#### 17:2-6.14 Disability retiree; annual report (employment, earnings, test and adjustment)

(a) All disability retirees, under age 60, shall be required to file a report with the System indicating the type of employment they are engaged in, if any, and the gross earned income realized therefrom as of December 31 of each year.

1. Such report must be filed with the System before the following February 15th.

2. Failure on the part of the retiree to file a completed report with the System before February 15 shall result in the automatic suspension of the retiree's retirement allowance for the period the report is in default.

(b) If a retiree reports employment and earnings, then the following tests shall be made by the System to ascertain:

1. If the retiree is engaged in a position subject to coverage by the System, his retirement allowance shall be cancelled and he shall be reenrolled in the system pursuant to N.J.S.A. 43:15A-44, effective as of the date of his appointment to such position.

2. If the retiree is engaged in employment and he estimates that his gross earned income for the present calendar year will exceed the difference between his pension and the salary he would have been receiving had he continued to work for his former employer (normal increment steps and salary range revisions will be considered but no promotional assumptions will be made) his pension for the period may be adjusted by such difference. If, at the close of the calendar year it is found that his earnings differ from his estimate, an appropriate adjustment will be made.

3. If such a retiree has not properly estimated his gross earned income for the calendar year and it is found at the close of the calendar year it exceeded the difference between his pension and the salary of his former position and if he does not refund the excess pension to the system within 30 days, effective April 1, his pension for the succeeding 12-month period will be reduced by the excess pension he received in the preceding calendar year.
