregate growth as measured by the majority of the U.S. carrier industry.

Note2: The page 2 Access Mode: residents report excludes passengers arriving by hotel courtesy vehicles, helicopters, and the miscellaneous "other" category. The airline OAG summary uses schedules effective for the week in the middle of the month being summarized. "Flights (daily) refers to the daily-each-way average flights which can be thought of as 1 directional departing or arriving flights.

August 2013 was the busiest August ever with 10.9 million passengers using our facilities. Traffic grew 1.3% compared to last year. This increase is better than 0.8% gain for nation's passenger traffic, as reported by A4A. Although domestic traffic was down 0.4%, strong international travel lifted this segment's traffic by 4.1% and pushed YTD international traffic up 4% overall. With the region's YTD traffic up 1.7%, our airports are positioned to set an all-time record this year, which would break the previous mark of 110 million set in 2007. Cargo business at our airports experienced its biggest monthly decline so far this year, dropping 9.1%. Domestic cargo bore the brunt of the decline as it fell 19.5%. International cargo contracted 2.6%.
