7:25-18.2 Pound nets

(a) The following words and terms shall have the following meanings unless the context clearly indicates otherwise.

“Department” means the New Jersey Department of Environmental Protection.

“Heart” means an upright fence of netting forming a heart-shaped (round or square) compartment located between the leader and the pocket. It is designed to cause fish to circle in front of and eventually enter the pocket of a pound net.

“Leader” means an upright fence of netting that acts as a barrier to fish and guides them toward a trap; the netting is made of heavy twine, not designed to catch fish by the gills.

“Navigable channel” means a channel marked with navigational markers including poles, piling or buoys, by the Coast Guard or the State.

“Pocket” means an upright fence of netting forming the final compartment of a pound net in which trapped fish accumulate.

“Pound net” means a large fish trap, consisting of a leader, pocket and one or more hearts, held in place with poles, the netting of which reaches from the bottom to above the surface of the water.

“Staked or anchored gill net” means an upright fence of monofilament or nylon netting, held in place at each end by stakes or anchors, that catches fish by snagging their gill covers as they try to pass through the mesh of the net.

“Submarine pound net” means a pound net that is totally submerged beneath the water and held in place by anchors.

(b) General requirements for all pound net users are as follows:

1. No person may install, operate or maintain a pound net in the marine waters of the State without having first obtained a license from the Department.

2. The Department may establish limits on the number of licenses to be issued for pound nets in Raritan Bay and Sandy Hook Bay and in the Atlantic Ocean within three nautical miles of the coastline.

3. Licenses must be renewed annually.

7:25-18.16 Horseshoe crab (*Limulus polyphemus*)

(a) An individual shall not catch, take, or attempt to catch or take, land or possess horseshoe crabs from any beach or shoreline or from the marine waters of this State unless such individual has in his or her possession a valid permit to take horseshoe crabs issued by the Commissioner of Environmental Protection. Any individual who wishes to harvest horseshoe crabs may be eligible to obtain a permit by completing an application available from the: Division of Fish, Game and Wildlife, Bureau of Marine Fisheries, PO Box 400, Trenton, N.J. 08625. The following persons, in the following circumstances, are not subject to this prohibition:

1. Property owners, tenants or agents of property owners may, at any time, remove dead horseshoe crabs from their property for purposes of disposal. No sale, trade, or barter of horseshoe crabs is permitted under this paragraph.

2. Persons collecting horseshoe crabs for strictly scientific purposes only and operating under the terms and conditions specified by a required scientific collecting permit issued pursuant to N.J.S.A. 23:4-52 by the Administrator of the Marine Fisheries Administration within the Division of Fish, Game and Wildlife.

3. Individuals in possession of a valid New Jersey miniature fyke or a valid New Jersey lobster or fish pot license and in possession of bona fide written documentation that the horseshoe crabs were obtained from a legal source.

(b) An individual is eligible for a horseshoe crab permit if the individual in each of two calendar years during the period of January 1, 1993 through May 29, 1997:

1. Possessed a valid New Jersey miniature fyke or lobster or fish pot license;

2. Possessed a valid New Jersey horseshoe crab permit; and

3. Reported landings of horseshoe crabs in New Jersey as verified by the Department on the basis of the reports submitted by the individual to the Department as required under this section since May 3, 1993.

(c) Horseshoe crab permits shall be non-transferable.

(d) The season for taking horseshoe crabs shall be May 1 through June 30.

(f) An individual shall not harvest or land horseshoe crabs that have been taken by any method other than by

hand harvest. The use of any implement (nets, rakes, spears, shovels, forks, etc.) to assist hand harvest is prohibited. Hand harvest is permitted in areas other than specified in (e) above only on Tuesdays and Thursdays during the season established under (d) above.

(g) (Reserved)

(h) Any person harvesting horseshoe crabs shall provide monthly reports within five working days following the end of the reported month to the Department on forms supplied to the permit holder. The monthly report shall include the number of horseshoe crabs harvested, the area of collection and any other information as the Department may deem necessary for management of the horseshoe crab resource. If no horseshoe crabs were harvested during the month, a report to that effect shall be provided. The permittee shall be personally responsible for guaranteeing the timely delivery of reports to the Division as well as the accuracy of all information contained therein. The Department may demand that a permittee provide proof of the truth of any data contained in any report submitted to the Division under this program. If the permittee fails to file a true, complete monthly report with the Division by the fifth day of any month, the Division, in its discretion, may contact the permittee by the most expeditious method available in order to secure a complete report.

1. The Division shall notify the permittee in writing of the Division's intention to revoke the permittee's horseshoe crab harvesting privilege for the reasons stipulated in the notice, effective 20 business days after the date on the written notice (excluding the date on the notice) and of the Division's suspension of the permittee's horseshoe crab harvesting privileges in the interim, effective on a date stipulated in the notice but not sooner than 10 business days after the date of the notice (excluding the date on the notice).

2. The permittee may request a hearing to contest a proposed revocation of horseshoe crab harvesting privileges in accordance with the Administrative Procedure Act, N.J.S.A. 52:14B-1 et seq., and the Uniform Administrative Procedure Rules, N.J.A.C. 1:1. The request for an administrative hearing must be received in writing by the Department within 20 business days from the date on the Division's notice of suspension and intention to revoke, excluding the date on the notice. However, if a timely request for a hearing is not received by the Department, any allegation contained in the notice shall be deemed admitted by the permittee and horseshoe crab harvesting privileges shall be revoked as of the date stipulated in the notice, without any further action by the Division.

3. The Division Director may, in his or her sole discretion, stay the suspension of horseshoe crab harvesting privileges pending a hearing on the notice of proposed revocation of horseshoe crab harvesting privileges for any good cause set forth in a written petition from the permittee, including sworn statements from the permittee or other persons with knowledge relevant to the allegations on which the Division action is based. The petition and its supporting statements and documentation shall be made available to the court and all parties in advance of any hearing.

4. The Division shall reinstate horseshoe crab harvesting privileges suspended for late or incomplete reports, but no more than one time per permittee in any single permit year, if that permittee personally delivers any missing reports, completed, along with a credible written explanation for the delay and/or omissions to the Division within 20 business days from the date on the notice of suspension.

5. Any permittee who has had his or her horseshoe crab harvesting privilege revoked shall be disqualified from exercising any privilege associated with a horseshoe crab harvesting permit for 24 months following the effective date of an uncontested notice of proposed revocation of privileges, or whichever of the following is applicable:

- i. The Division Director lifts the suspension of that permittee's horseshoe crab harvesting privilege;
- ii. The Commissioner issues a Final Decision reinstating that permittee's horseshoe crab harvesting privilege; or
- iii. A court of competent jurisdiction orders reinstatement of that permittee's horseshoe crab harvesting privileges.

Case Notes

Emergency amendment to regulation, which extended prior emergency amendment's ban on taking horseshoe crabs, violated Administrative Procedure Act's requirement of legislative approval for such amendment continuation; although Department of Environmental Protection offered two different reasons for original and successive amendments, each amendment had same cause and same result, rendering successive amendment a continuation of first. *Delaware Bay Waterman's Ass'n of New Jersey v. New Jersey Dept. of Environmental Protection*, 304 N.J.Super. 20, 697 A.2d 957 (A.D. 1997.)
