Board of Trustees
The Police and Firemen's Retirement System
of New Jersey
Trenton, New Jersey

Members of the Board:

The law governing the operation of the Police and Firemen's Retirement System of New Jersey provides for annual actuarial valuations of the System. The results of the July 1, 2012 valuation are submitted in this report, which also includes a comparison with the preceding year's valuation.

The valuation shows the financial condition of the System as of July 1, 2012 and gives the basis for determining the recommended annual contribution for the fiscal year ending June 30, 2014.

As required under Chapter 255, P.L. 1944, experience studies are performed once in every three year period. The valuation was prepared on the basis of the demographic assumptions that were determined from the July 1, 2007 – June 30, 2010 Experience Study and approved by the Board of Trustees at the November 14, 2011 Board meeting. The Treasurer has recommended a change in the economic assumptions used for the valuation. The rate of investment return has been revised from 7.95% per annum to 7.90% per annum. The assumed salary increases have been reduced (the select period has been extended for five years and the ultimate rate has been decreased by 0.25%). These assumptions will remain in effect until such time the Board or Treasurer recommends revised assumptions.

The valuation reflects the State contributions under Chapter 1, P.L. 2010. The fiscal year 2012 recommended State pension contribution of \$375,234,766 has been reduced to \$53,606,000. The fiscal year 2013 recommended State pension contribution of \$393,637,547 has been reduced to \$112,467,869. This amount may be subject to change per the requirements of the State's fiscal year 2013 spending plan. Lastly, the valuation reflects the provisions of Chapter 1, P.L. 2010 which allows the State Treasurer to reduce the recommended State pension contribution for the 2014 fiscal year to no less than 3/7th of the recommended contribution.

The report does not take into account any changes in U.S. equity prices and bond yields that have occurred after the valuation date. Taking these into account may significantly change the market and actuarial value of assets shown. The effect of these events on any funded ratios shown, and on Retirement System calculations, is not known. Retirement System funding and financial accounting rules generally prohibit reflection of changes in assets and underlying economic conditions that occur after the valuation date.

To the best of our knowledge, this report is complete and accurate. The valuation was performed by, and under the supervision of, independent qualified actuaries who are members of the American Academy of Actuaries with experience in performing valuations for public retirement systems.

The valuation was prepared in accordance with the principles of practice prescribed by the Actuarial Standards Board and generally accepted actuarial procedures and methods. The calculations are based on the current provisions of the System, and on actuarial assumptions that are individually and in the aggregate internally consistent and reasonable based on the actual experience of the System.

The Table of Contents, which follows, highlights the Sections of the Report.

Respectfully submitted,

REPORT ON THE ANNUAL
VALUATION OF
THE POLICE AND FIREMEN'S RETIREMENT SYSTEM
OF NEW JERSEY
PREPARED AS OF JULY 1, 2012

SECTION I - SUMMARY OF KEY RESULTS

The Police and Firemen's Retirement System of New Jersey was established effective July 1, 1944. Each year an actuarial valuation of the assets and liabilities of the System is made to determine the appropriate level of contributions. This report, prepared as of July 1, 2012, presents the results of the annual actuarial valuation of the Fund.

For convenience of reference, the principal results of the valuation and a comparison with the preceding year's results are summarized below.

* Includes receivable contributions of \$112,467,869 as of July 1, 2012 and \$53,604,967 as of July 1, 2011, respectively. The amounts also include the present value of receivable ERI contributions of \$16,583,726 as of July 1, 2012 and \$17,435,575 as of July 1, 2011, respectively. The amounts also include the present value of Chapter 19, P.L. 2009 contribution deferrals of \$183,848,631 as of July 1, 2012 and \$187,104,087 as of July 1, 2011, respectively.

** The contribution amounts were calculated assuming payment on 7/1/13 and 7/1/12 respectively. Interest should be added from this date to the actual payment dates.

[#] The accrued liability contribution does not include ERI payments and Local employer contributions due to Chapter 19, P.L. 2009 deferrals.

^{##} The fiscal year 2013 State recommended contribution could be subject to adjustment in accordance with the provisions of Chapter 1, P.L. 2010. The recommended State contributions for the 2013 fiscal year have been reduced from \$393,637,547 to \$112,467,869. This amount may be subject to change per the requirements of the State's fiscal year 2013 spending plan.

^o The fiscal year 2014 State recommended contribution could be subject to adjustment in accordance with the provisions of Chapter 1, P.L. 2010. The recommended State contributions for the 2014 fiscal year have been reduced from \$398,052,381 to \$170,593,879. This amount may be subject to change per the requirements of the State's fiscal year 2014 spending plan.

The major benefit and contribution provisions of the statute as reflected in the valuation are summarized in Appendix A. Included in this valuation are the provisions of the following legislation:

- The valuation reflects the final State contribution under Chapter 1, P.L. 2010 for fiscal year 2012 which allowed the State Treasurer to reduce the State normal and accrued liability contributions for fiscal year 2012 of \$375,234,766 to \$53,606,000. (This amount excludes the premium paid to the Non-Contributory Insurance Fund of \$5,640,203 for the lump sum death benefits.)
- The valuation reflects the funding provisions of Chapter 1, P.L. 2010. Chapter 1, P.L. 2010 allows the State Treasurer to phase in to the full recommended pension contribution. The State would be in compliance with its funding requirement provided the State makes a payment of at least 1/7th of the full contribution, as computed by the actuaries, in the State fiscal year commencing July 1, 2012 and makes a payment in each subsequent fiscal year that increases by at least an additional 1/7th until payment of the full contribution is made in the seventh fiscal year and thereafter. Therefore, the fiscal year 2013 recommended State pension contribution of \$393,637,547 has been reduced to \$112,467,869 and has been recognized as a receivable contribution for purposes of this valuation. (This amount excludes the estimated premium paid to the Non-Contributory Insurance Fund of \$8,648,000 for lump sum death benefits.)
- Chapter 19, P.L. 2009 provides that the State Treasurer will reduce for Local employers the normal and accrued liability contributions to 50 percent of the amount certified for fiscal year 2009. This unfunded liability will be paid by the Local employers in level annual payments over a period of 15 years with the first payment due in the fiscal year ending June 30, 2012. The unfunded liability will be adjusted by the rate of return on the actuarial value of assets. The legislation also provides that a Local employer may pay 100 percent of the recommended contribution for fiscal year 2009. Such an employer will be credited with the full payment and any such amounts will not be included in their unfunded liability. In addition, certain employers who were eligible to defer 50% of their fiscal year 2009 recommended contributions but instead paid 100% of the 2009 recommended contributions are

permitted to elect to defer 50% of their recommended 2010 fiscal year contributions. This unfunded liability will be paid by the Local employers in level annual payments over a period of 15 years with the first payment due in the fiscal year ending June 30, 2012. The unfunded liability will be adjusted by the rate of return on the actuarial value of assets.

- The valuation reflects the unauthorized early retirement incentive programs offered by certain Local employers. The additional liability incurred by the System due to these programs is included as a receivable contribution.

There are no other changes to the benefit and contribution provisions since the previous valuation.

As required under Chapter 255, P.L. 1944, experience studies are performed once in every three year period.

The valuation was prepared on the basis of the demographic assumptions that were determined from the July 1, 2007 – June 30, 2010 Experience Study and approved by the Board at the November 14, 2011 Board meeting. The Treasurer has recommended a change in the economic assumptions used for the valuation.

The rate of investment return has been revised from 7.95% per annum to 7.90% per annum. The assumed salary increases have been reduced (the select period has been extended for five years and the ultimate rate has been decreased by 0.25%). These assumptions will remain in effect for valuation purposes until such time the Board or Treasurer recommends revised assumptions.

There were no other changes to the actuarial assumptions and methods used in the prior valuation. The actuarial assumptions and methods used for valuing the Fund are summarized in Appendix B.

The combination of the plan provisions, actuarial assumptions and member and beneficiary data is used to generate the overall recommended level of employer contributions. The recommended contribution schedule is summarized in Sections III (H) and III (I).

The valuation generates a balance sheet which summarizes in some detail the total present and prospective assets and liabilities of the Fund. A summary comparison of the balance sheets as of July 1, 2012 and

July 1, 2011 is set forth in the following table. The allocation of assets among the various investment alternatives is shown in graphic form on page 6.

SECTION IV - COMMENTS CONCERNING THE VALUATION

The variation in liabilities and contributions reflects the Fund's actual experience during the year. The Plan realized a net actuarial loss during the past year, primarily a result of the investment return, which was less than that expected (4.71% on an actuarial value basis, rather than the 7.95% expected for the period July 1, 2011 to June 30, 2012) and a net actuarial experience gain.

The following shows the development of the actuarial experience, identifies the major experience components and discusses the impact of the unfunded liability on various funded ratios.

A. Calculation of Net Actuarial Experience

1.	Unfunded Accrued Liability as of July 1, 2011	\$	7,680,220,528
2.	Normal Cost as of July 1, 2011		738,366,638
3.	Interest on (1) and (2) at 7.95%		669,277,680
4.	Actual Members' Contributions		374,688,165
5.	Expected Employer Contribution		1,143,666,258
6.	Expected interest on Members' contributions at 7.95%		<u>14,893,855</u>
7.	Expected Unfunded Accrued Liability as of July 1, 2012 = (1) + (2) + (3) - (4) - (5) - (6)	\$	7,554,616,568
8.	Change in Unfunded Accrued Liability due to phase-in provisions of Chapter 1, P.L. 2010 for fiscal year 2013	\$	281,169,678
9.	Change in Unfunded Accrued Liability due to Chapter 19 adjustments for actuarial asset loss	\$	(5,260,854)
10.	Change in Unfunded Accrued Liability due to the Revised Rate of Investment Return and Salary Scale Assumptions	\$	(150,622,578)
11.	Actual Unfunded Accrued Liability as of July 1, 2012	\$	8,045,068,674
12.	Actuarial (gain)/loss = (11) - (7) - (8) - (9) - (10)	\$	365,165,860

B. Components of Actuarial Experience

1.	Investment (Gain)/Loss	\$	640,359,684
2.	Other net (Gain)/Loss, including changes in employee data		<u>(275,193,824)</u>
3.	Total Actuarial (Gain)/Loss	\$	365,165,860

C. Funded Ratios

The following table presents the System’s funded ratios based on the actuarial value of assets (including receivables) and market value basis (including receivables).

	June 30, 2012	June 30, 2011	Change
<u>Actuarial Value of Assets*</u>			
State	53.1%	55.3%	-2.2%
Local Employers	77.8%	78.0%	-0.2%
Total System	74.6%	75.1%	-0.5%
<u>Market Value of Assets</u>			
State	45.4%	49.5%	-4.1%
Local Employers	69.6%	71.9%	-2.3%
Total System	66.6%	69.1%	-2.5%

* Statutory funded ratio

For purposes of Chapter 78, P.L. 2011, the “target funded ratio” is 75.714% and 76.428% for June 30, 2011 and June 30, 2012, respectively. The State’s statutory funded ratio is 55.3% and 53.1% as of June 30, 2011 and June 30, 2012, respectively. Therefore, the State’s statutory funded ratio did not reach the “target funded ratio” for June 30, 2011 and remained below the “target funded ratio” for June 30, 2012. The Local employers’ statutory funded ratio is 78.0% and 77.8% as of June 30, 2011 and June 30, 2012, respectively. Therefore, the Local employers’ statutory funded ratio reached the “target funded ratio” for June 30, 2011 and remained above the “target funded ratio” for June 30, 2012.

There is a difference in the change on an actuarial value basis since the actuarial value smoothes the investment (gains)/losses over time. Since July 1, 2000, the System’s funded ratio on a market value basis has decreased by 47.6% (67.7% for State and 44.8% for Local). This decrease is primarily due to investment losses experienced over the period, contributions less than the GASB Annual Required Contribution, the increase in benefits due to Chapter 428, P.L. 1999, Chapter 86, P.L. 2001 and Chapter 318, P.L. 2001, and the strengthening of actuarial assumptions.

As of June 30, 2012, the total System market value of assets is greater than the total actuarial liability attributable to retirees. If the assets contained in the Annuity Savings Fund (ASF) of \$3,189,883,102

(\$382,394,415 for State and \$2,807,488,687 for Local) are excluded, the funded ratio of the remaining market value of assets to the actuarial accrued liability for retirees is 93.4% (59.8% for State and 98.3% for Local).

As of June 30, 2012, the ratio of market value of assets to the prior year's benefit payment is 11.6 (7.9 for State and 12.1 for Local). This is a simplistic measure of the number of years that the assets can cover benefit payments, excluding future increases in those payments, employer and member contributions, and investment income. The System ratio decreased by 8.7% (15.1% for State and 7.6% for Local) from the previous year's ratio of 12.7 (9.3 for State and 13.1 for Local). If ASF assets are excluded, since they represent accumulated contributions from active and inactive members, the ratio is 9.8 (6.3 for State and 10.3 for Local).

The valuation also reflects costs attributable to the following legislations:

Chapter 204, P.L. 1989

The provisions of Chapter 204 allowed employees with titles, which were previously excluded from PFRS membership to enter the Plan. Each employer is required to contribute any additional contribution necessary to fund any unfunded liability arising from Chapter 204. The valuation reflects the additional accrued liability for three State locations and fifteen Municipality and Local Groups locations with certain employees participating in the Fund under the provisions of this legislation. Appendix C lists all applicable locations and the required contributions.

Chapter 511, P.L. 1991

The provisions of Chapter 511 increased the retirement benefit for a spouse of a retiree from 35% to 50% of the retiree's average final compensation. This law also raised the minimum annual spouse's benefit from \$1,600 to \$4,500 for benefits granted prior to January 14, 1992.

Chapter 511 required that the normal cost and accrued liability contribution attributable to this chapter be separately determined. As a result of Chapter 115, P.L. 1997, the accrued liability contribution attributable to Chapter 511 was eliminated at that time. However, because of the reductions (and anticipated reductions) in the required State contributions for fiscal years 2004 through 2013 due to the various Appropriation Acts and Chapter 1, P.L. 2010, the remaining required contributions, which were not paid have been set up as an unfunded accrued liability attributable to Chapter 511. The following summarizes the applicable contribution rates for the current and previous valuations:

Chapter 511 Contribution Rate	June 30, 2012	June 30, 2011
Normal Cost	2.712%	2.699%
Accrued Liability	<u>4.023</u>	<u>3.633</u>
Total Rate	6.735%	6.332%

Chapter 247, P.L. 1993 and Chapter 201 P.L. 2001

Chapter 247 requires the State to pay the difference between the PFRS normal cost rate and the PERS normal cost rate for certain members who transferred into PFRS as of January 1, 1992 or later. In addition, the law requires the State to pay the “System” unfunded accrued liability contribution for Municipalities and Local Groups that transferred into PFRS on and after January 1, 1992 without past service. The following summarizes the number of active employees affected, the applicable contribution rates, and the Chapter 247 contributions for the current and previous valuations:

Chapter 247	June 30, 2012	June 30, 2011
Number of Active Employees	422	504
<u>Contribution Rates:</u>		
Normal Cost	0.062%	0.066%
Accrued Liability	<u>2.130%</u>	<u>2.025%</u>
Total Rate	2.192%	2.091%
<u>Contributions:</u>		
Normal Cost	\$ 322,888	\$ 349,703
Accrued Liability	<u>11,020,879</u>	<u>10,654,228</u>
Total Contribution	\$ 11,343,767	\$ 11,003,931

Chapter 201, P.L. 2001 made changes to Chapter 247, P.L. 1993 with respect to the benefits payable to members who transferred from PERS to PFRS as a result of the Chapter 247 legislation. The resulting increase in the unfunded accrued liabilities due to the increased benefits was fully funded by the recognition of additional market value surplus in the determination of the actuarial value of assets for the July 1, 1999 valuation. However, because of the reductions (and anticipated reductions) in the required State contributions for fiscal years 2004 through 2013 due to the various Appropriation Acts and Chapter 1, P.L. 2010, the remaining required contributions which were not paid have been added to the Chapter 247 unfunded accrued liability and will be paid off by the State in future contributions.

Chapter 59, P.L. 1999, Chapter 126, P.L. 2000 and Chapter 130, P.L. 2003

Chapter 59, P.L. 1999 authorizes municipalities, counties and other local units of government that enter into agreements to provide governmental services on a joint or consolidated basis, municipalities that join together to establish a new consolidated municipality, or school districts that have merged with one or more other school districts due solely to a municipal consolidation, to offer incentive programs for retirement or termination of employment for employees affected by the consolidation agreements. “County ERI Section 44” of Chapter 126, P.L. 2000 permitted local units to offer early retirement or termination incentives to certain employees of county governing bodies. Chapter 130, P.L. 2003 extended an Early Retirement Incentive Program similar to that offered by the State under Chapter 23,

P.L. 2002 to members of Local employer locations. Appendix G lists all applicable locations and summarizes the contribution requirement under Chapter 59, Chapter 126 and Chapter 130.

Chapter 8, P.L. 2000

Chapter 8, P.L. 2000 required that, if valuation assets are insufficient to fund the normal cost and accrued liability costs attributable to Chapter 428, P.L. 1999, the contribution required to fund these costs for the State and other employers shall be paid by the State. For both the July 1, 2011 and July 1, 2012 valuations, valuation assets were not sufficient to fund the costs attributable to Chapter 428. In addition, because of the reductions (and anticipated reductions) in the required State contributions for fiscal years 2004 through 2013 due to the various Appropriation Acts and Chapter 1, P.L. 2010, the remaining required contributions which were not paid have been added to the Chapter 428 unfunded accrued liability and will be paid off by the State in future contributions. The following chart summarizes the applicable contribution rates and the Chapter 428 contributions for the current and previous valuations:

Chapter 428	June 30, 2012	June 30, 2011
<u>Contribution Rates:</u>

Total Contribution	\$ 65,539,743	\$ 72,153,055

Chapter 86, P.L. 2001

Chapter 86, P.L. 2001 amended the active death benefits provided to a beneficiary of a member who died in active duty on or after January 1, 1998 and before January 18, 2000. The law required an eligible beneficiary to apply for the increased benefits within 90 days of enactment and return the member's

aggregate contributions to the System. The State is liable for all costs to the System attributable to this law and these costs have been included in the Chapter 428 accrued liability contributions.

Chapter 318, P.L. 2001

Chapter 318, P.L. 2001 amended the active death benefits provided to a beneficiary of a member with 10 or more years of service who died in active service on or after June 1, 1995 and before January 1, 1998 and whose beneficiary had, on May 1, 2001, an appeal of a denial of a benefit related to death in the line of duty pending before the Board of Trustees. The law requires that the appeal be withdrawn or denied and that an eligible beneficiary apply for the increased benefits and return the member's aggregate contributions received. The State is liable for all costs to the System attributable to this law and these costs are also included in the Chapter 428 accrued liability contributions.

Chapter 19, P.L. 2009

Chapter 19, P.L. 2009 provides that the State Treasurer will reduce for Local employers the normal and accrued liability contributions to 50 percent of the amount certified for fiscal years 2009. This unfunded liability will be paid by the Local employers in level annual payments over a period of 15 years with the first payment due in the fiscal year ending June 30, 2012. The unfunded liability will be adjusted by the rate of return on the actuarial value of assets. The legislation also provides that a Local employer may pay 100 percent of the recommended contribution. Such an employer will be credited with the full payment and any such amounts will not be included in their unfunded liability. In addition, Local employers who were eligible to defer 50% of their fiscal year 2009 recommended contribution but instead paid 100% of the fiscal year 2009 employer contribution may elect to defer 50% of their fiscal year 2010 contribution. The resulting unfunded liability will be paid by the Local employer in level annual payments over a period of 15 years with the first payment due in the fiscal year ending June 30, 2012. The unfunded liability will be adjusted by the actuarial rate of return on the actuarial value of assets.

Chapter 1, P.L. 2010

Chapter 1, P.L. 2010 amended the definition of Compensation and Final Compensation for members hired on or after May 22, 2010. Compensation for such members is to be limited to the annual maximum wage contribution base for Social Security pursuant to the Federal Insurance Contribution Act. In addition, Final Compensation has been changed to the average annual compensation of a member for the three fiscal years providing the largest benefit. In addition, Chapter 1, P.L. 2010 allows the State Treasurer to reduce the recommended contribution for the 2012 fiscal year to no less than 1/7th of the recommended amount. Each subsequent year the amount will be increased by at least 1/7th with the full recommended contribution payable in the seventh fiscal year and thereafter.

Chapter 78, P.L. 2011

Chapter 78, P.L. 2011 increases member contributions from 8.5% to 10.0% of compensation. In addition, Chapter 78, P.L. 2011 suspends cost of living adjustments for all current and future retirees and beneficiaries until reactivated as permitted by law; however, Chapter 78, P.L. 2011 does not reduce the benefits for cost of living adjustments that were made in prior years. In addition, for members hired after June 28, 2011 the special retirement benefit is changed to 60% of final compensation at 25 years of service plus 1% of final compensation for each year of service over 25 years. The maximum retirement benefit is 65% of final compensation. Beginning with the July 1, 2010 actuarial valuation, the accrued liability contribution shall be computed so that if the contribution is paid annually in level dollars, it will amortize the unfunded accrued liability over an open 30 year period. Beginning with the July 1, 2018 actuarial valuation, the accrued liability contribution shall be computed so that if the contribution is paid annually in level dollars it will amortize the unfunded accrued liability over a closed 30 year period (i.e., for each subsequent actuarial valuation, the amortization period will decrease by one year.) Beginning with the July 1, 2028 actuarial valuation when the remaining amortization period reaches 20 years, any increase or decrease in the unfunded accrued liability as a result of actuarial losses or gains for subsequent valuation years shall serve to increase or decrease, respectively, the amortization period for the unfunded accrued

liability, unless an increase in the amortization period will cause it to exceed 20 years. If an increase in the amortization period as a result of actuarial losses for a valuation year would exceed 20 years, the accrued liability contribution shall be computed for that valuation year using a 20 year amortization period.

SECTION V - ACCOUNTING INFORMATION

Statement No. 5 of the Governmental Accounting Standards Board, issued November 1986, established standards of disclosure of pension information by public retirement systems. Statement No. 25 of the Governmental Accounting Standards Board, issued November 1994, established financial reporting standards for defined benefit pension plans and for the notes to the financial statements of defined contribution plans of state and local governmental liabilities and superseded Statement No. 5 effective for periods beginning after June 15, 1996. Statement No. 27, Accounting for Pensions by State and Local Governmental Employers superseded Statement 5 for employers participating in pension plans and is effective for periods beginning after June 15, 1997. Statement No. 50, Accounting for Pensions by State and Local Governmental Employers amends the note disclosure and required supplementary information (RSI) of Statements No. 25 and No. 27 to conform with applicable changes adopted in Statements No. 43 and 45 for Postemployment Benefit Plans other than Pension Plans. Statement No. 50 is intended to improve the transparency of reported information about pensions by State and Local governmental plans and employers. Statement No. 50 is effective for periods beginning after June 15, 2007.

Chapter 92, P.L. 2007 states that the System shall use consistent and generally accepted actuarial standards as established by GASB for the purpose of determining asset values, obligations and employer contributions. However, the System's contribution requirements, which are defined in NJ State statute, differ from the GASB disclosure requirements, which are included in this report. Also, current budgetary practices do not assess interest on contributions to reflect payment after the start of the fiscal year to the date paid. As a result, the System's funding contribution will not be the same as the annual required contribution (ARC) determined under GASB.

The information required by Statements No. 25, No. 27 and No. 50 is presented in the following tables. These include the development of the Annual Required Contribution (ARC) as of June 30, 2014, the Schedule of Funding Progress, the Schedule of Employer Contributions and the required Additional Information.

* The employer contribution schedule reflects the portion of Local Employer contributions payable by the State in accordance with Chapters 109, 247, 511, 428, 86 and 318.

**The State fiscal year 2009 contribution of \$276,862,531 has been reduced to \$20,014,342 in accordance with the provisions of the Appropriation Act for fiscal year 2009, the fiscal year 2010 contribution of \$306,912,478 has been reduced to \$7,326,383 to reflect the provisions of the Appropriation Act for fiscal year 2010, the fiscal year 2011 contribution of \$347,216,900 has been reduced to \$7,629,519 in accordance with the provisions of the Appropriation Act for fiscal year 2011. The State fiscal year 2012 recommended contribution of \$383,337,766 has been reduced to \$59,246,203, to reflect the provisions of Chapter 1, P.L. 2010. The State fiscal year 2013 recommended contribution of \$402,285,547 has been reduced to \$121,115,869, to reflect the provisions of Chapter 1, P.L. 2010. The State fiscal year 2014 recommended contribution of \$405,328,781 has been reduced to \$177,869,879, to reflect the provisions of Chapter 1, P.L. 2010. The fiscal year 2013 and 2014 amounts may be subject to change per the requirements of the State's fiscal year 2013 and 2014 spending plans.

SECTION VI - LEVEL OF FUNDING

Although the value of accrued benefits and the funding ratios shown in the previous section are required for the State's financial statements, it is instructive to also look at these values under an alternative approach. For this purpose, we are presenting liabilities determined on a Financial Accounting Standards Board Statement No. 87 Accumulated Benefit Obligation (ABO) basis. This is the same approach as GASB Statement No. 5 except that no assumption is made as to future salary increases.

As in the case of the Governmental Accounting Standard Board Statement No. 5, the actuarial present value of vested and non-vested accrued benefits was based on an interest rate of 7.95% for 2011 and 7.90% for 2012.

APPENDIX A

BRIEF SUMMARY OF THE BENEFIT AND
CONTRIBUTION PROVISIONS AS INTERPRETED
FOR VALUATION PURPOSES

Eligibility for Membership

Enrollment is restricted to eligible policemen and firemen who are permanent and full-time and who pass the physical and mental fitness requirements. The maximum enrollment age is 35.

1. Definitions

Plan Year	The 12-month period beginning on July 1 and ending on June 30.
Credited Service	A year of service is credited for each year an employee is a Member of the Retirement System plus service, if any, covered by a prior service liability.
Average Final Compensation (AFC)	The average annual compensation for the three consecutive years of Service immediately preceding retirement or the highest three consecutive fiscal years of Membership Service.
Compensation	Base salary upon which contributions by a Member to the Annuity Savings Fund were based in the last year of Service. For Accidental Death, benefits are computed at the annual rate of salary. In accordance with Chapter 1, P.L. 2010, for members hired on or after May 22, 2010 Compensation cannot exceed the annual maximum wage contribution base for Social Security pursuant to the Federal Insurance Contribution Act.
Final Compensation (FC)	Annual compensation received by the member in the last 12 months of Credited Service preceding his retirement. In accordance with Chapter 1, P.L. 2010, for members hired on or after May 22, 2010, FC means the average annual compensation for the three fiscal years of membership providing the largest benefit.
Accumulated Deductions	The sum of all amounts deducted from the compensation of a Member or contributed by him or on his behalf without interest.

2. Benefits

Service Retirement	Eligibility means age 55 or 20 years of credited service for an employee who was a member of the Retirement System as of January 18, 2000 and age 55 for an employee who became a member of the Retirement System after January 18, 2000; mandatory at age 65 (except that a member hired prior to January 1, 1987 may remain a member of the Retirement System until the member attains the earlier of age 68 or 25 years of creditable service). Benefit is an annual retirement allowance equal to a member annuity plus an employer pension which together equals the greater of:
--------------------	---

- (i) 1/60th of FC for each year of Credited Service; or
- (ii) 2% of FC multiplied by years of Credited Service up to 30 plus 1% of FC multiplied by years of Service over 30. (Prior to January 18, 2000, this benefit was based on AFC rather than FC. However, Policy Memorandum 4-2000, which interpreted the provisions of Chapter 428, P.L. 1999, authorized the change in the salary basis).
- (iii) 50% of FC if the member has 20 or more years of Credited Service.

Chapter 428 also requires that, in addition to the 50% of FC benefit, any member as of January 18, 2000 who will have 20 or more years of Credited Service and is required to retire upon attaining age 65 (except that a member hired prior to January 1, 1987 may remain a member of the System until the member attains the earlier of age 68 or 25 years of creditable service), shall receive an additional benefit equal to 3% of FC for each year of Credited Service over 20 years but not over 25 years.

Special Retirement

After completion of 25 years of Credited Service. The annual retirement benefit is equal to a member annuity plus an employer pension which together equal 65% of FC plus 1% of FC for each year of Credited Service over 25. Effective for members hired after June 28, 2011, the annual retirement benefit is equal to a member annuity plus an employer pension which together equal 60% of FC plus 1% of FC for each year of Credited Service over 25. There is a maximum benefit of 70% of FC (65% of FC for members hired after June 28, 2011) except for those members with 30 or more years of Credited Service on June 30, 1979.

Vested Termination

- (A) Eligible upon termination of service prior to age 55 and prior to 10 years of Credited Service. The benefit equals a refund of Accumulated Deductions less any outstanding loans.
- (B) Eligible upon termination of service prior to age 55 and after 10 years of Credited Service (but less than 20 years if a member on or prior to January 18, 2000 or less than 25 years of service if a member after January 18, 2000). The benefit is a deferred retirement benefit, commencing at age 55, equal to a member annuity plus an employer pension which together provide a retirement allowance equal to 2% of FC multiplied by years of Credited Service up to 30 plus 1% of FC multiplied by years of Credited Service over 30.

Death Benefits

Ordinary Death Benefit - Lump Sum

- (1) If a member dies prior to retirement, the benefit payable is as follows:

A lump sum amount equal to 3-1/2 times FC payable to the member's beneficiary.

- (2) After retirement but prior to age 55, the benefit is as follows:
 - (i) For death while a Disabled Retiree the benefit is equal to 3-1/2 times Compensation.
 - (ii) For death while a Deferred Retiree the benefit is equal to his Accumulated Deductions.
 - (iii) For death while a Retiree who has completed 20 years of Credited Service, the benefit is equal to 1/2 times FC.
- (3) After retirement and after age 55, the benefit payable is equal to 1/2 times Compensation. (Note: If a Member is not disabled, 10 years of Credited Service is required for Members enrolling after July 1, 1971.)

Ordinary Death Benefit - Survivor Annuity

- (1) If a member dies prior to retirement, the benefit payable to a widow (widower) is equal to 50% of FC (20% of FC payable to one child, 35% of FC payable to two children or 50% of FC payable to three or more children if there is no surviving widow or widower or if the widow or widower dies or remarries or 25% of FC payable to one parent or 40% of FC payable to two parents if no surviving widow, widower or child. If no widow, widower, child or parent, the benefit payable to a beneficiary is the aggregate Accumulated Contributions at the time of death).
- (2) For any member who retired after December 18, 1967, the benefit payable to a widow (widower) is equal to 50% of FC plus 15% of FC for one child and 25% of FC for two or more children.

If no spouse, or spouse remarries, the benefit is equal to 20% of FC for one child, 35% for two children, and 50% for three or more children.

There is also a minimum benefit payable to widows (widowers) of \$4,500 a year.
- (3) For any member who retired with an Accidental Disability Benefit, the benefit payable is equal to \$4,500 a year to the widow (widower). If there is no widow (widower) the benefit payable is \$600 a year for 1 child, \$960 a year for 2 children, and \$1,500 a year for 3 or more children. The benefit for children is payable until age 18.

Accidental Death Benefit

A death while active resulting from injuries received from an accident during performance of duty is eligible for a lump sum equal to the Accumulated Deductions plus 3-1/2 times Compensation plus an annuity benefit payable is as follows:

- (i) The benefit to a widow or widower is equal to 70% of Compensation.
- (ii) The benefit, when there is no spouse, or spouse is remarried, is equal to 20% of Compensation for one child, 35% for two children, 50% for three or more children. The benefit is payable while the children are under age 18, or until age 24 if they are full-time students, or it is payable for life if they are disabled.
- (iii) The benefit, when there is no spouse or children, is equal to 25% of Compensation for one parent and 40% for two parents.
- (iv) The benefit, when there is no relation as stated above, is equal to the Accumulated Deductions and is payable to a beneficiary or to the Member's estate. This is also the minimum benefit payable under (i), (ii) and (iii).

Disability Benefits

Ordinary Disability Retirement

A Member is eligible for Ordinary Disability Retirement if he (she) has 4 years of Service and is totally and permanently incapacitated from the performance of usual or available duties. The benefit is equal to the greater of:

- (i) 1-1/2% of FC times the number of years of Credited Service; or
- (ii) 40% of FC.

In addition, a member who has at least 20 years but less than 25 years of Credited Service and who is required to retire upon application by the employer on and after January 18, 2000 shall receive a benefit equal to a member annuity plus an employer pension which together provide a total retirement allowance equal to 50% of FC plus 3% of FC multiplied by the number of years of Credited Service over 20 but not over 25.

Accidental Disability Retirement

A Member is eligible upon total and permanent incapacitation from the performance of usual or available duties as a result of injury during the performance of regular duties. The benefit payable is equal to a Member annuity plus an employer pension which together equals 2/3 of the Compensation at date of injury.

Special Disability Retirement

A member is eligible for Special Disability Retirement if he (she) has 5 years of Credited Service, is under age 55, and has received a heart transplant. The benefit payable is equal to a Member annuity plus an employer pension which together equals 50% of FC.

3. Member Contributions

Each member contributes 8.5% of Compensation. Chapter 78, P.L. 2011 increased the Member Contributions from 8.5% to 10.0% of Compensation effective October 2011.

DEATHS AFTER RETIREMENT: RP-2000 Combined Healthy Mortality Tables for service retirements and beneficiaries projected on a generational basis from the base year of 2011 using Projection Scale AA. Special mortality tables are used for the period after disability retirement. Representative values of the assumed annual rates of mortality unadjusted for Projection Scale AA are as follows:

<u>Service Retirements and</u>			<u>Disability</u>	
<u>Beneficiaries</u>			<u>Retirements</u>	
<u>Age</u>	<u>Men</u>	<u>Women</u>	<u>Age</u>	
55	0.362%	0.272%	35	0.598%

80	6.437	4.588	60	1.426
85	11.076	7.745	65	1.949

MARRIAGE: Husbands are assumed to be 3 years older than wives. Among the active population, 90% of participants are assumed married. No children are assumed. Neither the percentage married nor the number of children assumption is individually explicit, but they are considered reasonable as a single combined assumption.

VALUATION METHOD: Projected Unit Credit Method. This method essentially funds the System's benefits accrued to the valuation date. Experience gains and losses are recognized in future accrued liability contributions. In accordance with Chapter 78, P.L. 2011, beginning with the July 1, 2010 actuarial valuation, the accrued liability contribution shall be computed so that if the contribution is paid annually in level dollars, it will amortize the unfunded accrued liability over an open 30 year period. Beginning with the July 1, 2018 actuarial valuation, the accrued liability contribution shall be computed so that if the contribution is paid annually in level dollars it will amortize the unfunded accrued liability over a closed 30 year period (i.e., for each subsequent valuation, the amortization period shall decrease by one year.) Beginning with the July 1, 2028 actuarial valuation, when the remaining amortization period reaches 20 years, any increase or decrease in the unfunded accrued liability as a result of actuarial losses or gains for subsequent valuation years shall serve to increase or decrease, respectively, the amortization period for the unfunded accrued liability, unless an increase in the amortization period will cause it to exceed 20 years. If an increase in the amortization period as a result of actuarial losses for a valuation year would exceed 20 years, the accrued liability contribution shall be computed for the valuation year using a 20 year amortization period.

Chapter 78, P.L. 2011 increased member contributions from 8.5% to 10.0% of compensation. Based on discussions with the Division of Pension and Benefits, member contributions in excess of 8.5% of compensation shall not reduce employer normal cost contributions.

ASSET VALUATION METHOD: A five year average of market values with write-up was used. This method takes into account appreciation (depreciation) in investments in order to smooth asset values by averaging the excess of the actual over the expected income, on a market value basis, over a five-year period.

APPENDIX D

ADDITIONAL CENSUS DATA STATISTICS

In response to prior requests from the Board of Trustees, we have performed additional calculations and constructed additional exhibits based on the July 1, 2012 valuation data.

Age Breakdown

1. Average Age at Retirement – split by Special/Service Retirements

The exhibit on page 50 provides information split between Police and Firemen and by type of retirement. The average age at retirement is 54.4, 53.1 and 54.9 for service, special, and deferred retirement, respectively.

2. Average Age at Entry

The average age at entry for Contributing active participants at July 1, 2012 is 26.3. The average age at entry for Non-Contributing active participants at July 1, 2012 is 29.9. The average age at entry for all actives at July 1, 2012 is 26.4.

3. & 4. Average Age at Death for Active participants and Retired participants.

We have assumed that all deaths between July 1, 2011 and June 30, 2012 occurred at the middle of the plan year; January 1, 2012. Based on this assumption, the average age at death for the various groups is as follows:

Active Contributing members at July 1, 2011	46.4
Active Non-Contributing members at July 1, 2011	44.2
Retired at July 1, 2011	76.5
Disabled at July 1, 2011	67.0
Beneficiary at July 1, 2011	82.4
Terminated Vested at July 1, 2011	N/A

5. & 6. Average Age at Retirement for those who retired under ordinary and accidental disability.

Specific information by category is contained on page 51. The average age at retirement is 42.6 and 40.0 for ordinary and accidental disability, respectively.

Breakdown of Members

1. Police/Firemen split for Active and Retirees

The Police/Firemen split summarized below for plan members can be found in Appendix E of this report.

	<u>Policemen</u>	<u>Firemen</u>	<u>Unknown</u>	<u>Total</u>
Active Contributing Members	33,253	6,060	0	39,313
Active Non-Contributing Members	1,356	150	0	1,506
Vested Terminated Participants	51	4	0	55
Retired Participants	19,834	4,905	1,135	25,874
Disabled Retired Participants	4,618	438	219	5,275
Beneficiaries	<u>3,250</u>	<u>1,011</u>	<u>2,397</u>	<u>6,658</u>
Total	62,362	12,568	3,751	78,681

Breakdown of Retired Members and Beneficiaries

- 1-6. Number of members receiving various benefits.

This information is included in Appendix E of this report and is summarized as follows:

	<u>Number of Members</u>
Receiving Special Retirement Benefits	23,852
Receiving Service Retirement Benefits	1,836
Receiving Deferred Retirement Benefits	186
Receiving Ordinary Disability Benefits	2,853
Receiving Accidental Disability Benefits	2,422

7. Members who died as a result of Accidental Death

We did not receive any information that indicates cause of death for deceased members.

- 8.-10. Number of Widows, Children, and Other Dependents

This information is included in Tables 9 and 10 of Appendix E of this report and is summarized as follows:

	<u>Number</u>
Widows/Widowers	6,312
Children	342
Other Dependents	<u>4</u>
	6,658

13. The Number of Beneficiaries and Children receiving benefits due to the accidental death of a member is 116 (108 Beneficiaries, 5 Children and 3 other dependents). We have no information to perform a further S.H.B.P./Local Health Benefits split.

Breakdown of Costs

The information contained in this section, “Breakdown of Costs”, has been calculated in a manner consistent with that shown in prior reports.

1. Cost per member for Insurance.

Dividing the total death benefit cost of \$ 34,101,000 (\$7,276,000 for State location and \$26,825,000 for Local groups) by the number of active contributing members of 39,313 gives the total cost per member for insurance \$867.42.

2. Cost per member for Administration

Dividing the Administrative cost per member = \$3,987,018/78,681 members = \$50.67.

- 3.&4. The normal contribution rates for State Locations and Municipalities and Local Groups are summarized in Section III(I) of this report.

- 5.&6. The Accrued Liability rates for State Locations and Municipalities and Local Groups are also summarized in Section III(I) of this report.

Breakdown of Purchases

We do not receive information on the active data file regarding service purchases.

Better Breakdown of Inactive Members

To better demonstrate the effect that inactive participants have on costs, we have split the liabilities attributable to beneficiaries used to calculate the Accrued Liability into specific categories. The information summarized below can be found in Section III(E) of this report.

	<u>Actuarial Accrued Liability</u>	<u>Percentage of Total Accrued Liability</u>
Service/Special Retirements	\$ 15,306,970,108	48.24%
Disableds	2,091,885,332	6.59%
Beneficiaries	1,799,973,800	5.67%
Deferred Terminated Vesteds	<u>7,647,179</u>	<u>0.02%</u>
Total	\$ 19,206,476,419	60.52%

The percentage shown on the right is the percent attributable to each inactive piece of the total Accrued Liability of \$31,732,123,319.
