SENATE BILL NO. 188
(SECOND REPRINT)

To the Senate:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I am returning Senate Bill No. 188 (Second Reprint) with my recommendations for reconsideration.

A. Summary of Bill

Senate Bill No. 188 (Second Reprint) would establish the New Jersey Task Force on Child Abuse and Neglect (Task Force). A similar entity, the Governor's Task Force on Child Abuse and Neglect (Governor's Task Force), already exists by virtue of my Executive Order No. 19, dated May 2, 1994. The composition and mandate of the Task Force under this bill would differ only slightly from the Governor's Task Force.

The bill would mandate that the Task Force study and develop recommendations to continue to improve the quality of the State's child protective services. In this regard, the Task Force would be required to review the practices and policies of the Division of Youth and Family Services (DYFS) in the Department of Human Services (DHS). The Governor's Task Force, in fact, has recently completed such a review of DYFS activities that it anticipates finalizing by September 1994.

The bill would also add two members from each House of the Legislature as members of the Task Force, and would reduce the number of public members that I am now empowered to appoint from 15 to 11. The Task Force would be authorized to call upon the services of any State, county or municipal government entity in pursuit of fulfilling its mandate, and would receive direct professional and clerical support from the DHS. Moreover, the bill would require the Task Force to consult with numerous organizations, which the bill specifically delineates, when developing its recommendations.

B. Recommended Action

I commend the Legislature and the bill's proponents for recognizing that the Task Force, which until now has existed solely by virtue of successive Executive Orders, is a worthy entity. The passage of the bill by both Houses of the Legislature is an acknowledgment that the Governor's Task Force has served an important and successful role in studying and educating the

public about the problem of child abuse and neglect in our State. I find, however, that I must make two changes to the bill.

First, because the Department of the Public Advocate has recently been eliminated, the Public Advocate should be removed as a member of the Task Force. In place of the Public Advocate, I recommend the addition of the Public Defender, who is now in the Department of State. The Task Force must include the State's Public Defender in order to remain eligible to receive federal funds pursuant to the federal Children's Justice Act. Therefore, because the Public Defender function has been transferred, this is an appropriate substitution for membership in the Task Force.

Second, rather than taking effect upon my signature, I recommend that the bill become effective on December 31, 1996, the day upon which my Executive Order No. 19 and, consequently, the mandate for the Governor's Task Force expire. This change would permit the Governor's Task Force to complete the initiatives it is currently working on and give the newer members of the Governor's Task Force an opportunity to contribute.

For these reasons, I herewith return Senate Bill No. 188 (Second Reprint) and recommend that it be amended as follows:

Page 1, Section 3, Line 22: After "Court, the" delete "Public Advocate" and insert "Public Defender"

Page 2, Section 10, Line 35: After "effect" delete "immediately" and insert "on December 31, 1996"

Respectfully,
Christine Todd Whitman
GOVERNOR

[seal] Attest:
Peter Verniero
Chief Counsel to the Governor

The Secretary read a communication from the Governor who has conditionally vetoed Senate No. 188 . Which communication was given first reading.

SENATE BILL NO. 419

(FOURTH REPRINT) To the Senate:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I am returning Senate Bill No. 419 (Fourth Reprint) with my recommendations for reconsideration.

A. Summary of Bill

Senate Bill No. 419 (Fourth Reprint) would retroactively change the formula for calculating the 1993 revenue cap for acute care hospitals that was established pursuant to the Health Care Reform Act of 1992 ("HCRA 1992"). The revenue cap, which was derived on a hospital-by-hospital basis pursuant to a three-factor formula, was originally implemented to control increases in hospital rates for the year of transition (1993) from regulated to deregulated rates. Any hospital that exceeded its revenue cap for 1993 is presently liable for a civil penalty up to 1.5 times the amount of the difference by which its revenues exceeded the cap.

This bill would add another revenue amount to the revenue cap totals and alter the calculation of the third factor of the revenue cap formula. First, the bill would add to the existing revenue cap of a hospital an amount to provide for the financial impact of a Certificate of Need ("CON") approved service or project that was not included in the calculations of a hospital's preliminary cost base for 1992.

Secondly, the bill would remove the language from the third factor of the formula that precludes a hospital from collecting an amount of net revenue under the original three factors of the revenue cap that would exceed the hospital's preliminary cost base for 1992.

B. Recommended Action

I agree with the Legislature and the bill's proponents that the addition of an amount that accounts for the fiscal impact of a CON approved service or project that was not included in a hospital's preliminary cost base for 1992 to the revenue cap totals is an appropriate means to rectify what has been acknowledged as an omission in the original revenue cap formula. I am advised that such projects had been approved by the DOH prior to the calculation of the 1993 revenue cap, and HCRA 1992 essentially overlooked consideration of the revenue that was to be derived from these projects during 1993. Therefore, I support the section

of the bill that makes this narrow change because it is equitable and based on sound public policy.

The bill would also remove language, however, that made the third factor of the formula, which accounts for recoupment of outstanding prior years' reconciliations, flexible in order to limit a hospital's revenue cap to the amount of its 1992 preliminary cost base. This limitation was the proper mechanism to determine an equitable level of net revenues for hospitals to recapture in 1993. Therefore, I conclude that it must remain in the formula.

To summarize: my recommended changes to the bill would ensure that an amount that provides for the fiscal impact of a CON approved service or project would be added to the already-existing revenue cap totals. In this way, the integrity of these revenue cap totals, which were calculated pursuant to the current three-factor formula, may not be challenged on the premise of a retroactive change to the revenue cap formula.

For these reasons, I herewith return Senate Bill No. 419 (Fourth Reprint) and recommend that it be amended as follows:

Page 1, Section 3, Line 33:	After "[and]" insert "and"
Page 1, Section 3, Line 40:	After "1992]" insert ", which total amount shall be adjusted so that a hospital's revenue cap does not exceed the hospital's preliminary cost base for 1992."

SENATE BILL NO. 1164
(FOURTH REPRINT)

To the Senate:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I am returning Senate Bill No. 1164 (Fourth Reprint) with my recommendations for reconsideration.

A. Summary of Bill Senate Bill No. 1164 (Fourth Reprint) amends Evidence Rule 29, codified as N.J.S.A. 2A:84A-23 and entitled the "priest-penitent privilege." This bill was enacted following a recent New Jersey Supreme Court decision, State v. Szemple, 135 N.J. 406 (1994), which held that Evidence Rule 29 "confers a testimonial privilege only on clergypersons." 135 N.J. at 423. Under the Court's decision in Szemple, the penitent "need not consent to the disclosure of a confession, confidential communication or confidential relation in order for the clergyperson to waive the privilege." 135 N.J. at 423. This bill provides that any communication made by a penitent to a cleric in the cleric's professional character shall be confidential. The bill prohibits a cleric and a penitent from waiving the privilege.

B. Recommended Action The Supreme Court based its decision in State v. Szemple on the ambiguous wording of the rule and what the Court believed was the Legislature's intent at the time it adopted the existing statute. With the adoption of this bill, the Legislature has reconsidered the question of whether a cleric may waive the confidentiality of certain communications or conversations with penitents. As noted, the bill provides that neither the cleric nor the penitent may waive that confidentiality. I agree with the Legislature as a matter of public policy that the power to assert the privilege should be reposed in both the cleric and penitent. A penitent should be able to speak in confidence with his or her cleric. No less than the client in an attorney-client relationship or the patient in a physician-patient relationship, the penitent in a cleric-penitent relationship is entitled to expect that his or her confidences will be maintained. Therefore, I recommend that, for all cases except those noted below, the privilege accorded to communications under this rule be subject to waiver only if both the person or persons making the communication and the cleric consent to the waiver.

Consistent with other privileges such as the attorney-client privilege, the cleric should be permitted to waive the privilege with respect to communications concerning future criminal acts.

Accordingly, I recommend that in cases in which the privileged communication pertains to a future criminal act, the cleric alone may, in his or her discretion, waive the privilege. My other recommended changes are intended to remove all ambiguity from the statute. For these reasons, I herewith return Senate Bill No. 1164 (Fourth Reprint) and recommend that it be amended as follows:

Page 1, Section 1, Lines 9-37: Delete in its entirety and insert "Any communication made in confidence to a cleric in the cleric's professional character, or as a spiritual advisor in the course of the discipline or practice of the religious body to which the cleric belongs or of the religion which the cleric professes, shall be privileged. Privileged communications shall include confessions and other communications made in confidence between and among the cleric and individuals, couples, families, or groups in the exercise of the cleric's professional or spiritual counseling role. As used in this section, "cleric" means a priest, rabbi, minister or other person or practitioner authorized to perform similar functions of any religion. The privilege accorded to communications under this rule shall belong to both the cleric and the person or persons making the communication and shall be subject to waiver only under the following circumstances:

(1)both the person or persons making the communication and the cleric consent to the waiver of the privilege; or (2) the privileged communication pertains to a future criminal

act, in which case, the cleric alone may, but is not required to, waive the privilege."

Page 1, Section 2, Line 38: After "immediately" insert "and have prospective effect only"

Christine Todd Whitman

October 20, 1994
SENATE BILL NO. 151
(SECOND REPRINT)

To the Senate:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I am returning Senate Bill No. 151 (Second Reprint) with my recommendations for reconsideration.

Summary of Bill

This bill provides that school districts that send pupils to attend the schools of another district will be entitled to representation on the board of education of the receiving district. Each sending district will be entitled to membership on the board of education of the receiving district according to the percentage of its pupils attending the schools of the receiving district in relation to the total enrollment in the grades of the receiving district in which the pupils of the sending district are enrolled, to be determined as follows:

Less than 7.5%- no representation;
7.5% or above- one member; and Two or

more districts that collectively have
at least 7.5% shall rotate one member.
Additionally, the bill provides that
representatives from two or more sending
districts which each meet the 7.5%
threshold may not collectively form
a majority of the board.

The representatives will be designated by the board of education of the sending district and will be in addition to the existing number of board members of the receiving district. Under the bill, the sending district representative will be eligible to vote on all matters before the receiving board, including the annual budget. The bill also requires the Department of Education to adopt regulations to implement the statute.

Recommended Action

The goal of this bill, to provide the sending district with a voice on the receiving district board of education, is laudable. I am encouraged by the Legislature's recognition of the merits of regionalization by establishing a formal line of communication between the districts. Such communication will foster an atmosphere of trust and cooperation between the respective boards of education. Although the goals of the legislation are meritorious, certain concerns have been identified. First, I am advised by my Chief Counsel that the bill may provide disproportionate representation to the sending district, in contravention of the Constitutional rights of the voters in the receiving district. In addition, the bill authorizes the sending district representative to vote on all matters before the receiving board including matters that do not affect the sending district.

To address these concerns, I am recommending that the representation of the sending districts be revised in terms of the number of representatives and their respective voting rights so as not to unfairly dilute the authority of the receiving district's board of education. I have also been advised by the Department of Education that regulations are not necessary to implement the legislation. Therefore, I recommend that each sending district be entitled to membership on the board of education of the receiving district according to the percentage of its pupils attending the schools of the receiving district in relation to the total enrollment in the grades of the receiving district in which the pupils of the sending district are enrolled, to be determined as follows:

Less than 10%- no representation;

10% or above- one member; and

Two or more sending districts that collectively have at least 15% shall have two members.

Additionally, under my recommendations, there would be no more than three additional members on a receiving district board with originally nine or more members, no more than two additional members on a receiving board with originally seven or eight members, and no more than one additional member on a receiving board with originally less than seven members.

The voting rights of the sending district representative shall also be limited to matters concerning the tuition to be charged the sending district by the receiving district; new capital construction to be utilized by sending district pupils; the appointment, transfer or removal of teaching staff directly providing services to sending district pupils; and the addition or deletion of curricular and extracurricular programs involving sending district pupils.

These changes will ensure that the sending districts have a voice on the receiving district's board of education. Importantly, my recommendations also observe the Constitutional requirements and equitable considerations that are associated with this issue.

For these reasons, I herewith return Senate Bill No. 151 (Second Reprint) and recommend that it be amended as follows:

Page 1, Section 1, Line 11:	Delete "or members"
Page 1, Section 1, Line 15:	Delete "all" and insert "the following"
Page 1, Section 1, Line 36:	Insert ": a. Tuition to be charged the sending district by the receiving district; b. New capital construction to be utilized by sending district pupils; c. Appointment, transfer or removal of teaching staff directly providing services to pupils of the sending district; d. Addition or deletion of curricular and extracurricular programs involving pupils of the sending district"
Page 1, Section 2, Line 41:	Delete "7.5" and insert "10"
Page 2, Section 2, Line 5:	Delete "7.5" and insert "10"

Respectfully,
/s/ Christine Todd Whitman
Governor

Attest: /s/ Peter Verniero
Chief Counsel to the Governor

SENATE BILL NO. 137
(Third Reprint)

To the Senate:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I am returning Senate Bill No. 137 (Third Reprint) with my recommendations for reconsideration.

A. Summary of Bill

Senate Bill No. 137 addresses three objectives.

First, the bill appropriates $10 million from the fund created pursuant to the Water Conservation Bond Act, P.L. 1969, c.127, for the costs of acquisition of lands in Sterling Forest in New York State. This provision is effective upon the enactment by the State of New York of legislation appropriating $10 million for the purchase of lands in Sterling Forest. Second, the bill appropriates $1 million from the same fund in order to provide state matching funds for federal funds available for the acquisition of property in the Pinelands deemed to be "of limited practical use." This provision is effective immediately. Third, the bill establishes an obligation on the part of the State to make payments in lieu of property taxes to municipalities in which lands are held by the Palisades Interstate Park Commission. This provision is effective immediately.

B. Recommended Action

1. Sterling Forest

I agree with the Legislature that protecting the Wanaque Reservoir, which is fed by an aquifer that underlies Sterling Forest and which supplies clean drinking water to two million citizens in northern New Jersey, is in this State's interest. I further agree with the Legislature that the purchase of Sterling Forest, if accomplished jointly with New York State and the federal government for a fair price, offers the greatest assurance that the aquifer will be protected. In order to ensure, however, that this State's contribution to that purchase reflects the land's fair market value and this State's fair share of the price, I believe that the bill should be modified in several respects.

First, the legislation must take into account the unsettled state of negotiations for the purchase of the property. No negotiations of a purchase price for Sterling Forest have yet taken place with the development company that holds title to the property. In addition, while New York has expressed its support for a contribution toward the purchase of Sterling Forest, New York has not yet passed legislation appropriating any funds for that purpose, and federal legislation appropriating $17.5 million failed in Congress.

Any money committed by this State to purchase Sterling Forest must reflect both the fair market value of the property and New Jersey's fair share of the purchase price. Because neither of these figures can be determined at this stage of the negotiations, the legislation must assure that an arm's length negotiation takes place. Accordingly, I recommend that the bill be amended to provide for an appropriation of up to $10 million and that the Department of Environmental Protection be satisfied that the amount expended reflects fair market value of the land. Furthermore, I recommend that New Jersey's commitment be effective only upon the passage of legislation in New York committing the sum of at least $10 million, and of federal legislation appropriating an amount at least equal to the combined commitments of New Jersey and New York. Finally, I recommend that this provision expire three years after its enactment if no purchase agreement has been executed.

2. Pinelands Appropriation

I agree with the Legislature that $1 million should be appropriated from the Water Conservation Bond Act fund to provide matching money for Pinelands area properties that are deemed to be "of limited practical use." The legislation also provides, however, that in the event that Water Conservation Bond money is not available, $1 million is appropriated from the General Fund. In view of this State's fiscal constraints, I recommend that the contingency appropriation from the General Fund be deleted.

3. Payment-In-Lieu-Of-Tax Provision

The bill requires the State to make payments in lieu of taxes to certain municipalities for properties held by the Palisades Interstate Park Commission. Because I have been advised by my Chief Counsel that the inclusion of this provision violates the single-object clause of the New Jersey Constitution, I am recommending that it be deleted.

For these reasons, I herewith return Senate Bill No. 137 (Third Reprint) and recommend that it be amended as follows:

Page 1, Section 1, Line 24: After "of" insert "up to"

Page 1, Section 1, Line 24:	After "lands" insert "or interests therein"
Page 1, Section 1, Line 38:	After "thereto." insert: "The Department of Environmental Protection shall be satisfied that any moneys expended pursuant to this section are consistent with the fair market value of the lands or interests therein purchased."
Page 2, Section 1, Lines 15-29:	Delete in its entirety.

Page 4, Section 7, Line 17:	Delete "7." and insert "5."
Page 4, Section 7, Line 20:	After "$10,000,000" insert "and by the federal government appropriating the sum of at least $17.5 million"
Page 4, Section 7, Line 25-28:	Delete ", unless the State of New York has enacted such legislation prior to the date of enactment of this act, in which case this act shall take effect immediately." and insert ". In no event shall New Jersey's contribution to the purchase of the Sterling Forest, when added to New York's contribution, exceed the amount of the federal appropriation. The obligation of funds pursuant to section 1 of this act shall expire if no agreement to purchase the lands in Sterling Forest has been executed within three years of the date of enactment of this act."

SENATE COMMITTEE SUBSTITUTE FOR
SENATE BILL NO. 335
(SECOND REPRINT)

To the Senate:

Pursuant to Article V, Section I, Paragraph 14, of the New Jersey Constitution, I am returning Senate Committee Substitute for Senate Bill No. 335 (Second Reprint) with my recommendations for reconsideration.

A. Summary of Bill

This bill authorizes the Supreme Court to establish a comprehensive enforcement court to increase the collection of judicially imposed financial obligations and to improve the enforcement of court orders. This court would be staffed by hearing officers and would be responsible for collecting fines and other monetary penalties imposed in both civil and criminal cases. The enforcement court also would be responsible for monitoring compliance with court orders such as those requiring defendants to make restitution or perform community service.

In addition to establishing the comprehensive enforcement court, the bill authorizes each county to establish a labor assistance program or an enforced community service program. These programs would provide supervised physical labor as a sentencing alternative to incarceration and as a sentencing option if a defendant fails to meet court-imposed financial obligations.

Funding for the comprehensive enforcement court would come from two sources. The bill appropriates $550,000 from the General Fund for hiring and training the hearing officers who would staff the enforcement court. In addition, the bill establishes the Comprehensive Enforcement Court Fund (the Fund), an operational fund for the enforcement court that will be capitalized through deductions of up to 25 percent of certain monies collected through the enforcement court.

B. Recommended Action

Through this bill, the Legislature has proposed a viable solution to a long-standing problem: uncollected court-imposed assessments and fines. In October 1993, the Governor's Management Review Commission reported that the State is owed in excess of $160 million in criminal debt. As the number of fines increases and as State agencies find it increasingly difficult to keep pace with current collections, the amount of outstanding criminal debt grows larger. Strengthening the State's collection efforts would send a strong message to criminals that they will be held accountable for the assessments and fines imposed against them. I noted the importance of such efforts in my Inaugural Address. The work programs established

by this bill, and the other sentencing options for criminals who do not pay their debt, would also help to accomplish that goal.

At the same time, it is important to keep the administrative costs of collection to a minimum. This bill calls for an appropriation of $550,000 for training and hiring hearing officers. I am deleting the $550,000 appropriation because I have been advised that program expenses could be funded through an accounts receivable against the funds anticipated to be collected. I prefer this less-costly funding mechanism to protect New Jersey's taxpayers. With regard to the on-going operation of the enforcement program, I believe the amount of money deducted from collections for this purpose should be approved by the Director of the Division of Budget and Accounting. This oversight will ensure that the amount of money deducted for the program will be commensurate with its projected cost.

As the bill is currently written, it refers to the formation of a comprehensive enforcement "court." It is important to note that the bill does not, in fact, create a new division of the Superior Court. Hearing officers, not judges, would be responsible for enforcing judicially imposed financial penalties and court orders. To prevent any confusion, I recommend renaming the comprehensive enforcement court the "comprehensive enforcement program."

For these reasons, I herewith return Senate Committee Substitute for Senate Bill No. 335 (Second Reprint) and recommend that it be amended as follows:

Page 1, Title, Line 1:	Delete "Court" and insert "Program"
