General Information

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Stream Encroachment (SE) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA).

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

NJPDES Master General Permit Program Interest NJPDES Permit No. NJ0070203 DSW Major	401 E State St Trenton, NJ 08625 Mercer County	Ben Manhas Bureau of Point Source Permitting Region 1 (609) 633-3869	Receiving Stream: As per Individual Authorization Classification: As Per Individual Authorization Watershed: As Per Individual Authorization	NJDEP has prepared a draft New Jersey Pollutant Discharge Elimination System general non-contact cooling water (CG) permit to reauthorize the discharge of non-contact cooling water and authorize the discharge of non-contact cooling water co-mingled with stormwater into surface of the State, except those waters classified as FW-1, C1 or PL (Pinelands). The issuance of this permit will allow the Department to issue authorizations for non-contact cooling water discharges to applicants that meet certain eligibility criteria. Pursuant to N.J.A.C. 7:14A-6.13, the Department has determined that these types of point sources require the same effluent limitations or operating conditions, require the same or similar monitoring conditions and are more appropriately controlled under a general permit than under individual permits. Applicants for new discharges must request authorization to be covered under the general permit by submitting appropriate NJPDES application forms. If the Department determines that the individual facility meets the eligibility requirements of the master CG permit, then an individual authorization is issued to that facility. Application forms are available at www.state.nj.us/dep/dwq.
