Permit Descriptions

CAFRA - A Coastal Area Facility Act permit is required to construct residential, commercial, public, transportation, utility and energy-related facilities in the coastal area as defined by the Act.

Federal Consistency Activity: Certain federal permits, not limited to the U.S. Army Corps of Engineers Dredge and Fill Permits, require certification by the DEP prior to the issuance of the permit by the federal agency.

Freshwater Wetlands: A Permit (Letters of Exemption, Letters of Interpretation, Statewide General Permit, Open Water Fill, Individual, Transition Area Waiver, Water Quality Certificate) is needed prior to engaging in a regulated activity in or around freshwater wetlands and associated transition areas. A Stream Encroachment Permit, a U.S. Army Corps of Engineers Dredge and Fill Permit, and a Water Quality Certification may also be required.

General Groundwater Petroleum Products Cleanup: This general permit authorizes the surface water discharge of treated groundwater previously contaminated with petroleum products.

NJPDES permits: A permit is required for the discharge of pollutants to surface and groundwaters, a discharge from an indirect user or the land application of municipal and/or industrial residuals. (A more comprehensive definition of activities which require a permit may be found at N.J.A.C. 7:14A-2.4)

Solid Waste Facility: A permit is required to conduct or operate any solid waste facility as defined under the Solid Waste Management Act, N.J.S.A. 13:1E-1 et seq., and N.J.A.C. 7:26-1 et seq.

Stream Encroachment: Under the Flood Control Act DEP is empowered to require a permit to control construction within and proximate to flood hazard areas to reduce flood damage to and from new development and to protect the flood storage capacity and ecology of flood plains.

Tidal Wetlands: A Coastal Wetlands Permit is needed to excavate, dredge, fill or erect structures on coastal wetlands.

Treatment Works Approval: A TWA permit is required for the construction, modification or operation of a treatment works, including sanitary/industrial sewage pretreatment or treatment systems, sewage conveyance systems, sewer extensions and subsurface sewage disposal systems.

Waterfront Development: A permit is required for any project involving the development of waterfront near or upon any tidal or navigable waterway in the State.

General Information

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Stream Encroachment (SE) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA).

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed does not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed inside the back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

Appeals on Applications

PUBLIC HEARING NOTICE

GREEN ACRES PROGRAM

Notice of Public Hearing on the

Proposed Sale of Surplus Property
Located at Greenwood Lake State Park

TAKE NOTICE that the State of New Jersey, Department of Environmental Protection, Green Acres Program, will hold a public hearing to seek comments on the proposed sale of the following State-owned lands:

Block 3610, Lots 27, 18 and 19 totaling 5.77 acres located in West Milford Township, Passaic County.

The subject lands were intended to be an open space recreational facility and provide access to Greenwood Lake. However, the development of residential housing within the former project area and the location of Greenwood Lake Turnpike have rendered the park project nonviable as a recreational unit. The property will be sold at public auction and the proceeds returned to the Green Acres fund for the purchase of other land with recreational potential or conservation value.

The public hearing will be held on:

August 13, 1998 at 11:00 AM at the
West Milford Township Municipal Building
1480 Union Valley Road
West Milford, New Jersey 07480

Persons wishing to make oral presentation are asked to limit their comments to a five minute time period. Presenters should bring a copy of their comments to the hearing for use by the Department.

Interested persons may submit written comments until August 20, 1998 to:

PUBLIC NOTICE

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP) proposes to issue the following New Jersey Pollutant Discharge Elimination System (NJPDES) permit actions in accordance with N.J.A.C. 7:14A-1 et seq. and by authority of N.J.S.A. 58:10A-1 et seq. The description of each proposed permit action is contained in the accompanying table.

This public notice has been prepared for these facilities as part of the administrative record to be filed at NJDEP, 401 East State Street, Trenton. Copies of the draft document are obtainable, for a nominal charge, and the administrative record is available for inspection by appointment only, Monday through Friday, by contacting the NJDEP file room at (609) 292-0400. Additional information regarding the draft document may be obtained from the contact person listed in the accompanying table.

Comments on the draft document or a request that NJDEP hold a non-adversarial public hearing on the document must be submitted, in writing, to the individual specified below (refer to the accompanying table for the appropriate permitting bureau) during the public comment period, which closes 30 calendar days after publication of this notice. All persons, including permittees who believe that any condition of NJDEP's tentative decision to issue these permit actions is inappropriate must raise all reasonable issues of concern and submit all arguments and factual materials supporting their position during the public comment period. Any request for a public hearing shall state the nature of the proposed issues to be raised in the hearing. A public hearing will be conducted if NJDEP determines there is a significant degree of public interest. If a public hearing is held, the public comment period is automatically extended through the close of the hearing.

NJDEP will consider and respond to all significant and timely submitted comments. The permittee and each person who submitted written comments, will receive notice of NJDEP's final decision to issue, revoke or redraft the document.

Written comments should be submitted to the appropriate permitting bureau:

The Township of Lower Municipal Utilities Authority (Lower) intends to operate a maximum 7 dry metric tons per day residuals stabilization facility and distribute the resultant MRP. The MRP production facility is intended to initially process approximately 2.7 metric tons per day of sewage sludge from Lower.</p> <p>The MRP is intended to meet the United States Environmental Protection Agency's 40 CFR Part 503 regulation Exceptional Quality pollutant, pathogen reduction, and vector attraction reduction options. These standards were adopted by the NJDEP at N.J.A.C. 7:14A-20. MRP, that meets these standards, will be suitable for distribution and marketing as a soil amendment or fertilizer.</p> <p>The stabilization process involves the addition of lime and will take place within an enclosed pasteurization vessel, which provides an insulated and heated area to ensure that the dewatered material maintains the proper time and temperature requirements.</p>

The landfill occurs within an 11.2 acre parcel of property leased to Crown Paper Company. The landfill is not operational, and has a vegetated interim cover and improved drainage system. No sludge or mill trash is currently exposed. This permit outlines the required ground water monitoring for landfill closure and post-closure activities.</p>

In addition, pharmaceuticals manufacturing, storage and shipping activities occur at the facility. The unit regulated under this NJPDES-DGW permit is the equalization basin which serves to equalize flow of process wastewater to the publicly owned treatmentworks (POTW) and allow for pH adjustment, the sole pretreatment process, prior to discharge to the POTW. The process water originates from laboratory and sink discharges, floor drains and contact water used during chemical processes. This permit outlines the ground water requirements for the equalization basin.</p>

<p>Cape May Foods</p> <p>NJPDES Permit No. NJ0064360</p> <p>DGW</p>	<p>Indian Trail, Off Route 9</p> <p>Cape May</p> <p>Cape May County</p>	<p>Eunice Szkoda Jinks</p> <p>Bureau of Nonpoint Pollution Control</p> <p>(609) 292-0407</p>	<p>Cape May Formation</p> <p>IIA</p>	<p>The facility is a clam processing and packing operation. The industrial wastewater from the shucking, preparation and canning processes is discharged to ground water through a spray irrigation system. The current operation is no longer consistent with the Township of Middle Wastewater Management Plan, which was amended to specifically require Cape May Foods to connect to the public sewer. Cape May Foods withdrew their SIU application on February 6, 1998, which would have allowed their industrial discharge through the Middle Township sewer system to the Cape May County MUA conveyance, collection and treatment system. This action directly conveyed their intent not to connect to the public sewer system. Since that date the permittee has also been out of compliance with the NJPDES permit which required the submission of a proposal for an approvable alternative treatment and disposal system, should connection fail to occur. Therefore, pursuant to N.J.A.C. 7:14A-16.3(a) and (c) and 16.6(a) 1 and 6, this draft action states the Department's intention to revoke the existing NJPDES-DGW permit and deny the renewal permit application.</p>
<p>Selective Coatings and Inks, Inc.</p> <p>NJPDES Permit No. NJ0105074</p> <p>DGW</p>	<p>5008 Industrial Avenue Wall</p> <p>Monmouth County</p>	<p>Mark Miller</p> <p>Bureau of Nonpoint Pollution Control</p> <p>(609) 292-0407</p>	<p>Kirkwood</p> <p>IIA</p>	<p>Selective Coatings and Inks, Inc. mixes and manufactures printing inks for flexography letter press printing at this facility. Chemical solvents, pigments and resins are utilized in this mixing and manufacturing process. The active discharge of non-contact cooling water to an on-site pond via overland flow has ceased and a closed loop recirculation system has been installed at the facility. Therefore the permit is being revoked.</p>
