The Honorable Thomas M. Madden, United States District Judge, administered the Oath of Office to the Speaker

Speaker Hyland on assuming the chair addressed the General Assembly as follows

For the first time since 1937, the Democratic Party is the majority party in the New Jersey Assembly. Its present representation of 42 seats out of a total of 60 has been exceeded only once in this century, and in the combined Senate and Assembly there are 21 more Democrats than Republicans.

To everyone dedicated to the advancement of the Democratic Party, these are exciting statistics. Perhaps they are as well a forecast of greater victories to come. But to those in the Party charged with the responsibilities of leadership, these are also sobering statistics because promises must now give way to performance and our criticisms shown to have been sincere.

In Governor Meyner's annual message this afternoon we will receive a number of proposals developed through the experience and thorough consideration of the Executive Department. Permit me to recommend that this message receive your earnest study in the early days of our session. It will provide an invaluable guide for legislative action in 1958. Other needs will be brought to our attention from a multitude of sources. However, the tendency to conclude that every dilemma of society can be overcome by the mere enactment of a new law must be vigorously resisted.

The substantive achievements of this Legislature are not to be measured solely by the quantity of its enactments. We should strive for quality and would do well to remember that the ultimate standard by which every proposal must be tested, even where the subject matter seemingly involves only a limited group, is its effect upon the general public interest.

One hesitates to suggest that there are degrees of importance to be attached to the work ahead of us. However, a most vital objective during this session will be the restoration of a vigorous two party system to the General Assembly. The crucial need for this is evident by contrasting the function of the parliamentary concept with the level to which it has descended in this State.

The most fundamental mechanism of Democracy is the legislative body, composed of representatives from every walk of life, freely chosen by the people. But in New Jersey we have seen participation by the minority throttled under an arbitrary system of unwritten rules and secret meetings. Often measures have been thus defeated although enjoying the support of a majority of the House.

This has given us only an illusion of Democracy and in time would destroy the confidence of our people in representative government. The new leadership of the House of Assembly, conscious of its 20 years as a repressed minority, is dedicated to the elimination of that system.

Throughout the course of this session, we invite the most critical scrutiny of our deliberations. Every effort will be made to encourage the interest of our citizens in those matters pending before us. Public hearings will be held where the need for the same is indicated and other opportunities will be available for meeting with the various committees.

We will inaugurate the use of a separate and more detailed Assembly budget, thereby improving control over legislative costs.

It should not be expected that such sweeping changes can be accomplished without mistakes being made. But the fear of making such mistakes will not discourage us, for we recognize that experimentation and innovation are the elements of which Progress is made.

All of the members of this House—in either party and from every county—can expect to receive from their presiding officer impartial treatment and recognition. Together we will enjoy a most stimulating experience, and one in which I am confident we will have the benefit of Divine guidance in the discharge of our duties.

Speaker Hyland announced his appointment of Robert E. Gladden as his secretary.

Mr. Kurtz offered the following resolution, which was read by the Clerk and adopted:

Be It Resolved That the Speaker appoint forthwith a committee of six to wait upon the Governor and inform him that the General Assembly has organized by the election of the Honorable William F. Hyland of Camden County as

INTER MUNICIPAL GROUP FOR BETTER RAIL SERVICE

January 11, 1958

General Assembly of New Jersey,
State House,
Trenton, New Jersey
Attention Clerk of the House
Gentlemen

The Inter Municipal Group for Better Rail Service was organized in 1945 and has since continuously represented its member municipalities now numbering seventeen and located in the counties of Union, Middlesex and Somerset. It is a member of the Joint Committee of Municipal Groups of Northern New Jersey whose prime interest is the rapid transit situation in Northern New Jersey.

The Group has directed that I forward to you the enclosed resolution adopted by it at a meeting held on December 27, 1957, with particular reference to that portion of the resolution regarding the solution of the rapid transit situation in Northern New Jersey. Since the adoption of this resolution the Metropolitan Rapid Transit Commission has issued its report, copies of which have been sent to all of the members of the Legislature.

I also enclose a copy of the statement made by me on September 10, 1957 on behalf of the Joint Committee at a hearing held by the Metropolitan Rapid Transit Commission.

You will note that both in my original statement and in the resolution, we concur with the final report of the Metropolitan Rapid Transit Commission insofar as the necessity of constructing a new loop system. We do not, however, agree that the system should be financed as suggested

therein and we further strongly believe that it is the function of the Port of New York Authority to undertake the construction of the facilities required and the operation thereof. The Compact of 1921 states that the Port Authority "shall constitute a Body, both corporate and politic, with full power and authority to purchase, construct, lease and/or operate any terminal or transportation facility" within the Port district. We realize that the Port Authority is much opposed to undertaking this project and has opposed such undertaking for many years. It is our firm belief that the states of New York and New Jersey working together can overcome all real and fancied obstacles and compel the Port Authority to undertake and complete this most vital link between the two states and that this can be done without intrusion upon the rights of the bond holders of Port Authority bonds.

Unless affirmative action is taken in the immediate future, then it is the feeling of our Group that the rapid transit situation in the Northern New Jersey Metropolitan area will steadily worsen and reach the point of no return as far as its revitalization and salvation is concerned.

We urge that your Body take affirmative action in this matter and without delay.

Respectfully yours,

AUGUSTUS S. DREIR

Mr. Kurtz moved that the communication be received and filed.

The following bills were introduced, were read for the first time by the title, and were referred to committee as follows:

Governor Robert B Meyner delivered his annual message to the Legislature

GOVERNOR'S MESSAGE

January 14, 1958

Mr President, Mr Speaker and members of the Senate and General Assembly

I come before you, the members of the 182nd Legislature, in accordance with my constitutional duty, to inform you of the condition of the State and to propose courses of action that will better enable New Jersey to meet the challenges of our times

Since I delivered my last annual message to you on January 8, 1957, there has been a change in the political composition of the Legislature. From the time of my inauguration on January 19, 1954, until the present, it has been my task to deal with a Legislature controlled overwhelmingly by members of the opposite political party.

But on November 5, 1957, the people elected a General Assembly which has a majority of my own party by a count of 42 to 18. Control of the Senate by the opposite party is held by a margin of 13 to 8 compared to 17 to 4 four years ago.

A HEAVIER RESPONSIBILITY

These changes can only mean that my party has been charged with a heavier responsibility for the conduct of the Legislature because the record of the 181st Legislature was an issue in last fall's campaign. In that campaign, I talked at length about the caucus system in both Houses, the legislative budget and the unending legislative year.

NEW ORDER OF BUSINESS

Now I am confident that the new Speaker and Majority Leader will act with all possible speed to institute a new order of business in the General Assembly and I trust that the Senate will do likewise.

The people, by electing a new majority in the General Assembly and reducing the old majority in the State Senate, are insisting on a more effective legislative performance. My party, I hope, will give it to them immediately in the General Assembly, and if its program is not accompanied by similar action in the Senate, the latter will be ignoring the temper of public opinion.

THE CAUCUS

For years I have been talking about the caucus, or, as it has been called, "basement government." Under the operation of the caucus, held in secret with both the press and the public barred, no measure could reach the floor of either House unless it was approved at these meetings.

In many cases, a measure which would definitely have commanded a majority for passage was throttled to death in caucus. The minority party members, the press and the public have been compelled to stand idly by while the Star Chambers were in session.

OPEN PROCESS

Meantime, the committee system, familiar to all people from its functioning in Congress, has been allowed to atrophy from disuse. Under that system, on important legislative issues, hearings are held at which all interested parties can state their case, after which measures go to the floor of both Houses for debate and final action. For the most part, the legislative process is and should be observable by the public in all its phases.

In that way, the minority can bring its influence to bear to prevent majority tyranny. In that way, the people of each county can learn of the way its Senator and Assembly men acted on specific measures.

CURE FOR DEMOCRATIC ILLS

I expect the caucus to be abandoned in this new General Assembly, and I trust it will also be eliminated in the State Senate. In both Houses, we should have a rejuvenation of the committee system, which has proved so valuable a democratic agent in Congress and in the legislatures of many states.

If and when this happens, New Jersey will discover the truth of the old saying that the cure for the ills of democracy is more democracy. If and when this happens, many measures that should have been passed long ago will be sped to action by the force of public opinion. Pitiless (or rewarding) publicity will shine down upon the character and actions of individual members, thus permitting voters to know them as they have not been able to know them before.

WHY A WINTER VACATION?

I have never been able to understand why the Legislature should take a winter vacation after the budget message is delivered in February, only a month after it convenes. Nor have I been able to understand why the Legislature should not set a specific term for the fulfillment of its duties—say a term of 60 or 90 days.

Such a specific term is required by the constitution or laws of various states. Voluntary action of both Houses could easily accomplish this aim, and I trust the action will be taken. The Legislature should make an intensive effort to get its work done and then adjourn.

BI PARTISAN CONFERENCE

I have long followed the practice of holding a bi partisan conference on the morning of every legislative day. At these meetings, I outline to the Senate President, the Assembly Speaker and the Majority and Minority Leaders of both Houses, the measures which I believe are needed, at the same time inviting the views of the conferees.

These meetings will be continued. Heretofore the legislative majority has been less than frank in outlining its own plans. I think there should be a freer exchange of views.

The practice of passing bills of doubtful constitutionality should be avoided. The Legislature has a responsibility equal to the courts and the Chief Executive in this regard.

GUIDE FOR THE FUTURE

In looking back to my annual message to the 181st Legislature, I find the following language "In November of this year (1957), there will be an election for Governor and for 70 of the 81 seats in the Legislature. Therefore, the eyes of the people will be fastened upon you, the Legislature, and upon me, the Governor, to scrutinize our behavior

"If we permit partisan politics to influence our judgment, if we permit ambitions to sway our actions, we will be judged accordingly. For myself, I promise to work with you in every way consistent with my convictions."

I believe these words remain full of meaning and that they can now be repeated for our mutual benefit, and as a guide for our future cooperation. They apply, of course, to members of both parties.

TWO BROAD CATEGORIES

Let me now proceed to outline some of the subjects on which the Legislature should take action in the coming months. As I see it, these subjects fall largely within two broad categories:

I To strengthen our resources as a State

II To strengthen our democratic processes

Many of these proposals have been given complete discussion in the past and do not need extended analysis here. As in the past, members of my Cabinet and my staff have been directed to provide any information needed to reach wise legislative decisions.

It is intended here not to compile an encyclopedia of State needs, but to deal with some of the major issues. From time to time, I will present to you additional subjects for legislative deliberation and action.

Before presenting the two broad categories of State needs, may I offer two subjects that require immediate action?

RENT CONTROL

1 It is urged that the rent control law, which expired December 31st following failure of the 181st Legislature to act, be immediately extended, retroactive to December 31st I am informed that some 17 communities, which have chosen to continue rent control, are affected, and much hardship will result if no action is taken

PAY CUT RESTORATION

2 Last year the Legislature while granting an across the board increase in the pay of State employees rejected the usual merit increment, as well as medical surgical benefits In the campaign, the subject became a matter of intense discussion and debate

I feel I am under mandate to propose to you that the usual merit increment be restored and medical surgical benefits granted I feel further that the traditional merit increase should be continued in the future If not a deadly blow will be leveled at the morale of the State employee as an individual and at the *esprit de corps* of the State service

FOR VITAL SERVICES

Other cuts were made in the budget last year which severely handicap various State departments particularly the Department of Institutions and Agencies If these departments are to function effectively until the end of the present fiscal year, supplemental appropriations should be authorized to repair the crippling cuts

A supplemental bill to provide the appropriations necessary for these purposes has been prepared and is ready for introduction today

I TO STRENGTHEN OUR RESOURCES AS A STATE WATER

We have made progress toward solving the immediate water problem of North Jersey by acquiring the site of Round Valley in Hunterdon County and by legislation authorizing that it be filled with water from the Raritan River

basin An appropriation of \$250 000 has been made for detailed engineering, appraisal and other costs to expedite the use of Round Valley

It has been proposed that a bond issue of some \$40,000, 000 be placed on the ballot next November for the first phase in the development of Raritan Valley water resources

But various other steps must be taken to complete the project The law requires a compensating flow in the south branch of the Raritan at three gauging stations To produce this flow, an on river dam must be built

SPRUCE RUN

I recommend that \$2,000,000 be appropriated to purchase the reservoir site at Spruce Run in Hunterdon County, providing the engineering report presently under way is favorable This amount could be returned out of the proposed bond issue, and the appropriation should so provide

COST OF TRANSMISSION

We must also decide how and by what agency Round Valley reservoir is to be built and how water is to be transmitted to communities in short supply We have the choice of having these tasks undertaken by the State, by an authority or by an existing agency

In addition to the reservoir cost of \$40,000,000, a nearly equal amount will be needed to build a purification system and to pipe the water to the east If transmission is to be handled by an authority or an existing agency, it may be desirable to pledge the State's credit to get the best terms in the money market, and to include that additional cost in the bond issue referendum

In considering these large expenditures for water storage and transmission, it should be borne in mind that the entire project eventually will be self liquidating through the sale of water

HIGHWAYS

We are one of 18 states which have fully matched in the fiscal year 1956 57 all Federal funds for interstate highways. But in doing so we have been compelled to neglect construction and improvement of highways which are the sole responsibility of the State, and upon which, to a large degree, depends the continuance of our present program of safety construction. There is a backlog of such projects of approximately \$70,000,000. We have also been obliged to forego advance acquisition of rights of way for future construction.

GAS TAX INCREASE

I must again point out the urgent need for an increase in the gasoline tax to take care of emergency highway requirements. We must keep abreast of the Federal highway program by which New Jersey, on interstate defense freeways receives \$90 for every \$10 it contributes, as well as 50 50 contributions for other roads. We must also provide adequately for State construction and improvement where no Federal funds are forthcoming.

EDUCATION

1 Our needs for higher education have just been set forth by the State Board of Education in a report to the Governor and the Legislature entitled "College Opportunity in New Jersey." This report shows that rising birth rates and increased migration into the State will double the college age group in little more than a decade.

EXPANSION IS ESSENTIAL

The Board of Education proposes increased facilities at the State University, the six Teachers' Colleges and the Newark College of Engineering, to cost in the neighborhood of \$80,000,000. Expansion of higher educational facilities is obviously essential. I reserve for the budget message discussion of whether expansion should be financed on a pay as you go plan or by a bond issue. In any event, we must make a substantial start at once.

BONDS AND SCHOLARSHIPS

2 There is a pressing need for measures which will permit our school districts to finance capital improvements at lowest possible interest rates. A constitutional amendment to permit the use of the present State school fund and legislation authorizing the pledge of state school aid funds to accomplish this end are under consideration.

3 I urge a scholarship program by which financial aid may be extended to needy, deserving and qualified students who wish to enter New Jersey colleges and universities. This would supplement the scholarship program now operative at the State University and could be linked with a Federal scholarship program, if one should be established.

FURTHER STATE AID

4 Despite the fact that State aid to local school districts has tripled in the last four years, there is a continuing demand for further State aid for operational purposes, and to relieve the burden of homeowners and other local tax payers. In recognition of this demand, I propose the subject be turned over to the State Tax Policy Commission for its 1958 report and recommendations.

LABOR LAW CHANGES

New legislation is needed in the field of labor, some of which has been repeatedly urged in my annual messages. For instance the minimum wage law is completely unrealistic, since it applies to women and minors but not to men.

We need a State labor relations law by which unfair labor practices may be defined and prevented, and by which collective bargaining representatives may be selected and certified.

I recommend that the Legislature re-examine the level of, and eligibility requirements for, unemployment compensation, temporary disability and workmen's compensation benefits in the light of average wages now paid and in the light of higher living costs.

The unemployment compensation and temporary disability benefits law should be extended to employers with one or more employees, instead of being restricted to employers with four or more employees

THE MEADOWS

On the New Jersey side of the Hudson River lie 30,000 acres of what is potentially the most valuable land in the entire world. This is known as the Meadows. It is a vast swamp infiltrated with sea water. For a century men have dreamed of reclaiming the land for use.

Some men have done more than dream. The railroads have found ways to lay tracks and build yards through the Meadows. The Newark Airport is built on such reclaimed land. Piers of the New Jersey Turnpike have been given a solid base there. Many highways now traverse the area.

A FRESH LOOK

Let us take a fresh look at the problem. I have in mind that engineers in The Netherlands, a country which has always had to battle the sea for existence, have been able to find ways to separate salt water from low lying land. I recommend the establishment of a State commission to investigate whether Dutch methods would be feasible here, to determine questions of land ownership in the Meadows, and otherwise to deal with possible reclamation and use of the land.

TAX POLICY

A report of the State Tax Policy Commission is expected to deal with (1) the 100 per cent assessment decision of the State Supreme Court in the Middletown Township case and (2) the question of additional revenue to meet State needs. I will comment on the report in my budget message.

COMPULSORY AUTO INSURANCE

I recommend that the Legislature give serious consideration to the enactment of a compulsory automobile insurance law, to indemnify innocent victims of traffic accidents or

their dependents for loss of life, injury to persons and damage to property. The Unsatisfied Claims and Judgment Fund has met some but not all of the needs of the people in this area. I suggest the Legislature make a study of the operation of the compulsory laws of other states as a guide to possible action.

AFTER 40 YEARS

I am about to appoint a commission to study the framework of law, policy and administration of the Department of Institutions and Agencies. Since the original Morrow report of 1918, the department, with its system of citizen participation in state and local boards, has made many significant contributions in the field of human welfare.

It is our belief that, after 40 years of operation, we should re-examine the department and its far-ranging tasks along with its kinship to other departments to find out if we are doing all we can to meet modern needs. After the commission finishes its study, it will make a report consistent with the statutory mandate that our institutions and agencies "shall be humanely, scientifically, efficiently and economically operated."

No doubt as in the case of the Morrow report, the Legislature will be called upon for measures to improve the lot of the 125,000 persons who are wards of the State.

RAPID TRANSIT

The report of the Metropolitan Rapid Transit Commission was not received in time to be given consideration in this message. The commission has made an intensive study of the vexing traffic problems of the New York New Jersey metropolitan area. Year by year these problems grow more difficult and more expensive to solve, and a comprehensive assault on them cannot be much longer delayed.

NEW STATE BUILDINGS

New State buildings are urgently needed to house the Departments of Labor and Industry, Education and Health. These departments are now scattered in seriously overcrowded state-owned or rented quarters.

New structures would make possible more efficient operation of these departments in the interest of the public, besides saving large sums in rentals

Funds for a building for the Department of Labor and Industry are already available, funds set aside for the other two buildings would be a sound investment and would add to the resources of the State

In September 1956, I sent you a special message dealing with this problem in some detail, and I will certainly renew my recommendation in the forthcoming budget message

KOREAN WAR TERMINATION

The Legislature has not declared a termination date for the Korean conflict. As a result, thousands of grossly discriminatory veterans' property tax exemptions and unfair civil service preferences are being granted each year and will continue to be granted in ever increasing numbers unless action is taken.

As to all previous wars, the Legislature has specifically limited the duration of each war for exemption and preference purposes to the period of actual hostilities. Actual hostilities ceased on July 27, 1953, in the Korean conflict. I recommend that Chapter 184, Laws of 1951, be amended to correct this inequity.

CONFLICT OF INTEREST

New Jersey needs a comprehensive conflict of interest statute forbidding all employees and officials of the State from serving or representing outside interests which might prejudice or impinge upon their loyalties to the public service.

RADIATION PROTECTION

An advisory committee appointed by me has explored the field of radiation and has recommended legislation to provide control of radiation sources in New Jersey. Such control, enforced by a single agency, is required at the State level to protect our citizens. A bill to that effect will be submitted to you.

II TO STRENGTHEN OUR DEMOCRATIC PROCESSES

REAPPORTIONMENT AND REDISTRICTING

You are aware of your duty to reapportion the Assembly in accordance with population changes Article IV, Section III, of the State Constitution directs " Apportionment of the members of the General Assembly shall be made by the Legislature at the first session after the next and every subsequent census "

Since the 1950 census, seven Legislatures have come and gone without action on this basic matter As a result the people suffer the consequences of unequal representation

As a practical solution, I recommend a self enacting constitutional amendment, looking to the 1960 census, to provide adequate representation to each of our counties

THE CLASSIC SEVENTH

A related subject is congressional redistricting, which has not been done since 1931, more than a quarter century ago One need only take a look at the Seventh District to understand how badly redistricting has been neglected This district is a classic example of the gerrymander a notorious device to keep one individual or one party in office

VOTING MACHINES

Twelve of the State's 21 counties now use voting machines and their use should be made mandatory in the remaining nine counties which continue to use paper ballots Is it necessary to repeat what has so often been said, that the voting machine is the most accurate quickest, most convenient, most trusted and, in the long run, the most economical way to compute election returns?

MOBILE REGISTRATION

Mobile, or neighborhood registration, is a highly desirable method to take voting machinery directly to the people Many people find it difficult or impossible during their

hours of employment or because of domestic duties to go to the Court House or the office of the Municipal Clerk to register

Therefore, by legislative mandate it should be incumbent on the part of the County Election Boards to minister to the convenience of these people. Every county board should be directed to sit at least one night in each ward and at least one night in each municipality, depending on the size of the community.

SUGGESTED COURT CHANGES

Two changes in our court system were recently advocated by Chief Justice Weintraub.

1. He points out that the co existence of separate county and Superior Courts "has been fettering and restrictive." These courts have overlapping jurisdiction in a substantial area, and the supposed advantages of this division of judicial duties have not come to pass. He suggests consolidation of county and Superior Courts.

2. He points out further that we have 488 separate municipal courts "in which 30 per cent of the magistrates are poorly paid, and their quarters frequently are inappropriate." It is impossible properly to supervise the work of 488 separate courts, and the Chief Justice suggests a county wide court presided over by full time judges, appointed by the Governor, subject to Senate confirmation.

I commend his views to you for study and for whatever action you deem fit to take.

A LEGALISTIC JUNGLE

More than two decades have passed since New Jersey statutes have been revised. Meantime our laws have become a jungle growth, through which laymen and lawyers must grope their way without much hope of finding Dr. Livingstone.

To change the metaphor, Professor Edwin W. Patterson of Columbia University says that New Jersey statutes "exhibit layers of legislative deposits going back to 1891 and

1902, so that the process of interpretation becomes geological rather than logical " He was speaking specifically of insurance statutes, but what he says is true of other titles as well

Conspicuous examples of laws needing revision

Title 11 — Civil Service

Title 14 — General Corporations

Title 17 — Those sections dealing with insurance laws

Title 18 — Education

Title 19 — Election Laws

Title 26 — Health

Title 40 — Counties and Municipalities

Title 48 — Public Utilities

Title 51 — Weights and Measures

In some of these areas, revision is under way I urge its early completion and a start on work in other areas including statutes of specific application to each of the 14 State Departments

CHANGES IN INSURANCE LAW

Last year I asked Professor Patterson an outstanding authority to study the administration of the Department of Banking and Insurance

He recommended legislation which would (1) give the department better and more general notice and hearing provisions (2) give the Commissioner explicit power to make regulations (3) give the Commissioner broader discretionary power in refusing to issue or renew, or in revoking an insurer's license (4) give the Commissioner specific power to force the removal of proved untrustworthy insurance company officers, and (5) revise the liquidation provisions for taking over a domestic insurer

OTHER INSURANCE PROPOSALS

In addition, I strongly urge that you give early consideration to legislation, introduced but not passed at the last session, which would enable the Commissioner of Banking and Insurance to have more specific and effective powers over the licensing and regulation of insurance agents, brokers and solicitors

Also, I recommend that you adopt legislation requiring insurance companies to submit reports on internal audits to the Commissioner to help keep him informed of company operations during the period between regular departmental examinations

These recommendations should be the subject of immediate action. At the same time, we should take steps to undertake a general revision of our insurance statutes to be ready for enactment by the 1959 Legislature

CRIME REPORTING

I have repeatedly urged the creation of a uniform crime reporting system. Such a system would enable persons responsible for enforcing our criminal laws to collect, collate and use essential facts relating to crime. It would require local, county and state police authorities to make periodic reports about the number and nature of arrests. That information, in turn, would produce statistics of great value and for the first time, form a survey of the frequency, type and concentration of crime. It is a basic requirement of modern day law enforcement.

POLICE TRAINING

For years, I have pointed out that some system of police training is vitally necessary to our State law enforcement administration. For the past two years, bills have been introduced that advocate some kind of training for rookie patrolmen. The charge that such a system would be subject to State Police control and would violate home rule is simply not true.

Under the proposed legislation a State wide commission would create standards of instruction and would approve schools, public or private, which all future law enforcement officers would be required to attend. The commission would not be made up of State officials alone, on the distinct contrary, the bulk of the commission would consist of representatives chosen by policemen's service organizations.

Bills for crime reporting and police training have been prepared and are ready for introduction.

SALE OF PACKAGED MEDICINES

The business of retailing packaged medicines has presented problems that have existed for years. Conflicting views have been held as to whether aspirin, cough medicines and similar products can be sold by persons other than registered pharmacists.

Litigation has been almost constant. In 1954 the State Supreme Court stated that legislation was urgently needed to clarify ambiguities arising from interpretation of the 1901 statute. I hope you will be able to resolve these ambiguities in the light of modern conditions.

SUNDAY SALES

Increasing commercial activity is drastically changing the character of Sunday as a day of rest. We should seek a statewide pattern regulating Sunday activity with a recognition of local needs.

CONCLUSION

Let me express the hope that the next ninety days will become notable in New Jersey's history for the accomplishments of the Legislature. In these uneasy times, it becomes especially important for the law makers of this State to show qualities of leadership and firm action with regard to our problems.

Many of them, indeed, are not new. They have been discussed, explored and debated for a long time, and there can be no reasonable excuse for further delay. Others will yield to hard study and searching debate in committee and on the floor.

I hope you will keep in mind that the measures here suggested are designed to strengthen the resources of the State, physically and morally, and to strengthen our democratic processes. Never in history has our country had a greater need to marshal its powers and to show to the world how democracy can flower in adversity.

You are concerned with the affairs of one State of the Union, but the example of one State in strong, forward looking action can have a tonic effect everywhere.

From the time of the American Revolution, New Jersey has been first in many fields—in government, in education, in welfare, in industry, in invention, as well as in the intangible qualities which go to make up what we call civilization.

I feel sure, as you of the 182nd Legislature settle to your tasks, you will draw faith, confidence and inspiration from New Jersey's illustrious past to grasp its brilliant opportunities for the future.

Respectfully submitted,

ROBERT B MEYNER,
Governor

SECOND INAUGURAL ADDRESS

*Members of the 182nd Legislature Chief Justice Wern-
traub My Friends and Fellow Citizens*

It is a solemn but very happy moment of my life to take the oath of office from my warm friend, the distinguished Chief Justice of New Jersey

Four years ago I stood here to deliver my first inaugural address, and I did so with a prayer that I be given the strength, the intelligence and the understanding to perform my tasks as Governor Today I renew that prayer as I enter my second term

A week ago today I delivered my Annual Message in which I outlined a detailed program of legislative action By mid February I will present to you my budget for the next fiscal year On this ceremonial occasion I would rather speak in general terms concerning the State of New Jersey and the office of Governor

CHALLENGES AHEAD

We have made progress in the past four years, but the days ahead are full of challenge Many of the problems I talked about in 1954 are still with us, in altered form As I pointed out then, "We must ever be conscious that in government, as in life, nothing is ever permanently settled, nothing ever disposed of beyond the need for continuous study and action "

The years that lie just before us will be a period of urgency, a period of test, both for the State and the Nation Man is penetrating the mysteries of outer space, even as he explores the secret heart of the atom The possibilities of this modern pioneering stagger the imagination That our own country lags in this field is a grave challenge to all of us

On the national domestic scene we face mounting unemployment, a crisis in education, problems involving civil rights, the common defense and the public welfare declining revenues and increasing costs of government

BRIGHTEN OUR CORNER

We in New Jersey must face up to these challenges We must do our full part in all these fields Our area is a limited one, but to paraphrase the old hymn we can brighten the corner where we are We can do our best to make State Government a meaningful and efficient instrument for ministering to the progress and well being of our people I pledge myself anew to work untiringly to that end

THREE CENTURIES OF EXPERIENCE

As colony and State, New Jersey has had three hundred years of experience in self government That rich and varied experience has made for maturity, balance and stability As a people dedicated to the common weal and united in purpose, we are not easily given to extremes of optimism or pessimism We are a fusion of many races and nationalities and backgrounds We have learned to live together, not with mere tolerance but with active friendship

We hold high the guarantees of civil rights embodied in our State and Federal Constitutions When our schools were integrated by the terms of our 1947 Constitution, the process was carried out with hardly an incident because it had the approval of our people That is only one of many examples of our veneration for the ideals of the Founding Fathers and of our faith in democracy

PRESSURE OF POPULATION

Many of New Jersey's problems stem from a steadily rising population in a limited land area Ours is the fourth smallest State in the Union We have a high strategic importance, however, not only because we lie between two

great metropolitan areas and front 125 miles along the central Eastern Seaboard, but because of our vast industrial output and because we are a vital center of industrial and scientific research

New Jersey is the most urban of all States, with no fewer than 567 communities. Our urban character has been intensified since Woodrow Wilson, speaking as Governor, said that New Jersey has "the problems of the country in such a form that they are raised to the highest degree of difficulty and complexity." This was, remember, almost half a century ago. Even then, said the Governor, we were faced with "all the great urban problems," among them that of water supply created by congestion of population.

GROWING PAINS

We had an example of the growing pains that come with increasing urbanization in our recent necessary acquisition of Round Valley in Hunterdon County. It was the last feasible large reservoir site in the northern part of the State.

Whenever a new highway is projected, we face the problems of dislocating settled neighborhoods. Growing population and the spread of urban developments require that we place a high premium on land for parks and recreation areas and wildlife preserves. This growth, of course, lies at the heart of our agricultural problems. It makes our farm land high priced, and farm income must therefore be correspondingly high.

EMPHASIS ON PLANNING

All this compellingly points to the need of our giving strong emphasis to planning. New Jersey is now first among the States in the program that permits Federal and State assistance for planning to municipalities under 25,000 population. It is also first on a per capita basis in terms of co-operation with the Federal Government on advance public works planning.

These problems of population and expanding economy were stressed in my second annual message. We of New Jersey are fortunate and happy in our growth and our strength. Were we not enjoying this progress, we would not need—as we do—more schools, more highways, more recreational facilities and many other things, nor would we be obliged to increase our present services. Growth explains why the costs of State Government are rising. New Jersey is forging ahead and will, I am confident, continue to do so. It is up to us to see that our State Government meets the demands that come from the impact of growth and change.

INFORMING THE PEOPLE

It has been my constant aim to keep the people of New Jersey fully informed of the operation of their government. I subscribe to the belief of Thomas Jefferson that whenever the people are well informed they may be trusted to rule themselves, and when things go wrong, they may be trusted to set them to rights.

We in State Government have used every possible means to tell what is going on at the State Capitol and in all of the 14 departments of government. I meet the able daily press corps twice a week, and at times even oftener, to give out news and to answer questions. Once a month there is a similar session for the editors of the weekly newspapers. On Sunday evening, New Jersey citizens can tune in on a half hour television and radio report by their Governor on various aspects of State Government, and they may also hear a half hour program conducted by the Legislature.

PRACTICE OF DEMOCRACY

Every letter sent to me is answered as promptly as possible. In the past four years I have made it my business to visit all parts of the State to learn of conditions at first hand and to exchange views with my fellow citizens. Last

year, I devoted months to intensive campaigning in which I gave a full account of my stewardship. All of this is in accord with my belief that democracy should be constantly practiced as well as preached.

CITIZEN PARTICIPATION

This program has been effective. It has enabled us in State Government to know more intimately the great capacity of our citizens to accept and endorse needed change. Most of all, it has made for effective democracy because of greater citizen participation.

Our citizens have shown a genuine capacity to share the burdens of self government. They make their views known individually or through their effective organizations. They form the public opinion so essential to legislative and administrative action.

Literally hundreds of able people have assumed great burdens on voluntary boards and agencies in State Government, where matters of policy are carefully considered and determined. Administrative action based on these policies is then carried out by our State officers and employees. At the local level, in all phases of county and municipal government and in our school districts, we have literally thousands of citizens who serve their fellow citizens at real personal sacrifice.

REWARDS OF PUBLIC SERVICE

In reflecting on my four years as Governor, I find I have been richly rewarded in the moral, spiritual and intellectual satisfactions that come from public service. I have been given the chance to serve my fellow man.

In the true sense of Lord Tennyson's line, "I am a part of all that I have met." If I have been privileged to help shape the destiny of New Jersey for a few brief years, I, in turn, have been shaped by my friends and colleagues, and by the thousands of New Jerseyans who have consulted me and been consulted by me.

A MANDATE

When the election returns came in last November 5th, my deeply felt reaction was that the finest thing in life for a public official is to have his own friends, his own neighbors, and the tens upon tens of thousands of citizens of a great State give him so unmistakable an expression of confidence. It was a mandate to carry on with a program already clearly stated and explained.

I set out on my second term with the feeling that there is nothing esoteric about the job of being Governor. The techniques of democracy are the same—in the village, the town ship, the city and the State. In the larger units, the pressures may be greater and more zeroes must be added to the budget figures, but fundamentally men govern with the consent of the governed and with whatever ability, understanding and co operation they can muster. Within proper limits, they are expected to furnish leadership rather than merely follow.

FRESH, HARD LOOK

Re election gave me a renewed determination to justify the confidence of the people. At the first Cabinet meeting after November 5th, I asked each department head to take a fresh, hard look at the policies and aims of his department, to lay out forward looking programs for the next four years, to re examine methods and, in every possible way, improve the efficiency of our work and our service to the public.

ASSEMBLY MAJORITY

And I found another thing had happened on November 5th. Not only had I been rehired by my 5,500,000 bosses, but they had given me a new setting to work in—they had given my party a majority in the House of Assembly and increased its membership in the State Senate. This means that my party will bear heavier responsibility for good

legislative practices and the enactment of a forward looking program

My own aim for the next four years is to do the best possible job as Governor of New Jersey, to the limit of the powers and talents with which the Lord saw fit to endow me

Let me tell you some of the things it means to be a good Governor

It means he must strive to keep in proper balance the hundreds of conflicting pressures that operate to influence government in our ever more complex and competitive society

LOBBYIST OF THE PEOPLE

It means that forever in his mind must be the fact that while it is proper for all special groups to be represented and heard, the Governor is the Chief Lobbyist in all the State—and that his clients are all the people

It means that his judgment is tested by the character of his appointees who sit in the courts and who direct the activities of the executive departments

The success of a Governor's administration is dependent on making his views known and his direction felt throughout all the echelons of State service

ROLE OF STATE GOVERNMENT

In my third annual message I pointed out the many ways in which State Government touches the lives of the people. It plays a vital role in the education of our children, in the care of the poor, the sick, the retarded, the handicapped and the aged, in the administration of justice, in the preservation of order, in the construction and maintenance of our highways, in safeguarding the rights of labor, in the protection of health

Indeed, State Government intimately touches upon many of the smallest details of our daily lives. It affects everyone every day, from the person who is assured an honest weight in the food markets, to the person who turns on an electric light, travels in a motor car, buys an insurance policy or deposits money in a bank.

HIGHWAYS

It means to be a good Governor, that he should be deeply concerned about our highways in a day when everyone is on wheels.

It means that every time a death occurs on these high ways, he must ask "Could this tragedy have been prevented?"

LABOR AND MANAGEMENT

It means he is responsible for fair play to the workers, and he must sponsor legislation to improve their lot. And, since the welfare of the workers is dependent upon the prosperity of industry, the Governor must see the labor management problem as a whole. He must do his best to preserve an atmosphere of peaceful relations and to do whatever lies in his power to foster the progress of business and industry and labor.

He must, through himself, his economic ambassadors, and every agency of State Government encourage industries to locate here and to prosper, taking advantage of our highly skilled labor force, availability to great markets, excellent transportation facilities and the State's many other attractions.

The Governor must win and retain the trust and confidence of the people and must guard against those who would betray that trust and confidence.

WARDS OF THE STATE

It is the Governor's responsibility to look after and watch over the many thousands who, for one reason or another, have become wards of the State

I could give you the numbers—and they are great—but I would rather think of them as human beings rather than as units in a table of statistics

These are the people in our mental hospitals, in our colonies for the retarded, on the relief rolls and in our prisons and correctional institutions

Take the people in our mental hospitals Should we be content with locking them up, in putting them into the misery and idleness of back wards?

No, we should not and we need not We have entered a new day for treating mental illness, and while I am Governor, these people will be treated—not merely kept in custody—and they will not be forgotten

CIVIL RIGHTS

The Chief Executive must strive constantly to be certain that our citizens enjoy the inalienable civil rights guaranteed them by the law of our land and State Only by constant vigilance at all levels can we be sure that there shall be no tolerance of second or third class citizenship

In my list of things for which a Governor should be held responsible, I leave to the last what is probably, in the long view, the most vital, the most important, the most challenging problem in a democratic society—namely, education

AIMS OF EDUCATION

For here is the crucible in which the moral strength of our children is formed, here is the place where that amazing gift of God Almighty—the human intellect—is planted with the seeds of knowledge, of noble and useful thoughts of

high ideals and aspirations, of freedom to think, to speak to worship and to dare

It is here where equality of opportunity is furnished our citizens. More and more, all phases of our economic life are relying on our schools to do the screening by which the talented are chosen for leadership in our professions, business and industries.

And perhaps most important of all in these blazing times, when democracy is being challenged all over the world, here in the schools is nourished the education without which democracy cannot endure.

So that, my friends, is my ambition—to be a good Governor. To me it is an inspiring ambition which I welcome the chance of sharing with you and all of the people of New Jersey on this Inauguration Day.

FOUR YEAR VOYAGE

Inauguration is, in a very real sense, a special day for all of us. Those of you here, those within range of radio and television, those who read this message in our press, are real participants in a four year voyage on the sea of democracy. The efforts of all of us are essential for effective performance by all three branches of government represented at this ceremony. With your active participation we can continue to move forward.

In the variety of its problems and opportunities, New Jersey is a laboratory where all phases of democracy can be tested, applied and made to work. In an era when our system is under attack all over the world, we in New Jersey must bring new devotion and new vision to the practice of our democratic ideals.

OUR HERITAGE

We ought to count our blessings We live in a land singularly favored by nature and by the opportunities offered by liberty It is a country where rich rewards are paid for character, brains and hard work—where a man, however obscure his origin, may aspire to all the good things of life

It is easy to grow lyrical over such a country and over our magnificent heritage of democracy Let us in New Jersey guard and cherish our birthright With God's help and blessing, let us together and with unflagging confidence, move forward into the years that lie ahead

Respectfully submitted,

ROBERT B MEYNER,

Governor

REPORT FROM NEW JERSEY FEDERATION OF LABOR
NEW JERSEY STATE FEDERATION OF LABOR
790 BROAD STREET, NEWARK 2, N J

February 6, 1958

To All Members of the New Jersey Legislature

For your information and guidance, we are attaching herewith a copy of a press release dealing with a new plan to improve the Unemployment Compensation, Temporary Disability Benefits and Workmen's Compensation Acts.

As you will note, the plan, among other things, increases the maximum weekly benefit amounts under all three phases of social insurance over a three year period.

We trust you will examine the forementioned press release and give your support to legislation designed to accomplish the proposals contained therein

Respectively,

LOUIS P MARCIANTE,
President

WESLEY A TAYLOR

The following communication was sent to the desk and read by the Clerk

THE 59 SOCIAL AND CIVIC CLUB
426—63RD STREET
WEST NEW YORK, NEW JERSEY

January 28, 1958

Hon William F Hyland,
New Jersey State Assembly,
Trenton, New Jersey

DEAR ASSEMBLYMAN HYLAND

We respectfully bring to your attention a hazard that has been continuously overlooked and yet its detriment is known to every experienced Fire Department in the State of New Jersey

I refer to the overhead wires and upright poles of the public utility system of New Jersey Its value to transmit and expedite convenience to residents is beyond question

However, whenever fire occurs at a residential or industrial building, the attempts of firefighters to raise a fire ladder to save occupants of fire engulfed quarters is obstructed by the overhead wires and is a definite obstacle to the proper and rapid placement of the raise ladder from the fire engines

Therefore, we urgently recommend study of this matter with intention to eventually place the wiring system underground and thereby eliminate this serious hazard to the residents of New Jersey

Respectfully yours,

s/ JOSEPH TABBACHINO,
Fire Captain
Standard Bearer

We would appreciate it very much if this resolution were read in the House

Sincerely,

JOSEPH TABBACHINO

The Speaker declared a recess of the General Assembly for the purpose of a Joint Session with the Senate to hear the Governor's Fifth Budget Message

Senator Stout called the Joint Session to order and appointed the following Committee to escort the Governor

Senators Lance Forbes Cowgill

Assemblymen LeWine McGowan Barkalow

The Governor arrived and was escorted to the Rostrum and was then introduced by Senator Stout

The Governor addressed the Joint Session and presented his Fifth Budget Message

BUDGET MESSAGE

To the Members of the Senate and General Assembly

Today I present to you my Fifth Budget Message

The Budget here proposed is the highest in the history of New Jersey I say this with no intent of course to boast But I say it too without apology The Budget is the largest ever but so is our population so are the needs of our schools and colleges so is the necessity for highway projects so are the demands for our humanitarian services

In my Inaugural Message and in my Fourth Annual Message to this Legislature I tried to describe—in broad strokes in the Inaugural Message and in detail in the Legislative Message—the problems and the opportunities that have come to New Jersey with its remarkable growth and change The time comes now to consider the dollars and cents side of this development This Budget represents the wages of growth If you look upon it as plain outlay it is high but if you regard it properly as an investment in the future we can do no less During the four years of my first administration we nearly tripled State aid to education We put New Jersey in a position to share fully in a Federal highway program that is indispensable to a highly industrialized and commercial State We broadened the use of our parks and recreation areas we tightened law enforcement we brought an enlightened approach to mental health and welfare problems All these programs breed fresh momentum and the State continues to grow This Budget will serve a State that will have grown by half a million people since I became Governor four years ago Most of this population growth has taken place in the ranks of our youth and our senior citizens

BUDGET REQUESTS

Requests presented to the Budget Director for the fiscal year 1958 59 totaled \$512 600 000 These covered normal operations State aid programs and a sizable program of capital construction

These requests were reduced by \$113 millions leaving total recommendations of \$399 679 233 An additional \$2 493 100 will be required for supplemental appropriations in prior fiscal years Revenues available under our present tax structure fall far short of this sum

REVENUES

We have available resources of \$343 193 561 We must find \$56 500 00

THE BUDGET IN BRIEF

Resources

Estimated Surplus June 30 1958	
Normal Anticipations (after allowance for pending supplemental appropriations)	\$5 301 768
Cancellation of Previous Appropriations	15 841 904
Total Estimated Surplus June 30 1958	\$21 143 672
Less Supplementals for Prior Years	2 493 100
Net Estimated Surplus July 1 1958	\$18 650 572
Estimated Revenues for 1958 59	324 542 989
Total Resources for 1958 59	\$343 193 561

Recommendations

General State Operations	\$173 354 593
State Aid	163 769 679
Capital Improvements	62 554 961
Total Recommendations	\$399 679 233
Amount Required to Balance the 1958 59 Budget	\$56 485 672

GASOLINE TAX

In my Annual Message I urged a gasoline tax increase for highway purposes A one cent increase would yield \$17 700 000 With this enactment we would still need \$38 800 000 to balance the Budget This of course would leave us without a surplus on July 1 1959

THE NEED FOR ADDITIONAL REVENUE

This year we must face the unpleasant task of imposing a new tax This necessity arises principally from demands for more funds for education

While the tax laws do not specifically dedicate any revenue for educational purposes nevertheless it has become traditional in New Jersey to consider certain tax revenues as available only for such purposes In this category are the

main stem railroad tax the cigarette tax a portion of the corporation business tax a relatively small part of the pari mutuel tax one cent of the motor fuels tax and income from the State School Fund and the 1837 Surplus Revenue Fund

In this Budget Message the funds derived from these sources total \$75 590 000 The amount recommended for education is \$159 417 000 The gap is \$83 827 000

I have previously indicated that to balance this Budget to the penny would require \$38 800 000 in new revenue assuming that the gas tax increase is enacted Obviously with a \$400 000 000 Budget it would be foolish to recommend a fiscal program which would leave no surplus no elbow room for emergencies In my opinion the State should plan a minimum surplus on July 1 1959 of \$6 200 000 Therefore we need \$45 000 000 in new revenue

In its Ninth Report to the Legislature the Commission on State Tax Policy recommends the enactment of a 3 per cent business tax applicable to the net income of both in corporated and unincorporated business to provide funds for the replacement of the present locally assessed taxes on household goods and business inventories If this proposal is adopted then the State by increasing the rate from 3 per cent to 5 per cent can look to the same revenue source for the additional amount necessary to meet its Budget requirements If the Commission's replacement program is not acceptable then I recommend the imposition of a corporate net income tax integrated with the present corporation business tax to provide additional tax revenue of \$45 000 000

WHERE THE BUDGET INCREASES

After providing for pending supplementals the total appropriations for 1957 58 will be \$340 000 000 The \$399 679 233 recommended for 1958 59 is an increase of \$59 700 000 made up as follows

182 MINUTES OF THE GENERAL ASSEMBLY

Capital Construction for Education	\$14 650 000
Highway Construction and Extraordinary Maintenance	18 450 000

EDUCATION

The State Board of Education has completed its study of building needs at the teachers colleges the State University and the Newark College of Engineering. These needs include dormitories which would be self supporting. The net State outlay under the State Board's program would be \$65 000 000. The State Board proposes a bond issue referendum at the next general election. It is my opinion and the opinion of many members of the Legislature that the long standing problem of water resources which both political parties are pledged to solve has priority. I lean to the view of many people that it would be unwise to expect the people of New Jersey to approve both the water and education proposals on the same ballot. For this reason I have included in this Budget on a pay as you go basis a substantial start on the educational building program. This would not preclude the possibility of an education bond referendum next year.

For this year I am recommending \$15 550 000 which includes \$2 087 000 for the Department of Education Office Building \$2 950 000 for classrooms gymnasium and central heating plant at the Glassboro State Teachers College \$3 625 000 for classrooms food service building central heating system utility room and men's gymnasium

at the Paterson State Teachers College and \$990 000 for a classroom building and necessary site development at the new Union State Teachers College In addition there is \$500 000 for the purchase of land for the State University to round out holdings in Camden and Newark \$1 000 000 to complete the law center at Newark \$2 500 000 for the biology building on the New Brunswick campus and \$1 000 000 for a library classroom and study center at Douglass College

In addition I recommend \$400 000 for a new dormitory and dining room at the School for the Deaf and \$500 000 as the State's share for buildings at the Newark College of Engineering

OPERATION OF TEACHERS COLLEGES

Based on applications filed with the various teachers colleges our enrollment in 1958 59 will be 9 542 students an increase of 1 549 To meet these new demands faculty and staff must be increased The amount required for teachers colleges alone in 1958 59 is \$7 070 427 or \$1 147 128 more than in fiscal 1957 58 This includes 132 new positions 87 of them teachers

Other sums are included for materials and supplies principally to build up our libraries which are important in obtaining accreditation by the Middle States Association At present only Montclair and Trenton State Teachers Colleges are so accredited We are seeking accreditation for the colleges at Glassboro Paterson Union and Jersey City Without such recognition graduates may not be accepted for advanced study elsewhere

OPERATION OF THE STATE UNIVERSITY AND NEWARK COLLEGE OF ENGINEERING

Enrollment at the State University is expected to increase by approximately 600 during the next fiscal year and more funds are recommended to provide for these additional students For the General University Douglass College and the Agricultural Experiment Station \$730 000 more is recommended in 1958 59 There is an additional \$85 000 for the Newark College of Engineering

STATE SCHOLARSHIPS

In my Fourth Annual Message to the Legislature I urged scholarships for needy deserving and qualified students who want to study at New Jersey colleges and universities. These would supplement the State University scholarships and could be linked to a Federal scholarship program if one develops. Bills have been introduced to inaugurate these grants. This budget includes \$100 000 as a starter. I recommend that such scholarships be awarded by the State Board of Education.

STATE AID FOR EDUCATION

State aid to local districts and payments to the Teachers Pension and Annuity Fund will total \$117 396 595 in 1958 59 or \$9 960 000 more than in the current fiscal year.

The arrival in New Jersey of many refugees re emphasizes the need for instructing our foreign born in the interest of good citizenship. Funds are recommended to re establish State assistance to local communities for adult education.

The State's cost of education in fiscal 1958 59 will be \$159 417 229—roughly 40 per cent of the whole Budget. It is the largest single increase—up \$25 million from the current year.

HIGHWAYS

New Jersey has a backlog of hundreds of millions of dollars in needed highway construction. Since World War II fewer than 100 miles of new roads have been added to the State system. Meanwhile motor vehicle ownership and traffic volume have more than doubled. Because the State Highway Department was on short rations the only major new highways the Turnpike and Garden State Parkway were built as toll roads by independent authorities.

The expanded Federal Aid Highway Program seemed to be the answer to New Jersey's highway ills. Through this program more than 300 miles of freeways will be added to our road system and some existing highways improved. But these benefits can be obtained only if every dollar of Federal money is matched by State funds. We have our matching money but in getting it we have left

nothing for two vital parts of the State s Highway program I refer to advance purchase of rights of way and to our domestic highway needs I recommend \$17 700 000 for these purposes and \$750 000 additional for extraordinary maintenance

ADVANCE PURCHASE OF RIGHTS OF WAY

There are obvious advantages to advance purchase of rights of way Land values are increasing Land does not remain unimproved for long in this era of rapid growth Isn t it wiser to acquire right of way land when it is vacant—before it becomes the site of a home a market or a factory—than to wait and put the property owner to greater inconvenience and the State to higher expense?

NON MATCHING STATE HIGHWAY PROJECTS

The amounts recommended included road and bridge construction not part of the Federal system utility relocation and drainage projects Even more important are safety features like traffic signals center barriers island closings and jug handle turns All of these will improve safety on many of our most outmoded and heavily traveled roads

INSTITUTIONS AND WELFARE

In the Department of Institutions and Agencies an increase of \$1 983 820 is recommended for operating costs and an additional \$987 812 for State Aid

We have included funds for increased staff at our institutions for the mentally retarded

MENTAL HEALTH

We continue to see results from our improved mental health program For two years now the population of our mental hospitals has decreased We must work to continue this trend even in the face of increasing admissions In this connection we are providing money to return 475 persons to the community through family care We are marking additional funds for research We are including \$450 000 as the State s share of community mental health services

The population at institutions for the mentally retarded is estimated at 5 970 an increase of 859 over 1957 Many of the new cases are more seriously handicapped and require more attention and care Those less seriously handi

capped are served in their communities by the Department of Education's atypical student program

CORRECTION AND PAROLE

This Budget anticipates the development of another small residential treatment center patterned after the successful project at Highfields

It includes \$50675 for basic clothing needs of inmates upon their parole from our correctional institutions. The State wherever possible should ease the adjustment for those who have earned parole and help them in these first critical weeks

I am also recommending additional parole officer positions to reduce case loads and to improve standards for investigation and supervision

WELFARE

In recognition of the anticipated social service case load of the State Board of Child Welfare I am recommending additional positions to help keep case loads at manageable levels. The agency needs more staff for its adoption program. There are 428 children under this agency's jurisdiction who may be adoptable. On file are 817 adoption requests which must be investigated.

Old age assistance is increased to provide for 305 additional medical institution cases and to increase the average monthly grant to nursing homes. The Budget reflects a slight increase in the cost of living for other recipients. The increase for maintenance of dependent children is primarily in the area of home life assistance. The anticipated case load increase of 3,841 brings the total of children and adults involved to 28,841. The per capita costs for boarding children are increased in each category—guardianship care and custody and home life assistance—to retain foster homes and to increase family budget allowances.

NEW POSITIONS

I am recommending a total of 202 new positions in the Department of Institutions and Agencies. Seventy-five would improve staffing and supervision at institutions for the mentally retarded. 27 are needed at Ancora State Hospital. 57 would reduce welfare case loads to reasonable

levels and 43 will provide special treatment. Offsetting the new positions are 116 jobs which were eliminated through program review and administrative improvements in such areas as laundries, farms, communications and power plants.

HEALTH

On many occasions I have presented the need for new State office buildings. One of these would house the Department of Health. Again I submit this imperative need.

The laboratory of the Health Department, housed on the third and fourth floors of the State House, operates under the most trying conditions. The fourth floor is directly under the roof. The present quarters are hazardous. Any private laboratory under like conditions would be condemned by our own inspectors.

Accordingly, I am recommending that \$4,080,000 be transferred from the Veterans Guaranteed Loan Fund and appropriated so that this building can be constructed immediately. I am also recommending that funds be provided for the continuation of a virology program. No more graphic example of the need for this service can be presented than the epidemic of Asian flu.

This Budget contains \$100,000 to initiate our Division of the Aging. In addition, \$30,000 is provided to expand our chronic illness control program.

LABOR AND INDUSTRY

There is now available to the Department of Labor and Industry \$9,000,000 in Federal funds and moneys derived from penalties for late payment of unemployment compensation taxes. This money is not part of our General Treasury but is available for building needs of the Department. I recommend that the Legislature appropriate these funds for a Labor and Industry Building.

I recommend that we step up our program of vocational rehabilitation. Funds are also recommended for two migrant labor schools.

LAW AND PUBLIC SAFETY

This Budget includes some \$600,000 for a general issue of motor vehicle license plates. The remaining cost of this

general issue which should be staggered over a period of time will be reflected in the Budget for 1959 60

When permanent motor vehicle registration was adopted in 1951 it was contemplated that new plates would be issued every five years The Legislature did not provide funds for this purpose Instead motorists were to retain their old plates until they were unusable The Legislature meant this as an economy move However it caused untold inconvenience and embarrassment to motorists traveling in other States A general issue of license plates will eliminate these problems It is long overdue

RECREATIONAL AREAS

In the current fiscal year \$500 000 was made available to the Department of Conservation and Economic Development for the continuance of a program initiated two years ago to provide additional recreational areas picnic sites and other facilities in our various State parks and forests In this Budget there is recommended \$500 000 to continue this program and an additional \$150 000 for roads and approaches to these areas New Jersey has valuable lands such as the Worthington Tract the Wharton Tract and Island Beach which to a very great extent remain unusable because we have not had sufficient funds to develop them

Many of our sister states are spending millions of dollars to advertise their advantages to industry and their tourist attractions There is recommended in this Budget \$200 000 for promotional activities during the next fiscal year an increase of \$75 000

WATER RESOURCES AND PLANNING

The people will probably get the chance to vote at the next general election on a bond issue to provide additional water resources in New Jersey The water problem has been with us for many years We are concerned not alone with adequate storage of water We should also attack our salt water intrusion problems and survey our underground water resources In this Budget are additional sums for appropriate engineering staff for these purposes

Additional funds have been provided to expand our regional State and local planning programs We cannot afford to lag here

BANKING AND INSURANCE

Provision is being made to strengthen the administrative and investigative operations of the Department of Banking and Insurance. It is hoped that the statutory changes which I previously recommended together with adequate sums for operation will permit this department to handle its job more effectively.

TREASURY

As an economy measure last year the Legislature eliminated the Methods and Procedures Unit in the Department of the Treasury. Other states have been reaping the benefits of this type of service. I am recommending in this Budget funds to provide technical help to study improvements in management methods and procedures.

The Division of Budget and Accounting has done considerable work on the Budget developing work load factors in the various departments. We hope that future Budgets will more effectively disclose the cost of government on a program and performance basis.

In the Division of Taxation we again recommend funds to handle the tremendous task of statewide equalization. In the Budget for the current year \$200,000 is provided for the acquisition of appraisals of commercial and industrial properties to supplement sales data in those districts where sales samples are inadequate for the determination of assessment ratios. For next year provision has been made to carry on this appraisal program within the Division.

As a result of a Supreme Court decision in a recent railroad tax case the Division has requested \$725,000 to meet the estimated cost of an appraisal of all structures in railroad use. Such an appraisal was last made in 1911 thereby raising the question whether present day assessments based on those valuations are equitable. At the time of closing of the Budget a decision had not been reached on the necessity for this project so that no amount has been included for this purpose. If this question is settled before the Appropriations Committee concludes its hearings the results will be brought to the attention of the Committee.

PENSIONS

In this Budget there is recommended for contributions to State pension systems exclusive of the State Teachers Pension and Annuity Fund the sum of \$10 917 500 The cost to the State of providing for the Teachers Pension and Annuity Fund and the social security applicable to teachers is \$29 026 000 Total pension costs therefore approximate \$40 000 000 and represent some 10 per cent of the total State Budget for next year

INADEQUATE PENSIONS

I have included \$650 000 to increase payments effective January 1 1959 to pensioners hardest hit by inflation This problem has been carefully studied and its merits should be beyond argument

STATE EMPLOYEES

This Budget will continue the normal merit increment to State employees for the next fiscal year Funds for the normal merit increment for which they were eligible during the present fiscal year are provided in Assembly Bill No 25

I also recommend \$1 200 000 for hospitalization and medical surgical benefits to all State employees

Some areas of State service need specific attention on salaries To correct inequities and to attract specialized personnel this Budget includes \$500 000 for allotment as required The money would be made available to a department when the need can be conclusively demonstrated to the satisfaction of the Civil Service Commission the State Treasurer and the Budget Director

THE LEGISLATURE

Funds have been recommended for the operation of the Legislature with particular reference to the 183rd Session At the request of the President of the Senate and the Speaker of the General Assembly this appropriation has been revised so that costs applicable to each House will be shown separately

Previously the appropriations for the Legislature did not cover the cost of a particular session Under this meth

od it was impossible for either the Legislature the Executive or the people to know how much it cost to operate each session Under the revised plan the cost of each session will be clearly shown and it should be unnecessary except under unusual circumstances for the Legislature to introduce supplemental bills for its operations

CONCLUSION

New Jersey is a well endowed State It has many attributes Its location its bright history its natural advantages as a site for homes and recreation for farm and business for industry and research—these are treasures we all share But greatest of all our resources are the men women and children of this great State It is for them that this Budget has been shaped with major emphasis on opportunities for education with concern for the handicapped and the unfortunate in our midst with interest in the development of our park and recreation areas for greater use and enjoyment by our citizens with attention to the giant need for a modern safe highway system

This Budget recognizes the need of getting essential things done For all of these things a proud State must be willing to invest not only to make the most of today's opportunities for better living but also to build a better future for New Jersey and all her people A Budget to some is a dry document full of unglamorous detail dreaded as an unwelcome necessity In truth this Budget for our State is warm and human in its impact exciting in its potential for the continued growth and well being of New Jersey challenging in the opportunity it presents to meet the tests of our times and to build for future generations

Respectfully submitted

THE FOLLOWING RESOLUTION was adopted by The New Jersey State Association of Chiefs of Police in regular meeting assembled at the Hotel Claridge Atlantic City N J on March 6 1958

WHEREAS it has come to the attention of this Association that it has been proposed by the State Motor Vehicle Director Frederick J Gassert Jr that the State of New Jersey is to issue only one license tag for the rear of motor vehicles in New Jersey and

WHEREAS in the judgment of the members of this Association as a result of past experience over the years in traffic control it is our firm conviction that such a plan would be a hindrance to efficient enforcement of traffic laws making it more difficult for the apprehension of violators of said motor vehicle laws as well as aiding the escape of fugitives wanted for other crimes and jeopardizing the safety of police officers attempting to enforce the traffic laws on the highways in the State of New Jersey now therefore

Be It Resolved by the New Jersey State Association of Chiefs of Police in regular meeting assembled that the reasons contained in this resolution be considered and as a result of such consideration there shall be issued in the State of New Jersey this year as in previous years a license tag for both the front and rear of motor vehicles in the State of New Jersey and

Be It Further Resolved That a copy of this resolution be addressed to the Governor the President of the Senate the Speaker of the House of Assembly and the Director of Motor Vehicles Frederick J Gassert Jr

SUSSEX COUNTY NEW JERSEY

March 15 1958

Assemblyman Hyland
Speaker of the House of Assembly
Trenton New Jersey

DEAR ASSEMBLYMAN

Enclosed herewith is a resolution which was adopted by the Sussex County Peace Officers Association at their regular meeting assembled in the Municipal Building at Sussex N J on March 5 1958

I respectfully submit this resolution for your consideration

Respectfully

PAUL A CHORNEY

Secretary

Sussex County Peace Officers Ass n

THE FOLLOWING RESOLUTION was adopted by the Sussex County Peace Officers Association in regular meeting assembled in the Municipal Building at Sussex N J on March 5 1958

WHEREAS several years ago when certain groups advocated a raising of the age limit of juvenile in so far as crimes were committed the then existing age limit of 16 years to that of 18 years the Sussex County Peace Association vigorously opposed such plan and

WHEREAS this Association made known its opposition by communicating same to the Governor the President of the Senate and the Speaker of the House of Assembly of New Jersey and

WHEREAS the wisdom of the Association's opposition has been confirmed by reason of the great increase in juvenile delinquency since said age limit was raised and

WHEREAS it is the reasoned judgment of the membership of this Association that the great increase in juvenile delinquency is in a large part attributable to the increase in age limit for prosecutions of crimes and other offenses by

so called Juveniles between the ages of 16 and 18 years and

WHEREAS this Association considers it urgent that the age limit for juveniles be restored to the previous limit of 16 years for Juvenile Legal Treatment now therefore

Be It Resolved By the Sussex County Peace Officers Association in regular meeting assembled that the Legislature at its coming session forthwith enact legislation to restore the age limit of juveniles relating to criminal offenses to 16 years and

Be It Further Resolved That a copy of this resolution be addressed to the Governor the President of the Senate and the Speaker of the General Assembly

Mr Hyland moved that the communication be received and filed

Be It Resolved That Assemblyman William E Ozzard be named as co sponsor on Assembly Bill No 50 with Assemblymen Crabiel Meloni and Stepacoff

Mr Brown offered the following resolution which was read by the Clerk and adopted

WHEREAS In His Infinite Wisdom Almighty God has seen fit to call from this earth Arthur Potterton and

WHEREAS During his lifetime Arthur Potterton was outstanding in public life of Hudson County and the State of New Jersey having served as a City Commissioner in Jersey City for twenty two years In the absence of former Mayor Frank Hague Mr Potterton served as Acting Mayor during his tenure from 1927 to 1949 and

WHEREAS Mr Potterton will be remembered for his humanitarian works—never given to pretense—he earned for himself a well deserved recognition as a man of great ability and

WHEREAS Mr Potterton was active in community work having been vice president of the Jersey City Museum Association He served the Red Cross the Boy Scouts and the National Foundation for Infantile Paralysis and had been a member of the State Goodwill Commission now therefore

Be It Resolved That the members of the General Assembly of the State of New Jersey express their deep regret at his death and extend their sympathy to his widow Mrs Dorothy Thayer Potterton and his sons and daughters in their bereavement and

Be It Further Resolved That a copy of this resolution signed by the Speaker and attested by the Clerk be sent to Mrs Potterton

Mr Wegner offered the following resolution which was read by the Clerk and adopted

WHEREAS Former Senator Henry A Williams of Passaic County died on March 23 1958 and

WHEREAS Mr Williams as Publisher and Editor in Chief of the Paterson Morning Call has long been recognized as one of the great civic leaders of the State and

WHEREAS Senator Williams served his country with distinction in World War I and was a commissioned officer in the Air Force and

WHEREAS After the conclusion of World War I Mr Williams completed his legal studies and was admitted to the Bar and thereafter followed in the footsteps of his distinguished father and grandfather in entering public life and

WHEREAS Mr Williams served in the General Assembly of this State in 1922 1923 and 1924 and was then elected as the Senator from Passaic County he then being the youngest man in this State to hold that office and

WHEREAS Besides his service in the Legislature Senator Williams also rendered public service as a member of the State Board of Education and

WHEREAS Senator Williams greatest public influence was wielded through his newspaper the Paterson Morning Call where during a period of upwards of a quarter of a century he maintained as a policy of the newspaper a high editorial standard and was ever ready to defend the rights of the minorities and

WHEREAS Senator Williams influence will long remain and his life will be an example and a criterion to those who follow him in his chosen field now therefore

Be It Resolved By the General Assembly of the State of New Jersey that public expression be hereby given to the esteem in which Senator Williams has been held and appreciation be expressed for his countless and valuable civic service and

Be It Further Resolved That sincere condolences and sympathy are hereby extended to his family and

Be It Further Resolved That a copy of this resolution be spread upon the minutes of the General Assembly and a

copy signed by the Speaker and attested by the Clerk be sent to the family of Senator Williams

A message was received by the Secretary of the Senate as follows—and was read by the Clerk

DEAR SIR

It is with considerable pride and pleasure that the members of the New Jersey Air Pollution Control Commission present you with the enclosed report of AIR POLLUTION CONTROL IN NEW JERSEY

You will note in the report that the Commission has promulgated five chapters to a New Jersey Air Pollution Control Code. These chapters regulate air pollution resulting from open burning operations smoke from combustion processes and fly ash from burning of solid fuel. Additional chapters to control other types of air pollution are now under active consideration.

Members of the Commission believe it desirable to report from time to time on how they are carrying out their responsibilities assigned in Chapter 212 of the Public Laws of New Jersey better known as the New Jersey Air Pollution Control Act (1954). We trust this report fulfills that purpose.

Sincerely yours

S/ WILLIAM R. BRADLEY

Mr Brady offered the following resolution which was read by the Clerk and adopted

WHEREAS Commending WPIX Channel 11 for their presentation of The Russian Revolution on Tuesday evening April 1 1958 The program covered twenty tumultuous years from Czar Nicholas II to Lenin highlighting the massive revolt of the Russian people against the Czar and the bloody civil war that followed and

WHEREAS Actual eye witness films of the violent social and political eruption that changed the course of modern history were featured in the program and

WHEREAS It was an impressive event in television a revealing documentary of Russian freedom won and lost and

WHEREAS The program opened with the life of the Czar his court and his family including scenes with the Czarina the Czarovitch and the legendary Grand Duchess Anastasia and

WHEREAS The program covered the abject life of the Russian peasantry to the beginning of World War I the first movement of revolt following the Czar's decision to take personal command of the army the starving populace turning out in the streets of Petregard forcing the Czar to abdicate the horrors of civil war and counter revolution with the unlimited slaughter unleashed by the Bolshevik victors and the final surrender to the promises of Trotsky and Lenin of a people who had reached the breaking point after existing for years in a political and economic devot and could bear no longer the wanton Bolshevik executions and

WHEREAS After seeing history in this manner one can more clearly understand how the Russian people were forced into their present status under the Communist dictators It is ironic that The Russian Revolution with its promise of freedom to the millions of Russian peasantry ended with the bloody Bolshevik counter revolution that gave the Communists absolute control of all Russia and after 40 years the Communist control still holds the Russian people in slavery and

WHEREAS WPIX Channel 11 is to be congratulated for presenting this timely story which helped to provide an understanding of the events that led to the present enslavement of the Russian people and consequently current world conditions now therefore

Be It Resolved That programs of this nature which describe historic events in an interesting and informative format help to enlighten the public to better understand the present chaotic state of the world today and are indeed a much needed and welcome addition to television viewing and

Be It Further Resolved That a copy of this resolution signed by the Speaker and attested by the Clerk be sent to Fred M Thrower Vice President and General Manager of WPIX Channel 11

Be It Resolved That Assembly Bill No 432 be recommit
ted to the Business Affairs Committee for purposes of
amendment

Mrs Savage offered the following resolution which was
read by the Clerk and adopted

WHEREAS former Senator Captain Thomas A Mathis
of Ocean County died on Sunday May 18 1958 at his
home in Toms River and

WHEREAS Thomas A Mathis affectionately known as
Captain Tom has long been one of most colorful and im
portant leaders in public life for the last fifty and more
years and

WHEREAS Until recently Captain Tom has often been in
attendance at the State House where he was always wel
comed by a host of friends and associates and

WHEREAS Not long ago Captain Tom said that he ex
pected to live to be one hundred years old and that he
would celebrate that event by having a party and inviting
everybody to it but now as he was nearing his eighty ninth
birthday he has died without reaching the advanced age of
one hundred years but nevertheless has earned a tribute
for the past half century of public services and

WHEREAS As he often claimed he was a political leader and not a political boss and undoubtedly he was one of the foremost political leaders of the State as well as of his County of Ocean and

WHEREAS The Republican political organizations of his county were customarily referred to by his initials T A M as TAM Clubs which was an indication of how their leader was respected and admired and

WHEREAS Captain Tom came by his nickname rightfully for his following the sea for more than 30 years and his holding of a Master Mariner's license and

WHEREAS Captain Tom in his seafaring years followed in the footsteps of his father his grandfather and his uncles and as he said his family probably would have thought there was something wrong with him if he had not gone to sea and

WHEREAS As was typical of Captain Tom he distinguished himself in each of his careers and in this phase of his life he was First Officer of J Pierpont Morgan's famed yacht The Corsair and for 11 years commanded the America's Cup Defender the Columbia and

WHEREAS Soon after moving to Tuckerton he entered politics and was elected to the borough council and

WHEREAS In 1909 he moved to Toms River and continued to reside there engaging in the business of an automobile dealer and as an insurance broker and

WHEREAS He was first elected to the State Senate in 1909 and then again in 1913 and twice thereafter and served as the Senator from Ocean County in 1910 1914 to 1916 1923 to 1931 and 1943 to 1946 and

WHEREAS, Senator Mathis was Majority Leader of the Senate in 1928 and President of the Senate in the following year and

WHEREAS In 1929 and 1930 Senator Mathis served as Acting Governor and

WHEREAS Thereafter Senator Mathis again occupied a seat in the Senate serving his county once again after his

son W Steelman Mathis resigned from his seat in the Senate to serve in the Coast Guard during World War II and

WHEREAS Senator Mathis served his county as County Treasurer and continued to be active in his business interests and as an important political figure in the State and

WHEREAS Captain Tom was a delegate to several Republican National Conventions which nominated his party's candidate for President and Vice President of the United States and

WHEREAS Captain Tom was widely known in fishing boating and hunting circles and as a member of many clubs although he modestly disclaimed that he was a golfer and

WHEREAS His memory will linger for many a year to come with the pleasant recollection of his geniality and kindness and his memory will inspire many with a sense of loyalty to friends and associates and steadfast adherence to political principles now therefore

Be It Resolved By the General Assembly of the State of New Jersey that public expression is hereby given to the esteem in which Captain Thomas A Mathis has been held and appreciation is expressed for his countless and valuable services to the State and particularly to his town of Toms River and to his county of Ocean and

Be It Further Resolved That sincere condolences and sympathy are hereby extended to the family of the late Captain Thomas A Mathis and

Be It Further Resolved That this resolution signed by the Speaker and attested by the Clerk be sent to the family of Captain Thomas A Mathis

STATE OF NEW JERSEY
SENATE CHAMBER

Mr Speaker

May 26 1958

I am directed by the Senate to inform the General As
sembly that the Senate has passed the following concurrent
resolution

SENATE CONCURRENT RESOLUTION NO 19 BY
SENATORS FOX AND COWGILL

A CONCURRENT RESOLUTION MEMORIALIZING THE
FEDERAL COMMITTEE ON STANDARD METROPOLI
TAN AREAS AND NEW JERSEY MEMBERS OF CON
GRESS TO CREATE TWO ADDITIONAL STANDARD
METROPOLITAN AREAS FOR NEW JERSEY

WHEREAS The Federal Bureau of the Budget with the
advice of the Federal Committee on Standard Metropolitan

Areas is presently revising the list of Standard Metropolitan Areas as heretofore designated and is adding such new metropolitan areas as may be found consistent with changed conditions in preparation for the 1960 Federal Census and

WHEREAS The State of New Jersey the most urbanized in the nation is presently enjoying only two such ratings to wit Trenton our State Capital and Atlantic City our nationally known seashore resort and

WHEREAS The cities of Newark the largest in northern New Jersey with a population of over 450 000 and Camden the largest in southern New Jersey with a population of over 125 000 qualify in their own right but because of their proximity respectively to the cities of New York and Philadelphia have for the past twenty seven years been without the many benefits accruing from such a rating and have in fact been blacked out by being treated as parts of these two giant metropolitan areas having as their central core cities located outside the boundaries of this State and

WHEREAS The cities of Newark and Camden have both greatly expanded their areas of economic influence and have long since met and surpassed all the usual federal requirements of qualification as independent metropolitan areas and

WHEREAS These cities are in fact experiencing today tremendous urban renewal undertakings in their downtown districts thus making them more important than ever to their constantly expanding suburban environment and

WHEREAS These two New Jersey cities if they were presently rated independently of their geographical proximity to New York and Philadelphia respectively would be well up on the list of over 150 cities enjoying the economic planning and many other benefits deriving from a metropolitan area rating now therefore

Be It Resolved By the Senate of the State of New Jersey (the General Assembly concurring) that the New Jersey Legislature assembled in Trenton at its 1958 session hereby urges the Federal Bureau of the Budget and the Federal Committee on Standard Metropolitan Areas to establish forthwith for the cities of Newark and Camden indepen

dent standard metropolitan area ratings separately and apart from their giant neighbors and

Be It Further Resolved That our New Jersey delegation in Congress be asked to lend such aid and support to this request as will bring about as quickly as possibly this vitally important objective

In which the concurrence of the General Assembly is requested

HENRY H PATTERSON

Secretary of the Senate

Mr Kurtz moved that the General Assembly concur in Senate Concurrent Resolution No 19

Mr Spiezio addressed the General Assembly briefly

Mr Haines offered the following resolution which was read by the Clerk adopted

Be It Resolved That Assemblyman David I Stepacoff be made co sponsor of Assembly Bills Nos 33 and 34

The Clerk read the following message from the Governor

STATE OF NEW JERSEY
EXECUTIVE DEPARTMENT

November 10 1958

ASSEMBLY BILL NO 500

To the General Assembly

Pursuant to Article V Section I paragraph 15 of the Constitution I appended to Assembly Bill No 500 at the time of signing it a statement of certain items or parts thereof to which I objected so that such items or parts thereof should not take effect

The items or parts thereof to which I objected were

To the Speaker of the General Assembly for transfer to legislative commissions for expenses thereof when resolutions provide therefor	\$50 000 00
---	-------------

To the President of the Senate for transfer to legislative commissions for expenses thereof when resolutions provide therefor	50 000 00
---	-----------

\$100 000 00

In a statement appended to Senate Bill No 300 of the 1956 Legislative Session being the General Appropriation Act for the 1956 57 fiscal year I objected *inter alia* to a similar item In the message to the Senate concerning that item it was pointed out

With respect to the \$100 000 00 item designated Legislative Commissions Fund for transfer to legislative commissions for administrative expenses when resolutions of either or both houses of the Legislature as the case may be provide therefor I do not believe that this would establish a desirable precedent No such general fund available merely by resolution of the Legislature or of either house has existed in the past It has been the practice to request and appropriate specific amounts for specific commissions There is no reason which would warrant deviation from the established salary budget practice

My reasons for so acting at that time apply equally to Assembly Bill No 500

In addition funds appropriated in such a general and vague manner are subject to use in ways that may be unwise or otherwise not in the public interest Judging from past experience this risk seems to be especially high in the months preceding the November elections when some commissions tend to become unusually active

It also seems inequitable to provide funds to meet the expenses of unidentified legislative commissions whether of present or future existence when the Legislature has so far failed to discharge the State's obligation to those persons who labored on its behalf following the shocking disclosures which came to light in the 1954 investigation of the Division of Employment Security

It should be observed that these items totalling \$100 000 00 were not a part of the original appropriation bill but were added by Senate amendment It should also be observed that at about the same time the Senate refused to provide what I believe to be necessary revenues to balance appropriations as a result of which the total estimated resources available exceed total appropriations in

Assembly Bill No 500 by only \$344 606 00 This is less than one tenth of 1% of total appropriations and I consider it to be unwise especially in the light of the uncertainties generated by present business conditions and the impact they may have upon estimated revenues

For these reasons I objected to the items or parts thereof noted above in Assembly Bill No 500 and I am attaching hereto a copy of my statement in connection therewith

Respectfully

ROBERT B MEYNER

Mr Bowkley and Mr Bateman offered the following resolution which was read by the Clerk and adopted

WHEREAS The Honorable Samuel L Bodine of Flemington New Jersey for many years a member of the New Jersey Senate departed this life on Monday September 15 1958 after having spent a large part of his life in the service of his home town his county the State of New Jersey and his political party

Senator Bodine was a native of Hunterdon County in which county he lived during all of his life

He was born in Pittstown in that county he was a graduate of Flemington High School and of Lafayette College of the class of 1920 and he lived and was engaged in business in Flemington in Hunterdon County until the time of his death

He served as Mayor of the Borough of Flemington and as a member of the Hunterdon County Board of Chosen

Freeholders of the county for two terms and in November 1943 he was elected to the New Jersey Senate as Senator from Hunterdon County to which office he was again elected in 1945 and 1948

He was Majority Leader of the Senate in the 1949 Session and President of the Senate in the 1950 Session during which latter year he served from time to time as Acting Governor of the State

Senate Bodine was an important figure in the Republican Party in his county and the State for many years In 1953 he was elected Chairman of the Republican State Committee and he held that office at the time of his death In this office his leadership of his Party contributed greatly to its success in many important political campaigns including that which resulted in the election of Senator Case to the United States Senate and that which resulted in the election of President Eisenhower for his second term

Notwithstanding his active participation in politics in the Senate for many years Senator Bodine by reason of his genial personality high standards of integrity and statesmanlike ability gained and maintained friendship with a host of personal friends and acquaintances which consisted not only of the members of his own Party but of those of the opposite Party as well and his passing is mourned as the loss of a true friend by all who knew him and

WHEREAS The General Assembly of the State of New Jersey is desirous of expressing its regret at the passing of one of its most distinguished citizens and public servants and perpetuating the memory of his many achievements now therefore

Be It Resolved By the General Assembly of the State of New Jersey that public expression is hereby given to the deep regard in which the late Samuel L Bodine was held by the members of this House and to their appreciation of the many memorable contributions to the public service made by him during his lifetime and they hereby extend to his family their sincere condolences and sympathy and

WHEREAS The State of New Jersey has no rules and regulations concerning the removal of existing fire hazards in old school structures presently in use and

WHEREAS The safety of our children teachers and others occupying schools requires the immediate removal of all fire hazards now therefore

Be It Resolved by the General Assembly of the State of New Jersey

1 The New Jersey State Board of Education is directed to re examine its rules and regulations and its inspection practices with respect to all school construction

2 The Commissioner shall establish an advisory group representative of urban and rural fire department and safety specialists to assist The Department of Education in such study and re examination

3 A construction code shall be prepared which will pro

mulgate rules and regulations for fire precautions in school buildings whether new or old

4 Such rules and regulations shall provide that the local Boards of Education be directed to remove forthwith any fire hazard which may exist in old or new school buildings when officially notified in writing by the local Fire Department of the existence of such fire hazards

5 A copy of this resolution signed by the Speaker and attested by the Clerk shall be sent to the Commissioner of Education
