

(e) If during the stacking process described in (d) above, a tile is turned over and exposed to the players, the entire set of tiles shall be reshuffled.

(f) After each round of play has been completed, the dealer shall turn all of the tiles face down and shuffle the tiles in accordance with (d) above.

(g) If there is no gaming activity at the pai gow table, the tiles shall be turned face up and placed into 16 pairs according to rank starting with the supreme pair. Once a player arrives at the table, the procedures in (c) and (d) above shall be followed.

#### 19:47-10.5 Wagers

(a) All wagers at pai gow shall be made by placing gaming chips or plaques and, if applicable, a match play coupon on the appropriate betting area of the pai gow layout. A verbal wager accompanied by cash shall not be accepted at the game of pai gow.

(b) Only players who are seated at the pai gow table may place a wager at the game. Once a player has placed a wager and received tiles, that player must remain seated until the completion of the round of play.

(c) All wagers at pai gow shall be placed prior to the dealer announcing "No more bets" in accordance with the dealing procedures set forth in N.J.A.C. 19:47-10.6. No wager at pai gow shall be made, increased or withdrawn after the dealer has announced "No more bets."

Amended by R.1994 d.137, effective March 21, 1994.  
See: 25 N.J.R. 5902(a), 26 N.J.R. 1373(b).

#### 19:47-10.6 Procedures for dealing the tiles

(a) Once the dealer has completed shuffling the tiles, the dealer shall announce "No more bets" prior to shaking the pai gow shaker. The dealer shall then shake the pai gow shaker at least three times so as to cause a random mixture of the dice.

(b) The dealer shall then remove the lid covering the pai gow shaker, total the dice and announce the total. The total of the dice shall determine which player receives the first stack of tiles.

(c) To determine the starting position for dealing the tiles, the dealer shall count counterclockwise around the table, with the position of the dealer considered number one and continuing around the table with each betting position, regardless of whether there is a wager at the position, and the dead hand counted in order until the count matches the total of the three dice. Examples are as follows:

1. If the dice total nine, the dealer would receive the first stack of four tiles; or
2. If the dice total 15, the sixth wagering position would receive the first stack of four tiles.

(d) The dealer shall deal the first stack of four tiles, starting from the right side of the eight stacks, to the starting position as determined in (c) above and, moving counterclockwise around the table, deal all other positions including the dead hand and the dealer a stack of tiles, regardless of whether there is a wager at the position. The dealer shall place a marker on top of his or her stack of tiles immediately after they are dealt.

(e) After all the stacks of tiles have been dealt, the dealer shall, without exposing the tiles, collect any stacks dealt to a position where there is no wager and place the stacks with the dead hand on the layout to the left of the dealer in front of the table inventory container.

(f) Once all tiles have been dealt and any tiles dealt to positions with no wagers have been collected, the dealer shall place the cover on the pai gow shaker and shake the shaker once. The pai gow shaker shall then be placed to the right of the dealer.

#### 19:47-10.7 Procedures for completion of each round of play; setting of hands; payment and collection of wagers; payout odds; vigorish

(a) After the dealing of the tiles has been completed, each player shall set his or her hands by arranging the tiles into a high hand and low hand. After setting the hands the tiles shall be placed face down on the layout immediately behind that player's betting area and separated into two distinct hands.

(b) Each player at the table shall be responsible for setting his or her own hands and no other person except the dealer may touch the tiles of that player. Each player shall be required to keep the four tiles in full view of the dealer at all times. Once each player has set a high hand and low hand and placed the two hands face down on the layout, the player shall not touch the tiles again.

(c) After all players have set their hands and placed the tiles on the table, the four tiles of the dealer shall be turned over and the dealer shall set his or her hands by arranging the tiles into a high and low hand. The high hand shall be placed on the layout face up to his or her right and the low hand shall be placed on the layout face up to his or her left.

(d) Except as provided in (e) below, the dealer shall be required to comply with the following rules when setting the hands of the dealer:

1. If the dealer has the supreme pair, it shall be played as such;
2. If possible, the dealer shall always play a pair, wong or gong as set forth in N.J.A.C. 19:47-10.2;
3. If the dealer does not have any combinations described in (d)1 or (d)2 above, the dealer shall play any two tiles together which have a value equal to nine, eight or seven; and

4. If the dealer does not have a combination listed in (d)1 through (d)3 above, the dealer shall play the highest ranking tile with the lowest ranking tile.

(e) Each casino licensee shall submit to the Commission in its Rules of the Games Submission the manner in which it proposes to require the hands of the dealer to be set, and shall specifically note any exceptions it proposes to the rules listed in (d) above.

(f) A player may surrender his or her wager after the hands of the dealer have been set. The player must announce his or her intention to surrender prior to the dealer exposing either of the two hands of that player pursuant to (g) below. Once the player has announced his or her intention to surrender, the dealer shall:

1. Immediately collect the wager from that player; and
2. Collect the four tiles dealt to that player and stack them face down on the right side of the table in front of the table inventory container without exposing the tiles to anyone at the table.

(g) Once the dealer has set a high and low hand, the dealer shall expose both hands of each player, starting with the player farthest to the right of the dealer and proceeding counterclockwise around the table. The dealer shall always compare the high hand of the player to the high hand of the dealer and the low hand of the player to the low hand of the dealer and shall announce if the wager of that player shall win, lose or be considered a tie ("push").

(h) All losing wagers shall be collected immediately by the dealer and put in the table inventory container. All losing hands shall also be collected. A wager made by a player shall lose if the high hand of the player is identical in rank or lower in rank than the high hand of the dealer, and the low hand of the player is identical in rank or lower in rank than the low hand of the dealer or has a value of zero.

(i) If a wager is a push, the dealer shall not collect or pay the wager, but shall immediately collect the tiles of that player. A wager made by a player shall be a push if:

1. The high hand of the player is higher in rank than the high hand of the dealer, but the low hand of the player is identical in rank to the low hand of the dealer (copy hand), lower in rank than the low hand of the dealer or has a value of zero; or
2. The high hand of the player is identical in rank to the high hand of the dealer (copy hand) or lower in rank than the high hand of the dealer, but the low hand of the player is higher in rank than the low hand of the dealer.

(j) All winning hands shall remain face up on the layout. Winning wagers shall be paid after all hands have been exposed. The dealer shall pay winning wagers beginning with the player farthest to the right of the dealer and continuing counterclockwise around the table. A wager made by a player shall win if the high hand of the player is higher in rank than the high hand of the dealer and the low hand of the player is higher in rank than the low hand of the dealer.

(k) A winning pai gow wager shall be paid off by a casino licensee at odds of 1 to 1, except that the casino licensee shall extract a commission known as "vigorish" from the winning player in an amount equal to five percent of the amount won; provided, however, that when collecting the vigorish, the casino licensee may round off the vigorish to 25 cents or the next highest multiple of 25 cents. A casino licensee shall collect the vigorish from a player at the time the winning payout is made. After a winning wager has been paid and the vigorish collected, the dealer shall then collect the tiles from that player.

(l) All tiles collected by the dealer shall be picked up in order and in such a way that they can be readily arranged to reconstruct each hand in case of a question or dispute and shall be placed face up to the right of the dealer in front of the table inventory container.

#### **19:47-10.8 Player bank; co-banking; selection of bank; procedures for dealing**

(a) A casino licensee may, in its discretion, offer to all players at a pai gow table the opportunity to bank the game. If the casino licensee elects this option, all the other provisions of this subchapter shall apply except to the extent that they conflict with the provisions of this section, in which case the provisions of this section shall control for any round of play in which a player is the bank.

(b) A player may not be the bank at the start of the game. For the purposes of this section, the start of the game shall mean the first round of play after the dealer is required to restack and shuffle the tiles in accordance with the procedures set forth in N.J.A.C. 19:47-10.4(b) or (g).

(c) After the first round of play pursuant to (b) above, each player at the table shall have the option to either be the bank or pass the bank to the next player. The dealer shall, starting with the player farthest to the right of the dealer, offer the bank to each player in a counterclockwise rotation around the table until a player accepts the bank. The dealer shall place a marker designating the bank in front of the player who accepts the bank. If the first player offered the bank accepts, the player seated to the right of that player shall first be offered the bank on the next round of play. The initial offer to be the bank shall rotate counterclockwise around the table until it returns to the dealer. In no event may any player bank two consecutive rounds of play. If no player wishes to be the bank, the round of play shall proceed in accordance with the rules of play provided in this subchapter.

(e) The player or dealer making the cut shall place the cutting card in the stack at least 10 cards from either end. Once the cutting card has been inserted, the dealer shall take the cutting card and all the cards on top of the cutting card and place them on the bottom of the stack. The dealer shall then remove the cover card and place it on the bottom of the stack. Thereafter, the dealer shall remove the cutting card and, at the discretion of the casino licensee, either place it in the discard rack or use it as an additional cutting card to be inserted four cards from the bottom of the deck. The dealer shall then deal or deliver the cards in accordance with the procedures set forth in N.J.A.C. 19:47-11.8, 11.8A or 11.8B.

(f) After the cards have been cut and before any cards have been dealt, a casino supervisor may require the cards to be recut if he or she determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game. If a recut is required, the cards shall be recut, at the casino licensee's option, by the player who last cut the cards, or by the next person entitled to cut the cards, as determined by (c) and (d) above.

(g) Whenever there is no gaming activity at a pai gow poker table which is open for gaming, the cards shall be spread out on the table either face up or face down. If the cards are spread face down, they shall be turned face up once a player arrives at the table. After the first player is afforded an opportunity to visually inspect the cards, the procedures outlined in N.J.A.C. 19:47-11.5(c) shall be completed.

(b) Only players who are seated at the pai gow poker table may place a wager at the game. Once a player has placed a wager and received cards, that player must remain seated until the completion of the round of play.

(c) All wagers at pai gow poker shall be placed prior to the dealer announcing "No more bets" in accordance with the dealing procedures set forth in N.J.A.C. 19:47-11.8, 11.8A or 11.8B. No wager at pai gow poker shall be made, increased or withdrawn after the dealer has announced "No more bets."

#### 19:47-11.8 Procedures for dealing the cards from a manual dealing shoe

(a) If a casino licensee chooses to have the cards dealt from a manual dealing shoe, the dealing shoe shall meet the requirements of N.J.A.C. 19:46-1.19. Once the procedures required by N.J.A.C. 19:47-11.6 have been completed, the cards shall be placed in the manual dealing shoe and the dealer shall announce "No more bets."

(b) The dealer shall then, using one of the procedures authorized by N.J.A.C. 19:47-11.8C, determine the starting position for dealing the cards. If the casino licensee offers the additional wager authorized by N.J.A.C. 19:47-11.13, all such additional wagers shall be determined and paid and the procedures in N.J.A.C. 19:47-11.13 shall be completed, before any card is dealt to any player at the table.

(c) After the starting position for dealing the cards has been determined, each card shall be removed from the dealing shoe with the left hand of the dealer and placed face down on the appropriate area of the layout with the right hand of the dealer. The dealer shall deal the first card to the starting position as determined in (b) above and, moving clockwise around the table, deal a card to all other positions, including the dealer, regardless of whether there is a wager at the position. The dealer shall then return to the starting position and deal a second card in a clockwise rotation and shall continue dealing until each position, including the dealer, has seven cards.

(d) After seven cards have been dealt to each position, including the dealer, the dealer shall remove the remaining cards from the shoe and determine whether exactly four cards are left.

1. If four cards remain, the four cards shall not be exposed to anyone and shall be placed in the discard rack. The dealer shall then collect any cards dealt to a position where there is no wager and place them in the discard rack without exposing the cards.

2. If more or less than four cards remain, the dealer shall determine if the cards were misdealt. If the cards were misdealt and a player or the dealer has more or less than seven cards, all hands shall be void pursuant to N.J.A.C. 19:47-11.11. If the cards have not been misdealt, all hands shall be considered void and the entire deck of cards shall be removed from the table pursuant to N.J.A.C. 19:46-1.18.

**19:47-11.8A Procedures for dealing the cards from the hand**

(a) Notwithstanding any other provision of N.J.A.C. 19:46 or this chapter, a casino licensee may, in its discretion, permit a dealer to deal the cards used to play pai gow poker from his or her hand.

(b) If a casino licensee chooses to have the cards dealt from the dealer's hand, the following requirements shall be observed.

1. Once the procedures required by N.J.A.C. 19:47-11.6 have been completed, the dealer shall place the deck of cards in either hand.

i. Once the dealer has chosen the hand in which he or she will hold the cards, the dealer shall use that hand whenever holding the cards during that round of play.

ii. The cards held by the dealer shall at all times be kept in front of the dealer and over the table inventory container.

2. The dealer shall then announce "No more bets" prior to dealing seven stacks of seven cards each to the area in front of the table inventory container. The dealer shall deal each card by holding the deck of cards in the chosen hand and using the other hand to remove the top card of the deck and place it face down on the appropriate area of the layout.

(c) The dealer shall deal the first seven cards moving from left to right and the second seven cards moving from right to left and shall continue alternating in this manner until there are seven stacks of seven cards.

(d) After seven stacks of seven cards have been dealt, the dealer shall determine whether exactly four cards are left by spreading them face down on the layout.

1. If four cards remain, the cards shall not be exposed to anyone at the table and shall be placed in the discard rack.

2. If more or less than four cards remain, the dealer shall determine if the cards were misdealt. If the cards were misdealt and a stack has more or less than seven cards, the round of play shall be void and the cards reshuffled. If the cards have not been misdealt, the round of play shall be considered void and the entire deck of cards shall be removed from the table pursuant to N.J.A.C. 19:46-1.18.

(e) Once the dealer has completed dealing the seven stacks and placed the four remaining cards in the discard rack, the dealer shall then, using one of the procedures authorized by N.J.A.C. 19:47-11.8C, determine the starting position for delivering the stacks of cards. If the casino licensee offers the additional wager authorized by N.J.A.C. 19:47-11.13, all such additional wagers shall be determined and paid and the procedures in N.J.A.C. 19:47-11.13 shall be completed, before any stack of cards is dealt to any player at the table.

(f) After the starting position for delivering the stacks of cards has been determined, the dealer shall deliver the first stack to the starting position as determined in (e) above and, moving clockwise around the table, deliver the remaining stacks in order to all positions, including the dealer, regardless of whether there is a wager at the position. In delivering the stacks, the stack farthest to the left of the dealer shall be considered the first stack, and the stack farthest to the right of the dealer shall be considered the seventh stack. The dealer shall deliver each stack face down.

(g) After the seven stacks have been delivered to each position, including the dealer, the dealer shall collect any stacks dealt to a player position where there is no wager and place them in the discard rack without exposing the cards.

**19:47-11.8B Procedures for dealing the cards from an automated dealing shoe**

(a) Notwithstanding any other provision of N.J.A.C. 19:46 or this chapter, a casino licensee may, in its discretion, choose to have the cards used to play pai gow poker dealt from an automated dealing shoe which dispenses cards in stacks of seven cards, provided that the shoe, its location and the procedures for its use are approved by the Commission.

(b) If a casino licensee chooses to have the cards dealt from an automated dealing shoe, the following requirements shall be observed.

1. Once the procedures required by N.J.A.C. 19:47-11.6 have been completed, the cards shall be placed in the automated dealing shoe.
2. The dealer shall then announce "No more bets" prior to the shoe dispensing any stacks of cards.

(c) The dealer shall then, using one of the procedures authorized by N.J.A.C. 19:47-11.8C, determine the starting position for delivering the stacks of cards. If the casino licensee offers the additional wager authorized by N.J.A.C. 19:47-11.13, all such additional wagers shall be determined and paid and the procedures in N.J.A.C. 19:47-11.13 shall be completed, before any stack of cards is dealt to any player at the table.

(d) Once the starting position has been determined in accordance with (c) above, the dealer shall deliver the first stack of cards dispensed by the automated dealing shoe to that position. As the remaining stacks are dispensed to the dealer by the automated dealing shoe, the dealer shall deliver a stack in turn to each of the other positions, including the dealer, moving clockwise around the table, whether or not there is a wager at the position. The dealer shall deliver each stack face down.

(e) After the seven stacks of seven cards have been dispensed and delivered to each position, including the dealer, the dealer shall remove the remaining cards from the shoe and determine whether exactly four cards are left by spreading them face down on the layout.

1. If four cards remain, the cards shall not be exposed to anyone at the table and shall be placed in the discard rack.

2. If more or less than four cards remain, the dealer shall determine if the cards were misdealt. If the cards were misdealt and a stack has more or less than seven cards, the round of play shall be void and the cards reshuffled. If the cards have not been misdealt, the round of play shall be considered void and the entire deck of cards shall be removed from the table pursuant to N.J.A.C. 19:46-1.18.

(f) If the dealer determines the cards were dealt properly, the dealer shall then collect any stacks dealt to a position where there is no wager and place them in the discard rack without exposing the cards.

**19:47-11.8C Procedure for determining the starting position for dealing cards or delivering stacks of cards**

(a) In order to determine the starting position for the dealing of cards or the delivery of stacks of cards for the game of pai gow poker, a casino licensee may, in its discretion, use the procedure authorized in (b) or (c) below.

(b) The dealer shall shake the pai gow poker shaker and dice described in N.J.A.C. 19:47-11.4 at least three times so as to cause a random mixture of the dice.

1. The dealer shall then remove the lid covering the pai gow poker shaker, total the dice and announce the total.

2. To determine the starting position, the dealer shall count counterclockwise around the table, with the position of the dealer considered number one, and continuing around the table with each betting position counted in order, including the dealer, regardless of whether there is a wager at the position, until the count matches the total of the three dice.

3. Examples are as follows:

- i. If the dice total 8, the dealer would receive the first card or stack of cards; or
- ii. If the dice total 14, the sixth betting position would receive the first card or stack of cards.

4. After the dealing or delivery of the cards has been completed in accordance with the procedures set forth in N.J.A.C. 19:47-11.8, 11.8A or 11.8B, the dealer shall place the cover on the pai gow poker shaker and shake the shaker once. The pai gow poker shaker shall then be placed to the right of the dealer.

(c) The dealer may use a computerized random number generator approved by the Commission to select and display a number from 1 through 7 inclusive, and verbally announce the number. To determine the starting position, the dealer

shall count counterclockwise around the table, with the position of the dealer considered number one, and continuing around the table with each betting position counted in order, including the dealer, regardless of whether there is a wager at the position, until the count matches the number displayed by the random number generator.

(d) After the starting position for a round of play has been determined, a casino licensee may, in its discretion, mark that position by the use of an additional cut card or similar object.

New Rule, R.1994 d.224, effective May 2, 1994.  
See: 26 N.J.R. 344(a), 26 N.J.R. 1853(b).

**19:47-11.9 Procedures for completion of each round of play; setting of hands; payment and collection of wagers; payout odds; vigorish**

(a) After the dealing of the cards has been completed, each player shall set his or her hands by arranging the cards into a high hand and low hand. When setting the two hands, the five card high hand must be equal to or higher in rank than the two card low hand. For example, if the two card hand contains a pair of sevens, the five card hand must contain at least a pair of sevens and the three remaining cards.

(b) Each player at the table shall be responsible for setting his or her own hands and no other person except the dealer may touch the cards of that player. Each player shall be required to keep the seven cards in full view of the dealer at all times. Once each player has set a high and low hand and placed the two hands face down on the appropriate area of the layout, the player shall not touch the cards again.

(c) After all players have set their hands and placed the cards on the table, the seven cards of the dealer shall be turned over and the dealer shall set his or her hands by arranging the cards into a high and low hand. The dealer shall then place the two hands face up on the appropriate area of the layout.

(d) Each casino licensee shall submit to the Commission in its Rules of the Games Submission the manner in which it will require the hands of the dealer to be set.

(e) A player may announce that he or she wishes to surrender his or her wager prior to the dealer exposing either of the two hands of that player pursuant to (f) below. Once the player has announced his or her intention to surrender, the dealer shall:

1. Immediately collect the wager from that player; and

2. Collect the seven cards dealt to that player without exposing the cards to anyone at the table. The dealer shall verify that seven cards were collected by counting them face down on the layout prior to placing them in the discard rack.

(f) Once the dealer has set a high and low hand, the dealer shall expose both hands of each player, starting from the right and proceeding counterclockwise around the table. The dealer shall compare the high and low hand of each player to the high and low hand of the dealer and shall announce if the wager of that player shall win, lose or be considered a tie ("push").

(g) All losing wagers shall be immediately collected by the dealer and put in the table inventory container. All losing hands shall also be collected. A wager made by a player shall lose if:

1. The high hand of the player is lower in rank than the high hand of the dealer and the low hand of the player is lower in rank than the low hand of the dealer;
2. The high hand of the player is identical in rank to the high hand of the dealer or the low hand of the player is identical in rank to the low hand of the dealer (a "copy hand") and the other hand of the player is identical in rank or lower in rank than the other hand of the dealer;
3. The high hand of the player was not set so as to rank equal to or higher than the low hand of that player; or
4. The two hands of the player were not otherwise set correctly in accordance with the rules of the game (for example, a player forms a three card low hand and a four card high hand).

(h) If a wager is a push, the dealer shall not collect or pay the wager, but shall immediately collect the cards of that player. A wager made by a player shall be a push if:

1. The high hand of the player is higher in rank than the high hand of the dealer, but the low hand of the player is identical in rank to the low hand of the dealer (copy hand) or lower in rank than the low hand of the dealer; or
2. The high hand of the player is identical in rank to the high hand of the dealer (copy hand) or lower in rank than the high hand of the dealer, but the low hand of the player is higher in rank than the low hand of the dealer.

(i) All winning hands shall remain face up on the layout. Winning wagers shall be paid after all hands have been exposed. The dealer shall pay winning wagers beginning with the player farthest to the right of the dealer and continuing counterclockwise around the table. A wager made by a player shall win if the high hand of the player is higher in rank than the high hand of the dealer and the low hand of the player is higher in rank than the low hand of the dealer.

(j) A winning pai gow poker wager shall be paid off by a casino licensee at odds of 1 to 1, except that the casino licensee shall extract a commission known as "vigorish" from the winning player in an amount equal to five percent of the amount won; provided, however, that when collecting the vigorish, the casino licensee may round off the vigorish to 25 cents or the next highest multiple of 25 cents. A casino licensee shall collect the vigorish from a player at the time the winning payout is made. After a winning wager has been paid and the vigorish collected, the dealer shall then collect the cards from that player.

(k) All cards collected by the dealer shall be picked up in order and placed in the discard rack in such a way that they can be readily arranged to reconstruct each hand in case of a question or dispute.

**19:47-11.10 Player bank; co-banking; selection of bank; procedures for dealing**

(a) A casino licensee may, in its discretion, offer to all players at a pai gow poker table the opportunity to bank the game. If the casino licensee elects this option, all the other provisions of this subchapter shall apply except to the extent that they conflict with the provisions of this section, in which case the provisions of this section shall control for any round of play in which a player is the bank.

(b) A player may not be the bank at the start of the game. For the purposes of this section, the start of the game shall mean the first round of play after the dealer is required to shuffle the cards in accordance with the procedures set forth in N.J.A.C. 19:47-11.5(c).

(c) After the first round of play pursuant to (b) above, each player at the table shall have the option to either be the bank or pass the bank to the next player. The dealer shall, starting with the player farthest to the right of the dealer, offer the bank to each player in a counterclockwise rotation around the table until a player accepts the bank. The dealer shall place a marker designating the bank in front of the player who accepts the bank. If the first player offered the bank accepts, the player seated to the right of that player shall first be offered the bank on the next round of play. The initial offer to be the bank shall rotate counterclockwise around the table until it returns to the dealer. In no event may any player bank two consecutive rounds of play. If no player wishes to be the bank, the round of play shall proceed in accordance with the rules of play provided in this subchapter.

(d) Before a player may be permitted to bank a round of play, the dealer shall determine that:

1. The player placed a wager against the dealer during the last round of play in which there was no player banking the game; and

2. The player has sufficient gaming chips on the table to cover all of the wagers placed by other players at the table for that round of play.

(e) A casino licensee may, in its discretion, offer the bank the option of having the casino cover 50 percent of the wagers made during a round of play. If the casino licensee offers this option, it shall make it available to all players at the table. If the bank wishes to use this option, the bank must specifically request the dealer to accept responsibility for the payment of one-half of all winning wagers. When the bank covers 50 percent and the casino covers 50 percent of the winning wagers, it shall be known as "co-banking" and the dealer shall place a marker designating the co-bank in front of that player. When the dealer is co-banking, the dealer shall be responsible for setting the hand of the bank in the manner submitted to the Commission pursuant to N.J.A.C. 19:47-11.9. When co-banking is in effect, the dealer may not place a wager against the bank.

(f) If a player is the bank, the player may only wager on one betting area.

(g) Once the dealer has determined that a player may be the bank pursuant to (d) above and after the cards have been shuffled, the dealer shall remove gaming chips from the table inventory container in an amount equal to the last wager made by that player against the dealer or in an amount, the calculation of which has been approved by the Commission. This amount shall be the amount the dealer wagers against the bank. The bank may direct that the sum wagered by the dealer be a lesser amount or that the dealer place no wager during that round of play. Any amount wagered by the dealer shall be placed in front of the table inventory container.

(h) If the cards are to be dealt from a manual dealing shoe, the procedures set forth in N.J.A.C. 19:47-11.8 and 11.8C shall apply, except as follows:

1. If a pai gow poker shaker and dice are being used to determine the starting position for the dealing of the cards, the bank shall shake the pai gow poker shaker three times pursuant to N.J.A.C. 19:47-11.8C(b) instead of the dealer. It shall be the responsibility of the dealer to ensure that the bank shakes the pai gow poker shaker at least three times so as to cause a random mixture of the dice. Once the bank has completed shaking the pai gow poker shaker, the dealer shall remove the lid covering the pai gow poker shaker, total the dice and announce the total. The dealer shall always remove the lid from the pai gow poker shaker and if the bank inadvertently removes the lid, the dealer shall require the pai gow poker shaker to be covered and reshaken by the bank.

2. If a computerized random number generator is used to determine the starting position for the dealing of the cards, the device shall be operated in accordance with procedures approved by the Commission.

3. When counting the betting positions, including the dealer, to determine the starting position for dealing the cards, the position of the banker, instead of the dealer, shall be considered number one.

(i) If the cards are to be dealt from the hand, the procedures set forth in N.J.A.C. 19:47-11.8A and 11.8C shall apply, except as follows:

1. Once the dealer has completed dealing the seven stacks and placed the four remaining cards in the discard rack pursuant to N.J.A.C. 19:47-11.8A, the bank shall select the first stack to be delivered by the dealer. This stack shall be designated as the first stack by the dealer moving it toward the players.

2. If a pai gow poker shaker and dice are being used to determine the starting position for the delivery of the first stack, the bank shall shake the pai gow poker shaker three times pursuant to N.J.A.C. 19:47-11.8C(b) instead of the dealer. It shall be the responsibility of the dealer to ensure that the bank shakes the pai gow poker shaker at least three times so as to cause a random mixture of the dice. Once the bank has completed shaking the pai gow poker shaker, the dealer shall remove the lid covering the pai gow poker shaker, total the dice and announce the total. The dealer shall always remove the lid from the pai gow poker shaker and if the bank inadvertently removes the lid, the dealer shall require the pai gow poker shaker to be covered and reshaken by the bank.

3. If a computerized random number generator is used to determine the starting position for the delivery of the first stack, the device shall be operated in accordance with procedures approved by the Commission.

4. When counting the betting positions, including the dealer, to determine the starting position for delivering the seven stacks of cards, the position of the bank, instead of the dealer, shall be considered number one.

5. The dealer shall deliver the first stack as determined in (i)1 above to the starting position as determined in N.J.A.C. 19:47-11.8C and (i)2 through 4 above. Thereafter, the dealer shall deliver the remaining stacks in a clockwise rotation beginning with the stack closest to the right of the first stack and proceeding until all stacks to the right of the first stack have been dealt and then moving to the stack farthest to the left of the dealer and proceeding left to right. If there are no stacks to the right of the first stack, the dealer will begin with the stack farthest to the left and proceed to the right. The dealer shall deliver each stack face down to each position, including the dealer, regardless of whether there is a wager at the position.

(j) If the cards are to be dealt from an automated dealing shoe, the procedures set forth in N.J.A.C. 19:47-11.8B and 11.8C shall apply, except as follows:

1. If a pai gow poker shaker and dice are being used to determine the starting position for the delivery of the first stack of cards dispensed by the automated dealing shoe, the bank shall shake the pai gow poker shaker three times pursuant to N.J.A.C. 19:47-11.8C(b) instead of the dealer. It shall be the responsibility of the dealer to ensure that the bank shakes the pai gow poker shaker at least three times so as to cause a random mixture of the dice. Once the bank has completed shaking the pai gow poker shaker, the dealer shall remove the lid covering the pai gow poker shaker, total the dice and announce the total. The dealer shall always remove the lid from the pai gow poker shaker and if the bank inadvertently removes the lid, the dealer shall require the pai gow poker shaker to be covered and reshaken by the bank.

2. If a computerized random number generator is used to determine the starting position, the device shall be operated in accordance with procedures approved by the Commission.

3. When counting the betting positions, including the dealer, to determine the starting position for delivering the stacks of cards as they are dispensed by the shoe, the position of the bank, instead of the dealer shall be considered number one.

(k) If the cards dealt to the dealer have not been previously collected, after each player has set his or her two hands and placed them on the appropriate area of the layout, the two hands of the dealer shall then be set. Once the dealer has formed a high and low hand, the dealer shall expose the hands of the bank and determine if the hands of the dealer are higher in rank than the hands of the bank. If the dealer wins, the cards of the dealer shall be stacked face up to the right of the table inventory container with the amount wagered by the dealer against the bank placed on top. If the dealer pushes, the dealer shall return the amount wagered by the dealer against the bank to the table inventory container. If the dealer loses, the amount wagered by the dealer against the bank shall be moved to the center of the layout.
