You can also dial in using your phone.

United States: [+1 \(312\) 757-3121](tel:+13127573121)

Access Code: 811-454-021

- A. Open Public Meetings Act Compliance
- B. Roll Call
- C. Approval of Minutes
- D. Chair's Remarks
- E. Acting Executive Director's Report
- F. Presentation: There are No Accidents – Jessie Singer, Author
- G. Committee Reports/Action Items*
- Project Prioritization – Commissioner John P. Kelly, Chair
 - 1. Minor Amendment to the FY 2022 - 2025 Transportation Improvement Program to Add the Bayonne Commuter Ferry Pier and Dock Improvements Project as Requested by the City of Bayonne (Attachments G.1.a., G.1.b.)
 - 2. Minor Amendment to the FY 2022 - 2025 Transportation Improvement Program to Add 29 Projects as Requested by the New Jersey Department of Transportation (Attachments G.2.a., G.2.b.)

* Following the Committee Reports, there will be an opportunity for public comment prior to any Action Item vote.

3. Minor Amendment to the FY 2022 - 2025 Transportation Improvement Program to Add Federal Funding to the Pavement Preservation Program as Requested by the New Jersey Department of Transportation (Attachments G.3.a., G.3.b.)
 4. Minor Amendments to the FY 2022 - 2025 Transportation Improvement Program to Add Federal Funds to Three Projects as Requested by the New Jersey Department of Transportation - Eve Chamberlain (Attachments G.4.a., G.4.b.)
- Planning and Economic Development – Commissioner Charles Kenny, Chair
 - Freight Initiatives – Commissioner Jason Sarnoski, Chair
- I. Public Participation
 - J. Time and Place of Next Meeting: The next virtual meeting of the NJTPA will be held on September 12, 2022, at 10:30 a.m. Log-in instructions will be provided.
 - K. Adjournment

NJTPA Board of Trustees Meeting
July 11, 2022
10:30 AM
(Agenda Package Attached)

The agenda package for the July 11, 2022 Board meeting is attached. The meeting will be held via GoToMeeting. The log-in details are below. Please login 5-10 minutes early to ensure your connection works.

To participate please click on the meeting link at the bottom of this page from your computer, tablet or smartphone. (If participating by smartphone only, you will need to install the GoToMeeting app either in the Apple store or Google Play store.)

If your computer does not have a microphone, choose “phone call” after you log in via the link and you will be provided with call-in information. **Please be sure to enter the audio PIN number provided to properly connect your phone audio.**

If you are unable to participate by computer or smart phone, you can use the call-in information at the bottom of this document to participate by telephone only. **However, we strongly recommend using a computer or the GoToMeeting app on your smartphone if possible.**

Further information is available in the GoToMeeting Quick Guide for Attendees at <https://www.gotomeeting.com/meeting/resources/gotomeeting-quick-and-helpful-guide-for-attendees>

If you have any questions or concerns, don't hesitate to contact me at BMorris@NJTPA.org or 973-639-8410.

JOHN W. BARTLETT, CHAIR

Board Meeting Minutes

May 9, 2022

A. Open Public Meetings Act Compliance

Chair John W. Bartlett, Passaic County, called the meeting to order at 10:30 a.m. Beverly Morris, Central Staff, reported that, in accordance with the Open Public Meetings Act, Chapter 231, P.L.1975, adequate notice of this meeting had been forwarded to the *Star Ledger*, the *Asbury Park Press*, the *Courier News*, the *Daily Record*, the *Home News Tribune*, the *Jersey Journal*, *New Jersey Herald*, and *The Record*.

B. Roll Call

Ms. Morris called the roll. Twenty voting members were present. (Attachment 1).

C. Approval of Minutes

A motion to approve the minutes of the March 14, 2022 meeting was made by Ocean County, seconded by Union County and carried unanimously.

D. Chairman's Remarks

Chair Bartlett congratulated Commissioner Kathryn DeFillippo, Morris County, who was scheduled to be honored with a leadership award from the Newark Regional Business Partnership. Commissioner DeFillippo announced that she will retire from elected office at the end of this year. The award recognizes her work as a county commissioner, her long-time service on the NJTPA Board and her recent term as Chair. He noted that NJTPA Executive Director Mary Ameen will retire at the end of June, which he said he would address at the end of the meeting. He also noted that former NJTPA Chair Commissioner Matt Holt, Hunterdon County, retired May 1.

The Chair said that the 2022 federal certification review for the NJTPA is underway and staff has responded to an initial request for information. He said representatives of the Federal Highway and Federal Transit administrations will conduct the review in early November. He encouraged all Board members and staff from the subregions and agencies to participate in the certification review. He said he is confident that the federal government will see the great work being done at

the NJTPA. Chair Bartlett noted that following the last certification review there was one corrective action, which the NJTPA addressed by adopting a Title VI Implementation Plan in 2018. He said staff recently updated the maps, charts, and statistics in that document to reflect the Transportation Improvement Program (TIP) that was adopted last year, as well as the results of the 2020 US Census.

Chair Bartlett said the NJTPA launched a new Equity Resources website to support the ongoing commitment to improving equity and ensuring that everyone in the region has access to NJTPA projects and programs. The website includes an interactive [Equity Analysis Tool](#), which he encouraged all to explore. The tool is an interactive map that allows a quick view of the different populations living in a particular project area, community, or county – down to the census tract level. The Chair said the tool enables planners to make the critical first step in recognizing the location of traditionally underrepresented populations to better implement strategies for engaging them. He encouraged all to attend the NJTPA’s Tech Tools for Planning Expo on May 19.

The Chair announced that the NJTPA, in partnership with Sustainable Jersey and the Voorhees Transportation Center at Rutgers, has selected seven municipalities to receive Complete Streets Technical Assistance. The program provides free technical assistance such as conducting workshops on walkability, creating bicycle network plans and conceptual designs, and developing complete streets policies. He said the municipalities of Passaic, Belleville, Bound Brook, Dunellen, Plainfield, Oakland, and Seaside Heights will be participating in the program, which is a perfect example of how the NJTPA is working to put the principles of Plan 2050 into action at the local level.

Chair Bartlett reminded all to join him at the May 18 virtual Morris Canal Working Group meeting, where staff will provide an update on the Transportation Alternatives Set-Aside Program, which the NJTPA has used to fund greenway projects for many years. This program is receiving additional funding under the federal Infrastructure Investment and Jobs Act (IIJA), which should allow the NJTPA to complete more projects in the region. He said New Jersey is expecting to see at least \$13.5 billion in transportation funding over the next five years as a result of this legislation. The Chair noted that, in April, Transportation Secretary Pete Buttigieg announced \$834 million for transit – the fourth largest award in the country. The NJTPA posts IIJA funding opportunities at <https://njtpa.org/IIJA.aspx>.

Michael Russo, NJDOT, and Jeremy Colangelo-Bryan, NJ TRANSIT, said Ms. Ameen will be missed and wished her the best in the next chapter of her life.

E. Executive Director’s Report

Ms. Ameen said the NJTPA played an active role at the April annual TransAction Conference in Atlantic City. She said NJTPA Second Vice Chair Charles Kenny moderated two panels – one on IIJA and another on using the arts in public engagement. Board Secretary, Commissioner Bette Jane Kowalski, Union County, moderated a session on electric vehicles, and Commissioner DeFillippo attended many of the sessions. Ms. Ameen said NJTPA staff moderated or served on panels on topics including bicycle-pedestrian trails, congestion management, complete streets, and the state’s Strategic Highway Safety Plan. She said a common theme heard throughout the

conference is that the funding and programs set in motion by the IIA legislation represent an exceptional and historic opportunity for advancing transportation, but taking advantage of the funding opportunities over the five-year span of the law presents challenges. Many programs require a local match and preparing applications can be time-consuming at a time when public agencies face staff shortages and turnover. She said the NJTPA is ready to help the subregions by sharing data, offering technical expertise for grant applications, and providing letters of support.

Ms. Ameen said the IIA also presents challenges and opportunities for the NJTPA's own operations. The legislation directs the agency to expand the scope of its planning activities to include the areas of housing and resiliency. The NJTPA will also be responsible for programming new projects and programs into the TIP and for processing time-sensitive TIP modifications and amendments to take full advantage of available federal funding.

Ms. Ameen said, to efficiently meet the demands of the new law, the NJTPA is fortunate to have active and engaged Board members to oversee this work through the standing committees and to have experienced and expert staff with a record of close cooperation with planning partners. She noted two new staff members: Adam Caspari, who joined the IT staff as Database and Application Developer in late January, and Mark Hrywna, the new writer and editor, who is working in the Outreach group.

Ms. Ameen said, through the federal certification review process this fall, the NJTPA is being called upon to demonstrate its capabilities and compliance with federal laws, and it is an opportunity to take stock of the progress made over the last four years, despite all the challenges faced over the last two. She noted that there will be opportunities for Trustees and stakeholders to participate in the process.

Ms. Ameen highlighted one successful program, Planning for Emerging Centers, which provides planning assistance for municipalities. In past years, the program has supported Raritan Borough's sustainable economic development plan, complete streets plans in Keyport and Hoboken, and a transit village initiative in Boonton, among others. May 16 is the deadline to apply for the next round of Planning for Emerging Centers grants, and winners will be announced later this year.

Ms. Ameen said several efforts are wrapping up with the end of the fiscal year on June 30. The regional On-Road Transportation Greenhouse Gas Inventory & Forecast is being finalized, and the Pedestrian Counts Study will be concluding. She said other studies are ongoing, including the Active Transportation Plan and the enhancement of the PRIME tool, which provides an interactive database of findings from past planning efforts.

Ms. Ameen said, this summer, some communities along the New Jersey shore and elsewhere will be undertaking Street Smart pedestrian campaigns, posting advisories along main routes and distributing information to promote safe behavior by both drivers and pedestrians. The communities include Absecon, Little Silver, Long Beach Island, and Manasquan, where the Southern Ocean Chamber of Commerce will be distributing the materials. She noted that many campaigns are assisted by Transportation Management Associations (TMAs).

Ms. Ameen noted that the Metropolitan Area Planning (MAP) Forum, of which the NJTPA is a member, along with nine other MPOs across four states, will hold a [virtual meeting on June 3](#).

F. Presentation: Connect NEC 2035 – The Future of the Northeast Corridor

Mitch Warren, Executive Director, Northeast Corridor Commission, outlined *Connect NEC 2035 – The Future of the Northeast Corridor* (C35), the Commission’s 15-year service development plan and infrastructure planning process. Mr. Warren said, while C35 was developed before the IJA was passed, the timing is fortunate because it presents an unconstrained list of projects and workforce needs for which the commission can now seek funding as it looks to modernize the system and improve reliability. The C35 plan is available on the NEC [website](#).

Mr. Warren noted that the Northeast Corridor, a 457-mile rail corridor between Boston and Washington, D.C., carries more than 800,000 primarily commuter passengers a day and 2,000 commuter, intercity and freight trains operated by nine agencies. The 18-member commission is a collaborative partnership that includes a representative from each of nine states, and nine more representing Amtrak and the U.S. Department of Transportation. New Jersey’s representative on the NEC Commission is Kevin Corbett, CEO and President of NJ TRANSIT and a member of the NJTPA Board.

G. Committee Reports/Action Items

Project Prioritization – Commissioner John P. Kelly, Chair

Commissioner Kelly said the Committee considered four action items at the April joint meeting. First, the Committee approved the list of projects selected for the 2022 Safe Routes to School Program. He said NJDOT issued the solicitation for this funding opportunity last May, and a total of 41 eligible applications were received for projects in the NJTPA region. A Technical Review Committee reviewed the applications and recommended 22 Safe Routes to School projects totaling \$13.8 million for implementation.

The Commissioner said, next, the Committee considered a minor amendment to the current TIP to add the Route 57/182/Hackettstown Mobility Improvements Project in Warren and Morris counties. He said NJDOT requested the programming of \$5.89 million in Congestion Mitigation and Air Quality funds for the project’s construction phase in Federal Fiscal Year 2022. The funding is available from released program funds.

Commissioner Kelly said the third action item is a minor amendment that adds federal funds to the Route 22, Bridge over Echo Lake project in Union County. He said state funds had been appropriated for the project in the 2021 NJDOT Capital Program, but the agency has requested federalizing the programmed funding with \$10.36 million in Bridge Formula Program funds for construction in fiscal year 2022.

The Commissioner said the fourth action item is a minor amendment to the current TIP to add federal funds to four projects and one program. He said NJ TRANSIT requested the minor

amendment to reprogram unobligated prior fiscal year funding into the constrained 2022 TIP. The funds are available but programmed outside constrained years. Pursuant to Federal Transit Administration requirements, the funds need to be moved into the appropriate years to be authorized. He noted that there is no change in the amount of funding, just a shift into the 2022 element of the current TIP. The subject projects and program are as follows:

- Hudson-Bergen and Newark LRT System Project in Hudson County - \$4.82 million
- New Brunswick Station Platform Extension and Elevator Improvements in Middlesex County - \$9.89 million
- Lackawanna Cutoff MOS Project - \$50.49 million
- Light Rail Vehicle Rolling Stock Program – \$7.17 million
- Perth Amboy Intermodal ADA Improvements Project in Middlesex County - \$55.35 million

Action Item 1: Approval of Projects for the 2022 Safe Routes to School Program (Attachment 2)

A motion to approve the resolution was made by Hudson County, seconded by Bergen County and carried unanimously.

Action Item 2: Minor Amendment to the FY 2022 - 2025 Transportation Improvement Program to Add the Route 57/182/Hackettstown Mobility Improvements Project in Warren and Morris Counties as Requested by NJDOT (Attachment 3)

A motion to approve the resolution was made by Warren County, seconded by Morris County and carried unanimously.

Action Item 3: Minor Amendment to the FY 2022 - 2025 Transportation Improvement Program to Add Federal Funds to the Route 22, Bridge over Echo Lake Project in Union County as Requested by NJDOT (Attachment 4)

A motion to approve the resolution was made by Union County, seconded by Essex County and carried unanimously.

Action Item 4: Minor Amendments to the FY 2022 - 2025 Transportation Improvement Program to Add Federal Funds to Five Projects/Programs as Requested by NJ TRANSIT

- Hudson-Bergen and Newark LRT System Project in Hudson County
- New Brunswick Station Platform Extension and Elevator Improvements in Middlesex County
- Lackawanna Cutoff MOS Project
- Light Rail Vehicle Rolling Stock Program
- Perth Amboy Intermodal ADA Improvements Project in Middlesex County

(Attachment 5)

A motion to approve the resolution was made by NJ TRANSIT, seconded by Monmouth County and carried unanimously.

Planning and Economic Development – Commissioner Charles Kenny, Chair

Commissioner Kenny congratulated Ms. Ameen on her retirement. He said the Committee did not consider any action items at the April joint meeting, but Central Staff provided an overview of federal developments. The committee also received written information items.

The Commissioner said much of what was heard about new federal funding and grant opportunities had been mentioned by Chair Bartlett and Ms. Ameen, including a much-needed infusion of funding for NJ TRANSIT as part of the legislation's overall support for critical infrastructure. He said this includes welcome developments such as many new competitive grant opportunities, as well as significant increases in formula funding for various programs, which will bolster existing efforts to enhance roads, bridges, transit, and walking/biking facilities.

Commissioner Kenny said, also at the meeting, Central Staff briefed the Committee on the NJTPA's Pedestrian Counts Study, which grew from a need to assess pedestrian volumes in the region in a comprehensive way. Last fall, count data was collected at over a hundred intersections in the region. He said data analysis and refinement is in progress, and the project will conclude in June. The data can be used in various subregional planning activities, including work to better accommodate and improve safety for walkers and bikers. He noted that the work supports the NJTPA's regional Active Transportation Plan now under development, as well as the goals of Plan 2050.

Freight Initiatives – Commissioner Jason Sarnoski, Chair

Commissioner Sarnoski congratulated Ms. Ameen on her retirement. He said the April meeting of the Freight Initiatives Committee featured the NJTPA's annual New Jersey port and maritime update. He said the first speaker was Sam Ruda, Director of the Port Authority of New York & New Jersey (PANYNJ) Port Department. Mr. Ruda reported that current container traffic at the port is 8 to 10 percent higher than the record levels seen in 2021 and continues to grow, and this growth is driven by "a massive change in personal consumption" favoring goods over services, a trend that accelerated as people ordered online during the pandemic. Also, shippers facing congestion, backlogs, and labor negotiations at West Coast ports are shifting an increasing share of commerce to the East Coast. As a result, terminals are operating at full or nearly full capacity, but the port faces shortages of truck drivers, chassis, and other constraints.

The Commissioner said the next speaker was John Nardi, President of the New York Shipping Association, who informed the Committee that the growth in volume at the port has spurred a strong demand for workers at the maritime terminals, requiring the hiring of hundreds more workers. Mr. Nardi said the Association is working with the Council on Port Performance to conduct outreach to potential workers and communities in Newark, Elizabeth, and surrounding areas. Ms. Nardi noted that New Jersey has been seeking to withdraw from the Waterfront Commission and turn its oversight of hiring functions over to the New Jersey State Police, which would expedite the hiring process. However, the State of New York is attempting to block the withdrawal through legal action that could reach the Supreme Court.

Commissioner Sarnoski said the Committee then heard from Christopher A. Watson, Planning Official for the City of Newark, who briefed the Committee on a new redevelopment effort, called Forward-Bound Doremus. The effort focuses on five districts adjacent to Newark's Doremus Avenue. Mr. Watson said the project seeks to cultivate a "reciprocal relationship" that would link port businesses to local neighborhoods and nearby commercial activities while redevelopment efforts attract new port-related businesses.

The Commissioner said, among the committee member reports at the meeting, NJDOT noted that the 2022 update of the Federal Highway Administration-required State Freight Plan is underway with participation by the NJTPA and other stakeholders.

H) Public Participation

Neile Weissman, Complete George, suggested two plans to help the PANYNJ to address the problem of bicycle vs. pedestrian traffic on the George Washington Bridge as part of the re-cabing project that is underway. One suggestion is to use the catwalk along the south path as the basis for a limited use bikeway. The other is a 10-foot wide bikeway running below the upper deck supports. He said he had asked the PANYNJ to vet these proposals including the potential for external funding. Mr. Weissman said the limitations of the current design will hobble the growth of cycling across the region for a generation.

Following the public participation portion of the meeting, Chair Bartlett said Ms. Ameen, who served as Executive Director since October 2018 and has been with the NJTPA since 2006, has been a steady hand guiding the NJTPA staff and working with the Board to oversee and approve billions of dollars of investments in the region. He said, through her day-to-day leadership, she has encouraged the NJTPA's innovative planning programs in cooperation with partner agencies, the subregions and the TMAs. The Commissioner said Ms. Ameen's leadership enabled the NJTPA to continue its operations and even thrive through the difficult time of the pandemic. He thanked her on behalf of the Board and wished her all the best in her retirement. The Commissioner read from a plaque describing Ms. Ameen's achievements during her tenure as NJTPA Executive Director.

Commissioner DeFillippo thanked Ms. Ameen for her ability to muster resources and staff to help make the transition to remote work and virtual meetings easier so that the NJTPA could continue to its vital work to support regional transportation during the pandemic. She also thanked Ms. Ameen for her support during her two years as NJTPA Chair. She wished her all the best in her retirement.

Jeffrey Nielsen, Governor's Authorities Unit (GAU), thanked Ms. Ameen for her strong leadership and wished her the best as she moves forward with her next chapter. He expressed gratitude on behalf of the GAU and the people of the State of New Jersey.

Commissioner Kowalski thanked Ms. Ameen for her guidance to staff, Board members and all the partners as she helped steer the agency through the pandemic and toward completing many of the major projects that are improving transportation and the lives of millions of New Jersey residents. She wished her a happy and healthy retirement.

Mary K. Murphy, PANYNJ, congratulated Ms. Ameen, who she said is always professional and insightful with expertise in many areas such as engineering, project management, and best business practices. In her own time as Executive Director of the NJTPA, Ms. Murphy said she mostly remembers the caring and compassion Ms. Ameen brought to her work and her effectiveness in improving the agency.

Commissioner Kelly echoed everyone's best wishes. He expressed appreciation that Ms. Ameen provided guidance to all the Board members graciously and treated them with deep respect. He wished her well in the future.

Ms. Ameen said leaving the NJTPA was a hard decision. She said anything she accomplished was because she had the support and trust of the people around her. She said a special aspect of the planning agency is that people are by nature thoughtful, forward thinking, and caring about quality of life in the region. Ms. Ameen said she learned much from everyone and thanked the NJTPA staff, the supportive and engaged Board, and the partners and stakeholders who all made her job a joy.

Chair Bartlett thanked Ms. Ameen on behalf of the Board. He said the search for her successor had begun, and NJTPA Deputy Executive Director Dave Behrend will serve as Acting Executive Director upon Ms. Ameen's departure at the end of June until that process concludes. He noted that the NJTPA is ready to make the best of the once-in-a-generation IJA funding opportunities and expand on the base Ms. Ameen has built.

I) Time and Place of Next Meeting

Chairman Bartlett announced that the next virtual meeting of the NJTPA will be held on Monday, July 11 at 10:30 a.m.

J) Adjournment

At 11:48 a.m., motion to adjourn was made by Morris County, seconded by Ocean County and carried unanimously.

NORTH JERSEY TRANSPORTATION PLANNING AUTHORITY, INC.
Meeting of the Board of Trustees
Attendance Record: May 9, 2022

Subregion/Agency	Voting Members/Alternates	Staff & Others

DRAFT RESOLUTION: APPROVAL OF PROJECTS FOR THE 2022 SAFE ROUTES TO SCHOOL PROGRAM

WHEREAS, the North Jersey Transportation Planning Authority, Inc. (NJTPA) has been designated by the Governor of New Jersey as the Metropolitan Planning Organization (MPO) for the northern New Jersey region; and

WHEREAS, the Transportation Alternates Set-Aside program (TA Set-aside) and Safe Routes to School program are supported in the Infrastructure Investment and Jobs Act of 2021 with a set-aside of funds under the Surface Transportation Block Grant Program (STBGP); and

WHEREAS, the TA Set-aside program and Safe Routes to School program provide an opportunity for eligible applicants to apply for federal funding for the construction of community based “non-traditional” projects designed to strengthen the cultural, aesthetic, and environmental aspects of the nation’s intermodal system; and

WHEREAS, the New Jersey Department of Transportation (NJDOT) conducted separate solicitations and awards for the TA Set-aside program and the Safe Routes to School program; and

WHEREAS, the New Jersey Department of Transportation (NJDOT) sent out solicitation notifications for Safe Routes to School in May 2021 inviting eligible applicants to submit for the program; and

WHEREAS, the NJDOT received 41 eligible SRTS applications in the NJTPA region; and

WHEREAS, a Technical Review Committee comprised of NJTPA Central Staff, the NJDOT Division of Local Aid, Division of Traffic Engineering and Safety and the Bureau of Environmental Program Resources reviewed the applications; and

WHEREAS, within the NJTPA region, the NJDOT has agreed to award the top-scoring SRTS projects with a funding total of \$13.842 million; and

WHEREAS, the recommended projects address the goals of the programs as defined; and

WHEREAS, no action authorized by the NJTPA shall have force or effect until ten (10) days, Saturdays, Sundays and public holidays excepted, after a copy of the minutes of the meeting of the Board of Trustees has been delivered to the Governor for review, unless prior to

Approved May 9, 2022

expiration of the review period the Governor shall approve same, in which case the action shall become effective upon such approval.

NOW, THEREFORE, BE IT RESOLVED, that the North Jersey Transportation Planning Authority hereby approves the attached list of projects for the Safe Routes to School Program.

BE IT FURTHER RESOLVED, that a copy of this resolution be forwarded to the New Jersey Department of Transportation for submission to the Federal Highway Administration and to the counties of the selected applicants.

Approved May 9, 2022

**DRAFT RESOLUTION: MINOR AMENDMENT TO THE FY 2022 – 2025
TRANSPORTATION IMPROVEMENT PROGRAM TO
ADD THE ROUTE 57/182/HACKETTSTOWN MOBILITY
IMPROVEMENTS PROJECT IN WARREN AND MORRIS
COUNTIES AS REQUESTED BY THE NEW JERSEY
DEPARTMENT OF TRANSPORTATION**

WHEREAS, the North Jersey Transportation Planning Authority, Inc. (NJTPA) has been designated by the Governor of New Jersey as the Metropolitan Planning Organization (MPO) for the northern New Jersey region; and

WHEREAS, the NJTPA formally adopted the FY 2022 – 2025 Transportation Improvement Program (TIP) on September 13, 2021; and

WHEREAS, the NJTPA on September 24, 2012 approved a Memorandum of Understanding (MOU) among the NJTPA, the New Jersey Department of Transportation (NJDOT), and NJ TRANSIT on procedures to amend and modify the State Transportation Improvement Program and the NJTPA TIP; and

WHEREAS, the TIP may be revised any time; and

WHEREAS, according to the MOU when federal funds above a specified threshold are added to a project, when a project programmed with federal funds is added to the TIP, when federal funds are deleted from a project or when the construction phase of work is moved out of the constrained years of the TIP and a new air quality conformity determination is not required, this constitutes a minor amendment; and

WHEREAS, the New Jersey Department of Transportation has requested the addition of federal funds to the Route 57/182/46, Hackettstown Mobility Improvements Project (DB# 9237) in Warren and Morris counties for the Construction phase of work; and

WHEREAS, this minor amendment is exempt from an air quality conformity determination and does not impact the current conformity determination; and

WHEREAS, Congestion Management Process requirements do not apply to this action; and

WHEREAS, the FY 2022 TIP conforms to the MAP-21/FAST Act and Infrastructure Investment and Jobs Act performance-based planning requirements; and

Approved May 9, 2022

WHEREAS, consistent with NJTPA public participation procedures, the NJTPA has provided opportunities for review of these actions; and

WHEREAS, no action authorized by the NJTPA shall have force or effect until ten (10) days, Saturdays, Sundays and public holidays excepted, after a copy of the minutes of the meeting of the Board of Trustees has been delivered to the Governor for review, unless prior to expiration of the review period the Governor shall approve same, in which case the action shall become effective upon such approval.

NOW, THEREFORE, BE IT RESOLVED, that the North Jersey Transportation Planning Authority hereby approves the specified amendment to the FY 2022 – 2025 Transportation Improvement Program.

BE IT FURTHER RESOLVED that a copy of this resolution is forwarded to the New Jersey Department of Transportation for submission to the Federal Highway Administration.

Approved May 9, 2022

**DRAFT RESOLUTION: MINOR AMENDMENT TO THE FY 2022 – 2025
TRANSPORTATION IMPROVEMENT PROGRAM TO
ADD FEDERAL FUNDS TO THE ROUTE 22, BRIDGE
OVER ECHO LAKE PROJECT IN UNION COUNTY AS
REQUESTED BY THE NEW JERSEY DEPARTMENT OF
TRANSPORTATION**

WHEREAS, the North Jersey Transportation Planning Authority, Inc. (NJTPA) has been designated by the Governor of New Jersey as the Metropolitan Planning Organization (MPO) for the northern New Jersey region; and

WHEREAS, the NJTPA formally adopted the FY 2022 – 2025 Transportation Improvement Program (TIP) on September 13, 2021; and

WHEREAS, the NJTPA on September 24, 2012 approved a Memorandum of Understanding (MOU) among the NJTPA, the New Jersey Department of Transportation (NJDOT), and NJ TRANSIT on procedures to amend and modify the State Transportation Improvement Program and the NJTPA TIP; and

WHEREAS, the TIP may be revised any time; and

WHEREAS, according to the MOU when federal funds above a specified threshold are added to a project, when a project programmed with federal funds is added to the TIP, when federal funds are deleted from a project or when the construction phase of work is moved out of the constrained years of the TIP and a new air quality conformity determination is not required, this constitutes a minor amendment; and

WHEREAS, the New Jersey Department of Transportation has requested the addition of federal funds to the Route 22, Bridge over Echo Lake project (DB# 14330) in Union County for the Construction phase of work; and

WHEREAS, this minor amendment is exempt from an air quality conformity determination and does not impact the current conformity determination; and

WHEREAS, Congestion Management Process requirements do not apply to this action; and

WHEREAS, the FY 2022 TIP conforms to the MAP-21/FAST Act and Infrastructure Investment and Jobs Act performance-based planning requirements; and

BE IT FURTHER RESOLVED that a copy of this resolution is forwarded to the New Jersey Department of Transportation for submission to the Federal Highway Administration and the Federal Transit Administration.

Summary of Action

Minor Amendment to the FY 2022 - 2025 Transportation Improvement Program to Add the Bayonne Commuter Ferry Pier and Dock Improvements Project as Requested by the City of Bayonne

Action: In order to advance the following project, the North Jersey Transportation Planning Authority (NJTPA), on behalf of the City of Bayonne, has requested amending the FY 2022 – 2025 TIP to program federal funds.

Background: According to the *TIP Memorandum of Understanding*, when a project or program that uses federal funds is added to the Transportation Improvement Program (TIP) and a new air quality conformity determination is not required, this constitutes a minor amendment, and action is required by the NJTPA Project Prioritization Committee and the NJTPA Board of Trustees.

This project is exempt from an air quality conformity determination and does not impact the current conformity determination. The attached documents provide further details on the project.

Funding Need:

- **Bayonne Commuter Ferry Pier and Dock Improvements, *City of Bayonne* DB# N1904**

This project has received a Federal Transit Administration Passenger Ferry Grant in the amount of \$0.657 million. These funds will be utilized for the construction of ferry and dock improvements. The total cost of the project is estimated to be \$1.643 million and includes purchasing and refurbishing a barge from the non-federal portion of the project, which will serve as the ferry terminal and docking facility. Non-federal funds will be provided by the City of Bayonne utilizing Urban Enterprise Zone funds, developer contributions and Special Improvement District funds. (*Adding Section 5307 funds in the amount of \$0.657 million for Construction in FY 2022 and 'Other' funds in the amount of \$0.986 million for Construction in FY 2022.*)

Justification for Action: Approval of this revision to the FY 2022 – 2025 TIP will allow the funds to be secured and the referenced project to advance.

Staff Recommendation: Central Staff recommends approval of this action.

Dear Ms. Ameen:

The City of Bayonne, NJ (Hudson County) will receive federal funding to make appropriate pier and ferry dock improvements at the former Military Ocean Terminal (MOT) in the amount of \$656,800 under the FY17 Passenger Ferry Grant Selections.

Donald Burns, Director of Planning and Program Development at USDOT FTA Region 2, has informed us that the request for the \$656,800 grant should be reflected in the current NJTPA's Transportation Improvement Program (TIP) for the fiscal year in which the authorization will take place. It has been considered successfully and listed in two prior Transportation Improvement Programs.

The City of Bayonne is working with the Port Authority of New York and New Jersey, which owns currently a portion of the former MOT, and with Royal Caribbean Cruise Lines, which docks at the former MOT.

The City of Bayonne has designated Sea Streak, LLC of Atlantic Highlands as the operator of the ferry service.

Andy Raichle, P.E., of Matrix Engineering, our special projects engineer, is working on the docking requirements for the operator, and has received Army Corps of Engineers and NJDEP permits for the project. Project engineering concepts are developed and ready for bid this summer. The construction phase is estimated to at 60 days.

Initiation of ferry service between the former MOT and New York City is an exciting prospect that is crucial for successful development opportunities at the former MOT. We hope to begin operations in autumn 2022. In order to achieve this schedule, we would appreciate having the TIP amendment considered at your next NJTPA meeting.

Suzanne Mack, our city Planner, has been working with David Behrend of your staff. She is available to continue to work with your Capital Programming Division to advance this TIP amendment.

The City of Bayonne has discussed the amendment with County Executive Tom DeGise, who supports it.

Thank you for your assistance with this project.

Best regards,

James M. Davis

**Re: Hudson County TIP Amendment
City of Bayonne: Ferry Pier and Dock Improvements**

Dear Ms. Ameen,

The City of Bayonne requests the addition of the Bayonne Commuter Ferry Pier and Dock Improvements (\$0.657) project to the FY 2020 Transportation Improvement Program.

This project was approved in the 2018-2021 TIP for program year 2019. The project was delayed for implementation due to the COVID pandemic. We are now ready to proceed and request the \$656,800 grant should be reflected in the NJTPA's Transportation Improvement Program as required by FTA Region 2.

Project Costs:

The total project cost of the project is estimated to be \$1.643 million and includes purchase of a barge in the non-federal portion of the project.

This request is for the federal portion of the project. \$656,800 (\$0.657) will be allocated from the Federal Transit Administration's FTA FYI 7 Passenger Ferry Grant Selections

The remaining dollars will come from City municipal funds. A letter dated May 19, 2021 describes the source of those funds is included.

Project Location:

The project is located in the City of Bayonne, Hudson County at the Peninsula at the Bayonne Harbor (PABH), the former Military Ocean Terminal Bayonne (MOTBY). The ferry terminal location is on property leased from the Port Authority of New York-New Jersey at (PABH) which is on the east side of Rt. 440 (across from the 34th Street station of the HBLRT in New York Harbor.

Project Partnerships

The City is working with the Port Authority of NY-NJ which currently owns a portion of MOTBY, as well as Royal Caribbean cruise lines which docks at MOTBY.

NJ Transit will establish shuttle service as well as private shuttle services from surrounding residential developments.

The City has designated Sea Streak LLC, of Atlantic Highlands, as the operator of the ferry service.

Project Description

Construction of Ferry Pier and Dock Improvements including upland improvements and ADA-compliant walkway to Ferry Barge gangway system

Project Schedule:

The project will be programmed for construction in FY

2022. Authorization summer 2021

Construction 60 days Fall 2021

Initiation of Service: Late fall 2021, early

Spring 2022

Summary

Initiation of ferry service between the former Military Ocean Terminal Bayonne (MOTBY) and New York City is an exciting endeavor in our recent Master Plan Re-examination report and is critical to maximum development opportunities at (PABH/MOTBY) Peninsula at Bayonne Harbor

We hope to begin operations this fall 2021. In order to achieve this schedule, it is critical that the TIP amendment be considered at your next NJTPA meeting.

My staff and I are available to answer any questions and to provide any other documents or information necessary to advance this request. In addition, the City has discussed the amendment with County Executive DeGise who is supporting the amendment.

Sincerely,

A handwritten signature in cursive script, appearing to read "James M. Davis".

**DRAFT RESOLUTION: MINOR AMENDMENT TO THE FY 2022 – 2025
TRANSPORTATION IMPROVEMENT PROGRAM TO
ADD TWENTY-NINE PROJECTS AS REQUESTED BY
THE NEW JERSEY DEPARTMENT OF
TRANSPORTATION**

WHEREAS, the North Jersey Transportation Planning Authority, Inc. (NJTPA) has been designated by the Governor of New Jersey as the Metropolitan Planning Organization (MPO) for the northern New Jersey region; and

WHEREAS, the NJTPA formally adopted the FY 2022 – 2025 Transportation Improvement Program (TIP) on September 13, 2021; and

WHEREAS, the NJTPA on September 24, 2012 approved a Memorandum of Understanding (MOU) among the NJTPA, the New Jersey Department of Transportation (NJDOT), and NJ TRANSIT on procedures to amend and modify the State Transportation Improvement Program and the NJTPA TIP; and

WHEREAS, the TIP may be revised any time; and

WHEREAS, according to the MOU when a project or program that uses federal funds is added to the TIP or when federal funds above a specified threshold are added to a project, and a new air quality conformity determination is not required, this constitutes a minor amendment; and

WHEREAS, the New Jersey Department of Transportation has requested the addition of twenty-nine projects with federal funds to bring the FY 2022 - 2025 TIP into alignment with the proposed FY 2023 Transportation Capital Program; and

WHEREAS, the Infrastructure Investment and Jobs Act provides the resources for these projects; and

WHEREAS, these minor amendments are exempt from an air quality conformity determination or were modeled in the conformity analysis that was performed in 2021 for the - FY 2022 – 2025 TIP and do not impact the current conformity determination; and

WHEREAS, Congestion Management Process requirements do not apply to these actions; and

WHEREAS, the FY 2022 TIP conforms to the MAP-21/FAST Act and Infrastructure Investment and Jobs Act performance-based planning requirements; and

WHEREAS, consistent with NJTPA public participation procedures, the NJTPA has provided opportunities for review of these actions; and

WHEREAS, no action authorized by the NJTPA shall have force or effect until ten (10) days, Saturdays, Sundays and public holidays excepted, after a copy of the minutes of the meeting of the Board of Trustees has been delivered to the Governor for review, unless prior to expiration of the review period the Governor shall approve same, in which case the action shall become effective upon such approval.

NOW, THEREFORE, BE IT RESOLVED, that the North Jersey Transportation Planning Authority hereby approves the specified amendments to the FY 2022 – 2025 Transportation Improvement Program.

BE IT FURTHER RESOLVED that a copy of this resolution is forwarded to the New Jersey Department of Transportation for submission to the Federal Highway Administration.

Summary of Action

Minor Amendment to the FY 2022 - 2025 Transportation Improvement Program to Add Twenty-Nine Projects as Requested by the New Jersey Department of Transportation

Action: In order to advance the following projects, the New Jersey Department of Transportation (NJDOT) has requested amending the FY 2022 – 2025 TIP to program federal funds.

Background: According to the *TIP Memorandum of Understanding*, when a project or program that uses federal funds is added to the Transportation Improvement Program (TIP) or when federal funds are added above the specified threshold, and a new air quality conformity determination is not required, this constitutes a minor amendment, and action is required by the NJTPA Project Prioritization Committee and the NJTPA Board of Trustees.

Based on current project schedules and cost estimates in conjunction with the proposed FY 2023 Transportation Capital Program, NJDOT has requested the addition of the following projects (adding funds for Preliminary Engineering, Design, Right-of-Way, and/or Construction phases of work). Fiscal constraint for these projects is provided by the resources in the Infrastructure Investment and Jobs Act.

Except for the two Route 31 projects in Hunterdon County, these projects are exempt from an air quality conformity determination and do not impact the current conformity determination. The two Route 31 projects in Hunterdon County (DB# 08327C and 08327D) are non-exempt but were modeled in the conformity analysis that was performed in 2021 for the -FY 2022 – 2025 TIP and therefore do not require a new regional conformity determination. The attached documents provide details on the projects.

Minor Amendments:

- Route 4, Tunbridge Road to Route 9W, *Bergen County* DB# 12431B
- Route 63, Bridge over Fairview Avenue, *Bergen County* DB# 16343
- Route 31, Church Street (CR 650) to East Main Street/Flemington Junction Road, *Hunterdon County* DB# 08327C
- Route 31, HealthQuest Boulevard to River Road, *Hunterdon County* DB# 08327D

Transportation Improvement Program Fiscal Years 2022 - 2025

Routes: 31

Mileposts: 24.53-25.13

DBNUM: 08327D

Name: Route 31, HealthQuest Boulevard to River Road

This project includes the widening of Northbound and Southbound Rt. 31, beginning at the dualized section of near River Rd. The widening ends in the Southbound direction just north of Health Quest Blvd, where two through lanes open up approaching Sand Hill Rd/Bartles Corner Rd, and in the Northbound direction the widening ends a little north of Prestige Plaza, where the Phase 1 improvements terminate.

Name: Route 9, Throckmorton Lane/Ticetown Road to Poor Farm Road/Hartle Lane

"This project will provide for the improvement of safety, security, mobility, accessibility, and reliability on Route 9 in Old Bridge Township between Throckmorton Lane/Ticetown Road and Poor Farm Road/Hartle Lane (MP 124.04 to 126.91). The project will include the installation of modified three beam guide rail, dual-faced in the median to provide crossover crash protection along with sidewalk connectivity upgrades. Additionally, signalized intersection improvements are proposed at four intersections and will include new signal equipment, crosswalk and ADA compatibility upgrades, increased pedestrian clearance intervals, intersection lighting improvements, high visibility pavement markings and enhanced signage. Finally, a new pedestrian traffic signal is proposed at the intersection of Elhers Lane/Phillips Drive to assist pedestrians in crossing Rt. 9 adjacent to NB and SB NJ Transit bus stops."

Transportation Improvement Program Fiscal Years 2022 - 2025

Routes: 9 / 35

Mileposts: 129.82

DBNUM: 079A

Name: Route 9/35, Main Street Interchange

Rt. 9/35 over Main Street Interchange is a breakout from the Rt 9/35 over Main St. Bridge. The lack of an acceleration lane from Rt. 9 Northbound to Rt. 9/35 Northbound ramp has created a safety condition for vehicles attempting to merge. Furthermore, the tight radius and heavy truck traffic from this ramp have contributed to the congestion and the queue on Rt. 9 Northbound which extends for about a mile causing more safety concerns. Rt. 9/35 Southbound to Rt. 9 Southbound ramp is a also a safety problem at this interchange, as this ramp is also substandard and is contributing to the extensive queue which extends from Rt. 9/35 to the Edison Bridge. Both ramps will be investigated separately and may graduate as two individual projects.

Routes: 37 / 35

Mileposts: 13.13

DBNUM: 17403

Name: Route 37 On Ramp to Route 35, Missing Move

This project will be at the entrance to Route 35 Seaside Park from Route 37. The Route 35/Route 37 interchange is the major southern entrance to the Barnegat Bay barrier island. Vehicles entering the island and travelling south to Seaside Park, Berkeley Township and Island Beach State Park enter the island utilizing Route 37 eastbound to route 35 southbound. Currently this movement consists of making a tight double horizontal curve in the shape of an "S". The geometric concerns associated with the S-Curve were identified during the development of the original (Pre-Sandy) project. The preferred solution was to replace the S-Curve with a smooth single curve. The S-Curve wraps around three blocks of residential properties. The straightening of the S-Curve required taking three properties in full and one partially. The ROW process was on-going when Super Storm Sandy struck in October 2012. An emergency situation was created and the Department moved quickly to reconstruct the battered Route 35 and its associated drainage system. It was decided to put off the smoothing of the S-Curve as the ROW process would take its due course. The ROW has now been acquired and the Department can move forward to replace the S-Curve with a smooth single curve as originally envisioned.

**DRAFT RESOLUTION: MINOR AMENDMENT TO THE FY 2022 – 2025
TRANSPORTATION IMPROVEMENT PROGRAM TO
ADD FEDERAL FUNDS TO THE PAVEMENT
PRESERVATION PROGRAM AS REQUESTED BY THE
NEW JERSEY DEPARTMENT OF TRANSPORTATION**

WHEREAS, the North Jersey Transportation Planning Authority, Inc. (NJTPA) has been designated by the Governor of New Jersey as the Metropolitan Planning Organization (MPO) for the northern New Jersey region; and

WHEREAS, the NJTPA formally adopted the FY 2022 – 2025 Transportation Improvement Program (TIP) on September 13, 2021; and

WHEREAS, the NJTPA on September 24, 2012 approved a Memorandum of Understanding (MOU) among the NJTPA, the New Jersey Department of Transportation (NJDOT), and NJ TRANSIT on procedures to amend and modify the State Transportation Improvement Program and the NJTPA TIP; and

WHEREAS, the TIP may be revised any time; and

WHEREAS, according to the MOU when a project or program that uses federal funds or unobligated prior year balances is added to the TIP or when federal funds above a specified threshold are added to a project, and a new air quality conformity determination is not required, this constitutes a minor amendment; and

WHEREAS, the New Jersey Department of Transportation has requested the addition of federal funds to the Pavement Preservation program (DB# X51B) for projects in the NJTPA region; and

WHEREAS, this minor amendment is exempt from an air quality conformity determination and does not impact the current conformity determination; and

WHEREAS, Congestion Management Process requirements do not apply to this action; and

WHEREAS, the FY 2022 -2025 TIP conforms to the MAP-21/FAST Act and Infrastructure Investment and Jobs Act performance-based planning requirements; and

WHEREAS, consistent with NJTPA public participation procedures, the NJTPA has provided opportunities for review of these actions; and

WHEREAS, no action authorized by the NJTPA shall have force or effect until ten (10) days, Saturdays, Sundays and public holidays excepted, after a copy of the minutes of the meeting of the Board of Trustees has been delivered to the Governor for review, unless prior to

expiration of the review period the Governor shall approve same, in which case the action shall become effective upon such approval.

NOW, THEREFORE, BE IT RESOLVED, that the North Jersey Transportation Planning Authority hereby approves the specified amendment to the FY 2022 – 2025 Transportation Improvement Program.

BE IT FURTHER RESOLVED that a copy of this resolution is forwarded to the New Jersey Department of Transportation for submission to the Federal Highway Administration.

Summary of Action

Minor Amendment to the FY 2022 - 2025 Transportation Improvement Program to Add Federal Funds to the Pavement Preservation Program as Requested by the New Jersey Department of Transportation

Action: In order to advance the following projects, the New Jersey Department of Transportation (NJDOT) has requested amending the FY 2022 – 2025 TIP to program federal funds.

Background: According to the *TIP Memorandum of Understanding*, when a project or program that uses federal funds is added to the Transportation Improvement Program (TIP) or when federal funds are added above the specified threshold, and a new air quality conformity determination is not required, this constitutes a minor amendment, and action is required by the NJTPA Project Prioritization Committee and the NJTPA Board of Trustees.

This program is exempt from an air quality conformity determination and does not impact the current conformity determination. The attached documents provide further details on the requested revision.

Funding Need:

- **Pavement Preservation, NJTPA DB# X51B**

NJDOT has requested the addition of \$50.072 million of National Highway Performance Program (NHPP) funds in Federal Fiscal Year 2022. Fiscal constraint is maintained with funds available from previous NJTPA TIP actions. The following projects will be able to advance with the addition of these funds:

- Route 1, South Inman Avenue to Dowd Avenue, Middlesex and Union Counties (*\$18.500 million*)
- Route 80, Alphano Road (CR 613) to Route 46 (Ledgewood Ave), Morris, Warren, and Sussex Counties (*\$10.791 million*)
- Route 202, West County Drive (CR 646) to Route 287, Somerset County (*\$7.503 million*)
- Route 72, Old South Broadway to Morris Boulevard, Ocean County (*\$3.882 million*)
- Route 78, Turkey Hill Road to Charlestown Road/Perryville Road, Hunterdon County (*\$9.396 million*)

Justification for Action: Approval of this revision to the FY 2022 – 2025 TIP will allow the funds to be secured and the referenced projects to advance.

Staff Recommendation: Central Staff recommends approval of this action.

Transportation Improvement Program Fiscal Years 2022 - 2025

Routes: /

Mileposts: N/A

DBNUM: X51B

Name: Pavement Preservation, NJTPA

This program will allow NJDOT to accomplish eligible federal pavement preservation activities, in the NJTPA region, on New Jersey's Interstate highway system and will also allow for pavement preservation on all other state-maintained roads, which help to keep New Jersey's highway system in a state of good repair. With timely preservation, the NJDOT can provide the traveling public with improved safety and mobility, reduced congestion and smoother, longer lasting pavements.

NOW, THEREFORE, BE IT RESOLVED, that the North Jersey Transportation Planning Authority hereby approves the specified amendments to the FY 2022 – 2025 Transportation Improvement Program.

BE IT FURTHER RESOLVED that a copy of this resolution is forwarded to the New Jersey Department of Transportation for submission to the Federal Highway Administration.

Summary of Action

Minor Amendments to the FY 2022 - 2025 Transportation Improvement Program to Add Federal Funds to Three Projects as Requested by the New Jersey Department of Transportation

Action: In order to advance the following projects, the New Jersey Department of Transportation (NJDOT) has requested amending the FY 2022 – 2025 TIP to program federal funds.

Background: According to the *TIP Memorandum of Understanding*, when a project or program that uses federal funds is added to the Transportation Improvement Program (TIP) or when federal funds are added above the specified threshold, and a new air quality conformity determination is not required, this constitutes a minor amendment, and action is required by the NJTPA Project Prioritization Committee and the NJTPA Board of Trustees.

Based on current project schedules and cost estimates in conjunction with the proposed state FY 2023 Transportation Capital Program, NJDOT has requested the addition of federal funds for the following projects in the FY 2022 – 2025 TIP. Fiscal constraint is provided by the resources in the Infrastructure Investment and Jobs Act (IIJA).

The projects are exempt from an air quality conformity determination and do not impact the current conformity determination. The attached documents provide further details on the requested revisions.

Minor Amendment:

- **Route 4, Hackensack River Bridge, Bergen County DB# 02346**
 This request is to increase funding for Design; advance, increase and change funding for Right of Way and Utilities; and increase funding for Construction. *(Total project funds changed to \$12.7 million NHPP funds for DES in FY 2022; \$2 million BFP funds for ROW in FY 2023; \$8.3 million BFP funds for UTI in FY 2024; \$80 million NHPP funds for CON in FY 2029 and \$82.2 million NHPP funds for CON in FY 2030.)*
- **Route 202/206, over Branch of Peter’s Brook Culvert Replacement at MP 27.96, Somerset County DB# 11363**
 This request is to add two phases of work, Preliminary Engineering in FY 2023 and Design in FY 2025, and to reprogram funds for Construction from FY 2023 to FY 2027. Bridge Formula Funds (BFP) available from the Infrastructure Investment and Jobs Act (IIJA) are being added. *(Adding \$1 million BFP funds for PE in FY 2023; adding \$1 million BFP funds for DES in FY 2025; and moving CON to FY 2027 with \$2.745 million BFP funds and \$4.755 million NHPP funds.)*
- **Route 15, Bridge over Paulins Kill, Sussex County DB# 09319**
 This request is to advance the Construction phase of work from FY 2028 to FY 2023. The funding source will change from National Highway Performance Program (NHPP) to Bridge Formula Program (BFP). *(Advancing CON to FY 2023 with \$8.450 million BFP funds.)*

Justification for Action: Approval of these revisions to the FY 2022 – 2025 TIP will allow the funds to be secured and the referenced projects to advance.

Staff Recommendation: Central Staff recommends approval of these actions.

TRACK #: N-02346-1-M-2022

TYPE OF PROJECT CHANGE: Project Phase Advance, Project Cost increase, Change of funding source

ACTION TAKEN: Increases NHPP funding for DES in FFY 22 from \$7M by \$5.7M to \$12.7M
Advances, increases, and changes ROW funding from \$1.4M of NHPP in FY 24 by \$.6M to \$2M of BFP in FY 23
Advances, increases, and changes UTI funding from \$3M of NHPP in FY 25 by \$5.3M to \$8.3M of BFP in FY 24
Increases NHPP funding for CON in FFY 29 from \$46.850M by \$33.150M to \$80M
Increases NHPP funding for CON in FFY 30 from \$30.050M by \$52.150M to \$82.2M

REASON FOR CHANGE:

This action is consistent with the 23 Capital Program.

A Preliminary Engineering cost estimate was recently completed for this project.

Some major factors driving the project's increased costs include: Increase in Structural Steel Price, Micro Pile Pier Foundation included in PE Construction Cost, Increased costs for construction access foundation costs due to soil condition, wider trestle, raised top of trestle deck elevation, Costs updated to include two sign structures, Costs updated to include proposed Ramp WN retaining wall, CIP Abutment Footing below scour line in place of MSE Walls assumed in CD Phase, Use of Lightweight Fill, CIP Retaining Walls within scour zone in place of MSE Walls assumed in CD Phase, Costs updated to include ITS work items, Costs updated to reflect Highway Lighting design details, Costs updated to reflect current bid item unit costs and escalation to Fiscal Year 2025.
