Department of Factory and Workshop Inspection of the State of New Jersey.

REPORT.

STATE OF NEW JERSEY.
OFFICE OF
INSPECTOR OF FACTORIES AND WORKSHOPS,
TRENTON, N. J., October 31st, 1897.

Hon. John W. Griggs, Governor of the State of New Jersey:

SIR—In submitting the Fifteenth Annual Report as Inspector of Factories and Workshops for the year ending October 31st, 1897, I desire to call especial attention to the educational condition of the children who come under the supervision of this department. How to properly school and fit these coming men and women for the duties of life is the most serious problem that confronts the student of child-labor. The number of children employed in workshops and factories amounts, according to the last school census, to within a few of five thousand. This young army of workers, who are soon to take upon themselves the responsibilities of citizenship, are required to attend school only sixty nights in a year, at the most—one hundred and twenty hours—and these are hours when the body and brain are exhausted with the day's toil and illy prepared to receive instruction or to acquire knowledge. I can not conceive of a more serious evil than this lack of educational advantages suffered by boys and girls at this important period of life.

This is the age when the character is forming, and the tastes, habits, and even the aspirations, are being moulded into permanency. Indeed, this period of life largely determines the future intelligence or the future illiteracy of the man or woman. To quit school at this age means, as a rule, to quit school forever.

In this connection, the evening schools cannot be too highly praised. They are beneficent and humane institutions, that serve to keep alive the intellectual spark in the mind of these youthful toilers. But in too many cases the instruction given in these institutions is necessarily perfunctory and is inspired more

to comply with the letter of the child-labor law than to serve an educational purpose. The remedy for this condition of affairs is not easily found. The term "child-labor" in itself implies a loss of school privileges. The educational condition of this class, however, can be ameliorated, if not altogether corrected. Industrial evening schools are a great improvement over the old system. I would, however, earnestly recommend, especially for those communities where employment ceases in the summer-time, as is the case with the glass industry, the establishment of summer-day schools. Let the early morning hours be devoted to this object. Many of our school teachers take advantage of the summer vacation to attend so-called summer schools, and to prepare themselves for special and general line of work. How much the more, then, should these, or similar opportunities, be afforded to the young minds that, by reason of occupation, are deprived for the greater part of the year of the training that is necessary to the development of broad, liberal and intelligent American citizens.

A comparison of the records of this office for the last year with those of the previous year discloses a most gratifying result. The care with which the Deputies have performed their duties is shown in the summary of inspections. The summary for the years 1896 and 1897 is as follows:

	1896.	1897.	Increase over 1896.
Factories inspected,	1,896	2,652	756
Mines inspected,	0	6	6
Bakeries inspected,	461	790	329
Total,	2,357	3,448	1,091

Economic students will undoubtedly see, in these figures, an evidence of the State's industrial growth and the signs of returning prosperity. This table impresses me with the importance of taking a yearly industrial census so far as possible by this department. Such work cannot, of course, be made absolutely accurate and complete, unless due authority of law were given compelling those in charge of our industrial establishment to furnish such information as would effectually serve the purpose herein indicated.

None the less, however, much interesting and valuable data could be procured through purely voluntary sources. A circular of queries could be sent to each establishment covering the increase or decrease as compared with the preceding year, in capitalization, in number of hands employed, in the amount and value of production, in the erection of new or the stoppage or failure of old plants and in the new and different kinds of motive power. Such data, properly compiled and classified and issued in small pamphlet, would prove not only interesting to students and statesmen but of great value to the business world. It would be an unprejudiced and reliable history of the manufacturing

interest of the State for the preceding year—their rise or decline, as the case might be, and the reasons therefor. This in a sense, it is true, broadens the work of this department. But as a part of this work is now already performed, as will be seen by reference to the Appendix (page 15), I see no reason why it should not be carried out as I have outlined, and thus be made to serve in a practicable way the business interests of this State. I propose during the coming year to inaugurate this system of statistics and let the result test its value.

The importance of a regular hygienic oversight of our food-producing establishments must not be forgotten. Cleanliness in our workshops is certainly a desirable condition. The adulteration of food with dirt is to be avoided at all hazards, and it has been the earnest aim of this department to insist upon the execution of the law relating to the cleanliness and sanitary arrangements of bakeries. The public are helpless in matters of this kind unless the State stands guard over their interests.

In conclusion, I desire again, as last year, to extend my thanks to the manufacturers of the State for the uniform courtesy and kindness with which they have treated this department. They have at all times evinced a willingness to aid myself and deputies in the execution of the law under our immediate charge. Such a spirit deserves public commendation.

Respectfully submitted,

JOHN C. WARD,

Inspector of Factories and Workshops.

Department of Factory and Workshop Inspection
of the State of New Jersey.

APPENDIX.

See Deputy Inspectors' Reports,
by Districts.

FIRST DISTRICT.

Department of Factory and Workshop Inspection of the State of New Jersey.

NOVEMBER 7th, 1896, to OCTOBER 30th, 1897.

Hon. John C. Ward, Chief Inspector of Factories and Workshops:

SIR: In compliance with law requiring a summary report of the Deputy Inspectors' work for the year ending October 31st, 1897, as Deputy of First District I am able to state that there has been a universal disposition on the part of proprietors and owners of places and factories to freely admit a thorough inspection and a compliance to the law whenever informed of any corrections or omissions.

Accidents occurring in my district, of which find a report of same, that have occurred have been due to venturing and carelessness.

Respectfully yours,

W. W. JOHNSON,
Deputy First District.

Factory and Workshop Inspection—First District Summary, November 7th, 1896, to October 30th, 1897.

SECOND DISTRICT.

Department of Factory and Workshop Inspection of the State of New Jersey.

NOVEMBER 7th, 1896, to OCTOBER 30th, 1897.

Hon. John C. Ward, Chief Inspector of Factories and Workshops:

SIR: I herewith submit my annual report for the year ending October 31st, 1897. My duties this year have been much greater than the year before, owing to the increased number of hands working and a larger number of factories inspected. Through the attention which our Chief has given this office, it enabled me to find factories which have never been inspected before. Accidents which have resulted in death have been few, according to the number of people employed, and where accidents happened it was mostly the fault of the employés. Child labor in my district is nearly done away with, and the firms in my district are all trying to enforce the factory laws. The new bakery law has greatly helped the bakers in keeping their shops in good order, and I think there is no baker that is not pleased that such a law has been passed.

Yours respectfully,

JOHN VAN ATTA,
Deputy Inspector Second District.

Factory and Workshop Inspection—Second District Summary, November 7th, 1896, to October 30th, 1897.

PLACES INSPECTED.		Number Inspected.	Orders given.	Orders not complied.	Orders partly complied.	Orders fully complied.	Not inspected in 1897.	Old places not previously inspected.	New places.	Old places closed.	ACCIDENTS.		Children discharged.	Certificates ordered.	Permits to orphans.	Total number inspections, 1897.

FIFTH DISTRICT.

Department of Factory and Workshop Inspection of the State of New Jersey.

NOVEMBER 7th, 1896, to OCTOBER 30th, 1897.

PATERSON, N. J.

Hon. John C. Ward, Chief Inspector:

SIR—I respectfully submit my annual report as Deputy Inspector for the Fifth District for the year ending October 30, 1897.

The machinery in the factories in my district is all well guarded wherever it is possible to do so, and with the exception of ordering the discharge of a few children under the legal age for working, I have not found it necessary to order any changes in the factories. Have given several orders for improving condition of bakeshops, etc., and most of them have been complied with. I granted twenty-six permits to children in need of employment, and reported three accidents, all of which were investigated at the time they occurred.

Respectfully submitted,

JAMES KEYS.

Factory and Workshop Inspection—Fifth District Summary, November 7th, 1896, to October 30th, 1897.

PLACES INSPECTED.	Number Inspected.	Orders given.	Orders not complied.	Orders partly complied.	Orders fully complied.	Not inspected in 1897.	Old places not previously inspected.	New places.	Old places closed.	ACCIDENTS.		Children discharged.	Certificates ordered.	Permits to orphans.	Total number inspections, 1897.

SIXTH DISTRICT.

Department of Factory and Workshop Inspection of the State of New Jersey.

NOVEMBER 7th, 1896, to OCTOBER 30th, 1897.

Hon. John C. Ward, Chief Inspector:

SIR—I respectfully submit my annual report for the year ending October 31st, 1897. I have found during the past year a general disposition on the part of manufacturers to place their Factories and Workshops in such conditions as to come well within the requirements of the law. Orders given to guard machinery, erect fire-escapes and supply proper sanitary arrangement, have nearly all been complied with. Very few children under legal age have been found employed, and all children of working age are required to attend evening school. The City of Newark's Board of Education provides seven evening schools for their accommodation. Four schools for general instruction; also a drawing school and a technical school.

Many employers take a special interest in assisting the Inspector and the officers of the Truant Department in enforcing the school law.

Several large new factories have been built and old ones remodeled during the year, all of which are well supplied with the latest and best improvements for the health and safety of the employes

Very Respectfully,

P. CALLAN.

Factory and Workshop Inspection—Sixth District Summary, November 7h, 1896, to October 30th, 1897.

PLACES INSPECTED.	Number Inspected.	Orders given.	Orders not complied.	Orders partly complied.	Orders fully complied.	Not inspected in 1897.	Old places not previously inspected.	New places.	Old places closed.	ACCIDENTS.		Children discharged.	Certificates ordered.	Permits to orphans.	Prior inspections in 1895 and not until 1897.	Total number Inspections, 1897.

Department of Factory and Workshop Inspection
of the State of New Jersey.

FACTORY LAWS.

1897.

(221)

Factory Laws.

The Employment of Children.

AN ACT to limit the age and employment hours of labor of children, minors and women, and to appoint an inspector for the enforcement of the same.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That after the fourth day of July, one thousand eight hundred and eighty-three, no boy under the age of twelve years, nor any girl under fourteen years of age, shall be employed in any factory, workshop, mine or establishment where the manufacture of any goods whatever is carried on.

2. And be it enacted, That on and after the first day of July, one thousand eight hundred and eighty-four, no child between the ages of twelve and fifteen years shall be employed in any factory, workshop, mine or establishment where the manufacture of any kind of goods whatever is carried on, unless such child shall have attended, within twelve months immediately preceding such employment, some public day or night school, or some well-recognized private school; such attendance to be for five days or evenings every week during a period of at least twelve consecutive weeks, which may be divided into two terms of six consecutive weeks each, so far as the arrangement of school terms will permit, and unless such child, or its parents or guardian, shall have presented to the manufacturer, merchant or other employer seeking to employ such child, a certificate giving the name of his parents or guardian, the name and number of the schools attended, and the number of weeks in attendance, such certificate to be signed by the teacher or teachers of such child; provided, that in case the age of the child be not known, such teacher shall certify that the age given is the true age to the best of his or her knowledge or belief; provided, that in case of orphan children, where necessity may seem to require, the guardian or others having charge of the same may, upon application to the inspector provided for in this act, receive from him a permit for the employment of such child or children, under such regulations as the said inspector may prescribe.

3. And be it enacted, That no child or children under the age of fourteen years shall be employed in any factory, workshop, mill or establishment where the manufacture of any kind of goods is carried on, for a longer period than an average of ten hours in a day, or sixty hours in a week.

4. And be it enacted, That every manufacturer, merchant or other employer employing any person contrary to the provisions of this act, or who shall be guilty of any violation hereof, shall be guilty of misdemeanor, and upon conviction shall be fined for each offense in a sum of not less than fifty, nor more

than one hundred dollars, and in default of payment of the same, shall be imprisoned in the county jail for not less than thirty, nor more than ninety days and that every head of a family, parent or guardian who knowingly permits the employment of such children, shall be likewise subject to a fine of not more than twenty-five, nor less than ten dollars for every child so employed, and for each offense, and in default of such payment, shall be imprisoned in the county jail for a period of not less than ten days, nor more than twenty days; a certificate of the age of the minor, made by him or her, and by his or her parents or guardian at the time of employment, shall be conclusive evidence of the age of such minor upon any trial for the violation of this act; provided, that the provisions in this act in relation to the hours of employment, shall not apply to or affect any person engaged in preserving perishable goods in fruit-canning establishments.

5. And be it enacted, That the Governor shall immediately after the passage of this bill, appoint, with the advice and consent of the Senate, some suitable person, who shall be a resident and citizen of this State, as inspector, at a salary of twelve hundred dollars per year, to be paid monthly, whose term of office shall be for three years; the said inspector shall be empowered to visit and inspect, at all reasonable hours, and as often as practicable, the factories, workshops, mines and other establishments in the State where the manufacture or sale of any kinds of goods is carried on, and to report to the Governor of this State on or before the thirty-first day of October in each year; it shall also be the duty of said inspector to enforce the provisions of this act, and prosecute all violations of the same in any Recorders' Court of cities, and Justices of the Peace, or other courts of competent jurisdiction in the State.

6. And be it enacted, That all necessary expenses incurred by said inspector in the discharge of his duty shall be paid from the funds of the State, upon the presentation of proper vouchers of the same; provided, that not more than five hundred dollars shall be expended by him in any one year.

7. And be it enacted, That all fines collected under this act shall inure to the benefit of the school fund of the district where the offense has been committed.

8. And be it enacted, That all acts and parts of acts inconsistent with the provisions of this act are hereby repealed, and that this act shall take effect immediately.

Approved March 5th, 1883.

A supplementary act, approved in 1884, contains the following enactments:

That the inspector and his deputies shall have power to demand a certificate of physical fitness from some regular practicing physician in the case of minors who may seem physically unable to work, and shall have power to prohibit the employment of any minor that cannot obtain such a certificate.

That any parent or guardian who, when so required by the inspector or one of his deputies, shall furnish to such inspector, or deputy, a certificate from the office of registration of births, or in the absence of such certificate, an affidavit or affidavits of the age of such minor, and if any one shall knowingly swear falsely in any such affidavit, the person or persons so swearing shall be guilty of perjury and liable to indictment and punishment accordingly.

That section four of the act to which this is a supplement shall be amended to read as follows:

[4. And be it enacted, That every manufacturer, merchant or other employer employing any person contrary to the provisions of this act, or who shall be guilty of any violation thereof, shall be liable to a penalty of fifty dollars for each offense, to be recovered in an action of debt in any district court in any city, or before any Justice of the Peace having due jurisdiction, and that any parent or guardian, who knowingly permits the employment of such child or children, shall be liable in a like action to a penalty of not more than fifty dollars, as the court shall fix; that such action shall be prosecuted in the name of the inspector; the trial shall proceed as other actions of debt, and the first process shall be a summons returnable in not less than five or more than ten days after issue, and it shall not be necessary to indorse the same as in qui tam actions; the finding of the court shall be that the defendant has or has not, as the case may be, incurred the penalty claimed in the demand of the plaintiff, and judgment shall be given accordingly; in case an execution shall issue and be returned unsatisfied, the court, on application, after notice to the defendant, may award an execution to take the body of the defendant, and in case such a defendant is committed under such an execution, he shall not be discharged under the insolvent laws of the State, but shall only be discharged by the court making the order for the body execution, or one of the Justices of the Supreme Court, when such court of justice shall be satisfied that further confinement will not accomplish the payment of the judgment and costs; an affidavit of the age of any minor, made by its parent or guardian, at the time of its employment, shall be conclusive evidence of the age of such minor, upon any trial against a manufacturer or employer for the violation of this act, but any parent or guardian that shall knowingly swear falsely in such affidavit, shall be guilty of perjury, and the inspector or deputy inspector shall be authorized in case they shall find any minor employed under any false affidavit given as aforesaid, to order and compel such minor to desist from work; the provisions of this act in relation to the hours of employment shall not apply to or affect any person engaged in preserving goods in fruit-canning establishments.]

General Factory Act.

The law of April 7th, 1885, known as the General Factory act, is hereby given in full:

A GENERAL ACT relating to factories and workshops, and the employment, safety, health and work hours of operatives.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That any person or corporation engaged in manufacturing, which requires from persons in his or its employ, under penalty of forfeiture of a part of the wages earned by them, a notice of intention to leave such employ, shall be liable to the payment of a like forfeiture if he or it discharges without similar notice a person in such employ, unless in case of a general suspension of labor in his or its shop or factory.

2. And be it enacted, That all accidents in workshops, factories or mines, that result in death, shall be reported at once by the occupier to the inspector of workshops at Trenton, and the city or district physician, where one is employed as such, which notice may be given by mail.

3. And be it enacted, That the belting, shafting, gearing and drums in all factories and workshops, when so placed as to be dangerous to persons employed therein while engaged in their ordinary duties, shall be securely guarded when practicable (possible); if otherwise, then notice of its danger shall be conspicuously posted in the factory or workshop.

4. And be it enacted, That no minor, under eighteen years of age, or woman, shall be required to clean any part of the mill gearing or machinery in any factory or workshop while the same is in motion, or work between the fixed or traversing parts of any machine while it is in motion by the action of steam, water or other mechanical power.

5. And be it enacted, That the opening of all hoistways, hatchways, elevators and well-holes upon every floor of a factory or mercantile or public building, shall be protected by good and sufficient trap-doors or self-closing hatches and safety catches, or strong guard rails at least three feet high, and all due diligence shall be used to keep such trap-doors closed at all times, except when in actual use by the occupant of the building having the use and control of the same.

6. And be it enacted, That no explosive or inflammable compound shall be used in any factory, in such place or manner as to obstruct or render hazardous the egress of operatives in case of fire.

7. And be it enacted, That no minor under the age of sixteen shall be employed in any manufacturing, mercantile or mechanical establishment more than ten hours a day or sixty hours a week.

8. And be it enacted, That suitable places shall be provided in all factories and workshops where girls or women are employed, where unclean work of any kind has to be performed, for such girls or women to wash ; workshops be properly screened.

9. And be it enacted, That separate water-closets be provided for the use of employes of either sex in all manufacturing, mercantile or mechanical establishments where persons of both sexes are employed.

10. And be it enacted, That where the factories or workshops appear so overcrowded, that in the opinion of the inspector of factories there is danger to health, the inspectors shall have power, after being supported in their opinion by some reputable resident physician, to prohibit such overcrowding.

11. And be it enacted, That the inspectors of factories shall have power to order a fan or other mechanical means of proper construction, if practicable, for the purpose of preventing the inhalation of dust in establishments where any process is carried on by which dust is generated and inhaled by the workers to an injurious extent.

12. And be it enacted, That all factories and mines be ventilated so as to render harmless all impurities as near as may be.

13. And be it enacted, That no cellar, room or place shall be occupied as a bake-house, which is less than one-half its height above the level of the street, footway or ground adjoining the same, unless the following regulations are complied with : first, no water-closet, earth-closet, privy or ash-pit shall be within or communicate directly with the bake-house ; second, no drain or pipe

for carrying off sewage or other impure matter shall have an opening within a bake-house, unless such drain or pipe be trapped with a six-inch water-seal, both within and without the wall of the bake-house, and have a ventilating pipe of one-half the size of drain-pipe between the wall and the outer trap, and which ventilating pipe shall run two feet above the roof of the building.

14. And be it enacted, That the sleeping places for workmen and others employed in bake-houses shall be separate and distinct from the places used for the making of bread.

15. And be it enacted, That any person or corporation, being the owner, lessee or occupant of any manufacturing establishment, factory, mine, workshop or store, or owning or controlling the use of any building or room, shall, for the willful violation of any provisions of this act, except sections one and two, be liable to a penalty of fifty dollars for each offense, to be recovered in an action of debt in any district court in any city, or before any justice of the peace having due jurisdiction, and that any employe who shall be guilty of any violation of the provisions of this act shall be liable in a like action to a penalty of fifty dollars; that such action shall be prosecuted by and in the name of the inspector of factories; the trial shall proceed as other actions of debt, and the first process shall be a summons returnable in not less than five days or more than ten after issue, and it shall not be necessary to indorse the same as in qui tam actions; the finding of the court shall be that the defendant has or has not, as the case may be, incurred the penalty claimed in the demand of the plaintiff, and judgment shall be given accordingly; in case an execution shall issue and be returned unsatisfied, the court, on application, after notice to the defendant, may award an execution to take the body of the defendant, and in case such defendant is committed under such an execution, he shall not be discharged under the insolvent laws of the State, but shall only be discharged by the court making the order for the body execution, or one of the justices of the Supreme Court, when such court or justice shall be satisfied that further confinement will not accomplish the payment of the judgment and costs; provided, nothing herein shall subject any owner of a building or premises to any penalty unless he shall be the proprietor of the business conducted therein.

16. And be it enacted, That all acts or parts of acts inconsistent with the provisions of this act be and are hereby repealed.

Approved April 7th, 1885.

A SUPPLEMENT to an act entitled "A general act relating to factories and worshops, and the employment, safety, health and work hours of operatives," approved April seventh, one thousand eight hundred and eighty-five.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That every person shall, within one month after he begins to occupy a factory or workshop, notify one of the factory inspectors of such occupancy.

2. And be it enacted, That section two of the act to which this is a supplement be amended to read as follows:

[2. And be it enacted, That all accidents in workshops, factories or mines, which prevent the injured person or persons from returning to work within two weeks, or which result in death, shall, within twenty-four hours after the expiration of such two weeks, or after the death, as the case may be, be reported by the person in charge of such workshop, factory or mine, to one of the factory inspectors and to the city or district physician, where there is such an officer, which notice may be given by mail.]

3. And be it enacted, That section six of the act to which this is a supplement be amended to read as follows:

[6. And be it enacted, That no minor or woman shall clean any part of the mill gearing or machinery in any factory or workshop while the same is in motion, or work between the fixed or traversing parts of any machine while it is in motion by the action of steam, water or other mechanical power.]

4. And be it enacted, That all factories, manufacturing establishments or workshops of two or more stories in height, in which thirty or more persons are employed above the first floor thereof, shall be provided with one or (if the proper officials deem necessary) more outside iron fire escapes, not less than six feet in length and three feet in width, properly and safely constructed, guarded by iron railings not less than three feet in height, and taking in at least two windows at each story, and connected with the interior by easily accessible and unobstructed openings; and the said fire escapes shall connect by iron stairs not less than twenty-four inches wide, the steps to be not less than six inches tread, placed at not more than an angle of forty-five degrees slant, and protected by a well secured hand-rail on both sides, with a twelve-inch-wide drop ladder from the lower platform reaching to the ground.

5. And be it enacted, That for every twenty persons employed on every floor above the second floor of every factory and workshop there shall be one rope or portable fire escape, and that each story shall be amply supplied with means for extinguishing fire.

6. And be it enacted, That all the main doors, both inside and outside, in factories, shall open outwardly, when the inspectors of factories, in writing, so direct, and that no outside or inside door of any building wherein operatives are employed, shall be so locked, bolted or otherwise fastened during the hours of labor as to prevent egress.

7. And be it enacted, That no minor below the age of sixteen shall be employed at any work dangerous to health without a certificate of fitness from a reputable physician.

8. And be it enacted, That factories and workshops in which women and children are employed and where dusty work is carried on shall be lime-washed or painted at least once in every twelve months.

9. And be it enacted, That an abstract of the factory and workshop laws, to be prepared and furnished by the chief factory inspector, shall be affixed in a conspicuous place at the entrance of every factory and workshop

10. And be it enacted, That if the inspector of factories find that the heating, lighting, ventilation or sanitary arrangement of any shop or factory is such as to be injurious to the health of persons employed therein, or that the means of egress, in case of fire or other disaster, is not sufficient, or that the belting,

shafting, gearing, elevators, drums and machinery in shops and factories are located so as to be dangerous to employes and not sufficiently guarded, or that the vats, pans or structures filled with molten metal or hot liquid are not surrounded with proper safeguards for preventing accident or injury to those employed at or near them, he shall notify the proprietor of such factory or workshop to make the alterations or additions necessary within thirty days; and if such alterations or additions are not made within thirty days from the date of such notice or within such time as said alterations can be made with proper diligence upon the part of said proprietors, said proprietors or agents shall be deemed guilty of violating the provisions of this act; it shall then be the duty of the inspectors to examine the matter in dispute, and, if adverse to the appellant, he shall carry out the alterations or additions directed by said inspectors within thirty days as aforesaid, and under the like penalty.

11. And be it enacted, That section fifteen of the act to which this is a supplement be amended to read as follows:

[15. And be it enacted, That any person or corporation, being the owner, lessee, or occupant of any manufacturing establishment, factory, mine, workshop or store, or owning or controlling the use of any building or room, shall, for the violation of any provision of this act, or of the act to which this is a supplement, be liable to a penalty of fifty dollars for each offense, to be recovered in an action of debt in any district court in any city, or before any justice of the peace having due jurisdiction, and that any employe who shall be guilty of any violation of the provisions of this act shall be liable in a like action to a penalty of not more than fifty dollars, as the court shall fix; that such action shall be prosecuted in the name of the inspector of factories; the trial shall proceed as other actions upon contract, and the first process shall be a summons, returnable in not less than five days or more than ten days after issue, and it shall not be necessary to indorse the same as in qui tam actions; the finding of the court shall be that the defendant has or has not, as the case may be, incurred the penalty claimed in the demand of the plaintiff, and judgment shall be given accordingly; in case an execution shall issue and be returned unsatisfied, the court, on application, after notice to the defendant, may award an execution to take the body of the defendant; and in case such a defendant is committed under such an execution, he shall not be discharged under the insolvent laws of the state, but shall only be discharged by the cour making the order for the body execution, or one of the justices of the supreme court, when such court of justice shall be satisfied that further confinement will not accomplish the payment of the judgment and costs.]

12. And be it enacted, That all acts or parts of acts inconsistent with the provisions of this act, be and are hereby repealed.

Approved May 6th, 1887. *P. L., ch. 177.*

A FURTHER SUPPLEMENT to an act entitled "A general act relating to factories and workshops and the employment, safety, health and work-hours of the operatives," approved April seventh, one thousand eight hundred and eighty-five.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That on and after the sixth day of July, one thousand eight hundred and ninety-two, fifty-five hours shall constitute a week's work in any factory, workshop or establishment where the manufacture of any goods whatever is carried on; and that the periods of employment shall be from seven o'clock in the forenoon until twelve o'clock noon, and from one o'clock in the afternoon until six o'clock in the evening of every working day except Saturday, upon which last-named day the period of employment shall be from seven o'clock in the forenoon until twelve o'clock, noon.

2. And be it enacted, That no person under the age of eighteen years, male or female, and that no woman above that age shall be employed in any factory, workshop or manufacturing establishment, except under the periods of employment hereinbefore mentioned; provided, that the provisions of this act in relation to the hours of employment shall not apply to or affect any person engaged in preserving perishable goods in fruit-canning establishment, or in any factory engaged in the manufacture of glass

3. And be it enacted, That the inspector of factories shall investigate any reported violation of the provisions of this act and of the act to which this is a supplement, after it has been discovered by him or brought to his notice, and may proceed against the violator or violators in the manner prescribed by the act to which this a supplement.

4. And be it enacted, That any manufacturer or other employer who shall violate any of the provisions of this act shall be liable to a penalty of one hundred dollars for each offense, to be recovered in the same way and for the same purpose as prescribed in the act to which this is a supplement.

5. And be it enacted, That all acts or parts of acts inconsistent with the provisions of this act are hereby repealed.

Approved March 23d, 1892.

A FURTHER SUPPLEMENT to an act entitled "A general act relating to factories and workshops and the employment, safety, health and work-hours of operatives," approved April seventh, one thousand eight hundred and eighty-five.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That no room or rooms, apartment or apartments, in any tenement or dwelling-house shall be used for the manufacture of coats, vests, trousers, knee-pants, overalls, cloaks, furs, fur trimmings, fur garments, shirts, purses, feathers, artificial flowers or cigars, except by the immediate members of the

family living therein; that no person, firm or corporation shall hire or employ any person to work in any room or rooms, apartment or apartments, in any tenement or dwelling-house, or building in the area of a tenement or dwelling-house, at making, in whole or in part, any coats, vests, trousers, knee-pants, overalls, cloaks, furs, fur trimmings, fur garments, shirts, purses, feathers, artificial flowers or cigars, unless such person, firm or corporation first shall have obtained a written permit from the factory and workshop inspector, or a deputy inspector, which permit may be revoked at any time that the health of the community or of those employed as aforesaid may require it, and that such permit shall not be granted until due and satisfactory inspection of the premises affected shall have been made by the said inspector or deputy inspectors; that such permit shall be framed and posted in a conspicuous place in the room, or each of the rooms, to which it relates, shall be duly numbered, and shall state the number of persons allowed to be employed therein.

2. And be it enacted, That any person, firm or corporation being the owner, lessee or occupant of the room or rooms to which this act relates shall for the violation of any of the provisions herein be liable to the same penalty or penalties as are now prescribed for violations of the act and supplements of the act to which this is a further supplement.

And be it enacted, That this act shall take effect immediately.

Approved March 17, 1893.

Compulsory Education Law.

A SUPPLEMENT to an act to establish a system of public instruction, approved April ninth, one thousand eight hundred and seventy-five.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That all parents, and those who have the care of children, shall instruct them or cause them to be instructed in spelling, reading, writing, English grammar, geography and arithmetic, and every parent, guardian or other person having control and charge of any child or children between the ages of seven and twelve years, shall be required to send any such child or children to a public day-school for a period of at least twenty weeks in each year, eight weeks, at least, of which attendance shall be consecutive, unless such child or children are excused from such attendance by the board of the school district in which such parents or guardians reside, upon its being shown to their satisfaction that the bodily or mental condition of such child or children has been such as to prevent his, her or their attendance at school, or that such child or children are taught in a private school, or at home, by some qualified person or persons, in such branches as are usually taught in primary schools.

2. And be it enacted, That no child under the age of fifteen years shall be employed by any person, company or corporation to labor in any business whatever, unless such child shall have attended, within twelve months immediately

preceding such employment, some public day or night school, or some well-recognized private school; such attendance to be for five days or evenings every week during a period of at least twelve consecutive weeks, which may be divided into two terms of six consecutive weeks each, so far as the arrangement of school terms will permit, and unless such child, or his or her parents or guardian, shall have complied with the provisions of the act approved March fifth, one thousand eight hundred and eighty-three, limiting the employment hours of the labor of children.

3. And be it enacted, That every parent, guardian or other person having charge or control of any child, from twelve to sixteen years of age, who has been temporarily discharged from employment in any business in order to be afforded an opportunity to receive instruction or schooling, shall send such child to some public or private day-school for the period for which such child shall have been discharged, unless such child shall have been excused from such attendance by the inspectors of factories and workshops or by the board of the school district for reasons as stated in section one hereof.

4 And be it enacted, That in case any parent, guardian or other person shall fail to comply with the provisions of sections one and three of this act, such parent, gnardian or other person shall be deemed guilty of a misdemeanor, and shall, on conviction, be liable to a fine of not less than ten dollars nor more than twenty-five dollars for the first offence, and of not less than twenty-five dollars for each subsequent offence, or to imprisonment for not less than one month or more than three; the said fines, when paid, to be added to the public school money of said school district in which the offence occurred.

5. And be it enacted, That all children between the ages of seven and fifteen years, who are habitual truants from school, or who, while in attendance at any public school, are incorrigible, vicious or immoral in conduct, and all children between the said ages who absent themselves habitually from school, and habitually wander about the streets and public places during school hours, having no businsss or lawful occupation, shall be deemed juvenile disorderly persons and subject to the provisions of this act.

6. And be it enacted, That in all cities having a duly authorized police force, it shall be the duty of the police authority, at the request of the inspectors of factories and workshops, or the school authority, to detail one or more members of said force to assist in the enforcement of this act, and in districts having no regular police force subject to this act, it shall be the duty of the board of education or the school district officers to designate one or more constables of said city, township or village, whose duty it shall be to assist in the enforcement of this act, as occasion may require, and said board of education shall fix and determine the compensation to be paid such officer or constable for the performance of his duties under the act; members of any police force or any constable designated to assist in the enforcement of this act, as provided in this section, shall be known as truant officers; provided, that in districts where no constable resides, the said board shall have power to appoint some other suitable person as truant officer.

7. And be it enacted, That it shall be the duty of any such truant officer or officers detailed to enforce the provisions of this act to examine into all cases of truancy, when requested so to do by the inspectors of factories and workshops, or by a district school board, and to warn such truants, their parents or

guardians, in writing, of the final consequences of truancy, if persisted in, and also to notify the parent, guardian or other person having the legal charge and control of any juvenile disorderly person, that the said person is not attending any school, and to require said parent, guardian or other person to cause the said child to attend some recognized school within five days from said notice, and it shall be the duty of said parent, guardian or other person having the legal charge and control of said child, to cause the attendance of said child at some recognized school; if said parent, guardian or other person having the legal charge and control of said child shall willfully refuse, fail or neglect to cause said child to attend some recognized school, it shall be the duty of said officer to make or cause to be made a complaint against said parent, guardian or other person having the legal control and charge of such child in any court of competent jurisdiction in the school district in which the offense occurred for such refusal or neglect, and upon conviction thereof said parent, guardian or other person, as the case may be, shall be punished by a fine of not less than ten dollars nor more than twenty-five dollars, or the court may in its discretion require the person so convicted, to give bond in the penal sum of one hundred dollars, with one or more sureties, to be approved by said court, on condition that said person so convicted shall cause the child or children under his or her legal charge or control to attend some recognized school within five days thereafter, and to remain at said school during the term prescribed by law; provided, that if said parent or guardian, or other person in charge of said child, shall prove inability to cause said child to attend said recognized school, then said parent or guardian or other person shall be discharged, and said court shall, upon complaint of said truant officer or other person that said child is a juvenile disorderly person, as described in section five of this act, proceed to hear such complaint, and if said court shall determine that said child is a juvenile disorderly person within the meaning of this act, then said court shall thereupon sentence said child to a juvenile reformatory until such child shall arrive at the age of sixteen years, unless sooner discharged by the board of control of said juvenile reformatory; provided, however, that such sentence may be suspended in the discretion of said court for such time as the child shall regularly attend shool and properly deport himself or herself; it is further provided, that if for any cause the parent or guardian, or other person having charge of any juvenile disorderly person as defined in this act, shall fail to cause such juvenile disorderly person to attend said recognized school, then complaint against such juvenile disorderly person may be made, heard, tried and determined in the same manner as is provided for in case the parent pleads inability to cause said juvenile disorderly person to attend said recognized school; and it is further provided, that no child under the age of nine years shall be sent to a juvenile reformatory under the provisions of this act.

8. And be it enacted, That it shall be the duty of the officers empowered, detailed or appointed under the provisions of this act to assist in the enforcement thereof, to institute or cause to be instituted, proceedings against any parent, guardian or other person having legal charge and control of any child, or any person, company or corporation violating any of the provisions of the sections of this act; provided, this law shall not be operative in those school districts of the State where there are not sufficient accommodations to seat the children compelled to attend school under the provisions

of this act; and that no prosecution shall be instituted against any parent, guardian or child unless they have received due notification from an officer empowered under this act that they are acting in violation of the provisions of this act.

9. And be it enacted, That when there is not within the distance of two miles from the factory or shop in which a child under the age of fifteen years is employed, or from the residence of the child, a recognized efficient school, attendance at a school temporarily approved by an inspector of factories and workshops shall for the purposes of this act be deemed attendance at a recognized efficient school, and the inspector of factories shall immediately report to the education department every case of the approval of a school by him under this section.

10. And be it enacted, That two weeks' attendance of children between twelve and fifteen years of age at a recognized half-time or evening school shall for all purposes of this act be counted as one week at a day school.

11 And be it enacted, That when any of the provisions of this act are violated by a corporation, proceedings may be had against any of the officers or agents of said corporation who in any way participate in or are cognizant of such violation by the corporation of which they are the officers or agents, and said officers or agents shall be subject to the same penalties as individuals similarly offending.

12. And be it enacted, That all acts and parts of acts inconsistent with this act are hereby repealed, and that this act shall take effect on the first day of September, one thousand eight hundred and eighty-five.

Approved April 20, 1885.

Manufacture of Flour and Meal Food Products.

AN ACT to regulate the manufacture of flour and meal food products.

Be it enacted by the Senate and General Assembly of the State of New Jersey:

1 No employee shall be required, permitted or suffered to work in a biscuit, bread or cake bakery, or confectionery establishment more than sixty hours in any one week, or more than ten hours in any one day, unless for the purpose of making a shorter workday on the last day of the week, nor more hours in any one week than will make an average of ten hours per day for the whole number of days in which such person shall so work during such week; but it shall be lawful in cases of emergency for employers to permit any employee and for the latter to work an additional time not ex ceeding two hours per day, such extra work to be remunerated at the current rate of the weekly wages paid to such employee for his weekly work of sixty hours; no employee in any biscuit, bread or cake bakery shall be discharged by his employer for having made any truthful statement as a witness in a court or to the factory inspector or a deputy factory inspector, in pursuance of this act.

2. All buildings or rooms, occupied as biscuit, bread or cake bakeries, shall be drained and plumbed in a manner to conduce to the proper and healthful

sanitary condition thereof, and constructed with air shafts, windows or ventilating pipes sufficient to insure ventilation, as the factory inspector or any of his deputies shall direct; no cellar or basement not now occupied as a bakery, shall hereafter be occupied and used as a bakery, and a cellar bakery heretofore occupied, when once closed, shall not be re-opened, unless the proprietor shall have previously complied with the provisions of this act.

3. Every room used for the manufacture of flour or meal food products shall be at least eight feet in height and shall have, if deemed necessary by the factory inspector, an impermeable floor, constructed of cement or of wood properly saturated with linseed oil; the side walls of such rooms shall be plastered or wainscoted, except where brick walls are shown, and, if required by the factory inspector, shall be whitewashed at least once in three months; the furniture and utensils in such rooms shall be so arranged that the furniture and floor may at all times be kept in a proper and healthful, sanitary and clean condition; no domestic animal, except cats, shall be allowed to remain in a room used as a biscuit, bread or cake bakery, or for the storage of flour or meal food products.

4 The manufactured flour of meal products shall be kept in perfectly dry and airy rooms, so arranged that the floors, shelves and all other facilities for storing the same can be easily and perfectly cleaned.

5. Every such bakery shall be provided with a proper wash room and water closet or closets, apart from the bake room or rooms where the manufacturing of such food products is conducted; and no water closet, earth closet or privy shall be within or communicate directly with the bake room of any bakery, hotel or public restaurant.

6. The sleeping places for the persons employed in a bakery shall be kept separate from the room or rooms where flour or meal food products are manufactured or stored, and the factory inspector or a deputy factory inspector may inspect such sleeping places, if they are on the same premises as the bakery, and order them cleaned or changed, in compliance with sanitary principles.

7. Any person who violates any of the provisions of this act, or refuses to comply with any requirement of the factory inspector or deputy factory inspector, as provided herein, shall be guilty of a misdemeanor, and on conviction shall be punished by a fine of not less than twenty nor more than fifty dollars for the first offense, and not less than fifty nor more than one hundred for a second offense, or imprisonment for not more than ten days, and for a third offense by a fine of not less than two hundred and fifty dollars and not more than thirty days' imprisonment.

8. The factory inspector and his deputies shall inspect all bakeries and see that the provisions of this act are observed therein; such deputies shall have all power and duties of the deputy inspector and shall be amenable to the supervision and control of the factory inspector; the factory inspector or a deputy factory inspector authorized by him may issue a certificate to a person conducting a bakery, that such bakery is conducted in compliance with all the provisions of this act.

9. The owner, agent or lessee of any property affected by the provisions of sections two, three or five of this act, shall, within sixty days after the service of a notice requiring any alterations to be made in or upon such premises, comply therewith, and such notice shall be in writing and may be served upon

such owner, agent or lessee, either personally or by mail, and a notice mailed to the last known address of such owner, agent or lessee shall be deemed sufficient for the purpose of this act.

P. L. Chap. 181.

Approved April 16, 1896.
