July 17--ATLANTIC ELECTRIC UNITS SWITCH TO COAL--The Atlantic Electric Company will convert two of its three generating units from oil to coal at its Deepwater station in Salem County. Acting DEP Commissioner Betty Wislon said air quality will not be harmed because low sulfur coal will be used in conjunction with new pollution control equipment.

* * *

July 19--FOUR-PART PROGRAM TO COPE WITH HAZARDOUS WASTES--Governor Brendan Byrne announced a comprehensive program to cope with hazardous waste disposal problems. It would: utilize a previously announced strike force to detect and prosecute for illegal handling and disposal of toxic wastes; create tougher penalties for violators; amend New Jersey Spill Fund legislation to provide industry money for spill cleanups pending determination of liability, and name a special advisory committee to study how hazardous waste should be disposed of. Former DEP Commissioner Rocco D. Ricci will head the 13-member advisory committee, which among other things, will study feasibility of state-sponsored regional hazardous waste treatment and disposal facilities.

* * *

July 20--UNION LAKE SAFE FOR SWIMMING--DEP sampling has shown that Union Lake in Cumberland County is safe for swimming. Alarm was generated by discovery of arsenic pollution in a portion of the Maurice River near Vineland, but concentrations reaching the lake are considered safe. Black Water Branch, a Maurice River tributary, will remain closed indefinitely as a precaution.

July 20--RADIOLOGIC TECHNOLOGY WEEK--Acting DEP Commissioner Wilson presented a proclamation on behalf of Governor Byrne to Emma Wolfe of Red Bank, president of the New Jersey Society of Radiologic Technologists, declaring the week of July 22-29 as Radiologic Technology Week.
