Notes1: The section entitled Air Transport Association Carriers is included to give a comparison between Port Authority Airport traffic growth and aggregate growth as measured by the majority of the U.S. carrier industry.

Note2: The page 2 Access Mode: residents report excludes passengers arriving by hotel courtesy vehicles, helicopters, and the miscellaneous "other" category. The airline OAG summary uses schedules effective for the week in the middle of the month being summarized. "Flights (daily) refers to the daily-each-way average flights which can be thought of as 1 directional departing or arriving flights.

Travelers had to contend with fewer flights and fewer seats this Thanksgiving as demand for air travel at our facilities outpaced the number of seats supplied by airlines. This second half 2009 trend marks a reversal from the first half of 2009, when carriers underestimated the severity of the travel recession and did not reduce capacity enough.
