 courts of the United States, upon address to him made for that purpose, by a majority of the House of Representatives and two thirds of the Senate in Congress assembled.

(E.) A Map of Virginia, presented by the general assembly thereof, to the legislature of New-Jersey.

(F.) Return of the Militia of New-Jersey, by Adjutant-General Hunt.

Congress, by a law passed the 2d April last, having authorized the sale of public arms, an order, on my application, was received from the Secretary at War, upon the Superintendent of Military stores in Philadelphia, for 1000 muskets and bayonets—but, as the order is confined to the delivery of French Muskets, (and which have been no doubt in service) and the price, at the rate of ten dollars for each musket, being very high; I deemed it discreet, to suspend the purchase until the present session of the Legislature; especially, as by a subsequent law of Congress, of the 23d of April last, provision is made for arming and equipping the whole body of the militia of the United States.

Three hundred and forty-two copies of the laws of the second session of the ninth Congress, being the proportion for New-Jersey, have been received and delivered as directed by law:

A copy of the Laws—of the Journal of Senate and of the House of Representatives; of the United States, of the first session of the tenth Congress—three copies of the report of the Secretary of the Treasury of the United States on Roads and Canals—four volumes of the laws of Pennsylvania from

The communication from his excellency the governor was read a second time, and the items referred to therein were taken up separately.

The item marked A, being the Answer of the President of the United States to the Address of "The Representatives of the People of New-Jersey, in Legislature convened," on the 4th December last, was read, and ordered to be entered upon the Minutes of this house:—

" To the Representatives of the People of New-Jersey, in their Legislature.

" The sentiments, fellow-citizens, which you are pleased to express in your address of the 4th instant, of attachment and esteem for the general government, and of confidence and approbation of those who direct its councils, cannot but be pleasing to the friends of union generally, and give a new claim on all those who direct the public affairs for every thing which zeal can effect for the good of their country,

It is indeed to be deplored, that, distant as we are from the storms and convulsions which agitate the European world, the pursuit of an honest neutrality, beyond the reach of reproach, has been insufficient to secure to us the certain enjoyment of peace with those whose interests, as well as ours, would be promoted by it. What will be the issue of present misunderstandings cannot as yet be foreseen ; but the measures adopted for their settlement have been sincerely directed to maintain the rights, the honor, and the peace of our country. Should they fail, the ardour of our citizens to obey the summons of their country, and the offer, which you attest, of their lives and fortunes in its support, are worthy of their patriotism, and are pledges of our safety.

The suppression of the late conspiracy by the hand of the people, uplifted to destroy it wherever it reared its head, manifests their fitness for self-government, and the power of a nation of which every individual feels that his own will is a part of the public authority.

The effect of the public contributions in reducing the national debt, and liberating our resources from the canker of interest, has been so far salutary, and encourages us to continue the same course ; or, if necessarily interrupted, to resume it as soon as practicable.

I perceive with sincere pleasure that my conduct in the chief magistracy has so far met your approbation that my continuance in that office, after its present term, would be acceptable to you. But that I should lay down my charge at a proper period, is as much a duty as to have borne it faithfully. If some termination to the services of the chief magistrate be not fixed by the constitution or supplied by practice, his office, nominally for years, will, in fact, become for life ; and history shews how easily that degenerates into an inheritance. Believing that a representative government, responsible at short periods of election, is that which produces the greatest sum of happiness to mankind, I feel it a duty to do no act which shall essentially impair that principle ; and I should unwillingly be the person, who, disregarding the sound precedent set by an illustrious predecessor, should furnish the first example of prolongation beyond the second term of office.

Truth also obliges me to add, that I am sensible of that decline which advancing years bring on; and feeling their physical, I ought not to doubt their mental effect. Happy, if I am the first to perceive and to obey this admonition of nature, and to solicit a retreat from cares too great for the wearied faculties of age.

Declining a re-election on grounds which cannot but be approved, I am sincerely thankful for the approbation which the legislature of New-Jersey are pleased to manifest of the principles and measures pursued in the management of their affairs; and should I be so fortunate as to carry into retirement the equal approbation and good will of my fellow-citizens generally, it will be the comfort of my future days, and I will close a service of forty years with the only reward it ever wished.

TH: JEFFERSON.

The speaker laid before the house the following report on the property of the society of useful manufactures at Paterson.

"I availed myself of the opportunity, when holding a special term of the court of chancery at Newark, in August last, to visit Paterson, to carry into effect the object of the

legislature in their resolution of 3d December last, relative to the interest of this state in the society for establishing useful manufactures. Elisha Boudinot, esq. the governor of the corporation, and colonel Dodd met me by appointment, also Abraham Vanhouten esqr. agent of the company, Mr Kinsey and other persons residing in Paterson. From their representation, from a general view of the property, inspection of the minutes of the proceedings of the corporation and of the books of their agent, the following information was collected.

Since the report made to the legislature in October 1804 by Col. Dodd, the *Cotton-Mill* with all the *Machinery* mentioned by him, have been destroyed by fire, \$ 6.500 insurance thereon has lately been received, and with \$ 20.000 of the original capital stated by Col. Dodd as unexpended, constitute the *principal* of the *personal estate*.

Since the loss of the cotton-mill, the *real estate* has been improved by a canal, from which water is given to a cotton mill lately erected, and can supply water for as many mills as may be wanted.

1805. Rent of the cotton-mill and real estate,	\$ 1391 00
1806. Ditto,	1390 00
1807. The real estate, (the cotton mill being burnt) rented for	865 00
1808. Ditto,	865 00
	<hr style="width: 10%; margin-left: auto; margin-right: 0;"/>
	4511 00
Expences for repairs,	1080 19
Cutting large canal,	1000 00
Allowance to the superintendent, Mr VanHouten, \$ 250 per year, four years,	1000 00
	<hr style="width: 10%; margin-left: auto; margin-right: 0;"/>
Unexpended,	\$ 3080 19
	\$ 1430 81

The whole number of shares on which payments have been made in full, held at present by about seventy persons,

amount to two thousand two hundred and fifty-six. This state therefore is entitled to something more than a twenty-third part of all the property of the company.

Notwithstanding the loss of the cotton-mill and machinery, the real estate is now at least of the value stated by Col. Dodd, probably somewhat more, say

	\$ 33.500 00
Money at interest, about	26.500 00
	\$ 60.000 00

Upon this view of the property, a share in the stock of the society may be estimated at \$25, which is a loss of 75 per centon \$10.000 the original cost—but the saleable value being at this time depressed 87 1-2 pr cent, or \$12.50 for a share, being the highest price which can be obtained, I did not think myself justifiable to make sale of any shares of stock held by the state.

Access could not be had to the books of accounts, bonds and securities in the hands of *George Scriba*, esqr. the treasurer, as he was very ill *in the gout* at Newark when I called upon him, and represented to me, that they were in New-York and in such a situation as not to be moved without his being present.

The proportion of the state in the above balance, of unexpended rent, was too trifling to receive, nor was any interest received on the personal estate, as the full amount of the annual interest thereof, could not be satisfactorily ascertained, without a view of the treasurer's books, the bonds and securities, &c.

It is with pleasure, I add, that the president, treasurer, agent and tenants of the society, manifested a disposition to give every information and satisfaction that could be reasonably required.

Mr Simpson from the committee to whom was referred the representation and memorial of the president and directors of the Trenton and New-Brunswick turnpike road, reported,

That in the opinion of the committee, the application of the memorialists is founded on a principle which ought never to be sanctioned by this house, namely, that the legislature have a right at their pleasure to alter and abridge any corporate body, of privileges previously granted, without their approbation or consent; a principle which if once acted upon by this house, would establish a precedent of very dangerous tendency, inasmuch as it would render insecure the chartered rights of every corporation in the state, and open a door for the most gross violations of public faith.

The committee are further of opinion, that if any irregularities have taken place, either on the part of the commissioners appointed to lay the Trenton and Princeton branch turnpike road, or on the part of the president and directors of said company, whereby the memorialists have been injured, they have their remedy by a suit at law. Your committee are therefore unanimously of opinion, that the prayer of the memorialists ought not to be granted.

Mr W. Coxe, from the committee to whom were referred sundry petitions from the counties of Bergen, Essex, and Middlesex, praying a law to grant compensation to the proprietors of lands taken for public highways, reported,

That notwithstanding the evil complained of is acknowledged to exist, yet it is doubtful whether the remedies proposed would effectually answer the intentions of the petitioners, or could be justified by principles of equity or policy. The Eastern parts of the state are improved by numerous turnpike companies who have indemnified the owners of the lands over which they have passed. Such common highways as may hereafter be opened through the interior of that part of the country will operate exclusively to the benefit of the inhabitants of the vicinity ; they will be opened under the direction of officers chosen from among themselves, and any valuation of the property will be made by men interested in swelling the estimate of their value, over whom the legislature can have no controul. The western counties can have but a remote interest in improvements of a mere local nature in the eastern counties, and they cannot justly be called on to contribute towards them by disbursements from the state treasury. Whether compensation should be made by the county or by the applicants, in whole or in part, is a question which the committee will not presume to decide, but that

the house may determine on the principle, they submit the following resolution :

Resolved, That a committee be appointed to report a bill further amending the act for laying out vacating and altering of roads, passed June 1st, 1799.

Mr Parker from the committee on the memorial of the Jersey company, made the following report ;

That the legislature of the state of New-York by an act passed the 6th April 1808, entitled “ An act relating to the jurisdiction of this state over the territory mentioned therein,” have asserted the exclusive jurisdiction of the state of New-York over the whole extent of the Hudson river and the bay between Staten-Island and Long-Island, and by the said act “ enacted, That if any person shall within the said territory oppose, disturb or hinder any public officer of that state in the execution of his office, or do any other act as under the authority of the state of New-Jersey, or by color or pretext that the place where such act was done was not within the jurisdiction of that state, any person so offending shall be deemed guilty of a high crime and misdemeanor against that state and shall on conviction be punished by fine and imprisonment or both in the discretion of the court before whom the conviction shall be had.”

That by the said act the powers of the commissioners theretofore appointed by and on the part of the state of New-York, to meet and negotiate with commissioners appointed by and on the part of this state for the purpose of settling

the line of jurisdiction between the two states are extended in point of time to the first day of January next—but upon the proviso, “that it shall be expressly provided in the agreement if any which may be made between the said commissioners and the commissioners on the part of the state of New-Jersey, that nothing in such agreement contained shall be construed to enable or authorize the United States to make or establish a port or ports on or within the said river Hudson or the said bay between Staten-Island and Long or Nassau Island, otherwise than as within the limits or territory of that state.”

That the prospect of an amicable and fair settlement of the line of jurisdiction between the two states is thus wholly precluded.

That the establishing of seaport-towns in this state is a measure of great importance and essential to the interest and prosperity of the citizens of New-Jersey and ought to be aided and encouraged by the legislature—

Your committee therefore submit the following resolutions—

1. *Resolved*, That the senators and representatives of this state in the congress of the United States be instructed to use their endeavors in favor of the application made to congress to have the town of Jersey erected into a port of entry with the usual privileges.

ry, 1804 ; which bill was read and ordered a second reading, and meantime to be printed.

The speaker presented to the house the following letter from the treasurer of this state on the subject of unsettled accounts in his office ; which letter was read and ordered a second reading.

To the Honorable the Legislature of the State of New-Jersey, in session,

GENTLEMEN,

Sickness in your treasurer's family has been the principal cause of some report on the unsettled debts not being handed forward ere this, and prays to be excused.

Your treasurer informs the legislature that with the assistance of Mr Woodruff, the Attorney-General, he selected and drew out about twenty accounts of the old unsettled demands against sheriffs, and put them into the hands of the attorney general for prosecution, process I believe has been issued either against the sheriffs or their sureties—but on enquiry and investigation the attorney-general informs, but very little can be expected from those debts, and believes great part of those accounts remaining not closed, is owing to the neglect of the sheriffs in not handing forward the clearances granted by the courts, &c. However, some monies have been recovered—and no doubt some more will be recovered—and some accounts settled, where considerable appeared due, but on settlement, when they produced the clearances in one instance a balance was due the sheriff. Your treasurer will however use his exertions to have as many brought to settlement as possible.

With respect to the arrearages from the counties of Sussex and Monmouth, no monies have been received for the year past.

With respect to the demands against the sheriffs since your present treasurer has been in office, there is but few delinquents, and several of those have been prosecuted. Your treasurer has notified chiefly all the delinquents what they may expect unless their accounts are shortly closed, and trusts it will have the desired effect ;—but if not, process will in a little time be issued.

With respect to returns from the clerks of the several counties, your treasurer must give them credit for punctuality—although in some few instances not altogether correct. All which is submitted.

PETER GORDON, *Treasurer.*

Mr Stryker from the military committee, made the following report:

The military committee beg leave to report, That as they have not been instructed by the house to enquire whether any and if any what alterations were necessary in the "act for establishing and conducting the military force of New-Jersey," they have not conceived themselves authorized to make any radical change in the provisions of that system. But your committee feel it a duty they owe to the public and especially to themselves to declare that they believe that part of said act which regulates the detailing and calling into ac-

tual service any requisition from the militia of this state, will be found on trial wholly inadequate, and of consequence in time of emergency (if such should unfortunately be witnessed) we shall have officers in the field destitute of their respective commands. And they have omitted to ask for suitable instructions under a two-fold impression, 1st, That congress at their present session would revise the militia system of the United States. 2d, That the minds of the members of this house, were not prepared to embrace a militia-system, which (in the opinion of your committee) would be efficient.

Whereas the unceasing hostility of Great-Britain and France, towards the neutral rights and commerce of the United States, having rendered every prospect of an amicable adjustment of our grievances hopeless ; and considering it the duty of all good citizens to rally round the standard of the general government ; therefore,

Resolved, as the sense of the legislature of New-Jersey, That we have viewed with abhorrence, the repeated aggressions on our national sovereignty, and the plunder of our commerce, by those common disturbers of the tranquillity and peace of nations.

That we have anxiously waited the result of the earnest and unceasing endeavors of our government to restore harmony and a good understanding with those nations; and regret that they should still remain deaf to the voice of justice; and perversely blind to the mutual interests of all.

That national honor and interest forbid that any further advances be made on the part of our government, towards an accommodation, whilst the orders and decrees of Great-Britain and France continue in force against our commerce.

That inclination and duty prompt us to unite in support of such measures as the wisdom and prudence of the general government may direct.

That whether we be called to endure privations resulting from the embargo—non-intercourse—or the more direful calamities of war, we will prefer *either, or all*, to the disgraceful and degrading condition of *Tribute*.

That whilst we are desirous of maintaining the utmost latitude, for the free discussion of public measures, and of making every charitable allowance for diversity of opinion, we cannot avoid expressing our most decided disapprobation of the conduct of that portion of citizens, who invariably condemn every official act of the administration; and by palliating or justifying the aggressions of our enemies, endeavor to withdraw the confidence of our citizens from the rulers of their own choice.

That notwithstanding the many artful appeals to the *passions* and *pockets* of our citizens, to seduce their affections and confidence from the general government, we are happy to find the good sense of our constituents a sufficient security against such attempts; and that the lives and fortunes of Jersey men will be cheerfully pledged to aid such measures as the constituted authorities may direct for maintaining the honor and independence of our country; and that "*the alternative chosen, whatever it may be, will be maintained with all the fortitude and patriotism which the crisis ought to inspire.*"

Resolved, That the governor of this state be requested to forward copies of the foregoing resolutions, to the president of the United States, and to our senators and representatives in congress.

Which resolutions were read and ordered a second reading:
The house adjourned to three o'clock afternoon:

B. A resolution of the commonwealth of Massachusetts of the 20th of June last, respecting a proposed amendment to the constitution of the United States, that "No law shall be enacted for laying an embargo, or for prohibiting or suspending commerce for a longer period than until the expiration of thirty days from the commencement of the session of congress next succeeding the session in which such law shall have been enacted."

C. A letter from the governor of Pennsylvania, with a printed state of the case of Gideon Olmstead and others, against the executrixes of David Rittenhouse—and sundry resolutions of the legislature of Pennsylvania thereon, and among others *a resolution* proposing an amendment to the constitution of the United States, "That an impartial tribunal may be established, to determine disputes between the general and state governments."

D. An attested copy under the great seal of this state of the law of the 28th of November last, entitled "An act to regulate the fisheries in the river Delaware and for other purposes," was transmitted to the legislature of the commonwealth of Pennsylvania; And on the 23d of February last, a law passed the said commonwealth complying with the amendments and additions contained in the law of New-Jersey, as will appear by an exemplified copy of the law of Pennsylvania.

E. Copies of the resolution of the legislature of 21st November last, were transmitted to each of the senators and representatives of this state in the congress of the United States, instructing them "to use their endeavors in favor of the application made to congress to have the town of Jersey erected into a port of entry with the usual privileges."

F. Twenty-four pieces of field artillery, carrying balls of six pounds, have been purchased in pursuance of the law of

the 14th of November last—*Contracts* have been made to mount and furnish the same with *ammunition waggons, harness, and the necessary equipments*, complete for the field.

G. The militia fines and forfeitures in the treasury not being sufficient to discharge the whole amount of the contracts, it is submitted to the legislature, after they shall have examined the contracts, (which as to *twelve* ammunition waggons and harness are *conditional*) to make appropriation of such money as they shall think proper to fulfil the contracts ; by doing this, the 24 companies of artillery will each appear in the field, alike equipped with a field piece and ammunition waggon.

H. The deficiency in the treasury of militia fines to meet the engagements necessary to be made to complete the 24 pieces of artillery for the field, induced exertions to be made to carry into effect the law of 4th December 1807 ; and payment having been actually made, of four thousand dollars into the treasury, to and for the use of the state, a transfer was thereupon made on the 12th of August last, of the right of the state, to subscribe to the capital stock of the Jersey bank.

I. The state have presented the Baron Steuben's discipline to the officers of the *infantry*, but the officers of the *artillery* and *cavalry*, are without instructions for their several corps. Manœuvres for the artillery and instructions for the cavalry are delivered herewith, in expectation that the legislature will direct their several systems of tactics or some other discipline to be procured and delivered to the officers of these very useful corps, that uniformity in their respective formation and manœuvres may be introduced.

K. On the eleventh day of March last, the honorable *Aaron Kitchel*, resigned his seat of Senator of the United States, on the part of this state, the executive thereof made a temporary appointment, until the meeting of the legislature.

The laws and journals of congress and the laws of our sister states received during the year, have been deposited in the library of the state, and 342 copies of the laws of the United States, delivered to the treasurer for distribution.

That the Bank of New Brunswick may by law encrease their shares to 2000 which would double the present stock of the bank—And the holders of shares now subscribed are entitled exclusively to the right to subscribe the additional shares whenever the bank shall open the new subscription. That if the new subscription were now to take place the purchaser of a share would pay in fact 12 dollars advance on two shares, or six dollars on each share—But as that subscription is not expected to take place soon, the value of this right is lessened and may be reckoned at three dollars per share—The shares of the State if subscribed and paid would have no right of further subscription attached to them—And being entitled if now subscribed to no part of the expected dividend may be estimated at seven dollars per share—equal to \$ 3,500.

Mr Vandayn, from the committee on the memorial and petition of the legal representatives of Hannah Preston, deceased, agreeably to their instructions, reported the following statement of facts :

That Major Isaac Preston was appointed Colonel of the first regiment of Cumberland militia on the fourth day of February, 1777—

That on the day following Col. Preston received orders to repair to the lines, and take charge of the militia of Cumberland county which he should find there, and of such as should from time to time arrive—

That Col. Preston did accordingly repair immediately to the lines on the Raritan near New-Brunswick—

That on or about the 21st day of February 1777, the said Col. Preston, having returned to camp from an expedition against the enemy, was seized with a violent sickness, alleged to have been brought on by the fatigue of said expedition—

That of this illness Col. Preston died in his quarters on or about the 5th day of March in the same year—

That owing to the neglect as is alleged of those entrusted with the business, by Hannah Preston, widow of Col. Isaac Preston, no application for the half pay due to her according to law, was made during her life time.

That in September of the year 1797, application was made by the executors of the said Hannah Preston to the court of quarter sessions of the county of Cumberland, for the half-pay due to her as widow of Col. Isaac Preston, under the act of this state passed June 10, 1779—

That the said court, upon the evidence produced before them, did adjudge to the executors of the said Hannah Preston an allowance of half-pay from the sixth day of March 1777, during her widowhood—

That upon the adjudication, application was made to the legislature of this state, for aid and relief ; but that the legis

ture decided against the application, as your committee are informed, upon an opinion that the claim was properly against the United States—

That application was then made to congress for remedy— but that congress dismissed the application on the ground that the claim was against the state of New-Jersey, and that the laws of this state afforded relief—

That the documents before the house fully prove that the present applicant, Ezekiel Foster, esq. is the legal attorney or representative of the heirs of Hannah Preston, widow of col. Isaac Preston, dec.

Mr Bateman from the committee to whom was referred the items in the governor's message marked F and G relating to the purchase, mounting, &c. of Field Artillery, and the deficiencies of military fines in the treasury, to defray the expences thereof, beg leave to report, (agreeably to their instructions) the following statement of facts, viz :

1. That upon examining the law entitled, " An act to procure field artillery, &c. they find that the first section authorized and requires the commander in chief to procure for and in behalf of the state of New-Jersey, twenty-four pieces of field artillery (of such caliber as he may approve) either of brass or wrought iron complete for the field, and distribute the same, &c. And by the 2nd section he is authorised to draw on the treasury for the above purpose, to any amount not exceeding the sum now actually therein arising from military fines and forfeitures.

2. That soon after the passage of the above recited act, the Governor commenced a correspondence with Major General Helms, then attending congress, and other persons, the object of which appeared to be, 1st, to obtain the opinions of military men, respecting the two kinds of pieces mentioned in the law, and 2nd. to ascertain at what place they could be purchased at most advantage.

3. The result of those inquiries was, that wrought iron pieces were not to be found in the United States, that the price of brass had greatly enhanced, and could not be procured for less than seventy cents per pound, which for six pounders would amount to four hundred and fifty dollars each. That the late Secretary at war and Gen. Wilkinson preferred and recommended those cast at Foxall's foundery near Georgetown, being the same kind of those used in the service of the United States and quite as light as the brass of the same caliber.

4. It appears in consequence of this information and recommendation, the governor was induced to purchase the

whole twenty-four pieces of Mr Foxall for which he paid seventy dollars each, making a difference in the first cost in their favor of nine thousand one hundred and twenty dollars.

5. That the contract for mounting the artillery at one hundred and twenty-four dollars was the lowest offer made by the several applicants, which contract is carefully drawn, and security given for the performance.

6. The governor had a caisson or ammunition waggon made at Baltimore, under the superintendance of Lieutenant Swearingen of the artillery of the United States, like those made for and in the service of the United States; together with harness for four horses, and two postillion saddles, which cost three hundred and eighty eight dollars. That a contract to make eleven similar to the same, has been made, at three hundred and ten dollars each and conditionally for the other twelve at the same price, provided notice is given on or before the first day of December next.

7. Twenty-four sets of double artillery harness and postillion saddles, have also been contracted for at the sum of one thousand four hundred and sixty-four dollars. The double set of harness, and postillion saddles are represented as necessary to equip the artillery to operate as flying or horse artillery.

8. A statement of the treasurer goes to shew that there is in the treasury, ten thousand nine hundred and seventy-three dollars nineteen cents which has arisen from military fines, from all which the committee deduce the following calculation, viz :

Militia fines,	\$ 10,973 19
Twenty-four 6 pounders at 70 dollars each,	\$ 1680
Contract for mounting do. at 124 dollars each,	2976
Ammunition waggon, made at Baltimore,	388

Mr Kitchell from the committee to whom was referred the petition of the Associates of the Jersey company, reported,

That objections have been raised in the congress of the United States against the erection of the port of Jersey into a separate port of entry, caused principally from its contiguity to New-York, and the danger arising thereby from frauds on revenue—

[You Are Viewing an Archived Copy from the New Jersey State Library](#)

That these objections which are raised by the Secretary of the Treasury, have hitherto prevented the erection of the port of Jersey into a separate port of entry, and will no doubt operate against it in future—

That (as your committee are informed) it has been proposed by the secretary of the treasury to take a portion of New-Jersey, which, together with the district of New-York, should form one revenue district—That a collector and an assistant collector should be appointed to reside in the district, one at Jersey and the other at New-York—The assistant collector to be appointed by the president of the United States, and not by the collector of New-York—That he should have the power of granting entries and clearances in the same manner as the collector, and have a concurrent authority with him.

That all cases arising under the revenue laws within the territorial limits of New-Jersey, should be tried in the district of New-Jersey, and that nothing in the act to be passed for this purpose should be construed to interfere with the territorial jurisdiction of either state, leaving the question of boundary between the states wholly untouched—

That the Associates of the Jersey Company despairing of obtaining An act of congress for erecting the port of Jersey into a separate port of entry, are willing to acquiesce in the arrangement proposed, and it therefore remains to be decided by the state of New-Jersey how far it is expedient to accede to such arrangement—The committee therefore submit the following Resolutions :

Resolved, That (any instructions heretofore given, notwithstanding) the senators and representatives of this State, in the congress of the United States, be, and they are hereby requested to use their endeavors to procure a law for erecting the port of Jersey into a port of entry, either independently or in connexion with the port of New-York, and as may seem to them best for guarding the revenues of the United States, and for securing to the inhabitants of the port of Jersey the privileges usually attached to a port of entry ; affixing to said port limits not extending beyond the limits of the town of Jersey, as described in the act of this state enti-

301
tled An act to incorporate the Associates of the Jersey company: *Provided always*, That the jurisdictional rights as claimed by the state of New-Jersey may not be compromised, impaired or affected by the said law, and that the officers of the port of Jersey be appointed directly by the government of the United States, and subject to their orders and controul, and be residents of the state of New-Jersey.

Resolved, That the governor of this state be directed to forward copies of the foregoing Resolution to the Senators and Representatives of this state, in the congress of the United States.

The speaker pro tempore presented to the House, the following report :

The subscriber being appointed to receive the monies arising from rent, interest, &c. in the hands of the Paterson Society, &c. and to report the highest price that can be obtained for each share of the stock ; begs leave to report,

That in order to obtain the above objects—I called on the society's agent at Paterson to inquire into the amount of profits arising from the rents of the property at that place, and to ascertain more satisfactorily the value of the same—The agent's books were not posted up, but he promised to send forward a statement of his accounts to Elisha Boudinot, esq. governor of the society, at Newark. I called on him for information ; and to obtain the dividend, if any due the state ; he informed me that the whole of the rents, issues and profits arising from the property at Paterson, had been expended in improvements, and the interest arising on the unexpended capital is considered by the governor of the society to belong to the capital, and cannot be divided.

The shares of the stock have been sold at fifteen dollars per share, and perhaps something more might be obtained.

Your commissioner begs leave to observe that the shares have risen from two to three dollars per share last year, and in all probability will continue to rise ; as the advantages for the erecting mills are perhaps superior to any in the United States ; there being forty or fifty valuable seats on the Society's property. All which is respectfully submitted.

SILAS WHITEHEAD.
