Welcome To Naloxone Direct Program

Program Overview:

The legislature enacted the Overdose Prevention Act (P.L. 2021 c.152) with the specific purpose of ensuring that access to opioid antidotes be made as easily accessible and as widely available as possible, such that they are readily available at all times to provide treatment to people experiencing a suspected opioid overdose. Shortly thereafter, in compliance with the enabling legislation, the Deputy Commissioner for Public Health Services issued a standing Order to distribute and administer opioid antidotes for Overdose Prevention (Control No. 2021-02). See link below.

The Department of Human Services, in partnership with the Department of Health (DOH) and the State Attorney General's Office, has established the Naloxone Direct Program (State Program) to operationalize the legislation. The purpose of the State Program is to provide Eligible Agency Participants operating in the State of New Jersey a means to: 1. furnish, distribute and administer naloxone in accordance with the law; 2. access the requisite dissemination information; and 3. make "leave behind" naloxone available for distribution to individuals post-overdose. **Eligible Agency Participants must comply with all of the provisions of the Overdose Prevention Act, including but not limited to the statutory requirements regarding distribution and administration of an opioid antidote, training, the dissemination of certain information and necessary documentation.** Eligible Agency Participants should review the legislation carefully to ensure conformity with the law. This communication focuses on two types of Eligible Agency Participants: Emergency Medical Response Entities (First Responder Agencies)^[1] and Recipient Agencies (Non-First Responder Agencies)^[2] (collectively Eligible Agency Participants). Eligible Agency Participants must satisfy the Eligibility Criteria and complete the registration process in order to participate in the State Program.^[3]

PROHIBITION ON REDISCLOSURE OF CONFIDENTIAL INFORMATION

This notice accompanies a disclosure of information concerning a client in substance use treatment made to you with the consent of such client. This information has been disclosed to you from records protected by Federal confidentiality rules (42 C.F.R. Part 2). The Federal rules prohibit you from making any further disclosure of this information unless further disclosure is expressly permitted by the written consent of the person to whom it pertains or as otherwise permitted by 42 C.F.R. Part 2. A general authorization for the release of medical or other information is NOT sufficient for this purpose. The federal rules restrict any use of information to criminally investigate or prosecute any alcohol or drug abuse client.
