Assembly Concurrent Resolution No. 114.

Mr. Collins moved that the General Assembly recess until 11:45 A.M.

Which motion was adopted.

A TIME FOR REBUILDING NEW JERSEY'S ECONOMY
AND RESTORING THE PUBLIC'S TRUST

by Assembly Speaker Garabed "Chuck" Haytaian

January 14, 1992

Thank you Majority Leader Collins.

Reverend Clergy, members of Congress, members of the Cabinet...Friends...Welcome to the 205th General Assembly.

Let me begin by thanking my colleagues on both sides of the aisle for their vote of trust. I realize the tremendous responsibility the honor of being your Speaker carries...and I will do everything within my power to justify your confidence in my ability to lead this body during these troublesome times.

The abilities of each and everyone of us who took the oath of office today -- Republicans and Democrats -- will be challenged to the limit in the weeks and months to come.

What we must do will not be easy.

It will require hard work.

It will require sacrifice.

And it will require political courage.

So I want to take this opportunity to thank you...and your families...personally. You deserve credit and congratulations for placing public service ahead of personal comfort and gain.

I especially want to congratulate our new Majority Leader Jack Collins and Minority Leader Joe Doria. My friends, the task ahead of us will require the cooperation of both political parties. It will test our capacity to end the friction that has divided us and caused the public to lose respect for their elected representatives.

It is time for us to set aside our differences, work together for the greater good of the people and restore public confidence in government.

It can be done. History tells us that.

Nearly six decades ago, in the midst of the great depression, Charles Otto, a Republican, was sworn-in as Speaker of the General Assembly. On that opening day of the 157th Session of the Legislature, he began his remarks with a sobering admonition.

Let me read you what the new Assembly Speaker had to say.

"Never before in the history of our great state has keener interest been shown by the people in the activities of our tax-spending governmental agencies.

"Never before has such interest been shown by the people in the contemplated activities of our State Legislature.

"They are seeking relief through our executive and legislative branches of state government from taxation which, in many instances, has become not only burdensome, but oppressive."

A short time later, Governor A. Harry Moore, a Democrat, struck a similar chord in his "State of the State" address to the Legislature.

The Governor acknowledged that the tax burden had become "unbearable" for many residents of the Garden State. The only way out, he said, was for the executive branch and the Legislature to work together to cut the cost of government.

Governor Moore said the time was not one for political posturing.

Success hinged on what he called the "unwavering determination" of both parties and both branches "to hold the public good above personal interests and desires."

When I read what the Republican Speaker and the Democratic Governor had to say on that fateful day 59 years ago, I remembered an old saying which goes: "The more things change, the more they stay the same."

I honestly could not think of a better way to sum up the situation in which we find ourselves today.

Our people are overtaxed. Men and women are losing jobs. Our schools are in chaos, and our citizenry has lost confidence in the ability of their leaders to move our state ahead.

Ladies and gentlemen, you would be surprised how many people think there is little or nothing we can do at the state level to get our economy moving again.

Well, they are wrong!

We can, and we will, act to ease the suffering of our people and get New Jersey back on track.

I know we can do it. And I am confident we will be able to work together...and with the administration. We will work together because we share the same goal: the creation of jobs, jobs and more jobs!

Nothing is more critical to our future.

But let me caution those of you who are looking for a "quick fix" or hoping for a miracle cure. This new majority has no magic wands. What we do have are eyes and ears...and we will use them to listen to the ideas

and concerns of our people and to look for sound and sensible solutions to their problems. We will do what it takes and take whatever time is needed to get the job done right...the first time!

Very soon, this house will roll up its sleeves and start working on a comprehensive plan to revitalize the state economy.

The cornerstone of this plan will be a rollback of the state sales tax to six percent effective July 1st. This is a promise the Republican party made to the people of New Jersey. We intend to keep it!

But it is not just a matter of keeping our word. A sales tax cut makes good economic sense.

It will put half-a-billion dollars back in the hands of the people. It will strengthen their purchasing power and help restore consumer confidence.

I want to make something crystal clear. As far as I'm concerned, the rollback of the sales tax is only a first step. During the course of this term, we will look at many other ways to ease the tax burden, especially on the struggling middle class, as we achieve budgetary savings and scale down the size of state government.

We will start with a cut in the sales tax because it is do-able given the current budget picture. But it is just a beginning.

We will look at other ideas to spur economic growth as well, such as:

Creating new foreign trade zones in our port districts;

Establishing foreign investment venture zones throughout the state;

Awarding tax credits to encourage exports, stem the loss of manufacturing jobs and stimulate further research and development activity in New Jersey, and

Cutting the capital gains tax to induce greater savings and investment.

Given all that has happened over the past two years, people are rightfully suspicious of promises made by elected officials. If we, as an institution of government, want to regain the public's trust, we must prove to the people that we say what we mean...and mean what we say.

The people of New Jersey are counting on us to do what we can to jumpstart the economy.

But that's not all.

The people are also waiting to see if we will cut the cost and the size of state government as we promised during the campaign.

This new majority intends to show the people that we practice what we preach.

We will cut the size of government. We will save money...and we will start right here -- with the Assembly.

Exercising my prerogatives as Speaker, I have directed that the overall size of the Assembly's full-time staff be lowered by 14 percent.

That is not all. I have ordered a cut in the number of standing reference committees from 27 to 19, and I have placed a strict limit on the number of bills members can introduce over the course of the term.

Shrinking the committee roster and curtailing unnecessary bills will not only save us money but leave more time to devote to the truly important issues.

As Speaker, I have also ordered a reduction in the number of cars and car phones available to legislative leaders.

The era of the Lincoln Town Car has ended!

And one more thing...as long as I'm Speaker, there will be no more free lunches or unnecessary travel at the taxpayers' expense.

We will lead by setting an example.

When I was growing up in the Bronx, I learned a valuable lesson from my parents. God bless their souls...I truly wish they were here today. As long as they lived, they never owned a car or kept a credit card. The reason was simple. They believed you should never buy anything you can't afford. They also believed you should never buy unless you have the cash in hand.

That's how I would like to see us handle the taxpayers' money.

So no bill requiring an appropriation of public funds will be posted for a vote in this house unless a fiscal note is attached.

And no bill requiring an appropriation of public funds will be approved unless the expenditure is deemed necessary and urgent.

We will not spend money carelessly.

We will not spend money that could be put to better use elsewhere.

And we will not spend money we don't have.

Morgan Larson, who was Governor Moore's predecessor and served during some of the toughest economic times New Jersey has ever endured, once warned the Legislature against overspending.

A person who lives beyond his means, Governor Larson said, is soon bankrupt. But a government that lives beyond its means bankrupts its people.

We must never allow this to happen.

Governor Larson was also a firm believer in change. He once reminded the Legislature that "Government is a means and not an end...a method and not an objective." He said it is very much like a living being. Either it evolves...or it falls into decay.

My friends, this new majority will be receptive to new ideas.

With their voices and their votes, the people of New Jersey have made it abundantly clear that they are not satisfied with the current state of government in New Jersey.

They feel isolated, ignored and left out of the process. They feel that elected officials are more interested in saving their own political careers than serving the public. They feel they have no real recourse when elected officials turn their backs and defy the public will.

The people are fed up with the status quo.

They want fundamental changes made in the way government operates.

They want the right of initiative and referendum.

They want the power of recall.

And they want term limitations.

This scares some elected officials. But it shouldn't.

Change is natural and necessary. It is not something to be feared.

So during the course of the 205th legislative term, we will reach out to the people and work with them to enact meaningful and responsible reforms.

My friends, I am a realist. I know that there will be disagreements about what to do and the best way to do it. That's the nature of politics. But I hope we never lose sight of our top priority.

The needs of the people of New Jersey must always come first. Our primary loyalty is to them -- not to the political parties, the special interests or even ourselves.

With God's help, I believe we can make their lives better and get New Jersey moving again.

Thank you, and God bless you.

ASSEMBLY BILL NO. 1723
(First Reprint)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I herewith return Assembly Bill No. 1723 (First Reprint) with my recommendations for reconsideration.

This bill would amend current law to require, rather than just permit, the Commissioner of Personnel to consolidate personnel functions within the Department of Personnel. In particular, this bill would require the Commissioner of Personnel to consolidate the exclusive authority to make classification, compensation, and workforce planning decisions within the Department of Personnel.

At the outset, let me make it clear that I am in complete agreement with the spirit and purpose of this bill. I firmly believe that consolidating the authority to make classification decisions within the Department of Personnel -- the agency that was established precisely in order to coordinate State government's vast personnel responsibilities -- will give the State greater control over the classification process. The State needs to ensure greater continuity of classification decisions among all State departments, for without continuity we cannot be guaranteed that these decisions will be made in a manner that demonstrates adequate concern for the taxpayers of this State, as well as the government workforce. Consolidation of personnel functions will not only bring greater discipline to this process, but it will also allow the State to gain greater efficiencies by eventually reducing the amount of staff that devotes itself to personnel duties.

For these reasons, last November I issued Executive Order No. 70, which directed my Commissioner of Personnel, Anthony J. Cimino, to proceed with consolidation as permitted under current law. In the Executive Order, I directed Commissioner Cimino to prepare a consolidation plan for my review and approval, and called upon him to present me with a proposal that balanced the objectives of consolidation against the unique personnel needs of each of the departments. I am pleased to say that on January 7, 1993, Commissioner Cimino presented me with a plan that met completely with the objectives of the Executive Order, and which benefitted greatly from the cooperation of my entire Cabinet. I approved Commissioner Cimino's proposal on the same day, and directed that the plan be immediately implemented.

In almost every respect, this bill conforms to the process initiated by Executive Order No. 70. Except for a few minor changes, this bill ought to become law. Even though consolidation is well on its way to fruition, this legislation is appropriate because it would establish personnel consolidation as a mandatory policy of this State, rather than, as under current law, a policy that is permitted but not required. We should take the guessing out of this issue, and once and for all commit ourselves to this sensible and sound policy.

Nevertheless, I am conditionally vetoing this bill today, because I believe this bill should be amended to ensure that it conforms completely to the consolidation process that is already underway. The

amendments I am recommending today clarify the process by which consolidation should take place, and extend the bill's scope to encompass the actions that were commenced with the issuance of Executive Order No. 70. In addition, I am recommending language that makes it clear that this legislation does not change current law regarding the negotiability of rules and regulations promulgated by the Department of Personnel.

Accordingly, for the reasons stated above, I herewith return Assembly Bill No. 1723 (First Reprint) and recommend that it be amended as follows:

Page 1, Section 1, Line 7: Before "The Department of" insert "a."

Page 1, Section 1, Line 12: Delete "In" insert "b. The commissioner shall develop a plan for the consolidation and coordination of personnel, training, and related functions, including but not limited to classification, compensation, and workforce planning, in the executive branch of State government and for transfer to the Department of Personnel such employees, positions, funding, facilities, equipment, powers, and duties from throughout the executive branch of State government as necessary and appropriate to effectuate such consolidation and coordination.

"c. The commissioner shall submit the plan prepared pursuant to subsection b. of this section to the Governor for review and approval. With the approval of the Governor and in"

Page 1, Section 1, Line 13: After "commissioner" insert "pursuant to the approved plan."

Page 1, Section 2, Line 23: After "department" insert "and in such a manner as will provide the appointing authorities and all State employees with proper support in personnel matters"

Page 1, Section 1, Line 27: Before "Each" insert "d."

Page 1, Section 1, Line 33: Before "(cf: N.J.S.11A:11-2)" insert "e. This section shall not be construed to permit or require negotiations pursuant to the "New Jersey Employer-Employee Relations Act" P.L. 1941, c.100 (C.34:13A-1 et seq.), of any rule or regulation promulgated by the Commissioner of Personnel or the Merit System Board pursuant to this section or any other section of this title."

Page 1, Section 2, Line 34: After "immediately" insert "and shall apply retroactively to any actions taken in conformity with this act after November 1, 1992"

Respectfully,
Jim Florio

The Clerk read the following message from the Governor: Assembly No. 760 (Absolute Veto).

Mr. Collins moved that these messages be spread in full upon the Minutes. Which motion was adopted.

ASSEMBLY BILL NO. 760

(First Reprint)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14, of the Constitution, I herewith return Assembly Bill No. 760 (First Reprint) without my approval.

According to the sponsor of Assembly Bill No. 760 (First Reprint), this bill would have reduced the amount of unemployment insurance contributions paid by some municipalities and their employees. The bill would also have exempted certain municipalities from making contributions into their self-insured unemployment trust funds where the municipality could certify that there were sufficient monies in the local trust fund to pay unemployment benefits for at least five years following the date of certification. The bill would likewise have exempted employees of the affected municipalities from making these contributions. Rather than reduce the amount of contributions paid by these employees, however, the bill would actually have had the effect of increasing the amount of contributions due from these employees. After the bill was passed by the Legislature, the sponsor requested that the bill be vetoed by me.

The recently enacted Health Care Reform Act L. 1992, c. 160, requires that employees pay an assessment to a fund set up to pay for health care reform. The cost of this assessment, however, was offset by a simultaneous reduction in the rate of unemployment compensation contributions. The intent of this funding mechanism was to ensure that there was no net increase in costs to employees or employers.

Assembly Bill No. 760 (First Reprint), however, would have the effect of re-instituting the unemployment insurance contribution requirement for the employees of municipalities affected by the bill. Thus, employees of those municipalities, like all employees, would be paying the health care contribution, but, unlike any other group of employees, they would also be paying unemployment insurance contributions.

The enactment of the Health Care Reform Act, L. 1992, c.160, almost two months before the passage of this bill, has thus obviously changed the unemployment insurance contribution system so that Assembly Bill No. 760 (First Reprint) would not serve the purposes for which the sponsor may have originally introduced it.

Accordingly, I herewith return Assembly Bill No. 760 (First Reprint) without my approval.

Respectfully,
Jim Florio
GOVERNOR

A message was received from the Secretary of the Senate and was read by the Clerk as follows:

Mr. Speaker:

ASSEMBLY BILL NO. 1832
(First Reprint)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14, of the New Jersey Constitution, I herewith return Assembly Bill No. 1832 (First Reprint) with my objections for reconsideration.

This bill provides for municipal approval prior to transfer of a State beverage distributor's license to another municipality. The intent of the bill is to give municipalities the same authority with regard to the retail sales aspect of the State beverage distributor license as they have over plenary retail licenses.

Unfortunately, the bill as presently drafted does not advance this intent. In its present form, a municipal governing body would have absolute veto authority over the transfer of a State beverage distributor's license, not just that portion of the license regarding retail sales. This is contrary to the

existing carefully constructed statutory scheme which divides licensing authority between the State and municipalities.

The second concern is that the bill in its present form only addresses the transfer of these licenses. Consequently, the intent of the bill could be avoided by having the license cancelled and issued anew instead of transferred.

Therefore, I herewith return Assembly Bill No. 1832 (First Reprint) and recommend that it be amended as follows:

Page 2, Section 1, Lines 21-26: Delete in its entirety. Insert as a new paragraph: "The director shall notify the issuing authority of the municipality in which the licensed premises is or will be located of an application for issuance, renewal or transfer of this license within 10 days after the application is filed.

The holder of this license shall not sell malt alcoholic beverages at retail as provided in this subsection if the issuing authority of the municipality in which the licensed premises is or will be located notifies the director of its objection to such retail sales by the applicant within 30 days of receiving notice of the application for issue, renewal or transfer of this license. The issuing authority of the municipality shall provide notice of its objection to the applicant in accordance with R.S. 33:1-22, and the applicant may appeal to the director from the action of the issuing authority of the municipality in accordance with that section.

The holder of this license shall not sell malt alcoholic beverages at retail during hours of the day or on days of the week during which sales by holders of a plenary retail distributors license issued pursuant to R.S. 33:1-12 are prohibited in the municipality or in a municipality which, in accordance with the provisions of this Title, prohibits all retail sales of wine and malt alcoholic beverages in original bottle or can containers".

Respectfully,

Jim Florio

Which was read by the Clerk and adopted.

The following bill, as amended pursuant to the Governor's recommendations, was given second reading by special order:

Assembly Nos. 1832

The Clerk read the following message from the Governor: (Assembly No. 1625 conditional veto)

ASSEMBLY BILL NO. 1625

(First Reprint)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14, of the New Jersey Constitution, I herewith return Assembly Bill No. 1625 (First Reprint) with my objections for reconsideration.

This bill amends the "New Jersey Urban Enterprise Zones Act" to provide that any enterprise zone that is granted the 50 percent sales tax exemption and

did not receive the full five-year benefit of the 100 percent deposits into the Enterprise Zone Assistance Fund, will deposit all such revenues into the Fund until it has received the full five-year benefit. At that time, the zone would continue along the deposit schedule from the point where it had left off.

Currently, an enterprise zone loses part of the full deposit benefit when the 50 percent sales tax exemption is not granted at the same time that the enterprise zone is initially designated. In this regard, I wholeheartedly support the goal of Assembly Bill No. 1625 (First Reprint) which is to clarify the original intent of the Act by specifying that the 15-year deposit schedule would begin when the sales tax benefit takes effect.

However, in this legislative session a series of bills have been introduced that direct the Urban Enterprise Zone Authority to expand the program by designating additional zones. Initially, it was intended that these zones increase jobs and investment in targeted economically distressed urban centers by providing significant tax and business incentives. However, the economic advantages of these zones may diminish as they proliferate across the State.

Therefore, it is only common sense that we must pause before undertaking any further expansion of this program in order to permit an evaluation of the Program's success, and detriments.

I therefore join in the concern recently expressed by the Office of Legislative Services that the ten-year Urban Enterprise Zone Program should be re-evaluated in order to determine whether or not the original goals are being met. In order to ensure the economic stability of our State, I am recommending that the Urban Enterprise Zone Authority conduct a comprehensive review of the Urban Enterprise Zone Program. Incorporated into that study should be an assessment of the number of jobs created as a result of the program, and the fiscal impact that urban enterprise zones have upon neighboring communities that have not been designated a zone, as well as those communities that will be impacted by proposed defense base closures and realignments. Additionally, this study should explore the economic activity generated in the State, the direct, indirect and induced benefits to the State, and whether the benefits of this Program should be extended to communities that will be impacted by the proposed defense base closures and realignments. Based on the results of this study, the Authority should recommend, if necessary, modifications to the Program. The completion of this study shall not alter the immediate effective date of Assembly Bill No. 1625 (First Reprint).

In conjunction with that study, I am recommending that we use this opportunity to review the financial impact of other legislative initiatives that seek to grant tax incentives similar to those granted under the Urban Enterprise Zone Program. For example, this session, legislation has been introduced that would provide for a 3 percent sales tax within an entire county for most retail purchases, excluding automobiles, cigarettes, alcohol and goods ordered by mail or telephone. Although I welcome new State initiatives that will revitalize the economy and meet the needs of business and our communities, we must proceed cautiously with measures that may result in a significant loss of revenues to the State.

Therefore, I herewith return Assembly Bill No. 1625 (First Reprint) and recommend that it be amended as follows:

Page 3, After Section 1: Insert new sections 2 and 3 as follows:

"2. The authority shall conduct a comprehensive study of the Urban Enterprise Zone program for the purpose of determining whether or not the goals of that program are being met and to assess the general economic impact of the program. The study shall include, but not necessarily be limited to, an analysis of: job creation, particularly among that segment of the population dependent upon public assistance as their primary source of income; job creation among residents of each zone; economic activity stimulated in each zone through private investment; direct, indirect and induced benefits from the program to the State economy; the effect of the zone upon contiguous municipalities without zones, as well as those communities that will be impacted by proposed defense base closures and realignments; and a determination as to whether the Program should be extended beyond depressed urban areas to communities that will suffer a substantial financial impact from the proposed defense base closures and realignments. The authority shall make any recommendations it deems necessary to modify the program.

In conjunction with the study authorized in this section, the authority shall review the financial impact of pending legislation that seeks to grant tax incentives similar to those granted under the Urban Enterprise Zone program, including but not necessarily limited to reductions in the State sales tax on retail purchases.

The authority shall report its findings and recommendations to the Legislature and Governor within nine months of the effective date of P.L. , c. (C.) (now pending before the Legislature as this bill).

3. The authority is hereby authorized to utilize monies deposited in the enterprise zone assistance fund, created pursuant to section 26 of P.L. 1983, c. 303 (52:27H-88), not to exceed \$75,000, to defray the costs of conducting the study required by section 2 of P.L. , c.

(C.) (now pending before the Legislature as this bill)."

ASSEMBLY BILL NO. 1108

(First Reprint)

To the Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I am returning Assembly Bill No. 1108 (First Reprint) with my recommendations for reconsideration.

I support the intent of this bill, which seeks to clarify and refine existing provisions of State law that set liability standards for persons responding to oil spills in our State's surface waters. Significantly, the bill would also extend certain limited immunities to towboat operators and other persons who are capable of responding to an emergency request for assistance from a vessel transporting petroleum products. These new provisions are designed to ensure that tugboats and other vessels that ply New Jersey's coastal waters each day will be willing to apply their considerable knowhow and utilize their equipment for the benefit of oil tankers and barges that require prompt emergency assistance.

While I support most of the provisions in this bill, I would nonetheless propose a single amendment that would require a vessel responding to a threatened discharge or maritime emergency to provide notification to the United States Coast Guard or another appropriate federal or State agency in the event the rescuing vessel is taking certain major actions to aid the stricken vessel. More specifically, notification would be required where the rescuing party attempts to either unload petroleum products from the distressed vessel or tow, push or otherwise physically move the vessel to safety as a means to end the maritime emergency. This proposed notification procedure would ensure that officers of the United States Coast Guard or other appropriate government officials can obtain knowledge of a major maritime emergency and thereby mobilize an effective rescue and oil spill response operation at the earliest possible time.

For these reasons, I herewith return Assembly Bill No. 1108 (First Reprint) and recommend that it be amended as follows:

Page 1, Section 1, Line 30: After "(C.58:10-25.11g)" insert ", provided that a person rendering care, assistance, or advice shall provide notification of the threatened discharge or emergency, to the extent actually known to such person, to the United States Coast Guard or an appropriate federal or State official, as soon as practicable (although not of necessity before rendering care, assistance or advice) in the event such person is attempting to unload petroleum from a vessel to prevent or mitigate a discharge, or to tow, push, maneuver or otherwise physically move a vessel transporting petroleum to end the emergency"

Respectfully,
Jim Florio
GOVERNOR

Mr. Collins offered the following resolution, which was read by the Clerk and adopted:

Resolved, That pursuant to Rule 158, the following Assembly bill, conditionally vetoed by the Governor, be and is hereby given first reading for the purpose of reenactment:

August 12, 1993

The Honorable Garabed "Chuck" Haytaian
Speaker, New Jersey General Assembly
State House, CN 098
Trenton, New Jersey 08625
Dear Mr. Speaker:

Please accept my resignation from the General Assembly effective at the time I am sworn in as a member of the New Jersey State Senate. Presently the swearing-in is scheduled to occur on or about 12 noon, Monday, August 16, 1993.

I have truly enjoyed my almost 9 years as a member of the General Assembly and want to thank you for the many courtesies you have extended to me, personally, as well as the outstanding manner in which you have led the Assembly during the past 2 years. Suffice it to say, I leave with mixed emotions; I know, however, that my respect for you and our continued friendship will remain intact. I will always be honored to call you "Mr. Speaker"!

Very truly yours,
Robert J. Martin

The following Certificate of Selection was received and read:

I, DANIEL J. DALTON, Secretary of State of the State of New Jersey, DO HEREBY CERTIFY that the Chairman of the Republican State Committee has certified to this Department, the name of

CAROL J. MURPHY

ASSEMBLY BILL NO. 1575

(First Reprint)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14, of the New Jersey Constitution, I herewith return Assembly Bill No. 1575 (First Reprint) with my objections for reconsideration.

This bill establishes standards for determining when a health care professional may remove a donated organ from a deceased person. The purpose of the bill is to properly balance the interest of a medical examiner in making an accurate determination of the cause of death in cases within his/her jurisdiction and the ability of health care professionals and a medical examiner to facilitate transplantation in cases where it does not interfere with that responsibility.

I fully support organ donation and believe that medical examiners should do everything in their power to facilitate organ transplantation. Organ and tissue donation and transplantation saves lives. I strongly urge all citizens of New Jersey to seriously consider contributing to this

life-giving process. I also support increased public education and counseling for families who are experiencing the trauma of death and struggling with the decision regarding donating organs for transplantation.

In deciding whether removal of an organ for transplantation is appropriate, however, a medical examiner must take into account whether that removal will jeopardize an accurate determination of the cause of death. Most denials of organ removal for transplantation by New Jersey medical examiners involve incidents of unwitnessed homicide and child abuse. In such cases, it is essential that a medical examiner have the unfettered ability to conduct the examinations and analyses necessary to determine the cause of death and collect forensic evidence to support that determination. Unfortunately, Assembly Bill No. 1575, in its present form, could shift this decision in important homicide and child abuse cases from a medical examiner to the organ procurement organizations.

Given the above, I recommend that the bill be amended so that it advances the desire to facilitate transplantation in a way that does not compromise the responsibilities of a medical examiner. The amendments I propose provide that a medical examiner may deny authorization for the removal of a donor's organs and tissues only if he/she has undertaken all of the following steps in a time period compatible with the preservation of the donor's organs and tissues for purposes of transplantation: (1) conducted an investigation into the cause of the donor's death; (2) concluded in good faith from the results of that investigation that removal of the anatomical gift would jeopardize an accurate determination of the cause of death; (3) submitted the results of that investigation to the State Medical Examiner; and (4) received the concurrence of the State Medical Examiner. The inclusion of oversight regarding the decision to allow removal of organs and tissues from donors for the purpose of transplantation is crucial as it empowers the State Medical Examiner to facilitate transplantation whenever possible.

The proposed amendments also provide:

- that a medical examiner receive notice as early as possible of a prospective organ or tissue donor;
- that a medical examiner be granted the power to conduct an investigation into the probable cause of death before the actual declaration of death is made;
- that if a medical examiner is unable to determine whether removal of an anatomical gift will jeopardize an accurate determination of death, the medical examiner will, when possible, be present to personally examine the deceased donor;
- that the State Medical Examiner shall promulgate rules and regulations to establish a system to provide back-up assistance to county medical examiners in the event that a medical examiner is unable to be present to examine the deceased donor due to circumstances beyond the medical examiner's control;

that a medical examiner and the health care professional removing the donated gift will work together to assure that the important missions of both groups are fulfilled in the most efficient manner.

Organ and tissue transplantation is saving more and more lives and the quality and length of those lives are increasing dramatically. The medical examiners in New Jersey can make a significant contribution in this area if they become active advocates for transplantation. I commend them to do so.

Therefore, I herewith return Assembly Bill No. A-1575 (First Reprint) and recommend that it be amended as follows:

Page 1, Sections 1, 2, Delete in entirety and 3, Lines 6-43:

Page 2, Section 3, Delete in entirety and insert as

Lines 1-6: follows:

"1. For the purposes of this act, "medical examiner" means the State Medical Examiner or any assistant state medical examiner, county medical examiner, deputy or assistant county medical examiner or designated physician who holds a valid certificate of eligibility issued by the State Medical Examiner Office.

2. Whenever there is identified a prospective organ or tissue donor whose death would be reportable to the medical examiner pursuant to Section 9 of P.L. 1967, c. 234 (C.52:17B-86), as evidenced by advance directive, will, card or other document, or as otherwise provided in the "Uniform Anatomical Gift Act," P.L. 1969, c. 161 (C.26:6-57 et seq.), the person in charge of the hospital, or that person's designated representative as specified in the "Uniform Anatomical Gift Act," or the transplant coordinator, shall promptly notify the medical examiner office in the county where the death is expected to be pronounced.

3. Upon receipt of such notice, the medical examiner shall fully and promptly investigate the essential facts concerning the medical causes of death of the donor. The medical examiner, as part of this investigation, is authorized to:

- a) obtain witness statements or copies of witness statements;
- b) review medical records and interview treating physicians and hospital personnel;
- c) collect information from police, health care facilities, social service agencies, and records of the Division of Youth and Family Services, and others;
- d) confer with the prosecutor;
- e) visit and examine the scene of the fatal incident;

f) examine and photograph the patient and collect evidence; and

g) request such clinical specimens, tests and procedures that may be useful in the investigation of the cause of death and which are not in conflict with the diagnostic and therapeutic regimens established by the treating physicians.

4. Except as provided in section 5, the medical examiner may not deny authorization to remove the anatomical gift unless the medical examiner has, in a manner and within a time period compatible with preservation of the donor's tissues and organs for transplantation:

(1) conducted the investigation pursuant to section 3 of this act;

(2) concluded in good faith from the results of that investigation that removal of the anatomical gift would jeopardize an accurate determination of the cause of death;

(3) submitted the results of that investigation to the State Medical Examiner; and

(4) received the concurrence of the State Medical Examiner or designee.

Upon receiving proper authorization and consent, a health care professional authorized to remove an anatomical gift from a donor who is under the jurisdiction of the medical examiner may remove the donated part from the donor's body for acceptance by a person authorized to become a donee.

5. If the medical examiner is unable to determine whether removal of an anatomical gift will jeopardize an accurate determination of death, the medical examiner may deny authorization to remove the anatomical gift if the medical examiner has first examined the deceased donor or if the medical examiner or backup as provided in section 6 is unable to be present to examine the deceased donor due to circumstances beyond their control.

The State Medical Examiner shall promulgate rules and regulations to establish a system to provide backup assistance to county medical examiners in the event that a medical examiner is unable to be present to examine the deceased donor due to circumstances beyond the medical examiner's control.

6. The medical examiner may be present during the removal of the anatomical gift of any decedent under the jurisdiction of that office and may request a biopsy or specimen from the anatomical gift provided this does not impair the usefulness of the gift. Whenever, in the opinion of the medical examiner, there is a compelling public necessity as defined by P.L. 1983, c. 535 (C.52:17B-88.1, a(1) or a(4)), the medical examiner shall be present during the removal of the anatomical gift, observing the field of operation, and shall file a report of observations in the office which has jurisdiction.

7. The health care professional shall promptly provide the medical examiner office with 1) a certification that the anatomical gift was removed in functioning condition if applicable, and 2) a description of all signs of disease or injury observed on the body of the decedent in the operative field at the site of incision(s) and within the body cavity. The transplant coordinator shall provide the medical examiner with a report documenting the results of all pending tests including, but not limited to, HIV, hepatitis B, cultures, serological or antibody testing.

8. If, after donor retrieval, the medical examiner conducts an autopsy, the findings shall be forwarded by the medical examiner to the transplant coordinator by the most expeditious means whenever evidence of unsuspected infectious disease or malignancy is identified at the time of autopsy.

ASSEMBLY BILL NO. 61
(First Reprint)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I herewith return Assembly Bill No. 61 (First Reprint) without my approval.

Assembly Bill No. 61 (First Reprint) amends the New Jersey Works for Schools Program to permit loans to school districts whose projects were approved for funding between September 1, 1992 and December 31, 1992. The New Jersey Works for Schools Program, enacted on April 8, 1993, creates a revolving facilities fund to provide low interest loans to school districts for the construction, renovation and repair of public school facilities. While the program is targeted to upgrade inadequate schools, it is part of an overall capital improvement plan designed to create jobs while rebuilding our State's infrastructure. The New Jersey Works for Schools Program provides for the creation of jobs by establishing incentives for school districts to undertake construction projects which but for this initiative might not otherwise have been approved. The program was not designed to provide a form of State aid for school districts which already had received funding approval. Therefore, eligibility for the program was limited to projects approved for funding after January 1, 1993.

Assembly Bill No. 61 (First Reprint) would expand eligibility for the Facilities Loan Fund to school districts whose projects were approved between September 1, 1992 and December 31, 1992. Clearly, providing loans for these previously approved construction projects will not create any new jobs. Thus, it is inconsistent with the primary goal of the program.

Moreover, I have been advised by the Economic Development Authority that the program is currently oversubscribed by approximately \$200 million. This bill, therefore, would provide no real economic benefit to these districts but would merely make them eligible to apply for a program that has already committed all its funds. Without an appropriation, this bill unfairly raises the expectations of these districts with no intention of meeting those expectations. Furthermore, if districts made eligible by this bill waited until more funds are available through repayments of loans to other school districts, construction would be delayed for several years – construction that was approved by voters in these districts over six months ago. This result would directly conflict with the goals of the New Jersey Works for Schools Program – accelerating job creation and school facilities improvement.

However, I am sympathetic to the difficulties these districts and other school districts have in meeting their facilities needs. I certainly would support the creation of a new program designed to assist districts in meeting the high costs of school construction while stabilizing property taxes. If the Legislature develops such an initiative to help these school districts and provides the funding to make the initiative real, I would be supportive of that effort.

Given the tremendous success of the New Jersey Works for Schools Program, I am hopeful that the Legislature will continue to appropriate money for this revolving loan fund. This year, it is estimated that the program will create 11,000 jobs by funding approximately 200 separate school construction projects. Over 130 school districts received loans through the program. Appropriating more funds to the program in future years, may permit districts ineligible this time for funding to begin new construction projects that would be eligible. This will create jobs as well as continue the upgrading of our deteriorating school facilities.

Accordingly, I herewith return Assembly Bill No. 61 (First Reprint) without my approval.

Respectfully,
Jim Florio
GOVERNOR

Assembly Bill No. 1615

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I herewith return Assembly Bill No. 1615 without my approval.

This bill establishes the procedures for a recall election for elected school board members. The bill provides that in order to have a recall election the school board member must have served at least one year and at least 25% of the registered voters of the school district must sign a recall petition. The bill further provides that at the recall election, the same ballot would be used to elect a successor in the event the recall is successful.

The issue of recall has been the subject of considerable interest and debate recently. In addition to passing this bill, the Legislature has approved a proposal to have the voters decide this November if the New Jersey Constitution should be amended to allow the recall of any elected official in New Jersey including elected school board members. Advocates of recall argue that it will make public officials more responsive to the public's wishes and will restore public confidence in the institutions of government. Opponents express concerns about increasing the power of special interests groups who could mount an effective recall campaign if public officials were not responsive to those special interests. The debate over recall raises significant questions regarding the best means of providing the public with a real voice in their government.

In light of the pending proposal on the November ballot, I am reluctant to preempt public input on the issue of recall by signing this bill. I believe it is preferable to let the voters express their views on recall for all elected public officials rather than enacting piecemeal legislation without the knowledge of public sentiment on the issue. The purpose of permitting recall is to give the public a powerful voice in government. In furtherance of that end, I believe that we should wait until the public speaks on recall before enacting this type of legislation. Thus, while I respect the goal that this bill is trying to achieve, I

nonetheless must return it without my approval and urge the Legislature to await the public referendum on recall in November.

Accordingly, I herewith return Assembly Bill No. 1615 without my approval.

Respectfully,
Jim Florio
GOVERNOR

September 24, 1993

The Honorable Chuck Haytaian
Speaker of the General Assembly
State House CN 098
Trenton, NJ 08625

Dear Mr. Speaker:

Please be advised that I am resigning from my Assembly seat effective 12 Noon on October 13, 1993.

It has been my honor, Chuck, to work with you, your leadership and the Caucus for the past two years.

It is certainly with regret that I leave my friends in the Assembly. However, on a lighter note, you know you will have a friend ready and willing to work with you in the Senate.

Thank you, once again, for your trust in me during my term.

Sincerely,

Robert W. Singer

The following Certificate of Selection was received and read:

I, DANIEL J. DALTON, Secretary of State of the State of New Jersey, DO HEREBY CERTIFY that the Chairman of the Republican State Committee has certified to this Department, the name of

December 16, 1993

New Jersey State Legislature

Joint Committee on Ethical Standards

State House, Trenton, NJ 08625-0068

Dear Honorable Members of the Committee:

Notwithstanding the fact that I believe I could vote impartially on Assembly Bill No. 2727, which is scheduled to be considered by the General Assembly at its session today, I shall abstain from voting on it.

This bill is special legislation to permit the permanent appointment of a police officer in the Township of Lebanon, County of Hunterdon. My father, Wesley L. Lance, represents Lebanon Township as its municipal attorney. I am an associate in his law firm.

By copy of this letter, I am also informing Donna Frangakis, Clerk of the General Assembly, of my intention to abstain on this bill.

Respectfully,

Leonard Lance

Assembly Member

ASSEMBLY BILL NO. 316

(Third Reprint)

To The General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I herewith return Assembly Bill No. 316 (Third Reprint) with my objections for reconsideration.

This bill would require that any public school program or course on sex education or the prevention of AIDS, and any materials distributed by the State Board of Education for these courses, stress that abstinence from all sexual activity is the only reliable way of avoiding sexually transmitted diseases and pregnancy. The bill further requires that any course or materials concerning methods for the prevention of AIDS stress scientific evidence about the importance of avoiding intravenous drug use.

I am very supportive of the sponsors' stated goal of this legislation -- to reduce unwanted pregnancies and the spread of sexually transmitted diseases and AIDS. However, we must avoid legislative mandates which operate as an intrusion upon local school districts and the communities they serve. Nor do I believe that a legislative direction of what should be taught or stressed in a family life course is the appropriate way to achieve the sponsors' goals regarding sex education in New Jersey. The curriculum in our public schools should be determined by the State Board of Education, in conjunction with local school districts and parents and students.

Moreover, this legislation is lacking because of its singular approach to dealing with the public health crisis of the AIDS virus. There needs to be a comprehensive strategy to AIDS prevention that includes education and other prescriptions for combating the spread of AIDS.

Since 1980, the State Board has required each public school district, as part of its health curriculum, to provide family life education programs to elementary as well as secondary school students. Rather than mandating a uniform Statewide curriculum, the State Board allows local school districts to develop the curriculum, the emphasis and the materials to be used in the programs; however, local school districts must establish local community advisory committees composed of parents, clergy, physicians, community residents and students and involve those committees in planning the programs each year. Moreover, local school districts must provide parents with an outline of the course each year and a list of instructional materials so that parents may exercise their statutory right to excuse their children from any portion of the course which is in conflict with their beliefs.

This process, established by the State Board, has generally been successful in ensuring that family life education programs are reflective of local community values. Some supporters of this bill have suggested that parents have not been properly included in the planning process and have had difficulties in obtaining the curriculum outline and course materials. If that is true, what is needed is better enforcement of the existing State Board regulations or a strengthening of those rules. What is not necessary nor appropriate, is a legislative responsive which usurps local control and dictates to school boards, local advisory committees and parents what teachers should "stress" and what materials should be used in these courses.

I am, therefore, recommending amendments to Assembly Bill No. 316 (Third Reprint) which would continue to permit local districts, with the input of the local community, to establish the content of the curriculum and materials to be used in family life courses and AIDS prevention programs rather than imposing mandates as the cornerstone of these courses. Since my recommended language makes the bill permissive, I have also recommended deletion of the provision in the bill which provides for the continued use of non-compliant materials with parental consent.

Therefore, I herewith return Assembly Bill No. 316 (Third Reprint) and recommend that it be amended as follows:

ASSEMBLY BILL NO. 1323
(First Reprint)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I am returning Assembly Bill No. 1323 (First Reprint) with my recommendations for reconsideration.

This bill would impose a comprehensive system of regulations and oversight on the check-cashing industry. There is no question that this

legislation is long overdue. As we have seen from the recent hearings held by the State Commission of Investigation, criminals throughout this State have begun to use check-cashing services as a convenient means of laundering their proceeds. Moreover, check-cashing establishments are more and more becoming the financial institution of choice for many of our citizens in our most economically distressed areas – areas in which banks are sometimes hesitant to locate. The time has therefore come to bring the check-cashing industry into a sensible regulatory mechanism, not only to strengthen our ability to stem money laundering, but to protect the interests of the consumers as well.

I am pleased, therefore, that the Legislature has presented me with a bill that would impose sensible and effective regulatory oversight over this industry.

In taking this step, however, we must guarantee the people of this State that we are doing it the right way. I believe this is a good bill, and I fully agree with the approach it takes toward the goal of better and more effective regulation. But I believe it could be strengthened in a number of respects: we need to make the licensing application process more exacting, we should authorize full criminal background checks on those who apply for a license, we ought to regulate the sale of check-cashing businesses to third parties, and we should provide more sensible civil and criminal penalties. Accordingly, I am hereby returning this bill to the Legislature with the recommendation that it adopt amendments consistent with these suggestions.

For these reasons, I herewith return Assembly Bill No. 1323 (First Reprint) and recommend that it be amended as follows:

ASSEMBLY BILL NO. 1535
(Fourth Reprint)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I am returning Assembly Bill No. 1535 (Fourth Reprint) with my recommendations for reconsideration.

I strongly support the intent of this bill, which would create the New Jersey Petroleum Underground Storage Tank Remediation and Upgrade Fund to provide financial assistance to businesses, local governments and homeowners for the upgrade and cleanup of underground storage tanks used for gasoline, heating oil and other petroleum products. I also wish to commend the legislative sponsors of this bill for their hard work in grappling with these complex and important policy questions.

I believe this legislation represents a sincere and laudable effort to address the serious environmental threat posed by leaking underground storage tanks and the significant economic burdens associated with the upgrade and cleanup of obsolete tanks owned by businesses and government agencies. At the same time, I must also take note that the next Administration, which will be responsible for administering this new program over the next four years, has recently expressed its reservations about the type of funding mechanism specified in the current bill, which would raise necessary cleanup funds through the levy of a new tax on petroleum products sold in New Jersey. Because I believe the support of the incoming Administration will be vital for the successful, long-term implementation of this important environmental program, I have reached the conclusion that this bill should not go forward in its current form.

As an alternative to the current bill, I am proposing amendments to remove existing bill provisions that would levy a 1.65 cents per gallon tax on gasoline, heating oil and other petroleum products sold in this State. To provide an alternate, interim funding source for this remediation program, I would amend the bill to appropriate a total of up to \$90 million in funding from the "Taxpayer Relief Fund," created pursuant to Section 39 of P.L.1993, c.155, for deposit to the Petroleum Underground Storage Tank Remediation and Upgrade Fund.

Based on the latest financial projections for the rate and cost of tank cleanups, this appropriation should be sufficient to finance the proposed loan and grant program for a year, permitting the next Administration and Legislature to make decisions on an appropriate long-term funding mechanism for this program. The adoption of this interim strategy will also provide the next Administration and Legislature with additional time to revisit the key policy issues relating to the design and implementation of underground storage tank remediation programs in New Jersey.

I recognize that there are some industry concerns about the possible effects of this conditional veto on the efficient delivery of petroleum products in New Jersey as a result of the onset of State and federal

compliance deadlines applying to certain owners operators of underground storage tanks. To ease any immediate concerns relating to the December 22, 1993 State deadline for upgrading underground storage tanks, I have asked the Department of Environmental Protection and Energy to refrain from the enforcement of this deadline at least until January 11, 1994, thereby providing the Legislature with a reasonable opportunity to make its own determination on this bill. I have also received assurances from the United States Environmental Protection Agency that its officials charged with the responsibility for enforcing a December 22, 1993 federal deadline for financial assurance requirements will not be taking any independent enforcement actions during the pendency of this legislation.

As a result of these interim measures, I am confident that there will be no significant disruptions in petroleum product deliveries during the time period this bill is being considered by the Legislature. I would urge the continued cooperation of all petroleum product suppliers in avoiding any disruptions in the delivery of these vital products to the citizens of New Jersey.

For these reasons, I herewith return Assembly Bill No. 1535 (Fourth Reprint) and recommend that it be amended as follows:

Page 1, Title, Lines 15 thru 17: Delete "imposing an environmental assessment on certain petroleum sales, amending and supplementing P.L. 1990, c.42,"

ASSEMBLY BILL NO. 1814

(Fourth Reprint)

To The General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I herewith return Assembly Bill No. 1814 (Fourth Reprint) with my objections for reconsideration.

This bill is designed to create a simplified process for the withdrawal from sending-receiving relationships of small districts whose students comprise less than 3% of the total enrollment of the receiving district. The process would eliminate the need for a feasibility study and an administrative adjudication prior to termination of the relationship. However, the sending district must join a regional school district upon termination of the sending-receiving relationship and the termination of the sending-receiving relationship cannot significantly disrupt the racial balance in either the sending or receiving district.

While I do not oppose the major purpose of this bill – to simplify the sending-receiving termination process in limited situations involving small numbers of students and to encourage small sending districts to regionalize – I believe that certain provisions of the bill need to be clarified to eliminate any ambiguity as to its implementation. First, the bill specifically provides that the sending district must "agree to join a regional district" but does not define that phrase. Certainly, we cannot have a situation where the sending-receiving relationship is terminated but the district is "in limbo" because it has not become

part of a regional district. I am therefore recommending that language be added to the bill which would make termination of the sending-receiving relationship effective only after the sending district is admitted to an existing regional district or has become part of a newly formed regional district.

Further, a number of districts are currently involved in, or have recently concluded, litigation over the termination of sending-receiving relationships. Since this bill is designed to simplify a process that these districts have already completed, it does not make sense to make it applicable to these districts. Moreover, receiving districts who have successfully prevented termination of the relationships for reasons which include the impact on racial balance have expressed concerns regarding the impact of this bill on those districts. The sponsor attempted to address these concerns by adding a provision in the bill dealing with racial impact; however, that language may not be sufficient to preclude lengthy and costly litigation on whether the bill applies to these districts. Thus, I have recommended language which would specifically exclude from the bill those sending districts who are currently involved in, or have recently concluded, litigation on the issue of termination in which severance was denied for reasons which included impact on racial balance.

Finally, I cannot support the inclusion in this bill of "hold-harmless" aid for any receiving district who will be losing tuition by operation of the bill. This provision would require the State to assume a cost it previously was not responsible for - tuition for students who are no longer attending the receiving district - as well as to provide State aid to the regional school district where the students will be attending. Creating a new State aid obligation at this time is inappropriate without a comprehensive look at the entire school funding system. Such a review is presently being done by the Education Funding Review Commission and that Commission may have recommendations on this issue. Additionally, the incoming administration should have an opportunity to review any expanded obligation for State aid to schools since it will effect the overall State budget during the upcoming years. I am, therefore, recommending deletion of that provision.

Therefore, I herewith return Assembly Bill No. 1814 (Fourth Reprint) and recommend that it be amended as follows:

Page 1, Line 8: After "of" insert N.J.S. 18A:38-13
and"

Page 1, Line 27: Delete "and"

Page 1, Line 29: After "districts" delete "." and insert ";and"

Page 1, Line 30: Before b. insert new section

"(5) A petition of the sending district to terminate the sending-receiving relationship has not been denied since January 1, 1988 by the Commissioner of Education, the State Board of Education or the New Jersey courts, for reasons which include the impact on the racial composition of the pupil population of the districts."

Page 1, Line 38: After "occur." insert "Termination of the sending-receiving relationship shall not occur until the sending district

has been admitted to an existing regional school district pursuant to N.J.S. 18A:13-43, 44, or has become part of a newly formed all purpose regional district pursuant to N.J.S. 18A:13-34, 35."

ASSEMBLY COMMITTEE SUBSTITUTE FOR
ASSEMBLY BILL NOS. 1623 and 553
(First Reprint)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I am returning Assembly Committee Substitute for Assembly Bill Nos. 1623 and 553 (First Reprint) with my recommendations for reconsideration.

This bill would alter the manner in which State agencies and authorities award contracts for engineering, architectural, and land surveying services. In particular, the bill would diminish the significance of cost as a factor in awarding contracts to professional firms providing these services to State entities.

I am conditionally vetoing this bill today because in my view it would go too far in sacrificing the taxpayers' legitimate interest in obtaining high quality services at the lowest possible cost. In May of this year, I issued Executive Order No. 92, which required all professional service contracts to be awarded on the basis of an open and competitive process. As it applies to engineering and architectural services, I am confident that the process set forth in Executive Order No. 92 strikes the optimal balance between quality and cost while also ensuring public disclosure. I do not believe that we should begin now to alter these processes in any manner that might weaken the competitive forces that guarantee the lowest cost for our taxpayers.

For these reasons, I herewith return Assembly Committee Substitute for Assembly Bill Nos. 1623 and 553 (First Reprint) and recommend that it be amended as follows:

Page 1, Section 1, Line 11: Delete "negotiated" insert "awarded"

Pages 3-9, Sections 6-8: Delete in entirety and insert new sections as follows:

"6.a. Notwithstanding the provisions of any other law to the contrary, either the provisions of subsection b. or c. of this section or the provisions of section 7 of P.L. 1954, c. 48 (C.52:34-12), which allows for award to the responsible bidder, price and other factors considered, as determined by the contracting agency, shall serve as the minimum contracting requirements for contracts for services of architects, engineers, planners or other professionals generally retained in the construction process for any agency.

b. (1) For each proposed contract, the contracting agency shall develop a "Request for Proposals," hereinafter "RFP," describing the project and the services required in sufficient detail as necessary to facilitate comparative responses by qualified professionals. The RFP shall include the deliverables, time frame, estimated project value and the criteria which will be used to evaluate the firms' technical qualifications to perform the work.

(2) For each proposed contract, an agency shall establish a panel of evaluators, qualified to make technical determinations, who will evaluate the qualification statements and responses to the RFP on the basis of technical merit.

(3) Upon review and evaluation of all proposals, the three best proposals shall be numerically ranked by the evaluation committee on the basis of technical merit. The remaining proposals shall be ranked only if needed pursuant to paragraph (4) of this subsection. This ranking shall be determined on the basis of written evaluations prepared by the evaluation committee, which shall set forth numerical scores assigned for each of the evaluation criteria.

Following this ranking, the agency shall contact the three highest ranked firms and solicit from these firms a sealed cost proposal to undertake the work outlined in the proposal. Included in this cost proposal shall be a breakdown of the hourly fee schedule, if appropriate.

Following award of the contract, the summary of the written evaluations prepared by the committee and the cost proposals submitted by the three highest ranked firms shall be considered a public record for the purposes of P.L. 1963, c. 73 (C.47:1A-1 et seq.) and shall be retained as part of the permanent record.

(4) An agency shall negotiate a contract with the highest technically ranked firm or firms for services at compensation which the agency determines to be fair and reasonable taking into consideration all relevant factors, including but not limited to, the estimated value of the services to be rendered and the scope, complexity, and professional nature thereof. If the agency is unable to negotiate a satisfactory contract with the highest technically ranked firm at a compensation level the agency determines to be fair and reasonable, negotiations with that firm shall be formally terminated. The agency shall then undertake negotiations with the second highest technically ranked firm. Failing accord with the second highest technically ranked firm, the agency shall formally terminate negotiations. The agency shall then undertake negotiations with the third highest technically ranked firm. If the agency is unable to negotiate a satisfactory contract with any of the three selected firms, the agency may rebid the contract or undertake negotiations with the next highest ranked firm.

c. An agency shall negotiate a contract with the most qualified professional firm for architectural, engineering, or land surveying services at compensation which the agency determines to be fair and reasonable to the State of New Jersey. In making this decision, the agency shall take into account the estimated value of the services to be rendered and the scope, complexity, and professional nature thereof. Should the agency be unable to negotiate a satisfactory contract with the professional firm considered to be the most qualified at a fee the agency determines to be fair and reasonable, negotiations with that professional firm shall be formally terminated. The agency shall then undertake negotiations with the second most qualified professional firm. Failing accord with the second most qualified professional firm, the agency shall formally terminate negotiations. The agency shall then undertake negotiations with the third most qualified professional firm. Should the agency be unable to negotiate a satisfactory contract with any of the selected professional firms, it shall select additional professional firms in order of their competence and

qualifications and it shall continue negotiations in accordance with this section until an agreement is reached.

d. An authority or other instrumentality covered by this act, but not a principal department, may petition the State Treasurer for permission to adopt modifications to the procedures set forth above. The State Treasurer may approve such a petition if a finding is made that the proposed modifications are consistent with the minimum contracting standards set forth in subsections a and b of this section. Upon approval by the State Treasurer, the method to be used shall be published pursuant to subsection c of section 5. of this act.

7. In the event that:

- a. life, health or other public exigency situations exist;
- b. the costs of the contract are less than the threshold amount permitted pursuant to section 2 of P.L. 1985, c. 349 (C.52:34-7.1), or
- c. other unique situations that make competition impracticable exist;

A contracting agency may negotiate a contract without public advertising, provided that the award is made from among those firms which have a valid qualification statement on file with the agency and that the contracting agency provide a monthly written report to the State Treasurer regarding the contract and the procedures followed in awarding the contract.

Upon review of the reports, the State Treasurer may require the contracting agency to award future contracts under this section in a different manner.

A report shall be considered a public record for the purposes of P.L. 1963, c. 73 (C.47:1A-1 et seq.).

8. This act shall take effect immediately and shall be operative for public notices placed on or after April 1, 1994".

ASSEMBLY BILL NO. 2367
(Second Reprint)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I am returning Assembly Bill No. 2367 (Second Reprint) with my recommendations for reconsideration.

This bill substantially revises the law governing the Alternate Benefit Program (ABP), the defined-benefit program available to faculty members of our State colleges and universities. This bill strengthens the ABP in a variety of ways -- by allowing members to select retirement plans from among a list of providers chosen through a competitive process, allowing mutual funds and insurance companies to serve as plan providers, and permitting members to borrow against their contributions in the system. The Legislature should be commended for presenting me with a bill that would improve the ABP system for the dedicated faculty members who serve our colleges and universities so well.

N.J. STATE LIBRARY
PO. BOX 520
TRENTON, NJ 08625-0520

I am returning the bill to the Legislature, however, because I cannot agree with the proposal to allow a full withdrawal of employee and employer contributions, regardless of the number of years a member has served. Under this proposal, a member would be entitled at the time he or she separates from service to withdraw not only his own contributions into the system, but the substantial contributions made by the State as well. I do not believe that this provision, as written, is consistent with the essential purposes of a pension system, or advances the interests of the taxpayers of this State. I certainly have no objection to a member withdrawing his own contributions at any time. But I believe that full withdrawal should not be available until the employee reaches an age that is more consistent with the purposes of a retirement system. I am therefore returning this bill to the Legislature with the recommendation that it adopt amendments to allow full cashability only after the age of 55.

For these reasons, I herewith return Assembly Bill No. 2367 (Second Reprint) and recommend that it be amended as follows:

Page 3, Section 3, line 41: Delete "three persons" insert "a person"

Page 3, Section 3, line 42-43: Delete "are active participants in or former participants" insert "is an active participant or"

Page 3, Section 3, line 44-50: After "program" delete in entirety.

Page 5, Section 6, line 16: Delete "Board of Higher Education" insert "Division of Pensions and Benefits"

Page 5, Section 6, lines 26-27: Delete "to the extent consistent with the foregoing provisions of this section"

Page 8, Section 9, line 52: Delete "full"

Page 8, Section 9, line 53: After "service." insert "The cash surrender shall be applicable only to employee contributions and accumulations prior to the participant's 55th birthday, and thereafter to the full amount of all employee and employer contributions and accumulations".

Respectfully,
Jim Florio
GOVERNOR
