RE: AMENDED REGULATIONS ON PHYSICAL EXAMINATIONS FOR HOSPITAL PERSONNEL,

The State Board of Control, at its meeting on April 24, 1968, approved the amended regulations recommended by the Hospital Licensing Board on physical examinations for hospital personnel. These regulations replace those previously approved by the Department and have been made a part of the Manual of Standards for licensed and approved hospital facilities. Although full compliance with the regulations shall be mandatory by April 24, 1970, compliance at an early date is recommended.

A copy of the regulations are attached and it is requested that you acknowledge their receipt by signing and returning the following form. Any question regarding the regulations should be directed to Mr. Thomas M. Russo, Chief of the Bureau of Community Institutions.

Sincerely yours,

Lloyd W. McCorkle

REGULATIONS ON
PHYSICAL EXAMINATIONS FOR HOSPITAL PERSONNEL

The following amended regulations on physical examinations for hospital personnel, adopted by the State Board of Control on April 24, 1968 and effective that date, shall be applicable to all existing licensed and approved hospitals in the State. These regulations replace those previously approved by the Department and have been made a part of the Manual of Standards for Private Hospitals. Full compliance shall be mandatory by April 24, 1970.

All regular paid personnel shall be given pre-employment examinations consisting of a general physical examination including a chest x-ray or Tine test and stool cultures if a history of typhoid fever is elicited. A physical examination including chest x-ray or Tine test shall be repeated annually on all such personnel. Other personnel who show signs of other respiratory infections, skin lesions, diarrhea and other communicable diseases shall be excluded from work to return only after a check-up by a physician.

Recommended by the Hospital Licensing Board on April 5, 1968.
Approved by the State Board of Control on April 24, 1968.
