

(d) Demolition permit fees: Permit fees for demolition of a building or structure shall be a flat fee. This fee may vary according to type of structure or whether there has been a condemnation, but this shall be clearly indicated in the ordinance and schedule.

(e) Sign permit fees: The fee for a permit to construct a sign shall be either based upon the square foot area of the surface of the sign, computed on one side only for double-faced signs, or a flat fee per sign.

(f) Certificate fees:

1. The fee for a certificate of occupancy for new construction shall be computed as a percentage of the fee to be charged for the construction permit. This percentage shall be an amount sufficient to cover the actual costs for processing the certificate of occupancy. In the alternative, the municipality may establish a flat fee for the certificate of occupancy.

2. The municipality shall establish a flat fee for certificate of continued occupancy, for certificate of occupancy granted pursuant to a change of use, for multiple certificates of occupancy (as for a shopping center), and similar conditions.

3. The fee for the first issuance and the renewal of a temporary certificate of occupancy shall not exceed \$30.00.

i. Exception: There shall be no fee for the first issuance of the temporary certificate of occupancy provided the certificate of occupancy fee is paid at that time.

4. Where a written request for a temporary certificate of occupancy is made for reasons other than uncompleted work covered by the permit (such as prior approvals from state or municipal agencies), the duration of the temporary certificate of occupancy shall be reasonably consistent with the time required for compliance with the conditions of the prior approval.

5. There shall be no fee charged for a certificate of approval issued pursuant to N.J.A.C. 5:23-2.23(j).

6. There shall be no fee for a certificate of compliance.

(g) Elevator, backflow preventer and cross connection fees are as follows:

1. The fee for a permit to install an elevator device shall be a flat fee. The fee may vary for different types of inspections, tests and elevator devices.

2. The fees for inspections and witnessing of tests for an elevator, escalator, moving walk, dumbwaiter or other elevator device shall be flat fees. These fees may vary for different required inspections and tests, but any variation shall be set forth in the ordinance and the schedule.

3. The categories of municipal elevator fees shall be identical to the categories of elevator fees listed at N.J.A.C. 5:23-12.6(a) and (b).

4. For cross-connections and backflow preventers that are subject to testing and require reinspection, the fee shall be a flat fee.

(h) No special fee shall be established for any class or type of work which is undertaken as a part of work authorized by a construction permit, except elevator and sign permits as herein provided. Other special fees may be established for work regulated by the code but not undertaken as a part of the new construction project. Such special fees shall be flat fees.

(i) Rules concerning the appeal of fees are:

1. Whenever any person shall believe that the fees established by a municipality, pursuant to this subsection, fail to meet the standards of this section for establishing fees, that person shall be entitled to petition the commissioner for a review of the fee schedule in question.

i. Any such petition shall state the name, place of residence and the manner in which the fee schedule affects the petitioner. It shall further state the manner in which the petitioner believes the fees established to be inconsistent with the standards established herein.

ii. If, upon investigation, the commissioner determines that there is reason to believe that the fees in question do not meet the standards established herein, then the commissioner shall set a time and the place for a hearing. The purpose of the hearing shall be to determine the facts.

iii. No such hearing shall be called except upon 30 days notice to the municipality and the petitioner. The municipality shall be required to furnish such information concerning construction volume, construction activity, and local enforcing agency costs as the commissioner may require in order that a determination may be made.

iv. As soon as practical after the conclusion of such a hearing, the commissioner shall make a finding and determination as to whether the fee schedule in question, as a whole or in any of its parts, conforms or fails to conform to the standards established in this section.

2. In addition to any other actions that he may take upon determining that the fees established by a municipality fail to meet the standards of this section, the commissioner may order the repayment of the excess amount of such fees to the persons who have paid them.

3. Any appeal of hourly charges imposed pursuant to (l) below shall be made in accordance with N.J.S.A. 40:55D-53.2a and N.J.A.C. 5:23A.

(j) Fees to be charged by municipalities where private on-site inspection and plan review agencies carry out subcode official responsibilities shall not exceed those amounts to be paid to those private agencies for those services, pursuant to the contract between the private agency and the municipality, plus such amount as may be sufficient to cover a proportionate share of administrative costs incurred by the local

enforcing agency in connection with inspections performed by private agencies.

(k) The fee charged for the annual electrical inspection of swimming pools, spas or hot tubs shall be a flat fee and the amount of the fee shall be set to cover the costs.

(l) Fees for development-wide inspection of homes after issuance of a certificate of occupancy shall be in accordance with N.J.A.C. 5:23-4.17(d).

5:23-4.19 New Jersey State permit surcharge fees

(a) In order to provide for the training and certification and technical support programs required by the Act, an enforcing agency, including the Department when acting as the local agency, shall collect a surcharge fee to be based upon the volume of new construction within the municipality. Said fee shall be accounted for and forwarded to the Division of Codes and Standards in the manner herein provided.

(b) Amount: This fee shall be in the amount of \$0.00265 per cubic foot volume of new buildings and additions. Volume shall be computed in accordance with N.J.A.C. 5:23-2.28. The fee for all other construction shall be \$1.35 per \$1,000 of value of construction.

1. No fee shall be collected for preengineered systems of commercial farm buildings.

2. No fee shall be collected for permits to perform asbestos abatement or lead abatement.

3. No fee shall be collected for permits for the construction or rehabilitation of residential units that are to be legally restricted to occupancy by households of low or moderate income, as defined in N.J.A.C. 5:43-1.5.

4. No fee shall be collected for demolition of buildings or structures.

5. No fee shall be collected for work consequential to a natural disaster when the local code enforcement agency is waiving its fee.

(c) Remitting and reporting:

1. The municipality shall remit fees to the Bureau on a quarterly basis, in conjunction with report number R-840B State Training Fee Report in accordance with N.J.A.C. 5:23-4.5(e). Fees remitted shall be for the quarter. Checks shall be made payable to "Treasurer, State of New Jersey."

Amended by R.1982 d.220, effective July 19, 1982.

5:23-4.20 Department fees

(a) General:

1. The fee for plan review, computed as a percentage of the fee for a construction permit, shall be paid at the time of application for a permit. The amount of this fee shall then be deducted from the amount of the fee due for a construction permit, when the permit is issued. Plan review fees are not refundable.

2. The fee to be charged for a construction permit will be the sum of the basic construction fee plus all applicable special fees, such as elevator or sign fees. This fee shall be paid before a permit is issued.

3. The fee to be charged for a certificate of occupancy shall be paid before a certificate is issued. This fee shall be in addition to the construction permit fee.

4. Where the Department, pursuant to N.J.A.C. 5:23-4.24, is designated as the plan review agency, or when the Department has been requested to provide plan review services by a municipality pursuant to N.J.A.C. 5:23-4.24, or when the Department is designated as the local enforcing agency pursuant to N.J.A.C. 5:23-4.3, the following schedule of fees shall pertain.

5. The construction or rehabilitation of residential units that are to be legally restricted to occupancy by households of low or moderate income shall be exempted from the fees set forth in (b) and (c) below and otherwise payable to the Department.

6. No fee shall be collected for work consequential to a natural disaster when the Department is the local enforcing agency.

(b) Departmental plan review fee:

1. The plan review fee for new construction shall be based upon the volume of the structure.

i. For buildings or structures in Use Groups A, F or S, the plan review fee shall be \$.010 per cubic foot;

ii. For health care facilities in Use Groups B or I, the plan review fee shall be \$.022 per cubic foot; and

iii. For all other buildings or structures, the plan review fee shall be \$.016 per cubic foot.

2. The plan review fee for renovations, alterations, repairs, site construction associated with pre-engineered systems of commercial farm buildings, premanufactured construction and external utility connections for premanufactured construction shall be based upon the estimated cost of work.

i. For health care facilities in Use Groups B or I, the fee shall be \$14.00 per \$1,000 or part thereof for estimated cost not exceeding \$50,000, \$11.00 per \$1,000 or part thereof for estimated cost in excess of the first \$50,000 and not exceeding \$100,000, and \$9.00 per \$1,000 or part thereof for estimated cost in excess of the first \$100,000; and

ii. For all other buildings or structures, the fee shall be \$10.00 per \$1,000 or part thereof for estimated cost not exceeding \$50,000, \$8.00 per \$1,000 or part thereof for estimated cost in excess of the first \$50,000 and not exceeding \$100,000, and \$7.00 per \$1,000 or part thereof for estimated cost in excess of the first \$100,000.

3. The elevator device plan review fee shall be as set forth in (c)6 and 7 below.

4. There shall be an additional fee of \$45.00 per hour for review of any amendment or change to a plan that has already been released.

5. In any case where the Department conducts plan review for a local enforcing agency, the fee charged by the local enforcing agency for inspection services shall be 80 percent of the fee that would otherwise be determined under the local fee schedule.

(c) Departmental (enforcing agency) fees shall be as follows:

1. The fee for plan review shall be 20 percent of the amount to be charged for a construction permit.

i. The elevator device plan review fee shall be as in (c)6 and 7 below.

ii. The fee for plan review for Statewide prototype plans released by the Department or for other prototype plans where the prototype did not include the foundation detail shall be five percent of the amount to be charged for a construction permit.

2. The basic construction permit fee shall be the sum of the parts computed on the basis of the volume or cost of construction, the number of plumbing fixtures and pieces of equipment, the number of electrical fixtures and rating of electrical devices, the number of sprinklers, standpipes and detectors (smoke and heat) at the unit rates and/or the applicable flat fees as provided herein plus any special fees.

i. Building volume or cost: The fees for new construction or alteration are as follows:

(1) Fees for new construction shall be based upon the volume of the structure. Volume shall be com-

puted in accordance with N.J.A.C. 5:23-2.28. The new construction fee shall be in the amount of \$0.027 per cubic foot of volume for buildings and structures of all use groups and types of construction as classified and defined in chapters 3 and 6, respectively, of the building subcode; except that the fee shall be \$0.015 per cubic foot of volume for use groups A-1, A-2, A-3, A-4, A-5, F-1, F-2, S-1 and S-2, and the fee shall be \$0.0008 per cubic foot for structures on farms, including commercial farm building under N.J.A.C. 5:23-3.2(d), with the maximum fee for such structures on farms not to exceed \$1,145.

(2) Fees for renovations, alterations and repairs or site construction associated with pre-engineered systems of commercial farm buildings, premanufactured construction, and the external utility connection for premanufactured construction shall be based upon the estimated cost of work. The fee shall be in the amount of \$24.00 per \$1,000. From \$50,001 to and including \$100,000, the additional fee shall be in the amount of \$18.00 per \$1,000 of estimated cost above \$50,000. Above \$100,000, the additional fee shall be in the amount of \$15.00 per \$1,000 of estimated cost above \$100,000. For the purpose of determining estimated cost, the applicant shall submit to the Department such cost data as may be available produced by the architect or engineer of record, or by a recognized estimating firm, or by the contractor. A bona fide contractor's bid, if available, shall be submitted. The Department shall make the final decision regarding estimated cost.

(3) Fees for additions shall be computed on the same basis as for new construction for the added portion.

(4) Fees for combination renovations and additions shall be computed as the sum of the fees computed separately in accordance with items (2) and (3) above.

(5) The fee for tents, in excess of 900 square feet or more than 30 feet in any dimension, shall be \$92.00.

(6) The fee for roofing and siding work completed on structures of Group R-3 or R-5 shall be \$46.00.

(7) The fee for an above-ground swimming pool shall be \$100.00 for a pool with a surface area greater than 550 square feet; the fee in all other cases shall be \$50.00. The fee for an in-ground swimming pool shall be \$150.00 for a pool with a surface area greater than 550 square feet; the fee in all other cases shall be \$75.00.

(8) Fees for retaining walls shall be as follows:

(A) The fee for a retaining wall with a surface area greater than 550 square feet that is associated

with a Class 3 residential structure shall be \$150.00;

(B) The fee for a retaining wall with a surface area of 550 square feet or less that is associated with a Class 3 residential structure shall be \$75.00;

(C) The fee for a newly constructed retaining wall of any size at other than a Class 3 residential structure shall be based on the cost of the construction.

ii. Plumbing fixtures and equipment: The fees shall be as follows:

(1) The fee shall be in the amount of \$10.00 per fixture, piece of equipment or appliance connected to the plumbing system, and for each appliance connected to the gas piping or oil piping system, except as indicated in (c)2ii(2) below.

(2) The fee shall be \$65.00 per special device for the following: grease traps, oil separators, refrigeration units, utility service connections, backflow preventers equipped with test ports (double check valve assembly, reduced pressure zone and pressure vacuum breaker backflow preventers), steam boilers, hot water boilers (excluding those for domestic water heating), active solar systems, sewer pumps and interceptors. There shall be no inspection fee charged for gas service entrances.

iii. Electrical fixtures and devices: The fee shall be as follows:

(1) For the first block consisting of one to 50 receptacles, fixtures or devices, the fee shall be \$36.00; for each additional block consisting of up to 25 receptacles, fixtures or devices, the fee shall be \$6.00. For the purpose of computing this fee, receptacles, fixtures or devices shall include lighting fixtures, wall switches, convenience receptacles, sensors, dimmers, alarm devices, smoke and heat detectors, communications outlets, light-standards eight feet or less in height including luminaries, emergency lights, electric signs, exit lights or similar electric fixtures and devices rated 20 amperes or less including motors or equipment rated less than one horsepower (hp) or one kilowatt (kw).

(2) For each motor or electrical device rated from one hp or one kw to 10 hp or 10 kw; for each transformer or generator rated from one kw or one kva to 10 kw or 10 kva; for each replacement of wiring involving one branch circuit or part thereof; for each storable pool or hydro massage bath tub; for each under-water lighting fixture; for household electric cooking equipment rated up to 16 kw; for each fire, security or burglar alarm control unit; for each receptacle rated from 30 amperes to 50 amperes; for each light-standard greater than eight feet in height includ-

ing luminaries; and for each communications closet, the fee shall be \$10.00.

(3) For each motor or electrical device rated from greater than 10 hp or 10 kw to 50 hp or 50 kw; for each service equipment, panel board, switch board, switch gear, motor-control-center, or disconnecting means rated 225 amperes or less; for each transformer or generator rated from greater than 10 kw or 10 kva to 45 kw or 45 kva; for each electric sign rated from greater than 20 amperes to 225 amperes including associated disconnecting means; for each receptacle rated greater than 50 amperes; and for each utility load management device, the fee shall be \$46.00.

(4) For each motor or electrical device rated from greater than 50 hp or 50 kw to 100 hp or 100 kw; for each service equipment, panel board, switch board, switch gear, motor-control-center or disconnecting means rated from greater than 225 amperes to 1,000 amperes; and for each transformer or generator rated from greater than 45 kw or 45 kva to 112.5 kw or 112.5 kva, the fee shall be \$92.00.

(5) For each motor or electrical device rated greater than 100 hp or 100 kw; for each service equipment, panel board, switch board, switch gear, motor-control-center or disconnecting means rated greater than 1,000 amperes; and for each transformer or generator rated greater than 112.5 kw or 112.5 kva, the fee shall be \$457.00.

(6) The fee charged for electrical work for each permanently installed private swimming pool as defined in the building subcode, spa, hot tub or fountain shall be a flat fee of \$55.00 which shall include any required bonding, and associated equipment such as filter pumps, motors, disconnecting means, switches, required receptacles, and heaters, etc., excepting panelboards and underwater lighting fixtures. For public swimming pools, the fee shall be charged on the basis of number of electrical fixtures and rating of electrical devices involved in accordance with (c)2iii(1) through (5) above.

(7) The fee charged for the installation of single and multiple station smoke or heat detectors and fire, burglar or security alarm systems in any one or two-family dwelling shall be a flat fee of \$23.00 per dwelling unit. For fire, burglar and security alarm systems and detectors in buildings other than one or two-family dwellings, the fee shall be charged in accordance with (c)2iii(1) and (2) above.

(8) For installations consisting of multimeter stacks, the fee shall be based on the ampere rating of the main bus and not upon the number of meters or rating of disconnects on the meter stack. Individual

loadside panel boards shall be charged in accordance with (c)2iii(3), (4) or (5) above. There shall be no additional fee charged for the concurrent installation of individual feeder conductors.

(9) For motors or similar devices requiring concurrent installation of individual controls, relays and switches, the fee shall be based only upon the rating of the motor or device. There shall be no additional fee charged for the concurrent installation of individual circuit components, for example, controllers, starters, and disconnecting means.

(10) For electrical work requiring replacement of service entrance conductors or feeder conductors only, the fee shall be based on the designated ampere rating of the overcurrent device of the service or feeder as follows:

(A) 225 amperes or less, the fee shall be \$46.00;

(B) 226 to 1,000 amperes, the fee shall be \$92.00; and

(C) Greater than 1,000 amperes, the fee shall be \$457.00.

(11) The fee charged for process equipment shall be based on the ampere rating of the overcurrent device protecting the conductor feeding the process equipment or the cutoff device.

(12) For the purpose of computing these fees, all electrical and communications devices, utilization equipment and motors which are part of premises wiring, except those which are portable plug-in type, shall be counted.

(13) For photovoltaic systems, the fee shall be based on the designated kilowatt rating of the solar photovoltaic system as follows:

(A) One to 50 kilowatts, the fee shall be \$46.00;

(B) Fifty-one to 100 kilowatts, the fee shall be \$92.00; and

(C) Greater than 100 kilowatts shall be \$457.00.

iv. For fire protection and hazardous equipment, sprinklers, standpipes, detectors (smoke and heat), pre-engineered suppression systems, gas and oil fired appliances not connected to the plumbing system, kitchen exhaust systems, incinerators and crematoriums, the fee shall be as follows:

(1) The fee for 20 or fewer heads shall be \$65.00; for 21 to and including 100 heads, the fee shall be \$120.00; for 101 to and including 200 heads, the fee shall be \$229.00; for 201 to and including 400 heads, the fee shall be \$594.00; for 401 to and including

1,000 heads, the fee shall be \$822.00; for over 1,000 heads, the fee shall be \$1,050.

(2) The fee for one to 12 detectors shall be \$36.00; for each 25 detectors in addition to this, the fee shall be in the amount of \$12.00.

(3) The fee for each standpipe shall be \$229.00.

(4) The fee for each independent pre-engineered system shall be \$92.00.

(5) The fee for each gas or oil fired appliance that is not connected to the plumbing system shall be \$46.00.

(6) The fee for each kitchen exhaust system shall be \$46.00.

(7) The fee for each incinerator shall be \$365.00.

(8) The fee for each crematorium shall be \$365.00.

(9) For single and multiple station smoke or heat detectors and fire alarm systems in any one or two-family dwellings, there shall be a flat fee of \$23.00 per dwelling unit. For detectors and fire alarm systems in buildings other than one or two-family dwellings, the fee shall be charged in accordance with (c)2iv(2) above.

3. Fees for certificates and other permits are as follows:

i. The fee for a demolition or removal permit shall be \$65.00 for a structure of less than 5,000 square feet in area and less than 30 feet in height, for one- or two-family dwellings (Group R-3 or R-5 of the building subcode), structures on farms, including commercial farm buildings under N.J.A.C. 5:23-3.2(d), and \$120.00 for all other Groups.

ii. The fee for a permit to construct a sign shall be as follows:

(1) Fees for pylon signs shall be \$4.00 per square foot for the first 100 square feet, \$3.00 per square foot for the next 400 square feet and \$2.00 per square foot thereafter;

(2) Fees for ground signs or wall signs shall be \$2.00 per square foot for the first 100 square feet, \$1.50 per square foot for the next 400 square feet and \$1.00 per square foot thereafter;

(3) The minimum fee shall be \$46.00.

iii. The fee for a certificate of occupancy shall be \$28.00.

iv. The fee for a certificate of occupancy granted pursuant to a change of use group shall be \$120.00.

v. The fee for a certificate of continued occupancy issued under N.J.A.C. 5:23-2.23(c) shall be \$120.00.

vi. The fee for the first issuance and the renewal of a temporary certificate of occupancy shall be \$28.00.

(1) Exception: There shall be no fee for the first issuance of the temporary certificate of occupancy provided the certificate of occupancy fee is paid at that time.

(2) Exception: Where a written request for a temporary certificate of occupancy is made for reasons other than uncompleted work covered by the permit (such as uncompleted work required by prior approvals from state or municipal agencies), no renewal fee shall be charged.

vii. The fee for plan review of a building for compliance under the alternate systems and nondepletable energy source provisions of the energy subcode shall be \$274.00 for one- and two-family dwellings (Group R-3 or R-5 of the building subcode), and for light commercial structures having the indoor temperature controlled from a single point, and \$1,369 for all other structures.

viii. The fee for an application for a variation in accordance with N.J.A.C. 5:23-2.10 shall be \$594.00 for class I structures and \$120.00 for class II and class III structures. The fee for resubmission of an application for a variation shall be \$229.00 for class I structures and \$65.00 for class II and class III structures.

ix. The fee for a permit for lead hazard abatement work shall be \$140.00. The fee for a lead abatement clearance certificate shall be \$28.00.

4. For cross connections and backflow preventers that are subject to testing, requiring reinspection annually, the fee shall be \$46.00 for each device when they are tested.

5. Annual permit requirements are as follows:

i. The fee to be charged for an annual construction permit shall be charged annually. This fee shall be a flat fee based upon the number of maintenance workers who are employed by the facility, and who are primarily engaged in work that is governed by a subcode. Managers, engineers and clericals shall not be considered maintenance workers for the purpose of establishing the annual construction permit fee. Annual permits may be issued for building/fire protection, electrical and plumbing.

ii. Fees for annual permits shall be as follows:

(1) One to 25 workers (including foremen) \$667.00/worker; each additional worker over 25, \$232.00/worker.

(2) Prior to the issuance of the annual permit, a training registration fee of \$140.00 per subcode and a list of not more than three individuals to be trained per subcode shall be submitted by the applicant to the Department of Community Affairs, Bureau of Code Services, Education Unit along with a copy of the

construction permit (Form F170). Checks shall be made payable to "Treasurer, State of New Jersey." The Department shall register these individuals and notify them of the courses being offered.

6. The fee for plan review for elevator devices in structures of Group R-3, R-4, or R-5, and for elevator devices wholly within dwelling units in structures of Group R-2 shall be \$50.00 for each device.

7. The fee for plan review for elevator devices in structures of Groups other than R-3, R-4, or R-5 and devices in structures of Group R-2 exempted by (c)6 above shall be \$260.00 for each device.

8. The fees for elevator device inspections and tests shall be as set forth in N.J.A.C. 5:23-12.

9. The fee for a mechanical inspection in a structure of Group R-3 or R-5 by a mechanical inspector shall be \$43.00 for the first device and \$10.00 for each additional device. No separate fee shall be charged for gas, fuel oil, or water piping connections associated with the mechanical equipment inspected.

10. The fee for the annual electrical inspection of swimming pools, spas or hot tubs shall be \$36.00.

(d) The fee for an application by a manufacturer, distributor, owner or any other person for approval of any fixture, appurtenance, material or method, pursuant to N.J.A.C. 5:23-3.8, shall be an amount equal to the cost incurred, or to be incurred, by the Department for such tests as the Department may require, plus an administrative surcharge in the amount of 10 percent of such cost.

(e) Hourly charges and fees for development-wide inspection of homes after issuance of a certificate of occupancy shall be in such amount as may be reasonable and necessary in order to ascertain whether a violation exists or to verify that any work performed has abated the violation.

1. The hourly charge shall be the same as the hourly charge set forth at N.J.A.C. 5:23-4.20(b)4 times the number of hours spent by the code official in determining whether a violation exists or verifying that any work performed has abated the violations.

2. Any appeal of a charge levied by the Department pursuant to this subsection shall be made in accordance with N.J.A.C. 5:23-2.38.

5:23-4.23 Payment of fees

(a) All fees paid to the Department under the regulations shall be nonrefundable except as otherwise specifically set forth in the regulations. All fees shall be paid by check or money order, payable to the "Treasurer, State of New Jersey".

5:23-4.24 Plan review by the Department of Community Affairs

(a) There is established in the Department of Community Affairs, Division of Codes and Standards, a Bureau of Construction Projects Review, hereinafter "the plan review bureau." The plan review bureau shall review plans, applications and specifications submitted to the Department in its

enforcing agency capacity, and as further required or permitted by this section.

(b) Plan review:

1. Plan review shall be required for all uses except as may be otherwise provided in the regulations whenever the department acts as an enforcing agency in any municipality.

2. Special or hazardous uses and types of construction:

i. N.J.A.C. 5:23-3 divides all construction into three classes according to its 'complexity and potential hazard to the public health and safety. N.J.A.C. 5:23-5 provides for three levels of subcode official certification which correspond to the three classes in N.J.A.C. 5:23-5.

ii. For class 1, department plan review and release shall be required on the effective date of the regulations prior to the issuance of a construction permit unless the construction official and each appropriate subcode official in the municipal enforcing agency is certified by the commissioner as a class one construction official or subcode official.

iii. For class two, department plan review and release shall be required after January 1, 1981, prior to the issuance of a construction permit unless the construction official and each appropriate subcode official in the municipal enforcing agency is certified by the commissioner as a class one or class two construction official or subcode official.

iv. For class three, departmental plan review shall not be required except when the department acts as the enforcing agency.

v. Installations of elevators, escalators, and moving walks, except devices in structures of Group R-3, R-4, or R-5 and those devices in structures of Group R-2 that are otherwise exempted in N.J.A.C. 5:23-3.11(b), shall require Departmental plan review and release.

3. Premanufactured construction: Department plan review and release shall be required for all modular construction other than those authorized to be approved by an inplant inspection agency as provided in N.J.A.C. 5:23-4A.10.

(c) The plan review bureau shall review all applications, plans and specifications for conformance to the regulations.

(d) Plans reviewed by the Department that are judged to be in conformance with the regulations shall be stamped with the word "released" and signed and dated by the reviewing official of the Department.

(e) All plans submitted, and any amendments thereto, accompanied by the required fee, shall be numbered, docketed, and examined promptly after their submission for compliance with the regulations. In the case of plans submitted by an architect or engineer bearing his or her signature, registration number, and seal, plan examination may, except for compliance with exit requirements, be limited to a supervisory check.

(f) If the Department judges a plan not to be in conformance with the regulations, it shall notify the applicant in writing of the reason for rejection.

(g) The Department shall provide such technical assistance to the applicant as may be appropriate pursuant to the regulations.

(1) Area 1, Administration: Construction code administration's background, purpose, place in local government structure and relation to construction code administration programs at other levels of government. 5:23-5.21 Renewal of license or certification

(a) The Department may issue the appropriate license following submission of an application, payment of the required nonrefundable fee, and verification by the Licensing Unit of the Bureau of Code Services that the applicant meets the requirements for renewal of the license established herein.

(b) Every three years, any license already issued shall be renewed upon submission of an application, payment of the required nonrefundable fee, and verification by the Licensing Unit of the Bureau of Code Services that the applicant has met such continuing educational requirements as may be established by the Commissioner.

1. The Department shall renew the license previously issued for a term of three years; provided, however, that it may renew any such license for a shorter period of time if so requested by the licensee. The renewal period shall begin 90 days prior to the expiration dates, which shall be July 31 or January 31.

(c) The Department shall issue, upon application, a duplicate license wallet card of the appropriate type and specialty, upon a finding that the license has been issued, and that the applicant is entitled to such license wallet card to replace one that has been lost, destroyed, or mutilated. Payment of a fee of \$10.00 shall be required.

(d) Continuing education requirements are as follows:

1. The following continuing education requirements are based upon the type(s) of license(s) held, and not upon employment positions held. Continuing Education Units (CEUs) will be subject to approval by the Bureau of Code

Services. One CEU equals 10 contact hours. CEUs will be awarded both for technical and for administrative licenses.

- i. Inspector license only—1.5 CEU (technical);
- ii. Inspector and subcode official licenses—2.0 CEU's (1.5 technical and 0.5 administrative);
- iii. Inspector, subcode official and construction official licenses—2.5 CEU's (1.5 technical and 1.0 administrative).
- iv. Special inspector certifications — .5 CEU Technical

(1) No CEUs are required for certification renewal of special inspectors that are in possession of a current New Jersey license as an engineer.

2. If an individual adds an inspector license in a new subcode area to an existing license, there will be no additional continuing education requirement for the new licenses during that licensure period.

3. If an individual adds administrative licenses to an existing license, there will be no additional continuing education requirement for the new administrative license during that licensing period.

4. To maintain a mechanical inspector's license, 1.5 CEU (technical) shall be completed, as required by this section, in addition to any other CEU requirements for other licenses held.

5. The Department may determine that attendance at specific seminar(s) is mandatory for individual inspectors, subcode officials, or construction officials.

i. The Barrier Free Subcode seminar shall be a mandatory seminar. Each licensed building subcode official or building inspector shall have completed this course for license renewal on or after July 1, 1998. Barrier Free Subcode seminars completed after July 1, 1995 shall be counted toward meeting this requirement.

ii. The framing inspection seminar, which shall provide instruction in inspection methods and procedures, shall be a mandatory seminar. For licenses renewed on or after January 1, 2002, each licensed building inspector shall have completed the framing inspection seminar in order to renew his or her building inspector license(s). Beginning in the fall semester of 2001, the framing inspection seminar delivered through the Department's continuing education program shall be the only framing inspection seminar deemed to satisfy this requirement.

iii. If the Department establishes mandatory seminar(s), the seminar(s) will be offered in sufficient numbers and locations so as to facilitate compliance.

iv. For those code officials who do not complete the mandatory seminar(s), the Department shall offer either a special seminar or video seminar so the code official

may be in compliance. The Department shall charge a fee of \$50.00 per person to attend any video seminar or special seminar.

6. CEU credit for a given course shall be allowed with respect to all licenses held by a licensee to which the course may be applicable.

(e) Lapsed license renewal requirements are as follows:

1. Where the holder of a license has allowed the license to lapse by failing to renew the license as provided for in (b) above, a new application and license shall be required. If such application is made within three years of the license having lapsed, then application may be made in the same manner as a renewal application.

2. The late renewal application shall be accompanied by the appropriate renewal fee and an additional late fee of \$65.00 per year or fraction thereof.

3. Additionally, the licensee must make up or meet the annual continuing education training requirement for each active and expired year as specified herein.

4. Where a license has lapsed for a period exceeding three years, a new application shall be required in accordance with N.J.A.C. 5:23-5.5, and the applicant must meet all current licensure requirements.

(f) After revocation of a license upon any of the grounds set forth in these rules, the Licensing Unit may not renew or reinstate such license; however, a person may file a new application for a license with the Department.

(g) The Department shall not issue a new license to an applicant whose license was previously revoked unless and until the following conditions are met:

1. At least three years shall have passed since the effective date of the revocation of the previous license;

2. If the applicant was convicted of a crime related in any way to code enforcement, the Department shall have determined in light of the factors set forth in N.J.S.A. 2A:168A-2, that the applicant has been fully rehabilitated and that licensing the applicant would not be detrimental to the public welfare;

3. The applicant shall have made full restitution to any person who sustained a loss as a result of the act or omission for which the previous license was revoked; and

4. All conditions imposed by the order of revocation shall have been complied with.

5:23-5.22 Fees

(a) No application for a license shall be acted upon unless said application is accompanied by a non-refundable fee as specified herein.

1. A non-refundable application fee of \$65.00 shall be charged in each of the following instances:

i. Application for any one given technical license specialty, or for the Inplant Inspector or Mechanical Inspector license.

ii. Application for any one given technical license specialty plus the related Subcode Official license, if both are applied for at the same time.

iii. Application for any one given technical license specialty plus the related Subcode Official license, as well as the Construction Official license, if all three are applied for at the same time.

iv. Application for special inspector certification.

2. A non-refundable application fee of \$35.00 shall be charged for each administrative license applied for separately from a technical license.

3. Persons rejected for one or more licenses, and who subsequently reapply, are subject to the fee schedule as defined in (a)1i, ii and iii above.

4. Renewal fee: The three year renewal application fee shall be \$65.00.

5. Persons who have become ineligible to retain their administrative license by reason of failure to remove the provisional status of such license within the prescribed two-year period must submit a non-refundable application fee of \$35.00 in order to reapply for said administrative license without recourse to any further provisional status privilege.

6. Registration and examination fees for the certification of construction code officials: The fee schedule shall be as submitted by the administrative agency of the examination program to the Department.

5. Elevator inspector H.H.S.;
6. Mechanical inspector H.H.S.; and
7. Inplant inspector.

(b) In instances where more than one license level within a given subcode area requires the successful completion of one or more examination modules, award of the higher level license specialty will be dependent upon successful completion of the educational program in accordance with N.J.A.C. 5:23-5.20 and the examination module(s) required for the lower level license, or possession of the applicable lower level license.

(c) Applicants for the licenses listed above shall demonstrate minimum competence by the successful completion of the applicable examination modules of any national testing program for construction code inspectors program approved by the Department.

(d) Requirements for specific licenses shall be as follows:

1. Examination requirements for building inspector R.C.S. shall be the successful completion of the following examination modules: building, one-and two-family dwelling, and mechanical, one-and two-family dwelling.
2. Examination requirements for building inspector I.C.S. shall be the successful completion of the following examination modules: building, general and mechanical, general.
3. Examination requirements for building inspector H.H.S. shall be the successful completion of the following examination module: building, plan review.
4. Examination requirements for electrical inspector I.C.S. shall be the successful completion of the following examination modules: electrical, one-and two-family dwelling, and electrical, general.

5. Examination requirements for electrical inspector H.H.S. shall be the successful completion of the following examination module: electrical, plan review.

6. Examination requirements for fire protection inspector I.C.S. shall be the successful completion of the following examination modules: fire protection, general, and mechanical, one and two-family dwelling.

7. Examination requirements for fire protection inspector H.H.S. shall be the successful completion of the following examination module: fire protection, plan review.

8. Examination requirements for plumbing inspector I.C.S. shall be the successful completion of the following examination modules: plumbing, general, and mechanical, general.

9. Examination requirements for plumbing inspector H.H.S. shall be the successful completion of the following examination module: plumbing, plan review.

10. Examination requirements for implant inspector shall be the successful completion of the following examination modules: building, one and two-family dwelling; electrical, one and two-family dwelling; mechanical, one and two-family dwelling; and plumbing, one and two-family dwelling.

11. Examination requirements for elevator inspector shall be the successful completion of the following examination module: elevator, general.

12. Examination requirements for mechanical inspector licensure shall be the successful completion of the following examination modules: mechanical, one and two-family dwelling; and mechanical, general.

(e) Information regarding the scheduling of examinations shall be available from the Licensing Unit and any testing agency approved by the Department to administer the examinations.

(f) Examinations shall be conducted in accordance with the rules and procedures established by any testing agency approved by the Department to develop or administer the examinations.

(g) After an examination has been completed and scored, applicants shall be notified of their final rating.

(h) The following records pertaining to every examination shall be preserved for a period of three years:

1. The resulting list of grades;
2. Such other records of information in the custody of the Department as may be pertinent.

 See: 14 N.J.R. 734(a), 14 N.J.R. 1449(a).

3. The asbestos safety technician shall ensure that:

i. The project site has been properly cleaned and is free of all visible dust and asbestos and asbestos-containing material; and

ii. All abated asbestos-containing material has been properly placed in a locked secure container outside of the work area.

4. If all is in order, and acceptable air results have been achieved, the asbestos safety technician shall issue a written notice of authorization to remove barriers from the work area.

(d) Final inspections shall be conducted as follows:

1. Upon notice by the owner or by the contractor and within 48 hours after the removal of the critical barriers, a final inspection shall be made to ensure the absence of any visible signs of asbestos or asbestos-containing materials and that all removed asbestos and asbestos contaminated materials have been properly disposed of off-site in accordance with the rules of the New Jersey Department of Environmental Protection and Energy, N.J.A.C. 7:26-1, which is referenced in N.J.A.C. 5:23-8.22.

2. The Department reserves the right to make a final inspection in addition to the required final inspection conducted by the asbestos safety technician before a certificate of occupancy is issued by the enforcing agency.

(e) The Department inspections shall be conducted as follows:

1. The Department shall make scheduled and/or unannounced periodic inspections of any work area involving asbestos abatement work for the purpose of enforcing this subchapter.

(f) Violations: The asbestos safety technician shall ensure that the work conforms to this subchapter. If it is found that the asbestos abatement work is being conducted in violation of this subchapter, the asbestos safety technician shall direct such corrective action as may be necessary. If the contractor fails to comply with the corrective action required, or if the contractor or any of their employees habitually and/or excessively violate the requirements of any rule, then the asbestos safety technician shall order, in writing, that the work be stopped. If the contractor fails to comply with the order, then the asbestos safety technician shall notify the enforcing agency, which shall issue a stop work order to the contractor, have the work area secured until all violations are abated, and assess a penalty, in accordance with N.J.A.C. 5:23-2.31, which shall not be reduced or settled for any reason.

5:23-8.8 Certificate of occupancy; certificate of completion

(a) Certificate of occupancy requirements are as follows:

1. It shall be unlawful to re-occupy the portion of a building that was vacated during an asbestos hazard abatement project until a certificate of occupancy has been issued by the enforcing agency. The certificate of occupancy shall be issued upon receipt of a certificate of completion issued by the asbestos safety control monitor and verified by the enforcing agency that the building or a portion of a building is in conformance with all applicable requirements of the Uniform Construction Code and that any walls, floors, trim, doors, furniture or other items damaged during the work shall be repaired or refinished to match existing materials.

2. The application for a certificate of occupancy shall be in writing and submitted in such form as the Department may prescribe and shall be accompanied by the required fee as provided for in this subchapter.

i. The application shall include the following:

(1) The name and address of the owner;

(2) The address of the building or structure;

(3) Certificate of Completion submitted by the asbestos safety control monitor.

3. If all the information required is complete and in accordance with this subchapter, a certificate of occupancy shall be issued.

(b) Certificate of Completion requirements are as follows:

1. It shall be unlawful to apply for a certificate of occupancy until a certificate of completion has been issued by the asbestos safety control monitor.

2. Within five days of completion of an asbestos hazard abatement project the owner/agent shall file for a certificate of completion from the asbestos safety control monitor.

3. The application for a certificate of completion shall be in writing and submitted in such form as the department may prescribe.

4. A Certificate of Completion shall be issued only if:

- i. All information is complete.
- ii. Final inspection by the asbestos safety technician reveals no visible evidence of asbestos.
- iii. All requirements of this subchapter have been met.
- iv. An acceptable final air monitoring level has been attained pursuant to N.J.A.C. 5:23-8.21 and documentation of that air level has been submitted in writing.

5:23-8.10 Asbestos safety technician

(a) Any candidate for certification as an asbestos safety technician shall submit an application to the Department accompanied by the required application fee established in (c) below. The requirements for certification as an asbestos safety technician are as follows:

1. At least 24 college credits in academic sciences, including biology, chemistry, industrial hygiene, environmental science, physics, geology or related fields; or one year of work experience which included performing environmental assessment activities, which may be substituted for this education requirement;

2. Successful completion of a course in air monitoring methods consisting of a minimum of 30 contact hours that shall include hands-on experience with using and calibrating various types of air monitoring equipment; or six months of work experience performing air monitoring including at least 30 hours of on-the-job training, which may be substituted for this education requirement;

3. Successful completion of a training course for asbestos worker/supervisors approved by the New Jersey Department of Health pursuant to N.J.A.C. 12:120 and N.J.A.C. 8:60;

i. One year of experience in monitoring asbestos abatement activities may be substituted for completion of an approved training course;

ii. Six months of experience monitoring asbestos abatement may be substituted for completion of an approved training course if the individual is an industrial hygienist certified by the American Board of Industrial Hygiene;

4. Successful completion of a course for asbestos safety technicians approved by the New Jersey State Department of Community Affairs;

5. Successful passing of an examination for asbestos safety technicians administered by the National Assessment Institute in cooperation with the National Asbestos Council, or any equivalent examination approved by the Department.

(b) The Department shall renew the certification following submission of an application, payment of the required fee pursuant to (c) below, and verification by the Department that the applicant meets the requirements for the certification in this section.

1. Every two years any certification already issued shall be renewed upon submission of an application, payment of the required fee, and verification by the Department that the applicant has met such continuing educational requirements as may be established by the Commissioner. The Department shall renew the certification previously issued for a term of two years. The renewal date shall be 45 days prior to the expiration date. The expiration dates shall be July 31 or January 31.

2. The Department shall issue, upon application, a duplicate certification upon a finding that the certification has been issued and the applicant is entitled to such certification to replace one which has been lost, destroyed, or mutilated. Payment of a fee as established by N.J.A.C. 5:23-8.10(c) shall be required.

3. The Department may establish by rule continuing education requirements as deemed necessary for the renewal of a certification.

(c) No application for certification or recertification shall be acted upon unless said application is accompanied by a \$52.00 fee.

(d) Duties of the asbestos safety technician shall be as follows:

1. The asbestos safety technician shall perform all air sampling specified in this subchapter, as delineated in N.J.A.C. 5:23-8.21 and shall be thoroughly familiar with this subchapter. He or she shall inform the department who his or her employer is at the time of his or her application for certification, and shall notify the department in writing within 10 working days of any change in status or employer. He or she shall have access to all areas of the asbestos abatement project at all times and shall continuously inspect and monitor the performance of the contractor to verify that said performance complies with this subchapter while work is in progress. The asbestos safety technician shall be on site from the initial preparation of the work area through the approved final visual inspection, and shall perform all inspections pursuant to N.J.A.C. 5:23-8.7.

2. The asbestos safety technician shall direct the actions of the contractor verbally and in writing to ensure compliance with this subchapter. The asbestos safety technician shall require that all workers present a valid asbestos worker performance permit issued by the New Jersey Department of Labor before entering the work area. In matters of negligence and/or flagrant disregard for the safety of any person, including the possibility of contaminating the building environment and the emergence of an unsafe condition at the work area, the asbestos safety technician shall direct such corrective action as may be necessary. If the contractor fails to take the corrective action, or if the contractor or any of his or her employees continually violates the requirements of any regulation, then the asbestos safety technician shall order, in writing, that the work be stopped. If the contractor fails to comply with the order, the asbestos safety technician shall notify the enforcing agency, who shall issue a Stop Work Order to the contractor and have the work area secured until all violations are abated.

3. The asbestos safety technician shall calculate, based on the actual available output (not the rated output) of the air filtering units, the required number of air filtration units for each work area. This calculation shall be made whenever the volume of the work area changes. The asbestos safety technician shall inform the owner, contractor, and the abatement project designer of any discrepancies between the number of units required and those in operation within the work area. If problems are identified and not corrected, the asbestos safety technician shall inform the enforcing agency who shall take necessary measures to ensure corrective action;

4. At the beginning of each work shift, every four hours thereafter, and at the end of the contractor's work day, the asbestos safety technician shall monitor pressure differential by digital manometers with continuous print-out or other approved low pressure monitoring devices for each work area. One or more separate monitoring systems shall be installed for every 10,000 square feet of separation surface adjacent to the work area. Pressure monitoring shall be representative of all adjacent areas. The pressure differential shall meet the minimum requirement set forth in N.J.A.C. 5:23-8.15(b)9 or 8.17(d)6i or 8.19(c)4ii, as appropriate.

5. The asbestos safety technician shall ensure that the contractor smoke tests all the glovebags after they are attached and before the commencement of work.

6. For unoccupied buildings, upon receipt of testing results indicating that concentrations above the acceptance criteria established in N.J.A.C. 5:23-8.21 have occurred during the abatement project, the asbestos safety technician shall immediately direct corrective action and verbally report these results within 24 hours to the contractor, the owner and the abatement project designer. Such verbal notification shall be followed by written notification to the contractor, the owner and the abatement

project designer. A copy shall be sent to the enforcing agency and the Department within three business days from receipt of the results. For occupied buildings, the procedure set forth at N.J.A.C. 5:23-8.19 shall be followed.

7. The asbestos safety technician shall monitor the removal of all asbestos-contaminated waste from the work area to ensure that it takes place in conformance with N.J.A.C. 5:23-8.22, in the following manner:

i. Direct removal by a collector/hauler registered with the New Jersey Department of Environmental Protection pursuant to N.J.A.C. 7:26 and pursuant to New Jersey Department of Transportation rules at N.J.A.C. 16:49.

ii. Indirect removal by placement in a locked and secure container, for temporary storage, awaiting the New Jersey Department of Environmental Protection registered waste hauler.

8. The asbestos safety technician shall keep an up-to-date and comprehensive daily log of on-site activities. The log shall be updated continuously. The name of the project, name of the asbestos safety technician, and date shall be recorded daily. Each entry shall contain the event, the time of event and shall be initialed by the asbestos safety technician. One section of the log shall contain observations concerning contractor compliance with activities required under this subchapter listing all deficiencies encountered. In addition, the log shall list the name of each person entering the work area. The log shall be a bound book and all entries shall be in ink. The log shall be kept at the project site and shall be made available upon request at all times to the owner, the abatement project designer and to appropriate local and State agencies.

9. The asbestos safety technician shall prepare a comprehensive final report to include daily logs, required inspection reports, observations and air monitoring results. This report shall be made part of the official record filed by the asbestos safety control monitor.

(e) Penalties: The Department may suspend or revoke a certification, or assess a civil penalty, in accordance with N.J.A.C. 5:23-2.31, for each offense, if the Department determines that an individual:

1. Has violated the provisions of the Uniform Construction Code regulations;
2. Has obtained a certification by fraud or misrepresentation;
3. Has aided or abetted in practice as an asbestos safety technician any person not authorized to practice as an asbestos safety technician under the provisions of this subchapter.
4. Has fraudulently or deceitfully practiced as an asbestos safety technician.

5. Has been grossly negligent or has engaged in misconduct in the performance of any of his duties;

6. Has failed to maintain a minimally acceptable level of competence;

7. Has been found to have accepted or failed to report an offer of a bribe or other favors in a proceeding under this act or other appropriate law of this or any other state or jurisdiction;

8. Has failed to comply with any order issued by the Department;

9. Has made a false or misleading written statement, or has made a willful material omission in any submission to the Department;

10. Has failed to enforce this subchapter; or

11. Has performed the duties of an asbestos safety technician without being certified as such.

(f) In addition to, or as an alternative to, revoking or suspending a certification or assessing a penalty, the Department may issue a letter of warning, reprimand, or censure with regard to any conduct which, in the judgment of the Department, warrants such a letter. Such letter shall be made a part of the certification file of the individual. A copy of such action shall be sent to an officer of the asbestos safety control monitor firm employing the individual.

(g) Conviction of a crime or an offense shall constitute grounds for revocation or suspension of a certification.

5:23-8.11 Asbestos safety control monitor

(a) An asbestos safety control monitor may be an individual, partnership, corporation, or other business entity organized for the purpose of enforcing and administering this subchapter.

1. Each asbestos safety control monitor shall enter into a contract for each asbestos hazard abatement project with the building owner or his authorized agent. The contract shall specify: the scope of the project with the provision that the asbestos safety control monitor shall carry out all the rules and responsibilities established by this subchapter, how the asbestos safety control monitor is to be paid for its services and the name of the employee who shall serve as the representative of the asbestos safety control monitor authorized to review and approve all documents related to the administration of this subchapter.

2. Each asbestos safety control monitor authorized by the Department shall organize its operation to effectively fulfill the requirements of this subchapter. Each person assigned to perform the duties of an asbestos safety technician shall be certified as an asbestos safety technician by the Department.

3. The asbestos safety control monitor shall report to the Department through its designee and shall be subject to the orders and directives of the Department in matters relating to the enforcement of this subchapter.

(b) The Department shall authorize the establishment of an asbestos safety control monitor:

1. No person shall undertake the services described in this section or enter into any contract pursuant to this subchapter without first receiving the authorization of the Department.

i. Except that applicants who have received notice from the Department that their application is complete and suitable for processing may begin to promote or otherwise make their anticipated availability known provided that the applicant discloses in writing at the

time of undertaking any such activity that he has not yet been authorized by the Department.

2. Applicants for authorization as an asbestos safety control monitor shall submit an application on the prescribed form, with the required fee pursuant to (h) below, and any additional information the Department may require.

3. Following a determination by the Department that an application is complete and suitable for processing, the Department shall review and evaluate the information contained in the application and such other information as the Department shall deem necessary to enable it to make an accurate and informed determination of approval or disapproval. Within 30 days following the receipt of a completed application, the Department shall make its determination as to whether authorization as an asbestos safety control monitor shall be granted or denied, and shall notify the applicant. In the event of denial, the Department shall provide the applicant with a written explanation of the reasons for denial.

4. The application for authorization shall contain information relating to:

i. The financial integrity of the applicant as evidenced by a reviewed financial statement prepared by an independent certified public accountant;

ii. The qualifications of the management and technical personnel of the applicant, including a statement that all technical personnel who are to be assigned as asbestos safety technicians are certified by the Department;

iii. The type of analysis done (for example, NIOSH 7400) and the laboratory(ies) that do the procedures. If the applicant does its own lab analysis, it shall list the type of equipment used and the personnel using it, with their qualifications. All laboratories shall be accredited by the National Institute of Standards and Technology (NIST). The laboratory shall be a current proficient participant in the American Industrial Hygiene Association Proficiency Analytical Testing Program or any other recognized equivalent program for PCM. All laboratory analysis shall be performed in accordance with N.J.A.C. 5:23-8.21;

iv. The names of all technical personnel, including asbestos safety technicians with their certification numbers, and their range of salaries and other compensation;

v. The policies and procedures of the applicant for the hiring, training, education, and supervision of all technical personnel involved in the supervision and performance of duties pursuant to this subchapter;

vi. The prior experience of the applicant in performing similar or related functions;

vii. The capability of the applicant to review plans and specifications and to inspect asbestos abatement work to ensure that the completed work is in compliance with this subchapter;

viii. A statement that the applicant is not affiliated with, or influenced or controlled by any producer, manufacturer, supplier or vendor of products, supplies or equipment used in asbestos hazard abatement or by any abatement contractor;

ix. Proof of insurance as required pursuant to N.J.A.C. 5:23-8.11(c)3v; and

x. The name and address of an agent upon whom service upon the business organization may be made within the State of New Jersey. The agent shall be either an individual who is a resident of the State of New Jersey or a corporation maintaining an office within the State of New Jersey. The agent listed shall be the same as the agent on record with the New Jersey Department of Treasury.

5. Authorization shall be valid for a period of one year. The expiration dates shall be March 31 or September 30.

6. Applications for reauthorization shall be filed with the Department at least 60 days prior to the scheduled expiration for the current authorization from the Department. The asbestos safety control monitor shall make current the information previously submitted to the Department. The asbestos safety control monitor shall provide additional information as the Department may request. The application shall be accompanied by the fee established pursuant to (h) below. The Department may conduct such additional investigations of the applicant as it may deem necessary.

i. Within 30 days following receipt by the Department of an application for reauthorization, the Department shall make its determination as to whether the asbestos safety control monitor continues to meet the requirements of the regulations. In the event of disapproval, the Department shall provide the asbestos safety control monitor with a written explanation of the reasons for such disapproval. Each reauthorization shall expire one year from the date of the current authorization from the Department.

ii. The Department, on its own motion or at the request of any asbestos safety control monitor, may grant a temporary reauthorization of such agency for a period not to exceed 60 days.

7. It shall be the responsibility of the applicant to notify the Department of any change in the identity, mailing address, office or residence address or phone number of the applicant or representative. Any change shall be reported to the Department in writing within 30 days of the change.

(c) Records shall be maintained by the asbestos safety control monitor of all inspections, applications, approved

plans, air tests, log sheets and any other information that may be required by the enforcing agency or the department. These records shall be open to department audit and shall not be destroyed or removed from the offices of the asbestos safety control monitor without the permission of the department.

1. The asbestos safety control monitor shall provide the Department with written notification of any change of licensed personnel and any change of principals within 30 days.

2. The enforcing agency shall be the sole agent for the collection of all fees and penalties from the property owner, the designated agent or anyone in their employ.

3. Each asbestos safety control monitor shall have the following responsibilities:

i. To maintain an adequate number of certified staff to enforce the Asbestos Hazard Abatement Subcode for the projects contracted;

ii. To review and approve the plans and specifications, release them in writing, and forward them to the enforcing agency for issuance of a permit;

iii. To be subject to the department's rulings, directives and orders;

iv. To provide adequate supervision to its employees to ensure conformance to the provisions of this subchapter;

v. To carry liability insurance equal to that required of private enforcing agencies pursuant to N.J.A.C. 5:23-4.14(e)5;

vi. To process and return all documents, plans, specifications, and applications within the time frame specified by this subchapter.

vii. To provide technical assistance to the building owner in the preparation of a construction permit application;

viii. To provide written notification of the start of a project to the department a minimum of 10 days prior to the start of the project and telephone notification to the department by the asbestos safety technician on the first day of the start of the project;

ix. To perform all required inspections and reinspections pursuant to this subchapter;

x. To perform all tests required by this subchapter;

xi. To give testimony at a hearing or in court, as required by the construction official or the Department;

xii. To prepare all reports required by this subchapter or as may be required by the Department from time to time;

xiii. To meet its obligations under its contract with the building owner;

xiv. To issue and maintain documentation and certification, including, but not limited to, plan release, permit application and permit issued by the enforcing agency (if a firm is the duly authorized agent of the owner), variations submitted, written notice to proceed, written notice to remove barriers, certificate of completion, violation notices, daily logs, inspection records, observations, calculations, backup records, air monitoring results and a separate listing of any contractor deficiencies observed during the course of the work;

xv. To ensure the attendance of all technical and supervisory employees at required training and orientation programs; and

xvi. Upon completion of an asbestos hazard abatement project, the asbestos safety control monitor shall submit a final comprehensive report consisting of, but not limited to, plan release, permit application and permit issued by the enforcing agency (if a firm is the duly authorized agent of the owner), variations submitted, written notice to proceed, written notice to remove barriers, certificate of completion, violation notices, daily logs, inspection records, observations, calculations, backup records, air monitoring results and a separate listing of any contractor deficiencies observed during the course of the work. The final report shall be submitted to the building owner within 60 days of issuance of the Certificate of Completion. A copy of the final report shall be made available to the Department within 10 days of written request.

(d) Whenever an asbestos safety control monitor enters into a contract to provide asbestos safety control monitoring services in connection with an asbestos hazard abatement project, the asbestos safety control monitor shall not have any economic relationship with another party involved with the project. Laboratory services needed by the asbestos safety control monitor shall not be provided by any laboratory that has any economic relationship with the abatement contractor.

1. The asbestos safety control monitor may perform air monitoring required pursuant to the related OSHA requirements only through a contract with the building owner.

(e) Penalty, suspension and revocation procedures are as follows:

1. In addition to any other remedies provided by the Uniform Construction Code regulations, N.J.A.C. 5:23, the Department may suspend or revoke its authorization of any asbestos safety control monitor or assess a civil penalty, in accordance with N.J.A.C. 5:23-2.31, if the Department determines that the authorization or reauthorization was based on the submission of fraudulent or materially inaccurate information, or that the authorization or reauthorization was issued in violation of this subchapter, or that a change of facts or circumstances makes it unlikely that the asbestos safety control monitor can continue to discharge its responsibilities under this subchapter in a

satisfactory manner, or any provision of this subchapter has been violated, or that the asbestos safety control monitor has been negligent or has engaged in misconduct in the performance of any of its duties, or that the asbestos safety control monitor has failed to maintain a minimally acceptable level of competence.

i. During the period of suspension, the affected asbestos safety control monitor shall not be authorized to discharge any of its responsibilities under this subchapter unless otherwise specified in the notice of suspension or order of the Department.

2. The Department shall notify such asbestos safety control monitor of its suspension or revocation in writing. Copies of the notice of suspension shall be forwarded by the Department to all building owners with implementing contracts with the affected asbestos safety control monitor. The suspension shall be effective on the date the affected asbestos safety control monitor receives the notice of suspension or on any later date that may be designated in the notice of suspension.

3. The Department may revoke its approval of any asbestos safety control monitor without previously suspending its authorization. In such event, the Department shall send a written notice to the affected asbestos safety control monitor of its intention to consider revocation of its authorization stating the grounds therefore. The notice shall be sent to the affected asbestos safety control monitor and to all building owners with implementing contracts with the affected asbestos safety control monitor.

i. No such asbestos safety control monitor shall reapply for approval as an asbestos safety control monitor until the expiration of one year from the date of the order of revocation.

4. Upon the suspension or revocation of approval of an asbestos safety control monitor, any building owner with an implementing contract with the asbestos safety control monitor shall have the right to terminate its contract with such asbestos safety control monitor and be free of all obligations thereunder and to enter into an implementing contract with any other asbestos safety control monitor.

(f) In addition or as an alternative to revoking or suspending an authorization, or assessing a penalty, the department may issue a letter of warning, reprimand, or censure with regard to any conduct which, in the judgment of the department, warrants such a response. Such letter shall be made part of the authorization file of the firm.

(g) Conviction of a crime or an offense shall constitute grounds for revocation or suspension of an authorization.

(h) Authorization and reauthorization fees are as follows:

1. Authorization fee: Any asbestos safety control monitor submitting an application to the Department under this subchapter for approval as an asbestos safety control

monitor shall pay a fee of \$4,200 for the authorization which is sought.

2. Once authorized, the asbestos safety control monitor shall pay a fee of six percent of the gross revenue earned solely from asbestos safety control monitoring activities. This fee shall be payable quarterly, accompanied by a completed form prescribed by the Department, and is due within one month of the close of the indicated quarter according to the following schedule: First quarter—January 1 to March 31; second quarter—April 1 to June 30; third quarter—July 1 to September 30; and, fourth quarter—October 1 to December 31. The monies obtained from the preparation of plans and specifications and payments for laboratory services shall not be included in the calculation of this quarterly fee.

3. Reauthorization fee: Any asbestos safety control monitor submitting an application to the Department under this subchapter for reapproval as an asbestos safety control monitor shall pay a fee of \$2,100.

5:23-8.12 Application of asbestos

(a) This section shall apply to the application of asbestos, except as provided in (a)1 below.

1. This section shall not apply to asbestos materials which are applied in solid, non-friable form, such as floor tiles or cement pipe.

(b) The requirements of this section are set forth in order to prevent the contamination of the building environment which may be caused by improperly performed asbestos application work.

1. No person may cause or allow surface coating by spraying on any building structure, facility, installation or internal or external portion thereof, using asbestos or any friable material containing in excess of 0.25 percent by weight of asbestos. See N.J.A.C. 7:27-17.

2. The direct application of asbestos material during construction or renovation of structures, facilities or installations by means such as troweling by hand shall be prohibited.

3. The only permissible applications of asbestos-containing materials during construction or renovation of structures, facilities or installations shall be those in which the asbestos is securely bound into a solid matrix before the application is performed, such as floor tiles in which asbestos is a minor component.

5:23-12.7 Licensing

(a) All elevator subcode officials and inspectors shall be licensed according to N.J.A.C. 5:23-5.5.

(b) Any person aggrieved by any decision of the Department under these rules shall be entitled to a hearing pursuant to N.J.A.C. 5:23-5.2.

(c) A licensed elevator subcode official or inspector shall be responsible for completing any continuing educational requirements imposed by the Department pursuant to this chapter prior to license renewal pursuant to N.J.A.C. 5:23-5.

5:23-12.8 Alterations, minor work, ordinary elevator maintenance

(a) For the purposes of this subchapter, alteration of an elevator device means any change to equipment other than minor work as provided in (b) below and ordinary maintenance, as defined in N.J.A.C. 5:23-2.7(b)6. Alteration of an elevator device shall comply with the applicable requirements of Section 8.7 and Appendix L of the most recent edition of ASME A17.1, referenced in the building subcode, or with the applicable requirements of the most recent edition of ASME A18.1, or ASME A90.1 referenced in the building subcode.

(b) For the purposes of this subchapter, minor work on an elevator device shall mean work as outlined below and meeting the applicable sections and Appendix L of ASME A17.1, adopted by reference in the building subcode:

1. Alteration to hoistway enclosures—Sections 8.7.2.1.1 and 8.7.3.1 only as it pertains to Section 8.7.2.1.1;

2. Alteration to construction at top of hoistways—Section 8.7.2.1.3. Exception: Section 5.2.1.4.4 for Limited-Use/Limited-Application elevators (LULA));

3. Alteration at the bottom of hoistways—Section 8.7.2.1.4. Exception: Section 5.2.1.4.2 for Limited-Use/Limited-Application elevators (LULA);

4. Alteration to hoistways that affect control of smoke and hot gases—Section 8.7.2.1.5;

5. Construction and alteration of machine room and machinery spaces—Sections 8.7.2.7 and 8.7.3.7;

6. Installation and alteration of electrical equipment, wiring, pipes and ducts in hoistway and machine rooms—Sections 8.7.2.8 and 8.7.3.8;

7. Replacement of a controller, without any change in the type of operation or control—N.J.A.C. 5:23-6.8(i)4;

8. Alteration to pits—Sections 8.7.2.2 and 8.7.3.2;

9. Alteration to bottom and top of car and counterweight clearances and runbys—Sections 8.7.2.4 and 8.7.3.4. Exception: Sections 5.2.1.4.2 and 5.2.1.4.4 for Limited-Use/Limited-Application elevators (LULA);
