JOURNAL OF THE SENATE

STATE OF NEW JERSEY,

SENATE CHAMBER,

TRENTON, N. J., TUESDAY, January 9th, 1923.

At 12 o'clock M., this being the time and place appointed by the Constitution for the assembling of the Legislature, the Senate was called to order by the Honorable William A. Stevens, the Senator from Monmouth county, who read the following statement:

STATE OF NEW JERSEY,

DEPARTMENT OF STATE.

I, Thomas F. Martin, Secretary of State of the State of New Jersey, do hereby certify that the following members of the Senate have been duly qualified:

Emmor Roberts, for Burlington county.

Joseph F. Wallworth, for Camden county.

William H. Bright, for Cape May county.

William H. Parry, for Essex county.

Horace M. Fooder, for Gloucester county.

David H. Agans, for Hunterdon county.

Morgan F. Larson, for Middlesex county.

William A. Stevens, for Monmouth county.

Albin Smith, for Passaic county.

Collins B. Allen, for Salem county.

Clarence E. Case, for Somerset county.

Henry T. Kays, for Sussex county.

Thomas Barber for Warren county.

And it further appears that at the General election held on the seventh day of November, A. D. 1922, members of the Senate were duly elected as follows:

Emerson L. Richards, for Atlantic county.

William B. Mackay, Jr., for Bergen county.

Firman M. Reeves, for Cumberland county.

Alexander Simpson, for Hudson county.

William H. Blackwell, for Mercer county.

Arthur Whitney, for Morris county.

Thomas A. Mathis, for Ocean county.

Arthur N. Pierson, for Union county.

In testimony whereof, I have hereunto set my hand and affixed my official seal, at Trenton, this ninth day of January, A. D. 1923.

[SEAL.] (Signed) THOMAS F. MARTIN,
Secretary of State.

Mr. Stevens moved that the Hon. Henry T. Kays, from the county of Sussex, be appointed President *pro tempore.*

Which was agreed to.

Mr. Stevens appointed Senators Mackay, Pierson and Smith to conduct the President *pro tempore* to the chair.

Mr. Stevens moved that William H. Albright, of Gloucetser county be appointed temporary secretary.

Which was agreed to.

The credentials of the Senators-elect were presented as follows:

Emerson L. Richards, for Atlantic county.

William B. Mackay, Jr., for Bergen county.

Firman M. Reeves, for Cumberland county.

Alexander Simpson, for Hudson county.

William H. Blackwell, for Mercer county.

Arthur Whitney, for Morris county.

Thomas A. Mathis, for Ocean county.

Arthur N. Pierson, for Union county.

And the oath of office was administered by the President *pro tempore.*

Under the direction of the President *pro tempore* the Secretary called the Senate, when the following Senators appeared and answered the call:

Messrs. Agans, Allen, Barber, Blackwell, Bright, Case, Fooder, Kays, Larson, Mackay, Mathis, Parry, Pierson, Reeves, Richards, Roberts, Simpson, Smith, Stevens, Wallworth, Whitney—21.

On motion of Mr. Smith, the Senate proceeded to the election of a President.

Mr. Smith nominated the Hon. Joseph F. Wallworth, of Camden county.

Mr. Simpson nominated the Hon. David H. Agans, of Hunterdon county.

Under the direction of the President *pro tempore* the Secretary called the Senate, with the following result:

The Senators voting for the Hon. Joseph F. Wallworth were:

Messrs. Agans, Allen, Blackwell, Bright, Case, Fooder, Larson, Mackay, Mathis, Parry, Pierson, Reeves, Richards, Roberts, Smith, Stevens, Whitney—17.

The Senators voting for the Hon. David H. Agans were:

Messrs. Barber, Kays, Simpson, Wallworth—4.

Mr. Wallworth having a majority of all the votes cast, was declared by the President *pro tempore* duly elected President of the Senate for the ensuing year, and was conducted to the chair by Senators Smith, Bright, Barber and Stevens.

The oath of office was administered by the President *pro tempore.*

The President, on taking the chair, addressed the Senators as follows:

To the Members of the Senate:

I wish to say that being a firm believer in the fact that the best interests of the State and the people of the State would be served by a short and business-like session, I will exemplify that by being brief at this time. I deeply appreciate your action in having elected me as your President. You have conferred upon me a splendid honor; yet with it I realize the tremendous responsibility. When I lay down this gavel it will be my greatest ambition that it will be said of me that I was worthy of this great honor.

While you have elected me to preside over your deliberations, yet it remains a fact that the responsibility is yours for the acts of this session. It is my intention to call these sessions promptly to order at the hour agreed upon, and it is my sincere hope that I shall have the earnest co-operation of the members in making these sessions successful in every way.

To all visitors, and I believe I voice the sentiment of the entire membership when I say the membership will welcome

your visits and your advice and counsel in the matter of all the business that is for the benefit of the State.

Prayer was then offered by the Reverend DeWitt C. Cobb, of Long Branch, N. J.

On motion of Mr. Stevens, the Senate then proceeded to the election of a Secretary.

Mr. Stevens nominated Mr. William H. Albright, of Gloucester county.

Mr. Agans seconded the nomination.

Mr. Albright was elected by the following vote:

Messrs. Agans, Allen, Barber, Blackwell, Bright, Case, Fooder, Kays, Larson, Mackay, Mathis, Parry, Pierson, Reeves, Richards, Roberts, Simpson, Smith, Stevens, Wallworth (President), Whitney—21.

Mr. Albright, being declared elected Secretary of the Senate, took the oath as prescribed by law.

Under the direction of the President, the Secretary called the Senate, when the following Senators appeared and answered the call:

Messrs. Agans, Allen, Barber, Blackwell, Bright, Case, Fooder, Kays, Larson, Mackay, Mathis, Parry, Pierson, Reeves, Richards, Roberts, Simpson, Smith, Stevens, Wallworth (President), Whitney—21.

Mr. Stevens offered the following resolution, which was read and adopted:

Resolved, That a committee of three be appointed to wait upon His Excellency, the Governor, and inform him that the Senate has organized and elected Hon. Joseph F. Wallworth, of the county of Camden, President, and William H. Albright, of the county of Gloucester, Secretary, and is now ready to proceed to business and also to receive any communication that he may make.

Committee appointed—Senators Whitney, Richards and Simpson.

Mr. Stevens offered the following resolution, which was read and adopted:

Resolved, That the Secretary of the Senate be directed to inform the House of Assembly that the Senate has organized and elected the Hon. Joseph F. Wallworth, of the county of Camden,

President, and William H. Albright, of the county of Gloucester, Secretary, and proceeded to business.

Mr. Stevens offered the following resolution, which was read and adopted:

Resolved, That, unless otherwise ordered, the daily sessions of the Senate shall begin at eleven o'clock in the forenoon and at half-past two o'clock in the afternoon.

Mr. Stevens offered the following resolution, which was read and adopted:

Resolved, That the number of copies of the Legislative Manual apportioned by law to the State Senate be distributed on the same basis as the session of 1922.

Mr. Stevens offered the following resolution, which was read and adopted:

Resolved, That the Secretary of the Senate be and he is hereby directed to furnish each member, clerical officer and reporter one copy of Members' Pocket Calendar of Legislature of 1923.

Mr. Stevens offered the following resolution, which was read and adopted:

Resolved, That 1,000 copies of each bill, joint resolution and concurrent resolution, daily memorandum and gummed synopsis sheets be printed for the use of the Senate.

Mr. Stevens offered the following resolution, which was read and adopted:

Resolved, That the Committee on Stationery and Incidental Expenses be authorized to procure bill files and the necessary stationery and supplies for the use of the members and officers of the Senate.

Mr. Stevens offered the following resolution, which was read and adopted:

Resolved, That the President of the Senate is hereby directed to instruct the State Printer to mail to each member of the Senate, at his residence and business address, at least one copy of each bill and resolution, both Senate and House, as soon as the same is printed.

Mr. Stevens offered the following resolution, which was read and adopted:

Resolved, That the Sergeant-at-Arms be instructed to report daily to the Secretary the absence without leave of any of the

officers and attaches of the Senate; the complete report of such absentees and the time lost to be furnished to the Committee on Appropriations at the closing of the session, and that a pro rata reduction be made by such committee, and a copy of their report be furnished to the Comptroller.

Mr. Whitney, for the Committee on Notification to Governor, reported that they had performed their duties.

Mr. Stevens offered the following resolution, which was read and adopted:

Resolved, That 800 copies of the Weekly Senate Journal be printed, and the State Printer be directed to mail copies to each member of the Senate and House and to the clerical officers of each body.

The following message was received from the Governor, by the hands of J. Harry Foley, his Secretary, which was read as follows:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
TRENTON, January 9th, 1923.

To the Legislature:

The term of the present Executive closes within a week. It would seem appropriate that recommendations in respect of State policies to be adopted within the term of the next Governor should emanate from him. With that thought in mind, this message, which is sent in compliance with the constitutional mandate, will deal with very few subjects and in but a brief way with those.

During the past three years recommendations have been made by me to the Legislature upon various topics. Some of the measures recommended were carried into law; others were not, and I desire to refer to a few of the recommendations so made which did not become law.

TAX ON GASOLINE.

To the Legislature of 1922 I recommended that a law be enacted providing for the imposition of a tax of one cent a gallon upon all gasoline sold in this State for use by automobiles, the tax to be collected from the producer, so as to insure collection

at a minimum cost, and the proceeds to be devoted to the maintenance of our highways. While there was introduced a bill carrying out such recommendation, it failed of passage. The Legislature of last year enacted a statute providing for the creation of a debt of this State in an amount not exceeding Forty Million Dollars, and the issuance of bonds therefor. In compliance with the constitutional requirement, the act was submitted for approval to the people at the general election of November, 1922, which approval was given. The statute provides that the bonds shall be issued from time to time as money is required for the purpose for which they are authorized, as certified to by the State Highway Commission, in no greater amount than Eight Million Dollars in any calendar year. To provide bonds for the payment of the interest and principal of the bonds so to be issued, the statute authorizes the assessment and collection of a tax beginning with 1923 and continuing until the bonds are retired. The tax for the period between 1923 and 1927 is to be not less than one mill on each dollar of the value of real and personal property in the State, but during such period and thereafter the amount to be raised by taxation must be a sum sufficient to meet the interest on all outstanding bonds and on such bonds as it is proposed to issue in the calendar year in which the tax is to be raised, and for the creation of a sinking fund for the retirement of all such bonds. Upon the assumption that the State Highway Commission will proceed with the execution of the road program of the State necessitating the issuance of bonds in considerable amounts, it would seem to be self-evident that such measure designed to provide additional revenues to be used for the purpose of lightening the tax burden created by this act is highly desirable. A tax of one cent a gallon on gasoline sold or used in automobiles will result in the collection each year of a large sum of money, which can be used for meeting, in part, the interest and principal of such bonds as may be issued for the completion of the road program. The imposition of such a tax would seem to be just and equitable, because if imposed it will be levied upon those who, I think, are the immediate and direct beneficiaries of the extension and comple-

tion of the State's road program. The collection of such moneys would relieve some of our taxpayers who are not directly benefited or benefited to the same extent, and I therefore recommend that legislation be adopted providing for such tax.

I may be pardoned if I depart from my announced intention of leaving to my successor recommendations of future policies. But I cannot leave the subject without suggesting that although the people have given their approval to the statute authorizing the creation of a State debt of Forty Million Dollars, the Legislature should consider very seriously the repeal of the statute, and the substitution of such other means of raising the moneys necessary to complete the program. I am not satisfied that the State should embark upon the policy of expending within the next five years upon roads alone as large a sum of money as Forty Million Dollars. In a word, I believe that economy and retrenchment should be practiced whenever possible.

And before I leave the subject of State road construction, I think it only simple justice for me to publicly express my appreciation of the results accomplished by the present State Highway Commission. The Commission during the period of its official life has accomplished much more than the Board or Commission which preceded it. The members of the present Commission have been diligent, faithful public servants. They have built roads, and good roads, and I should be ungrateful to the men for whose official service I am responsible, had I not publicly announced my belief in their competence and integrity.

MORRIS CANAL.

I call your attention to the fact that the Legislature of 1922 enacted a statute creating a Commission to negotiate and agree, if possible, with the Morris Canal and Banking Company and the Lehigh Valley Railroad Company upon terms of settlement in relation to the canal property and water rights of said Company, which act authorized the acquisition by the State of the said Canal and all the stock of the Morris Canal and Banking Company and the rights of all stockholders in said Company and in said canal property and water rights and all or any part of the right, title

and interest of the Lehigh Valley Railroad Company in said canal property and water rights. Under said statute, the Commission was directed to file a report on or before December 1, 1922, of the result of its negotiations. I am advised that an agreement was made and entered into between said Commission, on behalf of the State, and the said Companies, which agreement is on file in the office of the Department of Conservation and Development and a copy on file in the office of the Secretary of State. I am further advised that under said agreement all the property of the said Morris Canal and Banking Company and Lehigh Valley Railroad Company, which is to go to the State, and which has not already been turned over, is to be so turned over on March 1, 1923, and the contract or agreement so made and completed consummated on that day. Under said agreement the Companies bound themselves (1) to pay to the State of New Jersey in cash the sum of $875,000 in five equal annual installments, the first of which was paid on December 15th, 1922; the subsequent installments are to be paid on the fifteenth day of December in each year hereafter. (2) To convey to the State all the lands, lands under water and premises comprised within the Canal Terminal Basin in Jersey City, commonly called the "Little Basin," with the docks, wharves, slips and improvements appurtenant thereto, owned by said Companies, or either of them. (3) To extend present branch of the Lehigh Valley Railroad now running to Warren Street, Jersey City, from said Warren Street to said "Little Basin" along the present right of way of the canal, when requested to do so by the Board or authority having control or management of said "Little Basin," and subject to necessary State and Municipal consent; the Railroad Company agreeing that in traffic service to be accorded with respect to the "Little Basin," the Jersey City and New York rates shall apply with switching charges to be absorbed in the through rates to and from all connecting lines in Hudson County under tariffs to be approved by the Interstate Commerce Commission. (4) To convey to the State of New Jersey for the purpose of a public water way all their right, title and interest in and to a strip of land and land under water located in Jersey City and partly

within the lands of the "Big Basin." (5) To convey to the State all lands and right of way of the Canal Company between the westerly shore or bank of the Hackensack River in the Town of Kearny and the southerly line or side of Main Street ajacent to Green's Bridge in the Town of Phillipsburg, and further all the right, title and interest of the said Companies or any subsidiary company of, in and to all that part of the canal property and its feeders between the said westerly shore or bank of the Hackensack River and the southerly side of Main Street adjacent to Green's Bridge in Phillipsburg, and all lands appurtenant to or used in connection with the aforesaid part of the canal and its feeders, and also all lands, land under water, water and water rights, rights of flowage, pondage and diversion of water appurtenant to the canal, together with all rights to take, use, impound, divert, sell and dispose of water at any point within the State for any use or purpose in any way incident or pertaining to the canal or to the operation of the canal, and its feeders, works or appurtenances. (6) To transfer and set over to the State all personal and mixed property of the said Companies used in connection with said canal. (7) The Railroad Company, at its own expense to maintain the canal in the usual manner until March 1, 1923. (8) The Railroad Company to assign, transfer and set over to the State on or before December 30, 1922, all shares of stock of the Morris Canal and Banking Company owned by said Railroad Company, all outstanding bonds of said canal company and all of the outstanding preferred scrip of the canal company. (9) The Railroad Company to acquire and assign to the State all of the remaining outstanding stock of the canal company not owned by the Railroad Company, it being provided that if the Railroad Company cannot on or before March 1, 1923, purchase such remaining outstanding stock at a satisfactory price, and it becomes necessary to condemn, proceedings shall be brought in the name of the State to that end; pending the acquisition of such outstanding stock, the Railroad Company to continue to pay the dividends thereon; the Railroad Company to further deliver the resignations of all officers and directors of the canal company when requested. (10) To transfer to the

State all leases, licenses and undertakings covering any part of the property to be conveyed to the State together with all documents, maps and other muniments of title. (11) The Railroad Company to deliver on or before March 1, 1923, a release of any claims it may have against the canal company. (12) The Company to withdraw any protest against taxes heretofore paid excepting certain appeals for the years 1921 and 1922. (13) Rents collected to be apportioned as provided in said agreement.

There are certain other provisions of the agreement which it is not necessary to here recite, but it may be obvious to anyone reading the agreement that complete and adequate power and authority should be given by the Legislature to the proper agencies of the State to deal with and manage the property to be turned over to the State. Further, some policy, perhaps, should be adopted by the Legislature in respect of the disposition of the moneys heretofore and hereafter to be paid by the Companies to the State. Care will have to be taken in the drafting of any legislation which is to be passed so that the water rights to be acquired by the State from the Companies will be preserved.

I concluded to draw this matter to your attention and not to leave it to my successor, because of the necessity for prompt action, so that the legislation which is to be passed may be passed and become operative before March 1st.

WATER RESOURCES OF THE STATE.

The foregoing comments upon the necessity of preserving the water rights coming to the State from the Morris Canal and Banking Company prompt the thought that the Legislature should give consideration to the subject of adopting measures to prevent water waste. An effective means of controlling waste is to compel the installation of meters. Many of our municipalities, for reasons which are quite human and understandable, hesitate to require the installation of meters except gradually. While there is improvement, the subject of preserving this important resource is so important it seems to me the department of the State charged with the responsibility of approving grants for the diversion of the State's waters should examine into the

question of methods to be devised to prevent waste. I hesitate to recommend the adoption of a policy which shall provide for the taking over by the State and the management by State agencies of all the water supplies in the State, for the reason that I do not think that we are quite ready for it. Until the State is prepared to bear the expense of such an undertaking the municipalities should be allowed freedom of action in the development of their supplies. But I desire to sound a note of warning. The day is approaching when the problem of supplying the needs of the people of this State in respect of water will be an acute one, and State control may then become a necessity. However, as I have said, that day is not here now, and for the present, it seems to me, the development of water supplies and their general control and management may be safely left with the respective municipalities.

STATE SALARIES.

The contest between conscientious departmental heads of the the State government and those under them over the question of salaries is never ending. It seems to be the constant effort of those in public employment to obtain salary increases. One of the favorite methods to insure a salary increase is the creation of titles for those who are to be favored, the plea being made the change in title involves a promotion, but the fact is that all that is involved is a plan to get a salary increase. I would suggest that the Legislature direct the Civil Service Commission to revise the salary schedule of the State employees.

EFFICIENCY AND ECONOMY BOARDS.

To the Legislature of 1920 I made certain recommendations with respect to reducing the number of boards now managing the affairs of the State. Those recommendations did not persuade the Legislature that any change should be made. I do not repeat the details of the recommendations in order to keep this message within the limits of reasonable space. But I recommend the subject be examined into.

STATE TAX BOARD.

The State has reason to be proud of the results accomplished by this Board. It has made great progress toward equalizing the tax burden, and I do not hesitate to recommend that any suggestions emanating from the Board in respect of the enlarging of its powers be carried out.

In refraining from making reference to a subject which I regard as all important—the checking of the effort to take away from us our liberties, I do so because my activities in that regard will soon be transferred to another field. My successor has well-defined views on the subject, and so far as the establishment in this State of real liberty is concerned, I will leave that subject for the incoming Governor to express himself upon.

I trust I have been of some assistance in the effort to conduct our government along lines productive of the greatest degree of benefit to all. My regret in leaving the State service, and it is a real sincere regret, is predicated in part upon the fact that I will lose close association with many sincere and earnest public servants. I wish my successor the greatest measure of success it is possible for one to attain. He will find loyal support from many of the men with whom I have been associated in the past three years.

Respectfully submitted,

E. I. EDWARDS,

Governor.

J. HARRY FOLEY,

Attest.

Mr. Stevens moved the Message and the Budget be received, that the Message be spread upon the Minutes and the usual number of copies be printed.

Mr. Stevens offered the following resolution, which was read and adopted:

Resolved, That the rules of the Senate for the session of 1922 be adopted as the rules of the Senate for the session of 1923.

Mr. Stevens offered the following resolution, which was read and adopted:

Resolved, That the President of the Senate be authorized to appoint five clerks to committees to serve without compensation

and that the Secretary is hereby directed to list said clerks among the appointees of that body.

Mr. Stevens offered the following resolution which was read and adopted:

Be it Resolved by the Senate of the State of New Jersey (the House of Assembly concurring), That the State Printer be directed to furnish to the State Library, as soon as printed, for the use of the Legislative Department of said State Library, and for exchange by said State Library with the State Libraries and Legislative Reference Libraries of other States, thirty copies each of all bills and joint and concurrent resolutions introduced in the Senate and House of Assembly, as well as printed committee substitutes; also, twenty copies of each weekly installment of the Journal of the Senate and Minutes of the House of Assembly, and thirty copies each of the gummed slips containing synopses of Senate and Assembly bills introduced; also, one copy of each official copy reprint of all bills and joint and concurrent resolutions.

Mr. Stevens offered the following resolution which was read and adopted:

Resolved, That the President of the Senate shall refer all bills concerning pensions or increases of salaries to the Judiciary Committee; and be it further

Resolved, That said committee, in reporting favorably upon bills carrying increases of salaries, shall include in such report information concerning the following: First, whether the position requires the person's full time, to the exclusion of other remunerative employment; two, when the last increase in salary was granted.

Mr. Stevens offered the following resolution which was read and adopted:

Be it Resolved by the Senate of the State of New Jersey (the House of Assembly of the State of New Jersey concurring),

1. That the Legislative Index be purchased for the use of the officers and members of the Senate and House of Assembly from year to year at each session thereof as soon as possible after adjournment is taken for the week and before the session convenes the following week; one copy of each issue to be mailed to the local address of each officer and member of the Senate and House of Assembly immediately upon publication, the names and addresses of whom shall be furnished by the Speaker of the

House of Assembly and the President of the Senate, and one copy of each issue to be delivered at the State House for each officer and member of the Senate and House of Assembly, at the rate of $5 for each subscription, and that statements of expenses for the Legislative Index be referred to the Committee on Incidental Expenses of the Senate and House of Assembly, respectively, and when approved by said committee said approval shall be indicated by the signature of the chairman of the Senate Committee on Incidental Expenses for an expense of the Senate and by the chairman of the House Committee on Incidental Expenses for an expense of the House of Assembly, together with the signature of the Secretary of the Senate and the Clerk of the House of Assembly, respectively, and said bills, when approved, shall be forwarded to the Comptroller of the Treasury for payment.

The following message was received from the House of Assembly by the hands of its Clerk:

STATE OF NEW JERSEY,
ASSEMBLY CHAMBER,
January 15th, 1923.

Mr. President:

I am directed by the House of Assembly to inform the Senate that the House of Assembly has passed the following concurrent resolution:

Be it resolved by the House of Assembly of the State of New Jersey (the Senate of New Jersey concurring):

1. That in addition to the copies of the Legislative Index provided for members of the Senate and House under the concurrent resolution adopted January 9th, 1923, twenty-five copies be purchased for the regular accredited newspaper correspondents at the same price as those provided for the members of the Legislature.

In which the concurrence of the Senate is requested.

UPTON S. JEFFERYS,
Clerk of the House of Assembly.

Mr. Stevens moved that the Senate concur in the above resolution.

Which was agreed to.

The following message was received from the House of Assembly by the hands of its Clerk:

STATE OF NEW JERSEY,
ASSEMBLY CHAMBER,
January 15th, 1923.

Mr. President:

I am directed by the House of Assembly to inform the Senate that the House of Assembly has passed the following concurrent resolution:

WHEREAS, Great suffering is apparent throughout the State of New Jersey by reason of the coal shortage, and there exists a Fuel Commission in our State, lately appointed by Governor Edward I. Edwards; and

WHEREAS, It appears that the supply of coal which has been received within this State is inadequate, and that in many sections of the State our citizens are in dire straits by reason thereof; now, therefore, be it

Resolved by the House of Assembly of New Jersey (the Senate concurring), That the Governor of the State be and he hereby is requested forthwith to submit to the Legislature of New Jersey a report of the coal situation in this State, and the measures, if any, which have been taken by the Coal Commission to remedy existing conditions, together with his recommendations for the immediate alleviation of the coal shortage, to the end that suitable legislation, if necessary, may be enacted to provide for the situation.

In which the concurrence of the Senate is requested.

UPTON S. JEFFERYS,
Clerk of the House of Assembly.

Mr. Stevens moved that the Senate concur in the above resolution.

Which was agreed to.

Senate Bill No. 17, entitled "A supplement to an act entitled 'An act concerning municipalities,' approved March twenty-seventh, one thousand nine hundred and seventeen,"

The same Senator, on leave, introduced

Senate Bill No. 103, entitled "An act to impose a tax on the sale of motor vehicle fuels as herein defined to be paid by distributors as herein defined; regulating the sale of such fuels; providing for the collection of said tax, for reports of sales of such motor fuels, and for the disposition of the revenue derived from such tax, and fixing penalties for the violation of the terms thereof,"

Which was read for the first time by its title, ordered to have a second reading and referred to the Committee on Highways.

Mr. Stevens moved that the Senate take a recess of ten minutes.

Which was agreed to.

Upon the conclusion of which, and under the direction of the President, the Secretary called the Senate, when the following Senators appeared and answered the call:

Messrs. Agans, Allen, Blackwell, Bright, Case, Kays, Larson, Mackay, Mathis, Parry, Pierson, Richards, Roberts, Simpson, Stevens, Wallworth (President), Whitney —17.

Mr. Stevens, offered the following concurrent resolution, which was read and adopted:

WHEREAS, There has been introduced into the Federal Congress a resolution (House Resolution 16, the Dyer bill) for the purpose of guaranteeing to citizens within the jurisdiction of the several States the equal protection of the laws as confirmed by the provisions of the Fourteenth Amendment to the Constitution of the United States; and

WHEREAS, In parts of the United States the equal protection of the laws is denied to citizens because of race and color, resulting in the obstruction of the due administration of justice and in the substitution of arbitrary practices for law; and

WHEREAS, The denial of such protection is in many instances attended with exhibitions of oppression and circumstances of cruelty, the effect of which is to create a situation abhorrent to the native justice of America; therefore, be it

Resloved by the Senate (the House of Assembly concurring), 1. That the Representatives from this State in the Congress of the United States are hereby requested to use every effort for the passage of said resolution.

2. That copies of this resolution be transmitted to the presiding officers of the Senate and House of Representatives of the United States, and to each Senator and Representative from this State in the Federal Congress, and this resolution shall take effect immediately.

Mr. Stevens offered the following resolution, which was read and adopted:

Resolved, That when the Senate adjourn it be to meet on Tuesday morning at 11 o'clock.

STATE OF NEW JERSEY,
ASSEMBLY CHAMBER,
January 15th, 1923.

Mr. President:

I am directed by the House of Assembly to inform the Senate that the House of Assembly has concurred in the following Concurrent Resolution:

Resolved by the Senate (the House of Assembly concurring), That the One Hundred and Forty-seventh Legislature of the State of New Jersey adjourn sine die at three o'clock P. M., March 16, 1923.

UPTON S. JEFFERYS,
Clerk of the House of Assembly.

In accordance with the direction of the President, the Secretary carried the following bill to the House of Assembly and informed it that the Senate had passed the same, and requests its concurrence therein:

Senate Bill No. 18.

In accordance with the direction of the President, the Secretary carried the following bills to the House of Assembly and informed it that the Senate had passed the same without amendment:

Assembly Bills, Nos. 1, 2, 3.

On motion of Mr. Stevens, the Senate then adjourned.

TUESDAY, January 16th, 1923.

At 11 o'clock A. M. the Senate met.

The session was opened with prayer by the Rev. DeWitt C. Cobb.

Under the direction of the President, the Secretary called the Senate, when the following Senators appeared and answered to their names:

Messrs. Agans, Allen, Barber, Blackwell, Bright, Case, Kays, Larson, Mackay, Mathis, Parry, Pierson, Reeves, Richards, Roberts, Simpson, Smith, Stevens, Wallworth (President), Whitney—20.

Mr. Reeves, on leave, introduced

Senate Bill No. 104, entitled "An act to amend an act entitled 'An act to establish a State Highway System, and to provide for the improvement, betterment, reconstruction, resurfacing, maintenance, repair and regulation of the use thereof,' approved March thirteenth, one thousand nine hundred and seventeen, approved April fifth, one thousand nine hundred and twenty-one,"

Which was read for the first time by its title, ordered to have a second reading, and referred to the Committee on Highways.

Mr. Stevens offered the following resolution, which was read and adopted:

Resolved, That the Senate take a recess until 11:30 o'clock, to meet at that hour at the Capitol Theatre, Trenton, and when it then adjourn, it adjourn to meet on Friday morning at 10 o'clock, and when it then adjourn, it be to meet on Monday evening at 8 o'clock.

On motion of Mr. Stevens, a recess was taken in compliance with the above resolution.

Which was agreed to.

Pursuant to resolution, the Senate convened on the stage at the Capitol Theatre.

Prayer was offered by Rt. Rev. Albion W. Knight, of the Protestant Episcopal Diocese of New Jersey.

Under the direction of the President, the Secretary called the Senate, when the following Senators appeared and answered the call:

Messrs. Agans, Allen, Barber, Blackwell, Bright, Case, Kays, Larson, Mackay, Mathis, Parry, Pierson, Reeves, Richards, Roberts, Simpson, Smith, Stevens, Wallworth (President), Whitney—20.

The certificate of the election of Hon. George S. Silzer, of the county of Middlesex, as Governor of the State of New Jersey, was read by the Hon. Thomas F. Martin, Secretary of State.

The oath of office was administered by the Chief Justice, Hon. William S. Gummere, to Governor George S. Silzer.

The delivery of the Great Seal of the State was then made by Hon. Edward I. Edwards, the retiring Governor.

The Governor was then introduced to President of the Senate by the Hon. Edward I. Edwards, the retiring Governor.

The President of the Senate, Hon. Joseph F. Wallworth, introduced the Governor to the Senate and General Assembly.

Governor Silzer then delivered the

INAUGURAL ADDRESS.

To the Legislature:

The task which we are about to undertake is a great one. It would be burdensome unless we approach it in a spirit of service. Approached in this way the burden will be light and full of interest and promise.

Each succeeding generation brings its own problems; the problems of yesterday seem comparatively insignificant with those of to-day. Those of the present and future loom larger because they must be met and solved now.

The complexity of modern life brings its problems. The healthy expansion of business must be provided for; means of transportation adequate for other days and other conditions must be improved and enlarged. Individual needs and requirements must be cared for. The requirements of an advanced civilization, rich in invention and adept at organization, are many, complicated and compelling.

Our fathers, in setting up our form of government, profited by their own bitter experiences and seeking to avoid the pitfalls, sought to guard against a recurrence of the evils from which they had been delivered. Through their unselfish efforts, a democracy was born and the preservation of that democracy depends upon the exercise of "eternal vigilance" on the part of the citizens of the State and of the nation.

Our government, whether it be in the city, state, or nation, will be powerful and good in proportion to the interest that we take in its administration. But we are giving too little thought to government and, by our indifference, are frequently entrusting it to others who are not solicitous of the common good.

It shall be our purpose to put government back into the hands of the people; to arouse them to a full realization of the necessity of regaining their own government, keeping it, guarding it, and jealously insisting upon their rights under it.

What is the situation, and what are the conditions in city, state, and nation which invite the criticism of the citizen and which make him suspicious of government itself? Everywhere Special Privilege shows its ugly head. Combinations are permitted to thrive, seemingly unhampered and uncontrolled, placing those outside the combinations at a disadvantage. Competition is crushed and eliminated. Preferential laws are passed but no effective methods are devised or employed to prohibit practices which at every turn harass the ordinary citizen and permit one class to press upon another. Special privilege is either permitted by law or not prohibited by law.

These things, against which we protest, have been a matter of natural growth arising out of modern methods of doing business. They are the fruitage of the efforts of those who desire, with selfish purpose, to fill their own purses. They call to their assistance the art of propaganda to influence the public mind.

This art, used first for public and patriotic purposes, was soon turned into mercenary and selfish channels. This method of propaganda is used by those who wish to influence either the enactment or defeat of legislation and to mould public opinion. Those seeking these ends accomplish their purpose in this way because there is no counter propaganda on the part of the great mass of people who are so sadly unrepresented and never seek to combine their forces either for preferment or protest.

We must take hold of this situation now. If it is permitted to go on, we will face greater dangers than those which now confront us. The permanency of our institutions depends upon the promptness and the courage with which we meet our responsibilities.

The limits of this occasion do not permit of extended and detailed treatment of the various problems that press for solution. I shall, however, take the liberty to refer in a brief way to certain phases of the larger problems which require immediate action.

PLATFORM PLEDGES.

Good faith on the part of individuals and of political parties is of the very essence of these things. It behooves us to keep faith with the electorate who have just spoken. We sought their suffrage and support upon the basis of certain pledges solemnly made concerning things we intended to do and the laws we proposed to enact. These pledges must be inviolably kept or we shall justly merit rebuke and repudiation at the hands of a deceived and disappointed people.

The pledges made by both parties are clear and, while in most essentials they differ but slightly, there can be no excuse for delay or for nonfulfillment. In all efforts in this direction made by the party having legislative control, my co-operation will be cheerfully given. In my efforts I expect, in the intersts of the State, a like co-operation. We should not care for the credit so long as the desires of the people are fulfilled and their interests protected.

The things uppermost in the minds of the people of the State are taxation, the regulation of public utilities, good roads, labor and prohibition. There are, of course, other matters which are perhaps of equal importance, such as the problem growing out of the abandonment of the Morris Canal, the needs of the present as well as the future with respect to potable waters, the encouragement of agriculture, and the development of the Port of New York. These and other important matters will have special treatment at a later date.

To carry out this program, we must be certain that we have the full confidence of the people of the State. The great emancipator, Lincoln, said:

"With public sentiment, nothing can fail. Without it, nothing can succeed. Consequently he who moulds public sentiment goes deeper than he who enacts statutes or pronounces decisions."

We must not drift farther away from representative government.

Let us get back to it. Let us be wary of the growing tendency to regulate our every act.

Individual initiative must be permitted to assert itself. Let us aim to secure for the people life, liberty and the pursuit of happiness guaranteed under the Constitution.

TAXATION.

While the subject of taxation is complex, we all are agreed that the present system is antiquated and must be replaced by one scientifically devised. It must have for its foundation the necessary machinery to make just assessments and to equalize them. The interchange of funds between State, county and municipality must be on a simpler basis. Those who pay the taxes should have the broadest powers to spend them without having imposed upon them mandatory requirements by legislative action in which they had no voice.

Exemption from taxation should be based upon a correct principle, and property which is not used strictly for either educational, charitable or religious purposes, should be required to bear its legitimate share of the burden of taxation. All agencies expending public moneys should be investigated in order to ascertain if the expenditures are justified or if retrenchment or changes in method are necessary. The present agitation with reference to taxation in city, county and State has aroused the people and already in many municipalities we learn of reductions in budgets and of refusals to increase appropriations. We must take definite steps, and at once, to limit the spending power of public officers. This can be done by placing a limit upon the amount that can be appropriated in each year, and by strictly enforcing the law which provides a penalty for exceeding appropriations, and by limiting the amount of bonded and other indebtedness. I shall have further and definite recommendations to make in a special message on this subject which will be submitted at a later time, and which will give the benefits of my study of this important question.

ECONOMY.

In the present condition of our affairs, when every homeowner is complaining about the burdens of taxation, it is our duty to practice the most rigid economy, consistent with necessary progress.

This economy should come in State, county and municipality. Useless offices should be abolished, and departments consolidated where possible; useless enterprises should not be undertaken; strict watch should be kept over our expenditures. We must see that we have an adequate return for all moneys expended. Our departments and institutions should be closely scrutinized to ascertain if we are indulging too much in luxuries and nonessentials. Many salaries are higher than the services rendered warrant, and some which were increased to meet unusual conditions may, with propriety, be reduced. Improvements, designed more to aid the favored few than to serve the public welfare, may well be abandoned.

ROADS.

Notwithstanding that the State spent and obligated itself for roads and bridges to the extent of $3,000,000 during the last year, the voters, at the last election, voted a bond issue of $40,000,000, with all its accompanying items of interest and sinking funds.

Since over 400,000 voters expressed themselves favorably upon the proposition, I feel that it is in the nature of a mandate to the State officials to make the improvement. So long as no attack is made upon this action, or protest entered against it, I shall deem it my duty to carry out the provisions of the Road Bond Act.

It is my purpose to recommend to the Legislature changes in the present laws relating to highways which will provide for a reorganization of the present State Highway Commission and a change in its personnel. I will also recommend in connection with this matter laws safeguarding the use of these vast sums of money, so that the people may be assured that they will be judiciously and honestly expended.

Our bonded debt is increasing very rapidly. Our State, five years ago free from debt, will shortly owe over $80,000,000. This debt, sooner or later, must be paid. Further recommendations which I have to make will shortly be conveyed to the Legislature in a more extended message.

DEVELOPMENT OF NORTHERN NEW JERSEY.

The northern part of New Jersey, from the beautiful Palisades on, offers one of the most attractive residence sections in this part of the country. It is especially attractive to those who find the congestion of New York City unbearable, and who seek to live in a section at once high, healthy and accessible.

This part of New Jersey is destined for a rapid and healthful growth. That growth, however, at this time, is being seriously retarded by the lack of comfortable and convenient facilities for transportation.

Subways and ferry-boats are crowded, passengers are inconvenienced and motor travel is congested.

If we are to take advantage of our opportunities, we must see that more comfortable and adequate facilities are provided to transport those who must cross the Hudson river.

Among the methods suggested is the erection of a bridge of ample size to care for vehicular and passenger travel, and for railroad terminal service

A similar enterprise already undertaken across the Delaware river ought to accomplish a like beneficial result in the southern part of New Jersey.

In this connection, we must also have in mind scientific planning which will make such development as attractive as possible. In these enlightened days we cannot drift along and permit ugliness to predominate.

The ultimate growth in this section will bring with it a most desirable population, and the increased ratables will add greatly to the prosperity of the entire State.

LABOR.

Conditions in this country are rapidly changing and this is particularly true in our eastern states. Large industrials communities have been established and the problem of caring for and protecting those who labor in the mills and factories is becoming, every day, more and more complex.

The lives which the people in these communities lead are not conducive either to health or happiness. Most of them came to

this land seeking freedom and contentment, and it is the function and duty of the State to so regulate the conditions under which they live and work that they may be given an equal opportunity with those of us who are better situated. If our country is to continue in greatness, the health and happiness of all of its people must be cared for. The cares and burdens of hard-working men and tired women, as well as helpless children, are our responsibility, and the State is not doing its duty to its citizens if these things are neglected and if the helpless ones, men, women and children, are left alone to help themselves.

Our thoughtlessness, selfishness and neglect will affect not only the present but future generations.

If the children of industrial workers are to become happy, contented and useful citizens, their fathers and mothers must lead happy lives and their home surroundings and the conditions under which they labor must be bettered.

Chief among the present-day ills of industrial workers is night work for women in our mills and factories, particularly young married women, who are either mothers or are about to become mothers. Such things should not be either possible or necessary in this enlightened day and generation. If the man or men of the family are not paid a sufficient wage to enable them to support the family with some degree of comfort, at least, then that condition must be changed and changed immediately.

Pregnant mothers, working at night, gaunt and weary with toil, standing eight or nine hours at a machine, running noisily and ceaselessly, and then returning to a cold and cheerless home in the early hours, greeted by crying and hungry babies, is not a pleasant picture to behold and should never exist in this free lands of ours. Conditions in these homes are appalling. The mother obtains little or no rest, for her days are spent in caring for her children and attending to other arduous household duties and her nights are spent toiling in the mill. Both for humanitarian reasons and for the good of the State these things must not be.

I will again urge upon the Legislature the passage of laws regulating night work for women. Reasonable opportunity

should be given to adjust operations, so that conditions may be changed without disturbing more than may be necessary the processes of manufacture and the steady employment of labor.

The time has also arrived to change the schedules for the compensation of those injured while engaged in the performance of their work, giving an increase which shall be commensurate with the higher cost of living.

Having had the honor of participating in the preparation and enactment of the original Compensation law, it is gratifying to me to be in a position to urge improvements in this most humane statute.

UTILITIES.

In reviewing the question of public utilities, it is helpful to examine the historical background.

In the beginning franchises were granted to street railway companies by municipalities, under legislative permission, in nearly 150 municipalities, upon terms agreed upon between the companies and the municipalities, and almost invariably upon condition that a five-cent fare only be charged.

The companies operated under them with apparent success. But in the operation of these franchises abuses grew. Then public opinion demanded that these companies, the creatures of the State, be regulated and controlled. This resulted in the passage of the Public Utility Act in 1911, creating the Public Utility Commission.

In course of time almost all units formerly operating separately were combined, first into combinations of two or three and finally into a combination of nearly all, under the name of the Public Service Railway Company.

Each change brought with it an additional increase of capital stock and bonded indebtedness composed in large part of "water"—or stock for which no value was given.

At a public hearing the president of the Public Service Corporation testified as to the value of the properties of the company, from which it appears that a large percentage of the securities of the company represent water only.

The State did not attempt to fix an arbitrary rate of fare by legislation, but adopted the more honorable method of having the Utility Commission fix it after a full hearing.

In the unsettled state of the law, in the presence of conflicting decisions, and an uncertain understanding of a subject quite new, the process of fixing a reasonable rate was difficult, and well nigh impossible. Decisions made were reversed. Efforts to fix a reasonable rate were discouraging, because there was always the question as to whether the rate so fixed was confiscatory or unreasonable or in conformity with legal requirements—not the requirements fixed by statute, but those laid down by the courts.

Then came the decisions of our courts which, much to the surprise of those who had passed the regulating acts, held that these municipal grants were not contracts, but mere grants upon condition, and that the Utility Commission might regulate the rate either up or down, as might be just and reasonable.

All of these obstacles made it impossible to produce satisfactory results and regulation seemed a failure.

The indefinite and unsatisfactory conclusions reached were reached only after long delay, and at great expense and effort on the part of the public and the utility companies alike.

During all of this period the utility companies have maintained a rate of fare quite satisfactory to themselves, while the public has not had the relief to which it felt it was entitled.

If these unsatisfactory methods are continued no permanent relief is in sight.

One of the main difficulties lies in the fact that there is disagreement as to the value of the property upon which the companies are to have a reasonable return.

The companies contend that all appreciation due to conditions during and following the war are to be included in the amount upon which a return is to be made. To this is added what is termed "going-concern value," as well as a large amount of water represented by securities which have no tangible value.

This necessarily makes a vast sum upon which to demand a return.

Now, in this critical juncture what is to be done? Shall we continue this futile policy of regulation which brings no real relief, or shall we face the problem and solve it? It must be solved and now is the time. Irresolution, lack of program, failure to handle it though it be difficult, will only intensify what is already a serious situation.

In the solution we must approach the subject from a different angle. We must adopt a course of common honesty as between parties dealing at arms' length, honesty both to the public and to the utility corporations.

The companies are entitled to have a fair return upon the money actually invested in the enterprise.

War-time appreciation, which does not represent actual money put in the enterprise which merely represent inflation of prices if reproduction were necessary now, must be eliminated. Reproduction may not be necessary until a later time, when prices may be more nearly normal.

War-time appreciation certainly does not represent, in any manner, an investment of so many of the companies' dollars.

"Going-concern value" has no tangible basis for being included. "Development-cost," as a part of this, was ruled out in the "confiscation" cases of the Galveston case type, and what is left of "going-concern value," represents practically nothing, especially in view of the fact that the franchises are not contracts, but grants upon condition.

Neither do these items represent so many dollars put in the enterprise.

Then, we must deal with the tremendous amount added when the companies were put together, commonly known as "water," to which reference has already been made.

This question has its counterpart in nearly every State, and in almost all corporations of national operation, such as oil companies, coal companies, steel and beef companies and others serving the public in any way. All are seeking a return upon inflated capital, and all want profits upon watered stock, which does not represent actual dollars invested in the enterprise. This accounts in part for the high cost of commodities, and of everything required by our people.

If we would but courageously face the situation, stop attempts at ineffective regulation, and apply the process of deflation we would soon arrive at a point where these companies would get a fair and honest return upon the honest dollars invested, and the public would be paying a fair price.

This, too, is true of public utilities, if we eliminate the water and fix a sum which represents only the prudent investment value and provide a reasonable return upon such a sum, then the public will have a fare to which it is entitled, and the company will have a return to which it is entitled.

Such a course represents what would happen if two honest men started out originally to solve the problem. One would want a fair return upon his investment, the other would grant him no more. One would want to pay a fare representing a fair return to the investor, the other would not permit him to pay less.

It will be said at once, that such a course works a hardship to those who have invested their money in the stocks and bonds of these corporations and that they are innocent parties, and should not suffer.

Part of the "watered" securities, no doubt, is in the original hands, and the rest of it in the hands of subsequent purchasers.

In this problem we have the so-called innocent holder of securities on the one hand and the innocent public on the other. As between these two equities, which is entitled to first consideration?

Every holder of securities either knew or by inquiry could have known that those securities represented in part water injected into the companies. They were not entirely innocent. They either lacked diligence or chose to take their chances by investing in these securities as they do in making other investments, be they in public utilities, oil or something else.

In most cases, the usual course is to "water" the stock, then go into liquidation, reorganize, and then proceed upon a solid basis. If that had been done, our problem would have been solved with less difficulty, for we would then have a valuation representing real investment values.

Shall we continue as we are going, without unwatering these companies? If we do, and so long as we do, injustice is done to the public. We have no moral right to do this. We have no justification for mulcting them further, now that we know our duty.

We must act at once, and do that which must ultimately come. We must throw out this ballast, if the passengers and the ship are to be saved from disaster.

Now, how shall this be done?

By insisting that the companies may continue to exercise their franchises, only if they agree to a reasonable return upon a prudent investment value—nothing more.

If they will not agree, the State must then exercise its sovereign power. The principle is well established by our highest court that "the State retains all sovereign powers except as far as it has, by unmistakable language entrusted them to others." The laws giving authority to municipalities to grant franchises, limit them to giving "consent to the construction, operation and maintenance of street railways, the location of tracks, and imposing lawful restrictions."

The authority so given in no respect deprives the "State government of its general control over the highways in which the rails are laid, including the power to vacate."

"So * * * it is quite inconceivable that the municipality could, by its ordinance granting consent, make provisions that would limit the power of the State."

The sovereign power to fix and maintain just and reasonable rates, to exercising the taxing power, or the police power has never been surrendered, and the municipalities are "without authority for the purpose, to tie the hands of the State forever."

The State should therefore say to the railway companies, that unless they are willing to accept a reasonable return upon a prudent investment value, then the public highways of the State must be vacated by them.

In giving the municipalities the right to consent to the use of public streets by railway companies, the Legislature never gave them the right to mulct the public. It never gave the right to a

return upon watered capital, or inflated values. It never gave the right to a return upon anything but real honest values.

Whenever the companies exact more than this, then the State may step in, and demand that the street be vacated.

If this were not so, then the municipalities could bargain away the State's sovereign rights, or the companies could appropriate them.

In giving the right to grant consent, the State always reserved to itself the powers of self-protection.

One of those powers is to prevent unjust exactions.

Justice requires that we should recognize the companies' prudent investments, but it does not require that we must go beyond that, and allow them a return upon inflated values, at the expense of the public.

The course suggested gives them everything to which they are entitled, and at the same time protects the public.

The Legislature should fix that prudent investment value upon advice from the Public Utility Commission.

As I have conceived that value, after study, I am sure it will bring about a five-cent fare, and later a further reduction.

If the Legislature misconceives its duty, or betrays the public, of course we will be worse off than before.

There is no just reason why the day of settlement should be postponed, at the expense of the innocent public.

When settled, the public and the companies would be rid of vexatious and expensive litigation. They would have peace. The companies would have a definite substantial basis, both for operating and financing.

The public would have the traction question removed from political consideration.

In taking this step we should have an eye to the future, and adopt a method that will protect the public, and at the same time stimulate the utilities companies.

With this in mind, I would advocate a sliding-scale basis.

Starting with a five-cent fare, the companies should be permitted to earn 6 per cent. on its prudent investment. If the profits increased, then the fare may be reduced to four cents, and the companies permitted to earn 8 per cent., and so on, produc-

ing an equitable decrease of fare and a corresponding increase in dividends.

This would be beneficial to the public and companies alike. It would assure efficient and economical management and increase of profits.

With the value already fixed, it would be easy to follow further expenditures of the company, and so fix future valuations, as improvements and extensions are made.

All that I have said about street railway companies applies with equal force to light, heat and power companies.

As I have stated before, in solving this problem there are two equities to be considered. On the one hand we have the owners of the securities. As against these we have the man who toils and who must be carried from his home to the factory, the woman who must earn her own living and the children who attend school. They are truly innocent. They are entitled to honest treatment. They should not be called upon to furnish a return upon inflated securities; they should not have to take from their hard-earned pay the large sums required to bring a return to those who own watered securities. There is no equity or honesty in according them such treatment. There is no justice in levying upon them such tribute to give value to that which never had real value.

As between these two classes, in weighing the equities, it is as clear as day, that the equities are in favor of the great masses who go to make up the public—the innocent public. We must, therefore, follow the course that brings this result.

COAL.

The country is confronted with a most serious situation so far as our supply of coal is concerned. Anthracite coal is so scarce that it is well nigh unobtainable, even at the excessive prices now prevailing. There is a prospect of much suffering and hardship, especially among the poor. Those who have not the price, or who cannot afford to lay in large stocks in early season and who must buy from time to time in small quantities look forward

with terror, and with apprehension to what will happen to their wives and little children.

How long shall we permit this intolerable condition to exist? Those who are responsible for it are indeed ruthless and heartless. If the conditions are due to selfishness and a desire to profit, quick retribution will and should follow.

Notwithstanding that this problem, dealing with one of the necessaries of life, is a national one, it may not be amiss to briefly discuss it here.

Permanent relief must be found and there must be no more temporizing.

What are the underlying causes of these conditions? Is there any reason for a scarcity of coal in a nation like ours, so abundant in its resources? Is it not possible to discover who is to blame for this distressing situation? Everyone asks the question.

What is the remedy? Does it lie in regulation? Does it lie in laws prohibiting combination? Will competition produce results? Are the railroads or the producers, or others responsible for this situation? Is the Government of the United States so impotent that it cannot provide an answer to these questions? Regulation has been tried in every crisis that has confronted us in this difficult matter, but it seems to have failed.

If the Congress longer neglects to do its full duty, then the several States must take up the problem, and arouse such public sentiment as will be irresistible, and which will bring about a true statement of all the facts, of all the conditions, and action which will remedy the evils.

Unless some permanent solution is reached, then we must call a halt on this business, and the time will have arrived when the Government, in the exercise of its sovereign power, will be compelled to take over the coal mines and the railroads serving the mines.

Within the State an investigating committee has found that there are combinations to fix and control prices, and preferential methods for control of distribution. This should be stopped, and, among other remedies, the law recently repealed prohibiting and punishing unlawful combinations should be re-enacted.

Our people are patient, but the time has come for action.

PROHIBITION.

There is no doubt that the electorate spoke, and spoke decisively, at the last election, on the subject of Prohibition. The issue was clearly defined, and the positions of the candidates unequivocal. Partisans on both sides waged aggressive campaigns, with this the paramount issue.

We must therefore respect the verdict of the people. All talk of a referendum now is evasion, and evinces a lack of courage to face conditions. We just had a referendum.

The question was, whether we should have Prohibition with all its attending evils, or Temperance with all its attendant blessings.

Our people are against the kind of prohibition we have to-day. For we know that prohibition has brought in its wake, its bootleggers, its violation of and disrespect for the law, its ill-effects upon youth, its increase of indulgences in hard liquors by adults, its demoralization of public officials, its corruption of enforcement officers, its pernicious effect upon public and private conscience, its breeding of hypocrisy, its disregard for the rights of citizens, and the deprivation of their cherished constitutional rights and privileges, its bad example to those of foreign birth, who are thus invited to disrespect and disregard not only this but all laws, its turning of our best citizens into participants in law violating, its trail of those who have been blinded, and those who have been carried to the grave, its deprivation of medicine to the sick, aged and infirm, its demoralizing example of law violation on the sea by the Government itself, its international complications, the obscuration at elections of all other important issues to that of prohibition.

Instead of this our people prefer temperance. Before the advent of prohibition we had already made rapid strides in this direction. The younger generation was becoming convinced that whiskey was bad for it, and men in all walks of life no longer indulged during business hours.

There was and is a strong sentiment against the saloon and its attendant evils. They must be abolished and never be allowed to return.

Temperance can be brought about by education. Legislation often fails, education never does. There is but one way to make moral progress, that is in the hearts and consciences of men, not in legislation.

Human nature is obstinate, and resists when told it must or must not. Education on the other hand, is persuasive and compelling.

Our people believe that true temperance can be brought about by discouraging the use of hard liquors, and permitting instead thereof the use of beer and light wines. As the immortal writer of the Declaration of Independence said: "No nation is drunken where wine is cheap; and none sober where ardent spirits are substituted as the common beverage. Wine is in truth the only antidote to the bane of whiskey."

We might well include a light, wholesome glass of beer, with what he said of wine.

The election returns show that the electorate of New Jersey will have no more of the existing evils and conditions if it can avoid it. Before any law can become effective it must have behind it the compelling force of public opinion. Without it law and law enforcement must fail. Behind the prohibition law there is not this support. It would, however, be behind any effort to bring about real temperance.

After all, this is a great moral issue, for it affects the morals of all our people, and we are on the moral side. Present conditions are immoral and intolerable. Under true temperance, conditions would be wholesome and healthful.

In order to express in practical form the wishes of the electorate we must act both in the nation and in the State.

Nationally, we have the Volstead Act, which endeavors to enforce the Eighteenth Amendment. In truth, it goes far beyond the provisions of the amendment, for the latter prohibits "intoxicating liquor for beverage purposes," while the enforcement act goes farther and prohibits the use of beverages which are not

intoxicating. To say that anything over one-half of one per cent. is intoxicating is to enact a falsehood; it would be quite as true to say that a jackass is a camel.

If the Volstead Act had given an honest definition of "intoxicating liquor," we might have been well on the way to real temperance, through the use of light beverages, instead of breeding as we are doing now a nation of whiskey drinkers.

If the Volstead Act is capable of enforcement it should be possible to enforce it at the National Capitol, where the National Government has absolute control, with all its resources behind it.

If Washington cannot be made dry, what can be expected of enforcement in the rest of the country. But even there it has been a failure. Why continue this national hypocrisy when we should have the courage to face a situation and deal with it honestly and frankly.

With this in mind, I would recommend that a joint resolution be passed expressing on the part of the people of New Jersey, a desire to have the Volstead Act amended so that it may truly reflect the intent and meaning of the Eighteenth Amendment, and not violate our constitutional privileges.

Our State should also take the necessary steps to call a constitutional convention, as provided for in the Federal Constitution, in order that the Eighteenth Amendment may be so altered as to clearly provide for the lawful use of beer and light wines and so work for real temperance.

Within the State, the "Prohibition Enforcement Act" should be changed; beer of 2.75 per cent. and wines of 6 per cent., by volume, should not be included in the definition of "intoxicating liquors." While this does not legalize the sale of these beverages, it at least expresses the will of the people as to what the national act should contain. For so long as the amendment is effective, and the National Enforcement act operative, they should be enforced. The Eighteenth Amendment provides for Federal and State enforcement, but the duty of the State is concurrent, not compelling.

The State enforcement act should be further amended so that there would not, under any circumstances, be dual punishment, for if there is any one thing that is distasteful and revolting to

a good American, it is to have any one punished twice for the same offense. Twice in jeopardy, as stated in our Constitution, expresses the thought only too well to require elaboration.

The enforcement act should be altered wherein it puts the burden of proving innocence upon the accused. This violates the practice of centuries.

Unwarranted search and seizures are permitted by the act. This should be changed. It goes to the very foundation of our constitutional rights. Inquisitorial methods provided for by the act should be eliminated as well as the provisions which compel a man to testify against himself. Nothing can be more abhorrent.

The imposition of fixed sentences, with no discretion on the part of the sentencing power, the forfeiture of vehicles of a value many times that of the fine that might be imposed, the injunction contempt feature, and many other like provisions disregarding the very fundamental rights of our citizens must be removed.

We cannot afford to disregard, overlook and scoff at all those constitutional safeguards, which our forefathers were so jealous of, and which they were so insistent upon incorporating in the fundamental law.

They had just suffered from these evils, they were fresh from the fields of battle, they were alive to that which was to be avoided.

Shall we, merely for the sake of attempting to enforce one particular statute, lose these priceless privileges.

Let us have sanity in government as in all things.

CONCLUSION.

These, in part, are our problems, and this, in part, is how we would solve them. In this we must lay aside all partisanship and selfishness.

May God strengthen our hands, our minds and our hearts so that we may with energy and zeal undertake the task that lies before us, and let us earnestly pray that with His help and

guidance great and lasting good may be done tor all the people of our beloved State.

The benediction was pronounced by the Rt. Rev. Thomas J. Walsh, Bishop of the Roman Catholic Diocese of New Jersey.

On motion of Mr. Stevens, the Senate then adjourned.

FRIDAY, January 19th, 1923.

In the absence of the President, Mr. Blackwell took the chair as President *pro tempore.*

Under the direction of the President *pro tempore,* the Secretary called the Senate, when the following Senator appeared and answered the call:

Mr. Blackwell.

As there was no quorum present, the Senate then adjourned.

MONDAY, January 22d, 1923.

At 8 o'clock P. M. the Senate met.

The session was opened with prayer by the Chaplain, Rev. DeWitt C. Cobb.

Under the direction of the President, the Secretary called the Senate, when the following Senators appeared and answered the call:

Messrs. Agans, Allen, Barber, Blackwell, Bright, Case, Fooder, Kays, Larson, Mackay, Mathis, Parry, Pierson, Richards, Roberts, Simpson, Smith, Stevens, Whitney—19.

The following communication was read by the Secretary and ordered spread upon the Minutes:

NEW JERSEY SENATE, January 22d, 1923.

Gentlemen of the Senate:

Owing to my inability to be present at this day's session of the New Jersey Senate, by reason of illness, and pursuant to the authority in me vested in and by Senate Rule No. 5, I do hereby designate and appoint Senator William B. Mackay, Jr., of Bergen county, to perform the duties of the Chair during the session of said Senate appointed to be held this day.

In witness whereof, I have hereunto set my hand the day and year first above written.

(Signed) JOSEPH F. WALLWORTH,
President of the Senate.

On motion of Mr. Stevens, the further reading of the Journal of January 15th and 16th was dispensed with.

Mr. Stevens offered the following concurrent resolution, which was read and adopted:

Resolved by the Senate (the House of Assembly concurring), That the Senate and House of Assembly meet in Joint Session on Monday, January 22d, at 8:45 o'clock P. M., to be addressed by His Excellency, Hon. George S. Silzer.

A communication from the New Jersey Council of Churches protesting against any modification of the Volstead act, the Hobart Enforcement law, the Sunday law or any other moral welfare law was received and ordered filed.

The following message was received from the Governor:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
January 22, 1923.

To the Legislature:

I have referred to the subject of roads in my inaugural address. I now desire to call to your attention certain specific phases of the problem and to certain facts as well, especially concerning the proper expenditure of State funds.

As with so many of our public affairs, we have drifted in the matter of road construction expenditures. Expanding our program, we have not kept pace in protecting public expenditures. We have continued to dole out the funds to build roads, but have not properly safeguarded the disbursement of those funds. Now is the time for us to look over the situation.

Even a mere scratching of the surface discloses the fact that our funds are used extravagantly, and that there is corruption and a great deal of waste.

The principal elements entering into the problem are cement, asphalt and labor.

PATENT PAVING.

The greatest abuse has been in the use of so-called "patent" paving. I am told that the original patent, if it ever was worth anything, has expired, and that later claims have little or no value, and that the type of pavement is no better and no worse than others of similar character easily obtained.

The evils have grown out of the use of closed specifications; that is, specifications in which only "patent" pavement may be used. This method enables the favored contractor to get the contract at an excessive price.

To illustrate, where a patent pavement is called for, the price of such patent surfacing would be $2.35 a square yard, while that

of other sheet asphalt of just as good quality would be $1.50, making a difference in cost of 85 cents a square yard.

In addition to this, the patent surfacing would be two inches deep, while the other asphalt surfacing would be three inches deep, giving 50 per cent. more material for the surface of the road at a less cost.

Considering the difference in price and material, there is a distinct loss of $1.00 per square yard in cost.

When we have clearly in mind that the taxpayers are losing a dollar on each square yard of road, we can see that something must be done at once.

Results of last year show what this excess was on State roads in the following counties, not including roads constructed under State aid.

	No. of Square Yards Laid	*Excess per Yard*	*Total Loss*
Cumberland County, ...	100,165	$1.00	$100,165
Atlantic County, ...	119,829	1.00	119,829
Morris County, ...	116,600	1.00	116,600
Middlesex County, ...	82,566	1.00	82,566
Other counties, ...	140,000	1.00	140,000
	559,160		$559,160

I am referring to these specific counties because I am informed that in them the greater part of the patent pavements were laid.

My information is that during the last year patent paving surfaces amounting to one million yards were laid on State roads or roads receiving State aid.

I believe that most taxpayers will be surprised to learn that, in the building of a road having a 6-inch concrete base, it costs about $2.00 to lay that 6 inches of concrete, and $2.35 to lay 2 inches of surfacing; the 2 inches of patent surfacing costing 35 cents more than 6 inches of concrete. Of course $1.00 of the latter should never have been paid.

One dollar excess on a cost of $4.35, or nearly 25 per cent., is too much tribute to pay to those who participate in these contracts.

Let me give you a concrete illustration:

The road from New Brunswick to Metuchen was built under closed specifications. A patent pavement was specified. Contractors could not bid on anything else. There were in the road 82,566 square yards. The cost then at $1.00 a yard excess was $82,566 more than it should have been—$82,566 more than it would have been if sheet asphalt had been specified.

Out of a total cost for the road of approximately $650,000 there will be paid unnecessarily over $82,000 by reason of the use of patent pavements.

We are now about to spend $40,000,000 through a bond issue.

The figures given to me by competent engineers, thoroughly familiar with this kind of work, are staggering but true.

They say that upon the expenditure of $40,000,000 there will be paid $6,000,000 in excess if patent paving is used under closed specifications. In other words, 15 per cent. of the total cost of $40,000,000 will be wasted money—money expended unnecessarily. In many cases it would be money used to corrupt public officials and to encourage further road building of this character.

Shall we sit quietly by and permit this waste of public funds when we know that it is going on?

I would therefore recommend that laws be passed at once to provide for open specifications in the broadest possible fashion, so as to prevent a repetition of these abuses. There should be no difficulty in doing this. We should repeal our county reimbursement acts, which permit the county boards of freeholders to share in this practice. Let us place the full responsibility for spending State funds upon the State Highway Commission, for the State must see that its money is properly spent.

The fixing of routes should be left to the State Highway Commission. We will then get rid of "log-rolling" and the road question will be taken out of politics. The fixing of routes, etc., should be done under a fixed plan, devised for the best interests

of the State, not any particular division thereof, or of any particular persons therein.

Members of the Legislature who may directly or indirectly represent these paving or other similar interests should be by law disqualified from passing upon legislation affecting those matters.

CEMENT.

Another important matter that must have attention is the cost of cement. This is now sold for $2.00 a barrel, wholesale. In 1914 it cost 60 cents a barrel.

It is a matter of common knowledge that there is a combination among cement manufacturers for the purpose of controlling prices, and that they succeed in doing so.

There is absolutely no competition. A buyer must pay the price fixed by the combination or go without. All sellers quote the same price. All orders go to a common source, where they are tabulated. Upon this tabulation production is based. By this means the production is curtailed and controlled. Only a limited amount of cement is made, and a scarcity is thus produced by non-production, and the price is kept up.

Last year contractors could not get all the cement they wanted, because of this curtailing of manufacture.

I am told that out of excessive profits made in this way a large "slush" fund is provided with which to fight every effort to break up these practices.

This combination has been indicted in the United States courts in the State of New York and a trial was held in which the jury disagreed. I am reliably informed that the Government's side of the case was badly presented, and that if an honest, vigorous effort were made to secure conviction there would readily be a verdict of guilty and a breaking up of this combination.

I am also told that the investigation clearly showed that $1.25 a barrel would be a fair price for cement. On each barrel we are making an excessive payment of 75 cents.

On the expenditure of our $40,000,000 for roads, our loss, by reason of this overcharge, will be about $2,000,000, or 5 per cent. of the total amount.

In this connection, we must also bear in mind that this excessive charge goes into every barrel of cement used for manufacturing and building purposes, and so affects, materially, not only the pockets of every citizen, but the growth and progress of the State itself.

If you build a house it costs you more than it should; if you build a factory it costs more. Public and private enterprises often must wait or are abandoned altogether because of excessive cost.

I would recommend that the following action be taken:

1. That chapter 13 of the Laws of 1913, lately repealed, defining and punishing unlawful combinations, be re-enacted.

2. That the Attorney-General of the United States be requested to bring on, at an early date, with competent attorneys to prosecute same, the retrial of those who were indicted as being responsible for this combination in the cement business.

3. That the Attorney-General of the United States be requested to prosecute with vigor and effect the suit started some time ago in the Federal courts to restrain this unlawful combination.

4. That a law be passed giving the State Highway Commission power to acquire, by purchase or otherwise, out of road funds, a plant or plants for the manufacture of cement. Other States are endearvoring to do the same thing.

5. The Highway Commission should be authorized to enter into a contract for all or any part of the cement that may be required for our roads, at a price satisfactory to it. This may encourage the establishment of a plant or plants furnishing independent and competitive prices. At all events, we always have the power to refuse to build roads if the prices of materials are excessive.

LABOR.

I believe, too, that there may be a considerable saving by the use of labor from our prisons and reformatories. This would be an advantage, as well, to those who may be thus employed.

I am having prepared at this time a plan for this work, which I will submit to the Highway Commission.

I would therefore recommend that legislation be enacted which will permit this action to be taken.

ADDITIONAL RECOMMENDATIONS.

In order that the Highway Commission may be able at any time to make full investigation into road affairs, I would recommend the passage of a law which will give that body the fullest power of investigation on all matters affecting the work of that department, and the expenditures of its funds. This should include the power to engage the Attorney-General or other counsel, the subpœnaing of witnesses, and the power to punish those who fail to appear, or who testify falsely, and also such other powers as may be necessary.

I would further recommend that the Road Act be so amended as to permit the taking, for road and bridge purposes, whatever property may be needed.

This seems to be necessary, because in securing land for the approach to the Amboy Bridge the Highway Commission claimed it had to buy, and could not condemn, because of a defect in this particular in the present act. If this be so, it should be remedied.

REMOVAL OF BOARD.

Under the power conferred upon me by the law, I have this day exercised that power, and have removed the present State Highway Commission. In doing so, I do not cast any reflection upon the members. It is sufficient to say that such action is in the public interest.

This leaves the State without a Board, and I shall make no attempt to fill the vacancies at this time, because of the recommendations made to your body in my inaugural message.

I would therefore urge upon you prompt action by the passage of a bill that will reduce the board from eight to three members, with a salary sufficient to attract high-class, public-spirited citizens to undertake this work. By making the membership three the Board will take a broader view of the problem, and will not be subject to local influences. It will also be possible to put

responsibility directly upon these men, instead of dividing it. When they do not function properly or efficiently they may be displaced.

I desire to direct your attention to the report of the Bureau of State Research on State Highway financing, issued by the New Jersey State Chamber of Commerce. This report should be read and given serious consideration by those who must deal with this important question.

I also direct your attention to the schedule submitted herewith, showing the amount of State Road Tax paid by each county and the amount distributed in 1922.

Also herewith, for your information, I am submitting a schedule showing regular apportionment for 1923 of motor vehicle funds and additional allotments.

The people of New Jersey are looking to us for relief and expect us to adopt an efficient and economical plan for highway construction.

Respectfully submitted,

GEORGE S. SILZER,

Governor.

The following message was received from the Governor, by the hands of Mr. Pearse, his Secretary, which was read as follows:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
January 29th, 1923.

To the Legislature:

In the matter of taxation and the reduction of the tax burden now absorbing so much of the attention of our people, it is essential that we should first understand existing conditions in order that we may determine what is best to do.

Many people are studying our tax laws and methods. In order that their labors may be lightened and the problem clarified, I have prepared a study in graphic form, which I am herewith submitting to you for your consideration and the consideration of the people of the State.

These charts show first, what property is taxed. It then analyzes each subject, deals with exemptions, mandatory tax, our State road tax, State school tax, motor vehicle receipts and then takes up and points out the method in which each of these sums is expended. I would suggest that you have a number of copies of this study printed for distribution.

I believe that this will be of much use to you in finding solutions for present tax burdens.

After the taxpayers have had a chance to give this matter further study I shall communicate with you and make further recommendations to you.

Respectfully submitted,
GEORGE S. SILZER,
Governor.

Mr. Stevens moved that the above message be received and the usual number of copies be printed.

Which was agreed to.

The following message was received from the Governor, by the hands of Mr. Pearse, his Secretary, which was read as follows:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the Legislature: January 29th, 1923.

I am transmitting you herewith an offer made by Mr. and Mrs. Anthony R. Kuser of land in Sussex county, New Jersey, aggregating about 10,400 acres, or slightly over sixteen square miles, commonly known as "High Point," to be used for park and other purposes.

This tract of land is peculiarly fitted to be of great use to the people of the State of New Jersey, not only because of the timber and water rights, but also because of its use as a pleasure and health-giving resort.

It is offered with practically no limitations.

If this property could be placed at the disposal of such organizations as the Y. M. C. A., Y. W. C. A., Knights of Columbus, Y. M. H. A., Y. W. H. A., Boy Scouts, Camp Fire Girls, and other similar organizations for camp site purposes, it would do much for the uplift and benefit of the youth of our State.

It would also be available, in part, for a tuberculosis sanitarium for our veterans of the great World War.

I have no doubt that many other beneficial uses will be found after the park is in practical operation.

I would recommend that this most generous gift of Mr. and Mrs. Kuser be accepted, and that appropriate legislation be passed for the appointment of five commissioners to bring it into beneficial use as soon as possible.

Respectfully submitted,

GEORGE S. SILZER,
Governor.

Mr. Stevens moved that the above message be received and the usual number of copies be printed.

Which was agreed to.

The following message was received from the Governor, by the hands of Mr. Pearse, his Secretary, which was read as follows:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the Legislature: January 29th, 1923.

Complying with Concurrent Resolution No. 1, dated January 16th, requesting a report of the coal situation in this State, I beg to transmit herewith a report of the New Jersey Fuel Commission, dated January 15th, and addressed to Honorable Edward I. Edwards, Governor of New Jersey, and delivered to him on that day.

From this you will see that the Commission has been busy from the third day of August in looking after our people, and that they began to function long before similar commissions, and before the Federal Commission.

You will also see that New Jersey has received its full share of coal allotted to this district.

It is also interesting to note that their operations have been very economical compared with the cost to other States.

Complying with your request for suggestions as to legislation, I would say that since the coal originates in Pennsylvania and almost immediately comes into inter-state commerce the problem is primarily a Federal one, over which we have no control.

The only control we have is over coal shipped into this State for consumption here.

With regard to this I would call your attention to the report made under Joint Resolution No. 2, approved March 3, 1921, which provided for an investigation into the coal question in the State of New Jersey. The report, among other things, discloses the following:

"The committee is satisfied that there is an understanding, not only among the producers and their sales agents, to maintain a uniform high price, but an understanding among the members of the different retail coal dealers' associations that the domestic supply of anthracite coal shall be disposed of at a uniform price."

"In two instances the committee were able to obtain, from witnesses produced from two different localities of the State, testimony to the effect that the coal dealers' associations to which they belonged at the beginning of the year agreed upon and fixed the price to be charged to the consumer."

"The committee feels convinced that the main protection offered to a member of an association is the elimination of open

competition, thereby maintaining the price to the consumer of anthracite coal."

"The elimination of competition made it possible to accumulate greater returns from the money invested, and to do away with the uncertainty of the price to be received from the consuming public for their product, and surer means of maintaining a standard price for their commodity. In this respect the committee recommends the passage of the act submitted herewith as the first step to be accomplished looking toward the reduction of the price of coal to the consumer. At the present time there is no law on the statute books sufficiently broad, in the opinion of the committee, to meet this condition, and we therefore recommend the passage of the same."

"These sales companies, to the extent of about ninety-five per cent. of their stockholders, are stockholders of the producing company, and it is impossible to secure any coal under which is known as the old line companies unless it is purchased from the sales companies."

"It is apparent from the evidence taken that in late years these distributing companies have been gradually forcing the dealers who own coal pockets to discontinue buying coal in their localities and to secure their supply from the pockets of the distributing companies. In the opinion of this committee, legislation should be enacted either controlling or disposing entirely of the pockets of the distributing companies or sales companies."

"It is further apparent that the monopoly of the retail coal trade is forced by these pockets in so far as the distributing companies will not supply anyone applying for coal, but only to dealers."

These suggestions appear to be as pertinent now as on February 27th, when filed in the State Library as an "Intermediate Report," without the bill referred to in the quotation.

After making this report the committee was continued for another year; but I am unable to find that any further report was made..

I do not find any legislative action taken to carry out the committee's recommendations.

I would recommend, in conformity with your request, that laws be passed to correct the conditions to which attention is called in the committee's report; also, the re-enactment of chapter 13 of the Laws of 1913, being one of the so-called "Seven Sisters" acts, regulating unlawful combinations.

My attention has been called to the fact that some distributors and dealers in coal and other like commodities have been profiteer-

ing and exacting uncalled-for profits from consumers. If this be true they could probably be controlled by requiring all dealers to be licensed. In this way the profiteers might be regulated, stopped and punished.

There would be no necessity, however, of setting up a new department for this, as there are no doubt existing departments with time enough to take on this additional work without extra expense to the State.

There is seldom difficulty in finding a remedy, when we know all the facts.

Unfortunately, the Congress has never found the facts, or placed them before the country. If this were done then public sentiment would force action, looking toward a solution of this difficult problem.

I would therefore urge that the Congress be memorialized to take the necessary steps and to do it at once.

Owing to the mild winter the suffering of our people for lack of coal, while bad enough, has been less than if the weather had been colder.

At another time we may not be so fortunate. It is our duty, then, to see that there will be no repetition of present conditions.

If we add to those of other States our desire for prompt action, much good should result.

Respectfully submitted,
(Signed) GEORGE S. SILZER,
Governor.

Attest:
FREDERICK S. PEARSE,
Secretary to the Governor.

TRENTON, N. J., January 15, 1923.

Hon. Edward I. Edwards,
Governor of New Jersey,
Trenton, New Jersey:

DEAR GOVERNOR—In view of the fact that we, the members of the New Jersey Fuel Commission, held office by virtue of appointment by you in accordance with the request of the Hon. Warren G. Harding, President of the United States, our commission concluded to briefly review what we have accomplished from the third day of August, 1922, up to the present time, in order that you may be fully cognizant of our work, and if so desired, transmit the same to your successor as Governor.

In response to your call the members of the commission, within three days thereafter, assembled in Jersey City and organized

with the election of William T. Grier as Chairman, James W. West, treasurer, and John J. Farrell, as secretary.

At that time the coal situation was in a most chaotic condition. Miners, both bituminous and anthracite, had been on a strike for a period of five months. Surplus supplies of all kinds had rapidly dwindled, and the shortage of bituminous coal was seriously threatening the operation of public utility corporations and all industries. Your commission immediately proceeded, with your aid and the aid of your office, to make so far as possible a complete survey of the coal situation so far as it affected the public utility and industrial interests of the State. At the same time a similar survey was made of all State institutions and the governing bodies of counties and municipalities were requested to act in like manner.

Your commission is gratified to be able to report that it met with the most hearty and earnest co-operation in every move it was called upon to make. In the preparation of the survey it had the earnest co-operation of the State Purchasing Department, the Public Utility and the Labor Departments, and the various county and municipal officials called upon.

As a result your commission was in a position to function and did from its very organization, and was able to secure shipments of bituminous coal in urgent cases several weeks before the Federal Fuel Commission had effected a permanent organization. As a result, by the time of the final settlement of the bituminous strike your commission had succeeded in having shipped into this State more than 350,000 tons of bituminous coal at prices which in no instance exceeded $4.25 a ton, and in a majority of which was less than half that amount.

One of the first acts of your commission was, with the aid of the press, which was cheerfully afforded at all times, to urge upon the general public the absolute necessity that would occur for the practice of the strictest economy in the use of anthracite coal, in order that the limited supply which the commission found would be available, might be fully conserved and utilized in a way to prevent unnecessary hardships.

From their appointment up to the present time your commission, through its officers, has kept in the closest touch with the Federal authorities and the Pennsylvania Fuel Commission, which absolutely controlled the distribution of anthracite. All conferences held at Washington, Harrisburg and Philadelphia were attended, and such a thorough understanding was established between your commission and the Pennsylvania authorities that

the results show that up to the present time New Jersey has fared as well, if not much better, than any other State in the distribution of anthracite coal. The official figures from the week ending September 23d, the first week after the resumption of anthracite mining, up to December 23d, a total of fourteen weeks or one-half of the present coal year which expires on March 31st next, shows total shipments to New Jersey of 1,611,348 tons or approximately 204,557 tons in excess of our 60 per cent. allocation. The following table will show the amount received each week:

September 23, ...	156,493	October 28, ...	116,989
September 30, ...	122,122	November 4, ...	79,506
October 7, ...	113,334	November 11, ...	98,586
October 14, ...	111,724	November 18, ...	106,254
October 21, ...	102,889	November 25, ...	110,151
December 2, ...	106,333	December 16, ...	137,017
December 9, ...	122,280	December 23, ...	127,670

It will be observed that except for two weeks, during which all coal was being diverted to the lake regions before the freezing period, our supply was above our weekly due of 100,485.

Work of your commission was so far advanced that it was able on September 22d to adopt an order regulating the maximum retail price of coal, which you issued in a proclamation of that date fixing the price at a margin of profit, but slightly in excess of that prevailing in March of last year, and providing for an equitable distribution by retail dealers. In the enforcement of that order the commission, with few exceptions, has had the earnest co-operation of coal dealers, and except in a few instances where dealers have been purchasing from independent operators, who are allowed, because of a difference in cost of production, to charge more than the maximum price fixed at the mines, the retail prices of coal have not been far in excess of that of last year.

Your commission has assurances from the anthracite authorities that the present high scale of anthracite production will continue, and if it does and our State continues to receive as proportionately as large a share as it did during the last three weeks of December, officially reported, there should be an ample supply for all domestic needs, economically used of course, from now until the end of the coal year.

Your commission, as you are aware, served without compensation and endeavored to keep their traveling, clerical, printing and stationery expenses during the six months they have been

operating, within the $3,000 which you had set aside for the use of the commission. It is only fair for you to know, just by way of comparison, that the New York State Commission, which has not fared as well as your own, expended over $30,000 in making a survey before they received a single shipment of bituminous, and are now paying a coal commissioner $2,500 a month, exclusive of the general cost of maintenance; and the Federal Fuel Commission, which did not begin to function until six weeks after your own, in their recent report, admitted an expenditure of $40,000 up to January 1st.

Except for the assistance cheerfully afforded by State and municipal agencies appealed to, by the coal dealers as a whole, and by the Pennsylvania Fuel Commission, it would have been impossible to accomplish what has been done up to the present time, and the commission earnestly hopes that whatever further action may be taken this same spirit of co-operation and assistance will continue.

Respectfully submitted,

WILLIAM T. GRIER, *Chairman.*

The following message was received from the House of Assembly by the hands of its Clerk:

STATE OF NEW JERSEY,
ASSEMBLY CHAMBER,
January 29th, 1923.

Mr. President:

I am directed by the House of Assembly to inform the Senate that the House of Assembly has passed the following Concurrent Resolution:

Concurrent resolution protesting to the Federal Government against a continuance of ineffective control and direction of occupational training of the United States Veteran Bureau in the Second District.

WHEREAS, It is a matter of public knowledge and a subject of discussion in the public press that there is maladministration of the United States Veteran Bureau in what is termed the Second District, including the States of New Jersey, New York and Connecticut, involving an unspeakable wastefulness of public

funds and a demoralization of the facilities designed by the Federal Government to be everlastingly beneficial to the veterans of the late war who were maimed in the service of their country; and

WHEREAS, Such maladministration is hurtful alike to the State and to the individuals involved; and

WHEREAS, Recent investigation has disclosed, among other things, that disabled soldiers have been grossly misadvised and placed in training in occupations which they could never hope to master because of their obvious physical infirmities; that they have been neglected and many valuable months and years of their lives wasted by their being kept in training in these trades despite their protests and appeals for transfer to vocations more suitable to their physical capacities; that thousands of maimed veterans have been left to idle away years in mushroom institutions that have little facilities for their instruction and less interest in their welfare; that the conclusion of the periods of training of several thousands of these soldiers will arrive in July, and that they will then be thrown upon the streets with scarcely any real vocational preparation to grapple once more with the problems of life; now, therefore.

Be it Resolved by the General Assembly of the State of New Jersey (the Senate concurring):

1. That mindful of the welfare of the men who cheerfully offered their lives at the call of their country and desirous of carrying out the intent of beneficent laws in the interest of vocational training for the United States veterans of the World War, respectfully records a protest against a continuance of ineffective control and direction of their occupational training and progress, and emphasizes the necessity for a more capable enforcement of all laws, rules and regulations designed to benefit the veterans, and to that end asks the Congress and the President of the United States to take such action as will insure the restoration of the disabled soldiers of New Jersey, New York and Connecticut District to self-reliance and usefulness.

2. That a copy of this resolution be forthwith transmitted to the Clerks of the United States Senate and the House of Representatives and to the individual Senators and Representatives in Congress from the State of New Jersey.

In which the concurrence of the Senate is requested.

UPTON S. JEFFERYS,
Clerk of the House of Assembly.

Mr. Mackay, on leave, introduced the following Senate Substitute for the foregoing concurrent resolution which was adopted:

WHEREAS, It is a matter of public knowledge and a subject of discussion in the public press that there has been maladministration and too frequent failures to function properly of the United States Veterans' Bureau in what is termed the Second District, including the States of New Jersey, New York and Connecticut, involving an unspeakable wastefulness of public funds and a demoralization of the facilities designed by the Federal Government to be everlastingly beneficial to the veterans of the late war who were maimed and disabled in the service of their country; and

WHEREAS, Such past maladministration and failure to properly and efficiently function is hurtful alike to the State and to individuals involved; and

WHEREAS, Recent investigation has disclosed among other things that disabled soldiers have been grossly misadvised and placed in training in occupations which they could never hope to master because of their obvious physical infirmities; that they have been neglected and many valuable years of their lives wasted by their being kept in training in these trades despite their protests and appeals for transfers to vocations more suitable to their physical capacities; that thousands of maimed veterans have been left to idle away years in mushroom institutions that have little facilities for their instruction and less interest in their welfare; that the conclusion of the periods of training of several thousands of these soldiers will arrive in July, and that they will be thrown upon the streets with scarcely any real vocational preparations to grapple once more with the problems of life; Now therefore, be it

Resolved by the General Assembly of the State of New Jersey (the Senate concurring):

1. That mindful of the welfare of the men who cheerfully offered their lives at the call of their country, and desirous of carrying out the intent of beneficent laws in the interest of vocational training for the United States veterans of the World War, respectfully records a protest against inefficient control and direction of their occupational training and progress and emphasizes the necessity for enforcement of all laws rules and regulations designed to benefit the veterans, and to that end ask the Congress and President of the United States to take such action as will

insure the restoration of the disabled soldiers of the New Jersey, New York and Connecticut district to self-reliance and usefulness,

2. That there shall be further decentralization of compensation and permanently rated cases to district control, thereby benefiting the ex-service disabled soldier by improving and expediting the service to be rendered him.

3. That adequate power be vested in the district manager to place subordinates in the positions he believes them best fitted for and remove inefficiency from the organization regardless of political affiliations and furthermore that authority be granted to hire locally expert advisers and technically trained persons that will insure a proper administration in the second district.

4. That the matter of control of hospitals be placed in the district office and not in Washington as at present. That there should be a permanency to the office of district manager and that we be assured of a continuance of present policies and administration, except as above set forth.

5. That copies of this resolution be immediately sent to all United States Senators and Congressmen.

Mr. Stevens offered the following resolution, which was read and adopted:

Resolved, That when the Senate adjourns it be to meet on Friday morning at 11 o'clock, and that when it then adjourn it be to meet on Monday evening at 8 o'clock.

On motion of Mr. Stevens, the Senate then adjourned.

Amendments to Senate Bill No. 10.

Amend Senate Bill No. 10 by striking out all of line 64, after the word "reasonable", in said line, and all of lines 65 to 73,

inclusive, and inserting in lieu thereof the following:

"If upon application of the utility affected a writ of certiorari is allowed by the Supreme Court to review such order, the increase, change or alteration filed shall not become effective prior to a review by the Supreme Court and a decision thereon. If, upon review on certiorari by the Supreme Court the Supreme Court should direct that the board's order should be set aside or a rehearing ordered, the increase, change or alteration filed by the utility shall not become effective within sixty days from the entry of the rule setting aside such order or directing such rehearing, and the board shall make such further determination and order as will be consistent with the decision of the Supreme Court. Should the board fail within sixty days from the entry of the rule to make its further determination and order, the increase, change or alteration filed by the utility shall become effective, subject, however, to further hearing and order by the board. If following rehearing, the board should be of the opinion that a rate or schedule of rates different from that filed by the utility should become effective in accordance with the decision of the Supreme Court, it shall fix such rate or schedule of rates. In such event the rate or schedule of rates filed by the utility shall not become effective unless the Supreme Court shall then stay the order of the board or upon review shall decide that the board's order should be set aside and further rehearing ordered."

Mr. Whitney moved the adoption of the above amendments.

Mr. Reeves rose to a point of personal privilege and read the following statement and resolution, which was ordered spread upon the Journal:

Resolution by Mr. Reeves:

WHEREAS, His Excellency, the Honorable George S. Silzer, Governor of the State of New Jersey, has caused to be published in the public press a communication addressed to this board to the effect that the Board of Freeholders of this county, between 1914 and 1922, put the county of Cumberland in debt $9,500,000, and that the debt of this county, of 1922, is $36,500,000; and

WHEREAS, Said public communication hereinabove referred to is grossly in error, and if permitted to go uncontradicted would result in jeopardizing the county's credit and sale of securities; and

WHEREAS, In truth and in fact the debt of the county of Cumberland, including debts incurred, together with indebtedness authorized but not yet incurred, aggregate the sum of $1,310,-453.57, $815,500 of which represents moneys for which the county of Cumberland will be reimbursed from the State of New Jersey for work done on State Highway routes and from Motor Vehicle funds allotted for payment of principal and interest on bonded debt within the next five years; therefore, be it

Resolved, That this board hereby respectfully requests his Excellency, the Governor of this State, to publicly give expression to the true state of facts relative to the county indebtedness, and in so far as possible, make effort to remedy the injustice done the county of Cumberland.

I desire to present for your consideration a copy of a resolution passed by the Cumberland County Board of Freeholders, in answer to a communication from Governor Silzer, which the board received two days after he had caused same to be published in the public press.

The Governor's statement was erroneous, inasmuch as his figures were something over $35,000,000 in excess of the actual bonded indebtedness of the county.

This statement was made by the Governor several weeks ago, the Board of Freeholders met at once, passed the resolution unanimously, forwarded a copy to the Governor, but receipt of same has not been acknowledged up to the present time, neither have I seen where he has caused this statement to be corrected in the public press.

In view of these facts and in justice to my fellow citizens of Cumberland county I feel it to be my duty to bring this matter to your attention.

On motion of Mr. Stevens, the Senate proceeded to the consideration of Executive business, on the conclusion of which, and,

Under the direction of the Chairman, the Secretary called the Senate, when the following Senators appeared and answered the call:

As amended,

Was taken up on third reading and laid over, on motion of Mr. Pierson.

The following message was received from the Governor by the hands of Mr. Pearse, his Secretary:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the Senate: February 26th, 1923.

I desire to call your attention to the fact that on January 22d I removed the State Highway Commission, and that since that time there has been no Highway Board in existence, and for more than a month State Highway matters have been at a standstill.

On February 13th, after the Legislature, in its wisdom, had authorized the appointment of a new Highway Board, I sent to your body the names of Messrs. Scott, Stewart, Jelin and Kidde, four men of high standing, and thoroughly qualified to fill these important offices, and to see that good roads are built and the money of the State honestly spent. Up to this time no action has been taken by the Senate looking toward their confirmation, although I have heard no well-founded criticism of either their ability or honesty.

May I urge upon you the importance of prompt action, in view of the fact that the first of March is upon us and it is of the highest importance that this board become familiar with its duties and make plans for its work.

Unless these functions are undertaken at once it will have a serious effect upon our road building program during the coming year.

It is always of the utmost importance that road building be started as early as possible, so as to cause as little inconvenience as may be necessary during the summer months, when the roads are used most, and in order that construction may not be carried too far into the fall, when the weather conditions are so unfavorable for the building of good and lasting roads.

It is also of importance that this matter be disposed of in order that the Legislature, which has now been in session for six weeks, may devote its attention to the enactment of other legislation also of importance to the people of the State.

Respectfully submitted,

GEORGE S. SILZER,

Governor.

Attest:

FREDERICK S. PEARSE,

Secretary to the Governor.

Mr. Mackay moved that the message be received and spread upon the Minutes.

The veto message of the Governor was taken up and read as follows:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the Senate: February 26th, 1923.

I can find no valid reason for approving Senate Bill No. 87. No matter from what angle it is approached, its viciousness becomes apparent. Its purpose is to transfer from the hands of the prosecutors in first-class counties to superintendents of elections, the powers which have been exercised by the prosecutors under chapter 210 of the Laws of 1918.

Since the enactment of the law of 1918, Hudson county has been put to an expense of $329,807,79. The first year the expense was $16,448.74, and in 1922, $105,286.18. In Essex county the expense has been $42,797.25. A total of nearly $400,000 has thus been spent in five years under an act which foisted an army of office-holders upon the taxpayers of these counties, without any expressed desire by either the voters or the officials of either county for any such bureau.

So far as I have been able to learn, no good has been accomplished by the law of 1918. Elections have not been purified, nor has the administration of law been bettered in any way. On the contrary, this mendatory legislation has imposed numerous useless office-holders upon the people and burdened them with more taxes.

The law of 1918 should long since have been repealed, and should now be repealed. Instead of doing this, it has been deemed fit to continue this useless operation by establishing the office of Superintendent of Elections, to be appointed by a joint session of the Legislature, and so perpetuate all the evils that experience has taught us flow not only from this kind of legislation, but this particular legislation.

There is no limit to the number of officials who can be appointed; there is no limit to their salaries; there is no limit to the expenditures. We may naturally expect an increasing

demand upon the taxpayers to sustain this bureau, which serves no public good, and whose only effect is to increase the burden of the taxpayers and continue a useless and vicious political system.

There has been no demand for this law, so far as I have been able to ascertain, from a single property owner or taxpayer in either the county of Essex or the county of Hudson. Why should it, then, be inflicted upon the people of these two counties?

The bill is introduced by the Senator from Bergen, who cannot in any way be said to represent the sentiment and interests of these counties, which have twenty-five representatives in the Legislature, who might speak for them.

How can this kind of legislation be justified, especially at a time when economy should be practiced and where there is universal complaint about excessive taxes?

This bill takes from the hands of the prosecutors of Essex and Hudson counties the management of these election investigating bureaus since those offices have become Democratic, and places them in the hands of superintendents of election, to be appointed by a Republican Legislature at joint session. If this act had any virtue whatever, some partisan argument might be made to justify its enactment, but since the whole thing, irrespective of politics, is vicious, useless, unnecessary, burdensome, perhaps unconstitutional, and serves nothing but a purely political purpose, there is no reason why this bill should become a law or the act of 1918 remain a law.

I therefore disapprove this bill.

Respectfully submitted,

GEORGE S. SILZER,

Governor.

Attest:

FREDERIC M. P. PEARSE,

Secretary to the Governor.

UPTON S. JEFFERYS,
Clerk of the House of Assembly.

Senator Case, Chairman of the Committee on Revision and Amendment of the Laws, announces a public hearing on Senate Bills Nos. 195 and 196 on Monday, March 5, at 3, in the Senate Chamber.

In accordance with the direction of the President, the Secretary carried the following bills to the House of Assembly, and informed it that the Senate had passed the same, and requests its concurrence therein:

Senate Bills Nos. 38, 59, 65, 71, 91, 136, 179, 206, 218, 258, 260, 277, 87 over Governor's veto.

Assembly Bills Nos. 109, 114, 81 with S. A.

Mr. Stevens offered the following resolution, which was read and adopted:

Resolved, That rule 38 be suspended for the remainder of the session, and that Senate and House bills, when passed by the Senate, be signed by the President and delivered forthwith by the Secretary to the House of Assembly.

Mr. Stevens offered the following resolution, which was read and adopted:

Resolved, That when the Senate adjourn it be to meet on Wednesday morning at 11 o'clock.

On motion of Mr. Stevens, the Senate proceeded to the consideration of Executive business, on the conclusion of which, and,

Under the direction of the President, the Secretary called the Senate, when the following Senators appeared and answered the call:

Messrs. Agans, Allen, Barber, Blackwell, Bright, Case, Kays, Larson, Mackay, Pierson, Reeves, Richards, Roberts, Simpson, Smith, Stevens, Wallworth (President), Whitney—18.

On motion of Mr. Stevens, the Senate then adjourned.

WEDNESDAY, February 28th, 1923.

At 11 o'clock A. M. the Senate met.

The session was opened with prayer by Senator David H. Agans.

Under the direction of the President, the Secretary called the Senate, when the following Senators appeared and answered to their names:

Messrs. Agans, Allen, Barber, Blackwell, Bright, Case, Kays, Larson, Mackay, Parry, Pierson, Roberts, Simpson, Smith, Stevens, Wallworth (President), Whitney—17.

On request of Mr. Simpson, the following editorial from the *Wall Street Journal* was ordered spread upon the Journal:

(*Editorial, Wall Street Journal, February 28, 1923.*)

"GOVERNMENT BY INTIMIDATION.

"Upon what is the strength of such irresponsible organizations as the Anti-Saloon League founded? No one, except their salaried and interested defenders, pretends that they represent more than a fraction of American public opinion. They are based solely and squarely, for all practical and strategic purposes, upon the cowardice of the politician. It is a question whether Anderson and the society he represents, or the women in the passage of the suffrage amendment, were first in the field with a system which amounts to organized intimidation—influence over the politician by personal pressure.

Intimidation need not be exercised to extort money. It can be, and has been many times, used to influence votes, where those votes will have the most effect, as, for instance, in Congress and in the State legislatures. These voluntary organizations maintaining expensive lobbies in Washington, apart from effrontery and assurance—developing into bluff where necessary—have a tangible asset in a a system of card indexes. They do not deal in generalities. So long as the politician votes dry his relations with his private bootlegger are not molested, although they are recorded, where possible, as a club to hold over him.

Whether Superintendent Anderson exercises his undoubted constitutional rights, as affects his own evidence or in relation to the statute of limitations, public opinion will still demand why

there should be any need for secrecy in an organization claiming so high a standard of virtue as the Anti-Saloon League. The league itself is under a suspicion of the detestable doctrine of evil means to a supposedly good end. And even this is less significant than the card index system which was at one time the triumph and boast of this and other like organizations.

Every Congressman, Senator and member of a State legislature is card indexed, with every ascertainable fact about his personal business, the nature and names of his associates and principal supporters, together with whatever may be obtained of a compromising character. When pressure is brought to bear upon him nothing is said about "the inherited effects of alcohol." He is shown, where possible, the vulnerability of his own record.

While there are some admirable and disinterested patriots in Congress, who could earn in business far more than their salaries, the rank and file would find it difficult to earn $7,500 a year in any other employment. As a description, *vox et praeterea nihil,* mouth and little else, would cover the range of their abilities for all practical purposes. At all costs they cling to their jobs, and this is the opportunity of the crank blackmailer. If their influential supporters in the district find that they themselves are suffering Anti-Saloon League pressure in their private affairs because of the intractability of their representative in Congress, their affection towards him may well cool, and he finds himself at the next election out of a job.

A number of societies are doing this, and it practically amounts to keeping a police dossier for all men in public life. Of course, if it can be extended to everybody it loses some of its terrors, but it will be a long time before the politician musters up sufficient courage to defy these agencies. At present it constitutes secret service, in irresponsible hands securing, amongst other things, prohibition at the sacrifice of representative government, to say nothing of respect for law.

The following message was received from the Governor, by the hands of Mr. Pearse, his Secretary:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
February 28th, 1923.

To the Senate of the State of New Jersey:

I have just had a call from the Deputy Clerk of the Supreme Court, calling my attention to the fact that the term of the present Clerk of the Supreme Court expires to-day, and that if the

new Clerk is not confirmed that the work of the office will come to a standstill and it will be impossible to issue writs and other processes, and that there is a possibility of considerable harm being done to litigants in the event of inability to start suit and the running by the statute of limitations.

On the 29th day of January, I sent to your body the name of Edward J. Kelleher. Although a month has passed there has not been the slightest suggestion made to me that there is any valid objection to Mr. Kelleher's confirmation.

I, therefore, urge you in the public interest to take immediate action upon this nomination, in order that our courts may continue to function.

Respectfully submitted,

GEORGE S. SILZER,
Governor.

Attest:

FREDERIC M. P. PEARSE,
Secretary to the Governor.

Mr. Stevens moved that the message be received and spread upon the Minutes.

Mr. Stevens moved that the further reading of the Journal of March 5th be dispensed with.

Which was agreed to.

Mr. Whitney submitted the following report of special committee appointed under Senate Concurrent Resolution No. 3.

REPORT OF LEGISLATIVE COMMITTEE APPOINTED UNDER SENATE CONCURRENT RESOLUTION NO. 3, INTRODUCED JANUARY 29, 1923.

The resolution by the preamble sets forth that the Rev. Frank Ritter, pastor of the Waverly Congregational Church, Jersey City, a duly ordained minister of the Congregational Church, has publicly stated in the Jersey City newspapers that the House of Assembly "has been fixed" for the passage of Senate Bill 82, and that six members have already been purchased and four more are to be purchased to vote for the said bill. This committee is authorized to investigate the charges and given power to do this.

The committee finds that the "Jersey Journal," a Jersey City newspaper of a general and large circulation, on January 25, 1923, published a reported statement by Dr. Ritter as follows:

"A friend of mine told me last night that a movie proprietor in Hudson county had told him that the movie fraternity is very busy in Trenton and has the House of Assembly all fixed for the passage of the Simpson bill. The story told me also had it that there are already six of the twenty-one State Senators pledged

for the Simpson Open Sunday bill. The movie men, so I am told, expect a telegram from Trenton next Monday saying that the four more Senate votes had been bought for the Simpson bill, making the total number of Senate votes for the bill ten. As to the truth of this statement I have not yet had the opportunity to investigate and I give you this story for what it is worth."

Dr. Ritter denied the full accuracy of his reported interview with the newspaper reporter, stating that he had not said that four more Senate votes had been bought but that he did say that he had been informed that four were to be bought. Dr. Ritter according to the testimony, is the secretary of a New Jersey corporation entitled "Society of New Jersey for the Prevention of Crime and Promotion of Morals," composed of four or five persons. Said corporation employed as an investigator, Lionel Wilson, who was to act under the instructions of Dr. Ritter, the secretary of the corporation. Mr. Wilson came to Dr. Ritter, in August or September, of last year, primarily to obtain a job. The corporation was just organized and had no money, and Mr. Wilson was informed that they could not employ anybody, but that they would pay him to work for them, and explained that if the corporation had any money it would pay him $50.00 a week, and have paid him a certain sum of money under that promise for work done. Mr. Wilson is a professional investigator, and declined in part to testify as to previous criminal proceedings in which he was a defendant. Dr. Ritter's statement to the press, which Julius Grunow, representative of the "Jersey Journal," testified was accurately reported as published, was based upon statements to Dr. Ritter by the said Lionel Wilson.

Mr. Wilson testified that he overheard a conversation in the lobby of a Jersey City theatre between one Hensel, president of the Summit Theatre Company, who is an architect by profession, and one Bollinger, his brother-in-law, and manager of a theatre under the control of said theatre company. The conversation, he stated, took place in the lobby of the theatre between 6:30 and 7 o'clock, at which time it was customary for patrons to enter the theatre, through the lobby, for the evening performance. They conversed out loud, fifteen feet apart, and he testified that Mr. Hensel asked Mr. Bollinger as follows: "How is the situation down at Trenton?" "Why," he says, "you have nothing to worry about." He says, "We have the Assembly lined up, and as far as the Senate is concerned," he says, "we have six in line." He says, "We are four short." He says, "I am waiting word from the organization, I expect a telegram—

that is, the theatrical organization that he is the treasurer of—and when I get that, I am going down to land the other four."

Immediately upon obtaining that information Mr. Wilson made a report of it to Dr. Ritter and went back on the following day and conversed with Mr. Bollinger, manager of the theatre, saying to him:

"Well, I guess it will cost you a few suppers and a couple thousand dollars to get the four down there." He says, "Yes; South Jersey Senators are hard-boiled." He says, "It will cost me more than that, and if I get away with it I will be lucky." Mr. Bollinger laughed, and Mr. Wilson said: "Well, if it is going to cost you that amount of money—how much do you think it is going to cost you?" "Well," Bollinger said, "if I get away with $20,000, $5,000 apiece, I will be lucky." Wilson said to Bollinger, "When are you going down?" Bollinger said, "I don't know. I am waiting for the word."

Mr. Wilson explained that when Mr. Bollinger used the words "lined up"; that is, "we have six in line," referring to Senators, "and we're four short," he did not understand Mr. Bollinger to have meant that they had been purchased or that it was necessary to purchase them, but what he meant in his report to Dr. Ritter by "lined up" was that it was a mutual agreement when the votes came along he had six votes for sure; that they were four short, and that the remaining four were to be purchased.

There was no testimony before the committee, nor was any obtainable, that Mr. Wilson was in possession of any facts except this conversation. The committee finds that the proof before it failed utterly to establish the fact that any member of the Legislature had been purchased or that any agreement had been made to purchase any legislator, or that anyone had had any conversation with any legislator in regard to the matter, except that some legislators not named had expressed themselves to the effect that they were in favor of voting for the measure. Mr. Wilson, the investigator, had no knowledge of any fact to such effect, and the Rev. Mr. Ritter had no knowledge of the truth of the reported conversation to him in substantiation thereof. The committee has endeavored to obtain such information but was unable to discover any evidence of bribery or attempted bribery or anything approaching it.

The committee feels that the Rev. Mr. Ritter is subject to censure, because of the statements made by him for publication without any knowledge of the truth of his reported interview with the representative of the press. The statements of Mr.

Wilson, the investigator, as made to Dr. Ritter were completely denied by Mr. Bollinger and Mr. Hensel, and no corroborative evidence was had or was obtainable that such conversation had taken place.

The committee feels, however, that the issue is clear that there was or was not such a conversation had as was testified to by Mr. Wilson and denied by Messrs. Bollinger and Hensel; that, therefore, perjury has been committed either by Mr. Wilson or by Messrs. Bollinger and Hensel, and recommends that the testimony be referred to the Prosecutor of the Pleas of the county of Mercer for further investigation and such action to be taken by the grand jury of the county of Mercer for the purpose of prosecution for perjury of the guilty party or parties.

Mr. Stevens moved that the report be read.

Which was agreed to.

REPORT OF JOINT COMMITTEE ON STATE HOSPITALS.

March 6th, 1923.

The Joint Committee on State Hospitals reports that the Morris Plains State Hospital is swamped with patients. Conditions there are a scandal and a menace to the entire State, and these conditions are due, not to any fault of the management, but to the inadequacy of provision for patients. The inhuman overcrowding of 2,900 patients into space improperly constructed to provide medical treatment even for its original capacity of 1,620, hampers the work of the hospital to such a degree that the best efforts of doctors, nurses, attendants and cleaners are useless.

The waste of many lives of patients forced by congestion into hopeless insanity and the economic waste of maintaining those who could be restored and sent home are results of this policy of short sightedness. There is no more economy in

neglecting mental disorders than in neglecting smallpox or yellow fever. A hospital for the insane requires space to separate the quiet from the noisy patients, the energetic from the morose, and the sick from the able-bodied. Those who have seen the corridors and garrets at Morris Plains filled with beds at night and crowded with hundreds of demented patients by day shudder to think of what an awful harvest of death would be reaped in case of fire.

The State of New Jersey waits to remedy such an appalling state of affairs, not because it does not know what to do, but because it has no money available to make the necessary construction and repairs. Your committee is of the opinion that the people of this State tolerate no policy of parsimony towards the wards of the State, those too helpless to plead for themselves, and are willing to pay a small direct tax in order that the conditions in our institutions, particularly at Morris Plains, should be improved at once.

The Joint Committee on State Hospitals therefore recommends that the Legislature pass Assembly Bill 317, which provides for a half mill direct tax to be applied to the relief of this situation.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
March 12th, 1923.

Mr. President:
To the Legislature:

Recently charges were made to me against a member of the State Board of Health.

I forwarded these charges to the State Board of Health for investigation. On March 7th the Board returned to me a resolution in which they deemed it improper to consider charges made against their own members, and invited the Governor of New Jersey to make investigation.

I have asked the Attorney-General whether there is any authority for the Governor to make an investigation, and if, after investigation, whether he has the power of removal.

The Attorney-General informs me that the present law does not give the Governor the power of removal, even if the charges are well founded; the next procedure being to bring impeachment proceedings in the usual way. This is a very complicated method of disposing of a matter of this kind.

I would therefore suggest that you amend the present law so that the power may be invested in some person or body to try matters of this kind and determine them.

I am sure that the Attorney-General will be glad to co-operate with you.

If such a law is not passed I will have to forward the charges to the House of Assembly for action.

Respectfully submitted,
GEORGE S. SILZER,
Governor.

Attest:
FREDERIC M. P. PEARSE,
Secretary to the Governor.

WHEREAS, We honor ourselves, our homes, State and Nation when we do anything to give emphasis to the home as the fountainhead of the State; and

WHEREAS, The American mother has done, and is doing, so much for the home, the moral and industrial uplift, and religion,

hence so much for good government, patriotism, humanity and religion; therefore,

Be it resolved by the Senate (the House of Assembly concurring):

1. That the Governor of this State is hereby requested to issue annually a proclamation calling upon our State officials to display the United States flag on all State and school buildings, and the people of the State to display the flag at their homes, lodges, churches, places of business and other suitable places, on the second Sunday in May, known as "Mother's Day," as a public expression of love and reverence for the homes of our State, especially for their mothers and other patriotic women therein, and that the Governor urge the celebration of Mother's Day in said proclamation in such a way as will deepen home ties, and inspire better homes and closer union between the State, its homes, and their sons and daughters.

2. This concurrent resolution shall take effect immediately.

The veto message of the Governor concerning Senate Bill No. 64 was taken up and read as follows:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
To the Senate: March 12th, 1923.

The ostensible purpose of this bill is to provide for the incorporation of co-operative agricultural associations. Its real purpose is to permit such organizations to enter into unlawful combinations for the purpose of fixing prices.

There is already sufficient warrant in chapter 154, Laws of 1920, for the formation of co-operative agricultural organizations.

Instead of amending that law an entirely new bill is presented, although, in fact, it largely follows the old act and adds some new sections to it.

Under this bill, co-operative associations may be organized, any number of them may combine, and those from without the State may be joined.

After this combination is made, it is then made lawful to take all the usual known processes for fixing prices, all of which is at present not only in restraint of trade, but would be a conspiracy at common law.

This bill permits what is known as an educational fund "to be used in such manner as the directors may determine, for the

purpose of gathering and distributing information or otherwise advancing the best interests of the association."

This is a recognized modern method of fixing prices and keeping them up.

There are methods provided, also, for punishing members who may violate the association's requirements.

In the case of *American Column and Lumber Company* v. *United States,* decided by the United States Supreme Court on December 19, 1921, the court declared the lumber company to be guilty of conducting practices which were in restraint of trade, and unlawful.

Every one of the things of which that company was held guilty would be made lawful by the bill now before me. I have no doubt that the drafter of the bill had this in mind when he provided, in section 29, that the acts of the association should not be considered unlawul, in restraint of trade, or an illegal monopoly.

We are asked by this bill to make lawful that which the Supreme Court of the United States said is unlawful, and which our experience has taught us is a most unwholesome and unhealthy condition for the consumer.

Of course, those who secure the lawful right to fix prices and stifle competition always benefit financially. That is the purpose.

Our concern, however, should be to protect the unprotected, and to prevent any one class from feeding upon another.

Although there are many other objects which might be pointed out, the meat of the bill is contained in section 29, which read as follows: "No association organized hereunder shall be deemed to be a combination in restraint of trade or an illegal monopoly; or an attempt to lessen competition or fix prices arbitrarily; nor shall the marketing contracts between the association and its members or any agreements authorized in this act be considered illegal or in restraint of trade."

I can see no reason for permitting and legalizing combinations in restraint of trade, or illegal monopolies.

I can see no reason for legalizing the lessening of competition or the arbitrary fixing of prices.

I can see no reason for legalizing contracts or agreements between its members which are illegal or in restraint of trade.

These are the the very things that we are struggling with day after day and attempting to prevent. Instead of legalizing them we should bend every effort to their prevention. If we are to legalize these practices, when done by these associations, then it

would be proper to legalize them for others as well. Certainly we are not ready to legalize combinations in restraint of trade, illegal monopolies, arbitrary price-fixing, and unlawful agreements.

If, in the proper temper of the people, a bill were introduced to legalize monopoly, lessen competition, and fix prices arbitrarily for coal, its author would probably be driven from the State. This bill, however, will permit that very thing with food and the greatest necessaries of life.

This is an audacious attempt to legalize the arbitrary fixing of prices for the very food that is sold to our people, and which will, of necessity, raise its price and be particularly burdensome upon the poor, who cannot afford to pay high prices.

For several years we have been trying to bring down the cost of living. This bill attempts to legalize the raising of that cost.

It will not do to say that these powers will not be exercised. We must not grant such powers if they are in any danger of being exercised.

I have every desire to assist those engaged in agriculture in every way that it is possible, but I am not willing to permit any association to be formed, be it agricultural or otherwise, which will permit combinations to be made for the fixing of prices and so prevent competition and raise the cost of living. No group of our citizens should ask it, and I do not believe it has the support of our agriculturists.

I therefore disapprove this bill.

Respectfully submitted,

GEORGE S. SILZER,

Governor.

Attest:

FREDERIC M. P. PEARSE,

Secretary to the Governor.

Mr. Stevens moved that the message be received and spread upon the Journal and that the bill lie over under the rules.

The following message was received from the House of Assembly, by the hands of its Clerk:

STATE OF NEW JERSEY,
ASSEMBLY CHAMBER,
Mr. President: March 13th, 1923.

I am directed by the House of Assembly to inform the Senate that the House of Assembly has passed the following concurrent resolution:

Resolved by the House of Assembly (the Senate concurring), That the Senate Concurrent Resolution adopted by the two Houses on January 15th, 1923, which reads as follows:

> *"Resolved by the Senate* (the House of Assembly concurring), That no bills or joint resolutions (excepting the usual appropriation bills and bills submitted by special investigating committees) be offered in either House of the Legislature after the legislative week commencing February 5th, 1923, unless by unanimous consent of the members of the body wherein such bill or joint resolution be proposed for introduction."

Be and the same is hereby rescinded for the purpose of permitting the introduction in the House of Assembly of two bills for the Speaker.

And be it further resolved, That with the introduction of these two bills no further bills or joint resolutions (excepting the usual appropriation bills and bills submitted by special investigating committees) be offered in either House of the Legislature, unless by unanimous consent of the members of the body wherein such bill or joint resolution be proposed for introduction.

UPTON S. JEFFERYS,
Clerk of the House of Assembly.

Mr. Stevens moved that the above resolution be referred to the Committee on Judiciary.

Which was agreed to.

The following message was received from the Governor, by the hands of Mr. Pease, his Secretary:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
March 13th, 1923.

To the Senate:

SENATE BILL NO. 91.

This bill delegates to the Chancellor the right to fix the amount of a pension to be paid to the Sergeant-at-Arms of the Court of Chancery, and gives him the right to grant such pension to the widow of the Sergeans-at-Arms.

I think that such a delegation of authority to the Chancellor, instead of being exercised by the Legislature, is unconstitutional, and that even if the bill became a law it would not be of any use to those for whose benefit it is designed.

I therefore disapprove this bill.

Respectfully submitted,
GEORGE S. SILZER,
Governor.

Attest:
FREDERIC M. P. PEARSE,
Secretary to the Governor.

Mr. Stevens offered the following resolution, which was read and adopted:

WHOSE BIRTHDAY?

March 15—Andrew Jackson, seventh President of the United States and famous as a general in the War of 1912, was born inWaxhaw, S. C., March 15, 1767, and died near Nashville, Tenn., June 8, 1845. In 1781 he took up arms against the British, but saw little active service because he was soon taken prisoner. In 1785 he began to study law and three years later went to Nashville, Tenn., where he opened a law office. In

1796 he was elected to Congress, and in 1797 became a United States Senator. However, he resigned his seat the following year to become a Judge of the State of Tennessee. Jackson took part in the Tennessee Indian wars, showing marked courage and gaining the rank of major general. When war was declared against Great Britain in 1812 he offered his service and those of 2,500 volunteers. In 1814 he was ordered to the Gulf of Mexico to resist an expected British invasion. At New Orleans he gained several victories, and subsequently, on January 8, 1815, repulsed 12,000 British veterans with a loss of 2,600, while the Americans lost only thirteen wounded and six killed. In 1821 he was appointed Governor of Florida and two years later became United States Senator from Tennessee. In 1828 he was appointed Governor of Florida and two years later became United States Senator from Tennessee. In 1828 he was elected to the Presidency and was re-elected four years later.

Assembly Bill No. 253, entitled "An act to amend an act entitled 'An act relating to courts having criminal jurisdiction and regulating proceedings in criminal cases (Revision of 1898),' " approved June fourteenth, one thousand eight hundred and ninety-eight, and all amendments and supplements thereto,

Was taken up on third reading.

Mr. Roberts asked unanimous consent to amend said bill on third reading.

Which was agreed to.

Amend section 1, line 22, by inserting before the word "annual" the word "maximum".

In line 23, after the word "dollars" insert "which sum shall be fixed by the judge and prosecutor,".

In line 24, change the period (.) to a semicolon (;) and add "*and provided further,* that the annual salary of said chief of county detectives shall be thirty-five hundred dollars, if said officer so assigned as chief shall have served twenty-five years as a county detective."

Mr. Roberts moved that the above amendments to Assembly Bill No. 253 be adopted.

Which was agreed to.

SENATE JOINT RESOLUTION NO. 2.

To the Senate:

This resolution provides for the appointment of three Senators, three members of the House, and three citizens to be named by the Governor, to make a survey of the properties acquired under the Morris Canal settlement, for the purpose of making recommendations of the public uses to be made of said property.

The resolution appropriates twenty thousand dollars, and permits the employment of necessary legal, clerical and other assistants.

My experience with legislative commissions has been that they accomplish little more than the spending of the money that is ap-

propriated, and I believe that would be the result of this resolution if adopted.

If the resolution had called for the appointment of three citizens I believe more could be accomplished at less cost. I still believe that disinterested citizens would be glad to take this matter into consideration, and could get their law from the Attorney-General.

There have been numerous reports from legislative commissions and specially appointed commissions on this subject, and thousands of dollars have been spent for this sort of thing.

If I believed that anything real would be accomplished I would not hesitate to have the money spent. We already have a State Department of Conservation and Development and one on Commerce and Navigation. We have volumes written on the subject; we have the report of the last commission, and we have the interest of each of the municipalities along the line of the canal. From all of these sources we ought to be able to get all the information we need during the coming year without the expenditure of twenty thousand dollars for legal and clerical services.

The resolution is disapproved.

Respectfully submitted,

GEORGE S. SILZER,

Governor.

SENATE JOINT RESOLUTION NO. 4.

To the Senate:

This resolution provides for the appointment of a commission to investigate the issuance, sale, etc., of stocks and bonds, and appoints the Attorney-General, the Commissioner of Banking and Insurance, the Secretary of State, and two persons to be appointed by the President of the Senate and Speaker of the House to investigate and report. It also carries with it an appropriation of two thousand dollars.

My principal objection is that these commissions accomplish little or nothing except the expenditure of public moneys.

I therefore disapprove the bill, and at the same time I am advising the Legislature that I have this day requested the Attorney-

General, the Commissioner of Banking and Insurance and the Secretary of State voluntarily to undertake this work and report to the next Legislature.

Respectfully submitted,

GEORGE S. SILZER,

SENATE JOINT RESOLUTION NO. 5.

To the Senate:

This resolution provides for an investigating commission consisting of the President of the Senate and two Senators and the Speaker of the House and two Assemblymen, the purpose being to investigate "the construction of bridges and the acquisition of lands for the approaches thereto," and the dealings of the State Highway Department in said matters.

The Attorney-General is made counsel for the Commission, with the usual powers, and the sum of five thousand dollars is appropriated to carry the resolution into effect.

On the third day of February, 1923, I directed the Attorney-General to investigate the sale of lands for the approaches to the Amboy bridge, and the proceedings has been started by him to set the sale aside and to recover the overpayment made on that occasion.

I believe that the Chancery proceedings furnish ample opportunity for getting all the facts that are necessary in order to set aside that sale. If I did not think so I would sign this resolution, in order to give the necessary power.

In view, however, that ample methods are provided, I see no necessity for this particular resolution; first, because it carries an appropriation of five thousand dollars, and second, because of the composition of the Commission.

Commissions of this kind, in order to accomplish real results, should be composed of those with judicial temperament, and free from political or other bias.

If such a Commission should be authorized, and would carry with it a thorough investigation looking into the activities of those interested in patent paving not only on bridges, but upon

our roads in the various counties and at Trenton, I would sign such a resolution.

For the reasons above stated I disapprove this resolution.

Respectfully submitted,

SENATE NO. 14.

To the Senate:

This bill evidently does not accomplish its purpose, as expressed by those interested in drafting it.

First, the title is not comprehensive enough to cover all of the things provided for in the bill, and it would, therefore, be unconstitutional.

Another serious objection is found on page 2, line 12, which provides that a report made by the employer "shall be signed by the employee." This provision appears again in line 17, and again in section 3, line 9. It may well be that the employee would not want to sign a report not made by himself. It might also happen that the employer might, in those reports, give his own version, with which the employee might not agree. If he signed it, it might be to his own detriment.

Notwithstanding this, section 4 provides that if the employee refuses to sign any form he is subject to a penalty.

The act requires the employee, under fear of penalty, to sign something which may be prejudicial to his interests. This becomes still more apparent when we look at paragraph 5, which provides that reports "shall not be used as evidence against the employer," but there is no provision that they shall not be used against the employee, who, as we have seen, is obliged to sign the report whether he likes it or not.

For these reasons, and others, which it is not necessary, in view of the above, to set out, I think the bill is one that should not become a law.

It is therefore disapproved.

Respectfully submitted,

SENATE NO. 22.

To the Senate:

I can see no reason for this constant tinkering with our election laws, which have been operating with reasonable success for some time.

This bill repeals section 49 of the Act of 1921, under which any voter may go before the county board of elections and become registered, provided he made a reasonable effort to register and for some reason other than his own neglect or forgetfulness he failed of registration.

I can see no reason whatever for barring any voter, under conditions of this kind, from going before a board of elections and having his name placed upon the rolls.

The purpose of our election laws is to encourage our citizens to vote, and every opportunity should be given them to exercise their rights.

This bill does just the contrary, and takes away from the voter his right and opportunity to vote. What possible reason there could be for the passage of this bill I cannot understand.

I therefore disapprove the bill.

Respectfully submitted,

SENATE NO. 23.

To the Senate:

This act repeals section 27 of Article XI of the General Election Act of 1920. This section was amended in 1922 and became section 23 of the amendatory act of 1922. This repealer does away with personal registration before the courts on election day *in municipalities having a population exceeding fifteen thousand.*

If this bill becomes a law there will be no provision on this subject *in municipalities having a population exceeding fifteen thousand,* and the result will be that if a man, through illness or other reason fails to register, he will be absolutely barred from his right of suffrage. I cannot believe that it is the will of the people of New Jersey that any man shall be barred from voting where the failure to register has not been through any fault of his. There has been a provision of this kind in our statutes for many years, and why it should suddenly be eliminated I do not understand.

Senate No. 23 prevents the courts from adding names to the registry lists and Senate 22 prevents application to the county boards to put names upon the lists. The two together absolutely prevent a voter from being registered, even though he were ill or had other good reasons.

I therefore disapprove the bill.

SENATE NO. 43.

To the Senate:

I have no doubt that this bill has some merit, but it provides for the spending of $200,000 for the building of an armory.

The bill has absolutely no value unless the money is appropriated in the annual or supplemental appropriation bill.

No such appropriation is made in the annual or supplemental appropriation bill of this year, and therefore the signing of this bill would be a mere gesture.

If the bill did carry the appropriation I would be inclined to disapprove it at this particular time. Only Thursday, in the Legislature, a bill which had for its purpose the helping of our unfortunates in the State institutions was defeated because it was deemed advisable to keep down the State expenditures.

It is quite clear to me that if we have not the money to take care of our State institutions for the blind, tubercular, feeble-

minded, insane and for others, we certainly have not $200,000 to spend on an armory.

I therefore disapprove the bill.

SENATE NO. 57.

To the Senate:

This bill provides that when there is a cemetery in which there are remains of soldiers of the Revolutionary War the governing body of a municipality may appropriate money for the purpose of maintaining the cemetery.

The objection to the bill is that it does not make provision for the care of the graves of the soldiers, but provides for the maintaining of the entire cemetery.

There might be two soldiers and ten thousand others, and during the 125 years that have elapsed since the soldiers were interred the cemetery may have fallen into an unsightly state.

I can see no reason for maintaining the entire cemetery to protect the graves of two soldiers. It would be better to take care of the particular graves.

The unfortunate part of it is that the act might be used for the purpose of relieving those who should have upon them the burden of seeing that the entire cemetery is taken care of. Municipalities already have too much of a burden to add the care of an entire cemetery to that which they already carry.

It is therefore disapproved.

SENATE NO. 59.

To the Senate:

I have before me the following bills relating to State highways: Assembly Nos. 134 and 256, and Senate Nos. 59, 66, 85, Committee Substitute for Senate Nos. 104 and 110, 135, 136 and 247.

Most of these bills are carelessly drawn, and some of them, if enacted, will destroy their purpose, because they have amended the wrong acts.

The original act was that of 1917. This has been amended by Chapter 104, Laws of 1920, and Chapters 144 and 148 of the Laws of 1921.

Some of these bills, by amending the Law of 1917, would destroy entirely what has been done by the amendments of 1920 and 1921.

One result would be to undo the amendment of 1921, which provides for the locating of roads as approaches to the Delaware River Bridge and the Hudson River Tunnel.

Another would cut out a part of Route No. 6, running from Camden to Bridgeton and Salem, by way of Woodbury, Mullica Hill, Woodstown and Pole Tavern.

Another has the effect of repealing the supplement of 1921, which carries the highway through to the tunnel entrance and the Camden city approach to the bridge.

Some also effect the Lincoln Highway from Elizabeth to Trenton.

I have already vetoed Assembly Bills Nos. 48, 86 and 421. Altogether there have been twelve bills before me fixing or amending highway routes.

I feel certain that these bills were not passed by reason of any thorough investigation that each member of the Legislature made of the particular bill before voting for its adoption. I am sure, however, that all of these bills were passed, either because of indifference on the part of the members, or by way of exchange for some other route that the member might be interested in.

This is a most unsatisfactory and expensive way of building State highways and should be discouraged.

This power ought to reside in the State Highway Commission and not be the subject of legislative "log-rolling."

I have no doubt that there are among these bills routes that ought to be adopted. I have had no opportunity, in the past five days, at my command to make a thorough investigation in order to determine which routes were good and which were bad. I am equally sure that the members of the Legislature did not make such an investigation.

In my veto of Assembly No. 86 I called attention to the fact that that bill aims to eliminate several miles from a route adopted by the Legislature a few years ago. It is an apt illustration of what happens under this present method.

I am vetoing all these bills, good and bad alike, because I believe it to be to the best interest of the State that this power be vested in the State Highway Commission. Then, the Commission may hear, at length, what is to be said in favor of each route, make a satisfactory investigation, and then determine which routes are good and which are bad, and build routes accordingly.

For these reasons I hereby disapprove Assembly Nos. 134 and 256, and Senate Nos. 59, 66, 85, Committee Substitute for 104 and 110, 135, 136 and 247.

Some of these bills, by amending the Law of 1917, would destroy entirely what has been done by the amendments of 1920 and 1921.

One result would be to undo the amendment of 1921, which provides for the locating of roads as approaches to the Delaware River Bridge and the Hudson River Tunnel.

Another would cut out a part of Route No. 6, running from Camden to Bridgeton and Salem by way of Woodbury, Mullica Hill, Woodstown and Pole Tavern.

Another has the effect of repealing the Supplement of 1921, which carries the highway through to the tunnel entrance and the Camden City approach to the Bridge.

Some also affect the Lincoln Highway from Elizabeth to Trenton.

I have already vetoed Assembly Bills Nos. 48, 86 and 421. Altogether there have been twelve bills before me, fixing or amending highway routes.

I feel certain that these bills were not passed by reason of any thorough investigation that each member of the Legislature made of the particular bill before voting for its adoption. I am sure, however, that all of these bills were passed either because of indifference on the part of the members or by way of exchange for some other route that the member might be interested in.

This is a most unsatisfactory and expensive way of building State highways and should be discouraged.

This power ought to reside in the State Highway Commission, and not be the subject of legislative "log-rolling."

I have no doubt that there are among these bills routes that ought to be adopted. I have had no opportunity, in the past

five days, at my command, to make a thorough investigation in order to determine which routes were good and which were bad. I am equally sure that the members of the Legislature did not make such an investigation.

In my veto of Assembly No. 86 I called attention to the fact that that bill aims to eliminate several miles from a route adopted by the Legislature a few years ago. It is an apt illustration of what happens under this present method.

I am vetoing all of these bills, good and bad alike, because I believe it to be to the best interest of the State that this power be vested in the State Highway Commission. Then the Commission may hear at length what is to be said in favor of each route, make a satisfactory investigation, and then determine which routes are good and which are bad, and build roads accordingly.

For these reasons I hereby disapprove Assembly Nos. 134, 256, and Senate Nos. 59, 66, 85, Committee Substitute for 104 and 110, 135, 136 and 247.

SENATE NO. 71.

To the Senate:

This bill provides that where roads and bridges of any plank road company were taken over and operated by boards of freeholders of two counties, hereafter each county shall only have power to expend moneys on such road and bridges within its own territorial limits.

This bill would seem to be a good one to apply generally, but I understand it has particular application to the plank road between Jersey City and Newark, and known as a part of the Lincoln Highway.

This road was taken over some years ago by the two counties, and a dispute arose as to the proportion to be expended by each in its maintenance and repair. There was litigation on this subject, and thereafter Chapter 193 of the Laws of 1919 was

passed, which permitted the Court of Chancery to determine the proper proportions to be paid by each county.

The effort now is to fix those proportions by legislative act in this bill.

It seems to me to be perfectly safe to leave the dispute with the Court of Chancery, a tribunal accustomed to doing what is right and equitable between the parties.

It seems to me much better to leave it there than to submit it to the judgment of the Legislature, which does not approach the matter in a judicial way.

The bill is therefore disapproved.

Respectfully,
GEORGE S. SILZER,

SENATE BILL NO. 84.

To the Senate:

This is a bill to license persons engaged in the business of electrical contracting. Its real purpose is to provide an examining board and other requirements by which a number of persons engaged in that business may be eliminated and the supply controlled.

This would prevent those thoroughly qualified from engaging in this business unless licensed by the examining board, consisting of those whose main desire it would be to keep out competition.

It would also prevent an electrician from one municipality doing business in another without getting a license in that municipality and paying the admission fee. This would result in shutting out competition from outside sources.

We have a glaring example of how this operates in the present law which permits plumbers to do the same thing.

I am unalterably opposed to all of these devices which have for their purpose the stifling of competition and the raising of prices to the consumers.

This bill will not in any way benefit the public, but will only benefit those whose desire it is to control the work and the number who are to do it.

SENATE NO. 85.

To the Senate:

I have before me the following bills relating to State highways: Assembly Nos. 134 and 256, and Senate Nos. 59, 66, 85, Committee Substitute for Senate 104 and 110, 135, 136 and 247.

Most of these bills are carelessly drawn, and some of them, if enacted, will destroy their purpose, because they have amended the wrong acts.

The original act was that of 1917. This has been amended by Chapter 104, Laws of 1920, and Chapters 144 and 148 of the Laws of 1921.

SENATE NO. 96.

To the Senate:

This bill eliminates from the provisions of the present act the words "with intent to defraud", and the result is that, if a person who buys milk shall fail to make prompt payments for the milk purchased, he shall be liable to a penalty of twenty-five dollars for the first offense and fifty dollars for the second.

We have already condemned, in this State, imprisonment for debt, but this is the next thing to it.

The act makes no provision for enforcing the penalty, so that, if a person fails to pay his milk bill, he, no doubt, will also fail to pay the penalty.

The underlying principle of the bill is wrong. If a person fails to make prompt payments, with intent to defraud or cheat the seller out of his money, or if he shall make false statements, or otherwise intend to deceive and defraud, then a penalty should attach.

This bill, however, takes out the element of intent, so that, if a person makes a false statement, even though he does it innocently, or fails to make prompt payment for his milk, even though it may be due to illness or failure to collect money which he expected, or for any other good reason, nevertheless he is guilty, under the provisions of this act.

The bill is therefore disapproved.

SENATE NO. 109.

To the Senate:

I should like very much to sign this bill because its purpose is a laudable one. I find, however, that it is so carelessly drawn and violates so many of the underlying principles, that I am obliged to veto it.

In order to illustrate the weaknesses of the bill it is only necessary to turn to its provisions.

Section 2 provides that if a person shall commit a crime when armed with a revolver (and having no permit), he shall, in addition to the punishment provided for the crime, be imprisoned for not less than five years.

I am unalterably opposed to the fixing of a minimum sentence, with no discretion whatever on the part of the judge who is to impose the sentence. I do not believe in slot-machine-automatic sentences.

Under this section, if a person who happened to have a revolver in his pocket slapped someone in the face, the judge would probably suspend sentence or fine him ten dollars for the slap, but he would be obliged, under this law, to imprison him for five years in addition. He would have no discretion whatever to do otherwise.

Section 3 provides for perpetual imprisonment.

Section 4 violates all the traditions of our laws in making the carrying of a revolver *prima facie* evidence of an intent to commit a felony.

Section 5 is particularly unfortunate in its provisions. Under this, an unnaturalized foreigner who shall happen to have in his possession or under his control a revolver, is guilty of a crime, and must be imprisoned for not less than five years.

I can very readily conceive a situation in which some poor innocent foreigner may possess such a weapon, and, if discovered, the court would have to send him to prison for five years, notwithstanding his innocence and notwithstanding the fact that he may have an equally innocent family and a number of children who need his care and protection.

Section 6 provides a penalty of not less than a year if any person shall carry a revolver on his person or in his vehicle. There may be extenuating circumstances, which would make it most unfortunate to imprison for not less than a year. The

defendant might quite innocently have carried a revolver, and done so for a laudable purpose; or perhaps may be dying of consumption or some other incurable disease, but notwithstanding this he may be imprisoned for not less than a year.

Section 10, relating to the sale of firearms, also contains a provision that the fine shall be not less than one hundred dollars, and imprisonment not less than one year.

Sections 13 and 14 contain similar clauses, with a minimum sentence of not less than one year.

I regret that it is impossible to sign this bill, so that we may have such a law upon the statute books, but it is much more important to see that no innocent man is punished or that no man suffers undue punishment than to enact this law.

The bill is therefore disapproved.

Respectfully submitted,

To the Senate:

The preamble to this bill states that there is doubt as to the meaning of Article 8, Chapter 185, Laws of 1918, as to it being compulsory for every municipality in the county to contribute to the support of the county poorhouse.

An examination of Article 8 does not disclose any such doubt.

The bill itself provides that "it shall be compulsory upon every municipality in the county to contribute toward the support and maintenance of the county poorhouse its proportionate share according to the taxable value of said municipalities."

This adds nothing to the present law. When the county maintains a poorhouse it has to pay for it, and the money is raised by

having every municipality contribute its proportionate share of the county taxes.

Since this act accomplishes nothing, it would be useless to put it upon the statute books; therefore the bill is disapproved.

To the Senate:

This bill provides that any municipality may, by resolution or ordinance, purchase a water works system or plant, but that such resolution or ordinance shall not become effective until after the expiration of thirty days from the passage and publication thereof. If, before the expiration of thirty days, ten per centum of the legal voters ask for a referendum, it may be had.

I do not think this is a wise procedure to adopt. In anything that may involve so large a sum of money as the purchase of a water works there ought to be more publicity and a better opportunity given to the voters to initiate a referendum.

Under Article 10 of the act to which this is an amendment a resolution may be adopted and passed at one meeting without any notice whatever to the public, and if it receives one obscure publication which is overlooked for thirty days, the voters are deprived of the right to a referendum vote.

The original section of this act which is now amended provided that no such action could be taken until the voters first had a referendum. This, it seems to me, is a more salutary and satisfactory way to acquire anything so important as a water plant, involving, necessarily, the expenditure of a large sum of money.

I do not understand why it has been deemed advisable to take from the voters of the city the right to determine this subject, and substituting in place thereof the possibility of the governing body doing it without the knowledge of the voters.

To the Senate:

At the present time a limited divorce may be decreed for extreme cruelty.

The purpose of this bill is to permit a decree of absolute divorce for extreme cruelty.

It has never been the policy of the State of New Jersey to extend unnecessarily the grounds for the granting of an absolute divorce. It has always been our thought and purpose to keep the family together whenever it is possible to do so.

At the present time, in cases of extreme cruelty, the parties may be separated, and there is always an opportunity and a possibility of a reconciliation.

If there is no reconciliation, or there are repeated acts of extreme cruelty, then our courts will eventually grant an absolute divorce on the ground of desertion, because the injured party is justified in leaving the other party in such cases.

Viewing the matter, then, from the standpoint of the injured party as well as the good of the State, I believe it in the interest of both not to disturb the present law.

I therefore disapprove the bill.

COMMITTEE SUBSTITUTE FOR SENATE NO. 181.

To the Senate:

This is supposed to be an open specifications bill.

Section 2 provides that the board may adopt specifications for more than one type of pavement and construction, and if more than one type is specified, bids may be asked for the types in the alternative.

Section 3 provides that after bids are received, the board shall select the type of material or construction which the board considers most suitable for the work, and the award is made to the lowest bidder on the type selected.

Under these two sections it is clearly possible to designate patented and unpatented types, and when the bids are in, to select the patented type. There cannot be the slightest question about this.

Paragraph 4 provides that when a patented paving is included in the specifications the municipal board shall also specify a non-patented type in the specification, but the non-patented type must be equivalent to the patented one.

It is at this point where the difficulty will begin. Irresponsible boards will quibble about this, and will say that one type is not equivalent to the other; *i. e.*, equal in value, and being unable to agree that the two types are equal in value, they will decide not to operate under paragraph 4, because they find it impossible to do so. Then they will go back to paragraphs 2 and 3 and receive bids on the patented type of material. This will defeat the very purpose of the act.

Let us proceed further with the possibilities under paragraph 4, and let us assume that the municipal board has agreed upon patented and non-patented types, and placed them in the specifications. What must happen then?

Bids shall be asked for on the various types so specified and "the award shall be made to the lowest bidder on the *types* placed in competition."

Let me call attention to the fact at once that the section does not say that the contract shall be awarded to the one making the lowest bid of all those received.

It does say that it shall be awarded to the lowest bidder on the *types* in competition. The phraseology is obscure, to say the least, and I cannot understand why the word "types" is used all through this section, unless it be to clearly draw the distinction between the lowest bid received and the lowest bid on the types.

As I read this section, the award must be given to the lowest bidder on the types, so that, if there are two types, then the board must decide to give it to the lowest bidder on each type.

Under paragraph 4, patented and non-patented types are allowed in the specifications. The section, however, fails to state the manner of laying the alternate types of pavements, and it fails to state that the manner of laying the types should be similar. This would permit an asphalt block pavement to be specified in competition with patented pavements. The asphalt block, being composed of bituminous concrete, could be fairly classed with the patent types. Asphalt block, however, is more expensive and necessarily the patent type would have the lowest bid. All of this would be known even before the specifications were drawn.

Under section 5 unlimited discretion is left with the municipal body. Usually, when a municipal body abuses its discretion and permits unfair competition, there is a court review to correct

such conditions. This section, however, has sought to do away with the court review, and vest the municipal body with absolute discretion.

The last sentence in the bill reads: "In this particular the judgment of the governing body shall be final." This means that it shall be final, and it also means that the court cannot review its exercise of discretion.

It also means that a 3-inch asphalt block pavement could be put in competition with a 2-inch patented pavement. In this way, unfair competition could be produced, and yet not be the subject of review.

This section also provides that the base under the various types shall be of the *same general character,* but that the thickness may be different for one type than that for the other "irrespective of the thickness of the surface."

This being so, the board could specify the base to be 7 inches thick, and a patent paving of 2 inches could be laid on top of this, while a block pavement of 3 inches might be provided for, with the result that the patented paving would have to be a total of 9 inches, while that of the non-patented would be 10 inches, and the judgment of the governing body would be final.

That this was the intent seems to be carried out by section 7, which provides that whenever patented or non-patented forms are put in competition, "the *width* of such pavements for each type shall be the same, and the extent in square yards of surface of each type shall be the same." This emphasizes clearly the fact that it is not intended that each type shall have the same cubic content, and consequently lay the same amount of roads.

In section 5, line 4, the following words are used, "and so far as the engineering conditions will permit surrounding the work." I do not know what the words "surrounding the work" may mean, or what the significance may be.

I also note that the provision which provides for competition between types of pavements permits unbalanced bidding and prevents the form of bidding known as "percentage of engineer's estimate."

In section 6 it is provided that "where cement is bituminous in character * * * where variations are inevitable in the proper fluxing * * * or where the bituminous cement is subjected to mechanical oxidation," etc. Under this section, together with section 8, blown asphalt is legalized, and if the blown asphalt did not comply with the requirements of the speci-

fications of the State Highway Commission for the bituminous top used, it is doubtful if they could reject it.

I also want to call attention to the provisions of the Federal Highway Act, especially Regulation 9, Section 3, which reads as follows:

> "No part of the money apportioned under the act shall be used, directly or indirectly, to pay or to reimburse a State, county, or local subdivision for the payment of any premium or royalty on any patented or proprietary material, specification, process, or type of construction unless purchased or obtained on open actual competitive bidding at the same or a less cost than unpatented articles, or methods, if any, equally suitable for the same purpose."

What we must always have in mind in consideration of this bill is that when we have honest municipal boards giving contracts for public roads, we need have no fear whatever. We would not even need to have laws or restrictions.

It is only when we have corrupt boards to deal with that we need laws and restrictions.

This act, then, has for its purpose the keeping within bounds public boards that are not honest and to compel them to provide for open competition.

This bill does not do that, but, on the contrary, it will permit the same corrupt practices to continue where the officials are corrupt as we have experienced in the past.

If I believed that this bill would accomplish any good whatever, or that it would improve upon present conditions I would be glad to sign it.

I am unwilling, however, to perpetuate the present evils by signing this bill.

I am satisfied that this bill would do just that thing, and that where corrupt boards existed the corrupt practices could continue.

I am unwilling to fool the people into believing that this bill would do something for them. I am sure that it would not.

I say this with great diffidence, because I know that there are earnest men in the Legislature who believe that this bill will accomplish something, but who, I am sure, have not given it the study and thought necessary to analyze its terms and see the evils that will flow from it.

Because the bill does nothing more than to continue present conditions with dishonest boards I am obliged to disapprove it.

SENATE NO. 184.

To the Senate:

This bill repeals the provision of the District Court Act which takes away from justices of the peace jurisdiction in several proceedings in cases where the defendant resides within the jurisdictional limits of the District Court.

It has been the policy of the State to strip justices of the peace, so far as may be possible, of their powers in civil causes. There would seem to be no good reason why their powers should be restored.

I therefore disapprove the bill.

SENATE NO. 193.

To the Senate:

This act provides that it shall be unlawful to give a deed where reference is made to a map showing lots or streets, which map has not been approved by a resolution passed by the governing body, and provides a fine for violation.

The requirement that municipal bodies shall approve of maps by resolution is of recent enactment—since 1912. There are thousands of maps that were filed previous to that time and from which lots have been sold and will be sold.

If this bill becomes a law it will be unlawful to make deeds by reference to these numerous maps which have been on file for many years.

It was evidently not the intention of the drafters of the bill to go so far, but since the bill does and would create much confusion and chaos it would be unwise to enact it into law.

SENATE NO. 199.

To the Senate:

This bill attempts to create a liability against persons and corporations who with criminal intent create a fire on premises occupied by them, in favor of the municipality wherein the fire occurs, in addition to the criminal penalties and other fines and penalties for violation of any law or ordinance enacted for the prevention of fire.

The liability is for the payment of costs and expenses of the fire departments of such municipality incurred in extinguishing the fire. It provides that the amount of such costs and expenses shall be determined by an official to be designated by the governing body. It further provides that the manner in which the amount of the liability shall be ascertained by this official, being

based upon the wages of the firemen, etc., rental for the use of the apparatus, cost of water and materials used in the extinguishment of the fire, and an overhead charge.

This bill is clearly unconstitutional, as it seeks to deprive a person of his property without due process of law.

I therefore disapprove the bill.

This bill provides first for the increase of the jurisdiction of the Small Cause Court.

The whole trend of opinion of this State has been against any extension of the jurisdiction of the small cause court, and toward its entire abolition.

At any rate, there is no demand for such increase and I do not think it should be made.

SENATE NO. 233.

To the Senate:

This bill authorizes the formation of companies for the purpose of constructing, maintaining and operating vehicular tunnels under the Hudson and Delaware rivers and the Kill von Kull by private enterprise.

The bill authorizes the company to designate where the terminal points of the proposed tunnels are to be located, and the counties through which they are intended to be constructed.

The bill evidently provides for the building of more than one tunnel by one company, because provision is made in case the State takes them over.

This being so, it is possible for one company to pre-empt the important locations for tunnels and whether they are built or not, they have a perpetual right to those locations.

This would prevent other companies from coming in and building tunnels in those locations.

It would also make it necessary that others who desire to build tunnels at these locations would have to purchase that right from the company or companies so pre-empting them. There is no limitation in the bill as to the length of time during which a tunnel company would have to commence or finish the tunnel or tunnels.

The franchise is perpetual and the limitation of fifty years, provided in paragraph four, only starts from the time the tunnel is completed.

In order to properly protect the State, the bill should contain provisions, first, that any one company is limited to one definite location; second, that there should be a substantial sum deposited with the Secretary of State as evidence of good faith; third, that there should be a limitation of time to commence the work, on penalty of forfeiture, unless the time were extended by the Legislature; fourth, there should be a limitation of time to complete the work.

The fixing of rates and the revision of the same from time to time should be left to the Utility Commission, at least until such time as it is taken over by a Federal tribunal.

In section four the company is permitted to mortgage, among other things, its franchises. This might lead to the same abuse that we now have to deal with in the case of the public utility corporations, where franchises might be mortgaged for a large and excessive amount, and it would then be impossible to reduce such inflated values. This is a problem which has given us enough difficulty recently to warn us against permitting its repetition.

I do not understand why, in paragraph four, line six, the following words appear, "In the case of any vehicular tunnel company in this State the amount of whose debt shall have been limited by special law, the written consent of the holders of at

least two-thirds of all of its stock shall be obtained before such mortgage shall be executed." These words would seem to be absolutely foreign to this act unless its intention is to revive or give power to some vehicular tunnel company already existing and created by a special law. It may be that there is such a company, with special rights and privileges, whose powers, now dead, may be revived by this bill.

Section nine provides that the State of New Jersey may take over the tunnels upon payment of the "Total costs thereof, of whatever nature, upon assumption of all obligations and liabilities of the vehicular tunnel company for the construction of such tunnels, with the approaches and appurtenances, plus fifteen per centum of such cost."

If it is deemed advisable that this bill should contain such a clause, and I believe it is, then the incurring of all costs should be under the supervision of the Utility Commission, and made a record of by them, in order that the State may know that it is paying proper costs, and nothing else, and all obligations issued should be under like regulation for the same reason.

If this is not done, then these companies may lead upon the enterprise such fictitious costs, such watered obligations, and such promotion costs as would assure them a tremendous and unwarranted profit. If the State did not choose to pay this unwarranted cost, then it could not take over the tunnels.

We would then find ourselves in a situation of being prevented from taking over the tunnel, and at the same time unable to regulate the rates.

In view of our sorry experience in regulating public utilities within the State, after they have had their own way, I do not believe it advisable for the people of New Jersey to embark in any such undertaking as this without the protection which experience has shown us is necessary.

I believe it of the utmost importance to provide additional facilities for crossing either over or under the Hudson river in order that the people of New Jersey can get to New York, and those from New York to New Jersey.

I pointed out the importance of this in my inaugural message, and hope that something may be accomplished in order that we may attract to northern New Jersey the people and the capital from New York City.

This, however, must be done in the right way and with the proper restrictions and legislation. We must not permit our

anxiety to give relief to tie our hands and so prevent the very things we are after.

For these reasons the bill is disapproved.

P. S.—I am also reminded that there is no protection against making this a stock-jobbing proposition, as there is no protection against the unlimited issuance of securities, such as surround the issuance of securities by other public utility corporations.

SENATE NO. 243.

To the Senate:

This bill provides, by way of a new section, for the chief court attendant in counties of between two hundred thousand and three hundred and fifty thousand inhabitants, an annual salary of six hundred dollars in excess of the amounts now payable, and in addition to that increases the salary of court attendants two hundred dollars per year.

This is a mandatory act,, placing this additional burden upon the counties to which it applies, and should, therefore, not become a law. All such increases should be within the control of those who disburse the public moneys, and not fixed arbitrarily by legislative act.

The Legislature has no adequate way of knowing whether such increase is necessary or advisable, while the body having the expenditure of the money ought to know.

The bill is therefore disapproved.

SENATE NO. 247.

To the Senate:

I have before me the following bills relating to State highways: Assembly Nos. 134 and 256, and Senate Nos. 59, 66, 85, Committee Substitute for Senate Nos. 104 and 110, 135, 136 and 247.

Most of these bills are carelessly drawn, and some of them, if enacted, will destroy their purpose, because they have amended the wrong acts.

The original act was that of 1917. This has been amended by chapter 104, Laws of 1920, and chapters 144 and 148 of the Laws of 1921.

Some of these bills, by amending the Law of 1917, would destroy entirely what has been done by the amendments of 1920 and 1921.

One result would be to undo the amendment of 1921, which provides for the locating of roads as approaches to the Delaware River Bridge and the Hudson River Tunnel.

Another would cut out a part of Route No. 6, running from Camden to Bridgeton and Salem by way of Woodbury, Mullica Hill, Woodstown and Pole Tavern.

Another has the effect of repealing the Supplement of 1921, which carries the highway through to the tunnel entrance and the Camden City approach to the bridge.

Some also affect the Lincoln Highway from Elizabeth to Trenton.

I have already vetoed Assembly Bills Nos. 48, 86 and 421. Altogether there have been twelve bills before me, fixing or amending highway routes.

I feel certain that these bills were not passed by reason of any thorough investigation that each member of the Legislature made of the particular bill before voting for its adoption. I am sure, however, that all of these bills were passed either because of indifference on the part of the members or by way of exchange for some other route that the member might be interested in.

This is a most unsatisfactory and expensive way of building State highways and should be discouraged.

This power ought to reside in the State Highway Commission and not be the subject of legislative "log-rolling."

I have no doubt that there are among these bills routes that ought to be adopted. I have had no opportunity, in the past five days at my command, to make a thorough investigation in

order to determine which routes were good and which were bad. I am equally sure that the members of the Legislature did not make such an investigation.

In my veto of Assembly No. 86 I called attention to the fact that that bill aims to eliminate several miles from a route adopted by the Legislature a few years ago. It is an apt illustration of what happens under this present method.

I am vetoing all these bills, good and bad alike, because I believe it to be to the best interest of the State that this power be vested in the State Highway Commission. Then the Commission may hear at length what is to be said in favor of each route, make a satisfactory investigation, and then determine which routes are good and which are bad, and build roads accordingly.

For these reasons I hereby disapprove Assembly Nos. 134 and 256, and Senate Nos. 59, 66, 85, Committee Substitute for Nos. 104 and 110, 135, 136 and 247.

SENATE BILL NO. 277.

To the Senate:

This bill clearly does not accomplish what is intended to be accomplished. The purpose, no doubt, was to compel students of colleges to make a declaration of residence in case they desired to vote, but the bill does not carry out that purpose.

The first section provides that for the purpose of registering or voting no person shall be deemed to have gained or lost a residence by reason of his or her presence at college. That is now the law. All that is now required is that the person shall have lived in the State or county the requisite length of time, and that he shall have in his mind an intention to make this his voting domicile.

The next section goes on to require a person claiming a residence, either within or without the State, to file a declaration.

Unfortunately the bill does not provide what shall happen when he does file the declaration, nor does it fix a penalty if he does

not; neither does it state whether such action qualifies the party or does not qualify him.

The result is that the act does not accomplish anything, either where a person does or does not file such declaration. Neither does it provide whether his acts qualify or disqualify him.

Since the bill does not accomplish anything, it is disapproved.

It was evidently intended that by this amendment hospitals should be exempt from the inheritance tax. SENATE NO. 286.

To the Senate:

The purpose of this bill, which is a companion bill to Senate No. 151, is to permit cities of the third class to evade the present provisions relating to debt limits in such cities.

The State has a fixed policy that cities shall limit the amount of their debt. They found it advisable to raise that debt limit a year or two ago. That policy is either good or bad, and ought to stand or fall on its merits. It is good because it has been found necessary for so many years.

If we permit every municipality that desires to evade the debt limit to come to the Legislature and have a bill passed for its particular purpose, it will not be long before the debt limit acts will have lost their usefulness. It will not do to say that a city needs some particular thing at this time, and therefore is willing to exceed the debt limit. What a city must do is to proceed cautiously and with the debt limit in mind, and having also in mind its future requirements. By this procedure and the exercise of proper economy all its purposes will be accomplished.

At the same time there will also be accomplished the very thing that the debt limit acts intend, namely, the reduction of the burden on the taxpayers.

The argument which is made by comparison with boroughs and townships is not sound, because in the latter case there is a referendum to the people.

SENATE NO. 291.

To the Senate:

The purpose of this act is to attempt to correct the title to Chapter 9 of the Laws of 1923.

The latter is the law which was passed over my veto and establishes bureaus of election in first-class counties at a large expense to the taxpayers of those counties.

This bill now before me is even more vicious than the original, because at the time of its passage the Legislature was fully informed as to the effect of the establishment of these bureaus. There is absolutely no reason or justification for the passage of this bill, and it has been passed, in my judgment, against the wishes of practically the entire electorate of Hudson and Essex

counties. It is only enacted so as to provide jobs at the expense of the taxpayers.

The bill is therefore disapproved.

Assembly Committee Substitute for Senate Committee Substitute for Senate Bill No. 220, entitled "An act to amend an act entitled 'An act creating a State Athletic Commission for the regulation of boxing and sparring exhibitions and performances, and defining its powers and duties,' " approved March fourth, one thousand nine hundred and eighteen, as said title was amended by an act approved March nineteenth, one thousand nine hundred and twenty,

The Governor's objections thereto notwithstanding.

UPTON S. JEFFERYS,
Clerk of the House of Assembly.

The veto message from the Governor was taken up and read as follows:

ASSEMBLY COMMITTEE SUBSTITUTE FOR SENATE COMMITTEE SUBSTITUTE FOR SENATE NO. 220.

Irrespective of constitutional and technical objections to the form of the bill, it seems to me there are fundamental objections which should prevent its becoming a law.

This bill takes from the Governor of New Jersey the appointment of three commissioners, and in place thereof it designates the Comptroller of the Treasury as the State Athletic Commissioner.

It is short of ridiculous to have the Comptroller of the State, whose duties are so foreign to a matter of this kind, designated as the responsible head of a State Athletic Commission.

We may next expect him to be appointed head of a Shell Fish Commission, State Undertakers' Association, Board of Pharmacy or Dentistry, Commissioner of Architects and Plumbers, Horseshoers and Barbers.

It is merely necessary to state the possibilities to understand how ridiculous this sort of thing is:

It has been the settled policy, ever since New Jersey has been a State, to elect a Governor and put the responsibility upon him for the appointment of commissions. He has always had the responsibility for selecting the highest judicial officers in the State, and the heads of practically all State departments. There is no reason whatever for changing this policy at this time. In such cases the Governor is also given the power of removal if the department is not properly conducted, but in this case there is no such power to remove the State Athletic Commissioner, who happens to be the Comptroller.

The act provides for a Chief Inspector at three thousand dollars, "and in addition thereto, such inspectors as shall be necessary who shall be compensated at the rate of ten dollars per day."

There is absolutely no limit to the expenditures that can be made under this act, and it can readily be made a source for the furnishing of numerous political jobs, all of which is detrimental to the public interest and burdensome to the taxpayers.

The Comptroller has abundant duties without adding these, and I have no doubt he does not welcome this addition.

The real head will necessarily be the Chief Inspector who will provide the necessary jobs.

If the present Boxing Commission is not honest and efficient, those facts should be disclosed and the Commission should be removed and others appointed in their places. In the absence of that, the evident purpose of this bill seems to be to invoke again the modern "ripper" legislation, designed for nothing but political purposes.

Mr. Stevens moved that Assembly Committee Substitute for Senate Committee Substitute for Senate Bill No. 220 be passed, the Governor's veto thereto notwithstanding.

Assembly Committee Substitute for Senate Committee Substitute for Senate Bill No. 220, entitled "An act to amend an act entitled 'An act creating a State Athletic Commission for the regulation of boxing and sparring exhibitions and performances, and defining its powers and duties,'" approved March fourth, one thousand nine hundred and eighteen, as said title was amended by an act approved March nineteenth, one thousand nine hundred and twenty,

Assembly Bill No. 259, entitled "An act to amend an act entitled 'An act to amend an act entitled "An act concerning District Courts (Revision of 1898),"'" approved June fourteenth, one thousand eight hundred and ninety-eight, and the several supplements and acts amendatory thereto, which amendment was approved March thirtieth, one thousand nine hundred and twenty,

The Governor's objections thereto notwithstanding.

In which the concurrence of the Senate is requested.

UPTON S. JEFFERYS,
Clerk of the House of Assembly.

The veto messages of Assembly bills were taken up and read as follows:

March 22d, 1923.

Governor Silzer today vetoed the following bills:

Assembly Nos. 134, 256, and Senate Nos. 59, 56, 85, Committee Substitute for Senate Nos. 104 and 110, 135, 136 and 247.

Most of these bills are carelessly drawn, and some of them, if enacted, will destroy their purpose, because they have amended the wrong acts.

The original act was that of 1917. This has been amended by Chapter 104, Laws of 1920, and Chapters 144 and 148 of the Laws of 1921.

Some of these bills, by amending the law of 1917, would destroy entirely what has been done by the amendments of 1920 and 1921.

One result would be to undo the amendment of 1921, which provides for the locating of roads as approaches the Delaware River Bridge and the Hudson Tunnel.

Another would cut out a part of Route No. 6, running from Camden to Bridgeton and Salem by way of Woodbury, Mullica Hill, Woodstown and Pole Tavern.

Another has the effect of repealing the supplement of 1920, which carries the highway route to the tunnel entrance and the Camden city approach to the bridge. Some also affect the Elizabeth highway to Trenton.

I have already vetoed Assembly Bill Nos. 48, 86 and 421. Altogether there have been twelve bills before me amending highway routes.

I feel certain that these bills were not passed by reason of any thorough investigation that each member of the Legislature made of the particular bill before voting for its adoption. I am sure, however, that all of these bills were passed either because of

indifference on the part of the members or by way of exchange for some other route that the member might be interested in.

This is a most unsatisfactory and expensive way of building State highways and should be discouraged.

This power ought to reside in the State Highway Commission and not be the subject of legislative "log-rolling."

I have no doubt that there are among these bills routes that ought to be adopted. I have had no opportunity, in the past five days at my command, to make a thorough investigation in order to determine which routes were good and which were bad. I am equally sure that the members of the Legislature did not make such an investigation.

I am vetoing all of these bills, good and bad alike, because I believe it to be to the best interest of the State that this power be vested in the State Highway Commission. Then the Commission may hear at length what is to be said in favor of each route, make a satisfactory investigation and then determine which routes are good and which are bad and build roads accordingly. For these reasons I hereby disapprove Assembly Nos. 134 and 256, and Senate Nos 59, 66, 85, Committee Substitute for 104 and 110, 135, 136 and 247.

ASSEMBLY NO. 63.

I do not think this is a time for further increase of salaries. I find no demand for this bill except from those especially benefited, and the bill is therefore disapproved.

ASSEMBLY NO. 259.

I do not think this is a time for further increase of salaries. I find no demand for this bill except from those especially benefited, and the bill is therefore disapproved.

ASSEMBLY NO. 419.

I do not think this is a time for further increase of salaries, and as this is a bill of that type it is disapproved.

ASSEMBLY NO. 379.

This bill provides for the creation of traffic courts in cities of the first class.

There is sufficient jurisdiction now in the police courts of these cities to take care of all traffic violations.

The only effect of the passage of this bill would be to create additional offices and add to the already heavy tax that the people of these cities have to pay.

ASSEMBLY NO. 371.

This bill purports to validate and confirm deeds made by school districts where the grantee, or his heirs and assigns, have entered into possession and been in possession for at least twenty years.

As no explanation has been made to me concerning the purpose of this bill and to what situation it applies, and whether or not any school district will be deprived of its rights, and being in the dark as to what this bill will accomplish, I disapprove the same.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
March 22d, 1923.

ASSEMBLY NO. 308 AND ASSEMBLY NO. 309.

To the House of Assembly:

I have had a hearing on Assembly Bill 308 and Assembly Bill 309, and have heard both sides at length.

Viewing the matter from a judicial angle, I am not convinced that the proponents of the bill have borne the burden which was cast upon them of showing the need for this bill, notwithstanding that there is much to be said on both sides of the question.

The question of supplying water to our municipalities is becoming a most urgent one from day to day, and it is quite apparent that the State must adopt some comprehensive method of providing for these growing needs.

The ever-recurring squabbles over water rights and water acquisitions are an evidence of the growing necessity for relief

If the State does not provide such relief soon, then the municipalities will have to continue their scramble. In the meantime, municipalities who see the growing necessity for more water are endeavoring to provide themselves with it, with the result that each is looking selfishly to securing its own supply, regardless of what may happen to others less alert or less able to stand alone.

In the present situation the municipalities of Union county are endeavoring to meet their demands. Elizabeth evidently has not been so alert as the others. These bills put into a group a number of municipalities in Union county. If this system is followed we will have the same local grouping all over New Jersey, and instead of a State policy we will have a local policy, based upon local demands.

Another objection to these bills is that the plan comprehends taking in the city of Elizabeth and Linden township, the two

comprising the major part of the ratables of the affected municipalities of Union county. These two particular municipalities, from past experience, gravely doubt the advisability of entering into this combination, and ask that the matter be deferred until next year, in order that they may study the situation further and ascertain definitely what is best for them.

Elizabeth, some years ago, had a most distressing experience in the issuing of municipal obligations, with the result that only through the efforts of public spirited men was the city saved from bankruptcy. The last of the obligations then incurred was destroyed only last year.

Under the provisions of these bills the commission appointed under the act by the court might obligate these municipalities to an unlimited amount for extensions and improvements of the water system without even the slightest consent on the part of the municipality.

I can very readily see why Elizabeth is sensitive about entering into a plan of this kind, in view of her past experience: yet, if she does not she may be forced into a very unfavorable and unfortunate situation, and might be compelled to make a bad bargain.

In all the circumstances I believe it is best that such a course be taken, a year's delay will not seriously affect any of the interested municipalities, and with the light that will be shed upon the subject by the discussion during that period a satisfactory plan may be evolved.

I hope that during the coming year a very thorough and careful study may be made of this important question of supplying water to our State, in order that a comprehensive and satisfactory plan may be worked out for the benefit of the entire State, and as a future policy to be adopted by the State.

We have already been making efforts in that direction and already have a State policy.

This policy, however, is rather tentative and lacks firmness and definiteness. We should determine just what the State policy ought to be and then proceed to adopt it.

I believe this water question is the biggest and most important one now facing the people of New Jersey.

For these reasons Assembly Bills 308 and 309 are disapproved.

Respectfully submitted,

GEORGE S. SILZER,

[SEAL.] *Governor.*

Attest:

FREDERIC M. P. PEARSE,

Secretary to the Governor.

ASSEMBLY NO. 208.

This bill extends the term of city clerks from two years to four years, and thus carries them beyond the term of the Council. This would seem to be inadvisable.

I am also informed by the Legislative Committee of the League of Municipalities that they disapprove of this bill.

ASSEMBLY NO. 173.

The purpose of this bill is to place under tenure of office secretaries of boards of education in municipalities between one hundred and one hundred and fifty thousand population.

If it is a good thing to do, it ought to apply to all secretaries, and not those in municipalities of between one hundred and one hundred and fifty thousand.

Beyond this, however, it seems to me that a board of education should have the right to discharge its secretary if they do not believe him to be the right man for the place. In what other way can business principles be applied to this important public board? We expect them to do things in a businesslike way, and then tie their hands.

The bill is therefore disapproved.

ASSEMBLY NO. 149.

This bill provides for pensioning clerks of District Courts in cities of the first class.

Evidently, officials and officers of the District Courts of the State have been very busy this session, because I find a number of bills for the increase of their salaries.

This bill provides that under certain conditions the clerk of the District Court shall be retired on pension.

This is another mandatory act, in which the municipality itself has no say.

If clerks of District Courts are to be included among city employees who are to receive a pension, then that should be provided for under a general city plan, with the usual provision for becoming a member of the pension fund, such as is now in operation with State employees.

The bill is disapproved.

ASSEMBLY NO. 145.

This bill establishes what is known as "Family Courts" in cities of the first class having three criminal courts.

It provides that the governing body shall appoint one of the police justices to hold this court. When this is done, then there will have to be another police justice appointed to take the place of the one who is assigned to the Family Court. The result is that one or more positions are created by this act, with the attendant additional expense to the taxpayers.

I do not see why the same thing cannot be accomplished by having the present police courts try these cases as they do now. They can call themselves "Family Courts" at the time they are acting in these particular branches.

The bill is disapproved.

ASSEMBLY NO. 102.

The explanation in connection with this bill is that doubt has been expressed as to whether the terms "veterinary attendants" includes "horseshoers.'

In order to eliminate this doubt the bill has been amended so as to include horseshoers, but the drafter of this bill evidently forgot to eliminate the same doubt from the title to the act, because the title remains the same, without the inclusion of this new term.

If there is any reason for the amendment to the bill, the same reason applies to the amendment to the title.

If the term "horseshoers" is necessary to be included in the body of the act, then it must also be included in the title. Not being included in the title, this act would not be of any use in its amended form so far as horseshoers are concerned.

I therefore disapprove of this bill.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
January 30th, 1923.

Hon. Joseph F. Wallworth, President of the Senate:

SIR—Yesterday I nominated for appointment, by and with the consent of the Senate, to be Judge of the Court of Common Pleas of Hudson county, Hyman Lazarus of Bayonne, to succeed himself, for the term prescribed by law. I find under the constitution, the term of Judges of the Court of Common Pleas commences on the first day of April and that Judge Lazarus is now holding office under an *ad interim* appointment in place of Judge Doherty, resigned. I therefore desire to substitute for the nomination which I made yesterday, the nomination of Judge Lazarus for the balance of the term formerly held by Judge Doherty, and also his nomination for the term of five years commencing April first, 1923.

Yours very truly,
GEORGE S. SILZER,
Governor.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
January 29th, 1923.

Hon. Joseph F. Wallworth, President of the Senate:

SIR—I hereby nominate for appointment, by and with the advice and consent of the Senate,

To be Judge of the Court of Common Pleas of Hudson county, Hyman Lazarus, of Bayonne, to fill the vacancy caused by the resignation of Richard Doherty and for the balance of the term formerly held by the said Richard Doherty.

Respectfully submitted,
[SEAL.] GEORGE S. SILZER,
Attest: *Governor.*
FREDERIC M. P. PEARSE,
Secretary to the Governor.

Mr. Stevens, Chairman of the Committee on Judiciary, to whom were referred the nominations made by Hon. George S. Silzer, Governor of the State of New Jersey, in his communication of February 26th, one thousand nine hundred and twenty-three,

To be Judge of the Court of Common Pleas of Gloucester county, Austin H. Swackhamer, of Woodbury, for the term of five years, to commence on the first day of April, one thousand nine hundred and twenty-three,

Reported said nomination without recommendation and with the following opinion attached:

STATE OF NEW JERSEY,
OFFICE OF THE ATTORNEY-GENERAL,
TRENTON, N. J., March 6th, 1923.

Hon. William A. Stevens, Senator from Monmouth County:

MY DEAR SENATOR—You have asked to be advised with reference to the method of appointment and length of term of Common Pleas Judges of this State, particularly with reference to the

appointment of a Common Pleas Judge for the county of Gloucester.

As I understand the facts, on April 21st, 1922, the office of Common Pleas Judge of Gloucester county became vacant by the expiration of the term of Judge Davis. No appointment was made during the session of the Legislature in the year 1922, and the duties of the office were fulfilled by other Common Pleas judges for a time. Subsequently, Willis T. Porch was appointed ad interim on May 25th, 1922, who was commissioned on the same day. The question now arises as to whether an appointee of the Governor, now to be confirmed by the Senate, shall hold office for five years commencing April 1st, 1923, or shall hold office in that capacity for the unexpired portion of a term which commenced April 1st, 1922.

The Constitution in Article 6, section 6, paragraph 2, provides that the commissions for judges of said court shall bear date and take effect on the first day of April in every successive year, except commissions to fill vacancies, which shall bear date and take effect when issued.

The statute of 1900, page 332, Comp. Stat. 1725, provides that the judges of the Courts of Common Pleas shall be appointed by the Governor by and with the advice and consent of the Senate, and shall hold office for the term of five years beginning on the first day of April succeeding their appointment, and the judges now in office shall continue in office until the expiration of their respective terms; provided, that in case a vacancy occur by reason of death, resignation or otherwise, the vacancy shall be filled by appointment for the unexpired term only.

The proviso in the statute just quoted, in my opinion, applies not only to the judges in office at the time of the enactment of that statute but to all Common Pleas terms of office. Such construction is in harmony with the constitutional provision which, as stated, provided that when appointed to fill vacancies, such judges should hold for the unexpired term only.

Davis v. *Davis,* 57 *N. J. Law* 80, was a case where the act terminated the terms of the old members of a municipal board. The Court held that after that event "the old members being *functus officii* and no one having been elected to membership in the board under the Act of May 9th, 1894, there were offices and there were no legally qualified incumbents. This constituted a vacancy," citing authorities.

The general rule as to the use of the word "vacancy" as applied to an office is that an office is vacant whenever it is unoccupied by a legally qualified incumbent. See Words and Phrases, both series, for authoritative cases.

The same rule has just been reiterated by the Supreme Court in the case of the *Board of Education of Newark, in the County of Essex,* v. *The Civil Service Commission of New Jersey,* filed March 5th, 1923, where the words of a statute provided for such an event, speaking of it as a vacancy created by death, resignation or otherwise. The word "otherwise" is held to apply to vacancies arising otherwise than by death or resignation or other event—that is, as extending the scope of the statute to include vacancies other than such as were created by the events mentioned. 78 *Pac.* 139, 144, and, likewise, in the case of failure of an individual to assume the duties of his office. See 195 *Pa.* 234; *S. C.,* 45 *Atl.* 1058, 1061.

The word "otherwise" in its radical meaning is that it applies to something different from that to which it relates—that is, in another sense. See *Black* v. *Delaware and Raritan Canal Co., 22 Eq.* 130, *on page* 400. A similar situation arose during the incumbency of Governor Edge, when the term of Judge Salmon, of Morris county, expired April 1st, 1918. E. Bertram Mott was appointed as judge to succeed him, his term to begin April 1st, 1918, for a period of five years. Before April 1st of that year Mr. Mott declined to accept the appointment, and Judge Mills was appointed on the same date for an ad interim term. In the following year, January 14th, 1919, Judge Mills was appointed and confirmed, and I then advised Governor Edge that the appointment was to fill a vacancy in the office caused by the failure of Mr. Mott to qualify and by the expiration of the ad interim term to which Judge Mills had been first appointed, the termination of the ad interim term would occur at the end of the session of the Legislature of 1910, advising him that by reason of Mr. Mott's resignation in the previous year, the Governor had been precluded from appointing for a full term and was limited to the appointment of Judge Mils for the interim, and that at the termination of the ad interim term under the statute the appointment might only be for the unexpired portion of the term to which Mr. Mott had been originally appointed and which he had declined, and advising, therefore, finally, that Judge Mills' term would, therefore, expire April 1st, 1923, five years from the time when the term of Judge Salmon had expired.

"Term of office" is a fixed definite period of time. *State ex rel. Polk* v. *Galusha,* 104 *N. W.* 197, 201; 74 *Neb.* 188; and v. *Morgan,* 39 *N. J. Eq.* 128.

In *Haight* v. *Love,* 39 *N. J. Law* 18, the Court said:

> "The true rule is that as soon as the appointee is authorized by his own action to legally assume the duties of his office, then his term should be regarded as begun,

unless some other period is fixed by the proper authority."

In *State ex rel. Wrightmire* v. *Camden,* 50 *N. J. Law* 43, the Court said:

"Where no time is fixed by law for the commencement of a term, it begins either at the date of the election or appointment or from the time the person chosen may, by his own act, assume the duties, and not at the time he actually enters upon his duties of the office."

In *Freeholders of Atlantic* v. *Lee,* 76 *N. J. Law,* 327, 329, the Court said:

"The words 'term of office' may be used to indicate the statutory period for which an officer is elected."

In my opinion, the word "vacancy" and the word "term" are the controlling words. It is settled in this State and it is the general rule that a vacancy exists in an office whether it has had or has not had an incumbent for any particular term who has ceased to occupy the office where the term is fixed by law.

The appointment of Judge Porch for the ad interim term did not postpone the beginning of the term of the office which was vacant, and my conclusion, therefore, is that the appointment of Judge Swackhamer, of Woodbury, to be Judge of the Court of Common Pleas of Gloucester county, should be for the unexpired portion of the term which has been vacant since April 1st, 1922, and the ad interim appointment not filling the appointment as stated; and, therefore, the appointment should not be for a full term from April first next.

Very truly yours,

(Signed) THOMAS F. MCCRAN.

Mr. Fooder moved that the rules be suspended, and that the said nomination,

To be Judge of the Court of Common Please of Gloucester county, Austin H. Swackhamer, of Woodbury, for the term of five years, to commence on the first day of April, one thousand nine hundred and twenty-three,

Be taken up.

Which was agreed to.

Messrs. Agans, Allen, Barber, Blackwell, Bright, Case, Fooder, Kays, Larson, Mackay, Mathis, Parry, Pierson, Reeves, Richards, Roberts, Simpson, Smith, Stevens, Wallworth (President), Whitney—21.

The President laid before the Senate a sealed communication from the Governor, indorsed "Withdrawn."

On motion of Mr. Stevens, the seals of the communication were broken by the President, and the Secretary read as follows:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
March 23d, 1923.

Hon. Joseph F. Wallworth, President of the Senate:

SIR—On January 29th I nominated for the office of Prosecutor of Hudson county, John J. Fallon, and sent the same to the Senate. Since that time I have heard nothing from the Senate, either regarding Mr. Fallon's fitness or unfitness for the position, and during all of that time no action has been taken by the Senate. I understand the name has not even been brought before the Senate for consideration, but has remained in the hands of the committee unreported.

If Mr. Fallon was unfit, such unfitness should have been disclosed, and he should have been rejected. If he was fit, then his name should have been confirmed.

In view of the fact that during all of this time the Senate of New Jersey has failed to perform the duty cast upon it by the Constitution, and by reason of the fact that it evidently intends to continue to fail to perform its duties, I hereby withdraw the name of John J. Fallon from the further consideration of the Senate,

and at this time am forwarding to you for consideration, in the usual way, another nominee for that office.

Respectfully submitted,

[SEAL.] GEORGE S. SILZER,

That the One Hundred and Forty-seventh Legislature of the State of New Jersey adjourn *sine die* at three o'clock P. M., March 16th, 1923—59.

That the Senate and House of Assembly meet in Joint Session on Monday, January 22d, at 8:45 o'clock P. M., to be addressed by His Excellency, Hon. George S. Silzer—81, 91.

WHEREAS, The Reverend Frank Ritter, pastor of the Waverly Congregational Church, Jersey City, a duly ordained minister of the Congregational Church of New Jersey, has publicly stated in the Jersey City newspapers that the House of Assembly has been "fixed" for the passage of Senate Bill No. 82, and that six Senators have already been purchased and four more are to be purchased to vote for the said bill, therefore;

Be it resolved (the House of Assembly concurring), That a committee be appointed, consisting of two members of the Senate and three from the House to hold a public inquiry into the said charges and that the said committee have the power to issue subpœnas compelling the attendance of the witnesses and that the said committee report to the Senate and House of Assembly immediately after said hearing, so that proper action may be taken on the premises. The members of the committee from the Senate to be appointed by the President of the Senate, the members of the committee from the House to be appointed by the Speaker of the House—113, 145, 146, 166.

providing for the appointment of a commission to make a comprehensive report on the subject of com-

pensation to employees having contracted occupational diseases in the course of their employment—155, 296, 347, 359, 442, 512.

Concurrent Resolution—(Substitute for Assembly)—WHEREAS, It is a matter of public knowledge and a subject of discussion in the public press that there has been maladministration and too frequent failures to function properly of the United States Veterans' Bureau in what is termed the Second District, including the States of New Jersey, New York and Connecticut, involving an unspeakable wastefulness of public funds and a demoralization of the facilities designed by the Federal Government to be everlastingly beneficial to the veterans of the late war who were maimed and disabled in the service of their country; and WHEREAS, Such past maladministration and failure to properly and efficiently function is hurtful alike to the State and to individuals involved; and WHEREAS, Recent investigation has disclosed among other things that disabled soldiers have been grossly misadvised and placed in training in occupations which they could never hope to master because of their obvious physical infirmaties; that they have been neglected and many valuable years of their lives wasted by their being kept in training in these trades despite their protests and appeals for transfers to vocations more suitable to their physical capacities; that thousands of maimed veterans have been left to idle away years in mushroom institutions that have little facilities for their instruction and less interest in their welfare; that the conclusion of the periods of training of several thousands of these soldiers will arrive in July, and that they will be thrown upon the streets with scarcely any real vocational preparations to grapple once more with the problems of life; Now therefore, be it *Resolved:* 1. That mindful of the welfare of the men who cheerfully offered their lives at the call of their country, and desirous of carrying out the intent of beneficent laws in the interest of vocational training for the United States veterans of the World War, respectfully records a protest against inefficient control and direction of their occupational training and progress and emphasizes the necessity for enforcement of all laws, rules and regulations designed to benefit the veterans, and to that end ask the Congress and President of the United States to take such action as will insure the restoration of the disabled soldiers of the New Jersey, New York and Connecticut district to self-reliance and usefulness, 2. That there shall be further decentralization of compensation and permanently rated cases to district control, thereby benefiting the ex-service disabled soldier by improving and expediting the service to be rendered him. 3. That adequate power be vested in the district manager to place subordinates in the positions he believes them best fitted for and remove inefficiency from the organization regardless of political affiliations and furthermore that authority be granted to hire locally expert advisers

and technically trained persons that will insure a proper administration in the second district. 4. That the matter of control of hospitals be placed in the district office and not in Washington as at present. That there should be a permanency to the office of district manager and that we be assured of a continuance of present policies and administration, except as above set forth. 5. That copies of this resolution be immediately sent to all United States Senators and Congressmen—185.

Concurrent Resolution—That all statements of expenses incurred in connection with the Legislative Session of 1923 after the date of adjournment, which comes under the business of this session, be paid when properly approved in the manner provided by the Senate concurrent resolution dated January 8th, 1923, and concurred in by the House of Assembly on that date—708, 709.

WHEREAS, William E. Tuttle, Jr., Banking and Insurance Commissioner, has been called by death, and the passing of this devoted public servant being a severe blow to the State; therefore, *Be it resolved,* That the loss suffered by the people be appropriately expressed and due honor paid to his memory. Public service to Commissioner Tuttle meant the giving of his time and talents without stint. His great capacity, business ability and understanding of the needs of the people were always at the command of his State. As a member of the Congress of the United States he ably and intelligently represented his constituents; as a representative of his government in foreign lands he tactfully performed delicate missions; as a member of the Board of Conservation and Development he gave deep study to important problems; as Commissioner of Banking and Insurance he protected the interests of the State and of its people; as a man he was intensely human and was loved by all who knew him; therefore, *Be it further resolved,* That the President of the Senate designate two Senators and the Speaker of the House two Assemblymen to represent the Legislature at the funeral of Commissioner Tuttle—202, 210.

WHEREAS, The New Jersey coast and its summer resorts furnish recreation to thousands of citizens of this State and of the United States, and the New Jersey coast resorts are favorably known throughout the country; and WHEREAS, The coast resorts are threatened and the bathing impaired by the negligent and criminal discharge of waste matter and fuel oil into the waters of the Atlantic ocean by steamers; and WHEREAS, The so-called Frelinghuysen-Appleby bill, Senate No. 3968, providing penalties against ships

for polluting harbors with oil sludge and giving Secretary of War power to enforce same has passed the United States Senate, and said bill is now on the House calendar; and WHEREAS, The New York State Legislature has passed a resolution endorsing the bill and urging the House to pass it; therefore, be it *Resolved,* That said House of Representatives be in this manner petitioned to vote in favor of said measure; and be it *Resolved,* That a copy of this resolution, duly signed by the presiding officers of the Senate and of the Assembly, be transmitted to the Clerk of the House of Representatives forthwith—258, 261.

Concurrent Resolution—That the Governor be requested to return to the Senate, Senate Bill No. 2 for further consideration—244.

WHEREAS, The Senate of New Jersey learns with profound regret of the death of the Honorable Robert Williams, Judge of the Court of Errors and Appeals, and a former member of this body; and WHEREAS, The passing away of Judge Williams removes from our midst one of the foremost citizens of our State; therefore, be it *Resolved,* That there be and is hereby extended to the family of the deceased this expression of our genuine sympathy; and *Resolved Further,* That the President of the Senate be empowered to appoint a committee of three Senators to attend the funeral of the distinguished jurist; and be it further *Resolved,* That these resolutions be spread in full on the Journal of the Senate and a copy of the same, duly signed by the President and attested by the Secretary, be forwarded to the family of the deceased—265.

That the Senate and House of Assembly meet in joint session on Wednesday, February 28th, at 5 o'clock P. M., in the Assembly Chamber, for the purpose of receiving a message from the Governor—357, 363.

That the concurrent resolution which passed both the Houses of the Legislature on January 15th, 1923, fixing the hour of *sine die* adjournment of the 147th Legislature of the State of New Jersey be and the same is hereby rescinded; and be it further *Resolved,* That the 147th Legislature of the State of New Jersey adjourn *sine die* at 3:00 P. M., Friday, March 23d, 1923—470, 484.

That the passage of bills and joint resolutions in both the Senate and House of Assembly shall stop at 10 o'clock P. M., Friday, March 16th, 1923—470, 485.

For the annual display of the American Flag on Mother's Day, the second Sunday in May—514. 523

Disposition of Bills and Joint Resolutions Delivvered to the Governor During the One Hundred and Forty-seventh Session of the New Jersey Legislature.

Convened, Tuesday, January 9th, 1923; Adjourned, Friday, March 23d, 1923. Duration, eleven weeks.

During the session a total of seven hundred and fifty-four bills, fifteen joint resolutions and four concurrent resolutions were introduced. Of that total two hundred and fifty-three bills and four joint resolutions, or a trifle less than one-third of the total number, are recorded as having passed both houses and been delivered to the Executive Department. One hundred and seventy-one of the total number received met with the Governor's approval and were signed. Two more—the appropriation bills—were filed by the Governor with the Secretary of State without his approval, his reason therefor being that he was not afforded adequate time to give such important measures proper consideration.

Sixty-eight bills were vetoed and of these thirty-two were passed over the Governor's veto, making with the one hundred and seventy-one signed and two filed bills, two hundred and five laws enacted during the session.

In addition the Governor received four joint resolutions, one of which he approved and three which were vetoed. One of the latter was passed over the Governor's veto, making two joint resolutions. There were also passed three concurrent resolutions, which do not come to the Governor, two in the Senate and one in the House of Assembly.

Of the bills which eventually became laws, ninety-one originated in the Senate and one hundred and fourteen in the House of Assembly. Thirty-eight of the vetoed bills originated in the Senate, eighteen of the latter subsequently becoming laws, and thirty in the House of Assembly, fourteen of which were passed over the Governor's veto. Apart from the bills vetoed the Governor found it necessary to have recalled, while the Legislature was in session, a total of nine bills, one of which originated in the Senate and eight in the house, five of which were later returned and became laws. Eight other bills to which Executive objections were found were filed in the library due to the fact that the Legislature was not in session when the five-day period given the Governor to consider those bills had elapsed. Six of those eight originated in the House and two in the Senate.

During the first eight weeks of the session the total number of bills presented to the Governor was thirty-six, eighteen from each House, and the remaining two hundred and seventeen bills submitted came in during the closing hours.
