Ways to prevent Respiratory Syncytial Virus (RSV)

- Cover coughs and sneezes
- Wash hands often with soap and water
- Avoid close contact with others who are sick
- Avoid touching the face
- Clean frequently touched surfaces
- Consult a health care professional if you are sick

6 months and older updated COVID-19 vaccine and booster eligibility:

- Anyone 5 years and older can receive the updated booster at least two months after their last dose
- Children 6 months to 5 years who previously completed a Moderna primary series are now eligible for the Moderna updated booster two months after their last dose
- Children 6 months to 4 years who are currently completing a Pfizer primary series will receive the updated Pfizer bivalent vaccine as their third dose
- Children 6 months to 4 years who have already completed a Pfizer primary series are not eligible for the updated vaccine or booster at this time

Can I get the Monkeypox Vaccine

Monkeypox vaccines are available through community partners to all individuals who have been, have sexual partners who have been, or anticipate being in situations with a risk of exposure to the virus.

Find a vaccine today.
