TO: Honorable Members of the New Jersey State Legislature

FROM: Robert A. Briant, Jr., Vice Chairman of the Board,
New Jersey Environmental Infrastructure Trust

SUBJECT: State Fiscal Year 2018 Second Amended Interim Financing Program Project Priority List for
Short-Term Funding in the New Jersey Environmental Infrastructure Financing Program

Overview – The New Jersey Environmental Infrastructure Trust (the “Trust”) is pleased to present to the New Jersey State Legislature, an amended Project Priority List consisting of three hundred and ninety-six (396) projects at a total estimated cost of \$3.67 billion, including twenty-eight (28) additional projects for which applications were received since June 1, 2017 for State Fiscal Year (“SFY”) 2018 in accordance with P.L. 1985, Chapter 334, as amended. This list is a complete compilation of all projects seeking financing.

Background – Since issuing the first loan in 1987, the Trust has partnered with the Department of Environmental Protection (“DEP”) to jointly fund and manage the annual New Jersey Environmental Infrastructure Financing Program (“NJEIFP”), which provides efficient, low-cost financing for environmental infrastructure projects. The NJEIFP leverages Federal and State Revolving Funds (“SRF”) with Trust publicly issued bonds to provide the lowest possible interest rate loans to participants for the construction of environmental infrastructure projects.

Short-Term Loan Priority List – As part of the NJEIFP, the Trust issues short-term loans to facilitate the construction process. The Trust’s Enabling Act requires that any project receiving short-term financing must be included on the interim financing project priority list (“Priority List”) submitted to the Legislature, and must be sponsored by an eligible borrower. The Priority List for SFY2018 was submitted to the Legislature as part of the NJEIFP’s SFY2018 Priority System and Project Priority List in January 2017 (the “January Report”). It was also submitted to the Legislature in May 2017 as part of the Trust Financing Program Base SFY2018 and Superstorm Sandy Financial Plan (the “May Report”), limited to projects receiving authorization to award construction on or before March 15, 2017. Most recently, the First Amended Project Priority List was submitted to the Legislature on July 1, 2017. The Trust Enabling Act (P.L.2016, c. 30) authorizes the Trust to amend the Priority List four times during the fiscal year. This submission serves as the second such amendment.

Projects – The First Amended Interim Financing Program Priority List for SFY2018 submitted on July 1, 2017, lists 370 projects on the Priority List costing \$3.36 billion. The Second Amended Interim Financing Program Project Priority List for SFY2018 submitted herewith reflects the revision of the estimated cost of 22 projects (identified in **BOLD**) and the addition of twenty-eight (28) new projects (identified in **Green**). As is customary, the SFY2018 Priority List is presented as two project lists; Clean Water projects are listed in Appendix A and Drinking Water projects in Appendix B. The projects are presented alphabetically with project prioritization

information. The NJEIFP's project prioritization methodology is the means by which limited financing program funds are distributed among eligible projects. The detailed ranking methodologies for Clean Water and Drinking Water Projects are set forth in the NJEIFP's Federal FY2017 Intended Use Plans available at <https://www.njeit.org/program-publications>.
