Mr Corio offered the following resolution, which was read and adopted

Resolved, That the Hon Henry J Gaede, of Hudson county, who is a Master in Chancery of this State and a member of this House, administer the oath of office to the Hon John J Roegner, of Passaic county, a member-elect, by whom the oath of office shall be administered to the members-elect

Mr Corio offered the following resolution, which was read and adopted

Resolved, That the Hon William De Lorenzo, of Bergen county, who is a Master in Chancery of this State and a member-elect of this House, administer the oath of office to the Speaker and other officers when they are elected

Mr Gaede administered the oath of office to Mr Roegner, who administered the oath of office to the members-elect (Mr Ezra Parker, of Ocean county, affirmed)

All the members present signed the roll

Mr Corio offered the following resolution, which was read and adopted

Resolved, That the House do now proceed with the election of Speaker

Mr Hershfield, of Passaic county, presented the name of William W Evans, of Passaic county, in nomination for Speaker, as follows

As the senior member of the Passaic county delegation, it is my privilege to nominate the candidate of that county for the Speakership of this the One Hundred and Forty-seventh Session of the New Jersey House of Assembly

Who our candidate is cannot be a matter of conjecture to those who have been en rapport with the affairs of this Assembly or to those who have kept in step with matters political in our State

The Speaker of the New Jersey Assembly is the third chief executive of our State, and many Speakers during the past two decades have in fact become acting Governors during their terms as Speakers

In addition, we, in this Assembly, must not lose sight of the fact that this House of Assembly, inasmuch as its entire membership is elected annually, represents that body in our State

government that is closest to the viewpoint of the people, so if we fail by our actions to satisfy the people, the coming year sees us defeated, hence we are truly and properly known as the people's Assembly

Passaic county, realizing the importance of this position, will not present for your consideration an unknown man, but rather one who has spent four long, active and constructive years among us, and one who in addition has been tried out by the greatest crucible in all tests, namely, that of Majority Leader, and he has yet to be found wanting

And yet our candidate not only conforms to our tests but he likewise fulfills a demand that is to-day State-wide, for the State of New Jersey, with its three and one-half millions of people; with its teeming and diversified industries, producing annually through the labor of 600,000 artisans no less than three thousand millions of finished products, this great State of ours demands that to-day the Speaker of this the people's House shall be a man of intelligence, a man of integrity and a man of well-known and approved political opinions Such a man is our candidate

The people of the State of New Jersey demand in their Speaker a man of unquestioned moral courage, of clean personal living and a man acquainted with the public affairs of our State Such a man is our candidate

The people of the State of New Jersey demand to-day a Speaker well versed with each and every department of our State and one who is independent in thought and speech, as God intended every man to be Such a man is our candidate

The people of the State of New Jersey demand a Speaker who is removed from the domination of any boss or clique, who is free and untrammelled and who knows no goal nor ambition save the weal of our commonwealth Such a man is our candidate

The people of the State of New Jersey demand a Speaker whose political reputation shines spotless as the stars and who owes his political advancement to no league or other combination of narrow, selfish or fanatical interests, but merely to the recognition of his own sterling worth Such a man is our candidate

Passaic county is proud to name such a man, and he, if elected, will be fitted to stand in memory with those other great sons of Passaic who have gone before as presiding officers in Trenton And Passaic county points with pride to the fact that during the past forty years she has given to our State more presiding officers than any other county, among them being Garrett A

Hobart, afterwards Vice-President of the United States, John W Griggs, afterwards our Governor and the United States Attorney-General, Robert Williams, now judge of the Court of Errors and Appeals, Vivian M Lewis, now one of the Vice-Chancellors, and John Dynelly Prince, now our Minister to Denmark, besides many others

So thus Passaic county, the mother of presiding officers, proud of the achievements of her sons in State and nation, names her candidate for Speaker, whose political future will doubtless be limited only by his personal desires My friends, our candidate is William Wadsworth Evans

The nomination was seconded by Mr Corio, of Atlantic county

Mr George, of Hudson county, placed in nomination for Speaker the Hon Henry J Gaede, of Hudson county, which nomination was seconded by Mr Stanton, of Hudson county

George R Vaughan, member-elect from Sussex county, appeared at the bar of the House, presented his certificate of election, and took and subscribed to the oath of office

Upon calling the roll, Mr Evans was elected by the following vote

For Mr Evans

Messrs Adams, Barkman, Blair, Blizzard, Campbell, Chamberlin, Clift, Coles, Compton, Corio, Dater, De Lorenzo, Gaede, Gibbs, Hanson, Harbourt, Hershfield, Hoffman, Howe, Klein, Long, Loprete, Lyons, McCullough, Menninger, Muir, Negus, North, Parker, Pascoe, Powell, Randolph, Robbins, Roegner, Rowland, Schermerhorn, Sexsmith, Stevens, Stiles, Strahan, Stratton, Thompson, Todd, Williams—44

For Mr Gaede—

Messrs Barison, Brown, Cieciuch, Crawford, DeVoe, Eastmead, Evans, Flynn, George, Marshall, Moran, Runyon, Sarokin, Stanton, Vaughan, Welsh—16

The Clerk declared the Hon William W Evans elected Speaker of the General Assembly for the Session of 1923

The Clerk requested Messrs Rowland and Hershfield and Mrs Brown to act as a committee to escort the Speaker to the bar of the House, where he took and subscribed to the oath of office, and was then escorted to the chair

Upon assuming the chair the Speaker addressed the House as follows

No words of mine can give expression to the feeling of gratitude that fills me at this moment You have honored me and placed upon me at the same time a large responsibility and it is my hope that I may be strengthened to meet your expectations In assuming the office of Speaker of this distinguished body I am reminded that it has been honored by the presence of many eminent predecessors, to emulate whom it will be my constant endeaver

In standing before you to-day, I am brought face to face with the realization that our position affords us the rare privilege of service to our beloved State We will go forth from these halls better men and better women by our loyalty and by that service The deliberations of this body should be marked by scrupulous attention given to the subjects brought forward for consideration The membership should be free to devote itself to the business at hand, unhampered and undisturbed by those interested in special legislation

The laws passed should be marked by quality rather than quantity, and my hope is that this Legislature may be distinguished by the fewness and excellence of the laws enacted

Our State, one of the thirteen original colonies, stands preeminent in the nation, although small in area it occupies a position of superlative importance in the national life and all due to the progress and industry of our people The legislative needs of such a community are diverse and complex Among the most serious and pressing, I would call your attention to the necessity of measures designed to aid and encourage our industries so that their activities may continue unabated, to those designed to increase the compensation to injured workmen so that during their incapacity they may receive compensation sufficient to maintain them adequately, to safeguard the construction of our highways whereby they may give the greatest use for the least expenditure Education must be fostered so that equal opportunity may be afforded to all Protest against high taxation has arisen to a point where we must pay strict heed and grant relief I bespeak your careful attention to this most important subject which is such a vital factor in our economic life These and many other matters will be brought before you for attention and it is my earnest hope that you will be able to deal with them in such a manner as to afford complete satisfaction to our people Permit me to commend to

you further a kindly consideration of the local problems of your colleagues, deal with them in a sympathetic spirit so that every member may be able to do justice to the needs of his constituents

Let us prepare ourselves for a short session and pursue our labors with expedition and dispatch so that at the end of this session it may be said of us, "Well done, good and faithful servants"

On motion of Mr Hershfield, Mrs Walter R Hudson, of Passaic county, President of the Women's Republican Organization, was given the privilege of the floor Mrs Hudson presented the Speaker with a beautiful ivory gavel, in behalf of that organization The Speaker gracefully accepted the gift

Mr Williams, of Passaic county, also presented the Speaker with a handsome gavel from friends in that county This tribute was likewise accepted with remarks of appreciation and thanks

The Speaker announced the appointment of Francis Caminetti, of Passaic county, as his Secretary, and Ralph E Bentley, of Passaic county, as Assistant Secretary

Mr Pascoe, of Union county, introduced the Hon Thomas M Muir, as a new Assemblyman from that county, Mr Muir, who is totally blind, responded with appropriate remarks

On motion of Mr Corio, former Assemblyman Hurley, of Hudson county, was given the privilege of the floor Mr Hurley presented the Minority Leader, Mr George, with a traveling bag from the Hudson County Bus Association

Mr Corio offered the following resolution, which was read and adopted

Resolved, That the House do now proceed with the election of the Clerk of the House

Mr Rowland, of Camden county, nominated Upton S Jefferys, of the same county, for Clerk of the House, which nomination was seconded by Mr Pascoe, of Union county Upon the roll being called by the Assistant Clerk, Mr Jefferys was elected by the following vote

Messrs Adams, Barkman, Barison, Blair, Blizzard, Brown, Campbell, Chamberlin, Cieciuch, Clift, Coles, Compton, Corio, Crawford, Dater, DeLorenzo, DeVoe, Eastmead, Evans (Speaker), Flynn, Gaede, George, Gibbs, Hanson, Harbourt, Hershfield, Hoffman, Howe, Klein, Long,

Loprete, Lyons, Marshall, McCullough, Menninger, Moran, Muir, Negus, North, Parker, Pascoe, Powell, Randolph, Robbins, Roegner, Rowland, Runyon, Sarokin, Schermerhorn, Sexsmith, Stanton, Stevens, Stiles, Strahan, Stratton, Thompson, Todd, Vaughan, Welsh, Williams—60

The Speaker declared Upton S Jefferys unanimously elected Clerk of the General Assembly for the session of 1923, and he took and subscribed to the oath of office

Mr Corio offered the following resolution, which was read and adopted

Resolved, That the Speaker appoint forthwith a committee of three to wait upon the Governor and inform him that the House of Assembly has organized by the election as Speaker of the Hon William W Evans, of Passaic county, and of Upton S Jefferys, of Camden county, as Clerk, and is now ready to proceed to business and to receive any communication he may be pleased to make

The Speaker named Messrs Hershfield, Rowland and Gaede, as the committee

Mr Corio offered the following resolution, which was read and adopted

Resolved, That the Clerk of the House is hereby directed to inform the Senate that the House of Assembly has organized by the election as Speaker of Hon William W Evans, of Passaic county, and of Upton S Jefferys, of Camden county, as Clerk, and has proceeded to business

Mr Corio offered the following resolution, which was read and adopted

Resolved, That the House proceed to fill the remaining several offices of the House, and that nominations be made and a vote taken for all of the offices at one and the same time

Mr Corio offered the following resolution, which was read and adopted

A message was received from the Senate, by the hands of its Secretary, as follows

STATE OF NEW JERSEY,
SENATE CHAMBER,
January 9th, 1923

Mr Speaker

I am directed by the Senate to inform the House of Assembly that the Senate has passed the following resolution

Resolved, That the Secretary of the Senate be directed to inform the House of Assembly that the Senate has organized and elected the Hon Joseph F Wallworth, of the county of Camden, President, and William H Albright, of the county of Gloucester, Secretary, and proceeded to business

W H ALBRIGHT,
Secretary of the Senate

On motion of Mr Corio, the message was received

The committee to wait upon the Governor reported that he would communicate with the House

A message was received from the Governor by the hands of his Secretary, as follows

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
TRENTON, January 9th, 1923

To the Legislature

The term of the present Executive closes within a week It would seem appropriate that recommendations in respect of State policies to be adopted within the term of the next Governor should emanate from him With that thought in mind, this

message, which is sent in compliance with the constitutional mandate, will deal with very few subjects and in but a brief way with those

During the past three years recommendations have been made by me to the Legislature upon various topics Some of the measures recommended were carried into law, others were not, and I desire to refer to a few of the recommendations so made which did not become law

TAX ON GASOLINE

To the Legislature of 1922 I recommended that a law be enacted providing for the imposition of a tax of one cent a gallon upon all gasoline sold in this State for use by automobiles, the tax to be collected from the producer, so as to insure collection at a minimum cost, and the proceeds to be devoted to the maintenance of our highways While there was introduced a bill carrying out such recommendation, it failed of passage The Legislature of last year enacted a statute providing for the creation of a debt of this State in an amount not exceeding Forty Million Dollars, and the issuance of bonds therefor In compliance with the constitutional requirement, the act was submitted for approval to the people at the general election of November, 1922, which approval was given The statute provides that the bonds shall be issued from time to time as money is required for the purpose for which they are authorized, as certified to by the State Highway Commission, in no greater amount than Eight Million Dollars in any calendar year To provide bonds for the payment of the interest and principal of the bonds so to be issued, the statute authorizes the assessment and collection of a tax beginning with 1923 and continuing until the bonds are retired The tax for the period between 1923 and 1927 is to be not less than one mill on each dollar of the value of real and personal property in the State, but during such period and thereafter the amount to be raised by taxation must be a sum sufficient to meet the interest on all outstanding bonds and on such bonds as it is proposed to issue in the calendar year in which the tax is to be raised, and for the creation of a sink-

ing fund for the retirement of all such bonds Upon the assumption that the State Highway Commission will proceed with the execution of the road program of the State necessitating the issuance of bonds in considerable amounts, it would seem to be self-evident that such measure designed to provide additional revenues to be used for the purpose of lightening the tax burden created by this act is highly desirable A tax of one cent a gallon on gasoline sold or used in automobiles will result in the collection each year of a large sum of money, which can be used for meeting, in part, the interest and principal of such bonds as may be issued for the completion of the road program The imposition of such a tax would seem to be just and equitable, because if imposed it will be levied upon those who, I think, are the immediate and direct beneficiaries of the extension and completion of the State's road program The collection of such moneys would relieve some of our taxpayers who are not directly benefited or benefited to the same extent, and I therefore recommend that legislation be adopted providing for such tax

I may be pardoned if I depart from my announced intention of leaving to my successor recommendations of future policies But I cannot leave the subject without suggesting that although the people have given their approval to the statute authorizing the creation of a State debt of Forty Million Dollars, the Legislature should consider very seriously the repeal of the statute, and the substitution of such other means of raising the moneys necessary to complete the program I am not satisfied that the State should embark upon the policy of expending within the next five years upon roads alone as large a sum of money as Forty Million Dollars In a word, I believe that economy and retrenchment should be practiced whenever possible

And before I leave the subject of State road construction, I think it only simple justice for me to publicly express my appreciation of the results accomplished by the present State Highway Commission The Commission during the period of its official life has accomplished much more than the Board or Commission which preceded it The members of the present Commission have been diligent, faithful public servants They have

built roads, and good roads, and I should be ungrateful to the men for whose official service I am responsible, had I not publicly announced my belief in their competence and integrity

MORRIS CANAL

I call your attention to the fact that the Legislature of 1922 enacted a statute creating a Commission to negotiate and agree, if possible, with the Morris Canal and Banking Company and the Lehigh Valley Railroad Company upon terms of settlement in relation to the canal property and water rights of said Company, which act authorized the acquisition by the State of the said Canal and all the stock of the Morris Canal and Banking Company and the rights of all stockholders in said Company and in said canal property and water rights and all or any part of the right, title and interest of the Lehigh Valley Railroad Company in said canal property and water rights Under said statute, the Commission was directed to file a report on or before December 1, 1922, of the result of its negotiations I am advised that an agreement was made and entered into between said Commission, on behalf of the State, and the said Companies, which agreement is on file in the office of the Department of Conservation and Development and a copy on file in the office of the Secretary of State I am further advised that under said agreement all the property of the said Morris Canal and Banking Company and Lehigh Valley Railroad Company, which is to go to the State, and which has not already been turned over, is to be so turned over on March 1, 1923, and the contract or agreement so made and completed consummated on that day Under said agreement the Companies bound themselves (1) to pay to the State of New Jersey in cash the sum of $875,000 in five equal annual installments, the first of which was paid on December 15th, 1922, the subsequent installments are to be paid on the fifteenth day of December in each year hereafter (2) To convey to the State all the lands, lands under water and premises comprised within the Canal Terminal Basin in Jersey City, commonly called the "Little Basin," with the docks, wharves, slips and improvements appurtenant thereto, owned by said Companies, or either of them

(3) To extend present branch of the Lehigh Valley Railroad now running to Warren Street, Jersey City, from said Warren Street to said "Little Basin" along the present right of way of the canal, when requested to do so by the Board or authority having control or management of said "Little Basin," and subject to necessary State and Municipal consent, the Railroad Company agreeing that in traffic service to be accorded with respect to the "Little Basin," the Jersey City and New York rates shall apply with switching charges to be absorbed in the through rates to and from all connecting lines in Hudson County under tariffs to be approved by the Interstate Commerce Commission (4) To convey to the State of New Jersey for the purpose of a public water way all their right, title and interest in and to a strip of land and land under water located in Jersey City and partly within the lands of the "Big Basin" (5) To convey to the State all lands and right of way of the Canal Company between the westerly shore or bank of the Hackensack River in the Town of Kearny and the southerly line or side of Main Street ajacent to Green's Bridge in the Town of Phillipsburg, and further all the right, title and interest of the said Companies or any subsidiary company of, in and to all that part of the canal property and its feeders between the said westerly shore or bank of the Hackensack River and the southerly side of Main Street adjacent to Green's Bridge in Phillipsburg, and all lands appurtenant to or used in connection with the aforesaid part of the canal and its feeders, and also all lands, land under water, water and water rights, rights of flowage, pondage and diversion of water appurtenant to the canal, together with all rights to take, use, impound, divert, sell and dispose of water at any point within the State for any use or purpose in any way incident or pertaining to the canal or to the operation of the canal, and its feeders, works or appurtenances (6) To transfer and set over to the State all personal and mixed property of the said Companies used in connection with said canal (7) The Railroad Company, at its own expense to maintain the canal in the usual manner until March 1, 1923 (8) The Railroad Company to assign, transfer and set over to the State on or before December 30, 1922, all shares of

stock of the Morris Canal and Banking Company owned by said Railroad Company, all outstanding bonds of said canal company and all of the outstanding preferred scrip of the canal company (9) The Railroad Company to acquire and assign to the State all of the remaining outstanding stock of the canal company not owned by the Railroad Company, it being provided that if the Railroad Company cannot on or before March 1, 1923, purchase such remaining outstanding stock at a satisfactory price, and it becomes necessary to condemn, proceedings shall be brought in the name of the State to that end, pending the acquisition of such outstanding stock, the Railroad Company to continue to pay the dividends thereon, the Railroad Company to further deliver the resignations of all officers and directors of the canal company when requested (10) To transfer to the State all leases, licenses and undertakings covering any part of the property to be conveyed to the State together with all documents, maps and other muniments of title (11) The Railroad Company to deliver on or before March 1, 1923, a release of any claims it may have against the canal company (12) The Company to withdraw any protest against taxes heretofore paid excepting certain appeals for the years 1921 and 1922 (13) Rents collected to be apportioned as provided in said agreement

There are certain other provisions of the agreement which it is not necessary to here recite, but it may be obvious to anyone reading the agreement that complete and adequate power and authority should be given by the Legislature to the proper agencies of the State to deal with and manage the property to be turned over to the State Further, some policy, perhaps should be adopted by the Legislature in respect of the disposition of the moneys heretofore and hereafter to be paid by the Companies to the State Care will have to be taken in the drafting of any legislation which is to be passed so that the water rights to be acquired by the State from the Companies will be preserved

I concluded to draw this matter to your attention and not to leave it to my successor, because of the necessity for prompt action, so that the legislation which is to be passed may be passed and become operative before March 1st

WATER RESOURCES OF THE STATE

The foregoing comments upon the necessity of preserving the water rights coming to the State from the Morris Canal and Banking Company prompt the thought that the Legislature should give consideration to the subject of adopting measures to prevent water waste An effective means of controlling waste is to compel the installation of meters Many of our municipalities, for reasons which are quite human and understandable, hesitate to require the installation of meters except gradually While there is improvement, the subject of preserving this important resource is so important it seems to me the department of the State charged with the responsibility of approving grants for the diversion of the State's waters should examine into the question of methods to be devised to prevent waste I hesitate to recommend the adoption of a policy which shall provide for the taking over by the State and the management by State agencies of all the water supplies in the State, for the reason that I do not think that we are quite ready for it Until the State is prepared to bear the expense of such an undertaking the municipalities should be allowed freedom of action in the development of their supplies But I desire to sound a note of warning The day is approaching when the problem of supplying the needs of the people of this State in respect of water will be an acute one, and State control may then become a necessity However, as I have said, that day is not here now, and for the present, it seems to me, the development of water supplies and their general control and management may be safely left with the respective municipalities

STATE SALARIES

The contest between conscientious departmental heads of the the State government and those under them over the question of salaries is never ending It seems to be the constant effort of those in public employment to obtain salary increases One of the favorite methods to insure a salary increase is the creation of titles for those who are to be favored, the plea being made

the change in title involves a promotion, but the fact is that all that is involved is a plan to get a salary increase I would suggest that the Legislature direct the Civil Service Commission to revise the salary schedule of the State employees

EFFICIENCY AND ECONOMY BOARDS

To the Legislature of 1920 I made certain recommendations with respect to reducing the number of boards now managing the affairs of the State Those recommendations did not persuade the Legislature that any change should be made I do not repeat the details of the recommendations in order to keep this message within the limits of reasonable space But I recommend the subject be examined into

STATE TAX BOARD

The State has reason to be proud of the results accomplished by this Board It has made great progress toward equalizing the tax burden, and I do not hesitate to recommend that any suggestions emanating from the Board in respect of the enlarging of its powers be carried out

In refraining from making reference to a subject which I regard as all important—the checking of the effort to take away from us our liberties, I do so because my activities in that regard will soon be transferred to another field My successor has well-defined views on the subject, and so far as the establishment in this State of real liberty is concerned, I will leave that subject for the incoming Governor to express himself upon

I trust I have been of some assistance in the effort to conduct our government along lines productive of the greatest degree of benefit to all My regret in leaving the State service, and it is a real sincere regret, is predicated in part upon the fact that I will lose close association with many sincere and earnest public servants I wish my successor the greatest measure of success it is possible for one to attain He will find loyal support from many of the men with whom I have been associated in the past three years

Respectfully submitted,

E I EDWARDS,

2 House Mm *Governor*

Inaugural Address by Governor George S Silzer

Governor Silzer's Inaugural Address was as follows

INAUGURAL ADDRESS

To the Legislature

The task which we are about to undertake is a great one It would be burdensome unless we approach it in a spirit of service Approached in this way the burden will be light and full of interest and promise

Each succeeding generation brings its own problems, the problems of yesterday seem comparatively insignificant with those of to-day Those of the present and future loom larger because they must be met and solved now

The complexity of modern life brings its problems The healthy expansion of business must be provided for, means of transportation adequate for other days and other conditions must be improved and enlarged Individual needs and requirements must be cared for The requirements of an advanced civilization, rich in invention and adept at organization, are many, complicated and compelling

Our fathers, in setting up our form of government, profited by their own bitter experiences and seeking to avoid the pitfalls, sought to guard against a recurrence of the evils from which they had been delivered Through their unselfish efforts, a democracy was born and the preservation of that democracy depends upon the exercise of "eternal vigilance" on the part of the citizens of the State and of the nation

Our government, whether it be in the city, state, or nation, will be powerful and good in proportion to the interest that we take in its administration But we are giving too little thought to government and, by our indifference, are frequently entrusting it to others who are not solicitous of the common good

It shall be our purpose to put government back into the hands of the people, to arouse them to a full realization of the necessity of regaining their own government, keeping it, guarding it, and jealously insisting upon their rights under it

What is the situation, and what are the conditions in city, state, and nation which invite the criticism of the citizen and which make him suspicious of government itself? Everywhere Special Privilege shows its ugly head Combinations are permitted to thrive, seemingly unhampered and uncontrolled, placing those outside the combinations at a disadvantage Competition is crushed and eliminated Preferential laws are passed but no effective methods are devised or employed to prohibit practices which at every turn harass the ordinary citizen and permit one class to press upon another Special privilege is either permitted by law or not prohibited by law

These things, against which we protest, have been a matter of natural growth arising out of modern methods of doing business They are the fruitage of the efforts of those who desire, with selfish purpose, to fill their own purses They call to their assistance the art of propaganda to influence the public mind

This art, used first for public and patriotic purposes, was soon turned into mercenary and selfish channels This method of propaganda is used by those who wish to influence either the enactment or defeat of legislation and to mould public opinion Those seeking these ends accomplish their purpose in this way because there is no counter propaganda on the part of the great mass of people who are so sadly unrepresented and never seek to combine their forces either for preferment or protest

We must take hold of this situation now If it is permitted to go on, we will face greater dangers than those which now confront us The permanency of our institutions depends upon the promptness and the courage with which we meet our responsibilities

The limits of this occasion do not permit of extended and detailed treatment of the various problems that press for solution I shall, however, take the liberty to refer in a brief way to certain phases of the larger problems which require immediate action

PLATFORM PLEDGES

Good faith on the part of individuals and of political parties is of the very essence of these things It behooves us to keep faith with the electorate who have just spoken We sought their suffrage and support upon the basis of certain pledges solemnly made concerning things we intended to do and the laws we proposed to enact These pledges must be inviolably kept or we shall justly merit rebuke and repudiation at the hands of a deceived and disappointed people

The pledges made by both parties are clear and, while in most essentials they differ but slightly, there can be no excuse for delay or for nonfulfillment In all efforts in this direction made by the party having legislative control, my co-operation will be cheerfully given In my efforts I expect, in the intersts of the State, a like co-operation We should not care for the credit so long as the desires of the people are fulfilled and their interests protected

The things uppermost in the minds of the people of the State are taxation, the regulation of public utilities, good roads, labor and prohibition There are, of course, other matters which are perhaps of equal importance, such as the problem growing out of the abandonment of the Morris Canal, the needs of the present as well as the future with respect to potable waters, the encouragement of agriculture, and the development of the Port of New York These and other important matters will have special treatment at a later date

To carry out this program, we must be certain that we have the full confidence of the people of the State The great emancipator, Lincoln, said

"With public sentiment, nothing can fail Without it, nothing can succeed Consequently he who moulds public sentiment goes deeper than he who enacts statutes or pronounces decisions"

We must not drift farther away from representative government

Let us get back to it Let us be wary of the growing tendency to regulate our every act

Individual initiative must be permitted to assert itself Let us aim to secure for the people life, liberty and the pursuit of happiness guaranteed under the Constitution

TAXATION

While the subject of taxation is complex, we all are agreed that the present system is antiquated and must be replaced by one scientifically devised It must have for its foundation the necessary machinery to make just assessments and to equalize them The interchange of funds between State, county and municipality must be on a simpler basis Those who pay the taxes should have the broadest powers to spend them without having imposed upon them mandatory requirements by legislative action in which they had no voice

Exemption from taxation should be based upon a correct principle, and property which is not used strictly for either educational, charitable or religious purposes, should be required to bear its legitimate share of the burden of taxation All agencies expending public moneys should be investigated in order to ascertain if the expenditures are justified or if retrenchment or changes in method are necessary The present agitation with reference to taxation in city, county and State has aroused the people and already in many municipalities we learn of reductions in budgets and of refusals to increase appropriations We must take definite steps, and at once, to limit the spending power of public officers This can be done by placing a limit upon the amount that can be appropriated in each year, and by strictly enforcing the law which provides a penalty for exceeding appropriations, and by limiting the amount of bonded and other indebtedness I shall have further and definite recommendations to make in a special message on this subject which will be submitted at a later time, and which will give the benefits of my study of this important question

ECONOMY

In the present condition of our affairs, when every homeowner is complaining about the burdens of taxation, it is our duty to practice the most rigid economy, consistent with necessary progress

This economy should come in State, county and municipality Useless offices should be abolished, and departments consolidated where possible, useless enterprises should not be undertaken, strict watch should be kept over our expenditures We must see that we have an adequate return for all moneys expended Our departments and institutions should be closely scrutinized to ascertain if we are indulging too much in luxuries and nonessentials Many salaries are higher than the services rendered warrant, and some which were increased to meet unusual conditions may, with propriety, be reduced Improvements, designed more to aid the favored few than to serve the public welfare, may well be abandoned

ROADS

Notwithstanding that the State spent and obligated itself for roads and bridges to the extent of $3,000,000 during the last year, the voters, at the last election, voted a bond issue of $40,000,000, with all its accompanying items of interest and sinking funds

Since over 400,000 voters expressed themselves favorably upon the proposition, I feel that it is in the nature of a mandate to the State officials to make the improvement So long as no attack is made upon this action, or protest entered against it, I shall deem it my duty to carry out the provisions of the Road Bond Act

It is my purpose to recommend to the Legislature changes in the present laws relating to highways which will provide for a reorganization of the present State Highway Commission and a change in its personnel I will also recommend in connection with this matter laws safeguarding the use of these vast sums of money, so that the people may be assured that they will be judiciously and honestly expended

Our bonded debt is increasing very rapidly Our State, five years ago free from debt, will shortly owe over $80,000,000 This debt, sooner or later, must be paid Further recommendations which I have to make will shortly be conveyed to the Legislature in a more extended message

DEVELOPMENT OF NORTHERN NEW JERSEY

The northern part of New Jersey, from the beautiful Palisades on, offers one of the most attractive residence sections in this part of the country It is especially attractive to those who find the congestion of New York City unbearable, and who seek to live in a section at once high, healthy and accessible

This part of New Jersey is destined for a rapid and healthful growth That growth, however, at this time, is being seriously retarded by the lack of comfortable and convenient facilities for transportation

Subways and ferry-boats are crowded, passengers are inconvenienced and motor travel is congested

If we are to take advantage of our opportunities, we must see that more comfortable and adequate facilities are provided to transport those who must cross the Hudson river

Among the methods suggested is the erection of a bridge of ample size to care for vehicular and passenger travel, and for railroad terminal service

A similar enterprise already undertaken across the Delaware river ought to accomplish a like beneficial result in the southern part of New Jersey

In this connection, we must also have in mind scientific planning which will make such development as attractive as possible In these enlightened days we cannot drift along and permit ugliness to predominate

The ultimate growth in this section will bring with it a most desirable population, and the increased ratables will add greatly to the prosperity of the entire State

LABOR

Conditions in this country are rapidly changing and this is particularly true in our eastern states Large industrials communities have been established and the problem of caring for and protecting those who labor in the mills and factories is becoming, every day, more and more complex

The lives which the people in these communities lead are not conducive either to health or happiness Most of them came to

this land seeking freedom and contentment, and it is the function and duty of the State to so regulate the conditions under which they live and work that they may be given an equal opportunity with those of us who are better situated If our country is to continue in greatness, the health and happiness of all of its people must be cared for The cares and burdens of hard-working men and tired women, as well as helpless children, are our responsibility, and the State is not doing its duty to its citizens if these things are neglected and if the helpless ones, men, women and children, are left alone to help themselves

Our thoughtlessness, selfishness and neglect will affect not only the present but future generations

If the children of industrial workers are to become happy, contented and useful citizens, their fathers and mothers must lead happy lives and their home surroundings and the conditions under which they labor must be bettered

Chief among the present-day ills of industrial workers is night work for women in our mills and factories, particularly young married women, who are either mothers or are about to become mothers Such things should not be either possible or necessary in this enlightened day and generation If the man or men of the family are not paid a sufficient wage to enable them to support the family with some degree of comfort, at least, then that condition must be changed and changed immediately

Pregnant mothers, working at night, gaunt and weary with toil, standing eight or nine hours at a machine, running noisily and ceaselessly, and then returning to a cold and cheerless home in the early hours, greeted by crying and hungry babies, is not a pleasant picture to behold and should never exist in this free lands of ours Conditions in these homes are appalling The mother obtains little or no rest, for her days are spent in caring for her children and attending to other arduous household duties and her nights are spent toiling in the mill Both for humanitarian reasons and for the good of the State these things must not be

I will again urge upon the Legislature the passage of laws regulating night work for women Reasonable opportunity

should be given to adjust operations, so that conditions may be changed without disturbing more than may be necessary the processes of manufacture and the steady employment of labor

The time has also arrived to change the schedules for the compensation of those injured while engaged in the performance of their work, giving an increase which shall be commensurate with the higher cost of living

Having had the honor of participating in the preparation and enactment of the original Compensation law, it is gratifying to me to be in a position to urge improvements in this most humane statute

UTILITIES

In reviewing the question of public utilities, it is helpful to examine the historical background

In the beginning franchises were granted to street railway companies by municipalities, under legislative permission, in nearly 150 municipalities, upon terms agreed upon between the companies and the municipalities, and almost invariably upon condition that a five-cent fare only be charged

The companies operated under them with apparent success But in the operation of these franchises abuses grew Then public opinion demanded that these companies, the creatures of the State, be regulated and controlled This resulted in the passage of the Public Utility Act in 1911, creating the Public Utility Commission

In course of time almost all units formerly operating separately were combined, first into combinations of two or three and finally into a combination of nearly all, under the name of the Public Service Railway Company

Each change brought with it an additional increase of capital stock and bonded indebtedness composed in large part of "water"—or stock for which no value was given

At a public hearing the president of the Public Service Corporation testified as to the value of the properties of the company, from which it appears that a large percentage of the securities of the company represent water only

The State did not attempt to fix an arbitrary rate of fare by legislation, but adopted the more honorable method of having the Utility Commission fix it after a full hearing

In the unsettled state of the law, in the presence of conflicting decisions, and an uncertain understanding of a subject quite new, the process of fixing a reasonable rate was difficult, and well nigh impossible Decisions made were reversed Efforts to fix a reasonable rate were discouraging, because there was always the question as to whether the rate so fixed was confiscatory or unreasonable or in conformity with legal requirements—not the requirements fixed by statute, but those laid down by the courts

Then came the decisions of our courts which, much to the surprise of those who had passed the regulating acts, held that these municipal grants were not contracts, but mere grants upon condition, and that the Utility Commission might regulate the rate either up or down, as might be just and reasonable

All of these obstacles made it impossible to produce satisfactory results and regulation seemed a failure

The indefinite and unsatisfactory conclusions reached were reached only after long delay, and at great expense and effort on the part of the public and the utility companies alike

During all of this period the utility companies have maintained a rate of fare quite satisfactory to themselves, while the public has not had the relief to which it felt it was entitled.

If these unsatisfactory methods are continued no permanent relief is in sight

One of the main difficulties lies in the fact that there is disagreement as to the value of the property upon which the companies are to have a reasonable return

The companies contend that all appreciation due to conditions during and following the war are to be included in the amount upon which a return is to be made To this is added what is termed "going-concern value," as well as a large amount of water represented by securities which have no tangible value

This necessarily makes a vast sum upon which to demand a return.

Now, in this critical juncture what is to be done? Shall we continue this futile policy of regulation which brings no real relief, or shall we face the problem and solve it? It must be solved and now is the time Irresolution, lack of program, failure to handle it though it be difficult, will only intensify what is already a serious situation

In the solution we must approach the subject from a different angle We must adopt a course of common honesty as between parties dealing at arms' length, honesty both to the public and to the utility corporations

The companies are entitled to have a fair return upon the money actually invested in the enterprise

War-time appreciation, which does not represent actual money put in the enterprise which merely represent inflation of prices if reproduction were necessary now, must be eliminated Reproduction may not be necessary until a later time, when prices may be more nearly normal

War-time appreciation certainly does not represent, in any manner, an investment of so many of the companies' dollars

"Going-concern value" has no tangible basis for being included "Development-cost," as a part of this, was ruled out in the "confiscation" cases of the Galveston case type, and what is left of "going-concern value," represents practically nothing, especially in view of the fact that the franchises are not contracts, but grants upon condition

Neither do these items represent so many dollars put in the enterprise

Then, we must deal with the tremendous amount added when the companies were put together, commonly known as "water," to which reference has already been made

This question has its counterpart in nearly every State, and in almost all corporations of national operation, such as oil companies, coal companies, steel and beef companies and others serving the public in any way All are seeking a return upon inflated capital, and all want profits upon watered stock, which does not represent actual dollars invested in the enterprise This accounts in part for the high cost of commodities, and of everything required by our people

If we would but courageously face the situation, stop attempts at ineffective regulation, and apply the process of deflation we would soon arrive at a point where these companies would get a fair and honest return upon the honest dollars invested, and the public would be paying a fair price

This, too, is true of public utilities, if we eliminate the water and fix a sum which represents only the prudent investment value and provide a reasonable return upon such a sum, then the public will have a fare to which it is entitled, and the company will have a return to which it is entitled

Such a course represents what would happen if two honest men started out originally to solve the problem One would want a fair return upon his investment, the other would grant him no more One would want to pay a fare representing a fair return to the investor, the other would not permit him to pay less

It will be said at once, that such a course works a hardship to those who have invested their money in the stocks and bonds of these corporations and that they are innocent parties, and should not suffer

Part of the "watered" securities, no doubt, is in the original hands, and the rest of it in the hands of subsequent purchasers

In this problem we have the so-called innocent holder of securities on the one hand and the innocent public on the other As between these two equities, which is entitled to first consideration?

Every holder of securities either knew or by inquiry could have known that those securities represented in part water injected into the companies They were not entirely innocent They either lacked diligence or chose to take their chances by investing in these securities as they do in making other investments, be they in public utilities, oil or something else

In most cases, the usual course is to "water" the stock, then go into liquidation, reorganize, and then proceed upon a solid basis If that had been done, our problem would have been solved with less difficulty, for we would then have a valuation representing real investment values

Shall we continue as we are going, without unwatering these companies? If we do, and so long as we do, injustice is done to the public We have no moral right to do this We have no justification for mulcting them further, now that we know our duty

We must act at once, and do that which must ultimately come We must throw out this ballast, if the passengers and the ship are to be saved from disaster

Now, how shall this be done?

By insisting that the companies may continue to exercise their franchises, only if they agree to a reasonable return upon a prudent investment value—nothing more

If they will not agree, the State must then exercise its sovereign power The principle is well established by our highest court that "the State retains all sovereign powers except as far as it has, by unmistakable language entrusted them to others" The laws giving authority to municipalities to grant franchises, limit them to giving "consent to the construction, operation and maintenance of street railways, the location of tracks, and imposing lawful restrictions"

The authority so given in no respect deprives the "State government of its general control over the highways in which the rails are laid, including the power to vacate"

"So * * * it is quite inconceivable that the municipality could, by its ordinance granting consent, make provisions that would limit the power of the State"

The sovereign power to fix and maintain just and reasonable rates, to exercising the taxing power, or the police power has never been surrendered, and the municipalities are "without authority for the purpose, to tie the hands of the State forever"

The State should therefore say to the railway companies, that unless they are willing to accept a reasonable return upon a prudent investment value, then the public highways of the State must be vacated by them

In giving the municipalities the right to consent to the use of public streets by railway companies, the Legislature never gave them the right to mulct the public It never gave the right to a

return upon watered capital, or inflated values It never gave the right to a return upon anything but real honest values

Whenever the companies exact more than this, then the State may step in, and demand that the street be vacated

If this were not so, then the municipalities could bargain away the State's sovereign rights, or the companies could appropriate them

In giving the right to grant consent, the State always reserved to itself the powers of self-protection

One of those powers is to prevent unjust exactions

Justice requires that we should recognize the companies' prudent investments, but it does not require that we must go beyond that, and allow them a return upon inflated values, at the expense of the public

The course suggested gives them everything to which they are entitled, and at the same time protects the public

The Legislature should fix that prudent investment value upon advice from the Public Utility Commission

As I have conceived that value, after study, I am sure it will bring about a five-cent fare, and later a further reduction

If the Legislature misconceives its duty, or betrays the public, of course we will be worse off than before

There is no just reason why the day of settlement should be postponed, at the expense of the innocent public

When settled, the public and the companies would be rid of vexatious and expensive litigation They would have peace The companies would have a definite substantial basis, both for operating and financing

The public would have the traction question removed from political consideration

In taking this step we should have an eye to the future, and adopt a method that will protect the public, and at the same time stimulate the utilities companies

With this in mind, I would advocate a sliding-scale basis

Starting with a five-cent fare, the companies should be permitted to earn 6 per cent on its prudent investment If the profits increased, then the fare may be reduced to four cents, and the companies permitted to earn 8 per cent, and so on, produc-

ing an equitable decrease of fare and a corresponding increase in dividends

This would be beneficial to the public and companies alike It would assure efficient and economical management and increase of profits

With the value already fixed, it would be easy to follow further expenditures of the company, and so fix future valuations, as improvements and extensions are made

All that I have said about street railway companies applies with equal force to light, heat and power companies

As I have stated before, in solving this problem there are two equities to be considered On the one hand we have the owners of the securities As against these we have the man who toils and who must be carried from his home to the factory, the woman who must earn her own living and the children who attend school They are truly innocent They are entitled to honest treatment They should not be called upon to furnish a return upon inflated securities, they should not have to take from their hard-earned pay the large sums required to bring a return to those who own watered securities There is no equity or honesty in according them such treatment There is no justice in levying upon them such tribute to give value to that which never had real value

As between these two classes, in weighing the equities, it is as clear as day, that the equities are in favor of the great masses who go to make up the public—the innocent public We must, therefore, follow the course that brings this result

COAL

The country is confronted with a most serious situation so far as our supply of coal is concerned Anthracite coal is so scarce that it is well nigh unobtainable, even at the excessive prices now prevailing There is a prospect of much suffering and hardship, especially among the poor Those who have not the price, or who cannot afford to lay in large stocks in early season and who must buy from time to time in small quantities look forward

with terror, and with apprehension to what will happen to their wives and little children

How long shall we permit this intolerable condition to exist? Those who are responsible for it are indeed ruthless and heartless If the conditions are due to selfishness and a desire to profit, quick retribution will and should follow

Notwithstanding that this problem, dealing with one of the necessaries of life, is a national one, it may not be amiss to briefly discuss it here

Permanent relief must be found and there must be no more temporizing

What are the underlying causes of these conditions? Is there any reason for a scarcity of coal in a nation like ours, so abundant in its resources? Is it not possible to discover who is to blame for this distressing situation? Everyone asks the question

What is the remedy? Does it lie in regulation? Does it lie in laws prohibiting combination? Will competition produce results? Are the railroads or the producers, or others responsible for this situation? Is the Government of the United States so impotent that it cannot provide an answer to these questions? Regulation has been tried in every crisis that has confronted us in this difficult matter, but it seems to have failed

If the Congress longer neglects to do its full duty, then the several States must take up the problem, and arouse such public sentiment as will be irresistible, and which will bring about a true statement of all the facts, of all the conditions, and action which will remedy the evils

Unless some permanent solution is reached, then we must call a halt on this business, and the time will have arrived when the Government, in the exercise of its sovereign power, will be compelled to take over the coal mines and the railroads serving the mines

Within the State an investigating committee has found that there are combinations to fix and control prices, and preferential methods for control of distribution This should be stopped, and, among other remedies the law recently repealed prohibiting and punishing unlawful combinations should be re-enacted

Our people are patient, but the time has come for action

PROHIBITION

There is no doubt that the electorate spoke, and spoke decisively, at the last election, on the subject of Prohibition The issue was clearly defined, and the positions of the candidates unequivocal Partisans on both sides waged aggressive campaigns, with this the paramount issue

We must therefore respect the verdict of the people All talk of a referendum now is evasion, and evinces a lack of courage to face conditions We just had a referendum

The question was, whether we should have Prohibition with all its attending evils, or Temperance with all its attendant blessings

Our people are against the kind of prohibition we have to-day For we know that prohibition has brought in its wake, its bootleggers, its violation of and disrespect for the law, its ill-effects upon youth, its increase of indulgences in hard liquors by adults, its demoralization of public officials, its corruption of enforcement officers, its pernicious effect upon public and private conscience, its breeding of hypocrisy, its disregard for the rights of citizens, and the deprivation of their cherished constitutional rights and privileges, its bad example to those of foreign birth, who are thus invited to disrespect and disregard not only this but all laws, its turning of our best citizens into participants in law violating, its trail of those who have been blinded, and those who have been carried to the grave, its deprivation of medicine to the sick, aged and infirm, its demoralizing example of law violation on the sea by the Government itself, its international complications, the obscuration at elections of all other important issues to that of prohibition

Instead of this our people prefer temperance Before the advent of prohibition we had already made rapid strides in this direction The younger generation was becoming convinced that whiskey was bad for it, and men in all walks of life no longer indulged during business hours

There was and is a strong sentiment against the saloon and its attendant evils They must be abolished and never be allowed to return

Temperance can be brought about by education Legislation often fails, education never does There is but one way to make moral progress, that is in the hearts and consciences of men, not in legislation

Human nature is obstinate, and resists when told it must or must not Education on the other hand, is persuasive and compelling

Our people believe that true temperance can be brought about by discouraging the use of hard liquors, and permitting instead thereof the use of beer and light wines As the immortal writer of the Declaration of Independence said "No nation is drunken where wine is cheap, and none sober where ardent spirits are substituted as the common beverage Wine is in truth the only antidote to the bane of whiskey"

We might well include a light, wholesome glass of beer, with what he said of wine

The election returns show that the electorate of New Jersey will have no more of the existing evils and conditions if it can avoid it Before any law can become effective it must have behind it the compelling force of public opinion Without it law and law enforcement must fail Behind the prohibition law there is not this support It would, however, be behind any effort to bring about real temperance

After all, this is a great moral issue, for it affects the morals of all our people, and we are on the moral side Present conditions are immoral and intolerable Under true temperance, conditions would be wholesome and healthful

In order to express in practical form the wishes of the electorate we must act both in the nation and in the State

Nationally, we have the Volstead Act, which endeavors to enforce the Eighteenth Amendment In truth, it goes far beyond the provisions of the amendment, for the latter prohibits "intoxicating liquor for beverage purposes," while the enforcement act goes farther and prohibits the use of beverages which are not

intoxicating To say that anything over one-half of one per cent is intoxicating is to enact a falsehood, it would be quite as true to say that a jackass is a camel

If the Volstead Act had given an honest definition of "intoxicating liquor," we might have been well on the way to real temperance, through the use of light beverages, instead of breeding as we are doing now a nation of whiskey drinkers

If the Volstead Act is capable of enforcement it should be possible to enforce it at the National Capitol, where the National Government has absolute control, with all its resources behind it

If Washington cannot be made dry, what can be expected of enforcement in the rest of the country But even there it has been a failure Why continue this national hypocrisy when we should have the courage to face a situation and deal with it honestly and frankly

With this in mind, I would recommend that a joint resolution be passed expressing on the part of the people of New Jersey, a desire to have the Volstead Act amended so that it may truly reflect the intent and meaning of the Eighteenth Amendment, and not violate our constitutional privileges

Our State should also take the necessary steps to call a constitutional convention, as provided for in the Federal Constitution, in order that the Eighteenth Amendment may be so altered as to clearly provide for the lawful use of beer and light wines and so work for real temperance

Within the State, the "Prohibition Enforcement Act" should be changed, beer of 2 75 per cent and wines of 6 per cent, by volume, should not be included in the definition of "intoxicating liquors" While this does not legalize the sale of these beverages, it at least expresses the will of the people as to what the national act should contain For so long as the amendment is effective, and the National Enforcement act operative, they should be enforced The Eighteenth Amendment provides for Federal and State enforcement, but the duty of the State is concurrent, not compelling

The State enforcement act should be further amended so that there would not, under any circumstances, be dual punishment, for if there is any one thing that is distasteful and revolting to

a good American, it is to have any one punished twice for the same offense Twice in jeopardy, as stated in our Constitution, expresses the thought only too well to require elaboration

The enforcement act should be altered wherein it puts the burden of proving innocence upon the accused This violates the practice of centuries

Unwarranted search and seizures are permitted by the act. This should be changed It goes to the very foundation of our constitutional rights Inquisitorial methods provided for by the act should be eliminated as well as the provisions which compel a man to testify against himself Nothing can be more abhorrent

The imposition of fixed sentences, with no discretion on the part of the sentencing power, the forfeiture of vehicles of a value many times that of the fine that might be imposed, the injunction contempt feature, and many other like provisions disregarding the very fundamental rights of our citizens must be removed

We cannot afford to disregard, overlook and scoff at all those constitutional safeguards, which our forefathers were so jealous of, and which they were so insistent upon incorporating in the fundamental law

They had just suffered from these evils, they were fresh from the fields of battle, they were alive to that which was to be avoided

Shall we, merely for the sake of attempting to enforce one particular statute, lose these priceless privileges

Let us have sanity in government as in all things

CONCLUSION

These, in part, are our problems, and this, in part, is how we would solve them In this we must lay aside all partisanship and selfishness

May God strengthen our hands, our minds and our hearts so that we may with energy and zeal undertake the task that lies before us, and let us earnestly pray that with His help and

guidance great and lasting good may be done for all the people of our beloved State

STATE OF NEW JERSEY,
SENATE CHAMBER,
January 22d, 1923

Mr Speaker

I am directed by the Senate to inform the House of Assembly that the Senate has passed the following concurrent resolution

Resolved, by the Senate (the House of Assembly concurring), That the Senate and House of Assembly meet in Joint Session on Monday, January 22d, at 8 45 o'clock P M , to be addressed by His Excellency, Hon George S Silzer

In which the concurrence of the House of Assembly is requested

W H ALBRIGHT,
Secretary of the Senate

On motion of Mr Corio, the House concurred in the Senate resolution

Mr Hershfield brought up his proposed amendment to the rules, of which he gave notice, under the rules, on January 15th

The proposed amendment was read by the Clerk as follows

Strike out Rule 63 and insert in lieu thereof a new rule to be numbered 63, as follows

"63 No person shall be allowed on the floor of the House during its business session, except as follows

Present and former national and State officials

Present and former State Senators

Present and former members of the House of Assembly, and the immediate family of the members of the present House of Assembly when accompanied by the member

Properly accredited daily newspaper representatives whose credentials have been approved by the Speaker of the House

Attaches and employees of the House of Assembly

Such other persons as may be voted the privilege of the floor, which privilege shall be good for that day only"

Mr Rowland proposed to amend by adding these words "and the Senate" after the words "attaches and employees of the House of Assembly"

Which amendment was accepted by Mr Hershfield

On motion of Mr Hershfield, the rule, as thus amended, was, by vote of the House, adopted

Mr Hanson offered the following resolution, which was read and adopted

Resolved, That the privilege of the floor be extended to Elmer E Wyckoff, Sheriff of Middlesex county

Mr Menninger offered the following resolution, which was read and adopted

Resolved, That the privileges of the floor be granted to Mr John J Bracker, of Essex county, a former member of this House

The presence of the Senate being announced by the Sergeant-at-Arms, the two houses thereupon went into joint meeting, in accordance with the concurrent resolution, for the purpose of being addressed by His Excellency George S Silzer

The Governor read a message as follows

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
January 22, 1923

To the Legislature

I have referred to the subject of roads in my inaugural address I now desire to call to your attention certain specific phases of the problem and to certain facts as well, especially concerning the proper expenditure of State funds

As with so many of our public affairs, we have drifted in the matter of road construction expenditures Expanding our program, we have not kept pace in protecting public expenditures We have continued to dole out the funds to build roads, but have not properly safeguarded the disbursement of those funds Now is the time for us to look over the situation

Even a mere scratching of the surface discloses the fact that our funds are used extravagantly, and that there is corruption and a great deal of waste

The principal elements entering into the problem are cement, asphalt and labor

PATENT PAVING

The greatest abuse has been in the use of so-called "patent" paving I am told that the original patent, if it ever was worth anything, has expired, and that later claims have little or no value, and that the type of pavement is no better and no worse than others of similar character easily obtained

The evils have grown out of the use of closed specifications, that is, specifications in which only "patent" pavement may be used This method enables the favored contractor to get the contract at an excessive price

To illustrate, where a patent pavement is called for, the price of such patent surfacing would be $2 35 a square yard, while that

of other sheet asphalt of just as good quality would be $1 50, making a difference in cost of 85 cents a square yard

In addition to this, the patent surfacing would be two inches deep, while the other asphalt surfacing would be three inches deep, giving 50 per cent more material for the surface of the road at a less cost

Considering the difference in price and material, there is a distinct loss of $1 00 per square yard in cost

When we have clearly in mind that the taxpayers are losing a dollar on each square yard of road, we can see that something must be done at once

Results of last year show what this excess was on State roads in the following counties, not including roads constructed under State aid

	No of Square Yards Laid	*Excess per Yard*	*Total Loss*
Cumberland County,	100,165	$1 00	$100,165
Atlantic County,	119,829	1 00	119,829
Morris County,	116,600	1 00	116,600
Middlesex County,	82,566	1 00	82,566
Other counties,	140,000	1 00	140,000
	559,160		$559,160

I am referring to these specific counties because I am informed that in them the greater part of the patent pavements were laid

My information is that during the last year patent paving surfaces amounting to one million yards were laid on State roads or roads receiving State aid

I believe that most taxpayers will be surprised to learn that in the building of a road having a 6-inch concrete base, it costs about $2 00 to lay that 6 inches of concrete, and $2 35 to lay 2 inches of surfacing, the 2 inches of patent surfacing costing 35 cents more than 6 inches of concrete Of course $1 00 of the latter should never have been paid

One dollar excess on a cost of $4 35, or nearly 25 per cent, is too much tribute to pay to those who participate in these contracts

Let me give you a concrete illustration

The road from New Brunswick to Metuchen was built under closed specifications A patent pavement was specified Contractors could not bid on anything else There were in the road 82,566 square yards The cost then at $1 00 a yard excess was $82,566 more than it should have been—$82,566 more than it would have been if sheet asphalt had been specified

Out of a total cost for the road of approximately $650,000 there will be paid unnecessarily over $82,000 by reason of the use of patent pavements

We are now about to spend $40,000,000 through a bond issue

The figures given to me by competent engineers, thoroughly familiar with this kind of work, are staggering but true

They say that upon the expenditure of $40,000,000 there will be paid $6,000,000 in excess if patent paving is used under closed specifications In other words, 15 per cent of the total cost of $40,000,000 will be wasted money—money expended unnecessarily In many cases it would be money used to corrupt public officials and to encourage further road building of this character

Shall we sit quietly by and permit this waste of public funds when we know that it is going on?

I would therefore recommend that laws be passed at once to provide for open specifications in the broadest possible fashion, so as to prevent a repetition of these abuses There should be no difficulty in doing this We should repeal our county reimbursement acts, which permit the county boards of freeholders to share in this practice Let us place the full responsibility for spending State funds upon the State Highway Commission, for the State must see that its money is properly spent

The fixing of routes should be left to the State Highway Commission We will then get rid of "log-rolling" and the road question will be taken out of politics The fixing of routes, etc, should be done under a fixed plan, devised for the best interests

of the State, not any particular division thereof, or of any particular persons therein

Members of the Legislature who may directly or indirectly represent these paving or other similar interests should be by law disqualified from passing upon legislation affecting those matters

CEMENT

Another important matter that must have attention is the cost of cement This is now sold for $2 00 a barrel, wholesale In 1914 it cost 60 cents a barrel

It is a matter of common knowledge that there is a combination among cement manufacturers for the purpose of controlling prices, and that they succeed in doing so

There is absolutely no competition A buyer must pay the price fixed by the combination or go without All sellers quote the same price All orders go to a common source, where they are tabulated Upon this tabulation production is based By this means the production is curtailed and controlled Only a limited amount of cement is made, and a scarcity is thus produced by non-production, and the price is kept up

Last year contractors could not get all the cement they wanted, because of this curtailing of manufacture

I am told that out of excessive profits made in this way a large "slush" fund is provided with which to fight every effort to break up these practices

This combination has been indicted in the United States courts in the State of New York and a trial was held in which the jury disagreed I am reliably informed that the Government's side of the case was badly presented, and that if an honest, vigorous effort were made to secure conviction there would readily be a verdict of guilty and a breaking up of this combination

I am also told that the investigation clearly showed that $1 25 a barrel would be a fair price for cement On each barrel we are making an excessive payment of 75 cents

On the expenditure of our $40,000,000 for roads, our loss, by reason of this overcharge, will be about $2,000,000, or 5 per cent of the total amount

In this connection, we must also bear in mind that this excessive charge goes into every barrel of cement used for manufacturing and building purposes, and so affects, materially, not only the pockets of every citizen, but the growth and progress of the State itself

If you build a house it costs you more than it should, if you build a factory it costs more Public and private enterprises often must wait or are abandoned altogether because of excessive cost

I would recommend that the following action be taken

1 That chapter 13 of the Laws of 1913, lately repealed, defining and punishing unlawful combinations, be re-enacted

2 That the Attorney-General of the United States be requested to bring on, at an early date, with competent attorneys to prosecute same, the retrial of those who were indicted as being responsible for this combination in the cement business

3 That the Attorney-General of the United States be requested to prosecute with vigor and effect the suit started some time ago in the Federal courts to restrain this unlawful combination

4 That a law be passed giving the State Highway Commission power to acquire, by purchase or otherwise, out of road funds, a plant or plants for the manufacture of cement Other States are endearvoring to do the same thing

5 The Highway Commission should be authorized to enter into a contract for all or any part of the cement that may be required for our roads, at a price satisfactory to it This may encourage the establishment of a plant or plants furnishing independent and competitive prices At all events, we always have the power to refuse to build roads if the prices of materials are excessive

LABOR

I believe, too, that there may be a considerable saving by the use of labor from our prisons and reformatories This would be an advantage, as well, to those who may be thus employed

I am having prepared at this time a plan for this work, which I will submit to the Highway Commission

I would therefore recommend that legislation be enacted which will permit this action to be taken

ADDITIONAL RECOMMENDATIONS

In order that the Highway Commission may be able at any time to make full investigation into road affairs, I would recommend the passage of a law which will give that body the fullest power of investigation on all matters affecting the work of that department, and the expenditures of its funds This should include the power to engage the Attorney-General or other counsel, the subpœnaing of witnesses, and the power to punish those who fail to appear, or who testify falsely, and also such other powers as may be necessary

I would further recommend that the Road Act be so amended as to permit the taking, for road and bridge purposes, whatever property may be needed

This seems to be necessary, because in securing land for the approach to the Amboy Bridge the Highway Commission claimed it had to buy, and could not condemn, because of a defect in this particular in the present act If this be so, it should be remedied

REMOVAL OF BOARD

Under the power conferred upon me by the law, I have this day exercised that power, and have removed the present State Highway Commission In doing so, I do not cast any reflection upon the members It is sufficient to say that such action is in the public interest

This leaves the State without a Board, and I shall make no attempt to fill the vacancies at this time, because of the recommendations made to your body in my inaugural message

I would therefore urge upon you prompt action by the passage of a bill that will reduce the board from eight to three members, with a salary sufficient to attract high-class, public-spirited citizens to undertake this work By making the membership three the Board will take a broader view of the problem, and will not be subject to local influences It will also be possible to put

responsibility directly upon these men, instead of dividing it When they do not function properly or efficiently they may be displaced

I desire to direct your attention to the report of the Bureau of State Research on State Highway financing, issued by the New Jersey State Chamber of Commerce This report should be read and given serious consideration by those who must deal with this important question

I also direct your attention to the schedule submitted herewith, showing the amount of State Road Tax paid by each county and the amount distributed in 1922

Also herewith, for your information, I am submitting a schedule showing regular apportionment for 1923 of motor vehicle funds and additional allotments

The people of New Jersey are looking to us for relief and expect us to adopt an efficient and economical plan for highway construction

Respectfully submitted,

GEORGE S SILZER,

Governor

Mr DeLorenzo offered the following resolution, which was read and adopted

Resolved, That the privilege of the floor be evtended to Mr William H Roberts, State Chairman of the State Board of Freeholders

Mr Lyons offered the following concurrent resolution, which was read by the Clerk

Concurrent resolution protesting to the Federal Government against a continuance of ineffective control and direction of occupational training of the United States Veteran Bureau in the Second District

WHEREAS, It is a matter of public knowledge and a subject of discussion in the public press that there is maladministration of the United States Veteran Bureau in what is termed the Second District, including the States of New Jersey, New York

and Connecticut, involving an unspeakable wastefulness of public funds and a demoralization of the facilities designed by the Federal Government to be everlastingly beneficial to the veterans of the late war who were maimed in the service of their country, and

WHEREAS, Such maladministration is hurtful alike to the State and to the individuals involved, and

WHEREAS, Recent investigation has disclosed, among other things, that disabled soldiers have been grossly misadvised and placed in training in occupations which they could never hope to master because of their obvious physical infirmities, that they have been neglected and many valuable months and years of their lives wasted by their being kept in training in these trades despite their protests and appeals for transfer to vocations more suitable to their physical capacities, that thousands of maimed veterans have been left to idle away years in mushroom institutions that have little facilities for their instruction and less interest in their welfare, that the conclusion of the periods of training of several thousands of these soldiers will arrive in July, and that they will then be thrown upon the streets with scarcely any real vocational preparation to grapple once more with the problems of life, now, therefore

Be it Resolved by the General Assembly of the State of New Jersey (the Senate concurring)

1 That mindful of the welfare of the men who cheerfully offered their lives at the call of their country and desirous of carrying out the intent of beneficent laws in the interest of vocational training for the United States veterans of the World War, respectfully records a protest against a continuance of ineffective control and direction of their occupational training and progress, and emphasizes the necessity for a more capable enforcement of all laws, rules and regulations designed to benefit the veterans, and to that end asks the Congress and the President of the United States to take such action as will insure the restoration of the disabled soldiers of New Jersey, New York and Connecticut District to self-reliance and usefulness

2 This resolution shall take effect immediately

A message was received from the Governor by the hand of his Secretary, as follows

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the Legislature January 29th, 1923

Complying with Concurrent Resolution No 1, dated January 16th, requesting a report of the coal situation in this State, I beg to transmit herewith a report of the New Jersey Fuel Commission, dated January 15th, and addressed to Honorable Edward I Edwards, Governor of New Jersey, and delivered to him on that day

From this you will see that the Commission has been busy from the third day of August in looking after our people, and that they began to function long before similar commissions, and before the Federal Commission

You will also see that New Jersey has received its full share of coal allotted to this district

It is also interesting to note that their operations have been very economical compared with the cost to other States

Complying with your request for suggestions as to legislation, I would say that since the coal originates in Pennsylvania and almost immediately comes into inter-state commerce the problem is primarily a Federal one, over which we have no control

The only control we have is over coal shipped into this State for consumption here

With regard to this I would call your attention to the report made under Joint Resolution No 2, approved March 3, 1921,

which provided for an investigation into the coal question in the State of New Jersey The report, among other things, discloses the following

"The committee is satisfied that there is an understanding, not only among the producers and their sales agents, to maintain a uniform high price, but an understanding among the members of the different retail coal dealers' associations that the domestic supply of anthracite coal shall be disposed of at a uniform price"

"In two instances the committee were able to obtain, from witnesses produced from two different localities of the State, testimony to the effect that the coal dealers' associations to which they belonged at the beginning of the year agreed upon and fixed the price to be charged to the consumer"

"The committee feels convinced that the main protection offered to a member of an association is the elimination of open competition, thereby maintaining the price to the consumer of anthracite coal"

"The elimination of competition made it possible to accumulate greater returns from the money invested, and to do away with the uncertainty of the price to be received from the consuming public for their product, and surer means of maintaining a standard price for their commodity In this respect the committee recommends the passage of the act submitted herewith as the first step to be accomplished looking toward the reduction of the price of coal to the consumer At the present time there is no law on the statute books sufficiently broad, in the opinion of the committee, to meet this condition, and we therefore recommend the passage of the same"

"These sales companies, to the extent of about ninety-five per cent of their stockholders, are stockholders of the producing company, and it is impossible to secure any coal under which is known as the old line companies unless it is purchased from the sales companies"

"It is apparent from the evidence taken that in late years these distributing companies have been gradually forcing the dealers who own coal pockets to discontinue buying coal in their localities and to secure their supply from the pockets of the distributing companies In the opinion of this committee, legislation should be enacted either controlling or disposing entirely of the pockets of the distributing companies or sales companies"

"It is further apparent that the monopoly of the retail coal trade is forced by these pockets in so far as the distributing companies will not supply anyone applying for coal, but only to dealers"

These suggestions appear to be as pertinent now as on February 27th, when filed in the State Library as an "Intermediate Report," without the bill referred to in the quotation

After making this report the committee was continued for another year, but I am unable to find that any further report was made

I do not find any legislative action taken to carry out the committee's recommendations

I would recommend, in conformity with your request, that laws be passed to correct the conditions to which attention is called in the committee's report, also, the re-enactment of chapter 13 of the Laws of 1913, being one of the so-called "Seven Sisters" acts, regulating unlawful combinations.

My attention has been called to the fact that some distributors and dealers in coal and other like commodities have been profiteering and exacting uncalled-for profits from consumers If this be true they could probably be controlled by requiring all dealers to be licensed In this way the profiteers might be regulated, stopped and punished

There would be no necessity, however, of setting up a new department for this, as there are no doubt existing departments with time enough to take on this additional work without extra expense to the State

There is seldom difficulty in finding a remedy, when we know all the facts

Unfortunately, the Congress has never found the facts, or placed them before the country If this were done then public sentiment would force action, looking toward a solution of this difficult problem

I would therefore urge that the Congress be memorialized to take the necessary steps and to do it at once

Owing to the mild winter the suffering of our people for lack of coal, while bad enough, has been less than if the weather had been colder

At another time we may not be so fortunate It is our duty, then, to see that there will be no repetition of present conditions

If we add to those of other States our desire for prompt action, much good should result

Respectfully submitted,
(Signed) GEORGE S SILZER,
Governor

Attest
FREDERICK S PEARSE,
Secretary to the Governor

TRENTON, N J , January 15, 1923

Hon Edward I Edwards,
Governor of New Jersey,
Trenton, New Jersey.

DEAR GOVERNOR—In view of the fact that we, the members of the New Jersey Fuel Commission, held office by virtue of appointment by you in accordance with the request of the Hon Warren G Harding, President of the United States, our commission concluded to briefly review what we have accomplished from the third day of August, 1922, up to the present time, in order that you may be fully cognizant of our work, and if so desired, transmit the same to your successor as Governor

In response to your call the members of the commission, within three days thereafter, assembled in Jersey City and organized with the election of William T Grier as Chairman, James W West, treasurer, and John J Farrell, as secretary

At that time the coal situation was in a most chaotic condition Miners, both bituminous and anthracite, had been on a strike for a period of five months Surplus supplies of all kinds had rapidly dwindled, and the shortage of bituminous coal was seriously threatening the operation of public utility corporations and all industries Your commission immediately proceeded, with your aid and the aid of your office, to make so far as possible a complete survey of the coal situation so far as it affected the public utility and industrial interests of the State At the same time a similar survey was made of all State institutions and the governing bodies of counties and municipalities were requested to act in like manner

Your commission is gratified to be able to report that it met with the most hearty and earnest co-operation in every move it was called upon to make In the preparation of the survey it had the earnest co-operation of the State Purchasing Department, the Public Utility and the Labor Departments, and the various county and municipal officials called upon

As a result your commission was in a position to function and did from its very organization, and was able to secure shipments of bituminous coal in urgent cases several weeks before the Federal Fuel Commission had effected a permanent organization As a result, by the time of the final settlement of the bituminous strike your commission had succeeded in having shipped into this State more than 350,000 tons of bituminous coal at prices which in no instance exceeded $4 25 a ton, and in a majority of which was less than half that amount

One of the first acts of your commission was, with the aid of the press, which was cheerfully afforded at all times, to urge upon the general public the absolute necessity that would occur for the practice of the strictest economy in the use of anthracite coal, in order that the limited supply which the commission found would be available, might be fully conserved and utilized in a way to prevent unnecessary hardships

From their appointment up to the present time your commission, through its officers, has kept in the closest touch with the Federal authorities and the Pennsylvania Fuel Commission, which absolutely controlled the distribution of anthracite All conferences held at Washington, Harrisburg and Philadelphia were attended, and such a thorough understanding was established between your commission and the Pennsylvania authorities that the results show that up to the present time New Jersey has fared as well, if not much better, than any other State in the distribution of anthracite coal The official figures from the week ending September 23d, the first week after the resumption of anthracite mining, up to December 23d, a total of fourteen weeks or one-half of the present coal year which expires on March 31st next, shows total shipments to New Jersey of 1,611,348 tons or approximately 204,557 tons in excess of our 60 per cent allocation The following table will show the amount received each week

September 23,	156,493	October 28,	116,989
September 30,	122,122	November 4,	79,506
October 7,	113,334	November 11,	98,586
October 14,	111,724	November 18,	106,254
October 21,	102,889	November 25,	110,151
December 2,	106,333	December 16,	137,017
December 9,	122,280	December 23,	127,670

It will be observed that except for two weeks, during which all coal was being diverted to the lake regions before the freezing period, our supply was above our weekly due of 100,485

Work of your commission was so far advanced that it was able on September 22d to adopt an order regulating the maximum retail price of coal, which you issued in a proclamation of that date fixing the price at a margin of profit, but slightly in excess of that prevailing in March of last year, and providing for an equitable distribution by retail dealers In the enforcement of that order the commission, with few exceptions, has had the earnest co-operation of coal dealers, and except in a few

instances where dealers have been purchasing from independent operators, who are allowed, because of a difference in cost of production, to charge more than the maximum price fixed at the mines, the retail prices of coal have not been far in excess of that of last year

Your commission has assurances from the anthracite authorities that the present high scale of anthracite production will continue, and if it does and our State continues to receive as proportionately as large a share as it did during the last three weeks of December, officially reported, there should be an ample supply for all domestic needs, economically used of course, from now until the end of the coal year

Your commission, as you are aware, served without compensation and endeavored to keep their traveling, clerical, printing and stationery expenses during the six months they have been operating, within the $3,000 which you had set aside for the use of the commission It is only fair for you to know, just by way of comparison, that the New York State Commission, which has not fared as well as your own, expended over $30,000 in making a survey before they received a single shipment of bituminous, and are now paying a coal commissioner $2,500 a month, exclusive of the general cost of maintenance, and the Federal Fuel Commission, which did not begin to function until six weeks after your own, in their recent report, admitted an expenditure of $40,000 up to January 1st

Except for the assistance cheerfully afforded by State and municipal agencies appealed to, by the coal dealers as a whole, and by the Pennsylvania Fuel Commission, it would have been impossible to accomplish what has been done up to the present time, and the commission earnestly hopes that whatever further action may be taken this same spirit of co-operation and assistance will continue

Respectfully submitted,

A message was received from the Governor by the hand of his Secretary, as follows

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the Legislature January 29th, 1923

I am transmitting you herewith an offer, made by Mr and Mrs Anthony R Kuser, of land in Sussex county, New Jersey, aggregating about 10,400 acres, or slightly over sixteen square miles, commonly known as "High Point," to be used for park and other purposes

This tract of land is peculiarly fitted to be of great use to the people of the State of New Jersey, not only because of the timber and water rights, but also because of its use as a pleasure and health-giving resort

It is offered with practically no limitations

If this property could be placed at the disposal of such organizations as the Y M C A, Y W C A, Knights of Columbus, Y M H A, Y W H A, Boy Scouts, Camp Fire Girls, and other similar organizations, for camp site purposes, it would do much for the uplift and benefit of the youth of our State

It would also be available, in part, for a tuberculosis sanitarium for our veterans of the great World War

I have no doubt that many other beneficial uses will be found after the park is in practical operation

I would recommend that this most generous gift of Mr and Mrs Kuser be accepted, and that appropriate legislation be passed for the appointment of five commissioners to bring it into beneficial use as soon as possible

Respectfully submitted,
GEORGE S SILZER,
Governor

BERNARDSVILLE, NEW JERSEY,
December 11th, 1922

Hon George S Silzer, Metuchen, New Jersey

MY DEAR GOVERNOR—Mrs Kuser and I are the owners of adjoining parcels of land in Sussex county aggregating about ten thousand four hundred acres or slightly over sixteen square miles The tract is commonly known as "High Point" and contains, as the name indicates, the highest point of land in New

Jersey It is generously wooded, abundantly watered and forms a well-nigh ideal nature reservation In addition to the acreage, there is a considerable equipment of buildings, including a large dwelling, lodges, farm houses, barns, garage, pump house, electric light and power plant, and the like

We propose to make a gift of the entire tract, with everything thereon except the chattels, to the State of New Jersey, for the pleasurable use and enjoyment of the public if that be agreeable to the State authorities The property is free of mortgage or other like encumbrance, and we shall impose no conditions except that there shall be no shooting or trapping of birds other than vermin and then only by the authorized representatives of the State or such commission as shall have custody of the grounds In other words, we desire to dedicate these lands to the health and pleasure of humanity, and believing, as we do, that human health and happiness thrive where birds abound, we wish the ground maintained as a bird sanctuary

Appropriate legislation, embracing a scheme of control, will of course, be a necessary prerequisite to an acceptance by the State May I be permitted to suggest that such control be given over to a board or commission especially instituted rather than added to the functions of a body organized for other purposes?

Mrs Kuser and I are leaving immediately to be gone for the winter, and it is her wish and mine that you have the matter in hand in due season for presentation, if you think well of the proposal, to the Legislature at the approaching session, wherefore, in our mutual behalf, I am tendering the offer to you as the Chief Executive, though prior to your formal induction into office If there is further information that you or the Legislature desire, I shall hold myself at your service Meanwhile, awaiting your pleasure, I am,

Very respectfully yours,

ANTHONY R KUSER

A message was received from the Governor, by the hands of his Secretary, as follows

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the Legislature January 29th, 1923

In the matter of taxation and the reduction of the tax burden now absorbing so much of the attention of our people, it is essen-

tial that we should first understand existing conditions in order that we may determine what is best to do

Many people are studying our tax laws and methods In order that their labors may be lightened and the problem clarified, I have prepared a study in graphic form, which I am herewith submitting to you for your consideration and the consideration of the people of the State

These charts show first, what property is taxed It then analyzes each subject, deals with exemptions, mandatory tax, our State road tax, State school tax, motor vehicle receipts and then takes up and points out the method in which each of these sums is expended I would suggest that you have a number of copies of this study printed for distribution

I believe that this will be of much use to you in finding solutions for present tax burdens

After the taxpayers have had a chance to give this matter further study I shall communicate with you and make further recommendations to you

Respectfully submitted,

Mr Muir offered the following concurrent resolution, which was read

ASSEMBLY CONCURRENT RESOLUTION

A concurrent resolution requesting the Congress to amend the National Prohibition Act

WHEREAS, It being our sworn duty to support the Constitution of the United States, we hereby re-affirm our pledge of allegiance to that instrument which every true American holds sacred, and

WHEREAS, The eighteenth amendment to the Constitution was regularly proposed by the Congress and duly adopted by the Legislatures of more than three-quarters of the States of the Union and is now a part of the Constitution, and

WHEREAS, The Congress, as required and directed by the Constitution, enacted the National Prohibition Act, commonly known as the Volstead Act, the constitutionality of which has been confirmed by our highest court and said act is now part of the Federal law, and

WHEREAS, The Volstead Act contains a clause defining intoxicating liquor to be any liquor containing one-half of one per cent alcohol, and

WHEREAS, The Supreme Court has ruled, so long as the present Volstead Act remains a Federal law no State has the power to legalize the sale of liquor containing more than one-half of one per cent alcohol, and

WHEREAS, We believe liquor containing more than one-half of one per cent alcohol is not intoxicating, however, accepting the ruling of the Supreme Court, we realize that we have no power to enact legislation legalizing the sale of such liquor, therefore

Be it Resolved by the House of Assembly (the Senate concurring)

1 We request the United States Senators and Members of the House of Representatives from this State to use all honorable means to amend said Volstead Act by striking therefrom the definition of intoxicating liquor, leaving the question of what percentage of alcohol in liquor is intoxicating to be finally decided by the Supreme Court of the United States

2 That copies of this resolution be sent to the Senators and Representatives from this State in the Congress of the United States

On motion of Mr Corio, the concurrent resolution was received and referred to the Judiciary Committee

The following communication to the Speaker of the House, was read by the Clerk

STATE OF NEW JERSEY

OFFICE OF THE COMPTROLLER OF THE TREASURY

TRENTON, January 29th, 1923

Hon William W Evans, Speaker of the House of Assembly, Trenton, N J

DEAR MR SPEAKER—Under Chapter 80 of the Laws of 1919, generally known as the Teachers' Pension and Annuity Fund Act, you will notice, under section 254, subsections 6 and 7, that the Board of Trustees certify to the State Comptroller an estimate of the amounts necessary to be paid from the School Apportionment Fund to the various funds created under the act and that the State Comptroller shall deduct such moneys from the Railroad Tax before he apportions the money to the counties under the laws of 1906

I have just received the certification of the Secretary of the Board of Trustees of the Teachers' Pension and Annuity Fund and it is for the amount of $2,735,438 Last year the amount was $1,049,000 The increase is so great that I felt it should be called to your attention and through you to the Legislature If this certification is allowed to stand it will mean that the Railroad moneys, collected under the laws of 1906, will be apportioned as follows

Amount of Railroad Tax collected for the year 1922,		$8,986,346 17
Soldiers' Bonus Tax,	$49,976 67	
Highway Extension Fund Tax,	74,355 72	
Vocational School Appropriation,	80,000 00	
State Road Tax,	254,070 75	
General State Fund,	1,270,353 77	
Legislative Appropriations for Education, Now Current,	2,937,747 88	
		4,666,504 79
Balance,		$4,319,841 38
If the full amount of the certification, $2,735,438, is allowed and deducted from the above figures,		2,735,438 00
The amount to be apportioned for school purposes to the municipalities of the State will be,		$1,584,403 38

The amount apportioned to these municipalities last year was $3,740,390 88

Contained in these figures of $2,735,438 is the sum of $1,806,822, which, I am informed, is for a Reserve Fund occasioned by the prior service of the present entrants in the Fund In other words, it is setting up a reserve against the service of the teachers for services rendered before the Act of 1919 became a law It has been suggested that while the State should set up reserves against the contributions of teachers made since the act in question was passed, it is not necessary to set up reserves for the period of prior services, when these teachers made no contributions If the law was amended to do away with this latter class of reserves, the amount needed for the fund would be, in round figures, $1,000,000 and would leave a reasonable amount to be distributed among the counties as heretofore

Trusting this matter will receive your very serious consideration, I am,

Very respectfully,

NEWTON A K BUGBEE,
Comptroller of the Treasury

On motion of Mr Corio, the communication was received and ordered spread in full upon the Minutes

February 3d, 1923

To the House of Assembly of the State of New Jersey, Trenton, N J

GENTLEMEN—I have the honor to submit to you copy of the action taken by the Presbytery of Jersey City in the Synod of New Jersey at its last Stated Meeting on December 4th, 1922, as follows

Resolved, 1 That Presbytery in accord with the action of the General Assembly (see Minutes G A, page 184) is unalterably opposed to any modification of the Volstead Act, the Hobart

Act of New Jersey and all other moral welfare laws in this State

Resolved, 2 That Presbytery call upon its ministers, elders, and churches, to make a formal demand upon the local executive authorities to enforce the laws pertaining to prohibition and various crimes and misdemeanors and bring to an end the many infractions of the law

Resolved, 3 That this Presbytery authorizes and directs its committee on moral welfare to co-operate with similar committees of other church bodies to protect the interests of moral welfare in this State, and particularly to assist in every way the organization of the coming New Jersey Council of Churches

Resolved, 4 That notice of this action be sent by the stated clerk to the members of the Senate and House and particularly to the legislators from Hudson, Bergen and Passaic counties

Resolved, 5 That the Presbytery of Jersey City deplores the holding of prize-fights under the present boxing laws known as the Hurley Act in our beloved State of New Jersey and especially would urge the Boxing Commission to refuse a license to anyone who would stage the proposed Wills-Dempsey championship battle in the State's jurisdiction.

The Presbytery of Jersey City, includes the ministers and Churches of Hudson, Bergen and Passaic counties, and consists of 66 ministers and 47 churches, numbering on April 1st, 1922, 16,052 members in full standing, 2 licentiates and 6 candidates

These ministers and churches are among the most prominent and devoted members of the Presbyterian Church in the State and can be relied upon to back up the action of the Presbytery

It is our earnest hope that your honorable body of the Assembly will see its way clear to take the action as aforesaid

Respectfully yours,

Attest JAMES DALLAS STEELE,
Stated Clerk

Mr Corio moved that the House go into Committee of the Whole, and that Mr Pascoe, of Union county, take the chair

Which motion was adopted

The Chair stated that this being the anniversary of the birth of Abraham Lincoln, the martyred President, it was due that appropriate exercises be held for the occasion, and announced that Mr Strahan, of Essex county, would make an address

Mr Strahan spoke as follows

To-day we stand a nation uncovered at the shrine of Abraham Lincoln Why is this so? To understand the soul of a nation is to know the lives of its heroes Some men work with their hands, some with their heads, and others with their hearts, a great man works with all three, and such was Lincoln

To recount the familiar incidents connected with his humble birth, his early desire for knowledge, his career as a member of the Illinois Legislature, his days in Congress, his life as a circuit lawyer, his debates with Douglas, his election to the Presidency, his martyred death, would be but to refresh common knowledge We cannot tarry with the facts of the man himself but hasten on to what he believed in We should not paint Lincoln as a hallowed saint, for he is a far greater figure as a man, with possibly some of the weaknesses and human failings common to us all

However, there are three outstanding principles which can be derived from a study of the life of Lincoln First, his devotion to liberty, second, his demonstration of what we mean by equality, and third, his humanity

If you wish to find out just what there is to a man give him power It will either make or wreck him Watch a man when he catches the first gleam of success and you will soon discover how big or little he really is Thus when Lincoln came to the White House he found the institution of slavery making the United States the greatest paradox in all history A Nation that could sing, "My Country 'Tis of Thee, Sweet Land of Liberty," and own 3,000,000 slaves But true to the traditions of liberty and freedom engendered in the forests and on the hillsides of his native State, he put aside the path of least resistance and struck for liberty and justice

The characteristic in the life of Lincoln which most appeals to the American is his rise from obscurity and poverty to that of eminence and power He has demonstrated for us just what are the results of equality of opportunity, equality before the law, our boasted heritage, really mean There is nothing that just happens in this life as a matter of chance Life is filled with surprises and disappointments, but behind all of them is a well-defined course of cause and effect So we learn from Lincoln's life that obscurity of birth is no permanent obstacle to greatness if we realize that

"The heights by great men reached and kept,
Were not attained by sudden flight,
But they, while their companions slept,
Were toiling upward in the night"

The thing in the life of Lincoln that made him truly beloved was his simple humanity, his charity of spirit, his tolerance He had opinions, but he respected the opinions of others There was nothing of the pious, "Thou shalt not," in Abraham Lincoln He understood the hearts of men All the political keenness and legal sagacity of the great men of his day could not overcome his plain words of homely philosophy that sank deep into the minds and hearth of his hearers Life's great question is not how did you deport yourself in defeat, but how did you carry yourself in victory In this did Lincoln's true stature stand forth

What then do we learn from the lives of men such as Lincoln? The simple truth that the men who have truly left their impress on human history in the form of greatness are those who loved and served their fellow-men Monarchs come and go, kingdoms rise and fall, military glory and political eminence flare and die, men erect great monuments to their memory, sages build great institutions, genius may harness the powers of the universe, but there is but one force that pulsates throughout the ages and that is the heart of man himself

Thus we learn from Lincoln, Liberty Equality and Humanity, and the greatest of these is humanity

For it was liberty, equality and humanity that dashed down the iron gates of the Bastile and waived aloft the tri-color of France over the heads of freemen, no longer slaves of despotism, it was liberty, equality and humanity that carried George Washington through the bloody snows of Valley Forge on to the Victory at Yorktown, it was the spirit of liberty, equality and humanity that inspired the makers of our constitution to give to the world the first written document of human rights, it was the spirit of

liberty, equality and humanity that fired the boys of '61 to save this Union and guided the hand of Abraham Lincoln when he struck, forever, from the wrists of the black man, the shackles of slavery, it was liberty, equality and humanity that stood behind us at the Marne, at Verdun and in the Argonne Forest, and it must be real liberty, true equality and a kindly humanity that will hold together our forty-eight states under the Stars and Stripes

Let us say with Lincoln that right makes might and in that knowledge let us dare to do our duty as we understand it What constitutes a State? Not high raised battlement or labored mound, thick wall or moated gate Not cities proud, with spires and turrets crowned Not bays and broad armed ports, where laughing at the storm, rich navies ride Not starred and spangled courts, where low-bred baseness wafts perfume to pride No Men, high-minded men, with powers as far above dull brutes endued, in forest brake or den and beasts excel cold stones and brambles rude Men who well their duties known, but know their rights And knowing, dare maintain Who crush the tyrant, while they rend the chain These constitute a State

Mrs Schermerhorn was called on for an address, and she spoke as follows

Possibly the shortest yet the greatest of Lincoln's speeches, itself a masterpiece of literary genius, was his Gettysburg Address With your indulgence I will read it now

LINCOLN'S GETTYSBURG ADDRESS

(Delivered at Dedication of National Cemetery, November 19th, 1863)

Four-score and seven years ago our fathers brought forth on this continent a new nation, conceived in liberty, and dedicated to the proposition that all men are created equal

Now we are engaged in a great civil war, testing whether that nation or any nation so conceived and so dedicated, can long endure We are met on a great battlefield of that war We have come to dedicate a portion of that field, as a final resting-place of those who here gave their lives that that nation might live It is altogether fitting and proper that we should do this

But, in a larger sense, we cannot dedicate—we cannot consecrate—we cannot hallow—this ground The brave men, living and dead, who struggled here have consecrated it, far above our poor power to add or detract The world will little note, nor

long remember what we say here, but it can never forget what they did here It is for us, the living, rather, to be dedicated here to the unfinished work which they who fought here have thus far so nobly advanced It is rather for us to be here dedicated to the great task remaining before us—that from these honored dead we take increased devotion to that cause for which they gave the last full measure of devotion—that we here highly resolve that these dead shall not have died in vain—that this nation, under God, shall have a new birth of freedom—and that government of the people, by the people, for the people shall not perish from the earth

The Chairman (Mr Pascoe) said

"Each member of this House should imbibe the wealth of wisdom contained in these words of the best friend the common people ever had Following in his footsteps, then, we will bend our every effort and energy to continue this a government of the people, by the people, and by all means for the people"

Mrs North spoke as follows

"Lincoln's remarkable success was chiefly attributable to the fact that he had taken for his motto 'I will always strive to do the very best I can'

"This is how the poet puts it

LINCOLN

" 'I do the very best I can, the very best I know'
These words of Lincoln sound for us as they did years ago
And shall we make, who study him, remembering his way
'To do the very best we can,' our motto for to-day

" 'I mean to do my very best,' he said, 'Until I reach the end,'
And he who was both good and great, of common folk the friend,
Who could have made so many rules and might have really preached,
Set for himself a daily goal that very few have reached

"To do the very best we can—the very best we know,
And, if we try, who knows—perhaps we, too, may into Lincolns grow"

Mrs Brown read the following original poem

LINCOLN

Man of destiny, of humble birth,
Who taught mankind, freedom's worth,
Who loosed the shackles, made men free
To enjoy God's sweet liberty

We gather here to praise thee
On this, thy natal day,
Lincoln, statesman, martyr—
Peace be thine, we pray

On motion of Mr Corio, the Committee of the Whole arose

The House reconvened

The Speaker resumed the chair

Upon calling the roll, the following members appeared and answered to their names

Messrs Adams, Barkman, Barison, Blizzard, Brown, Campbell, Chamberlin, Cieciuch, Clift, Coles, Compton, Corio, Crawford, Dater, De Lorenzo, DeVoe, Eastmead, Evans (Speaker), Flynn, Gaede, George, Gibbs, Hanson, Harbourt, Hershfield, Hoffman, Howe, Klein, Long, Loprete, Lyons, Marshall, McCullough, Menninger, Moran, Muir, Negus, North, Parker, Pascoe, Powell, Randolph, Robbins, Roegner, Rowland, Runyon, Sarokin, Schermerhorn, Sexsmith, Stanton, Stevens, Stiles, Strahan, Stratton, Thompson, Todd, Vaughan, Welsh, Williams—59

On motion of Mr Corio, the addresses made in Committee of the Whole were ordered spread in full upon the Minutes

A message was received from the Senate, by the hands of its Secretary, as follows

STATE OF NEW JERSEY,
SENATE CHAMBER,
February 12th, 1923

Mr Speaker

I am directed by the Senate to inform the House of Assembly that the Senate has passed the following concurrent resolution

WHEREAS, William E Tuttle, Jr , Banking and Insurance Commissioner, has been called by death, and the passing of this devoted public servant being a severe blow to the State, therefore,

Be it resolved by the Senate of New Jersey (the House of Assembly concurring)

That the loss suffered by the people be appropriately expressed and due honor paid to his memory Public service to Commissioner Tuttle meant the giving of his time and talents without stint His great capacity, business ability and understanding of the needs of the people were always at the command of his State As a member of the Congress of the United States he ably and intelligently represented his constituents, as a representative of his government in foreign lands he tactfully performed delicate missions, as a member of the Board of Conservation and Development he gave deep study to important problems, as Commissioner of Banking and Insurance he protected the interests of the State and its people, as a man he was intensely human and was loved by all who knew him, therefore,

Be it further resolved, That the President of the Senate designate two Senators and the Speaker of the House two Assemblymen to represent the Legislature at the funeral of Commissioner Tuttle

In which the concurrence of the House of Assembly is requested

W H ALBRIGHT,

A message was received from the Senate, by the hands of its Secretary, as follows

STATE OF NEW JERSEY,
SENATE CHAMBER,
February 26th, 1923

Mr Speaker

I am directed by the Senate to inform the House of Assembly that the Senate has passed the following concurrent resolution

WHEREAS, It is a matter of public knowledge and a subject of discussion in the public press that there has been maladministration and too frequent failures to function properly of the United States Veterans' Bureau in what is termed the Second District, including the States of New Jersey, New York and Connecticut, involving an unspeakable wastefulness of public funds and a demoralization of the facilities designed by the Federal govern-

ment to be everlastingly beneficial to the veterans of the late war who were maimed and disabled in the service of their country, and

WHEREAS, Such past maladministration and failure to properly and efficiently function is hurtful alike to the State and to the individuals involved, and

WHEREAS, Recent investigation has disclosed, among other things, that disabled soldiers have been grossly misadvised and placed in training in occupations which they could never hope to master because of their obvious physical infirmities, that they have been neglected and many valuable years of their lives wasted by their being kept in training in these trades despite their protests and appeals for transfers to vocations more suitable to their physical capacities, that thousands of maimed veterans have been left to idle away years in mushroom institutions that have little facilities for their instruction and less interest in their welfare, that the conclusion of the periods of training of several thousands of these soldiers will arrive in July, and that they will be thrown upon the streets with scarcely any real vocational preparations to grapple once more with the problems of life, now, therefore, be it

Resolved by the General Assembly of the State of New Jersey (the Senate concurring)

1 That mindful of the welfare of the men who cheerfully offered their lives at the call of their country, and desirous of carrying out the intent of beneficent laws in the interest of vocational training for the United States veterans of the World War, respectfully records a protest against inefficient control and direction of their occupational training and progress and emphasizes the necessity for enforcement of all laws, rules and regulations designed to benefit the veterans, and to that end ask the Congress and President of the United States to take such action as will insure the restoration of the disabled soldiers of the New Jersey, New York and Connecticut district to self-reliance and usefulness

2 That there shall be further decentralization of compensation and permanently rated cases to district control, thereby benefiting the ex-service disabled soldier by improving and expediting the service to be rendered him

3 That adequate power be vested in the district manager to place subordinates in the positions he believes them best fitted for and remove inefficiency from the organization regardless

of political affiliations, and, furthermore, that authority be granted to hire locally expert advisers and technically-trained persons that will insure a proper administration in the Second District

4 That the matter of control of hospitals be placed in the district office and not in Washington as at present That there should be a permanency to the office of district manager and that we be assured of a continuance of present policies and administration, except as above set forth

5 That copies of this resolution be immediately sent to all United States Senators and Congressmen

In which the concurrence of the House of Assembly is requested

W H ALBRIGHT,
Secretary of the Senate

The following message from the Governor was read

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the Senate February 26th, 1923

I can find no valid reason for approving Senate Bill No 87 No matter from what angle it is approached, its viciousness becomes apparent Its purpose is to transfer from the hands of the prosecutors in first-class counties to superintendents of elections, the powers which have been exercised by the prosecutors under chapter 210 of the Laws of 1918

Since the enactment of the law of 1918, Hudson county has been put to an expense of $329,807 79 The first year the expense was $16,448 74, and in 1922, $105,286 18 In Essex county the expense has been $42,797 25 A total of nearly $400,000 has thus been spent in five years under an act which foisted

an army of office holders upon the taxpayers of these counties, without any expressed desire by either the voters or the officials of either county for any such bureau

So far as I have been able to learn, no good has been accomplished by the law of 1918 Elections have not been purified, nor has the administration of law been bettered in any way On the contrary, this mandatory legislation has imposed numerous useless office holders upon the people, and burdened them with more taxes

The law of 1918 should long since have been repealed, and should now be repealed Instead of doing this, it has been deemed fit to continue this useless operation by establishing the office of Superintendent of Elections, to be appointed by a joint session of the Legislature, and so perpetuate all the evils that experience has taught us flow not only from this kind of legislation, but this particular legislation

There is no limit to the number of officials who can be appointed, there is no limit to their salaries, there is no limit to the expenditures We may naturally expect an increasing demand upon the taxpayers to sustain this bureau, which serves no public good, and whose only effect is to increase the burden of the taxpayers and continue a useless and vicious political system

There has been no demand for this law, so far as I have been able to ascertain, from a single property owner or taxpayer in either the county of Essex or the county of Hudson Why should it then, be inflicted upon the people of these two counties?

The bill is introduced by the Senator from Bergen who cannot in any way be said to represent the sentiment and interest of these counties, which have twenty-five representatives in the Legislature, who might speak for them

How can this kind of legislation be justified, especially at a time when economy should be practiced and where there is universal complaint about excessive taxes?

This bill takes from the hands of the prosecutors of Essex and Hudson counties the management of these election investigating bureaus since those offices have become Democratic, and places them in the hands of superintendents of election, to be appointed by a Republican Legislature at joint session If this act had any virtue whatever, some partisan argument might be made to justify its enactment, but since the whole thing, irrespective of politics, is vicious, useless, unnecessary, burdensome, perhaps unconstitutional, and serves nothing but a purely political purpose,

there is no reason why this bill should become a law or the act of 1918 remain a law

I, therefore, disapprove this bill

Respectfully submitted,

GEORGE S SILZER,
Governor

MESSAGE ON OPEN SPECIFICATIONS

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
February 28th, 1923

Gentlemen of the Legislature

Since seven weeks have passed without action, I have thought it might be useful to the State and enlightening to the members of the Legislature to give them the benefit of my views on the question of open specifications

Because there is a lull we must not think that the people of New Jersey are not still interested in this question of roads

They are intensely interested in the expenditure of their eighty million dollars

They are not only intensely interested in seeing that capable and independent and honest men are put in charge of the building of the roads, but they are also interested in seeing that there is open competition among bidders It will do the State no good, even though we have honest and capable men, such as I have

named, if their hands are tied either by closed specifications or conditions which do not permit of free competition

Let us first consider the background of this open specifications question in order to determine how to apply the remedy

Outside of the combinations made by road contractors to prevent competition, most of our difficulty, if not all, has been due to the fact that patent paving has been injected into our system The evils due to the use of patent paving have to do with the fact that our statute, as well as the practice, has not permitted open competition The question, then, is how to correct this condition and to produce real competition

On this question we must not permit ourselves to be misled and fooled, neither must we permit ourselves to be buried beneath a mass of words which will lead to complications hereafter and destroy the very thing we are trying to accomplish

It will not do to say that we will classify the types, receive bids under these classifications, and then award the contract for a particular type, because this will permit the present evils to be perpetuated in every county and municipality where the patent paving interests still have their foothold

Neither will it do to say, as has been suggested, that an engineer may draw a specification designating a type of pavement equivalent to a patent pavement, first, because there will always arise a dispute as to free competition, which will be the subject of litigation, and second, because this, too, permits the present corruption to continue in those counties and municipalities where it has existed in the past Instead of taking the paving question out of the channels of corruption by legislative act we are leaving it entirely in the hands of local boards and engineers who have already been connected with this sort of thing If the matter is to be determined by an engineer or a freeholder, then we have not cured the evil

I believe the question can be very much simplified if we take the trouble to analyze it

It is fundamental that we cannot have free competition unless all bid on the same specifications If all bid on the same specifications then all are on the same level, all must accomplish the same thing, and an honest comparison can be made of the bids, and the lowest responsible man is entitled to the contract

If, on the other hand, all do not bid on the same specifications, then there immediately arises a dispute, not only of fact, but of law

If we ask one man to bid on some thing which is "substantially" like another, we immediately have a dispute The thing bid upon must be the same in both cases

Let me illustrate

Suppose we say that bidding must be upon a road with an asphalt surface - We have one bid from a patent paving concern and one for an unpatented asphalt surface Let us suppose that the bid for the patent surface is $4 00 and the one for the sheet asphalt $3 00 To whom shall the bid be awarded? The one offering the bid for the sheet asphalt will say that his bid is the lowest The one bidding for the patented surface will say that his is the lowest because he has more work to do, because he has to add to his bid the royalties on the patent paving, because (he argues) that under his patent the road will be more durable and lasting This immediately creates a dispute, and there is no way in which the board can honestly decide which is the lowest bidder, because there is no definite basis for comparison, and because there is a dispute of facts

It becomes apparent at once that there is only one definite and sure way to create open competition, and that is by making everybody bid on the same specifications

This cannot be answered by saying that a patent paving may be designated, and by having the patent paving concern designate a price at which all may buy, because it has been definitely demonstrated that this method leads to corruption and permits secret preferences to be given to certain contractors This is one of the things that has led to present-day evils

It being clear, then, that in order to secure free competition all must bid on the same specifications, our duty is to see that a law is passed which will accomplish this

Let us take one step further in the analysis of this question

The State of New Jersey can build good and lasting roads without using patented methods or materials

Personally, I strongly urge that we do so There is no reason why the State of New Jersey, or any part thereof, should continue to use patent paving when we can get good roads without it Neither is there any reason why we should continue patent paving when we know that it has been and will continue to be the source of corruption and waste Let us wash our hands of the whole thing

I would advise that a law be enacted barring patent pavements from the State of New Jersey and thus opening the way to free competition in the building of our roads Thus, at one stroke, we would wipe out all incentive to corruption and waste in this particular, and would get good and lasting roads, notwithstanding

If the Legislature, in its wisdom, believes that road building would have to stop if we do not build under these patented processes, then we can easily provide for open competition when patented materials or methods are used

We could say, by statute, that whenever it was deemed advisable to put down such a patented pavement, it could only be done, provided those owning and controlling the patents would first waive all rights to preference and royalty, and permit others to use these patented materials and processes without the payment of royalty, so that every contractor might be just as free to lay down a patented pavement as the patented paving concerns themselves In this way, and only in this way, would we have real competition on patented materials or processes

We must go right to the root of this matter and settle it It will never be settled with advantage to the people of the State so long as we use patent paving and permit those owning it to gather royalties or to have a preference We will never have free competition if patent paving is specified in any form, without a waiver of their special privileges Open competition must be open competition, not such competition as gives one a preference over another, either because he claims an exclusive right to the material or the processes Neither can there be open competition unless all bid on the same specification

If the time ever comes when inventive genius shall have perfected a material or a process which is so far in advance of our present known methods that it would be advisable to adopt it, there will be little or not difficulty in securing legislative action for that purpose, but, in the meantime, there is no reason for perpetuating graft, corruption and waste

I would therefore recommend, for the relief of the people of New Jersey and the settlement of this question at this time, that a statute be passed barring all owners of patented materials or processes from bidding in the State, or any municipality thereof, unless such owners of patented materials or processes shall waive all preferences and monopoly rights which they may claim under their alleged patents or copyrights If they do not care to do business in this way in the State of New Jersey they may continue their corrupting and extravagant methods in other States We will not have them longer in New Jersey

Respectfully submitted,

GEORGE S SILZER,
Governor

Were each taken up, read a second time, considered by sections, agreed to and ordered to have a third reading

On motion of Mr Corio, the House took a recess for twenty minutes

The House reconvened

The Speaker called Mr Rowland to the chair

Mr Corio offered the following resolution, which was read and ordered spread upon the Minutes

WHEREAS, There did appear in the "Paterson Daily News," on February 28th, 1923, a very slanderous and malicious attack on the Hon William W Evans, Speaker of the House of Assembly, State of New Jersey, by Doctor Mary G Cummings, member of the Republican State Commitee from Passaic county, because of his stand on Senate Bill No 19, commonly called "The Night Work for Women Bill", and

WHEREAS, We, the Republican members of the said House of Assembly, feel that the attack was unwarranted and unfair,

and, on account of her official position, particularly reprehensible as promoting discord within the party, therefore,

Be it resolved, That the Republican members of the House of Assembly in party conference hereby affirm their respect for and utmost confidence in our Speaker, the Hon William W Evans, whose conduct as presiding officer of the House, and as a Republican, has been exemplary and worthy of commendation, and be it further

Resolved, That a copy of this resolution be given to the press for publication

The Speaker resumed the chair

Mr George offered the following resolution, which was read and adopted

WHEREAS, This being the thirty-fifth anniversary of the famous historic storm of 1888 in which the Legislature and everything else was hopelessly tied up, even worse than at this day in the highway jam, be it

Resolved, That this Assembly extend to its illustrious member from Cumberland, David Clam Blizzard, its hearty congratulations and felicitations upon his sunshiny and genial youth, wishing him many happy returns of the day

Assembly Bill No 447, entitled "An act creating an improvement district in the township of Wall, in the county of Monmouth, and providing for the annexation of such district to the borough of Belmar,"

Was taken up, and, on motion of Mr Campbell, under suspension of the rules, was read a third time by its title, and passed by the following vote

In the affirmative were—

Messrs Adams, Barkman, Barrison, Blair, Blizzard, Brown, Campbell, Chamberlin, Checiuch, Clift, Coles, Compton, Corio, Crawford, Dater, De Lorenzo, DeVoe, Eastmead, Evans (Speaker), Flynn, Gaede, George, Gibbs, Hanson, Harbourt, Hershfield, Hoffman, Howe, Klein, Long, Lopret, Lyons, Marshall, McCullough, Menninger, Moran, Munn, Negus, North,, Parker, Pascoe, Powell, Randolph, Robbins, Roegner, Rowland, Runyon, Sarokin, Schermerhorn, Stevens, Stiles, Strahan, Stratton, Thompson, Todd, Vaughan, Welsh, Williams—58

In the negative was—

Mr Sexsmith—1

Ordered, that the Speaker sign the said bill, and that the Clerk carry it to the Senate and inform the Senate that the House of Assembly has passed the same, and requests its concurrence therein

A message was received from the Governor by the hand of his Secretary, as follows

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the Legislature March 12th, 1923

Recently charges were made to me against a member of the State Board of Health

I forwarded these charges to the State Board of Health for investigation On March 7th the Board returned to me a resolution in which they deemed it improper to consider charges made against their own members, and invited the Governor of New Jersey to make investigation

I have asked the Attorney-General whether there is any authority for the Governor to make an investigation, and if, after investigation, whether he has the power of removal

The Attorney-General informs me that the present law does not give the Governor the power of removal, even if the charges are well founded, the next procedure being to bring impeachment proceedings in the usual way This is a very complicated method of disposing of a matter of this kind

I would therefore suggest that you amend the present law so that the power may be invested in some person or body to try matters of this kind and determine them

I am sure that the Attorney-General will be glad to co-operate with you

If such a law is not passed I will have to forward the charges to the House of Assembly for action

Respectfully submitted,
GEORGE S SILZER,
Governor

Assembly Bill No 155, entitled "An act providing for the payment of a pension to the widow of any employee of the Board of Shell Fisheries who is killed while in the performance of his duty,"

Was taken up

Mr Blizzard asked unanimous consent of the House to amend Assembly Bill No 155 on third reading

Consent was granted

Mr Blizzard offered the following proposed amendments to Assembly Bill No 155, which were read and adopted

On page 1, line 1, after the word "Fisheries" insert the following

"prior to the passage of this act,"

Assembly Bill No 155, entitled "An act providing for the payment of a pension to the widow of any employee of the Board of Shell Fisheries who is killed while in the performance of his duty,"

As amended,

Was taken up, and, on motion of Mr Blizzard, under suspension of the rules, was read a third time by its title, and passed by the following vote

In the affirmative were—

Mr Powell offered the following resolution, which was read and adopted

Resolved by the House of Assembly (the Senate concurring), That the Governor be requested to return to the House Assembly Bills Nos 47, 51 and 172, for further consideration

Mr Negus offered the following resolution

WHEREAS, His Excellency the Governor of the State of New Jersey has in his message of this day informed the members of the Legislature that charges have been filed with him against Clyde Potts, a member of the State Board of Health, and

WHEREAS, Said charges are of such serious import, as to require the Governor to request the enactment of legislation that said charges may be properly examined into, to the end that power to remove said commissioner may be effected in the event that said charges are found to be true, therefore

Be it resolved, That the Governor be and he is hereby requested to transmit to the House of Assembly said charges or copies thereof

On motion of Mr Corio, the resolution was received and referred to the Judiciary Committee

A message was received from the Governor, by the hands of his Secretary, returning to the House of Assembly, with his objections,

STATE OF NEW JERSEY,

This bill exempts persons employed as reporters for newspapers from jury duty

I do not believe that any newspaper reporter desires to be relieved from performing all of his duties as a citizen, or that there is any desire on the part of men connected with the press to be relieved from the performance of these most important duties

From my experience as judge I know that there are already too many exemptions, and that they embarrass the administration of justice and the securing of good men for jury duty The present Exemption act ought to be repealed, and the subject approached from a new angle

I therefore disapprove this bill

Committee Substitute for Assembly Bill No 48, entitled "A supplement to an act entitled 'An act to establish a State Highway System, and to provide for the improvement, betterment, reconstruction, resurfacing, maintenance, repair and regulation of the use thereof,'" approved March thirteenth, one thousand nine hundred and seventeen,

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the House of Assembly March 12th, 1923

I have before me a number of bills fixing routes for State Highways, and I believe a number of others are to come before me

The method adopted in securing the approval of these various routes is entirely wrong Any route can be adopted if there is an exchange of votes for another route, or for other purposes This leads to the most unscientific and unsatisfactory method that could be imagined for the laying out of State Highways In a matter of such great importance to the whole State the selection of routes should be left to the State Highway Commission, who would have an impartial view and who would see that all parts of the State and all interests in the State were properly treated This would be much better than log-rolling

To illustrate some of the evils, Assembly Bill No 86 provides for changing a route already laid out, and the explanation is "The purpose of this act is to straighten out the present course in Route No 11 from Newark to Paterson and eliminate several miles from the State Highway System The route as now laid out is so circuitous that the State Highway Commission would not be justified in improving it"

Notwithstanding the fact that it now appears that no State Highway Commission would be justified in improving the route as it now exists, there was a Legislature that did approve the route and certified it to the Governor as the proper thing to do

My objection to these routes is not to the routes themselves, for they may or may not be proper

The same arguments that were advanced for the passage of the bills may be advanced to the State Highway Commission when they are authorized to do this selecting, and I am sure, if the arguments are good, that the roads will be improved

The question is one of principle and of the proper and efficient method for doing the work

Since these bills do not accomplish this purpose, but perpetuate a bad system, I am compelled to veto these three bills

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the House of Assembly March 12th, 1923.

This bill provides as a new method that the defendant who appeals from a motor vehicle conviction shall "serve a written notice of appeal on the opposite party and pay all costs of appeal"

The expressed purpose of the bill is to expedite the handling of cases involving intoxicated drivers, but it does not accomplish this purpose In the first place, there is no "opposite party" in a summary proceeding of this kind

If any notice is to be served the bill should provide for the service of that notice upon the Commissioner of Motor Vehicles, who may then, in an official capacity, see that the case is promptly prosecuted

The payment of costs of appeal is also rather indefinite, and might be difficult to comply with

I therefore disapprove the bill

STATE OF NEW JERSEY,
SENATE CHAMBER,
March 12th, 1923

Mr Speaker

I am directed by the Senate to inform the House of Assembly that the Senate has passed the following concurrent resolution

A CONCURRENT RESOLUTION for the annual display of the American Flag on Mothers' Day, the second Sunday in May

WHEREAS, The service rendered to the United States by our American homes is the supreme source of our country's strength and inspiration, and

WHEREAS, We honor ourselves, our homes, State and nation when we do anything to give emphasis to the home as the fountainhead of the State, and

WHEREAS, The American mother has done, and is doing, so much for the home, the moral and industrial uplift and religion, hence so much for good government, patriotism, humanity and religion, therefore,

Be it resolved by the Senate (the House of Assembly concurring)

1 That the Governor of this State is hereby requested to issue annually a proclamation calling upon our State officials to display the United States flag on all State and school buildings, and the people of the State to display the flag at their homes, lodges, churches, places of business and other suitable places, on the second Sunday in May, known as "Mothers' Day," as a public expression of love and reverence for the homes of our State, especially for their mothers and other patriotic women therein, and that the Governor urge the celebration of Mothers' Day in said proclamation in such a way as will deepen home ties, and inspire better homes and closer union between the State, its homes, and their sons and daughters

2 This concurrent resolution shall take effect immediately

In which the concurrence of the House of Assembly is requested

WM H ALBRIGHT,
Secretary of the Senate

SIR—The Court of Chancery has issued a mandatory decree to the City of Trenton to build a sewage disposal plant The City of Trenton has complied with the Court decree by having its engineering department, aided by a competent and internationally recognized consulting engineer, investigate and report upon various types of sewage disposal plants and processes, and to prepare plans and specifications therefor

The plans, specifications and reports of the Engineering Bureau of the City of Trenton have been submitted formally to the Engineering Bureau of the State Department of Health Date of submission, December 15th, 1922

It is necessary to point out that the State Department of Health, in the face of endorsement by its own Engineering Bureau of the plans and specifications of the City of Trenton so submitted, and despite the request of the City of Trenton for immediate action in order that the city might properly comply with the Chancery Court decree, and also that the city might take advantage of the lower prices it could obtain by letting a contract during this past winter, has failed, since December 19th, 1922, to give its approval of the project so submitted

This failure, inexplicable in view of the fact germane, on the part of the State Department of Health to accept the engineering verdict of its own Bureau which has to do with such matters primarily, is attributable unequivocally to one member of the State Department of Health, Mr Clyde Potts, a Consulting Engineer of New York, and also Mayor of Morristown, N J

Mr Potts has set himself against all other engineering opinion, and is opposing the program proposed by the City of Trenton, recommended by its Consulting Engineer and its own Engineering Staff, and for which funds have been provided to defray the cost of construction Unanimous opinion of the Board of City Commissioners in favor of this project, approving the recommendation of the city's Consulting Engineer without internal dis-

sention, involve an expenditure $1,063,000 as against a cost of nearly two million dollars for a discredited type of sewage disposal system favored by Mr Potts

Mr Potts has never given any public reason, technical or otherwise, for opposing this newer and cheaper system proposed for Trenton which is now in successful operation on a smaller scale in the cities of Allentown, Pa , and Phillipsburg, N J There appears to be no reason why he should oppose the approval of this project for the City of Trenton, as a member of the State Department of Health of New Jersey, except that he sought and was denied the donation of a large stock interest in the patented process involved in the system recommended to and unanimously adopted by the City Commissioners of Trenton

The efforts of Mr Potts to secure an interest in this process were made by him after a study of the then available facts pertinent to it. Inasmuch as he has since made no further investigation of it his attitude, in advising the State Department of Health to withhold its approval of the project submitted by the City of Trenton, cannot be ascribed to engineering reasons

This evidence is submitted with the thought that when the State Department of Health, possessing as it does broad powers—indeed it would seem in the existing circumstances powers improperly plenary, in view of the manner in which they are now being exercised—is operating in a fashion inimical to the best interest of the citizens of New Jersey and the public at large On this account the foregoing is respectfully submitted for the immediate and serious consideration of the Chief Executive of the State

Very truly yours,

H JEROME HIRST

STATE OF NEW JERSEY
DEPARTMENT OF HEALTH
THE DIRECTOR OF HEALTH
Trenton, March 7th, 1923

Hon Frederick M P Pearse, Secretary to the Governor, Trenton, New Jersey

DEAR MR PEARSE—Your letter of February 20th, 1923, referring to the Department of Health of the State of New Jersey for consideration, copy of letter received by the Governor from the Direct Oxidation Disposal Corporation was read at the meeting of the Department held on March 6th, 1923, together with

the copy of letter referred to, and after consideration of the same the enclosed resolutions were adopted by the Department, a copy of which I was instructed to forward to you

Very respectfully,

J C PRICE,
Director

WHEREAS, A complaint has been filed with the Governor of this State by one H Jerome Hirst for the Direct Oxidation Disposal Corporation against the conduct of this Board in failing to approve of the plans, specifications and reports of the engineering bureau of the City of Trenton, which were submitted to this Board for approval on December 15th, 1922, and

WHEREAS, It is charged that the failure of this Board to accept said plans "is attributable unequivocally to one member of the State Department of Health, Mr. Clyde Potts", and

WHEREAS, It is alleged that Clyde Potts, a member of the State Department of Health of New Jersey, has "set himself against all other engineering opinion" in opposing the plans proposed by the City of Trenton and favors a "discredited type of sewage disposal system", and

WHEREAS, It is further charged "there appears to be no reason why he should oppose the approval of this project for the City of Trenton, as a member of the State Department of health of New Jersey, except that he sought and was denied the donation of a large stock interest in the patented process involved in the system recommended to and unanimously adopted by the City Commissioners of the City of Trenton

"The efforts of Mr Potts to secure an interest in this process were made by him after a study of the then available facts pertinent to it Inasmuch as he has since made no further investigation of it, his attitude, in advising the State Department of Health to withhold its approval of the project submitted by the City of Trenton, cannot be ascribed to engineering reasons", and

WHEREAS, It is further charged that this Board "possessing, as it does, broad powers—indeed it would seem in the existing circumstances, powers improperly plenary, in view of the manner in which they are now being exercised—is operating in a fashion inimical to the best interest of the citizens of New Jersey and the public at large,

Be it resolved, That this Board recognizing the impropriety of considering the charges so made of its own conduct and the alleged acts of one of its members does hereby invite an investigation by his Excellency, the Governor of New Jersey, to be made in the fullest possible and public manner

STATE OF NEW JERSEY
DEPARTMENT OF HEALTH
THE DIRECTOR OF HEALTH
30 Church Street, New York City,
March 12th, 1923

Honorable George S Silzer, Governor, Trenton New Jersey

SIR On February 19th certain charges were made by H Jerome Hirst against me specifically, and against the other members of the Department of Health for delay in approving the plans for sewage disposal works for the City of Trenton These charges were referred by you to the Department of Health, and at the last meeting of the Department of Health they were returned to you because of the impropriety of the Department examining charges made against one of its members or the members of the Board collectively

I will be glad to appear before you any time and give you any information concerning this company which you desire

Their charges against me personally are, of course, untrue, as are also the charges against the other members of the Board as to their being influenced in this matter This letter to you and the propaganda which this company is putting out in the newspapers is merely an effort to browbeat and blackguard the State Department of Health into an attitude where it will approve these Trenton plans without a proper investigation

As you may know, the State Department of Health approved this system for the Town of Phillipsburg with the understanding that it was to be an experimental plant So far as the Department of Health is concerned it is still an experimental plant as it has not yet been accepted by the Department It was built two years ago and the irregularities connected with this erection were so serious that Judge Gnichtel was appointed a Supreme Court Commissioner to investigate the Town of Phillipsburg and the proceedings in connection with the erection of this plant As a result of that investigation the Grand Jury indicted the Municipal Disposal Corporation of Philadelphia, as a corporation, and this man H Jerome Hirst, as an individual, for irregularities in connection with the erection of the plant there, and the matter has not yet been brought to trial

Under the circumstances surrounding the erection of the Phillipsburg plant and the fact that this system is still in the experimental stage it is strange that there should be such a great demand for speed in connection with the Trenton plans

I would therefore suggest to you that in investigating the charges made by Mr H Jerome Hirst, that you broaden out

the scope of investigation so as to include the activities of the Direct Oxidation Corporation and Mr H Jerome Hirst, not only in the State of New Jersey but in other States, which will be brought to your attention, as well

The filing of these charges and the subsequent acts of these parties shows, I believe, an effort to dominate sewage disposal matters in the State of New Jersey by a patented sewage disposal combine, that is well worth your best efforts in detecting in its incipiency

Yours respectfully,

CLYDE POTTS

On motion of Mr Corio, the message was received, ordered spread upon the Minutes, and referred to the Committee on Judiciary

A message was received from the Governor, by the hands of his Secretary, returning to the House of Assembly, with his objections, Assembly Bill No 332

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the House of Assembly March 13th, 1923

It seems to me that there is already sufficient power to do all the legitimate things that are necessary to protect our county roads, and that there is no necessity for the creation of an unlimited number of jobs by the appointment of special officers.

This bill is therefore disapproved

Respectfully submitted,

GEORGE S SILZER,
Governor

A message was received from the Governor, by the hands of his Secretary, returning to the House of Assembly, with his objections, Assembly Bill No 405

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the House of Assembly March 13th, 1923

This bill provides for the recording of all deeds or leases, granting or conveying riparian lands, or any interests therein, in the office of the Riparian Commission, or its successor

These deeds are now recorded in the County Clerk's office, where those who are searching the title to land expect to find them I can see no reason for duplicating the recording of these instruments, because it puts the owner of property to a double expense, makes it more difficult to ascertain the title to lands, and produces no corresponding benefit

Respectfully submitted,

GEORGE S SILZER,
Governor

Which motion was adopted

A message was received from the Governor, by the hands of his Secretary, returning to the House of Assembly, with his objections, Assembly Bill No 235

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the House of Assembly March 13th, 1923

This bill provides the State Department of Health or local boards of health shall have power of adopting rules relating to the growing and handling of shell fish, etc, and permits punishment for the same

The purpose of this act was to extend the State Board of Health Department powers to a local board of health, and this purpose may have been a good one, but the difficulty with the bill is that it permits either board to adopt rules and regulations and to inflict punishment The result is that the State Department may be deprived entirely of its necessary jurisdiction in supervising these matters Their control over these important functions may be taken away from them by action under this bill

If a bill could be drawn which would carry out the evident intent of the act, that should be done, but the present bill should not become a law

I therefore disapprove the same

Respectfully submitted,

GEORGE S SILZER,
Governor.

A message was received from the Governor, by the hands of his Secretary, returning, with his objections,

Assembly Bill No 136

STATE OF NEW JERSEY,
EXECUTIVE CHAMBER,
To the House of Assembly March 15th, 1923

This bill would permit a large number of cases which are now pending to be marked "non prossed", and so terminated without any notice whatever to the parties in interest In many cases the statute of limitations might have run, and the parties would have no further relief

I therefore think the bill is objectionable, and it is hereby disapproved

Respectfully submitted,
GEORGE S SILZER,
Governor.

Attest
FREDERIC M P PEARSE,
Secretary to the Governor

Assembly Joint Resolution No 1, entitled "Joint resolution asking Congress to legalize the manufacture of light wines and beer in the United States,"

By committee substitute

Mr George offers as a substitute for the committee substitute the following

A Joint Resolution making application to the Congress for the calling of a convention for the purpose of proposing amendments to the Constitution of the United States

WHEREAS, By the provisions of Article V of the Constitution of the United States the Congress, on application of the Legislature of two-thirds of the several States, shall call a convention for proposing amendments, and

WHEREAS, The Eighteenth Amendment to the Constitution designed to prohibit the manufacture, sale, transportation, importation and exportation of "intoxicating liquors" for beverage purposes, by reason of its ambiguous and uncertain language, and its utter failure to define the term "intoxicating liquors" has caused much confusion, and has resulted in the passage of an act by the Federal Congress prohibiting that which, in fact, is not intoxicating, and

WHEREAS, In order that the uncertainty now existing shall be removed, and the Eighteenth Amendment to the Constitution so altered as to clearly define the term "intoxicating liquors," thus permitting and legalizing the use of beer and light wine, and thereby promoting real temperance, therefore,

BE IT RESOLVED *by the Senate and General Assembly of the State of New Jersey*

1 That application is hereby made to the Congress pursuant to the provisions of Article V of the Constitution of the United States for the calling of a convention, at which convention shall be proposed a further amendment to the Constitution of the United States for the alteration of the present Eighteenth

Amendment, so that the term "intoxicating liquors" for beverage purposes shall be specifically defined in order that it may clearly provide for the lawful use of beer and light wine, and the promotion of real temperance, and the amendment thus harmonized with the will of the people of the several States

2 That this resolution, under the seal of the State, shall be transmitted by his Excellency, the Governor, to the Senate and House of Representatives of the United States

3 This joint resolution shall take effect immediately

Upon calling of the roll the substitute offered by Mr George was rejected by the following vote

ASSEMBLY NO 102

To the House of Assembly

The explanation connected with this bill is that doubt has been expressed as to whether the term "veterinary attendants" includes "horseshoers"

In order to eliminate this doubt the bill has been amended so as to include horseshoers, but the drafter of the bill evidently forgot to eliminate the same doubt from the title to the act, because the title remains the same, without the inclusion of this new term

If there is any reason for the amendment to the bill, the same reason applies to the amendment to the title

If the term "horseshoers" is necessary to be included in the body of the act, then it must also be included in the title Not being included in the title, this act would not be of any use in its amended form so far as horseshoers are concerned

I therefore disapprove the bill

ASSEMBLY NO 145

To the House of Assembly

This bill establishes what is known as "Family Courts" in cities of the first class having three criminal courts

It provides that the governing body shall appoint one of the police justices to hold this court When this is done, then there

will have to be another police justice appointed to take the place of the one who is assigned to the Family Court The result is that one or more positions are created by this act, with the attendant additional expense to the taxpayers

I do not see why the same thing cannot be accomplished by having the present police courts try these cases as they do now. They can call themselves "Family Courts" at the time they are acting in these particular branches

COMMITTEE SUBSTITUTE FOR ASSEMBLY BILL NO 149

To the House of Assembly

This bill provides for pensioning clerks of District Courts in cities of the first class

Evidently, officials and officers of the District Courts of the State have been very busy this session, because I find a number of bills for the increase of their salaries

This bill provides that under certain conditions the clerk of the District Court shall be retired on pension

This is another mandatory act, in which the municipality itself has no say

If clerks of District Courts are to be included among city employees who are to receive a pension, then that should be provided for under a general city plan, with the usual provision for

becoming a member of the pension fund, such as is now in operation with State employees

The purpose of this bill is to place under tenure of office secretaries of boards of education in municipalities between one hundred and one hundred and fifty thousand population

If it is a good thing to do, it ought to apply to all secretaries, and not those in municipalities of between one hundred and one hundred and fifty thousand

Beyond this, however, it seems to me that a board of education should have the right to discharge its secretary if they do not believe him to be the right man for the place In what other way can business principles be applied to this important public board? ASSEMBLY NO 262

To the House of Assembly

This bill provides for exempting from taxation railroads which have not been completed, or, if completed, have not been operated in ten years, and so forth

If the act had been more carefully framed it might have accomplished its apparent object, but the difficulty, as it stands at present, is that it exempts from railroad taxation railroads which have not been completed This would exclude all railroads under construction which were not entirely finished, and in this way the State of New Jersey would lose a great deal of railroad tax

The members of the State Board of Taxes and Assessment also fear the same result

There is no reason for putting this law upon the books if the

State of New Jersey is to either lose the tax or be put to the trouble of litigation to collect it A better way would be to clarify the act, if it is to serve a useful purpose

ASSEMBLY NO 308

To the House of Assembly

I have had a hearing on Assembly Bill 308 and Assembly Bill 309, and have heard both sides at length

Viewing the matter from a judicial angle, I am not convinced that the proponents of the bill have borne the burden which was cast upon them of showing the need for this bill, notwithstanding that there is much to be said on both sides of the question

The question of supplying water to our municipalities is becoming a most urgent one from day to day, and it is quite apparent that the State must adopt some comprehensive method of providing for these growing needs

The ever-recurring squabbles over water rights and water acquisitions are an evidence of the growing necessity for relief

If the State does not provide such relief soon, then the municipalities will have to continue their scramble In the meantime, municipalities who see the growing necessity for more water are endeavoring to provide themselves with it, with the result that each is looking selfishly to securing its own supply, regardless of what may happen to others less alert or less able to stand alone

In the present situation the municipalities of Union County are endeavoring to meet their demands Elizabeth evidently has not been so alert as the others These bills put into a group a number of municipalities in Union County If this system is followed we will have the same local grouping all over New Jersey, and instead of a State policy we will have a local policy, based upon local demands

Another objection to these bills is that the plan comprehends taking in the City of Elizabeth and Linden Township, the two comprising the major part of the ratables of the affected municipalities of Union County These two particular municipalities, from past experiences, gravely doubt the advisability of entering into this combination, and ask that the matter be deferred until next year, in order that they may study the situation further and ascertain definitely what is best for them

Elizabeth, some years ago, had a most distressing experience in the issuing of municipal obligations, with the result that only

through the efforts of public spirited men was the city saved from bankruptcy The last of the obligations then incurred was destroyed only last year

Under the provisions of these bills the Commission appointed under the act by the Court might obligate these municipalities to an unlimited amount for extensions and improvements of the water system without even the slightest consent on the part of the municipality

I can very readily see why Elizabeth is sensitive about entering into a plan of this kind, in view of her past experiences, yet if she does not she may be forced into a very unfavorable and unfortunate situation, and might be compelled to make a bad bargain

In all the circumstances I believe it is best that such a course be taken A year's delay will not seriously affect any of the interested municipalities, and with the light that will be shed upon the subject by the discussion during that period a satisfactory plan may be evolved

I hope that during the coming year a very thorough and careful study may be made of this important question of supplying water to our State, in order that a comprehensive and satisfactory plan may be worked out for the benefit of the entire State, and as a future policy to be adopted by the State

We have already been making efforts in that direction and already have a State policy

This policy, however, is rather tentative and lacks firmness and definiteness We should determine just what the State policy ought to be and then proceed to adopt it

I believe this water question is the biggest and most important one now facing the people of New Jersey

For these reasons Assembly bills 308 and 309 are disapproved

ASSEMBLY NO 134

To the House of Assembly

I have before me the following bills relating to State highways Assembly Nos 134 and 256, and Senate Nos 59, 66, 85, Committee Substitute for Senate 104 and 110, 135, 136 and 247

Most of these bills are carelessly drawn, and some of them, if enacted, will destroy their purpose, because they have amended the wrong acts

The original act was that of 1917 This has been amended by Chapter 104, Laws of 1920, and Chapters 144 and 148 of the Laws of 1921

Some of these bills, by amending the law of 1917, would destroy entirely what has been done by the amendments of 1920 and 1921

One result would be to undo the amendment of 1921, which provides for the locating of roads as approaches to the Delaware River Bridge and the Hudson River Tunnel

Another would cut out a part of Route No 6, running from Camden to Bridgeton and Salem, by way of Woodbury, Mullica Hill, Woodstown and Pole Tavern

Another has the effect of repealing the supplement of 1921, which carries the highway through to the tunnel entrance and the Camden City approach to the bridge

Some also affect the Lincoln Highway from Elizabeth to Trenton

I have already vetoed Assembly Bills Nos 48, 86 and 421 Altogether there have been twelve bills before me, fixing or amending highway routes

I feel certain that these bills were not passed by reason of any thorough investigation that each member of the Legislature made of the particular bill before voting for its adoption I am sure, however, that all of these bills were passed either because of indifference on the part of the members or by way of exchange for some other route that the member might be interested in

This is a most unsatisfactory and expensive way of building State highways and should be discouraged

This power ought to reside in the State Highway Commission, and not be the subject of legislative "log-rolling"

I have no doubt that there are among these bills routes that ought to be adopted I have had no opportunity, in the past five days at my command, to make a thorough investigation in order to determine which routes were good and which were bad I am equally sure that the members of the Legislature did not make such an investigation

In my veto of Assembly No 86 I called attention to the fact that that bill aims to eliminate several miles from a route adopted by the Legislature a few years ago It is an apt illustration of what happens under this present method

I am vetoing all these bills, good and bad alike, because I believe it to be to the best interest of the State that this power be vested in the State Highway Commission Then the Commission may hear at length what is to be said in favor of each route, make a satisfactory investigation, and then determine which routes are good and which are bad, and build roads accordingly

ASSEMBLY COMMITTEE SUBSTITUTE FOR SENATE COMMITTEE SUBSTITUTE FOR SENATE NO 220

To the House of Assembly

Irrespective of constitutional and technical objections to the form of the bill, it seems to me there are fundamental objections which should prevent its becoming a law

This bill takes from the Governor of New Jersey the appointment of three commissioners, and in place thereof it designates the Comptroller of the Treasury as the State Athletic Commissioner

It is short of ridiculous to have the Comptroller of the State whose duties are so foreign to a matter of this kind, designated as the responsible head of a State Athletic Commission

We may next expect him to be appointed head of a Shell Fish Commission, State Undertakers' Association, Board of Pharmacy or Dentistry, Commissioner of Architects and Plumbers, Horseshoers and Barbers

It is merely necessary to state the possibilities to understand how ridiculous this sort of thing is

It has been the settled policy, ever since New Jersey has been a State, to elect a Governor and put the responsibility upon him for the appointment of commissions He has always had the responsibility for selecting the highest judicial officers in the State, and the heads of practically all State departments There is no reason whatever for changing this policy at this time In such cases the Governor is also given the power of removal if

the department is not properly conducted, but in this case there is no such power to remove the State Athletic Commissioner, who happens to be the Comptroller

The act provides for a Chief Inspector at three thousand dollars, "and in addition thereto, such inspectors as shall be necessary who shall be compensated at the rate of ten dollars per day"

There is absolutely no limit to the expenditures that can be made under this act, and it can readily be made a source for the furnishing of numerous political jobs, all of which is detrimental to the public interest and burdensome to the taxpayers

The Comptroller has abundant duties without adding these, and I have no doubt he does not welcome this addition

The real head will necessarily be the Chief Inspector, who will provide the necessary jobs

If the present Boxing Commission is not honest and efficient, those facts should be disclosed and the Commission should be removed and others appointed in their places In the absence of that, the evident purpose of this bill seems to be to invoke again the modern "ripper" legislation, designed for nothing but political purposes

The bill is therefore disapproved

Respectfully submitted,

To the House of Assembly

The purpose of this bill is to permit trust companies to consolidate, and the act seems to provide for accomplishing that purpose

Section 11, however, reads as follows "Nothing herein contained shall authorize or empower the corporation into which the other corporation or corporations shall have been merged as herein provided to continue to conduct business at the location or locations of the office or offices established by said merged corporations"

According to this section the new corporation cannot continue to do business at the location of any of the corporations which became part of the merger The result is that, upon such a merger taking place, an entirely new location must be found I do not believe that this was intended by the bill, and I do believe that it would probably work great hardship, because the new corporation will not be able to use any of the banking houses of the merged corporations for this new purpose

ASSEMBLY NO 371

To the House of Assembly

This bill purports to validate and confirm deeds made by school districts where the grantee, or his heirs and assigns, have entered into possession and been in possession for at least twenty years

As no explanation has been made to me concerning the purpose of this bill and to what situation it applies, and whether or not any school district will be deprived of its rights, and being in the dark as to what this bill will accomplish, I disapprove of the same

Respectfully submitted,
GEORGE S SILZER,
Governor

A message was received from the Governor, by the hands of his Secretary, as follows

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
March 22d, 1923

ASSEMBLY NO 338

To the House of Assembly

I have not had an opportunity during the time within my command to thoroughly digest this bill

It has such far-reaching effect upon the relations between the depositor in a bank and the bank that I believe it will be in the

best interest of the public at large to veto this bill until such time as careful study can be made, and, if it is advisable, it can be enacted at the next session I do not believe that anybody will suffer by its not becoming a law at this time

It is therefore disapproved

Respectfully submitted,

SENATE CHAMBER,
Mr Speaker March 23d, 1923

I am directed by the Senate to inform the House of Assembly that the Senate has passed the following bill

Senate Bill No 291, entitled "An act to change the title of an act entitled 'A further supplement to an act entitled "An act entitled 'An act to regulate elections (Revision of 1898),' approved April fourth, one thousand eight hundred and ninety-eight," ' passed February twenty-eighth, one thousand nine hundred and twenty-three,"

The objections of the Governor thereto notwithstanding

In which the concurrence of the House of Assembly is requested

W H ALBRIGHT,

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,

SENATE NO 291

To the Senate

The purpose of this act is to attempt to correct the title to Chapter 9 of the Laws of 1923

The latter is the law which was passed over my veto and establishes bureaus of election in first class counties at a large expense to the taxpayers of those counties

This bill now before me is even more vicious than the original, because at the time of its passage the Legislature was fully informed as to the effect of the establishment of these bureaus There is absolutely no reason or justification for the passage of this bill, and it has been passed, in my judgment, against the wishes of practically the entire electorate of Hudson and Essex Counties It is only enacted so as to provide jobs at the expense of the taxpayers

The bill is therefore disapproved

Respectfully submitted,

GEORGE S SILZER,
Governor

To the Senate

I can see no reason for this constant tinkering with our election laws, which have been operating with reasonable success for some time

This bill repeals section 49 of the Act of 1921, under which any voter may go before the county board of elections and become registered, provided he made a reasonable effort to register and for some reason other than his own neglect or forgetfulness he failed of registration

I can see no reason whatever for barring any voter, under conditions of this kind, from going before a board of elections and having his name placed upon the rolls

The purpose of our election laws is to encourage our citizens to vote, and every opportunity should be given them to exercise their rights

This bill does just the contrary, and takes away from the voter his right and opportunity to vote What possible reason there could be for the passage of this bill I cannot understand

I therefore disapprove the bill

SENATE JOINT RESOLUTION NO 5

To the Senate

This resolution provides for an investigating commission, consisting of the President of the Senate and two Senators, and the Speaker of the House and two Assemblymen, the purpose being to investigate "the construction of bridges and the acquisition of lands for the approaches thereto," and the dealings of the State Highway in said matters

The Attorney-General is made counsel for the Commission, with the usual powers, and the sum of five thousand dollars is appropriated to carry the resolution into effect

On the third day of February, 1923, I directed the Attorney-General to investigate the sale of lands for the approaches to the Amboy Bridge, and the proceeding has been started by him to set the sale aside and to recover the overpayment made on that occasion

I believe that the Chancery proceedings furnish ample opportunity for getting all the facts that are necessary in order to set aside that sale If I did not think so I would sign this resolution, in order to give the necessary power

In view, however, that ample methods are provided, I see no necessity for this particular resolution, first, because it carries an appropriation of five thousand dollars, and second, because of the composition of the commission

Commissions of this kind, in order to accomplish real results, should be composed of those with the judicial temperament, and free from political or other bias

If such a commission should be authorized, and would carry with it a thorough investigation looking into the activities of those interested in patent paving, not only on bridges, but upon our roads in the various counties and at Trenton, I would sign such a resolution

For the reason above stated I disapprove this resolution

sand, and the result will be that if a man, through illness or other reason fails to register, he will be absolutely barred from his right of suffrage I cannot believe that it is the will of the people of New Jersey that any man shall be barred from voting where the failure to register has not been through any fault of his There has been a provision of this kind in our statutes for many years, and why it should suddenly be eliminated I do not understand

Senate No 23 prevents the courts from adding names to the registry lists and Senate 22 prevents application to the county boards to put names upon the lists The two together absolutely prevent a voter from being registered, even though he were ill or had other good reasons

STATE OF NEW JERSEY,
SENATE CHAMBER,
March 23d, 1923

Mr Speaker

I am directed by the Senate to inform the House of Assembly that the Senate has passed the following bill

Senate Bill No 233, entitled "An act to authorize the formation of companies for the purpose of constructing, maintaining and operating vehicular tunnels under the Hudson and Delaware rivers, and regulating the same,"

The objections of the Governor thereto notwithstanding

In which the concurrence of the House of Assembly is requested

WILLIAM H ALBRIGHT,
Secretary of the Senate

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
March 22d, 1923

SENATE NO 233

To the Senate

This bill authorizes the formation of companies for the purpose of constructing, maintaining and operating vehicular tunnels under the Hudson and Delaware rivers and the Kill von Kull by private enterprise

The bill authorizes the company to designate where the terminal points of the proposed tunnels are to be located, and the counties through which they are intended to be constructed

The bill evidently provides for the building of more than one

tunnel by one company, because provision is made in case the State takes them over

This being so, it is possible for one company to pre-empt the important locations for tunnels and whether they are built or not, they have a perpetual right to those locations

This would prevent other companies from coming in and building tunnels in those locations

It would also make it necessary that others who desire to build tunnels at these locations would have to purchase that right from the company or companies so pre-empting them There is no limitation in the bill as to the length of time during which a tunnel company would have to commence or finish the tunnel or tunnels

The franchise is perpetual and the limitation of fifty years, provided in paragraph four, only starts from the time the tunnel is completed

In order to properly protect the State, the bill should contain provisions, first, that any one company is limited to one definite location, second, that there should be a substantial sum deposited with the Secretary of State as evidence of good faith, third, that there should be a limitation of time to commence the work, on penalty of forfeiture, unless the time were extended by the Legislature, fourth, there should be a limitation of time to complete the work

The fixing of rates and the revision of the same from time to time should be left to the Utility Commission, at least until such time as it is taken over by a Federal tribunal

In section four the company is permitted to mortgage, among other things, its franchises This might lead to the same abuse that we now have to deal with in the case of the public utility corporations, where franchises might be mortgaged for a large and excessive amount, and it would then be impossible to reduce such inflated values This is a problem which has given us enough difficulty recently to warn us against permitting its repetition

I do not understand why, in paragraph four, line six, the following words appear, "In the case of any vehicular tunnel company in this State the amount of whose debt shall have been limited by special law, the written consent of the holders of at least two-thirds of all of its stock shall be obtained before such mortgage shall be executed" These words would seem to be absolutely foreign to this act unless its intention is to revive or give power to some vehicular tunnel company already existing and created by a special law It may be that there is such a

company, with special rights and privileges, whose powers, now dead, may be revived by this bill

Section nine provides that the State of New Jersey may take over the tunnels upon payment of the "Total costs thereof, of whatever nature, upon assumption of all obligations and liabilities of the vehicular tunnel company for the construction of such tunnels, with the approaches and appurtenances, plus fifteen per centum of such cost"

If it is deemed advisable that this bill should contain such a clause, and I believe it is, then the incurring of all costs should be under the supervision of the Utility Commission, and made a record of by them, in order that the State may know that it is paying proper costs, and nothing else, and all obligations issued should be under like regulation for the same reason

If this is not done, then these companies may load upon the enterprise such fictitious costs, such watered obligations, and such promotion costs as would assure them a tremendous and unwarranted profit If the State did not choose to pay this unwarranted cost, then it could not take over the tunnels

We would then find ourselves in a situation of being prevented from taking over the tunnel, and at the same time unable to regulate the rates

In view of our sorry experience in regulating public utilities within the State, after they have had their own way, I do not believe it advisable for the people of New Jersey to embark in any such undertaking as this without the protection which experience has shown us is necessary

I believe it of the utmost importance to provide additional facilities for crossing either over or under the Hudson river in order that the people of New Jersey can get to New York, and those from New York to New Jersey

I pointed out the importance of this in my inaugural message, and hope that something may be accomplished in order that we may attract to northern New Jersey the people and the capital from New York City

This, however, must be done in the right way and with the proper restrictions and legislation We must not permit our anxiety to give relief to tie our hands and so prevent the very things we are after

For these reasons the bill is disapproved

Respectfully submitted,

GEORGE S SILZER,

Governor

SENATE NO 286

To the Senate

The purpose of this bill, which is a companion bill to Senate No 151, is to permit cities of the third class to evade the present provisions relating to debt limits in such cities

The State has a fixed policy that cities shall limit the amount of their debt They found it advisable to raise that debt limit a year or two ago That policy is either good or bad, and ought to stand or fall on its merits It is good because it has been found necessary for so many years

If we permit every municipality that desires to evade the debt limit to come to the Legislature and have a bill passed for its particular purpose, it will not be long before the debt limit acts will have lost their usefulness It will not do to say that a city needs some particular thing at this time, and therefore is willing to exceed the debt limit What a city must do is to proceed cautiously and with the debt limit in mind, and having also in mind its future requirements By this procedure and the exercise of proper economy all its purposes will be accomplished

At the same time there will also be accomplished the very thing that the debt limit acts intend, namely, the reduction of the burden on the taxpayers

The argument which is made by comparison with boroughs and townships is not sound, because in the latter case there is a referendum to the people

For these reasons the bill is disapproved

SENATE NO 166

To the Senate

At the present time a limited divorce may be decreed for extreme cruelty

The purpose of this bill is to permit a decree of absolute divorce for extreme cruelty

It has never been the policy of the State of New Jersey to extend unnecessarily the grounds for the granting of an absolute divorce It has always been our thought and purpose to keep the family together whenever it is possible to do so

At the present time, in cases of extreme cruelty, the parties may be separated, and there is always an opportunity and a possibility of a reconciliation

If there is no reconciliation, or there are repeated acts of extreme cruelty, then our courts will eventually grant an absolute divorce on the ground of desertion, because the injured party is justified in leaving the other party in such cases

Viewing the matter, then, from the standpoint of the injured party as well as the good of the State, I believe it in the interest of both not to disturb the present law

I therefore disapprove the bill

SENATE CHAMBER,
March 23d, 1923

Mr Speaker

I am directed by the Senate to inform the House of Assembly that the Senate has passed the following bill

Committee Substitute for Senate Bill No 181, entitled "An act concerning the construction, reconstruction, or resurfacing of any State highway, county road or municipal road, and the award of contracts therefor,"

The objections of the Governor thereto notwithstanding

In which the concurrence of the House of Assembly is requested

W H ALBRIGHT,
Secretary of the Senate

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
March 22d, 1923

COMMITTEE SUBSTITUTE FOR SENATE NO 181

To the Senate

This is supposed to be an open specifications bill

Section 2 provides that the board may adopt specifications for more than one type of pavement and construction, and if more than one type is specified, bids may be asked for the types in the alternative

Section 3 provides that after bids are received, the board shall select the type of material or construction which the board considers most suitable for the work, and the award is made to the lowest bidder on the type selected

Under these two sections it is clearly possible to designate patented and unpatented types, and when the bids are in, to select the patented type There cannot be the slightest question about this

Paragraph four provides that when a patented paving is included in the specifications the municipal board shall also specify a nonpatented type in the specification, but the nonpatented type must be equivalent to the patented one

It is at this point where the difficulty will begin Irresponsible boards will quibble about this, and will say that one type is not equivalent to the other, *i e*, equal in value, and being unable to agree that the two types are equal in value, they will decide not to operate under paragraph four, because they find it impossible to do so Then, they will go back to paragraphs two and three and receive bids on the patented type of material This will defeat the very purpose of the act

Let us proceed further with the possibilities under paragraph four, and let us assume that the municipal board has agreed upon patented and nonpatented types and placed them in the specifications What must happen then?

Bids shall be asked for on the various types so specified and "the award shall be made to the lowest bidder on the *types* placed in competition"

Let me call attention to the fact at once that the section does not say that the contract shall be awarded to the one making the lowest bid of all those received

It does say that it shall be awarded to the lowest bidder on the *types* in competition The phraseology is obscure, to say the least, and I cannot understand why the word "types" is used all

through this section, unless it be to clearly draw the distinction between the lowest bid received and the lowest bid on the types

As I read this section, the award must be given to the lowest bidder on the types, so that, if there are two types, then the board must decide to give it to the lowest bidder on each type

Under paragraph four, patented and nonpatented types are allowed in the specifications The section, however, fails to state the manner of laying the alternate types of pavements, and it fails to state that the manner of laying the types should be similar This would permit an asphalt block pavement to be specified in competition with patented pavements The asphalt block, being composed of bituminous concrete, could be fairly classed with the patent types Asphalt block, however, is more expensive, and, necessarily, the patent type would have the lowest bid All of this would be known even before the specifications were drawn

Under section five unlimited discretion is left with the municipal body Usually, when a municipal body abuses its discretion and permits unfair competition, there is a court review to correct such conditions This section, however, has sought to do away with the court review, and vest the municipal body with absolute discretion

The last sentence in the bill reads "In this particular the judgment of the governing body shall be final" This means that it shall be final, and it also means that the court cannot review its exercise of discretion

It also means that a 3-inch asphalt block pavement could be put in competition with a 2-inch patented pavement In this way, unfair competition could be produced, and yet not be the subject of review

This section also provides that the base under the various types shall be of the *same general character,* but that the thickness may be different for one type than that for the other "irrespective of the thickness of the surface"

This being so, the board could specify the base to be 7 inches thick, and a patent paving of 2 inches could be laid on top of this, while a block pavement of 3 inches might be provided for, with the result that the patented paving would have to be a total of 9 inches, while that of the non-patented would be 10 inches, and the judgment of the governing body would be final

That this was the intent seems to be carried out by section 7, which provides that whenever patented or non-patented forms are put in competition, "the *width* of such pavements for each type shall be the same, and the extent in square yards of sur-

face of each type shall be the same" This emphasizes clearly the fact that it is not intended that each type shall have the same cubic content, and consequently lay the same amount of roads

In section 5, line 4, the following words are used, "and so far as the engineering conditions will permit surrounding the work" I do not know what the words "surrounding the work" may mean, or what the significance may be

I also note that the provision which provides for competition between types of pavements permits unbalanced bidding and prevents the form of bidding known as "percentage of engineer's estimate"

In section 6 it is provided that "where cement is bituminous in character * * * where variations are inevitable in the proper fluxing * * * or where the bituminous cement is subjected to mechanical oxidation," etc Under this section, together with section 8, blown asphalt is legalized, and if the blown asphalt did not comply with the requirements of the specifications of the State Highway Commission for the bituminous top used, it is doubtful if they could reject it

I also want to call attention to the provisions of the Federal Highway Act, especially Regulation 9, Section 3, which reads as follows

> "No part of the money apportioned under the act shall be used, directly or indirectly, to pay or to reimburse a State, county, or local subdivision for the payment of any premium or royalty on any patented or proprietary material, specification, process, or type of construction unless purchased or obtained on open actual competitive bidding at the same or a less cost than unpatented articles, or methods, if any, equally suitable for the same purpose"

What we must always have in mind in consideration of this bill is that when we have honest municipal boards giving contracts for public roads, we need have no fear whatever We would not even need to have laws or restrictions

It is only when we have corrupt boards to deal with that we need laws and restrictions

This act, then, has for its purpose the keeping within bounds public boards that are not honest and to compel them to provide for open competition

This bill does not do that, but, on the contrary, it will permit the same corrupt practices to continue where the officials are corrupt as we have experienced in the past

If I believed that this bill would accomplish any good whatever, or that it would improve upon present conditions I would be glad to sign it

I am unwilling, however, to perpetuate the present evils by signing this bill

I am satisfied that this bill would do just that thing, and that where corrupt boards existed the corrupt practices could continue

I am unwilling to fool the people into believing that this bill would do something for them I am sure that it would not

I say this with great diffidence, because I know that there are earnest men in the Legislature who believe that this bill will accomplish something, but who, I am sure, have not given it the study and thought necessary to analyze its terms and see the evils that will flow from it

Because the bill does nothing more than to continue present conditions with dishonest boards I am obliged to disapprove it

Respectfully submitted,

GEORGE S SILZER,

SENATE NO 184

To the Senate

This bill repeals the provision of the District Court Act which takes away from justices of the peace jurisdiction in several proceedings in cases where the defendant resides within the jurisdictional limits of the District Court
restored

It has been the policy of the State to strip justices of the peace, so far as may be possible, of their powers in civil causes There would seem to be no good reason why their powers should be I therefore disapprove the bill

SENATE NO 59

To the Senate

I have before me the following bills relating to State highways Assembly Nos 134 and 256, and Senate Nos 59, 66, 85, Committee Substitute for Senate Nos 104 and 110, 135, 136 and 247

Most of these bills are carelessly drawn, and some of them, if enacted, will destroy their purpose, because they have amended the wrong acts

The original act was that of 1917 This has been amended by Chapter 104, Laws of 1920, and Chapters 144 and 148 of the Laws of 1921

Some of these bills, by amending the Law of 1917, would destroy entirely what has been done by the amendments of 1920 and 1921

One result would be to undo the amendment of 1921, which provides for the locating of roads as approaches to the Delaware River Bridge and the Hudson River Tunnel

Another would cut out a part of Route No 6, running from Camden to Bridgeton and Salem, by way of Woodbury, Mullica Hill, Woodstown and Pole Tavern

Another has the effect of repealing the supplement of 1921, which carries the highway through to the tunnel entrance and the Camden city approach to the bridge

Some also affect the Lincoln Highway from Elizabeth to Trenton

I have already vetoed Assembly Bills Nos 48, 86 and 421 Altogether there have been twelve bills before me fixing or amending highway routes

I feel certain that these bills were not passed by reason of any thorough investigation that each member of the Legislature made of the particular bill before voting for its adoption I am sure, however, that all of these bills were passed, either because of indifference on the part of the members, or by way of exchange for some other route that the member might be interested in

This is a most unsatisfactory and expensive way of building State highways and should be discouraged

This power ought to reside in the State Highway Commission and not be the subject of legislative "log-rolling"

I have no doubt that there are among these bills routes that ought to be adopted I have had no opportunity, in the past five days, at my command, to make a thorough investigation in order to determine which routes were good and which were bad I am equally sure that the members of the Legislature did not make such an investigation

In my veto of Assembly No 86 I called attention to the fact that that bill aims to eliminate several miles from a route adopted by the Legislature a few years ago It is an apt illustration of what happens under this present method

I am vetoing all these bills, good and bad alike, because I believe it to be to the best interest of the State that this power be vested in the State Highway Commission Then, the Commission may hear, at length, what is to be said in favor of each route, make a satisfactory investigation, and then determine which routes are good and which are bad, and build routes accordingly

For these reasons I hereby disapprove Assembly Nos 134 and 256, and Senate Nos 59, 66, 85, Committee Substitute for 104 and 110, 135, 136 and 247

Secretary of the Senate

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
March 22d, 1923

SENATE NO 225

To the Senate

This bill provides first for the increase of the jurisdiction of the Small Cause Court

The whole trend of opinion of this State has been against any extension of the jurisdiction of the small cause court, and toward its entire abolition

This bill also provides for the increasing of fees in the justice's court, as a result of which fees might be larger than the amount sued for

At any rate, there is no demand for such increase and I do not think it should be made

This bill is therefore disapproved

Respectfully submitted,
GEORGE S SILZER,
Governor

[SEAL]

Attest
FREDERIC M P PEARSE,
Secretary to the Governor

The Senate message with the Governor's veto was taken up, and

STATE OF NEW JERSEY,
SENATE CHAMBER,
March 23d, 1923

Mr Speaker

I am directed by the Senate to inform the House of Assembly that the Senate has passed the following bill

Senate Bill No 135, entitled "An act to amend an act entitled 'An act to establish a State Highway System and to provide for the improvement, betterment, reconstruction, resurfacing, maintenance, repair and regulation of the use thereof, approved March thirteenth, one thousand nine hundred and seventeen,' which amendment was approved April sixth, one thousand nine hundred and twenty,"

The objections of the Governor thereto notwithstanding

In which the concurrence of the House of Assembly is requested

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,

SENATE NO 135

To the Senate

I have before me the following bills relating to State highways Assembly Nos 134 and 256, and Senate Nos 59, 66, 85, Committee Substitute for Senate 104 and 110, 135, 136 and 247

Most of these bills are carelessly drawn and some of them, if enacted, will destroy their purpose, because they have amended the wrong acts

The original act was that of 1917 This has been amended by Chapter 104, Laws of 1920, and Chapters 144 and 148 of the Laws of 1921

Some of these bills, by amending the Law of 1917, would destroy entirely what has been done by the amendments of 1920 and 1921

One result would be to undo the amendment of 1921, which provides for the locating of roads as approaches to the Delaware River Bridge and the Hudson River Tunnel

Another would cut out a part of Route No 6, running from Camden to Bridgeton and Salem, by way of Woodbury, Mullica Hill, Woodstown and Pole Tavern

Another has the effect of repealing the supplement of 1921, which carries the highway through to the tunnel entrance and the Camden city approach to the bridge

Some also affect the Lincoln Highway from Elizabeth to Trenton

I have already vetoed Assembly Bills Nos 48, 86 and 421 Altogether, there have been twelve bills before me fixing or amending highway routes

I feel certain that these bills were not passed by reason of any thorough investigation that each member of the Legislature made of the particular bill before voting for its adoption I am sure, however, that all of these bills were passed, either because of indifference on the part of the members, or by way of exchange for some other route that the member might be interested in

This is a most unsatisfactory and expensive way of building State highways and should be discouraged

This power ought to reside in the State Highway Commission and not be the subject of legislative "log-rolling"

I have no doubt that there are among these bills routes that ought to be adopted I have had no opportunity, in the past five days at my command, to make a thorough investigation in order to determine which routes were good and which were bad I am equally sure that the members of the Legislature did not make such an investigation

In my veto of Assembly No 86 I called attention to the fact that that bill aims to eliminate several miles from a route adopted by the Legislature a few years ago It is an apt illustration of what happens under this present method

I am vetoing all these bills, good and bad alike, because I believe it to be to the best interest of the State that this power be vested in the State Highway Commission Then, the Commission may hear, at length, what is to be said in favor of each route, make a satisfactory investigation, and then determine which routes are good and which are bad, and build roads accordingly

For these reasons I hereby disapprove Assembly Nos 134 and 256, and Senate Nos 59, 66, 85, Committee Substitute for 104 and 110, 135, 136 and 247

Respectfully submitted,

GEORGE S SILZER,
Governor

Attest

FREDERIC M P PEARSE,
Secretary to the Governor

The Senate message with the Governor's veto was taken up and

Senate Bill No 135, entitled "An act to amend an act entitled 'An act to establish a State Highway System and to provide for the improvement, betterment, reconstruction, resurfacing, maintenance, repair and regulation of the use thereof, approved March thirteenth, one thousand nine hundred and seventeen,' which amendment was approved April sixth, one thousand nine hundred and twenty,"

Was taken up

Mr Corio moved that the same do pass, the objections of the Governor to the contrary notwithstanding

Which motion, the ayes and nays being called, was carried by the following vote

In the affirmative were—

Messrs Adams, Barkman, Blizzard, Campbell, Chamberlin, Coles, Compton, Corio, Dater, De Lorenzo, Evans (Speaker), Gibbs, Hanson, Harbourt, Hershfield, Hoffman, Klein, Loprete, Lyons, McCullough, Menninger, Muir, Negus, North, Powell, Randolph, Robbins, Roegner, Rowland, Schermerhorn, Stevens, Stiles, Strahan, Todd, Williams—35

In the negative were—

Messrs Barison, Brown, Cieciuch, Crawford, DeVoe, Eastmead, George, Marshall, Moran—9

Ordered, that the Speaker sign the said bill, and that the Clerk carry it to the Senate and inform the Senate that the House of Assembly has passed the same, the Governor's objections thereto notwithstanding

Pursuant to Senate Joint Resolution No 5, the Speaker appointed Adrain G Chamberlin, of Essex county, and Frank H Welsh, of Hunterdon county, members from the House of Assembly to serve on the commission therein provided

A message was received from the Senate, by the hands of its Secretary, as follows

STATE OF NEW JERSEY,
SENATE CHAMBER,
March 23d, 1923

Mr Speaker

I am directed by the Senate to inform the House of Assembly that the Senate has passed the following resolution

Resolved, That the hour of adjournment having arrived, the Secretary inform the House of Assembly that the Senate is now ready to adjourn *sine die,* and awaits the presence of the House of Assembly in the Senate Chamber

W H ALBRIGHT,
Secretary of the Senate

The Committee appointed to wait upon the Governor and inform him that the House of Assembly was ready to adjourn *sine die,* and ascertain if he had any further communications to

transmit to the House, reported that the Governor informed them that he had nothing further for the consideration of the House

The Committee was thereupon discharged

The Speaker announced that the hour fixed by concurrent resolution for final adjournment of both Houses of the One Hundred and Forty-seventh Legislature having arrived, he declared the House of Assembly adjourned without day

The members of the House of Assembly, preceded by the Speaker and the Clerk, then proceeded to the Senate Chamber and, after the announcement by the Speaker that, in accordance with his duties, he had adjourned the House of Assembly without day, the President of the Senate declared the Session of the One Hundred and Forty-seventh Legislature of New Jersey adjourned *sine die*

Disposition of Bills and Joint Resolutions Delivvered to the Governor During the One Hundred and Forty-seventh Session of the New Jersey Legislature.

Convened, Tuesday, January 9th, 1923, Adjourned, Friday, March 23d, 1923 Duration, eleven weeks

---

During the session a total of seven hundred and fifty-four bills, fifteen joint resolutions and four concurrent resolutions were introduced Of that total two hundred and fifty-three bills and four joint resolutions, or a trifle less than one-third of the total number, are recorded as having passed both houses and been delivered to the Executive Department One hundred and seventy one of the total number received met with the Governor's approval and were signed Two more—the appropriation bills—were filed by the Governor with the Secretary of State without his approval, his reason therefor being that he was not afforded adequate time to give such important measures proper consideration

Sixty-eight bills were vetoed and of these thirty-two were passed over the Governor's veto, making with the one hundred and seventy-one signed and two filed bills, two hundred and five laws enacted during the session

In addition the Governor received four joint resolutions, one of which he approved and three which were vetoed One of the latter was passed over the Governor's veto, making two joint resolutions There were also passed three concurrent resolutions, which do not come to the Governor, two in the Senate and one in the House of Assembly

Of the bills which eventually became laws, ninety one originated in the Senate and one hundred and fourteen in the House of Assembly Thirty eight of the vetoed bills originated in the Senate, eighteen of the latter subsequently becoming laws, and thirty in the House of Assembly, fourteen of which were passed over the Governor's veto Apart from the bills vetoed the Governor found it necessary to have recalled, while the Legislature was in session, a total of nine bills, one of which originated in the Senate and eight in the house, five of which were later returned and became laws Eight other bills to which Executive objections were found were filed in the library due to the fact that the Legislature was not in session when the five-day period given the Governor to consider those bills had elapsed Six of those eight originated in the House and two in the Senate

During the first eight weeks of the session the total number of bills presented to the Governor was thirty-six, eighteen from each House, and the remaining two hundred and seventeen bills submitted came in during the closing hours
