Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Stream Encroachment (SE) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA).

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed does not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed inside the back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

PUBLIC HEARING NOTICE

Department to Readopt Sewage Infrastructure Improvement Act Grants Rules

The Department is proposing to readopt its rules at N.J.A.C. 7:22A, entitled *Sewage Infrastructure Improvement Act Grants*. These rules govern those municipalities with stormwater sewer systems which discharge to the salt waters of Monmouth, Ocean, Atlantic or Cape May counties and owners/operators of combined sanitary and storm sewer systems. Chapter 22A establishes requirements associated with mapping and monitoring stormwater discharges in the affected municipalities, as well as providing a mechanism for the municipalities and other local government units to receive planning and design grants for combined sewer overflow (CSO) abatement and elimination of interconnections/cross-connections (I/C). Chapter 22A is administered jointly by the Municipal Finance and Construction Element in the Division of Water Quality (for the CSO and I/C components) and the Division of Watershed Management (for the stormwater mapping and monitoring components). The rules expire under the five-year sunset provision of Executive Order 66 (1978) on December 22, 1999.

The rule has seven subchapters. Subchapter 1 includes general provisions and definitions. Subchapter 2 describes the grant agreement procedures and requirements. Subchapters 3 and 4 address preliminary mapping and final mapping and monitoring responsibilities for the 94 affected municipalities. Subchapter 6 identifies the provisions specific to the combined sewer overflow (CSO) abatement planning and design grant aspects of the SIIA. Subchapter 7 identifies the planning and design grant procedures for those affected municipalities that identify interconnections and/or cross-connections of sanitary and stormwater sewer systems.

A public hearing regarding the proposed readoption of N.J.A.C. 7:22A will be held on August 24, 1999 at 10:00 am at the offices of the NJ Environmental Infrastructure Trust located at 3131 Princeton Pike, Building 6, Suite 201 in Lawrenceville, New Jersey. A complete copy of the proposed readoption will be published in the August 2, 1999 *New Jersey Register*. The period for submitting written comments on the proposal will close September 1, 1999.

For more information about the proposed readoption of N.J.A.C. 7:22A, please contact Theresa Fenton from the Division of Water Quality's Municipal Finance and Construction Element at (609) 292-3859 or David Rosenblatt from the Division of Watershed Management at (609) 984-6860.
