Smith, R. Smith, Spadoro, Stuhltrager, Villapiano, Watson, Zangari, Zecker - 80

The Speaker announced:

Notice of and the calendar for this session of the General Assembly having been sent to the members of the General Assembly, the Secretary of the State and the State House Press and posted in accordance with the Open Public Meetings Law, I declare the General Assembly to be in session.

The Clerk began to read the Minutes of the previous meeting. Mr. Haytaian moved that the reading of the Minutes be dispensed with, which motion was adopted.

The Clerk then read and the General Assembly passed resolutions of welcome, condolences, commendation and recognition.

The following resolution was read and adopted on a motion by Mr. Haytaian:

General Assembly

1989 Organizational Resolution

BE IT RESOLVED,

1. That the Clerk of the General Assembly be directed to inform the Senate that the General Assembly has organized, its Speaker being the Honorable Chuck Hardwick of Union County, and its Clerk, Virginia E. Haines of Ocean County for the Second Annual Session of the Two Hundred-Third Session of the General Assembly, and has proceeded to business.

2. That the Speaker be and is hereby authorized to appoint such assistants as he may deem necessary.

3. That the working staff of the General Assembly shall be at all times subject to the direction of the Speaker and the Clerk, who shall have authority to designate to any member of the staff such duties as may be required.

4. That unless otherwise ordered the regular hours of meetings of the General Assembly will be on days and at times to be announced to the members, the news media and the public by the Speaker.

5. That no floor passes be issued by any officer or member of the General Assembly other than the Speaker, with the further provision that the privilege of the floor may be extended by a resolution duly adopted.

6. That in the absence of the Clerk, such other officers or employees as directed by the Speaker shall perform all duties imposed by law and the rules of the General Assembly upon the Clerk.

7. That the Bill Drafting Manual prepared and revised from time to time by the Office of Legislative Services, be adopted as the official manual of practice and procedure of the General Assembly governing the form of bills to be introduced in the General Assembly and governing the conduct of the preliminary examination of bills proposed for introduction in the General Assembly required by the Rules of the General Assembly.

That in order to carry out the aforementioned practice and procedure, Albert Porroni, Legislative Counsel and such deputies and assistants as he shall be designated as counsel to conduct said preliminary examination of bills proposed for introduction and amendments adopted in the General Assembly under the general supervision of the Legislative Counsel.

8. That each member of the General Assembly be authorized to retain up to six aides at a total compensation per member as authorized by law, except the Speaker may authorize more than six aides.

9. That the Rules of the 1988 General Assembly be adopted as the Rules for the 1989 General Assembly.

10. That His Excellency the Governor be informed that the General Assembly has organized for 1989, its Speaker being the Honorable Chuck Hardwick of Union County, and its Clerk, Virginia E. Haines of Ocean County, and is now ready to proceed to business and to receive any communications he may forward.

New Jersey State Legislature

1989 Organizational Resolution

1. That at 2 p.m. both Houses of the Legislature meet in joint session for the purpose of receiving the Annual Message of His Excellency, Thomas H. Kean, Governor of the State of New Jersey, which will be delivered in person.

2. That the 1982-83 Legislative Code of Ethics as set forth in 1982 Senate Concurrent Resolution No. 107, adopted temporarily as the 1988 Legislative Code of Ethics be adopted temporarily as the 1989 Legislative Code of Ethics.

3. That the Secretary of the Senate and the Clerk of the General Assembly be designated request officers for the Legislature as required by law.

4. That the legislative printer shall print and make distribution of bills, resolutions, installments of the Senate Journal and Minutes of the General Assembly and laws as heretofore and in accordance with the legislative printing contract.

5. That the Legislative Index and the New Jersey Legislative News for 1989 be subscribed to for the use of members of the Legislature, and for such officers of the Senate and General Assembly and other persons designated by the President of the Senate and Speaker of the General Assembly, at a subscription rate established by the President of the Senate and Speaker of the General Assembly.

On a motion by Mr. Haytaian, and adopted, Rule 117 was waived, requiring the one hour notice for amendments to Assembly Committee Substitute No. 1705/2250.

The Clerk read a message from the Senate that the Senate has passed the following bills in which the concurrence of the General Assembly is requested, which bills were read for the first time:

The Clerk read the following letter:

January 10, 1989

The Honorable Chuck Hardwick

General Assembly

State House Annex

Dear Chuck:

Governor Thomas H. Kean recently nominated me to fill the vacancy in the office of Chairman of the New Jersey Turnpike Authority caused by the resignation of Joseph A. Sullivan.

Therefore, I hereby submit my resignation as a member of the General Assembly from Legislative District 26, effective at the close of the business of the General Assembly on January 10, 1989.

My three terms in the General Assembly have been both challenging and rewarding and I leave the General Assembly with considerable sadness and regret.

My best wishes to all my colleagues in the performance of their duties.

Sincerely,

Ralph A. Loveys

The Clerk read the following resolution, which was adopted by voice vote:

Assembly Resolution

by Assemblyman Martin

WHEREAS, Assemblyman Ralph A. Loveys has resigned from the General Assembly, which resignation is effective at the conclusion of the business of the General Assembly on January 10, 1989;

WHEREAS, a vacancy exists in the office of a member of the General Assembly from Legislative District 26, by reason of Assemblyman Loveys' resignation; therefore

BE IT RESOLVED, that a letter issue, under the hand of the Speaker of the General Assembly, informing the Secretary of State that a vacancy exists in the office of a member of the General Assembly from Legislative District 26, effective

January 10, 1989, and that an interim appointment be made according to the laws of the State pending the election and qualification of a permanent successor as a member of the General Assembly.

Message to the General Assembly

dated: January 10, 1989

Mr. Speaker: I am directed by the Senate to inform the General Assembly that a printed copy of Assembly Concurrent Resolution No. 122 (1R) entitled "A Concurrent Resolution proposing to amend the Constitution of the State of New Jersey to require that certain public utility taxes collected by the State be dedicated solely for financial aid to municipalities," has this day been placed upon the desk of each member of the Senate while the same was in open meeting.

5. Mr. Haytaian moved that the message be spread in full upon the Minutes.

6. Which motion was adopted.

The Clerk read the following message from the Governor: Assembly No. 2297 Conditional Veto

Mr. Haytaian moved that the message be spread in full upon the Minutes.

Which motion was adopted.

Assembly No. 2297 (Second Reprint)

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I am returning Assembly Bill No. 2297 (Second Reprint) with my objections for reconsideration.

The purpose of this bill is to allow voters in all counties to approve the raising of funds for open space acquisition through a special tax. This tax, known as the "Open Space Preservation Trust Fund Tax" (Open Space Tax), is to be apportioned among the municipalities within the county on the basis of each municipality's apportionment valuation. Under the bill in its present form, the amount of money which shall be appropriated for the acquisition of open space shall not be exceed the amount or rate set forth in the proposition approved by the voters. Monmouth County's referendum to raise $4 million a year for the acquisition of open space (which was approved by the voters last November) was the impetus for this bill; the bill was later expanded to apply to all counties.

We support the purpose of this bill and its establishment of a mechanism which allows the counties to acquire open space for preservation. However, we have been contacted by the Assembly Sponsor who has pointed out a potential problem with the bill which must be addressed. As drafted, the bill may be interpreted to deny a county's ability to provide funds for open space acquisition by any means other than the Open Space Tax. Presently, the bill states that, "The governing body of any county in which the voters of the county have approved, in a general or special election, a proposition authorizing the acquisition of lands for conservation as open space, shall appropriate annually a sum not to exceed the amount or rate set forth in the proposition approved by the voters, for the acquisition of land or water areas, and any existing improvements thereon, within the county for conservation as open space."

The Sponsor fears that this language may be read to limit all county appropriations for open space acquisition to the dollar figure contained in the proposition authorized by the voters. For example, although Monmouth County recently approved a $25 million bond for acquisition and preservation of open space, it might nevertheless be limited to annually appropriating only $4 million of that money, as this was the dollar figure set forth in the proposition authorized by the voters. This restrictive reading would not allow Monmouth County to go forward with its plan to acquire more open space immediately at lower prices and would force it to postpone acquisition, for which it presently has funds, for the uncertain future. Again, this was never the intent of the bill. The purpose of the bill was to provide counties with a mechanism for raising monies to acquire open space through a special tax, the amount of which had to be approved by the voters. The bill was never intended to limit the amount of other monies a county could raise and appropriate, if it so chooses, to acquire additional open space.

To correct this inadvertent limitation on the counties' ability to acquire open space, the bill should be amended to make it clear that the financial limitations set forth with regard to the acquisition of open space apply only to the monies raised through the Open Space Tax provided in this bill. These changes are intended to make it clear that a county is free to raise money for open space acquisition by other means, including the issuance of bonds, and that the monies raised by these other means are in no way limited by the dollar figure set forth in the proposition approved by the voters.

Therefore, I herewith return Assembly Bill No. 2297 (Second Reprint) and recommend that it be amended as follows:

Page 1, Section 1, Line 11: Delete "shall appropriate annually", insert "may annually raise by taxation, including for purpose of debt service payments on indebtedness issued for the acquisition of open space,"

Page 1, Section 1, Line 15: Delete "appropriated", insert "raised by taxation"

Page 3, Section 3, Line 11: Delete "appropriated", insert "raised by taxation"

Page 3, Section 4, Line 26: Delete "appropriated to," insert "deposited in"

Respectfully,
Thomas H. Kean
Governor

On the motion of Mr. Haytaian, the following bill was given second reading by special order:

Assembly No. 3745.

The Clerk read the following message from the Governor: Absolute Veto of Assembly No. 294.

Mr. Haytaian moved that the message be spread in full upon the Minutes. Which motion was adopted.

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 294 (First Reprint) without my approval.

This bill appropriates $95,000 to the Department of Health and will establish the emergency medical technician-defibrillator (EMT-D) level of prehospital emergency care to allow emergency medical technicians (EMTs) and certain other emergency personnel to perform cardiac defibrillation. Specifically, this bill will permit EMTs and persons who have completed the emergency service training program for members of volunteer first aid, rescue or ambulance squads operated by the New Jersey State First Aid Council to be certified by the Commissioner of Health as EMT-Ds. Under current law, there are no training programs for EMTs to learn cardiac defibrillation in New Jersey.

I am aware of the benefits of early defibrillation to victims of cardiac arrest. I have also been advised that there is a potential for 20,000 trainees in this new certification program. While I am sympathetic to the merits of this new program, I nevertheless withhold my support.

As this bill has reached my desk, I note that it contains a technical error. One provision in the bill provides that an EMT, who is certified by the New Jersey State First Aid Council may be certified by the Commissioner as an EMT-D. The definition of EMT-D in the bill, however, permits only EMTs to be certified to perform cardiac defibrillation. While I believe it is the intent of the Legislature to permit both EMTs and persons certified by the First Aid Council to become EMT-Ds, this technical inconsistency should be resolved and normally I would do so through a conditional veto, but for a more serious problem concerning this bill.

The thrust of my objections to this legislation center on the issue of commitment of State resources for a new, ongoing program. The Department of Health estimates that the Statewide implementation of this program will require an annual appropriation of at least $260,000. While the appropriation contained in this bill has been reduced to less than one-half of the program's original costs, the Department will surely seek the full amount next year and if we view this program as a priority

we must surely appropriate the higher sum and perhaps more; otherwise the program will not accomplish its goals.

I am not prepared to embark on such a new program in a vacuum. The most recent budget figures I have received from the Department of the Treasury indicate that it will be difficult for the State to assure the necessary funding for all existing programs in the next fiscal year. Indeed, it is clear some reductions must be made in ongoing programs. In such a climate it is not appropriate to embark upon new ongoing programs which commit the State to appropriations in future years. This type of priority decision can only be made in the context of the budget as a whole.

While I am vetoing this bill for fiscal reasons, I am nonetheless willing to reconsider establishment of this EMT-D program if the Legislature budgets monies for same in the FY 1990 Appropriations Act. During the appropriations process, the Legislature can more appropriately consider the value of this program in the context of the State's other health care priorities. If the Appropriations Act contains funding for this program, it will demonstrate the State's collective judgement that the program has a higher priority than others competing for limited funds. Authorizing legislation can then be quickly enacted.

Accordingly, I herewith return Assembly Bill No. 294 (First Reprint) without my signature.

Respectfully,
Thomas H. Kean
Governor

The Clerk read the following message from the Governor: Conditional Veto of Assembly No. 2523.

Mr. Haytaian moved that the message be spread in full upon the Minutes. Which motion was adopted.

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I am returning Assembly Bill No. 2523 with my objections for reconsideration.

This bill provides for the enforcement of statutes, regulations, rules or orders relating to the natural gas pipeline safety by way of monetary and injunctive relief. Specifically, the bill authorizes the Board of Public Utilities to impose on any person it determines has violated a statute, regulation, rule or order a civil penalty up to $1,000 for each day the violation persists, not to exceed $200,000 for any related series of violations. The bill also authorizes the Board of Public Utilities to institute a civil action in Superior Court for injunctive or any other appropriate relief whenever the Board determines that a person has violated, intends to violate, or will violate any provision of any statute, regulation, rule or order relating to natural gas pipeline safety.

The purpose of this bill is to bring New Jersey into compliance with the federal Natural Gas Pipeline Safety Act of 1968 so as to allow New Jersey to enforce State and federal safety regulations. Presently, New Jersey surveys and inspects pipelines to ensure that safety standards are

met, but suspected violations must be referred to the federal Department of Transportation for enforcement. Bringing New Jersey into compliance with federal law will give us an opportunity to take a more active role in matters which directly affect our State. It would increase public safety and enable us to place more stringent restrictions on the transportation of natural gas.

However, despite my support for this legislation, I cannot sign the bill in its present form. It has come to my attention that the federal law with which we are seeking to comply was recently amended, and Assembly Bill No. 2523 no longer meets the federal criteria. As amended by Public Law 100-561, which was signed by President Reagan on October 31, 1988, the monetary limits in the federal law were raised to $10,000 for each violation for each day the violation persists, not to exceed $500,000. Assembly Bill No. 2523 contains the former limits of $1,000 and $200,000 respectively, and it is possible that New Jersey will not be able to achieve certification status by virtue of Assembly Bill No. 2523, as it now reads.

Therefore, in order to remove this ambiguity I return Assembly Bill No. 2523 and recommend that it be amended as follows:

Page 1, Title, Line 2: After "chapter" delete "10" and insert "9"

Page 1, Section 1, Line 7: After "Utilities" insert "after notice and an opportunity to be heard"

Page 1, Section 1, Line 9: After "than" delete "$1,000" and insert "$10,000"

Page 1, Section 1, Line 11: After "exceed" delete "$200,000" and insert "$500,000"

Page 1, Section 1, Line 30: After "natural" delete "pipeline" and after "gas" insert "pipeline:

Respectfully,
Thomas H. Kean
Governor

The Clerk read the following report of the Assembly Appropriations Committee:

Report of Assembly Appropriations Committtee on Assembly Concurrent Resolution No. 122 (1R)

In accordance with Rule 143 of the New Jersey General Assembly, a public hearing on Assembly Concurrent Resolution No. 122 (1R), entitled "A Concurrent Resolution proposing to amend the Constitution of the State of New Jersey to require that certain public utility taxes collected by the State be dedicated solely for financial aid to municipalities," was held in Room 403 of the State House Annex, Trenton, New Jersey, on January 19, 1989, before the Assembly Appropriation Committee.

The Clerk read the following message from the Governor: Absolute Veto of Assembly No. 3416.

Mr. Haytaian moved that the message be spread in full upon the Minutes. Which motion was adopted.

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 3416 (First Reprint) without my approval.

This bill would appropriate $5,200,000 to the Department of Higher Education to fund the building of new facilities by Seton Hall University School of Law in Newark. As a condition of the grant, the legislation requires a grant agreement between the Chancellor of Higher Education and the University, which would require the University to raise an amount equal to the $5,200,000 that the facilities must be located within the City of Newark; and that the school must continue its current level of clinical programming providing legal services to the public for a period of at least three years. In addition, the grant agreement must provide that Seton Hall shall not use the facilities for other than educational purposes unless the University receives approval from the State Board of Higher Education. If the University should sell or otherwise dispose of any interest in the facilities, it must repay the amount appropriated to the General Fund.

I believe that Seton Hall University School of Law remaining in Newark in new quarters benefits both the city and the law school. The law school provides free legal services to the community and a new capital project is important for the renaissance of the City of Newark.

Recently, Mayor Sharpe James wrote to me stating that "the relationship between Seton Hall University's Law School and the City of Newark is unique and mutually beneficial. It is a relationship that I as Mayor will make every effort to maintain."

I believe that our cities should be given the flexibility and power to help worthy projects such as this. In the past, municipalities had the authority to designate deteriorating areas, within which private capital investment could be provided with the revenues from tax increments to assist them in their expenses. The city benefits because these formerly deteriorating areas are opened for private investment, which stimulates commercial and industrial enterprise and creates favorable conditions for increases in economic activity, property values and employment opportunities. The entity benefits from the additional financial resources which the city can bestow. This provides a symbiotic relationship which we as a State should encourage.

Unfortunately, this previous legislation, known as Tax Increment Financing, (TIF) has lapsed. However, I have directed the Department of the Treasury to draft legislation authorizing a reenactment of this program. I call on Newark's political leaders, as well as the leaders in other municipalities who have the vision to appreciate the beneficial effects of enticing business and capital development within their borders by giving up some of the new and additional tax revenues which would result from a business being either retained or brought into the municipality, to join with me in supporting this legislation.

This scenario presents the only obvious answer to the dilemma of Seton Hall University School of Law remaining within the City of Newark, something Seton Hall desires, Newark desires and I wholeheartedly support. I regret that our current fiscal dilemma prevents me from authorizing this $5.2 million appropriation. With the State facing the distressing reality of inadequate funds to support our existing programs, I cannot authorize a decrease in the General Fund by $5.2 million for this project, no matter how sympathetic I am to its purpose. If working together the Legislature and I can devise a means of including this money within the budget, I will obviously reconsider my decision.

Accordingly, I herewith return Assembly Bill No. 3416 (First Reprint) without my approval.

Respectfully,
Thomas H. Kean
Governor

The Clerk read the following messages from the Governor: Assembly Nos. 1825 and 557 (Conditional Vetoes).

Mr. Haytaian moved that the these messages be spread in full upon the Minutes. Which motion was adopted.

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 1825 (Second Reprint) with my objections for reconsideration.

This bill mandates the suspension of a motor vehicle operator's license for at least six months but not more than two years if found guilty of the disorderly persons offense of eluding or attempting to elude a police officer by way of motor vehicle. If the operator had an expired license or had never been issued a driver's license, the bill calls for a mandatory term of imprisonment in lieu of license suspension: 90 days for a first offense, six months for a second offense and one year for any subsequent offense. The bill also creates a rebuttable presumption that the owner of the vehicle was the operator at the time of the offense.

There is one aspect of this bill which I find troubling, namely, the section concerning mandatory prison sentences. In essence, this bill would remove the discretion of the trial judge regarding the appropriate sentence to be awarded an individual convicted of this offense. The New Jersey Criminal Code currently permits trial judges to mete out all of the mandated sentence provisions of this bill and more. The court is to consider the severity of the offense, the potential effect of the loss of driving privileges on the person's ability to be rehabilitated and the effect of additional prison terms on the population of county and State jails.

While the deterrent effect sought be the sentencing provisions of this bill is desirable, it may be best achieved by the Judiciary's case-by-case application of the existing general sentencing statutes regarding terms of imprisonment. The effectiveness of our Criminal Code is enhanced by the clarity and general applicability of its provisions such that trial judges have all the necessary tools available to them to tailor appropriate sentences. The Department of Law and Public Safety, Division of Criminal Justice, maintains that, and I agree, mandatory prison sentencing provisions should be reserved only for the more serious crimes and judges should be allowed the discretion to apply an unencumbered Criminal Code for the remainder of crimes and offenses.

Accordingly, I herewith return Assembly Bill No. 1825 (Second Reprint) for reconsideration and recommend that it be amended as follows:

Respectfully,
Thomas H. Kean
Governor

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I am returning Assembly Bill No. 557 (First Reprint) with my objections for reconsideration.

Assembly Bill No. 557 (First Reprint) would amend the "Small Loan Law" (N.J.S.A. 17:10-1 et seq.) and change the name of the law to the "Consumer Loan Act." The bill includes many salutary provisions such as increasing the maximum amount that may be loaned from $5,000 to $15,000, requiring lenders to have net worth and available liquid assets of $100,000, rather that the current requirement of $25,000, and providing that any increases in interest rates be tied directly to an interest

rate index which is readily available to and verifiable by the borrower and which is beyond the control of the lender.

However, the bill does contain one problem. Present law permits the lender to increase the interest rate subject to various safeguards granted to the borrower. The bill, in its present form, continues to allow for interest rate increases subject to increased safeguards for the borrower; however, it permits the lender to change other terms in the contract without providing any safeguard to the borrower. While I believe the omission to be inadvertent, I cannot sign the bill in its present form.

There are other terms of a loan contract, besides the interest rate, which, if changed by a lender, could impact to the detriment of a borrower. One such change would be the minimum monthly payment. A small loan contract of this type would generally require a minimum monthly payment based upon a percentage of the outstanding balance. Under the terms of the present bill, a lender could unilaterally raise that percentage figure thereby substantially increasing the borrower's monthly liability. While the Federal Truth in Lending Act (15 USC 1601 et seq.) and the regulations promulgated thereunder would require the lender to notify the borrower of the change in terms, the borrower would be entitled to no more than that notice and would be left without any protection against thechange. While I am mindful that competition and market conditions are likely to militate against changes in terms of the contract of such a nature, the possibility of such changes (without protection, of any kind, to the borrower) exist in the bill presently before me.

Therefore, I recommend that the bill be amended to provide protection to the borrower when the lender seeks to change any term in the agreement. In the bill before me, when the lender seeks to change the index to which the interest rate is tied, the borrower must accept the change either explicitly, in writing, or implicitly, by incurring further indebtedness. Under my proposal, the lender must obtain acceptance in a similar fashion before a change in any term of the contract ultimately becomes effective. Therefore, I herewith return Assembly Bill No. 557 (First Reprint) and recommend that it be amended as follows:

Page 9, Section 8, Line 6: After "in" insert "any term of the agreement including"

Page 9, Section 8, Line 12: After "in" insert "any term of the agreement including"

Page 9, Section 8, Line 16: After "change" insert "in any term of the agreement or"

Assembly No. 3880, from the Health and Human Resources Committee to the Higher Education and Regulated Professions Committee.

Senate No. 1943, from the State Government Committee to the Appropriations Committee.

The Speaker advised the Clerk of the following:

On February 16, 1989, bills that passed the Senate of February 9, 1989, were received and referred in the General Assembly.

Senate bill 3282, sponsored by Senator Rand, was mistakenly referred to the Assembly Economic Growth, Agriculture and Tourism Committee when its identical Assembly counterpart, A-4216-Miller/Littell was being considered that day by the Assembly Transportation and Communications Committee.

Since A-4216 is presently on second reading, please correct the oversight and make sure that S-3282-Rand is given second reading, no reference.

The following communication was read:

To the Clerk of the General Assembly:

Please be advised that I have decided to abstain from voting on Assembly No. 4058 and Assembly Resolution No. 131 because I am an employee of Rutgers University, toward which University this Legislation is directed.

Sincerely,
David Schwartz
17th District

The Clerk read the following message from the Governor: Assembly No. 616 (Conditional Veto)

Mr. Haytaian moved that the message by spread in full upon the Minutes. Which motion was adopted.

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I am returning Assembly Bill No. 616 (Corrected Copy) (First Reprint) with my objections for reconsideration.

Assembly Bill No. 616 (Corrected Copy) (First Reprint) amends various provisions of the current law regarding the licensure of real estate brokers and salespersons. The bill contains many salutary provisions such as increasing the penalties for misconduct by real estate licensees and mandating that potential licensees receive instruction on the subject of ethics and ethical conduct with regard to the real estate profession.

However, the bill contains a number of problems which require a conditional veto. The bill cites various criminal offenses which no longer exist due to the adoption of the new criminal code. My proposed amendments incorporate the new code into this bill.

Additionally, I recommend the elimination of one of two penalty sections in the present law. When the law was originally adopted, there were two penalty sections included, one for violations of the statute and the other for violations of rules and regulations. This has caused confusion to at least one Appellate Court in an unreported decision, and, thus, I recommend that there be only one penalty section applicable to violations of both statutory and regulatory law. Further, the bill supplements the list of offenses for which the Real Estate Commission may discipline a real estate broker or salesperson. The new section subjects a licensee to discipline for purchasing property without disclosing his status as a real estate broker or salesperson to the seller in the contract of sale. Similarly, my recommendation would make it an offense for a real estate broker or salesperson to sell property without disclosing his status as a broker or salesperson to the purchaser in the contract of sale.

The major change that I am recommending is the elimination of new language regarding the Rehabilitated Convicted Offenders Act. N.J.S.A. 2A:168A-1 et seq. Under that law, licensing authorities may not automatically deny a license to an applicant who has previously been convicted of a crime. The licensing authority must look at the nature of

the crime and its relation to the license sought, the remoteness in time of the conviction and various other matters relating to the offense itself, the applicant and the license requested. Although, as noted below, the Appellate Division of the Superior Court has clarified the issue, the current statute appears to indicate that a certificate of probation or parole officer attesting that the license applicant "has achieved a degree of rehabilitation indicating that his engaging in the proposed employment would not be incompatible with the welfare of society" precludes the licensing authority from disqualifying the applicant. N.J.S.A. 2A:168A-3.

This bill would restrict the impact of the Rehabilitated Convicted Offenders Act on the Real Estate Commission's licensing authority by removing the applicability of N.J.S.A. 2A:168A-3 as that statute applies to the Commission. In other words, the Commission could disqualify an applicant despite the applicant's presentation of evidence of rehabilitation. Although a legitimate concern was raised due to the fact that real estate agents often hold large sums of money in trust, I cannot approve an amendment of this nature in this bill.

The Appellate Division of the Superior Court has assessed the significance of evidence of rehabilitation under the Rehabilitated Convicted Offenders Act in two cases: Hyland V. Kehayas 157 N.J. Super. 258 (App. Div. 1978) and Bevacqua v. Renna 213 N.J. Super. 554 (App. Div. 1986). In both cases, the Appellate Division has, in essence, held that the statute in question has limited effect. The court has held that if a licensing authority is presented with evidence of rehabilitation, the licensing authority does not become bound to award the license. The court has held in both cases that the licensing authority may review the underlying conduct behind the conviction, and based upon that conduct may deny the license if it is determined that the applicant is unfit for the license. The criminal conviction itself may not be the bar to licensure, but the actions leading up to the conviction may be used by the licensing authority in full. As such, N.J.S.A. 2A:168A-3 does not have the effect of granting licenses to person convicted of a crime based solely upon the presentation of evidence of rehabilitation. In fact, in the only two cases reported by the Appellate Division, the licenses in question were denied despite the presentation of evidence of rehabilitation. As such, the Commission's interests are adequately protected by the two Appellate Division cases. If, in the Commission's opinion, a certain individual should not be licensed based upon previous bad conduct, it can use bad conduct to deny a license in any event.

A more important reason for conditionally vetoing this aspect of the bill is the fact that the Rehabilitated Convicted Offenders Act is a statutory scheme applicable to all licensing authorities in the State. There are a host of licensing agencies with a strong interest in the persons that they license who would not be able to ignore this provision unless each and every one of those licensing authorities' statutes were similarly amended. There is no good reason to single out the Real Estate Commission for an exemption from the Rehabilitated Convicted Offenders Act.

Therefore, I herewith return Assembly Bill No. 616 (Corrected Copy) (First Reprint) and recommend that it be amended as follows:

Page 1, Title, Lines 2 & 3: After "salespersons" omit rest of line 2; on line 3 omit "and revising" insert "amending various"; after "law" insert "and repealing "R.S. 45:15-23."

Page 5, Section 3, Line 31: After "purchaser" insert "in the contract of sale" and after "therein" insert "and his status as a real estate broker or real estate salesperson"

Page 5, Section 3, Line 36: After "article" insert "or of the administrative rules adopted by the commissioner pursuant to the provisions of this article"

Page 6, Section 4, Line 13: After "forgery," delete "embezzlement, obtaining money under false pretenses, extortion" and insert "burglary, robbery, any theft and related offense with the exception of shoplifting"

Page 6, Section 4, Line 19: After "be" delete "filed with" and insert "obtained by"

Page 6, Section 5, Line 28: After "arson," insert "any" and after "theft" insert "offense"

Page 6, Section 5, Line 30: After "forgery," delete "embezzlement, obtaining money under false pretenses, extortion,"

Page 6, Section 5, Line 35: After "indictment" delete "be filed with" and insert "is obtained by"

Page 7, Section 6: Section 6 is deleted in its entirety and replaced by a new section 6 to read as follows: "R.S. 45:15-23 is repealed."

Page 7, Section 7: Section 7 is deleted in its entirety; insert new Section 7 to read as follows:

Section 8 of P.L. 1953, c. 229 (C. 45:15-12.1) is amended to read as follows:

8. No license shall be issued by the commission to any person known by it to have been, within five years theretofore, convicted of forgery [embezzlement, obtaining money under false pretenses, extortion,] burglary, robbery, and theft offense other than shoplifting, criminal conspiracy to defraud, or other like offense or offenses, or to any copartnership of which such a person is a member, or to any association or corporation of which said person is an officer, director, or employee, or in which as a stockholder such person has or exercises a controlling interest either directly or indirectly. In the event of the revocation or suspension of the license issued to any member of a copartnership, or to any officer of an association or corporation, the license issued to such copartnership, association, or corporation, shall be revoked by the commission, unless, within a time fixed by the commission, where a copartnership, the connection therewith of the member whose license has been revoked shall be served and his interest in the copartnership and his share in its activities brought to an end, or where an association or corporation, the offending officer shall be discharged and shall have no further participation in its activity.

Respectfully,
Thomas H. Kean
Governor

Motion by Senator Daniel J. Dalton

Resolved by the Senate of the State of New Jersey (the General Assembly concurring):

That the General Assembly return the bill, designated below, to the Senate for the purposes of further consideration, viz., Senate Bill No. 87.

The Clerk read the following messages from the Governor: (Conditional Vetoes)

Mr. Haytaian moved that these messages be spread in full upon the Minutes. Which motion was adopted.

Assembly No. 332, Assembly Committee Substitute Nos. 1845/2448 and S602.

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I am returning Assembly Bill No. 332 (Second Reprint), with my objections, for reconsideration.

Assembly Bill No. 332 (Second Reprint) would require the Departments of Corrections and Human Services, in conjunction with the Department of the Treasury (hereinafter collectively referred to as "the Departments"), to develop a comprehensive ten-year master plan. The master plan would provide an inventory of all of the Departments' real property, the properties' present and projected use, anticipated sales or transfers and real property acquisitions. In addition, the Departments must annually update the master plan.

Assembly Bill No. 332 (Second Reprint) would also require the Departments to notify the Senate Revenue, Finance and Appropriations Committee, the General Assembly Appropriations Committee, the Senate State Government Committee, the General Assembly State Government Committee (hereinafter collectively referred to as "the Committees") of the sale or transfer of surplus State properties. The notice that the Departments must provide includes the amount of money that the State anticipates receiving from the sale or transfer of the surplus property, how the Department plans to expend the proceeds and whether the sale or transfer has been identified in or contemplated by the most recent master plan update. This notice is to be provided to the Committees thirty (30) days prior to any scheduled action by the State House Commission.

While I support the basic concept expressed in Assembly Bill No. 332 (Second Reprint), I believe that this bill must be amended in several areas. Some of these amendments are substantially similar to those I suggested in my March 12, 1987 conditional veto message on Assembly Bill No. 3221.

I recommend that Assembly Bill No. 332 (Second Reprint) be amended to eliminate certain unnecessary information from the notice that Departments must supply upon the sale or transfer of surplus State properties. The provision of Assembly Bill No. 332 (Second Reprint) requiring the Departments to notify the Committees of the amount that is expected to be received from a sale or transfer of surplus State property thirty (30) days before any action by the State House Commission is unnecessary. At such an early point in the process, it would be quite difficult to ascertain the amount that will be received from the sale of most surplus State property because most surplus State property is sold at public auction. Therefore, this provision would be of minimal assistance to the Committees and will create an additional and unnecessary administrative obligation for the Departments. For this reason, I recommend that this provision be deleted from the bill.

Another provision of Assembly Bill No. 332 (Second Reprint) requires the Departments to notify the Committees as to how they plan to expend the proceeds from the sale or transfer of surplus property thirty (30) days before State House Commission action. On some occasions, this requirement could result in the imprudent use of the sale proceeds. Selling surplus State property can be a very long process, especially if legislative ratification is necessary. It is not unusual for the consummation of a sale to take at least one year. Because a department's priorities may change with the passage of time, it is unwise to require that the proceeds from a proposed sale be committed for a particular purpose so early in the process. For this reason, I recommend that this provision be deleted for Assembly Bill No. 332 (Second Reprint).

This notice provision of Assembly Bill No. 332 (Second Reprint) may also impede the process by which surplus property is sold. I interpret the 30-day notice provision to mean that if the Departments do not notify the Committees of a proposed sale thirty (30) day before an upcoming State House Commission meeting, the Commission would not be able to consider that transaction at that meeting and would have to delay consideration of that transaction until the next meeting.

The State House Commission meets only quarterly. The 30-day notice provision could have the effect of unnecessarily delaying a sale of surplus property by as much as four months. Consequently, in light of the foregoing, I recommend that the 30-day notice provision be deleted from Assembly Bill No. 332 (Second Reprint).

Finally, although I support the Finally, although I support the concept of a master plan as set forth in the bill to assist the State in its planning to utilize effectively real property held by the Departments, I would recommend the development of a five-year master plan instead of a ten-year master plan. A five-year master plan provides a more manageable approach. Foreseeing the demands and needs of a department is a difficult task. In addition, economic factors coupled with changing department priorities counsel in favor of a shorter time period. For these reasons, I recommend that this provision be amended as noted.

Accordingly, I herewith return Assembly Bill No. 332 (Second Reprint) and recommend that it be amended as follows:

Page 2, Section 2a, Line 15: OMIT "10-year" INSERT "5-year"
Page 2, Section 2a, Line 18: OMIT "10-year" INSERT "5-year"
Page 2, Section 2c, Line 34: OMIT "and shall indicate the" INSERT "."
Page 2, Section 2c, Lines 36-38: DELETE in entirety
Page 3, Section 2c, Line 1: OMIT "30 days prior to" INSERT "simultaneous with"

Respectfully,
Thomas H. Kean
Governor

Conditional Veto Message on Assembly Committee Substitute for Assembly Nos. 1845 and 2448.

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I am returning Assembly Committee Substitute for Assembly Bill Nos. 1845 and 2448 (First Reprint) with my objections, for reconsideration.

This bill requires the reporting of a street address to the Division of Motor Vehicles when registering or renewing the registration of an automobile or motorcycle or applying for or renewing a driver's license. A post office box will no longer be accepted as a primary address. However, a post office box may appear on the application only as part of a mailing address which is in addition to a residence or business street address.

I strongly support the purpose of this bill which is to assist law enforcement officers in locating the owners of stolen cars and to provide them with more complete motorist information. There are two aspects of this bill, however, which I find troubling.

First, I am concerned by the section mandating the Director of Motor Vehicles not to accept any application which does not include the applicant's street address. I foresee numerous administrative problems caused by the return of documents not complying with this requirement. The Director of the Division of Motor Vehicles estimates that there are approximately 1.5 million motorists using a solely a post office box as an address. If delays occur in the issuance of correct registrations and driver's licenses to only a small percentage of these 1.5 million motorists, the current driver's licenses and registrations of a substantial number of citizens will expire while documents are sent back and forth in the mail. In addition, I am advised by the Division that costly expenditures for computer programming, multiple non-routine mailings and additional employees would be required if the Division was required to immediately reject all applications without a street address. To avoid these administrative problems and costs, I believe that the absolute prohibition preventing the Division of Motor Vehicles from accepting an application without a street address should be deleted from this bill.

I am satisfied that the sponsor's beneficial goal could be achieved with the cooperation of New Jersey's motoring public. Although currently a person is not required to provide a street address when registering or renewing the registration of his motor vehicle or applying for or renewing his driver's license, I believe the vast majority of the affected motoring population will comply with the new requirement once requested to do so and new Division of Motor Vehicles' forms are provided.

After the Division evaluates the compliance rate with this new requirement, it will then be able to assess how best to ensure conformance with the requirement by the motoring public.

My second concern with this bill is the placement of the new matter of Section 2 in R.S. 39:3-10. Such a statutory placement would inadvertently result in the levying of an insurance surcharge for a violation of this section pursuant to N.J.A.C. 13:19-13.1. This surcharge is intended to penalize unlicensed drivers and is not intended to apply to individuals not complying with the street address requirements of this

bill. To avoid this unintended outcome, the substantive language of this new provision should be placed in a new section.

For these reasons, I herewith return Assembly Committee Substitute for Assembly Bill No. 1845 and 2448 (First Reprint) for reconsideration and recommend that it be amended as follows:

Page 1, Title, Line 3: After "R.S. 39:3-4" DELETE "and R.S. 39:3-10"

Page 1, Section 1, Lines 24-25: After "director." DELETE "The director shall not accept any application which does not include the applicant's street address."

Pages 3-6, Section 2: DELETE in its entirety. INSERT new section as follows:

"2. (New Section) Each application for a driver's license, or a renewal thereof, required by N.J.S.A. 39:3-10 shall contain the street address of the place of residence or business of the licensee at the time of the application or renewal. A post office box shall appear on a driver's license application only as part of a mailing address that is submitted by the licensee in addition to the street address of the licensee's residence or business. A licensee whose last address appears on the records of the division as a post office box shall change his address on his application for renewal to the street address of his residence or business and, if different from his street address, his mailing address."

Conditional Veto Message on Assembly Committee Substitute No. S602:

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I am returning Assembly Committee Substitute for Senate Bill No. 602 (Second Reprint) with my objections for reconsideration.

This bill has two primary objectives. First, the bill would increase the penalties for violation of the Solid Waste Utility Control Act of 1970 as the present penalties are too low to deter violation of the Act especially given the rapidly increasing costs of solid waste disposal. Specifically, this Assembly Committee Substitute provides that any person violating the Solid Waste Utility Control Act would be liable to a penalty of not more than $10,000 for the first offense, not more than $25,000 for the second offense, and not more than $50,000 for the third offense. Under the current law, penalties for violation of the Act have not been increased since the Act's original passage in 1970 and are presently unrealistically low: $1,000 for the first offense, not more than $5,000 for the second offense, and not more than $10,000 for a third or subsequent offense. I wholeheartedly support this increase in penalties for violation of the Solid Waste Utility Control Act and view it as essential to deterring haulers from making a conscious and habitual practice of violating the Act.

Second, the bill creates enhanced penalties, over and above those which are presently available in our general littering statutes, for those who illegally dump solid waste in quantities in excess of what can be held

in the average garbage bag. Specifically, the Assembly Committee Substitute prohibits any person from engaging in the collection, disposal or transportation or solid waste in amounts greater than 0.148 cubic yards (solids) or 30 gallons (liquids), whether or not for profit, unless the solid waste is taken to a disposal site or other destination which is authorized by the Department of Environmental Protection (DEP) or the Board of Public Utilities (BPU) to accept solid waste pursuant to an interdistrict or intradistrict waste flow order.

Violators of this provision would be guilty of a disorderly persons offense, susceptible to fines of up to $10,000, required to submit to mandatory community service, required to forfeit their right to operate a motor vehicle for six months, and would subject any conveyance used in the unlawful transportation or disposal of solid waste in violation of this Act to forfeiture to the State.

This enhanced penalty mechanism is necessary to deter individuals from illegally dumping solid wastes in vacant lots, wooded areas and other places in order to avoid the rising costs associated with legal disposal. Senator Rice, the sponsor, has pointed to a particularly high incidence of such illegal dumping in the vacant lots in the City of Newark. Under present law, if illegal dumping does not involved a registered hauler who is clearly susceptible to the penalties of the Solid Waste Utility Control Act, the maximum penalties are $500 pursuant to N.J.S.A. 39:4-63 and 64 or conviction of a petty disorderly persons offense and discretionary community service pursuant to the Clean Communities Act, N.J.S.A. 13:1E-99.3. It is generally acknowledged that these penalties are too minimal to deter illegal dumpers, particularly in light of the ever-increasing costs of legal disposal. In fact, I am told that in Newark the same illegal dumpers are often apprehended again and again, pay these minimal fines, and immediately resume their illegal practices.

While I support these enhanced penalties to deter illegal dumping, the bill results in some attendant problems which must be corrected. As currently worded, the Assembly Committee Substitute states that no person shall collect, dispose or transport solid waste in excess of a specified amount except at a disposal site or any other place which has the authorization of the Department of Environmental Protection or the Board of Public Utilities to accept solid waste "pursuant to an interdistrict or intradistrict waste flow order. . ." The Assembly Committee Substitute should have been referenced the entire DEP regulatory scheme rather than being limited to waste flow orders, as there are DEP-approved solid waste disposal sites where authorization to accept solid waste is unrelated to waste flow orders. For example, there are convenience centers situated in many rural areas, particularly in the southern counties, where citizens can bring their household garbage for disposal because at-the-curbcollection is impractical.

While these convenience centers are authorized by the DEP, they are not authorized pursuant to a waste flow order. Consequently, the present Assembly Committee Substitute makes it illegal for a citizen to dump more than one garbage bag of solid waste at these convenience

centers; clearly this result was unintended by the Legislature. The Assembly Committee Substitute's primary intent of increasing penalties for any unauthorized transportation, collection or disposal of solid waste--whether the conduct is contrary to a waste flow order or other DEP rule or regulation--would be better advanced if the DEP's entire regulatory scheme is referenced in the bill. I have recommended changes to the bill which would correct this deficiency.

Therefore, I herewith return Assembly Committee Substitute for Senate Bill No. 602 (Second Reprint) and recommend that it be amended as follows:

Page 2, Section 2, Line 19: After "Department of Environmental Protection", insert "or Board of Public Utilities"

Page 2, Section 2, Line 20: After "solid waste", insert "."; delete "pursuant to an interdistrict or intradistrict"

Page 2, Section 2, Lines 21 and 22: Delete in entirety

Page 2, Section 2, Line 29: After "solid waste", insert "."; delete "pursuant to an interdistrict or intradistrict"

Page 2, Section 2, Lines 30 and 31: Delete in entirety

Page 2, Section 2, Line 33: After "Department of Environmental Protection", insert "or the Board of Public Utilities"

The Clerk read the following message from the Governor: Absolute Veto/Assembly No. 4028

Mr. Haytaian moved that the message be spread in full upon the Minutes. Which motion was adopted.

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 4028 without my approval.

This bill would appropriated $75,000 from the General Fund for expansion of the Small Business Development Center (SBDC). I am advised that the appropriation provided by this bill would go to the satellite centers at Kean College, Warren County Community College and a center in the Camden area. Currently, six SBDC's offer one-on-one counseling at no cost and education workshops for small businesses throughout the State. The SBDC's receive funding from the State as well as the federal government which provides two-to-one matching funds. I am informed by the Department of the Treasury that the SBDC already receives funding from the State in the amount of $250,000, which will be continued in fiscal year 1990. Additonal funding for this program is provided by the federal government.

Despite the valuable work performed by these centers, the State's budgetary constraints do not permit an expansion of this program at this time. My action today is taken for fiscal reasons and should not in any way be interpreted to impugn the work that the SBCD's do. This bill has reached me not as part of the annual Appropriations Act, but as a separate bill. Thus, it cannot be reviewed in comparison to the many

other meritorious programs that are competing for the limited State resources available. As a result, I cannot in good conscience sign this legislation to expand this program during this period of budgetary constraint.

Accordingly, I herewith return Assembly Bill No. 4028 without my approval.

Respectfully,
Thomas H. Kean
Governor

Mr. Haytaian offered the following resolution, which was read by the Clerk and adopted:

Resolved:

1. That printed copies of Assembly Concurrent Resolution No. 35, entitled "A Concurrent Resolution proposing to amend Article 1, paragraph 11 of the Constitution of the State of New Jersey", be placed upon the desks of the members of the House forthwith, and that a record of such action be made in the Minutes of the General Assembly.

(The Clerk then caused to be placed upon the desk of each member a copy of Assembly Concurrent Resolution No. 35.

2. That the Clerk of the General Assembly forward 40 copies of said Assembly Concurrent Resolution No. 35 to the Senate with the request that the same be placed upon the desk of each Senator in open meeting forthwith.

3. Mr. Haytaian announced that a public hearing will be held on Assembly Concurrent Resolution No. 35, before the Assembly Judiciary Committee to be held in Room 418, State House Annex, on a date to be announced.

4. A message was received from the Secretary of the Senate as follows and was read by the Clerk:

5. Mr. Haytaian moved that the message be spread in full upon the Minutes.

6. Which motion was adopted.

The Clerk read the following message from the Secretary of the Senate:

Dated: 4/24/89

Mr. Speaker: I am directed by the Senate to inform the General Assembly that a printed copy of Assembly Concurrent Resolution No. 35 entitled "A Concurrent Resolution proposing to amend Article I, paragraph 11 of the Constitution of the State of New Jersey," has this day been placed upon the desk of each member of the Senate while the same was in open meeting.

John McCarthy

Mr. Haytaian moved that these messages be spread in full upon the Minutes. Which motion was adopted.

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 1184 (Second Reprint) without my approval.

This bill amends and supplements the "Public Assistance Payments Cycling Act" to provide for the phased Statewide implementation of an electronic benefit distribution (EBD) system for the purpose of issuing food stamp and Aid to Families with Dependent Children (AFDC) welfare assistance benefits. The bill stipulates that implementation of this system must begin in Camden, Hudson and Essex Counties by January 1, 1991. Under the bill, the Department of Human Services must provide for the cycling of benefit payments over multiple dates throughout the month in a manner convenient to the AFDC and food stamps recipients, within the framework of the EBD system in each county. For Camden, Hudson and Essex Counties, the cycling of benefit payments would begin on July 1, 1991. Also, the bill specifies that the Department of Human Services must evaluate the operation of the EBD system in Camden, Hudson and Essex Counties, and, at its discretion, proceed to implement the system in additional counties.

I have been informed by the Department of the Treasury that currently, there is no official estimate of the actual cost of the EBD system. An advance planning document submitted by the Department

of Human Services for federal funding of implementation of an EBD system in Essex and Camden Counties projected that the program would cost $1.5 million in these two Counties. Moreover, I understand that we do not know whether federal funding requested by the Department will be available for this program.

I believe that the concept underlying this legislation is meritorious. However, at this time, federal participation is uncertain, and while the cost of the Statewide implementation of this system is unknown, implementation would certainly require the commitment of millions of dollars. Budgetary considerations prompted by the substantial shortfall in anticipated State revenues force me to exercise extreme caution with regard to any legislation appropriating monies from the General Fund. This is particularly true in this case since there is no official projection of the actual cost of implementing this legislation, either in the three initial counties or on a Statewide basis.

Accordingly, I herewith return Assembly Bill No. 1184 (Second Reprint) without my approval.

Respectfully,
Thomas H. Kean
Governor

Absolute Veto Message on Assembly No. 2533:

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly No. 2533 (First Reprint) without my approval.

This bill makes a supplemental appropriation of $125,000 to the Commission for the Blind and Visually Impaired for a grant to the Electronics Information and Education Service (EIES) of New Jersey. The EIES is a private, non-profit organization that provides a radio reading service for persons who are blind or have visual impairments that prevent access to printed information. Making extensive use of volunteer readers, the EIES broadcasts on a full-time basis and transmits new and information from newspapers, magazines and current books.

I wholeheartedly applaud the efforts of the Commission for the Blind and Visually Impaired in support of the worthwhile services provided by an organization such as the EIES. Unquestionably, the EIES contributes substantially to the welfare of those citizens of New Jersey who are blind or visually impaired. I am concerned with the plight of this private, non-profit organization and the various other significant social services programs throughout New Jersey that have received federal funds in the past and are now facing minimal or, in some cases, no federal assistance. Unfortunately, I cannot commit the State in this tight budget year to replace those monies lost as a result of federal cutbacks. The Department of the Treasury has forecast revenue shortfalls that require major reductions in State spending. Under these circumstances, I am unable to endorse this supplemental appropriation at this time.

I recognize that the Legislature is currently conducting budget hearings and will be considering modifications to my proposed Fiscal

Year 1990 budget. Although there is now a pressing need for budget reductions, I recommend that funding for the EIES be considered in the context of the budget process where this program can be weighed against the State's other needs and the necessity for significant budget cuts.

Accordingly, I herewith return Assembly Bill No. 2533 (First Reprint) without my approval.

Respectfully,
Thomas H. Kean
Governor

MESSAGE TO THE GENERAL ASSEMBLY

Mr. Speaker: I am directed by the Senate to inform the General Assembly that a printed copy of Assembly Concurrent Resolution No. 117 entitled "A Concurrent Resolution proposing an amendment to Article VIII, Section III of the Constitution of the State of New Jersey," has this day been placed upon the desks of each member of the Senate while the same was in open meeting.

John McCarthy
Secretary of the Senate

The Clerk read the following messages from the Governor: Absolute Vetoes of Assembly Nos. 3056 and 3325.

A motion was made by Mr. Haytaian that the messages be spread in full upon the Minutes, which motion was adopted.

Absolute Veto Message of Assembly No. 3056

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 3056 without my approval.

This legislation allows an independent institutions of higher education to seek university status provided that the institution offers baccalaureate programs and graduate programs through the master's degree; that at least 10 percent of the degrees awarded are in the liberal arts and at least 50 percent of the baccalaureate degrees awarded are in two or more occupational or professional disciplines; and that the institution has a fall semester enrollment of not less than 2,500 full-time equivalent students. When the State Board determines that an independent institution of higher education meets these criteria, the Board must authorize the governing body of the institution to adopt the status and title of university. The actual title of the institution is to be determined by agreement between the governing body of the institution and the State Board of Higher Education. This bill does not affect the status or title of any institution of higher education in this State which is currently designated a university.

Current regulations adopted by the State Board of Higher Education provide that an institution of higher education may be designated a university if it provides a wide range of undergraduate and graduate studies in the arts and sciences, programs in two or more professional fields, and operative programs of instruction leading to the doctoral or comparable terminal degrees in two or more areas. Through these regulations, New Jersey is one of three states, including New York and Massachusetts, which have limited the university designation to institutions that offer doctoral programs.

I am returning this legislation because I believe that a decision of this nature ought to remain in the realm of the Board of Higher Education. Although this matter is clearly within the Board's domain, the Board has not carefully considered this issue up to this point. I am therefore directing the Board of Higher Education to thoroughly review the substance of this issue. It should conduct a full hearing with adequate notice to all interested parties so that a robust public debate will inform its deliberations.

New Jersey has become a national leader in higher education, in substantial part due to the work of the Board of Higher Education. Their expertise should be applied to this educational issue. If the Board fails to consider thoroughly all aspects of this issue, I will reconsider my current decision should a similar bill reach my desk this fall.

Accordingly, I herewith return Assembly Bill No. 3056 without my approval.

Respectfully,
Thomas H. Kean
Governor

Absolute Veto Message of Assembly No. 3325 (First Reprint):

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 3325 (First Reprint) without my approval.

This bill would create an Animal Population Control Study Commission to examine the State's surplus animal population and determine methods for reducing the proliferation of unwanted and stray dogs and cats. Specifically, this nine-member Commission would be required to: 1) study methods for funding animal population control programs at the State and local level using both public and private sector resources; 2) assess the effectiveness of animal population control programs; and 3) study the necessity for conducting public educational programs on the scope of animal population control activities. This Commission would report its findings and recommendations to the Legislature and the Governor within one year of the date upon which the Commission is organized and then dissolve.

I understand that the two programs already exist to address the issue of surplus dogs and cats in the State. The Animal Population Control Program (N.J.S.A. 4:19A-1 et seq.) established in 1983 was designed to reduce the population of unwanted dogs and cats by providing low-cost

animal sterilization services to owners who have demonstrated an inability to afford these services. Funding for this program is generated through a surcharge on dog licensing fees and participating veterinarians are reimbursed for 80 percent of the fee for each animal sterilization procedure performed.

The second program, which was implemented in 1985, directs the Department of Health to contract with a private agency for the operation of a pilot clinic for the spaying and neutering of dogs and cats. N.J.S.A. 4:19A-11. Over the past four years, more than 12,000 animal sterilization procedures have been performed at this clinic. Funding for this program is provided by a combination of fees for service and a surcharge on dog licensing fees.

Although I fully recognize the importance of this issue, I am unable to support the creation of this Commission. The Department of Health has advised that these existing State programs, together with county and private clinics, are adequately serving the identified needs for animal population control in the State. I am, therefore, unpersuaded that further study of this issue would result in any greater understanding of either the magnitude of this problem or the means by which it can be addressed.

In addition, although this bill contains no appropriation, the Department of Health will be expected to provide staffing for this Commission and some limited funding will be necessary to support the Commission's work. Given the significant cuts in public spending that will be required over the course of the next fiscal year, I do not believe that scarce Department of Health resources should be redirected for this purpose. I note that budgetary considerations have necessitated the recent veto of many worthwhile public health programs. Still further reductions in public health programs are unavoidable. In light of these current constraints on State spending, I believe signature of this bill would be ill-advised.

Accordingly, I herewith return Assembly Bill No. 3325 (First Reprint) without my approval.

Respectfully,
Thomas H. Kean
Governor

The Insurance Committee reported the following resolutions favorably and as reported were given second reading:

Assembly Concurrent Resolution Nos. 140 Aca and 142 Aca.

The following communication from the Governor was read:

Dear President Russo and Speaker Hardwick:

Enclosed for filing with the Senate and General Assembly this day is a Reorganization Plan to coordinate and consolidate the monitoring of energy within our State by transferring the Division of Energy Planning

and Conservation from the Department of Commerce, Energy and Economic Development to the Board of Public Utilities. This Plan is hereby transmitted and filed with you in accordance with the provisions of the "Executive Reorganization Act of 1969," P.L. 1969, c. 203 (N.J.S.A. 52:14C-1 et seq.).

Pursuant to the provisions of the Executive Reorganization Act, I am charged from time to time with the responsibility for examining the organizational structure of State government to determine whether changes in that structure can result in the more efficient and effective operation of State government. As I have said in the past, those who serve in government have a continuing obligation to scrutinize our functions and responsibilities and to reorganize our operations when doing so can result in a less costly and more efficient government.

I believe that this Reorganization Plan will centralize the State's efforts to provide affordable energy while ensuring that the sources of energy utilized are consistent with environmental standards. In addition, this transfer will help create an active process for the planning of needed energy facilities in the State.

In my view, the transfer described above will maximize the effectiveness and efficiency of State government in the areas of planning, coordinating and managing energy.

Sincerely,
Thomas H. Kean
Governor

Assembly No. 4388.

The Clerk read the following message from the Governor: (Absolute Veto Assembly No. 1787).

Mr. Haytaian moved that the message be spread in full upon the Minutes. Which motion was adopted.

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 1787 without my approval.

This bill would create the "Urban Recreation and Park Study Commission" (Commission) and appropriate $50,000 from the General Fund to enable the Commission to conduct its work. The Commission would be charged with studying the availability and quality of parks and recreational opportunities in the State's urban areas as well as evaluating methods and programs that might be effective in developing and expanding urban recreational activities. The Commission would be empowered to conduct public hearings and otherwise avail itself of the services of any State, county or municipal governmental body in preparing a report of its findings and recommendations that would be furnished to the Governor and the Legislature within one year of the Commission's organization.

While I applaud the spirit of this legislation and am committed to preserving and expanding the State's urban recreational resources, I have previously created a Governor's Council of New Jersey Outdoors (Governor's Council) whose agenda encompasses the objectives of the proposed Commission. The Governor's Council was established pursuant to Executive Order No. 138 on May 27, 1986 to study the State's needs for open space, urban recreational resources and natural resources preservation and to submit recommendations for measures to address these needs. On October 18, 1988, I issued Executive Order No. 198 and the Governor's Council a permanent advisory body.

Because the Governor's Council is mandated to address the issues that would be studied by the proposed Commission, I do not believe that there is a need for this legislation at this time. Furthermore, the serious budgetary constraints facing the State favor allowing the Governor's Council to continue pursuing this important agenda, rather than unnecessarily depleting the General Fund of the additional monies appropriated by this bill while serious budget cuts are being contemplated. In view of these circumstances, I cannot in good conscience sign this legislation.

Accordingly, I herewith return Assembly Bill No. 1787 without my approval.

Respectfully,
Thomas H. Kean
Governor

The Clerk read the following message from the Governor: (Conditional Veto Assembly No. 4020).

Mr. Haytaian moved that the message be spread in full upon the Minutes. Which motion was adopted.

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I am returning Assembly Bill No. 4020 with my objections, for reconsideration.

The purpose of this bill is twofold: first, to add to the general conditions of parole the requirement that the parolee not possess or own any firearm or other weapon and the requirement that the parolee not violate any of the provisions of Chapter 35 of Title 2C of the New Jersey Statutes concerning a controlled dangerous substance, a controlled dangerous analog or an imitation controlled dangerous substance. Second, the bill would amend existing law to allow parole officers assigned to supervise a parolee to apply to the Parole Board for a revocation hearing based on new criminal charges. Under existing law, only the prosecuting authority may make this application. This bill was introduced at the request of the Parole Officers' Benevolent Association (hereinafter the "Association"), which seeks these changes in order to maintain stricter control over parolees.

While I strongly support measures that will enable parole officers to more closely control the parolees under their supervision, I feel compelled to note that this bill, in its present form, does not advance this goal in the most effective manner. According to the bill's sponsors and the President of the Association, one purpose of the bill is to allow a parole officer, who is made aware of certain illegal activity on the part of a parolee under his supervision, to revoke that individual's parole without waiting until a criminal conviction is obtained. Specifically, the purpose of adding two general conditions of parole is to allow for revocation of parole prior to a new conviction when the parole officer makes a determination that a parolee has used, possessed or distributed illegal drugs or possessed a firearm or other inherently dangerous weapon such as a switchblade knife, blackjack, stun gun or metal knuckles.

This present bill does not further this intent to the greatest extent possible. For example, the bill is not specific regarding the "weapons" which, if found in the possession of a parolee, are alone a sufficient basis for revocation of parole. The bill adds as a general condition of parole "a requirement that the parolee will not own or possess any firearm or other weapon as defined by N.J.S.A. 2C:39-1." The reference to firearms is clear; pursuant to an existing Parole Board regulation, all parolees are prohibited from owning or possessing a firearm and this requirement is important enough to merit codification.

However, the broad reference to "other weapon" is problematic as our Criminal Code defines "weapon" as "anything readily capable of lethal use or inflicting serious bodily harm." In effect, nearly anything can be a weapon from brass knuckles to scissors to a rock. The definition of weapon in the Code is purposely broad because the Code's focus is not on the object per se, but rather the manner in which it is used of the circumstances in which it is possessed. For example, a common household item like a scissors may be a weapon as it is certainly capable of lethal use or of inflicting serious bodily harm. It was the intent of the

Association that the statute not refer to the broad general definition of weapon that might include otherwise innocuous items, but rather to those weapons which are inherently dangerous and specifically enumerated in the Code (N.J.S. 2C:39-1r.), such as switchblade knives, metal knuckles and blackjacks. A specific reference to these inherently dangerous weapons makes good sense as no one would advocate that parolees possess these types of weapons which can be used only in furtherance of criminal activity.

In addition, the bill's requirement that a parolee refrain from violating drug laws is ambiguous and most likely would be read to require conviction of a drug offense as a necessary antecedent to revocation of parole. As passed, the bill adds as a general condition of parole "a requirement that the parolee will not violate any of the provisions of Chapter 35 of Title 2C of the New Jersey Statutes concerning a controlled dangerous substance, controlled dangerous analog or imitation controlled dangerous substance." The bill's use of the term violate implies that criminal charges have already been brought implies that criminal charges have already been brought against a parolee and that parole officers may not revoke parole absent a disposition at the trial level. See N.J.S. 30:4-123.60b. This is contrary to the intent of the Parole Officers' Benevolent Association which seeks to enhance the power to revoke parole in a timely manner as soon as a parole officer has knowledge that a parolee is involved with illegal drugs.

Based on these concerns with the language of the bill, I recommend amendments which will clarify the intent of the sponsors and the Parole Officers' Benevolent Association with regard to the two additional general conditions of parole to be added to current law.

I also recommend a change in that part of the bill which would permit a parole officer to initiate revocation on the basis of new criminal charges brought against a parolee. A parole officer presently may initiate parole violation proceedings when the parole violates any condition of parole, but may not initiate violation proceedings based on new criminal charges brought against a parolee. In these latter cases, an application must be made by the prosecutor. This bill would also permit the parole officer assigned to supervise a parolee to initiate the process of revocation where criminal charges have been brought against a parolee. Although I concur with the intent of the bill to expand the powers of the Bureau of Parole to revoke parole, I believe that the power to make the application for revocation based on new criminal charges should rest with the Chief of the Bureau of Parole, not with each individual supervising parole officer. In that way, the Parole Board, as parole authority for the State of New Jersey, would review applications for revocation based on new criminal charges submitted by a county prosecutor, who is the chief law enforcement officer in the country, or by the Chief of the Bureau of Parole, who is responsible for the overall parole supervision of offenders under the jurisdiction of the Department of Corrections. This change will assure that applications for revocation based on new criminal charges have been thoroughly reviewed.

Therefore, I herewith return Assembly Bill No. 4020 and recommend that it be amended as follows:

Page 1, Section 1, Lines 24 to 28: Delete in entirety, and insert "a requirement that the parolee will not own or possess any firearm as defined in N.J.S. 2C:39-1f. or any other weapon enumerated in N.J.S. 2C:39-1r., a requirement that the parolee refrain from the use, possession or distribution of a controlled dangerous substance, controlled dangerous analog or imitation controlled dangerous substance as defined in N.J.S. 2C:35-2 and 2C:35-11,"

Page 1, Section 1, Line 29: Delete "substance analog or imitation controlled dangerous substance,"

Page 3, Section 2, Line 30: Delete "or the parole officer assigned to supervise" insert "or the Chief of the Bureau of Parole"

Page 3, Section 2, Line 31: Delete "the parolee,"

Respectfully,
Thomas H. Kean
Governor

Mr. Haytaian offered the following resolution, which was read by the Clerk and adopted:

Assembly Committee Substitute No. 1815/1818/1820/1821/1826 (Conditional Veto).

Mr. Haytaian moved that the message be spread in full upon the Minutes. Which motion was adopted.

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I am returning the Assembly Committee Substitute for Assembly Bill Nos. 1815, 1818, 1820, 1821 and 1826 (First Reprint) with my objections, for reconsideration.

The purpose of this Assembly Committee Substitute is to update and refine various provisions of the handicapped parking laws. This bill provides nursing homes with the ability to obtain handicapped parking placards for their vehicles when utilized in the transportation of handicapped nursing home residents and clarifies the requirements for obtaining a six-month temporary handicapped parking placard from local police chiefs. It also requires a handicapped person to be the driver or passenger of a vehicle making use of a reserved handicapped parking space. More importantly, this Assembly Committee Substitute requires the enforcement of handicapped parking provisions on both public and private property and also increases the penalty for misuse of these reserved spaces to a $100 fine, up to 90 days community service, up to 90 days imprisonment, or any combination thereof. Signs listing these penalties are required by this bill to be posted at each handicapped parking space.

I agree with the sponsor's laudable goal of ensuring that handicapped parking spaces are appropriately reserved for handicapped individuals. Misuse of handicapped parking spaces is a substantial problem. Based on data compiled by our municipal court system and the Division of Motor Vehicles, almost 40,000 handicapped parking violations are reported annually. While the measures incorporated in this bill seek to deter these violations, I am concerned about the effect on municipal court resources of the penalty provisions of this bill as amended. Under current law, over 90 percent of the violations are adjudicated through the mail without a court appearance. The penalty provisions of this bill that provide for a possible sentence of imprisonment or community service would now require every individual receiving a ticket for a handicapped parking violation to make a personal court appearance, even if the person

only receives a fine for the violation. This mandatory court appearance, in conjunction with the bill's requirement for increased enforcement on private property and the fact that the enhanced penalties are likely to result in more contested cases, will severely strain municipal court resources. Statewide, over 10,000 cases per quarter will be added to municipal court calendars.

I nevertheless support the idea of enhancing the penalties for these violations. Current penalties do not provide a sufficient deterrent and I believe that there is a definite need to increase the public's awareness of the importance of these reserved parking spaces to a handicapped individual's ability to move freely through society. However, I do not think imprisonment is an appropriate penalty for a parking violation. A sentence of community service, on the other hand, could play an important role in educating the public and in assisting municipalities in addressing the needs of their handicapped citizens.

As a result, I recommend that this bill be amended to differentiate between first time and subsequent offenders. The penalty for the first time offenders should be a minimum $100 fine as recommended by the sponsor. This will allow the vast majority of the violations to be adjudicated through the mail without requiring a personal appearance in municipal court and will save our municipal courts from excessive burden. However, repeat offenders will be liable to a fine of at least $100 and up to 90 days community service at the discretion of a municipal court judge.

Therefore, I herewith return the Assembly Committee Substitute for Assembly Bill Nos. 1815, 1818, 1820, 1821 and 1826 (First Reprint) and recommend it be amended as follows:

Page 4, Section 2, Line 5: After "$100.00" DELETE ", up to 90 days imprisonment," INSERT "for the first offense and, for subsequent offenses, a fine of at least $100.00 and"

Respectfully,
Thomas H. Kean
Governor

Assembly No. 4586 and Senate No. 3007.

The Clerk read the following message from the Secretary of the Senate:

MESSAGE TO THE GENERAL ASSEMBLY

Dated: June 29, 1989

Mr. Speaker: I am directed by the Senate to inform the General Assembly that a printed copy of the Assembly Committee Substitute for Assembly Concurrent Resolution Nos. 43 and 126, entitled "A Concurrent Resolution ratifying a proposed amendment to the

Constitution of the United States limiting Congressional pay raises," has this day been placed upon the desk of each member of the Senate while the same was in open meeting.

John McCarthy
Secretary of the Senate

The Clerk read the following message from the Governor: Absolute Veto Assembly No. 1949.

Mr. Haytaian moved that the message be spread in full upon the Minutes. Which motion was adopted.

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 1949 (Third Reprint) without my approval.

This bill, the "Vocational Student Opportunities Act," requires the Department of Education to establish a procedure for determining whether or not vocational courses sufficiently meet high school graduation requirements in the areas of math and science and allows vocational students to fulfill high school graduation requirements in those areas within the context of the vocational educational curriculum. The bill also authorizes county vocational school districts to provide remedial education in conjunction with sending districts. These remediation programs would be funded through State compensatory education aid, which would go directly to the county vocational schools.

Currently, all students participating in vocational education programs must meet minimum curriculum requirements for high school graduation, including recently increased math and science requirements. Local boards presently determine which courses may be counted toward these graduation requirements. In addition, if a student requires remediation for basic skills, teachers certified in the particular subject matter must provide this instruction either at the sending school or the vocational education school. Vocational schools can provide compensatory education services and receive categorical aid if their local sending district agrees to such an arrangement.

This bill would change existing practice in two respects. First, it directs the Department of Education to develop a process for evaluating vocational education programs to determine whether they are sufficient to meet high school graduation requirements, a practice currently under the authority of local districts. Further, it allows vocational education students to receive math and science credit for vocational education courses taught by vocational teachers who are not certified in math or science.

Directing the Department of Education to develop this process for evaluating vocational education course sufficiency would diminish the authority that local boards currently possess. I believe that this responsibility should remain at the local level and that additional State involvement in this process is not needed. More importantly, however, I am concerned with the provisions of this bill that permit our math and science requirements to be satisfied by vocational education courses

taught by teachers who are not certified in the subject matter of the instruction. New Jersey has become a national leader in the area of teacher certification and every secondary teacher is now required to be certified in the subject area he or she teaches. We have worked toward upgrading the standards of our educational system by creating more rigorous High School Proficiency Test standards, determining that two years of science and three years of math are essential for all students, and raising both teacher and principal certification standards. To allow vocational education students to satisfy graduation requirements in a manner which differs from nonvocational students would create two separate educational standards. I believe that this proposal would create two separate educational standards. I believe that this proposal would greatly compromise the State's responsibility to provide a complete education to vocational education students.

Today's labor force is increasingly demanding and competitive and it is our responsibility to produce competent workers, workers who have been prepared with the basic skills that will serve as the foundation for a lifetime of productive employment. While I feel strongly that vocational programs are both beneficial and necessary options for our young people and am sympathetic to the time constraints placed on vocational education students who must fulfill both basic and vocational education requirements, I cannot in good conscience endorse a program that compromises the educational standards the Commissioner of Education and I have fought so hard to upgrade. Instead, I direct the Commissioner of Education to work closely with the vocational schools and sending districts to find ways of relieving the time pressures experienced by vocational students without compromising the quality of the education that they receive.

Accordingly, I herewith return Assembly Bill No. 1949 (Third Reprint) without my approval.

Respectfully,
Thomas H. Kean
Governor

Mr. Haytaian moved that the General Assembly recess. Which motion was adopted.

The Clerk read the following message from the Governor: Assembly No. 470 (Absolute Veto)

Mr. Haytaian moved that the message be spread in full upon the Minutes. Which motion was adopted.

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 470 (Third Reprint) without my approval.

This bill establishes the "New Jersey Diagnosis Related Group (DRG) Study Commission" to evaluate the efficacy of the Hospital Rate Setting Commission (HRSC) in particular and the DRG method of hospital reimbursement in general. Specifically, this Commission would: 1) examine the DRG system to determine if this method of reimbursement is contributing to a depreciation in the quality of medical care in hospitals; 2) evaluate whether the Hospital Rate Setting Commission should continue to establish rates under the DRG system; and 3) assess whether the DRG system is adversely affecting the ability of general acute care hospitals in New Jersey to pay wages that are competitive with those paid to hospital staff in other northeastern states, particularly New York and Pennsylvania.

The DRG system is a prospective rate setting mechanism adopted by the State in 1978 to regulate all general acute care hospitals in New Jersey. This system, which has served as a model for Medicare's Prospective Payment System (PPS), bases reimbursement upon a patient's diagnosis and treatment, rather that upon the length of hospital stay. In its most basic terms, this method of hospital reimbursement attempts to balance the competing goals of access to quality health care with the need to contain rising health care costs.

Under more ordinary circumstances, I would welcome efforts to study this system that, to the greatest extent possible, both of these goals are fulfilled. Unfortunately, I note that the $95,000 appropriation that was originally contained in this bill was eliminated because of the State's recent revenue shortfall. Although I believe that the elimination of this appropriation was fiscally prudent and necessary, the Department has advised me that without additional funds it lacks the resources to conduct this study given the severe budget constraints under which it will be operating in Fiscal Year 1990.

In the final analysis, although the concept of a DRG Study Commission is laudable, such a study will certainly require an appropriation of funds if it is to be meaningful. I must, therefore, reluctantly conclude that this bill represents good legislation arising at an inopportune time.

Accordingly, I herewith return Assembly Bill No. 470 (Third Reprint) without my approval.

Respectfully,
Thomas H. Kean
Governor

The Clerk read the following messages from the Governor: Assembly Committee Substitute No A3979/S2983 and Assembly Committee Substitute No. S1966/2618 (Conditional Vetoes):

Mr. Haytaian moved that these messages be spread in full upon the Minutes.

Which motion was adopted.

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I am returning Assembly Committee Substitute for Assembly Bill No. 3979 and Senate Bill No. 2983 (First Reprint) with my objections for reconsideration.

This bill amends the Fair Housing Act, N.J.S.A. 52:27D-301 et seq., and in particular, it amends N.J.S.A. 52:27D-305 which concerns the appointment and term of office of members serving on the Council on Affordable Housing (COAH). The bill makes two changes to N.J.S.A. 52:27D-305, both of which I fully support.

First, present law requires that four of the Governor's nine appointments to COAH be "elected officials representing the interest of local government." Of those four appointees, at least one must "be representative of an urban municipality having a population in excess of 40,000 persons and a population density in excess of 3,000 per square mile . . .," thus assuring representation from the most urban of the State's municipalities. This bill requires that at least one of the appointees must "be representative of a municipality having a population of 40,000 persons or less and a population density of 3,000 persons per square mile or less . . .," thus assuring representation to the more sparsely populated municipalities within the State. I wholeheartedly concur with this amendment.

Second, this bill mandates that these "local official" appointees may serve on COAH only during the time that they hold office. Specifically, 60 days following the resignation of a public official or the expiration of his or her term (due to election defeat or otherwise), the appointee's term on COAH would lapse.

At the time this bill was proposed for consideration by the Legislature, three of the four COAH members appointed as local officials were no longer local officials. However, one of these three COAH members has recently resigned his position and the term of another will expire before the effective date of this legislation. Therefore, the bill's only real impact on present membership is on Carol Rufener, who was appointed to a five-year term ending September 12, 1990.

While this amendment ensuring that the local representatives on COAH currently hold public office makes good sense, I nevertheless believe that Carol Rufener should serve out her full COAH term. Ms. Rufener is not only a former President of the Freeholder Board in Morris County, she also served as the Mayor of the Borough of Mountain Lakes. She has retained a strong sense of the interests of local government and, as a COAH member, has been most responsive to local issues and concerns. Her personal commitment has been apparent in her

near-perfect attendance record and her willingness to work diligently and earnestly as a COAH member. Further, COAH is currently undergoing a major change in its membership. The retention of Ms. Rufener will greatly facilitate the transition process during the busy and important period COAH now faces. As a result, I recommend that the bill's effective date be amended so that the bill will only apply to COAH members appointed after its enactment.

Therefore, I herewith return Assembly Committee Substitute for Assembly Bill No. 3979 and Senate Bill No. 2938 (First Reprint) and recommend that it be amended as follows:

Page 2, Section 2, Line 33: DELETE "and" INSERT "but"; after "shall" INSERT "not"

Page 2, Section 2, Line 34: After "serving" INSERT "an unexpired term"

Page 2, Section 2, Lines 36-39: After "enactment" DELETE in entirety and INSERT "."

Thomas H. Kean
Governor

Conditional Veto Message for Assembly Committee Substitute No. S1966/A2618:

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I am returning the First Reprint of Assembly Committee Substitute for Senate Bill No. 1966 (First Reprint) and Assembly Bill No. 2618 with my objections, for reconsideration.

This bill establishes a program under which urban enterprise zone municipalities can grant tax abatements to residential property for a period of up to 15 years. It is designed to revitalize residential neighborhoods in these municipalities, just as the Urban Enterprise Zones Act has encouraged private business concerns to locate or expand operations in urban areas. Property tax abatement for the construction of residential structures and for the conversion of other structures to residential use will, as the Legislature has found, constitute a substantial incentive for owners and investors to improve vacant land and underutilized structures and can help to stimulate neighborhood revitalization.

I support the underlying purpose of this bill but must return it to the Legislature for further consideration given mandates contained in the New Jersey Constitution. Under our Constitution, it is not possible to grant 15-year tax abatements to individuals who wish to construct residences on vacant lots or convert underutilized structures into residences Article VIII, Section I, paragraph 6 of the Constitution permits the Legislature to enact general laws under which municipalities may adopt ordinances granting exemptions or abatements from taxation for buildings and structures in areas declared in need of rehabilitation, but these abatements are constitutionally limited to five years in duration. While the Constitution does permit longer tax abatements for

public or limited-profit entities engaged in revitalization of blighted areas, this bill is not limited to these public or limited-profit entities or to blighted areas.

As a result, I suggest modifying this bill to limit the duration of a tax abatement under this legislation to the five-year period permitted by the Constitution.

Therefore, I herewith return the First Reprint for Assembly Committee Substitute for Senate Bill No. 1966 (First Reprint) and Assembly Bill No. 2618 and recommend that it be amended as follows:

Page 2, Section 1, Line 33: Delete "and"

Page 2, Section 1, after Line 33: Insert new section as follow: "1. Article VIII, Section I, paragraph 6 of the Constitution of this State authorizes the Legislature to enact general laws under which municipalities may adopt ordinances granting exemptions or abatements from taxation for limited periods of time not in excess of 5 years on buildings and structures in areas declared in need of rehabilitation in accordance with statutory criteria; and"

Thomas H. Kean
Governor

Mr. Haytaian offered the following resolution, which was read by the Clerk and adopted:

Resolved, That pursuant to Rule 158 the following Assembly Bill, conditionally vetoed by the Governor, be and is hereby given first reading for the purpose of reenactment:

Assembly Committee Substitute No. 3979/S2983

Further Resolved, That it be amended in accordance with the Governor's Recommendations and advanced to second reading by special order.

Which was read by the Clerk and adopted.

The following bill, as amended pursuant to the Governor's Recommendations, was given second reading by special order:

The Clerk read the following message from the Governor: Assembly No. 3230 (Line Item Veto)

Mr. Haytaian moved that the message be spread in full upon the Minutes. Which motion was adopted.

Pursuant to Article V, Section I, Paragraph 15 of the Constitution, I am appending to Assembly Bill No. 3230 (First Reprint) at the time of signing it my statement of the items, or parts thereof, to which I object so that each item, or part thereof, so objected to shall not take effect.

This bill would create a permanent legislative commission to be known as the "New Jersey Corporate and Business Law Study Commission" (hereinafter referred to as the "Commission"). The Commission would consist of three unsalaried members, one appointed by the Governor, one by the President of the Senate and one by the General Assembly. The purpose of the Commission would be to study and review all aspects of the statutes, legislation, and decisions of the courts of New Jersey and other states relating to business entities, including business corporations, nonprofit corporations, partnerships and the issuance of ownership interests and securities. The results of the Commission's findings would be compiled annually in report form and filed with the Governor and the Legislature. In addition, the Commission would submit any proposed legislation that it recommends for enactment. To assist the Commission in its task, $50,000 would be appropriated from the General Fund.

I am aware of the generous contributions the Corporate Law Revision Commission has made to New Jersey, in particular, the recent amendments to Title 14A, "The New Jersey Business Corporations Act." Our State's corporate climate depends in substantial part on the quality of its business laws. The Commission's tireless work in updating and improving New Jersey's corporate code thus represents an important asset that will help to ensure the continued economic vitality of the State.

While I recognize that New Jersey needs to remain current in the ever changing business law area, and although I support the continued operation of the Commission, I cannot support the appropriation of $50,000 to the Commission. Unfortunately, due to our present fiscal constraints, the State is unable to afford this appropriation at this time. Because I have been informed that the Commission could function in a meaningful, though more limited, fashion even without an appropriation, I have signed the bill making the Commission a permanent body into law, but have deleted the appropriation.

Accordingly, I herewith append to the following statement of objections to the sums, or parts thereof, appropriated by this bill:

Respectfully,
Thomas H. Kean
Governor

Dated: August 23, 1989

Dear Madam Clerk:

On August 16, 1989, I wrote to you resigning as the Assemblyman from the Ninth Legislative District and as a candidate for the General Assembly for the upcoming election in November. Both resignations were to be effective on September 1, 1989.

Due to personal circumstances, I must change my resignation date for both my Assembly seat and my candidacy to Thursday, August 24, 1989.

It has been my pleasure to have served my constituents, the residents of Ocean County and the citizens of New Jersey, for the past seven and a half years.

It has been a rewarding experience.

Sincerely,

John T. Hendrickson, Jr.

Deputy Speaker

Assemblyman, District 9

The Clerk read the following message from the Governor: Assembly No. 657 (Absolute Veto)

Mr. Haytaian moved that the message be spread in full upon the Minutes. Which motion was adopted.

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 657 (Second Reprint) without my approval.

Assembly Bill No. 657 (Second Reprint) intends to simplify the system for filing federal liens in New Jersey and would require the filing of federal tax liens and other federal liens against real and personal property, depending upon the property involved, to be filed in one of the following locations: 1) the office of the recording officer in the county of the debtor's residence or, if the debtor is not a resident of this State, in the office of the recording officer in the county where the goods are kept; 2) in the county office where a mortgage on real estate would be filed or recorded; or 3) in the Office of the Secretary of State.

Because this legislation seeks to create a uniform and efficient system for the filing of federal tax liens and other federal liens and to ease the burden on those performing title searches, I support the intent of this bill. However, if the laudatory goals of this legislation are to be met, this bill must undergo substantial revision that can only occur after additional study into the requirements of federal law governing the filing of these liens and the design of a State system that will conform to these federal requirements.

Under federal law, federal tax liens and many other federal liens are filed with the federal district court unless the State has designated one office for the receipt of filings against real property and one office for filings against personal property. Because New Jersey does not comply with these federal requirements, searchers now need to check the records held by county and State offices and also the federal district court to determine whether there exists an outstanding claim against a particular property. Although this bill seeks to meet these federal requirements for incorporating federal filings into the State system and to eliminate the need to check the federal district court records, in fact, it designates two offices, i.e., a county office and the Office of the Secretary of State, for the filing of liens against personalty. If federal liens are to be brought within the State filing system, however, a single site must be designated for the filing of federal liens against personal property.

In addition, this legislation needs to address how best to incorporate federal tax liens and other liens that have been previously filed in the federal district court into the State recording system. Unless these liens are addressed by this legislation, a title search will still need to review the filings in the federal district court. I urge the Legislature to consider how best to incorporate these preexisting federal liens into the State recording system and to ensure that the laudatory purpose underlying this bill of streamlining the title search process is truly accomplished.

Accordingly, I herewith return Assembly Bill No. 657 (Second Reprint) without my approval.

Respectfully,
Thomas H. Kean
Governor

Dated: December 1, 1989

Dear Madam Clerk:

On November 20, 1989, Senate No. 3713, sponsored by Senator Rand, was received by the Assembly and referred to the Assembly Education Committee. This was due to a staff error, as the identical Assembly version Assembly No. 4769, sponsored by Assemblymen Bryant and Roberts, was released from that same committee on September 28, 1989. Senate No. 3713 should have been correctly given second reading, without reference.

Please correct your records to reflect this fact.

Sincerely,

Chuck Hardwick

Assembly Speaker

The Speaker advised the Clerk of the following appointments:

Mr. Albert D. Marino was appointed to the Drinking Water Quality Institute;

to the Assembly Education Committee:

Assemblywoman Randall, Chair

Assemblywoman Cooper, Vice-Chair

Assemblyman Kapalko, Member

The Clerk read the following communication:

Dated: December 15, 1989

To: Virginia Haines

At the last legislative session on December 11, 1989, it appears that Assembly Concurrent Resolution No. 158 - Rocco, was inadvertently given second reading without reference.

As this was certainly not authorized by Speaker Hardwick, it should have been simply proposed for introduction. Assembly Concurrent Resolution No. 158 should, then, be referred to the Assembly Natural Resources Committee.

Sincerely,

John D. Kohler

Executive Director

Assembly Majority

Assembly No. 4365 Aca.

The Solid Waste Management Committee reported the following bills favorably and as reported were given second reading:

Assembly No. 5051 Aca and Senate Committee Substitute No. 2740.

The State Government Committee reported the following bill favorably and as reported was given second reading:

Senate No. 3361.

The Health and Human Resources Committee reported the following bill favorably and as reported was given second reading:

Senate No. 3633.

The following bill was read for the first time by its titles and was given no reference:

Assembly No. 5104, Assemblyman KELLY and Assemblywoman CRECCO, without reference -- Requires municipalities to reimburse certain qualified private communities for costs of certain municipal services not provided thereto or to provide those services.

On the motion of Mr. Haytaian, the following bill was given second reading by special order:

Assembly No. 5104.

The Clerk read the following messages from the Governor: (Conditional Vetoes)

Mr. Haytaian moved that these messages be spread in full upon the Minutes. Which motion was adopted.

Assembly Nos. 4486, 4161, 2588, 474, 4283, 1400, 2733 and 3901 (Line Item Veto).

Conditional Veto Message on Assembly No. 4486:

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I am returning Assembly Bill No. 4486 with my objections for reconsideration.

This bill would extend the Municipal and County Cap Law for an additional three-year period to be effective in local budget years 1990, 1991 and 1992.

I am extremely concerned that the local Cap Law has not worked as well as it should. It is the purpose of this legislation to make sure that local governments live within their means. Yet the law contains so many exceptions that it is open to question whether a real cap on local expenditures currently exists in New Jersey.

New Jerseyans currently pay the fourth highest local taxes per capita among the 50 United States. A cap law should be designed to curb this ever increasing local property tax burden by forcing local officials to make hard choices among the wide variety of uses to which local tax dollars might be put. A real cap law requires that municipalities carefully

establish their spending priorities and prevents government from avoiding this difficult task by simply raising revenues.

While the existing Municipal and County Cap Law set out to achieve this purpose, it has not been fully successful in yielding the results that we sought. The central flaw in the existing law is the unduly large number of items of expenditure that are exempt from the cap. In short, these exceptions have reached the point where they swallow the rule. Local taxpayers have felt this result in their pocketbooks with continuing increases in local tax payments despite the supposed existence of a cap on local expenditures.

The inflation rate in the United States was 3.5 percent in 1985; 1.9 percent in 1986; and 3.7 percent in 1987. However, municipal expenditures in New Jersey increased much more dramatically: by 7.85 between 1984 and 1985; by 8.5 percent between 1985 and 1986; and by 7.02 percent between 1986 and 1987. In short, expenditures for municipal services have increased by nearly triple the rate of inflation in these years. Plainly, the Cap Law has not worked.

The best interests of the citizens of this State requires the establishment of real controls on local government spending. I am thus reluctant to extend the existing Cap Law for an additional three years. Instead, I have decided to permit the existing law to continue in effect for only one year. During this year, it is my hope that the Legislature will thoroughly investigate how best to reform the existing law so that an effective local gap can be established in New Jersey.

Therefore, I herewith return Assembly Bill No. 4486 and recommend that it be amended as follows:

Conditional Veto Message on Assembly No. 4161:

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I am returning Assembly Bill No. 4161 with my objections for reconsideration.

This bill directs the New Jersey State Museum, in cooperation with the Department of Military and Veterans' Affairs, to implement a program to collect Medals of Honor, and any memorabilia relating to the awarding of the Medals, of those persons who have been awarded the Medal and who at one time resided or continue to reside in New Jersey. The Medals and memorabilia will be collected on a voluntary basis, and the collection of these Medals and memorabilia will be exhibited permanently at the Trenton State Museum.

While I applaud and support the creation of an exhibit at the State Museum in Trenton to recognize those brave and valiant citizens of New Jersey who were decorated with Medals of Honor, I believe that this bill needs amendments that will ensure proper collection, handling and display of this exhibit.

First, I believe that the nature of the materials collected by the State Museum should be left to the discretion of the Museum. This will allow the Museum to use its expertise to determine whether it can properly care for and preserve the collection.

Secondly, although this bill establishes a permanent exhibit of these items, I have been advised that sound museum practices now discourage permanent exhibits. Permanent exhibitions are disfavored because they reduce the discretion of museums to adapt during periods of renovation, fiscal crisis and other extenuating circumstances, because the objects in these restricted collections cannot be loaned to sister institutions for major thematic exhibitions, and because objects of a fragile nature should not be permanently exposed to light and changing climate conditions, i.e., memorabilia in the paper and textile category. Consequently, I recommend that this bill's requirement that the Museum establish a permanent Medal of Honor exhibit be amended to provide that the Museum is to record, document and preserve the collection and make it accessible through a long-term interpretive exhibition that will include portions of the collection shown on a rotating basis.

and preserve the collection and make it accessible through a long-term interpretive exhibition that will include portions of the collection shown on a rotating basis.

Accordingly, I herewith return Assembly Bill No. 4161 and recommend that it be amended as follows:

Page 1, Section 2a., Line 27: Delete "any" insert "appropriate"

Page 2, Section 2c., Line 1: Delete "establish a permanent collection" insert "record, document and preserve the collection and to make it accessible through a long-term interpretive exhibition which will include portions of the collection shown on a rotating basis."

Conditional Veto Message on Assembly No. 2588:

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I am returning Assembly Bill No. 2588 (Second Reprint) with my objections for reconsideration.

This bill would alter the school election law in two respects. First, the legislation would increase the salaries of school election workers. Under current law, school election workers are paid a salary of a maximum of $4.00 per hour. The bill raises the maximum hourly rate to be paid to school election workers to be equal to 1/13 of the daily compensation payable to members of the district's board of election. This translates to roughly $5.77 per hour. This bill also amends the voting requirements for school elections to correspond to registration and age requirements currently established for regular elections.

While I sympathize with the intent of this bill's provision increasing the pay for school election workers, I cannot approve this portion of the

bill given the State's present fiscal situation. I trust that the conscientious citizens of New Jersey will continue to perform the important functions of school election worker and I hope that this issue will be revisited in the near future when the fiscal climate brightens.

The remainder of the bill altering the voting requirements for school elections so that they conform to general election requirements makes good sense and has my support.

Therefore, I herewith return Assembly Bill No. 2588 (Second Reprint) and recommend that it be amended as follows:

Page 1, Section 1, Lines 7-20: Delete in their entirety.

Page 1, Section 2, Line 21: Delete "2." insert "1."

Page 2, Section 3, Line 6: Delete "3." insert "2."

Conditional Veto Message on Assembly No. 474:

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I am returning Assembly Bill No. 474 (First Reprint) with my objections, for reconsideration.

This bill stipulates that in the event that a health maintenance organization and a general hospital have a contract to provide services to the enrollees of the health maintenance organization and are unable to agree on the terms of a new contract upon the expiration upon the expiration date of the current contract, the hospital and the health maintenance organization shall continue to abide by the terms of current contract for a period of four months from a severance date mutually agreed upon by both parties. The bill requires that the health maintenance organization promptly provide written notice of the four-month contract extension to the health care providers with which it has contracted to provide services as well as to those of its enrollees who reside in the county in which the hospital is located or in an adjacent county. The notice to the enrollees shall advise them of their available options with respect to their health care coverage.

I am supportive of the purpose of this bill which is to provide information to health care providers and consumers when a general hospital and a health maintenance organization are unable to negotiate the terms of a new contract. I am concerned, however, about the cost to the health maintenance organization of providing separate notification of the four-month contract extension to all of its enrollees within a several county area. Most, if not all, health maintenance organizations routinely provide information to their members through a report or newsletter delivered quarterly. I am satisfied that notification provided in conjunction with the quarterly newsletter will properly disseminate the information in a timely manner, yet not impose an undue expense upon the health maintenance organization that will unnecessarily result in increased health care costs.

Therefore, I herewith return Assembly Bill No. 474 (First Reprint) for reconsideration as follows:

Conditional Veto Message on Assembly No. 4283:

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 4283 with my objections for reconsideration.

This bill provides that in prosecutions for aggravated sexual assault, sexual assault, aggravated criminal sexual contact, criminal sexual contact, endangering the welfare of a child or any action alleging an abused or neglected child, the name, address and identity of a victim who is under the age of 18 at the time of the offense shall not appear on the indictment, complaint or any other public record. In place of the name of the child victim shall be the victim's initials or a fictitious name. The bill goes on, however, to allow the court to disclose this information if it determines, after a hearing, that good cause exists for such disclosure. Further, the bill notes that nothing contained in it shall prohibit the court from imposing further restrictions with regard to the disclosure of the name, address and identity of the child victim which it deems necessary to prevent trauma and stigma. Finally, the bill provides that any person who prints, publishes, broadcasts or televises the name, address and identity of a child victim is guilty of a disorderly persons offense.

The stated purpose of this bill is to protect child victims of sexual assault and sexual abuse from the stigma and trauma which may accompany the publication of their names, addresses and identities. To accomplish this purpose, the provisions of this bill focus on keeping the victim's name out of the public record of the criminal prosecution. While I wholeheartedly support this aim and endorse the vast majority of this bill, there is one portion of the bill which is problematic. Subsection e provides that any person who publishes or broadcasts the name, address and identity of a child victim is guilty of a disorderly persons offense. This subsection effectively holds the print and broadcast media criminally liable for reporting the name and address of a sexual assault or abuse victim even if the source of the information is other than those specified in the bill; for example, if the information is from an eyewitness, the victim's parents or even the victim. This subsection, on its face, also would apply even if the victim suffered no trauma or stigma or if the importance to the public of publishing the name and identity of the alleged victim clearly outweighed the State's interest in protecting the privacy rights of the victim in a particular case. Because of the breadth and focus of this provision, I am convinced that it would, at the very least, be unconstitutional in many of its possible applications.

As the courts have made clear in cases interpreting the First Amendment, prohibitions on publication by the press of truthful information are highly suspect. Instead, the courts have suggested that the preferable course is to limit the dissemination of information regarding the name, address and identity of child victims of sexual assault and abuse by keeping the victim's identity out of the public record. This is not only preferable in protecting the constitutional rights involved, but as a matter of sound public policy, as it strikes the proper balance between competing interests. We should never unnecessarily interfere with the press's freedom to print the truth when the State interest to be protected can be better addressed in a less intrusive manner. It should be noted that the news media has acted responsibly in these matters in the past, and I have every reason to believe that reporters and publishers will continue to treat these cases with sensitivity and discretion.

Accordingly, a meaningful alternative to subsection e is to prohibit the purposeful disclosure, release or other dissemination of confidential documents bearing a child victim's name, address and identity delineated in subsection b of the present bill, that is, any report, statement, photograph, court document, indictment, complaint or any other public record which states the name, address or identity of a child victim. Any person who discloses, releases or otherwise disseminates to the public such information would be guilty of a disorderly persons offense. A similar path has been followed in preserving the privacy rights of victims of child abuse by prohibiting the release of child abuse reports and imposing a criminal sanction on those who purposely violate this prohibition. (See N.J.S.A. 9:6-8.10b.)

For the above reasons, I recommend that subsection e of Assembly Bill No. 4283 be deleted and that in its stead new language be added which prohibits the purposeful release of the name, address or identity of child victims of sexual assault and abuse.

Therefore, I herewith return Assembly Bill No. 4283 and recommend that it be amended as follows:

Page 1, Section1, Line 22: After "unavailable to the public." add "Unless authorized pursuant to subsection c., any person who purposefully discloses, releases or otherwise makes available to the public any of the above-listed documents which contain the name, address and identity of a victim who was under the age of 18 at the time of the alleged commission of an offense enumerated in subsection a. shall be guilty of a disorderly persons offense."

Conditional Veto Message on Assembly No. 1400

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I am returning Assembly Bill No. 1400 (Second Reprint) with my objections for reconsideration.

The purpose of this bill is to authorize the appointment of two additional judgeships in Bergen County and to exempt these two new judgeships from the statutory provisions requiring that counties initially assume a share of the costs of judicial salaries.

I support the addition of two new judges in Bergen County. Bergen County, like many counties around the State, has seen its caseload increase substantially while the number of judges assigned to handle these cases has remained the same.

However, I am unable to support exempting these two judicial positions in Bergen County from the general statutory provision that counties initially assume a share of these judicial salaries. Pursuant to current law (N.J.S.A. 2A:2-1.3), in any county where the required number of judges is increased after December 28, 1984 and the number of judges assigned to the Superior Court in that county is thereby increased, the county is responsible for funding 100 percent of the costs of the salary of any judge who has been assigned in the first year following the date of increase, 75 percent in the second year, 50 percent in the third year, 25 percent in the fourth year, and in the fifth and all subsequent years, the State is responsible for the entire cost of the salary of any judge so assigned. As I see no reason why these two new Bergen County judgeships should be exempt from this statutory, five-year phase-in requirement, I recommend deletion of that part of the bill that creates an exemption for these two positions.

Therefore, I herewith return Assembly Bill No. 1400 (Second Reprint) and recommend that it be amended as follows:

Conditional Veto Message on Assembly No. 2733

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I am returning Assembly Bill No. 2733 (First Reprint) with my objections for reconsideration.

This bill permits the chief administrator of a nonprofit charitable institution to bring an action for the appointment of a conservator to manage the estate of a patient or person who receives the institution's services, but who is unable to bring such an action for himself because of advanced age, illness, or physical infirmity. The bill also permits the chief administrator to be appointed conservator by the court in such an action.

I support the portion of this bill that adds the chief administrator of a nonprofit charitable institution to the list of person authorized by N.J.S 3B:13A-5 to petition the court for appointment of a conservator. There is a need for concerned parties to bring actions for conservatorships. Expanding the list to include chief administrators of nonprofit charitable institutions is a sensible and helpful step to meet that need, as these

individuals are in a position to observe difficulties that their patients may be encountering.

However, the provision in this bill that adds the chief administrator of a nonprofit charitable institution to the list of persons authorized by N.J.S. 3B:13A-5 to serve as a conservator does not meet with my approval. There is an inherent conflict of interest in allowing an administrator of an institution, whose very job requires his commitment to the institution's financial interests, to take on the additional responsibility of managing the financial affairs of a patient of that institution and acting in that person's best interests.

Enactment of this provision would reverse the well-considered trend in New Jersey to appoint neutral third parties to manage the estates of people in need of help when loving and caring family members are absent. The Office of the Public Guardian has been instrumental since its inception in providing for the best possible care for these individuals in need of either a guardian or conservator. Should it not be possible to appoint a conservator of an individual's own selection or from among his or her family members, it is preferable to have either the Office of the Public Guardian or some other neutral third party appointed as conservator. Moreover, in those exceptional cases where a chief administrator of a nonprofit charitable institution is the most appropriate individual to serve as conservator, a judge can make such an appointment under the authority of current law permitting the appointment of any person that the court deems proper.

In addition, I suggest a technical amendment to this bill to make clear that the Office of the Public Guardian for Elderly Adults is a permissible party to initiate an action for the appointment of a conservator under N.J.S. 3B:13A-5. The Public Guardian currently petitions for the appointment of conservators on a regular basis. This amendment would make perfectly clear the legal propriety of this practice.

Therefore, I herewith return Assembly Bill No. 2733 (First Reprint) and recommend that it be amended as follows:

Page 1, Line 2, Title: Delete "and N.J.S. 3B:13A-8"

Line Item Veto Message on Assembly No. 3901

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 15 of the Constitution, I am attaching to Assembly Bill No. 3901 at the time of signing it, this statement of the items or parts thereof to which I object so that each time, or part thereof, so objected to shall not take effect.

This bill would appropriate $388,873.50 in payment of certain claims against the State. Of this sum, $98,341 represent claims against the

Palisades Interstate Park Commission and $290,532.50 is for claims that would be paid from the General Fund.

The appropriation from the Palisades Interstate Park Commission is to satisfy claims for payments in lieu of municipal taxes for land which encompasses part of the Parkway. These claims are to be paid from the net share of revenues the Commission derives from the operation of gasoline stations along the New Jersey section of the Parkway. The borough of Alpine would receive $34,000; the Borough of Fort Lee, $27,320; and the Borough of Englewood Cliffs, $37, 021. Because the Commission has more than adequate resources to meet this liability, I am supportive of this appropriation.

The appropriation of $290,532.50 from the General Fund is more troubling. This appropriation would be used to compensate a variety of claims made against the State, including one claim where the courts have found the State to have no liability and several claims for tax refunds that were not filed before the expiration of the applicable statute of limitations period. While I may personally sympathize with the individuals who have made these claims against the State, the State is not legally liable for these claims, and I do not believe that it is appropriate to extend the State's liabilities and to expend the State's resources on these items rather than on the many worthwhile causes competing for scarce State monies in this period of fiscal constraints.

I am, however, prepared to make an exception in the case of Martin Carluccio, a Division of Motor Vehicles employee, who would receive $1,700 under this bill. Upon returning to work after his lunch hour, Mr. Carluccio saw several of his fellow employees racing from the building in pursuit of someone who had stolen a written driver's license examination. Mr. Carluccio pursued the thief and in the course of the scuffle lost a valuable diamond and gold ring. This action by Mr. Carluccio was above and beyond his duties and responsibilities and he should be reimbursed for his loss.

Accordingly, I herewith append the following statement of objections to the sums, or parts thereof, appropriated by this bill:

Page 2, Section 1, Lines 4-22: Delete in entirety.

The Clerk read the following message from the Governor: (Absolute Veto of Assembly No. 235)

Mr. Haytaian moved that the message be spread in full upon the Minutes. Which motion was adopted.

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I herewith return Assembly Bill No. 235 (Corrected Copy) without my approval.

This bill would amend the Conscientious Employee Protection Act, commonly known as the Whistleblower Law, to provide that a supervisor employed by a public body or a member of a public body who had purposely violated the Whistleblower Law could be liable severably for any reasonable costs and attorneys' fees arising from successful litigation by an aggrieved employee. The individual violator would be severably liable for both the reasonable costs and attorneys' fees awarded to the employee by the court and those that the public body had expended in litigation.

I strongly favor the purposes of the Whistleblower Law, as evidenced by my signing of the original legislation in 1986. However, I am informed by the Attorney General's Office that the purpose of this bill is already accomplished under the provisions of the Tort Claims Act. Specifically, I am advised that defense and indemnification of a State employee can now be denied if it is found that the employee has acted with actual fraud, actual malice or willful misconduct. Local public entities are permitted to adopt these provisions concerning defense and indemnification for their own employees.

The Attorney General's Office is concerned, and I concur, that confusion will result as courts seek to interpret and distinguish the differing standards of employee conduct for which personal liability attaches under the Tort Claims Act and this bill. To avoid this

confusion, the unified established standard applicable in all cases under the provisions of the Tort Claims Act, as refined over the last 18 years, should be maintained.

Accordingly, I herewith return Assembly Bill No. 235 (Corrected Copy) without my approval.

Respectfully,
Thomas H. Kean
Governor

Mr. Naples offered the following resolution which was read by the Clerk and lost by the following vote:

BE IT RESOLVED, That the General Assembly hereby overrides the Governor's Absolute Veto of Assembly No. 235, the objections of the Governor to the contrary notwithstanding.

Mr. Haytaian moved that these messages be spread in full upon the Minutes. Which motion was adopted. Absolute Vetoes of Assembly Nos. 448, 2351, 4286 and 4379.

Absolute Veto Message on Assembly No. 448

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I herewith return Assembly Bill No. 448 (Second Reprint) without my approval.

This bill requires six health care professional boards to establish programs to provide for assessment, referral and rehabilitation of licensees and professional trainees whose competency is threatened or diminished by mental or physical illness, substance abuse or gambling. The six boards include the New Jersey State Board of Dentistry, the New Jersey Board of Nursing, the Board of Pharmacy of the State of New Jersey, the State Board of Psychological Examiners and the State Board of Veterinary Medical Examiners. This bill requires each of these boards to contract with its corresponding professional association having the highest percentage of that profession's membership within the State to administer the Impaired Health Professional Assistance Program.

Under the bill's provisions, any person who has reason to believe that the competence of a licensed health professional is impaired may report that information to the appropriate licensing board. The board is then to forward that report to the Assistance Program for verification and further evaluation. Upon receipt of a board referral, Program staff determines the validity of the report concerning the health professional. If the report is determined to be accurate, Program staff contacts the health professional to discuss the allegations, to urge his participation in the Program and to refer the health professional to the appropriate treatment services. The bill provides that any licensed health professional who is required by board regulation to report to the board the impairment of a colleague may satisfy that requirement by reporting the information directly to the Program in lieu of the appropriate board.

This legislation also provides for voluntary admission to the Program of any licensed health professional or student. Professionals who have sought Program services without board referral are all accorded confidential protection. The names and identifying information can only be released to the appropriate board if the participant fails to comply with the Program or poses a threat to the health and safety of the public.

Each Program is required by the bill to forward to the board a quarterly report of its activities. The board is authorized to review the files of Program participants; however, the name and any identifying information of a voluntary participant is to remain confidential from the board except when board monitoring reveals a participant's noncompliance with the Program. The Program is likewise to notify the board if it determines that a participant's continued practice poses a threat to the health of the public. The Program is then required to provide the board with the professional's name and any other information which it deems appropriate.

Each program is to establish a 24-hour Statewide toll-free telephone hotline, educate the members and students of the licensed health profession regarding the availability of the Program and encourage voluntary participation in the Program. The bill also grants qualified civil immunity to board members and Program staff and provides for funding to be derived through increases in licensure fees.

The impetus for this bill arose from the October 1987 Report of the State Commission of Investigation on Impaired and Incompetent Physicians. While I am strongly supportive of the laudable goal that this legislation strives to achieve in meeting the problems poses by impaired health professionals, I have several reservations about the bill that prompt me to withhold my support from this measure.

First, I am concerned about the mandate that each designated board contract with the professional association that has the highest percentage of members from the licensee pool. The bill compels entry of a contract with that association regardless of whether that association has the requisite expertise or resources to run the Program. Moreover, since only one association will meet this statutory requirement, the State's

ability to negotiate a favorable contract will obviously be limited and the State's goal of achieving cost-effective programs may be frustrated.

Secondly, the bill requires Program staff from these professional associations to perform any investigation necessary to determine the validity of a report referred by the board concerning a licensed health care professional or student. As a private entity, the Program will lack the necessary authority to thoroughly investigate the accuracy of the report. Currently, broad investigative powers are available to the boards and the Attorney General pursuant to N.J.S. 45:1-18. I see no profit in attempting to duplicate these investigative functions to enable private entities to evaluate referred cases. A related aspect of this measure that I find troubling is its direction to the Program to confront licensees if a report or complaint is determined to be accurate. Yet, the bill provides no guidance with regard to the standard of accuracy that must be achieved prior to confrontation.

Finally, the bill provides that other health professional licensees who may be required by regulation to report an impaired colleague can discharge that obligation by submitting a report directly to the Program operated by the professional association. Should the impaired professional then be confronted by Program staffers and subsequently decide to voluntarily enter the Program, the impairment and the subsequent treatment program will be outside the knowledge of the professional board. The Program is to notify the board only if it determines that a participant's continued practice poses a threat to the health of the public or if the participant fails to comply with the terms of the Program. Under this system, it is foreseeable that an impaired health professional could avoid being reported to the board by voluntarily restricting his practice in a manner that will reduce his threat to the public. This private and unenforceable agreement could then be the basis for shielding information about an impaired health professional from board scrutiny. This scenario is one that the State Commission of Investigation Report indicated should be avoided because it intrudes upon the boards' disciplinary functions by curtailing the information available to them.

The Division of Consumer Affairs in the Department of Law and Public Safety informs me that all of the affected boards believe proffered in this bill is not in the best interest of the public. As a result, the Division has prepared draft legislation on this subject which creates impaired professional programs, streamlines the flow of information to the boards and clarifies reporting and eligibility requirements. I encourage the sponsors of this bill to consult with the Division of Consumer Affairs staff so that my concerns with this bill will be addressed and so that legislation will be introduced with the support of the Division, the boards, the health professional associations and the health care professionals.

Accordingly, I herewith return Assembly Bill No. 448 (Second Reprint) without my approval.

Respectfully,
Thomas H. Kean
Governor

Absolute Veto Message on Assembly No. 2351:

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 2351 without my approval.

This bill would allow Carol Ahr to obtain permanent civil service status in the Police Department of the City of Trenton even though she is older than the maximum age limit set forth in N.J.S.A. 40A:14-127. Through the enactment of N.J.S.A. 40A:14-127, the Legislature has required that the maximum age of persons appointed as members or officers of police departments in any municipality shall be 35. Because Ms. Ahr is 41 years of age and cannot meet this age requirement, Assembly Bill No. 2351 seeks to grant her a special exception that will permit her appointment.

I believe that it is important for safety and fitness reasons that we adhere to the policy decision previously made by the Legislature to establish a maximum age for new police officers. This legislative determination, designed to protect the public safety, may at times exclude otherwise capable individuals from permanent positions in police service. While it may be that Ms. Ahr would prove to be such an exception and would make a competent permanent police officer, granting her permanent civil service status even though she is over the existing age limitation would be unfair to many other qualified individuals who may be interested in and eligible for the position. Under the circumstances presented by this proposed legislation, I cannot sanction the supplanting of our laws which are designed to ensure that appointments and promotions in civil service jurisdictions are made according to merit and fitness.

Accordingly, I herewith return Assembly Bill No. 2351 without my approval.

Respectfully,
Thomas H. Kean
Governor

Absolute Veto Message on Assembly Bill No. 4286:

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 4286 (Corrected Copy) without my approval.

This bill would allow Andrew P. Castellanos obtain permanent civil service status in the Police Department of the Township of Blairstown even though he is older than the maximum age limit set forth in N.J.S.A. 40A:14-127. Through the enactment of N.J.S.A. 40A:14-127, the Legislature has required that the maximum age of persons appointed as members or officers of police departments in any municipality shall be 35. Because Mr. Castellanos is 38 years of age and cannot meet this age

requirement, Assembly Bill No. 4286 (Corrected Copy) seeks to grant him a special exception that will permit his appointment.

I believe that it is important for safety and fitness reasons that we adhere to the policy decision previously made by the Legislature to establish a maximum age for new police officers. This legislative determination, designed to protect the public safety, may at times exclude otherwise capable individuals from permanent positions in police service. While it may be that Mr. Castellanos would prove to be such an exception and would make a competent police department employee, granting him permanent civil service status even though he is over the existing age limitation would be unfair to many other qualified individuals who may be interested in and eligible for the position. Under the circumstances presented by this proposed legislation, I cannot sanction the supplanting of our laws which are designed to ensure that appointments and promotions in civil service jurisdictions are made according to merit and fitness.

Accordingly, I herewith return Assembly Bill No. 4286 (Corrected Copy) without my approval.

Respectfully,
Thomas H. Kean
Governor

Absolute Veto Message on Assembly Bill No. 4379:

To the General Assembly:

Pursuant to Article V, Section I, Paragraph 14 of the Constitution, I herewith return Assembly Bill No. 4379 without my approval.

This bill would allow the Borough of Newfield to make permanent the appointment of William Long as its chief of police even though her fails to meet several existing statutory requirements. Mr. Long is currently 63 years of age and, thus, is older than the maximum age limit of 35 as set forth in N.J.S.A. 40A:14-127. He has also not served as a patrolman in the Borough's police department for at least three years as required by N.J.S.A 40A:14-129 and N.J.S.A. 40A:14-130. Assembly Bill No. 4379 seeks to grant Mr. Long a special exception from these statutory age and experience requirements and permit his appointment as chief of police.

I believe that it is important for safety and fitness reasons that we adhere to the policy decision previously made by the Legislature and reflected in these statutory provisions.

These legislative determinations, designed to protect the public safety, may at times exclude otherwise capable individuals from police service. While it may be that Mr. Long would prove to be such an exception and would make a competent chief of police, granting him permanent civil service status would be unfair to many other qualified individuals who may be interested in and eligible for the position. Under the circumstances presented by this proposed legislation, I cannot sanction the supplanting of our laws which are designed to ensure that appointments and promotions in civil service jurisdictions are made according to merit and fitness.

Accordingly, I herewith return Assembly Bill No. 4379 without my approval.

Respectfully,
Thomas H. Kean
Governor
