General Information

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Flood Hazard Area (FHA) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA). In addition, this publication lists status of Highlands application and Highlands Applicability Determinations.

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally, their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

Appeals on Applications

Any individual who would like to appeal a decision on an application should direct their remarks to:

Office of Legal Affairs

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION
REQUEST TO RELEASE CONSERVATION RESTRICTION
PUBLIC HEARING**

TAKE NOTICE that, in accordance with the New Jersey Conservation Restriction and Historic Preservation Restriction Act, N.J.S.A. 13:8B-5, the New Jersey Department of Environmental Protection, Division of Land Resource Protection (the “Department”) has received an application for a whole release of a Conservation Restriction by Agent Jared Cook, dated September 19, 2024, on property identified as Block 863, Lot 7.18. The lot is shown on the official tax map of Brick Township in Ocean County, New Jersey.

The subject property was part of a previously approved New Jersey Department of Environmental Protection (NJDEP) Coastal Area Facility Review Act (CAFRA) Individual Permit (IP) issued on November 8, 1995 as Permit: #1506-94-0047.3. The areas of the freshwater wetlands, transition areas, coastal bluff limits and coastal bluff buffer were confirmed as part of this approval. As part of the NJDEP permit approval, Administrative Condition 6 required a 25 ft conservation deed restricted area from the crest of the coastal bluff. This area was to remain in an undisturbed state.

The required conservation restriction was never recorded with the Ocean County Clerk. Subsequently, at an unknown date, a patio was constructed to the rear of the onsite residence that extended into the buffer area. In addition, to allow for safe access from the onsite residence to the onsite dock, linear walkways were installed within the bluff buffer, a walkway was installed within the existing freshwater wetlands transition area, and rip-rap was installed along the MHWL as a shore protection structure. Therefore, the applicant is requesting the release of the Conservation Restriction in order to bring the property in compliance with the current Coastal Zone Management (CZM) Rules, N.J.A.C. 7:7.

To offset the proposed disturbance to deed restricted areas, the property owner will place a conservation restriction on an that includes all of the Paper street water ward of the proposed pool. This measure goes beyond a 1:1 ratio, resulting in a replacement ratio of 1:2.12, for every square foot covered in the conservation restriction being lifted the new conservation restriction will encumber 2.12. This will expand the undisturbed vegetated areas in the property.

APPLICANT: David and Karyn Nelson
FILE NUMBER: 1506-94-0039.2 CRR240001
PROJECT DESCRIPTION: Conservation Restriction Release and Modification
MUNICIPALITY: Brick Township
COUNTY: Ocean County
PROJECT ADDRESS: 39 Robbins Street,
Block 863, Lot 7.18
Brick Township, Ocean County
HEARING DATE: September 9th, 2025
HEARING TIME: 10:00 AM to 12:00 PM

The Division of Land Resource Protection invites the public to attend the Public Hearing via Microsoft Teams. The Hearing will start at the indicated time and continue until all comments have been heard, the hearing may be terminated early in the event that there are no more comments. To access the meeting, please use the following information:

Microsoft Teams

Meeting ID: 297 748 496 179 1
Passcode: PB3V9bz9
Dial In Phone Number: +1-856-338-7074
Phone conference ID: 366 231 22#

Lastly, the public may email written comments within fifteen (15) days following the Public Hearing to: Kip LeWarn, Project Manager at kip.lewarn@dep.nj.gov

NOTICE OF THE SUBMITTAL OF AN APPLICATION FOR RENEWAL OF A HAZARDOUS WASTE FACILITY PERMIT

The New Jersey Department of Environmental Protection (Department), is in receipt of a Part B renewal application dated March 25, 2025, submitted by ExxonMobil Research and Engineering Company. The facility is located at Block 30, Lot 30; 1545 Route 22 East; Annandale (Clinton Township), Hunterdon County; EPA ID No. NJD000692111.

The application for permit renewal (with no operational changes) seeks continued approval for the on-site storage and off-site transfer of waste generated on-site. ExxonMobil Research and Engineering Company (hereby referred to as ExxonMobil) is permitted to store waste generated from on-site research and development activities. ExxonMobil's waste handling practices have remained unchanged since the last permit renewal cycle. The referenced submission has been accepted for the purpose of issuing a hazardous waste permit renewal.

FACILITY DESCRIPTION

ExxonMobil operates a hazardous waste storage and treatment facility in Annandale (Clinton Township). The facility stores containerized hazardous waste generated on-site from petrochemical research and development and maintenance activities. Containers of hazardous waste are stored in an indoor area with a maximum capacity of 16,500 gallons. All hazardous waste stored at the facility is shipped off-site to authorized hazardous waste facilities for treatment or final disposal.

As part of this hazardous waste permit renewal, ExxonMobil is proposing the following changes to reflect changes in staff and contact information:

Updated Contingency Plan and Emergency Response Plan.

REVIEW OR OBTAIN PERMIT APPLICATION MATERIALS

To review or obtain copies of the permit application and supporting documents, to request placement on the facility's mailing list, or to schedule an appointment to review or copy the application, please contact Evan.Aleksejczyk@dep.nj.gov, telephone (609) 940-5802, and the mailing address, New Jersey Department of Environmental Protection; Division of Sustainable Waste Management; Bureau of Recycling and Hazardous Waste Management; Attn: Hazardous Waste Unit; 401 East State Street; P.O. Box 420; Mail Code 401-02C; Trenton, New Jersey 08625-0420.

For facility related question, contact Jessica Whitman, by email at jessica.wittmann@exxonmobil.com or by phone at (848) 214-3471.

HOW TO PROVIDE YOUR COMMENTS

For more information, questions, or comments contact Evan Aleksejczyk by email at evan.aleksejczyk@dep.nj.gov or by phone at (609) 940-5802.

NOTICE OF THE SUBMITTAL OF AN APPLICATION FOR RENEWAL OF A HAZARDOUS WASTE FACILITY PERMIT

The New Jersey Department of Environmental Protection (Department), is in receipt of a Part B renewal application submitted on March 27, 2025 by Picatinny Arsenal Directorate of Public Works for Picatinny Arsenal. The facility is located at Route 15 North, Picatinny Arsenal, NJ 07806, EPA ID No. NJ3210020704. The application for renewal of the existing permit requests authorization to continue the operation of an Explosive Waste Incinerator (EWI) and its associated equipment for the storage and treatment of waste propellants and explosives generated on-site by Picatinny Arsenal, using container/tank storage and treatment units. The incinerator system consists of a waste receiving and preparation area, a rotary kiln combustion chamber followed by a secondary combustion chamber, and an air pollution control system.

FACILITY DESCRIPTION

As a major subordinate center of the U.S. Army Installation Management Command, Picatinny Arsenal is responsible for the research and development of numerous armament items, including pilot-level production of explosives, propellants, and metal parts. The research, production, and testing activities at the facility generate various hazardous waste streams that exhibit one or more of the characteristics of ignitability, reactivity, corrosivity or toxicity as described at Title 40 of the Code of Federal Regulations (40 C.F.R.) Part 261. The facility also generates solid waste described at N.J.A.C. 7:26-2.3 and 2.4.

HAZARDOUS WASTE TREATMENT ACTIVITIES

Picatinny Arsenal generates the following types of waste: hazardous waste contaminated with or containing propellants and explosives (P&E). Picatinny Arsenal will treat all energetic wastes or reactive wastes contaminated with or containing P&E; however, hazardous waste that is not considered energetic waste will be shipped off-site to an authorized hazardous waste facility for treatment, storage, and disposal, as applicable.

Explosive Waste Incinerator:

Resource Conservation and Recovery Act (RCRA) regulated units are contained within two buildings at the EWI. Regulated activities at the EWI include container storage, tank system storage, physical treatment, and incineration.

REVIEW OR OBTAIN PERMIT APPLICATION MATERIALS

To review or obtain copies of the permit application and supporting documents, to request placement on the facility's mailing list, or to schedule an appointment to review or copy the application, please contact Evan.Aleksejczyk@dep.nj.gov address or telephone: (609) 984-3438 or by mail at: New Jersey Department of Environmental Protection; Division of Sustainable Waste Management; Bureau of Recycling and Hazardous Waste Management; Attn: Hazardous Waste Unit; 401 East State Street; P.O. Box 420; Mail Code 401-02C; Trenton, New Jersey 08625-0420.

For facility related question, contact Timothy Rider, at Picatinny Arsenal by telephone at (973)724-6364 or by email at usarmy.pica.devcom-ac.mbx.picatinny-public-affairs@army.mil.

HOW TO PROVIDE YOUR COMMENTS

For more information, questions, or comments contact Evan Aleksejczyk by email at evan.aleksejczyk@dep.nj.gov or by phone at (609)-940-5802.

**PUBLIC NOTICE OF INTENTION TO EXTEND THE POST-CLOSURE CARE PERIOD FOR HSL INC
LANDFILL**

The New Jersey Department of Environmental Protection hereby issues this public notice, pursuant to N.J.A.C. 7:26-2A.9(c)10, of its intention to extend the post-closure care period for the HSL Inc. Landfill (landfill) located at 21 Old Beaver Run Road in Lafayette Township, Sussex County by an additional 10 years.

The subject landfill ceased operating and was closed in 1984. The closure was also certified as complete and approved by the Department of Environmental Protection in 1984. The Solid Waste Regulations at N.J.A.C. 7:26-2A.9 require that closed landfills be maintained and monitored during their post-closure care periods which continue for 30 years after closure. However, the Department may extend the post-closure care period upon a finding that such an extended period is necessary to protect human health and/or the environment. The Department has previously extended the post-closure care period for the subject landfill by ten (10) years resulting in a post-closure termination date of December 31, 2024.

Based on the findings and proposed modifications to the landfill's environmental controls, the Department has found that the landfill will require post-closure maintenance and monitoring to continue beyond the current post-closure care period to protect human health and the surrounding environment. Based on these findings, the Department has determined that it is necessary to extend the post-closure care period for the landfill. The Department intends to extend the post-closure care period for ten (10) additional years, until December 31, 2034. During this extended post-closure care period, the Department will require maintenance and monitoring of the landfill to continue in accordance with N.J.A.C. 7:26-2A.9 and the most recent Closure and Post-Closure Plan Approval.

If anyone has questions or comments concerning the Department's intention to extend the post-closure care period of the landfill, please send those questions or comments to the following address:

Michael Gerchman, Section Chief
New Jersey Department of Environmental Protection
Division of Sustainable Waste Management
Bureau of Solid Waste Permitting
