Notes1: The section entitled Air Transport Association Carriers is included to give a comparison between Port Authority Airport traffic growth and aggregate growth as measured by the majority of the U.S. carrier industry.

Note2: The page 2 Access Mode: residents report excludes passengers arriving by hotel courtesy vehicles, helicopters, and the miscellaneous "other" category. The airline OAG summary uses schedules effective for the week in the middle of the month being summarized. "Flights (daily) refers to the daily-each-way average flights which can be thought of as 1 directional departing or arriving flights.

Aviation Department

With a growth of 10.2%, August monthly passenger traffic experienced the fastest growth since May 2005. Reaching 10.8 million, it set a new monthly record exceeding the previous 10.7 million record, held since August 2007. International grew 11.1% and set a new monthly record by exceeding 4 million threshold for the first time. Domestic traffic also grew 9.7%, placing overall YTD August traffic growth to 4.7%. Growth was slightly exaggerated because last year's traffic was depressed by hurricane Irene. Cargo experienced its first positive growth this year with a gain of 2.2%, due primarily to Christmas- related shipment. Due to previous weakness YTD August cargo is down 6.7%.
