Student growth is a measure of how much students are learning each year. Each student receives a Student Growth Percentile (SGP) for English Language Arts/Literacy (ELA) in grades 4 through 8 and for Mathematics in grades 4 through 7 that explains their progress compared to students who had the same test scores in previous years.

A student's SGP falls between 1 and 99 and can be grouped into three levels: **Low Growth: Less than 35** **Typical Growth: Between 35 and 65** **High Growth: Greater than 65**

If the student growth percentiles for all students in the school are ordered from smallest to largest, the median student growth percentile (mSGP) for the school is the percentile in the middle of that list. Watch a short [video about Student Growth Percentiles](#) that explains how they are calculated for students and how median Student Growth Percentiles (mSGP) are calculated for groups of students.

Student Growth

This table shows the median Student Growth Percentile (mSGP) for both English Language Arts/Literacy (ELA) and Mathematics both overall and for each student group with comparisons to the district and the state. This table also shows whether each mSGP Met Standard (40-59.5) as required by ESSA accountability.

Student Group	ELA: School Median	ELA: District Median	ELA: Statewide Median	ELA: Met Standard (40-59.5)	Math: School Median	Math: District Median	Math: Statewide Median	Math: Met Standard (40-59.5)

English Language Arts/Literacy Assessment - Participation and Performance

This table shows information about the English Language Arts/Literacy section of the Partnership for Assessment of Readiness for College and Careers (PARCC) assessment both overall and by student group. The PARCC assessment has five performance levels, and students scoring a Level 4 or 5 (Met or Exceeded Expectations) have demonstrated readiness for the next grade level and are on track for college and careers. This table shows the number of valid test scores, the percentage of students that took the test, and the percentage of testers that met or exceeded expectations in the school, the district, and across the state. The last three columns of the table show the proficiency rate used for federal accountability, the annual target, and whether the target was met, as required by the Every Student Succeeds Act (ESSA) accountability. Student group rows where the annual target fields are grayed out are not required to meet annual targets under ESSA accountability. For more details on New Jersey's accountability system, see these [accountability resources](#).

Mathematics Assessment - Participation and Performance

This table shows information about the Mathematics section of the Partnership for Assessment of Readiness for College and Careers (PARCC) assessment both overall and by student group. The PARCC assessment has five performance levels, and students scoring a Level 4 or 5 (Met or Exceeded Expectations) have demonstrated readiness for the next grade level and are on track for college and careers. This table shows the number of valid test scores, the percentage of students that took the test, and the percentage of testers that met or exceeded expectations in the school, the district, and across the state. The last three columns of the table show the proficiency rate used for federal accountability, the annual target, and whether the target was met, as required by the Every Student Succeeds Act (ESSA) accountability. Student group rows where the annual target fields are grayed out are not required to meet annual targets under ESSA accountability. For more details on New Jersey's accountability system, see these [accountability resources](#).

Mathematics Assessment - Performance by Test: Algebra I

This table shows participation and performance on the Mathematics section of the Partnership for Assessment of Readiness for College and Careers (PARCC) assessment by end of course exam. This table shows both overall and by student group the number of valid test scores and a summary of performance including mean scale scores, percentages of students scoring in each performance level, and the percentage of students that met or exceeded expectations (Level 4 or 5).

This table shows the percentage of English Learners who demonstrated the expected amount of growth on the ACCESS for ELLs 2.0 Assessment for English Language proficiency. Expected growth is based on the student's initial level of English Language Proficiency during the 2016-17 school year and the number of years the student has been enrolled in the district. This table also shows the school's 2017-18 ESSA accountability target and whether the target was met.

NJASK Science Assessment Information

New Jersey transitioned from the NJASK to NJSLA-S in 2017-18 to align to new science standards. Results of field tests in 2017-18 will not be reported, but results of NJSLA-S will be added to the performance reports in 2018-19.

Student absences provide important information about a school's culture and climate. Research shows that absences impact a student's ability to succeed in school. The New Jersey Department of Education used input from New Jersey communities to select chronic absenteeism as its measure of school quality and student success for the ESSA accountability plan. **Chronic absenteeism** is defined as being absent for 10% or more of the days enrolled during the school year. A student who is not present for any reason, whether excused, unexcused, or for disciplinary action, is considered absent unless permitted by state statute or regulations.

Chronic Absenteeism

This table shows the number and percentage of students in grades K-12 both overall and by student group who were chronically absent during the school year. The last two columns show the chronic absenteeism state average for students in the grades offered and whether the rate for each student group was above the state average ("Not Met") or less than or equal to the state average ("Met").

The New Jersey Department of Education migrated to a new reporting system, the Student Safety Data System (SSDS), which includes improved definitions, new reporting fields, and updated guidance for reporting incidents. As such, comparing this year's report to previous years' data can lead to inaccurate conclusions in many reporting categories. As such, the 2017-18 report should be considered a baseline year.

Violence, Vandalism, HIB, and Substance Offenses

Device Ratios

This table shows the student to device ratio, which is the number of students in tested grades 3-11 per device. Devices are computers such as tablets, iPads, laptops and Chromebooks. The count includes only devices that meet nationally recommended specifications for digital learning in grades 3-11. This information comes from the elective NJTRAx survey, therefore data may not be available for all schools. Additionally, schools that have adopted a Bring Your Own Device policy may appear to have a very low Student to Device ratio due to this policy decision.

New Jersey's school accountability system identifies schools that are in need of comprehensive and targeted support as required by the Every Student Succeeds Act (ESSA). For more information about New Jersey's accountability system, how indicator and summative scores were calculated, and how federal accountability status is determined, see these [accountability resources](#).

Comprehensive Status

This table shows whether this school is identified as requiring Comprehensive Support and Improvement during the 2019-20 school year and whether it will be eligible to exit comprehensive status in January 2021 or January 2022. Schools must meet exit criteria in order to exit status. Schools with a summative score in the bottom 5% of Title I schools or with a four-year graduation rate of 67% or less are identified as requiring Comprehensive Support and Improvement.

Requires Comprehensive Support during the 2019-20 School Year	Eligible to exit status in January 2021	Eligible to exit status in January 2022
No	n/a	n/a

Targeted Status

This table shows whether one or more student groups in this school has been identified as requiring Targeted Support and Improvement during the 2019-20 school year and whether each student group will be eligible to exit targeted status in January 2021 or January 2022. Schools must meet exit criteria in order to exit status. Student groups with a summative score that would be in the bottom 5% of schools and student groups that miss annual targets for all indicators for two years in a row are identified as requiring Targeted Support and Improvement. Note: Schools identified as requiring comprehensive support may have student groups identified as needing targeted support below, but the date they are eligible to exit status is based on their comprehensive status.

Accountability Indicator Scores and Summative Rating - 2017-18 School Year

New Jersey has developed a school accountability system as required by the Every Student Succeeds Act (ESSA) to identify schools that are in need of Comprehensive Support and Improvement. This table shows the indicator scores for each indicator included in the accountability system and the weight that each indicator receives when calculating the overall Summative Score. The Summative Rating is the percentile rank of the Summative Score as compared to other schools across the state. Schools with a summative score in the bottom 5% of Title I schools or with a four-year graduation rate of 67% or less are identified as requiring Comprehensive Support and Improvement. For more information about New Jersey's accountability system and how these indicator scores were calculated, see these [accountability resources](#).

Accountability Summary by Student Group - 2017-18 School Year

New Jersey has developed a school accountability system as required by the Every Student Succeeds Act (ESSA) to identify schools that are in need of Targeted Support and Improvement. Any student group where the summative score would be in the bottom 5% of schools is identified for Targeted Support for a Low-Performing Student Group. Any student group that has missed annual targets for all indicators two years in a row is identified for Targeted Support for a Consistently Underperforming Student Group. In the table below, schools in which one or more student groups are identified for Targeted Support will be noted in the Schoolwide row. Annual targets for proficiency and graduation rate were set based on a school or student group's performance in 2015-16. The target for chronic absenteeism is the state average for chronic absenteeism based on students enrolled in the grades served by the given school. For more details on accountability targets, see these [accountability resources](#).

Sports and Athletics:

Sports Offered: Baseball (Boys), Basketball (Boys & Girls), Cross Country (Coed), Soccer (Coed), Softball (Girls), Track and Field - Spring (Coed), Volleyball (Girls)

During the course of the 2017-2018 school year, Franklin Township School students excelled in athletic competition. For instance, the girls basketball team concluded their season with an undefeated record of 12-0, and won the North Hunterdon-Voorhees Junior Athletic Conference Championship (NHVJAC). Additionally, the co-ed soccer team competed in the NHVJAC championship at North Hunterdon High School, and the baseball team won the B Bracket championship.

Clubs and Activities:

The Clubs at FTS are designed to enhance the students experience while strengthening the global intellect of each individual learner. These clubs provide wonderful opportunities for students who exhibit exceptional ability to explore new media and in depth concepts. The goal of FTS programs is to provide a variety of sequential experiences leading to advanced learning and critical thinking skills. Students in grades 1-8 are able to participate in the Theater Club. Students are able to perform using a script, build and create the set/props, and participate in fundraising opportunities. Band club was comprised of students in grades 4-8. Students played instruments such as drums, guitars, flutes, and piano. Ski Club is offered during the winter season for middle school students. Participating in this club allowed students to ski and snowboard at Blue Mountain.

Student Supports and Services:

The Intervention and Referral Services process can be initiated by classroom teachers or parents to address academic and behavioral concerns. As a result, a plan including classroom strategies is generated. To support students with social skills, coping skills, relational aggression, secondary schooling transition and character education the School Counselor provided lessons and group sessions. The school provided the following programs for classified students: In-class support with special education certified teachers, pull-out replacement, and supplementary support using paraprofessionals. Board Certified Behavior Analyst, Speech, Occupational, and Physical Therapists provided services to students. Social Work services including counseling and case management were utilized. To support all learners, the school provided before and after school tutoring. The school utilized the WIDA program to service the needs of English Language Learners.

Student Health and Wellness:

Franklin Township School's comprehensive Health and PE curriculum continued to remain focused on providing students with experiences that highlight the benefits of a healthy lifestyle. As part of instruction, oral health and nutrition professionals were brought into the classroom. Additionally, students also participated in our expansive athletics program. The school has used the NJ PE exemplary Program Guidelines as the foundation for the curriculum, which has been designed sequentially and articulated both vertically and horizontally to reflect current research and best practices. Students in grades K-8 participated in recess on a daily basis for approximately twenty minutes. During this time, students had the opportunity to use the run, walk, jog trail. Various field trips were offered throughout the year and included, but were not limited to, bike trips, track and field trips, and a trip to Camp Bernie.

Parent and Community Involvement:

Parents and community members serve on many school committees including the SCIP and DEAC committees. FTS enjoys a close knit, supportive Parent/Teacher Association. PTA events included Book Fairs, Holiday Workshops, School Stores, Tricky Trays, dances, Fun Fair, and homeroom parents who coordinated classroom parties and activities. Collections were held for: the Food Pantry, childhood cancer, and Hurricane Relief. The United Way donated school supplies. Holiday presents and food baskets were distributed to needy families. The Quakertown Fire Company provided instruction to preschool and kindergarten students. It also held a contest for the 8th grade class and provided the students with a citizenship writing prompt. Selected students read their essay during its Memorial Day ceremony. Parents have access to student records and grades through a parent portal using Genesis. Franklin Township recreational programs, as well as local organizations, use the school facilities.

 <p>Climate Surveys:</p>	<p>Is a Climate Survey Used: Yes; Who is surveyed: Students, Parents, Administrators, Teachers</p> <p>A school climate survey adopted by the NJDOE, in collaboration with the Bloustein Center for Survey Research at Rutgers was developed and disseminated by the New Jersey School Climate Survey. Three different school climate surveys were presented and distributed to parents, students, and staff members. Approximately 80% of the teaching staff completed the survey. Results revealed that teachers had close working relationships and built strong relationships with their students. Elementary and middle school students completed the survey. Elementary students felt safe in their classroom. In addition, the students indicated that they tried their best in their school work. In middle school, students did not think bullying occurs often and did not believe Harassment, Intimidation, and Bullying was a pervasive problem. Parents indicated the school provides a clean environment and a welcoming atmosphere. Survey results were presented to the Board of Education and shared with all stakeholders.</p>
 <p>Facilities:</p>	<p>Our district is comprised of one building constructed in 1934 with additions/renovations in 1970 and 2010 totaling 71,296 square feet. Our building is fully air-conditioned and includes a Library/Media Center, Science and STEM Labs, Art Room, Computer Lab, Gymnasium, Cafeteria, and Theater. Our building sits on approximately 30 acres of land which also includes several equipped playgrounds, a walking track, soccer field, baseball and softball fields, a basketball court, and over an acre of solar panels which help to supply electricity to the building. The original one-room school house built in 1837, has been preserved and has been maintained by Rural Awareness since 2008. It is furnished with historically authentic desks and benches and sits adjacent to the current school building.</p>
 <p>School Safety:</p>	<p>Franklin Township School continues to review safety protocols for our district. Safety has been a priority for many years. We continually review and update our safety procedures, training, and equipment. The following measures have been taken to protect students and staff: All doors are locked and visitors can only enter through one door, through a buzzer system. All visitors are required to wear visitor badges. The local police departments have schematics of our building plans and aerial views of our building and grounds to help coordinate police efforts during an emergency. Additional cameras have been installed. We provide our school building for use for active shooter training for police in Franklin Township during the summer. Safety drills are practiced regularly with staff and students at all grade levels.</p>

Technology and
STEM:

The school district provides a one-to-one technology setup: grades PK-5 use ipads, grades 6-8 use chromebooks. Google Classroom is utilized for instruction. Students use online computer-based programs that promote student learning. Within the Special Education and Elementary classrooms, promethean boards and document cameras are used. In other classrooms, smartboard and interactive boards are used. A STEM class was offered once a week for students in grades PK-8. In middle school, students learn about robotics using items such as Bee Bots, Lego Mindstorm kits, and the Nao robot. Students also learn how to create 3D designs and are able to print their designs using a 3D printer. Furthermore, the computer room holds laptops and ipads that are used by the students.

Early Childhood
Education:

During the 2017-2018 school year, an integrated preschool program was again offered for three and four year olds. The program provided support and services for students referred for early intervention and who were able to become eligible for special education and related services. The preschool program implemented the Tools of the Mind Curriculum. The preschool program is tuition funded. Parents and Guardians have the flexibility to choose the different days during the week they would like to attend, as well as part or full time.
