INTRODUCTION

The New Jersey State Library annually compiles statewide library statistics to help libraries analyze and improve programs and services. Trustees and library directors use the statistics to develop and justify budgets and for comparative evaluation of programs, staffing practices and collection development. School and college library staffs use the statistics to identify interlibrary loan resources and to establish cooperative service programs.

Public library services in New Jersey are provided primarily by three types of libraries:

- 1) **Municipal** – a library established by law following a referendum in which the majority of voters decided to establish such a library. It is supported by taxes and is governed by a board, appointed by the mayor, which must include the mayor and the superintendent of schools. There are 232 municipal libraries identified in the tables by an **M**.
- 2) **County** – a library established by law following a county-wide referendum approved by a majority of voters. It is supported by taxes and generally governed by a board known as the county library commission, composed of five members appointed by the freeholders. There are 14 county libraries identified in the tables by a **C**.
- 3) **Association** – a library established, governed and supported by an association of citizens. Such an association is incorporated, forms its own constitution, appoints or elects its own board and is responsible for operation of the library. It may receive tax support from the local governing body. Only those association libraries whose services are free to the public are included in this publication. Some libraries formerly listed as association libraries are now branches or stations of their county libraries. Association libraries, numbering 60, are identified in the tables by an **A**.

In addition, there are six **joint** libraries in New Jersey which are identified in the tables by a **J**. A joint library is established by law following a referendum in two or more municipalities which was approved by the majority of voters. It is governed by a board appointed by the mayors of the participating municipalities.

Summary tables show the number and percentage of population served by public libraries (Tables 1 and 2), libraries according to size of population served (Table 3), libraries according to total expenditures (Table 4), libraries according to type and total expenditures (Table 5), and by the Regions of New Jersey (see page 41). Tables showing individual library statistics by county and a state summary constitute the body of this publication. These data include the 2000 New Jersey population figures for population served and the 2000 equalized valuation. Where a public library is supported by more than one municipality, the figures combine both municipalities. Explanation of the column headings follow. Where data have been taken from annual public library statistical reports for 2000, the line number of the report used is given in parentheses at the end of the explanation of each column heading below.

POPULATION SERVED

The total population of New Jersey as of April 1, 2000 was 8,414,350 as released in the **Decennial Census**, issued by the U. S. Department of Labor, Bureau of the Census. 8,336,427 of this population are served by a public library; defined as having access to a public library within a municipal boundary or to service provided by a county library. As indicated in the tables, two municipalities contract for library service. Their population totals 16,129. The remainder of the population, 61,794, is unserved; residing in municipalities not served by a county library or any local library.

The population served by a county library is the total of all municipalities that provide tax support, including the populations of the member-libraries listed below the county-library entry.

EQUALIZED VALUATION

The equalized valuation of municipalities is supplied by the Division of Taxation, New Jersey Department of Treasury, October 2000. Amounts are shown to the nearest thousand dollars and exclude municipalities that do not officially support library services. For county libraries, the equalized valuation reported is the total of all municipalities that provide tax support.

INCOME: LOCAL TAX

Local tax support is shown as reported by individual libraries as the sum of appropriated and additional tax support. (Line 14)

NOTE: Calculation of State Library Per Capita Aid is based on amounts expended from municipal or county budgets for library purposes.

INCOME: PER CAPITA STATE AID

Amounts shown as per capita state aid were reported as paid in 2000 to municipalities and counties with libraries. State Aid to network contract libraries and emergency aid/incentive grants are not shown in this column. (Line 16)

INCOME: TOTAL

Amounts shown are library operation income from all sources (Line 24), but excluding the balance brought forward from the prior year (Line 11). State aid to network contract libraries and emergency aid/incentive grants are included. (Line 24 less Line 11)

EXPENDITURES: SALARIES, WAGES AND BENEFITS

Amounts reported here include salaries, wages and fringe benefits paid in 2000 to all library employees, including maintenance personnel, whether paid from the library budget or from the municipal or county budget. Retirement benefits paid are excluded. (Line 28)

EXPENDITURES: LIBRARY MATERIALS

Included are the amounts expended for books, periodicals, newspapers, microforms, all other non-print materials and binding. (Line 33)

EXPENDITURES: TOTAL

Total expenditures for 2000 as reported by libraries, represent current operations and exclude amounts spent for capital improvements, repayment of loans, etc. The difference of total expenditures, less those for salaries, wages and benefits and for library materials, represents all other operating expenditures. (Line 37) NOTE: Total expenditures may exceed total income, since the balance carried forward from 1999 (Line 11) has been deducted to yield current-year income.

PER CAPITA : LOCAL EXPENDITURES

These amounts are derived by dividing total expenditures by population served. This column excludes amounts paid by municipalities in support of county libraries.

PER CAPITA: EXPENDITURES INCLUDING COUNTY TAX

For county libraries and county-library members, these amounts are derived from the sum of total local expenditures and county-library tax support paid, divided by population served. (While amounts paid by municipalities in support of a county library are not printed in these tables, they are included in these computations and were taken from county abstracts of rates.)

STAFF: PROFESSIONAL CERTIFIED

Numbers appearing in this column represent full-time and part-time librarians who hold New Jersey Professional Librarian Certification. (Line 42a)

STAFF: FULL TIME

In this column, the number of individuals working full-time for a minimum of 30 hours per week as of December 2000 is reported. (Line 39b)

STAFF: FULL TIME EQUIVALENTS (FTE)

This column represents the total of part-time and full-time employees equated to a number of full-time positions. The minimum workweek is assumed to be 30 hours. (Line 42b)

VOLUMES OWNED YEAR END

These amounts represent the number of books (including books in microform of cataloged) reported as owned at the end of 2000. Other materials, which are prepared, cataloged and recorded in the same manner as books are also reported here. (Line 47b)

VOLUMES: PER CAPITA

These amounts are derived by dividing the number of volumes owned at the end of the year by the population served.

VOLUMES: PURCHASED DURING YEAR

This column reports the number of volumes purchased (including books in microform if cataloged) by public libraries in 2000 exclusive of gifts and volumes supplied by county libraries. (Line 45b)

TOTAL CIRCULATION

Reported here is the total circulation of library materials, adult and juvenile, including reciprocal borrowing, loans of library materials in bulk to other institutions and interlibrary loans. (Line 58)

SUBSCRIBED PERIODICALS

Numbers shown equal reported number of current paid subscription titles, including newspapers and magazines other than annuals, at the end of 2000. (Line 48)

HOURS OPEN WEEKLY

This column reports the number of hours per week the main library was open for public service during the major part of 2000. (Line 60)

AVERAGES

Averages have been calculated for county-member subtotals, county summaries, and state totals for the following columns: Per Capita Local Expenditures, Per Capita Expenditures Including County Tax, Volumes Per Capita, and Hours Open Weekly.

NON-REPORTING LIBRARIES

Libraries that failed to file an annual report for 2000 still appear in the tables with their library type, population served and equalized valuation as the data are available from other sources.

AVERAGE PRICE PAID FOR BOOKS IN 2000 BY NEW JERSEY PUBLIC LIBRARIES

Average Price Paid Per Volume in 2000: \$16.23

Many libraries use the average price per volume to assist in setting their budgets for library materials and to meet the State Library Aid Administrative-Code criteria for number of volumes purchased. As detailed in the New Jersey Administrative Code, 15:21-2.5 (b), the funds spent for audiovisual materials, electronic reference services, and computer software when divided by the average price paid per volume in the most-recent year published, gives an equivalent number of volumes which may be added to the number of print volumes purchased. Alternately, the total materials expenditure (excluding periodicals) may be divided by the average price per volume to yield the total number of volumes purchased.

From the 2000 annual statistical reports, Line 29 (Columns a+b), "Expenditures for Books," totaled \$27,506,681 for the 290 public libraries reporting. The net total of Line 45, "Book Stock Number of Volumes Purchased," was 1,694,721. Thus, the average price per volume purchased in 2000 was \$16.23.

The \$16.23 average price for 2000 will be used in 2002 for calculation of the FY 2003 State Library Aid requirement for the number of volumes purchased in 2001.

Notes on Table 5: "Libraries Grouped By Type and Total Expenditures"

1. Population served totals in this library type exclude the population of the eight (8) non-respondent exempt libraries having a total population of 46,974.
2. Expenditures per capita in this library type exclude the populations of the eight (8) non-respondent municipal and exempt libraries, whereas the statewide summary sheet for the 2000 public library statistics includes these people. Therefore, the difference in per capita expenditures: \$34.26 with the additional 46,974 population included; \$34.45 with them excluded.
3. Population served totals in this library type exclude the population of the fourteen (14) non-respondent association libraries having a total population of 78,475.
4. Expenditures per capita in this library type exclude the population of the fourteen (14) non-respondent association libraries.
5. In computing statewide totals for this table, add together "Library Types".

Total Expenditures = 1 + 2 + 3

Population and Percent of State Population = 1 + 2 (as 2 includes the population of 3, 3 is excluded here; however, the duplicated population served by Morris County Library of 464,379 has been deducted from both calculations)

Number of Libraries = 1 + 2 + 3 (note that 22 non-respondents are excluded)

Expenditures Per Capita = Total Expenditures divided by Population
