PREFACE

This economic databook provides information for small business owners and managers who frequently find it difficult to obtain economic data for only the eight counties in Southern New Jersey. The area's data is often tucked in with that of Philadelphia or the entire State.

Funded by a grant from the New Jersey Small Business Development Center at Rutgers, Newark and aided by the South Jersey Chamber of Commerce, The Management Institute conducted a feasibility study in 1982 which established the need for an economic database. A follow-up grant and matching funds from the South Jersey Chamber allowed Dr. Thomas Hamer, an economics professor at Glassboro State College, to compile a computerized database in 1983. With continuing assistance from the South Jersey Chamber of Commerce, The Management Institute publishes semi-annual updated versions of **ECONOMIC DATA FOR SOUTHERN NEW JERSEY**. Dr. Hamer updates the database and serves as the Director of the Center for Economic Data Analysis which was established by The Management Institute in 1984.

The Center also produces databooks for smaller areas within the eight-county area, and it produces other analyses upon request. It is located in the Department of Economics at Rowan College of New Jersey.

Please note that our book is updated and published as a new edition twice a year.

For additional copies contact The Management Institute, School of Business Administration, Rowan College of New Jersey, 201 Mullica Hill Road, Glassboro, NJ 08028, (609) 256-4242.

DESCRIPTION OF MUNICIPALITY DATA IN REPORT 1

"Municipality Data for Population and Population Density"**Total Population for 1970 & 1980:**

Source: U.S. Dept. of Commerce, Bureau of the Census
1980 Census of Population and Housing
"Characteristics of the Population
Number of Inhabitants, New Jersey,
PC80-1-A32," September, 1981, Table 4

Total Population for 1990:

Source: 1990 Census of Population data made available
through the electronic bulletin board of the New
Jersey State Data Center, N.J. Dept. of Labor,
February 1991.
These data are also available from the "Summary Tape
File 1A," which is on the compact disc CD90-1A-2-2.
This disc was issued September 1991 and contains files
for New Jersey and Pennsylvania.

Estimates of Total Population for 1992:

Source: U.S. Dept. of Commerce, Bureau of the Census
Population Division, 1994. Retrieved through the
electronic bulletin board of the New
Jersey State Data Center, N.J. Dept. of Labor,
July 1994.

Population Changes and % Population Changes:

These are data items are calculated by the database computer.

Area in Square Miles:

Source: U.S. Dept. of Commerce, Bureau of the Census
1990 Census of Population and Housing
"Summary Population and Housing
Characteristics," New Jersey. 1991.

Pop. Per Square Mile for 1992:

This data item is calculated by the database computer.

DESCRIPTION OF MUNICIPALITY DATA IN REPORT 2

"Municipality Data for the Race, Ethnic, and Age
Distributions in 1990"

Total, White, Afro American, Other Races, Hispanic, and Age 18 &
Older Populations

Source: 1990 Census of Population data made available
through the electronic bulletin board of the New
Jersey State Data Center, N.J. Dept. of Labor,
February 1991.

Note: Hispanic is not a race.

Percentages of the total population are calculated by the
database computer.

DESCRIPTION OF MUNICIPALITY DATA IN REPORT 3

"Income and Poverty"

Median Family Income in 1979
Per Capita Income in 1979

Source: State of New Jersey, Department of Labor,
Office of Demographic & Economic Analysis
"Income and Poverty in New Jersey, 1980
Census of Population and Housing," Oct., '82

Median Family Income in 1989
Per Capita Income in 1989

Source: U.S. Dept. of Commerce, Bureau of the Census
1990 Census of Population and Housing
Summary Tape File 3A, issued as two compact
disks for New Jersey, CD90-3A-37, May 1992.

% changes and % of NJ
Calculated by the database computer

For Whom Poverty Status Determined from 1989 Income (Number of
Persons)

Source: U.S. Dept. of Commerce, Bureau of the Census
1990 Census of Population and Housing
Summary Tape File 3A, issued as two compact
disks for New Jersey, CD90-3A-37, May 1992.

For Whom Poverty Status Determined from 1989 Income (%)
Calculated by the database computer: Number of people
determined as in poverty divided by the sum of the people
determined as not in poverty plus the number determined
as in poverty.

DESCRIPTION OF MUNICIPALITY DATA IN REPORT 4

"Labor Force and Work Location in 1990"

For All Persons Age 16 & Over: Labor Force Status:
In Armed Forces, Civilian Labor Force, and Unemployed
For Females Age 16 & Over: Civilian Labor Force
Source: U.S. Dept. of Commerce, Bureau of the Census
1990 Census of Population and Housing
Summary Tape File 3A, issued as two compact
disks for New Jersey, CD90-3A-37, May 1992.

% Unemployed

Calculated by the database computer. Number unemployed divided by the civilian labor force equals the civilian unemployment rate. Note: the number unemployed according to the Census generally exceeds the number estimated by the monthly U.S. Dept. of Labor Household Survey because the respondents to the census include those without work but are not actively seeking employment.

% of Civilian Labor Force

Calculated by the database computer. This is the labor force participation rate for females.

County & State Work Location of Resident Workers Age 16 & Over
Total numbers from the Census, % calculate by the database
computer

Source: U.S. Dept. of Commerce, Bureau of the Census
1990 Census of Population and Housing
Summary Tape File 3A, issued as two compact
disks for New Jersey, CD90-3A-37, May 1992.

DESCRIPTION OF MUNICIPALITY DATA IN REPORT 5

**"Municipality Data for Private Sector Establishment
Employment Covered by Unemployment Insurance"**

Covered Employment is a monthly count of full and part-time employees at private sector establishments who earned wages during the pay period including the 12th of September, as reported quarterly by employers covered by the New Jersey Unemployment Compensation Law. These establishments are located in the indicated municipalities. Basically, any employer paying at least \$1,000 in wages in either the current or preceding calendar year is covered under the law. Jobs not covered by the law fall mainly into the categories of self-employed workers, unpaid family workers, certain agricultural workers, and certain in-home domestic workers. Note: Beginning with January 1978, coverage was extended for certain agricultural and in-home domestic workers.

Source: State of New Jersey
Department of Labor
Division of Planning & Research
Office of Demographic & Economic Analysis
"Private Sector Covered Jobs Third Quarter,"
annual.

The "Weekly Wage" is the average weekly wage per employee for the third quarter of the year.

The employment numbers (the numbers of jobs held) are for September only.

When there are fewer than three establishments reporting or one establishment has 80% or more of the employment in that industry, the data are not disclosed to maintain confidentiality. This is indicated in the table by "--"

The changes and percentage changes are calculated by the data base computer.

DESCRIPTION OF MUNICIPALITY DATA IN REPORT 6

"Age Distribution According to the 1990 Census of Population"**Total Population and Percentages in Each Age Group:**

These are calculated by the data base computer from 31 age groupings in the original Census data.

Source: U.S. Dept. of Commerce, Bureau of the Census, Data Users Services Division, "1990 Census of Population and Housing, Summary Tape File 1A, Middle Atlantic Div. (Vol. 2), New Jersey, Pennsylvania," Compact Disc (CD90-1A-2-2), dBASE FORMAT, Issued, September 1991.

Revised numbers are included for Barrington and Tavistock in Camden County. According to the revision, 18 people were subtracted from Tavistock and added to Barrington.

DESCRIPTION OF MUNICIPALITY DATA IN REPORT 7**"Academic Success of Students in Public High Schools"**

The source of the data is the "The Statewide Summary of the 1993 New Jersey School Report Card" issued in the fall of 1993. The report is jointly prepared by the New Jersey Dept. of Education, the Public Education Institute, the Business Roundtable Education Initiative, and McGraw-Hill, Inc. A copy of the Report Cards for the entire state was obtained from the New Jersey Dept. of Education, Div. of Administration, Office of Publication & Distribution.

The report contains information pertaining to all public high schools in the eight county area. If a municipality does not have a high school, then the name and statistics are listed for the high school to which the students in the municipality are sent on an official basis by that municipality's school district. Therefore, the same data are given for several municipalities. Likewise, the name and total statistics are given for a regional high school for all of the sending municipalities.

DESCRIPTION OF MUNICIPALITY DATA IN REPORT 11

**"Municipality Data for Local Property Tax Rates and
Total Housing Units According to the Censuses"**

General and Effective Property Tax Rates, % Ratio of Effective to General Tax Rates, and Use Allocation of Effective Tax Rates for Local Uses, the County, and Schools

These are the local property tax rates.

Source: State of New Jersey, Department of the Treasury, Division of Taxation
"Comparison of General Tax Rates & Effective Tax Rates," Annual.

The percentage ratio of effective to general tax rates is calculated by the database computer.

Total Housing Units in 1990, Change 1980 to 1990, Percentage Change 1980 to 1990. Calculations are made by the data base program.

Sources: State of New Jersey, Department of Labor
Office of Demographic & Economic Analysis
"New Jersey, 1980 Census of Population and Housing, Municipal Profiles, Vol. III: Characteristics of Housing Units,"
Jan., 1982

1990 Census of Housing data made available through the electronic bulletin board of the New Jersey State Data Center, N.J. Dept. of Labor, February 1991.

DESCRIPTION OF MUNICIPALITY DATA IN REPORT 12

**"Average Housing Prices Based on Units Sold
In Fiscal Years (July 1 to June 30)"****Average Price and Units Sold**

The Division of Taxation in the New Jersey State Department of the Treasury maintains records for the numbers of residence units sold and the total of the selling prices for each municipality by fiscal year. The average selling price is this total of selling prices divided by the number sold.

The residence units include single family structures and attached units up to four units in a single structure.

Only sales of fully assessed residential structures are recorded. Since virtually all of newly constructed housing is not fully assessed when sold, the data exclude the sales of new structures.

Source: State of New Jersey, Dept. of the Treasury
Div. of Taxation, "Table of Equalized Valuations"
October 1 of 1991, 1992, 1993, and 1994.

Percent changes are calculated by computer for this report.

'DESCRIPTION OF MUNICIPALITY DATA IN REPORT 14**"Value of Owner Occupied Housing Units
According to the 1990 Census"**

Numbers of Housing Units in Value Ranges in Thousands of Dollars
Median Value
Interquartile Range: Lower & Upper

These data are for specified owner occupied housing units for which a value was determined in the 1990 Census of Population and Housing. The median value indicates a value for which 50% of the specified owner occupied units had a greater value and half a lower value. The lower range value is a value for which 25% of the units had a lower value. The upper range value is a value for which 25% of the units had a greater value. Between the two values lie the middle 50%.

PART B: DESCRIPTION AND SOURCES OF DATA FOR COUNTIES, THE TRI-COUNTY AREA, AND THE ENTIRE AREA

1. **Forecasts for Nonagricultural Establishment Employment In the Burlington-Camden-Gloucester County Area**
 These forecasts are generated by Dr. Thomas Hamer using an econometric model estimated using data the quarterly average of monthly nonfarm payroll employment and price-adjusted Gross Domestic Product.

2. **Business Outlook Surveys**
 Diffusion Indexes for two surveys: (1) a monthly survey of large manufacturing firms with most of the respondents in Southeastern Pennsylvania, and (2) a quarterly survey of firms in all industries in Southern New Jersey. The responding firms indicate the direction of change in activity for the most recent period and expected changes in activity six months from now.

by Industry," monthly.
15. Covered Employment, Sept.
"Covered Employment" refers to employment covered by
unemployment insurance and is a monthly count of full and
part-time employees at establishments located in the county
who earned wages during the pay period including the 12th of
September as reported quarterly by employers covered by the
New Jersey Unemployment Compensation Law.

16. Business Births

The term "birth" means a new reporting of private sector employment covered by unemployment insurance (covered employment). If a firm already in the state opens a new location or if a merger occurs, this is not a birth. If a newly created firm begins reporting, or if an out-of-state firm enters, then it is a birth.

**ECONOMIC DATABASE FOR EIGHT SOUTHERN NEW JERSEY COUNTIES
DATA FOR COUNTIES, THE TRI-COUNTY AREA, AND THE ENTIRE AREA**

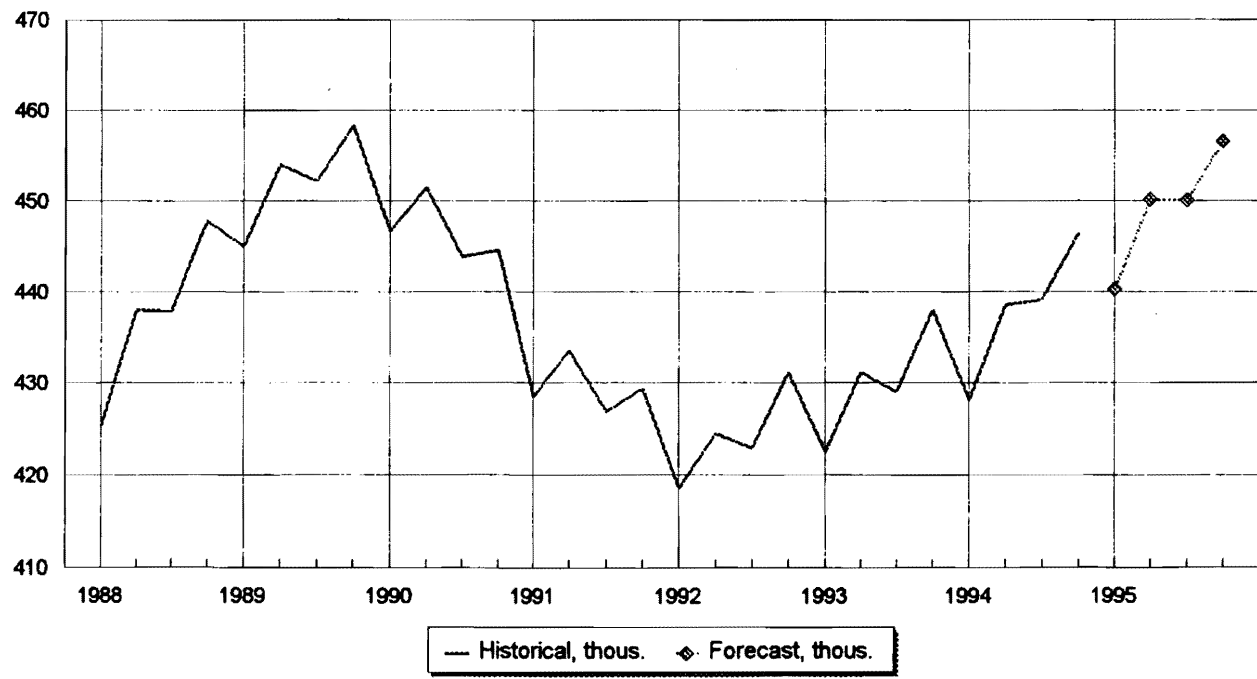

1. Employment Forecasts for the Burlington-Camden-Gloucester County Area

Data are for nonfarm wage & salary employment. Quarterly values are the average of three months and are not seasonally adjusted.

This forecast assumes that the average quarterly growth rate in real GDP will be 2.7% for 1995.

**Total Nonagricultural Payroll Employment, Not Seasonally Adjusted, for
Burlington, Camden, and Gloucester Counties Combined**

Year Qtr.	Employment Historical	Forecast
1992.1	418,500	
1992.2	424,533	
1992.3	422,867	
1992.4	431,133

2. BUSINESS OUTLOOK SURVEYS BY THE FEDERAL RESERVE BANK OF PHILADELPHIA

DIFFUSION INDEXES:

SOLID LINE: Monthly Survey of Manufacturing Firms (mostly in Southeast Pennsylvania and with 350 or more employees). "What is your evaluation of the level of general business activity?" Percent of respondents indicating an increase for the current month compared to last month minus the percent of respondents saying a decrease.

SYMBOLS: Quarterly Survey of firms in all industries in Southern New Jersey. "What is your assessment of the level of general business activity at your company?" Percent of respondents indicating an increase compared to 3 months ago minus the percentage of respondents saying a decrease. The symbol is at the second month of the quarter. Publication of the series began with the second quarter of 1991.

DATA FOR COUNTIES, THE TRI-COUNTY AREA, AND THE ENTIRE AREA

12. UNEMPLOYMENT RATES (not seasonally adjusted)

Until further revisions are received, current data are not
comparable with those prior to 1994.

	December 1994
Atlantic & Cape May Counties	9.9%
Burlington, Camden, Gloucester & Salem Cos.	5.2%
Cumberland County	9.4%
New Jersey	5.8%

**ECONOMIC DATABASE FOR EIGHT SOUTHERN NEW JERSEY COUNTIES
DATA FOR COUNTIES, THE TRI-COUNTY AREA, AND THE ENTIRE AREA**

13. Unemployment Insurance Claimants (Total Initial Claims, All Regular Programs)

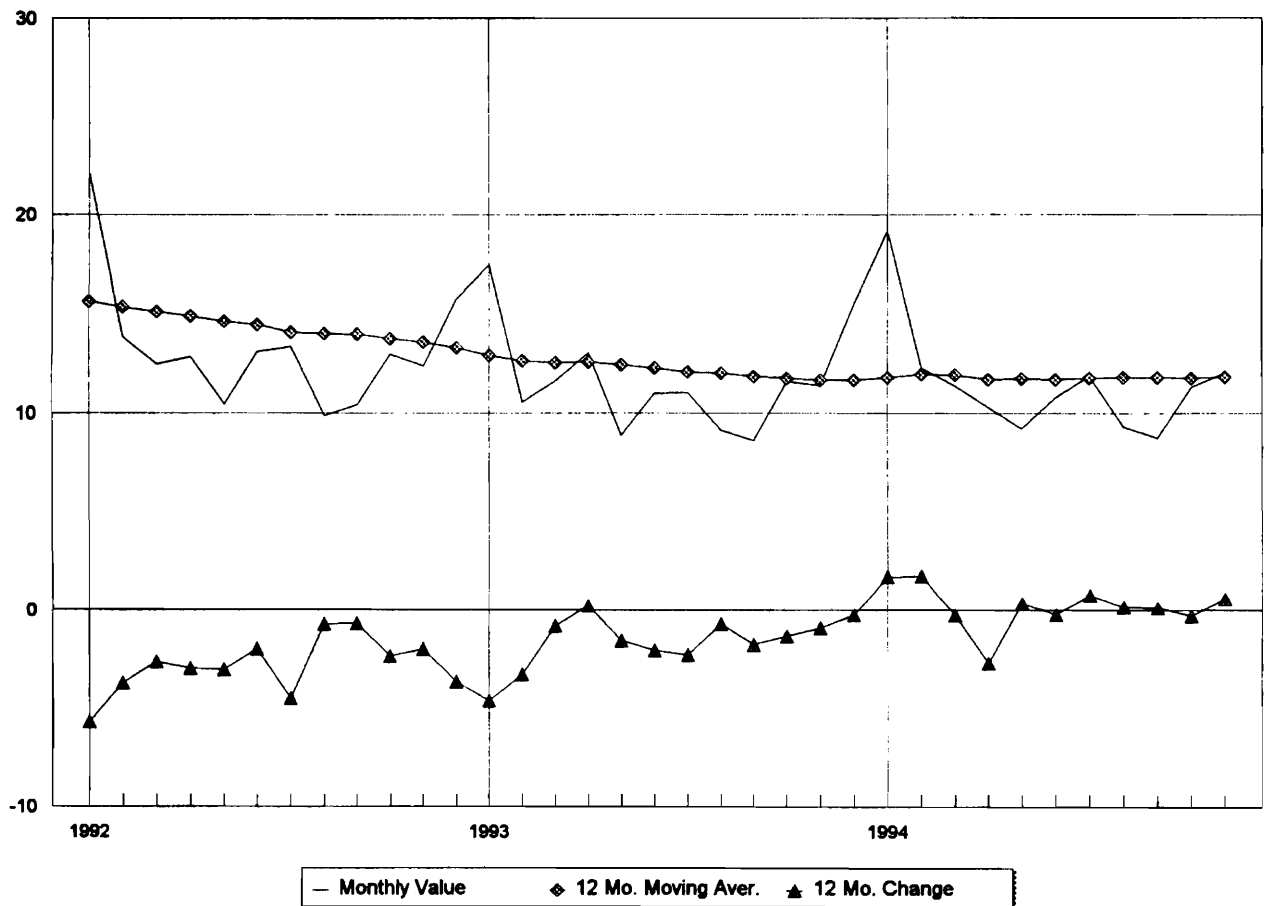

The monthly number for initial claims are administrative data from "South District" UI Offices, which include the southern NJ area except for the Toms River area of Ocean County.

The 12 month change is the current number less that for the same month one year earlier.

A positive 12 month change indicates a worsening economy, while a negative means improvement.

The 12 month moving average is the average for the current month and the prior eleven months.
