DIVISION OF DAIRY INDUSTRY

Notice of Public Hearing

Take notice that, pursuant to P.L. 1941, Chapter 274, as amended, N.J.S.A. 4:12A-1 et seq., and particularly Section 25, the Division of Dairy Industry conducted a public hearing jointly and concurrently with the United States Department of Agriculture in the conference room of the Market Administrator's Office, 205 East 42nd Street, New York, N.Y., at 10:00 A.M. on September 16, 1976, with respect to proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the New York - New Jersey marketing area, said order being a joint order of the United States Department of Agriculture and the Division of Dairy Industry, New Jersey Department of Agriculture, as said order applies to the State of New Jersey.

The purpose of this hearing was to consider evidence on a proposal which would require handlers to make partial payments for milk delivered by producers during the first half of the month. Other proposals would shorten the time between handler payments to cooperatives and to individual producers.

Notice of the hearing was published by the United States Department of Agriculture in Vol. 41 of the Federal Register at page 36668 (Tuesday, August 31, 1976). Copies of this notice and the notice of the United States Department of Agriculture with respect to the proposal may be reviewed at the office of the Division of Dairy Industry, New Jersey Department of Agriculture, John Fitch Plaza, Trenton, New Jersey, or will be supplied upon request.

This Notice is published as a matter of public information.

Lifting of Hog Cholera Quarantine

On September 7, 1976, Phillip Alampi, Secretary of Agriculture, pursuant to authority of N.J.S.A. 4:1-21.5, 4:5-16 and in accordance with applicable provisions of the Administrative Procedure Act, adopted an emergency rule which lifted the hog cholera quarantine imposed on August 25, 1976.

Full text of the emergency rule follows:

2:5-1.15 Quarantine; swine

(a) Take notice that the Department of Agriculture, pursuant to N.J.S.A. 4:1-21.5 and N.J.S.A. 4:5-16, hereby lifts the hog cholera quarantine on Gloucester, Atlantic, Cape May and Cumberland Counties imposed on August 25, 1976.

(b) Swine may move freely in this State and may be imported from cholera-free states.

(c) This amended quarantine is effective September 8, 1976.

Take notice that, with the lifting of this quarantine, the current text of N.J.A.C. 2:5-1.15 will be deleted and that Section marked "Reserved".

An order adopting this emergency rule was filed on September 7, 1976, as R.1976 d.285 (Exempt, Emergency Rule), to become effective on September 8, 1976.

Lifting of Swine Embargo

On September 22, 1976, William E. Kenny, Assistant Secretary of Agriculture, pursuant to authority of N.J. S.A. 4:1-21.5 and in accordance with applicable provisions of the Administrative Procedure Act, adopted an emergency order which lifted the swine embargo imposed on July 20, 1976, on swine imported to New Jersey from certain states.

This emergency order concerns the deletion in its entirety of the current text of N.J.A.C. 2:5-1.16 and marking such Section as Reserved.

Full text of the emergency order follows:

Take notice that the New Jersey Department of Agriculture, pursuant to N.J.S.A. 4:1-21.5, imposed an embargo on all swine emanating from Connecticut, Massachusetts, New Hampshire, Rhode Island and Vermont on July 20, 1976, in order to prevent the spread of hog cholera, an infectious and contagious disease of swine.

The emergency and danger of this disease no longer exists and, therefore, this embargo is hereby lifted.

This order is effective the 22nd day of September, 1976.

An order adopting this embargo lifting was filed and became effective on September 22, 1976, as R.1976 d.299 (Exempt, Emergency Rule).

EDUCATION

BOARD OF EDUCATION

Proposed Amendments On Warning Lamps

The Board of Education, pursuant to authority of N.J.

S.A. 18A:39-21, proposes to adopt amendments to its rules concerning school bus warning lamps (strobes).

The proposed action concerns the adoption of new rules, to be cited as N.J.A.C. 6:21-19.1 et seq., if adopted, concerning school bus warning lamps (strobes), as well as the insertion of two notes to N.J.A.C. 6:21-6.24(f).

Take notice that the remaining text currently appearing in N.J.A.C. 6:21-6.24(f) as well as the diagram presently appearing therein are not changed by this proposal.

Full text of the proposed new amendments and rules follows (additions indicated in boldface thus):

6:21-6.24(f) Rules concerning identification and warning lamps are:

Note 1: The following rules apply to all school buses manufactured prior to March 1, 1977.

Note 2: For rules applicable to school buses manufactured March 1, 1977, and after, see N.J.A.C. 6:21-19.1, School bus warning lamps (strobe).

SUBCHAPTER 19. SCHOOL BUS WARNING LAMPS (STROBE)

Note 1: The following rules are mandated for school buses manufactured March 1, 1977, and after. These rules are permissive for school buses manufactured prior to March 1, 1977.

Note 2: For rules applicable to school buses manufactured prior to March 1, 1977, see N.J.A.C. 6:21-6.24(f), identification and warning lamps.

6:21-19.1 Strobe lamps

(a) Each school bus shall be equipped with eight electronic strobe warning lamps, four red and four amber, working in an automatic integrated system. The warning lamps shall be of a type approved by the Director of the Division of Motor Vehicles, Department of Law and Public Safety.

(b) The lamps shall be matching in size. Color shall be uniform for both the red and amber. Light emission shall be measured by a photometer.

(c) The lamps shall be installed and maintained to specifications promulgated by the Director of the Division of Motor Vehicles, Department of Law and Public Safety.

(d) Two front and two rear red lamps shall be located approximately six inches below the top of the bus, as near the sides as is possible, and equidistant from the center.

(e) The four amber lamps shall be actuated by the driver approximately 300 feet prior to each school bus stop. The lamps shall be controlled by a foot switch located in front of the clutch pedal on the floor board. In the case where automatic transmissions are used, the foot switch shall be located in front of where the clutch pedal normally would have been located. Opening the entrance door shall turn off the amber lamps and turn on the red lamps. Closing the entrance door shall turn off the red lamps and recycle the system automatically for the next stop.

(f) Each strobe warning lamp shall have a monitoring device which gives positive visual indication, to the driver, of lamp status at all times.

(g) Description: An automatic integrated system consisting of:

1. Eight par 46 clear sealed beam type strobe lamps. Lamps shall be equipped with four red and four amber, seven inch diameter 7/8" high-dome plastic, lenses. The lenses shall meet the requirements of the Society of Automotive Engineers Specification J578a for color requirements. Lens material shall comply with the requirements of the Society of Automotive Engineers Specification J576c.

The exterior surfaces of the lenses shall be smooth to avoid entrapment of dirt and provide for ease of cleaning.

2. Two independent dual alternating capacitive discharge solid state strobe power supplies, one front and one rear, shall provide the required electrical power to energize the sealed beam flash tubes. The front power supply shall energize the front lamps at a combined alternating flash rate of 120-128 flashes per minute. The rear power supply shall energize the rear lamps at a combined alternating flash rate of 120-128 flashes per minute. Each power supply shall be fully enclosed in a metal environmental container (minimum metal wall thickness shall be 0.060 inch).

3. The front power supply shall be fully enclosed within the front bulkhead. The rear power supply shall be fully enclosed within the rear bulkhead.

Proposed Rules Concerning Approved Public Elementary Summer Schools

The Board of Education, pursuant to authority of N.J. S.A. 18A:4-10, 18A:38-4 and the Commissioner's decision in the matter of appeals of the Boards of Education of the Black Horse Pike Regional School District and the Sterling Regional School District, Camden County, 1973 S.L.D. 130, affirmed State Board of Education, 1973 S.L.D. 138, proposes to adopt new rules concerning approved public elementary summer schools.

Full text of the proposed new rules follows:

SUBCHAPTER 3. APPROVED PUBLIC ELEMENTARY SUMMER SCHOOLS

6:26-3.1 Operation

(a) The rules for the approval of full-time public elementary school summer sessions, except as otherwise provided, shall apply to all public elementary school summer sessions.

(b) No public school summer session may be operated or approved unless it is operated by a board of education without charge to pupils living within the district.

(c) Remedial, advancement and enrichment courses may be offered to meet pupil needs as described in N.J. A.C. 6:8-3.8.

(d) Application for renewal of approval shall be reviewed and approved annually by the County Superintendent of Schools.

6:26-3.2 Staffing

(a) A member of the district's administrative, supervisory or teaching staff who is certified to supervise instruction shall be assigned the responsibilities of administration and supervision of the summer session.

(b) Teachers in summer sessions shall possess valid certificates for each teaching assignment. Curriculum enrichment may involve resource persons serving for specific periods of time under the supervision of a certified administrator, supervisor or teaching staff member.

6:26-3.3 Admission of pupils

(a) The assignment of pupils in summer session for remedial courses shall be based on the permission from the principal of the school which the pupil regularly attends, naming the subjects which the pupil may take and the purpose for which each subject is taken.

(b) The equivalent of one year's work in a subject in enrichment or advanced work shall be regarded as a maximum. In remedial work, two subjects shall be regarded as a maximum.

6:26-3.4 Grade placement; elementary school

(a) Rules concerning remedial, advanced and enrichment courses include the following:

1. An evaluation and a description of work completed shall be included in the pupil's cumulative record and the principal of the sending school will determine the grade placement of the pupil.

Proposed Revisions Concerning Approved Secondary School Summer Sessions

The Board of Education, pursuant to authority of N.J. S.A. 18A:45-1, 18A:38-4, 18A:4-23 through 18A:4-25 as well as the decision in the matter of the appeals of the Boards of Education of the Black Horse Pike Regional School District and the Sterling Regional School District, Camden County, 1973 S.L.D. 130, affirmed State Board of Education, 1973 S.L.D. 138, proposes to revise some of its rules concerning the approved secondary school summer sessions.

Full text of the proposed revisions follows (additions indicated in boldface thus; deletions indicated in brackets [thus]):

6:27-3.1 Operation

(a) The rules for the approval of full-time secondary schools, except as otherwise provided, shall apply to all secondary summer sessions. No public school summer [secondary] session may be operated or approved unless it:

1. Is operated by a board of education without charge to [the] pupils living within the district; or

2. Is operated as an integral part of the program of an approved private secondary school.

3. Remedial, advancement and enrichment courses may be offered to meet pupil needs as described in N.J.A.C. 6:8-3.8.

(b) Application for renewal of approval shall be reviewed and approved annually by the [Director of Secondary Education] County Superintendent of Schools.

6:27-3.2 [Teacher qualification] Staffing

(a) [(c)] In each public and private school, a member of the administrative, supervisory or teaching staff who is certified to supervise instruction shall be assigned [to] the responsibilities of administration and supervision of the summer session.

(b) [(a)] Teachers in [approved secondary] summer sessions conducted by boards of education shall possess valid certificates [valid] for [secondary school work in] subjects taught. Curriculum enrichment may involve resource persons serving for specific periods of time under the supervision of a certified administrator, supervisor or teaching staff member.

(c) [(b)] Teachers in the summer session of [an approved] private schools shall be members of the regular staff of that school or [of] some other approved secondary school.

6:27-3.3 Admission of pupils

[The assignment of pupils to subjects in summer session shall be based on permission from the principal of the school which the pupil regularly attends, naming the subjects which the pupil may take and the purpose for which each subject is being taken. The equivalent of one year's work in a major subject (one unit) in advanced work shall be regarded as a maximum. In review work, two major subjects shall be regarded as a maximum.]

(a) The assignment of pupils in summer session for remedial courses shall be based on the permission from the principal of the school which the pupil regularly attends, naming the subjects which the pupil may take and the purpose for which each subject is taken. In remedial work, two subjects shall be regarded as a maximum.

(b) The equivalent of one year's work in a subject (one unit) in enrichment or advanced work shall be regarded as a maximum.

6:27-3.4 Credit

(a) Rules concerning advanced work include the following:

1. To receive advanced credit for a subject not previously taken in high school, the pupil shall receive class instruction in summer session equivalent to an amount not less than the minimum customarily required in high school; namely, 3,600 minutes class instruction for 2½ high school credits (½ unit), or 7,200 minutes for five high school credits (one unit). The time calculation shall not include time for passing of classes or for regularly scheduled recess periods. Class instruction shall be supplemented by regular home or study-hall assignments as required in regular high school organization.

(b) Rules concerning transfer of credits include the following:

1. Credit for work taken in an approved secondary school summer session [with the permission of the principal of the school regularly attended] shall be transferable in the same manner as work taken in any approved secondary school. Credits from unapproved secondary school summer sessions shall not be transferable.

(c) Rules concerning remedial [Review] subjects include the following:

1. In subjects which are given for review or for other purposes not including advanced credit, a subject meriting a full year's credit (one unit) shall be organized to provide at least 3,600 minutes of classroom instruction in addition to home or studyhall assignments. One semester course (½ unit) shall provide a proportionate amount of classroom instruction.

2. Instruction in English, mathematics, social studies, science or a foreign language may be given at different grade levels concurrently in the same class, if the class size does not exceed ten pupils.

(d) Rules concerning separation of advanced and remedial [review] classes include:

1. If pupils in advanced work and in remedial [review]

work are instructed in the same class, the instruction shall be limited to one grade level in one subject, such as algebra I, English III, or Spanish I.

(e) Rules concerning records and transcripts include:

1. The amount of time which a pupil has spent in receiving class instruction shall become part of his permanent record and shall be included whenever his record is transferred to another secondary school.

Emergency Rules on Withdrawal from Limited-Purpose Regional School Districts

On September 8, 1976, Fred G. Burke, Commissioner of Education and Secretary of the State Board of Education, pursuant to authority of N.J.S.A. 18A:13-51 to 18A:13-65 and in accordance with applicable provisions of the Administrative Procedure Act, adopted emergency rules concerning withdrawal from limited purpose regional school districts.

Full text of the adopted rules follows:

SUBCHAPTER 3. WITHDRAWAL FROM LIMITED PURPOSE REGIONAL SCHOOL DISTRICTS

6:3-3.1 Application and data for investigation of advisability of withdrawal

(a) The board of education of any local school district constituting part of a limited purpose regional school district or the governing body of such local school district, may apply to the county superintendent of schools to make an investigation as to the advisability of withdrawal of such constituent district from the regional district. Such body shall adopt a resolution by a recorded roll call vote of the majority of the full membership requesting that the county superintendent make such investigation. The resolution request submitted to the county superintendent shall include the following information:

1. A general description of the withdrawing constituent district, including, but not limited to, the type of educational system, number of schools and grade levels served, community population, and geographical characteristics;

2. Enrollment data, including the number of pupils enrolled as reported by grade on October 1 and June 30 last, and estimated projected enrollments, by grade level, for the succeeding five school years for both the withdrawing district and the remaining regional district, based on growth factors using average percentages for the last three school years;

3. The racial composition of the pupil population enrolled in the regional district from the withdrawing district, and the effect of such withdrawal upon the racial composition of the remaining pupil population of the regional district;

4. Two appraisals of each school site which is part of the regional district and situated in the withdrawing district;

5. The proposed educational plan for the pupils from the withdrawing district presently enrolled in the school or schools of the regional district.

6:3-3.2 Investigation and report by county superintendent of schools

(a) Upon receipt of the aforementioned resolution and accompanying data, the county superintendent shall make an investigation and shall within 30 days after receipt of such request issue a report, in accordance with N.J.S.A. 18A:13-52, to the governing bodies of the municipalities constituting the regional district, the boards of education of the constituent districts and the board of education of the regional district. This report shall include, but not be limited to, the following:

1. A general description of the regional district, including the number of constituent districts, schoolhouses, area of the total district, and area of the withdrawing district;

2. Enrollment data, including the number of pupils enrolled as reported on October 1 and June 30 last, and estimated projected enrollments, by grade level, for the succeeding five school years for both the withdrawing district and the remaining regional district, based on growth factors using average percentages for the last three school years;

3. Enrollment data, by grade level, showing the racial composition of the present regional pupil population, and the resulting racial composition for both the withdrawing district and the remaining regional district, if withdrawal is approved;

4. The operating expenses of the limited purpose regional district for the present school year, including the distribution of such current operating expenses among the constituent districts;

5. The equalized valuation of each constituent district of the regional district as set forth in N.J.S.A. 18A:7A-1 et seq.;

6. The average equalized valuations of the real property of each constituent district of the regional district, as set forth in N.J.S.A. 18A:24-1;

7. The borrowing margin of each constituent district of the regional district as determined by N.J.S.A. 18A:24-1 et seq., and the revised borrowing margin of each constituent district and the withdrawing district, if approval is granted;

8. The apportionment of debt service for the current school year among all or the constituent districts of the regional district by dollar amounts and percentages;

9. The replacement costs of schoolhouses and additions, grounds, furnishings and equipment of the regional district, and the replacement cost of any schoolhouse, and additions of the regional district, including grounds, furnishings, and equipment, situated in the withdrawing district. School buildings, furnishings and equipment replacement costs will be calculated by the Bureau of Facility Planning Services, Division of Field Services;

10. The amount of indebtedness, if any, to be assumed by the withdrawing constituent district, calculated in accordance with N.J.S.A. 18A:8-7 and 8;

11. The distribution of assets and liabilities of the existing regional district and remaining regional district following withdrawal in the manner as provided by N.J.S.A. 18A:8-24;

12. A proposed educational plan for the withdrawing constituent district, if withdrawal is approved, including the effects of such withdrawal upon the educational program of the remaining regional district;

13. A summary of the advantages of withdrawal to both the withdrawing constituent district and the remaining regional district and the disadvantages to the withdrawing constituent district and the remaining regional district.

6:3-3.3 Special school election

(a) Upon completion of the procedures contained in N.J.S.A. 18A:13-54 to 56 and within 30 days after the granting of approval of the application by the board of review, the county superintendent shall fix a day and time for holding a special school election, in accordance with the provisions of N.J.S.A. 18A:13-57.

(b) To be effective, the proposal must be adopted by a majority of the legal votes cast within the withdrawing constituent district, and, in addition, a majority of the combined legal votes cast within the remainder of the regional district.

6:3-3.4 Final determination of board of review

The board of review shall include in its final determination, required by N.J.S.A. 18A:13-56, any specific conditions under which its consent is granted in order to insure that a thorough and efficient system of public schools will be maintained in the withdrawing district or districts and the remaining regional district.

6:3-3.5 Effective date of withdrawal

If approved at said election, the withdrawal of the district shall become effective upon July 1 of the next ensuing school year, pursuant to the provisions of N.J.S.A. 18A:13-59.

An order adopting these rules was filed and effective on September 8, 1976, as R.1976 d.286 (Exempt, Emergency Rule).

Procedural Rules of Bureau of Solid Waste Management

On September 20, 1976, David J. Bardin, Commissioner of Environmental Protection, pursuant to authority of N.J.S.A. 13:1E-1 et seq. and in accordance with applicable provisions of the Administrative Procedure Act, adopted procedural rules of the Bureau of Solid Waste Management. These rules are known within the Department of Environmental Protection as Docket No. DEP 021-76-09.

Full text of the adopted rules follows:

SUBCHAPTER 6. BUREAU OF SOLID WASTE MANAGEMENT; PROCEDURAL RULES

7:1-6.1 Scope

These rules and regulations shall apply to the review of plans for new or expanded solid waste facilities.

7:1-6.2 Standard

The Solid Waste administration shall not approve any plans for the construction or expansion of a solid waste facility unless the requirements of these rules and regulations are satisfied.

7:1-6.3 Notice to governmental units

The Solid Waste administration shall notify all counties and municipalities located within one mile of the proposed facility that plans have been filed and are available for review.

7:1-6.4 Consultation

The Solid Waste administration shall meet with the governing bodies of the notified counties or municipalities, or their representatives, upon request of said governing bodies prior to the hearing specified in Section 5 of this Subchapter.

7:1-6.5 Public hearing

The Solid Waste administration shall not approve any plans without first holding a nonadversarial public hearing on said plans in order to receive public comment.

7:1-6.6 Public notice

The Solid Waste administration shall cause a notice of hearing to be published in at least two newspapers of general circulation which have the greatest likelihood of informing the public in the area affected by the proposed plans. Said notice must appear at least one week prior to the date of the hearing.

7:1-6.7 Location

At least one session of the public hearing shall be held in a county in which the proposed facility or expansion will be constructed.

7:1-6.8 Exceptions

These rules shall not apply to plans for the construction or expansion of composting operations, facilities for the disposal of tree stumps and similar vegetative waste, municipal needs of its own residents, facilities where the proposed use is for less than one year, or plans which indicate that the facility will take less than 50,000 tons totally.

Proposed Amendment Concerning Special Wildlife Salvage Permit

The Fish and Game Council in the Division of Fish, Game and Shellfisheries in the Department of Environmental Protection, pursuant to authority of N.J.S.A. 13:1B-1 et seq. and 23:4-1 et seq., proposes to amend the 1976-1977 Game Code concerning a new rule on special wildlife salvage permits. Such proposal is known within the Department of Environmental Protection as Docket No. DEP 009-76-04.

Full text of the proposed new rule follows:

7:25-5.27 Special wildlife salvage permit

(a) Special permits known as scientific salvage permits may be issued by the director for the salvage and possession of accidentally killed or naturally dead wildlife other than migratory birds and nongame birds and endangered wildlife species that are named on the State of New Jersey and the Federal lists of such endangered species.

(b) The special permits may be issued to properly accredited persons associated with educational or scientific institutions for strictly educational or scientific purposes only.

(c) The scientific salvage permit issuance fee shall be \$5.00 to defray expenses attending granting the permit and the permit shall be valid for one year only, from the date of its issuance and shall not be transferrable.

(d) Upon proof that a holder of the special salvage permit has killed, injured, destroyed or attempted to kill, injure or destroy with any weapon, trap, snare or other device of any kind any wild animal, except as provided by Title 23 or the proper Game Code, or has in possession any species of wildlife other than those named in this permit or other wildlife possession permit, the special permit shall become void and the permit holder shall be subject to the penalties provided therefore in this Title.

Interested persons may present statements or arguments in writing relevant to the proposed action on or before October 27, 1976, to:

Proposed Revision to 1977 Hospital Rate Review Program Guidelines

Dr. Joanne E. Finley, Commissioner of Health, and James J. Sheeran, Commissioner of Insurance, pursuant to authority of N.J.S.A. 26:2H-1 et seq. and with the approval of the Health Care Administration Board, proposes to adopt a revision to the rule concerning reasonableness test (peer comparison), formerly cited as N.J.A.C. 8:31-14.8, in the 1977 Hospital Rate Review Program Guidelines.

Take notice that this proposal amends R.1976 d.199 (See: 8 N.J.R. 223(b)) which was a temporary rule, not subject to codification in Title 8 of the New Jersey Administrative Code. This proposal is also a temporary rule and will not appear in Title 8 of the New Jersey Administrative Code.

Full text of the proposed revision follows (addition indicated in boldface thus; deletion indicated in brackets [thus]):

If the equalized projected costs of Level I ancillary services cost centers are less than 110 per cent of [State-wide] category median costs per admission, then this segment of the budget will be analyzed further only for the reasonableness of proposed cost increases.

Dr. Joanne E. Finley, Commissioner of Health, pursuant to authority of N.J.S.A. 26:2H-1 et seq. and with the approval of the Health Care Administration Board proposes to adopt amendments to the Standards for Licensure of Ambulatory Care Facilities concerning emergency and disaster procedures.

Full text of the proposed amendments follows (additions indicated in boldface thus):

8:43A-1.10(r) The facility shall have a written plan and procedures to be followed in case of medical emergencies, equipment breakdown, fire or other disaster. The plan shall be developed with the assistance of fire and safety experts from local municipalities. Emergency procedures shall, at a minimum, include the following:

1. Procedures for emergencies shall specify persons to be notified, locations of emergency equipment and alarm signals, evacuation routes, procedures for evacuating patients, frequency of fire drill and assignment of specific tasks and responsibilities of all personnel.

2. Simulated drills of all plans shall be conducted at least four times a year and a record of each drill written which includes the date, hour, description of the drill, staff participation and name of the person in charge.

Proposed Rules on Facilities Providing Family Practice

Dr. Joanne E. Finley, Commissioner of Health, pursuant to authority of N.J.S.A. 26:2T-1 et seq. and with the approval of the Health Care Administration Board, proposes to adopt new rules concerning facilities providing family practice within the Standards for Licensure of Ambulatory Care Facilities.

Full text of the proposed rule follows:

8:43A-1.67 Facilities providing family practice

(a) When family practice services solely are offered by a facility having an AMA-approved educational program in conjunction with a hospital, the services shall be provided in accordance with Sections 2 through 29 of this Subchapter. In addition, these facilities shall meet the service requirements for Sections 31 through 50 of this Subchapter in the event such services are offered:

1. The services provided in a family practice program shall be flexible. However, ambulatory care shall be offered in the following areas as a minimum:

- i. Internal medicine;
- ii. Pediatrics;
- iii. Obstetrics and gynecology;
- iv. Surgery; and
- v. Psychiatry.

(b) The facility shall provide medical and ancillary staff on the premises for its operation in accordance with the following:

1. One full-time program director (the physician who is administratively responsible for educational programs provided by the facility) shall be responsible for direction of the services provided. The program director shall be a family physician, defined as one who:

- i. Serves as the physician of first contact with the patient and provides entry into the health care system;
- ii. Evaluates the patient's health needs, provides personal medical care within one or more fields of medicine and refers the patient when indicated to appropriate sources of care while preserving the continuity of his/her care; and
- iii. Develops a responsibility for the patient's continued health care and acts as a coordinator of the health services provided to the patient.

2. The family practice shall be so organized that the services of a public health nurse, social worker, pharmacist, dietitian, and health educator are available on the premises or through written contractual arrangements.

3. Consultant services shall be available.

(c) All facilities shall comply with the physical plant requirements contained in Section 66 of this Subchapter.

Proposed Amendment on Fire Detection Systems in Intermediate Care Facilities

Dr. Joanne E. Finley, Commissioner of Health, with the approval of the Health Care Administration Board and pursuant to authority of N.J.S.A. 26:2H-1 et seq.,

proposes to adopt an amendment to the Manual of Standards for Intermediate Care Facilities concerning automatic fire and detection systems.

Full text of the proposed amendment follows:

8:37-12.13(d) Rules concerning specifications for electrical automatic fire alarm and detection systems are:

1. General: Automatic fire alarm systems are to be comprised of components listed by either Underwriters' Laboratory, Inc., or Factory Mutual Engineering Laboratories and so labeled. In addition to these component parts, the wire used in connecting the panel, detectors, gong, break stations and any other pieces of equipment which may comprise a complete system, on any specific job, shall be Underwriters' Laboratory, Inc. labeled. The complete installation shall be made in accordance with applicable standards of the National Fire Protection Association and the National Board of Fire Underwriters' or as specified herein.

2. Control unit: The control unit shall be of the closed circuit supervisory type. Its main power source shall be six or 12 volts direct current obtained from the lighting service through a transformer rectifier combination. For emergency operation, the fire alarm system control unit shall obtain direct current for system operation from dry batteries of the size and type that have a minimum shelf-life span of one year, wet-type batteries with a trickle charger or directly from an automatic electrical emergency generator.

i. This system shall automatically transfer to emergency power in the event of main power failure. The change shall be accomplished without interruption of service and shall not cause a fire alarm signal. Failure of the main power source shall cause the sounding of an audible trouble signal. System operation shall automatically return to the main power supply upon its restoration. A break in detector circuit conductors shall cause a trouble signal to sound. A silencing switch may be provided for the audible trouble signals and shall be so arranged that a trouble light will be energized at all times when the switch is in the "off" normal position. The trouble signal shall be separate and distinct from that of an alarm signal.

ii. All alarm signals must automatically lock in at the control panel until manually reset. The manual reset switch shall be of the self-restoring type which cannot be left in an abnormal position.

3. Audible signals: Gongs shall be of the heavy duty continuous vibration type, except that the single stroke type may be used when a coded system is used, and shall bear the label of Underwriters' Laboratory, Inc., or Factory Mutual Engineering Laboratories. Gongs shall be of sufficient number so that in the event of an alarm all occupants in the entire building will be alerted. Gongs shall be no less than eight inches in diameter.

4. Manual break stations: At least one manual break station shall be installed at the main entrance to the building and other stations within 120 feet travel distance.

5. Annunciator units: Each fire alarm system control panel shall have a means of connecting an annunciator unit. This annunciator unit shall show by means of an indicating lamp from which floor or section of the building the alarm is being transmitted.

6. Automatic heat detectors: All automatic heat detectors shall be approved by Underwriters' Laboratories, Inc., or Factory Mutual Engineering Laboratories and installation spacing shall not exceed recommended maximums specified by the laboratories. Detectors shall be

mounted on the ceiling or if need be, on the wall, no more than 12 inches from the ceiling. When installed in an area where open joist exists, they shall be mounted on the lower side of the joist.

7. Automatic smoke detectors: Smoke detectors shall be mounted on the ceiling at the top of all stairwells, vertical shafts and corridors and shall be compatible with the automatic heat detectors and shall form an integral part of the entire system.

8. Remote stations: Where feasible, the system is to be tied to a remote station receiver located in local fire headquarters or to a central station, providing a 24-hour answering service. Acceptance of this type remote connection is subject to the approval of the local authorities having jurisdiction.

9. Guarantee and service contract: An agreement shall exist between the installing company and the building owners providing for three-year's service, free of charge. This service agreement shall include semiannual inspections and each inspection shall include an operational test of at least one-half of the detection devices installed. At the end of the three-year period, the building owner must enter into a contract with a competent fire alarm installation or service company or licensed electrician to provide a continuation of service and semiannual inspections. All service agreements shall include provision for 24-hour emergency service. Fire alarm companies or licensed electricians who enter into a service contract shall submit a report of the results of the subject service inspections to the Department of Health. (In certain areas local fire departments may require submission of record of inspection.)

10. Installation: The fire alarm system shall be installed in a workmanship like manner in accordance with standards set forth in N.F.P.A. and N.B.F.U. pamphlet number 72, and in accordance with the recommendation of the equipment manufacturer. Where possible, all detector circuit wiring shall be concealed. System wiring shall be enclosed in rigid or thin-wall conduit, securely fastened to ceiling or wall, only when exposed less than seven feet from the floor. Circuit wiring between buildings shall be installed underground wherever possible or on existing poles for overhead runs.

11. Comprehensive automatic sprinkler system: Licensed and approved facilities protected with a comprehensive (I.S.O. approved) automatic sprinkler system shall be exempt from the protective measures required for electrical automatic detector systems.

12. Submission of plans: It is required that a detailed explanation in the form of a proposal and drawings, to scale, showing the location of the equipment be submitted to the Department of Health for review and approval prior to installation.

13. Final approval: Upon notification of completion, every installation will be subject to a complete inspection by the Department of Health. No installation shall be given final approval if said installation and equipment do not comply with the standards set forth in these specifications.

Interested persons may present statements or arguments in writing relevant to the proposed action on or before October 27, 1976, to:

Proposed Rule on Institutionalized Child
Returning Temporarily to the Home

Ann Klein, Commissioner of Institutions and Agencies,

pursuant to authority of N.J.S.A. 44:7-6 and 44:10-3, proposes to adopt a new rule to the Assistance Standards Handbook relevant to determining the grant when an institutionalized child returns temporarily to the home.

Full text of the proposed new rule follows:

10:82-2.19 Needs of certain children temporarily in the home

(a) When an otherwise eligible child, ordinarily maintained in an institution by an agency other than the CWA, is temporarily in the home of an eligible AFDC unit for seven or more consecutive days, the needs of such child shall be computed in the following manner:

1. Determine the difference between the monthly grant when the child is not present and the monthly grant including the child in the eligible unit.
2. Prorate the difference on a per diem basis (for example, divide by number of days in the month).
3. Multiply the per diem amount by the number of days the child is in the home.
4. Issue this amount in addition to the regular monthly grant.

Interested persons may present statements or arguments in writing relevant to the proposed action on or before October 27, 1976, to:

Division of Public Welfare
Box 1627
Trenton, N.J. 08625

Proposed Revisions on Self-Employment

Ann Klein, Commissioner of Institutions and Agencies, pursuant to authority of N.J.S.A. 44:7-6 and 44:10-3, proposes to revise portions of the Assistance Standards Handbook concerning self-employment.

Full text of the proposed revisions follows (additions indicated in boldface thus; deletions indicated in brackets [thus]):

10:82-4.2 Definition of earned income

(a) Earned income refers to gross income earned by an individual through the receipt of wages, tips, salaries or commissions from activities in which he/she is engaged as an employee or from his/her self-employment. It includes earnings over a period of time for which settlement is made in one payment, as in the sale of farm crops.

(b) When an individual receives [free] shelter in return for performing work duties, the monetary value shall be determined from Schedule VI and included in the total amount of gross earned income. The amount of mandatory payroll deductions to be recognized shall be determined in relation to such total amount.

10:82-4.3 Earned income from self-employment

(a) Earned income from self-employment is the gross

proceeds of a trade, business or enterprise, adjusted by deducting business expenses or cost of producing the income. Personal expenses, income tax payments, lunches, transportation, child care and so forth are not classified as business expenses for this purpose:

1. Persons who are self-employed shall be required to submit evidence of business receipts and expenditures as the basis for a sound estimate of earned income. A reliable, accurate accounting system or the method utilized [by the individual and accepted by] in reporting to the Internal Revenue Service [for determining net income is] shall be acceptable for determining net income.

(b) In the case of an individual who is self-employed, it may be clearly evident that the expense of producing the income exceeds the income produced. Assistance shall not be granted or continued if such person persists in operating the business, since this in effect would be using public assistance to subsidize a failing business:

1. New business: A period of up to 24 months from the start of a new business will be considered adequate to demonstrate its potential for self-support. In situations where, in the judgment of the county welfare agency, additional time would enable the business to show a profit, the period may be extended up to 12 months.

2. Business already established: A business which is already established (that is, in operation for at least 36 months) and which shows only marginal profit, either constant or intermittent, will be considered for purposes of this manual to be failing if the profit, averaged over the preceding 12 months, is less than \$375.00 per month.

Interested persons may present statements or arguments in writing relevant to the proposed action on or before October 27, 1976, to:

Division of Public Welfare
Box 1627
Trenton, N.J. 08625

The Department of Institutions and Agencies upon its own motion or at the instance of any interested party, may thereafter adopt these revisions substantially as proposed without further notice.

DIVISION OF YOUTH AND FAMILY SERVICES

Proposed Revision of Rules on Purchase From Private Adoption Agencies of Services

James G. Kagen, Director of the Division of Youth and Family Services in the Department of Institutions and Agencies, pursuant to authority of N.J.S.A. 30:4C-4 and 30:4C-26, proposes to delete in its entirety the current text of N.J.A.C. 10:120-2.1 concerning purchases from private adoption agencies of services for hard-to-place children.

The proposed action entails no substantive change in the Division's general policy to purchase adoption services for hard-to-place children from private agencies, where appropriate. The Division's policies and procedures governing this purchase activity are set forth in a standard form of contract, a copy of which may be obtained from the address indicated below.

Full text of the proposed revisions follows (additions indicated in boldface thus; deletions indicated in brackets [thus]):

10:120-2.1 [Purchase of services; hard-to-place children]
(Reserved)

(a) In accordance with statute N.J.S.A. 30:4C-4(g), (h), (i) and 30:4C-37, the following rules and regulations are established as a basis of payment for adoption services to privately sponsored agencies, which are approved for such purposes in accordance with the provisions of N.J.S.A. 9:3-17 et seq. or can demonstrate that they meet the standards of N.J.S.A. 9:3-17 et seq. for providing adoption services with respect to certain children identified below who are under the care, custody or guardianship of the Division of Youth and Family Services.

(b) Observance of these rules and regulations establishes a right to payment for services as limited below, but does not determine the amount of such payment with respect to a particular child or children.

(c) Adoption services, for purposes of these rules and regulations, are defined as those services essential during the period of supervision prior and post consummation of the adoption as required by law.

(d) The Division of Youth and Family Services will purchase such services only for those children under its immediate supervision who are determined by the Bureau of Resource Development to be "hard-to-place". The "hard-to-place" child is defined as any child whom the Division of Youth and Family Services has the statutory right and responsibility to place for adoption, who has been classified by the Bureau of Resource Development as available for adoption, for whom a suitable home has not been located within a reasonable period of time by the Bureau, and who is therefore referred for such services by listing on the adoption resource exchange.

(e) In order to be eligible to receive referrals of children for adoption services and to receive for such services whatever amount of payment may be otherwise authorized, an adoption agency shall demonstrate to the satisfaction of the Division of Youth and Family Services, through such methods and procedures as the Division may prescribe, that it complies with each of the following rules and regulations, which shall be interpreted as constituting minimum standards only:

1. Placement procedure:

i. The placing agency shall provide the Division of Youth and Family Services with the name and address of the family being considered for placement of the child and provide any other information deemed necessary by the Division;

ii. Both the placing agency and the Division of Youth and Family Services must agree on the placement selected for the child being placed for adoption.

2. Agency policy and practice:

i. The placing agency shall, through policy and practice, provide service to children, natural parents and adoptive parents without regard to race, color or national origin;

ii. The placing agency shall demonstrate a willingness to review, evaluate, expand and change, as necessary, its policies, practices and services in accordance with community needs;

iii. The placing agency shall demonstrate, through its policies and practices, a willingness to cooperate with other approved agencies to assure that all clients in need receive service. This shall include, but shall not be limited to, the study of homes for children not under the agency's

care and the sharing of all information, with the client's permission, where appropriate.

3. Accountability:

i. The placing agency shall maintain records on each child and family and shall furnish such records on reports on the child's adjustment and progress or on other factors as the Division of Youth and Family Services may require;

ii. When and as required by the Division of Youth and Family Services, all data relating to costs of the placing agency operations shall be made available to the Division or its authorized representative;

iii. Payments by the Division shall not exceed the net cost of providing the service by the placing agency. The adoptive applicant shall be informed of the agency's cost of service and how it is met.

4. Payment for service: The Division of Youth and Family Services will establish the rate of payment based on the actual cost of each case not to exceed the average cost to the Division of maintaining a child in foster care for one year. Payment for service shall be made in accordance with policies and procedures established by the Division of Youth and Family Services which shall provide for partial payment at the time of the placement and final payment after the adoption is granted. R.1976 d.31, eff. January 30, 1976. See: 8 N.J.R. 36(b), 8 N.J.R. 123(a).]

THE COMMISSIONER

Proposed Revisions Concerning Auto Physical Damage Claims

James J. Sheeran, Commissioner of Insurance, pursuant to authority of N.J.S.A. 17:1-8.1, 17:1C-6(e) and 17:29B-1

et seq., proposes to revise a portion of the rules on auto physical damage claims.

Full text of the proposed revisions follows (additions indicated in boldface thus; deletions indicated in brackets [thus]):

11:3-10.4(d) In the event of a total loss, any parts of the insured vehicle included in its valuation which are removed by the insured or the designated representative shall have their value deducted from the final settlement figure. **This Section shall not be construed to grant a right of removal.**

11:3-10.4(g) [If the insurer, in the process of adjusting a total loss makes a deduction for the salvage value of the insured vehicle, the insurer must furnish the insured with the name and address of a salvage dealer who will purchase the salvage for the amount deducted.] **If the vehicle is a total loss, the insurer may require that the insured transfer ownership of the vehicle to recoup salvage as a condition of settlement.**

Interested persons may present statements or arguments in writing relevant to the proposed amended rule on or before November 1, 1976, to:

Naomi LaBastille, Hearing Officer
Department of Insurance
201 East State Street
Trenton, New Jersey 08625

The Department of Insurance, upon its own motion or at the instance of any interested party, may thereafter adopt these revisions substantially as proposed without further notice.

Proposed Amendment for Private Employment Agencies' Contract Forms

William F. Hyland, Attorney General of the State of New Jersey, pursuant to authority of N.J.S.A. 34:8-36, proposes to amend the current text of N.J.A.C. 12:55-2.4, concerning private employment agencies' contract forms.

Take notice that the rules on private employment agencies are currently cited as N.J.A.C. 12:55-1.1 et seq. in the New Jersey Administrative Code. Since N.J.S.A. 52:17B-139.1 et seq. transferred the power over private employment agencies from the Department of Labor and Industry to the Department of Law and Public Safety and specifically to the Division of Consumer Affairs, the rules on private employment agencies will be recodified and will be cited as N.J.A.C. 13:45B-1.1 et seq.

Full text of the proposed amendment follows (additions indicated in boldface thus; deletions indicated in brackets [thus]):

[12:55-2.4] 13:45B-2.4 Contract forms

(a) Whenever it is reasonably possible, contracts between agencies and employees shall be on standard forms and copies of such forms shall be filed with the Commissioner before same are used.

(b) The fact that the Commissioner has not notified an agency or a licensee that a contract written and executed on a form such as is filed with the Commissioner is a violation of N.J.S.A. 34:8-33, shall not excuse or condone such violation.

(c) A true and complete copy of any contract and any other paper signed by an applicant for employment shall be provided to such applicant by the employment agency at the time such contract or paper is signed.

Interested persons may present statements or arguments in writing relevant to the proposed amendments on or before October 31, 1976, to:

Virginia Long, Director
Division of Consumer Affairs
1100 Raymond Boulevard
Newark, New Jersey 07102

The Attorney General of New Jersey, upon his own motion or at the instance of any interested party, may thereafter adopt these amendments substantially as proposed without further notice.

Full text of the Notice follows:

1. Take notice that the Office of Cable Television hereby requests comments, pursuant to N.J.S.A. 48:5A-1 et seq., regarding the practices and operations of CATV companies under the provisions of Sections 20 and 21. The Federal Communications Commission in Memorandum Opinion and Order in Docket 16928, et al, FCC 76-636, released July 8, 1976, has concluded that it lacks sufficient jurisdiction to deal with policies and practices involving pole rental charges to cable television operators. However, noting the importance of this area, the Commission has ordered a study of relevant jurisdictional and economic issues.

In addition, Chairman Richard E. Wiley expressed an opinion that state utilities commissions ". . . are closer to this problem, more familiar with the local vagaries of pole construction and costs and possess a long-standing

regulatory nexus over the utility companies. Their expertise and judgment would be of great benefit in resolving the issues involved in pole rental relationships". Memorandum, supra.

As both utilities and cable television companies are regulated in this State by a common Department, it is the opinion of this office that this inquiry would provide valuable assistance in the above-mentioned Federal Communications Commission study, as well as assisting the office in the discharge of its responsibilities under Sections 20 and 21 of the Act. The office is therefore interested in obtaining comments regarding those contracts commonly known as pole, trench and conduit agreements.

2. Cable television companies, utilities and other interested parties are hereby requested to submit appropriate comments with respect to the areas itemized below or additional areas regarded as appropriate within the scope of this inquiry.

1. The development of these agreements and of the basis for rates and charges included therein.

2. The problems dealt with in implementing such agreements.

3. Problems and liabilities involved in restoration and maintenance of service.

4. Considerations involved in the determination of the terms and conditions included in such agreements.

5. Should the office establish a suggested formula to be utilized in arriving at pole attachment or trench and conduit rental charges? What considerations and criteria should be taken into account in the event such a formula is adopted?

3. Appropriate Federal, State, and local governmental bodies or entities, as well as interested groups or individuals, are invited to participate. All comments are due by November 9, 1976, and should be forwarded to 101 Commerce Street, Newark, New Jersey 07102.

This Notice is published as a matter of public information, is not subject to codification and will not appear in Title 14 of the New Jersey Administrative Code.

Proposed Amendments on Tariff Filings

John P. Cleary, Director of the Office of Cable Television in the Department of Public Utilities, pursuant to authority of N.J.S.A. 48:5A-10(b) and 48:5A-11, proposes to amend N.J.A.C. 14:17-6.16 and 14:17-6.17 concerning all tariff filings by cable television companies.

An initial Notice of Proposal on this general subject was published April 10, 1975, at 7 N.J.R. 172(a).

The basic concept of this proposal is that of a "common tariff" for cable television systems. The major components of this common tariff and rate making process would include:

1. A classification of cable television systems to reflect important differences in market, construction, and service characteristics;

2. A structure of maximum rates allowable for each of the different classes based on average investment and expense levels;

3. An abbreviated regulatory procedure to allow rate change flexibility within the limits of the maximum rate structure;

4. An option for cable systems to be regulated on an individual basis apart from the common tariff; and

5. Periodic public hearings to be held on nonrate matters throughout New Jersey, and public rate hearings to be held whenever changes are to be made in the common tariff rate levels.

Copies of the full text of this proposed amendment and other comments filed pursuant to this matter (Docket Number 753C-6086) may be obtained from:

Office of Cable Television
Room 205
101 Commerce Street
Newark, N.J. 07102

Public hearings on the proposed action will be held November 16, 1976, at 10:00 A.M. in the Office of Cable Television, Room 205, 101 Commerce Street, Newark, N.J.

Interested persons may present statements or arguments in writing relevant to the proposed action on or before November 8, 1976, to the Office of Cable Television at the above address.

The Director of the Office of Cable Television, with the approval of the Board of Public Utility Commissioners, upon his own motion or at the instance of any interested party, may thereafter adopt these amendments substantially as proposed without further notice.

STATE

SECRETARY OF STATE

Proposed Rules on All Election District Maps

J. Edward Crabiel, Secretary of State, pursuant to authority of Section 7, P.L. 1976 c. 83, proposes to adopt new rules concerning election district maps of counties and municipalities in the State of New Jersey. The proposed rules, if adopted, are intended to become effective on January 1, 1977.

Full text of the proposed rules follows:

SUBCHAPTER 3. ELECTION DISTRICT MAPS

15:10-3.1 General provisions

(a) The county board of elections shall cause to have prepared an up-to-date map of the county and of each constituent municipality clearly delineating the boundary of each election district (established in conformance with P.L. 1976, C. 83) contained therein and of the ward, legislative district, freeholder district and Congressional district or part thereof in which each election district is contained. A word description of said boundaries shall be attached to each such map.

(b) The county board of elections shall file three copies of such maps and descriptions with the Secretary of State as soon as practicable but no later than February 15, 1977. One copy of each such map and description shall also be filed with the county clerk and with the clerk of each constituent municipality. Within 30 days of any changes in the boundaries of any of the aforementioned

districts, the county board of elections shall file revised maps and descriptions in the same manner.

(c) Election district boundaries shall follow visible, easily recognized features (for example, streets, railroad tracks, drainage features such as streams, creeks and lakes, and topographical features such as ridges) which are indicated on the map.

(d) Election district boundaries shall be drawn in red. Where the boundary of an election district and the boundary of a municipality or a county are the same, the common boundary shall be shown as a single green line.

(e) Where the election district boundary coincides with a county or municipal boundary which does not follow a physical feature, the first address number (in rural areas, the first rural route box number) on either side of the boundary shall be listed on the map next to the boundary. If there are no address numbers or box numbers near the respective sides, both sides shall be marked with a zero.

(f) The number of each election district shall be clearly shown in red within its boundaries.

(g) The accuracy of the election district boundaries shall be certified on each map sheet by the county board of elections, or by its designated agent, as follows: "I certify that, to the best of my knowledge, the election district boundaries shown on this map are those legally in effect and are accurate as of this date". This statement shall be signed and dated, and the title of the signer shall be indicated.

(h) No election district shall be divided during the period commencing 75 days before the primary or the general election. No election districts shall, except with the prior approval of the Secretary of State, be created, abolished, divided or consolidated between January 1 of any year whose last digit is seven and December 1 of any year whose last digit is zero.

15:10-3.2 Maps of counties

(a) The county map shall clearly delineate the boundaries of the constituent municipalities.

(b) The size of the map shall conform to the provisions of N.J.S.A. 46:23-9.11(b). These maps shall be one of four standard sizes; namely: 8½ inches by 13 inches, 30 inches by 42 inches, 24 inches by 36 inches or 15 inches by 21 inches as measured from cutting edges. The scale of the map shall be clearly indicated on the map. The date (month/year) of the map shall be indicated. If the map has been updated, the date (month/year) shall be shown.

15:10-3.3 Maps of municipalities

(a) A separate map of each constituent municipality, identifying and delineating each constituent election district, shall be prepared.

(b) Wherever practicable, the municipal map shall not exceed 30 inches by 42 inches. The scale shall not be so small that the information on the map is difficult to read. The scale should generally range between one inch = 800 feet and one inch = 1,600 feet. The scale shall be clearly indicated on the map. Each municipal map shall, wherever practicable, be composed of one sheet and, where not practicable, of a series of sheets, in which event all maps of a series shall be of the same scale.

(c) Maps shall include all existing roads and streets. "Paper" or undeveloped streets or roads (that is, those for which no scraping or road bed has been taken) shall not be shown. Railroad tracks and major drainage features (for example, rivers, creeks, lakes) shall be shown, and the names of such features shall be indicated.

(d) Other features or symbols (for example, churches,

schools, factories, underground utility lines, land use and zoning symbols or shadings, symbols for vegetation cover, topographic contour lines, and similar items that obscure the basic street and road pattern and names) shall be excluded. All features, names, titles and symbols shall be clearly shown and legible.

(e) The current municipal boundary shall be shown. Where said boundary and the election district boundary coincide, the mutual boundary shall be shown as a single green line; where they do not, the election district boundary shall be shown as a single red line.

(f) The effective date (date/month/year) of the current municipal boundary, if different from that in effect on January 1, 1970, shall be specified on the map.

(g) The boundaries of Congressional districts shall be shown by a thin broken yellow line drawn adjacent to the election district boundary line. The boundaries of State legislative districts shall be shown by a thin broken blue line drawn adjacent to the election district boundary line. The boundaries of county freeholder districts, where such freeholder districts are established, shall be shown by a thin broken brown line drawn adjacent to the election district boundary.

Interested persons may present statements or arguments in writing relevant to the proposed action on or before October 27, 1976, to:

J. Edward Crabiel
Secretary of State
State House
Trenton, N.J. 08625

The Department of State, upon its own motion or at the instance of any interested party, may thereafter adopt these rules substantially as proposed without further notice.

DIVISION OF PENSIONS

Proposed Rules for Pensioners' Group Health Insurance Plan

The Division of Pensions in the Department of the Treasury, pursuant to authority of N.J.S.A. 52:18A-95 et seq., proposes to adopt new rules and amend other rules concerning the Pensioners' Group Health Insurance Plan.

Full text of the proposed amendments and rules follows (additions indicated in boldface thus):

17:1-1.21 Discontinuance of allowance; Pensioners' Group Health Insurance Plan

(a) In the event a retirant, beneficiary or their designated representative fails to furnish, within a five-month period, the information requested by the Division to pay an allowance, a final request will be sent by certified mail advising him that if the information is not received within one month, the monthly benefit and all deductions from such benefit will be suspended until the requested information is received.

(b) A retirant's or beneficiary's coverage in the Pensioners' Group Health Insurance Plan may be terminated upon the discontinuance of his allowance as set forth in subsection (a) of this Section or in cases of possible incompetency, change of guardian, or other arrangements which may temporarily cause the suspension of the payment. Upon the reinstatement of the individual's retirement allowance, his health insurance may be resumed and may be made retroactive.

17:1-1.22 Disability earnings; Pensioners' Group Health Insurance Plan

A retirant, whose disability retirement allowance has been suspended as his income subsequent to retirement exceeded the limits established by law, shall have his health insurance coverage terminated upon the suspension of his allowance. Upon the reinstatement of the individual's allowance, his coverage will resume on a prospective basis only.

17:1-1.23 Beneficiary or survivor; Pensioners' Group Health Insurance Plan

An eligible beneficiary or survivor will have their coverage discontinued upon the death of the retirant but will be given the opportunity to continue coverage on a prospective basis only, once they have filed proper applications for pensions. Coverage may be made retroactive for as much as six months provided the necessary premiums are paid. Any request for retroactive coverage in excess of six months shall be submitted to the Director.

Interested persons may present statements or arguments in writing relevant to the proposed action on or before October 27, 1976, to:

Division of Pensions
Department of the Treasury
20 West Front Street
Trenton, N.J. 08625

The Department of the Treasury, upon its own motion or at the instance of any interested party, may thereafter adopt these amendments and rules substantially as proposed without further notice.

DIVISION OF PURCHASE AND PROPERTY

Proposed Rules on Debarment, Suspension And Disqualification of Persons

Clifford A. Goldman, Deputy State Treasurer, pursuant to authority of Executive Order No. 34, proposes to adopt new rules concerning the debarment, suspension and disqualification of person(s).

Full text of the proposed rules follows:

SUBCHAPTER 7. DEBARMENT, SUSPENSION AND DISQUALIFICATION OF A PERSON(S)

17:12-7.1 Definitions

The following words and terms, when used in this Subchapter, shall have the following meanings, unless the context clearly indicates otherwise.

"Affiliates" means persons having a relationship such that any one of them directly or indirectly controls or has the power to control another.

"Debarment" means an exclusion from Division of Purchase and Property (P and P) contracting, on the basis of a lack of responsibility evidenced by an offense, failure, or inadequacy of performance, for a reasonable period of time commensurate with the seriousness of the offense, failure, or inadequacy of performance.

"Disqualification" means a debarment or a suspension which denies or revokes a qualification to bid or otherwise engage in P and P contracting which has been granted or applied for pursuant to statute, or rules and regulations.

"P and P contracting" means any arrangement giving rise to an obligation to supply anything or perform any service for P and P, other than by virtue of State employment, or to supply anything to or perform any service for a private or public person where P and P provides substantial financial assistance and retains the right to approve or disapprove the nature or quality of the goods or services or the persons who may supply or perform the same.

"Person" means any natural person, company, firm, association, corporation, or other entity.

"Suspension" means an exclusion from P and P contracting for a temporary period of time, pending the completion of an investigation or legal proceedings.

17:12-7.2 Causes for debarment of a person(s)

(a) In the public interest, P and P shall debar a person for any of the following causes:

1. Commission of a criminal offense as an incident to obtaining or attempting to obtain a public or private contract, or subcontract thereunder, or in the performance of such contract or subcontract;

2. Violation of the Federal Organized Crime Control Act of 1970, or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, perjury, false swearing, receiving stolen property, obstruction of justice, or any other offense indicating a lack of business integrity or honesty;

3. Violation of the Federal or State Antitrust Statutes, or of the Federal Anti-Kickback Act (18 U.S.C. 874, 40 U.S.C. 276 b, c);

4. Violation of any laws governing the conduct of elections of the Federal Government, State of New Jersey or of its political subdivisions;

5. Violation of the "Law Against Discrimination" (P.L. 1945, c. 169, N.J.S.A. 10:5-1 et seq, as supplemented by P.L. 1975, c. 127), or of the act banning discrimination in public works employment (N.J.S.A. 10:2-1 et seq) or of the act prohibiting discrimination by industries engaged in defense work in the employment of persons therein (c. 114, L. 1942, N.J.S.A. 10:1-10 et seq);

6. Violation of any laws governing hours of labor, minimum wage standards, prevailing wage standards, discrimination in wages, or child labor;

7. Violation of any laws governing the conduct of occupations or professions or regulated industries;

8. Violation of any laws which may bear upon a lack of responsibility or moral integrity;

9. Willful failure to perform in accordance with contract specifications or within contractual time limits;

10. A record of failure to perform or of unsatisfactory performance in accordance with the terms of one or more contracts, provided that such failure or unsatisfactory performance has occurred within a reasonable time preceding the determination to debar and was caused by acts within the control of the person debarred;

11. Violation of contractual or statutory provisions regulating contingent fees;

12. Any other cause affecting responsibility as a State contractor of such serious and compelling nature as may be determined by P and P to warrant debarment, including such conduct as may be prescribed by the laws or contracts enumerated in this paragraph even if such conduct has not been or may not be prosecuted as violations of such laws or contracts.

13. Debarment by some other department or agency in the Executive Branch.

17:12-7.3 Conditions affecting the debarment of a person(s)

(a) The following conditions shall apply concerning debarment:

1. Debarment shall be made only upon approval of the Director, Division of Purchase and Property, except as otherwise provided by law.

2. The existence of any of the causes set forth in N.J.A.C. 17:12-7.2 shall not necessarily require that a person be debarred. In each instance, the decision to debar shall be made within the discretion of the Director, P and P, unless otherwise required by law, and shall be rendered in the best interests of the State.

3. All mitigating factors shall be considered in determining the seriousness of the offense, failure or inadequacy of performance and in deciding whether debarment is warranted.

4. The existence of a cause set forth in N.J.A.C. 17:12-7.2(a) 1 through 8 shall be established upon the rendering of a final judgment or conviction including a guilty plea or a plea of nolo contendere by a court of competent jurisdiction or by an administrative agency empowered to render such judgment. In the event an appeal taken from such judgment or conviction results in reversal thereof, the debarment shall be removed upon the request of the debarred person unless other cause for debarment exists.

5. The existence of a cause set forth in N.J.A.C. 17:12-7.2(a) 9 through 12 shall be established by evidence which P and P determines to be clear and convincing in nature.

6. Debarment for the cause set forth in N.J.A.C. 17:12-7.2(a) 13 shall be proper, provided that one of the causes set forth in N.J.A.C. 17:12-7.2(a) 1 through 12 was the basis for debarment by the original debarring agency. Such debarment may be based entirely on the record of

facts obtained by the original debarment agency, or upon a combination of such facts and additional facts.

17:12-7.4 Procedures, period of debarment and scope of debarment affecting the debarment of a person(s)

(a) The procedures, the period of debarment, and the scope of debarment to be followed by P and P are explained below:

1. P and P seeking to debar a person or his affiliates shall furnish such party with a written notice stating that debarment is being considered; setting forth the reasons for the proposed debarment; and indicating that such party will be afforded an opportunity for a hearing if he so requests within a stated period of time. All such hearings shall be conducted in accordance with the provisions of the Administrative Procedures Act. However, where another department or agency has imposed debarment upon a party, P and P may also impose a similar debarment without affording an opportunity for a hearing, provided that P and P furnishes notice of the proposed similar debarment to that party, and affords that party an opportunity to present information in his behalf to explain why the proposed similar debarment should not be imposed in whole or in part.

2. Debarment shall be for a reasonable, definitely stated period of time which as a general rule shall not exceed five years. Debarment for an additional period shall be permitted provided that notice thereof is furnished and the party is accorded an opportunity to present information in his behalf to explain why the additional period of debarment should not be imposed.

3. Except as otherwise provided by law, a debarment may be removed or the period thereof may be reduced in the discretion of P and P upon the submission of a good faith application under oath, supported by documentary evidence, setting forth substantial and appropriate grounds for the granting of relief, such as newly discovered material evidence, reversal of a conviction or judgment, actual change of ownership management or control, or the elimination of the causes for which the debarment was imposed.

4. A debarment may include all known affiliates of a person, provided that each decision to include an affiliate is made on a case-by-case basis after giving due regard to all relevant facts and circumstances. The offense, failure or inadequacy of performance of an individual may be imputed to a person with whom he is affiliated, where such conduct was accomplished within the course of his official duty or was effected by him with the knowledge or approval of such person.

17:12-7.5 Causes for suspension of a person(s)

(a) In the public interest, P and P shall suspend a person for any cause specified in N.J.A.C. 17:12-7.2 or upon adequate evidence that such cause exists.

17:12-7.6 Conditions for suspension of a person(s)

(a) The following conditions concerning suspension are to be adhered to:

1. Suspension shall be imposed only upon approval of the Director of P and P and upon approval of the Attorney General, or his designee, except as otherwise provided by law.

2. The existence of any cause for suspension shall not require that a suspension be imposed, and a decision to suspend shall be made at the discretion of the Director of P and P and of the Attorney General or his designee and shall be rendered in the best interests of the State.

3. Suspension shall not be based upon unsupported ac-

cusation, but upon adequate evidence that cause exists or upon evidence adequate to create a reasonable suspicion that cause exists.

4. In assessing whether adequate evidence exists, consideration shall be given to the amount of credible evidence which is available, to the existence or absence of corroboration as to important allegations, and to inferences which may properly be drawn from the existence or absence of affirmative facts.

5. Reasonable suspicion of the existence of a cause described in N.J.A.C. 17:12-7.2(a) 1 through 8 may be established by the rendering of a final judgment or conviction by a court or administrative agency of competent jurisdiction, by grand jury indictment, or by evidence that such violations of civil or criminal law did in fact occur.

6. A suspension invoked by another agency for any of the causes described in N.J.A.C. 17:12-7.2 may be the basis for the imposition of a concurrent suspension by P and P which may impose such suspension without the approval of the Attorney General or his designee.

17:12-7.7 Procedures, period of suspension and scope of suspension affecting

(a) The following provisions regarding procedures, period of suspension and scope of suspension shall be adhered to by P and P:

1. P and P may suspend a person or his affiliates, provided that within ten days after the effective date of the suspension, P and P provides such party with a written notice:

i. Stating that a suspension has been imposed and its effective date;

ii. Setting forth the reasons for the suspension to the extent that the Attorney General or his designee determines that such reasons may be properly disclosed;

iii. Stating that the suspension is for a temporary period pending the completion of an investigation and such legal proceedings as may ensue; and

iv. Indicating that, if such legal proceedings are not commenced or the suspension removed within 60 days of the date of such notice, the party will be given either a statement of the reasons for the suspension and an opportunity for a hearing if he so requests, or a statement declining to give such reasons and setting forth P and P's position regarding the continuation of the suspension. Where a suspension by another agency has been the basis for suspension by P and P, the latter shall note the fact as a reason for its suspension.

2. A suspension shall not continue beyond 18 months from its effective date unless civil or criminal action regarding the alleged violation shall have been initiated within that period, or unless debarment action has been commenced. Whenever prosecution or debarment action has been initiated, the suspension may continue until the legal proceedings are completed.

3. A suspension may include all known affiliates of a person, provided that each decision to include an affiliate is made on a case-by-case basis after giving due regard to all relevant facts and circumstances. The offense, failure or inadequacy of performance of an individual may be imputed to a person with whom he is affiliated, where such conduct was accomplished within the course of his official duty or was effectuated by him with the knowledge or approval of such person.

17:12-7.8 The extent of debarment, suspension or disqualification

The exclusion from State contracting by virtue of debarment, suspension, or disqualification shall extend to

all State contracting and subcontracting within the control or jurisdiction of P and P including any contracts which utilize State funds. When it is determined by the Director of P and P to be essential to the public interest, an exception from total exclusion may be made with respect to a particular State contract. A copy of said exception shall be filed with the Attorney General or his designee.

17:12-7.9 Prior notice by P and P

Insofar as practicable, prior notice of any proposed debarment or suspension shall be given to the Attorney General, or his designee, and the Treasurer.

17:12-7.10 List of debarred, suspended or disqualified persons

P and P shall supply to the State Treasurer a monthly list of all persons having been debarred, suspended, or disqualified in accordance with the procedures prescribed herein. Such list shall at all times be available for public inspection.

17:12-7.11 Director's authority to contract

Nothing contained herein shall be construed to limit the authority of the Director of P and P to refrain from contracting within the discretion allowed by law.

Note: It is the intention of the Department of the Treasury, that the foregoing shall supersede 17:12-3.14 of this Code.

Interested persons may present statements or arguments in writing relevant to the proposed action on or before October 27, 1976, to:

STATE NEWS OF PUBLIC INTEREST

Based on press releases from offices involved

FIRST PLANT WILL CONVERT

SEWAGE SLUDGE INTO COMPOST

Governor Brendan Byrne recently announced a significant agreement with Camden Mayor Angelo Errichetti to replace within 18 months that city's ocean dumping of sewage sludge by use of the first sludge composting project in New Jersey.

The full-scale pilot project will adapt techniques pioneered by Cook College of Rutgers University and recently demonstrated at the U.S. Department of Agriculture's experiment station in Beltsville, Md.

"The Camden project begins New Jersey's drive to end pollution of the sea", Byrne said. "The Atlantic Ocean and our magnificent beaches are far too important to our environment — aesthetically and economically — to continue dumping as we have for far too long".

The Governor acted after Environmental Protection Commissioner David J. Bardin reported that composting of sewage sludge that is relatively free of toxic industrial residues offers an attractive alternative to ocean dumping or incineration.

"The capital investment requirements for composting are far lower than the alternatives of incineration or pyrolysis (self-sustaining combustion), as are the fuel needs to operate the compost system", Bardin said.

"The heat released as a result of the composting process itself in effect pasteurizes the sludge and destroys almost all bacteria and viruses. Moreover, composting represents a new effort for resource recovery".

The Camden project will cost an estimated \$1.5 million. The city and D.E.P. are preparing an application to EPA Region II for 75 per cent of the cost, the remainder to be furnished by the city.

Byrne also directed D.E.P. to achieve widespread application in the State of the composting alternative for sewage sludge disposal. He called on D.E.P. to develop uses for the compost for covering landfills, sod farms, parks and other recreation areas.

GOVERNOR BACKS NEED FOR WATER, INSTITUTIONS AND HOUSING BOND ISSUES

Asking for an affirmative vote on the three bond issues appearing on the November ballot, Gov. Brendan Byrne issued the following statement on the background and need for these State capital expenditures:

Until this year, New Jersey has never had an adequate system for capital construction planning and budgeting. This problem was underscored by the MacNaughton Commission, which led to creation of the Capital Planning and Budgeting Commission chaired by my distinguished predecessor, Gov. William T. Cahill.

The Capital Planning and Budgeting Commission conducted an intensive review of New Jersey's capital needs, taking special note of the public's reaction toward bond issues in recent years which rejected all but the most essential public construction projects.

The recommendations of the Commission withstood vigorous debate in the Legislature, which has passed bills authorizing the following public referenda for a vote in the Nov. 2 election:

- \$125 million for water supply and waste water treatment facilities.

- \$80 million for the construction and rehabilitation of our hospital, mental and correctional institutions.

- \$25 million for the construction and rehabilitation of housing and for mortgage assistance to senior citizens and families of low and moderate incomes.

The Cahill Commission has recommended that the three bond issue bills be signed and the public questions placed on the November ballot. I concur with that recommendation.

The need for public capital investment in New Jersey is clearly enormous. It can no longer be neglected without exposing the people of our State to far greater costs in the future.

The projects addressed by the bond program are long overdue, have been carefully planned, and have survived unprecedented review. They are needed now.

I am confident that the voters will consider the merits of these proposals and will concur in that judgment.

LISTING OF ACCEPTANCE DATES

BY STATE BUILDING DIVISION

Monthly listings of "final completion" dates on State projects were issued by the Division of Building and Construction, Department of the Treasury.

By statute, a subcontractor or material supplier must file a claim with the contractor's surety at any time during the contract, but not later than 80 days after the date of "final completion" and acceptance of the project by the State, or be forever barred against the surety. The creditor's right against the contractor directly is not affected, however, by this statute.

Listed below for the period August 17, 1976 to September 13, 1976 are project numbers, description, location, acceptance date, the contractor and the trade:

1371, Jersey City State College, new tennis courts, 9/10/76, Valley Paving Co., general contracting.

FIVE BICENTENNIAL PROJECTS ARE NATIONALLY RECOGNIZED

Five projects in New Jersey have received national recognition as examples of community problem-solving under the U.S. Bicentennial "Horizons on Display" program.

The projects honored are in Paterson, Hoboken, Newark, Camden and Margate City, according to Governor Brendan Byrne. "We are very pleased that national attention will be focused during this bicentennial year on five positive examples of community-based action in our State," the Governor said.

The "Horizons on Display" program is an effort to stimulate national dialogue on community development. The ten areas for recognition are: citizen participation, communications, community development, economic development, the environment, health, human values and understanding, learning, leisure and transportation.

For the five New Jersey projects, the comments by the national judges were:

Paterson—The Dale Avenue Early Childhood Project. "A program which assesses student needs, develops a performance objective curriculum based on the needs and uses these performance objectives as the framework for individualizing and grouping for instruction. Children who were scoring well below national norms on entering reached the national norm by the end of two years and maintained this norm through the fourth grade."

Hoboken—Home improvement project. "A focus on housing rehabilitation rather than new construction. Federal Model Cities Program funds were used initially to subsidize interest rates; the project exemplifies a number of cities' efforts to encourage locally sponsored housing improvements."

Newark—North Ward Educational and Cultural Center. "A neighborhood social services delivery organization providing programs ranging from early childhood development to senior citizen support. Its objective is the stabilization of the predominantly ethnic community of the North Ward."

Camden—Lindenwold Hi-Speed Transit. "Providing the fastest scheduled rail service in the world, 14.2 miles in 22.5 minutes. This commuter service demonstrates that technology and thoughtful design can make rapid transit an attractive alternative to the automobile."

Margate City—Lucy. "Community development and historic preservation. Involved citizens restored an architectural folly—a huge elephant. 'Lucy' is used as a museum and children's library."

MUNICIPAL BOND INSURANCE

NOW AVAILABLE IN STATE

State Insurance Commissioner James J. Sheeran announced that he has approved the writing of municipal bond insurance by an association of four major companies.

Municipal bond insurance, which is being introduced in New Jersey for the first time, guarantees the payment of principal and interest to bondholders, and is expected to improve the marketability of issues that would otherwise be low-rated.

The four companies comprising the Municipal Bond Insurance Association, whose certificates of authority have been amended by Commissioner Sheeran to permit the sale of municipal bond insurance, are the Aetna Casualty and Surety Company of Hartford, the Aetna Insurance Company of Hartford, the St. Paul Fire and Marine Insurance Company of St. Paul, Minn. and the United States Fire Insurance Company of New York.

"The writing of this kind of insurance in New Jersey is in the public interest," Sheeran said. "Experience in the few other states in which it is already adopted demonstrates that municipalities and other government agencies issuing bonds are able to win a lower interest rate because of this insurance."

ALAMPI IN ANNUAL REPORT BOOSTS

NEED FOR RETENTION OF FARM LANDS

Secretary of Agriculture Phillip Alampi in his annual report before the recent State Agriculture Convention listed agriculture land retention and problems in the food processing industry as the two major issues facing agriculture in New Jersey.

Alampi stated that the land preservation demonstration project in Burlington County recently announced by Governor Brendan Byrne would test the concept of preserving agricultural lands through State purchase of development easements.

He said he hoped the project would lead to preservation of land in other areas of the State and make possible implementation of recommendations of the Blueprint Commission for permanent preservation of large areas of farm land in New Jersey.

Citing recent problems in the food processing industry, Alampi said, "I am firmly committed to preventing any further exodus of food processors from New Jersey".

A revamped Rural Advisory Council appointed by the Governor can be expected to help improve conditions in rural New Jersey, Alampi reported. With responsibility for studying and making recommendations on agricultural, economic and social problems, the Council may begin work on developing an agricultural plan for the State and coordinating programs designed to minimize the impact of urbanization on farming.

Alampi predicted that the volume of fresh products for export would increase in the year to come, and that California's plans to import Garden State blueberries would make this "an excellent new market for New Jersey's blueberry crop."

Regarding prices to dairy farmers, Alampi said the "outlook is much more favorable now than at this time last year". He reported that milk sales were strong and that New Jersey consumers continue to enjoy some of the lowest milk prices in the nation as a result of the Agriculture Department's milk price control program.

EDUCATION ADVISORY COUNCIL FORMED

State Education Commissioner Fred G. Burke announced the appointment of 26 persons to the Commissioner's Advisory Council. Required by Federal law, it will consolidate the functions of advisory groups serving two existing programs and the new consolidated legislation program under P.L. 93-380, Title IV.

Robert Lachenauer, deputy superintendent of schools in New Providence, will serve as chairman.

The Council will advise the Commission regarding the criteria for selection of programs under the legislation, handle the dissemination of results of evaluations to school districts and other states, assist in the adoption of innovative programs by other districts, and advise and assist in the development and implementation of the Federally-required State plan.

Aim of the consolidation of Federal programs is to provide better service to local school districts by bringing together funding sources. Existing programs will be phased into the consolidation.

**119,290 NEW VOTERS REGISTER
—MOST BY USING MAIL FORM;
HALF AS MANY ARE SCRATCHED**

An additional 119,290 New Jersey residents registered to vote between April 1 and July 31, with more than half of them using the new mail registration form.

Governor Brendan Byrne released an interim report submitted to him by Secretary of State J. Edward Crabiel which noted that over the same four months that the 119,290 were enrolled, 54,215 other persons were removed from the rolls for failing to vote in any election for four years in a row.

Registration deadline in order to vote on Nov. 2 passed as of Oct. 4, four weeks prior to election.

The net gain of 55,075 new registrants—with two more months still to come—had raised New Jersey's total registration as of July 31 to more than 3.5 million voters, Crabiel estimated.

Bergen County paced the State in new registrants during the four months with 12,369 new voters. Next was Essex with 10,272; Middlesex was third with 9,038; and low among the 21 counties was Salem, 951.

Along with the report on the voting drive begun in March, the Governor issued a proclamation which designated the three weeks prior to the closing of voter lists as Voter Registration Weeks. Text follows:

"Whereas, voting, the most fundamental of all rights, protects and furthers the interests of all citizens; and

"Whereas, it is estimated that as many as 1,600,000 citizens of our State are deprived of their right to vote due to their failure to register; and

"Whereas, New Jersey is seeking to encourage citizens to register to vote through such programs as registration by mail, Dial-To-Vote, registration of high school students in the schools, and mobile and evening registration programs; and

"Whereas, government can best serve the will of the people through full public participation in the electoral process; and

"Whereas, one of the principles on which this nation was founded was the free exercise of the right to vote; and

"Whereas, as we celebrate the Bicentennial, a most appropriate way for citizens to mark our nation's 200th birthday would be to register and vote;

"Now, therefore, I, Brendan Byrne, Governor of the State of New Jersey, do hereby proclaim September 13 to October 3, 1976 as Voter Registration Weeks in New Jersey, and urge all citizens to register and vote and to encourage others to do so."

**INCOME TAX NOW SCHEDULED
TO "SELF DESTRUCT" IN 1978**

Governor Brendan Byrne last month signed into law a bill which establishes a two-year duration for the new State income tax. The measure, A-2136, provides that the tax will be repealed on June 30, 1978.

The income tax, key element in a school financing and tax reform package, became effective as of July 1, 1976, with first payments last month.

"This bill will give us a two-year period to see how the program works," Byrne said.

"I ask the people over the next two years to think of alternatives that will relieve the property tax burden

and finance the public schools in a constitutional manner," he said. "If there are alternatives, let's explore them."

"If the income tax ends in two years, it means we are either going to have another tax at the State level or the entire burden will go back to the property tax."

Byrne pointed out that the income tax makes New Jersey the only state to impose statutory spending limits at all levels of government. He emphasized that the tax does not provide any money for additional State spending, but will be used entirely for school financing, property tax relief and other tax reforms.
