CONVERSION IN URBAN ENTERPRISE

5:45-1.1 Purpose

This subchapter is adopted pursuant to section 3 of P.L. 1989, c.207 for the purpose of setting forth standards by which municipalities that are deemed to be "qualified municipalities" under the statute may determine that one or more areas within the municipality are in need of rehabilitation and that one or more buildings in any such area could be advantageously converted to "qualified residential property," as defined in section 2 of the statute, or that vacant land in any such area could be advantageously used for the construction of such "qualified residential property."

5:45-1.2 Standards for municipal determinations

(a) In any municipality that is a "qualified municipality," as defined in Section 2 of P.L. 1989, c.207, a determination may be made by the municipal governing body that an area is in need of rehabilitation only if at least one of the following criteria is satisfied:

1. The area has been previously declared, pursuant to either N.J.S.A. 40:55-21.1 et seq. or 40A:20-1 et seq., to be either blighted or in need of redevelopment;
2. There is evidence of substantial housing or health code violations in at least 25 percent of the dwelling units in the area;
3. At least 25 percent of the dwelling units in the area are in buildings at least 40 years old;
4. At least 25 percent of the dwelling units in the area in buildings having real property tax arrearages in at least the amount of one year's taxes; or
5. At least 10 percent of the land within the area, including both privately-owned property and property that is municipally-owned as a result of tax foreclosure but excluding other public property, is vacant or has only unoccupied buildings on it.

(b) No area shall be deemed to be in need of rehabilitation unless the demand for housing in the municipality exceeds the supply and the improvement or conversion of one or more existing buildings in the area, or new residential construction in the area on one or more vacant lots, or lots that might be made vacant through demolition of existing substandard structures, is determined by the governing body to be likely to increase the overall supply of safe, sanitary and decent housing affordable to those in need of it.

Amended by R.2000 d.235, effective June 5, 2000.
 See: 32 N.J.R. 3003(a), 32 N.J.R. 2048(b).
