Mr Branegan offered the following resolution, which was read and adopted

Resolved, That the reading of the certificates of election of the respective members be dispensed with

Mr Branegan offered the following resolution, which was read and adopted

Resolved, That the Honorable Emerson L Richards, of Atlantic county, who is a Master in Chancery of this State and a member of this House, administer the oath of office to the Honorable Arthur M Agnew, of Bergen county, a member-elect, by whom the oath of office shall be administered to the members-elect

Mr Branegan offered the following resolution, which was read and adopted

Resolved, That the Honorable Thos F A Griffin, of Hudson county, who is a Master in Chancery of this State and a member of this House, administer the oath of office to the Speaker and other officers of this House when they are elected

The oath of office was administered by Mr Richards to Mr Agnew, who then administered the oath to the other members-elect

Mr Branegan offered the following resolution, which was read and adopted

Resolved, That the House do now proceed with the election of Speaker

Mr Kirkpatrick, of Middlesex county, nominated the Hon Azariah M Beekman, of Somerset county, for Speaker

Mr Branegan, of Hudson county, seconded the nomination of Mr Beekman

Mr Weart, of Mercer county, nominated the Hon Hervey S Moore, of Mercer county, for Speaker

Mr Richards, of Atlantic county, seconded the nomination of Mr Moore

Upon calling the roll, Mr Beekman was elected by the following

For Mr Beekman—

Messrs Agnew, Bloom, Brackner, Branegan, Bredenbek, Burton, Byrne, Carhart, Carroll, Curran, De Yoe, Dobbins, Eaton, Fishler, Fisk, Foley, Gannon, Griffin T F A, Holcombe, Johnson, Kays, Kirkpatrick, Kuhlke, Leonard, Long, McCabe, McDermott, Moore, Mount, Mulligan, Nutting, Quigley, Quinn, Rowe, Wheatley, Winans —36

Messrs Barbour, Barradale, Beekman, Conrad, Crosby, Dalrymple, Downs, Godfrey, Hammond, Hughes, Hunter, Kates, Mutchler, Pancoast, Peacock, Randall, Richards, Scovel, Sheppard, Smith, Stevens, Weart, West—23

Mr Beekman having received a majority of the votes, was declared by the Clerk elected Speaker of the House for the session of 1914

The Clerk appointed the following committee to escort Mr Beekman to the chair

Mr Branegan, of Hudson county, Mr Richards, of Atlantic county, and Mr Foley, of Essex county

The committee then escorted Mr Beekman to the Speaker's chair, where he took and subscribed to the oath of office prescribed by the Constitution of the State of New Jersey

Mr Beekman then addressed the members of the House as follows

"Fellow Members of the 138th House of Assembly—I fully recognize the worth of the compliment which permits me to act in this capacity I thank you for it and incident to taking the gavel, which you with generous confidence have placed in my hands that I may assist you in your duties, the sentiments which I have an eager desire to express are those of comradeship and friendly feeling mingled with a sober sense of the work we have to do I refer to that comradeship which should attend common endeavor, the friendship which arises from a united purpose to perform a public duty in a dignified manner according to a proper standard of civic ideals, and I judge this to be the most fitting attitude in which to repay your trust and meet your approval The efficient performance of legislative work necessarily requires order and system In all deliberate bodies there must be a recognized authority to be applied in the interest of celerity, decorum and accomplishment, but we shall not anticipate any harsh exercise of this power, for your Speaker solicits and expects every assistance you can extend toward aiding his effort to fairly and justly preside over your deliberations, so that he may, in turn, accord to every member of this body that attention and consideration which one gentleman owes and should be pleased to give another I have the confident hope that nothing will occur to mar or interrupt our most cordial relationship

"In making assignments to the various committees (as they shall shortly be announced) I regret that I did not have more intimate acquaintance with many of the new members, particularly those upon the Republican side If I have overlooked any good material among new men who are capable and worthy, the sole cause is lack of information, which fact, I trust, will insure my excuse and secure your leniency and pardon

"Permit me here to venture a few words upon the importance of the work committees have to perform, under our rules and practice

"During the legislative year last past 939 House bills and 427 Senate bills (a total of 1,366 bills) were introduced in both

houses, and of these 781 measures many, of which involved important changes in existing law, while others were in the nature of new legislation, came up for third reading and final passage in the House of Assembly The mere statement of these facts at once suggest what amount of labor and investigation is required to enable a member capably and intelligently to give decision upon every bill he is called upon to consider The individual member has no one, at present, to share this responsibility except the various committees When a bill is reported upon, whether favorably or unfavorably, each member has a right to expect that report to be the result of careful scrutiny and investigation at the hands of the committee making the finding You will, therefore, allow me to urge a close and conscientious attention to committee work which should not be made a matter of delay and convenience and finally ill-considered action, but a matter of serious and prompt attention

"As one of the branches of the lawmaking machinery of the State we are confronted with no small responsibility, at least, the customary tasks lie ahead of us

"The promises contained in the platform of the two great parties here represented are in some instances similar and in the days of tolerant view and broader statecraft, with narrow partisanship in disrepute, it may not be too much to expect agreement, independent of party lines, upon some measures designed to make these promises good

"Upon the Democratic side, however, falls the accountability which goes with power, and to that party particularly may the citizens of our State look for a substantial execution of their desires, and permit the suggestion that this responsibility not only includes the support of measures for proper and desired change, but opposition to needless laws as well

"Perhaps the most important duty we have is to give vigilant care that the several measures of rational reform which have become a part of our statutes in the past three years shall remain substantial and intact and retain all their vigor and efficiency—that they shall not be rendered impotent in the name of correction and improvement

"The positive undertakings which we have in hand are fairly stated in the platform adopted at the last Democratic State convention, which proposes measures to promote economy in the business transactions of the State and its numerous municipalities, laws to foster and encourage thrift, industry and enterprise in every department of useful endeavor and to give relief

from the intricacies and irregularities of taxation It insures the dignity of labor and recognizes the rights of property, and commends the conservation and development of our natural and created resources It is a declaration of feasible purposes designed along the lines of modern thought It is a fair conception of the needs of our people and the possibilities of our expanding commonwealth

"To correctly dispose of these matters which lie in our path is our mutual privilege, regardless of political faith In the exercise thereof it is well for us to regard the growing exactions of civic conscience which insist upon decent and capable public service If we allow our purposes to become confused with motives of petty partisanship, local selfishness or personal spite or ambition, the chance for result is hampered and diminished If we maintain a single purpose and act with hearts and minds free from bias, jealousy and discord, it will require labor and intelligence to secure success, but the outcome will be quite certain and much more gratifying

"We have notable achievements to imitate, brilliant examples to inspire us We can look for aid to the higher branch of this lawmaking body and rely with confidence upon the leadership of the State's chosen executive

"Let us then approach our duties with a fixed and harmonious resolve to act and demean ourselves as the representatives of the high aims and expectations of the citizenship which has entrusted these matters to our temporary keeping, for to-day we have in our grasp one little page of unwritten history which we have yet the opportunity to keep clean and make bright and useful May we act our relative part well, for therein and therein only the honor and delight of public office lies"

A committee from the Senate, composed of Senators Egan, Smalley and Martens, reported that the Senate had organized and proceeded to business

Mr Branegan offered the following resolution, which was read and adopted

Resolved, That the House now proceed with the election of Clerk of the House

Mr Foley, of Essex county, nominated the Hon Mark F Phillips, of Essex county, for Clerk of the House

Mr Kuhlke, of Hudson county, seconded the nomination of Mr Phillips

Mr Kates, of Camden county, nominated Upton S Jefferys, of Camden county, for Clerk of the House

Upon the roll being called by Mr Hennessy, Assistant Clerk of the last House, Mr Phillips was elected by the following vote

For Mr Phillips—

Messrs Agnew, Beekman (Speaker), Bloom, Brackner, Branegan, Bredenbek, Burton, Byrne, Carhart, Carroll, Curran, De Yoe, Dobbins, Eaton, Fishler, Fisk, Foley, Gannon, Griffin T F A, Holcombe, Johnson, Kays, Kirkpatrick, Kuhlke, Leonard, Long, McCabe, McDermott, Mount, Mulligan, Nutting, Quigley, Quinn, Rowe, Wheatley, Winans—36

For Mr Jefferys—

Messrs Barbour, Barradale, Conrad, Crosby, Dalrymple, Downs, Godfrey, Hammond, Hughes, Hunter, Kates, Moore, Mutchler, Pancoast, Peacock, Randall, Richards, Scovel, Sheppard, Smith, Stevens, Weart, West—23

Mr Phillips, having received a majority of the votes of the members, the Speaker declared him elected Clerk of the House of Assembly, and he took and subscribed to the oath of office

The Speaker announced the appointment of Mr Frank D. Schroth, of Mercer county, as his Secretary, and Mr Charles S Hamilton, of Somerset county, as Assistant Secretary

A message was received from the Senate, by the hands of its Secretary, as follows

STATE OF NEW JERSEY,

A message was received from the Acting Governor, Leon R. Taylor, by the hand of his Secretary

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT

Gentlemen of the Senate and General Assembly

By force of circumstances, I have been Acting Governor of this great State for the past few months, and as my occupancy of this office is, to some degree, accidental, I do not think it proper that I should, in this message to you, outline or detail policies or legislation that I deem important or necessary for the welfare of the State

The people of the nation honored us by calling to the Presidency of the United States Governor Woodrow Wilson When he took his office as President, he was succeeded by Governor Fielder, then President of the Senate Answering the call of his party, Governor Fielder became a candidate for Governor, and, while technically not necessary, he followed tradition and resigned his office as Acting Governor prior to the election The duties of the office thus devolved upon me, then the Speaker of the House of Assembly To have been the acting executive of our great State, at a time when it had become one of the most progressive States of the Union, was indeed an honor, and I welcome this opportunity to address you and express the hope that by your acts, and the legislation you will consider and pass, you will preserve the record made in the last few years

The eyes of the nation have been centered upon New Jersey since Woodrow Wilson became its Governor The progressive reforms instituted during his term, as well as under the guidance of Governor Fielder, are too well known to require repetition

These reforms are classed as progressive They are generally accepted by the people of the State as being measures taken in the direction of progress and advancement That they have met with popular approval is manifest to anyone who has followed the temper of the people

In the campaign just closed, the platforms of all political parties pledged reforms in sympathy with those already instituted, as well as new policies in keeping with the progressive

spirit and thought of the present day, and all such promises were made in the interest of progress and good government

The members of the Legislature are undoubtedly awake to the responsibility which the people have, by their suffrage, cast upon them They demand that progress be continued, that progressive legislation be not retarded or forgotten They look to you for the accomplishment of good government and expect a continuance of the new order of things that has been begun

I shall be your Chief Executive for but one week after you assemble The duties of this great office will then devolve upon Governor Fielder, the administration of the State will be his, not mine, and in his inaugural address to you, he will call your attention to the things that he believes will require your attention It is a matter of particular pride with me, however, that I have this opportunity to express to you my conviction that you will join with him in carrying out the policies which he has in mind, and which, I am sure, will enure to the great benefit of the State and the progress and betterment of its citizens

LEON R TAYLOR,
Acting Governor

Attest
L EDWARD HERRMANN,
Secretary to the Governor
TRENTON, New Jersey, January 13th, 1914

Mr Branegan moved that the message be received and spread in full on the minutes and the usual number of copies be printed, which was adopted

A message was received from the Senate, by the hands of its Secretary, as follows

STATE OF NEW JERSEY,
SENATE CHAMBER,
Mr Speaker January 13th, 1914

I am directed by the Senate to inform the House of Assembly that the Senate has passed the following resolution

Resolved by the Senate (the House of Assemlby concurring), That a committee of eight—three Senators and five Assemblymen—be appointed by the President of the Senate and the

Speaker of the House of Assembly, respectively, to make the necessary arrangements for the inauguration of the Honorable James F Fielder as Governor of the State of New Jersey

In which the concurrence of the House of Assembly is requested

WILLIAM L DILL,
Secretary of the Senate

Mr Branegan moved that the House concur in this message, which motion was adopted

Pursuant to the recommendation in said message, the Speaker appointed the following committee Mr Branegan, of Hudson county, Mr Nutting, of Essex county, Mr Holcombe, of Hunterdon county, Mr Kuhlke, of Hudson county, and Mr Moore, of Mercer county

Mr Branegan offered the following resolution, which was read by the Clerk

Be it Resolved, That the rules for the session of 1913 be adopted as the rules of this House with the following amendments and additions

Amend Rule 35 by adding the words "A Committee on Taxation" after the words "A Committee on Highways"

Amend Rule 66 by adding after the words "third reading," on line four of said rule, the words "shall, if ordered by the Speaker of the House"

The following new rules to be added

Rule 71 No bill or joint resolution shall be introduced after March 5th, 1914, except with the unanimous consent of the members of the House

Rule 72 All resolutions, bills, amendments to bills and resolutions shall be presented in one original together with a copy thereof, and all bills, original and copy, shall be typewritten and printed

Rule 73 No bill or joint resolution shall be considered on third reading and final passage until ten days after the second reading thereof

Rule 74 All standing committees shall meet at least once each week for the consideration of measures referred to them, and all committee hearings shall be announced in open session and advertised by posting a notice thereof in a conspicuous place in the Assembly Chamber, and also at some prominent point in the main corridor of the State House

Rule 75 After a majority of any committee has made its report on any bill or resolution, a minority of such committee may submit a report upon the same proposition and any member of the House may move to substitute such minority report for the majority report of such committee

Mr McDermott offered an amendment to the above resolution, which was read by the Clerk as follows

Amend the resolution by striking out Rule 71 and inserting in lieu thereof the following

Rule No 71 No bill or joint resolution shall, without unanimous consent, be introduced after the second day of March, 1914, nor shall any bill or joint resolution, without unanimous consent, have more than one reading until after the second day of March, 1914

Mr Branegan accepted Mr McDermott's amendment, and the Speaker declared the amendment a part of the original resolution

Mr Richards offered the following as a substitute to the resolution of Mr Branegan, and moved its adoption

Amend the resolution of Mr Branegan as follows

Add, in place of Rule 71, a rule to be known as Rule 71, to read as follows

That no bill or joint resolution shall be introduced later than two weeks preceding the day fixed for adjournment, and that no bill or joint resolution shall be considered during the last two weeks of the session, unless said bill or joint resolution shall have been on third reading at least one week

journs it be to meet Friday next, at 10 45 A M , and when it then adjourns it be to meet Monday next, at 8 P M

The Speaker declared a recess and the members proceeded in a body to the Opera House pursuant to the above resolution

The House, together with the Senate, participated in the inauguration of Hon James F Fielder as Governor of the State

Upon roll-call, all the members of the House were present

The following was the program of inauguration

Invocation by Rev William M Curry, pastor of the Fourth Presbyterian Church, Trenton

The oath of office was administered by Chief Justice William S Gummere, of the Supreme Court, to Governor James F Fielder

In turning the seal of the State over to Governor Fielder, Governor Taylor said

"Governor Fielder, from your hands I received this emblem of the authority vested in the Executive of our Commonwealth During the time that it has been in my care, though I have had to determine but few matters of importance, I have tried so to do that my acts would meet with the approval of our people and thus be in harmony with the course of conduct which I believe you have determined to pursue If I have succeeded, I am content

"The time allotted to me by the Constitution is past This seal in my hands is now a mere piece of metal

"The people have chosen you as the guardian of their interests, as their Governor In obedience to which I now relinquish to you the Great Seal of the State of New Jersey, knowing full well that you will justify their confidence and will revivify it with acts giving to us an even greater measure of happiness, liberty and prosperity than we now enjoy"

In receiving the Seal of the State from Governor Taylor, Governor Fielder replied as follows

"Governor Taylor, I receive this symbol of authority at your hands, fully appreciating the responsibility accompanying it Nearly eleven months ago, this seal was entrusted to my keep-

ing by our then Governor, now President, Wilson, and I subsequently delivered it to you In succeeding this great Governor, you and I believed we were part of the administration which was begun at this place three years ago and which was terminated by the call of the people of the United States to our Governor to assume the higher position of usefulness he has since graced and it has been our endeavor to continue that administration along the broad, progressive lines laid down by Governor Wilson In him our citizens had an able champion, through whom public opinion was speedily and effectively translated into legislative acts That administration is the standard by which his successors will be judged, and when I surrender this seal to the Governor who shall come after me, I hope New Jersey will still be known as the State whose policies are honest and whose laws represent not the desire of any class or special interest, but the wishes of a majority of our people"

Introduction of the Governor to the President of the Senate by the Hon Leon R Taylor

Introduction of the Governor to the Senate and General Assembly by the President of the Senate

The Governor's inaugural address was as follows

Gentlemen of the Senate and General Assembly

Taking advantage of that provision of our Constitution which empowers the Governor, whenever he considers it necessary, to communicate to the Legislature the condition of the State and to recommend such measures as he may deem expedient, and following the custom of incoming Governors to deliver an inaugural message, I submit for your consideration certain matters which I believe of interest to the people of our State It is unnecessary to refer now to all subjects which will or should be brought to your attention at this session, and it is my purpose to speak only of those which appear to be of pressing importance, reserving other matters for future messages

I am much concerned that this session shall be marked with care, deliberation and earnest thought, so that hasty and ill-considered legislation shall not be enacted Too many bills are introduced of not the slightest importance to the State at large

and too many unnecessary and defective laws are enacted each year Notwithstanding the constitutional limitation against special legislation, I venture to assert that two-thirds of our laws are passed to meet special cases or to serve special purposes At last year's sessions, nearly fourteen hundred bills were introduced, of which about four hundred became laws While it is the duty of each member to serve the people of his county by endeavoring to secure legislation for their benefit, it is also his duty to the State not to clog the processes of legislation with useless suggestions in the form of bills or to attempt to secure special advantages for those who should be governed by general laws The proof of a legislator's capacity and usefulness is not to be found in the great number of bills he may introduce and pass, but rather in the quality of the few which bear his name Each member should carefully scan and consider all bills offered to him for introduction and he should have the courage and good sense to refuse those he knows cannot or should not become laws I am informed that not so many years ago, legislative bills were not printed at State expense, but that each member paid for the printing of his own bills If that were still the rule, I could easily imagine that neither the volume of bills introduced, nor the laws enacted, would be so large

One of the evils of legislation has been due to the introduction and passage of bills up to the closing hours of the session, when in the attendant rush and excitement, imperfectly prepared and improper legislation has been enacted The Governor has only five days within which to consider bills after they reach his office and he cannot give the time for consideration that he would wish, to the mass of passed bills thrown at him at the conclusion of a session In these days the veto power is not considered a sufficient barrier against improper legislation, and the failure of legislators to act with deliberation, thought and good judgment, has helped to produce a distrust of legislative bodies, resulting in the suggestion of various devices and expedients to curb and limit their action

With these thoughts in mind, I commend your proposition to limit the time for introduction of bills and to require that a rea-

sonable period shall elapse between their introduction and consideration, as also the provision I understand you are to make for a legislative reference bureau and for a legal adviser, who shall prepare and criticise bills The adoption of these remedies for checking the evils of which I have spoken, entailing but slight expense, indicates your desire for safe and sane legislation and merits general approval

Our State expenditures have increased from year to year, in consequence of our growth in population and the natural placing of heavier burdens upon our departments and institutions This increase in expenditures has been met by a gain in income, but the difficulty which has confronted preceding administrations is that our income has not kept pace with the demands made upon it We must husband our resources, exercise a more careful watch over our outlay and see that each dollar expended brings its full return to the State There is a widespread belief that money is wasted through a multiplicity of departments, boards and commissions and that by simplification in administration and consolidation of departments, our revenues can be conserved and expended to better advantage I believe that much can be accomplished in this direction, but it is not my intention to deal with the subject in detail at this time, for the reason that the Economy and Efficiency Commission, appointed pursuant to a joint resolution of the session of 1912, has had this matter under investigation, and I am assured its final report will be presented to you within a few weeks I feel that this commission has devoted much time to a searching examination of the functions of and the results accomplished by our State departments and that its report will contain information and recommendations of great value to you With this report so near completion, it would be unwise to attempt any reorganization scheme without the benefit of the conclusions of the commission and I therefore recommend that you await its findings before proceeding I would refer you in the meantime, to the preliminary report presented by the commission to the session of 1913

The sentiment of these enlightened times demands a change in the care and treatment of prisoners in our penal institutions

The idea that offenders against our laws can be reformed by confinement and punishment alone, is obsolete Confinement within prison walls and harshness and severity never has and never will check crime, and the proper treatment of convicts must receive more intelligent thought Criminal tendencies are very frequently the result of mental or physical defects and the lack of education, decent surroundings and bodily nourishment The State should be more concerned in ascertaining and, if possible, removing the cause for crime, than in administering punishment With first offenders especially, the State can hope for better results from a more thoughtful and modern system of treatment A careful mental and physical examination should be made under the direction of the prison authorities of each person sent to a penal institution, and a serious attempt made to cure or relieve the ills that such an examination discloses Prisoners should be placed at some occupation which they can continue after the expiration of their sentence, for the benefit of their physical selves and to help pay for their maintenance while in confinement and to fit them to earn their own livelihood after discharge Prison labor contracts should be terminated as speedily as possible and the prisoners placed at work under State direction and an effective State-use system installed We have taken a step in this direction with the inmates of our State's Prison, but sufficient funds have not been made available by the Legislature to make much more than a start Placing men at work upon the roads, the purchase of a farm and a quarry (the latter not yet actually acquired), will provide for some of the prisoners, but more funds are necessary for these purposes, as well as for the industrial employment in shops of those who cannot be placed at labor outside the prison

Intimately connected with this, is the establishment of a business-like plan for the management of prison labor and the disposition of the products thereof There are too many boards and officials connected with this work and with prison control, and this results in friction, a loss of efficiency and unnecessary expense I recommend that the Prison Labor Commission and the

Board of Inspectors of the State's Prison be abolished and that a new board be created to have entire charge and management of the State's Prison and of all places at which convicts are put at work, that the keeper of the prison be placed under the authority of this board, as the superintendent of the prison, and be relieved from responsibility for the escape of those engaged at outside work, and that this board have control of the disposition of products of convict labor Such a plan should lead to better results in the performance of the State's duty to its criminal class, as well as to economy in operation

I have given some attention to our charitable and correctional institutions, and during my term of office I intend to secure a more intimate knowledge of their operation and a better understanding of their needs The members of legislative committees on these institutions, too, will do well to visit them and acquaint themselves with their functions and management, for I feel they have been much neglected by the State Many are overcrowded and some are caring for those who should be transferred elsewhere The per capita cost of maintenance of some seems high and it is not unlikely that money can be saved by their boards of managers, but all need State help and a fair opportunity to show the maximum amount of usefulness The members of the boards of managers are for the most part conscientious men and women devoting their time and thought unselfishly and intelligently to the care and relief of the poor unfortunates committed to their charge The Legislature should cooperate with these managers and the Appropriation Committee should give them all the financial assistance the State's resources will allow Those members of boards who are not interested in their work, or who cannot find the time to devote to it, should promptly resign so that their fellow-members can be given the aid and assistance of others who can and will share their burdens

The matter of jury reform is still unsettled You will recall that this subject occupied much of the attention of the last Legislature and that a special session was called to pass a bill changing the method of drawing grand and petit jurors, to the end that

scandals in the administration of justice, due to political influence and corruption in some of our counties, would never again occur I was sure our people desired this reform and as Acting Governor of the State, in a message to the special session, I urged that a bill be passed without a referendum It was my opinion that a jury commission, appointed by Supreme Court Justices, offered the proper and effective solution, but that session resulted in the passage of a bill providing for a commission consisting of the sheriff and one citizen of each county, the latter to be appointed by the Chancellor, and directing that the acceptance of the act should be submitted to the people of the whole State at the last general election Another bill was passed at the same session, taking effect at once, reforming and safeguarding the method of selection by the sheriffs, of our grand and petit jurors and was therefore in operation before the general election Upon the submission of the "Chancellor-Sheriff Act" to the voters, it was adopted by a very large majority, thus clearly indicating their preference for that act, rather than for the other act passed at the same session The constitutionality of the "Chancellor-Sheriff Act" has been attacked and is now before our courts, a justice of the Supreme Court having declared it unconstitutional because of the State-wide referendum and an appeal is now pending in the Court of Appeals The question of the adoption of this act having been decided by the voters in unmistakable terms, there cannot be the slightest question as to the duty of the Legislature in the premises, or any room for further argument as to what kind of jury reform this State desires There may be some matters of mere detail in the "Chancellor-Sheriff Act" which need correction, but the obligation of the Legislature to pass the bill again, without a referendum, is so plain that it is idle to do more than set forth the facts

Two constitutional amendments are suggested, both of which I approve and which I think have the approval of a very large majority of our citizens The first will provide for a more liberal method of amending the Constitution by submitting any proposed amendment, after it has passed two sessions of the Legislature,

to the voters at the following general election instead of a special election, as now required and by eliminating the present constitutional prohibition against voting on amendments oftener than once in five years The second amendment to which I refer relates to the creation of Assembly districts in those counties entitled to more than one Assemblyman Under our system of nomination and election, it is possible that candidates for Assembly can be nominated and elected from one section of the county, leaving the balance thereof unrepresented and that the Assemblymen elected may all represent one political party or a faction of a party The creation of Assembly districts will make the first impossible and lessen the possibility of the other

Various attempts to pass a constitutional act under which our counties may be governed by a small board of freeholders have failed, mainly because this legislation has been complicated by the enactment of many laws and by many court decisions on the subject The citizens of those counties which have adopted the small board, are satisfied with the change and several counties now having the large boards have expressed their desire for smaller ones It appears to be the general sentiment of the State, that municipal affairs can be more satisfactorily administered by fewer men than by a large number, where responsibility for misgovernment is divided between and shifted from one set of men to another I believe it to be the duty of the Legislature to pass a mandatory bill which will give a small board government to all counties

Many complaints are heard concerning our increasing tax burdens One reason for the increase is the growing expenditures of our municipalities, part of which is due to mandatory acts and especially to those fixing appropriations upon a percentage of assessed valuations This is improper legislation and should cease Another part of the increase is due to municipal extravagance which can be checked through the power of the ballot

Another reason for increased tax burdens is found in improper methods of assessment, and this also results in inequalities in taxation as between municipalities and individuals The root of

this difficulty is in the assessor, in whose selection the question of fitness generally plays but a small part and who receives an inadequate compensation for the work he is supposed to perform The elected assessor usually gives poor satisfaction The average annual salary in this State is about $370, and some assessors, who have a quarter of a million of valuation to assess, receive the munificent sum of ten dollars per year If we can devise a way to secure competent and faithful assessors and place them beyond political control, I believe the cause for complaint would be largely removed As a simple plan (not wholly new) for meeting the difficulty, I suggest that the County Board of Taxation in each county, establish local assessment districts to comprise the whole, or a part of a municipality, or to include two or more municipalities and that such board appoint assessors for each district, who may be assigned to assist each other and who shall be chosen under the Civil Service Act and may be removed by the county board after a hearing Proper salaries can be fixed, to be paid in the first instance by the county and apportioned to each taxing district according to the taxable valuations therein and by them paid to the county collector The county board should establish rules to govern the work of the assessors, subject to approval and revision by the State Board of Taxation, so that uniform rules may be in force in all counties I further suggest that tax lists be open to inspection by property owners before final confirmation and that an appeal lie to the county board from any proposed valuation, after which the revised and corrected assessment lists shall be filed with the taxing districts and the tax rate then struck upon the valuations so fixed Appeals thereafter can be taken to the State Board, but only by those dissatisfied with the result of an appeal to the county board This plan should result in securing a higher class of assessors, assure a fairer, more intelligent and equitable assessment and give relief to individuals and municipalities

I recommend the repeal of the Hillery Maximum Tax Act This act was passed for the benefit of the railroads, its object being to keep down local rates so that the average tax rate of the

State, as applied to a portion of the railroad property, would be low This law has so hampered municipalities that it was found necessary first to raise the maximum rate and later, under certain conditions, to permit an increase above this rate, and now the act only partially accomplishes its design and is obnoxious in principle I believe that even the railroads are not now interested in it In any event, it is my judgment that municipalities should be permitted to fix their rates at whatever they please Any municipality which, through waste and extravagance, fixes too high a rate, will surely suffer, and its citizens can insist upon a new and more economical set of officials

The law governing the taxation of shares of banks and trust companies is most unsatisfactory The banks are investing their capital and surplus in exempt securities, largely, it would appear, for the purpose of escaping taxation, and while the market value of their shares has gradually increased, the tax derived from this form of property has grown less and in some instances has entirely disappeared The money of depositors is seldom taxed and this money is the bank's stock in trade—the commodity in which it deals—and upon which it realizes large profits for its shareholders The banks should not be treated as individuals with regard to exemptions and a plan for taxation of its shares should be devised which would make this property bear a fair share of the tax burden It is my intention to refer this subject to the Attorney-General at once for his advice as to a law to accomplish the desired result

Our primary and election laws, on the whole, work admirably The system is beyond the experimental stage and its great superiority over any previous method has been completely demonstrated There should, however, be an improvement in the manner of selection of election officers If the men in charge of polling places are ignorant or corrupt, we are bound to suffer from their incompetence or vices, and since we cannot, by law, make men intelligent or moral, we should exercise more care in the choice of those who are to perform this most important duty This can be done through more stringent Civil Service examina-

tions, and I would attract to these examinations, all State, county and municipal employees, by providing that such of them as qualify for election officers shall be excused from their public duties on registry, primary and election days, without loss of pay Men employed in private business cannot, as a rule, be released by their employers and if my idea were adopted, an intelligent class of men would be available for this public work

All political parties at their State conventions declared for a preferential system of voting at the primaries and I therefore feel it unnecessary to more than mention the subject and to express the hope that this will be one of the first matters to receive your attention

In my recent travels about the State, I have been impressed with the importance of our farming industry and the necessity of furthering progressive and scientific development of agricultural pursuits, not for the benefit of our farmers alone, but for the urban communities as well There has been a remarkable shifting of population from the country to the city and an encroachment of our cities upon the farm lands I have seen it stated that about twenty-five per cent of the population of New Jersey, is rural This means that a great number of individuals must depend upon the few to furnish the food-supply for all and that the few have a diminishing number of acres upon which to raise their produce In order that the rural portion of our State may produce supplies for the balance, the best and most modern methods of agriculture should be at their command The State Agricultural College at New Brunswick offers splendid courses in scientific farming to men and women, but we should carry this knowledge and instruction directly to the farm and the farmer He should be shown by actual demonstration, appealing to his eye as well as his brain, how he can best use his lands I favor giving instruction and practical demonstration in agriculture and home economics, under the supervision of the State College, to those who cannot attend this institution The Federal government is seriously considering this subject, an appropriation from the national treasury to each State College having been

proposed, and if we will join in the project a most important industry will receive an impetus beneficial to the whole State

Previous Legislatures have thought it wise to require the Governor's approval of certain contracts entered into and expenses incurred by various departments and boards, as well as to plan for the construction of armories and State buildings Nearly every Legislature has added to the number of items which must thus be brought to the Governor's attention and now there is a miscellaneous and burdensome assortment of contracts, bills and building plans requiring his approval to make them valid The greater number of these are of no more importance than those that do not come to him So large is their number and so varied their subjects, that it is impossible to make a thorough examination of all, and he must depend upon the advice and assistance of others, usually the head of the department from which they emanate, and as these documents come from and bear the approval of the department head, the Governor's approval is little more than a matter of form I submit to you that the Governor should be permitted to devote his whole time and attention to the duties of the Executive Department and that the entire responsibility for the work of other departments should be placed upon the department heads If you agree with me, I ask you to make the necessary change by legislation If you do not, I shall give my best attention to this detail work

The people of our State have chosen me as their Chief Executive and I enter upon my duties with a sincere determination to give them the best service of which I am capable You and I are the representatives of our fellows, through whom their hopes and desires should be realized, and we must be true to our trust Differences in political beliefs must not affect our action and we should work in hearty accord This should be the easier because we are not strangers I have been closely associated with you in legislative service and my earnest hope is that the friendly relations now existing between us will continue even beyond our respective terms My time and my assistance will always be at your command, as we strive together for the advancement and prosperity of our State

The ceremonies were concluded with Benediction by Rev Joseph A Mulry, S J President of St Peter's College, Jersey City

Mr Godfrey offered the following resolution, which was read

WHEREAS, A rumor has been current to the effect that the receipts of the Treasury of this State for the current fiscal year will not equal the expenditures, thereby producing a deficiency, and

WHEREAS, The report of the Comptroller, just printed and delivered, shows that, instead of a deficiency, there will be a surplus of receipts over expenditures as estimated, of $611,902 34, which sum, together with the cash on hand at the beginning of this fiscal year of $1,656,120 97, will show a balance in cash on hand at the end of this fiscal year of $2,268,023 31 with all obligations of the State paid in full (see Comptroller's Report, page 16), and that said total amount on hand at the end of the present fiscal year will also be increased by the unexpended balances of current appropriations which amount annually to a large sum,

Therefore, be it resolved, That, relying upon the accuracy of said report, it will not be necessary to use any of the unusual

or unanticipated income of the State this fiscal year nor to make any change in the application of the automobile license fees, and that any increase in such automobile license fees should be applied exclusively to the highway department for the repair of the highways and construction of good roads, and that in addition to such fees, a larger appropriation from the general funds of the State should and can safely be made to the highway department for such purpose

And be it further resolved, That the thanks of this House of Assembly be tendered to the Hon E I Edwards, the able and efficient State Comptroller, for his detailed and explicit report in which he clearly sets out the figures above quoted, and to the State Treasurer and the respective heads of the various departments for conducting the work under their charge respectively so that the above results could be obtained

WHEREAS, The entire civilized world was recently shocked and awakened to the wrongs done the Jewish race in Russia by the prosecution of one Mendel Beilis for so-called ritual murder, and

WHEREAS, The processes of justice were outraged and another uprising against the Jews in Russia was nearly precipitated by the anti-Semitic element in that country because of the unjust charges against said Beilis, and

WHEREAS, Only the protests of an aroused world-humanity prevented another of the many barbarous outrages against that race which has contributed so nobly to the progress of the world and of America and New Jersey in particular, therefore, be it

Resolved, That this House of Assembly of the State of New Jersey does hereby set its stamp of disapproval in the name of the people of this State, Jew and Gentile, upon the said persecution of said Mendel Beilis as one of the Jewish race, and expresses its pleasure in the ultimate acquittal of said Beilis, and be it further

Resolved, That this General Assembly of the State of New Jersey does hereby protest against any further outrages of the kind or any further persecution of said Beilis, or of said Jewish residents of the Empire of Russia

And

WHEREAS, The percentage of increase during the above period in the assessments in Atlantic county is much greater than in the other counties of our State, therefore, be it

Resolved, That the State Board of Taxation be requested to advise this House of Assembly if in their judgment the various counties in New Jersey are assessed upon a fair valuation, and if this table correctly shows the growth and prosperity of Atlantic county in comparison with the other counties of our State

Mr Branegan, Chairman of the Committee on Judiciary, reported the following resolution of Mr Godfrey and moved its adoption, which motion was carried

WHEREAS, A rumor has been current to the effect that the receipts of the Treasury of this State for the current fiscal year will not equal the expenditures, thereby producing a deficiency, and

WHEREAS, The report of the Comptroller, just printed and delivered, shows that, instead of a deficiency, there will be a surplus of receipts over expenditures as estimated, of $611,902 34, which sum, together with the cash on hand at the beginning of this fiscal year of $1,656,120 07, will show a balance in cash on hand at the end of this fiscal year of $2,268,023 31, with all obligations of the State paid in full (see Comptroller's Report, page 16), and that said total amount on hand at the end of the present fiscal year will also be increased by the unexpended balances of current appropriations which amount annually to a large sum, therefore, be it

Resolved, That, relying upon the accuracy of said report, it will not be necessary to use any of the unusual or unanticipated income of the State this fiscal year nor to make any change in the application of the automobile license fees, and that any increase in such automobile license fees should be applied exclusively to the highway department for the repair of the highways and construction of good roads, and that in addition to such fees, a larger appropriation from the general funds of the State should and can safely be made to the highway department for such purposes, and be it

Further Resolved, That the thanks of this House of Assembly be tendered to the Hon E I Edwards, the able and efficient State Comptroller, for his detailed and explicit report, in which he clearly sets out the figures above quoted, and to the State Treasurer and the respective heads of the various departments for conducting the work under their charge, respectively, so that the above results could be obtained

Mr Nutting, on leave, introduced

Assembly Bill No 50, entitled "An act regulating the pay of officers and policemen in cities of the second class in this State,"

Which were read and ordered printed

Substitute for paragraphs 2 and 3 the following

2 This act shall take effect immediately, but its provisions shall remain inoperative in any of the said cities until the same shall be submitted to and accepted by the qualified voters of such city as hereinafter provided

Whenever it shall be deemed desirable by the governing board or body having charge of the finances of said cities to submit the question of the adoption of the provisions of this act to the legal voters of said city, the governing body of said city shall pass a resolution directing that such question be submitted to said voters of said city at the next regular election to be held therein, public notice thereof shall be given by said governing body by publication in one or more newspapers published and circulated in said city once a week for at least four weeks before election

At any election at which the question of the adoption of the provisions of this act shall be submitted to the voters of any such city there shall be printed upon the official ballots for such city the word "for" and the word "against" above and immediately preceeding the words "An act regulating the pay of officers and policemen in cities of the second class in this State" If the word "for" be marked off or defaced upon the ballot, it shall be counted as a vote against the acceptance of this act, if the word "against" be marked off or defaced upon the ballot, it shall be counted as a vote in favor of the acceptance of this act, and in case neither the word "for" nor the word "against" be marked off or defaced upon the ballot, it shall not be counted as a vote either for or against such acceptance A canvass and return of the votes upon the question of the acceptance of this act shall be made by the election officers in the same way and manner as for officers voted at such election, and if a majority of the votes cast for and against the acceptance of this act shall be found to be in favor of its acceptance, it shall then, but not otherwise, become operative in such city

3 In any city in which this act shall become operative, in the manner herein provided, the increase of pay or salaries therein shall go into effect on the first day of the next fiscal year of such city and not before, and provision for payment thereof shall be made in the tax levy raised in such city

STATE OF NEW JERSEY,
SENATE CHAMBER,
Mr Speaker February 3d, 1914

I am directed by the Senate to inform the House of Assembly that the Senate has passed the following bills

Senate Bill No 49, entitled "An act to incorporate the borough of Ogdensburg in the county of Sussex,"

And

Committee Substitute for

Senate Bill No 79, entitled "An act to validate and confirm all acts and proceedings had or to be had or performed by grand and petit jurors selected, drawn, summoned or impaneled, pursuant to the provisions of an act entitled 'A supplement to an act entitled "An act concerning juries" (Revision), approved March twenty-seventh, one thousand eight hundred and seventy-four,' approved May twenty-ninth, one thousand nine hundred and thirteen,"

In which the concurrence of the House of Assembly is requested

WILLIAM L. DILL,
Secretary of the Senate

Senate Bill No 49, entitled "An act to incorporate the borough of Ogdensburg in the county of Sussex,"

Was read for the first time by its title, ordered to have a second reading, and referred to the Committee on Boroughs and Borough Commissions

Mr Branegan moved that the rules be suspended and that Committee Substitute for Senate Bill No 79, which reads as follows

AN ACT to validate and confirm all acts and proceedings had or to be had or performed by grand and petit jurors selected, drawn, summoned or impaneled, pursuant to the provisions of an act entitled "A supplement to an act entitled 'An act concerning juries' (Revision), approved March twenty-seventh, one thousand eight hundred and seventy-four," approved May twenty-ninth, one thousand nine hundred and thirteen

WHEREAS, The Legislature of the State of New Jersey, at the Special Session of 1913, adopted an act entitled "An act entitled 'An act concerning juries' (Revision), approved March twenty-seventh, one thousand eight hundred and seventy-four," approved May twenty-ninth, one thousand nine hundred and thirteen, which said act contained a provision to the effect that it should not become operative until adopted at the general election next following, by the vote of the people of this State, and also at said Special Session adopted the act referred to in the title of this act, which last-mentioned act became operative immediately upon its approval, and

WHEREAS, The Supreme Court of this State declared the referendum act above referred to to be unconstitutional and void, because of which decision, pending proceedings in review in the Court of Errors and Appeals, grand and petit jurors have been selected under the provisions of the act referred to above containing no referendum provision and becoming operative immediately, and

WHEREAS, By the judgment of the Court of Errors and Appeals of this State, the referendum act above referred to has been declared to be constitutional and a valid law of this State, thereby superseding the prior act, in order that the actions and proceedings had or to be had or performed by the grand and petit jurors selected, drawn, summoned or impaneled, or hereafter so to be, under the provisions of the act referred to in the title of this act, may not be questioned in any court, therefore,

BE IT ENACTED *by the Senate and General Assembly of the State of New Jersey*

1 The grand and petit jurors selected, drawn, summoned, or impaneled, or hereafter so to be, subject to the provisions of an act entitled "A supplement to an act entitled 'An act concerning juries' (Revision), approved March twenty-seventh, one thousand eight hundred and seventy-four," approved May twenty-

ninth, one thousand nine hundred and thirteen, are hereby validated, ratified, approved and confirmed as true and lawful grand and petit jurors, and the actions, presentments, verdicts, findings and performance of all other proper duties by the said grand and petit jurors during the term for which they have been or may be selected, drawn, summoned and impaneled, shall be in all respects good and effectual in law, *provided, however,* that nothing herein contained shall be held to deprive any party of any right or privilege established by objection made to the validity or legality of the selecting, drawing, summoning or impaneling of any grand or petit jury made and entered of record prior to the passage and approval of this act

2 All acts and parts of acts inconsistent herewith are hereby repealed, and this act shall take effect immediately

Be taken up on second reading, without reference

A message was received from the Senate, by the hands of its Secretary, as follows

STATE OF NEW JERSEY,
SENATE CHAMBER,
February 9th, 1914

Mr Speaker

I am directed by the Senate to inform the House of Assembly that the Senate has passed the following bills

Senate Bill No 43, entitled "An act to regulate the payment of salaries of county employees in counties of the second class,"

Senate Bill No 50, entitled "A supplement to an act entitled 'An act respecting the Prerogative Court, and the power and authority of the ordinary (Revision of 1900),'"

In which the concurrence of the House of Assembly is requested

WILLIAM L. DILL,
Secretary of the Senate

The Senate message was taken up, and

Senate Bill No 43, entitled "An act to regulate the payment of salaries of county employees in counties of the second class,"

Was read for the first time by its title, ordered to have a second reading, and referred to the Committee on Municipal Corporations

Senate Bill No 50, entitled "A supplement to an act entitled 'An act respecting the Prerogative Court and the power and authority of the ordinary (Revision of 1900),'"

Was read for the first time by its title, ordered to have a second reading, and referred to the Committee on Judiciary

Mr Godfrey offered the following resolution

WHEREAS, By reason of its natural advantages and location, its railroad facilities and the energy and determination of its people, and its nearness to the great markets, the State of New Jersey has become one of the greatest manufacturing locations in the country, and with proper governmental encouragement its industries should rapidly increase in number and importance, and its manufacturers, its farmers, its oystermen, its fishermen, its shore and mountain resorts, its employers and employees in every industry should be continuously prosperous, and

WHEREAS, It is alleged that a feeling of unrest and uncertainty is now prevalent among employees as well as employers of labor, and it is the duty as well as the pleasure of the members of this House of Assembly to obtain accurate information concerning this subject—so vital to the welfare of the people of our State—to the end that this House may advocate such legislation as will result in re-establishing or increasing confidence in business and commercial conditions and in the continuous employment of all of our people at satisfactory wages, or in proving that our people are now enjoying the prosperity to which they are entitled, and in order to obtain intelligent and correct facts for the use of this Legislature that we may take such action as will plainly and publicly indicate our desire and determination to aid the employees as well as the employer in accomplishing said result and with this absolutely non-partisan object in view, therefore, be it

Resolved, That a special committee of six members of this House be appointed, three of whom shall be members of the Democratic party and three of whom shall be members of the Republican party, the committee shall be appointed by the Chair within one day after the passage of this resolution and the committee shall, within five days after their appointment, mail to each known employer of labor engaged in any manufacturing or producing industry in this State as well as employers whose place of business are located out of this State but any of whose employees reside in this State, a letter similar to the following

"Mr

"My dear Sir

"By virtue of a resolution passed by the House of Assembly of New Jersey, a copy of which is herewith enclosed, the undersigned Committee was appointed and this Committee earnestly requests that you answer the following questions

"6 Give the reasons for such increase or decrease of employment

"7 Has the number of unemployed persons in your vicinity increased or decreased during the past year, and kindly give reasons for such increase or decrease

"Very respectfully,"

And be it further resolved, That the Committee shall cause the replies to said letters to be tabulated and the results to be reported to the Legislature at its present session, and all replies shall be public documents, except replies of such persons as shall request that their replies shall not be made public, in which cases such replies shall not be public documents All replies, as soon as received, shall be filed in the Department of Labor, whose office shall be the depository of such letters and the work of mailing such inquiries and of tabulating such answers shall be done in that office

On motion of Mr Branegan, the said resolution was referred to the Committee on Judiciary

Mr Bredenbek offered the following resolution, which was read and adopted by a *viva voce* vote

WHEREAS, A number of railroads operating within the State of New Jersey operate or cause to have in operation what are known as voluntary relief funds or associations for the avowed purpose of insuring their employees against the hardships of illness, accident or death, and

WHEREAS, It is a matter of common rumor, knowledge and belief that said funds or associations are not voluntary, but that on the contrary said funds or associations are made obligatory on the part of the employees of said railroads, and of the Pennsylvania Railroad in particular, and that one of said funds, known as the Voluntary Relief Department, is kept in charge of the railroad, supervised by the railroad, and controlled by the railroad specifically mentioned hereinbefore, and that much hardship is occasioned the employees who are compelled to join said fund or association or contribute to same, and

WHEREAS, Said fund or association really being an insurance fund that is not voluntary and is obligatory should be placed under the supervision of the State Banking and Insurance Commissioner similar to the supervision exercised over other insurance and banking interests, and

WHEREAS, There is grave reason to believe that said fund is not managed to the satisfaction of involuntary contributors, and that said contributors do not in every instance enjoy the benefits of their contributions or premiums so paid, therefore, be it

Resolved, That said voluntary relief department of the said Pennsylvania Railroad Company be investigated by a committee or commission of five members of the General Assembly of the State of New Jersey, said members to be appointed by the Speaker of said General Assembly, and empowered to cause to be produced any books, papers, pamphlets, receipt books, literature or other documents or evidence relative to same, and to issue summonses or subpœnaes upon whomsoever they may see fit to call to testify in such proceedings to investigate said fund, and that they are hereby empowered to hold hearings, engage the assistance of counsel in their deliberations and to provide for all the legitimate expenses of said investigation, said expenses, however, not to exceed the sum of five thousand dollars ($5,000), which sum is hereby appropriated for that purpose, any part of said fund left as a balance to be returned to the State Treasurer, to be deposited in the State treasury, and be it further

Resolved, That said committee or commission so appointed by the Speaker of the General Assembly of the State of New Jersey shall have power to investigate the relief funds or associations of any other railroad or railroads that it may see fit to inquire into under provisions similar to the provisions for the investigation of the said voluntary relief department of the Pennsylvania Railroad Company, to the end that justice and protection be given the employees of the said Pennsylvania Railroad Company, or the other company or companies mentioned, by a proper method of State supervision over funds deposited for the aforesaid purpose as premium or contribution, for insuring said employees against the hardships occasioned by illness, accident or death, and that said committee or commission report its findings and recommendations to the next General Assembly of the State of New Jersey

Mr Stevens offered the following resolution, which was read and adopted

Resolved, That the privileges of the floor be extended to the Hon Robert E Hand, a former member of this House from the county of Cape May

Mr Richards offered the following resolution, which was read and adopted

WHEREAS, It appears from the report of the West Jersey & Seashore Railroad Company to the Board of Public Utility Commissioners for the year ending June thirtieth, nineteen hundred and thirteen, that the assessed value of the property of the said company is $15,506,000 And it further appears that the said company declared a dividend upon its preferred stock of 6 per cent, and upon its common stock of 5 per cent, which dividends amounted to $488,000, and also reserved as a surplus the sum of $516,000, and

WHEREAS, It appears that the said company is earning upon the physical value of its said property an income in excess of 6 6 per cent, and

WHEREAS, It is asserted that the most profitable portion of the business of said company is its main line from Camden to Atlantic City, and

WHEREAS, For a long space of time its terminal facilities in Atlantic City have been grossly inadequate and antiquated, and its present unsightly station building in Atlantc City has greatly retarded the growth of the said city, and

WHEREAS, The citizens of Atlantic City have repeatedly requested the said company to relieve the aforesaid condition, and officers of said company in reply thereto publicly stated that it was financially unable to build a new station in Atlantic City; and

WHEREAS, It appears from the above mentioned report that the statements of the said company are misleading and untrue, now, therefore, be it

Resolved, That the Speaker appoint a committee of three members of the House, and that the said committee be authorized and directed to inquire into the financial affairs of the said West Jersey & Seashore Railroad Company and to ascertain therefrom if the said company is financially able to erect a modern station building in Atlantic City, and be it further

Resolved, That if the said committee finds that the said company is financially able to build said station, then the said committee shall ascertain whether or not the Board of Public Utility Commissioners have power to compel the building of such station, and if the committee finds that the said board is without such authority, or that such authority is doubtful, then the said committee shall report to this House such general measure or measures as will confer authority upon the said board to compel all railroad companies operating within this State to furnish proper terminal facilities within the State whenever in its judgment it may be necessary and proper to do so The com-

mittee shall have power to summon witnesses and require the production of books and documents deemed necessary for the prosecution of said inquiry, and the said Board of Public Utility Commissioners is hereby directed to lend to the said committee whatever assistance it can to the prosecution of the said inquiry by the said committee

Mr Godfrey offered the following resolution, which was read and received

WHEREAS, When the people of New Jersey were asked to vote upon the acceptance or rejection of the act adopted at the special session of the Legislature, held in May, 1913, and known as the Chancellor-Sheriff Jury Bill, it was assumed that said act would furnish to the people of our State, for such period of years as said act should remain in force, juries drawn by a non-partisan commission, consisting of the sheriff of the county and another person appointed by the Chancellor from a different political party than the party to which the sheriff belongs, and

WHEREAS, Under the direction of the said act the Chancellor has recently appointed jury commissioners for each county in New Jersey to serve for the term of one year, which term expires about the fifteenth day of February, 1915, and

WHEREAS, In many of the counties of our State the terms of office of the sheriff will expire on the third Tuesday of November,

1914, if this act does in good faith require a non-partisan jury commission, then the following questions thereby arise

(1) Is a member of the Democratic party eligible for election as sheriff in counties in which a Democratic jury commissioner is in office?

(2) Is a member of the Republican party eligible for election as sheriff in counties in which a Republican jury commissioner is in office?

(3) Is a member of the Progressive party eligible for election as sheriff in counties in which a Progressive jury commissioner is in office?

AND WHEREAS, If the members of the Democratic, Republican and Progressive parties are eligible for election as sheriff at the coming November election, then it is evident that in several counties the jury commission will consist of two members of the same political party from about the middle of November until the middle of the February following, therefore, be it

Resolved, That the Attorney-General be instructed to draw an amendment to said act in order to correct this serious error

On motion of Mr Branegan, the resolution was referred to the Committee on Judiciary, which motion was carried

To the Legislature

Joint Resolution No 5, approved April 3d, 1913, provided for the appointment of a commission to investigate the subject of public provision for the care, custody and treatment of mental defectives in this State The commission appointed pursuant to this resolution has diligently and conscientiously performed its duties, as will appear by a perusal of its report presented to me, which report I herewith transmit to you, as directed by said Joint Resolution The conclusions of the commission will be a valuable guide to you in the enactment of legislation concerning our insane and feeble-minded

Respectfully,

JAMES F FIELDER,
Governor

REPORT OF THE NEW JERSEY COMMISSION ON THE CARE OF MENTAL DEFECTIVES

Hon James F Fielder, Governor of the State of New Jersey

SIR—In pursuance of Joint Resolution No 5, approved April 3d, 1913, the New Jersey Commission for the care of Mental Defectives respectfully report

The duty of this Commission as embodied in the Joint Resolution is to investigate the subject of public provision for the care, custody and treatment of mental defectives in this State, with particular reference to the following

"No 1—To what extent is the present provision for the insane inadequate?

"No 2—What additional provision is immediately necessary, and what further provision is likely to be required in the near future?

"No 3—In what manner can this additional provision best be made that will insure (*a*) early relief, (*b*) economy in construction and administration, (*c*) proper care, curative treatment and custody, (*d*) adequate State supervision,

"No 4—In what manner, if at all, can the present system of public care of the insane be reorganized so that the highest efficiency with the greatest economy in their care and treatment may be secured?

"The Commission shall similarly investigate the subject of the feeble-minded and the epileptic"

In pursuance of the instructions contained in this resolution, we have visited and examined the New Jersey Hospitals for the Insane at Trenton and Morris Plains, the State Village for Epileptics at Skillman, the Home for Feeble-Minded Women at Vineland, the Essex County Insane Hospital at Overbrook, the Hudson County Insane Hospital at Secaucus, Burlington County Insane Hospital at New Lisbon, the Cumberland County Insane Hospital at Bridgeton, the Camden County Insane Hospital at Blackwood, the Atlantic County Insane Hospital at Pleasantville, the New Jersey Training School at Vineland, and in order to carry out the spirit of this resolution, and that we might better acquaint ourselves with conditions in other States, we have visited and examined institutions for the care of insane, epileptic and feeble-minded in the States of Massachusetts, Pennsylvania, Indiana, Wisconsin, Maryland and New York We have also

visited three of the private establishments for the care of those afflicted with nervous or mental diseases within this State We have also visited the quarters provided for the insane who have been committed to four of the county jails within the State

We have consulted alienists of national reputation in various centres, who have aided us in reaching our decision by their wise counsel, their generous advice and the results of their long experience

THE INSANE

Public provision for the insane in New Jersey is found at the two State Hospitals, Morris Plains and Trenton, and in county hospitals in the following named counties Atlantic, Burlington, Camden, Cumberland, Essex, Hudson, Gloucester, Passaic and Salem

In the counties of Gloucester, Passaic and Salem a few insane persons are provided for in their respective almshouses They are for the most part chronic cases that have been under care for years We are of the opinion that no additional commitments should be made to these institutions The number of patients in Passaic county is 36, in Gloucester, 7, and in Salem, 7

The whole number of insane under public care on October 31st, 1913, was 7,097

The following table shows the normal capacity of each of the State and county hospitals, the number actually under care on October 31st, 1913, and the excess of patients or accommodations at each institution

Institution	*Normal Capacity*	*Number Enrolled, Oct 31, 1913*	*Excess of Accommodations*	*Excess of Patients.*
State Hospital, Trenton,	1,600	1,552	48	
State Hospital, Morris Plains,	1,600	2,412		812
Atlantic County,	120	105	15	
Burlington County,	175	177		2
Camden County	260	246	14	
Cumberland County,	200	140	60	
Essex County,	1,525	1,614		89
Hudson County,	500	801		301
Gloucester County,		36		.
Passaic County,		7		.
Salem County,		7		.

It will be seen from the foregoing that the State is now caring for 1,067 insane persons in excess of the full normal capacity of our State and county hospitals The serious overcrowding is at the State Hospital at Morris Plains and the county hospital in Hudson county The latter institution is purely custodial in character

The records of the Department of Charities and Corrections indicate that the average yearly increase in the number of insane persons under public care during the past five years has been 237

The answer, then, to the first question is that the present public provision for the insane is inadequate properly to house 1,067 of the State's present wards Additional provision, therefore, for the proper housing, care and treatment of the insane is immediately necessary for 1,067 patients, and we must contemplate an annual increase of these wards for whom further provision is likely to be required in the near future of approximately 250 annually

PRISON CONFINEMENT OF THE INSANE

Blanks have been sent to the sheriffs of all the counties of the State, asking for detailed information relative to the insane who at any time during the course of the calendar year 1913, have been committed to their charge, and returns have been received from ten counties, the results of which may be summarized as follows

It is evident that a system that will permit of so many persons being confined in penal institution for faults for which they were not responsible and often charged with no crime is capable of great injustice and should not be permitted to continue

The additional provision immediately necessary seems to this Commission to be best furnished by the colony system This will take care of the immediate and pressing needs of the State, and by reason of its ready expansion will furnish the needed provision for the near future

Dr Owen Copp, in his report to the Minneapolis Conference of Charities and Corrections, 1907, thus described the colony system and its usefulness

"The colony would take from the closed asylum the harmless patients suitable for greater liberty and capable, in variable degree, of industrial re-education In its simple dwellings, arranged in small and separate groups, according to their condition, occupation and character of training, they would find the nearest approach to a home, its comforts and freedom

"The chief aim of the colony would be the utilization of the enormous waste of physical energy latent in the host of idle dements, unused because of mental torpor, damaged brains and weakened powers of application, but capable of quickening, partial regeneration and re-development into useful activity Although the labor of patients with initiative and of others easily induced to perform duties is quite generally and fully employed, the great task of re-education of the stupid dement is practically untouched so far as it demands special organization, painstaking training and persistency, comparable in a measure to the efforts and methods of industrial education of the congenitally defective and feeble-minded, and promising as great return in production and happiness to patients, fully equivalent to the additional outlay for teachers and attendants

"The hospital and asylum are more closely related to each other than to the colony, which might have any convenient location within a radius of many miles, if necessary to procure a large tract of wild land, rough and stony at the outset, but fertile and diversified in quality after reduction to tillage by the labor of the patients A limited central organization with a resourceful physician at the head would co-ordinate the numerous small, separate farmsteads and industrial group, each complete in its home equipment and interests and managed by a good farmer or mechanic, whose wife should be its house mother These centres should be mutually independent, but responsible to the resident physician

"Some may fear that such an order would be expensive, such as those requiring strict oversight and much paid attention The prerequisite of success are absence of the necessity of more than ordinary supervision, propriety of comparative freedom, capacity for self-help and the probability of productive labor It should also be kept in mind that the useful application of labor, especially to the current needs of the institution, should take precedence of any production for the outside market or mere occupation and diversion of colonists

"These general principles are equally applicable to the care, classification and training of the feeble-minded and the epileptic, if the school and manual training be added to the hospital equipment, with slight modification of the colony and custodial régimes in adaptation to their special needs"

Your Commission recommends the immediate establishment of three colonies, reasonably accessible to the existing institutions Each colony should have connected with it at least five hundred acres of land, more would be advantageous This land should have an abundance of wholesome drinking-water It should be located upon roads that would allow of quick connection with the present institution, either by rail or automobile The buildings to be erected for the use of the colony should not be of an expensive type, ordinary construction such as is used in dwellings for farm houses would be all that is necessary We have seen practically no permanent construction in this or any other State that has not within ten or fifteen years become obsolete or at least ill-suited to the rapidly improving methods of custodial care The system should be planned with special reference to the ultimate distribution of the wards of the State in economical and easily managed units in various localities, so as to promote the frequent visits of relatives, guardians and friends The agricultural and industrial activities of each of the centres so established will be attractive to other visitors, and the morale of the custodial activities will, in our judgment, be benefited and stimulated by the nearer association of the citizens so attracted We would recommend that these colonies should not have over three hundred patients at any one time, and we believe that it is best to erect buildings that would accommodate thirty to fifty and be sufficiently far apart to avoid any danger of a conflagration Your Commission believes that these colonies would be highly advantageous to the State and to the patients sent to them Conditions vary in various institutions and they also vary from time to time, and it is impossible for this Com-

mission to give exact figures as to the proportionate number of patients that can be removed from an institution and be colonized It would not be wise, in our judgment, to so remove all of those qualified for colony conditions, since some of them can as well, or better, be cared for under the conditions of occupational treatment already established in several of our existing institutions, and they are needed for their economical administration Probably forty per cent, however, would be a fair figure to be used as a preliminary estimate These patients would have the advantage of occupation and of out-of-door life, both of which are of use as therapeutic measures The maintenance cost per capita would be, we believe, reduced to a degree from the cost of maintenance in the institution, but only to a degree The patients in the colony would not be self-supporting We believe that no large proportion of mental defectives can become self-supporting, and to consider the colony plan as a system by which the revenues of the State can be increased would be a great mistake All that the plan offers from a financial standpoint is a probable reduction in maintenance and a large economy in installation The object in having these colonies within a reasonable distance of the existing institutions is that the patients at the colony may be easily removed to the existing State hospitals for treatment if through excitement, sickness or accident such removal becomes necessary It would further allow of the easy transfer of the products of the colony to the other institutions, if there should be any excess over and above what may be used for the colony itself

The colony plan offers advantages for women as well as for men The outdoor life reduces the probability of tuberculosis, makes sleep easier and longer, and gives the patient a renewed interest in living The land need not be of an expensive character, in fact it probably would be better to begin with rough land which the patients can gradually break in and improve We estimate that the cost per bed, including land (providing, of course, that this cheap quality of land is purchased), would not exceed $350, this is dependent, however, on the acreage and the location

THE FEEBLE-MINDED

The present public provision for the care of the feeble-minded in New Jersey is made at the State Home for Feeble-Minded Women and at the Training School for Feeble-Minded Boys and Girls, both at Vineland

The present normal capacity of the Home for Feeble-Minded Women is 250 The number of inmates on October 31st, 1913, was 301 The overcrowding here is in much the same degree as at the Morris Plains and Hudson County Hospitals for the Insane A new building is to be occupied in the early spring of 1914, which will afford additional accommodations for 100 Applications now on file in the office of the Commissioner of Charities and Corrections, including transfers of certain inmates from the State Home for Girls and the State Reformatory for Women, will immediately fill to its capacity the new building when it is ready for occupancy The rate at which additional accommodations have been provided in the past at the Home has not kept pace with the applications received for admission

The present provision is therefore inadequate inasmuch as it will probably be impossible to give consideration to new applications made after March 1st, 1914 These applications upon which it is highly important that immediate action should be taken will, in all probability, have to be held until some further provision is made

The present buildings do not provide proper classification and segregation of inmates Provision should be made for the erection of two additional buildings to accommodate 100 inmates each, one of these buildings for the lowest grade, idiots, and the second for the intermediate grade, imbeciles This will require additional dining room and kitchen facilities

There is no available and authentic data as to the number of feeble-minded women within the State who ought to be cared for at this institution, but we believe that provision should be made within the next five years for increased capacity to a maximum of 800 women, to include all degrees of feeble-minded and all ages This provision should include accommodation for not less than 100 idiots and imbecile girls of any age

At the present time no provision is made for feeble-minded children under the age of six years by the State, and no provision of any sort is made for children of low grade of any age

The State has for many years utilized a private institution, the New Jersey Training School for Feeble-Minded Boys and Girls at Vineland, for the care of a limited number of feeble-minded children This school, however, is limited in capacity, and it is not contemplated by its managers that that capacity shall be increased

There are at the present time in this school 450 inmates, 350 of whom are wards of the State These 350 children include all of the feeble-minded class for whom public provision is now

made, except the very few girls cared for at the Home for Feeble-Minded Women There are now pending in the office of the Commissioner of Charities and Corrections 125 applications for admission of feeble-minded children to the Training School at Vineland Included in these applications there are 68 cases that have been classified as custodial and are, therefore, not eligible for admission to the school For this class there is no State provision In addition to these there are 125 applications that have been withdrawn on account of the applicant becoming too old for admission In some cases applications have been pending for more than ten years

Existing conditions in the care of the mentally sub-normal, a term which we prefer to use in place of the term "feeble-minded," do not materially differ from those in the care of the insane It is estimated that there are 5,000 of these persons in the State not subject to any State care, a large proportion of whom are a menace to the welfare of the communities in which they now live Besides this there is an undetermined number of similar cases in the rising generation whose mental condition cannot be determined except after more careful methods of testing shall have been provided in the public schools

The extent to which this is now being done is shown by the following report prepared at our request by Dr Calvin N Kendall, Commissioner of Education

(Exclusive of Jersey City)"

Any plan for the care of the mentally sub-normal must be reasonably economical, effective and capable of early application, and it must be satisfactory to parents and guardians, as well as to the public

From infancy to school age most sub-normal children can best be cared for in their own homes and maintained by their parents; the few exceptions should be sent to institutions Mentally sub-normal children in the school districts have the same right to public education and training as is provided by the Constitution "for the instruction of all the children in this State between the ages of five and eighteen" They may be divided into three classes

a Epileptics
b The sub-normal in city school districts
c The sub-normal in rural communities

It is now clearly understood that the kind of education adequate to sub-normal children not too defective to be trainable is different from that now given to normal children It must be chiefly sensory and motor Such children have little capacity for intellectual training and limited practical use for what they may be able to acquire The best results are found in the development of their capacity for useful and productive industrial work As soon as possible, therefore, those who are mentally sub-normal should be separated from the normal, and from merely backward children in schools and classes When segregated and under control these sub-normal classes employed in systematic and industrial labor can contribute to their own maintenance in a larger degree than has heretofore been deemed possible

Only by expert examination can these children be separated from those who are normal, the difference, however, becomes apparent as they grow older to parents and teachers In the more populous communities special classes for the mentally sub-normal have been established in a small way In our judgment it is the duty of the State to effect a very much more general use of the special classes As the children so instructed become old enough for definite diagnosis to be made, those in whom this condition is a permanent one should be transferred to the State custodial institutions, except in the rare cases where they can be provided for at home The majority of them after adolescence are troublesome They are awkward, headstrong and difficult of management in the schools No matter what their years they cannot go beyond the primary grades Outside of the school they are in mischief and crave a notoriety accompanied by wrong doing They are over-sexed and practice indecencies or worse, and are the big, awkward, misunderstood, pitiable and dangerous companions of little children

In the smaller school districts where there are not enough of such children to form a special class, they should be sent to training schools maintained by the State, or to institutions like the school at Vineland The study of such cases should be continuous, both in the public schools and institutions, so as to provide constantly improving methods for their care and guidance

In our opinion all public school children should be tested at an early age to determine their capacity for continued instruction in the classes which are normal to their age and condition, and

this without reference to whether the problem is one of the city or the country In the institutional care of the sub-normal the colony system should prevail, there should be plenty of land to be cleared or tilled, and the girls should have the opportunity of occupation in house work, horticulture and house industries The boys may be employed in the building trades, in the production of some textiles, and even in printing In the little we know about the care of the sub-normal wards of the State, one fact is prominent, that employment is not only agreeable to the patients but has a distinct therapeutic value

The rapidly increasing number of those recognized as sub-normal, and of that portion of them in which State care is necessary as a protection to the community, calls for a rapid increase of the facilities of the State for institutional care Colonies should be established in small units in different sections, and we are pleased to note that a beginning has been made in Cumberland and Burlington counties What we have said of the colony system with regard to the insane applies with equal force to the colonies for those who are mentally sub-normal, both as to economy and efficiency of installation and maintenance

EPILEPTICS

The present normal capacity of the State Village for Epileptics at Skillman is 450 Additional buildings are now in course of erection that will increase this capacity to 600 There are now 24 applications on file at the Village for strictly custodial cases, 300 other cases on the waiting list, and more than 1,000 on record at the Village without application papers Of the latter number 332 are in the insane hospitals of the State, 35 in almshouses, 9 in penal and reformatory institutions, and 27 in the homes for feeble-minded

The commission recommends that the Epileptic Village at Skillman be made the custodian of all epileptics, that epilepsy be made the dominant element in committals to the Epileptic Village, and that no patients other than epileptics be committed thereto, that there be erected at Skillman such new buildings as may be necessary for the housing of the epileptic insane and the epileptic feeble-minded, and that when the present village has reached its full capacity additional care can best be made by the colony plan, either there or elsewhere in the State

ALCOHOLISM

Alcoholism is the most prominent single causative agency with reference to crime, pauperism, mental disease and degeneracy

Social customs and habits in connection with so-called moderate drinking are responsible to a degree for the future inebriates and chronic alcoholics

From a sociological standpoint divergent views are held as to the proper method of treatment of alcoholics and inebriates The penologist claims that punitive measures should be instituted Others go to the other extreme and claim that all such persons are diseased and fit subjects for medical treatment There are some who say that the habit is one that can be controlled by the habitues if they wish to make the effort It is probable that there are cases which come under each division, but the fact remains it is largely a medical question, and as such is peculiarly complex

In connection with the commitment of these cases to penal institutions, the report of the Board of Prison Commissioners of Massachusetts, for the year 1908, is interesting During that year, 20,779 persons were committed for simple drunkenness, and of this number 13,548 had been committed from two to fifty times previously When it is taken into consideration that a very large percentage of these cases are returned to some sort of an institution following the first incarceration, the punishment by jail, work-house or penitentiary sentences would seem an absurd practice, and, so far as statistics show, remarkably inefficient as a curative measure

It is unquestionably true that many of these people present pathological lesions, hereditary taint or other predisposing causes, and in this connection the statistics obtained from the State Hospitals at Morris Plains and Trenton, and the Essex and Hudson county institutions for the insane, are illuminating We have selected these institutions because of the larger number of inmates under treatment, and the accessibility of statistics

The Morris Plains Hospital, during the years 1911, 1912 and 1913, had 176 persons committed for alcoholism and alcoholic psychoses, 125 men and 51 women Of these 37% give hereditary history The average age at commitment was 42 25, and the average duration of treatment 8 months and 27 days

The Trenton State Hospital shows 236 commitments of alcoholics during the same period The average duration of treatment in this institution for acute mental disturbance due to alcohol, and for simple inebriety, was five to six weeks, and for sub-acute mental disturbances due to alcohol, six months to one year Hereditary predisposition appears in cases *in which information was available* in 52% for the past six years, and 85% showed alcoholism in antecedents in one parent or both In a great majority of cases this institution is able to show a pathological make-up for some predisposing causes to alcoholic indulgence

1913,	208	8	11	19	9 1
Total,	566	26	19	45	

In 1911, 147 patients were admitted to the Hudson county institution, of whom 5 women and 19 men were alcoholics In 1912, of 230 patients admitted, 9 women and 32 men were alcoholics, and in 1913, of 270 patients admitted, 15 women and 46 men gave alcoholic histories, making 126, or 19 5 per cent in a total number of admissions of 647 in which over-indulgence in alcohol appears as a direct cause

The Essex County Hospital, during the period mentioned, admitted 142 alcoholics, 106 male and 36 female, all of whom were committed as "insane" The statistics show hereditary taint in

direct or collateral branches, or pathological lesion where information was obtainable, in 44 cases

The age period during which most of these cases in all of the institutions were committed was between 30 and 60 years The reasons for this must be obvious

The statistics of the mentally sub-normal would undoubtedly show hereditary taint in a larger number than in the insane It is a well-established fact that epilepsy in the offspring is produced by chronic alcoholism in the parent

In view of these facts, the question of institutional treatment for chronic alcoholics and inebriates as a separate problem should receive serious consideration at the hands of the executive and legislative branches of the State government, as well as, perhaps, in a more satisfactory manner, by other means which may be devised to devote continuous effort along scientific lines so as to determine how to secure the best results Many cases that are sent to jails, work-houses and penitentiaries are those who, later on, fill our hospitals for the insane, almshouses and institutions for criminals, and it is the belief of this Commission that under proper conditions a large percentage of these might be reclaimed, restored to their families and become useful citizens In any event, the present method of caring for these cases in this State is far from satisfactory During the period of treatment, such cases could, by proper employment along agricultural and industrial lines, be made practically self-supporting The percentage of this class, capable of productive occupation, would naturally be larger than in the case of mental defectives

This is the preventive age in medicine, and if prophylaxis is to be applied in mental diseases, the hereditary elements removed or improved, pauperism and its attendant evils decreased, criminality attributable to vicious surroundings, environment and the excessive use of stimulants diminished, if any or all of these things are to be accomplished, alcoholism, wherever and however possible, should be eliminated

PRIVATE SANATORIA

The present law relative to private sanatoria gives a right of license and inspection to the Commissioner of Charities and Corrections, only with respect to institutions nominally caring for the insane In the judgment of your Commission no person should be permitted to operate within this State a sanatorium for the care of patients of any degree of mental alienation without being similarly subject to license and inspection

There are undoubtedly many persons in the State now held in practical custody and classed as neurasthenics, dipsomaniacs, etc, who are actually and in fact of unsound mind In our judgment the Commissioner of Charities and Corrections or his agents should have the power of inspection at any time, and of any institution where nervous patients of any class are under treatment

PSYCHOPATHIC CLINIC OR RECEPTION HOSPITAL

Feeble-mindedness and insanity are conditions that are the result of disease and therefore the problem relating to the care of those afflicted with these disorders are primarily medical

The old type of institution called Asylum is a relic of barbarism and intelligent communities are rapidly replacing it by modern hospitals constructed and organized upon a basis that facilitates the adoption of methods directed towards preventing the occurrence of nervous and mental disorders, or of taking active measures to relieve the symptoms when once they have developed From an economical standpoint a hospital, even in spite of the greater initial cost, represents an effective agency for conserving the brains and the money of the community when compared with the asylum to which patients are sent after they have reached the chronic or incurable stages of their disease

We recommend the establishment of a reception hospital or psychopathic clinic with accommodations for at least fifty patients, to be established at an initial cost of not over $100,000

This institution should be within easy reach of one of the large centers of population, should have a relatively large staff of physicians and nurses, and in it ample provision should be made not only for giving to the patients the benefits of the resources of a well-equipped modern hospital, but it should also become a centre in which instruction may be given to members of the medical profession as well as to the general public in regard to the nature, causes and methods of preventing the incidence of nervous and mental diseases In a hospital organized along these lines opportunities should be given to competent persons to carry on research work with a view to determining important facts regarding the nature and development of these diseases Only in institutions in which opportunity is given for carrying on original investigation to determine more fully than is yet known the nature of insanity, the causes that give rise to it,

and the methods of preventing its occurrence, will it be possible to enlist the services of competent and highly trained physicians to assist the State in the solution of the most important problems which now confront humanity

Some of the advantages to the State following the erection of a psychopathic clinic would be the following

(1) An increasing number of individuals upon the appearance of the first symptoms of a mental breakdown would be admitted to the clinic as voluntary patients, receive treatment, and be discharged Under present conditions the same persons refrain from applying for admission until the disease has advanced so far that they become permanent wards of the State

(2) An institution of this character under the directorship of a thoroughly trained alienist would at once become a centre of education The medical profession would have opportunities offered them for becoming familiar with the incipient stages of nervous and mental diseases and would, as is the case in communities where clinics of this type already exist, encourage patients to seek for advice and treatment at an early stage in the disease

The alienists would also be greatly assisted in their efforts to get at the causes leading to insanity by the information obtained from physicians in general practice, and also by the employment of trained social workers whose duty it should be to make a study of the environment and social condition in which patients have lived prior to the incidence of insanity In many cases it would be possible, if the home conditions were known, to assist individuals to readjust their lives and thus aver disaster

(3) The psychopathic clinic should be a centre to which teachers in the public schools would carry many of their problems relating to the education not only of the mentally subnormal, but of the emotionally abnormal children

(4) Cases of individuals involving the discussion before the courts of their legal responsibility could readily be more thoroughly examined here and with far less expense to the State than under the present method of procedure

(5) Facilities for research and greater diversity of work would be furnished to the staffs of the several State hospitals

We would recommend that post-mortem examinations be allowed in all instances

Research should be carried to the ordinary physician, and we recommend that from time to time physicians be invited to attend

lectures and clinics, and that meetings of county medical societies be held in the State institutions

In the State with which the name of Dorothea Dix is so intimately associated there exists an additional incentive for the carrying out of an aggressive, intelligently planned and executed campaign to control the startling incidence of nervous and mental disorders, including feeble-mindedness A policy of procrastination, or of merely temporizing in supplying the funds necessary to build a psychiatric clinic and thoroughly equipping the two State hospitals for carrying out the modern treatment of the insane, and for facilitating the scientific study of cases, will, if continued for many years, necessitate an enormous increase of the sums spent to maintain hospitals defective in construction as well as organization, and entail in addition a still larger economic loss to the community

REORGANIZATION

Your Commission believes that the present system of the public care of the insane can and should be reorganized, so that a higher efficiency with a greater economy in their care and treatment may be secured We find that in many of the states which we have visited there is a commission of lunacy or a board of guardians who have very broad supervisory and advisory powers In every instance it seems to be productive of good results for the patients under the care of the State

We find, especially in some of the county institutions, that, unfortunately, partisan politics plays a part in their administration, and that in too many cases officers and employees are selected by reason of political influence rather than for their usefulness to the patients in their charge, and that this works against the care and cure of the mentally sick We believe that it is necessary to do away with all partisan politics of every kind connected either with State or county institutions having the care of the mentally defective wards of the State Under competent State control this could be accomplished

We find that in some of the institutions, both county and State, there is a dual system of control, a physician and a warden We believe that this is not for the best interest of the patients or the institutions, and we recommend that the wardens be made subordinate to the medical superintendents

The attendants who serve in the various institutions are not, as a class, capable of rendering the most efficient service, and

we recommend therefore that effort should be made by increased wage, by better accommodations at the institutions, by shortened hours and by more diversified amusement and interest, to attract to the service of the State a higher grade of men and women than we find at present in its service

We recommend that in all the institutions there should be separate quarters for the nursing staff A general complaint that we find is that nurses do not remain long owing to the fact that in some, not in all of the institutions, the nurses when off duty are nevertheless in the same atmosphere and environment as when on duty, and as a result lose interest and are induced to seek other employment at a time when their services are becoming most serviceable to the State

We recommend either that enlarged power be given to the Commissioner of Charities so that he may have a broader supervision and the help of a trained psychiatrist, or else that a commission be appointed that shall have both advisory and supervisory functions

We believe that in such a system of State supervision as we have suggested there would be greater degree of co-ordination of experience of superintendents and a better understanding between the various institutions Each institution is now acting too much as an independent unit, and there is a lack of co-operation, of sympathy, and understanding, which is adding to the expense of the State and in no way helping in the treatment of the patients In our judgment it is a function of the State Commissioner or commission, to which we have referred, to co-ordinate the work of all the institutions of the State and to bring them into close co-operation with one another

TRANSFER OF PATIENTS

The present system, or lack of system, of transfer is so complicated and burdened with red tape that it works seriously against the interests of the State's wards More should be left to the judgment of the Commissioner or the Commission in control, and the law should be simplified accordingly

DEPORTATION OF ALIENS

Our attention has been called to the large number of aliens, especially insane aliens, in our public institutions Immediate action should be taken in this matter as suggested in the annual report of the Commissioner of Charities and Corrections for 1913, from which we quote as follows

"I again call your attention to the very great desirability of providing for the employment of at least two deporting agents, who under the direction of this Department shall give their whole time to investigation of alien and nonresident persons in the care of the State, with a view to their deportation or removal The fact that one-third of our insane population under public care is of foreign birth, and that there are some hundreds in our insane hospitals whose residence within the State has not been established, would certainly justify an attempt on the part of the State to rid itself of the constant and growing expense for the care of those who have no claim legally or morally upon its benevolence"

Mr Moore offered the following resolution, which was read and referred to the Committee on Judiciary

WHEREAS, A deplorable condition exists in the Republic of Mexico, a sister nation, involving the lives and property of American citizens, who have made that country their homes, and

WHEREAS, A state, not of war, but of armed brutality and barbarism shocks the civilized world, and

WHEREAS, Pillage and murder, assassination and outraged womanhood are common practices at our very doorsteps, and

WHEREAS, The policy of watchful waiting is encouraging such barbaric practices, repugnant to peace and civilization, and

WHEREAS, The permission on the part of our government for the exportation of arms and ammunition is an encouragement to the continuance of anarchy and murder in the Republic of Mexico, and will afford instruments of destruction which may be used against us in case of hostilities, and

WHEREAS, Our standing before the world is one of humiliation and shame, and

WHEREAS, A government that cannot protect its citizens abroad ceases to be a government except in name,

Resolved, That we protest against the continuance of this policy as an evidence of the Nation's weakness and a sacrifice of the Monroe Doctrine, and

Resolved, That we believe this nation should assume, under the Monroe Doctrine, the leadership in settling the Mexican troubles, not by war, but by asking the co-operation of other nations to restore order and peace and law in our neighboring republic

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
TRENTON, March 9th, 1914

To the House of Assembly

I return herewith Assembly Bill No 275 without my approval, because I think the present law and court decisions amply cover the subject

Section 41 of the Tax Act of 1903 makes it the duty of the collector of each taxing district on or before the twenty-second day of each year, out of the first taxes collected, to pay the county collector the State and county taxes assessed in his district If he fails to do so, a peremptory mandamus will issue to compel him (Shields, County Collector, *v* Grear, Collector, 55 N J L, 503, Shields *v* Paterson, 55 N J L, 495) It has been held by our courts that the tax collector is chargeable with interest on the county taxes from the time when he had sufficient moneys in his hands (Sheridan, Collector, *v* Van Winkle, Treasurer, 43 N J L, 125, Sheridan, Collector, *v* Stevenson, Collector, 44 N J L, 371) And this liability for interest seems to be a personal one and not a liability of the taxing district

If the bill in question becomes a law, the tax collector would be able to shift his personal liability for interest to his taxing district and I think such a law would tend to make the county collector lax or careless in his collections of State and county taxes, resulting in unnecessary issues of county arrearage bonds

Respectfully,

[L S] (Signed) JAMES F FIELDER,
Governor

A further message was received from the Governor by the hands of his Secretary, and was read as follows

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
TRENTON, March 9th, 1914

To the House of Assembly

STATE OF NEW JERSEY
EXECUTIVE DEPARTMENT,
March 9th, 1914

To the Legislature

A resolution was adopted by the Senate at the special session held August 5th, 1913 (see page 1840, Senate Journal, 1913), requesting me to appoint a Commission to consist of the city counsel, or chief law officer of each municipality then operating under the "Walsh Commission Government Act," to consider said act and to report what changes or amendments, if any, they might deem wise in order that said act might be made more workable and applicable to the various classes of cities then operating under it, or which might thereafter adopt its provisions

Pursuant to such resolution, I appointed as commissioners the law officers described therein, and I now transmit to you the report made to me by the Commission You will note that the report refers to certain bills drafted by the commission to carry out its recommendations These bills are in my possession to be handed to any member of the Legislature desiring to introduce them The report reached my hands on the 3d inst, before the time limited by the Legislature for the introduction of bills had expired, but I had not the opportunity to examine it until after your bodies had adjourned for the week, and I would, therefore, request that if unanimous consent be asked for the introduction of any of the bills referred to, such consent be given

In sending this report to you, I hesitate to express any personal views on the recommendations therein contained, because such recommendations are for your consideration and action, and also because the commission has given more thought and study to the subject matter than I, but I feel I should at least say that the recommendations that do not appeal favorably to me are, that the judge of the Court of Common Pleas should be required to determine whether a sufficient number of authentic signatures appear on a petition for the adoption of the act, that the number of signers now required to put in motion the recall, referendum and initiative should be reduced, that the fixing of appropriations should be unrestricted by the referendum or initiative, and finally

(if the operation of the Civil Service law is to be affected), that the term of all officers appointed by the commissioners should be co-extensive with the term of the commissioners

Very respectfully,

JAMES F FIELDER,
Governor

Attest

L EDWARD HERRMANN,
Secretary to the Governor

To His Excellency, James F Fielder, Governor of the State of New Jersey

By direction of the members of the commission appointed by your Excellency "to submit changes and amendments to the Walsh Commission Government Act," I respectfully report that we have met and carefully considered the operations of the act in the various municipalities which have adopted its provisions, as well as several changes and amendments which experience has suggested as desirable to more effectually safeguard the public interests, and to facilitate the attainment of those objects which the act was designed to secure

Speaking in general terms, it may be confidently stated that the act is giving general satisfaction in the several municipalities which are now operating under its provisions, and we are therefore reluctant to recommend any changes except where such changes appear to us as necessary in the interest of an economical and efficient administration of public affairs

Upon a broad survey of the situation it appears to us that the few mistakes which have been made in putting the provisions of the act into actual operation, may be attributed to a misconception of the scope of the act, *i e*, to the erroneous assumption that the act conferred the power of home rule, and that a municipality, upon accepting its provisons, was thereby empowered to do any and all things except such as were expressly prohibited by the terms of the act itself Such, of course, was not the purpose nor the effect of the act It is in no sense a charter, nor does the municipality adopting its provisions thereby derive any power not possessed by it at the time the act became operative The effect of the act upon the municipality adopting its provisions, is simply to concentrate the powers and responsibilities of the municipal government in one elective board, while the general machinery of the city is left undisturbed

I PETITION FOR ADOPTION OF ACT

(Amendment to Section 18) We respectfully recommend that section 18 of the act be amended so as to more clearly specify what shall be necessary in order to effectuate its adoption We think that the act can be strengthened by providing specifically how the signatures to the petition for adoption shall be obtained We also are of the opinion that upon the circulation of a petition in any municipality, for the adoption of the provisions of the act by such municipality, the judge of the Court of Common Pleas of the county in which such municipality is situate, should be required to approve the petition, both as to form and sufficiency, before the city clerk of the municipality be required to call an election

We have the honor to submit herewith a draft of a bill designed to accomplish this end, and unreservedly recommend its enactment

II RECALL, REFERENDUM AND INITIATIVE

(Amendments to sections 15, 16 and 17) We respectfully submit that, in our judgment, under the existing provisions of the Walsh Act, the machinery governing the recall, the referendum and the initiative may be too easily put in motion Under the present law a commissioner duly elected may be recalled for a trivial reason, and indeed for no reason at all, and may thus be made the innocent victim of the malice, pique or resentment of any unscrupulous, designing or disappointed person or persons, regardless of any considerations affecting the public welfare

Thus, in the city of Long Branch, a petition for the construction of certain public improvements was circulated, and after the requisite number of signatures had been appended the body of the petition was removed and the petition for a recall substituted in its stead In order to prevent the perpetration of fraud, such as that just cited, the act should be amended so as to require the verification, by affidavit, that the petition for a recall was actually signed by the persons whose names are appended thereto, or that it was signed by another at their direction, and that the signer was informed of the true nature and object of the petition

We further recommend the enactment of a provision to the effect that in all petitions for the recall of a commissioner, the grounds upon which the recall is invoked should be fully, clearly and definitely stated, and that such grounds should be printed

in full upon the notice of election, as well as upon the sample ballots distributed by the city clerk

We further recommend the enactment of a provision to the effect that any person who fraudulently obtains any signature, or who fraudulently induces any person to sign a petition for the recall of a commissioner, or who obtains a signature thereto by the payment of money or other thing of value, or by means of any threat or the offer or promise of any reward, shall be guilty of a misdemeanor

We further respectfully submit that in the judgment of this commission the number of signers required to make the petition for recall operative should be restored to twenty-five per centum of the qualified voters, as was provided in the original act, but subsequently reduced, by amendment, to fifteen per centum Indeed it is the judgment of some of the commissioners that the requisite percentage should be even further increased, but we deem such a recommendation inadvisable at this time We are of the opinion that no commissioner should be put to the trouble, nor should the municipality be put to the expense of an election, unless there be reason to believe that the petition for the recall will be favored by a substantial proportion of the voters

It is well to remember that there are a considerable number of persons in every community who are likely to be dissatisfied with the result of an election, and who would, without scruple, invoke the recall against any commissioner not of their own choice, regardless of expense, and to the detriment of the best interests of the community As an illustration of this point we may state the experience of a small municipality in this State, which adopted the provisions of the Walsh Act, and in which the commissioners chosen numbered some of the best citizens of the community, one of them being the leading banker of the town, notwithstanding which, the unsuccessful party at the polls, even before the commission had organized, threatened the recall of all of the commissioners, and subsequently made good their threat It is obvious that at the time the threat was uttered no reason for the recall of the commissioners existed, yet the recall was invoked at the earliest moment possible, and the community was threatened with the inconvenience and expense of a special election, due to the pernicious activities of a small group of dissatisfied citizens

We recommend that all signatures to a recall should be obtained within a period of two months next preceding the date of the filing of the petition in the office of the city clerk

We further recommend that in all petitions for a referendum vote or for an initiative vote, the same requisites as those provided in the case of a petition for recall shall apply

We have the honor to submit herewith a draft of a bill covering these several recommendations

III APPROPRIATIONS OF MONEYS

We recommend that the board of commissioners in each of the municipalities operating, or which shall operate under the provisions of the Walsh Act, be given ample power to fix and determine all appropriations of moneys, unrestricted by the referendum or the initiative clauses of this or any other legislative enactment A large portion of the money raised by taxation is required to meet certain fixed charges, such as the principal and interest of outstanding bonds, or for payment of improvements or services required by mandatory legislation, or for the support of free public schools We deem it unwise to clothe the electorate with the power to hamper or nullify the acts of the commissioners in making such appropriations To leave the determination of appropriations to the result of a referendum vote, or an initiative vote, would open up a fruitful field for litigation, and might result in endless confusion

We have prepared a supplement to the act, embodying the foregoing suggestion, which we have the honor to submit herewith

IV APPOINTMENT OF COMMISSIONERS TERMS OF OFFICE

We recommend that all officers shall be appointed by the board of commissioners, except such as are protected in the tenure of their offices, to hold office, unless sooner removed for cause, during the terms of the commissioners making the appointments and until their respective successors shall have been appointed and qualified It is our judgment that each board of commissioners, upon its organization, should have the power to select and name the chief officers of the city, for upon the character and efficiency of the officers thus chosen the success or failure of the administration must largely depend Hence we believe that the commissioners should be free to choose officers who, in their opinion, are in sympathy with the objects which they desire to accomplish, and in whose integrity and ability they repose confidence Our reason for recommending that the principal officers appointed by the commissioners, such as the city comptroller, the city clerk, the city treasurer, the city engineer,

the city counsel, etc, shall hold office during the terms of the commissioners making the appointments, is to remove the confusion which now exists as the result of a decision of the Supreme Court of this State, in Salter *vs* Burk (83 N J L 152) In the light of that decision it is clear that all such officers now hold for definite and fixed terms, but in the legal department of every city governed by this act there is now grave doubt as to when the terms of the several officers commence

We deem it desirable, and therefore recommend that specific power be conferred upon the commissioners to appoint any one or more of the commissioners to any office in the department of which he is the director, upon condition, however, that a commissioner so appointed shall receive no compensation for his services in addition to his salary as a commissioner Such appointments have in fact been made in several cities of this State, but doubts have been expressed as to their legality These appointments, being clearly in the interest of economy, it seems to us desirable that all doubts upon this subject should be removed removed

We further recommend that the Board of Commissioners be specifically clothed with power to appoint a board of commissioners of assessment of taxes, to consist of such number as, in the judgment of the commissioners making such appointments, the needs of the city require, and who shall hold office during the terms of the commissioners making such appointment It may be contended that the board of commissioners already possess this power under the provisions of paragraph 4 of section 4 of the Walsh Act, by which it is authorized (among other things) to "create such subordinate boards and appoint such officers as it may deem necessary for the proper and efficient conduct of the affairs of the city"

The power to create municipal boards is a legislative function which cannot, in our judgment, be delegated under the constitution, hence we assume that the only power conferred by the act in this respect is the power to erect boards already created by legislative enactment (Riley *vs* Trenton, 22 Vr 489)

The power to create boards and to appoint officers at pleasure would enable the commissioners to change the whole structure of the government Such a delegation of power was held by Chief Justice Gummere, in Duxheimer *vs* Orange (31 Vr 111), to be unconstitutional

If the authority now conferred by the act is limited to the power to erect boards created by legislative enactment, it seems

clear that upon electing such boards the requirements of the statutes creating them must be fully observed, in order that the acts of the body, when erected, may be valid and legal To illustrate, the city of Trenton erected a board of commissioners of assessment of taxes under an act passed in 1889, which provided for the appointment by the mayor of the city of a board to consist of five commissioners At the time the board was appointed, the commissioners concluded that four assessors, with clerical assistance, would be able to perform all the work required by them, and consequently four assessors were appointed Subsequently one assessor died, and the remaining three then performed all the duties of the board It was found that the work was done more efficiently and expeditiously than was the case when the board consisted of five and four members, respectively For this reason the vacancy caused by the death of the fourth member was not filled This board, in addition to making assessments for taxes, makes all assessments for municipal improvements The legality of their acts is now challenged by a person assessed for an improvement, on the ground that he is entitled to the judgment of five commissioners of assessment, and the validity of their assessments is now brought into question In order to remove any doubt in this regard we recommend that the board of commissioners be authorized to determine and appoint such number of assessors as in their judgment are necessary to properly perform the work

We have the honor to submit herewith a bill in which we have endeavored to embody and combine these several recommendations

The changes, respecting the adoption of the act, the recall, the referendum and initiative features of the act, above suggested, are not designed to hamper the electorate in any municipality desiring to take advantage of those provisions of the act, but rather to insure an honest expression of the public will

In the bills presented herewith it will be noted that there are some provisions of a minor character not specifically referred to in this report Such provisions, however, in no wise alter or affect the structure of the act, although they appear to us as desirable to strengthen the act and to facilitate is operation

Respectfully submitted,

CHAS E BIRD,
Chairman

Dated, Trenton, N J , February 28, 1914

A message was received from the Governor by the hands of his Secretary, and was read as follows

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
TRENTON, March 9th, 1914

To the House of Assembly

I cannot agree with the Legislature as to the propriety of passing Assembly Bill No 198, and I, therefore, take the liberty of returning it to you without my approval

Chapter 194 of the Laws of 1908, regulating the practice of chiropody, provides that the applicant for license shall have a common school education and shall pass an examination conducted in the English language by the State Board of Medical Examiners, on anatomy and physiology of the feet, therapeutics, chemistry, minor surgery and bandaging pertaining to ailments of the feet The purpose of Assembly Bill No 198 is to raise the preliminary educational requirement to a public high school edu-

cation, which is the same educational standard required of an applicant for license to practice medicine and surgery, and it is, in my judgment, unnecessarily high for the practice of chiropody Under the act of 1908, all persons who are engaged in the business or profession of chiropody at the time that act went into effect, were entitled to licenses as chiropodists without any educational requirements and without any examination whatever Others have obtained licenses during the past six years under the common school educational provision I am informed that there are persons with a common school education only, desiring to practice chiropody, who, relying on the present law, are now taking courses in schools of chiropody, whose time spent upon their studies would be wasted, should this bill become effective

Because of the use of a semicolon instead of a comma, before the words "or a diploma conferring the full right to practice chiropody in some foreign country", I believe that the holder of a foreign diploma would be entitled to a license to practice in this State, without any preliminary educational requirement, which, I understand, is not the intention of this bill

Respectfully,

JAMES F FIELDER,
Governor

Attest

L EDWARD HERRMANN,
Secretary to the Governor

Mr Branegan moved that the Governor's message be received, and that the same lie over

Favorably

Mr Godfrey offered the following resolution, which was read and received

WHEREAS, A plan to establish a force of State police at an annual cost to the State of New Jersey of about two hundred thousand dollars is being publicly advocated, during the present session of the Legislature, and

WHEREAS, The residents of our State, and especially its laboring classes and our hundreds of thousands of visitors, are an orderly, peaceable, home-loving people, and,

WHEREAS, Disorder in our State is rare and crime almost unknown, we do not need to expend this large amount of money or any part of the same in the domination of the State by such a police system, and,

WHEREAS, The local police authorities in our various cities, towns and other municipalities are equal in efficiency to that of any other locality in the world and are perfectly able to maintain order in each community of our State, and,

WHEREAS, This happy condition is aided and encouraged by conscientious State and local officials and legislators and an able judiciary, thereby causing New Jersey to become renowned as a locality for homes and for locations for manufacturing and other establishments that follow a contented and prosperous people, therefore

Be it Resolved, That if our State can afford to expend two hundred thousand dollars for any new purpose at this time that this fund would be of much greater benefit to our people if expended for the protection and development of the natural re-

sources of our Stat, thus reducing the cost of living or in improving the living and working conditions of the people of our State, or in the improvement of our highways

A message was received from the Governor by the hands of his Secretary, and was read as follows

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT
TRENTON, March 16th, 1914

To the House of Assembly

I return herewith Assembly Bill No 349 without my approval, because I do not consent to the salary increases provided thereby

The expense of government has greatly increased in recent years, and rentpayers and taxpayers are justly complaining against additional burdens forced upon them by legislative acts We are at this time concerned in devising means for raising State revenue and it may be found necessary to impose a State tax for this purpose, thus further adding to the tax rates Besides attempting to raise money, we should direct some attention to economy in administration There are numerous salary increase and pension bills now pending, the enactment of which will nullify any economy found possible and believing that, we should make a determined stand against all such bills, except those, if any, bearing some extraordinary claim or merit I now register my opposition to this kind of legislation and I hope it is the intention of the members of the Legislature to maintain a similar attitude

Three or four years ago, the voters of Essex county adopted a small board of freeholder act, which fixed the salary of the

director and members at $1,500 per annum Two years ago, the Legislature, by passing Chapter 355 of the Laws of 1912, registered its opinion that the salary of these officials in first class counties should remain at that sum and this act was subsequently accepted by the voters of Hudson county A year ago and last year, many persons were candidates for freeholder and supervisor in Essex and Hudson counties, and we must assume that all, including the successful ones, were quite willing to serve at the salaries so recently established I do not, therefore, feel justified in now consenting to the additional expense this bill would entail, by increasing these salaries from a total of $16,000 to a total of $27,000 for each county affected

Respectfully,

[L S] (Signed) JAMES F FIELDER,
Governor

Attest
L EDWARD HERRMANN,
Secretary to the Governor

To the Assembly March 23d, 1914

I beg to direct your attention to Assembly Committee substitute for Senate Bill No 176

Under the present law, bank stock practically enjoys exemption from taxation What payment is made is voluntary and unenforceable and a few banks choose to pay, while others do not The latest data I have available on this subject is the 1912 assessment, from which I give you the following illustrations

1 In Atlantic county no tax whatever was paid by any bank or trust company, although the market value of the shares of eight institutions in Atlantic City runs from $130 to $1,200, and they pay dividends from 6 to 40 per cent

2 In the city of Camden six banks pay no tax and three are assessed only nominal amounts

3 In Essex county, of thirty-nine banks and trust companies, twenty-two pay nothing and seventeen pay small sums

These examples of how the law works are typical of all counties, except possibly Hudson, where the banks have agreed with the assessors upon an assessment which otherwise could not be collected This legal favoritism should not be permitted to continue and the bill in question will end it

It provides a one per cent rate of taxation on capital, surplus and undivided profits, while the average tax rate of the State is above two per cent, the lower rate for banks being suggested out of consideration for the exempt securities held by them and the fact that their real estate, which is included in their assets, is taxed locally It is the same rate fixed by the New York laws, in which State it works satisfactorily to all concerned Attempts have been made in previous years to settle this matter, but without result The bankers have summoned potent influences to their support and have successfully resisted the passage of all bills for this purpose, refusing to suggest any plan of their own, so that now it is peculiarly the duty of the Legislature to devise its own remedy The people of the State who labor under the heavy tax burden which the law compels them to bear, believe that the bankers constitute a privileged class and they are demanding that their burden be lightened by those who can well help lift it I know what the opposition forces are and I earnestly urge you to disregard them and pass the bill

Another subject to which I desire to refer is the resolution, which I understand is still before you, to amend the Constitution

so as to provide for Assembly districts If the resolution does not pass this year, it may not be taken up again for five years because the passage of resolutions for other constitutional amendments will militate against it The platforms of the Republican and Progressive parties adopted last year declare for this amendment and while the Democratic platform does not refer to it, it has been received favorably by that party and was specifically approved in its platform of two years ago All parties should, therefore, join in the passage of this resolution so that our citizens may be given the opportunity to say whether or not they desire to elect Assemblymen by districts, rather than from the county at large I personally favor the resolution and would urge its passage by you

Secretary to the Governor

March 3d, 1914

To the Legislature of the State of New Jersey

The Commissioners of the Palisades Interstate Park have the honor to present to the Legislature this their fourteenth annual report

The Commissioners are

Edwin A Stevens, Hoboken, N J
Edward L Partridge, New York, N Y
J DuPratt White, Nyack, N Y
Frederick C Sutro, Basking Ridge, N J
Richard V Lindabury, Newark, N J
Charles Whiting Baker, Montclair, N J
Franklin W Hopkins, Alpine, N J
William H Porter, New York, N Y
George W Perkins, New York, N Y
Nathan F Barrett, New Rochelle, N Y

The officers are

Edwin A Stevens, President
Edward L Partridge, Vice-President
J DuPratt White, Secretary
Frederick C Sutro, Treasurer
Leonard Hull Smith, Assistant Secretary

The dock at Forest View Grove has been finished and the grounds enlarged by filling in behind the shore crib built as a protection from the river The material for this fill was obtained on the grounds by digging away and straightening the bank, thus providing about two acres of playground A pavilion on the dock has been constructed to afford protection to the excursionists using this grove A new dock has been built at Huyler's Landing The work of building the bulkhead for the protection of the grounds lying south of the old Alpine Landing Dock has been completed The old pavilion at River View Grove becoming unsafe, was demolished and a new shelter constructed for the use of visitors at this grove Combination tables and benches to seat eight or ten people each were built and distributed among the different groves along the shore A water supply system for these groves has been installed

During the past summer there have been fifty regular excursions to the different groves of this park, which may be classified as follows Religious organizations, 26, social, 22, benevolent, 13, political, 1 It is estimated that about 75,000 people were carried on these excursions

The camping privileges offered to the public at this park continue to be one of the most popular features Each year the number of campers increases The period of continuous camping is limited to four weeks

As a public park, wholly unique in its character and situated within a few miles of the largest cities of both New York and New Jersey, this eleven miles of Palisades shore should be one

of the most accessible places in either State Instead, as pointed out in the last year's report, it is one of the most inaccessible It is not touched or even approached at any point by either railway or car lines and is connected with New York by only two ferries one from Alpine to Yonkers and the other from Englewood to Dyckman street, New York

The Commissioners expect to arrange in the near future for a daily boat service at reasonable charges from the upper part of New York City to the various landings along the park shore Such a line will make this beautiful park accessible to the public of the great metropolitan district With the completion of the roads and paths now under construction, it will also be much more accessible to the people of New Jersey Notwithstanding the difficulty of access already mentioned, it is estimated that over a million people visited the Palisades Park during the past season for the purposes of pleasure and recreation, and along with this increasing use of the Park has come a wider and more generally expressed appreciation of it and of the work which this Commission has under way

The Commissioners have purchased all the property belonging to the E I Dupont de Nemours Powder Company, at Fort Lee, New Jersey, at a cost of $134,682 60 This property extends 3,495 feet along the river with riparian rights and includes a tract of about eight acres on top of the Palisades The Commissioners had previously acquired the land west of this property for their roadway, and by reason of this recent acquisition the Commission is now vested with the title of all lands belonging to this company in Fort Lee, with the riparian rights extending from Goetchius' property on the south to the property acquired by the Commissioners from Carpenter Bros ' Quarry Company on the north

The work of this Commission has increased so greatly during the past year that it has become necessary to enlarge its clerical force and to establish an engineering department The Commissioners propose that all engineering and maintenance work shall be done by their own organization, under advice of consulting engineers when occasion may require The Commissioners have engaged Ernest D Bean as Chief Engineer, at a salary of $5,000 per annum, and W A Welch as principal assistant at a salary of $3,000

The Commissioners actually expended the sum of $10,982 01 in the year 1913 for patrolling and maintaining the Palisades Park in the State of New Jersey, no part of which was paid by that State The appropriation of $2,500, for general expenses

of the Commission for the fiscal year ending October 31st, 1914, has not yet been received by the Commission Upon the basis of the cost of maintaining the Park in 1913 the Commission will require the further sum of $7,500 for the year 1914, and accordingly they have submitted their requisition for that amount and have asked for an appropriation of $10,000 for the fiscal year ending October 31st, 1913

HENRY HUDSON DRIVE

Englewood Approach

The construction of the Englewood Approach section of this drive, under contract with the Miles-Tighe Company (Thirteenth Annual Report), is nearing completion

The following report shows the condition of the construction work at the end of the year 1913

Dry rubble masonry is approximately 85% complete
Cement rubble masonry is approximately 50% complete
Arch and bridge work is approximately 50% complete
Parapet wall is approximately 70% complete
Parapet facing is approximately 10% complete
Structural concrete is approximately 75% complete
Cast-iron sewer is approximately 66% complete
Cast-iron drain is approximately 66% complete
Tile sewer is approximately 17% complete
Rock excavation is approximately 66% complete
Earth excavation is approximately 80% complete
Reinforcement is approximately 90% complete
Steel "I" beams are approximately 30% complete
Installation of ducts is approximately 40% complete
Construction of pull-boxes is approximately 33% complete
Construction of manholes is approximately 16% complete
Construction of catch basins is approximately 12% complete

In addition to the above brief estimate of the condition of the construction work the contractors have on the ground all of the duct material, the lighting fixtures, the electric cables, sewer pipes and considerable other material

On this section there are two loops, designated as the upper and lower, and three bridges The distance from the top of the approach to the dock is 4,250 feet

The grading of the roadway to approximately the elevation of the subgrade has been performed from the dock to a point above the lower bridge, *i e*, 1,100 feet from the dock

The retaining walls on the easterly side of the roadway are complete except for about 100 feet near the upper loop, and for

about 500 feet between the upper and lower loops and for about 500 feet between the lower loop and the dock

The upper and lower bridges have been completed and the work on the second or middle bridge is well under way

Annexed to this report will be found a statement showing the disbursements made by the Commissioners out of the appropriation received by them for the Henry Hudson Drive The engineering cost on this section of the drive has necessarily been expensive by reason of the character and location of the work The Commissioners believe the balance of the fund on hand will complete the Englewood Approach section of this drive

Sections II and III

The plans for these sections of the Henry Hudson Drive from the Englewood Approach to Alpine, as originally prepared, have been revised by eliminating and altering the walls and other items where practical, in order to reduce the cost of the work There have also been some slight changes in the alignment, bringing the road nearer the river at various points The Commissioners are now ready to proceed with the repair of Undercliff avenue, from the Englewood Approach northward with a view to its becoming a part of Section II of this drive The items of engineering expenses and disbursements for these sections, which are shown on the statement accompanying this report, include complete field surveys and preparation of plans and specifications for these sections of the drive having a total length of approximately six miles

The Commissioners require the balance of the original appropriations of five hundred thousand dollars in order to proceed with the work on these and other sections of the drive, and have submitted their requisition for same

The Interstate Highway

That the Henry Hudson Drive, along the base of the Palisades, may be continued northward in the State of New York by a road along or near the river front, the Commissioners have taken cognizance of Chapter 30, Section 120, of the New York Laws of 1909, called the Highway Law, in which provision is made, under title of Route 3, for a State Highway that shall commence on the dividing line between Rockland county, New York, and the State of New Jersey and continue through the eastern portion of the counties on the west bank of the Hudson river to the city of Albany Beginning at the State line with the Boulevard on top of the Palisades Route 3, as designated by the New York State Highway Commission, will run through Sparkill, Nyack,

Congers, Haverstraw, Stony Point, Highland Falls around the river side of Crow's Nest and Storm King Mountains and through Cornwall to Newburgh Most of this route is constructde From the New Jersey State line to Congers and from Bear Mountain to Cornwall, however, the route is still uncompleted That portion of the latter which extends from Highland Falls to Cornwall has not yet been designated and cannot be until a route through the West Point Reservation is secured This will require the consent of the Federal authorities The Commissioners are now co-operating with the New York State Highway Commission in an effort to secure such consent The portion of Route 3 through Rockland county has been officially located by the New York State Highway Commission The southerly four miles of this portion extending from the New Jersey State line northerly to Grand View will be placed under construction during the year 1914

The connection between the Henry Hudson Drive and the southerly end of Route 3 as about to be constructed is to be made by means of what is known as the Lawrence Approach, through a break in the Palisades Cliffs at their northern end

New Jersey Appropriation

By Chapter 124 of the Laws of 1910 the State of New Jersey appropriated the sum of five hundred thousand dollars ($500,000) toward the construction of a road under the Palisades in the State of New Jersey to be known as the Henry Hudson Drive, provided that one hundred thousand dollars ($100,000) should be included by the Legislature in the appropriation bills in each year thereafter In compliance with this law two installments of $100,000 each were appropriated in the years 1910 and 1912, and have been received by the Commission The appropriation, however was not made in 1911 nor in 1913

There has been some question as to the proper location of the Henry Hudson Drive, and especially as to the plans tentatively adopted by the Commission for the northern end thereof This plan covered the so-called Lawrence Approach, which, as explained above, is intended to form the connection between the Henry Hudson Drive in New Jersey and State Highway Route 3, in the State of New York

It has been contended that this connection should be made either through Sneden's Landing and the Village of Palisades, or else by means of a road almost four miles in length around the river side of Tallman's Mountain to Sparkill Such a road would parallel the State route less than a mile away for this

distance of four miles and would be an obvious extravagance Were the route through Sneden's Landing and the Village of Palisades to be adopted the connection between the two great highways would have to be made over a narrow, winding road through the Village of Palisades with grades as steep as 15%. This road the Commissioners have no power to control and improve Either of these routes would require the acquisition of valuable rights of way The Lawrence Approach, however, can be constructed over land and rights of way owned by the Commission A road over this approach could be built at an estimated cost not exceeding $110,000 For reasons both of economy and expediency, the Commission therefore feels that the original plan of connecting the New Jersey and New York sections of the great interstate highway by means of the Lawrence Approach should be adhered to

All of which is respectfully submitted

Mr Burton presented the following report, which was received and ordered to be spread in full on the minutes

To the Members of the Legislature

Pursuant to the provisions of Joint Resolution No 2, approved February 5th, 1913, the Commission appointed under its provisions submits herewith its report, together with a draft of a measure recommended by the Commission, and having the endorsement of the Commissions appointed under similar resolution in the States named in such resolution

ORGANIZATION OF NEW JERSEY COMMISSION

On June 24th, 1913, the Commission met and elected Job H Lippincott, Chairman, George L Burton, Secretary, and E A Stevens, Treasurer The following resolution was passed

"*Resolved,* That all claims for necessary expenses and clerical help to the Commission appointed under the authority of Joint Resolution No 2, P L 1913, be approved by any two officers of the Commission"

COMPILATION OF LAWS

The Secretary of the Commission was instructed to communicate with the Secretaries of State of the various States mentioned in the resolution, and obtain copies of their motor vehicle acts, and also to proceed to provide a codification of such laws under the various subjects covered by motor vehicle acts

The Commission adopted, on November 11th, and ordered published a pamphlet known by the title of "Comparison of the Motor Vehicle Laws of the States of Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island and Vermont—Arranged by Subjects"

FINANCIAL

The Commission then approved the following claims

Horace E Barwis, (For professional services rendered in making a comparison of the Motor Vehicle Laws of the Eastern States mentioned in Joint Resolution No 2 of the Senate and General Assembly of the State of New Jersey)	$600 00
William R Reed,	3 15
E J McMurtry & Co,	223 96
George L Burton,	6 50
	$833 61

These claims totaled in all $833 61, and constituted all of the expenditures made by the Commission, leaving a balance which will revert to the State Treasury of $2,166 39, as the Appropriation Committee appropriated $3,000 for the use of the said Commission

SPECIFIC RECOMMENDATIONS

In preparation for the meeting of the Commissioners from other States, the following set of specific recommendations were offered as a result of the investigation of the Commissioners from New Jersey

"First That all touring privileges between States be made uniform, and that a system be devised whereby the Secretary of State of each State be automatically designated as the agent upon whom process can be served for action arising from use of motor vehicles within such State, of every motorist touring within such State and licensed by another State

"Second That speed regulations be made uniform

"Third That all drivers be licensed only after examination, and that no person drive who is not licensed as a driver, and that such examinations be of a uniform character

"Fourth That all State departments having charge of motor vehicle regulations and registrations be given summary powers to revoke all licenses issued under their authority and be required to co-operate with similar departments of other States

"Fifth Personal taxation of automobiles be abolished, and a proportionate increase in the registration fee be established, so that all revenue derived from motor vehicles by States could be applied to road construction

"Sixth Laws applying to the construction of motor vehicles be made uniform as to lights, brakes, signal devices, tires, equipment, and the illumination and placing of tags

"Seventh That registration of trucks and regulation of their weight be determined upon a basis of possible damage to roads, and that the fee charged be graded upon the question of carrying capacity, and that licenses to such commercial vehicles be of two characters and of varying prices, depending on whether such vehicles use only city streets or travel on county roads"

PUBLIC HEARINGS

In preparation for the General Conference, the Commissioners from New Jersey held two public hearing at which recommendations were presented by individuals and automobile associations, copies of which are annexed to this report

GENERAL CONFERENCE

The General Conference of the Commissions was called by action of the New York Commissioners under authority of a similar joint resolution, and was held at the Hotel Belmont on November 21st, 1913 Samuel L Taylor, of the New York Commission, was selected as chairman

After extended general discussion at this conference, the Commissioners from the different States adopted a resolution providing for the appointment of a committee consisting of one member from each State, for the purpose of drawing up recommendations to be adopted by the General Conference, and to be embodied in a model or uniform motor vehicle act, to be used as a text by the Commissioner from each State for the introduction of a bill in the Legislatures of the several States to bring about uniformity in motor vehicle laws

This committee consisted of the following

Maryland—H M Rowe,
New Jersey—George L Burton,
Delaware—Sylvester D Townsend, Jr ,
New York—S W Taylor,
Massachusetts—Col William D Schier,
Pennsylvania—Robert P Hooper,
Connecticut—Albert Phillips

COMMITTEE MEETINGS

The Committee so appointed held several meetings, at all of which New Jersey was represented On December 3d, a meeting was held at the Hotel Belmont, and the compilation of motor vehicle laws made by the New Jersey Commission was adopted as the text-book of such committee, and the subject matter arranged therein was taken up and recommendations made on all important questions

A further meeting of the committee was held at the Hotel Belmont on December 12th, at which meeting a resolution was adopted appointing Mr Sylvester D Townsend, Jr , of Delaware, a subcommittee of one to take the recommendations discussed and adopted and embody them into the form of a model act

FINAL CONFERENCE

On February 20th and 21st, meetings of the General Conference were held at the Hotel Vanderbilt, New York City, at which the draft of the proposed law drawn by Mr Townsend was taken up, part by part, and discussed, and certain changes and alterations adopted It was then decided by the General Conference that the Commissioners from each of the States should take the model draft of the proposed law, and have same redrawn by each one of the Commissioners and introduced in the Legislature of each one of the States included in the conference The Commissioners of each State were given power and authority to make such alterations in the drafts of the model act as the laws of their States would require

The General Conference decided also that no questions of revenue should be passed upon, and that all registration fees or other incidental charges made by the licensing departments should be left entirely to the discretion of the Commissioners from each of the States

The Commission appointed in New Jersey held its meeting to take up the final draft of this act to be introduced in the Legislature on Monday, March 23d, and a draft was prepared, a copy of which is hereunto annexed, and the unanimous consent of this Legislature is asked for in order that such act may be brought before your honorable body

It has been found by the Commission that there are very few changes necessary in the New Jersey motor vehicle act in order

to make it an entirely efficient piece of legislation, and that New Jersey is much further advanced on questions of motor vehicle legislation than were most of the States in the conference This made it necessary for the New Jersey Commissioners to submit an act to your honorable body which changes the present law only in a number of minor details, as the general scheme of the New Jersey motor vehicle act was largely adopted at the General Conference for use in other States

ACT RECOMMENDED

The New Jersey Commission recommended the passage of an act as a supplement to the present motor vehicle act which will bring about the following results

First That all motor vehicles owned and operated by any government department, whether city or State, shall be registered by the State Department free of charge

Second That the registration of any machine which shall have been destroyed or which shall have been transferred to a new owner may be transferred by payment of the regular transfer fee to a new car, and in the event of there being a difference in the horse power rating and a consequent difference in the registration fee, that this shall be paid in addition to the regular fee for transfer

Third Where any person licensed in another State is traveling in New Jersey and is convicted of violating the motor vehicle law, he shall thereafter be required to register and take out his license in New Jersey if he desires to operate subsequently in this State

Fourth That devices shall be used to prevent excessive noise, and the unnecessary sounding of bells, horns, or other devices be prohibited

Fifth That searchlights on motor vehicles be regulated so as not to dazzle or blind the eyes of users of the road, and that center searchlights be prohibited unless accompanied by two side lights of such power as to be readily visible five hundred feet to the front

Sixth That motor cycles shall display a light to the rear and that the white rays of such light shall illuminate the motor cycle number plate

Seventh That every motor vehicle shall be equipped with muffler or other suitable contrivance sufficient to suppress exces-

sive noise, and that the use of the muffler cut-out is prohibited, that motor cycles shall not be operated with the muffler open

Eighth That every keeper of a public garage shall cause to be kept a record book of incoming and outgoing automobiles

Ninth That no person upon any of the public highways of the State shall drive or operate a motor vehicles having metal spurs or lugs or other metal projections, except where road conditions make the use of such projections necessary

Tenth Provision is made that where signs of "Danger," "Run Slow" are placed upon the highway, that the speed shall not exceed the rate of one mile in four minutes for a distance beyond such sign of not more than one-fourth of a mile

Eleventh Provision is made that where a motor vehicle overtakes a street passenger car which has stopped for the purpose of taking on or discharging passengers, the motor vehicle shall not pass the car on the side on which the passengers get on or off until the car has started

Twelfth Provision that no person, without the authority of the owner of a motor vehicle, shall climb on or into any automobile or otherwise interfere with same

Thirteenth Provides that the justice of the peace or other magistrate shall send to the Commissioner of Motor Vehicles a report of all motor vehicle cases heard before such magistrate

The Commission have attached to this report a copy of the original draft of the act adopted by the Commission on Uniform Legislation at its last general conference

It will be noticed on following the provisions of this act that the New Jersey Commission has selected those features of the uniform draft that were not already covered by the New Jersey law, and that in a number of these cases it has been necessary for the New Jersey Commission to completely redraft the provisions in order to meet the legal system of New Jersey

IN CONCLUSION

The New Jersey Commission would recommend to the Legislature that the Commission be continued in office for at least one year, for the reason that the work of the Commission has been so retarded by the inability of the Commission to obtain speedy action from the General Conference, that it is impossible at this time to know whether the Legislatures of the several States included in the Commission will be able to take action upon the uniform recommendations, and for the further reason that in the

event of the failure of the Legislature of the several States to act upon a uniform law it will be necessary for the Commission to continue its operations next year

The Commission would advise the Legislature that it will not need any appropriation to carry out the work as planned, and that the balance in the treasury of the Commission at present will not be needed if the Commission is continued in office by act of the Legislature, and that it is recommended that such appropriation lapse into the general funds of the State

The copies of the bill which is annexed hereto should be allowed to be introduced in the Legislature although unanimous consent be necessary, as it is the report of a commission created under the authority of the resolution of the Senate and General Assembly

The work that the New Jersey Commission has been especially able to accomplish in making uniform automobile laws has been to impress the need on other States of adopting the recommendations mentioned in this report and made to the General Conference—namely, the giving of the authorities in the several States the power to revoke and suspend licenses and the requiring of the licensing of individuals after examination as drivers

These are the two great and important provisions of every motor vehicle act, and the Commission is very glad to report that the New Jersey system in this particular, which is to a certain extent the system in vogue in Massachusetts, has been adopted by the Commissions on Uniform Motor Vehicle Legislation, and will be recommended to the Legislatures of the several States

It is not, however, the opinion of the New Jersey Commissioners that the Legislatures of each one of the States will adopt so drastic a change in their automobile laws at this time, and it is our opinion, that in order to continue this work, the Commission should be vested with the authority to continue in office for another year

Respectfully submitted,
NEW JERSEY COMMISSION ON UNIFORM
MOTOR VEHICLE LEGISLATION
GEORGE L. BURTON,
Secretary

Mr Peacock offered the following resolution, which was read and adopted

Resolved, That the privileges of the floor be extended to Master Emory Kates, son of Assemblyman John Kates

Mr Branegan offered the following resolution, and moved its adoption

Be it Resolved by the House of Assembly, It is the sense of this House of Assembly that inasmuch as the legislative duties of the members thereof are of sufficient magnitude and importance to command their sole attention and engage their entire ability, it is not only an exaggeration of power and importance, but an exhibition of silly vanity and egotism for this Legislature to consider or adopt vague, indefinite and misleading memorials or resolutions reflecting upon the conduct and management of the affairs of the Federal Government or any act or policy of any branch of the Government of the United States of America, whether such memorial or resolution be prompted by an ignorant misconception of national affairs or whether the same is conceived in a stupid and mistaken effort to promote petty political advantage

It is more fitting and creditable for the members of this House to bear in mind the scope of the duties they are properly expected to perform and to confine the use of their talents toward the solution of the problems of their own State rather than criticise those of superior wisdom and authority whom the nation has wisely chosen to manage its affairs

Mr Beekman moved as an amendment to Mr Branegan's motion that the said resolution be adopted and spread in full on the minutes of the House

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
March 25th, 1914

To the Assembly

I beg leave to herewith transmit to you a supplementary report of the Commission upon the reorganization and consolidation of different departments of the State Government whose functions are interrelated (The Economy and Efficiency Commission) I understand that this supplementary report is to be taken in connection with the report submitted to you at this session from this Commission

[L S] Respectfully,

JAMES F FIELDER,

L EDWARD HERRMANN,

Secretary to the Governor

To the Governor and the Legislature of the State of New Jersey

Transmitting majority and minority supplementary reports of the Commission Upon the Reorganization and Consolidation of Different Departments of the State Government whose Functions are Interrelated (the Economy and Efficiency Commission), authorized by Joint Resolution No 6, approved April 1st, 1912, and pertaining exclusively to the functions, services and expenses of the State Department of Labor and the State Bureau of Statistics

Respectfully submitted,

THE ECONOMY AND EFFICIENCY COMMISSION,
(per) HOWARD B TINDELL,
Clerk

SUPPLEMENTARY REPORT OF THE ECONOMY AND EFFICIENCY COMMISSION TO THE GOVERNOR AND LEGISLATURE OF THE STATE OF NEW JERSEY ESPECIALLY IN RELATION TO THE DEPARTMENT OF LABOR AND BUREAU OF LABOR STATISTICS AND INDUSTRIES, MARCH, 1914

In the report of this Commission submitted to this Legislature accompanied by a message from His Excellency, Governor James F Fielder, dated February 16th, 1914, we made reference to certain investigations that were under way in regard to the organization and conduct of the State Department of Labor

We postponed making a report or recommendation concerning this Department until we could secure additional data, but agreed that a report would be submitted during the term of the present Legislature In accordance with this promise, this Commission has caused an examination to be made in the affairs of the Department of Labor in quite considerable detail We have come to a conclusion, as a result of this investigation, that the Labor Bureau is conducting an extremely important branch of State activity The scope of the work of this department is from year to year being enlarged and is becoming more and more a department involving considerable State expenditure

Under the present law regulating the organization and management of the department, it is under the supervision of only one person under the title of Commissioner of Labor By reason of the nature of the work of the department, the Commissioner

is charged with not alone establishing the general policies affecting the conduct of the department within the statutes, but also with the selection and direction of the employees

We believe, under the circumstances, that this department should be organized in accordance with the general plan of organization which this Commission has heretofore recommended for other departments of the State In other words, that the Commissioner in active charge of the work of the department be under the general direction of an advisory board We believe that if an advisory board for this department were established that greater efficiency and economy would result, and that the State would thereby have an added check and safeguard now denied by reason of what might appear a one-man management

We therefore respectfully recommend that an advisory board be added to the organization of the State Department of Labor to consist of six members to be appointed by the Governor by and with the advice and consent of the Senate, at least two of whom are to represent employed capital of the State and two the labor interests of the State, not more than three members to be representatives of any one political organization The term of office of the board to be for a period of three years, the term of the first board to be so arranged that two members' terms shall expire the first year, two the second year and two the third year The board to have the authority to establish the general policies of the Department of Labor and to pass upon and fix salaries of employees The Commissioner of Labor to be subjected to the directions and general policies established by the board and to be charged with the supervision of the employees and with the management of the detail affairs of the department The Commissioner of Labor to be subject to removal from office for inefficiency or proper cause upon the recommendation of a majority of the advisory board to the Governor, and upon a proper hearing by the Governor, who shall have authority, if he deems the cause sufficient, to remove the said Commissioner of Labor from office The members of the advisory board shall serve without compensation, but shall be reimbursed for their actual expenses, and shall hold meetings at least once each month in Trenton or at such place or places as the services of the State demand The salary of the Commissioner of Labor should be fixed at $4,000 per annum, as we believe the present salary paid is extravagant In order, however, that the salary of the said Commissioner of Labor can be adjusted in accordance with the constitutional limitations, this reduction should be made to take effect at the expiration of the term of the present incumbent

In 1878 the Legislature resolved that

> "WHEREAS, As guardians of the public welfare, the State authorities are called upon to consider and in all legitimate ways endeavor to improve the physical, mental and moral conditions of the citizens of the State, especially those whose daily toil contributes so largely to the prosperity of manufacturing and other productive industries, therefore,"

a Bureau of Statistics should be created, the chief of which should be appointed by the Governor, subject to the confirmation of the Senate The salary of the chief was fixed at $2,500 per annum At the present time the bureau consists of a chief, deputy chief, three clerks and a stenographer The reasons for the creation of the department were chiefly to improve the conditions of those employed in the various industries of the State

However, when the comprehensive law of 1904 was enacted in its forty-six sections, regulating the age, employment, safety, health and working hours of help in factories, it resulted in the establishment of the Department of Labor with a comprehensive organization As heretofore stated, the organization of the Department of Labor has grown since 1904, and by enlargement of its functions, through rulings and enactments, including the merger of the work of the Employers' Liability Commission, it is to-day the logical department to handle and supervise the work heretofore conducted by the Bureau of Statistics

While this Commission believes that the work of the Bureau of Statistics has been efficient and has contributed much valuable data in the interests of the people of the State, it is, nevertheless, true that the Department of Labor is likewise conducting a statistical department that in many ways creates a duplication of work In our opinion there should be but one State body charged with control over this particular subject of labor and industry The Department of Labor should be such, in fact, and upon it should be placed the duty and responsibility not alone of enforcing the laws for the regulation of labor, but also of collecting and tabulating all data in reference thereto, to our industries and industrial possibilities

The Bureau of Statistics and Department of Labor are so closely related that in our opinion they should not be separated, and especially is this so when we find that the department collecting the statistical information is not at the present time properly equipped to verify the reports which it receives The equip-

ment, staff and routine of the Labor Department would permit of such collection and verification were the work of the two departments combined

We are, therefore, recommending that the position of the Chief of the Bureau of Labor Statistics be terminated That the Department of Labor succeed to all of the powers and duties of the Bureau of Statistics of Labor and Industries This merger with the Department of Labor will no doubt render unnecessary some, if not a substantial part, of the help now employed by them, but we feel that those in charge of the administration of the Labor Department will do well to consider the advisability of retaining that portion of the staff of the Bureau of Labor Statistics which has been accountable for the excellent statistical reports which have emanated from that Department The combining of all of the statistical work in relation to our labor and industries with the Department of Labor ought to create not alone a more efficient handling of this particular branch of the work but result in actual economies amounting to a considerable annual saving The supervision of the work of the Labor Bureau by an advisory board such as we have herein recommended should result in added economies of a substantial nature

Respectfully submitted,

CAMDEN, N J, March 23d, 1914

The Economy and Efficiency Commission

DEAR SIRS—I received a copy of the majority report from Mr Ludlow on Saturday last, but have received no copy of Mr McDermott's report Our Commission was created for the purpose of considering the possibility of consolidating different departments of the State Goernment whose separate duties are intimately related

I am quite sure that the Commission, or at least a majority of them, feel that the work of the Labor Bureau, Bureau of Statistics and State Tenement House Commission are intimately related, and should be consolidated under one head besides which the work of the Tenement House Commission is localized in four or five cities, the rest of the State getting practically no help from this Commission The Tenement House Commission spent $58,000 last year and the Labor Bureau $77,000 We have not been able to go fully into the detail work of these three de-

partments, and consequently are not prepared at this time to present a report based upon a full and complete examination

These three departments deal with cognate subjects, and I can see no reason for presenting a report which does not deal with these departments and which is not based upon a full examination into and consideration of their work It was supposed that the Commissioners would be able to make a thorough examination into all three departments, but the shortness of time made it impossible, consequently the work is not fully completed

I concur in the view that the head of the Labor Bureau should have an advisory board of six members, but do not thing these members should be classified until the question of determining whether or not the Tenement House Commission should be absorbed in this department has been decided, because in that event it might be well to have two members selected from the labor unions, two members selected from among the manufacturers and two members selected from among the sanitary engineers of the State

This department when reorganized, should be second to none in point of importance, and if the chiefs of other bureaus receive $6,000 per year, so should the head of the Labor Bureau

I believe the question of consolidation should be held in abeyance until this Commission has made a full examination and a full report relating to these three departments

Very truly yours,
WILLIAM J KRAFT,
Commissioner

The subscribers cannot assent to the conclusions reached by the majority of the members of the Commission, and therefore submit their views separately

The work of the Commission has entailed the unwelcome task of proposing the abolishment of many offices In order that this might be done with as much impartiality as the circumstances would admit of, it was definitely decided, as a rule to govern the recommendations of the Commission, that when it dealt with a department of the State it would treat all of the superior officers of such department alike, by terminating their tenure of office, and by leaving it to the Governor to reappoint whomsoever he might choose For instance, it was at first proposed that the head of the Bureau of Shell Fisheries be retained After discussion it was decided that this might appear partial Later it was proposed that the State Board of Assessors be abolished and their

functions transferred to the Board of Equalization of Taxes This would have resulted in saving one set of officials at the expense of another set of officials It was decided to abolish both boards, solely for the consideration of impartiality and non-partisanship mentioned

The work of the Commission has been deliberately consistent with this view throughout all of its recommendations, affecting, as they do, some ninety-six officers of the State It is now proposed by the majority of this Commission, not only to abandon this valuable principle, but actually to remove the head of one bureau of the State (the Bureau of Statistics) and to merge his bureau into that of the Department of Labor, while retaining the head of the Department of Labor

Therefore, for the first time, the Commission has attempted to remove one man from an office and put another in his place And, for the first time, it has departed from the fair and salutary rule that all shall be treated on the same footing

It is respectfully submitted that the public can be convinced of fair and unpartisan dealing on the part of the Commission only by the strictest neutrality toward all the officials who may come within the range of the Commission's action If the suspicion arises that the Commission is prepared to save or sacrifice any man, its usefulness will end

That the determination of the other members of the Commission has been based upon personal considerations is shown by the fact that, although the salary of the present Labor Commissioner is declared by them to be "extravagant," it is seriously proposed to continue this "extravagant" salary until the end of the term of the present Commissioner because the Constitution forbids reduction of salaries during an incumbent's term of office If the tenure of his office were terminated like that of all the other officials dealt with it would not be necessary to continue this extravagant salary for private benefit at public expense Other salaries we have proposed to abolish altogether The salary of the Commissioner of Labor it is proposed to retain for his benefit, although it is admittedly extravagant

The determination to retain the Commissioner of Labor in office (alone among the ninety and more officials embraced within the recommendations of the report) will be the more difficult to justify when it is added that the administration of the Labor Department has been shown to be extravagant and irregular It would be hard to conceive a more wasteful use of public funds than that in the work of this Department

The present Commissioner has been at the head of the Department for ten years In the first year of his term the cost of the Department was $10,500, he now asks for an appropriation exceeding $100,000

The efficiency of the department seems to have declined from the moment of his appointment He gave little time to it himself, coming to Trenton only occasionally The irregularities in managing the Department are rather peculiar They appear to amount to a deliberate disregard of the law For instance, the Commissioner is required to sue for penalties for infraction of the laws protecting workers in factories In ten years no suit for this purpose has been brought

The law requires the assistant commissioner to inspect He does no inspecting, but, at the high salary of $3,000, is retained in the office to do unimportant clerical service In the office is another clerk, who is carried on the roster as a "special inspector" at $1,500 a year and expenses This clerk, also, does no inspecting whatever, although the law requires inspectors to devote eight hours per day to their work The law also requires inspectors to have no incompatible occupation Notwithstanding, one inspector is a practicing lawyer, and another is in the real estate business, with an office used also by the department

Some inspectors are engaged in the merely clerical task of issuing working papers to children This work should be relegated to clerks In Jersey City it is done voluntarily, without compensation, by an officer of the schools The system seems wasteful

The salaries of all the inspectors, with one exception, are at least $1,500, and their expenses far exceed those of the inspectors of the Tenement House Commission Some inspectors, who are carried on the roster as "experts" (although the statute does not mention any such employee) have received salaries as high as $3,000 Two or three inspectors now receive salaries of $2,000 The peculiar wording of the act empowers the Commissioner of Labor to fix these salaries It seems improper that he should have a discretion

The work of inspection seems to be completely disorganized There is no check on the men in the field, except their own weekly reports It is rather probable that they are the only men in the United States doing a species of police duty who are subjected to no surveillance and who report only once a week The Commissioner explained, when the reason for this laxity was asked that he considered inspection to be the work of gentlemen, and did not care to challenge the reports of his inspectors In

New York the inspectors of the Department of Labor report every night and their work is gone over by supervisors

The effects are shown in the reports of the department, for they show an astonishing decline in inspections from the day that the present Commissioner took hold In the first year of his service the inspections were very much less than half as numerous as they had been the year before under his predecessor They have increased slightly in their total number, from year to year, as inspectors have been added, but the average inspection per man has steadily declined until, in 1911, it dropped so that there was barely one inspection per day by each inspector In 1912 the report of the Department contains no record whatever of inspections In Wisconsin, with a force of thirteen inspectors, there were, in 1912, 11,197 inspections In New Jersey, in the year before, 1911, with a force of inspectors almost double in number, or more than double (for the so-called "experts" are simply inspectors), there were only 7,618 inspections In 1912 the Tenement House Commission, with an inspection force of about the same number as the Labor Department, effected over 50,000 inspections, to say nothing of a multitude of other activities

It is submitted that the chief object of the Labor Department is the protection of human life and health The character of the Department's work is reflected in the statistics of mortality and accidents It is to be noted that, beginning with the first year of service of the present Commissioner, there has been no record in the Department of the number of deaths of the nature of injuries occurring in New Jersey factories In every other State and in foreign countries these statistics are treated as of substantial importance and are published in great detail Fortunately, New Jersey has had in its Bureau of Statistics a means of noting these results of the administration of the Labor Department, which would otherwise be lacking

It appears beyond all question that the number of deaths and serious accidents in the factories of New Jersey is increasing at an alarming rate

In 1911 61 were killed, 278 seriously injured
In 1912 66 were killed, 447 seriously injured
In 1913 116 were killed, 477 seriously injured

In the last five months the rate of deaths has been still greater than in 1913

The Commissioner of Labor contended that this was because the reports of the Employers' Liability Commission revealed

more injuries than heretofore This is an error, for in spite of a great accumulation of unassorted reports of accidents the Bureau of Statistics reports more deaths in all the industries of New Jersey than the Department of Labor The number of deaths in all industries and occupations reported by the Department of Labor in 1912 was only 193, whereas in the same year the number of deaths reported in all industries by the Bureau of Statistics was 325

Elsewhere, under intelligent administration of safety laws, casualties are being reduced in number In 1911 the Pennsylvania Railroad reduced its serious shop accidents 63%, since January, 1912, the same company has shown a decrease in shop accidents from about 300 per month to slightly over 100 per month Other railroads and industries also exhibit substantial decreases According to the Federal Bureau of Mines, there has been great decrease in mortality among miners In fact the great work of saving life and limb among the industries seems to be making strides everywhere except in New Jersey In our State, in 1912, a workman was killed in a factory, on an average, every two and one-half days In Tolman's work on "Safety" the effect of such conditions is well described He says, page 87 "Serious accidents completely demoralize a shop This demoralization may last for a day or a week During this period of distress and excitement the operatives are inefficient and expectant of further trouble, and the rate of production drops, while spoilage and "second" due to nervousness and inattention increase Considering, also, that the absence of employees is greater, and the whole spirit and morale of the plant broken down, the economic advantage of accident prevention becomes apparent"

The Commissioner of Labor admitted that up to six months ago he had no system for following up and reporting accidents That he has any such system now is to be doubted In fact, the policy of the department to lay slight stress upon accident prevention, or the investigation of accidents and their causes was commented upon in 1909, in a report made by the Government of the United States The work of the Employers' Liability Commission is now merged in the Labor Department If the reports of this branch of the department are the measure of its usefulness, it is hard to see why it should be continued at such great expense Except for a schedule of compensation for injuries, somewhat resembling those published in other States, the reports are not to be compared in usefulness with those of the Bureau of Statistics. It seems wasteful that this service should require the work of a

secretary at $2,000 and a number of clerks, when entirely superior reports upon virtually the same subjects are being written in another department of the State

A glance at the elaborate and analytical reports of the Labor Departments in New York, Wisconsin, Illinois, Massachusetts, and other States and countries will show the meagreness and uselessness of New Jersey's official reports issued by the Labor Department and the Employers' Liability Commission

The examination of the department has been extensive, and has revealed many and great irregularities that would warrant much comment, but it is intended here to do no more than point out that if this Commission concludes (as it has concluded) that the department should be reorganized, then there cannot possibly be any ground for retaining the Commissioner of Labor, who conducts his department in the manner described, while scores of useful and industrious officials throughout the State service are being proposed for removal from office Such action would be grossly improper discrimination

The subscribers agree with the conclusions of their colleagues that the Department of Labor should be reorganized, but they cannot agree that the Commissioner of Labor should be favored with treatment not accorded to any of the other ninety-six officials whose removal has been proposed in the main report of the Commission

W L McDERMOTT,
W E MOUNT

Mr Branegan moved that the message be received and spread in full on the minutes, together with the report of the Economy and Efficiency Commission attached thereto

Which motion was carried

Mr Mount, Chairman of the Committee on Corporations, reported

Senate Bill No 164, entitled "An act to transfer the Engineering Department of the State Board of Assessors to the Board of Public Utility Commissioners and to define the powers and duties of such Board of Public Utility Commissioners in regards to such transfer,"

AN ACT providing for the employment of inmates of penal, correctional or reformatory institutions of this State and regulating the supervision of the labor of such institutions, and for the disposal of the products of the labor of such inmates

BE IT ENACTED *by the Senate and General Assembly of the State of New Jersey*

1 From and after the passage of this act no contract whatsoever shall be made by which the labor or time of any inmate of any penal, correctional or reformatory institution of this State or of any political subdivision thereof, or of the product or profit of his work, shall be let, contracted for, leased, farmed out, given or sold to any person, firm or corporation, except that the inmates in such institutions may work for, and the product of their labor may be disposed of to the State or any political subdivision thereof, or to any public institution owned, managed and under the control of the State or any political subdivision thereof, for the purposes and according to the provisions of this act, *provided, however,* that nothing herein contained shall affect any existing contract for prison labor, *and provided, further,* that no existing contract for such labor shall be renewed or extended, except that the managing authorities of the State Prison may renew or extend such number or portions of contracts for labor of the prisoner of the State Prison, as in their judgment may be necessary to keep employed, pending the time when under the provision of this act, they can be properly employed, *provided,* that such renewal or extension shall be approved by the Governor, or the person administering the government of the State

2 The board of managers, superintendents, supervisors or wardens of all penal, correctional or reformatory institutions in this State shall cause all inmates in such institutions, who are physically capable thereof, to be employed for not exceeding eight hours of each day, other than Sundays and public holidays Such employment shall either be for the purpose of the manufacture and production of supplies for such institutions or for the State or any political subdivision thereof, or for any public institutions owned, managed and controlled by the State, or any political subdivision thereof, or for the preparation or manufacture of building materials for the construction or repair of a State penal, reformatory or correctional institution, or for the purpose of industrial or scholastic training and instruction, or partly for one and partly for the other of such purposes

3 The labor of inmates shall be so directed as to produce the greatest amount of actual products, articles and supplies needed in or by said institutions, in the buildings, departments or offices of the State, or in any public institution or department owned, managed and controlled by the State or any political subdivision thereof

4 It shall be the duty of the said supervisors, superintendents or wardens to assign the labor and industry to said institutions, due regard being had to the location and convenience of the institutions and of the other institutions to be supplied the machinery now therein and the number of inmates, in order to secure the best service and distribution of the labor

5 The said board of managers, supervisors, superintendents or wardens shall cause to be manufactured by the inmates of their several institutions such articles as are needed therein, and also such as are required for the use of all State departments, institutions supported in whole or in part by the State, or what may be required for the use of political subdivisions of the State, or in the buildings, offices and public institutions owned or managed and controlled by the State, including articles and materials to be used in the erection of buildings

6 The several boards of managers, supervisors, superintendents or wardens of all institutions supported in whole or in part by the State, and all State departments and all political subdivisions of the State, are authorized and directed to purchase from the several institutions any or all articles or supplies manufactured under the provisions of this act in the penal, correctional or reformatory institutions of this State needed for

use in such institutions and departments and political subdivisions, and they shall not purchase any supplies or articles that are manufactured in said penal, correctional or reformatory institutions under the provisions of this act from any other source, unless the article or articles so required cannot be furnished by any of the said institutions

7 All articles manufactured under the provisions of this act and that are not required for use in the institution where same are produced or manufactured, shall be of the styles, patterns, designs and qualities fixed by the board of managers, supervisors, superintendents or wardens, and may be furnished to the State, or to any political subdivision thereof, or for or to any public institution owned or managed and controlled by the State or any political subdivision thereof, at and for such process as shall be fixed and determined as hereinafter provided, upon the requisitions of the board of managers, supervisors, superintendents or other proper officials thereof

8 On or before October first of each year the proper officials of the State and of the political subdivisions thereof, and of the institutions of the State and political subdivisions thereof, shall report to the Commissioner of Charities and Corrections for the ensuing year of the amount of supplies of different kinds required to be purchased by them that can be furnished by the said penal, correctional or reformatory institutions of the State

9 The boards of managers, supervisors, superintendents or wardens of said penal, correctional or reformatory institutions shall, upon request and under the direction of said board of managers, supervisors, superintendents and wardens, furnish full and complete information as to the number of prisoners available for the manufacture of goods herein provided for, and of supplies for manufacturing purposes, and of conditions and circumstances in their respective institutions concerning the employment of prisoners therein

10 The several boards of managers, supervisors, superintendents or wardens of all institutions supported in whole or in part by the State, shall have power to determine the cost of production of any articles manufactured as herein provided for, and the price at which such articles are to be sold as herein provided for, and for this purpose may establish a uniform system of accounting and cost of production for materials and labor provided for in this act

11 It shall be the duty of the said board of managers, supervisors, superintendents or wardens to secure employment of as

many inmates of the penal, correctional and reformatory institutions of the State as may be employed advantageously in agricultural pursuits, and in horticulture and floriculture, and all surplus products resulting from such industries, over and above those required for the use of the institutions where produced, shall be disposed of in the same manner as all other products, *provided,* that whenever there shall be produced or raised at any penal, correctional or reformatory institution any articles or products that cannot be sold or otherwise disposed of as herein provided, the said supervisors, superintendents or wardens may cause said surplus article or products to be disposed of at public sale to the highest bidder, or upon sealed bids, after such advertisement as said board of managers may direct, and the same board of managers, supervisors, superintendents or wardens shall have authority to determine the date and place of such public sales, and the terms upon which such surplus supplies shall be sold, and said supervisors, superintendents or wardens shall cause all such public sales to be advertised in at least two daily papers in each of the cities of Newark and Jersey City, New Jersey, New York City and Philadelphia, Pennsylvania, *provided,* that the said board of managers may authorize the sale in such manner as in their judgment may be deemed wise of such perishable products of farm and garden as cannot be advantageously disposed of as hereinbefore provided

12 The supervisors, superintendents or wardens of all institutions supported in whole or in part by the State, shall cause to be prepared a catalogue containing a description and price list of all articles manufactured under the provisions of this act, and copies of such catalogue shall be sent to all institutions, supported in whole or in part by the State, to all State departments and to all political subdivisions of the State, and to all institutions supported in whole or in part by said political subdivisions, and the receipt of said catalogue by said institution and political subdivisions shall be sufficient notice to them that the articles described in said catalogue are about to be manufactured in the penal, correctional and reformatory institutions of the State, and said institutions, departments and political subdivisions of the State shall thereafter purchase any and all articles described in said catalogue and needed for the use of said institution and political subdivisions from the penal, correctional and reformatory institutions where said articles are manufactured or produced, and they shall pay for such articles or products the price or prices fixed by said board of managers, supervisors, superintendents or wardens, and said institutions, departments or political sub-

divisions shall not purchase elsewhere any article or product described in said catalogue without first securing a certificate of release from the said board of managers, superintendents or wardens of said institutions, and stating that the articles or products required for the use of said institutions, departments and political subdivisions cannot be furnished by said penal, correctional or reformatory institutions, and said board of managers, supervisors, superintendents or wardens shall issue such certificate when the articles or products for which requisition is made as herein provided cannot be supplied

13 Whenever in any county or municipality of this State there is established a county or municipal penitentiary, workhouse or other penal or correctional institution, the inmates of said penitentiary, workhouse or other correctional institution may be employed for the benefit of the county or municipality by which said institutions are maintained, and the proper officials of said counties or municipalities are hereby authorized to employ the inmates of such institutions in the manufacture or production of goods or articles that may be required for the use of said county or municipality by or in any other institution or department maintained and controlled by said county or municipality Nothing herein contained shall prevent any charitable institution of this State from employing its inmates in useful occupations or in the manufacture or production of any article or articles for their own use

14 Nothing herein contained shall permit the marching or other transportation of shackled convicts through the streets of any community to or from the places of employment assigned to them, nor shall such convicts be employed under guard on public improvements where free labor is also employed Nothing herein contained shall permit the employment of convicts to take the place of free labor locked out or on strike, nor shall any convict labor be employed upon any public improvement when free labor sufficient to carry on the work makes application for employment thereon

15 The board of managers of the State Prison at Trenton and of the New Jersey Reformatory at Rahway are hereby authorized, subject to the approval of the Commissioner of Charities, to pay to the wife, children or parents of any inmate of their respective institutions who by reason of the imprisonment of such inmate, are thereby made dependent upon public or private charity for their support, a sum not exceeding fifty cents a day for each working day that said inmate is employed at productive labor in either of said institutions, and said inspec-

tors and commissioners are hereby authorized to avail themselves of the services of any organized bureau of associated charities or charity organization society within the district where said dependent wife, children or parents may reside, in making investigation of their condition and needs, *provided,* the expenditures for the relief of dependent families of prisoners as herein provided for shall not exceed in any one year a sum equal to five per centum of the value of all goods or articles manufactured or produced by the labor of the inmates of each of said institutions

16 The provisions of this act with reference to the purchase of articles or supplies and the furnishing of articles shall extend to and include school districts, as well as institutions supported in whole or in part by the State, and all State departments and all political subdivisions of the State

17 The board of managers, supervisors, superintendents or wardens of said penal, correctional and reformatory institutions affected by this act shall incorporate in their annual estimates for appropriations from the State such sums as may be required by each of them for the carrying out of the provisions of this act, and they are hereby authorized to employ such additional officers or agents as will enable them to carry out the provisions of this act

18 The board of managers, supervisors, superintendents or wardens of said penal, correctional or reformatory institutions shall make an annual report to the Governor containing full information of its work as provided for by this act, together with such recommendations as they may deem necessary

19 All acts and parts of acts inconsistent herewith be and the same are hereby repealed, and this act shall take effect immediately

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
March 30th, 1914

To the Assembly

I beg to return herewith Assembly Bill No 371 without my approval Article 4, section 7, paragraph 4, of the State Constitution provides "To avoid improper influences which may result from intermixing in one and the same act such things as have no proper relation to each other, every law shall embrace but one object and that shall be expressed in the title"

The original act referred to in the title of this bill is the tax act commonly known as the "Martin Act" The amendment thereto of 1912, to which this bill purports to be a supplement, relates only to notices to be given by purchasers at sales under the "Martin Act" to owners of property sold The body of this

bill relates only to the dissolution of corporations The object, therefore, is not expressed in and by the title From a reading of the title no one could form any idea of the real purpose and object of this bill

Respectfully,

(Signed) JAMES F FIELDER,
Governor

The same was read and ordered to lie over

A message was received from the Senate, by the hands of its Secretary, as follows

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
March 31st, 1914

To the Assembly

I beg leave to return herewith Assembly Bill 468 without my approval

The policy of the insurance law of this State is to permit no company to engage in any line of insurance without a capital stock of at least one hundred thousand dollars paid in cash This bill would permit a live stock insurance company to commence business when but twenty-five thousand dollars in cash is paid in, without requiring it should ultimately have a capital of one

hundred thousand dollars I do not consider a capital of twenty-five thousand dollars sufficient protection against loss from this kind of insurance Further, while this bill would permit a new company to do business with twenty-five thousand dollars capital, no old company engaged in any other lines of insurance could undertake the additional line of live stock insurance without fifty thousand dollars capital

Respectfully,

[L S] JAMES F FIELDER,
Governor

That none of the foregoing provisions shall take effect in any county except in counties where all the members of such boards are now elected at large throughout the county, until the same shall have been adopted by vote of the legal voters of such county, except as hereinafter provided The adoption of this act shall be submitted to vote in any county, at any election for

members of the General Assembly, or at any special election called solely for the purpose of submitting the question of the adoption of this act, or at any special election hereafter held, for any purpose, either within the entire State, or in a subdivision thereof not less than the county in which the question of the adoption of this act is to be submitted, when a petition for such submission, signed by at least five per centum of the qualified electors of such county, as evidenced by the total number of votes cast at the then next preceding election for members of the General Assembly in such county, shall have been filed with the clerk of said county of which submission the same notice shall be given as is required to be given of elections for members of the General Assembly, and whether such election be an election for members of the General Assembly or a special election as hereinbefore provided, the same shall in all respects, as far as practicable, be conducted under and pursuant to the provisions of an act entitled "An act to regulate elections (Revision of 1898)," approved April fourth, one thousand eight hundred and ninety-eight, and the supplements and amendments thereto The legal voters of said county may, at such election, decide upon the acceptance or rejection of this act in the following manner There shall be printed on each official ballot, containing the name of candidates for members of the General Assembly, if such proposition be submitted at a general election, or on each official ballot containing the name of any candidate for any office or containing any other proposition or propositions, if submitted at a special election called for any other than the sole purpose of the adoption of this act, and upon each official ballot of the election at which the same is submitted if held for the sole purpose of submitting the adoption of this act, the following proposition, "Shall the act to reorganize the boards of chosen freeholders of the several counties of this State, reducing the membership thereof, fixing the salaries and providing for the election and terms of office of the members, and also for the appointment and terms of office of officers appointed by such boards (Revision of 1912)," be adopted and the voter may vote to adopt this act by making an × mark in the square opposite the word "Yes" and, to reject this act by making an × mark in the square opposite the word "No", and said ballots so cast for or against this act shall be counted and the result thereof returned by the election officers and a canvass of such election had in the same manner, and the acceptance or rejection of this act shall be declared in the same manner as the result of an election for county officers, and if there should be a majority of votes

so cast in favor of the adoption of this act, but not otherwise, this act shall take effect in each county immediately

That section four in said substitute bill be known as section five

Mr Agnew raised the point of order that the subject matter in these amendments was acted on once before, and the amendments are, therefore, now out of order

The Speaker declared Mr Agnew's point of order well taken, and accordingly declared said amendments out of order

Mr Pancoast appealed from the decision of the Speaker

The Speaker then put the question, as follows

"Shall the decision of the Speaker stand as the decision of this House?"

Upon the call of the ayes and nays, the Speaker's decision was sustained by the following vote

In the affirmative were—

Messrs Agnew, Barbour, Bloom, Burton, Byrne, Carhart, Carroll, Conrad, Curran, Dalrymple, De Yoe, Dobbins, Fishler, Fisk, Foley, Godfrey, Griffin J J, Griffin T F A, Hammond, Holcombe, Hughes, Hunter, Johnson, Kays, Kirkpatrick, Kuhlke, Leonard, McDermott, Mount, Mulligan, Mutchler, Nutting, Pancoast, Peacock, Quigley, Quinn, Randall, Richards, Rowe, Scovel, Sheppard, Smith, Stevens, Weart, West, Wheatley—46

In the negative—None

Mr Pancoast offered further amendments to said Committee substitute for Assembly Bill No 419, as follows

After section three, page three, add the following, to be known as section four

That none of the foregoing provisions shall take effect in any county except in counties where all the members of such boards are now elected at large throughout the county, until the same shall have been adopted by vote of the legal voters of such county, except as hereinafter provided The adoption of this act shall be submitted to vote in any county, except in counties where all the members of such boards are now elected at large throughout the county, at any election for members of the General Assembly, or at any special election called solely for the purpose of submitting the question of the adoption of this act, or at any general

election hereafter held, within the entire State, or in a subdivision thereof not less than the county in which the question of the adoption of this act is to be submitted, when a petition for such submission, signed by at least five per centum of the qualified electors of such county, as evidenced by the total number of votes cast at the then next preceding election for members of the General Assembly in such county, shall have been filed with the clerk of said county of which submission the same notice shall be given as is required to be given of elections for members of the General Assembly, and whether such election be an election for members of the General Assembly or a special election as hereinbefore provided, the same shall in all respects, as far as practicable, be conducted under and pursuant to the provisions of an act entitled "An act to regulate elections (Revision of 1898)," approved April fourth, one thousand eight hundred and ninety-eight, and the supplements and amendments thereto The legal voters of said county may, at such election, decide upon the acceptance or rejection of this act in the following manner There shall be printed on each official ballot, containing the name of candidates for members of the General Assembly, if such proposition be submitted at a general election, or on each official ballot containing the name of any candidate for any office or containing any other proposition or propositions, if submitted at a special election called for any other than the sole purpose of the adoption of this act, and upon each official ballot of the election at which the same is submitted if held for the sole purpose of submitting the adoption of this act, the following proposition, "Shall the act to reorganize the boards of chosen freeholders of the several counties of this State, reducing the membership thereof, fixing the salaries and providing for the election and terms of office of the members, and also for the appointment and terms of office or officers appointed by such boards (Revision of 1912)," be adopted and the voter may vote to adopt this act by making an × mark in the square opposite the word "Yes" and to reject this act by making an × mark in the square opposite the word "No", and said ballots so cast for or against this act shall be counted and the result thereof returned by the election officers and a canvass of such election had in the same manner, and the acceptance or rejection of this act shall be declared in the same manner as the result of an election for county officers, and if there should be a majority of votes so cast in favor of the adoption of this act, but not otherwise, this act shall take effect in each county immediately

That section four in said substitute bill be known as section five

Mr Agnew again raised the same point of order as he did before

The Speaker, after examining the subject matter of the amendments, decided that Mr Agnew's point of order was not well taken, and declared said amendments to be proper matter for the House to consider

On the call of the ayes and nays, said amendments were adopted by the following vote

In the affirmative were—

Messrs Barbour, Barradale, Bloom, Branegan, Byrne, Carhart, Conrad Crosby, Dalrymple, Downs, Foley, Godfrey, Hammond, Hughes, Hunter, McCabe, Mutchler, Nutting, Pancoast, Peacock, Quigley, Randall, Richards, Rowe, Scovel, Sheppard, Smith, Stevens, Weart, West —30

In the negative were—

Messrs Agnew, Burton, Carroll, Curran, De Yoe, Dobbins, Fishler, Gannon, Griffin J J, Griffin T F A, Holcombe, Johnson, Kirkpatrick, Leonard, Wheatley—15

Assembly Bill No 596, entitled "An act to amend an act entitled 'A supplement to an act entitled "An act to improve the condition of tenement houses in this State and to establish a State Board of Tenement House Supervision," approved March twenty-fifth, one thousand nine hundred and four,' " which said supplement was approved April nineteenth one thousand nine hundred and six,

Was taken up, and, on motion of Mr Bloom, under suspension of the rules, was read a third time by its title and passed by the following vote

In the affirmative were—

Messrs Agnew, Barbour, Barradale, Bloom, Branegan, Byrne, Carhart, Carroll, Conrad, Crosby, Curran, Dalrymple, De Yoe, Dobbins, Downs, Fishler, Fisk, Foley, Gannon, Griffin J J, Griffin T F A, Hammond, Holcombe, Hughes, Hunter, Johnson, Kays, Kirkpatrick, Kuhlke, McCabe, McDermott, Mutchler, Nutting, Quigley, Randall, Rowe, Scovel, Smith, Stevens—40

In the negative was—

Mr Leonard—1

Ordered, that the Speaker sign the said bill, and that the Clerk carry it to the Senate and inform the Senate that the House of Assembly has passed the same, and requests its concurrence therein

Mr Curran moved that the rules be suspended and that Senate amendments to

Assembly Bill No 205, entitled "An act to regulate the pay or salary of certain officers and other employees of fully paid and partly paid fire departments in towns of this State,"

Be taken up for consideration on third reading forthwith

Which motion was adopted

Senate amendments to

Assembly Bill No 205, entitled "An act to regulate the pay or salary of certain officers and other employees of fully paid and partly paid fire departments in towns of this State,"

Were taken up, read a third time, and the Speaker put the question

"Shall the House concur in Senate amendments to Assembly Bill No 205?"

Which amendments, on the call of the ayes and nays, were concurred in by the following vote

In the affirmative were—

Messrs Agnew, Barradale, Bloom, Branegan, Bredenbek Byrne, Carroll, Conrad, Crosby, Curran, Dalrymple, De Yoe Dobbins, Downs, Fishler, Foley, Gannon, Godfrey, Griffin T F A, Hammond, Holcombe, Hughes Hunter, Kates, Kays, Kuhlke, Leonard, McCabe, Mount, Mutchler, Quinn, Randall, Rowe, Scovel, Sheppard, Stevens, Weart, West—38

In the negative—None

Assembly Bill No 241, entitled "An act to give additional protection to wild birds and animals and game within the State of New Jersey, prohibiting the hunting for, or capturing or killing of, such wild birds or animals or game by unnaturalized, foreign-born persons, forbidding the ownership or possession of shotgun or rifle by an unnaturalized, foreign-born person, within the State of New Jersey, and prescribing penalties for violation of its provisions,"

Was taken up, and, on motion of Mr Johnson, under suspension of the rules, was read a third time by its title and passed by the following vote

In the affirmative were—

Messrs Agnew, Barbour, Barradale, Bloom, Brackner, Branegan, Bredenbek, Carroll, Conrad, Crosby, Curran, Dalrymple, De Yoe, Dobbins, Downs, Fishler, Fisk, Foley, Gannon, Griffin T F A, Hammond, Holcombe, Hughes, Hunter, Johnson, Kays, Kirkpatrick, Kuhlke, Long, McCabe, Mount, Mutchler, Nutting, Randall, Rowe, Scovel, Sheppard, Stevens, Weart—38

In the negative—None

Ordered, that the Speaker sign the said bill, and that the Clerk carry it to the Senate and inform the Senate that the House of Assembly has passed the same, and requests its concurrence therein

Mr McDermott presented the following report

To The Legislative Assembly of the State of New Jersey

The Committee appointed by the Speaker of the House of Assembly of New Jersey on January 29th, 1913, to investigate any existing combinations, agreements and understandings between persons and corporations mining coal, common carriers of coal and wholesale and retail coal dealers to fix and maintain arbitrary, unjust and discriminatory prices, respectfully report that they have held public sessions and examined witnesses produced before them, in regard to the matters upon which they were called to investigate, and as a result thereof, respectfully report

That your Committee have directed their investigations more particularly toward the production, transportation and marketing of anthracite coal, as this commodity, by reason of the small area of its production, is especially subject to be controlled by illegal combinations

PRODUCTION

With regard to production

All the anthracite coal in the United States is mined in the northeastern section of the State of Pennsylvania, in three regions known as the Wyoming, Lehigh and Schuylkill regions

Practically all the anthracite coal produced in the world is produced in these three regions, which have a total area of about 484 square miles

The area of Wyoming region, which is most northerly is 176 square miles The area of the adjoining region, on the south, known as the Lehigh region, is 45 square miles, and that of the most southerly, the Schuylkill region, is 263 square miles

These various regions are divided into districts by the government for the purposes of inspection and protection

Eighty-seven per cent of the total acreage of these coal regions is owned and controlled by eleven railroads, of which the Philadelphia & Reading Railroad, alone, controls sixty-three per cent of the unmined coal

The average duration of the unmined coal, calculated upon the present production, is one hundred and nine years

The control of the railroads before spoken of, includes the acreage which is owned by railroads and the tonnage that is controlled by contracts, and the total acreage owned by the railroads is 227,566 acres, that controlled by contracts with railroads and mining companies owned by railroads is 31,887 acres and the uncontrolled acreage is 8,152 acres

Of these various regions, the Wyoming region supplies about fifty-eight per cent, the Schuylkill region about twenty-eight per cent and the Lehigh about fourteen per cent

That the operation of mining is done not directly by the railroads, but by operating companies such as the Philadelphia & Reading Coal & Iron Co, the Lehigh & Wilkes-Barre Coal Co, the Delaware, Lackawanna & Western Coal Co, the New York & Wilkes-Barre Coal Co, and the Susquehanna Coal Co, and the like

These and other coal companies were organized by the several railroads for the purpose of operating said mines and they are owned and controlled by the different railroad companies tapping these coal fields, and, in turn, these railroads, together with their holdings, are owned and controlled by about forty men, through a series of interlocking directorates So that it may be operated and absolutely controlled, with the exception of about thirteen per cent thereof, by a combination of forty men

That in addition thereto, since 1911, various companies have organized what is known as "Sales Companies," largely owned and entirely controlled by the railroad companies, directly or indirectly for the purpose of selling and marketing the coal so produced, such as the Lehigh Valley Coal Sales Co, and the Lehigh & Wilkes-Barre Coal Co, and the like, and the object and purpose of the sales companies, as originally organized, was to market the product, and that until 1913 they sold coal only at wholesale The Lehigh Valley Coal Sales Co, subsequent to that time and some time in 1913, began also the sale of coal by retail

All of these railroads directly and indirectly carry coal through and into the State of New Jersey

The anthracite coal, after the same is mined, is prepared for market by a series of screens, and those that are known as prepared sizes, namely, broken coal, stove coal, egg and chestnut coal, are used exclusively by the private and individual consumer The sizes known as pea, buckwheat, rice, barley and smaller sizes are used generally by industrial and public service plants for production of steam and in competition with bituminous coal

Of the coal marketed, from sixty-eight to seventy per cent is the prepared grades of coal, and that from thirty to thirty-two per cent is of the smaller grades

That the total tonnage of all sizes of coal produced in 1911, was 80,771,488 tons, in 1910, 75,453,246 tons, and in 1912, 75,322,855 tons Of the coal so produced eighty-nine per cent was produced by the railroad companies, through their operating companies, and eleven per cent by independent operators

Of this production about 3,500,000 tons were used as fuel for locomotives, about the same quantity was exported, and about the same quantity was used in New Jersey for industrial purposes

That we have no exact data of what coal was used during the years 1912 or 1913, or earlier, by individual consumers in New Jersey, but in 1912, about 4,000,000 tons were used in the city of Philadelphia, about 14,000,000 tons were sent to New York City, and it seems safe to assume that from three to four million tons were so used

That the cost to produce all sizes of coal varies in the different regions The cost of the Philadelphia and Reading Co, for all sizes of coal mined by them when prepared for shipping, is about $2 30, in the Schuylkill region

That in the Lehigh region it was from $1 80 to $2 00 a ton and in the Wyoming region $1 77 a ton This includes the preparation of all sizes of coal and average

That these costs are not the actual costs, but they include the expense of the mine in pumping and guarding the same during suspension of operations, which averages less than thirty-three per cent of the annual working days

The rate to Jersey City and Newark for prepared sizes, from all three regions, is $1 60 per ton, for pea coal, $1 40 per ton, for buckwheat coal, $1 20 and for the smaller sizes still, $1 10 per ton, on all roads but the Pennsylvania, which is from fifteen to twenty cents per ton higher

To Perth Amboy, for prepared sizes, it is $1 50, and this, without regard to the difference of distance between the Wyoming region, which is 168 miles and the Lehigh and Schuylkill regions,

which are 140 miles on the Lehigh Valley Railroad, and on the Central 171 miles for the Wyoming region and 141 miles for the Lehigh and Schuylkill regions

The rate of transportation to Atlantic City is $2 25 for prepared sizes and to Trenton $1 70 for the same, the distance being about the same

The Marion Coal Co rate was reduced by action of the court, from Wyoming region to Hoboken, and the rate there established was $1 33

At Perth Amboy for trans-shipping the rate is $1 55 per gross ton for prepared sizes, as at Bound Brook

The Lehigh Valley Railroad quotes switching charges at Perth Amboy for anthracite coal at thirty cents a ton to trestles and yards of coal dealers and sidings of industrial plants located without the yard limits of the railroad The minimum carload weight is twenty tons which would make that charge $5 per car, but a discrimination is made on shipments for the American Smelting & Refining Co , at Perth Amboy, of $2 per car, and for the White Metal Co , and United Lead Co , of $2 50 per car, without regard to the number of tons contained in the car

The rate on the Philadelphia & Reading Railroad for prepared sizes to Trenton is $1 70, for pea, $1 40, and for smaller sizes $1 25 This is from the Schuylkill region which is about 145 miles distant The same rate is charged by the Pennsylvania Railroad from the district of 177 miles From the Wyoming district the Pennsylvania charges ten cents more than the Philadelphia & Reading

To Camden the charge for prepared sizes on the Philadelphia & Reading is $1 79 per gross ton and to Atlantic City $2 25 on the prepared sizes, which is 177 miles from the Schuylkill region

The same charge is made by the Pennsylvania with a ten-cent additional charge from the Wyoming region The distance to Atlantic City being 177½ miles by the Philadelphia and Reading

To Hammonton, which is 5 miles further from the Schuylkill region, the charge for prepared sizes is $2 05

To Elizabeth from the Schuylkill region, the charge is $1 75 as against $1 60 charged to Newark

These rates are very unequal, and, compared with the rates that are charged for the transportation of bituminous coal, seem excessive

The charges by the Pennsylvania Railroad for transportation of bituminous coal to Trenton, a distance of 290 miles, is $4.75 per ton, or 5 cents less than for the transportation of prepared sizes of anthracite coal for a shorter distance of 100 miles

The cost of transportation from Greensburgh to Trenton on the Pennsylvania Railroad for a distance of 349 miles, is $1.85, and the transportation to Jersey City from the Clearfield region, on the Pennsylvania Railroad, a distance of 346 miles, is $1.85, the charge for prepared sizes of anthracite coal being $1.80

These examples show the discrimination made by the railroads in the transportation and freight charges of the coal

And it further appears that by ingenious calculations that had been made before the Interstate Commerce Commission, the total cost per ton, for moving coal from Clifton to Perth Amboy, is seventy-six and a half cents

THE PRICES CHARGED BY PRODUCERS

The prices charged for coal as it is produced, is established in two ways The price at the mines, and the price at the place of delivery

On or about the first of April of every year the railroad companies, which practically own the output of coal, through their chief officers, establish a price for coal of the various grades, and issue circulars indicating these prices This has been their method of procedure for a number of years

These prices are uniform for all companies There is a uniform rate, and has been for a number of years, and the circulars of these rates are distributed among the dealers, under the names of the various coal sales companies

Some difficulty has been experienced in determining where these rates are made, but Mr Reynold, the attorney of the Lehigh & Wilkes-Barre Coal Co, and of the Central Railroad, indicates that these circulars come from the Reading terminal, and that Mr Baer authorizes the prices

Without doubt, there is a general combination between all these companies to fix the price of coal, and the prices of one are the prices of all

The price so fixed for the years 1912 and 1913 were practically the same, and upon each of the price circulars there is a deduction made of fifty cents for shipments during the month of April, and a further reduction of ten cents per month for each month following This is also uniformly established

These circulars are issued in two forms One for the price of the mine, and the other what is called "line prices," or, with the freight added

There is a variance between the Lehigh & Wilkes-Barre Coal Co, and the Lehigh Valley Coal Sales Co, in favor of the Lehigh Valley Coal Sales Co, on coal that is sold at the different points, varying somewhat on the prepared sizes, but a general uniformity of price is observable

Chestnut coal at the mines is quoted as fifteen cents higher than stove coal, but at the years when sold by wholesale dealers is uniformly quoted at twenty-five cents higher

Stove and egg coal, in the yards, are quoted at the same price, but at the mines stove coal is quoted at twenty-five cents higher per ton than egg

The prices quoted at the mine for prepared sizes is $3 75 to $4 15 a ton These prices are fixed on the basis of the cost of production of the mines operated by the Philadelphia & Reading Coal & Iron Co, which pays more per ton to get the coal ready for the market than any other coal company in the business Their cost is about $2 15 per ton and they produce about 10,000,000 tons of coal

The other railroad companies, by a combination, established their prices under the following of this company, and as an illustration of the profits that are made by the Lehigh & Wilkes-Barre Coal Co, which sells coal in New Jersey, it has outstanding capital stock of over $9,000,000, of which eight-ninths is owned by the New Jersey Central Railroad, and has $16,000,000 in bonds, of which between $6,000,000 and $7,000,000 are owned by the Central Railroad

The Central Railroad is owned and controlled by the Reading This company, alone, pays a dividend of thirteen per cent to its stockholders and has paid six or seven per cent on $16,000,000, and has a surplus of nearly $7,000,000

The Lehigh & Wilkes-Barre Coal Co sell at the mines their chestnut coal at $4 15 This is sold to the retail coal dealers, with the freight paid, at $5 50, charging $1 35 for transportation expenses They sell their stove coal at the mines at $4, and at Elizabeth and points east they sell it to the retail dealers at a quotation of $5 25 or $5 35, making about the same transportation charges Their egg coal they sell at the mine for $3 75, and at Elizabeth and points east at $5 25 or $5 35, making the transportation charges $1 50 and $1 60 Their pea coal they sell at $2 50 at the mine, or $3 50, charging $1 for transporta-

tion, and also $1 transportation charge on their buckwheat No 1

The Lehigh Valley Coal Sales Co sell their chestnut coal at the mines at $4 15 and $4 25, and at Jersey City and Newark at $5 75, charging $1 50 for the freight charge

On their buckwheat coal they make the transportation charge $1 25 Their stove coal they sell at the mines at $4 00 or $4 10, and at Jersey City, $5 50, making the transportation charge $1 40

These quotations at the mines seem to be made or adopted not with a view of establishing a price there, if any sales are made by these controlled railroad companies at the mines, but, so far as can be ascertained, is done to suppress the competition of the few independent operators who have to pay the railroads at the rate of $1 60 or $1 80 for the transportation of their coal at these respective points

The Lehigh & Wilkes-Barre Coal Co, on their circular prices do not sell direct to the consumer, nor has the Lehigh Valley Coal Sales Co done so until very recently The latter company now claims that they will sell at their yards in Newark and Jersey City, to the consumer, but the Lehigh & Wilkes-Barre Coal Co expressly declare that they will not sell except to retail dealers, and this has been, so far as could be ascertained, the uniform custom of these sales companies

In addition to these quoted prices, the Lehigh & Wilkes-Barre Coal Co admit that they had sold coal to special privileged persons under contract at a less price than that quoted or to that which they sold to other individuals They claim to do this under a contract made with the company by various consumers The discrimination is admitted, but the extent of the discrimination is concealed

The Central Railroad also brings its coal into New York through the agency of Burns Bros, who claim to be, however, independent dealers, but who practically control a terminal belonging to the Central Railroad, and who transport their coal to New York, and have the use of their storage and ferriage yards, and there is evidence that there was a rebate of fifteen cents per ton given to this company by the railroad off its tariff rate, for transportation of coal to New York, and that this discrimination was allowed, over the Central ferry, to Burns Bros, who were the largest dealers in the State, and who received at the terminal in the neighborhood of 200,000 tons a year

It is now claimed that conditions have lately changed, but this does not clearly appear, but this rebate operated harshly on some competition with dealers in the city of Jersey City

To summarize—the prices for the pea coal and buckwheat, which at the mines is quoted as low as $1 50 a ton, is in excess of the average cost of the production of coal at all the mines except the Philadelphia & Reading Coal Co, and the smaller grades of coal, such as rice, and barley, of which no quotation is given at the mines, is sold at the yards as low as $1 75 This coal is called waste, but it is brought into the market and sold at a profit over the average cost of production of the prepared or domestic sizes which are quoted at $4 per ton

There has been no explanation as to why the prepared sizes of coal are sold at such tremendous profit The industrial sizes of coal are sold at a profit of the ordinary cost of production That the prepared sizes are sold at the enormous profit of upwards of three hundred per cent and these prepared sizes are but little more than half of the total production of the coal

The prepared sizes are not usually used for steam making or other industrial purposes, but are usually sold in comparatively small quantities and used by the consumer, and that this gross profit is made from this class of buyers

Recently, within the past year, the State of Pennsylvania has levied a State tax of two and a half per cent per ton on the market value of the coal sold at the mines This, on chestnut coal sold at the mines at $4 25, makes an extra charge of over ten cents a ton on the price charged the consumer for the prepared sizes of coal

On pea coal it would enhance the price three cents, and this tax is levied not only upon the cost, but upon the profit charged by the dealers

With reference to these prices that are fixed, they are not fixed on the basis of a clear trade competition

The Philadelphia & Reading Coal Co, in fixing their price for coal, fix a price of about one hundred per cent upon the cost of production, when the independent dealers and the other companies, instead of competing with their price by a system of interlocking directorates and mutual control among one another, fix or follow the same price, and the extra fifty per cent to a hundred per cent charged by him, goes to swell the revenues of these companies, and, by a system of stock and bondholdings among them, is divided among all the companies

This underlying evil is not beyond the reach of remedy in this State, and, while the crime is initiated in a foreign State, it is consummated in the State of New Jersey in permitting or sanctioning the carriers of this State to perpetrate the wrongs especially upon the individual consumers

The Lehigh & Wilkes-Barre Coal Co is a foreign corporation It is doing business in this State It admits that it is discriminating among manufacturers in its sale of coal for industrial purposes and at the same time admits that it is not selling in fair competition, but fixing the process on the basis of another company that cannot produce as cheaply as they can buy, but that it is selling at a rate unfairly fixed

That the Lehigh Valley Coal Sales Co, a corporation of this State, while pretending itself to sell directly to consumers and to others, is perpetrating the same kind of fraud in fixing its initial prices

In addition thereto the Lehigh Valley Coal Sales Co, in the cit yof Newark, admits that it is allowing rebates to various favored individuals or companies purchasing its coal of them

In addition to what has been said with regard to the fixing of the wholesale price of coal, it further appears that the Lackawanna Railroad Co, since 1902, has been supplying the county institutions of Hudson county with an amount representing 6,700 tons of coal at the rate of $5 per ton for stove coal, $3 25 for pea coal and $2 75 for buckwheat coal, and these, gross tons At that rate the prepared sizes delivered would be $3 40 at the mine

RETAIL PRICES

The retail prices for coal, as it is sold and delivered to the consumer, have almost universally been fixed through the agencies of what is called retail dealers

These retail dealers are of a limited number in the various cities and localities, and they are located generally along the lines of various railroads that practically control the output or supply of coal

The yards, trestles and pockets generally belong to the railroads, and are leased by them to a certain or selected class of dealers

The leases are generally at will, or for a short term, and the principal dealers themselves are almost invariably controlled by the railroads

The sales companies that have been organized to sell coal are owned and controlled by the railroads They were devised by the railroads for the purpose of technically avoiding the commodity laws of the United States The principal coal companies and coal sales companies (which means the railroad companies) have almost invariably refused to see to the consumer directly, and until within the past year would sell to no one unless that person was approved by the officers of these controlled sales companies

The Lehigh Valley Coal Sales Co expressly declared a year ago that they would not sell to general consumers They have declared before the Committee that they have changed their methods and will not sell to anybody in their yards in Jersey City

The Lehigh & Wilkes-Barre Coal Co declare that they will not sell except to approved persons as retail dealers, and this system, as operated, has placed the ordinary consumer of coal entirely at the mercy of the railroad producers

In addition to that, the principal retail dealers have entered into various combinations among themselves for the purpose of controlling their own retail profit

In Jersey City there was a company known as the "Keystone Company," which, until within the period of a year ago, while pretending to be a company organized for the sale of coal, was controlled by various individual retail dealers in that city who met and fixed retail prices of coal which were uniform among them

In Newark, until about the same period, they had what was known as "The Exchange," that operated among the retail dealers in the same way This organization, it is now claimed, has dissolved, and the retail dealers can fix their own prices

The profits usually fixed by the retail dealers are generally uniformly maintained among them There is no competition among them, and the price is fixed usually upon the prepared sizes of coal at $1 25 per net ton in excess of the circular price issued by the wholesale dealers on the gross-ton basis

The retail dealers insist that this is not due by co-operation among them, but the fact remains that the same price is usually established This established price is made upon the basis of a net ton of 2,000 pounds The wholesale dealers' circular price is made upon the basis of a gross ton of 2,240 pounds This makes an additional profit to the retail dealer of upwards of eleven per cent, so that the prices maintained by them may be

considered as $1 40 to $1 50 a ton over the quoted wholesale price

In regard to the industrial coal (that is, the unprepared sizes), this is usually left open to a competition among dealers, there being apparently no combination among the smaller dealers, and contracts are made with municipalities continually at variant prices below what is fixed on these circular prices There is a discrimination given to various persons not only by the wholesale dealers, but by their connivance, by the retail dealers among various industrial institutions

We are told that in Newark the Lehigh Valley Coal Sales Co have made discriminations in prices of industrial-size coal between purchasers ranging from seven to fifteen cents per ton, and that such discriminations are made on contracts made with officers in New York City

In Jersey City a discrimination was allowed to retail dealers of fifty cents a ton rebate, not only on the smaller sizes, but upon the prepared sizes

With regard to municipal supplies, in the bids made for the supply of coal for municipal purposes, we find in these bids indications of combinations among retail dealers to control prices

In 1910 the Board of Education of Newark advertised for bids for 7,000 tons of coal In response forty-four retail dealers bid identically the same price per ton for the coal

In 1911 forty-nine dealers submitted bids for coal of identically the same price per ton

In 1912 fifty-two bids of identically the same price per ton, and eight submitted variant prices

In 1913 thirty-three made identically the same bid per ton

These are given as an example, and on the question of bids for municipal supplies we find in the cities that we have investigated practically the same condition of affairs—that where these supplies are asked to be bid for the combinations among these dealers are very conspicuous

In Jersey City a competitive bid was made in 1913 wherein an independent dealer was a conspicuous bidder, and, by the consent of the coal companies, a bid was made where the coal was supplied at fifty cents a ton below the circular price by connivance with the wholesale dealers

It is claimed by the dealers that a profit of $1 40 or $1 50 a ton for consumers is but a reasonable profit, that the delivery expenses are of such character that their profit realized does not exceed forty cents a ton, but this profit upon the sales of the

quantity is not a competitive profit, and there exists the evil, together with the combination in which the railroads, the wholesale dealers, as well as the generality of many retail dealers which are under their control, are involved

CONCLUSION

With regard to the mining and production of coal which is done entirely in the State of Pennsylvania, there is no question but that the whole production is controlled by a combination, in which the Philadelphia & Reading Railroad, the Lehigh Valley and the Central Railroad, the Pennsylvania Railroad, the Delaware, Lackawanna & Western Railroad, the Delaware & Hudson Canal Co and the Erie Railroad Co are the principal parties

They control, as stated, eighty-seven per cent of the total coal mined, and of the acreage of all the anthracite-producing regions

The principal one of these is the Philadelphia & Reading Railroad, which controlled sixty-three per cent of the unmined coal That by a system of interlocking directorates they are all practically controlled by a single head That the mining companies, like the Philadelphia & Reading Coal & Iron Co , the Delaware, Lackawanna & Western Coal Co and the Lehigh & Wilkes-Barre Coal Co , are simply organized as branches of this control for the very thin purpose of technically avoiding the United States law against monopolies, and that the sales companies, organized and controlled by the railroads, is a further development of such monopolies

As a result the controlling power regulates the production and we are dependent upon them to know what the cost of operating is While, from report, the expense of mining this coal is of a certain figure, yet it is not possible to know the exact figures, as they are entirely in the breasts of this combination

The small fraction of independent operators are choked and throttled by this combination, either in the control of the labor or in the transportation, so that not only in speaking of the operation, but of the transportation and of the marketing of this coal, we can consider it nothing more than a great combination.

Competition in mining is absolutely suppressed, and every impediment is thrown in the way of any competition except such competition may arise from the other class of coal, known as bituminous coal

The small consumer, or the consumer of what is known as the prepared sizes, is absolutely at the mercy of this combination. As to the forty per cent of coal known as small grades of coal, the bituminous coal comes in as a competitor, and that competition is seen in the reduction of the prices of this coal, and both as to its price and its transportation and in the manner in which it is sold

It is the private or industrial consumers—the people to whom the coal is a necessity—against which the whole force of this combination is directed

The enormous profits which are made by these various companies, through their operating companies and their sales companies, directly through their transportation, is almost entirely paid by the private consumer, to whom this material is a necessity of life, and the railroads that are doing business in this State and subject to the laws of this State are the offending parties, and it must be by proper legislation directed against them that relief can be had

In the transportation the Pennsylvania & Reading Railroad, the Lehigh and its controlled companies, the Central Railroad, the Delaware, Lackawanna & Western Railroad, and the Erie with its subsiduary companies, transport nearly all of this coal All these companies have rates filed with the Interstate Commerce Commission, but why those rates should be to Newark and Jersey City for prepared sizes $1 60 per gross ton, and for smaller sizes fifty cents a ton less, it is impossible to conceive or to understand the reason

Why the same rates should be established at $1 70 for prepared sizes to Trenton and $2 25 to Atlantic City, for the same coal, is unjust discrimination, and why the rate of the Marion Coal Co, which was reduced by a decision of the courts, from the Wyoming region to Hoboken for prepared sizes should be $1 35 and yet the Lackawanna from the same region should charge $1 60 because the action was not brought against them or complaint made by any one else, it is certainly an unjust discrimination which our Legislature can remedy, and why the rate at Perth Amboy for prepared sizes for trans-shipping should be $1 55, the same as Bound Brook, on the Lehigh Railroad, is another discrimination against the individual consumer of this State, and should be remedied

When it comes to industrial sizes there is a clear discrimination made by the Lehigh Railroad in favor of certain industrial in-

stitutions referred to as against others is a clear violation of the laws of this State, and it will be seen that these discriminations are made throughout the State in a way that should be remedied

It cannot be claimed that the transportation of anthracite coal should be regulated on a less basis than the transportation of bituminous coal, and the cost of transportation of bituminous coal is fully one-half of that charged per mile for the transportation of the present sizes of coal used by the small consumer and municipalities

The prices of the coal as produced is again fixed by a combination of these railroads These prices are anually fixed without regard to competition, but professedly by a combination fixing the price on prepared sizes, so that the Philadelphia & Reading Coal Co, whose cost of production is greater than any of the others, can make an excessive profit, and that profit swells the profit of the other companies The price is uniform for every year The discounts are uniform and the arrangement of transportation is so that the small quantity produced by in independent operators, either by delays in transportation or otherwise, are so arranged that competition is absolutely suppressed with regard to them

It is noted that these prices are held uniform so far as the producer is concerned, or, in other words, with reference to prepared sizes, but they are not held uniform with regard to the other coal, against which there is the competition of the bituminous product

The profit made by this combination is enormous It pays the interest on bonds, either real or fictitious, and makes an enormous amount of watered stock at an exorbitant dividend

It is not attempted to be disguised that this combination of these companies, acting through their sales companies, is being perpetrated in the State of New Jersey by the companies subject to the laws of this State, and, as there is adequate laws to remedy this evil, the attention of the Attorney-General is called to this notation

This wrong of fixing and controlling the prices of coal is a wrong done in the State by public corporations operating in the State under license of the State

One of the evils which arises from the retail of coal arises from the fact that these railroad companies control the yards, trestles and pockets along the lines of their roads

There is no reason why these transportation companies should

have the control of the trestles and pockets along the lines of the road This very fact is the source of much evil that is perpetrated against the small consumer The control of these pockets is practically the control of the retail trade, and the lessees are forced to become a part of this combination

Coal pockets and coal yards, except they may be for temporary use, should not belong to transportation companies, nor should they be allowed to hold the retail dealer by the throat by reason of such ownership

Leases for short terms of these pockets simply puts into the power of these railroads (and that means the combination) the small retail dealer, and the retail dealer should not be forced by the railroads into such unjust position Neither should the coal companies that are chartered in this State, or do business in this State, be permitted to discriminate with regard to the persons to whom the commodity should be sold

It is in such way and in such manner that the retail dealers are forced by the producing and transportation combination into the evil which we indicate, and is a violation of the so-called "Seven Sisters Act"

The retail dealers themselves, in their small way, have attempted to combine on the product which is sold to the private consumer This is plainly shown in the combination referred to in our report and which have been dissolved, principally since this investigation began

While the method of municipalities of buying articles for municipal use has been by proposals and bids, yet these competitive bids shown in our report for the supply of coal to municipalities are made by collusion among competitors and for the purpose of defrauding the municipality

It is plainly a combination entered into for the purpose of defeating the law, which conduct is plainly prohibited by our legislation

It is a strange thing that Hudson county, which buys it coal not by competitive bids, but by contract arrangements with the Delaware, Lackawanna & Western Railroad Co, it is much cheaper than any other municipality that buys it by a system of proposals and competitive bids

If the combination arising from the railroads which presses on all of these dealers is suppressed in this State, competition will follow its natural course and the evil that now exists will be removed

We do hereby submit, as part of our report, the testimony of the witnesses called before us, as well as the documentary evidence hereto attached

As being correctly printed

Mr Scovel offered the following resolution

WHEREAS, A political Solomon is in our midst, in the person of the Gentleman from Essex, Mr Crosby, who has discovered that the Democrats of the House are "like bulls in a china shop," who destroy things they do not break, and by a natural process feed upon "Bull Con", and

WHEREAS, We have all been suffering from an erroneous impression when we believed "That still the wonder grew, how one small head could carry all he knew," applied to the Gentleman from Essex, and

WHEREAS, We have not given due credit to this oracle from Essex, yet we are forced to the inquiry "Upon what meat doth this, our Cæsar, feed that he has grown so great?", and

WHEREAS, This aforesaid wise man of the East (the other six being dead) has also stated that "the weaker members of the minority have been flattered or promised something more" by the Governor, therefore,

Be it resolved, That we extend to this *very new* member of Essex our long-delayed recognition of his power to discover the weakness and wickedness of the members of this House, irrespective of their political affiliations, that the Congress of the United States be requested to make a suitable appropriation to place the bust of this "Great Historian" from Essex in its proper and conspicuous place in the "Hall of Fame"

Which, on the call for the ayes and nays, was adopted by the following vote

Which motion was carried by a *viva voce* vote

WHEREAS, Investigations of life insurance companies in sister States have shown conditions of management of a most vicious and reprehensible character, and

WHEREAS, Such investigations resulted in the enactment of just and salutary laws in the general public interest and in the interest of the policyholders of said companies, and

WHEREAS, No investigation of industrial life companies and their business methods has been undertaken, and

WHEREAS, The policyholders and beneficiaries of such companies are more numerous and less able to protect their interests than the policyholders of the class of life insurance companies already investigated, and

WHEREAS, Charges of gross abuses in the management of such companies have been given wide publicity in the public press of this State,

Resolved, That a committee of five members of this House of Assembly be appointed by the Speaker to make a thorough investigation of the matters referred to in these preambles, and respecting the conduct and management and methods of conduct of the business of the industrial life insurance companies doing business within this State, in all its branches, and be it further

Resolved, That said committee shall have, and is hereby granted, power to sit during the session of this House and after the adjournment thereof, to compel the attendance of witnesses and the production of books, papers, documents, and all other records or testimony necessary or proper for a thorough investigation of the matters referred to it for investigation, to appoint and employ counsel and other necessary assistants,

Resolved, further, That the said committee present its report and findings at the next regular session of the House of Assembly

Mr Scovel offered the following resolution, which was read and adopted

Be it resolved (*the Senate concurring*), That Assembly Bill No 569 be recalled from the Governor for further consideration

Mr Kates offered the following resolution, which was read and adopted

Resolved by the House of Assembly (*the Senate concurring*), That the Governor be requested to return to the House of Assembly, Assembly Bill No 334, for further consideration

Mr Kates moved that the rules be suspended and that the resolution be delivered forthwith,

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT
April 6th, 1914

To the Assembly

Permit me to direct your attention to the series of bills now in your hands, designed to complete the abolition of our prison contract system and to bring some order out of the chaos in which the employment and management of convicts in our State Prison is involved Although the subject of prison reform has engaged the attention of members of the Legislature and others for several years, but little progress has been made, and while a law to abolish contract labor was enacted two years ago, nearly all contracts expiring since the passage of that law have been extended because the Legislature made no adequate provision for the employment of prisoners If the bills to which I shall refer are not passed, the disgraceful condition of affairs must continue until the attention of some Legislature can be sufficiently aroused to provide the necessary remedy The report of the Economy and Efficiency Commission has this to say on the subject

> "The result of all this legislation upon the State Prison is that it is very difficult to say that there is any person, or body of persons, really responsible for the management of the prison and the prisoners The principal keeper has some authority, as has also the super-

visor, the inspectors of the State Prison, the Prison Labor Commission and the Board of Parole Disputes have arisen and the Attorney-General on several occasions has been appealed to for advice as to the respective rights and duties of the various officers and boards Towards the close of the last session of the Legislature, the friction between the different officers and boards became quite evident It also became evident that there was a possibility that the prisoners would suffer that employment would not be provided for all, and that many would spend their time in idleness, which, experience has shown, leads to both physical and moral deterioration"

The bills to which I refer are Assembly Bills Nos 146, 147, 148, 149, 280, 283 and 642 Bill 146 reappropriates for the prison farm the sum of $10,000, allowed by the Legislature of last year, so that stock, implements, provisions and seeds can be purchased without increasing the amount of the appropriation

Bill 147, by Committee substitute, provides for a prison labor commission to regulate and supervise the labor inmates of penal, correctional and reformatory institutions, with power to establish a wage system for such inmates

Bill 148 repeals the parole law of last year and will leave the power of parole with a new Board of Prison Inspectors created under one of the other bills

Bill 149, by Committee substitute, reorganizes the prison management and vests the control in a new board of inspectors, making the keeper of the prison the chief executive officer of the board and placing the supervisor of the prison under his direction This bill eliminates the many different kinds of authority, centralizes and simplifies the whole system

Bill 280 by Committee substitute, authorizes convict labor on public work through the Commissioner of Roads and other State departments

Bill 283, by Committee substitute, permits the employment of county prisoners on county work and provides a wage system

Bill 642 amends the indeterminate sentence act and provides for parole by the new Board of Prison Inspectors

These bills, or the principal Committee substitutes, are the result of the labors of those who have given prison management long and careful study, and at a conference which I had with the Prison Inspectors, the Prison Labor Commissioners, the State Road Commissioner, the Commissioner of Charities, the keeper

and supervisor of the prison, they were agreed by all except the last two named The keeper felt they would lessen the authority he now possesses, and the supervisor did not wish to be placed under the control of any central body and feared his position would be abolished

Some influences have been engaged in defeating this legislation and have not worked in the open where they can be identified Bills 146, 147, 148 and 149 were introduced January 26th, but have not been brought to a final vote Some of the bills have been reported from committee and sent back again Of course, the men holding convict labor contracts want to continue such contracts, and would, therefore, be pleased with the defeat of this legislation I do not know that they are using any efforts to accomplish this result, although I have heard rumors, which I have been unable to verify, to that effect Recently, amendments to, and other substitutes for, the most important bills, 147 and 149, have been offered, which amendments and substitutes are objectionable to those who are seeking the best kind of legislation on the subject, and the only acceptable amendment is one which will permit the supervisor of the prison to serve out the term for which he was appointed

It is essential to the working out of our prison problems that there should be a centralized responsibility in prison management, and to properly accomplish it these bills must be passed without further change or amendment If the Legislature adjourns without providing the relief, an intolerant condition will grow worse and the contractors of prison work will be entirely satisfied

Very respectfully,

JAMES F FIELDER,
Governor

To the Assembly April 6th, 1914

I return herewith Assembly Bill 172 without my approval

This bill purports by its title to be a supplement to "An act concerning minors, their adoption, custody and maintenance" Its object is to legitimatize a class of children who, at common law and under the present laws of the State, are illegitimate This object has nothing whatever in common with the adoption, custody and maintenance of minor children, and is therefore not within the scope of the title The object of the bill not being expressed in the title, makes it unconstitutional

It intends to provide that if the parents of an illegitimate child shall marry each other, the child shall be legitimatized, but it does not say so clearly It is also objectionable to me because of the proviso which prevents the legitimatizing of a child born to a married man and a single woman in case the parents should, when the disability is removed, marry each other

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the Legislature April 6th, 1914

My attention has been called to the phrasing of the new inheritance tax law, under which it may be possible that a tax of five per cent could be collected upon inheritances between $500 and $5,000, passing to so-called lineal descendants If such might be the construction of the act, it has escaped the notice of the Attorney-General's office, where it was prepared, of all the lawyers who have examined it on behalf of the banks, safe deposit and trust companies, and of every member of the Legislature as well as mine It is hardly necessary to say that it was not the intention of any one that such a tax should be imposed, and now that the question has been raised while the Legislature is still in session, the doubt had better be removed beyond all peradventure

Before affixing my signature to the bill in question, I accorded a hearing to representatives of banks, safe deposit and trust com-

panies, at which hearing I was much impressed with the argument that the husband or wife of a descendant should be placed in the same class as children, for the purpose of taxation, and with the further contention that all property of nonresidents, except real estate, goods, wares and merchandise and stock in New Jersey corporations and national banks located here, should be exempt from an inheritance tax, for the reason that any attempt to impose a tax on personal property thus owned would simply result in driving it out of our jurisdiction, to the loss of those whose business might be benefitted by keeping it here, with no gain whatever to the State I did not, however, feel disposed to veto the bill for these reasons, or to return it to you for amendment and assume the risk that opposition to such changes might defeat its repassing in the closing hours of the session

A new bill has been prepared, embodying the changes here mentioned, and I shall request that it be introduced in the Assembly, recommending its passage

The following message was received from the Governor by the hands of Mr Heirmann, his Secretary, which was read, as follows

EXECUTIVE DEPARTMENT, April 7th, 1914

To the Assembly

If what I have heretofore communicated to you on the subject of small boards of freeholders has not impressed you favorably, it seems idle to say anything further, and yet, believing it my duty to do so, I am constrained to make another attempt to point out to you the obligation I consider you are under to pass a mandatory bill for all counties before final adjournment It is the general sentiment of the State that such a law should be enacted, and you have but to refer to the large number of votes cast in counties where the proposition has been submitted at elections to be convinced that I am asserting a fact Why is it that this legislation, promised before election from many a platform, is now denied? Why is it that the majority of your body accepts amendments to a mandatory bill which make it obnoxious to this large body of voters? Why is it that members from counties where small boards are giving complete satisfaction, by their votes in connection with this measure, make it difficult for other counties to secure the kind of government they enjoy? Those who want this legislation find in the course you have pur-

sued no satisfactory answer to these questions, and I warn you that your failure to pass a mandatory bill will be taken as a betrayal of a trust I feel is imposed upon you

Respectfully,

(Signed) JAMES F FIELDER,

[SEAL.] *Governor*

The following communication was read and received from the Attorney-General, which said communication was ordered spread in full on the minutes

STATE OF NEW JERSEY,
OFFICE OF ATTORNEY-GENERAL,
TRENTON, N J, April 7th, 1914

Hon Azariah M Beekman, Speaker of the House of Assembly

DEAR SIR—I received from the Clerk of the House of Assembly a resolution reading as follows

"*Resolved,* By the House of Assembly, that the Attorney-General be requested to render an opinion as to whether or not boxing, within the purport of Assembly Bill No 173, is in contravention of the Crimes Act and whether or not boxing, fighting and prize fighting are synonymous"

Section 41 of the Crimes Act of 1898 provides that

"Any person who shall be engaged in any fight or combat, with fists, with or without gloves, whether such fight or combat, be for money or any other valuable thing, or for any benefit for any other person, or merely to test the skill or bodily powers of the pugilists or combatants, and every person who shall aid, assist or abet in any such fight or combat, whether coming from a foreign State or not, for the purpose of witnessing the same, shall be guilty of a misdemeanor"

Assembly Bill No 173 provides for the licensing of boxing and sparring matches, and exhibitions to be conducted, held or given within the State by a club, corporation or association, with gloves weighing at least eight ounces, and for not more than ten rounds It also contemplates that the club, corporation or association conducting or holding such boxing or sparring exhibition or match, may charge admission fees to spectators

In my judgment, such a boxing or sparring match or exhibition is a fight with fists, within the meaning of section 1, as above quoted, and if enacted, would, by necessary implication, repeal said section 41, at least in so far as the provisions of the same are inconsistent with Assembly Bill No 173

"Boxing," "fighting" and "prize fighting" are not synonymous terms

Very respectfully yours,
(Signed) HERBERT BOGGS,
Assistant Attorney-General

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the Assembly April 8th, 1914

Upon a misunderstanding of the facts, I returned to you Assembly Bill No 699 with a veto message Being now aware of the mistake under which I was acting, I respectfully request that the bill and the message be returned to me without any action thereon

Very respectfully,
[SEAL.] JAMES F FIELDER,
Attest *Governor*
L. EDWARD HERRMANN,
Secretary to the Governor

Mr Branegan moved that the message be received and the request complied with, and that all matter relating to and including said veto message heretofore entered in the minutes be expunged from the same,

Which motion was carried

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
April 8th, 1914

To the Assembly

I return herewith Assembly Bill No 436, without approval.

Signatures to petitions for street improvements are so frequently obtained by misrepresentation or other misunderstanding as to the nature or cost thereof, and it is not until after a preliminary hearing that the property owner is fully informed as to the details of the work to be done and the approximate cost thereof A large majority of those who petition for an improvement may then discover that the cost is prohibitive, or will result in an assessment which the property cannot stand They should then have the right to withdraw from any further proceedings, but the enactment of this bill would prevent them from doing so

Respectfully,
JAMES F FIELDER,
Governor

[L S]
Attest
L EDWARD HERRMANN,
Secretary to the Governor

The message was ordered to lie over, as provided by the Constitution

Mr Branegan, Chairman of the Committee on Judiciary, reported

Commissioner of Charities and Corrections devoted to the preparation of plans and specifications of State buildings,"

By Committee substitute

The Clerk of the House announced that he had this day delivered to the Secretary of State Assembly Concurrent Resolution No 10, and received his receipt therefor

Said resolution reads as follows

Assembly Concurrent Resolution No 10

WHEREAS, An extensive public sentiment plainly exists throughout the counties of this State situated adjacent to the Hudson river for the building of a bridge across said river, from some suitable point in this State to some suitable point in the State of New York, and

WHEREAS, The said bridge would constitute an interstate highway of great convenience and enormous material benefit to the people of the two States chiefly concerned, and

WHEREAS, The main obstacle to the building of said bridge is the financial burden involved therein, which it seems impracticable for the States or the counties or municipalities immediately concerned to assume, therefore, be it

Resolved, That the House of Assembly of New Jersey respectfully urge upon the New Jersey Representatives in the Congress of the United States the advisability and importance of seeking co-operation with the Representatives of the State of New York in Congress looking to an immediate investigation by the Federal government of the problem of constructing a North river bridge at the expense of the National government as a medium of interstate commerce between New York and New Jersey, and further, be it

Resolved, That a copy of this resolution be at once forwarded by the clerk of the House of Assembly to the President of the United States and to the New Jersey Representatives in the Congress of the United States

On motion of Mr Branegan, the House adjourned to meet to-morrow, Thursday, April 9th, 1914, at 10 45 A M

To the Assembly April 9th, 1914

I return herewith Assembly Bill No 612 without my approval
I believe that the rules of practice in the law and Chancery Courts now permit sufficient latitude in the taking of depositions, the examination of parties before trial and the inspection of books and other documents If it were possible, under such a law as this bill proposes, to take the testimony before trial of any and all witnesses, an unscrupulous litigant could easily use it to ascertain the whole case of his adversary and then prepare himself to meet it on trial

Respectfully,

[SEAL] JAMES F FIELDER,
Attest *Governor*
L EDWARD HERRMANN,
Secretary to the Governor

Mr Branegan moved that said message be spread in full on the minutes, and that the same lie over as provided by the Constitution,

Which motion was carried

The Clerk of the House announced that he had this day delivered to the Secretary of State, Mr David S Crater, Assembly Concurrent Resolution No 11, and received his receipt therefor

Said concurrent resolution reads as follows

ASSEMBLY CONCURRENT RESOLUTION No 11

BE IT RESOLVED *by the House of Assembly (the Senate concurring)*

That the following amendment to the Constitution of this State be and the same is hereby proposed, and when the same shall be agreed to by a majority of the members elected to the Senate and House of Assembly and said amendment shall be entered on their journals, with the yeas and nays taken thereon, and referred to the Legislature next to be chosen, and shall be published for three months previous to the first Tuesday after the first Monday of November next in at least one newspaper of each county, if any be published therein, the said newspaper to be designated by the President of the Senate, the Speaker of the House of Assembly and Secretary of State,

ARTICLE IV

Legislative

Amend Article IV by adding the following section, which shall be known as Section IX

Section IX

1 The Legislature may authorize the State, or counties, cities, towns, boroughs or other municipalities, or any board, governing body or commission of the same, to take more land and property than is needed for actual construction in the laying out, widening, extending or relocating the parks, public places, highways or streets, *provided, however,* that the additional lands and properties so authorized to be taken shall be no more than sufficient to form suitable building sites abutting on such park, public place, highway or street After so much of the land or property taken has been appropriated for such park, public place, highway or street as is needed therefor, the remainder may be sold or leased and reasonable restrictions imposed

Messrs Godfrey and Richards extended a cordial invitation to the members of the House and press to take dinner with them at the Hotel Chelsea, Atlantic City, N J, on Saturday, April 25th, 1914

The invitation was accepted with the thanks of the House

A further message was received from the Senate, by the hands of its Secretary, as follows

By Mr Godfrey—WHEREAS, By reason of its natural advantages and location, its railroad facilities and the energy and determination of its people, and its nearness to the great markets, the State of New Jersey has become one of the greatest manufacturing locations in the country, and with proper governmental encouragement its industries should rapidly increase in number and importance, and its manufacturers, its farmers, its oystermen, its fishermen, its shore and mountain resorts, its employers and employees in every industry should be continuously prosperous, and WHEREAS, It is alleged that a feeling of unrest and uncertainty is now prevalent among employees as well as employers of labor, and it is the duty as well as the pleasure of the members of this House of Assembly to obtain accurate information concerning this subject—so vital to the welfare of the people of our State—to the end that this House may advocate such legislation as will result in re-establishing or increasing confidence in business and commercial conditions and in the continuous employment of all our people at satisfactory wages, or in proving that our people are now enjoying the prosperity to which they are entitled, and in order to obtain intelligent and correct facts for the use of this Legislature that we may take such action as will plainly and publicly indicate our desire and determination to aid the employees as well as the employer in accomplishing said result and with this absolutely non-partisan object in view, therefore, be it *Resolved,* That a special committee of six members of this House be appointed, three of whom shall be members of the Democratic party and

three of whom shall be members of the Republican party, the committee shall be appointed by the Chair within one day after the passage of this resolution and the committee shall, within five days after their appointment, mail to each known employer of labor engaged in any manufacturing or producing industry in this State as well as employers whose places of business are located out of this State but and of whose employees reside in this State, a letter (describing same) The Committee shall also, within a period of five days after their appointment, mail to the presiding officers of each Labor Union and such other organizations or associations of employees having any members who reside in this State, whether the factory or place of employment of such members shall be located in this State or not, a letter (describing same) *And be it further resolved,* That the Committee shall cause the replies to said letters to be tabulated and the results to be reported to the Legislature at its present session, and all replies shall be public documents, except replies of such persons as shall request that their replies shall not be made public, in which case such replies shall not be public documents All replies, as soon as received, shall be filed in the Department of Labor, whose office shall be the depository of such letters and the work of mailing such inquiries and of tabulating such answers shall be done in that office—164

Resolution—By Mr Bredenbek—WHEREAS, A number of railroads operating within the State of New Jersey operate or cause to have in operation what are known as voluntary relief funds or associations for the avowed purpose of insuring their employees against the hardships of illness, accident or death, and WHEREAS, It is a matter of common rumor, knowledge and belief that said funds or associations are not voluntary, but that on the contrary said funds or associations are made obligatory on the part of the employees of said railroads, and of the Pennsylvania Railroad in particular, and that one of said funds, known as the Voluntary Relief Department, is kept in charge of the railroad, supervised by the railroad, and controlled by the railroad specifically mentioned hereinbefore, and that much hardship is occasioned the employees who are compelled to join said fund or association or contribute to same, and WHEREAS, Said fund or association really being an insurance fund that is not voluntary and is obligatory should be placed under the supervision of the State Banking and Insurance Commissioner similar to the supervision exercised over other insurance and banking interests, and WHEREAS, There is grave reason to believe that said fund is not managed to the satisfaction of involuntary contributors, and that said contributors do not in every instance enjoy the benefits of their contributions or premiums so paid, therefore, be it *Resolved,* That said voluntary relief department of the said Pennsylvania Railroad Company be investigated by a committee or commission of five members of the General Assembly of the State of New Jersey, said members to be appointed by the Speaker of said General Assembly, and empowered to cause to be produced any books, papers, pamphlets, receipt books, literature or other documents or evidence relative to same, and to issue summonses or subpœnas upon whomsoever they may see fit to call to testify in such proceedings to investigate said fund, and that they are hereby empowered to hold hearings, engage the assistance of counsel in their deliberations and to provide for all the legitimate ex-

penses of said investigation, said expenses, however, not to exceed the sum of five thousand dollars ($5,000), which sum is hereby appropriated for that purpose, any part of said fund left as a balance to be returned to the State Treasurer to be deposited in the State treasury, and be it further *Resolved,* That said committee or commission so appointed by the Speaker of the General Assembly of the State of New Jersey shall have power to investigate the relief funds or associations of any other railroad or railroads that it may see fit to inquire into under provisions similar to the provisions for the investigation of said voluntary relief department of the Pennsylvania Railroad Company, to the end that justice and protection be given the employees of the said Pennsylvania Railroad Company, or the other company or companies mentioned, by a proper method of State supervision over funds deposited for the aforesaid purpose as premium or contribution, for insuring said employees against the hardships occasioned by illness, accident or death, and that said committee or commission report its findings and recommendations to the next General Assembly of the State of New Jersey—166

Resolution—By Mr Stevens—That the privileges of the floor be extended to the Hon Robert E Hand, a former member of this House from the county of Cape May—167

By Mr Richards—WHEREAS, It appears from the report of the West Jersey & Seashore Railroad Company to the Board of Public Utility Commissioners for the year ending June thirtieth, nineteen hundred and thirteen, that the assessed value of the property of the said company is $15,506,000 And it further appears that the said company declared a dividend upon its preferred stock of 6 per cent, and upon its common stock of 5 per cent, which dividends amounted to $488,000, and also reserved as a surplus the sum of $516,000, and WHEREAS, It appears that the said company is earning upon the physical value of its said property an income in excess of 66 per cent, and WHEREAS, It is asserted that the most profitable portion of the business of said company is its main line from Camden to Atlantic City, and WHEREAS, For a long space of time its terminal facilities in Atlantic City have been grossly inadequate and antiquated and its present unsightly station building in Atlantic Cty has greatly retarded the growth of the said city, and WHEREAS, The citizens of Atlantic City have repeatedly requested the said company to relieve the aforesaid condition, and officers of said company in reply thereto publicly stated that it was financially unable to build a new station in Atlantic City, and WHEREAS, It appears from the above mentioned report that the statements of the said company are misleading and untrue, now, therefore, be it *Resolved,* That the Speaker appoint a committee of three members of the House, and that the said committee be authorized and directed to inquire into the financial affairs of the said West Jersey & Seashore Railroad Company and to ascertain therefrom if the said company is financially able to erect a modern station building in Atlantic City, and be it further *Resolved,* That if the said committee finds that the said company is financially able to build said station, then the said committee shall ascertain whether or not the Board of Public Utility Commissioners have power to compel the building of such station, and if the committee finds that the said board is without such authority, or that such authority is doubtful, then the said commitee shall report to this House such general meas-

ure or measures as will confer authority upon the said board to compel all railroad companies operating within this State to furnish proper terminal facilities within the State whenever in its judgment it may be necessary and proper to do so The committee shall have power to summon witnesses and require the production of books and documents deemed necessary for the prosecution of said inquiry, and the said Board of Public Utility Commissioners is hereby directed to lend to the said committee whatever assistance it can to the prosecution of the said inquiry by the said committee—168

By Mr Godfrey—WHEREAS, When the people of New Jersey were asked to vote upon the acceptance or rejection of the act adopted at the special session of the Legislature, held in May, 1913, and known as the Chancellor-Sheriff Jury Bill, it was assumed that said act would furnish to the people of our State, for such period of years as said act should remain in force, juries drawn by a non-partisan commission, consisting of the sheriff of the county and another person appointed by the Chancellor from a different political party than the party to which the sheriff belongs, and WHEREAS, Under the direction of the said act the Chancellor has recently appointed jury commissioners for each county in New Jersey to serve for the term of one year, which term expires about the fifteenth day of February, 1915, and WHEREAS, In many of the counties of our State the

terms of office of the sheriff will expire on the third Tuesday of November, 1914, if this act does in good faith require a non-partisan jury commission, then the following questions thereby arise (1) Is a member of the Democratic party eligible for election as sheriff in counties in which a Democratic jury commissioner is in office? (2) Is a member of the Republican party eligible for election as sheriff in counties in which a Republican jury commissioner is in office? (3) Is a member of the Progressive party eligible for election as sheriff in counties in which a Progressive jury commissioner is in office? AND WHEREAS, If the members of the Democratic, Republican and Progressive parties are eligible for election as sheriff at the coming November election, then it is evident that in several counties the jury commission will consist of two members of the same political party from about the midle of November until the middle of the February following, therefore, be it *Resolved,* That the Attorney-General be instructed to draw an amendment to said act in order to correct this serious error—279

By Mr Branegan—That it is the sense of this House of Assembly that inasmuch as the legislative duties of the members thereof are of sufficient magnitude and importance to command their sole attention and engage their entire ability, it is not only an exaggeration of power and importance, but an exhibition of silly vanity and egotism for this Legislature to consider or adopt vague, indefinite and misleading memorials or resolutions reflecting upon the conduct and management of the affairs of the Federal Government or any act or policy of any branch of the Government of the United States of America, whether such memorial or resolution be prompted by an ignorant misconception of national affairs or whether the same is conceived in a stupid and mistaken effort to promote petty political advantage It is more fitting and creditable for the members

of this House to bear in mind the scope of duties they are properly expected to perform and to confine the use of their talents toward the solution of the problems of their own State rather than criticise those of superior wisdom and authority whom the nation has wisely chosen to manage its affairs—1006
