 The COVID-19 crisis continues to affect our region's domestic and international air passenger traffic. Total passenger volume sank by 82.1 percent year-over-year in the month of September – down 9.43 million travelers. Accounting for nearly 75 percent of the region's total air traveler volume, the domestic sector recorded a 78.5 percent plunge – down 5.589 million passengers. International passenger activity fell by 88.1 percent – down 3.839 million travelers. Driven by the international sector's seventh straight monthly double-digit decline (-22,031 short tons / -12.3 percent), the region's total air freight volume fell 12.3 percent (-22,031 short tons). Domestic cargo was far more resilient, recording growth of 13,819 short tons (+20.8 percent), as JFK, EWR, and SWF grew their domestic cargo traffic by jointly handling 13,974 additional short tons compared to September 2019.
