19:45-1.15A Accounting controls within the simulcast counter

(a) Whenever a casino pari-mutuel cashier begins a shift, he or she shall commence with an amount of currency and coin to be known as the "simulcast inventory," and no casino simulcasting facility shall cause or permit currency, coin, gaming chips, slot tokens or coupons to be added to, or removed from, such simulcast inventory during such shift except:

1. In collection of simulcast wagers;
2. In collection for the issuance of credit vouchers;
3. In payment of winning or properly cancelled or refunded pari-mutuel tickets;
4. In payment for credit vouchers; or
5. In exchanges with the cashiers' cage, a satellite cage or simulcast vault.

(b) A "simulcast count sheet" shall be completed and signed by the simulcast shift supervisor at the simulcast vault and the following information, at a minimum, shall be recorded thereon at the commencement of a shift:

1. The date, time and shift of preparation;
2. The denomination of currency and coin in the simulcast inventory issued to the casino pari-mutuel cashier;
3. The total amount of each denomination of currency and coin in the simulcast inventory issued to the casino pari-mutuel cashier;
4. The pari-mutuel window number to which the casino pari-mutuel cashier is assigned; and
5. The signature of the simulcast shift supervisor in the simulcast vault.

(c) The casino pari-mutuel cashier assigned to the pari-mutuel window shall count the simulcast inventory in the presence of the simulcast shift supervisor at the simulcast vault and shall agree the count to the simulcast count sheet. The casino pari-mutuel cashier shall sign the count sheet attesting to the accuracy of the information recorded thereon.

(d) The simulcast inventory shall be placed in a cashier's drawer and transported directly from the simulcast vault to the appropriate pari-mutuel window by the casino pari-mutuel cashier.

(e) At the conclusion of a casino pari-mutuel cashier's shift, the cashier's drawer and its contents shall be transport-

ed directly to a designated area in the simulcast counter, where the casino pari-mutuel cashier shall count the contents of the drawer and record the following information, at a minimum, on the simulcast count sheet:

1. The date, time and shift of preparation;
2. The denomination of currency, coin, gaming chips, slot tokens and coupons in the drawer;

(g) If the pari-mutuel window net for the shift as generated by the RMC does not agree with the simulcast count sheet total plus the simulcast inventory, the simulcast shift supervisor shall record any overage or shortage. If the count does not agree, the casino pari-mutuel cashier and the simulcast shift supervisor shall attempt to determine the cause of the discrepancy in the count. If the discrepancy cannot be resolved by the casino pari-mutuel cashier and the simulcast shift supervisor, such discrepancy shall immediately be reported to the simulcast counter manager, or casino accounting department supervisor in charge at such time, the security department and the Division verbally. If the discrepancy is \$250.00 or more, a security department member will then complete the standard security report in writing, as approved by the Division, and immediately forward a copy to the Commission and the Division.

Each drop box shall have:

1. Two separate locks securing the contents placed into the drop box, the keys to which shall be different from each other;

2. A separate lock securing the drop box to the gaming table, the key to which shall be different from each of the keys to locks securing the contents of the drop box;

3. A slot opening through which currency, coins, coupons, forms, records, and documents can be inserted into the drop box;

4. A mechanical device that will automatically close and lock the slot opening upon removal of the drop box from the gaming table; and

5. Permanently imprinted or impressed thereon, and clearly visible from a distance of 20 feet, a number corresponding to a permanent number on the gaming table to which it is attached and a marking to indicate game and shift, except that emergency drop boxes may be maintained without such number or marking, provided the word "emergency" is permanently imprinted or impressed thereon and, when put into use, are temporarily marked with the number of the gaming table and identification of the game and shift, and provided further, that the casino licensee obtains the express written approval of the Commission before placing an emergency drop box into use.

(b) Each bill changer in a casino shall have contained in it a secure metal container known as a "slot cash storage box" in which shall be deposited all cash and coupons inserted into the bill changer. Each slot cash storage box shall:

In lieu of the asset number, a casino licensee may develop and maintain, with prior Commission approval, a system for assigning a unique identification number to its slot cash storage boxes, which system ensures that each slot cash storage box can readily be identified, either manually or by computer, when in use with, attached to, and removed from a particular bill changer. Each such unique identification number shall be at least two inches in height and shall be permanently imprinted, affixed or impressed on the outside of each slot cash storage box that does not otherwise bear an asset number. In addition, emergency slot cash storage boxes may be maintained without such numbers, provided the word "emergency" is permanently imprinted, affixed or impressed thereon, and when put into use, are temporarily marked with the asset number of the slot machine to which the bill changer is attached, and provided further, that the casino obtains the express written approval of the Commission before placing an emergency slot cash storage box into use.

(c) The key utilized to unlock the drop boxes from the gaming tables shall be maintained and controlled by the security department.

(d) The key to one of the locks securing the contents of a drop box and to one of the locks securing the contents of a slot cash storage box shall be maintained and controlled by the accounting department. (a) Whenever a gaming table in a casino or casino simulcasting facility is opened for gaming, operations shall commence with an amount of gaming chips, coins and plaques to be known as the "table inventory" and no casino licensee shall cause or permit gaming chips, coins or plaques to be added to, or removed from, such table inventory during the gaming day except:

1. For purposes of this chapter, a personal check which is used by a drawer in a substitution, partial redemption or consolidation transaction shall be referred to as a "replacement check."

2. The drawer of an undeposited replacement check may use another replacement check in a substitution, consolidation or partial redemption transaction involving the original replacement check.

(b) The drawer of an undeposited patron check may redeem it:

1. In its entirety by exchanging cash, cash equivalents, complimentary cash gifts, casino checks, casino affiliate checks, annuity jackpot trust checks, slot tokens, gaming chips or gaming plaques in an amount equal to the amount of the patron check being redeemed; or

2. In part by exchanging:

- i. Another patron check in a lesser amount; and
- ii. Cash, cash equivalents, complimentary cash gifts, casino checks, casino affiliate checks, annuity jackpot trust checks, slot tokens, gaming chips or gaming plaques in an amount which equals the difference between the amount of the check exchanged in (b)2i above and the amount of the patron check being partially redeemed.

(c) If a drawer has more than one undeposited patron check outstanding, such checks shall be redeemed in reverse chronological order (the most recently dated patron check shall always be redeemed first).

1. If more than one patron check bears the same date, the drawer may choose the order in which to redeem the identically dated checks.

2. If, pursuant to its internal controls, a casino licensee does not require a patron check used in a substitution, consolidation or partial redemption transaction to be dated with the date of the initial patron check being substituted, consolidated or partially redeemed, then the date of the initial patron check, and not the date of the replacement, consolidation or partial redemption check, shall be used to determine the order in which outstanding patron checks shall be redeemed.

(d) The drawer of a patron check may consolidate some or all undeposited patron checks by exchanging another patron check in an amount equal to the total amount of the outstanding patron checks being consolidated.

(e) All consolidations, total or partial redemptions or substitutions of patron checks by gaming patrons shall be made by general cashiers' at the cashiers' cage. (g) Upon completion of a redemption, consolidation or substitution transaction pursuant to this section, the general cashier shall return any original patron check being redeemed, consolidated or substituted to the drawer in accordance with the requirements in (h) below. If the redemption, consolidation or substitution of a patron check is accomplished by the acceptance of another patron check, the general cashier accepting the new patron check shall date and time stamp the new check, place his or her initials on the new check, and record on the new check the serial number of any Counter Check, Slot Counter Check or replacement check being redeemed, consolidated or substituted. The new patron check shall be dated with the date of the initial patron check being redeemed, consolidated or substituted unless the internal controls of the casino licensee include an independent procedure to ensure that the date of the initial patron check shall be used to determine the date by which the new patron check shall be redeemed or deposited pursuant to N.J.A.C. 19:45-1.28.

(h) Any original patron check which may be returned to the drawer pursuant to this section or N.J.A.C. 19:45-1.26A shall be returned directly to the drawer by one of the following methods:

1. If the drawer personally appears at the cashiers' cage and requests the return of the check, the general cashier shall:

- i. Obtain the original patron check from the check bank cashier;
- ii. Verify the identity of the drawer through signature comparison, examination of identification credentials, comparison of the drawer's actual appearance to the physical description in the drawer's credit file or personal attestation by a cage or casino supervisor as to the identity of the drawer; and
- iii. Return the original patron check to the drawer contemporaneously with the request.

2. If the drawer requests, either orally or in writing, that one, some or all of his or her patron checks be returned by mail, the casino licensee shall maintain a record of the specific terms of any oral request or a copy of the written request in the credit file of the drawer and the check bank cashier shall:

19:45-1.33 Procedure for opening, counting and recording contents of drop boxes and slot cash storage boxes and the recording of keno revenue

(a) The contents of the drop boxes and slot cash storage boxes shall be counted and recorded in the count room in conformity with this section.

(b) Each casino licensee shall place on file with the Commission and the Division the specific times during which the contents of drop boxes removed from gaming tables and contents of slot cash storage boxes are to be counted and recorded, which, at a minimum, shall be once each gaming day for drop boxes. Slot cash storage boxes shall be removed from bill changers in accordance with N.J.A.C. 19:45-1.42(a) and shall be counted and recorded, at a minimum, once a week.

(c) The opening, counting and recording of the contents of drop boxes and slot cash storage boxes shall be performed in the presence of a Commission inspector by at least three employees with no incompatible functions ("count team"). To gain entrance to the count room, the Commission inspector shall present an official identification card containing his or her photograph issued by the Commission.

(d) All persons present in the count room during the counting process, except representatives of the Commission and the Division, shall wear as outer garments, only a full-length, one-piece pocketless garment with openings only for the arms, feet, and neck.

(e) No person shall:

1. Carry a pocketbook or other container unless it is transparent; or

2. Remove his hands from or return them to a position on or above the count table unless the backs and palms of his hands are first held straight out and exposed to the view of other members of the count team and the closed circuit television camera.

(f) Immediately prior to opening the drop boxes or slot cash storage boxes, the doors to the count room shall be securely locked and, except as required by (i)1 below, no person shall be permitted to enter or leave the count room, except during normal work break or in an emergency, until the entire counting, recording, and verification process is completed. During a work break or in the event of an emergency, or to permit slot cash storage boxes to be secured in the count room for the count of the contents, the counting and recording process shall be discontinued unless the appropriate number of personnel as described in (c) above is present.

(g) Immediately prior to the commencement of the count, one count team member shall notify the person assigned to the closed circuit television monitoring station in the establishment that the count is about to begin, after which such person shall make an audio-video recording, with the time and date inserted thereon, of the entire counting process which shall be retained by the surveillance department for at least five days from the date of recordation unless otherwise directed by the Commission or the Division.

(h) Procedures and requirements for conducting the count shall be as follows:

1. As each drop box or slot cash storage box is placed on the count table, one count team member shall verbalize, in a tone of voice to be heard by all persons present and to be recorded by the audio recording device, the game, table number, and shift marked thereon for drop boxes, or the asset or unique identification number marked thereon for slot cash storage boxes;

2. In full view of the closed circuit television cameras located in the count room, the contents of each drop box or slot cash storage box shall be emptied on the count table and either manually counted separately on the count table or counted on a currency or coupon counting machine which has been approved by the Commission and is located in a conspicuous location on, near or adjacent to the count table;

3. Immediately after the contents of a drop box or slot cash storage box are emptied onto the count table, the inside of the drop box or slot cash storage box shall be held up to the full view of a closed circuit television camera and shall be shown to at least one other count team member and the Commission inspector to assure all contents of the drop box or slot cash storage box have been removed, after which the drop box or slot cash storage box shall be locked and placed in the storage area for drop boxes or slot cash storage boxes;

4. The contents of each drop box or slot cash storage box shall be segregated by a count team member into separate stacks on the count table by each denomination of coin, currency and coupon, and by type of form, record or document, except that the Commission may permit the utilization of a machine to sort currency or coupons automatically by denomination;

5. Each denomination of coin, currency and coupon shall be counted separately by one count team member who shall place individual bills, coins and coupons of the same denomination on the count table in full view of a closed circuit television camera, after which the coin, currency and coupons shall be counted by a second count team member who is unaware of the result of the original count and who, after completing this count, shall confirm the accuracy of the total, either verbally or in writing, with that reached by the first count team member, except that the Commission may permit a casino licensee to perform aggregate counts by denomination of all currency and coupons collected in substitution of the second count by drop box or slot cash storage box, if the Commission is satisfied that the original counts are being performed automatically by a machine that counts and automatically records the amount of currency or coupons, and that the accuracy of the machine has been suitably tested and proven. The Commission will permit the utilization of currency and coupon counting machines if prior to the start of the count, in the presence of a Commission inspector, the count room supervisor shall:

i. Verify that the counting machine has a zero balance on its terminal unit display panel and has a receipt printed which denotes "-0- cash or coupons on hand" and "-0- notes or coupons in machine," or some other means to indicate that the machine has been cleared of all currency and coupons.

ii. Visually check the counting machine to be sure there are no bills or coupons remaining in the various compartments of the machine.

iii. Supervise a count team member who shall randomly select a drop box or slot cash storage box and place the entire contents of the drop box or slot cash storage box into the first counting machine, which shall count the currency or coupons by denomination and produce a print out of the total amount of currency or coupons by denomination. Any soiled or off-sorted bills or coupons shall be re-fed into the machine and manual adjustments made to the total. Coins or tokens shall also cause manual adjustments to be made to the total. The total as recorded on the counting machine and any adjustments thereto shall not be shown to anyone until completion of the final verification process.

iv. Supervise a second count team member, independent of the team member performing the initial count by machine, who shall manually count and summarize the currency and coupons of the drop box or slot cash storage box counted in (h)5iii above. The total shall be posted and maintained separately from the total posted in (h)5iii above. This total shall not be shown to anyone until completion of the final verification process.

v. Supervise the second count team member passing the currency or coupons to a count team member, who is unaware of the results of the manual count. The count team member shall count the contents of the drop box slot cash storage box counted in (h)5iii above using a second counting machine. Such machine shall produce a printout of the total amount of currency or coupons contained in the drop box or slot cash storage box. Any soiled or off-sorted bills or coupons shall be re-fed into the machine and manual adjustments made to the total. Coins or tokens shall also cause manual adjustments to be made to the total. The total as recorded on the counting machine and any adjustments thereto shall not be shown to anyone until completion of the final verification process.

vi. Following the completion of the test procedures, compare the totals from the test receipts of both counting machines, as computed in (h)5iii and (h)5v, to the manual total computed in (h)5iv. If the three totals compared above are in agreement, the count room supervisor will sign and date the test receipts and forward them to the Accounting Department at the end of the count process.

vii. If the three totals do not agree, appropriate repairs shall be made to the counting machine and the procedures in (h)5i through (h)5vi shall be repeated until all totals are in agreement. The Commission shall not permit the counting machine to be used until these totals are in agreement.

6. Any coupon deposited in a drop box or a slot cash storage box shall be counted and included in the calculation of table game win or loss in accordance with (h)8

below or on the slot win report, without regard to the validity of the coupon.

7. Any coupon which has not already been cancelled upon acceptance or during the count shall be cancelled prior to the conclusion of the count, in a manner approved by the Commission.

8. As the contents of each drop box are counted, one count team member shall record on a Master Game Report or supporting documents, by game, table number, and shift, the following information:

- i. The amount of each denomination of currency counted;
- ii. The amount of all denominations of currency counted;
- iii. The amount of coin counted;
- iv. The total amount of currency and coin counted;
- v. The total amount of each denomination of coupons other than match play coupons;
- vi. The total amount of all denominations of coupons other than match play coupons;
- vii. The total amount of each denomination of match play coupons;
- viii. 50 percent of the total amount of all denominations of match play coupons;
- ix. The amount of the Opener;
- x. The amount of the Closer;
- xi. The serial number and amount of each Counter Check;
- xii. The amount of all Counter Checks counted;
- xiii. The serial number and amount of each Fill;
- xiv. The amount of all Fills;
- xv. The serial number and amount of each Credit;
- xvi. The amount of all Credits; and
- xvii. The table game win or loss or, for poker, the poker revenue.

9. After the contents of each drop box are counted and recorded, one member of the count team shall record by game and shift on the Master Game Report, the total amount of currency, coin and coupons, Table Inventory Slips, Counter Checks, Fills, and Credits counted, and win or loss, together with such additional information as may be required on the Master Game Report by the Commission or the casino licensee.

10. Notwithstanding the requirements of (h)8 and (h)9 above, if the casino licensee's system of internal controls provides for the recording on the Master Game Report or supporting documents of Fills, Credits, Counter Checks and Table Inventory Slips by cage cashiers prior to commencement of the count, a count team member shall compare for agreement the totals of the amounts recorded thereon to the Fills, Credits, Counter Checks and Table Inventory Slips removed from the drop boxes.

11. As the contents of each slot cash storage box are counted, one count team member shall record on the Slot Cash Storage Box Report or supporting documentation the following information:

- i. The asset number of the bill changer to which the slot cash storage box contents correspond or, if a casino licensee utilizes slot cash storage boxes with a unique identification number, the number shall be recorded along with the asset number of the slot machine;
- ii. The amount of each denomination of currency counted;
- iii. The amount of all denominations of currency counted;
- iv. The total amount of currency counted for each slot machine denomination;
- v. The total dollar amount of each denomination of coupon;
- vi. The total dollar amount of all denominations of coupons; and
- vii. Any additional information as may be required on the Slot Cash Storage Box Report by the Commission.

12. Notwithstanding the requirements of (h)8, 9 and 11 above, if the casino licensee's system of internal controls provides for the count team functions to be comprised only if counting and recording currency, coin and coupons, accounting department employees shall perform all other counting, recording and comparing duties required by this section.

13. After preparation of the Master Game Report or Slot Cash Storage Box Report, each count team member shall sign the reports attesting to the accuracy of the information recorded thereon.

(i) At the conclusion of the count:

1. All cash and coupons shall be immediately presented in the count room by a count team member to a reserve cash cashier who, prior to having access to the information recorded on the Master Game Report or the Slot Cash Storage Box Report and in the presence of a count team member and the Commission inspector, shall recount, either manually or mechanically, the cash and coupons presented, and attest by signature on the Master Game Report and Slot Cash Storage Box Report, if applicable, the amounts of cash and coupons counted, after which the Commission inspector shall sign the reports evidencing his or her presence during the count and the fact that both the cashier and count team have agreed on the total amounts of cash and coupons counted.

2. The Master Game Report, after signing, and the Requests for Fills, the Fills, the Requests for Credits, the Credits, the issuance copies of the Counter Checks, the Table Inventory Slips and coupons removed from drop boxes shall be transported directly to the accounting department and shall not be available to any cashiers' cage personnel. All coupons shall be received and processed by the accounting department in the manner set forth in N.J.A.C. 19:45-1.46(l).

3. The Slot Cash Storage Box Report, after signing, and any coupons removed from the slot cash storage boxes shall be transported directly to the accounting department and shall not be available to any cashiers' cage personnel. The Accounting Department shall record the figures from the Slot Cash Storage Box Report on the Slot Win Report and calculate the total drop for that gaming day. All coupons shall be received and processed by the accounting department in the manner set forth in N.J.A.C. 19:45-1.46(l).

4. If the casino licensee's system of internal control does not provide for the forwarding from the cashiers' cage of the originals of the Fills, Credits, Requests for Credits, and the Requests for Fills, and the issuance copies of the Counter Checks, directly to the accounting department, the originals of all such slips recorded, or to be recorded, on the Master Game Report shall be transported from the count room directly to the accounting department.

(j) The originals and copies of the Master Game Report, the Slot Cash Storage Box Report, Counter Checks, Requests for Fills, Fills, Request for Credits, Credits, Table Inventory Slips and the test receipts from the currency counting equipment shall, on a daily basis, in the accounting department be:

1. Compared for agreement with each other, on a test basis if the originals are received from the count room, by persons with no recording responsibilities and, if applicable, to triplicates or stored data;

2. Reviewed for the appropriate number and propriety of signatures on a tests basis;

3. Accounted for by series numbers, if applicable;

4. Tested for proper calculation, summarization, and recording;

5. Subsequently recorded; and

6. Maintained and controlled by the accounting department as a permanent accounting record.

(k) The keno computer system shall have the capability of generating a report which lists, by keno work station, the keno drop, total amount won by patrons and keno win or loss for each gaming day. This report shall be audited by a casino accounting department employee. Once the audit procedures have been completed, the casino accounting department employee shall sign the report and either attach the report to the Master Game Report for that gaming day or record the appropriate figures from the report onto the Master Game Report.

(l) If there is a difference between the keno win or loss as represented in the report referenced in (k) above and the figures reported as a result of the reconciliation of the keno drawer pursuant to N.J.A.C. 19:45-1.48(l), the casino licensee shall be required to pay gross revenue tax pursuant to N.J.S.A. 5:12-24 on the larger figure unless the casino licensee can adequately explain and document the reason for said difference. No adjustments to gross revenue shall be permitted without approval from the Commission.

19:45-1.36 Slot machines and bill changers; coin and slot token containers; slot cash storage boxes; entry authorization logs

(a) Each slot machine located in a casino shall have the following coin, prize token or slot token containers:

1. At least one but no more than two containers, each to be known as a payout reserve container ("hopper"), in which coins, prize tokens or slot tokens are retained by the slot machine to automatically pay jackpots or to dispense change as directed by a bill changer connected to the slot machine; provided, however, that:

i. Coins or slot tokens shall be retained in a separate hopper, known as an "all-purpose hopper," that is designed to accept coin or slot tokens of the same denomination, and only such coin or slot tokens, upon insertion thereof into the slot machine's coin acceptor, and that is capable of paying out or dispensing only coin or slot tokens of the same denomination as jackpots or as change; provided, however, that any coins or slot tokens that are accepted by the coin acceptor and that exceed the capacity of the hopper shall be diverted to the slot drop bucket, and if applicable, the slot drop box;

ii. Prize tokens shall be retained only in a separate hopper, known as a "payout-only hopper," that is capable of retaining and making jackpot payouts only of prize tokens of the same denomination, and that is incapable of making change or of accepting any coin or slot token upon insertion thereof into the slot machine's coin acceptor, which shall divert coins or slot tokens that it has accepted to the slot drop bucket or any applicable slot drop box;

iii. No slot machine shall have more than one all-purpose hopper unless each hopper accepts the same denomination of coin or slot token;

iv. Notwithstanding (a)lii above, coins or slot tokens of the same denomination that are placed in a payout-only hopper exclusively through hopper fills may be retained in that hopper to make payouts to winning patrons, subject to the Division's inspection and the Commission's approval of the machine as part of the review of that machine and of the internal controls therefor;

v. Unless both hoppers on slot machines with multiple hoppers either each contain the same denomination of coin, slot tokens or prize tokens, or are connected to win meters that satisfy the requirements of N.J.A.C.

19:45-1.37(b)4i and 19:46-1.26(c)5i or 19:45-1.37(b)4ii and 19:46-1.26(c)5ii, each automatic pay jackpot of coins, slot tokens or prize tokens that is made from a multiple hopper slot machine on a round of play shall be paid out only on the round of play when the winning combination is hit and only from one, but not both, of the machine's hoppers for any winning combination that is hit on that round, and no casino licensee shall offer or provide a jackpot at such slot machine that will be paid out from both hoppers for any winning combination that is hit on the same round; and

vi. Prize tokens shall not be placed in or retained by a payout-only hopper that retains coins or slot tokens pursuant to (a)liv above;

2. A container, known as a slot drop bucket or slot drop box, to collect coins or slot tokens that are retained by the slot machine and are not used to make change or automatic jackpot payouts. Each slot drop bucket or slot drop box shall be identified by a number which corresponds to the asset number of the slot machine, and which is permanently imprinted on or affixed to the outside of the slot drop bucket or slot drop box in numerals at least two inches high; and

3. On those slot machines to which a bill changer is attached, a container known as a slot cash storage box, in which currency and coupons accepted by the bill changer are retained.

(b) A slot drop bucket shall be housed in a locked compartment separate from any other compartment of the slot machine. The compartment shall have two locks, the keys to which shall be different from each other and from the keys utilized to secure all other compartments of the slot machine. One key to the compartment shall be maintained and controlled by a Commission inspector. The second key to the compartment shall be maintained and controlled by the casino security department in a secure area within that department, access to which may be gained only by a casino security department supervisor.

(c) A slot drop box shall have:

1. A slotted opening through which coins and slot tokens can be deposited;

2. A device that will automatically close and lock the slotted opening upon removal of the slot drop box from the slot machine; and

3. Two separate locks securing the contents of the slot drop box, the keys to which shall be different from each other. The key to one of the locks shall be maintained and controlled by a Commission inspector. The key to the second lock, which shall also be different from the keys utilized to secure the compartments of the slot machine and the slot drop box, shall be maintained and controlled by the accounting department in a secure area within that department, access to which may be gained only by a supervisor in that department.

(d) A slot drop box shall be housed in a locked compartment separate from any other compartment of the slot machine. The area in which the slot drop box is located shall be secured by two separate locks, the design, location and operation of which shall be approved by the Commission, and the keys to which shall be different from each other. The key to one of the locks securing this area shall be maintained and controlled by a Commission inspector. The key to the second lock, which shall also be different from the keys utilized to secure any other compartments of the slot machine and the contents of the slot drop box, shall be maintained and controlled by the casino security department in a secure area within that department, and access to the key may be gained only by a supervisor in that department.

(e) Any slot machine equipped to accept slot tokens in denominations of \$25.00 or more shall utilize a slot drop box, rather than a slot drop bucket.

(f) The area in which the slot cash storage box is located shall be secured by two separate locks, the design, location, and operation of which shall be approved by the Commission, and the keys to which shall be different from each other.

(g) The key to one of the locks securing the area where the slot cash storage box is located shall be maintained and controlled by a Commission inspector. The key to the second lock to such area, which key shall also be different from the keys securing the contents of the slot cash storage box, shall be maintained and controlled by the casino security department or the slot department in a secure area within that department. Access to the key may be gained only by a supervisor in that department, provided, however, that if the slot department controls the key, the supervisor of the slot department may issue the key to a casino security department supervisor, who may give it to appropriate casino security department personnel only for the purpose of participating in the transportation of slot cash storage boxes, pursuant to N.J.A.C. 19:45-1.17.

(h) Keys to each slot machine, or any device connected thereto which may affect the operation of the slot machine, with the exception of the keys to the compartments housing the slot drop bucket and to the locks securing the areas where the slot cash storage box and slot drop box are located, shall be maintained in a secure place and controlled by the slot department.

(i) Any key removed from a department's secure area pursuant to (b), (c), (d), (g) or (h) above, shall be returned no later than the end of the shift of the department member to whom the key was issued, and the department shall establish a sign-out and sign-in procedure approved by the Commission for all such keys removed.

(j) Unless a computer which automatically records the information specified in (j)1, 2, and 3 below is connected to the slot machines in the casino, the following entry authorization logs shall be maintained by the casino licensee:

1. Whenever it is required that a slot machine or any device connected thereto which may affect the operation of the slot machine be opened, with the exception of a bill changer, certain information shall be recorded on a form to be entitled "Machine Entry Authorization Log." The information shall include, at a minimum, the date, time, purpose of opening the machine or device, and the signature of the authorized employee opening the machine or device. The Machine Entry Authorization Log shall be maintained in the slot machine and shall have recorded thereon a sequential number and a manufacturer's serial number or the asset number of that slot machine.

2. Whenever it is required that a progressive controller not housed within the cabinet of a slot machine be opened, the information specified in (j)1 above shall be recorded on a form to be entitled "Progressive Entry Authorization Log." The Progressive Entry Authorization Log shall be maintained in the progressive unit and shall have recorded thereon a sequential number and serial number of the progressive controller.

3. With the exception of the transportation of slot cash storage boxes, pursuant to N.J.A.C. 19:45-1.17(a), whenever it is required that a bill changer, other than a separate slot cash storage box compartment, be opened, certain information shall be recorded on a form to be entitled "Bill Changer Log." The information shall include, at a minimum, the date, time, purpose of opening the bill changer, and the signature of the authorized employee opening the bill changer. The Bill Changer Log shall be maintained in the bill changer and shall have recorded thereon a sequential number and the serial number or asset number of the bill changer. If the bill changer is contained completely within the cabinet of a slot machine and there is no separate access to the bill changer unit, the information may be recorded on the Machine Entry Authorization Log required by (j)1 above, provided that any information that concerns the opening of the bill changer may be distinguished from any other information that concerns the opening of the slot machine or any other device connected thereto.

19:45-1.36A Slot machines; hopper storage areas

(a) A hopper storage area may be used in connection with the operation of the slot machine, for the purpose of temporarily storing coins, prize tokens or slot tokens that are to be deposited only into the slot machine's hopper that corresponds with the coin or type of token stored in the hopper storage area.

(b) A hopper storage area shall be a secure compartment located adjacent to, but separate from, any compartment of its corresponding slot machine, or the drop bucket compartment of such slot machine, and shall:

1. Be constructed so as to provide maximum security for the coins or tokens stored in it;

2. Be secured by two separate locks, the keys to which shall be different from each other. One of the keys, which may be the same as the key which opens the slot machine corresponding to that hopper storage area, shall be maintained and controlled by the slot department. The other key, which shall be different from the key securing the corresponding slot machine, shall be maintained and controlled by the casino security department, in a secure area within that department, and access to that key may be gained only by a supervisor in that department. Removal of the key from this area may be undertaken only for use and return no later than the end of the shift of the department member to whom the key was issued, and upon the approval of a supervisor of that department, and entry of the following information into a log:

i. The signature of the department member to whom the key was issued;

ii. The signature of the supervisor authorizing such issuance;

iii. The date and time issued; and

iv. The date and time replaced; and

3. Include a device that indicates when the door of the hopper storage area is open.

(c) Hopper storage areas shall be filled and utilized in accordance with the procedures in N.J.A.C. 19:45-1.41 and a casino licensee's system of internal controls.

19:45-1.37 Slot machines and bill changers; identification; signs; meters

(a) Unless otherwise authorized by the Commission, each slot machine in a casino shall have the following identifying features:

1. A manufacturer's serial number affixed to the outside of the slot machine cabinet in a location as approved by the Commission.

2. An asset number, at least two inches in height, permanently imprinted, affixed or impressed on the outside of the machine;

3. A display located conspicuously on the front of the slot machine that automatically illuminates when a player has won a jackpot not paid automatically and totally by the slot machine and which advises the player to see an attendant to receive full payment;

4. A display on the front of the slot machine that provides fair notice of the following:

i. The rules of play, character combinations which will award payouts and the related payouts;

ii. If the slot machine offers a payout of merchandise or some other thing of value, a clear description of the merchandise or thing of value including its cash equivalent value (unless the payout is an annuity jackpot), the dates the merchandise or thing of value will be offered if the casino licensee establishes a time limit for offering the merchandise or thing of value as provided in N.J.A.C. 19:45-1.40A, and the availability or unavailability to the patron of the optional cash equivalent value authorized by N.J.A.C. 19:45-1.40A(m). The display need only contain the name or a brief description of the merchandise or thing of value offered, provided that a sign containing all of the information specified in (a)4ii above shall be displayed in a location near the slot machine as approved by the Commission;

iii. If the slot machine offers a progressive jackpot, the dates the progressive jackpot will be offered and the payout limit, if the casino licensee establishes a time limit or payout limit as provided in N.J.A.C. 19:45-1.39. If no time limit or payout limit is established, the display shall state that the casino licensee reserves the right to change or discontinue the progressive slot machine upon 30 days notice. The display need not contain this information provided that a sign which does contain this information shall be displayed in a location near the slot machine as approved by the Commission;

iv. If the slot machine is equipped with a payout-only hopper, a statement either that:

(1) Any prize tokens that are paid out as a jackpot from that hopper cannot be used to activate play at any slot machine; or

(2) Any coins or slot tokens that are paid out from that hopper cannot be used to activate play at that slot machine; and

v. If the slot machine is equipped with multiple hoppers and has the win meter permitted by (b)4ii below and N.J.A.C. 19:46-1.26(c)5, a statement, approved by the Commission, that reasonably explains to patrons the information disclosed by the win meter.

5. A mechanical, electrical, or electronic device that automatically precludes a player from operating the slot machine after a jackpot requiring a manual payout and requires an attendant to reactivate the machine;

6. A light on the pedestal above the slot machine that automatically illuminates when the door to the slot machine or any device connected which may affect the operation of the slot machine is opened; and

7. A location number, at least two inches in height, affixed to the outside of the machine and visible to the casino licensee's closed circuit camera coverage system.

(b) Unless otherwise authorized by the Commission, each slot machine in a casino shall be equipped with the following:

1. A mechanical, electrical or electronic device, to be known as an "in-meter" that continuously and automatically counts the number of coins or slot tokens placed by patrons into the machine for the purpose of activating play;

2. A mechanical, electrical or electronic device, to be known as a "drop meter," that continuously and automatically counts the number of coins or slot tokens that are dropped into the machine's slot drop bucket or slot drop box;

3. For each hopper in a slot machine, a separate mechanical, electrical or electronic device, to be known as a "jackpot meter," that continuously and automatically counts, for that hopper only, the number of coins, prize tokens or slot tokens that are automatically paid by the machine from the corresponding hopper and that displays the aggregate number so counted; provided, however, that:

i. In lieu of the jackpot meter for a payout-only hopper displaying the aggregate number of coins, slot tokens or prize tokens paid out from that hopper, each casino licensee that uses a slot machine which is capable of converting the number of coins, slot tokens or prize tokens paid out from a payout-only hopper into the equivalent number of coins or slot tokens that match the denomination of the coin or slot token which that slot machine is designed to accept in order to activate play (the "machine denomination equivalent"), may, in accordance with internal controls approved by the Commission, set the jackpot meter connected to each payout-only hopper in that slot machine to continuously and automatically count and display the aggregate number of coins, slot tokens or prize tokens paid out from that hopper by its machine denomination equivalent (for example, the jackpot meter on a 25c slot machine may display the payout of one \$3.00 prize token as the payout of "12" quarters); and

ii. Each slot machine with multiple hoppers may have a single jackpot meter to count and display the aggregate number of coins, slot tokens or prize tokens paid out from that machine's hoppers provided that:

(1) Each hopper is connected to that meter;

(2) The jackpot meter counts and displays, in accordance with (b)3i above, the aggregate number of coins, slot tokens or prize tokens paid out from a payout-only hopper by its machine denomination equivalent; and

(3) Each payout-only hopper has a separate jackpot meter, to be known as a "payout-only jackpot meter," that counts and displays the aggregate number of coins, slot tokens or prize tokens actually paid out from that hopper only; and

4. A mechanical, electrical or electronic device, to be known as a "win meter," visible from the front of the machine, that, upon a player hitting a winning combination, advises the player of the number of coins, prize tokens or slot tokens for that round that have been paid to the player by the machine from the corresponding hopper; provided, however, that multiple win meters, as provided in (b)4i or ii below after approval of the casino licensee's internal controls therefor, shall be used on each multiple hopper slot machine whenever one or more winning combinations that are hit on the same round of play at that machine entitle the winning player to automatically receive coins, slot tokens or prize tokens from both hoppers and each hopper contains a different denomination of coins, slot tokens or prize tokens, as follows:

i. A separate win meter for each hopper that, for the round in which a winning combination is hit, advises the winning player of the actual number of coins, slot tokens or prize tokens won from that hopper only; or

ii. A win meter to which each hopper is connected that advises the winning player of the aggregate number of coins, slot tokens or prize tokens won that round from both hoppers after first converting the aggregate number of any coins, slot tokens or prize tokens won on that round from a payout-only hopper into its machine denomination equivalent, and a separate win meter, to be known as a "payout-only win meter," connected to each payout-only hopper that advises the player of the number of coins, slot tokens or prize tokens actually won on that round from the corresponding hopper only (for example, a win meter on a multiple hopper 25c slot machine may, pursuant to this paragraph, record the payout, on the same round of play, of one \$3.00 prize token and two quarters as the payout of "14" quarters, provided there is a separate payout-only win meter advising the player that one prize token was paid out).

(c) Unless otherwise authorized by the Commission each slot machine which does not totally and automatically pay the full amount of a jackpot to a patron shall be equipped with a mechanical, electrical or electronic device to be known as a "manual jackpot meter" that continuously and automatically records a pulse(s) for a predetermined number of coins or slot tokens that are to be paid manually.

(d) Unless otherwise authorized by the Commission, each slot machine that accepts currency shall have meters that accomplish the objectives set forth in (b) and (c) above.

(e) Unless otherwise authorized by the Commission, each slot machine that has an attached bill changer shall also be equipped with mechanical, electrical or electronic devices as follows:

1. A "cash box" meter that continuously and automatically records the total dollar amount of all currency accepted by the bill changer or, as an alternative, a connection to a computer system approved by the Commission that determines the total dollar amount of all currency accepted by the bill changer from data supplied from the bill meters required by (e)2 below;

2. A number of "bill meters," that continuously, automatically and separately count, for each denomination of currency accepted by the bill changer, the actual number of bills accepted by the bill changer; and

3. If the attached bill changer can accept coupons but does not contain the coupon meters identified in N.J.A.C. 19:45-1.46B:

i. A "numerical coupon meter" that continuously, automatically and separately counts the total number of all coupons accepted by the bill changer; and

ii. A "value coupon meter" that continuously, automatically and separately counts the total dollar value of all coupons accepted by the bill changer.

(f) All meters described in this section and in N.J.A.C. 19:46-1.26 shall be placed in a position so that the numbers thereon can be read and recorded without opening the slot machine.

(g) Each casino licensee shall set each of its slot machines to pay out, at a minimum, 83 percent of the amount of coins, currency or slot tokens that are placed by patrons into that slot machine and shall maintain a record of each slot machine setting and theoretical payout percentage. No payout of any merchandise or thing of value or payment of cash in lieu of any merchandise or thing of value pursuant to N.J.A.C. 19:45-1.40A shall be included in determining whether a slot machine meets the 83 percent minimum payout requirement.

(h) Each slot machine in a casino shall have such test connections as may be specified by the Division and approved by the Commission for the on-site inspection, examination, and testing of such machine.

(i) Each slot machine in a casino shall have devices, equipment, features and capabilities as may be required by the Commission for that particular model of slot machine after the prototype model is tested and examined by the Division.

19:45-1.42 Removal of slot drop buckets, slot drop boxes and slot cash storage boxes; unsecured currency; meter readings

(a) For each slot machine and attached bill changer on the gaming floor, the slot drop bucket, slot drop box and slot cash storage box shall be removed at least once a week on specific days and at times designated by the casino licensee on a schedule which shall be filed with the Commission and the Division. No slot drop bucket, slot drop box or slot cash storage box shall be emptied or removed from its compartment at other than the times specified on such schedule except with the express approval of the Commission. Prior to emptying or removing any slot drop bucket, slot drop box or slot cash storage box, a casino licensee shall notify the Commission and the surveillance department of the transportation route that will be utilized.

1. All slot drop boxes which are not attached to a slot machine or temporarily stored in the base of a slot machine pursuant to (c)2ii below, including emergency slot drop boxes which are not actively in use, shall be stored in the count room or other secure area outside the

count room approved by the Commission, in an enclosed storage cabinet or trolley and secured in such cabinet or trolley by a separately keyed, double locking system. The key to one lock shall be maintained and controlled by the security department and the key to the second lock shall be maintained and controlled by the Commission.

- (b) Slot drop buckets, slot drop boxes and slot cash storage boxes shall be removed from their compartments in a slot machine or bill changer, in the presence of a Commission inspector, by at least three employees, two of whom shall be members of the casino security department, and one of whom shall be a member of the accounting department.

- (c) Procedures and requirements for removing slot drop buckets, slot drop boxes and slot cash storage boxes from the casino shall be as follows:

1. The slot drop bucket, slot drop box or slot cash storage box shall be removed from its compartment and an empty slot drop bucket, slot drop box, or slot cash storage box shall be placed into the compartment, and if applicable, a unique identification number shall be assigned and recorded for the slot cash storage box, either upon its insertion or removal, after which the compartment shall be closed and locked;

2. All slot drop buckets, slot drop boxes and slot cash storage boxes removed from compartments shall be transported directly to, and secured in the count room by the personnel required by N.J.A.C. 19:45-1.17(c), for the counting of their contents; provided, however, that:

- i. A slot cash storage box removed from a bill changer in order to service the bill changer may be temporarily stored in the corresponding double-locked base of the slot machine (the compartment of the slot machine containing the slot drop bucket or slot drop box) attached to the bill changer, and shall be replaced and relocked in the bill changer when the repairs are completed. If the repairs cannot be completed and the slot cash storage box cannot be replaced in the bill changer by the end of the repair person's shift, or if the bill changer must be removed from the casino floor, the slot cash storage box shall be removed from the locked slot compartment and transported to the count room in accordance with N.J.A.C. 19:45-1.38; and

- ii. A full or inoperable slot drop box shall be replaced with an empty emergency slot drop box, and may be stored in its corresponding double-locked slot machine base until no later than the next scheduled slot drop box pickup; and

3. Except for members of the casino accounting department participating in the emergency removal of a slot cash storage box or slot drop box, casino security department employees and representatives of the Commission and Division, all persons participating in the removal of slot drop buckets, slot drop boxes and slot cash storage boxes shall wear as outer garments only a full-length, one-

piece pocketless garment with openings only for the hands, feet and neck.

(d) In addition to complying with the procedures included in (b) and (c) above, a casino licensee shall submit to the Commission for approval its procedures detailing how the slot drop bucket, slot drop box and slot cash storage box for each slot machine and attached bill changer on the gaming floor will be emptied or removed from its compartment when the casino is open to the public for 24 hours. Such submission shall include at least the following:

1. How patrons will be notified that a slot machine will be closed for emptying or removing slot drop buckets, slot drop boxes or slot cash storage boxes;
2. How patrons will be removed from slot aisles;
3. How the area will be secured while the slot drop buckets, slot drop boxes or slot cash storage boxes are emptied or removed; and
4. How the compartments in which the full slot drop buckets, slot drop boxes or slot cash storage boxes are transported, will be secured while they are in the casino.

(e) Whenever currency is found inside a bill changer but outside the slot cash storage box ("unsecured currency"), a slot supervisor or casino accounting supervisor shall complete a form which includes the asset number or, pursuant to N.J.A.C. 19:45-1.16(b), other unique identification number of the slot cash storage box in the bill changer in which the unsecured currency was found, the date the unsecured currency was found and the total dollar amount of the unsecured currency. The slot supervisor or casino accounting supervisor and a member of the casino security department shall then sign the form as evidence of the total dollar amount being transported; place the form and the unsecured currency into an envelope or container, unless the form is printed on the front of the envelope in which the currency is being placed; seal the envelope or container using a method approved by the Commission, which method shall provide evidence of any tampering; and transport the envelope or container directly to the cashiers' cage.

(f) Upon receipt of the sealed envelope or container from the slot supervisor or casino accounting supervisor, a main bank cashier or cage supervisor shall immediately prepare an Unsecured Bill Changer Currency Report.

(g) Unsecured Bill Changer Currency Reports shall be serially prenumbered forms. Each series of Unsecured Bill Changer Currency Reports shall be used in sequential order and shall be accounted for by employees independent of the cashiers' cage and slot department. All original and duplicate void Unsecured Bill Changer Currency Reports shall be marked "VOID" and shall require the signature of the preparer. All copies of void Unsecured Bill Changer Currency Reports shall be forwarded to the accounting department at the end of the gaming day.

(h) For establishments in which Unsecured Bill Changer Currency Reports are manually prepared, the following procedures and requirements shall be observed:

1. Each series of Unsecured Bill Changer Currency Reports shall be a three-part form, at a minimum, and shall be inserted into a locked dispenser that will permit an individual slip in the series and its copies to be written upon simultaneously while still locked in the dispenser, and that will discharge the original and duplicate while the triplicate remains in a continuous, unbroken form in the dispenser; and

2. Access to the triplicates shall be maintained and controlled at all times by employees responsible for controlling and accounting for the unused supply of Unsecured Bill Changer Currency Reports, placing Unsecured Bill Changer Currency Reports in the dispensers, and removing from the dispensers the triplicates remaining therein.

(i) For establishments in which Unsecured Bill Changer Currency Reports are computer prepared, each series of Unsecured Bill Changer Currency Reports shall be a two-part form, at a minimum, and shall be generated by a computer system that will: simultaneously print an original and duplicate and store, in machine-readable form, all information printed on the original and duplicate; and discharge the original and duplicate. The stored data shall not be susceptible to change or removal by any personnel after preparation of the Unsecured Bill Changer Currency Report.

(j) On the original, duplicate and triplicate or, if applicable, in stored data, the main bank cashier or cage supervisor shall record, at a minimum, the following information:

1. The date and time of preparation;
2. The asset number or, pursuant to N.J.A.C. 19:45-1.16(b), other unique identification number of the slot cash storage box in the bill changer from which the unsecured currency was removed;
3. The denomination(s) of unsecured currency;
4. The total dollar amount of the unsecured currency; and
5. The signature or, if computer prepared, identification code of the preparer.

(k) The original and duplicate copies of the Unsecured Bill Changer Currency Report shall be presented to the slot supervisor or casino accounting supervisor and the casino security representative for signature.

1. Upon meeting the signature requirements, the main bank cashier or cage supervisor shall transport the unsecured currency along with the original and duplicate copies of the Unsecured Bill Changer Currency Report to the main bank.

- i. If the Unsecured Bill Changer Currency Report was prepared by a cage supervisor, the main bank cashier shall:

(1) Sign the original and duplicate copies of the Unsecured Bill Changer Currency Report;

(2) Retain the original Unsecured Bill Changer Currency Report and the unsecured currency; and

(3) Return the duplicate Unsecured Bill Changer Currency Report to the cage supervisor who shall attach the form referenced in (e) above to the duplicate and expeditiously deposit the duplicate with the attached form into the locked accounting box located in the cashiers' cage.

ii. If the Unsecured Bill Changer Currency Report was prepared by the main bank cashier, the main bank cashier shall:

(1) Retain the original Unsecured Bill Changer Currency Report and the unsecured currency;

(2) Attach the form referenced in (e) above to the duplicate Unsecured Bill Changer Currency Report; and

(3) Return the duplicate Unsecured Bill Changer Currency Report and attached form to the casino security representative who shall expeditiously deposit the duplicate with the attached form into a locked accounting box maintained in a location approved by the Commission.

2. The main bank cashier shall then either:

i. Add the value of the unsecured currency to the main bank's accountability and retain the original of the Unsecured Bill Changer Currency Report until the end of the gaming day; or

ii. Maintain the unsecured currency and the original Unsecured Bill Changer Currency Report until both are collected by a count room supervisor and immediately transported to the count room where:

(1) The currency shall be counted with the contents removed from the corresponding slot cash storage box and recorded on the Slot Cash Storage Box Report; and

(2) The original Unsecured Bill Changer Currency Report shall be forwarded to the accounting department in accordance with N.J.A.C. 19:45-1.33(i).

(l) At the end of the gaming day, at a minimum, the original and duplicate copy of the Unsecured Bill Changer Currency Report shall be forwarded as follows:

1. If, pursuant to (k)1 above, the main bank cashier has retained possession of the original, the cashier shall forward the original directly to the accounting department for agreement with the triplicate or stored data; and

2. The duplicate with the attached form shall be forwarded directly to the accounting department for recording on the Slot Cash Storage Box Report and Slot Win Sheet, and agreement with the triplicate or stored data;

provided, however, that no additional recording of the unsecured currency shall be required if the currency has been transported to the count room, counted and recorded pursuant to (k)2 above.

(m) The duplicate copy of the Unsecured Bill Changer Currency Report shall be attached to the Slot Cash Storage Box Report as supporting documentation. A notation shall be made on the duplicate Unsecured Bill Changer Currency Report indicating whether the dollar amount of the unsecured currency has been added to the Slot Cash Storage Box Report and Slot Win Sheet in accordance with (k)2 above or (l)2 above.

(n) Notwithstanding the requirements of (e) through (m) above, when unsecured currency is found during the collection of slot cash storage boxes, a casino licensee shall transport the unsecured currency directly to the soft count room. The completion of the form required by (e) above shall be performed by a count team member and a member of the casino security department. The envelope or container shall be transported with the slot cash storage boxes to the count room pursuant to N.J.A.C. 19:45-1.17(c). The unsecured currency shall be counted and recorded with the contents removed from the corresponding slot cash storage box. The form prepared pursuant to (e) above shall be forwarded to the accounting department with the Slot Cash Storage Box Report pursuant to N.J.A.C. 19:45-1.33(i).

(o) Accounting department employees with no incompatible functions shall, at least once a week, read and record on a Slot Meter Sheet the numbers on the in-meter, drop meter, jackpot meter, manual jackpot meter, cash box meter, if applicable, and coupon meters in accordance with internal controls approved by the Commission. In lieu of manual meter readings, a casino licensee may have a computer system, as approved by the Commission, record any of the required meter readings. The computer shall store in machine readable form all information required by this section and such stored data shall not be susceptible to change or removal by any personnel. If a bill changer does not contain a cash box meter pursuant to N.J.A.C. 19:45-1.37(e)1, a casino licensee shall be required to read and record or have an approved computer system record the bill meter readings each time the slot cash storage box is removed. Accounting department employees shall periodically read and record on a Slot Meter Sheet the numbers on the bill meters in accordance with a schedule established by the casino licensee and approved by the Commission, but in no event shall the casino licensee be required to read and record the bill meters more than once a week. These procedures shall be performed in conjunction with the removal and replacement of the slot drop buckets, slot drop boxes or slot cash storage boxes prior to opening the slot machines for patron play.

(p) After preparation of the Slot Meter Sheet each employee involved with its preparation shall sign the Slot Meter Sheet attesting to the accuracy of the information

contained thereon after which the sheet shall be forwarded directly to the accounting department for comparison to the Slot Win Sheet and calculation of slot machine statistics.

(q) Whenever there is a variance of \$25.00 or more between the cash box meter reading that is recorded on the Slot Meter Sheet pursuant to (o) above or a reading from a computer system approved pursuant to N.J.A.C. 19:45-1.37(e)1 and the total amount of cash and coupons removed from the bill changer's slot cash storage box, the casino licensee's accounting department shall, as expeditiously as possible, read and record on a Slot Meter Sheet the bill meters and value coupon meter, and shall remove the slot cash storage box and count the contents in accordance with N.J.A.C. 19:45-1.33. The meter readings from the bill meters and value coupon meter shall be compared to the total amount of cash and coupons removed from the slot cash storage box for the period from the last date the bill meters and value coupon meter were read to verify the variance. The casino licensee shall be required to file an incident report with the casino controller, Commission and Division whenever there is a variance of \$25.00 or more. The incident report shall include, at a minimum, the following:

1. The date of the meter reading;
2. The date the report was filed;
3. The amount of the variance, by denomination;
4. The asset number of the bill changer involved;
5. An indication as to the cause of the variance, if available;
6. An indication as to whether the bill meters and value coupon meter confirmed the variance; and
7. The signature and license number of the preparer.
